IVES GETS TWO YEARS

Raleigh Ives, whose case was on trial at West Bend last week, was found guilty by the jury of fourth degree manslaughter, and was sentenced to two years at Waupun, which is equivalent to 21 months on good behavior. The jury in finding him guilty of manslaughter in the fourth degree sustained the following contentions of the defense:

That the revolver held in the hands of Ives at the time he shot Loehr was accidentally or inadvertently discharged.

That he did not draw the revolver for the purpose of killing Loehr;

That he drew the revolver with the intention of "covering" Mr. Loehr;

That the revolver was discharged in the manner Ives claimed, that is, in the heat of passion produced by anger, loss of sleep, excessive drink and lack of food.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, O., is a constitutional remedy, is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

The home of Mr. and Mrs. Herman Schultz of the town of Scott was overshadowed with gloom of extreme sadness last week Thursday morning when the Angel of Death called from the family circle their oldest and beloved daughter, Laura, at the age of 18 years, 4 months, and 23 days. Deceased was operated upon for appendicitis about a week prior to her death for the removal of her appendix, and was getting along nicely, until a relapse came from which she could not recover. She was a graduate of the Campbellsport High School of the class of 1919. She was a bright scholar and well liked by her fellow students. Her death will be greatly mourned by all who were fortunate in making her acquaintance. She is survived by her grief stricken parents and two sisters, Florence and Marie. EXCAVATING STARTED FOR NEW FACTORY

The fact that Kewaskum will soon rank in the class with large manufacturing cities is becoming more and more realistic every day. The ground for the site of the Kewaskum Aluminum factory has been broken and excavation for the new plant is about completed. As soon as this is done, the foundation for the proposed factory will be built, and upon its completion work of putting up the factory building will be started. It is expected that within a period of three or four months the new building will be a reality.

The Rimmel Manufacturing company has also started to enlarge its plant. A new addition of 20 x 80 feet has been added to the north side of the foundry. A crew of cement workers are also at work laying the foundation for an addition of 20 x 120 feet to be built to the south side of the machine shop. Upon its completion, the new addition, together with the former hardware store will be used as the machine shop, and the room which is now being used for that purpose will be turned into an assembling room. The purpose of this change is to enable the company to speed up the production of corn huskers, cement mixers, grinders, etc.

The Theresa Union Telephone Company last week Saturday finished building the foundation for the new central station, on Main street, and this week have Contractor Albert Oppenorth and crew laying the brick for the new building. Contractor Martin Bassil and crew are doing the carpenter work. The new building will be a one story structure, 20 x 36 feet in dimensions, and will be built of red brick. When completed it will be one of the most modernly equipped and neat appearing central stations in this section of the state.

The work of building Herman Meilahn's new residence on West Water street is also progressing very rapidly and will be ready for occupancy by Christmas time.

Geo. Kippenhan's new residence on South Fond du Lac Ave., is nearing completion and will be ready for occupancy within a few weeks.

BAZAAR WELL UNDER WAY

The members of the Kewaskum Woman's Club, are making great headway toward making the bazaar which will be held at the Public Library on Thursday afternoon and evening, December 11th, 1919, a most successful affair. Quite a number of the members of the school district have commenced to realize that the building of a new high school will be a positive fact within the course of a few years, and have this week volunteered to render all assistance possible to help swell the sinking fund of the school, some of whom have expressed their willingness to bring different articles. This has been quite an encouraging inducement for the members of the Woman's Club, who have started with renewed vigor and precision to have the bazaar net at least several hundred dollars, this can be done at the rate they are now going, and will help in reducing the tax roll when the new building is being put up. There are still quite a number in the district who have thus far not been heard of, and who we know can help, if it's only a little, it all helps. Surely you don't want to be a slacker at this stage of the game, now is the time to show the interest you are taking in your school, the home where the foundation for the education of your children is made. Better consider this and get busy at once, you have only a few days left to do it in. If you can not afford to donate large and more expensive articles, the Woman's Club has decided to have a grab bag, for which a large number of smaller articles are wanted. All donations must be delivered at the library not later than three o'clock on Wednesday afternoon, December 10th. Bazaar will commence at three o'clock Thursday afternoon. A hot cup of coffee and sandwiches and cakes will be served.

CHRONIC SUFFERERS LIVE A MISERABLE LIFE

Bad Cases Get Quick Results From New Treatment.

Most people suffering from a chronic disease have it all their lives. They are miserable, they make their family and friends miserable, the irritable disposition of the chronic sufferers go from one doctor to another, try patent medicines and other worthless treatments, and still receive no help, until they finally give up in despair. There is a cause for all diseases and until this cause is discovered and removed there is no chance for the sufferer to get well.

Dr. Karass the well known Expert Specialist who visits our city each week, by his thorough examination gets at the direct cause of the disease, which he treats and thus cures the sufferer. The doctor treats all diseases of the heart, lungs, stomach, kidneys, liver, brain, nerves, skin, including rheumatism, epilepsy, lumbago, neuralgia, catarrh, asthma, deafness, head noises, weak lungs, stomach trouble, nervousness, head aches, bloating and special diseases.

The doctor treats without operation goitre, gall stones, piles, fistula, rupture, tumors, adenoids, enlarged tonsils, and special diseases of women. Examination free to all who call. No matter how long you have been sick, if you are suffering from some chronic disease, call on Dr. Karass for an examination, if he can cure you he will tell you so, if he finds your case incurable he will refuse to treat you. The doctor is in his office in the Republican House, Kewaskum, Wis., every Friday. Hours 9 A. M. to 12 noon Milwaukee office 413 Grand Ave.—Advertisement.

KEWASKUM WINS SECOND GAME

The strength of the Kewaskum Athletic Club Basket Ball team, was more firmly impressed upon the minds of the citizens of this village and the large crowd of fans that came from far and near to witness the contest last Saturday evening when they administered an overwhelming defeat to the Laf-a-Lots of North Fond du Lac, one of the strongest teams in Fond du Lac county, at the Opera House, by a score of 9 to 31. Evidently the visitors came here with the intentions of having an easy walk-away, and looked upon the contest as more of a preliminary or practice game. But after a few minutes of playing their glowing intentions soon came to grief, for when the crack local squad started to dig into their opponents with terrific speed, backed up with sensational team work and spectacular plays stunned the visitors, who then commenced to realize that a hard battle was before them. After about ten minutes of play our boys scored 12 points against the Fondys 2, with the former piling up the score faster and faster. Coach Clark of the Laf-a-Lots realized that the first defeat of the season for his supposed invincibles who are out after the state championship was at hand, and ordered his men to play a defensive game, to prevent an impending unmerciful defeat, at first resorting to a three men defensive, this however, proved to be too weak for the locals, who by this time were passing the ball all around their opponents, Mr. Clark then ordered a four men defensive, and at times in the second half, was compelled to use his entire team for that purpose to keep the locals from scoring, as a result the visitors were only able to score two points in the last half. When the final whistle blew at the end of the second half, the Fond du Lac aggregation, although taking their defeat in a very sportsmanlike manner, were certainly a surprised and stunned outfit. So completely were they played off their feet at times that it was difficult for them to find either the ball or their opponents. The Laf-a-Lots freely admitted that this village is represented by a team possessed with wonderful endurance and speed, every man being a star player. A basket ball team of which the citizens of Kewaskum can well feel proud, and further stated that they ought to be an easy winner nine times out of every ten games they play.

The locals have an open date on the home floor for Dec. 19th, and would like to hear from Hartford, West Bend and Lomira particularly. Tonight (Saturday) Nov. 29, the home team will have another hard tussle, when they will meet the strong Port Washington Maroons of Port Washington at the Opera House. The Maroons are the champions of Ozaukee county and are determined not to have Kewaskum take that crown away from them. It will be remembered that the Maroons held the state amateur championship for several years, and for the local quintette win this game will mean quite a feather in their hats. Reports were brought to this office every day this week of the large number of fans who are contemplating on seeing the game tonight. A record crowd is looked forward to by the management of the team. A social hop will follow the contest.

Next week Friday the locals will play at North Fond du Lac, and on Friday, Dec. 12, they will journey to Port Washington, both trips will be made by automobiles.

HIGH SCHOOL WINS OPENER

On Friday evening the High School basket ball team, won their opening game of the season in a very interesting and exciting game with the Mayville High School by a score of 16 to 22. Both teams started out in whirlwind fashion and the first half was very close, neither side being able to gain a safe lead. In the second half however, the locals came back strong and commenced to take the lead which they were successful in holding until the final whistle blew.

MARRIAGES SOLEMNIZED

Last week Saturday afternoon, Nov. 22nd, at three o'clock, Rev. H. Erber of Fillmore tied the nuptial knot of Miss Amelia Schmitt, only daughter of Mr. and Mrs. Christ. Schmitt and Henry H. Terlinden, son of Mr. and Mrs. Peter Terlinden. The bride was beautifully dressed in a white crepe de chine gown with all over net, and wore a bouquet of pink roses and ferns. She was attended by Miss Anna Terlinden as maid of honor, who wore a pink taffeta dress trimmed with silver lace and beads, and carried a bouquet of white carnations. Miss Lona Christian was bridesmaid and wore a pink taffeta dress trimmed with silver lace and beads, and carried a bouquet of white carnations. The groom was attended by John Schmitt as best man and Ben Terlinden as usher. The young couple will make their future home on the groom's farm at West Island.

On Tuesday morning at 8 o'clock, Emmett Curran, son of Thomas Curran, a prominent citizen of Campbellsport was married to Miss Estella Blackbird, daughter of J. J. Blackbird of North Fond du Lac, at the Church of the Presentation. Rev. Heller officiated. The bride was dressed in a brown suit trimmed with fur, and wore a large picture hat to match and carried a gold rosary. The wedding march was played by Miss Rose Bay. Solos were rendered by M. Arndt. After the ceremony a wedding breakfast was served to about twenty guests at the home of the bride. The home was decorated in pink and white and Ophelia roses.

"EVANGELINE" FILM A GENUINE TREAT

"Evangeline", the Wm. Fox motion picture version of Henry Wadsworth Longfellow's immortal poem, which will be held at the Opera House here on Tuesday evening, Dec. 2nd, is unquestionably the finest film achievement seen on the screen for a long time.

Its outstanding features are its fidelity to the poem, the wondrous beauty of many of its scenes and the exceptionally capable interpretation of the little role by Miriam Cooper, long a favorite film actress.

As everybody who reads knows—or ought to know—the story deals with the exile of the Acadians from their native land, with their subsequent wanderings in what now is the United States, and with the love of Evangeline and Gabriel—the latter well played by Albert Roscoe.

The picture is a delight to the eye—a pictorial as well as an intellectual treat.

ITEMS OF INTEREST FROM THE LOCAL HIGH SCHOOL

Lorinda Schaefer was a High School visitor Wednesday.

A Glee Club has been organized and now meets every Wednesday night after school.

The German Science class is studying the structure of leaves with a microscope this week.

The Seniors have begun Part III, "National Versus Sectional Interests" in American History.

The Seniors are having an exciting time selecting class rings. To them it seems a matter of life and death.

Most of the pupils don't approve of having school the day after Thanksgiving. There must be some hidden reason.

The Sophomore class is 'up to the cars' in "David Copperfield." Oh boy, that's a peach of a story, what I mean, eh Ray!

Harvey Backus returned to school on Wednesday after having an operation performed on his arm. We had certainly missed his cheerful grin.

Teacher (Ancient History Class) "Tell about the expulsion of the Kings."

"Oh, I only studied up to the expulsion of the Kings."

Teacher: "How many days before the real election is the primary election held?"

Pupil: "Fifteen days."

Teacher: "A little sooner than that."

Pupil: "Ten days."

Fritz, you can get a very good brand of cough drops at Heppes delicatessen store. Have you ever heard such a thing as a lemon interrupting the Luvis and Clark expedition? No the Seniors are convinced of the fact!

The Junior Literature class is reading "The House of Seven Gables" and memorizing selections from "Hamlet." The opening words of the soliloquy "To be, or not to be—that is the question" seem to issue from the very walls of the classrooms provided there is a Junior in 'earshot'.

The basket ball game between Mayville and Kewaskum turned out in favor of our team, score 16 to 22. The Mayville team was certainly a fair match for our boys. They were good sports and took their defeat in a most gentlemanly way. The game goes to show that our boys have had a lot of hard practicing and deserve every success coming their way. And don't forget the school yells was enough to drown out a regiment of "Big Bens" and second hand flivvers.

BADGER STATE HAPPENINGS

Madison — J. N. Tittlemore, Omro, made a cleanup against the Nonpartisan league, when he was re-elected president of the Equity association, at its convention here. He won on the second ballot, and the convention named J. A. Rayburn, Dun county, one of his lieutenants, vice-president.

Antigo — The Yawkey-Bissell Co., which operates a saw mill and planing mill at White Lake, purchased from Lottie I. Hollister, C. W. Hollister and R. A. Hollister, heirs of the estate of S. W. Hollister, more than 2,000 acres of timber land in the eastern part of Langlade county.

La Crosse — Arthur Peters, Superior, served a thirty-minute sentence in the federal court room here. He was convicted in 1916 of a minor infraction of the postal laws, but Judge Landis failed to sentence him.

Fond du Lac — Wisconsin Guernsey cattle will constitute part of the foundation stock being used to establish herds of purebred Guernseys in Japan. The manager of the Tokio Dairy corporation visited Rosendale and inspected the Birchwood Guernsey herd, owned by M. L. Welles.

Superior — Superior must pay 79.45 per cent of the county tax of \$369,419.24, according to the report of the county equalization board. The large burden carried by Superior is due to the fact that it is the only city in Douglas county, with only 19 towns in the county.

Oconto — The county board voted, 23 to 7, for a bond issue of \$1,325,000 for grading, draining and surfacing with concrete 60 miles of federal highways, and called a special election for Dec. 23 to allow the people to vote on the issue.

Oconto — Thomas A. Delaney of Oconto, formerly a member of the Wisconsin legislature, and for five years police judge at Oconto, is appointed national prohibition enforcement officer for Wisconsin.

Manitowoc — Louis Shamburek paid a fine and costs of \$35.35 for having skunk skins in his possession. The complaint was brought by John Egan, state game warden, and Shamburek pleaded guilty and paid.

Madison — A conference was called by the state railroad commission to consider extension into rural communities of electric service and the formulation of rules governing the same.

CLEARLY WITHOUT THE LAW KNEW HE WOULD BE THERE

Wise Judge Quickly Pointed Out Why Musician Was Manifestly Guilty of Loafing.

A man was brought into court recently under the anti-loafing law. The judge looked at him for a moment and then asked:

"What is your occupation?"

"I am a musician, your honor," was the reply.

"In that case I'll have to find you guilty of loafing."

"But, your honor," protested the man, "I'm regularly employed by the church as an organist."

"That only confirms my opinion," said the judge. "The law requires every man to work, but your occupation requires you to play."

Quaint and Ancient.

While chatting with a group of women there was in the party a young woman of uncertain age. I expressed my admiration for a quaint little lock- et she was wearing. She smiled and told me she had possessed it since she was a baby, whereupon I thoughtlessly exclaimed: "I just love old things!" When I realized what I had said, there was an embarrassing silence until someone managed to change the subject.—Chicago Tribune.

Hold Up.

"Here's a man who was held up in a taxi." "How much did the chauffeur charge him?"—Judge.

Innkeeper Evidently Had Implicit Faith in the Punctuality of His Coming Guest.

An old Englishman, James Scott by name, traveled about on business until he was nearly eighty years of age. He became celebrated for his punctuality and methodical habits. Upon one occasion a gentleman stopped at an inn much frequented by Mr. Scott and saw a fine fowl cooking.

"That looks very good," said the hungry guest. "You may serve that for my dinner."

"You cannot have that, sir," replied the landlord. "That is being cooked for Mr. Scott the traveler."

"I know Mr. Scott very well," said the gentleman. "Is he stopping here?"

"Oh, no, sir," answered the landlord. "But six months ago he ordered a fowl to be ready for him at precisely two o'clock today, and we are expecting him every minute."

Too Sudden.

"A man should learn to say, 'No.'" "Perhaps," assented Senator Sorghum, thoughtfully; "and yet a man in my position would never be forgiven for bringing an interesting argument to a close in so lucid and conclusive a manner."

Illiterature.

"Slang seems to sell well." "Yeah. The thing now is to be illiterary."

MINE WAGE MUST NOT GOUGE PUBLIC

Fuel Administration Lays Down Principles to Coal Men.

CABINET WILL TAKE ACTION

Government to Force Agreement Between Operators and Miners Instead of Seizing Pits—Europe Must Also Be Considered.

Washington, Nov. 25.—The cabinet will take action to bring to an end the negotiations between the coal operators and the miners which have been dragging on for 11 days without result.

This became definitely known when Dr. Harry A. Garfield, United States fuel administrator, called the operators and the miners together and laid down certain principles which he said were governing him and his associates in reckoning wage increases and prices in the coal industry.

Doctor Garfield said that the principles, which were unaccompanied by any figures, should likewise govern the operators and the miners in reaching an agreement. He told them that after the cabinet meeting they would be given something more definite.

This means that the government through the cabinet is ready to tell the miners and the operators just how much of an increase in wages the consuming public will stand, and that having done this, the operators and the miners will be expected to reach an agreement without further delay, so that normal production of coal may be resumed.

Doctor Garfield called the operators together after having spent the greater part of the day in conference with Attorney General Palmer and Director General of Railroads Hines, going over the situation. His principles are taken to be virtually those of the majority of the cabinet.

Must Not Raise Price.

Doctor Garfield told the operators and the miners that the public must not be asked to pay more for coal than necessary to provide reasonable wages and reasonable profits. He reinforced this by declaring that the public will not pay the increase over normal profits allowed during the war for the purpose of stimulating production.

He injected a new principle into the conference that the needs of the United States were not only to be considered but also those of Europe. Here is Doctor Garfield's announcement of principles:

"1. The public must not be asked to pay more than it is now paying for coal unless it is necessary to do so in order to provide reasonable wages to the mine workers, and a reasonable profit to the operators.

"2. The arrangement entered into between the operators, the mine workers and the fuel administrator with the sanction of the president of the United States in October, 1917, was intended to equalize the wages of all classes of mine workers and to be sufficient to cover the period of the war, but not beyond March 31, 1920; hence the only increase in cost of living which can now be considered is the increase above that provided for by the average increase in 1917; that is to say, the average total increase in pay over the 1913 base, which was the base considered in 1917, should not exceed the present average increase in the cost of living over the same base. It is also to be considered that the cost of living will fall rather than rise during the next few years.

"3. The maximum prices fixed by the government on coal in 1917 were calculated to increase production of coal for war purposes. Coal was basic and the increase imperative. The public ought not to be asked to pay and will not now pay the increase over normal profits then allowed for the purpose of stimulating production.

"4. Any increases in wages now arrived at on the basis of the foregoing principles should be borne by the operators or the public or both as may be determined by the application of these principles and should take effect as of the date when the men return to work.

"5. The needs of the United States are not alone to be considered; Europe is in desperate need of coal and should have all we can spare."

Following Doctor Garfield's announcement an adjournment of the joint conference was taken immediately. The operators then went into executive session. The miners said they did not expect to meet again until morning.

TORPEDOED!

Don't blast your Liver and Bowels, but take "Cascarets."

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach and colds.

Are you keeping your liver and bowels clean with Cascarets, or shocking your insides every few days with Calomel, Salts, Oil and violent pills?

Cascarets work while you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels. Cascarets never gripe, sicken or cause inconvenience and Cascarets cost so little too.—Adv.

Mysterious Theft of Diamonds.

Precious stones, worth almost \$500,000, in transit between London and Ceylon, have disappeared. This is said to be the biggest robbery of its kind between London and the East, though there have been many greater between other places. The famous pearl necklace case between London and Paris of a few years ago, in which the pearls were replaced by lumps of sugar, involved an amount of \$740,000.

There is a remarkable resemblance between this case and that on the Nagoya, which occurred last July. On that occasion diamonds worth \$250,000 were stolen from the vessel in transit to India.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Subtle Scheme.

"I have often thought, Mrs. Welfare-worker, that it would be an admirable idea to get intoxicated, get arrested, and thus be able to write up what happens to these members of the world's unfortunates."

"Well?" said the rich lady. "Could you supply the necessary liquor?"—Louisville Courier-Journal.

Very Necessary.

"Walter, there is sand on this bread."

"Oh, that's to keep the butter from slipping off."

Mother! You must say "California!"—Adv.

Fair Warning.

"What party do you belong to?" asked Judge Sogersby of the new arrival in Chiggeraville.

"I'm a Republican, sir," replied the stranger, "and proud of it."

"That's all right," said the judge.

"I'm a peaceable man myself and don't believe in meddlin' with another person's political or religious beliefs, but this is a Democratic stronghold and there are a lot of other people about here who ain't so easy goin' in their habits and dispositions. If you want to do any crowin' I'd advise you to get in the middle of a 40-acre field and make it a sort of soliloquy."—Birmingham Age-Herald.

Warm shod—dry shod—clean shod

The new "U.S." Walrus means all three

HERE at last is the overshoe that combines all the qualities you've always wanted! Look it over—it's the new U.S. Walrus.

It's an all-rubber overshoe that's absolutely waterproof. It's got a warm, snug-fitting fleece lining. It's convenient because you slip it right over your leather shoe—then push it off with your toe when you're through.

Best of all, the U.S. Walrus can be instantly cleaned. You can work for hours in the stickiest barnyard mire; then a pail of water or a rinse at the pump washes the U.S. Walrus clean—removes every trace of mud from its smooth rubber surface.

The comfort and convenience of the U.S. Walrus are backed up by real strength. A staff of experts have designed it—have made it an overshoe that is built to last. At every single

point where the wear is hardest, the U.S. Walrus is heavily reinforced.

Your feet will always be warm—dry—clean shod with the U.S. Walrus. In every way, it's the farmers' ideal overshoe.

Ask your dealer to-day to show you the new U.S. Walrus. After you've worn a pair for a day or so, you'll realize why they're fast becoming so popular with farmers everywhere.

Other "U.S." models—all built for the hardest wear

Whether you prefer a boot or a bootie for the wet season, a "rubber" for general use, or a cloth-top arctic—you can find in U.S. rubber footwear exactly what you need.

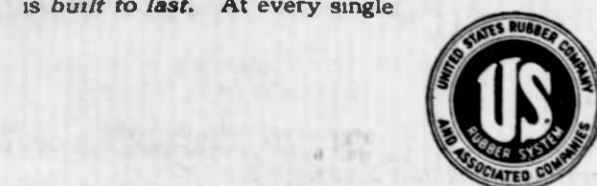

Tough, heavy soles—special reinforcements at toe and heel—and always the highest quality rubber—these points are winning U.S. rubber footwear thousands of new friends every year. Look for the U.S. seal—it means solid wear and long service for your money.

"U.S." Arctic—made of snow-tight cashmerette, warm and comfortable. Reinforced where the wear is hardest. In one, two, four, and six buckles, all weights and sizes.

"U.S." Felt Boots—made of heavy, finest quality felt, all sizes. For wear with one- and two-buckle U.S. Perfection.

SENATE DEFEATS THE PEACE TREATY; ADJOURNS SINE DIE

Bitter Battle Is Waged Over the Lodge Reservations.

PACT PROBABLY IS DEAD

Under Its Parliamentary Status It Could Be Re-Submitted to Next Session Which Will Convene on December 1, and Await Its Turn.

Washington, Nov. 20.—The treaty of peace with Germany was rejected by the senate. On the final vote taken on the Lodge reservation ratification was refused by the vote of 43 to 51.

The senate then adjourned sine die and, the house having taken similar action earlier in the day, the extra session called by President Wilson to consider the treaty came to an end.

Under the parliamentary maneuvering of the Republican majority the treaty was forced into such a situation that it cannot be again considered unless the president should choose to re-submit it to the senate at the session which opens December 1.

If re-submitted, it will again go to the foreign relations committee, where in all probability it will be held for a long time while railroad legislation and other matters are being considered.

Peace Resolution Introduced.

In the meantime, to meet the situation brought about by rejection of the treaty, Senator Lodge introduced just before adjournment a concurrent resolution declaring the war with Germany at an end.

This resolution will be taken up at the beginning of the new session and probably passed.

The defeat of the treaty was brought about by the votes of 38 Democratic and 13 Republican senators. The Republicans who voted against ratification were senators who have been from the very outset of the treaty fight against the document. All of the Democrats except Senator Reed of Missouri were friends of the treaty, but yielded to the request of President Wilson for rejection of the Lodge reservation because of the reservations which it contained.

The Republicans who voted against ratification were:

Senators Borah, Brandegee, Fernald, France, Gronna, Johnson of California, Knox, La Follette, McCormick, Moses, Norris, Poindexter and Sherman.

Democrats who declined to obey the instructions of the president and voted for ratification were Senators Gore, Myers, Owen and Pomerene.

Marshall Overruled Three Times.

Three times in the parliamentary skirmish was the vice president overruled by vote of the senate for decisions he made with regard to the procedure. The crucial test came when Vice President Marshall ruled that the treaty was still before the senate and that the Lodge resolution having been rejected it was in order for Senator Hitchcock to present an alternative resolution.

Upon this ruling the vice president was overruled by the vote of 50 to 43. This closed the door to any attempts to compromise and placed the administration senators in the position where they were compelled to vote again on the Lodge resolution and vote to accept the treaty with those reservations or get no treaty at all.

During the long debate that followed, Senators Hitchcock, Swanson and others in the administration following made frantic but fruitless efforts to effect a compromise on the Lodge reservations. They conferred with Senators Lodge, Watson, Lenroot and others, but made no progress, the Lodge forces standing firmly against any attempt to swerve them from the program to which they were committed.

Efforts to Place Blame.

In the speeches that were made while the final vote on the Lodge resolution was pending, senators on both sides made efforts to place the blame for failure to ratify the treaty. Some of the mild reservationists blamed the administration men for not having arrived at the conclusion earlier in the fight that ratification without reservations was impossible and asserted that if they had done so a compromise might have been effected.

In a final effort at conciliation Senator Pomerene at 9:15 p. m. moved to refer the treaty to a "committee on conciliation" consisting of six senators, including Senators Lodge and Hitchcock. This motion was defeated by means of a motion by Senator La Follette to lay it on the table.

Senator Hoke Smith of Georgia then sought to avert the impending rejection of the treaty by suggesting that the senate adjourn over night so that both sides might get together. This motion was defeated by the vote of 42 to 48.

Original Pact Defeated.

After the second vote on the Lodge resolution showed that the treaty stood no possible chance of ratification, Senator Lodge yielded to a request made by Senator Underwood for

a vote on ratification without reservations. This was defeated, 38 to 53. By making a motion to reconsider this vote and then lay that motion on the table, which was carried, Senator Lodge placed the last barrier against any attempt to bring the treaty again before the senate without action by the president.

The great feature of the day's debate was a speech by Senator Borah of Idaho, which was made at a time when it appeared as though ratification might be accomplished. In his speech the senator warned the senate of the results that would follow departure from the policies of Washington and other founders of the republic. His speech, stirring in its eloquence and forceful in its logic, made a profound impression upon the senate.

Result of First Vote.

Ratification of the peace treaty, with the reservations framed by the Republican majority and objected to by President Wilson, was voted down in the senate earlier in the evening, with the administration senators lining up solidly against it.

The result was to place the treaty in a parliamentary status, which its enemies said amounted at least temporarily to rejection. Its friends, however, had hopes of reviving it at another session of congress.

The ratification resolution, which would have required a two-thirds majority for adoption, mustered only 39 votes to 55 against it. Its supporters were 35 Republicans, 4 Democrats, and its opponents 13 Republicans and 42 Democrats.

A Democratic move to have the treaty referred to a conciliation committee composed of Democrats and Republicans was defeated.

Way Clear for Compromise.

The vote cleared the way for the consideration of possible compromise proposals acceptable to the majority of the Democrats and the mild reservation group of Republicans.

Republicans against adoption were: Borah, Brandegee, Fernald, France, Gronna, Johnson of California, Knox, La Follette, McCormick, Moses, Norris, Poindexter and Sherman.

In order to put the treaty into a parliamentary situation where another vote could be had after efforts at compromise the senate then voted to reconsider its action. The motion was made by Senator Reed, Democrat, Missouri, and was adopted by the vote of the Democrats and mild reservation Republicans.

The vote on the motion to reconsider was 62 to 30.

The effect of the reconsideration was merely to bring the committee resolution back to the same status it occupied before the ratification roll call.

An effort by Democratic Leader Hitchcock to have the senate adjourn at this stage failed, the mild reservationists lining up with the other Republicans against the adjournment motion, which was defeated, 51 to 42.

Senator Hitchcock sought to offer a set of compromise reservations, but a point of order by Republican Leader Lodge blocked him.

Vice President Marshall ruled that the reservations were in order and that the treaty, by the reconsideration, had been brought back into committee of the whole. Senator Lodge appealed from the ruling.

By a party vote of 51 to 42 the decision of the chair was overruled.

The vote having established that the treaty was in the senate itself and not in a committee of the whole Senator Hitchcock offered a resolution of unreserved ratification, against which Senator Poindexter (Rep.) of Washington made a point of order. The vice president overruled the objection and an appeal again was taken.

The senate again overruled the vice president. By a vote of 50 to 43 the senate a third time overruled the chair's ruling that amendments to the Lodge reservation might be presented. Senator McCumber (Rep.) North Dakota, voted with the Democrats to sustain the vice president, and Senators Gore, Reed and Shields voted with the Republicans against it.

Senator McCumber moved to strike out the requirement that the reservations must be accepted by their powers. Senator Lodge made a point of order, which Vice President Marshall overruled, and another appeal to the senate was taken.

With the same lineup as before the senate again overruled the vice president's ruling, thus cutting off the McCumber motion. The vote was 50 to 43.

Still Alive, Says Hitchcock.

Senator Hitchcock said, following the senate's adjournment, that the action of that body on the treaty has not killed it, and that he expects it will be re-submitted to congress by the president at the next session.

"The president can send it back," declared Senator Hitchcock. "I do not, however, know what course he will follow. I have not been in communication with the president since the action taken by the senate."

Senator Lodge considers the treaty dead, as was shown by his reply when asked his opinion of the present status of the treaty. He said:

"It is dead in this senate. They killed it, just as I told them they would if they voted against it."

Senator Lodge did not deny, however, that the president has the power to re-submit the covenant.

ATTRACTED HIS ATTENTION AT LAST

U. S. FIGHTS H. C. L. WARNING FOR MEXICO

DEPARTMENT OF JUSTICE TO STOP PROFITEERING.

Special Assistant Attorney General Tells How Government Is Proceeding to Reduce Household Bills.

Washington, Nov. 24.—The department of justice is conducting a campaign against the high cost of living. Practically all of the functions of the food administration have been turned over to the department of justice. Howard E. Figg, special assistant to the attorney general in charge of the campaign against high living costs, has written the following article, showing how the government is proceeding in its efforts to reduce the household bills.

"Shortly after the armistice was signed prices on practically all the necessities of life started skyward. The fever of speculation was causing inflated values and the necessity for curbing this upward tendency in prices was brought to the attention of the department of justice.

"The attorney general was asked to undertake to reduce the high cost of living.

"Congress finally passed the amendments to the food control act on the twenty-second day of October.

"At the season of the year that statistics show us that all prices have had an upward tendency in previous years, the department has been able through its campaign to stop the upward tendency of prices and in practically all food commodities to show a general reduction of from 2 to 35 per cent.

"The department plans through its present field organizations by prosecuting to the limit of the law the profiteer and hoarder and by an extensive educational campaign to bring certain factors before the American people.

"It is planned through this campaign of education, by a direct appeal to the women, to decrease the demand on the necessities until supply has a chance to catch up.

"Production must be increased to meet the demand and until such time as production has increased demand must be decreased to allow the law of supply and demand to become operative."

RADICALS INVITE FIGHT; 3 KILLED

Battle Starts Over Negro Agitator's Acts at Bogalusa, Louisiana.

ONE EX-SOLDIER IS WOUNDED

Law and Order League Men in Attempt to Arrest Trouble-Maker Start Big Fight in Little Town Down South.

Bogalusa, La., Nov. 25.—Three alleged agitators were killed and one was perhaps mortally wounded in a rifle and pistol battle with members of the Law and Order league here. The Law and Order men suffered only one casualty, Jules Leblanc, an ex-soldier, who was wounded in his right arm. Those killed were:

Walter Bouchillon, one of Williams' lieutenants.

Thomas Gains, another of Williams' lieutenants.

S. J. O'Rourke was shot three times and probably will not survive. He is wounded in the left hand, right arm and right lung.

The shooting followed an attempt by Williams to prevent the arrest of Sol Datus, a negro, who had been trying to organize the colored labor of Bogalusa.

City officers spent the night combing the negro quarter of the city for Datus. They were later informed Williams was hiding the man they wanted. That wasn't quite true, Williams rather was flaunting him. He had turned Datus out of his hiding place and the negro was parading Columbia street, one of the busiest thoroughfares of Bogalusa, with Bouchillon and O'Rourke as a guard of honor. Each white man carried a shotgun.

The "parade" was over before the officers reached Columbia street. It had lasted just long enough to serve notice on the townspeople that Datus was under Williams' protection.

When the police learned the negro was in Williams' garage, a whistle was sounded as a signal to the Law and Order league members to assemble at the city hall ready for action. About 50 of them, most of them ex-soldiers, responded. They marched on the Williams garage.

Williams was in his office with Bouchillon, O'Rourke and Jim Williams, his brother.

"Come out, Lum!" called one of the officers.

"All right," agreed Williams. "I'll be right out."

But he didn't come. After waiting several minutes the officer repeated his demand.

"If you want me, come and get me," was Williams' reply.

As he spoke, one of his companions turned loose on the posse with a high-powered rifle. It was in this fusillade that Leblanc was wounded.

The fire was returned with rifles and pistols. Perhaps 50 shots were exchanged. Then the battle was over, with three of the agitators dead and another dying.

DECIDE ON PEACE WITHOUT THE U. S.

Supreme Peace Council to Put Pact Into Effect December 1.

BONAR LAW FIGHTS DELAY

Can't Delay Action on Ratification of the Treaty Any Longer—No Slackening in England's Determination to Take Lead.

Paris, Nov. 24.—The supreme council agreed upon December 1 as the date when the German peace treaty will be formally ratified.

Further informal discussions have been held with the German representatives now here in connection with the notification by the allies that a protocol must be signed by Germany guaranteeing fulfillment of the armistice conditions. These discussions have been confined chiefly to the methods of procedure in considering the protocol. As yet the Germans have not stated whether they will sign the document.

The American delegation is still without instructions as to its participation in the peace conference, following the failure of the senate to ratify the treaty, but Henry White attended the meeting of the supreme council as representative of the United States. Undersecretary Polk being absent in London, and the entire delegation is continuing its work in the belief that a compromise ratification resolution will be agreed to in the United States senate.

This view is apparently shared by most of the members of the council, who are anxious for a continuance of the United States in the deliberations of the peace-making body. The council, however, is working out plans so that the enforcement of the treaty will not be hindered if the United States fails to ratify the treaty later.

Jules Cambon of the French delegation presided over the council's session in the absence of Foreign Minister Pichon. The next meeting will be held Monday.

Stephen Pichon, French foreign minister, and Sir Eyre Crowe, assistant Undersecretary for foreign affairs of Great Britain exchanged ratifications of the treaty guaranteeing British aid to France if, without provocation, she is attacked by Germany.

The announcement of ratification of the treaty caused considerable surprise, because it had been generally understood that Great Britain would not ratify the treaty before like action by the United States.

Although the treaty was ratified, it does not come into force until the similar treaty with the United States has been ratified.

London, Nov. 24.—"The inability of the United States representatives at Paris to deposit President Wilson's ratification of the German treaty at the same time those of other powers are filed, will not prevent the remaining allied and associated powers from proceeding to carry the treaty into effect," said Andrew Bonar Law, government leader in the house of commons, in answer to numerous questions regarding the status of the treaty as a result of the American senate's action.

In answer to a question from Sir Donald Maclean, Mr. Bonar Law said:

"Without doubt there will be no slackening in the determination of Great Britain to do all in her power to take the lead in seeing that the League of Nations becomes an effective instrument of human progress. I think it would be a mistake to assume that all possibility of help from the United States is gone."

EASY NOW TO SAW LOGS AND CUT DOWN TREES

Only one man, or even a boy, with the Improved Ottawa Engine Log Saw can easily cut twenty-five to forty cords a day, and at a cost of less than 25¢ per cord. This machine, which outdoes all others, has a heavy, cross cut saw driven by a powerful especially designed 4-cylinder gasoline engine. It's a fast money-maker for those using it, and does more than ten men could do, either cutting down trees, sawing logs, or buzzing branches while you rest. When not sawing, the engine can be used for other work requiring power.

The entire machine is mounted on truck wheels to make it easy to move to the trees or logs, and from cut to cut on a log without stopping the engine. For moving on the road, the truck wheels are placed parallel with the skids and the rig hauled straight ahead. The wheels turn on a two-way spindle. You do not have to take them off, but can change direction of wheel travel by merely taking out a pin.

**"Get this straight"
says the Good Judge**

The tobacco that gives
you the most lasting
chew is the kind that
saves you money. You
don't have to take so
many fresh chews. The
rich tobacco taste stays
right with it. That's
why you take a smaller
chew.
