

Unlike Topsy— Swift & Company Has Not "Jest Grown"

Swift & Company, in fifty years of well ordered growth, has become one of the great national services because it has learned to do something for the American people which they needed to have done for them, in the way in which they preferred to have it done.

It has met each successive demand, in the changing conditions of national life, by getting good meat to increasing millions effectively, efficiently, economically, and expeditiously.

The Swift & Company packing plants, refrigerator cars, car routes, branch houses, organization, and personnel of today are the practical solutions, born of practical experience, to the food problems of half a century.

Because of all these elements working in correlation and unison, Swift & Company is able to supply more and better meat to more people than would have been possible otherwise, at a net profit per pound of meat so low (a fraction of a cent) that the consumer price is practically unaffected.

Strip away any portion of this vast, smooth-running human machine, and you make a large part of the meat supply uncertain, lose the benefit of half a century of fruitful experience, and scatter the intelligent energies of men who have devoted a life work toward meeting the needs of a nation in one vital field.

The booklet of preceding chapters in this story of the packing industry will be mailed on request to

BEECHWOOD

DEATH OF MRS. CHLOTTA KOTH
After an illness of two weeks duration with pneumonia, Mrs. Chlotta Koth (nee Schwartz) died at her home near Beechwood, at the ripe old age of 80 years, 9 months and 29 days. Mrs. Koth was born in Germany on January 8th, 1838. About 28 years ago she immigrated with her husband and family to America. Mrs. Koth resided in the town of Auburn, Fond du Lac county for a number of years and later moved to the town of Scott, Sheboygan county, in the year 1904, where she resided till the time of her death. 53 years ago she was married to Fred Koth, five children were born to them, two of whom died in infancy. Those surviving are, Marie (Mrs. Henry Henkel) at Milwaukee; Caroline, (Mrs. Henry Weber) of the town of Scott, Sheboygan county; and John at home. Deceased was one of the oldest settlers of Beechwood, she endured many of the hardships of pioneer days. Her kind disposition won for her many friends by whom she will be greatly missed. The funeral was held on Thursday, November 8th, at 1 p. m., with services in the Evangelical St. John's church at Beechwood. Rev. Koenen officiating. Interment was made in the Beechwood cemetery.

CARD OF THANKS

We wish to express our thanks to our neighbors, relatives and friends, to those who gave flowers, to Rev. Koenen for his kind words, and to all who tried to lighten our sorrow at the loss of our wife and mother.

WASHINGTON COUNTY SCHOOL COLUMN

pecially necessary. Teacher, will you do your whole duty well in these respects?
SCHOOL BOARD MEMBERS also have considerable responsibility regarding the health of the children. In the rush of work, they fail to realize how much they can help and that strong, healthy and well-developed bodies are even more important than what is learned from books. Sometimes school buildings are allowed to go a year or more without cleaning, suitable seats and desks are not provided, a supply of good water is not arranged for, and other health conditions are ignored. If the whole school board plans ahead to get such things done, some way will be found to have them right. Most districts manage that way, but some do not look ahead and provide for needed work and equipment. Then it becomes difficult to get things done at the last moment, so they are left undone.
Should we not realize how much proper care of the children now means to the future? Good health now means millions of dollars of expense later, and adds to the ability to work and to become better farmers, manufacturers, etc. Will you study these problems in your school district and make them right?
TEACHERS' RIGHT AND DUTIES in regard to sick children and diseases are not well known. This is also true in regard to parents and guardians. Health conditions are so serious just now that we publish Rules 17, 18, and 19 of the State Board of Health, school laws of 1912. (A careful study of these rules of the state board in this law book would be very helpful if the rules were followed.)
Rule 17—All teachers, school authorities and health officers having jurisdiction shall not permit the attendance in any private, parochial or public school of any pupil afflicted with a severe cough, a severe cold, itch, other vermin, or any contagious skin disease, or who is filthy in body or clothing, or who has any dangerous, contagious, or infectious diseases. The teachers in all schools, without delay, shall send home any pupil who is obviously sick even if the ailment is unknown, and said teachers shall inform the parents or guardian of said pupil, and also the local health officer as speedily as possible, and said health officer shall examine the case and take such action as is reasonable and necessary for the benefit of the pupils and to prevent the spread of infection. (List of diseases is omitted.)
Rule 18—Parents, guardians, or other persons having control of any child who is sick in any way, or who is afflicted with any disease in rule 17 shall not permit said child to attend any public, private or parochial school or to be present in any public place. Rule 19—School teachers, pupils, or other persons shall not be admitted to any public, private or parochial school who have come from, or who reside in any house or building which harbors or is infested with any disease in rule 17, or who have recently been afflicted with such diseases, unless they have the written permission of the local health officer having jurisdiction.
Let each one do the duty so plainly put before us.

The Man in the Tobacco Store Says

—it does beat all how men are taking to Real Gravely, now that they know it costs nothing extra to chew this class of tobacco. All you have to do is to get a man to take his first plug of Gravely. Let him get the pure, satisfying Grave-

ly taste, and learn for himself how much longer the small Gravely chew stays with him than a big chew of ordinary plug.

It goes further—that's why you can get the good taste of this class of tobacco without extra cost.
