

Influence Predominant In Juvenile Clothes for Spring

By CHERIE NICHOLAS

Children adore buttons, and three rows of them as used on the new aqua Shetland wool coat pictured to the right is enough to triple any little girl's joy. The pretty eyelet embroidered collar helps make this coat an important spring fashion...

Amusing it is to see the way children's fashions of this year copy those of their elders. An adult fashion that repeats in miniature for little daughters of the household is the print-with-plain costume. Cunning versions for tots are pleated-skirt print dresses tipped with capes...

Soft cocoa-colored suede is used for one of the dressier shoe styles known as a Capri sandal. Something a little different is even done to the navy blue oxford. Here the navy influence is definitely making itself felt.

Football shoulders are out. You will be "seeing red" in prints this spring and lots of it. Some of the reds are very unusual, lacquer red being a favorite. The patternings in red are for the most part within bounds as to size, some even favoring neat conventional motifs.

Artificial Ear Now a Valuable Aid to Hearing

By DR. JAMES W. BARTON (Released by Western Newspaper Union.)

THE wearing of glasses to bring vision within normal limits is now so common, one is surprised to find anyone with an eye defect who is unwilling to wear them. Of course, there are some, such as actors or actresses, to whom facial expression is so important, who can be excused for not wanting to wear glasses.

For years many hard of hearing individuals have been going without hearing aids despite the fact that the new methods of discovering the amount and kind of hearing lacking now make it possible to fit hearing aids just as eye glasses are fitted.

A Swiss physician, Dr. Madoleczy-Miloud, in the Swiss Medical Journal, states that an artificial ear drum is now in use in cases where there are defects in the ear drum or where hearing in both ears has been lost following operation or injury.

While the artificial ear drum has some disadvantages in that it must be fitted and sometimes refitted by the ear specialist, nevertheless it has many advantages. It is not visible from the outside and causes no distortion or changes in sound.

Effects Personality. A most important point is the effect upon the patient's personality in having such a hearing help or aid that cannot be seen by others. "It overcomes all self-consciousness because it makes strappings and technical devices unnecessary. The patient has no difficulty in keeping up the conversation in a small group if the artificial drum fits well.

These ear drums are being made of tin foil and cellophane. Remember, these artificial ear drums are used only where the ear drums have been damaged, where ear is dry and scars are present.

NOISE NO 'NUISANCE' But Health Problem MORE and more we are learning of the damage to health by noise. Formerly noise was considered just a nuisance, but today it is known to be a real health problem.

The protection of workmen from the effects of sound is possible by the use of substances which isolate or keep the vibrations away, by wearing boots with soft soles, and by using straw mats, felt braid and special chairs with springs, and when possible giving "rest" periods from the noise.

However, as it is definitely known that noise interferes with working ability, employers themselves are now doing all they can to lessen noise in their establishments. In the National Industrial Review, Dr. G. H. Ferguson, Ottawa, chief, Public Engineering Division, states that it is well to bear in mind that, from the economical point of view, noise, even though of slight intensity, causes a marked decrease of output which may fall as low as to 40 per cent of the normal and an increase in labor turnover, which in turn means a decrease in production.

Getting rid of noise will be profitable to all concerned; to the workers because it improves their health and their enthusiasm, lessens absence from work, and lessens friction between employers and employees, and to employers because it increases output and lessens cost of production.

Noise damages health because it causes constant tenseness of mind and body. Noise strikes the ear and thus the brain. The brain sends out impulses to nerves and muscles and they continue "tensed," always ready to "spring."

Tenseness causes tiredness and tiredness lessens mental and physical ability. QUESTION BOX Q. What can be the cause of a constant pain in stomach? What causes my skin to itch over my entire body? I will appreciate your advice.

A.—Any constant pain in pit of stomach should be investigated. While most of these pains are due to gas from sluggish liver and gall to gas from a growth. A bladder there may be a usual general itching of body is usually due to some general condition such as diabetes, or sensitiveness to foods.

Q.—Is there any special preparation I could use to clean out heavy wax formation in my ears? A.—Wax should form in the ears of everybody. It is only when it gets hardened and gets against the drum that it should be removed.

FIRST-AID to the AILING HOUSE

By ROGER B. WHITMAN

Concrete Cellar Floor. QUESTION: I wish to lay a reinforced concrete floor in my cellar, and a wooden floor on top. Would you advise a three or four inch layer of concrete? Would a mixture of 1 part cement, 2 parts of small stones or ashes keep the moisture from coming through the floor, provided I put down a thin layer of tar over the concrete?

Answer: A word of warning: Never use ashes as a base for concrete or as mix with concrete; use clean building sand. Four inches or more of concrete should be laid for a basement floor. The following mix is advisable: 1 part Portland cement, 2 1/2 parts of clean building sand and 3 parts gravel or crushed stone of 1 inch maximum size. Complete printed instructions on the laying of concrete floors can be secured from the Portland Cement Association at 347 Madison Ave., New York City.

Tiling a Kitchen. Question: I have several questions I would like to have your advice on. One: Do you advocate tile extending to the ceiling behind the stove? Would the heat from the stove crack the tile? Two: What materials and method of placing the tile should be used to insure its not becoming loose after a time? Do you recommend the use of straight Portland cement? Three: Are there various grades of tile?

Answer: It is not necessary to tile the wall to the ceiling. If the oven of the stove is not insulated, the stove should be moved far enough away from the wall to eliminate the risk of fire. Nowadays, most ovens are insulated. Two: To describe in detail the method and materials used for tile setting would take too much space in this column. Write to the Tile Manufacturers Association at 19 West 44th Street, New York City, and ask for the pamphlet that they issue, covering this question. The pamphlet also describes the various grades of tile. It will be sent without charge.

Concrete on Brick. Question: We want to cover a brick paved court with concrete. What mixture should we use? Answer: If the brick are laid directly on the ground, there is every chance that heaving, as the ground freezes and thaws, will crack the concrete. This is not so likely to happen if the brick are laid on a foundation of eight inches of packed cinders—not ashes—or are on a concrete bed. If this is not the case, there is likely to be trouble. If you want to go ahead, use a mixture of 1 part cement, 2 1/2 parts building sand, and 5 parts finely crushed rock or small pebbles, with only enough water to make a workable mixture. Spaces between the bricks should be cleaned out to a depth of an inch or more, to permit the concrete to penetrate, and at the time of pouring, the bricks should be well soaked with water.

Cement Paint Stains. Question: How can I remove stains of a paint made with white Portland cement from a rubblestone foundation, and from red slate surfaced shingles? Answer: To remove the stains from the foundation stones, moisten with a mixture of 1 part muriatic acid and 20 parts of water; the paint will quickly soften and can be scraped or wiped off. Be careful of this mixture, for it is corrosive. Wear rubber gloves and old clothes. You will not need much; ask your druggist to make up a pint.

Anything that will take off the paint will damage the shingles. The remedy is to touch the paint with outside paint of a shade that matches. Lining a Basement. Question: In making a basement into a clubroom, is it practical to use wallboard for the walls? Can the floor be painted? Answer: The wallboard that is like thick pasteboard will swell and shrink with changes in weather, and is not practical. You will do better to use a kind of insulating board that has a treatment making it resistant to dampness; get it at a lumber yard.

Question: I have heard that imported burlap is stronger than domestic. Is this true? I want to use it as a foundation for hooked rugs, and the ordinary burlap dries and wears out quickly. Is there any other stronger foundation for hooked rugs? Answer: It is generally conceded that imported burlap makes a better foundation for hooked rugs than domestic. The fiber is less brittle. I do not know of anything that may make a better or stronger foundation.

Household News By Eleanor Howe

PUDGING FAVORITE AS MEAL TOPPER-OFFER

DESERVING DESSERTS Once upon a time a friendly neighbor living close to our house in a small friendly town used to say over and over, "But a dinner just isn't a dinner unless you top it off with a 'deserving dessert.'" And when I pressed him to explain to me just what he meant by a "deserving dessert" he explained that it was a dessert which was so good that even at the end of a man's meal it still deserved to be eaten.

More About Deserving Desserts. Speaking of Deserving Desserts—I want to tell you about my small 10c cook book entitled "Easy Entertaining." From cover to cover, it is packed not only with new and unusual recipes, but also with menu suggestions and ideas for entertaining easily and happily—for making guests feel they are truly welcome while the hostess has ample time left to enjoy these same guests when they arrive.

Red Raspberry Snow Balls. (Makes 6 snow balls) 1/4 cup butter 1/2 cup sugar 1 cup general purpose flour 1 teaspoon baking powder 1/4 teaspoon salt 1/4 cup milk 2 egg whites (beaten) Cream the butter. Add sugar and beat well. Sift the flour, baking powder, and salt together. Add alternately with the milk and then fold in the beaten egg whites. Steam in small buttered molds for 30 to 35 minutes. Serve with red raspberry sauce.

Red Raspberry Sauce. 1/2 cup butter 1 cup Confectioner's sugar 1 cup crushed raspberries Cream the butter and add sugar slowly while beating thoroughly. Add raspberries. To serve, pour over hot steamed snow balls and serve at once.

Orange Dessert Squares. (Makes 15 servings) 1/2 cup shortening 1/2 cup sugar 2 eggs (separated) 2 cups flour 2 teaspoons baking powder 1/4 teaspoon salt 1/4 cup milk 2 tablespoons orange rind (grated) Cream the shortening and add sugar gradually. Blend in the egg yolks. Sift together the flour, baking powder and salt and add to the creamed mixture, alternately with the milk. Beat the egg whites until stiff but not dry, and fold into the batter with the orange rind. Bake in a greased 9-inch by 16-inch pan in a moderately hot oven (375 degrees) for about 30 minutes. Cut in squares and serve hot with orange sauce.

Orange Sauce. 1/2 cup sugar 2 teaspoons cornstarch 1/2 teaspoon salt 1 cup boiling water 1 teaspoon butter 1/2 cup orange juice 2 tablespoons orange rind (grated) Combine sugar, cornstarch and salt. Add boiling water, stirring constantly. Cook, stirring frequently, until the mixture is clear and thick (about 15 minutes). Add butter, and the orange juice and rind. (Released by Western Newspaper Union.)

Kitchen Deserves Decorative Attention By ELIZABETH MacRAE BOYKIN A woman's kitchen is her studio and her haven—if she realizes anything of the art in culinary achievements, if she brings any of the old sentiment and pride and gusto to the work she does here. And so her kitchen deserves decorative attention. This may be anything from a whole new room to a few fresh touches.

One reader writes of her pleasant kitchen. "My kitchen faces north, has light varnished woodwork with white painted walls, white stove and refrigerator, a table with black top and chrome legs, chairs with black leatherette seats and dark red back, inlaid linoleum of black, dark red and ivory."

"The two windows are placed side by side, and I thought I'd have double sash curtains, perhaps of white with bias bands of red, cream and black across the bottom of both top and bottom curtains to carry out the color scheme. I plan to make pinch pleats for the top curtains which will be pushed all the way on both sides of the windows instead of having them tied like cottage curtains. I think this style of curtain would admit more light and we would still have privacy because the bottom curtains could be closed."

"What do you think of this curtain for a kitchen?" Our reply was: "Fine!" Another reader tells of her blue and white kitchen. "The walls are white with an old fashioned plate rail on which I have a collection of old blue and white scenic china of Dutch design. Then for curtains and kitchen napkins I've used a blue and white printed cotton in a toile de Jouy type of scenic design."

"The furniture is white with chair back slip covers of the blue and white scenic cotton, and the linoleum is blue. A row of copper pots hang over the stove, and, nicest of all, there's a little old rocker painted blue with a seat pad of blue and white cotton." (Consolidated Features—WNU Service.)

Things to do

Pattern No. 2663 THE ever-popular pineapple design forms this lovely chair set. Though so effective a design it is an easy one to crochet. It is done in No. 30 cotton and can be used as scarf ends, too.

Pattern 2663 contains directions for set; illustrations of it and stitches; photograph of set; materials required. Send order to: Sewing Circle Needlecraft Dept. 82 Eighth Ave. New York Enclose 15 cents in coins for Pattern No. .... Name ..... Address .....

A Bit Mixed

Cross marriages between two families produce some queer mix-ups, but the situation created by an American takes some beating. He married the daughter of his own daughter's husband by another wife, thus making him the son-in-law of his son-in-law. His daughter, therefore, became his stepmother-in-law and his bride her own stepmother. Her wife has just given birth to a daughter. She is her step-grandmother's sister, her own mother's step-aunt, and her father's step-sister-in-law. Phew!

Life can begin at forty

We take sensible care of our health. Remember digestion and elimination are not as vigorous as in youth. We don't get the exercise we need. Food still tastes good, and it's a constant temptation to eat more than is good for us. Then—spells of constipation often bring gas pains, coated tongue and bad breath. Many have learned the value of ADLERIK in helping enjoy the sunny middle years. Get ADLERIK today at your Druggist's.

Lacking Essentials

It is a great misfortune neither to have enough wit to talk well nor enough judgment to be silent. —La Bruyere.

Watch Your Kidneys! Help Them Cleanse the Blood of Harmful Body Waste. Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, present headaches, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Lee Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nationwide reputation. Are recommended by grateful people the country over. Ask your neighbor!

**COMBINED QUALITY MEETING ON POULTRY AND VEGETABLES**  
There will be a combination meeting on the production of quality poultry products and farm vegetables at the Town hall, Fillmore, on Thursday, Mar. 27th. The meeting will begin at 10 a. m. O. B. C. mbs, vegetable specialist, G. E. Annin, poultry department of the College of Agriculture and E. E. Skalisky, county agent, will be the principal speakers.

**GUIDO SCHROEDER SPEAKS AT DISTRICT AAA MEETING**  
Three agricultural leaders are speaking before an estimated 4,500 men and women at three district AAA meetings in Wisconsin on March 20-22.

Harry M. Schooler

All three of the meetings were scheduled for 1:00 p. m., held at the high school auditorium in Rice Lake, Thursday, Mar. 20; at the senior high school auditorium in Appleton, Friday, Mar. 21, and at the Central High school auditorium in Madison, Saturday, Mar. 22. Harry N. Schooler, director of the North Central region of the AAA, is principal speaker on these programs, speaking on the subject "Rough Weather Ahead for Agriculture."

Mr. Schooler succeeds the present Secretary of Agriculture, Claude R. Wickard, as director of the North Central region. Walter F. Katterhenry, chairman of the Wisconsin Agricultural Conservation Committee, speaks on "The Responsibility of Wisconsin Farmers to the AAA Farm Program," and Arlie Muecks, ex-officio member of the state AAA committee and associate director of extension at the University of Wisconsin, has for his subject "Cooperation Between Agricultural Agencies."

Chairman of the Rice Lake meeting was Clarence F. Wall, Rusk county AAA chairman. At Appleton, Guido Schroeder, chairman of the Washington county committee, presided and at Madison, Patrick H. Walsh, Sauk county chairman will be the meeting leader.

The meetings are open to all. E. E. Skalisky County Agricultural Agent

## WASHINGTON COUNTY BENEFITS FROM CATHOLIC CHARITIES

January 17, 1941.

I am glad you spoke to me about the Catholic Social Welfare Bureau, in connection with your Charity Fund Campaign being carried on in Washington County, Wisconsin. It gave me a chance to put in a good word for the Bureau, which I understand is one of the participants in the fund.

As work as Juvenile Judge for the past fifteen years would have been at least \$12 below per without the help of the Catholic Social Welfare Bureau. Their workers have been constant and reliable workers, right here in our county all these years. To them goes the credit of saving many children of broken families as well as other neglected children. Money cannot pay for such service, but money does help to make it possible to save children. Truthfully and honestly I say that this Bureau and its workers are indispensable to our welfare. Too much can ever be done to strengthen their arms in the work for human welfare and peace.

They cannot advertise their work by giving names and places. Neither am I permitted to do this. But I ask you to support by word for the statement made. Our records here will confirm them.

*John Marx*  
Juvenile Judge

The Catholic charitable institutions and agencies in the archdiocese of Milwaukee receiving funds from the Catholic charities appeal to the Catholic Social Welfare Bureau, which is a child-caring and child-rehabilitating organization in the archdiocese in Washington county recently in a letter from Mr. Backus of the county of Wauwatosa, West Bend, Wisconsin, chairman of the county district chairman.

As Juvenile Judge for the past fifteen years would have been at least \$12 below per without the help of the Catholic Social Welfare Bureau. Their workers have been constant and reliable workers, right here in our county all these years. To them goes the credit of saving many children of broken families as well as other neglected children. Money cannot pay for such service, but money does help to make it possible to save children. Truthfully and honestly I say that this Bureau and its workers are indispensable to our welfare. Too much can ever be done to strengthen their arms in the work for human welfare and peace.

Miss Shirley Werner of Wayne is employed at the Wietor home at Wayne for several weeks.

## NOTICE OF ELECTION

Notice is hereby given that an election in the Village of Kewaskum, Washington county, State of Wisconsin, will be held on the first Tuesday in April, 1941, being the first day of said month, at which the following village officers are to be elected: President for the term of one year, to succeed A. P. Schaeffer, whose term expires April 1, 1941; Clerk for the term of one year, to succeed Carl F. Schaeffer, whose term expires Apr. 1, 1941; Treasurer for the term of one year, to succeed John Marx, whose term expires Apr. 1, 1941; Trustee for the term of 2 years, to succeed L. C. Brauchle, whose term expires Apr. 1, 1941; Justice of the Peace for 2 years, to succeed E. F. Nolting, whose term expires Apr. 1, 1941; Trustee for the term of 2 years, to succeed Edward Weddig, whose term expires Apr. 1, 1941; Supervisor for the term of one year, to succeed E. M. Romaine, whose term expires Apr. 1, 1941; Assessor for the term of one year, to succeed Joseph Mayer, whose term expires Apr. 1, 1941; Justice of the Peace for 2 years, to succeed L. W. Bartelt, whose term expires Apr. 1, 1941; Constable for the term of 1 year, to succeed Geo. J. Brandt, whose term expires Apr. 1, 1941.

Notice is further given that the aforesaid election will be held in the village hall of the village of Kewaskum and the polls will be opened at nine o'clock in the forenoon and closed at 5:30 in the afternoon of said day.

Dated this 14th day of March, 1941.

Carl F. Schaeffer  
Village Clerk

## FARM AND HOME NOTES

Prices received by farmers for meat animals and livestock products averaged about two per cent higher in 1940 than in 1939.

It is estimated from attendance counts that as many as 15,000 people attended the recent state Farm and Home Week. Everyone of Wisconsin's 71 counties was represented.

Forests—occupying one-third of all our land—are held to be vital to the well-being of the nation in peace as well as in war.

Research workers at the University of Wisconsin have learned that low-phosphorus diets may bring about production of kidney stones in animals.

A reasonably favorable season for Wisconsin honey producers is predicted for the current year by C. L. Farrar, agronomist at the Wisconsin College of Agriculture.

## Organize National Youth Administration in County

The National Youth Administration is being organized in Washington county under the supervision of Milton W. Schaefer, West Bend, with offices at present in the library building at West Bend.

The National Youth Administration was organized by President Roosevelt in June, 1935, and it was organized in the state of Wisconsin in July, 1935.

This organization, in cooperation with the school of vocational and adult education provides part time employment, work experience, and related training to youths between the ages of 18 and 24 years inclusive, who have been unable to obtain employment and who are no longer in attendance in the public school, or 17 years of age if a high school graduate.

The West Bend School of Vocational and Adult Education is operated by the West Bend Board of Vocational and Adult Education, which employs B. D. Rice as director of the school. The school gives training in machine shop practice, felding, sheet metal, commercial and distributive education, etc., while the National Youth Administration will employ them to perform work that is as closely related to their training as possible. In this way the youths receive training and work experience.

The youths are employed for 46 hours a month and receive 40c an hour for the time that they work on projects. These projects are co-sponsored by state municipal, county, and federal agencies or some educational institutes. After these youths have become skillful the National Youth Administration will recommend them for private employment.

## 3 SUGGESTIONS for men on the way up

1. **SAVE SOMETHING.** Each week or each month, lay a little aside, no matter what the sacrifice.
2. **CREDIT.** Take good care of your obligations. If you can't clean them all up, pay as much as you can.
3. **MAKE A BANKING CONNECTION** and choose one that is friendly . . . just as much interested in your welfare as you are yourself.

### Anyway, It's a Living!

Picture Parade

It's true that one-half the world doesn't know how the other half lives. Yes, in this world there are some very strange professions, and this series of photographs shows you a few of them. The surprising thing is that the people engaged in these unusual professions fail to see anything at all unusual about them.

Left: Ugh! We should imagine that there are better and more pleasant ways of testing soap than tasting it. Yet Joseph Strobl of Los Angeles prefers this method. Again, ugh! But it's a living!

FISHDERMIST . . . That's what Mrs. Charles Parker of Santa Catalina Island, Calif., calls herself. With hammer, nails, paint and stuffing, she mounts the big ones that didn't get away.

Samuel Wardlaw, special investigator for Los Angeles public library, keeps down book mutilation and thefts by observing the main reading room with binoculars.

Miss Billie Lampie of Los Angeles, only woman in America who makes a living as eye specialist for birds and animals. Here she is fitting eyes to a dove.

WOODEN POULTRY FARMER . . . San Francisco's Frank Mackay makes his living by raising wooden ducks, the kind used as decoys.

She listens to records all day long, for a phonograph company.

**Word About Egg Cookery**  
For better hard-boiled eggs use a quart sauce pan for cooking six to eight eggs; a two-quart sauce pan for ten to twelve eggs. Place eggs in pan, preferably on a rack, cover with cold water to about one inch above the top of the eggs and bring very gradually to boiling point. Reduce heat to keep water at barely simmering temperature. Remove in five to eight minutes and chill promptly.

**Cubism in Painting**  
Cubism in painting was gradually evolved by Picasso and George Braque, between 1906 and 1910, while studying the composition of still life groups consisting mainly of bowls with fruit, bottles, glasses and musical instruments. It was Braque who first introduced into his designs nails and bits of printed paper. Picasso then added pieces of wood and other tangible objects, which led to a form of art where sculpture and painting were combined.

### PRIVATE PURKEY WRITES AGAIN

Dear Ma—  
Well when I first got called in the draft I was told no soldiers wud be sent to Europe and that I was just going to get a year's training just in case but everything I here on the radio sounds like I am not up here just for fizical kulshur. I see the lease-lend bill is all but past and all I am still wondering is if I go with the lease.

Nobody in my divishun seems to no what the lease-lend bill is all about except that it is for all aid to England short of war and the boys say you can be a midget in this army and not be too short for war, so I gess if war comes there is no way out for me, mom.

I am still getting a lot of instruct-shuns in how to saloot and from all the emphassiss put on salooting I gess there are some people who are so old-fashened they think this war is going to be as polite as the last one. I am gradually getting used to going around with a gun. At first this felt very funny as all my life I was brung up to avoid weapons.

The life here is pretty confining as I sed before and how I wud like a week end auto trip to no place special! It wud also be a big kick to be abel to talk back to people whenever I wanted to like in civilian life. Up here if you talk back to anybody you wind up in the guard house.

I got reprimmandid for smoking cigaretties while marching. The captin was very sore and sed it was bad for my lungs also. What made him sore was when I asked him not to worry about my lungs but not worrying about my feet.

Well, mom, now I know why they wenter over my teeth so carefully in the draft test. I could not understand why the doctors made so much fuss about my teeth but it is all clere now since I got some of the beef the army uses in beef stew. The cows they get it from must be half elephant, ma. I wish Mr. Nuddson of the defense bored wud do something about getting sharper knives for soldiers.

If this army life dont do nothing else for me, mom, it will make me appreciate good coffee. I gess they use tobacco leaves for coffee in the army. The boys say the cook dont know how to make coffee which I gess has ben true all through the history of armies and navies and I dont see why the U. S. dont have a secretary of coffee just like a secretary of war so a cup of java will taste like a cup of java and not like a hot brake smells.

I still got that chance to join a tank corps like I wrote you but dont worry as they are still using ice wagons for tanks and I wud look pretty going to war in an ice wagon, wudn't I, ma?  
Well this is all for now so I close with love.

Oscar.  
**THE CHILDREN'S HOUR**  
Between the dark and the daylight,  
When the night is beginning to lower,  
Comes a pause in the day's occupation  
That is known as the Children's Hour.

I see there beside the loudspeaker  
The innocent, sweet little dears  
While stories of gangsters and  
bump-offs  
Are brought to their infantile ears.  
From four until seven they sit  
there—  
Enslaved by the programs' appeal,  
And hear of the gats and the gun  
molls  
And terrible mobsters who squeal.  
Cowboys and horses and rustlers,  
Love and the wages of sin,  
Kidnapers, death and destruction,  
Maniacs, arson and gin.

The serial, ah, how it grips 'em!  
Enveloping all in its power;  
If the kids ain't in jail when they're  
fifteen  
Then no thanks to the air "Child-  
ren's Hour."  
—Mary Holland Gordon.

Probably whenever anything goes wrong with Hitler he exclaims, "It must be something I hate!"

We take no stock in Fiorello LaGuardia's statement that he will not run for mayor of New York again. His auto siren is in too good shape and his fire helmet isn't nearly worn out.

Add smiles: he looked as battered as if he had been protected by the Nazis.

A seat on the New York Stock exchange has sold for \$30,000, which is about what they used to charge for the upholstery alone.

**DEFINITIONS**  
Realism is idealism with both feet on the ground.  
Idealism is what you hope realism will turn out to be.  
—R. Roelofs Jr.

Japan is out for peace if she has to lick everybody in the world to get it.

## OUR COMIC SECTION

### Events in the Lives of Little Men

HOMEWORK

**REVEALING CLUE**  
Daddy—Well, Dicky, did you know it was my birthday tomorrow?  
Dicky—No, but I suspected it. I saw Ma going into de 5 and 10 fer a present fer somebody.

**Two Tries**  
"Yes, sir, when that bear chased me I jumped for a limb twice as high as my head and I missed it."  
"That was tough luck. Did he hurt you much?"  
"No. I missed the limb going up, but I grabbed it coming down."

**Static Explained**  
Mrs. Horner—What a horrible noise comes from that radio!  
Jasper—Well, I gess you'd make a funny noise, too, mother, if you were just coming out of ether!

**Arson**  
Gyp—Twiddle had the laugh turned on himself in his little joke with the insurance company.  
Joint—How?  
Gyp—He insured 500 cigars, smoked them, and then sent in a claim on the ground that they had ben destroyed by fire.  
Joint—And they laughed at him. I suppose?  
Gyp—No, they had him arrested on a charge of arson.

**It Seems Simple**  
Jasper—Uncle Will fell asleep in the bathtub.  
Joan—Heavens, did the bath run over?  
Jasper—No. He slept with his mouth open.

**Fast Work**  
"I hear you are building a new house. How is it coming on?"  
"First rate. We've got the roof and the mortgage on, and we expect to have the furniture and the sheriff in soon."

**Warm Weather**  
Land Too Level  
Friend—Did you raise cucumbers in your garden last summer, as you planned?  
Bride—No. The directions on the seed package said to plant the seeds in hills, and you know our garden is perfectly level.

**Gob Humor**  
Husband—(reading paper)—I see Green's Shirt Store burned down. Wife (slightly deaf)—Whose? Husband—Green's Shirt Store. Wife—Dear me, who tore it?

**NEW IDEAS**  
For Home-makers  
By RUTH WYETH SPEARS

"DEAR MRS. SPEARS, like those you give directions in your Sewing Book No. 1, are painted watermelon match the flowers in my curtains, and they are very hung at each side of the window. I would like to make some tables of spoons for the room, but I can't think of a way to make them rigid. Have any suggestions as to how to do it? B. P."

Curtain rods are used to make the spoons take along a spool to the shop for the rods, the type that has one piece inside the other. If the spool is a little loose on the rod, it will be glued between each spool also between the spools on table shelves. I have sketched everything else you know to make this table luck to you!

NOTE: If you have an ironing chair you would like to be sure to send for my Book No. 2, it contains 32 fascinating ideas of make for your home. Send your name to:
