INTERESTING LETTERS FROM

OUR BOYS "OVER THERE"

The following letter was received by Mr. and Mrs. Adolph Rosenkramer from their son Adolph who is with the Expeditionary Forces in France: France, Friday, May 10

Dear Mother—
Received cigarettes and candy several days ago and want to thank you all very much for same. The candy arrived in a No. 1 condition and we surely enjoyed it, I say we because everything goes fifty-fifty here. That is every box is divided. There are six fellows in my billet, so the box went six ways. The fellows want to thank you for what they term their share of it. Candy is at a premium here and the candy there was doubly welcome. The cigarettes came at the right time. A fellow smokes quite a lot here, probably more than is good for him. Cigarettes are a sort of stimulant, and when one is through with his day's work and sits down for a quiet smoke, blowing clouds of smoke into the air, he fancies seeing pictures of home in the smoke, and as a result doubles his efforts to help bring this war to a victorious close so he can go back to the loved ones in the "Home Land" as Rev. Harter terms it. Cigarettes sure are there, plentiful or not, although I imagine I will have to cut down when I get back. Everything is beautiful here, peaceful and quiet, and one cannot imagine war and its devastations so close to him. Will be in the thick of it soon, and pray God to help me go through it like a man, and as becomes an American soldier. Pearson Brown's death, I suppose was quite a shock to the folks at home, but it is where the blow falls heaviest that the sparks of patriotism show up brighter and stronger than ever before. I had a nice letter from Linda last week, she says Gus is busier than ever, and ready to leave. Haven't heard from Morrie for a long time, suppose he has his hands full. He surely needs a lot of training for the U. S. R. get quite a rigid examination for service here. Hope to see him before I leave for the front, although at present this seems impossible. Everything must be beautiful at home now. I certainly would enjoy a plunge in the lake now, or a nice spin in the Cadillac. Well there will be plenty of time for that later. I saw Ralph Petri yesterday, he was made Top Sergeant of his company. Over here there is no favoritism shown and each individual has to show his worth in team work, as we are all here for one purpose and that is to bring this war to a victorious close. Will have to close now as it is time for drill again according to the Bugler, so here goes. Love to all. Don't worry, am O. K., feeling fine.
Your loving son,
Adolph.

The following letter was received by Mrs. John Naumann of the town of Scott from her brother-in-law, Albert F. Naumann, who is with the American army somewhere in France: Dearest Sister-in-law:

I presume you will be somewhat surprised to hear from me, as it is some time since I wrote the last letter to you. Well I sure had a fine time so far for this is a beautiful place. We all are very glad that we got a chance to come over to such a beautiful country. I have often heard and read about this country, but did not expect to find it like we do every day. It sure is worth fighting for and besides we had a fine trip on the sea. There was hardly anyone seasick. I believe now that three-quarters of the world is water. But I enjoyed the trip through France more than any thing else. We feed better now than I expected. They sure have plenty of beer and wine here. The American soldiers are very welcome and popular with the French people. The French girls have a hard time trying to teach us French, but I am picking up every day and I think in a few months I will be able to talk it as well as they do, so when I get back to the States I will have something new. At first the French women seemed kind of queer, but we get along all right. Well suppose mother will be somewhat worried, but I know it will be alright after you get this letter. We won't have it as easy here as we did at Ft. Hunt, but we must remember that we are in France. I would like to write more and tell you all I know, but you know the censorship is strict, so I will have to make long letters short. But remember to write me longer letters and give my

address to Bill Schultz, and tell mother to write me a few lines. Answer soon. I remain as ever, Albert Naumann, Supply Co., 60th Artillery C. A. C. Annex Fort. Hello to all.

The following letter was received by Miss Edda Lieberman of the town of Scott last week Monday, May 27, from Richard Trapp, who is with the American forces "somewhere in France". The letter was written on May 24th, and the contents are as follows:

France, May 4th, 1918
Dear Miss Lieberman—
Received your most welcome letter and was very glad to hear from you. I am well and hope this letter will find you the same. We all arrived safely over here. It took us twelve and one-half days to make the trip across the ocean. We landed right in France. The company landed in—England. The reason why the company landed in England was because the ship which they sailed across on was too big to land in the harbor in France. I was over here for three weeks before I received your letters. I received both letters at the same time. I am back with the company again. I was awfully sorry that I didn't get a furlough to come home and visit all the folks once more before leaving for "over there." If you don't hear from me in a month or more, never give up hopes. We live in barracks over here and we get enough to eat, and it's all good to eat. In the line of fruit we can buy all kinds of it over here. The only thing that is hard to get is cigarettes. We also can buy all kinds of souvenirs, but are not allowed to send any over into the States. Otherwise I surely would send some. The ship that we sailed on was the—the second biggest ship that sailed on the ocean. The Fatherland, which the company sailed on is the biggest ship that sails on the ocean. I was sea sick for four days, got sick the very first night that we started to sail. I guess I will close for this time because we have got to be very careful what we write about on account of the conditions in France in time of war. I will close hoping you will receive this letter enjoying the best of health as it leaves me. So good bye and good luck is my wish to you. Best regards to all. I remain your friend.

PICNIC SUNDAY

A BIG AFFAIR

Although threatening weather prevailed during Sunday morning and made it appear as though rain would be the program for the day, the clouds broke before noon and transformed the day into ideal picnic weather. Shortly after dinner crowds began to wend their way in automobiles and buggies, to William Prost's grove, five miles south-west of the village where everything was in readiness for the big occasion. During the afternoon it was estimated that there were about one or two thousand people and children present. The West Bend City Band had been engaged for the afternoon and they furnished an excellent program for the enjoyment of all present. Refreshments of all kinds were furnished in abundance and we doubt if anyone went home hungry or thirsty. This affair, which is given annually by the patrons of the Kleinschay cheese factory, is getting to be the one big event of the season as was demonstrated by the large crowd of people in attendance. The committee in charge are to be complimented upon the very successful manner in which they conducted the arrangements for the picnic, which went through without a hitch.

GIVEN FAREWELL IN

TEMPERANCE HALL

Last Friday evening a large number of the lady friends of Mesdames A. L. Simon and Albert Schaefer met at the Temperance Hall to give them a farewell before their departure for new fields of habitation. The evening was delightfully spent with card playing and social good fellowship until an advanced hour when all departed for their various homes with the understanding that should the guests of honor return to our village they still hold the friendship and good-will of the entire assemblage. Mrs. A. L. Simon will leave as soon as the public school closes for De Pere, Wis., where her husband has taken the position of City Superintendent of schools. Mrs. Schaefer will leave shortly after for West Bend where her husband has purchased a business.

16 PERSONS LOST LIVES ON LINER SUNK BY U-BOAT

334 Survivors From the Carolina Are Rescued.

10 SHIPS SUNK DURING RAID

French Vessel Saved From Submarine Attack by Arrival of U. S. Destroyer—Passengers Tell Thrilling Story of Experience.

Washington, June 5.—The navy department has received a dispatch from a United States destroyer stating that at 9:30 Sunday morning he interrupted an attack by an enemy submarine on the French steamer Radoline about sixty-five miles off the Maryland coast. The destroyer also took on board two men from the Edward Baird, which was bombed and sinking.

A later report was received stating that the Radoline had arrived at an Atlantic port.

Sixteen Lives Lost.
Sixteen lives lost, ten vessels sunk, and fears for the safety of several others sums up the day's developments in the German submarine raid off the Atlantic coast.

Early reports indicated the loss of 350 passengers and members of the crew of the Carolina, but all have been accounted for save sixteen known to have been swept from a motor boat.

Statements of survivors of the Carolina landed at Lewes, Del., that their vessel was destroyed by the submarine U-37, established definitely that at least two German submarines have been operating off the Atlantic coast. Reports to the navy department show that the U-151 sank the schooners Hatte Dunn and Ednn.

Results Call Negligible.
The City of Columbus arrived at an Atlantic port with 117 persons on board, who had been listed as missing. The Grecian arrived with the missing crew of the sunken ship Jacob M. Haskell. The Governor Cobb, with 200 apprentice seamen aboard, the steamer Dorchester and the Clyde liner Huron, arrived at various ports during the day.

The total American tonnage known to have been destroyed amounts to something over 20,000 tons gross, all coastwise ships, seven of them sailing vessels. This would make the effect of the raid negligible, according to officials.

Carolina Death List, Sixteen.
Lewes, Del., June 5.—Nineteen survivors, passengers and crew, of the sunken steamer Carolina, were landed here and brought a harrowing tale of the sea, the news of the remarkable rescue of a girl while they drifted helplessly on the ocean during a severe thunderstorm Sunday night. The girl was picked up while clinging to the bodies of two dead men increased in life preservers.

Ten boats left the Carolina before she was sunk by the German submarine U-37, all passed through the same storm, and the survivors here feared that all were lost. They expressed great joy when informed that most of the Carolina's company had been saved.

One Survivor Detained.
The 19 persons landed here were brought in by a British vessel that picked them up more than twenty-five miles off the Delaware capes. They were taken in charge by the naval authorities and cared for at the station near Cape Henlopen.

The story of the survivors did not become public until they were taken to the railroad station and left for New York. One of their number, however, was detained. He is a German member of the crew and will be held pending an investigation.

Warned by Wireless.
According to the survivors the Carolina was warned late Sunday afternoon by wireless to look out for submarines. The steamer was advised that a three-masted schooner had just been sunk and was cautioned not to show lights. At six o'clock Sunday evening a submarine appeared above the surface close to the Carolina. She was about 350 feet long, survivors said, and later was identified as the U-37.

"The submarine signaled something which our captain could not make out," said one of the survivors, "and then the U-boat raised the German flag. We were ordered to heave to and the captain, fearing that the submarine would shell the steamer if he did not obey the order, signaled the engineer to reverse the engines and stop."

"A German officer with an armed guard came alongside and gave orders to our captain to lower all boats and leave the ship in 20 minutes."

Shelled Ship Seven Times.
"Ten boats were lowered and everybody got in. There was little or no confusion. All the time the submarine lay as close as possible, members of her crew standing on her deck watching us or busying themselves about the boat."

"When the last boat was clear of the ship again the Germans left the Carolina and in a few minutes the submarine shelled her seven times. Then she burst into flames. Whether the Germans set her on fire or whether

er the shelling had caused fire to break out I do not know.

"It was a beautiful Sunday evening as we drifted, no one knew where. The sun began to set as the Carolina slowly went down. Then it got dark and a feeling of fear overcame many of us but we hoped for the best."

"After we had drifted for I do not know how long there were faint flashes of light on the horizon, and later when the puffy wind began to strengthen we instinctively knew there was trouble ahead."

Boats Become Separated.
"The storm came; quicker than we expected it. The wind blew like a gale and kicked up a nasty sea. The boats pitched and soon became separated and we, who were in a motor launch, seemed to be alone in the storm. Rougher and rougher became the water and the boat rolled and pitched. Finally she capsized and all of the 35 in her were thrown into the sea. She was righted and capsized again while we clung to her. This occurred several times. The storm passed and the sea began to calm. It was pitch dark."

"Finally we kept the launch righted, but she was full of water."

Sixteen Lost in Storm.
"We kept bailing all night until finally all those who still clung to the sides of the motorboat were able to get in. When the last was helped over the side we found that there were but 19 of us. Sixteen had gone."

After a while an object was seen in the water. There was no way to reach it, as the launch had lost her gasoline and oars. The launch, however, drifted close, and the survivors were startled to discover a girl alive clinging to the bodies of two drowned men. The launch got near enough to her to effect her rescue, and she proved to be Elona Donato Virola of Porto Rico. She is one of the two women landed.

Tank Steamer Towed to Port.
Washington, June 5.—The tank steamer Herbert L. Pratt, sunk by a German submarine off the Delaware capes, has been floated and is being towed to harbor for repairs, the navy department announced.

BAKER APPEALS FOR NURSES
Calls Upon Public, Hospitals and Training Schools to Co-operate With Red Cross.

Washington, June 5.—Secretary of War Baker in following statement through American Red Cross, calls upon general public, civilian hospitals and training schools to co-operate actively to insure ample supply of military nurses.

"The greatest humanitarian duty which we owe to our army once it has been armed, sheltered, clothed and transported is to conserve its health and vitality and bind up the wounds which unhappily but inevitably must come to it. That this service may be performed most effectively and most speedily, it is necessary that hospitals continue their co-operation in releasing to paramount military service whatever members of their staffs may be spared without peril to their clientele, that training schools continue to adapt themselves to increasing the numbers of students; that civil communities be more and more watchful in enforcement and promotion of measures for safeguarding the public health; that individuals that have been used to employing private duty nurses in their homes should rely whenever possible upon hospital and visiting nurses' agencies which permit one nurse to care for a number of patients. Only by such consistent and concentrating cycle of effort shall we be able to send an adequate supply of trained and equipped nurses to our cantonments and base hospitals and at the same time guard the well-being of the civil population."

NEW POST FOR GEN. SHARPE
Former Head of Quartermaster Corps Transferred to Southeastern Department.

Washington, June 5.—Maj. Gen. Henry G. Sharpe, who was removed as head of the quartermaster corps of the army, was transferred to the post of commander of the southeastern department, with headquarters at Charleston, S. C.

Although he relinquished control of the quartermaster department last winter, when Maj. Gen. George W. Goethals was given charge of the work, General Sharpe retained until now his title of quartermaster general. Whether this title will fall to General Goethals or to Gen. Robert E. Wood, who is now acting quartermaster general, has not been announced.

146 KILLED AT COLOGNE
German City Thrown Into Panic by Allies' Recent Air Raid, Washington Learns.

Washington, June 5.—A recent air raid by the allies on Cologne caused the death of 146 persons, the state department was informed today. About 150 were injured. The people of Cologne, the department's reports said, were thrown into a state of "the most absolute panic."

British Penny Postage Ceases.
London, June 5.—Penny postage ceased in Great Britain after a life of seventy years. From today ordinary letter postage will be three half pence.

Enemy Bombs Paris.
Paris, June 5.—The Germans again bombarded Paris with their long range guns.

"U" BASE IN MEXICO?

U. S. OFFICIALS ARE DIVIDED AS TO TRUTH OF REPORT.

Secretary Daniels Says Navy Is Taking Necessary Steps to Safeguard Shipping.

Washington, June 3.—Opinion in Washington was sharply divided as to whether Germany has established a submarine base in Mexico, or elsewhere on the coasts of the Americas, or is operating her raiding submarines from German bases.

Naval officials insisted there is no evidence whatever substantiating the claim that there are German submarine bases in Mexican, Nicaraguan or West Indian waters. The state department shares this view.

Shipping board officials, however, insisted there is at least strong suspicion of bases in Mexico.

A submarine base in Mexico would not avail Germany for operation in the upper Atlantic, naval officials contended. They pointed to the fact that it is 2,000 miles from the Jersey coast to Mexican waters, almost as far as the German bases in Germany or Belgium.

Assistant Secretary of the Navy Roosevelt insisted there is no evidence to substantiate the report of German submarine bases on this side of the Atlantic.

There is a widespread belief in the navy department that the return of the German overseas submarines accounts for the loss of the naval collector Cyclops, "sunk without a trace" after leaving Barbados.

3,067 PLANES FOR THE U. S.
Deliveries to France Total 1,316—3,750 Being Used Here for Training—146,887 Men in Air Service.

Washington, June 4.—The house military affairs committee has issued a report detailing the expenditure of last year's \$640,000,000 aircraft appropriation. Of the total \$316,500,000 has been spent. Unfilled orders for planes, motors, parts, clothing and other items make up the rest of the budget. Deliveries to France have totaled 1,316. There are 3,750 machines in this country, besides 1,041 Liberty motors. Of the American machines in France 321 are battle planes built in England and France. The others are training machines, as are most of those in the United States. The aviation service has 134,761 enlisted men and 12,107 officers. Of the officers 1,500 are flying abroad and 4,600 in America.

DE PALMA WINS AUTO RACE
Official Figures Show Veteran Driver Victor Over Milton in Harsh Handicap.

New York, June 4.—Italph De Palma, driving a Packard car, won the \$30,000 100-mile Harkness Handicap at the Sheepshead Bay Speedway Saturday, and not Tom Milton as was announced. The American Automobile association made the correction after carefully figuring out the correct time. De Palma's time for the century was 58 minutes and 21 seconds and Milton's 58 minutes and 31 seconds. De Palma thus won the hundred mile race by ten seconds. Oldfield was third.

Veteran Telegrapher Dies.
Chicago, June 4.—David S. Anderson, one of the oldest telegraphers in the country, and for forty years manager of the board of trade office in the Western Union Telegraph company, died of pneumonia.

35,000 Cotton Workers Quit.
New Bedford, Mass., June 5.—The textile mills of this city, employing 35,000 operatives, were shut down in consequence of a general strike called by the textile union. The operators demand a 20 per cent increase in wages.

Pope Protests Bombing of Paris.
Rome, June 5.—The pope has expressed indignation over the German bombardment of Paris on Corpus Christi day and is reported to have sent a message to the archbishop of Cologne condemning the act.

WARNS RAIL STRIKERS

M'ADOO SAYS U. S. CANNOT BE COERCED BY EMPLOYEES.

Communication Addressed to Heads of Labor Organizations Assures Justice to All.

Washington, June 1.—Director General McAdoo addressed a communication to the six heads of labor organizations having jurisdiction over the machinists, boilermakers and other branches of organized labor employed in railroad shops, pointing out the meaning and possible consequences of strikes or walkouts of railroad employees during the war.

The communication reads: "The strike of certain shoemakers, machinists, etc., in the railroad shops at Alexandria, Va., has created a very painful impression on the public mind. I cannot believe that these men knew what they were doing. They are all employees now of the United States government. They are not employees of any railroad corporation; therefore this was a strike against the government of the United States."

"It is the first time in the history of our government that any of its employees have attempted a strike against their government. Such action is incredible. For the good of our beloved country, and for the honor of railroad men in the service everywhere, I hope that there will be no repetition of what everyone must condemn as unpatriotic in the highest degree."

"The government cannot, of course, be coerced or intimidated by any of its employees. It is anxious to do justice to all and will do justice to all as far as it is possible to measure justice."

"Recognizing that there are probable inequalities in the recommendations of the wage commission which should be impartially considered and dealt with, I appointed in my general order No. 27, dated May 25, a board of railroad wages and working conditions composed of three representative labor men, whose duty it is to hear and pass upon all petitions and complaints."

"Every class of employees or parts of classes of employees who feel that they have just ground for complaint under the wage decision should submit their cases promptly to this board and they will be given just and impartial consideration."

"The American people have just been called upon to pay largely increased freight and passenger rates for the purpose of paying in part the increased wages, amounting to more than \$300,000,000, awarded to railroad employees."

GREEKS WIN BIG VICTORY
More Than 1,500 German and Bulgarian Prisoners Taken on the Macedonian Front.

London, June 3.—More than 1,500 German and Bulgarian prisoners, among them 33 officers, and a large quantity of war materials have been captured by Greek troops on the Macedonian front, according to an official communication received from Saloniki.

The official report was as follows: "Greek troops, supported by French artillery, have captured the strong enemy positions of Srka Di Legen, on the Struma front, on a width of 12 kilometers and to a depth of two kilometers. More than 1,500 Bulgarian and German prisoners were taken, including 33 officers. A large quantity of material also was captured."

U. S. Naval Motor Launch Lost.
Washington, June 5.—Loss of the naval motor launch Ozark, with one of her crew, Charles E. Richards, fireman of Chipley, Fla., in a heavy sea off the coast May 12 was announced by the navy department.

Two Killed, 26 Injured in Wreck.
St. Louis, June 5.—Two persons are dead and 26 injured by the derailing of the Sunshine Special on the Iron Mountain railroad at Chelsea, Ark. Engineer Derington and Fireman Walker, were killed.

New U. S. Warship Record.
Washington, June 4.—The United States destroyer Ward was successfully launched on Sunday afternoon at the Mare Island navy yard, California, 17½ days after its keel was laid.

PASSENGERS ON LINCOLN SAVED

Sick Aboard U. S. Transport, Torpedoed by U-Boat, Also Rescued.

27 MEN ARE STILL MISSING

Four Officers and Twenty-Three Enlisted Men Believed to Have Perished—Lieutenant Taken Prisoner—Commander Praised.

Washington, June 5.—The navy department gave out this announcement: "Latest dispatches state that all the passengers, including the sick, aboard the President Lincoln were saved. None of the survivors was seriously injured. The transport was attacked by a submarine at 9:53 a. m. on May 31, was struck by three torpedoes and sank in 18 minutes."

"The attacking submarine was about two hundred feet long and was not of the cruiser type."

"American destroyers went to the rescue. As they were returning to port with the survivors, a submarine was sighted at noon Saturday and attacked by a destroyer."

"The small loss of life on the President Lincoln was due to the thorough discipline of the ship's company and excellent seamanship of the commanders and officers of the vessels concerned, particularly the commander of the transport, Vice Admiral Sims says in his report."

Four officers are reported missing as follows: Surgeon L. C. Whiteside, Lehighton, Pa.; Assistant Paymaster A. Mowal, Newport, R. I.; Assistant Paymaster J. E. Ardston, U. S. N. R. F. (no such name as Ardston or Ardston is on the navy records. There may have been some error in the transmission of name); Lieut. E. V. M. Isaacs, Fort Huachuca, Ariz. (taken prisoner by the submarine).

Among the enlisted men reported missing are: J. A. Jenkins, Eugene, Mo.; F. H. Heglin, Edylville, Neb.; Karl H. Neulet, Columbus, Ind.

BIG ARMY BILL IS PASSED
Authorizes President to Call Into Military Service All Men Who Can Be Trained and Equipped.

Washington, June 3.—The largest annual army appropriation bill in history, carrying \$12,041,682,000 and authorizing the president to call into military service all men who can be trained and equipped, was passed on Friday by the house and sent to the senate.

Final action on the urgent deficiency bill, carrying appropriations of more than \$125,000,000, was taken by the house, when senate amendments were agreed to. The bill now goes to the president.

The house broke its record for speed on the army bill by taking the final vote after three days of debate.

The measure is framed to provide for an army of 3,000,000 men during the coming year, in accordance with the government's revised program for rushing soldiers to France.

12 BOATS SUNK OFF IRELAND
Fleet of Fishing Vessels Attacked but Men Are Allowed to Row Ashore.

London, June 4.—Twelve of a fleet of 20 or 40 fishing vessels which left Irish ports on the night of May 30 were sunk by a German submarine, says a Belfast dispatch to the Daily Telegraph. The submarine suddenly appeared in the midst of the fleet and ordered the fishermen to take to the boats and row ashore. It then sank the vessels by shelling them.

The fishermen say the submarine was interrupted in its work and submerged, which probably prevented destruction of the entire fleet. The fishermen lost all their gear, but there were no casualties.

LAY \$1,000,000 FIRE TO SPIES
Arsenal Warehouse Blaze Started by "German Pencil" Attached to a Clock.

St. Louis, June 5.—A military board of inquiry was appointed to sift circumstances surrounding the origin of the fire that did \$1,000,000 damage at two warehouse houses at the United States arsenal here Sunday, Col. William Clark, in charge of the arsenal and members of the board of the fire was caused by a "German pencil" attached to a clock.

Copenhagen, June 4.—British destroyers are reported to have brought down a Zeppelin in the North sea, off the west coast of Jutland. All of the Zeppelin's crew are said to have perished.

China to Deport Germans.
Tokyo, June 5.—Holding them responsible for enemy intrigue working to drag down China with Russia and to embroil China with Japan, the Chinese government has decided to deport all Germans.

Captain Roosevelt Recovering.
Paris, June 5.—Capt. Archie Roosevelt, who was wounded in action in March and transferred to a hospital in Paris in April, is making excellent progress. His arm has been removed from the sling.

RED CROSS GOES \$70,000,000 OVER

\$166,439,291 in Contributions So Far Tabulated by Officers at Headquarters.

DAVISON THANKS THE DONORS

Wide Distribution Shows America is United Behind the Army, Says Director of Red Cross War Council.

New York, June 4.—The Red Cross drive went "over the top" by \$70,000,000. More than 47,000,000 persons contributed. Contributions totaling \$166,439,291 have so far been compiled.

These were the figures made public Sunday by Henry P. Davison, chairman of the Red Cross war council, in declaring the campaign the most successful in the history of the nation. Mr. Davison said:

"The supreme feature of the achievement is to be found not in the amount of money subscribed, great as it is, but in that it has come from every part of the United States, from its cities, its towns, its farms, its factories, from the rich and the poor, regardless of sect, color or political creed."

"While it is estimated that those contributing to the war fund last year numbered probably 5,000,000 persons, our returns this year give evidence that more than 47,000,000 Americans have contributed to the fund."

"This manifestation of loyalty and sacrifice by the people of our country brings to the Red Cross war council a renewed consciousness of the sacredness of its trust. It will stamp indelibly in the minds of our soldiers and sailors that the American people are behind them to the uttermost."

I congratulate every American who has contributed either time or money toward this the greatest work of mercy, of love and of justice in the history of mankind."

11 ACQUITTED OF LYNCHING
Courtroom Breaks into Cheers at Verdict in Prager Case—Band Plays National Anthem.

Edwardsville, Ill., June 4.—The 11 men who were charged with murder in connection with the lynching of Robert Prager, enemy alien, were acquitted on Sunday by a jury which deliberated but 45 minutes before coming to a decision. Two ballots were taken.

Announcement that all of the defendants had been found not guilty was attended by a wild demonstration in the courtroom. A band from the Great Lakes Naval Training station, which was here on a recruiting mission by coincidence at the moment of recess, struck up "The Star Spangled Banner" within hearing of the courtroom. Prager was taken from the city jail at Collinsville on the night of April 6 and lynched at the outskirts of the village.

CAN'T FRIGHTEEN U. S. WOMEN
Bombing of Red Cross Hospitals by the Germans Won't Deter Enrollment of Nurses.

Washington, June 5.—Miss Jane A. Delano, director of the department of nursing of the American Red Cross, said: "The persistent bombing of Red Cross hospitals just as our drive to enroll military nurses begins, may be merely a coincidence. If, however, the Germans believe that such methods will have any effect in deterring American nurses from volunteering for hospital work, they are badly mistaken. Tactics of frightfulness will merely send more and more of them to back up our men. If it is the German intention to frighten our women they will find that American women do not know how to retreat any more than do our boys in Picardy. The enrollment of nurses will be American womanhood's answer."

CHILD LABOR LAW IS KILLED
U. S. Supreme Court Holds Measure Passed by Congress Last Year Is Unconstitutional.

Washington, June 5.—The child labor law, enacted by congress last year, after a bitter fight, was held unconstitutional on Monday by the United States Supreme court. The decision was based in the power of local communities to regulate such matters for themselves, which could not be interfered with by congress.

London—Sixty-nine persons were arrested and deported from Ireland in connection with the recent revolutionary plot, Chief Secretary Short announced in the house of commons. He made no further statement.

Sour Stomach

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets.

Cholera Morbus

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Buegart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."

HOLSTEIN COWS HAVE PRODUCED FORTY POUNDS OF BUTTER IN SEVEN DAYS

PUREBRED HOLSTEIN KORNDYKE WINONA.

Thirty purebred Holstein cows now have achieved the proud distinction of having produced more than forty pounds of butter in seven days. The two latest matrons of the dairy world to achieve such fame are Korndyke Winona and Segis Hengerveld Fayne Johanna. Korndyke Winona freshened at the age of eight years, twenty-three days, and produced in seven consecutive days 68.4 pounds of milk yielding 40.23 pounds of butter. Her sire is Pontiac Korndyke and her dam is Miss Winona Mechthilde. She was bred by Charles H. Hyde, Watertown, N. Y. Segis Hengerveld Fayne Johanna, the thirtieth "Black-and-White" forty-pounder, freshened at the age of six years, one month, twenty-seven days. She completed her seven-day test with 64.9 pounds of milk yielding 40.14 pounds of butter. Her sire is Woodcrest Nig De Kol, her dam is the great world's champion, Segis Fayne Johanna—the first and only cow of any breed to yield 50 pounds of butter in a week. She was bred by A. A. Cortelyou, Somerville, N. J. Each of these great cows has yielded in seven days an amount of butter that it would take ten average cows to produce. Both are now owned by Pine Grove Farms, Elma Center, N. Y.

REVISED STANDARDS FOR WHEAT AND CORN

Secretary of Agriculture Signs Order Effective July 15.

Grain Farmers and Country Shippers Are Urged to Thoroughly Familiarize Themselves With New Grades—Changes Made.

(Prepared by the United States Department of Agriculture.) Standards for wheat and shelled corn which move in interstate and foreign commerce, have been revised to take effect July 15, 1918, and the order has been signed by Secretary of Agriculture D. F. Houston, under the provisions of the United States grain standard act. The new standards supersede those now used and which will continue in effect until July 15. All members of the grain trade, especially grain farmers and country shippers at points where licensed inspectors are not located, are urged to thoroughly familiarize themselves with the new grades. The department announces that the new wheat grades will result in a greater proportion of the crop falling into the higher grades. The more important of the changes are: Dockage will be expressed in terms of whole per cent, rather than half per cent, disregarding fractions and the definition of dockage specifically requires recleaning and rescreening, so that as large a proportion as possible of cracked wheat will be recovered. The more definite term "foreign material other than dockage" has been substituted for "inseparable foreign material." The allowance for wild peas, corn cobs, and similar impurities is more liberal. The percentages of hard kernels required in the premium subclasses of Hard Red Spring, Hard Winter and Common White have been changed and made more liberal. The minimum weight per bushel requirements generally are reduced, except for grades two, three, and four in Hard Red Spring wheat and grades one to four in Common White and White Club. The maximum percentages of moisture allowed have been increased for all grades, except for grade No. 2 in Hard Red Spring and Durum. The total weight of other classes permissible is increased in every grade. No. 1 now permitting 5 per cent and other grades 10 per cent. Special limitations for certain wheats of other classes now apply only to the first two grades. The total damaged wheat permitted has been doubled for grade No. 1. Small amounts of heat-damaged kernels are to be permitted in grade No. 1 and in increased amount in grade No. 2. The quantities of smut allowed before designating wheat as "smutty" have been doubled. The subclasses Red Spring, Humpback and Soft Red have been eliminated from the standards, and grades for garlicky wheat added for all classes. The corn standards in the main involve the addition of weight per bushel requirements for all numerical grades and the allowance of small quantities of heat-damaged kernels in grades Nos. 2 and 3. Separate sample grades have been established for white, yellow and mixed corn.

Cheap Gains With Hogs. Supplemented with corn, soy bean pasture makes cheap and rapid gains with hogs. Just as the grain reaches the dough stage the porkers are turned in to do the harvesting.

TO PRUNE RED RASPBERRIES

Attention Required in Summer to Induce Development of Shoots for More Fruit.

(From the United States Department of Agriculture.) Red raspberries require attention to direct their growth and fruit production at two seasons of the year—pruning in the summer, during the growing season, to regulate the height of the canes and induce the formation of fruiting wood for the following season, and pruning during the winter or early spring for the purpose of eliminating the canes which bore last season, so as to allow all the energy of the root of the plant to be directed to the production of fruit and the formation of the next season's bearing wood. The summer pruning, which is not generally practiced with red raspberries, consists in stopping the young shoots when they have attained a height of from 18 to 20 inches. This induces the development of side shoots and the production of additional sprouts from the root. Both these types of growth are desirable in order to insure as large a growth of wood as the plants can carry to advantage. This will have to be governed by the judgment of the grower and should be based on the variety, the character of the soil, and the kind and quantity of fertilizer used. The winter pruning is a process of elimination. All canes which have served their purpose as fruit producers are removed, as are all dead or diseased canes, thus reducing the demands upon the roots of the plant to the wood intended for fruit production. The advantages of summer pruning are an increase in the area of bearing wood, and strong, low canes which require no artificial trellis or support.

CLUBS ADD TO FOOD SUPPLY

Those Who Raise Pigs Will Produce at Least 10,000,000 Pounds of Pork This Year.

(Prepared by the United States Department of Agriculture.) It is estimated that the 45,000 members of boys' and girls' pig clubs will produce at least 10,000,000 pounds of dressed pork this year, if their work is comparable to those whose members made complete reports last year. This work is judged to be extremely important in meeting the wartime demand for increased food. The pig-club work has spread rapidly until practically every state is doing more or less of it as a part of the general club work. Twenty-one states have pig-club agents employed in co-operation with the animal husbandry division and the states relations service of the United States department of agriculture. In view of the great success attending the work thus far and because of the great need of increasing the production of pork and pork products, the department is seeking to enroll 200,000 boys and girls as "junior soldiers of the commissary" for 1918. It is expected that every boy who can do so will raise one or more pigs for Uncle Sam and thus furnish the meat supply for a soldier.

KNOWLEDGE OF FRUIT BUDS

Necessary So That Too Much of Fruit-Bearing Wood May Not Be Cut Away in Pruning.

The fruit of the peach and the plum is produced on wood grown the preceding season, hence in working over a tree of this character it is necessary to know something of the fruit buds, so that too much of the fruit-bearing wood will not be cut away.

The KITCHEN CABINET

Set your pride in its proper place and never be ashamed of any honest calling.—Jean Ingelow.

Circumstances are beyond the control of man; but his conduct is in his own power.

DAINTY TABLE TRIFLES.

While strawberries are still too expensive for too frequent use, they may be used as a garnish or accessory, making a most tasty dish. A most delicious filling and icing for a cake may be made, using crushed fresh berries with a teaspoonful of lemon juice added and thickened with confectioners' sugar.

A few sliced berries may be used as a garnish for a gelatin dessert, for the sherbet cups of junket or for squares of angel cake with whipped cream and berries for dessert.

A little sugar added to the roast or stew will add to the flavor and it will brown with a richer color. When the coffee cream has soured add a little soda and a teaspoonful of sugar; beat until well blended and it will usually be unnoticed, unless the cream was too sour.

Rhubarb and Pear Salad.—Bake two cupsful of rhubarb with a half a cupful of sugar added when nearly cooked. Let stand to chill. Mix together four tablespoonsful of olive oil, two of lemon juice, a teaspoonful of sugar, salt and cayenne pepper to taste. Arrange the rhubarb, which should be tender but not broken, with six halves of canned pears on a bed of lettuce; pour over the dressing, sprinkle with chopped candied ginger and serve.

Frozen Prune Fluff.—Soak a pound of prunes overnight in three pints of water and the rind of half an orange; cook until the prunes are tender. Strain off the juice and remove the peel. Stone the prunes and rub them through a sieve; add the juice, a half-cupful of finely chopped walnut meats and two unbeaten egg whites, then freeze. Serve garnished with orange marmalade.

Amber Marmalade.—Put one grapefruit, one lemon and one orange, through the meat grinder; add ten cupsful of water and let stand overnight, then cook until tender; let stand again overnight, add ten cupsful of sugar and cook until thick. Put into glasses and seal as usual.

Care to our coffin adds a nail, no doubt. An every grin so merry draws one out. —Volcott.

LET US REMEMBER.

That early potatoes may be quickly prepared by using a rough piece of burrap to take off the skin. This is economy of time as well as of food. A whole recipe of drop cakes or cookies may be prepared and baked at one time if two baking sheets of sheet iron are used that fit the oven. This is a great saving of fuel if gas or kerosene or electricity is used. Milk bottles should be carefully wiped before removing the cap for two reasons, the first because of cleanliness, the second because bits of glass are often chipped out of the bottle in transit and are unnoticed, even when they drop off into the milk when pouring it from the bottle.

Kindling may be carried very easily by using a piece of canvas with strong handles. Cut the cloth 45 by 27 inches. Use wooden spoons in stirring foods. A hard rap of a metal spoon on the side of a granite dish will dislodge pieces of the lining of the dish; this gets into the food and is as dangerous as glass. A wooden spoon never becomes too hot to handle and is much easier on the hands in stirring.

Water drained from cooked rice or macaroni makes fine starch for laces or delicate dresses.

Brooms are too expensive these days to treat without consideration. They should always be hung or turned upside down, resting on the handle.

Grated potato used as a poultice over an inflamed eye will relieve it if left overnight.

A sauce dish of left-over preserves may be thickened with a little gelatin, with a grating of lemon or a bottle of lemon juice added, then served with whipped cream, making a dainty dessert and an economical one.

The dish of onions left from today's dinner may be put through a sieve and served in tomorrow's meat sauce.

Nails and roughness in the heel of a shoe will rub and wear the hose. Pound down the nails and glue a piece of heavy cloth or chamolins skin into each heel. This will save the feet and also the hose.

The wise hater will purchase good sized eggs when possible, and when starting the poultry yard see that she has a strain of hens which produce large eggs. Small eggs should not demand the same price. Weighing eggs is a wise and economical method, and will in time discourage the production of small eggs.

New Arrivals in Street Suits

Are they made of silk or are they of wool? That is the question that gives our eyes to the new showings of suits and leads us to take many an extra step for a closer view. It turns out that many of the suits for mid-summer are made of new weaves in silk fabrics that are soft and supple and have little luster, so they keep us guessing. Besides the all-silk fabrics there are silk and wool mixtures, all of them calculated to make us forget to deplore the scarcity of wool. In case the government should see fit to commandeer the wool production it will be no hardship to wear these new fabrics. There are many belted models in the new modes and many coats open over trig-looking pique vests. Uneven lengths, cleverly applied buttons and unusual pockets are features that tone up their style—fine points in the technique of making. Skirts grow narrower and remain plain. Fashion still finds slenderness adorable and designers have grown marvelously clever in looks like a vestee of the voile outlined with a corded edge and finished fashioning suits along such trim lines that they suggest slowness even on a plump figure. This bit of camouflage is well worth considering. The suit pictured might be made of one of the new silks or silk and wool mixtures, and it would be effective in pongee or poplin or in light weight wool materials. It embodies the salient features of the season's modes for mid-summer with its coat pointed at the bottom and belted about the sides and front and its covered buttons applied in rows to the sleeves. Two of them at each side are slipped through actual button holes so that the belt across the front fastens on either side. **Georgette Sailor Hats.** Georgette sailor hats are still in vogue, and nothing more interestingly combines a shape of utility and a finish of smartness than this shape and this fabric.

Midsummer Blouses Lovely and Practical

Mere man varies the monotony of his workday clothes by indulging himself in many changes of ties, and women in the same way rely upon blouses to give the spice of variety to their daily costume. The new blouses that have just made their appearance for midsummer wear promise to fulfill their mission in the most refreshing way, for they are made of light colors with white in many ways. Manufacturers of fabrics and designers of blouses have worked together for the good of womankind this summer, the first producing striped and cross-bar as well as plain materials that are washable and the latter pleasing and versatile details of trimming. Cluster tuckings, contrasting collars and cuffs, frills of net or plain organdie, narrow lace inserts and edgings and some hand embroidery finish off the clever planning and cutting which see to it that the new blouses are started right. They are adorably refined and dainty and sometimes they are just as simple as they look—but not often. It is their business to look simple and beautifully finished. The blouse shown in the picture bears out these statements. It is of blue voile with white organdie collar and cuffs. There are two emplacements at the front, one of them a little simulated chemisette in white organdie set in an applied affair that

at each side with embroidered scallops. It fastens with white crochet buttons. The simplest of these blouses are in striped or cross-bar organdie. Blue and white, light green and white, tan and white made up with collars and cuffs of white organdie finished with frills, or with these accessories in plain organdie of the same color as that in the blouse, make variety enough to suit everyone. The best things about these and all the rest of their kind is their perennial freshness and their durability. Voiles, batistes and organdies stand wear and tubbing better than heavier materials and look as good as new after long service, therefore their charm is permanent. *Julie Bottrick* Collarless Waists. It may be from a spirit of conservatism or it may be just another effort to be "different," but waists are trying to go collarless for a change, says the Dry Goods Economist. Organdies and voiles trimmed with lace and hand embroidery are a charming medium for experimentation for mid-summer. They are buttoned up the back or over the shoulder and under the arm, but they carefully avoid closing in front.

DADDY'S EVENING FAIRY TALE
BY MARY GRAHAM BONNER

PROUD WOLVES.

"Ah," said Daddy Wolf, "I heard something today which made my old wolf heart feel very happy."
"Tell me about it," said Mother Wolf. "I would like to be happy too."
"Aren't you happy?" asked Daddy Wolf in a most worried tone of voice. That is, Mother Wolf knew his voice sounded worried, though we might have said it sounded quite wild and ferocious.
"Oh, yes, to be sure I'm happy, my dear," said Mother Wolf.
"Then why did you say that you weren't happy?" asked Daddy Wolf.
"My dear, my dear," said Mother Wolf, "you mustn't get so nervous and worried. I am very, very happy with such a dear and devoted husband."
"That is good," said Daddy Wolf, "and those words make me feel better. But why did you ask such a thing as to be told something to make you happy?"
"Well," said Mother Wolf, "I wasn't being as careful of the words I used as I might have been. You see, Daddy Wolf, you said that you had just heard something which had made you very happy, and so I said I would like to be happy too. I didn't get so excited because you said you had just been made happy. And certainly I have as much of a right to worry as you have."
"True, true," said Daddy Wolf, smiling. "We were both foolish in the way we used certain words. Stubborn little words as they were! They gave the wrong meaning and were glad of it!"
"Of course, I see it all now. You knew I was happy," continued Daddy Wolf, "and I knew you were—but I

got a little excited—foolish of me to be sure. You were simply anxious to hear the joke or the nice thing that had given another happy happening to the day."
"Yes, another happy happening," said Mother Wolf, who was eager to hear what Daddy Wolf had to say. "Tell me, my dear, tell me all about it."
"I was listening to some men talking. They were walking through the woods and as I was sleepy and had fed well I didn't want to bother them—I was feeling contented and sleepy."
"The first man was talking of how expensive food was these days and how much they all had to spend for what they ate. He said that he tried to do all he could to keep the wolf from the door!"
"Whatever did he mean by that?" asked Mother Wolf. "Do tell me. That was a very strange speech for anyone to make, it seems to me. And we don't go around to people's doors. Too absurd. Well, continue, Daddy Wolf."
"Of course I had to listen to everything else they said so I could find out what they meant."
"And did you find out, Daddy Wolf?" asked Mother Wolf.
"I did indeed," he answered.
"Goodie," exclaimed Mother Wolf. "Let's hear it."
"He meant," continued Daddy Wolf, "that he tried to keep the wolf from the door—not in reality—but in make-believe."
"I don't understand," said Mother Wolf.
"Patience, dear mother, I will explain. He meant that he wanted to keep hunger from the door and he wanted to keep his family and himself from being too poor to buy good things to eat."
"So he didn't mean that we went around to people's doorsteps and rang the doorbells?" asked Mrs. Wolf.
"No," said Daddy Wolf, "he seemed to speak in that way as if everyone knew what such an expression meant. And it made me so especially happy because it showed what a fine reputation we have for a good appetite."
"You don't think it means that they think we're poor?" asked Mother Wolf doubtfully.
"Oh, no, my dear, I'm sure about it. We are always hungry and so are people who can't get enough to eat—but they can't always afford to eat—and we just have wonderful healthy wolf appetites."
"It shows the world thinks we're good and strong, yes, good and strong. It's a fine sign to have a good appetite—that is if one is a wolf."
"It's splendid to have such a world-wide reputation for health," said Mother Wolf, as she got up to busy herself at once about the supper, for Daddy Wolf was smacking his lips!

WESTERN CANADA'S CROPS

Got an Excellent Start. Big Yields Now Assured.

Never in the history of Western Canada did the seed enter the ground under more favorable conditions. The weather during the month of April was perfect for seeding operations, and from early morning until late at night the seeders were at work, and every acre that could be profitably sown was placed under requisition. Farmers entered heart and soul into the campaign of greater production. There was the time and the opportunity for careful preparation, and as a consequence with favorable weather from now on there will be a vastly increased yield. They realized it was a duty they owed to humanity to produce all that they could on the land, not only this year but next as well. In addition to the patriotic aspect, they are aware that the more they produce the greater will be their own return in dollars and cents.

In many districts wheat seeding was completed by the 1st of May, after which date oats and barley on larger acreages than usual were planted.

As has been said, favorable weather conditions made possible excellent seed-bed preparation, and the seed has gone into the ground in unusually good shape. The available moisture in the soil has been added to by rains, which have not been so heavy, however, as to interfere long with the work in the fields. The grain is germinating readily, and on many fields the young green blades of the cereal are already showing.

An optimistic feeling prevails among farmers that Western Canada will reap a record harvest. If the season from now on is as favorable as it has begun, these hopes should be realized. Mr. J. D. McGregor of the Federal Food Board, who is also an old and successful farmer in Western Canada, asserted a few days ago at Calgary that crop conditions throughout the Prairie Provinces were excellent. "Speaking generally," he said, "the crops have never gone into the ground in better shape than this year, and with an even break of luck as far as the weather is concerned, there should be an enormous crop." His present duties in connection with the Food Control Board, taking him in all parts of the West, Mr. McGregor has exceptional opportunities of observing conditions all over the country.—Advertisement.

WHY WOMEN DREAD OLD AGE

Don't worry about old age. Don't worry about being in other people's way when you are getting on in years. Keep your body in good condition and you can be as hale and hearty in your old days as you were when a kid, and every one will be glad to see you. The kidneys and bladder are the causes of senile afflictions. Keep them clean and in proper working condition. Drive the poisonous wastes from the system and avoid uric acid accumulations. Take GOLD MEDAL Harleim Oil Capsules periodically and you will find that the system will always be in perfect working order. Your spirits will be enlivened, your muscles made strong and your face have once more the look of youth and health. New life, fresh strength and health will come as you continue this treatment. When your first vigor has been restored continue for awhile taking a capsule or two each day. They will keep you in condition and prevent a return of your troubles. There is only one guaranteed brand of Harleim Oil Capsules, GOLD MEDAL. There are many fakes on the market. Be sure you get the Original GOLD MEDAL Imported Harleim Oil Capsules. They are the only reliable. For sale by all first-class druggists.—Adv.

The Farmer's Share

Live stock is marketed from farmer to consumer at a lower cost than almost any other farm product.

The United States Department of agriculture reported in 1916 that the farmer gets for his cattle "approximately two-thirds to three-fourths" of the final retail price paid by the consumer for the resulting beef.

Under normal conditions, the farmer's share of retail prices of various farm products is approximately as follows:

Butter	71 per cent
CATTLE	66 2/3 to 75 per cent
Eggs	65 per cent
Potatoes	55 per cent
Poultry	45 per cent
Fruits	35 per cent

The difference between farmer's price and retail price represents the necessary expenses of packing, freight and wholesale and retail distribution.

Swift & Company not only performs the manufacturing operations of preparing cattle for market in its well-equipped packing plants, but it pays the freight on meat to all parts of the United States, operates 500 branch distributing houses, and in most cases even delivers to the retail butcher. All this is done at an expense of less than 2 cents per pound, and at a profit of only about 1/4 of a cent per pound of beef.

Large volume of business and expert management, make possible this indispensable service to the live-stock raiser and to the consumer, and make possible the larger proportion of retail prices received by farmers.

HAPPENINGS OF THE WEEK IN WISCONSIN

Madison—A report issued by Dairy and Food Commissioner George J. Weigle shows the growth of the industry in the two year period of 1915 to 1917. There has been an increase in the value of dairy products of the state of \$80,000,000 in that time, while the output of cheese factories and condensaries has more than doubled. The value of dairy products in Wisconsin in 1917 was \$190,235,914.72.

Neenah—The will of the late ex-Congressman S. A. Cook, which has just been admitted to probate provides a liberal sum for the various G. A. R. posts in the cities of Neenah and Menasha and to the two cities for benevolent purposes. The entire estate is valued at between \$300,000 and \$500,000. The residue of the estate is divided between a son and daughter.

Cumberland—Carl Brandon, 20, youngest son of Mr. and Mrs. Martinus Brandon, was drowned in Lake Thirty while fishing with his brother and a companion. The boys were rocking the boat when it overturned. Carl went into the water laughing, so his companions report, but never came to the surface.

Washington—Red Cross national headquarters made a public announcement of Wisconsin's splendid record in the Red Cross drive. Wisconsin was assigned a quota of \$1,500,000, the amount subscribed being \$2,250,000 or nearly \$1,000,000 in excess of the quota.

Sheboygan—The Jenkins Machine company, one of the largest industrial plants of this city, and among the leading machine works of Wisconsin, will build a large addition to its present plant as a consequence of the large expansion in business of its war order machinery department.

Fond du Lac—Rev. Francis Laslow, 58 years, pastor of the Polish Catholic church at Red Granite and for many years rector of St. Joseph's Polish Catholic church at Oshkosh, died at St. Agnes hospital, Fond du Lac, after an attack of pneumonia.

Marinette—Ed. Richlen of Crivitz, was granted bounty of \$18 on six foxes at the office of the county clerk. This is the largest number of the animals that have been presented to secure the bounty in some time.

Elkhorn—At the first consignment sale held by the Walworth County Holstein Breeders' association at the fair grounds here eighty head of pure bred Holsteins sold for \$15,340, an average of \$191 per head.

Menasha—Riparian landowners along the Fox River will petition the government to have the gates at the Menasha dam kept open until the flood stage of water subsides. This was decided at a recent meeting.

Stevens Point—The right eye of Victor Czech, 9, of Berent was removed at the hospital here. A piece of 22 shell had penetrated the boy's eyeball, when he attempted to force the shell into a rifle with a hammer.

Eau Claire—The Telelaget, an organization composed of Norwegians in this country, will convene June 13 and 14 at Chippewa Falls, Wisconsin, Minnesota, North Dakota and Iowa representatives are expected.

Antigo—Vilas Millard, son of Mr. and Mrs. P. J. Millard, has been commissioned a second lieutenant at Camp Joseph Johnston, Jacksonville, Fla., and has been ordered to report at Newport News, Va.

Madison—A great service flag containing more than 1,700 stars, representing students who have enlisted in war service, was unfurled from the roof of the main hall of the University.

Rhineland—The county council of defense will begin a "Patronize the patriotic merchant" campaign against pro-Germans who have failed to do their share.

Wausau—With "The Meaning of America's Entrance into the War," as his subject, Elroy McFaul of Wausau won the state oratorical contest. Nine contestants spoke.

De Pere—A burglar broke into the offices of the Central Lumber company and made the magnificent haul of 87 cents in cash and about \$4 in postage stamps.

Antigo—The local rainfall in May was 8.06 inches, according to records of the official weather observer, being more than the rainfall of the same months in the two previous years.

Neillsville—Many people have wondered why there was no Red Cross drive in Clark county. Some have not heard. It seems that at the April session of the county board an appropriation was made to cover Clark county's allotment, which will be paid by taxation.

Wausau—Nine events, six for 15 targets each and three for twenty targets each, constitute the program for the first annual registered trap-shooting contest for the Wausau Gun club on Sunday, June 23.

Madison—The Industrial Commission in a table shows the number of industrial accidents in the state during the past three years. About 40,980 cases were reported, 517 of which resulted in deaths. The total working time loss because of the accidents is 5,951,838 days or between \$12,000,000 and \$15,000,000 in wages. Only 19 per cent of the accidents were caused by machines and a larger number of accidents by handling objects. Other causes were from falls, falling objects, hot substances, cranes, derricks and hoists.

Washburn—Conservation Warden Graves has a crew of men at work in the Bibon swamp near Drummond blowing out the beaver dams in that vicinity. The beavers are protected until 1920, and during the past few years have multiplied in great numbers and especially in the Bibon swamp, where their great dams have backed up the water to such an extent that in places it is flooding the county highway and a part of the timber preserve of the Rust-Owen Lumber company.

Rhineland—Aggressive patriotism of North American Indians was responsible for a Liberty Loan record, which may not be surpassed in the United States. It was officially announced that Odanah, an Indian reservation village in Ashland county, subscribed thirty-five times its quota. The quota was \$3,000 and the total subscription was \$105,000.

Oshkosh—At a massmeeting in West Algona, called to discuss the Punocho school problem, action was taken to show that the patrons of the school want a larger building than originally proposed, favoring an eleven room structure. The council has been standing out for a smaller school than the majority of the school board recommended.

Madison—Dry sweeping and dusting and dry street cleaning are condemned as a menace to health in a publication of the state board of health issued recently. Dust spreads disease and the worst kind is that within the four walls of a room, declares the board. Use of a damp cloth for dusting is urgently advised.

Waukesha—Grace Lusk is guilty of murder in the second degree. This is the verdict, after four hours' deliberation, of the twelve men who have sat on the judgment seat before her for two weeks during her heart-gripping trial for the slaying of Mrs. Mary Newman Roberts, wife of Dr. David Roberts, former state veterinarian.

Wausau—A silver jubilee celebration, commemorating the twenty-fifth anniversary of the ordination to the priesthood of the Rev. J. B. Hauck, pastor of St. Mary's Catholic church, was given on Memorial day under the auspices of the pupils of St. Mary's school. Thirty-five visiting priests were present.

Oshkosh—Sixty men, class 1 registrants yet to be called to war service, began training here to operate army motor trucks. A number of local concerns donated use of their heavy trucks for practice. Other classes for registrants at the Beach school are in electricity, stenography and typewriting, carpentry and radio work.

Sheboygan—The common council adopted a formal protest against passage by congress of the Randall amendment to the food stimulation bill. The resolution was introduced by Alderman William Brockman, a saloon-keeper. The amendment seeks to prohibit use of foodstuffs and fruit in the manufacture of beverages.

Madison—Reports on file at the state board of control show that 374 Wisconsin boys have been returned from cantonments because they were affected with tuberculosis. The record also shows that 250 additional have been returned to date because mentally defective.

Birchwood—When the Loyalty legion of Grantsburg objected to certain passages in German textbooks of the city's high school, the books were removed and burned. Washburn county burned its German language school books last winter when news came of the sinking of the Tuscania.

Ripon—The German National bank of Ripon, which has conducted business under that name for the last twenty-eight years, will continue under a new title, "The American National Bank." The fifty-six stockholders were unanimously for the change in name.

Janesville—Rack county's war chest drive raised \$165,000 to pay allotments for Red Cross, Knights of Columbus, Young Men's Christian association, and other patriotic activities.

Marinette—H. C. Burnette of Cranford appeared before Judge W. E. Quinan and was sentenced to one year in Waupun prison for passing a worthless \$10 check.

Green Bay—An increase of ten per cent in wages has been granted to policemen and firemen of Green Bay. The new pay of the police chiefs of both departments is \$137.50 a month, captains are paid \$105, and regular firemen and patrolmen, \$75 to \$83.

Oshkosh—Winnebago County Beekeepers association, formed to increase the production of honey, has William Nelson of the town of Omro for its first president. H. E. Greenwood, Oshkosh, was elected secretary-treasurer.

APPEAL FOR THRIFT

President Asks Citizens to Buy Only Essentials.

SYSTEMATIC SAVING URGED

People Requested to Pledge by June 28 to Invest in War Savings and Thrift Stamps, or Other Government Securities.

Washington, D. C.—To save materials and labor for necessary war purposes, President Wilson appealed to Americans "to buy only those things which are essential to the individual health and efficiency," and to volunteer on or before June 28, National Thrift day, to invest systematically in War Savings and Thrift Stamps, or other government securities.

"This war is one of nations—not of armies," said the president, "and all of our 100,000,000 people must be economically and industrially adjusted to war conditions if this nation is to play its full part in the conflict.

Pledge Is Sought. "The problem before us is not primarily a financial problem, but rather a problem of increased production of war essentials and the saving of the materials and the labor necessary for the support and equipment of our army and navy. Thoughtless expenditure of money for nonessentials uses up the labor of men, the products of the farm, mines, and factories, and overburdens transportation, all of which must be used to the utmost and at their best for war purposes.

"The great results which we seek can be obtained only by the participation of young and old in a national thrift movement. I therefore urge that our people everywhere pledge themselves, as suggested by the secretary of the treasury, to the practice of thrift; to serve the government to their utmost in increasing production in all fields necessary to the winning of the war; to conserve food and fuel and useful materials of every kind; to devote their labor only to the most necessary tasks, and to buy only those things which are essential to individual health and efficiency.

"Buy More U. S. Securities." "The securities issued by the treasury department are, so many of them, within the reach of every one that the door of opportunity in this matter is wide open to all of us.

"I appeal to all who now own either Liberty bonds or War Saving stamps to continue to practice economy and thrift and to appeal to all who do not own government securities to do likewise and purchase them to the extent of their means. The man who buys government securities transfers the purchasing power of his money to the United States government until after this war, and to that same degree does not buy in competition with the government.

"I earnestly appeal to every man, woman and child to pledge themselves on or before June 28 to save constantly and to buy as regularly as possible the securities of the government.

"The 28th of June ends this special period of enlistment in the great volunteer army of production and saving here at home. May there be none unenlisted on that day."

SAMARITAN RACE NEAR END

War May Wipe Out Remnant of Ancient Tribe in the Holy Land.

Pittsburgh, Pa.—The last remnant of the ancient Samaritan race may be wiped out of existence, according to E. K. Warren, president of the International Sunday School association, Mr. Warren, in his Sunday school labors in the Holy Land, found the little band of people whose ancestors made up the great northern division of the kingdom of the Jews. There were 162 persons in the group, and he has not heard a word from them in 18 months. Mr. Warren said the race dwindled down because it would not intermarry. Two-thirds of the group were men and of these 24 were drafted by the Turkish government for military service.

GIRLS DO OWN GARDENING

Will Raise Vegetables Needed by Student Body of Mount Holyoke College.

South Hadley, Mass.—Mount Holyoke college, one of the large girls' colleges of the East, will be self-supporting, as far as its vegetable supply is concerned. If plans of the student farmers succeed. The needs of the student body for the year is estimated at 2,000 bushels of potatoes and 5,000 cans each of corn, beans and tomatoes. The girl farmers are planting gardens to cover this demand.

UNCLE SAM HARD ON TRAMPS

"Side-Door Pullman" Passengers Are Decreasing, According to Railroad Officials.

Albany, N. Y.—Uncle Sam is severe on tramps. As a result, railroad officials say, there is a noticeable falling off "in travel." In the good old days a "punch" by a railroad "bull" only meant a few days in jail and a few good meals. Now it's all different and the floating element of the population, the "bo who prefers the "roads" to the "cushions," has strangely faded.

You Can Now Eat Your Favorite Food Without Any Fear

Kramer Says: "Eatonic" Rids Weak Stomachs of Acids, Gas, Heartburn, Food Repeating and Stomach Miseries

What miserable feelings are caused by an upset stomach! That dull, heavy, "bloated" sensation that follows a full meal, robs good living of half its pleasures. Is there any way out for you sufferers with stomach weakness?

Yes; H. L. Kramer, the man who originated Cascarets, has found a sure, quick, relief for indigestion, dyspepsia, "sour stomach," heart-burn, formation of painful gases, "bloating," etc., etc. He calls his stomach relief EATONIC, and it certainly is making a wonderful record. Countless thousands of people who formerly approached their meals with dread, now eat their fill of their favorite foods without fear of the after-effects.

Mr. Kramer says: "My EATONIC tablets are the solution of the age-old problem of indigestion and all forms of stomach misery.

Scenes of Prosperity Are Common in Western Canada

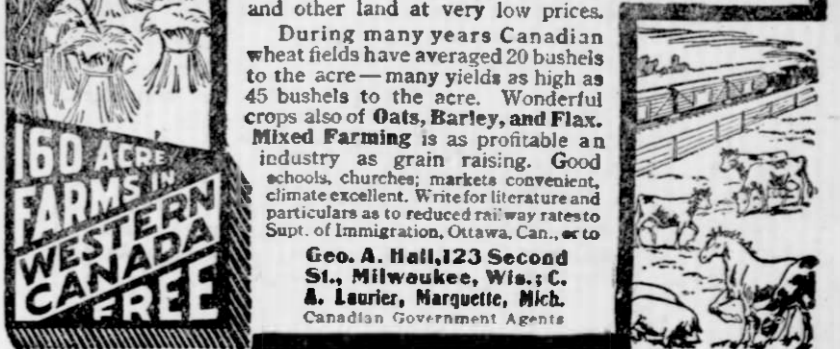

The thousands of U. S. farmers who have accepted Canada's generous offer to settle on homesteads or buy farm land in her provinces have been well repaid by bountiful crops of wheat and other grains.

Where you can buy good farm land at \$15 to \$30 per acre—get \$2 a bushel for wheat and raise 20 to 45 bushels to the acre you are bound to make money—that's what you can do in Western Canada.

In the provinces of Manitoba, Saskatchewan or Alberta you can get a **HOMESTEAD OF 160 ACRES FREE** and other land at very low prices.

During many years Canadian wheat fields have averaged 20 bushels to the acre—many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley, and Flax. NO

Greater Mistake can be made than in buying it is economy to buy the cheapest Harness and Collars, because the price seems to be low. The shoddy character of cheap goods takes away all apparent saving, and always conduces to dissatisfaction. I make a special point on the character of my goods. I positively deal in goods of reliable workmanship and A1 material. The lowest prices consistent with market conditions. I invite inspection of goods and prices.
