Colds, Coughs, Catarrh. A trinity of evils, closely allied, that afflict most people, and which followed one on the other, in the order named, until the last one is spread through the system, leading to many evils. But their course can be checked. PERUNA CONQUERS. It is of great value when used promptly for a cold, usually checking it and overcoming it in a few days.

Carter's Little Liver Pills. You Cannot be Constipated and Happy. A Remedy That Makes Life Worth Living. Genuine bears signature. THE PERUNA COMPANY, COLUMBUS, OHIO.

CARTER'S IRON PILLS. ABSENCE of Iron in the Blood is the reason for many colorless faces but CARTER'S IRON PILLS will greatly help most pale-faced people.

Chinese Like Automobiles. American automobiles are rapidly growing popular in China. Their use is limited not by the desire of the wealthy natives to possess them, but by the total lack of roads outside of a few city districts.

Human Rights. "What we want is freedom of speech!" shouted the man on a soap box. "Yes!" answered the woman who was leaning out of the window.

Easy to Rid Home of Rats and Mice. There is no need of suffering from the depredations of rats and mice now that Stearns' Paste is readily obtainable at nearly every store.

When all is lost save honor some men get on their dignity. Over 3,000 Breton (France) women earn their living as sailors.

Stop That Cold At Once. CASCARA QUININE. The old family remedy—in tablets form—safe, sure, easy to take. No opiate—no supplement after effects.

Every Woman Wants Partine ANTISEPTIC POWDER. Dissolved in water for douches stops pelvic catarrh, ulceration and inflammation. Recommended by Lydia E. Pinkham Med. Co. for ten years.

OUR BOYS IN FRANCE AND HOME PROTECTION

The men on the firing line represent the pick of our American youth. One in four of our boys at home was sick, prostrated because of physical deficiency. Many times the kidneys were to blame. If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce's of the Surgical Institute, Buffalo, N. Y., says that you should drink plenty of water daily between meals.

Cumulative Expenses. "It costs three cents to send a letter." "Yes," replied the man who has been sued for breach of promise.

The Retort Cruel. Marie—That's a beautiful gown you have on. Molly—Do you know that lace is forty years old? Marie—That so? Make it yourself!

Speed. "Heard any news from the boy at the training camp?" "Yes. He writes us that he's the fastest potato peeler in his company."

Typical Optimist. A real optimist is one who keeps plugging as though the war was going to last indefinitely.

Take It for Granted. If you expect those big red apples to taste as good as they look, better not look when purchasing.

"Woman, lovely woman," seems to be proper, but "Man, lovely man," doesn't sound good to you.

Trouble likes to avoid a man who is able to keep his mouth shut.

WHAT NEIGHBORS SAY

Lavalle, Wis.—"After having a severe attack of grip last winter I was troubled with backache across my kidneys and had such aching pains in every joint in my body I thought it must be rheumatism—never had anything like it before. I am 64 years old. One day I read an article in your paper that described plainly just how I felt, so I sent to Dr. Pierce for a trial package of the Anuric Tablets. After taking them the rheumatic pains left me, and I was greatly benefited by the use of them. Whenever I think I am in need of kidney medicine I shall surely send for Anuric."—MRS. EMMETT DARRROW, P. O. Box 117.

Marshfield, Wis.—"I have used Dr. Pierce's medicines in my family for many years and found them very beneficial. I have taken Golden Medical Discovery." We have also used "Pleasant Pellets."—MRS. J. ST. THOMAS, 311 W. "A" Street—Adv.

Dvinsk is 332 miles by rail southwest of Petrograd.

"Dvinsk is an important agricultural center, enjoying an extensive trade in flax, hemp and grain. It is also a big timber market, and its flourishing industries before the war included flour mills, breweries, match and tobacco factories, tanneries, brick and tile works.

**THE STATE TRUNK HIGHWAY SYSTEM**

By F. A. Cannon, Executive Secretary Good Roads Association of Wisconsin.

At last Wisconsin is literally on the map with a state highway system. The year and a half fight of the Good Roads Association of Wisconsin is showing its first tangible results. The legislative State Trunk Highway committee and the Wisconsin Highway Commission have completed their labors after weeks spent in hearings throughout the state, and in conferences have finally determined the routes of the state highways, and the official maps have been filed with each county clerk.

Heretofore Wisconsin has been operating in the location of highways on the town and county units. The town boards laid out and built the town roads; the county boards laid out the county roads under the state aid system, and either the county or the towns determined where construction should be done.

The state trunk highway means the entrance of a new road unit of highway planning, construction, maintenance and road marking—the state.

The work of laying out the system is complete. The total mileage of road shown on the new state trunk highway map in 4989.39. The system as required under the law inter-connects every county seat and city of 5,000 population. It includes the main arteries radiating to all parts of the state; from the boundary line at Illinois to Lake Superior, from Lake Michigan to the Mississippi river, a web of roads weaves the state together.

What is the next step? Next year the state will take over the maintenance of the entire system. It will not wait until the roads are constructed. There will be a new type of maintenance—patrol maintenance, common in Europe for years and more recently in our eastern states. The 5,000 miles of roads will be divided into patrols of from six to eight miles, with a patrolman in charge. His duty will be to drag the road, see that the drainage is kept open, remove stones, see that all the chuck holes are filled and ruts smoothed out, etc. This will mean a revolution in highway maintenance in this state. In the past we have built roads and let them deteriorate to a point where partial reconstruction was necessary. In the future we will attempt to keep our roads from deteriorating, and keep them in as adequate shape as their present condition permits. And there are hundreds of miles of gravel, macadam and dirt roads in Wisconsin that can be vastly improved by consistent maintenance.

There is available for the purpose of maintenance of the trunk highways \$750,000 a year, or about \$150 per mile. There are indications that next year a portion of the construction fund available may be used for maintenance, bringing this fund to almost \$1,000,000 or \$200 per mile, and bringing immediate results to all parts of the state.

The next feature that will be apparent in 1918 is the road marking. The state will adopt a standard road sign, erect these signs on the state trunk highways, number the roads, and number the signs, accordingly. The state will also issue a map of the system to be sold to the public at a cost not exceeding ten cents per copy.

The final feature is construction. Under the terms of the federal road act Wisconsin will receive in 1918-19-20 approximately \$2,000,000 for highway construction. The state is required to make available an equal amount. Under the trunk highway act the counties are required to appropriate an amount equal to the state—which means \$6,000,000 in all for construction in the three-year period under the state trunk highway act. In addition, by an amendment of the state aid law one-half of the money available under that act must be spent on the trunk highways for construction, which will mean about \$1,000,000 a year more or \$9,000,000 for construction.

**TOTAL ECLIPSE OF THE SUN JUNE 8th, 1918.**

Astronomers throughout the country are preparing for the work of observing the total eclipse of the sun, which will occur June 8th, 1918, and which will be visible along a sixty mile strip extending across the United States from the southwestern corner of the state of Washington to the Pacific coast to Florida on the Atlantic.

Astronomers state that two hours fifteen minutes and twenty-one and five-tenths seconds will elapse from the time the moon first intervenes between the sun and the earth, and the sun will be totally obscured for a period of 88.7 seconds. They also state that there will not be another total eclipse of the sun visible in the United States until 1945.

An Old Man's Stomach. As we grow older and less active, and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain pepsin, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.
