"OVER THE RAINBOW"-OPERETTA.

The Plot.

Act 1. Four sisters-Anita, Bertha, Claire and Dorothy are in their play- and the appointment of a Village ed dear old terra firma. We had a room. It is a rainy afternoon, and they grow tired or books and toys. Finally all fall asleep, though Dorothy, the youngest tries hard to keep awake, hoping there will be a rainbow. As they sleep, the sun comes out; the Rainbow Queen, who in her Fairyland home "Over the Rainbow" has heard the children's conversation, hangs out the rainbow, and crossing it, comes with her Maids of Honor, to awaken the children and invite them to her home.

ACT II. In Rainbow Land, in the palace of the Queen, the Sunbeams and

Moonbeams are busy making light for use in the world. The Queen with her maid and guests, arrives, preceded by her Heralds. For the entertainment of the visitors, all the Fairies, the Winds, the Dewdrops, Flower Artists, Firefiels, Sunbeams and Moonbeams sing and drill. Finally the children feel that the was further instructed to concentration of the visitors, all the Fairies and drill. Finally the children feel that the was further instructed to concentration of the visitors, all the Fairies and drill. Finally the children feel that the was further instructed to concentration of the visitors and Moonbeams sing and drill. Finally the children feel that the was further instructed to concentration of the visitors. they must return to their home in the world. The Queen explains that no one will be werried by their absence, as Fairyland takes no heed of time, and this visit has not consumed more than a moment of time as measured by clock. She warms them never to tell any grown-up folks of their visit, as it would probably be doubted and called a dream. After singing they bid each other farewell and the children return to their home "Over the Rainbow."

'Tis hard to break the tender cord When love has bound the heart, 'Tis hard, so hard, to speak the words: "We must forever part".

Dearest loved one we must lay thee In the peaceful grave's embrace, But thy memory will be cherished Till we see thy Heavenly face.

Peaceful be thy silent slumber, Peaceful in thy grave so low; Thou no more will join our number, Thou no more our sorrows know. When the day of life is fled,

And in Heaven with joy to greet thee, Where no farewell tears are shed Call not back the dear departed, Anchored safe where storms are

WAGE BOARD GIVES **RAIL MEN INCREASE**

Allowances, Based on Living Cost. Benefit 1,939,399.

UP TO M'ADOO FOR APPROVAL

Commission Submits Report to the Director General, Dealing With Various Phases of the Railroad Situation.

Washington, D. C., May 9 .- An advance in wages to 1,939,399 railroad employees, and ranging from 1 per cent to the highest to 43 per cent to the lowest paid, aggregating \$300,000,-000 is provided for in the report to Director General McAdoo by the railroad wage commission.

Mr. McAdoo is expected to adopt only part of the recommendations and probably will make a number of different alignments in deciding what wage increases shall be granted.

In general, the director general advocates higher pay for most classes of workmen to enable them to meet increased living costs, but he has been represented as favoring proportionately larger increases for some classes than for others now making the same pay. He also is strongly opposed to granting wage increases which might disarrange the general scheme of pay existing throughout other industries.

Leaders to Protest. The leaders of the four principal railway brotherhoods found on examining the report that they had been recommended for less than half per month and a telegraph operator the increases they had asked of the \$90 per month? railroad managements before govern-

average workdam presumably eight hours, but decided that in the war emergency the nation could not afford to put into effect a reform that would slow down the war machinery and discriminate against other classes of workers being called upon for great sacrifices.

Rates of overtime pay are not disturbed and the increases are adjusted to the mileage basis of compensation of some employees, a road engineer, for example, receiving an increase of 1114 per cent in his mileage rate. A scheme of applying the increases to piece work and overtime therefor is also provided.

An important feature of the report was the recommendation that where the same service is rendered the pay shall be the same, without discrimination as to sex or race.

Report of Commission.

The report of the commission, consisting of Franklin K. Lane, secretary of the interior; Charles C. McChord, J. Harry Covington, and William R. Willcox, is an exhaustive one. In part the report says:

"The requests which have come to than ever to work for it: us for wage increases, would, if fully granted, involve an additional outlay in wages of somewhat over \$1,000,000, 000 per year in excess of the wage fund of last year, which exceeded \$2,000, 000,000. Some asked for an increase of 100 per cent in their pay, and from this they graduated downward to 10 per cent. None were satisfied with their present wages.

"To classify the many hundreds of employments in which the 2,000,000 railroad workers engage would be a task calling for more time, skill, insight, and knowledge than we possess. At the outset, it was seen that there were grave inequalities in the rates of wages paid. But who could say what relationship each class of employees should bear to the other? Abstractly, why should an engineer receive \$170

HAPPENINGS OF THE WEEK IN WISCONSIN

New Lisbon-Residents of this city witnessed an impressive sight when several flat cars filled with blazing lumber pulled into the city at a sixtynile galt. The trainmen discovered the fire after leaving Necedab, abandoned the rest of the train and rushed with the blazing pile to New Lisbon for water. The fire department saved all but one of the cars.

Appleton-First place in the Lawrence contest for oratorical and exemporaneous speaking at Peabody Hall was won by Louis Katelanoss of Beloit and Morgan Schaefer of Wausau, respectively. Schaefer spoke on Why American Democracy Must Win," and Katelanoss' subject was "The Wandering Jew."

Appleton-H. C. Hansen, head miller at the Willy flour mill, this city, was killed on the Kimberly road in alighting from a rapidly moving automobile. His hat blew off and he followed it with too much haste. He was 60 years old and is survived by a wife and nine children.

La Crosse-Theodore Hauge, missing and wanted in connection with the murder of Mrs. Cora Miller, wealthy West Salem widow, last July, stands first on the county's list of alternates for the next draft increment. A charge of desertion will be laid against him in case he fails to appear when called.

Madison-The seed inspection division of the Wisconsia Department of Agriculture at the state capitol reports a very unusual deterioration of seed corn throughout the state. One lot testing 94 in January tested 80 in February, and has now dropped to 52. Many instances of this kind have occurred. Farmers are warned to test all seed whether or not it has been tested before. If it germinates between 65 and 80, it is best to use the seed as it is difficult to get anything better. It is very important, however, to plant two or three extra kernels per hill, planting five and six instead of three and four as usual. It is also advisable to thoroughly mix all of the seed so that poor kernels may not be planted in bunches and thus cause a loss of several hills in succession.

Madison-A production of more than 80,000,000 pounds of sugar for 1918 is practically assured Wisconsin, according to contracts already made with the four sugar beet refineries of the state and the Menominee factory in Michigan. The acreage already promised is about 30,000, as compared with 21,000 acres last year, the best record thus far set for the state.

No Pleasure in Idleness.

Idleness is never a source of pleasure. The nation puts folks on enforced idleness as a punishment. A well-earned rest is a boon to any busy man, but that's far from idleness. The idler is just a spender, a parasite, a candidate for social ostracism and the poorhouse. He soon loses the power for real enjoyment. He's just a burden to himself and the folks around him. He's always hunting happiness, but is too sluggish to use the means that bring it. His is the passive existence of indolence, stagnation and deadness. The very faculties capable of giving pleasure are obsolescent. It's no use to dream about happiness unless you are willing to do a little to help bring it.

It's Poor Economy to **Endure a Bad Back**

N these days of rising prices, we need every ounce of strength and the ability to do a full day's work every day. The man or woman with weak kidneys is half crippled. Sore, aching kidneys; lame, stiff back, headache, dizzy spells and a dull, tired feeling and urinary disorders are daily sources of distress. You can't afford to neglect kidney weakness and make it easy for gravel, dropsy or Bright's disease to take you. Get a box of Doan's Kidney Pills today. They have helped thousands. They should help you.

Personal Reports of Real Cases

A WISCONSIN CASE.

Mrs. A. Lindestrom, 901 Menekaune Ave., Marinette, Wis., "About three years ago I suffered from backache and was in misery from head to foot. The worst pain seemed to be in the small of my back. My system was full of uric acid and my kidneys were badly disordered. I got no relief until I began to use Doan's Kidney Pills. They cured me and I am glad to say I haven't had to use a kidney medi-cine since. My back is now as

strong and well as can be and my

kidneys act fine."

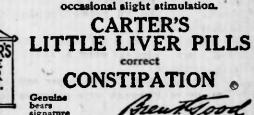

ANOTHER WISCONSIN CASE.

Emery Newkirk, State St., Mauston, Wis., says: "I know Doan's Kidney Pills are good. My kidneys were weak and I had pains through my loins. The kid-ney secretions contained sedi-ment, too. I have been better in every way since I used Doan's Kidney Pills. The sharp pains

have left me and my kidneys are normal." Ten years later Mr. Newkirk said: "Doan's Kidney Pills gave me a lasting cure. I am pleased to confirm the other recommen-dations I have given them."

The Justly Famous Perfection Milking Machine

WHY FARMERS BUY MILKING MACHINES

Why do men change methods in business? Is it not to make a gain of some kind? Most assuredly. The gain may be in making work easier, cutting down the hours of labor, taking out of work its hardships, adopting better work methods, but always having in mind the adding to the

Farmers buy milkers for one and all of these reasons. Every farmer who reads and keeps abreast of the times, knows that our present methods of farming and dairying are exceedingly wasteful in time lost, land fertility lost, crop profits lost through small returns per acre, failure to get the greatest returns possible from help employed, etc.

Therefore, the coming of the milking machine is a big thing for the farmer. It has as great a meaning to him, if he will but study its possibilities, as did the change he made years ago in cutting his grain with a reaper and binder instead of a scythe and cradle. And one of the best things about it is that it benefits alike both the big and the little farmer. Each one can profit in proportion to

While the saving of drudgery and disagreeable work is a fine thing—while the time saved and independence from the farm help trouble is worth all the milking machine costs to put in—that is not the biggest gain the wide-awake farmer makes.

The biggest thing of all is the possibilities the milking machine puts in every farmer's hands in the way of largely increasing his cash returns per acre by a gradual adoption of intensive farming methods such as will enable him to double or treble the returns he gets from each acre.

While farmers generally have done well, still every successful one knows he has not obtained anywhere near what he could get were he able to use his land, time and labor to the best advantage. Owning a dependable, properly constructed milking machine fully and satisfactorily answers this question which you have asked yourself more times than one.

But mind you, just owning any old kind of a so-called milker, won't do. Not by a whole lot.

THE ONLY MILKING MACHINE THAT CAN POSSIBLY BE PERMANENTLY SUCCESSFUL

Sinking of Allies' Ships by Divers Shown to Have Dropped, While Destruction of Pirates Has Grown Steadily.

Paris, May 15,-The effectiveness of the German submarine campaign is declining. The German government is aware of this fact, declared Georges Leygues, minister of marine, before the naval committee of the chamber of deputies, but has made the greatest efforts to conceal it. He said that the situation was most favorable and that the sinkings of submarines in the first three months of 1918 was greater than the number built by the enemy.

Minister Leygues referred to the statement made in the reichstag on April 17 by Vice Admiral von Capelle, German minister of marine, in which he said 600,000 tons of allies' shipping were sunk monthly. This figure, the minister said, was incorrect.

It was reached and passed in April, May and June of 1917. In July it de-400,000 and since has diminished con-

M. Leygues said that in February, March and April 3,723 French steam ers and 788 French sailing vessels passed through the danger zone where a few months ago losses by torpedoing were very heavy. Not a single ship was sunk.

On the other hand, he said, the number of submarines destroyed had increased progressively since January in such proportion that the effectiveness of enemy squadrons cannot be maintained at the minimum required by the regulations. The number of "U" boats destroyed in January, February and March was far greater in each month than the number constructand April the number of submarines destroyed was three less than the total destroyed in the previous three months.

These results, the minister declared, were due to the methodical character of the war against submarines: to the Gibson, connected with the British war mating the officers and crews of naval and aerial squadrons and to the intensification of the use of old methods and the employment of new ones.

COMMONS VOTES CONFIDENCE AFTER PREMIER REFUTES CHARGES.

Sustained by a Vote of 293 to 106-Declares Army Figures Are True.

London, May 11 .- Ex-Premier Asquith's motion for the appointment of a select committee to investigate the charges made by General Maurice against Premier Lloyd George was rejected in the house of commons on Thursday by a vote of 293 to 106. Sir Edward Carson, leader of the Irish unionists, appealed to Mr. Asquith not to proceed with his motion. Sir Edward said that if the veracity of the ministers was not believed in the house there was no longer any possibility of carrying on the government.

Mr. Lloyd George said that if the motion was carried Mr. Asquith would again be responsible for the conduct of the war.

Premier Lloyd George was cheered loudly when he arose to speak. He said he had been treated unfairly. It was the business of General Maurice to come to the cabinet and point out where the ministers had made mistakes, he declared.

Denying that the strength of the British fighting forces had been misrepresented as stated by General Maurice, Mr. Lloyd George asserted the figures which he had given were taken from official records at the war office. Since that time he had made inquiries on this point, he added, and the figures

were not inaccurate. In regard to the comparison between the enemy and the allied forces, the premier added, he was charged with misleading the public, but all the figures on which his statement was based came from General Maurice's depart-

O'Reilly thanked him, promising to use every precaution in delivering the message. The next morning he paid Carbajal's score and took the train to the interior. In his bag was Tomas Alvarado's precious volume, and in the same coach with him rode the secret

service man. In its general features Puerto Principe differed little from the other Cuban cities O'Reilly knew. It was compactly built, it was very old and it looked its centuries. Its streets were particularly narrow and crooked, having been purposely laid out in labvrinthine mazes, so the story goes, in order to fool the pirates.

As he sat in a cafe, sipping an orangeade, he heard someone speaking an atrocious Spanish, and looked up to see that another American had entered. ON GUARD

At this time of the year people feel weak, tired, listless, their blood is thin, they have lived indoors and perhaps expended all their mertal and bodily energy and they want to know how to renew their energy and stamina, overcome headaches and backaches, have clear eyes, a smooth, ruddy skin, and feel the exhibaration of real good health tingling thru their body. Good, pure, rich, red blood is the best insurance against ills of all kinds. Almost all diseases come from impure and impoverished blood. It is to be noticed in the pale or pimply face, the tired, haggard

appearance or the listless manner. Drink hot water a half hour before meals, and for a vegetable tonic there's nothing better than Dr. Pierce's Golden Medical Discovery, the old-fashioned herbal remedy, which has had such a time reputation for fifty years. It contains no alcohol or narcotics. It is made from Golden Seal root, Bloodroot, Oregon grape root, Queen's root, Black Cherry bark, extracted with gly-cerine and made into tablets and liquid. Tablets sixty cents, at most drug stores.
