Wilson Carries Flag in Demonstration at Capital.

30,000 PERSONS IN LINE 100 per cent patriotism.

Members of Both Houses of Congres and Many Others Honor Drafted Men-Wilson Says He Would Like to Go to the Front.

Washington. Sept. 5.-With the pres Ident of the United States, members of both houses of congress, high officials and diplomats participating, the national capital paid a farewell tribute to her sons who soon will enter the National army for service overseas with the expeditionary forces.

The demonstration took the form of a parade in which the men of the selective draft army, led by President Wilson on foot, and accompanied by veterans of the blue and gray, soldiers, sailors and marines, swung up historic Pennsylvania avenue from the cap-Itol past the White House.

President Heads Column. There were 20,000 or 30,000 men in line, including the most splendid military bands in the world, the most wonderfully drilled regiments, rows on rows of field guns, machine guns, all the panoply of war, with the president at the head of the column and the officers of the cabinet and about every big personality in our national government somewhere along the line.

Wilson Carries Flag. President Wilson - straw-batted. white-trousered and blue-coatedwalked amid his top-hatted. frocksuited cabineteers. He carried a small flag and bowed to the cheers.

Uncle Joe Cannon marched with Champ Clark. Confederate veterans. Union veterans and Spanish war veterans contributed their part to the Fourth-of-July effect.

There were floats with Columbia and Uncle Sam, school children, Boy Scouts and Girl Scouts.

Generals there were beyond counting, and naval officers-all turning out in honor of the selected men. Senator La Follette did not march;

WILL BAR PACIFISTS CITY COUNCIL OF CHICAGO PRO-HIBITS PEACE MEETINGS.

Vote on Resolution Regarded as Stinging Rebuke to Mayor Thompson-6,000 Troops to Guard City.

Chicago, Sept. 5 .- The city council went on record, 42 to 6, in favor of

By that vote the council passed a resolution of Alderman John Toman praising Governor Lowden for stopping the convention of the People's Council of America for Democracy and Terms of Peace, and added an amendment calling on city and county officials to do likewise in the future.

The action was taken in committee of the whole and then received by the council sitting as a regular body and referred to the next meeting for approval.

The vote is regarded by observers as a stinging rebuke to the mayor for his anti-war statements, and especially his action in countermanding the orders of Governor Lowden Saturday and telling the pacifists to go ahead and hold their convention. Adoption of the resolution and the amendment required four hours of stormy debate. Nothing else was considered. No attempt was made to drive the mayor from office and no explanation was made why the efforts to oust him were not made as planned. The mayor throughout the session

was conciliatory in tone, though fighting every move of the pro-war forces. The next time pacifists, German sympathizers or trouble-makers of any kind come to Chicago relying on "Big Bill" to protect them at least temporarily, they will find that Illinois has profited by experience and no

longer has to walt for state troops to arrive from Springfield before traitorous meetings are brought to an end. Six thousand reserve militia, rifles loaded, bayonets fixed, will uphold the

honor of the state. Governor Lowden, when interviewed, said: "The law will be enforced. I said that before-I repeat it with emphasis. The troops are here to see

that it is enforced. What more is there to say?" Governor Lowden and Adjutant General Dickson conferred on the details

of the program for cleansing Chicago of treason.

THE PRINCE OF SEYRE PLOTS JOHN'S DOWNFALL THROUGH FASCINATING WOMEN, AND INTRO-DUCES HIM TO MADAME CALAVERA, FAsome men. **MOUS RUSSIAN DANCER**

Synopsia.-Louise Maurel, famous actress, was making a motor tour of the English Cumberland district, when her car broke down late one evening and she was forced to accept the overnight hospitality of Stephen and John Strangewey, recluse woman haters living in a splendid old mansion on a great farm. Before she left next day she had captivated John and he had fascinated her. Three months later John, on a sudden impulse, went to London and looked up Louise. She was delighted to see him and introduced him to her friends of the artistic and dramatic world, among them Sophy, a light-hearted little actress, and Graillot, a playwright of remarkable mental gifts. The prince of Seyre. a wealthy French noble, whom he already knew, became his guide, and he entered the gay bohemian life of the city. Graillot warned Louise not to toy with her two ardent lovers, John and the prince, and told her the prince was dangerous for John.

Just a Little Story---**A True Story**

I Two men met the other day after a separation of many years. One remarked the prosperous appearance of the other as the "other" noted the seedy appearance of his friend.

I, They exchanged experiences. The prosperous one claimed his prosperity due to early thrift and opening a savings account when he was a young man. His savings had started him in business and the habits acquired had guided him in later years.

C. The "other" had not saved. He had put off from day to day his first deposit and because he had not saved, had been forced to watch opportunity pass him by. His watch word was "tomorrow" and tomorrow never comes.

Careless packing of poor quality fruit has always been one of the chief crusses of market instability and un-satisfactory prices to the growers. This year the whole apple industry is co-operating to remove this market handicap. There has never been an apple year such as this one is going to be. Growers have Lever been able to get together and engage and finance a national educational campaign mong consumers to increase apple consumption. This year the situation makes it necessary for the United States government, through the food administration, to conduct a consum-er's campaign of publicity on behalf of the apple. This campaign will begin while the crop is being sent to market, and will probably continue until the last apple is eaten up late next spring. while the coop is being solut to influence with probably continue until the last apple is eaten up late next spring. "That's true," said Mrs. Glowworm, "you haven't our light, have you? And we haven't your wings, so after all, it is pretty fair I do admit."

"I am so glad you do," said Mr. Glowworm. "And you see, too, how much happier you should be about the name because you deserve it."

"What do you mean?" asked Mrs. Glowworm.

"You are called Glowworm because you glow and give light-whereas I am just called it because I belong to the same family. If there is any fear about either of us ever being called plain worms-it is I who should be doing the worrying. But I am not, no indeed! There is too much else to do in our Woodland and Marshland homes. There is fun to be had, and there is fun to give others. No one ever enjoys having us grumble-especially when we've nothing to grumble about."

"I'm so glad you explained it to me," said Mrs. Glowworm, shining brightly. "I will certainly never be so foolish again. And now let's go off to Fairyland, for I heard there was to be a ball there tonight."

"Splendid." said Mr. Glowworm. "You light the way. I'll fly. And we'll call the other Glowworms together for the ball."

The Glowworms came hopping and flying along and at last they all reached Fairyland. The fairies were dancing and singing, and a few little stars were peeping out bravely in the sky.

"We've come to give light for your ball," said Mrs. Glowworm.

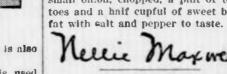

"That is glorious," said the fairles. And then they called up to the stars: "Go to sleep, little stars, for you wanted to rest tonight and we begged you to come. But now the Glowworms will give us light."

And how much happier Mrs. Glowworm was at the Fairyland-Glowworm ball than she was staying home worrying and grumbling.

Good Yields of Wheat, Splendid Production of Pork, Beef, Mutton and Wool.

The latest reports give an assurance of good grain crops throughout most of Western Canada, where the wheat, oats and barley are now being harvested, about ten days earlier than last year. Manitoba, Saskatchewan and Alberta are all "doing their bit" in a noble way towards furnishing food for the alles.

While the total yield of wheat will not be as heavy as in 1915, there are indications that it will be an average crop in most of the districts. A letter received at the St. Paul office of the Canadian Government, from a farmer near Delia, Alberta, says harvest in that district is one month earlier than last year. His wheat crop is estimated at 35 bushels per acre, while some of his neighbors will have more. The average in the district will be about 30 bushels per acre. Now, with the price of wheat in the neighborhood of \$2 per bushel, it is safe to say that there will be very few farmers but will be able to bank from forty to fifty dollars per acre after paying all expenses of seeding, harvesting and threshing, as well as taxes. The price of land in this district is from \$25 to \$30 per acre. What may be said of this district will apply to almost any other in Manitoba, Saskatchewan or Alberta. Many farmers have gone to Western Canada from the United States in the past three or

Feed the Fighters! Win the War!! Harvest the Crops - Save the Yields

On the battle fields of France and Flanders, the United States boys and the Canadian boys are fighting side by side to win for the World the freedom that Prus-sianism would destroy. While doing this they must be fed and every ounce of muscle that can be requisitioned must go into use to save this year's crop. A short harvest period requires the combined forces of the two countries in team work, such as the soldier boys in France and Flanders are demonstrating.

The Combined Fighters in France and Flanders and the Combined Harvesters in America WILL Bring the Allied Victory Nearer.

A reciprocal arrangement for the use of farm workers has been perfected between the Depart-ment of the Interior of Canada and the Departments of Labor and Agriculture of the United States, under which it is proposed to permit the harvesters that are now engaged in the wheat fields of Okla-homa, Kansas, Jowa, North Dakota, South Dakota, Nebraska. Minnesota and Wisconsin to move over into Canada, with the privilege of later returning to the United States, when the crops in the United States have been conserved, and help to save the enormous crops in Canada which by that time will be ready for harvesting.
