SUNDAY AUTO RIDES STOPPED BY THE U. S.

Washington Forbids Use of Gasoline for Motor Cars for Pleasure.

SOME EXCEPTIONS TO RULE

Tractors, Motortrucks, Physicians' Cars, Ambulances and Police Apparatus, Etc., Are Excepted.

Washington, Aug. 28.-The fuel administration called on the public east of the Mississippi river to stop using gasoline for passenger automobiles, motorcycles and motorboats on Sundays until further notice. Unless vol untary action on the part of the public improves the gasoline situation, notice is given that the administration will be obliged to enforce prohibitory regulations.

Automobiles for him, including taxicabs, are included in the class of motor vehicles that are expected to observe the request.

Some Exceptions to Rule. The following exceptions to the re-

quest are made: Tructors and motortrucks engaged in hauling of freight; physicians' automobiles, ambulances, fire and police apparatus; public utilities, repair wagons, gasoline railway equipment and motor vehicles used by persons living In rural communities without other means of transportation.

Chicago Will Be Hard Hit. Chicago, Aug. 28.-Under this new order Chicago joy-riders and private automobile owners, as well as taxicab companies will be called upon to sacrifice their pleasures and business to the more important cause of winning the war, Chicago being east of the Mississippi.

The steady stream of automobiles along the boulevards and lakeside drives on Sundays will cease, and those in quest of fresh air will have to fall back upon that old standby, the street car, or resort to their own limbs to carry them to their destination. But it will be not only patriotic, but also fashionable to walk on "joyriderless"

Thousands of Chicago owners, whose time is completely taken up during the week and who look forward to Sunday as their day of rest, will be hit hardest by the new order. No estimates of the extent of the effects of the order could be gotten this afternoon.

for Republican Nomination for United States Senator.

Detroit, Mich., Aug. 28.-Returns from nine out of forty-one precincts in St. Clair county, the first received from Tuesday's primary for the nomination of United States senator,

Republican-Newberry, 403; Ford, 167; Simpson, 22; Osborn, 92. Democratic-Ford, 33 Helme, 9.

As yet no industrial centers have been heard from, as the polis do not close until eight o'clock and ten o'colck in the cities, but reports from volunteer watchers to Newberry headquarters indicate that Ford is lagging behind, as in the agricultural regions. For second place the returns fluctuate between Ford and Charles S. Osborn. The figures so far in, while menger and scattering, come from typical country precincts and in each of them Newberry is given at least twice as many votes as Ford. The voting has been extremely light. The total poll, from every present indications, will not run up to 200,000.

AMBASSADOR FAGE RESIGNS

Health of United States Envoy Impaired by War Work in Great Britain.

Washington, Aug. 28.-Walter Hines Page of Garden City, N. Y., ambassador of the United States to Great Britain since April, 1913, has, because of ill health, submitted his resignation to President Wilson, who has accept-

London, Aug. 28.-Ambassador Page, who has resigned his office, has been in poor health for some months owing to the long strain of war work. He took a vacation of two months early in the summer, and then returned to London for a short time. He was unable, however, to keep engagements for public appearances and again found Nilo Pianco, France will send to Bra-It necessary to go to the country. He and Mrs. Page will soon return to

Insurgent Troops Win Successes Near Arnoy, Says Dispatch From Peking Sourrces.

Peking, Aug. 28.-Rebel forces have Peking, Aug. 27.-Rebel forces have gained successes against the govern ment troops near Amoy, according to reports reaching Peking from south China. The government troops in the province of Fukien, consequently, are said to have been placed in a dangerous position.

18 TO 45 DRAFT WINS IN HOUSE

Lor.jon of New York and Gordon of Ohio Oppose Measure.

FINAL VOTE WAS 336 TO 2

Farmers Are to Be Placed in Deferred Classes if Senate Accepts Amendment-Fight to Call Youths Last Fails.

Washington, Aug. 27.—By a vote of 336 to 2 the house passed the administration man-power bill on Saturday, making the draft age limit eighteen to forty-five years, substantially as drafted by the war department.

The only votes against the bill were cast by Representative Meyer London of New York, Socialist, and Representative Gordon of Ohio, Democrat.

The new man-power bill as passed by the house of representatives provides for extension of the army draft to men between the ages of eighteen and forty-five.

Amendments to the bill agreed to by the house provide that members of congress and state legislators are not amenable to the draft: that farmers are to be placed in deferred classes; that the provost marshal general may cause men to be re-examined after their cases have been decided by local boards, and that citizens of co-belligerent countries will be subject to the draft except where treaties would be violated.

An attempt to have men between the ages of eighteen and twenty called only after all in class 1 over thirty-one years have been called failed.

The senate failed to reach a vote, as had been expected. So many senators indicated a desire to discuss the bill that Senator Chamberlain of Oregon. chairman of the senate military affairs committee, foreseeing the impossibility of reaching a vote, asked that it go over until Monday.

The Gregg amendment, adopted Friday, making officers of the executive and legislative branches of the government subject to the draft, was defeated on a second vote, 143 to 89.

The house also voted down the amendment offered by Representative Madden of Illinois providing that no employee of the executive departments of the government should be granted exemption or deferred classification simply because of the nature of his employment.

Representative Black of Texas forced a showdown on the question of drafting workers who strike after heing exempted for essential industry. He proposed an amendment similar to that recommended by the senate mill-DEMOCRATS NOMINATE FORD tary affairs committee. It was rejected. 91 to 52,

igreed to an amendment offered by Representative Trendway of Massachusetts giving the provo t marshal general broader authority in dealing with local draft boards. The amendment would enable the provost marshal general, if dissatisfied with the work of a local board, to send a special examiner into the district to re examine the men in deferred classifications.

The Treadway, McCulloch and Campbell amendments, adopted Friday, constitute the only important changes made by the house in the bill. The McCulloch amendment orders the drafting of the resident subjects of nations co-belligerent with the United States unless they are specifically exempted by treaty. The Campbell amendment specifically authorizes the placing of persons engaged in agricultural occupations in deferred classes.

MINNESOTA GALE KILLS 34

One Hundred Hurt and 20 Missing When Tornado Wipes Out Business Section of Tyler.

Tyler, Minn., Aug. 24.-Thirty-four dead, 20 missing and 100 injured is the toll here of a tornado which swept this town and southeastern Minnesota Wednesday. The tornado tore through the heart of the town, sparing one building, a moving picture theater, in which 200 persons were sheltered. Eighteen persons were in a restaurant when the walls collapsed. Sixteen were killed and the other two were seriously injured. In addition to the business places, 40 residences, the hospital, electric light plant and other buildings were destroyed. Destruction of the electric light plant and the city water works, with the first shocks of storm, plunged the city in darkness.

RUSS WAR WITH U. S. CZECHS DEFEAT REDS

VICE CONSUL LOWERS FLAG AT SLOVAK FORCES TAKE TOWN OF PETROGRAD CONSULATE.

More American Troops Land at Vladivostok-Two Ally Councils Created for Russia.

Washington, Aug. 24.—Because the olshevik government declared a state f war exists between Russia and the United States, Vice Consul Imbrie has lowered the United States flag over the consulate at Petrograd, closed the consulate and placed the affairs of the United States in charge of the Norwegian government. Americans in Petrograd, of whom there are approximately twenty, have been warned to leave the country by the vice consul. Their houses were searched, one of them is under arrest and one is hiding. The Thirty-first regiment of regulars

bas arrived at Vladivostok from Manila. Secretary Baker announced. To co-ordinate the efforts of the allies and the United States in Russia inces of Siberia. an official dispatch from France says It has been decided to create two international councils, one at Archangel, including the entente ambassadors unat Vladivostok, to be composed of five council Great Britain will be repreented by Sir Charles Ellot, France by Eugene Renault, former ambassador to Japan, and Japan by M. Matsudira. It was said at the state department Officials Accused by Senate Body of that an American representative had not been named.

Serious Shortage of Unskilled Work ers for War Industries Is Put Up to the States.

Washington, Aug. 26,-At least one million unskilled laborers must be provided for war industries at once, no matter what happens to private busi-

That is the emphatic message sent out by the United States employment service to all the states. Every state has been notified of the quota of men it is called on to supply, some of whom will be put to work at home. and others sent away, as the conditions demand. These laborers are not to be taken from other war industries or from farms, railroads or mines.

The condition is decidedly serious and if the shortage is not met promptly our new army will be faced with additional instances of lack of equipment, such as became apparent last winter in the cantonments and camps, The new expansion of the army draft crease in the need for supplies of all sorts, and a consequent great increase in the demand for labor to make these supplies. The present shortage of labor became apparent when the federal empractice of "stealing" labor from one plant by another.

While the call now sent out is for force there will be laid off and the the Cubore. The West Bridge and plant moved out of Georgia.

AIRSHIP REPORT IMPERSONAL

Delay in Equipping the United States Army.

Washington, Aug. 24.-The long-MILLION LABORERS WANTED awaited report of the senate military subcommittee investigating aircraft production was submitted on Thursday with a scathing arraignment of delays in the early days of the war, a review of improved conditions and recommendations for the creation of a new separate department of aviation with

a cabinet officer at its head. Disclaiming wholesale condemnation of the aircraft program, the subcommittee praised much that has been accomplished and predicted:

"We are approaching a period when quantity production of planes soon may be hoped for." The report is impersonal and says all questions of dishonesty or official corruption are left HUNS MUTINY; MANY KILLED to the department of justice inquiry conducted by Charles E. Hughes.

The original \$640,000,000 appropriated by congress for aviation in July, 1917, says the report, has been exhausted and "practically wasted" with \$884,000,000 more found necessary.

18-45 DRAFT BILL UNITED STATES

Body Without Dissenting Vote.

All Efforts to Change the Age Limits of Youths Under Twenty-One Failed-Measure Now Goes to Conference.

Washington, Aug 28.—The manpower bill bringing within the army draft all men from eighteen to fortyfive years old was passed by the senate, with a modified work-or-fight clause. The senate was recorded unanimously for the bill. Senator Gore of Oklahoma, who cast the only negative vote on the roll call, withdrew it and was excused from voting. All efforts to change the age limits or to direct separate classification of youths under twenty-one failed, and the measure now goes to conference between the house and senate with no difference for serious controversy except the work-or-fight provision.

The only important amendment in the senate bill is the Thomas-Reed entistrike proposal. By a vote of 40 to 29 the senate rejected a motion made by Senator McKellar of Tennessee to strike the amendment from the bill. The amendment nullifies exemption granted to essential workers if they strike. Before adopting it finally. however, the senate agreed to the proviso offered by Senator Cummins of Iowa making the amendment inoperative if the strikers agree to submit their dispute to the war labor board,

Defeat 19-Year-Old Minimum. Amendments designed to restrain the war department in any manner in the drafting of men under twenty-one years of age were rejected in rapid succession, most of them without even a roll call. The main test of strength was on a proposal by Senator Poindexter of Washington to make nineteen years the minmum draft age. This was deftated by a vote of 52 to 21.

Goes to Conference Now. The bill will be sent to conference at once. With the antistrike amendment forming the only point of difference between the two houses, it is believed an agreement can be reached within a day or two.

As the situation stands today nothing seems likely to stand in the way of the war department's intention of fixing September 5 to 7 as the date of are completing their concentration on registration of the men made subject the Ussuri front, according to disto the draft under the new bill. There patches from Vladivostok. At Engeis every likelihood that the measure neuka, sailors supported by armored signature before the end of the week. the face of heavy artillery fire and

Kirby-Gore Changes Fail. Senator Kirby of Arkanses tried to the war department's program. He bolshevik troops remain in that region, proposed an amendment to prevent the use of men under nineteen years of age for overseas service, explaining that it was textually identical with the British law. The amnedment was

beaten by a rising vote. Senator Gore also offered an amend ment similar to the McKellar amendment beaten in the house to classify men under twenty-one years of age for last call. This was likewise rejected without a roll call.

An amendment proposed by Senator Fall of New Mexico to classify all men up to sixty years of age for both military and industrial service was voted down, 54 to 9.

Every Tenth Man in One Battalion Executed for Failure to Go to West Front.

Amsterdam, Aug. 28 .- There are persistent rumors from a German source, says the frontier correspondent of the Telegraaf, that a German battalion on being ordered to the front unanimously refused to go, whereupon every tenth man was shot. The others then gave up their resistance.

With the French Army in France, Aug. 28.—German soldiers released from captivity in Russia have begun to arrive on the western front, it has been learned from prisoners captured in re-

One hundred of these men, who returned to Germany through Ukraine, were sent to a reserve division. Eighteen deserted before the detachment of this has arisen in Georgia. That teen of the crew of the Lake Edon are got out of Germany, while three were killed in jumping from a railroad train. The others reached their destination in a refractory mood. All the prisoners from this division agree that the men returned from Russia make the poorest kind of re-enforcements. They are not only ill-humored, it is declared, but resent all discipline.

U. S. Envoy to Britain May Quit. London, Aug. 28.-Walter Hipes Page, the American ambassador to for the Emergency Fleet corporation. Three of her crew have reached shore. Great Britain, is about to sign on account of ill health, according to an announcement made here.

PASSES SENATE DRY NEXT JULY

Measure Approved by Upper President Asks Legislation Pending in Senate Be Extended Until After January 1.

HAS WORK OR FIGHT CLAUSE 'DRYS' AGREE TO THE DELAY

Senator Sheppard Declares Wilson Does Not Object to Action by Congress, but Discussed Extending Date of Restrictions.

Washington, Aug. 28.-President Wilson, senate prohibition leaders declared on Monday, is not opposed to legislation pending in the senute proposing national prohibition during the war, but has suggested that the proposed time for its becoming effective-January 1 next-be extended. Negotlations to that end, it was said, seemed to assure an agreement for the passage of the bill, and also for some extension of time to liquor interests

Later, after much cloakroom negotlation, leaders said the prohibition supporters had agreed to fix July 1 next as the date when prohibition would become effective. Although some of the bill's opponents were demanding a longer extension, representatives of both factions said it appeared probable that July 1 finally vould be agreed to.

Senator Sheppard of Texas, manager of the prohibition bill, stated, following a recent conference at the White House, that the president did not object to action by congress on the legislation, but discussed extending the effective date of the restrictions. July 1, 1919, was the new date suggested.

According to Senutor Sheppard, the bill's opponents concede its passage and the only question at issue now is the time when It will become effective.

The new date, it was said, would not interfere with government revenue collections on liquor for the fiscal year and thus avoid redrafting the war revenue bill, which is based on estimated returns of about \$900,000,000 from in-

GUNNER DEPEW

ALBERT N. DEPEW

Ex-Gunner and Chief Petty Officer, U.75. Navy Member of the Foreign Legion of France Captain Gun Turret, French Battleship Cassard Winner of the Croix de Guerre

Copyright, 1918, by Reilly and Britton Co., Through Special Arrangement With the George Matthew Adams Service

FOREWORD.

"Gunner Depew" is not a work of fiction, but it is more thrilling than any fiction you ever read. It is the true story of the experiences of an American boy who had a fighting career that is unique in the annals of the great war. It is a story crowded with fighting and adventure — big with human courage and endurance. It is the first war narrative that tells the true story of conditions in the German prison camps. It is a story that every American should and will read to the end.

CHAPTER I.

In the American Navy.

thought about them a whole lot and room as water-tender for a year. wanted to be a sailor-especially a sailor in the U. S. navy.

You might say I was brought up on the water.

to sea as cabin boy on the whaler petty officer, first-class gunner. Therifus, out of Boston. She was an old square-rigged sailing ship, built more for work than for speed. We were out four months on my first a sailor. Every sailor has a great deal and I never met a Frenchman who was cruise, and got knocked around a lot, of respect for the Swedes and Norespecially in a storm on the Newfound- wegians and Danes; they are born land Banks, where we lost our instruments, and had a hard time navigat- course, their navies are small. The out of bed to go to an all-night picture ing the ship. Whaling crews work on Germans were always known as clean chares and during the two years I was on the Therifus my shares amounted to fourteen hundred dollars.

Then I shipped as first-class helmsman on the British tramp Southerndown, a twin-screw steamer out of Liverpool. Many people are surprised that a fourteen-year-old boy should be helmsman on an ocean-going craft, but all over the world you will see young lads doing their trick at the wheel. I was on the Southerndown two years and in that time visited most of the important ports of Europe. There is nothing like a tramp steamer if you want to see the world. The Southerndown is the vessel that, in the fall of 1917, sighted a German U-boat rigged up like a sailing ship.

Although I liked visiting the foreign ports, I got tired of the Southerndown after a while and at the end of a voyage which landed me in New York I decided to get into the United States navy. After laying around for a week or two I enlisted and was assigned to duty as a second-class fireman.

People have said they thought I was sailors; that is, as in our navy and pretty small to be a fireman; they the British, their vessels were shiphave the idea that firemen must be big shape all the time, and were run as men. Well, I am 5 feet 71/2 inches in sweet as a clock. height, and when I was sixteen I was There is no use comparing the varijust as tall as I am now and weighed ous navies as to which is best; some 168 pounds. Washington - The American army is using 1,250,000 pounds of butter and 700,000 pounds of oleomargarine every month. A war department statement shows that soldiers stationed in this country have five times more butter than oleomargarine, while in France the quantities of butter and olemargarine are about equal, owing to the greater difficulty in obtaining high

grade butter. Washington - The licenses of Herman F. Mehl and George T. Williams, master and pilot respectively of the steamer Columbia which sank in the Illinois river near Peoria in July with the loss of nearly 100 lives, have been revoked, the steamboat inspection service has announced.

London - The American navy's air rine bases in Flanders started Aug. 15, with the bombing of Ostend. While details are lacking, it is said the oper-

emy Rifles by Means of Magnets.

Then There is the Scissors Plane, the Tally-Ho Cannon, and the Moon Veil-Aeronautics Favored by Inventors.

London.-Pushing the war on is the latest popular hobby. It's a great paper and dispatch to Inventions De- cured" of the idea. partment, British Ministry of Munitions. Some months later you will receive a polite notification informing you that your invention is receiving turned for correct address," a postcard for the wounded. This photo taken on their collective and "earnest atten-

Meanwhile your competitors have supplied suggestions for:

A shell to contain fleas or other vermin inoculated with disease.

The spraying of cement over soldiers no as to perrify them.

The throwing of live wire cables Pockets.

Germany should be attacked in one case by making a "tube" all the way, and in another by employing trained cormorants to fly to Essen and pick out the mortar from Krupp's

the nature of a lawn mower as large as a tank to make mincement of them.

The Scissors Plane a New Idea. The clouds are to be frozen artificially and guns mounted on them; heavy guns are to be suspended from captive balloons; the moon is to be covered with a big black balloon; airplanes are to be armed with scissors or scythes, like Bondicen's chariot, or to Says Kaiser Envies Hindenburg Poptrail bombs behind them on a long cord: heat rays are to be projected for the purpose of setting Zeppelins on fire; electric waves to paralyze the

One of the most popular suggestions antiaircraft gun, get the light on the unfortunately, the path of a shell is quite different from that of the ray of light. Most elaborate "decoy" schemes are sometimes worked out for the confusion of the enemy, compris-Ing in at least one case sham factories

Not unnuturally aeronautics have been favored by the inventors. Many they have suggested armor-plated balloons, the transport of artillery by airplane and of troops by balloon.

not a little attention. Proposals include go to her funeral, to show that it was vogel prison. a shell containing gravel to lay a pathway over mud; another containing irritant powder or sticky substance to hamper machine guns, and another for holding many thousand feet of wire, weights and a clock motor.

Many inventors of a device requiring a knowledge of ballistics betray no knowledge that such a science exists. By one scheme two guns are to be fired simultaneously, the whot being connected by a chain to which bombs and incendiary de old. clear that variations in powder or pounds in weight, and his luxuriant differences in wear would make it im- black hair became thin and turned

Then There Is the Relay Shell. Ically unsound, is the "relay shell," a In nid-air and expelling a small inmer shell, the object being to obtain nn increased range. The fact is that a shell in flight does not point directly along its trajectory, but makes an curacy of aim would be impossible. In the group of inventions coming services as surgeon to the Belgian

One Inventor Would Snatch En- under the head of motive power the majority are of the "overbalancing wheel" type, which dates from the thirteenth century. Power is to be obtained from other schemes of people walking about floors and up and down stairs; passenger lifts are to be used as power hammers, and power is to be generated from the flow of rain water from the rooms of houses.

Suggestions are also frequently received in connection with colored searchlights. The most remarkable proposition of all in connection with searchlights is perhaps that of a "black beam," whatever that may mean, for obscuring the moon.

Many inventors are absolutely imamusement. Perhaps you have a tume pervious to argument or explanation balloon to snatch the rifles from the and are always dissatisfied with the enemy's hands by means of suspended treatment they receive. In this remagnets; or, maybe, a few spare spect they contrast unfavorably with snakes to hurl into the trenches by a foreigner who submitted an engine pneumatic propulsion; or, perhaps, a which would not work, and concluded shell with a man inside it to steer it the correspondence with than'; and at the target. If so, pack in brown the admission that he was "completely

Postcard 12 Years in Mail.

This British official photograph de picts most strikingly the part that the Red Cross nurse is taking in the great conflict that is now raging. She braves the shot and shell of the German guns Poughkeepsie, N. DY MARY GRAHAM BONNER MR. GANDER'S STORY.

"They say we're stupid," said the

"Who says we're stupid?" asked Mrs. Goose.

"People, animals, everyone, everything," replied Mr. Gander. "And are they right?" asked Mrs.

"My dear, my dear, and after the work you have just done! How can you say such a thing! How can you! I do not understand."

"You say you are not supposed to understand easily," said Mrs. Goose. "You say as you are a goose you are

"But I am about to tell you that I don't think geese are stupid. They say to children who can't do their lessons, 'You're a goose.' That is they say so if they are a bit rude. I've been told though that they didn't mean it for rudeness, because they wanted to make the child study and become very very wise."

"Well, anway, I don't think they should say such a thing to children. I think they should say, 'Children, be clever, be geese!" "

"Perhaps they should say that," remarked Mrs. Goose, "but somehow I can't imagine it."

"I can't myself," said Mr. Gander, 'still it should be said."

"I don't see, my elf," said Mrs. loose, "why you are worrying about whether we are stupid or not. I don't re. It never bothers me. I don't like people or other animals very mell, and that is all there is to it. I not leave them alone, I do. If they other me. I will fight them."

"Ah, Mrs. Goose," said Mr. Gander, you don't know what goese can be

"I know what they are," she said. "That's so," cachied Mr. Gander, "but I have just heard a great and

'You're Not So Stupid as You Look."

noble story about geese and so I don't think they should be thought stupid any more.'

"Tell me the great and noble story." shrieked Mrs. Goose. "I would like to hear it."

"Of course you would like to hear it," said Mr. Gander. "And why, of course?" questioned

Mrs. Goose. "Because any creature," said Mr. Gander, "would like to hear such fine things of his or her own kind."

"Tell me the story," said Mrs. Goose, "I am eager to hear it, and you keep putting me off."

"I am not putting you off," said Mr. Gander, "but I am only adding to the

"How are you adding to the story when you haven't begun it?" asked Mrs. Goose. "Are you adding to it in your own mind?" "No, I am not," said Mr. Gander.

keeping you waiting to bear it. It makes you so eager and you will find it so much more interesting. "Well, there were some dangerous and wicked men about to hurt some

WORST IS IN FOODSTUFFS

Profiteering by Producers of Common Necessities, Bad Enough in 1916, Was Enormously Increased in 1917 in Most Instances.

Treasury Department.

HUGE PROFITS IN

Washington, Aug. 17 .- Amazing profits in almost every branch of American industry were brought to light when the treasury department completed its long-awaited report on prof-

The report covers 31,500 corporations, the names of which are withheld. It was prepared in response to the Borah resolution, adopted by the per cent. senate after President Wilson, in his revenue address to congress on May 27, declared that there was "abundant fuel for the light" in the treasury department with regard to profiteering.

The treasury department takes the position that it would be a violation of existing law to make public the names of corporations and their earnings. The senate resolution is not sufficient to suspend the law; it would require a joint resolution, the treasury department holds.

The most extraordinary profiteering revealed by the report was in foodstuffs. Producers of nearly all the common necessities of life were shown to have made enormously increased profits in 1917 over 1916, although their earnings in 1916 were in numerous cases far above the 100 per cent mark. Meat packers' profits were shown to have increased substantially. One large packer made \$19,000,000 more in 1917 than in 1916.

In the iron and steel industry sensational profits were disclosed. In coal and oil profits mounted to unparalleled figures. Public utilities of virtually every character also came in for a liberal share of the increased prosperity. Large Profits of Dairies,

Among the dairy concerns large increases of profits were shown. One company with \$600,000 capital made \$166,000 in 1917, against \$25,000 the year before. The small dairymen made the largest percentages of increased profits. One little concern with a capital of \$2,400 made \$11,659. as compared with \$4,000 for 1916.

Fruit and vegetable growing Industry's profits increased considerably over those for 1916, although they were fairly large for that year. One eoncern's profits were 240 per cent more for 1917 than for 1916. Concerns with small capital showed the largest

not so profitable, according to the re-"Didn't Peggy marry a literary turns. One concern with \$425,000 cap-Ital lost money.

Stock breeding showed substantially Increased profit in nearly all the concerns listed. The industry also showed large profits for the previous year. "Do you raise flowers, Mrs. Subb One concern's profits were 255 per Urbs?" asked Mrs. Sitty-Folks. "No, cent more in 1917 than in 1916.

A large number of industries listed 18 "miscellaneous agricultural industries" showed some strikingly large profits, beginning in 1916 and increas-"How is that aviator's room fixed lng rapidly in 1917.

Food Men Gain Riches. Of 216 concerns listed under the caption "Bread and other baking products," profiteering of an amazing character was shown. For example, one company capitalized at \$40,000 increased its profits from \$50,000 in 1916 to \$107,000 in 1917. Few of them showed increases of less than 20 per cent on their capital stock.

In the canning industry one company which earned 377 per cent in 1916 earned 1.047 per cent in 1917. Another, capitalized at \$93,000, made \$247,000 in 1917, against \$66,000 in 1916. A \$50,000 concern which made

\$25,000 in 1916 made \$142,000 in 1917. The manufacture of syrups, molasees and glucose netted much increased profit. One company with \$350,000 capital earned \$363,000 in 1917 against \$176,000 in 1916. Ice cream was an

especially big money maker. Of more than 500 flour, feed and grist mills listed only a few falled to show largely increased profits. One \$2,500,000 concern made \$752,000 in 1916 and \$1,200,000 in 1917.

There was a general upward rise in nost packing companies' profits. The argest concern listed had a capital of \$100,000,000, upon which it earned \$49,-000,000 in 1917, against \$30,000,000 in

Startling Profits in Leather.

Leather manufacturers, including the dealers in hides, and makers of boots and shoes and trunks and valises. made profits in 1916 and 1917 that are startling. One shoe manufacturing concern, with \$1,000,000 capital, made 313 per cent in 1916, but no excess in

Scores of boot and shoe manufacturing concerns, whose capital was from \$100,000 to \$1,000,000, made all he way from 20 to more than 1,000 per cent in 1916. The profits of the brewers ranged

from 25 to 175 per cent in 1916, and their excess profits in 1917 were from 5 to 50 per cent, most of the large breweries making an average profit of 42 to 50 per cent in 1916, and an excess profit of 10 per cent in 1917. The distillers of whiskies and spir-

400 per cent.

Coal Men Pile Up Wealth. The Pannsylvania and West Virginia soft coal mining companies made enormous excess profits in 1917, according to the report. The large companies all made profits in 1916 ranging from 25 to 150 per cent.

In 1917 all of the large bituminous operators, the report shows, made unusual profits. One mine made 1.626 per cent on its capital in 1916 and 4,337 per cent in 1917. Another made 1,872 per cent in 1916 and 5,983 per cent in

Profits of the midcontinent bituminous operators were smaller, averaging 50 per cent.

The big oil producing companies of Illinois, Indiana, New York, Pennsylvania, Ohio, Kentucky, Tennessee, and West Virginia made from 28 to 396 per cent in 1916 and enormous excess profits in 1917. The Texas. Oklahoma and Kansas oil companies showed similar profits for both years.

All of the garment manufacturers made gigantic profits in 1916, those for the larger companies ranging from 25 to 75 per cent that year. They showed excess profits in 1917 of from 5 to 55

Small dealers in flour and grain, with capital stock of from \$1,000 to \$8,000, made excess profits that ranged as high as 519 per cent. The report also shows that the small

dealers in furniture and other household goods made enormous profits last year, with excess profits as high as 350

Retail dealers in tobacco made enormous profits off the smokers of the country, the highest being 3.170 per cent, and the average approximately S0 per cent in 1916. These profits were doubled during 1917.

Auto Builders Wax Fat.

Most of the automobile companies hit high marks in earnings in 1916, but they went still higher in 1917. The largest listed, however, did not show any extraordinary increase in profits over those of 1916. One company with \$31,000,000 capital in 1916 earned \$17, 000,000, then boosted its capital stock to \$96,000,000 and then earned \$23, 000,000. A \$19,000,000 concern which earned \$4,608,000 in 1916 made \$5,258, 000 in 1917. A \$16,000,000 company made \$4,713,000 in 1917, against \$4,-109,000 in 1916.

A tin plate mill with \$49,000,000 capital made \$54,000,000 net profit in 1917, ngainst \$19,000,000 in 1916, or an increase of 72 per cent on its capital

Transportation, public utilities, and light and power companies, with very few exceptions, fured exceedingly well during 1916 and 1917. Their profits in 1916 generally ranged from 6 to 80 per cent on their capital stock, while they nearly all made excess profits in 1917 of from 3 to 35 per cent. Profits of the large public utilities companies in 1916 and 1917 ranged from 11 to 25 per cent.

Steam and electric railroads in 1916 made from 17 to 207 per cent profits, while in 1917 they made profits in Wheat, corn and barley growing was excess of 1916 that ranged between 15 and 20 per cent, according to the re-

Marine, fire, and life insurance con cerns enjoyed unusually large increases in profits. One company earned 493 per cent more on its capital stock in 1917 than in 1916. Another capitalized at \$700,000 increased Its income from \$324,000 in 1916 to \$3,778.000 in 1917.

How Dry Goods Men Fared.

A list of 2.092 clothing and dry goods merchants, including department stores, showed profits for 1917 in excess of those over 1916, as high as 191.43 per cent on the capital stock. The concerns making the enormous profits, however, were the smaller

Retail grocers and provision brokers made their enormous "war profits" in 1916, the report shows. The grocers made only a small profit in 1917 in excess of their 1916 profits. Of the 1,633 concerns listed in the report, however, only a dozen show profits of less than 20 per cent on their capital stock in 1916, the year before the United States entered the war, and the profits of some concerns that year were as high as 1.513 per cent. Most of the grocers, both large and small concerns, the report shows, made average profits in 1916 of from 50 to 200

London Police Quick to Act.

The smartness of the London police is commented upon in the description of an attempted suicide from Water oo bridge, "The Bridge of Sighs," A man jumped on the parapet, leaped in to the air, made a couple of loops and splashed into the Thames. Inside of a minute the price had picked him up with a motorooat and dispatched at officer to recover his hat and stick from the brid . He was duly charged next morning and remanded for at inquiry as to his sanity.

Worth the Money.

Corporal Frank Brunson of Omaha. Neb., a member of the 24th balloof company stationed at Camp Morrison Va., 1.000 miles away, wanted to see his new daughter who had just ar rived. Leave was granted but these were the instructions he had to follow on the way home: "Wire headquarters at every stop," Brunson said it was considerable trouble, but it was worth it to see "daddy's baby girl,"

John Made an Error, Looks Like. "They also serve who only stand and

Maybe you're right, John: maybe you're not; but they're not tranging up Its made profits in 1916 that ranged any service flags for the services and from 9 to 623 per cent, while their ext waiters.

VERMIN ATTRACTED BY FOOD

If No Scraps Are Around There Will Be Little Trouble With Ants or Roaches.

The surest way to keep a house free from ants is to leave no food lying about on shelves or in open places, where they can reach it. Ants go where they find food, and if the food supplies of the household are kept in ant-proof metal containers or in ice boxes, and if all foods that may happen to be scattered by children or others is cleaned up promptly, the ant on going fishing. nuisance will be slight. Cake, bread, sugar, meat, and like substances, are especially attractive to the ants, and

should be kept from them. Roaches will not frequent rooms unless they find some available food material, and if such materials can he kept from living rooms and offices or scrupulous care exercised to see that no such material is placed in drawers where it can leave an attrac tive odor or fragments of food, the roach nuisance can be largely restrict ed to places where food necessarily

Editor Finally Turned.

"And this," said the alleged old soldier, pestering a long-suffering editor who was an old soldier, "is where the Arabs were massed in front of us. "Here"-pointing to another place on a dirty pocket map-"is where our division was drawn up in zareba.

"We deployed in this direction, and our left wing was attacked by the enemy on this knoll. Just at this point I was wounded on the left shoulder, and a hundred yards further on I got my right arm shattered by a piece of one of our own shells, and-

A Bright Pupil. Teacher-Into what two great classs is the human race divided? Pupil-Motorists and pedestrians.

It's usually the parents' fault when the children would rather be some where else than at home.

Chicagoans reported 16 dog-bite cases in one day recently.

Illinois last year reported 22,241 fires with insurance of \$6.747.267.

MOTHERHOOD

Came to this Woman after Taking Lydia E. Pinkham's Vegetable Compound to

Restore Her Health Ellensburg, Wash .- "After I was married I was not well for a long time and a good deal of the time was not

able to go about. Our greatest desire was to have a child in our home and one day my husband came back from town with a bottle of Lydia E. Pink-ham's Vegetable wanted me to try it.

It brought relief I improved in health so I could do my housework; we now have a little one, all of which I owe to Lydia E. Pinkham's Vegetable Compound."— Mrs. O. S. Johnson, R. No. 8, Ellensburg, Wash.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years experience is at your service.

A Message to Mothers

OU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you: the doctors with souls and hearts; those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a num-ber of imitations on the market, and he is particularly interested in

Genuine Castoria always bears the signature of Chat Helithin

Packers' Profits Are Regulated

The public should understand that the profits of the packers have been limited by the Food Administration since November 1, 1917. For this purpose, the business of Swift & Company is now divided into three classes:

Class includes such products as beef, pork, mutton, oleomargarine and others that are essentially animal products. Profits are limited to 9 per cent of the capital employed in these departments, (includi g surplus and borrowed money), or not to exceed two and a half cents on each dollar of sales.

Class 2 in udes the soap, glue, fertilizer, and othe. departments more or less associa: with the meat bus ness. Many of the departments are in competition with outside businesses whose profits are not limited. Profits in this class capital employed.

Class 3 includes outside investments, such as those in stock yards, and the operation of packing plants in foreign countries. Profits in this class are not limited.

Total profits for all departments together in 1918 will probably be between three and four per cent on an increased volume of sales.

The restrictions absolutely guarantee a reasonable relation between live stock prices and wholesale meat prices, because the packer's profit cannot possibly average more than a fraction of a cent per pound of product.

Since the profits on meat (Class 1) are running only about 2 cents on each dollar of sales, we have to depend on the profits from soap, glue, fertilizer (Class 2, also limited) and other departments, (Class 3) to obtain reasonable earnings on capital.

Swift & Company is conducting its business so as to come within these limitations.

ord of our "War Governor":

Favored an embargo on arms, munitions and food. This would have prevented France, Italy, England and Belgium from preparing themselves against Prussian ag-

In a speech at Prairie du Chien, our "War Governor" said: rernor" said:
"In the fall of 1915, two years before
the declaration of war, at a time when the embargors are being discussed. I made the following statement to a Wisconsin audience: 'I believe in the interest of humanity it would be better if we would country in Europe, including bread, if that were necessary to starve out the war."

Opposed the selective druft law. The fol-

Opposed the selective draft inw. The following telegram to Senator La Follette, on April 10, 1917, bearing this out:

"I recommend that you oppose plan of conscription suggested by the general staff and separts by the pre-as being urged upon angress at this time. The state of Wisconsin stands ready to furnish its full quota of the National Guard as provided by the military-defense act of June 3, 1916, promptly, or any additional force required to meet the present requirements. We can recruit volunteers much faster than we are receiving equipment and supplies. The spirit of our troops will be much better if we adhere to the volunteer system, and we shall avoid sore spots at home if we defer conscription until it can be shown to be a military necessity. As a settlement is not ready for compulsory military and a frust that nothing will be done by Congress that will make the war unnecessarily unpopular with the people.

EMANUEL L. PHILIPP, Governor."

Opposed the American policy, a definite stand taken by him in the following telegram to the Philadelphia Public Ledger.

March 23, 1917:

"We are not interested in the causes

"We are not interested in the causes that lead to the war between the entente and central powers of Europe.

Our grievance against Germany rests entirely upon her interference with our commerce, growing out of her submarine blockade.

I believe it should be our policy to avoid European entanglements and keep ourselves in position to conclude a separate peace, here our grievances against German sheen attisfied.

We should not sacrifice Amrican liftupon European soil to settle disputchat do not concern us.

Therefore we should not send American soidlers across the Atlantic. For the present at least, our warfare should be directed against German submarines.

We should increase our naval strength as fast as possible by adding fighting ships and traitsports and raise an army of a million men in preparation of our defense in east that an invasion by Germany be attempted.

Congression in the control of the congression and nake a liberal reas a liberal reas and nake a liberal reas a liberal reas and nake a liberal reas a liberal reas a liberal reas and nake a liberal reas and nake a liberal reas a liberal reas

emergency. EMANUEL L. PHILIPP.

Our "War Governor" on the 25th day of June, 1917, appointed Meta Berger, wife of Victor Berger, as the moment on the central board of sducation, when Victor Berger had been a menur of the resolutions occumittee which reported into the Bectalist convention the plank in the Socialist platform which was a speed on the 15th day if April, 1917, declaring "We brand the declaration of war by our government as a crime inst people of the United States and against the nations of the world." He welcoed the will ox War Sur Tax Bill.

The record of SENATOR ROY P. WILCOX for loyalty, not only in the legislature, but on the platform, has been without a flaw, Since the close of the session of the legislature in July, 1917, he has devoted his entire time to war work. He has toured the state speaking for the Red Cross, Y. M. C. A. and K. of C. War Funds, also for the Loyalty Legion and spent three weeks with a Jackie Band in the Lake Shore counties in the Third Liberty Loan campaign,
