MANY DEATHS THE PAST WEEK day here.

The home of Mr. and Mrs. Peter Schaeffer at St. Michaels, was saddened last week Friday, April 9th, 1920, when death called from the family circle their beloved daughter, Barbara. Deceased was taken ill about a year ago with influenza, which later developed into pneumonia, from which illness she never fully recovered. Miss Schaeffer was born in the town of Farmington, on June 16, 1901, and had attained the age of 18 years, 9 months, and 23 days. She leaves to mourn her early demise, her grief stricken parents, and the following brothers and sisters: Anthony P. of Kewaskum; Joseph, Helen, Clara, Tillie, of Chicago; Mary and Jacob of St. Michaels; John of Grafton; Tena, Isabella and Albert at home. Deceased was a young lady of a kind and pleasing disposition, highly respected and beloved by all who knew her, always ready to assist her parents and try to make life easier for them in their declining years. Her loss will be keenly felt by her nearest relatives, and by all who had the pleasure of making her acquaintance. The funeral was held on Tuesday morning, April 13th with services in the St. Michael's Catholic church. Rev. Beyer performed the last sad rites. Interment was made in the adjoining cemetery.

SPECIAL TRAINS **RUSH FOOD EAST**

Rail Strike Keeps New York Tied Up and Coal is Shut Off.

MAY CLOSE MANY INDUSTRIES

Most Drastic Freight Embargo Ever Known in Railroad History in U. S. is Now in Effect-Western Situation Better.

Port Jervis, N. Y., April 12,- The Chicago express, east-bound, one of the prize trains of the Erle, was abandoned by its crew here. Port Jervis is 90 miles from New York. The train carried 250 passengers, ml/k and Ruhr district for the purpose of re-es-United States mail.

New York, April 14.-The 'outlaw" railroad strike retains its grip on New York and all points east. Recruits are reported joining the strikers and following the regular daily conference of the subcommittee of the General Managers association, J. J. Mantell, France withdraw her troops from the chairman of that body, admitted the situation was exceedingly grave.

Drastle curtailment of passenger train service will be made if necessary in order that milk and perishable foodstuffs may be rushed to New York. Strikers permitted the milk trains to reach the city on time. Millions of pounds of beef and other food stuffs are speeding eastward from Chicago, Kansas City and other packing centers on New York Central "wartime specials," according to officials of the New York Central.

The most drastle freight embargo ever known in railroad history in the United States is now in effect on all shipments of freight and coal and steel on the Pennsylvania railroad originating west of Altoona for points

An embargo has also been placed on all freight from the South destined to points north of Norfolk.

The significance of the embargo lies in the fact that 80 per cent of the bituminous coal used in New York and points east comes from the country about Altoona via the Pennsylvania railroad.

The railroad managers welcomed Sunday, without the "rush hour schedules and commuters' trains, as an opportunity to reorganize their forces. Pensioners will be called in by the officials and men will be shifted from other forces to the mobile branches. Unless the unforeseen happens, there will be enough old-time employees on duty to run some of the trains on the suburban schedules.

Officials are hoping other employees will not walk out, but firemen are expected to join the strikers out now Employees of the Public Service Rall road company of New Jersey were reported as contemplating walking out in sympathy with the strikers and with the street cars tied up New Jer sev will be absolutely beinless

Agitators, it is reported, have been attempting to Induce local raffway men in New York and Brooklyn to walk out.

Chicago, April 12,-Both sides to the switchmen's strike in Chicago claimed the advantage last evening, after a day filled with conferences and meet

The railroad managers, in a forma statement, said the situation continues to Improve, that through and subur ban passenger business is running 100 per cent, and that as freight continues to move more freely the roads ere lifting their embargoes.

On the other hand the striking switchmen claim their numbers are be ing swelled hourly. They deride the brotherhoods as "nothing but a shell" and say they will stay out until the roads are compelled to recognize them

FRENCH TROOPS TO QUIT RHINE

Will Evacuate Frankfort When Supreme Council O. K.'s Germany's Act.

BLACK TROOPS ARE REMOVED

San Remo Meeting Expected to Officially Allow Germany to Maintain a Certain Number of Extra Troops in Ruhr District.

Paris, April 14,-France will evacuate Frankfort and the other German towns occupied last week as soon as the supreme council at its forthcoming session at San Remo sanctions Germany's military intervention in the tablishing order.

This decision has finally been reached as a result of the Paris-London diplomatic exchanges of the last few days.

The British umbassador, Lord Derby, banded Premier Millerand a note in which Britain again demands that newly occupied German territory

It is now evident that Premier Lloyd George's sen voyage Foreign Minister Lord Curzon's "diplomatic illness" and the Instructions to the British ambassador not to take part in the councils here when they deal with the German question are nothing but part of a shrewd British diplomatic "blind" to allow time to elapse until the San Remo meetings, when the supreme council will officially allow Germany to maintain a certain number of extra troops in the Rubr region until order is restored without incurring penalties for technically breaking the treaty of Versailles.

France, it is understood, will sanccouncil which will open a dignified way Frankfort and the other towns.

Paris, April 14.-Latest reports from fort, as a result of an indignant outcry from all civilized Europe. The tending to withdraw them.

MEMBERS OF HOUSE SUBCOMMIT

About 3,000,000 Would Receive \$1 a Day for Each Day Served. Under Arrangement.

Washington, April 14.—Tentative agreement has been reached on details of the plan to be recommended by the house ways and means subcommittee considering the cash bonus feature of the proposed soldier aid legislation. Under the terms of this plan bonuses of \$1-a day for each day served will be given to about 3,000,000 ex-service men. A general sales tax of one-half of I per cent will be levied upon all business concerns doing an annual business of \$2,500,000 to raise the necessary revenue. It is estimated that

In reducing the estimates of the probable number of beneficiaries and those who served 60 days or less during the world war and officers and yeemanettes who enjoyed financial advantages which did not extend to the fighting men. Of the 4,800,000 men in the army and navy during the war this limitation will affect about 1,-

the cost will be approximately \$1,-

The subcommittee has been advised by the war department that fully 850,000 men served less than 60 days. The department also estimated that those who while under colors, worked in shipyards, the airplane lumber service and other industries at civilian wages will aggregate about 400,000. In addition, approximately 250,000 soldiers and sailors had their military pay augmented by their former civilian employees, making a total of 1,500,000

in this class to be excluded. The remaining 300,00 of the 1,800, 000 to be excluded are expected to come under a provision of the bill requiring all who apply for the bonus to set out in an affidavit the conditions entitling them to the cash award. The subcommittee has information that many former soldiers are opposed to a bonus and others do not need it and, therefore, will not apply

RYAN HITS STOCK EXCHANGE

Stutz Chief Declares Governors Were "Short" in Corner on the Motor Stock.

New York, April 14.-Allan A. Ryan, chairman of the Stutz Motorcar company, resigned from the New York stock exchange and accused members of the board of governors of being short in Stutz stock, trading ip which was suspended by the exchange when the price skyrocketed.

The exchange suspended trading in Stutz after it had jumped from 100 to 391 under short efforts to cover. Since then the stock has brought 701 at auction, and the exchange has begun an investigation of trading in Stromberg motor, which is also controlled by

Following a statement by Ryan that there had been a "sinister" purpose In attempts to "slaughter" Stutz, the exchange ordered members to report all dealings in Stutz just prior to the suspension of trading in it. Ryan then wrote to the board of governors saving he could no longer be a member of the exchange.

PLANE WITH 8 MACHINE GUNS

GIVE OUT BONUS PLAN GENERAL WOOD TO RETURN TO DUTY

Gives Up His Campaign Tour in Strike Crisis.

SITUATION GROWS SERIOUS

Organizer and Chief of Outlaw Yardmen's Association Repudiates Authority-Won't Order Men Back to Work-Only Spokesman.

Chicago, April 14.-Prompt action by the federal government in support of its ultimatum to the rebel switchmen, whose illegal strike has tled up local freight traffic for the last ten days, was seen as Maj. Gen. Wood gave up his presidential campaign to the cost the subcommittee excluded take command of central department troops.

General Wood made the announcement at a breakfast tandered him at the City club in Boston. He said: "The situation of growing seriousness in the country is such that I feel it my duty to give up my leave and to return to my post of command in Chicago. The situation is not one which allows personal considerations to enter into the matter in the least." The general is on a two-months' leave which was granted him by the war department March 20.

He left for Chicago at 4:45 p. m.

Grunau Denies Authority. A serious situation was reported in the ranks of the Insurgents. John Grunau organizer and leader of the Chicago Yardmens' association, the outlaw union, repudiated all his authority in the organization and stated that the men would kill him if he attempted to order them back to work. He said that he was "merely spokesman" for the men and that he would "rather face a rifle squad than attempt to tell them to end their walk-

Grunau's position put the insurgent faction in a quandary. If Grunau has withdrawn, It was said, there is no

leadership in the association. According to the terms of the government's ultimatum of Monday, the "rebel" switchmen's union theoretically ceased to exist.

It was announced that the men would not be allowed to hold further meetings and that criminal action would follow unless they stood aside and allowed the railroads to fill their Actually conditions in the yards remained much as they were before.

Several roads, aided by office men and union strikebreakers, were operating est close to 100 per cent of normal, Much congestion was evident in some of the yards, however, and there was no disposition on the part of the outlaws to take advantage of the terms of grace given them by the government and return to work. Wood Surprises Washington.

Washington, April 14 .- Advices from Boston to the effect that Gen. Leonard Wood had determined to cut short his leave of absence from the war department and return to his military post in Chicago aroused a variety of comment here. Officials of the war department were

puzzled to account for the announce. ment. It was stated positively that there had been no action by the department to caucel the leave of absence which Secretary Baker granted General Wood some months ago and that po order had been issued to recall him from his campaign tour and place him in command at his headquarters. On the contrary, officials scouted the idea that there was anything in the strike situation which contemplated use of the military forces in any such manner as General Wood's peremptory return

to duty might seem to indicate. It was stated at the war department, in jocular fashion, that this was officer on leave of absence voluntarily duty prior to the time specified when

He went to the telephone and gave some directions. Then he and the boy walked to a garage and in a few rand of mercy and his rage at Con- ity for radium.

"Not this year. bather has been to sick. Of course, these are holidays, and he says he'll be all right before they're over."

Dave smiled grimly. "The incurable ptimism of it," he 'surmured to himelf. Then outwardly: "Of course he We'll fix hig. up in no time with a good doctor and a good nurse." They drove on through the calm night, leaving the city streets behind and following what was little more than a country trail. Here and there they bumped over pleces of graded street, infinitely rougher than the natural prairie; once Dave dropped his front wheels into a collapsing water trench; once he just grazed an isolated hydrant.

"And this is one of our 'choice residential subdivisions," said Dave to although perhaps with more difficulty of the latest extra, spent the evening himself. "Fine business! Fine busi-

As the journey continued the sense of self-reproach which had been static in him for many months became more insistent. The intrusion of Conward into his mind sent the blood to his head, but at that moment his reflections were cut short by the boy. "We will have to get out here," he said. "The bridge is down,"

Investigation proved him to be right. A bridge over a small stream had collapsed and was slowly disintegrating amid its own wreckage Dave ran the car a little to one side of the road, locked the switch and walked on with the boy.

"Fine business!" Dave repeated to himself. "And this is how our big success was made. Well, the 'suc cess' has vanished as quickly as i came. I suppose there is a law somewhere that is not mocked,"

They were passing through a set tlement of crude houses, dimly visible in the startight and by occasional yelthat I'd ask-if you wouldn't mind- low blurs from their windows. Before one of the meanest of these the boy section of the town, well pleased with She fumbled in her pocket, and Dave at last stopped, pulled the door open the evening's events. He found his invited her into the office. There she and Dave entered. At first he was conscious of a very small and stuffy room, with a peculiar odor which he attributed to an oil lamp burning on

Dave's Blood Went to His Head. "The Scoundrel!" He Cried.

the past, and all the excitement go "No, sir. He's too sick. He don't a box. He walked over and turned for nothing. That war, if it came to know anybody now, He didn't know the lamp up, but the oil was conwar, could last no one dreamed; it me tonight." The boy's voice went sumed; a red, sullen, smoking wick would be a matter of a few weeks, a thick and he stopped and swallowed. was its only response. Then he felt \$9.250 10.65: second clears, \$6,35@7.75:

The light revealed the dinginess of the little room. There was a bed covered with musty, ragged clothing; "No, sir. We haven't any money. a table littered with broken and dirty stove cracked and greasy, and one or ied himself for a moment. (TO BE CONTINUED)

take but a small space and give back large yields of savory herbs which will be used all the year. Peas can be planted a week apart for four or five crops, if one is fond of that delicious vegetable. Most all gardeners strive for the early varieties of vegetables, but they are not always as vell flavored or as satisfactory as

those that come a little later. An asparagus bed, when once started, will bear for years with little care. winter after the appetite has been partly satisfied, or when the bed produces abundantly. A can or two may be put up at a time, taking little time an interview on the subject, made the as-

and labor. A few horseradish roots are another egetable which will be greatly cherished. Grated, the root is a good large majority of those whose applicaspring tonic and in the fall the pickle jar lacks flavor if it is not added. This that they have the disease. It is on sale is another vegetable which once starte at all drug stores in bottles of two sizes,

ed cares for itself. A few rhubarb plants should be A few rhubarb plants should be placed in every garden; they will multiply and if enriched each year will sample bottle. When waiting be sure and grow for years.

One or two hills of cucumbers well taken care of will produce all the fresh cucumbers the family will eat, and a vine or two more all the pickles for winter use.

After the space for the vegetable garden has been arranged there should be in every well regulated garden a small strawberry bed, a few current and gooseherry bushes, as well as black and red raspherry and blackberry bushes. Two or three well-cared-for bushes of each will produce enough fruit to supply the table for a small family, and fresh fruit from one's own garden is beyond comparison with the market variety.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers.

The American men and women must guard constantly against Kidney trouble, because we cat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bludder weakness and a gen-

eral decline in health. When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time .-- Adv.

Plymouth Self-Feed ENSILAGE CUTTERS

"Plymouth" Feed Cutters are the result of twenty-five years' experience and practical study of conditions and needs in the farm and dairy field. They embrace every advantage known to other similiar machines, and many vital features which are original with us and can be had only in the "Hyn cuth Self-Feed." Below are some mighty strong points for you to think about before you buy a feed cutter;

AUTOMATIC SELF-FEED-This feature consists of a traveling feed chain, made of heavy iron slats securely rivited to a chain which passes over the lower feed roller. Throw the fodder into the feed box and the "Plymouth" does the rest.

DANGER-PROOF SELF-FEED ROLLERS—Here's another strong feature original with the "Plynouth." It consists of four large rollers of cast iron. The traveling feed chain passes over the lower hind roller, just passing the lower front roller, which is six inches in di an eter, and sn coth. The two upper and lower hind rollers are ribbed. The 8 inch automatic roller at the top, to the rear, is a special feature of the "Plymouth." It acts as a lever or weight to keep the fee'der passing through continuously, depending on its own gravity to keep the material going through without a hitch. Two coil springs serve to exert an even and steady pressure on the automatic roller as the volume of fodder increases in going through. The spring feature is entirely automatic, and is only to be had in the "Plymouth." It absolutely prevents clogging.

AS A TONIC

Milwaukee, Wis :- "For the last twenty years I have used Dr. Pierce's Golden Medical Discovery at times, as a general tonic, with excellent results. One bottle in the spring and one in the fall are usually sufficient. It has given me added strength and endurance and has greatly aided me in following the atrenuous life of a freight handler. I have also found Dr. Pierce's Pleasant Pellots very beneficial and mild in action.

action.

"I have been through Dr. Pierce's Invalids' Hotel and Surgical Institute in Buffalo, N. Y., and have found everything as represented. The pictures they give of their buildings are genuine."— JOHN W. McLAIN, 188 Wisconsin St.

COUGH CURED

Mayville, Mich.:—"I feel it my duty to write this. Four months ago I was a very sick woman, I could not lie down in bed but had to ait up in my chair night and day, had an awful cough. I had two doctors and they said I must cough like that until spring. But I got some of Dr. Pierce's Golden Medical Discovery and began to take it and I then wrote Dr. Pierce for advice, and, thank the Lord and Dr. Pierce's medicine, I am cured of the cough. In one week after I started to take the medicine I began to raise and the cough soon disappeared. I had gone down to about one hundred and thirty pounds, I now tio the scales at one hundred and sixty-six and one-half pounds. I don't feel the need of any more medicine but I shall always keep the 'Discovery' in the house,"—MRS. C. B. GLAZIER.

A BLOOD PURIFIER

Cured Inflammatory Rheumatism Jackson, Mich.:—"I feel it my duty to write a testimonial in behalf of Dr. Pierce's Golden Medical Discovery, for the sake of suffering humanity. A year ago this past winter I suffered with inflammatory rheumatism. I suffered about five months and then began the year of Dr. Pierce's Golden Medical Discovery. After taking five bottles of the above named medicine, I was completely cured. I have not been troubled with rheumatism since.

"As a blood purifier and for the system generally. I have never found a better redicine."—FRANK GUNN, 1991 E.

LARGER CLOVER **CROP IS URGED**

High Prices Should Serve as Additional Reason for Planting Seed With Care.

PREPARE GROUND PROPERLY

Of Utmost Importance to Provide Seed Bed Which Is Firm, Moist and Fine-Sowing With Drill Assures Good Stand.

Prepared by the United States Depart-

ment of Agriculture.) High prices, however, should not stop by from this outlay were figured at the planting of clover and the return \$2,820,217. to proved rotations, but should serve. In all more than 2,100 demonstrament of agriculture specialists.

Plant the Seed Right.

pared ground is the poorest economy. The crop should be provided with a tions. seed bed which is firm, moist, and fine, and the quality of the seed should be ed by the agricultural experts is of the best. If the land is "sour" it shown by the following items selected should be limed for red and sweet

Probably the most certain way to obtain a stand of clover is to sow it with a drill alone, on especially prepared ground. Special clover or alfalfa drills are now available and when a sufficient acreage is being grown to Justify their purchase the use of these implements is to be recommended. On smaller areas a regular grain drill can be used if provided with spouts leading from the grass seed box back of the shoes or disks. On most soils a better covering of the seed is obtained if the drill is equipped with chain seed Simple Device Recently Invented by coverers, as these leave a flat furrow. Unless the soil is in a mellow condition a shallow seed bed must be prepared for the drill.

seeder, a wheel barrow seeder, or by to pieces when it becomes necessary hand. The ground, however, must be in fine mellow condition, which means that seeding must be delayed until the soil can be stirred once or twice with a spike-tooth harrow. When seeded in this way the seed must be covered, usually with a spike-tooth harrow, but sometimes with a heavy brush drag. One-half inch in clay soils and an inch in lighter soils is about the proper

depth of planting. Clover Seed Is Easily Tested.

500 ag ft. near proposed drining site. Cush-ing District. Oklahoma. Warranty deed and 50% interest in 80 acres. Price \$30; \$3 down the quality of the seed it can easily be bar back when rocks or heavy clods

View of Clover Plant Showing Roots in Which Nitrogenous Foods Are Stored.

Day that corn is tested, by counting out 100 seeds and placing them in a sand or rag doll germinator for a week. The number of seeds which germinate in that time is the percentage of germination of the lot. The percentage of weed seeds is harder to detect, as many weed seeds resemble the clover seed in appearance. However, with the use of a magnifying glass the majority of the weed seeds can easily be seen. The percentage of weed seeds can be roughly determined by taking 100 seeds just as they come and counting out the weed seeds. Not all foreign seeds in clover are harmful but the farmer paying for clover seed should get it.

Home-Grown Seed Is Best. During the past 12 months large quantities of Italian-grown red clover seed have been imported into this country. Tests have shown that seed grown in Italy produces plants which are less hardy and more subject to disease than plants from Americangrown seed.

Onions Are Indispensable,

Onions are almost indispensable, feed should be supplemented with si-They are not used as extensively as some other vegetables, yet they are called into use almost as frequently as any vegetable.

Peas Most Popular.

Peas are one of the most popular and commonly grown garden crops. The seed should be planted quite early in the spring, for peas do well in cool

DEMONSTRATION WORK

Report Recently Given Out Shows Saving of \$10.27 for Every Dollar Expended-Variety of Subjects Treated.

ment of Agriculture.) Impressive results from the application of science to practical agriculture are shown in a report recently given to the county commissioners of Idaho regarding the extension work in that state for 1919. A saving of \$10.27 for every dollar expended in the extension activities was made. The total The great hindrance to an extensive expenditure was \$274,500, including planting of clover this year is the the amounts the counties provided price of the seed, which has advanced from their own funds and the money to the unprecedented figure of 60 cents received from state and federal a pound wholesale for the best grade. sources. The savings resulting direct-

THE REQUESTS.

Sometimes when the great store was dark and when the people had gone home the things in the store had storytelling hours and games and frolics and all sorts of nice times.

Sometimes they talked and some times they played and sometimes they would sing to themselves and to each

There were times, too, when they vould tell what had gone on during the long day when people had been shopping and when children had come and gone and come back again.

Many a long talk did they all have and they had so much to tell always of what happened in the daytime. They had so many children they wanted to describe to each other, children ome had missed seeing. So this is what happened one evening, and pertaps we may hear of some more things that happened too, later on But to go on with what happened on this evening, just after the people had left the store.

It was after six o'clock. The great children's store which sold everything anyone could think of-from canary pirds to party frocks-was silent and still. All the counters were covered with dark-blue linen covers. Every thing, in short, was put away for the

Suddenly there came a laughing. All the dresses and gloves and pocketbooks and sashes peeped out from their blue coverings and began to laugh too. Just then, flying down the alsles of the store, between the coun-

"Oh," said a blue apron, "I had the most awful time today. I just couldn't stretch out. No one seemed to like

about," said a party dress from nearby, "you weren't tried on and criticized and tried on again. Oh, my feelings were hurt! Just because some

Feelings Were Hurt.

one may want a party dress there is no reason why they should expect the whole world and what every one else ever had on a party dress to go on me, or be on me-whichever you say, I'm not much of a talker."

"My dear party dress," said a gingham dress, peeping from its counter. "You can't talk well for talk comes from the mouth or the throat or both. I've heard that at times it comes from the brain too-where creatures think But dresses can't make conversation well. No, it's impossible. You haven't a mouth. And you can't work by your self for you haven't any hands."

"Well," said the fairy, as she hopped upon a counter, "what are we going to play tonight?" "I don't know," said the gingham

dress, "I don't feel much like playing." It was at the top of a pile of gingham dresses. Most of the others were sound asleep. "Neither do I," said the party dress

at the top of its pile. "I don't feel like plnying either,"

said a toy. And from far down the aisle came a splashing sound. "If I'm to be in the children's department," said one of the goldfishes, "Linust play at night too as they dothe dresses, and toys and games and books. But just tonight I don't feel

"That's what I wish," called the

"So do I," said the party dress.

"So do we," said a set of dishes, "So do I," said a doll's house. "I'm angry that things should be unfair," said the gingham dress.

"Yes" said the blue apron. "I know just what the gingham dress means. We aren't given any chances at all. We have to be so plain and we have to be worn for dull things such as dusting or playing in the gardens or something like that. Why can't we go to parties and hear music and see danc-

ing and be danced around ourselves?' "Do you all request to be something else?" asked the Fairy. "Well, I will call the wishing fairy at once and all your wishes will be granted. Yes, they will, heigh-ho!"

Just Do It.

While some girls are spending their time trying to decide how to grapple with a problem, a girl of different calfashions are changing all the time, books), boldly embroidered in brushed ther will go to work and finish the task. It is a pity to waste time by not doing things in the right way, but it is decidedly worse to spend more time n choosing between methods, than would be required to complete the work. After all, the best way to do : a soft drapery, a somewhat shaggy or four-tiered ruffles, and the plain fit thing is just to do it, and do it in a gariand of velvet flowers or large flow- ting body with rounded body and way hat will satisfy yourself.—Girl-Companion.

Finally was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lowell, Mass. - "I was all run down and had an awful pain in my right side, was pated and had very dizzy spells. I suf-fered for three years and was perfectly miserable until a friend was telling me to try Lydia E. Pinkham's Vege-table Compound and found it a wonder-

ful medicine. I can now do twice as recommend the Vegetable Compound to other women. You can use these facts as a testimonial."—Mrs. M. THEALL BESSEY, 186 Appleton Street,

Why women will continue to suffer so long is more than we can understand, vhen they can find health in Lydia E Pinkham's Vegetable Compound !

For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ail ments as displacements, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Should Sentiment Always Have Precedence?

"Taking stock" of oneself is a periodical duty, probably not always practiced, and is as necessary as taking stock of your household effects or your "store goods." The right minded man will do this. In unmolested moments he gives way to deep meditation; he gathers his thoughts to ascertain if brains, energy, and ability are syncopating properly, working together on lines that answer to an ambition that looks for a satisfactory return.

If there be a deficit, his endeavor should be to discover the leakage. It may be that he lacks the nerve to go into a retrospective analysis, or falls In initiative that will prompt him to throw his horoscope in the future. Unless he can do these things he will never be able to pull bluself out of any "rut" in which his condition has placed him. He must "take stock."

"Stock taking" leads to modern day efficiency, and is demanded of every worker if unsatisfactory conditions are to be overcome. In the case of the farmer it may be that he is working a "too high-priced farm"; interest and rent may be an "overhead" eating up the profits. There may be other reasons why profits are not shown. It is just possible that he is sacrificing profit and encouraging loss because of sentiment, but he does not realize his birthplace; reared upon it, he knows every nook and corner of the old place. He fished in the brook, hunted squirrels in the woods, hid in the hayfield, grew to manhood upon the place, courted and married and brought up his family there. These are ties that commend themselves, and why shouldn't sentiment have a say? To many this will appeal. But are these good reason to continue? Does not one owe it to himself and to his dependents to "take stock," and put into effect action that will bring a bal ance on the credit side of the ledgerthe balance that will bring happiness and give a comfort far greater than a mass of unpaid bills and a house full of worry, and a devotion to sentiment! Should he not look around for more favorable conditions, which may easily be found?

Procrastination is said to be a thie! In this case the axiom is undoubtedly true. To allow the adverse conditions under which you may be laboring to continue may keep you for years longer in the present unsatisfactory position

There was a man at Brazil, Ind. who made weekly visits for upward of a year to the office of the Canadian government at Indianapolis, Ind., aad from the agent secured all the information he possibly could as to conditions In Western Canada. But he lacked decision, did not "take stock," or if he took it, failed to act. This was fourteen years ago. He lived on a small farm, which gave him a mere existence. and no promise of anything more. He is still on the same place and no better off today than then. He had a friend working in a glass factory, who also had but little means. He became in terested in Western Canada. He possessed, though, spirit and action. With the impulse thus prompted he moved to Saskatchewan and took up a farm. Today he is the owner of a spleu fid section of land, has plenty of money in the bank, and could retire with a bandsome competence.

That which has been the good for tune of the Brazil glass worker, who had "taken stock" and profited by it. may be that which will follow any other of like temperament and a firm wish to erect for a satisfactory future. Western Canada submits for consideration and approval conditions in agricultural lines that are exceptional. There is land there that annually produces about the same return as any other farming land, and it can be purchased at but a portion of what the place which has not been a source of profit can be sold for. A section instead of a quarter-section, worked under western conditions, with no more effort, solves the big "overhead" expense. The social conditions, which

are an important factor in deciding

on a new home location, are ideal .-

unnatural wakefulness at night.

What wonder, then, that so many housewives serve Postum instead of coffee as the table drink!

Postum Cereal must be boiled fully fifteen minutes after boiling begins, to develop its full, rich flavor.

"There's a Reason" for Postum

Made by POSTUM CEREAL COMPANY Battle Creek, Mich.

HAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic.

We Pay Him Half the Wages of a Mechanic

And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church

Al. of us share in the benefits of Christian ministers to the community. They marry us: bury us baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this-a living wage for every minister of Jesus Christ; an efficient plans, and a chance to do a big man's job.

If you want better preachers help to pay the preachers better. It's the best investment for your community and for your children—that you can ever make.
