# JAS. SMITH KILLED IN THE HAY

James Smith, aged 60 and a well known farmer of the town of Eden, was almost instantly killed at 1:40 o'clock Thursday afternoon in a runaway accident at his farm, a half a mile from Marblehead.

Mr. Smith was driving a rather spirited team attached to a side delivery hayrake and was at work throwing some hay into rows to be picked up with a loader. In some manner the rake tipped over, and the horses taking fright ran away.

Mr .Smith was thrown under the rake in such a manner that the forks entered his body and caused wounds which brought death in a very short space of time.

The deceased le children, Gordon Smith and Mrs. R. H. Briggs, also the following brothers and sisters, Thomas Smith, town assessor of Eden; Michael Smith, Eden; John and George Smith, Eden; Edw. Smith, Chicago; Mrs. James Dillon, of Fond du Lac; Mrs. Wm. Gibbons. Eden, and Mrs. Jennie Rossner, Cedar Rapids, Iowa.-Fond du Lac Commonwealth.

At Hart's tavern Barnes finds a stranded troupe of "barn-storming" actors, of which Lyndon Rushcroft is the star and "Miss Thackeray" the leading lady. He learns Green Fancy is a house of mystery. That night Andrew Roon and his servant, guests at the tavern. are shot near Green Fancy. Barnes comes under suspicion and stays to help clear up the double murder. He gets into the Green Fancy grounds; meets the mysterious girl, who gives him the cut direct, and is politely ejected by O'Dowa, an interesting adventurer. Enter at the tavern another man of mystery, Sprouse, "book agent." Barnes visits Green Fancy with the sheriff and stays to dinner. Enter still another mysterious personage, "Loeb," secretary to Curtis, owner of Green Fancy, who does not appear because of illness. Barnes again meets "Miss Cameron," the mysterious girl, who is a ravishing beauty in evening dress.

## Half the joy of life is in little things

MISS CELLANEOUS. Miss Cellaneous, though a small and dainty damsel, is one of the most extravagant. She never buys anything much over

bills they foot up. laneous, too, has to bear the burden in our expense account of the things we cannot remember about, because we must balance

our accounts. Five, ten, fifteen cents, or a quarter seems so little, so we go to the movie, buy a little candy, a magazine or a new ribbon, often things we do not need, and the sum mounts up to quite a showing at the end of a month. It is the smallness of the amount which is our undoing. The old saw which tells us to "look out for the pennies, for the pounds will take care of themselves," is one we should heed.

It is the experience of those who have observed, that the person who buys hothouse fruits and vegetables early in the season is the one who finds It necessary to call for help when it comes time to buy coal.

It is the little leak, the small bill that we need to watch, for most of us find it necessary to deliberate with caution when spending large amounts. One does not wish to be penurious or miserly, traits which are decidedly unpopular, but we must, if we live within our income, use discretion in our buying.

It is fully as inconsiderate for a weman to use the earnings of her husband in riotous spending. Our girls need training in marketing and shopping as well as in cooking and homemaking. No two families with the same income can follow the same rule of expenditure, for happily we all have individuality and like different things. Each housewife has her own problem to solve; she may get great help and inspiration by reading or by conference with other housekeepers, but her problem is hers alone to work out, and the efficient, up-to-date woman is constantly looking to improve her methods. In these days of high prices and stationary salaries we are called to put forth the best effort to make every cent do its full duty.

The Choice of Ideals.

Our ideals are not limited by our circumstances. The weakest and poorest and youngest can have the loftlest of aims, can aspire to the highest. Because you have not had as many school advantages as you would like, because you live in a plain, little house, and do commonplace work, that is no reason why your ideals should be commonplace. That millions of people are conscious of this handicap is evident from the continued appearance in newspapers and magazines of many suggestions proposing various remedies in food or medicine of exercises, either of which might or might not be appropriate for a given case.

Authorities, however, agree that healthy nerve tissue is absolutely essential to a strong, robust body and mind. hearthy fiesh, leaving ugly hollows, a flat chest, bony neck and scrawny arms and legs.

Our bodies need more phosphate than most of them are able to extract from the foods we eat nowadays, and many opinions affirm that there is nothing which may be taken into the human system that so effectively supplies this deficiency as the pure organic phosphate known as bitro-phosphate and soid by good druggists everywhere.

The essential phosphoric food elements in bitro-phosphate assimilated by the nerve cells should soon produce a pleasing change in nerve energy and hence increased vitality and strength. With the burdens of nervousness, sleeplessness, lack of energy, etc., lifted, normal weight with its attractive fullness and ruddy glow of health replaces the former picture of skin and bones.

CAUTION: — Although Bitro-Phosphate is unexcelled for the relief of nervousness and attendant disorders, owing to its tendency to increase weight, one should watch the scales while taking it unless it is the desire to put on fiesh.

Orders the Arrest of Eleven Big Beer Makers.

TAKE OUT BENCH WARRANTS

Information Charges Violation of the War Prohibition Law in Selling Ten Barrels of Beer to a Saloonkeeper.

Plttsburgh, July 10.-United States Attorney R. L. Crawford filed information against the Pittsburgh Brewing company in the United States district court charging violation of the war prohibition law

Federal Judge W. H. S. Thompson ssued summons to the company and bench warrants for the arrest of eleven officers of the company named in the information, and sent United States Marshal Short out to round them up. Warrants for Millionaires.

The men named in the warrants some of whom are millionaires, are: C. H. Ridall, E. J. Vilsack, W. P. Heckman, A. P. Behrenberg, E. H. Straub, A. H. Sunstein, L. P. Monohan, A. A. Freuenheim, E. W. Gwinner. Alois Winter and George A. Dickson. Up to two o'clock the deputy marshals had been unable to locate any of these men to serve the warrants. Then Charles A. Fagan, attorney for the

company, telephoned that he would appear with the eleven defendants in about an hour. Attorney Fagan and the eleven brew ing company officials appeared at the federal building shortly after three o'clock. After a conference in the office of United States Attorney Craw ford, it was announced that the defendants had agreed to appear in court

Mr. Crawford warned the defendants that pending their hearing Saturday all sales of beer to saloons meanwhile will be accounted for by the government and will be construed as so many additional violations of the law, should the case be decided against them.

The information charges that the company sold Daniel Olmstead, a local saloonkeeper, ten barrels of beer at \$17 a barrel "before the termination of demobilization of the United States army engaged in war with Germany," Tests of this beer are said to show that it contained more than one-half of 1 per cent alcohol, in violation of the war prohibition law.

# Save the Babies

NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save many of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. There can be no danger in the use of Castoria if it bears the signature of Chas. H. Fletcher as it contains no opistes or narcotics of any kind.

Genuine Castoria always bears the signature of Cast H. Fletcher.

# "Meats in Storage"

Every working day of the year 75,000,000 pounds of meat are required to supply home and export needs-and only 10 per cent of this is exported.

These facts must be kept in mind when considering the U.S. Bureau of Markets report that on June 1 1919, there were 1,348,000,000 pounds of meats in cold storage. If the meat in storage was placed on the market it would only be 20 days' supply.

This meat is not artificially withheld from trade channels to maintain or advance prices.

Meats in storage consist of-

65 per cent (approximate) hams, bacon, etc., in process of curing. It takes 30 to 90 days in pickle or salt to complete the process.

10 per cent is frozen pork that is to be cured later in the year.

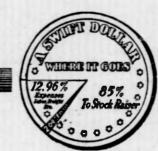

per cent is lard. This is only four-fifths of a pound per capita, and much of it will have to go to supply European needs.

19 per cent is frozen beef and lamb, part of which is owned by the Government and was intended chiefly for over-seas shipment. If this were all diverted to domestic trade channels, it would be only 11/2 lbs. per capita—a 3 days' supply.

From this it will be seen that "meats in storage" represent merely unfinished goods in process of curing and the working supply necessary to assure the consumer a steady flow of finished product.

DANGER-PROOF SELF-FEED ROLLERS-Here's another strong feature original with the "Plymouth." It consists of four large rollers of cast iron. The traveling feed chain passes over the lower hind roller, just passing the lower front roller, which is six inches in diameter, and smooth. The two upper and lower hind rollers are ribbed. The 8-inch automatic roller at the top, to the rear, is a special feature of the "Plymouth." It acts as a lever or weight to keep the fodder passing through continuously, depending on its own gravity to keep the material going through without a hitch. Two coil springs serve to exert an even and steady pressure on the automatic roller as the volume of fodder increases in going through. The spring feature is entirely automatic, and is only to be had in the "Plymouth." It absolutely prevents clogging.

# The Most Welcome Tire That Ever Came to Market

Men Who Appreciate Superlative Values Prefer The Brunswick

In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy adopted.

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern-noted as a leader in every line it entered since 1845 - has once more proved that its policy is right.

A perfect tire is simply a matter of knowledge and standards and skill. No secrets nor patents prevent making an ideal tire.

But standards come first. For in tire making there is vast room for skimping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

The Brunswick organization of tire makers includes a brilliant staff of technical experts. Not a man among them has spent less than 20 years in handling rubber.

Each is a master of his craft. And the new ideas they bring to the attention of Brunswick directors receive sincere consideration.

Every proved betterment is adopted unanimously.

The Brunswick Tire is a combination of acknowledged features plus Brunswick standards of manu-

The result is a super-tire, the like of which you have never known before. The kind of a tire you will gladly join in welcoming.

Yet Brunswicks cost no more than like-type tires.
