Following the program the men will be served a dinner at Mrs. Zastrow's restaurant in West Bend. They will then leave on the 5:55 p. m. train and will arrive in Milwaukee at 6:50 p. m. There they will be lodged at the Hotel Kibourn, where breakfast will be served Wednesday morning. At 8:30 a. m. they will report at the induction station under a leader and assistant leader, both of whom are to be

RETURN FROM INTERESTING VACATION TRIP TO FLORIDA

Mr. and Mrs. Art. Hoerig of St. Michaels, accompanied by Mr. and Mrs. Ray Casey of Milwaukee, returned Sunday night from a 16-day sightseeing trip to Florida and other scenic spots in the southern states. The trip was made in the former's auto. Mr. Hoerig informs us that they enjoyed their stay immensely. Main cities of interest visited in Florida were Silver Springs, St. Petersburg, Sarasota, where they visited the Ringling Bros. circus huge winter camp; Tampa, where they saw the New York Giants baseball team in spring training and the army camp; St. Augustine, where they were taken into the dungeons of an old Spanish fort. Numerous other places of beauty almost beyond belief were visited, according to Mr. Hoerig.

Mr. Hoerig complained that it was hard to scare up a bottle of beer in the South, where Coca Cola is the main drink. The weather was very hot and the sun burned through shirt sleeves. Mr. Hoerig says the cattle and hogs in the south are thin and scrawny compared to our northern animals. The most amusing experience was when a service station attendant saw the license plates and asked whether they brought along any Wisconsin cheese. The group traveled to the South through the eastern coast states and returned through the states more to the West. No snow was seen on the return trip until reaching Illinois.

OLIVER DAY AT WAYNE IS ATTENDED BY BIG CROWD

Caucus Held in Towns of Wayne and Ashford

The annual town of Wayne caucus was held Tuesday, Mar. 11, at Wietor's hall, Wayne, to nominate candidates for the April 1st election to replace those whose one-year terms will expire then. A fairly large caucus was held, 112 votes being cast, which is 16 less than the number cast last year. Candidates who will be unopposed in the election are Paul Moritz, incumbent clerk, and Frank P. Wietor, incumbent justice of the peace, full term. All candidates on the ballot were nominated to run April 1 except John Murphy, who received the least number of votes for supervisor. Results of the caucus follow:

Chairman—John Meyer 60; George Peter 49.

Supervisors—Herman Bartelt 34; Mike Darmody 62; Herman Kell 39; John Murphy 11; John Spoerl 34; R. Schmidt 5 (written in).

Clerk—Paul Moritz 86.

Treasurer—Oscar Boegel 57; Fred Pamperine 52.

Assessor—Hubert Klein 35; Raymond Kudek 75.

Justice of the Peace (full term)—Frank P. Wietor 75.

Constables—Al. Flasch 67; Andrew Kuehl 60; Arnold Otto 56.

Caucus Committee—Wendel Petri 66; Herbert Schmitt 62; Rudy Schultz 69.

TOWN OF ASHFORD

The following candidates were nominated at the town of Ashford caucus held at Elmore Tuesday: Chairman, H. P. Johnson; side supervisors Carl Hayes, Herman Wondra, Joseph Berg and Anton Bertram; treasurer, John J. Kleinhaus; assessor, Joseph J. Schmitt; clerk, Roy E. Loomis and Mrs. Gertrude Yankow; justice, two years, Corney P. Schill; justice, one year, John Senn; constable, Frank J. Brath, Elmer Bertram and Leo Felix.

TUESDAY NIGHT SKAT CLUB

The Tuesday Night Skat club met for the last time this season at Lester Dreher's tavern Tuesday evening, with 32 players participating. This completed the second round of the local taverns, a total of 18 tournaments being held during the past winter. The club hopes to resume its meetings again next winter. After lunch cash prizes were distributed to the following at Dreher's:

1. Paul Kleinhaus, 25-2-23 games, 624 points.
2. Norbert Becker, 617 points.
3. Roman Smith, club solo vs. 5-72.
4. Leonard Theesch, 19-0-19 games, 437 points.
5. Wallace Krueger, 518 points.
6. John Gruber, high play 140.
7. A. P. Schaefer, club tourne vs. 4-10.
8. Erwin Koch, 21-2-19 games, 419 points.

BIDS WANTED

The Public Property Committee of the Washington County Board of Supervisors hereby asks for bids for the painting of the interior of the court house, and painting of certain rooms in the county jail, and for venetian blinds for the court house. Specifications may be obtained from the County Clerk at the court house located in West Bend. All bids must be in by March 22, 1941, at 10:00 a. m.

Name "Bull" Mertes Most Valuable Ball Player in the 4th Marines

Herb Mertes, son of Mrs. Barney Mertes of West Chicago, Ill., and brother of Clarence Mertes of this village, has been named the most valuable baseball player in the 4th Marines, stationed at Shaughbal, China. Most of Herb's relatives reside in this community and he is quite well known hereabouts through his many visits. He last visited his brother and relatives here and around Beechwood two years ago. We believe his many friends will be interested in the following sports clipping from a marine publication at Shanghai, sent to Clarence Mertes here, who in turn handed it over to us, which relates Herb's prowess in part as follows:

Herbert John Otto Mertes, known to sports fans around Shanghai as "The Bull," was chosen by the regiment as the most valuable baseball player in the 4th Marines. The "Bull"

Kewaskum Team Enters Fond du Lac Tournament

The village basketball team, second place winner in the Land O' Rivers league, is one of 17 teams in the Fond du Lac trade territory which have been entered for the fourth annual Y. M. C. A. tournament opening in the Y. M. C. A. gym in that city on Monday night, Mar. 17. The tournament will run a week, the finals to be played Saturday, Mar. 22. One of the teams will be eliminated at a meeting of the tournament's executive committee to limit the entry to 16.

The teams which have applied for a berth in the meet follow: Ahepa (Fond du Lac), North Fond du Lac, Blues (Fond du Lac), Vocational School (Fond du Lac), Oscar's (Fond du Lac), Rupp's (Fond du Lac), Berlin, Green Lake, St. Cloud, Club St. Anthony (Fond du Lac), Gold Streaks (Fond du Lac), Oakfield, Kewaskum, Commercial College (Fond du Lac), Eldorado, Ripon and Waupun.

The tournament is open to all teams in the Fond du Lac trade area. In previous years only squads in Fond du Lac county were eligible to compete. The tournament committee consists of Bud Saunders, Ellsworth Root, Kurt Fox, Wally Konz, Oscar Nimmer and Art J. Daley. All entrance fees must be paid before a team is officially entered. Trophies and awards will go to the winners. Last year classy jackets announcing they were champions were given to each player on the winning team. Willard Bartelt, manager of the Kewaskum team, attended a meeting of team managers at Fond du Lac Monday night, at which lists of the players of each team were presented. A number of W. I. A. A. officials were also listed.

Tournament matches will be played every night next week. Each team will play two games before being eliminated. The champion, however, must be undefeated in four games. A new champion will be crowned to replace Campbellsport, 3-time winner of the event, who have not entered this year. More than 10 of the 16 teams have a better than even chance to win the event and there seems to be no favorite. Kewaskum should stand a good chance.

NOTICE

Notice is hereby given to the qualified electors of the Village of Kewaskum, County of Washington, State of Wisconsin, that nomination papers for the nomination to the various village offices must be filed with the clerk of said village on or after March 12th, 1941, but not later than March 17th, 1941. Nomination papers may be had by applying to the clerk of said village.

Dated this 11th day of March, 1941.

Meno. Falls Defeats Kewaskum in Play-Off to Win Rivers Title

Beat Locals Again in Second of Three Game Series Here Sunday, 46 to 37, Before Big Crowd; Kewaskum Gets Second

After playing basketball all winter to the first place in the final standings of the Land O' Rivers league with Menomonee Falls, Kewaskum lost the first two contests of the 3-game championship play-off series to be beaten out of the title. As a result Kewaskum will be awarded second place, with Hartford third. The play-off brought the Rivers season to an end.

With only a few games left on the schedule Kewaskum held a two-game lead over Falls but the team lost games to Hartford and Mayville on successive nights, forcing them into a play-off. They couldn't stand prosperity and this cost them the title. The two leaders ended up with 11 victories and four defeats apiece.

In the first play-off game at Falls last Thursday night the team was beaten 41 to 35. The boys played without Paul Kral, second highest scorer in the league, who did not accompany the squad because of his mother's death. Manager Bartelt should have postponed the game instead of playing in the important series when the team wasn't at full strength. It would have been proper to call the game off anyway out of respect to Kral, who played in every other game.

If this had been done Kewaskum still might be in the series as Kral might easily have strengthened the team enough to win the first game. A third game would then have been necessary on the West Bend (neutral) floor. Falls uses a zone defense very hard to penetrate on a small floor like the local one but we believe the locals would come out on top at full strength on the big West Bend floor.

In the game there Thursday night Kewaskum played very good ball and gave Falls a tight battle before losing, 41-35. Kewaskum battled into a 11 to 10 lead at the quarter but trailed by one point, 20-19, at halftime against the strong Falls quint. In the third period Falls increased their advantage to 29-25 and the teams battled on evenly to bring the final count to 41-35. The opponents knew they were in a battle and except for leniency by the referee might have lost a couple of players on fouls. Although Fred Benz, league leading scorer and former Wisconsin star athlete, got hot in the head he also was hot on the floor and again paced the scorers with 17 points. Honeck led the losers with 11.

In the second game here Sunday night before the largest crowd of the season, a packed house, Kewaskum was downed worse, 46-37. The locals had had luck in shooting while Falls sank them from all angles and positions. The visitors had the best team Sunday and Kewaskum has no regrets for losing to the experienced Falls team of former Land O' Lakes stars. The home five played poorly in the first half and the hot Falls quint piled up a huge lead. The boys just couldn't get started in this half. Falls led 16-9 at the quarter and in the second period ran wild to pile up 17 points while the Indians were held to 6, making it 33-15 at the intermission, which was too big for the losers to overcome although outscoring Falls the second half.

With Prost in the game the Indians came to life and scored 10 points in the third period and held the winners to 4, bringing it to 37-25. Again in the last quarter Kewaskum was up to par and netted 12 points to Menomonee's 9 but it was too late. Again Benz was the big noise and played a fine game to pile up 21 points. Kral paced the losers with 12. Dreher featured with a hard floor game. In the preliminary the Kewaskum Bs were defeated by the West Bend Aluminums, 32 to 25.

Marie Thull One of Two Girls Injured in Crash

Miss Marie Thull of Kewaskum and Miss Eunice Miller of R. 5, West Bend, were injured at 1:30 a. m. Sunday when cars driven by Evrille Gramoll of Grafton and Ruben Applet of Milwaukee collided on Highway 57, one-half mile north of the Milwaukee-Ozaukee county line in the town of Mequon. Gramoll was arrested after the accident.

Miss Thull, who suffered fractures of the left leg and hip, was taken to a Milwaukee hospital for treatment. Gramoll was heading north and Applet south when the collision occurred. Gramoll's car hit a tree on the west side of the highway and also knocked down two mail boxes. Applet's auto came to a stop in a field west of the highway. Gramoll's hearing was adjourned until Monday evening, Mar. 17, at 8 p. m. before Justice Wilson at Port Washington.

PRIVATE ROBERT GRUBER WRITES FROM FORT BRAGG

In a letter to this office received from Private Robert Gruber, son of Mr. and Mrs. John Gruber of this village, who enlisted in the U. S. Army last year and is stationed at Fort Bragg, N. C., the young man writes as follows:

Battery A, 34 F. A. 9th Division, Fort Bragg, N. C.

Dear Editor:

I have a little news for your paper and would appreciate it if you would print it.

The 9th Division, Fort Bragg, stood a review in honor of the governor of North Carolina, Clyde H. Hayne, on the day of Feb. 24th. Each regiment and battalion displayed their guns and equipment for the guns and simulated firing as the governor was escorted by the 9th Division band. There were approximately one thousand civilians and five thousand soldiers at the review.

Thanks in advance,
Private Robert Gruber

The editor appreciates hearing from the boys at camp and welcomes all letters.

LET'S PLAY BINGO SUNDAY

Another benefit bingo party sponsored by the Kewaskum firemen will be held in the Kewaskum Opera House Sunday evening, March 16, starting at 8 p. m. Thirty-five games played for the regular admission price, besides the "help your neighbor" crazy bingo and game for the big prizes. The big prizes didn't go out two weeks ago so they will be that much larger Sunday. The more players, the bigger the prizes. Attend, help the firemen, enjoy a thrilling full evening's entertainment, and come on time so you don't miss any games. Play bingo every other Sunday night.

BROWNIE SCOUT NEWS

The meeting was held at the home of Mrs. E. B. Miller. Audrey Bruesse was absent due to illness. We continued to work on our embroidery for our quilt. Mrs. Carl Schaefer read two chapters of "The Little Swiss Wood Carver" by Madeline Brandels. The Brownies are very sorry that Mrs. Brauchle will not be with them for some time due to illness. The next meeting will be held at the home of Mrs. E. B. Miller.

Sub-Stratosphere Training For Army Air Corps Crews

A school for the instruction of air corps officers in the new technique of high-altitude flight, with emphasis on the use of oxygen equipment, has recently been opened at Wright field, Dayton, Ohio. The school is being conducted by the Wright Field Aero Medical Research Laboratory. Some of the activities at this school are shown in these pictures.

Picture Parade

Above: A student learns the "How, Why and When" of breathing through an oxygen mask—one of the first courses given in the Altitude school. New types of masks, oxygen tanks and working principles of distributing mechanism are explained.

Right: This experimental electrically-heated suit provides warmth without weight, and is worn underneath regular flying clothes or coveralls. Weighing 7 pounds, it keeps a pilot comfortable in temperatures that outside are as low as 60 below, F. These suits are designed primarily for pursuit pilots who fly in the stratosphere.

Inside this pressure chamber, officers "go up" to 18,000 feet without oxygen. Pumps exhaust air in the chamber for accurate simulation of altitude. Both ascent and descent are at rate of 1,000 feet per minute.

Altitude chamber controls. An operator takes officers inside the chamber up to 18,000 feet and back in about half an hour. Without oxygen average men "black out" above 20,000 feet.

Going up... Familiarization with new oxygen and communication equipment is acquired when officers attending the Altitude school board a Flying Fortress for practice at 30,000 feet.

'Breaking' Into Movies
Two husky young men of 16 and 17 have been visiting all the studios in Hollywood by a simple trick. They buy some lumber—usually just one long board—and carry it in one of the side or rear gates. Once on a lot they're able to walk around as long as they like, but they have to leave the lumber there when they go home. The way they were discovered was by nearly being arrested for trying to carry their own board out of a studio.

Uses Cheaper Coal
An automatic household-furnace stoker using the cheaper grades of hard coal, which, with thermostatic control, can be ignored for months at a time, has been invented by E. T. Selig and tested by the Mellon institute. Given an adequate coal bin and an ash-storage pit four feet deep, it was necessary to replenish the coal only once in four months, have the ashes removed three times a year. A 38-year-old boiler furnace was used for the test.

THE PAPERS OF PRIVATE PURKEY

Dear Ma—
Everything is about the same here in camp, especially the weather which has been of two kinds all winter had and worse and anybody who gets drafted this spring instead of in midwinter like I did is getting a great break. My feet have taken so much abuse they are unconscious, and don't believe that stuff about this being a machine war as I have never seen so much walking done in peace or war. From my experience I think I have been drafted in a bunions derby.

Nothing makes the boys so sore up here as when they get a paper and read about all them strikes and walkouts around the country. Every time I here about those guys with nice warm jobs who go home every night to home-cooked chow and yet squawk about the hours and the pay it gives me a pain you know where. Believe me if I was out of the army and had a job where I could quit every night and not saloot nobody I would mow down anybody who tried to sell me the idea I was not getting a square deal.

Well, I am getting used to spending all my time in a uniform now but it is no cinch after being used to having three suits in different colors, one with patched pockets and one with cuffs on the pants all my life. Gee, ma, it would feel swell to get into a white shirt, striped necktie and Sunday soot once in a while. In the army you have to wear the same soot Sunday you wore all week.

I can be transferred to a tank corps if I want to but I don't know whether I would like it much. The work looks too confining and while I would like to get into a service that would be easier on my feet a tank ain't my idea of no pleasure kar. A friend of mine was in the tanks and he says it is like going to war in a safe. A tank is like a taxi with no springs and with all the upholstery done by a scrap iron man. I guess I would be safer from stray bullets in a tank but I do not think I will sign up unless I thumb a ride and see for myself how it is. Before a soldier joins a tank corps the least the government should do is give him a demonstrashun.

How is the defense program coming on back home? I see where some Washington witnesses say the country is short of planes, guns, tanks and everything. As the old gag goes, this is a fine time to tell me, heh, ma?

I wish the government would turn the whole thing over to Henry Ford. He is the father of quantity production and the mother too, I guess. All you have to give him is a monkey wrench a few nuts and a general idea what the war needs and he will turn it out so fast that Uncle Sam will not only have enough planes, tanks and guns for 1941 and 1942 but will be giving previews of the 1943 models.

Do not worry about me as my few is a little better and I am getting used to chilblains. After all I was lucky not to get send with them boys to New Fundland.
Love,
Oscar.

"She does."
"And skating?"
"Oh, yes! She likes anything that may possibly lead to a proposal."

'See Naples and Die'
A giant air liner was flying swiftly over azure blue seas. Midway over a town a look of concern passed over the pilot's face. He turned to his passengers:
"Did any of you hear that saying, 'See Naples and die'?" he asked.
"Why yes," they chorused eagerly.
"Good!" he replied. "We're over Naples now and something has gone wrong with the engine. Have a good look at it!"

ABSTRACT REFLECTIONS
"Women are not given to abstract reflections."
"You're wrong; they are always stealing glances at a mirror."

Disappointment in Love
Sambo—Rastus, was yo' eber disappointed in love?
Rastus—Sho', two and a half times.
Sambo—How was dat?
Rastus—Well, yo' see, Ah was twice married an' once rejected.

Come, Kitty!
May—My fiance is telling everybody in India that he is coming home to marry the most beautiful girl in the world. Edna—Too bad, darling, after being engaged to you for such a long time.
Joggerly Class
Joan—Do you know all the states in the United States?
Jasper—Well, almost all.
Joan—Which ones don't you know? Maybe I can help you remember them.

Helps Listen
"What do I do?" said the railway worker. "Well, you know the chap that hits the wheels with a hammer when the train comes in?"
"I know," agreed the interested listener.
"Well, I help him listen."
Dependence Day
Mother—I thought you weren't going to play with that little boy next door any more.
Bobby—I wasn't, but my toys gave out before his.

Maryland Short-Landed
If the early settlers of Maryland had possessed better geographic knowledge and claimed all the land granted to Lord Baltimore, the king of England in 1632, the state would be nearly 100 square miles in area, according to Collier's. Instead it was only 10,000 square miles, having the 7,000 miles, which are worth about \$12,000,000,000, to be aware, Pennsylvania and what is now northern West Virginia.

Queer Oaths
Three Indian women who witnessed in a case at Fort Adams danced past the judge instead of taking the oath. This, according to their religion, bound them to speak the truth. If they lied they would incur the wrath of their ancestors. In British colonies Moslems swear on the Koran, Sikhs on the Bhagvad Gita, the equivalent of the Bible.
When a Chinese takes the oath he raises a saucer above his head and smashes it to the floor, saying as the fragments fly: "I tell a lie, may my soul be scattered, like that saucer, into a thousand fragments."

denning voices clamored in her ears. She was being cheap, she was doing the sort of shallow trick that a girl of Lottie's class might devise, she was forgetting that she was the daughter of Virgie Morgan of the Morgan mills. But drawing out all these self-reproaches was the thin, poignant cry that had trembled through her heart and beat in her blood since the night she had talked to her mother before the fire.

icicles made a diamond pattering on every rock and twig. "I don't like fighting," she began with a little difficulty. "We seem to clash. And it's rather silly, don't you think?"

Then the rusty radiator appeared over the rise emitting steam. Joe had let the engine run hot on the grade. He was always doing that, too impatient to cool it out properly when they reached the top of a long climb.

She turned, as though she had been struck, but he did not see. Her face was as white and stiff as his own. Her voice snickered like steel on ice.

TIPS to Gardeners

GARDENS FOR DEFENSE THE home gardener has an important place in our program of national defense, a much more important role than he played during the first World War.

RIGHT now's the time to get into a gay new print, or a suave black frock in flat crepe or thin wool, or a bright-colored spun rayon. Something slick and young and decidedly new-looking, that will be as smart this spring, for cooler days, as it is right now under your coat.

Apparently the Old Man Was Still to Be Satisfied

The old countryman and his wife were seated in the shoe shop of a small market town. The occasion was a pair of new shoes for the wife.

She tried on practically every shoe in the shop, and at last expressed her satisfaction. The weary assistant breathed a sigh of relief.

But the matter was not settled so easily. Addressing his wife, the old man queried: "Now are you quite sure you would like shoes for your birthday present or would you prefer an umbrella? They are on sale today, you know."

WEEKLY NEWS ANALYSIS

Hitler Continues 'Drive to the East' As Pressure Nets Results in Balkans; Labor Unrest in Defense Industries Will Be Handled Under New U. S. Agency

EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.

SURRENDER: Prelude to Peace

Nazi soldiers marched into Bulgaria. They were not opposed. Bulgarian officials who earlier talked bravely, but took no steps to prepare the nation for resistance, capitulated to Berlin's demands when the final test came.

Hundreds of thousands of Germans poured across the border in 48 hours. Panzer divisions raced across roads and took positions on the borders of Turkey and Greece. They supplanted officials known to be unsympathetic to their cause, rationed food, directed transportation, and virtually placed the whole nation under German military law and economy.

Berlin announced the occupation as a great military victory, although not a shot had been fired. But the action did have a strangely familiar ring. It paralleled closely the Nazi pattern that brought the downfall of many other European nations where officials had been induced to visit Munich to "guarantee peace."

Fascism had come to Bulgaria, ruled by King Boris, from within, long before it had been compelled by force of arms without. Bulgaria was sold out, as many other brave but hesitant nations had been sold out—by those groups within its own borders who believed they stood to gain in influence, in prestige and in wealth if a Fascist form of government would be established.

They will be disillusioned, as other groups have been disillusioned in other once independent nations—in Austria, in Norway, in Denmark, in the Netherlands, in Spain, in France and even in Germany itself.

Drang Nach Osten

It is said no man lives unto himself alone; that his every action reflects on the life of his community and his nation. If that is true, then it is equally true that no nation lives to itself alone; that its policies reflect on its neighbors as well.

So it was with Bulgaria. The highways of Bulgaria lead to other frontiers and 300,000 conquest-seeking Germans rested on the borders of Greece and Turkey. The small Greek army had halted the first Axis move to the east by defeating superiorly equipped Italian soldiers. Turkey, allied to Britain, had stood as the guardian of the eastern Mediterranean. But these nations found

themselves in peril. Jugoslavia, through which better roads lead to Greece, was in the same situation. All found themselves facing the choice of fighting against an efficient war machine or bowing to the will of Britain. None had much hope for success if they fought. All looked to England for help, but the problem of sending such assistance was monumental. The Germans had available 26 divisions for use in the Balkans. The only British force competent to deal with such numbers was in North Africa.

Whether the British had the means available to transport and land an expeditionary force was problematical. General Wavell's speedup campaign in Libya undoubtedly was to clean up that area quickly in the hope of using his troops in the Balkans. The factor of time and space in such a movement, however, seemed unsurmountable.

Meanwhile in Michigan the United Automobile Workers (C.I.O.) filed notice with the state of Michigan that it will call a strike at the three main plants of the Ford company. Notice of such intention is now necessary under Michigan law.

Knudsen Plan Knudsen, in the meantime, wrote a memorandum to Representative Summers (D., Texas), chairman of the house judiciary committee, which is considering changes in the national labor laws. Knudsen's plan would deny protection of the Wagner act to unions or employees considered recalcitrant. He proposed that strikes be forbidden in defense industries unless employees of a plant had given their consent by secret ballot, conducted under the supervision of the U. S. labor department. After such notice is served, he proposed the OMP be given 30 days to seek settlement.

Death—To one of the world's most renowned scientists, death came in the midst of new discoveries. Sir Frederick Banting, Canadian who developed insulin, died when a plane carrying him to England crashed in Newfoundland. It was revealed Sir Frederick was about to put into practice a new discovery in the field of aviation medicine which should be of great value.

Arrest—Three years ago Mrs. Elizabeth Dilling of Chicago wrote a book called "The Red Network," which purported to show Communist leanings of the part of many in public life. Mrs. Roosevelt was mentioned in the book. Now Mrs. Dilling has twice been arrested for disturbance on the U. S. Capitol grounds. Her activities were in opposition to the measure to aid Britain by lending or leasing munitions. Strangely enough, the role taken by Mrs. Dilling is supported by the Communist party.

Yard Bird—Each week sees some person with public name submerge themselves in the ranks of the U. S. Army. Latest is Jackie Coogan, once "The Kid" of the movies. Also called to camps were Sidney Kingsley, Pulitzer prize playwright, and golf star "Porkey" Oliver.

Good Earth—An exile from his throne, King Alfonso died in Rome. A tiny sack of Spanish earth was placed in his coffin. Later permission was given by the Franco government for interment of the body in Madrid.

Fame—The highest awards Hollywood can bestow upon its stars is the annual shields given by the Academy of Motion Picture Arts. This year the shields (known as Oscars to the studios) were received by James Stewart (best actor) and Ginger Rogers (born Virginia McMath) for her portrayal of Kitty Foyle.

The hibernating bear of the North, Russia, began to show signs of alarm. Moscow sent a sharp rebuke to Bulgaria, denouncing the surrender. Significantly enough, no protest was made to Germany. Berlin shrugged off the Moscow statement, with the observation that Russia's attitude was only a defensive one, that its army was not equipped for offensive action. Therefore the protest was of no importance.

Adolf Hitler wasted no time while Turkey, Greece and Jugoslavia trembled. He quickly sent couriers to their capitals with offers of "peace." He said he had no designs on their territory. Turkey and Greece took small comfort from these assurances. They had seen the same kind of pledges given Poland, Czechoslovakia and other small countries that now have no way of life of their own.

Hitler seemed well along toward success of the old German ambition of drang nach osten, drive to the east. To the east lies the riches of Asia—Egypt, Persia, Syria, India and East Africa.

NEW LABOR PLAN: By Executive Order

A new labor board to serve as a "supreme court" in disputes involving defense industries is in the making. It will be created by President Roosevelt by White House order and consist of 11 men, three to represent

the public and four each from labor and industry.

The board of non-salaried members would act only in cases where the labor department's conciliation service failed to make progress and so certified. It would have no power of compulsion but would be so constructed as to make mediation machinery possible.

But the Office of Production Management in Washington quickly stepped in, without waiting for the labor department to get under way. William S. Knudsen and Sidney Hillman, OPM directors, offered a compromise plan of settlement which called for return of all workers with seniority protected, negotiations with the union and an NLRB election. Both sides accepted.

Meanwhile in Michigan the United Automobile Workers (C.I.O.) filed notice with the state of Michigan that it will call a strike at the three main plants of the Ford company. Notice of such intention is now necessary under Michigan law.

Knudsen Plan Knudsen, in the meantime, wrote a memorandum to Representative Summers (D., Texas), chairman of the house judiciary committee, which is considering changes in the national labor laws. 'Heavy Dew'

Streets became rivers in the Los Angeles, Calif., area during the storm which brought rain figures up to the highest level in 48 years. Here a Reseda, Calif., woman is being helped board a bicycle so she can stay above "water-level" on her way home.

ENVOYS: Grab Headlines

When Lord Halifax, British ambassador to the United States, arrived at Annapolis, Md., President Roosevelt met his ship, setting a precedent. Not to be outdone, King George VI met the train which took the new U. S. ambassador to the Court of St. James, John C. Winant, to London. That also was a precedent.

A new Canadian minister was selected for the United States. He is 71-year-old Leighton G. McCarthy, Toronto industrialist. No stranger to the U. S. is Ambassador McCarthy, nor to President Roosevelt. Ambassador McCarthy has for several years been a director of the Warm Springs foundation.

BERMUDA: U. S. Control

Grumbling in the house of commons, in London, over the swap of Caribbean bases to the U. S. for 50 over-aged destroyers, has been forbidden to break into the open by Prime Minister Churchill. However the wide authority given the U. S. in these areas is just beginning to become apparent.

Take Bermuda, for instance. There the U. S. has acquired about a tenth of the acreage of the tiny island. The chief hotel has been leased by the U. S. navy for its technicians. The hotel has no room for tourists. In another hotel army engineers have set up. Marines have pitched a camp in still another spot.

In Washington, Rep. Carl Vinson (D., Tenn.), chairman of the house naval committee, disclosed the terms of the Bermuda lease, which are similar to the terms of leases at all other bases. They include: (1) The lease to run 99 years, with the United States granted the right, if necessary for defense, to assume "military control and conduct military operations within any part of Bermuda"; (2) other areas to be leased, if needed; (3) Americans to control ship and air operations and communications within leased areas; (4) Americans to have the right to improve anchorages near leased land bases and to install defenses; (5) Americans to have the same privilege as the British in the use of roads and bridges and the right to use British docks and shops.

INSURANCE: Supervision Asked Discussion of federal control of life insurance was heard in Washington before the joint senate-house committee investigating monopolies. Sumner T. Pike, representative of the Securities and Exchange commission, told the committee he believed the federal government should not supplant the states in control of insurance companies, but that a program of strengthening the state systems was desirable.

Senator O'Mahoney (D., Wyo.) said he opposed the idea. So did Representative Sumner (D., Texas) the vice chairman. Thurman Arnold, assistant attorney general in charge of the anti-trust division, said if the states cannot do the job "we might wake up after the war and find we have to take more drastic action than otherwise would be necessary."

MISCELLANY: There now is \$14,000,000,000 in gold in the vaults of Fort Knox, Ky., the largest treasure ever assembled under one roof in the history of the world. The new total was reached when \$8,500,000,000 was transferred from vaults in New York. The pile of glittering bars is just about half of all the gold in the world.

Alec Templeton, blind pianist, petitioned an Illinois court for an accounting of his earnings, naming his parents and an attorney. He asked they be restrained from exercising management of his affairs. He alleged his parents, Andrew Bryson and Mrs. Sarah May Templeton, and their attorney had allotted him only \$100 monthly for expenses since 1930, during which time he earned \$200,000. He said he signed some papers which were read to him and some which he was advised it was not necessary for him to hear.

If the Republican-controlled state senate in Indiana has its way every man who wants to buy a drink will be compelled to obtain a license—at 10 cents a license. Advocates said the proposal was designed to prevent sale of liquor to minors, especially girls. But the bill passed. Dr. Frederick Ernst Auhagen was indicted by a Washington grand jury for failure to register as an agent of a foreign power. He was arrested in Ottawa, Ill., and released under \$5,000 bond. The Dies committee labeled Dr. Auhagen a propagandist for Germany.

Co-operation is the keyword in Washington today. The more co-operation from labor, the less chance of congress passing anti-strike laws. The more help from business, the less chance from the government "cracking down." An example of one type of co-operation is offered by the firm noted for its precision and fire control instruments, the Bausch and Lomb company. They have turned over their private blueprints to the British with permission to let any manufacturer they choose use them.

The average American soldier eats about 40 per cent more than he does in civilian life, according to the national defense advisory commission. He gets much more than 40 per cent more meat. In some localities as many as one-third of the draftees who are otherwise eligible for army service have to be turned down because of physical conditions due entirely to deficiency in diet.

Snuff is still in politics. On every desk in the senate chamber there is a snuff box. Snuff is still available to any senator who wishes it. Few use it. But it still plays an important role. For instance, 12 years ago, a Texas congressman, without having anybody in particular in mind, said that Garrett's snuff was so popular in Texas if any man by that name ever ran for congress, he would be elected hands down. In 1936 one was. And he defeated an old-timer, Representative Blanton.

England May Get Food Under 'Lend-Lease' Bill

Increasing Shortages Now Appear Likely; Roosevelt Opposed to Censorship Of 'Defense' Information.

By BAUKHAGE National Farm and Home Hour Commentator.

WNU Service, 1395 National Press Bldg., Washington, D. C.

WASHINGTON.—In the past few weeks the tall figure of a Hoosier farmer has been seen frequently entering and leaving the White House. This was not so strange to us who watch the busy portals because the man was Secretary of Agriculture Wickard. Like other members of the cabinet, he is called in for frequent conferences with the President these days. Cabinet officers and other government officials have been helping the President plan the concrete steps to be taken to aid Britain under the lend-lease bill.

But what a lot of us did not guess was just what Secretary Wickard was up to. The purpose of those visits was not being officially announced, as I write these lines. But it can be safely predicted that he was working out plans with the President to include farm products among the first supplies to be loaned or leased to England.

Secretary Wickard was able to achieve his purpose partly as a result of his own persuasiveness, and partly for other reasons that I will explain later.

Here is the tip-off on the plan the secretary discussed with the President in Mr. Wickard's own words. It is pretty easily expressed but if you know how, you can read between the lines. This is what Secretary Wickard said in a public speech during the congressional battle on the lend-lease bill:

Overproduction Held Unlikely. "Frankly speaking, there is little likelihood that we will produce too much meat, butter, cheese, milk and other dairy products in the months to come. I have an idea that all we produce in the South and elsewhere will be needed.

"The reports about the British food situation are not too encouraging. The British have lost their sources of food supply on the continent. They are handicapped still further by their shipping losses. The English may want some of our food and want it pretty soon. If they call on us, I think we will answer the call."

Almost all of the products to be sent to Britain under the lend-lease plan will be proteins (meat, milk and milk products and eggs). There will be, however, some cotton, wheat and tobacco, and these commodities will constitute a minor part of the shipments. The practical arguments for sending proteins are obvious:

1. The extra physical demands on fighting men require a greater protein diet.

2. These products up to now have been shipped to England all the way from Australia, New Zealand and the Argentine. Two trips can be made from New York to Britain while one is being made from these distant points.

Unfortunately the protein commodities which are needed by England are not the ones we most want to sell. They do not constitute our great surplus, disposition of which has caused the biggest headaches in the department of agriculture since the farm problem was tossed in the government's lap.

Surplus Produce Unaffected. Furthermore, they are the products which, later on, when the defense industries expand, we will need at home because if all our unemployed were working full time and eating three meals a day, we would not have enough proteins at the present rate of production to satisfy them. The things we do want to get rid of—the things which we have enough and to spare—are not as greatly affected by increased employment. Department of agriculture experts here will tell you any day that in prosperous times there is not an important increase in the use of cotton, tobacco and wheat.

But as far as the British go, they have to consider first things first, and they have all the cotton, wheat and tobacco they need, or they can get these products as conveniently from their own dominions as from the United States.

So this new "lend-lease" market won't solve the problem of farm surpluses. Nevertheless, it will absorb some of them, for the government is insisting that along with the proteins, some of the surplus products will be included in the lend-lease plan.

How long this new market over-

seas will last no one can say. It is impossible to predict how long the emergency will last or what the fortunes of war will be. But the effort of the New Deal planners is to build up an increasing demand at home for the things the farmer raises. As Secretary Wickard says on every occasion when he gets the chance:

"Whether they lose or keep the foreign markets, farmers must try to increase consumption in their best market—the domestic market."

President Discusses News Control With Reporters

Imagine the head of a European state sitting for half an hour while he was questioned by a group of newsmen on any subject they chose, including the government's confidential transactions!

And, yet, that happens twice a week in Washington at the White House press conferences. There the President sits at his desk covered with papers; members of the White House staff sitting about him, two secret service men standing inconspicuously behind him, between the stars and stripes and the presidential flag.

To us in Washington, the White House press conference is routine. But a recent meeting was so democratic, so unlike anything that could possibly happen abroad, that it stands out clearly in my memory.

Mr. Roosevelt started it. The question which the American public ought to think about, as he put it, had to do with the ethics, morals and patriotism of making public, matters which might be injurious to national defense. First, should a member of congress divulge testimony before a secret committee session; second, should a newspaper publish or a radio station broadcast such information.

The issue was raised by the publication of testimony given by the chief of staff, General Marshall, before an executive session of the senate military affairs committee in connection with a shipment of army bombers to Hawaii.

Censorship Not Desired. The President said he had neither the desire nor the power to censor the news, but he wished us to consider whether it was ethical, moral or patriotic to publish any information which the heads of the army and navy believed should, in the interests of national defense, be kept confidential.

The newsmen did not question the advisability of withholding from the public important military secrets, but they showed plainly that they resented any suggestion that the freedom of the press be interfered with.

One correspondent said frankly that the chief of staff ought not to tell things to congressmen which he did not want to get out because such information always leaked. The President replied, quietly, that naturally, one did not like to withhold any information asked for by congress.

Another reporter asked how the press was to know what information, once they had received it, ought to be withheld, and what could be printed. The President answered this could be determined by what the heads of the army and navy felt would be injurious to national defense. The President admitted he had no specific proposal to suggest. No definite conclusion to the discussion was reached at the interview.

The incident had one effect. Shortly after the meeting, a writer who is usually excellently informed, stated that the President had turned down flatly a plan to place all information concerning defense under what amounted to a censorship board. It had been long known that such a plan was placed on the President's desk at the time war broke out abroad. The President turned it down then. When it came up the second time, he again turned it down. Later, Lowell Mellett, administrative advisor to the President, said no plan of censorship was being considered.

If war comes, some method of regulating the publication of military information will probably be put into effect. But until that moment, the press and radio will fight for freedom of speech, the spoken word, or the written.

BRIEFS . . . by Baukhage

On the same day that President Roosevelt declared that he approved of wire-tapping by department of justice operatives where sabotage was suspected, the guards in the Capitol building were replaced by policemen and no one is now permitted to carry packages of any kind into the building. Even cameras have to be checked at special stands at the entrances.

Co-operation is the keyword in Washington today. The more co-operation from labor, the less chance of congress passing anti-strike laws. The more help from business, the less chance from the government "cracking down." An example of one type of co-operation is offered by the firm noted for its precision and fire control instruments, the Bausch and Lomb company. They have turned over their private blueprints to the British with permission to let any manufacturer they choose use them.

The average American soldier eats about 40 per cent more than he does in civilian life, according to the national defense advisory commission. He gets much more than 40 per cent more meat. In some localities as many as one-third of the draftees who are otherwise eligible for army service have to be turned down because of physical conditions due entirely to deficiency in diet.

New Low for Infant Deaths.—The state bureau of maternal and child health announced at Madison that federal census bureau data for 1939 gave Wisconsin an infant mortality rate of 40.2 per 1,000 live births, a new low which ranks the state fifteenth among all states.

May Reopen Old School.—A school building which has been unused nearly three years may solve the problem of school congestion in Manelwa during the next few years because of increased activity at the shipyards.

Badger State Happenings

Vote Down Pension Plan—Permission for the school boards to establish pension systems in cities for school employes other than teachers was denied 45 to 44 by the assembly.

Driver Has Close Call—Nathan Reickson, 50, Eau Claire, escaped injury when a Soo Line freight train crashed into his automobile and pushed it about 280 feet along the track south of Barron. The car was wrecked.

Milk Shipments Increase—February milk shipments to the Milwaukee market were 11 per cent higher than in the same 1940 months, with the composite price on the increased receipts averaging \$1.99 a hundred pounds delivered.

Nahin's Estate \$10,300—Louis M. Nahin, business manager of the Milwaukee Brewers for many years, who died recently, left an estate estimated at \$10,300, according to his will filed for probate in the county court at Milwaukee.

Will Not Penalize Drys—A bill denying Wisconsin dry communities their share of liquor taxes was revived, amended and killed for a second time by the senate. The proposal originally was defeated 15 to 13, but it was reconsidered by 17 to 10 vote.

Johnson, Ex-Treasurer, Dies—Former State Treasurer Henry Johnson, 86, died at the home of his daughter, Mrs. Julian Johnson, Madison, after a short illness. He served as treasurer 10 years, from 1913 to 1923, when he was succeeded by the late Solomon Levitan.

State Gets "Dies" Setup—A little "Dies committee" to investigate alleged subversive activities in defense industries was set up when the senate concurred in the resolution of Assemblyman Westfall and Senator Gettelman. The assembly had adopted the resolution a week before.

Makes Big Cheese Shipment—Joseph Schmidt, cheesemaker living near Beaver Dam, recently shipped 50,600 pounds of cheese to a New York market. The order contained 95 per cent Muenster and 5 per cent Limburger. Mr. Schmidt operates 17 cheese factories, all of which are in Dodge county.</

VENTURES IN COOKING

Just as much "huff" out of a recipe as I do out of buying a new machine. I've stated a homemaker's statement to me: "After all, why shouldn't you enjoy a new recipe?"

new, unusual and brand new to prepare the making up of that recipe becomes a challenge, almost a game. Can we make it up correctly? Does the recipe suggest a new cooking process, one which we have never tried before?

What new dish going to taste? Is it really good? Is it really safe to eat? Is it really safe to eat? Is it really safe to eat?

Let's be venturesome and try new recipes. The list contains a number of personal favorites. I hope you and the family will enjoy them.

Stuffed Cinnamon Apples. (Serves 6)
1/2 cup sugar
1/2 cup butter
1/2 cup brown sugar
1/2 cup water
1/2 cup cinnamon candy
1/2 cup raisins
1/2 cup nuts
1/2 cup apples
1/2 cup sugar
1/2 cup butter
1/2 cup brown sugar
1/2 cup water
1/2 cup cinnamon candy
1/2 cup raisins
1/2 cup nuts
1/2 cup apples

Sausages in Pastry Blankets. (8 sausage rolls)
1 1/2 cups flour
1/2 teaspoon salt
1/4 teaspoon baking powder
1/4 cup shortening
3 tablespoons cold water (approximately)
8 pork link sausages
Sift together the flour, salt, and baking powder. Blend in the shortening. Then add just enough water to form a dough, mixing lightly. Roll out and cut into 8 oblong pieces, each sufficiently large to wrap around one link sausage. Place individual sausages (well pricked) on individual pieces of pastry; fold ends over and roll up. Place, folded side down, on a baking sheet. Prick crust with a fork. Bake in a hot oven (425 degrees) for about 30 minutes. Serve very hot.

Ham Stuffed Baked Apples. (Serves 6)
6 large tart apples
1 1/2 cups baked ham (cut in small pieces)
1 teaspoon whole cloves
2 tablespoons butter
Cut a 1/4 inch slice from stem end of each apple and remove core carefully. Scoop out, reserve apple pulp, and leave apple shell about 1/4 inch thick. Combine ham and apple pulp (cut fine) and fill the apple shells. Top each shell with a clove and dot with butter. Place in a baking pan, add 1/4 inch water and bake in a moderate oven (350 degrees) for about one hour.

into the dry ingredients. Add melted butter and sausage and fold in the well beaten egg whites. Bake as waffles in a hot waffle iron until crisp and brown. Serve with maple syrup.

Sweet Potato and Puritan Sausage Cakes.
Parboil 5 sweet potatoes. Peel and cut in half lengthwise. Place 1/2 of the slices in a buttered baking pan. Make 1/2 pound of pork sausage up into flat sausage cakes. Place one slice and top with a second sweet potato slice. Fasten with a toothpick. Brush with melted butter and salt lightly. Bake in a moderate oven (350 degrees) for approximately 1/2 hour.

Porcupine Sausage Balls.
2 tablespoons butter
1 small onion, chopped
1 green pepper, chopped
2 1/2 cups canned tomatoes
1 tablespoon sugar
1 pound bulk pork sausage
3/4 cup uncooked rice
Melt butter in frying pan and brown onion in it. Add chopped green pepper, tomatoes, sugar, and salt. Cook until green pepper is tender. Make the sausage into small balls and roll in the uncooked rice. Place in greased baking casserole and pour the tomato mixture over the sausage balls. Cover baking dish and bake 1 1/2 hours in a moderate oven (350 degrees).

Sausage Stuffed Tomatoes. (Serves 8)
8 large firm tomatoes (uncooked)
1 pound country style pork sausage
1/2 cup soft bread crumbs (buttered)
Remove stem end of tomatoes. Scoop out the center and sprinkle lightly with salt. Form sausage into eight balls and place one ball in each tomato. Top with buttered bread crumbs. Place tomatoes in a shallow baking pan, bake in a moderate oven (350 degrees) for 45 minutes (approximately).

Ham Stuffed Baked Apples. (Serves 6)
6 large tart apples
1 1/2 cups baked ham (cut in small pieces)
1 teaspoon whole cloves
2 tablespoons butter

Diary of a Lady With a House
Thursday—How the southern part of the country came by its affectionate nickname Dixie turns out to be a simple tale. It seems that a bank in New Orleans, back in 1852 when most of the states issued their own money, got out a 10-piastre note that was used widely over all the South because of its stability. Being printed in both French and English, the word ten appeared as dix on one side and the notes came to be called dixies, and the states in which they were circulated came to be called Dixieland.

A Nourishing Diet That Is Low in Cost

By DR. JAMES W. BARTON
(Released by Western Newspaper Union.)

IN MY student days we learned that there were three main classes of foods—proteins (meat, eggs, fish, cereals), starches (bread, potatoes, sugar), and fats (butter, cream, fat meats). The other foodstuffs, salts—iron, lime, phosphorous—and water, were considered "necessary" foods.

Today foods are not considered entirely from the standpoint of fuel or heat, but from the standpoint of the building of the body and maintaining the various body processes in proper condition to do their work.

In days when foods necessary to maintain health are of the utmost importance to a nation, adults, children and children of the future, not only must these foods be acquired but they must be within the reach of those with low income.

That the expectant mother must have an excess quantity of foods containing all the food essentials—proteins, fats, starches, minerals and vitamins—is agreed. It is a source of surprise and satisfaction therefore to learn that research workers at Columbia university have found that the expectant mother can live on a diet costing as little as 34 cents a day and still get generous amounts of all food substances she needs.

Suggested Diet.
This diet is announced by Dr. Clara Taylor, Columbia university, assistant professor of nutrition.

A sample day's menu consists of: Breakfast—four prunes; one cup of oatmeal with a little sugar; two slices of whole wheat toast; one tablespoon butter; one glass of milk.

Lunch—Cream of tomato soup made with one half cup of tomatoes, one-fourth cup evaporated milk, one teaspoon flour and one teaspoon fat; salad of one egg, lettuce, mayonnaise; cheese sandwich (three ounces of cheese and teaspoon butter) on whole wheat bread; one glass of milk.

Dinner—Three ounces broiled beef liver; one baked potato; one cup kale or cabbage; two slices whole wheat bread; two tablespoons butter; one banana; one glass milk. Sugar allowance for a day is one ounce.

What to Do for Cases of Enuresis

ONE of the gratifying discoveries in recent years is a method or methods of curing bed wetting or enuresis. Even after children reach their teens, they may be embarrassed by this distressing condition.

In young children, liquids are cut down toward evening, the child is sent to the bathroom before going to bed and as the parents are retiring the child is awakened by his parents and walks to the bathroom again. This gets him completely awake and is considered an important part of the treatment.

Formerly the child to the bathroom and in many cases he was not completely awake. Part of the treatment also were methods to prevent the child lying on his back during sleep—knot in tail of sleeping garment, narrow space in bed preventing him lying on his back.

A great advance in the treatment of older boys and girls is the eating of the salt sandwich. No liquid of any kind is allowed after 4 p. m., and a sandwich of bread and butter with a layer of table salt, or salt fish, or salt meat is given at bedtime. As salt holds 70 times its own weight of water, this great amount of salt at bedtime holds the water in the tissues till morning, thus preventing it going down to the kidneys.

However, there are some cases of bed wetting that are not due to nervousness or to emotional disturbance, but to some condition of the kidneys, bladder, or the generative organs themselves. The editor of the Journal of the American Medical Association advises that before any treatment for bed wetting is begun a thorough examination of the kidneys, bladder and generative organs be made, including X-rays, to determine whether the cause is organic or functional.

QUESTION BOX

Q.—Please advise me regarding the cause of glaucoma, and is this ailment curable?
A.—The causes of glaucoma are not definitely known. Some derangement of liver or kidney or both is believed a cause. Sometimes glaucoma is due to some disturbance in eye itself. In older people may be due to high blood pressure. Heredity is believed to be a factor. Medical and surgical treatment to relieve symptoms is the usual procedure.

Q.—Please advise if sharp chest pains (diagnosed as angina pectoris) can be cured. Patient refuses medical attention and will not follow doctor's orders.
A.—Angina pectoris can be caused by slight exertion after eating. Your best plan is to consult a heart specialist and make sure that no heart disease is present. Patient should avoid foods that cause gas—eggs, cabbage, cauliflower, lettuce, onions, white bread. A man of 54 should not let himself be an invalid if he can help it.

Wet Chimney.
QUESTION: How can I keep rain from coming down the chimney of my bungalow?
ANSWER: One method is to put a slab of stone over the top of the chimney, supported on columns, so that the draft will not be interfered with. It may be that the water does not come down the flue, but gets into the brickwork through defective mortar joints, or through a broken chimney cap. These possibilities should be looked into.

Darkened Floor.
QUESTION: After scraping and wiping, a floor was given a coat of white shellac thinned with denatured alcohol. The floor has darkened and is so rough that it catches dust from the mop. Shellac was purchased in a gallon-can two years ago, but has been kept covered in the cellar. Is this shellac responsible?
ANSWER: Yes; for shellac deteriorates with age. It should be used within a few months. The quality makers of shellac date their cans. All of the old shellac should be taken out, which can be done by wiping with denatured alcohol. You will probably find that this will leave a smooth surface. Get top quality and pure shellac, and thin it with an equal quantity of good denatured alcohol, put on in two or three thin coats. Instead of shellac, you could use two coats of top quality floor varnish.

Washing Painted Walls.
QUESTION: What is your formula for washing painted interior house walls?
ANSWER: Use tepid water in which dissolve trisodium phosphate in the proportion of one teaspoonful to the gallon. When washing painted walls, start at the floor level and work upwards. If you start at the top and work down, you will make dirty streaks that will be almost impossible to clean off. Rinse thoroughly. Trisodium phosphate can be had under a trade name at a grocery store; ask for a white cleaning powder that makes no lather. Another excellent type of paint cleaner is made of a cereal preparation, which has no strong chemicals and does not hurt the hands. It is on sale at most paint stores, and is much used by professional painters.

Cesspool in an Old Well.
QUESTION: Can you give me any information about using an old well as a cesspool? Are wells built with holes in the sides to permit the water to seep in? Do you think the water from the cesspool could drain away through the sides or only from the bottom? The well is 30 feet deep and three or four feet wide.
ANSWER: With water in the bottom of the well, you will naturally get no drainage, and the idea would be impractical. There is also a possibility of contaminating the water supply of another well which may be close by. I would advise building a cesspool and locating it as far from the sources of water supply as possible. Have you considered a septic tank instead of a cesspool?

Refinishing a Brick House.
QUESTION: We wish to clean our brick cottage, which is 60 years old. How should we do it? What colors do you suggest for the trim and the shutters?
ANSWER: You can clean the brick-work with any coarse scouring powder and plenty of water with a stiff scrubbing brush. If this does not restore the color sufficiently, you can use a cement paint that is intended for masonry, and that you can get in brick or other color, at a paint store. White painted bricks are very popular, and you might consider this. White trim against red bricks is effective, and a soft green jade for instance, should be a good contrast for the shutters.

Cleaning a Statuette.
QUESTION: I have a statuette of the kind that was made in large numbers 30 or more years ago, but that now can be found only in antique shops. It would look better if it were cleaned. What method and materials should I use?
ANSWER: The statuette is undoubtedly of a kind known as a Rogers Group, or something similar. It is made of plaster of paris and finished with oil paint. You can clean it with a cloth damp with soap water; follow by wiping with clear water and then allow to dry thoroughly. For a final finish you can repaint it with ordinary oil paint.

Oil Finish.
QUESTION: In rubbed oil finish, is raw or boiled linseed oil used? Is the first coat applied hot or cold?
ANSWER: Raw linseed oil is usually applied cold. One excellent combination is 3 parts oil and 1 part turpentine, which has greater penetration. An alternative is equal parts of oil, turpentine and denatured alcohol.

Iodine Stains.
A correspondent suggests the use of starch to remove iodine stains from cloth in the following way: "Wet the stain with a starch solution such as is used for starching collars. When the color turns blue, rinse with hot water. For old stains try half alcohol and water in sufficient quantity to dissolve a tablespoonful of starch. Then wet thoroughly and keep wet until no iodine remains. Repeat if necessary." This method sounds practical, but a reliable dry cleaner could probably do the job better.

Star Dust

STAGE-SCREEN-RADIO
By VIRGINIA VALE
(Released by Western Newspaper Union.)

"TOBACCO ROAD," that painfully realistic drama of life among the poor whites that has been running for years and years on Broadway, has reached the screen at last. There's been considerable speculation about what would be left of it when it became a picture, since practically all of it was highly censorable. Well, just about nothing got by.

Most of the sizzling dialogue of the original version was omitted, of course. The characters have been changed. The result is a rather innocuous movie with a few beautiful camera shots.

Dennis Morgan says that the only time he was ever broke, hungry and desperate was the day he became a full-fledged movie star. Morgan, who is co-starring with Merle Oberon in Warner Bros.' "Affectionately Yours," was discovered by Mary Gard when he sang "Don Juan" to her "Carmen." She called the attention of movie scouts to the handsome and popular young singer.

"I signed at a good salary and thought I was sitting on top of the world," he said. "Instead, I found myself broke and hungry, sitting out in the desert in a broken-down jalopy." He didn't understand that a yearly movie contract provides for a 12-week layoff without pay. He bought an ancient auto and headed West. But his layoff period came first.

The days of the glorified bathtub are back. In "Ziegfeld Girl" Lana Turner, as one of the glorified show-girls, steps into a marble tub wearing her jewelry, including earrings and a tiara, and apparently nothing else.

Though the much-publicized episode of the Anna Held milk bath will not be used, the scene with Lana is based on an actual occurrence, when a slightly tipsy Follies Girl stepped out of her bathrobe and into the tub wearing her hat and jewelry. But when Miss Turner slips out of the bathrobe there's a flesh-colored bathing suit on her, as well as the jewels.

What kind of noise does a planet make when it explodes? That's what a group of serious-minded men in Miami, Fla., want to know. They're bringing "Superman" to the screen at the Fleischer Studios, and in one of the opening scenes a planet explodes—only "Superman" in a rocket ship, escapes. Max Fleischer thinks it ought to be very, very loud; Dave Fleischer thinks it ought to be a combination of heavy gunfire, earthquake—and an apple breaking in two, much multiplied. Unless somebody thinks up something more satisfactory, the apple wins.

Lurene Tuttle has played, to date, 2,000 different radio roles; she's so much in demand that she dashes from one rehearsal directly to another. Here's her formula for success—Master your own art; keep your mind open to suggestions—never think you're too good to learn from others. That may be responsible for the fact that she's gone on and on, when so many radio stars rise to the top quickly, and then sink out of sight even faster than they rose. Lurene puts over a role with her voice alone; doesn't rely on gestures, make-up or costumes.

Paul Schubert is naval expert for the Mutual chain because he plays the accordion. Mrs. Schubert has a nice voice, and when she auditioned for the chain some time ago he went along and played the accordion for her as an accompaniment. That interested him in radio. A couple of months later he phoned the man who'd handled the audition.

"Do you remember me—the man who played the accordion?" he asked and made an appointment for an interview. The appointment revealed his extensive study and writing experience in connection with naval affairs—and presto! he was signed up immediately.

ODDS AND ENDS—Richard Arlen and Roger Pryor flew their own planes the other day for Paramount's "Power Dive"; Arlen operates his own 14-plane flying school, and Pryor recently became the first Hollywood leading man to get a commercial rating. . . . Marie Blake, Jeanette MacDonell, a supporting role in "Caught in the Draft," which stars Bob Hope and Dorothy Lamour. . . . Jean Gabin, the famous French screen star, has signed a contract with 20th Century-Fox. . . . "Ready for Romance" is being speeded up so that it will be completed before the star, Deanna Durbin, marries Vaughn Paul in June.

The Vass family, one of radio's best known vocal rhythm groups, are now permanent members of the cast of "Alec Templeton Time." The five—four sisters and a brother—were born in Greenville, S. C., the children of a doctor who has always been interested in dramatics; their mother had majored in music at college. But it was an aunt who urged them to try radio. They've appeared on a lot of programs as guests, and have been featured on the NBC Breakfast Club and the National Barn Dance.

HOW TO SEW

by Ruth Wyeth Spears

THESE moody young ladies with their sun-tanned faces, gay bandannas and sparkling button eyes will stand out among pot holders with less personality. Also, you can have fun making them. You won't need a stamping pattern. Just follow the directions in the sketch to change the faces from gloom to joy by easy stages.

Baste the tan piece for the face to a cotton flannel interlining with a line of basting exactly through the center up and down and another crosswise through the center. The two pieces for the bandanna lap one inch below the top of the up-and-down line. Their lower ends come one-half inch below the ends of the crosswise line. Stitch these in place. The one-inch buttons for the eyes are spaced two inches apart and the tops are one-fourth inch above the crosswise line of basting. The top of each mouth is 1 1/2 inches below this crosswise line. The lady becomes sad, speculative or gay according to the slant of the stitches for the eyes or the shape of her mouth.

HOUSEHOLD QUESTIONS

Soup is usually better if allowed to stand overnight, giving the flavorings a chance to blend.

Kerosene will soften boots and shoes that have been hardened by water.

Potatoes to be french fried will be more crisp if allowed to stand in cold water for half an hour before frying.

A dry cloth is better for removing a pan or dish from the stove than a damp or wet one.

Legislative News Letter

—By—
Assemblyman
Jos. A. Schmitz
Washington County

(Week of March 3)
ESTABLISH STATE GUARD
Now that the Wisconsin National
Guard has been called into the federal
service and has left the state with-
out any local protection, the legisla-
ture has been asked to create a tem-
porary defense force to take its place.
The new law which establishes this
home defense force is known as the
Wisconsin State Guard act. It pro-
vides for 24 infantry companies of
60 men each to be quartered at 19
strategic locations (all at large cities)
in all parts of the state.

Because of the nearness of Mil-
waukee and Fond du Lac, at both
of which cities units will be station-
ed, it was impossible to have one of
the companies allocated to West
Bend or Hartford.

The creation of this state guard is
necessary in order that its services
may be called upon by the governor
to quell riots, disturbances, insur-
rections, or to enforce martial law
within the boundaries of the state of
Wisconsin.

ENLISTMENT
The Wisconsin State Guard shall
total 1440 enlisted men and 120 offi-
cers. Upon passage of the bill, which
should be within the next ten days,
the governor will call for volunteers
to serve therein, under rules and re-
gulations substantially the same as
those governing the national guard.

Only men between the ages of 35
and 55 will be accepted for enlist-
ment. Young men will be taken pro-
vided they are not eligible or federal
draft, or if they have previously
served and have been honorably dis-
charged from the armed forces of the
United States.

Every four companies shall have
a battalion commander, appointed by
the governor, who in turn shall ap-
point a company commander for each
company.

The company commander is usual-
ly a local resident of the city in
which the company is to be station-
ed, and he is in charge of enlistment,
training and morals of the men and
officers under his command.

DRILL AND WAGES
Training periods for the men are
divided into two parts—the army
and the field training. The army
training period is comprised of not
less than four two-hour drills each
month, while the field training con-
sists of ten days actually spent in the
field in army maneuvers.

No compensation is paid to any
member of the guard unless the gov-
ernor calls them out on active duty.
The pay for this service ranges from
one to five dollars per day, depend-
ing upon rank.

Enlistment periods are for one
year, but may be renewed thereafter.
However all services will be termi-
nated and the state guard shall be
dissolved immediately upon the re-
turn of the national guard.

UNIFORMS, PHYSICAL EXAMS
Uniforms for the men and officers
must be furnished by the state, while
arms and ammunition will be provid-
ed by the federal government.
All applicants for enlistment will
be required to satisfactorily pass a
stiff physical examination and only
those who are in fit condition will be
accepted. Any local doctor author-
ized by the adjutant general may
make the examination.

AIR UNIT
Realizing the important part which
aviation now takes in military af-
fairs, the senate provided that an avia-
tion unit be added to the state
guard. There are hundreds of licen-
sed pilots in the state of Wisconsin
whose services will be drawn upon
in this work and for whom the fed-
eral government will furnish the nec-
essary uniforms, flying instruction,
and, later on, planes. The state will
have to provide the fuel for the
planes, while the details of payment
for landing fields will be worked out
by the state and the federal govern-
ment.

(Week of March 10)
MANY BILLS HEARD
The legislature has finished nine
weeks of the 41 session and is now
running at high speed.

Almost 100 bills were given public
hearings before committees of both
houses last week, and about an equal
number were disposed of on the floor.
Only ten new laws have been en-
acted thus far, but this number will
accelerate from now on.

BIENNIAL DINNER
The biennial banquet tendered by
the Madison and Wisconsin Founda-
tion to the state officials and mem-
bers of the legislature was held at
the Loraine Hotel last Wednesday.
This dinner is given by the business
and professional men of Madison to
welcome the out-of-town officials to
their city and to show their appre-
ciation for our stay and for the mon-
ey we spend here in their city.

TAVERN CLOSING
A bill to permit taverns to remain
open and to sell liquor until 2:30 in
the morning, but to close them tight-
ly from 2:30 to 8:00 a. m. will have
its public hearing before the com-
mittee on excise and fees, of which
your assemblyman is a member, on
this Wednesday afternoon.

DAYLIGHT SAVING
It is certain now that the proposed
daylight saving bill has been killed
for this season.
A bill which would have limited all
night driving to 50 m. p. h. was also
killed, as was a proposed constitu-
tional amendment to elect county of-
ficers for four years instead of two.
The proposal to create a state cen-
siment plant at Waupun to be operated
by convict labor was also indefinitely
postponed.

Twenty-five Years Ago

(1916)
The editor received another letter
from Chas. E. Krabm, who is on a trip
to California. He writes in part: "I am
back in Los Angeles after spending
some time at Anaheim, a thriving city
of 5,000 inhabitants. Sunshine every
day with the temperature 70 to 80 and
cool nights. You can pick fruits and
flowers in the valleys and see snow on
the mountains 60 miles away. The land
must be irrigated eight months of the
year. Orange growers get cheap water
at \$6 per acre a year from the gravity
system. One farmer had 68 tons of wal-
nuts which bring 6 to 13 cents a pound.
Anaheim is the only city in Orange
county that is wet. It has 7 retail sal-
oons and 5 wholesale liquor houses
which do a land office business. Sal-
oon license is \$75 per month payable
monthly—in Los Angeles \$175 a month.
Anaheim's mostly Germans, many of
them former Wisconsin people. Wm.
Stark, former Kewaskum resident, con-
ducts the leading saloon there and is
one of Anaheim's live wires. He is a
city council man and takes much in-
terest in public affairs. He owns a
beautiful home and a 20-acre orange
grove. I spent four days in San Diego
and visited the fair on the day Edison
and Ford were there. I also was to
Mexico which has every gambling de-
vice you can think of. I will leave for
home soon."

ANOTHER HOLIDAY
If the senate concurs, Lincoln's
birthday will be a legal holiday in
Wisconsin hereafter.

A bill to repeal the Wisconsin po-
tato grading law is receiving favor-
able consideration.

A bill to allow dentists greater li-
titude in advertising and making pre-
sent provisions for admittance to
practice less severe, was quickly
killed.

NEW PROPOSALS
Quite a number of major contro-
versial bills were introduced last
week. Among them are: a bill to
legalize horse racing and other bet-
tings, the fees to go into the old age
relief fund; a bill to increase chain
store taxes; a bill appropriating
\$219,000 for 1941 and \$259,000 an-
nually thereafter for blind pensions in
addition to federal aid; a bill to
transfer the beverage tax division and
gasoline tax collections from control
of the state treasurer to the tax
commissioner, and the fuel inspection
bill to the motor vehicle division; a
bill to cut automobile license fees to
\$5.00 for cars under 3,400 pounds, and
\$10.00 for cars over that weight; and
a bill to stop diversion of highway
funds for state purposes.

HOME FOLKS VISIT MADISON
Attorney Robert Heintz of Hart-
ford spent two days in Madison here
to take the commission.

Guldo Schroeder, Geo. Sell, John
Van Beek and Dan Schloemer of the
Washington county board, together
with Harold Kelly, our highway
commissioner, attended the sessions
of the county boards association at
the Park Hotel here last week.

Carl Griepentrog of Barton, chair-
man of Local 533 AFL, and Lloyd
Thelsen of R. No. 5, West Bend, re-
presenting Local 579 UAW, were
delegates to the legislative confer-
ence of the Wisconsin State Federa-
tion of Labor at the Loraine Hotel.

NAME "BULL" MERTES MOST VALUABLE BALL PLAYER IN THE 4th MARINES

(CONTINUED FROM PAGE ONE)
16th Naval District, he was picked to
catch for their all-star team two
years running in the annual 16th
Naval District—All Fleet ball game.
He has a batting average of .350 for
two years in the islands and holds a
cup for stealing the most bases in
the Navy Yard baseball league. His
Shanghai league average of .353 was
sixth best in the league and his re-
cord of 32 stolen bases made him the
best lead-off man in Shanghai. His
antics made opposing batteries as
nervous as a June bride in a flannel
nightgown.

As a receiver the "Bull" was tops.
He knew how to work a pitcher and
there wasn't a base runner in Shang-
hai who didn't respect the accuracy
and power of his throwing arm. The
big catcher bats left and throws
right handed as do most of the bet-
ter players in the big leagues. He
uses a bat that most people have a
tough time getting off the ground,
and when he swings and misses with
it the stands sway as in a heavy
wind.

The fact that he wears size 11
shoes and most of the time looks as
though he is running in snowshoes,
does not cut down his speed. Ask the
men who tried to beat out a bunt.
The "Bull" does his duty as a cor-
poral in "Easy" company and has
been in Shanghai since last May.
Fans can look forward to seeing the
big "Moose" Mertes in action behind
the plate again next year.

Frank Heppel purchased the P. J.
Smith building on Main st., now oc-
cupied by Gust. Konitz as a shoe
store, which he will occupy as a
confectionery and delicatessen store.
Mr. Konitz purchased the former G.
B. Wright paint shop, which he will
remodel for an up-to-date shoe store
and dwelling.

This office is in receipt of a letter
from Ben Jensen, a Kewaskum boy,
who a few years ago enlisted in the
U. S. Army and is now on duty in the
trenches on the Mexican border. Mr.
Jensen's letter states: Please keep
sending me the Statesman. I would
not be without it as it makes me feel
good to get ALL THE NEWS FROM
HOME.

In the doubleheader basketball
game at the opera house, the Ke-
waskum High school boys beat Ran-
dom Lake 11 to 9 and the high
school girls defeated Mayville 14 to 1.
The largest crowd ever to witness a
game here was present. The girls
would have had a shutout but in the
last minute the referee was kind en-
ough to give the Mayville girls a
free throw. The girls are expert bas-
ket throwers and play a very strong
defensive and offensive game. Talk
about your championship girls team,
the local girls are certainly in the
running for the state championship.

**Help your teeth shine like the stars
... use Calox Tooin Powder**

Many of Hollywood's brightest stars use Calox to help
out the natural lustre of their teeth—and you can do so
Calox too. Pure, wholesome, pleasant-tasting, approved by
Geo. Housekeeping Bureau. Five tested ingredients, made
according to the formula of a foremost dental authority,
make Calox an economical tooth powder that can't harm
tooth enamel. Get Calox today at your drug store. Fam-
size, from 10¢ to \$1.25.
