COAL OWNERS' PROFITS LARGE

Official of Railroad Brotherhoods Puts Them at Half Billion Dollars.

DATA GIVEN IN EVIDENCE

According to W. Jett Lauck, Each Family in the United States Contributed \$25 to Bitumineus Mine Operators,

Washington, May 31.—Bituminous toal owners took \$500,000,000 in wartime profits, W. Jett Lauck, consulting economist of the railroad brotherboods, declared in a supplementary survey of the bituminous coal indusry, presented to the labor board.

Translated into individual terms, Lauck declared, this "gouging" means that each family in the United States paid approximately \$25, thus accounting for "an important factor in the high cost of living."

"With an average annual production is apparent that coal operators gouged delegate. the consumers for an aggregate of half a billion dollars," Lauck said.

"The people of this country paid all the war taxes of the coal operators. paid their contributions to the Red Cross and other war-time welfare or- Indictments Ouashed in Federal ganizations; paid huge sums for depletion and on top of that paid them half a billion or more in net profits than Certain Sections of Lever Act Dethey were capable of earning in a simllar period during normal times," he

Lauck flatly denied that increased labor costs are in any serious degree responsible for the greatly increased prices of coal. He also denied that the high prices were justified by less than the high prices were provided to the prices were prices and the prices were prices and the prices were prices and the prices were prices which the prices were provided to the prices were prices and the prices were pr the high prices were justified by increased production, asserting that hoard food and charge excessive prices cent over the three pre-war years profits rose over 100 per cent. THIS IS WORTH READING The experience of Mr. E. J. Toupalik, 1438 Rose street, LaCrosse, Wisconsin, is chiefly remarkable on account of the length of time

he was afflicted.

He writes: "I have been suf-fering with chronic bronchitis for twenty-six years and every winter would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only tem-porary relief.

"This winter I was taken with Grip and was in awful shape. A fellow workman advised me to take PE-RU-NA. By the time I had used three-fourths of a bottle, the hoarseness was gone, also that tired feeling. I am on my second bottle. Hereafter PE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose."

For any disease due to catarrh or catarrhal conditions, PE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach trouble, constipation, rheumatism, pains in the back, side and loins, bloating, belching gas, indigestion, catarrh of the large and small intestines, are some of the troubles for which PE-RU-NA is especially

CHAPTER II-Continued.

It was Andrew March who had found him running wild, one spring night in lower Cincinnati, with a gun speaking from each hand. The riot call was in. Andrew March had, by the grace of God, appeared, beheld and understood. The elder man had recognized the equinoctial madness of one whose head was filled with beauty, the heart passionate for life and more of it, the feet rebelling against the ugliness of pavements. March bad hurried him away, and Inter at his leisure soaked some of the deviltry out of the young frame, steaming him clean and reasonable. He had needed to be patient with Levington while the rioter found a new sensation called health.

Presently the car turned in beneath a vine-covered archway, and stopped at the door of a great house. A lantern that was mellow and friendly hung at the step. There was a te. raced garden ridging gently down to a pond, far back from the road. These terraces with lanes of roses and columbine were Levington's respite from the wine-sogged streets that

wanted him. March's housekeeper. Mrs. Ames. a cheerfully dazed woman whose parrow body never recovered from the exertions of yesterday, opened the door to them. They went directly to the gairs and ascended to an open door from which firelight danced out into

LOOK OUT FOR THE CARS

NO YOU know of anyone who is old enough to read, who has not seen that sign at a railroad crossing?

If everyone has seen it at some time or other, then why doesn't the railroad let the sign rot away? Why does the railroad company continue to keep those signs at every crossing? Maybe you think, Mr. Merchant,

"Most everybody knows my store, I don't have to advertise." Your store and your goods need more advertising than the railroads need do to warn people to "Look Out for the Cars." Nothing is ever completed in the advertising world.

The Department Stores are a very good example—they are continually advertising - and they are continually doing a good business. If it pays to run a few ads 'round about Christmas time, it cer-

tainly will pay you to run advertisements about all the time. It's just business, that's all, to ADVERTISE in THIS PAPER

1,000 WISCONSIN BUYERS OF Wisconsin Gas & Electric "SAFE HOME SEVEN PER CENTS"

One thousand Wisconsin investors-more than 300 of them women—have bought Wisconsin Gas & Electric Company "Safe Home 7 Per Cents" in 70 business days. More than 600 of the 1,000 live in Milwaukee. Milwaukee and its suburban cities now have over 4,500 investors in Wisconsin Gas & Electric Company and The Milwaukee Electric Railway & Light Company. The two companies have over 8,000 investors in Wisconsin--including several hundred of their 4,700 employes.

While they last—and they are going out steadily-you can buy Wisconsin Ga: & Electric 5-year, 7 per cent Gold Notes in \$50, \$100, \$500 and \$1,000 sizes, and 7 per cent preferred stock in \$100 shares—at the Company's offices in Milwaukee, Racine, Kenosha, Watertown, Whitewater, Burlington. South Milwaukee and Cudahy. The Notes come due and will be paid off in cash March 1, 1925. Their interest is payable March 1 and September 1. Preferred stock dividends are payable April 15, July 15, October 15 and January 15. This stock -preferred both as to dividends and assets-has first claim on the Company's dividend earnings up to 7 per cent each year. and shares equally with the common stock all dividends paid over 10 per cent in any year. Its safe 7 per cent income, with its chance to earn one or two per cent more in good years, make it an especially desirable permanent income investment. Holders of the 5-year Notes can, if they wish, exchange them at par for shares of the participating preferred stock, on any interest date to September 1, 1924.

Wisconsin Gas & Electric Company and The

Milwaukee Electric Railway & Light Company are closely associated, under common ownership and management. The region they serve, embracing the Milwankee metropolitan district and eleven counties surrounding the Milwaukee district on the north, west and south, is the richest, most populous and fastest-growing portion of Wisconsin. They have been able to finance most of their growth during the past four years, running into millions of dollars, by selling their 7 per cent notes and preferred stocks to Wisconsin investors. The have been given this magnificent home indorsement, during a period when other American utility companies found it difficult and often impossible to get new capital, because from their beg nning-T M. E R & L. Co. in 1896 and Wisconsin Gas & Electric in 1912-THESE COMPANIES HAVE KEPT FAITH WITH THEIR IN-VESTORS. Because they are legitimately capitalized and honestly managed, they have been able to meet every obligation on the due date, earn regular dividends and pay liberal wages under fair working conditions, while charging lower rates and fares than similar util ties in most other states.

Mail orders for Wisconsin Gas & Electric Company notes and preferred stock should be addressed to, and remittances made payable to, WISCONSIN GAS & ELECTRIC COMPANY, Securities Department, Public Service Building, Milwaukee, Wisconsin. Bank draft, certified check. postoffice or express money order should be sent with mail orders. Prompt delivery of notes or shares will be made by registered mail.

Why Exclusive Agencies Cost More to Operate

for emeralds.

A roofing dealer who has an exclusive agency has no competition on his private brand. As a result he can charge a large profit if you'll buy.

In addition, he is usually a long distance from his little manufacturer and must invest more money to keep his stock up. Now look at the Certain-teed way. Any responsible dealer can sell Certain-teed. Each dealer carries a small representative stock. If he needs more he orders from a nearby Certain-teed warehouse or jobber. It usually takes only a day or two to get it.

The result is small investment, small storage cost, light insurance, and no slow-moving articles.

Certain-teed Saves You Money

That's why Certain-teed dealers operate at less expense. And it's also why Certain-teed saves you money because they can afford to sell at close margins and there are enough of them to insure you a fair deal.

Now let's see what you get when you buy Certain-teed Roofing.

It's roofing that has never been known to wear out on the roof. It is guaranteed for 5, 10 or 15 years, according to weight. It is weather-proof, fireretarding and spark-proof.

There is nothing else you want from roofing. And since you get this highest quality roofing at a saving, it's the logical buy.

Any responsible dealer can get Certainteed for you quickly from a nearby Certain-teed warehouse or jobber. He gets it when he wants it and he gets what he wants. He can afford to sell you at a fair price.

Certain-teed Products Corporation General Offices, St. Louis

Beware of the dealer who tells you he has Certain-teed, but tries to sell you a private brand. He probably wants a bigger profit.

PALMER SAYS POST AIDED ANARCHISTS

Makes Charges Against Assistant Secretary of Labor.

CANCELED LEGAL WARRANTS

Attorney General Tells House Commit tee That Official Blocked Government's Attempt to Oust Undesirable Reds.

Washington, June 2.—Charging that Louis F. Post, assistant secretary of labor, had a "perverted sympathy" for the criminal anarchist, Attorney General Palmer told a house committee that in dealing with attempts of the government to rid the country of dangerous aliens, Mr. Post had employed a "self-willed and autocratic substitution of his own mistaken personal viewpoint for the obligations of the public taw."

Mr. Palmer was testifying before the rules committee which is investigating the official conduct of Mr. Post in deportation proceedings.

"It has become perfectly apparent." the attorney general said, "that Mr. Post's course in all the deportation proceedings has been dictated by his own personal view that the deportation law is wrong. By his wholesale iail deliveries and his release of even self-confessed anarchists of the worst type, he has utterly nullified the purpose of the congress in passing the deportation statute.

He submitted records of the department showing the particular persons actively identified with the spread of the doctrine of the dictatorship of the proletariat.
