KEWASKUM, WISCONSIN, FRIDAY, JAN. 29, 1943

NUMBER 18

## Nic. Gross Dies Michaels Home

Mrs. Nic. Gross, 65, of Michaels home, passed away at 9:30 p. m. Saturday, Jan. 23, at St. Michael's hospital, following an extended illness of several months.

She was born July 24, 1877 in Kewaskum north of St. Michaels, Wis., and was married to Nic. Gross, who died at St. Michael's hospital, following an extended illness of several months.

Survived by her husband, three children, namely Rose (Schneider) of Cedarburg, and Ludwig on the home, also leaves to mourn her grandchildren, one great-grandchild, Peter Schaefer, of Farmington, and two sons, Mrs. George Grofwaller and Susan (Mrs. Frank Well-) Milwaukee.

Funeral services were held at 10 o'clock Monday morning, Jan. 27, at St. Michael's church. Rev. J. Kastner, pastor, officiating at the high mass. Burial took place in the church cemetery. Mrs. Gross was a member of the Christian society of the parish, the church which attended the last rites of the deceased.

Funeral services were held at 10 o'clock Monday morning, Jan. 27, at St. Michael's church. Rev. J. Kastner, pastor, officiating at the high mass. Burial took place in the church cemetery. Mrs. Gross was a member of the Christian society of the parish, the church which attended the last rites of the deceased.

## Kreif-Capozzo Nuptial Rite Read at New Fane

St. John's Lutheran church at New Fane was the scene of a wedding at 10 p. m. Saturday, Jan. 23, when Miss Rose Mary Capozzo, daughter of Mr. and Mrs. Peter Capozzo of Eden, R. J., became the bride of Harold Kreif, son of Mr. and Mrs. Albert Kreif of New Fane, R. 1, Kewaskum. The Rev. Elmer Zanow officiated at the ceremony and organ music was furnished by Miss Delores Halver, who sang "O Promise Me."

The bride was dressed in a white duchess satin gown fashioned on princess lines with a shirred bodice and flared skirt ending in a train. Her trailing veil of illusion and lace was held with a pearl bandana and her bridal bouquet was of white roses, white asters and baby's breath.

Attendants for the bride included as maid of honor her sister, Miss Dora Capozzo, who wore a gown of yellow celanese and a shoulder length veil held with flowers. She carried yellow juncos and asters. The bridesmaid, Miss Stella Tagliapietra, and the Misses Fern and Mildred Johnson of Campbellsport, wore floor-length gowns of taffeta and shoulder length veils of corresponding colors. Miss Tagliapietra wore fuchsia and carried white asters and snapdragons. Miss Fern Johnson in cornflower blue had pink carnations and snapdragons and Miss Mildred Johnson in pink taffeta carried pink asters and white snapdragons.

Glora Capozzo, 3-year-old sister of the bride, as flower girl, wore a floor-length gown of yellow organdie and carried yellow juncos and sweetpeas. Edwin Kreif, nephew of the groom, was the ring bearer.

The best man was Jerome Kreif, brother of the groom, as groomsman were Milton, Karl and Edwin Kreif.

Following the ceremony supper was served for the bridal party and immediate families at the home of the bride's parents, covers being laid for 65. A dance was held at Goebel's hall, LeDe Neve in the evening.

The bride is a graduate of Fond du Lac High school, has been employed as a stenographer. The couple will reside on the groom's farm at New Fane.

Guests at the wedding included Mr. and Mrs. Louis Rosso of Pewaukee, Frank Capozzo of Waukesha, Mr. and Mrs. Edwin Kreif and son Edwin, Jr., and Mr. and Mrs. Albert Kreif of New Fane, Mr. and Mrs. Fred Werner, Mr. and Mrs. August Stange, Mr. and Mrs. Henry Schultz, Mr. and Mrs. Walter Stange and family and Miss Amanda Stange of Kewaskum, Mr. and Mrs. George Kirmse, Mr. and Mrs. Otto Zimmerman and Mrs. Minnie Kirmse of Fredonia.

## Meeting Shows Bank Has Excellent Year

The annual meeting of the stockholders of the Bank of Kewaskum was held on Thursday, Jan. 14, with a total of 297 shares represented either by person or proxy. The annual report submitted by M. W. Rosenheimer, president, and Paul Landmann, cashier, showed an increase of over \$375,000 in deposits the past year.

The bank now owns \$602,500.00 in government bonds which shows that it is doing its share in the financing of World War II. With the amount of cash on hand and in approved reserve banks plus the government bonds the bank owns, the bank statement shows that it is in excellent liquid position. The regular dividend was declared and a substantial amount placed in the undivided profits and reserve account.

The stockholders re-elected all of the five directors now serving the bank, namely N. W. Rosenheimer, A. L. Rosenheimer, Jr., Paul Landmann, M. L. Meister and M. W. Rosenheimer. At a directors' meeting held last Friday, Jan. 22, the following officers were elected: M. W. Rosenheimer, president; N. W. Rosenheimer, vice-president; and Paul Landmann, cashier.

## "Help Me Win My Victory" is Crippled Girl's Plea

"Help me win my victory." Those are the words of the little girl crippled by infantile paralysis.

If you have not already done so, you still have an opportunity to answer her plea, points out the executive committee for the northern chapter of the fight infantile paralysis campaign in Washington county. Nationally, this drive will end with the celebration of President Roosevelt's birthday on Saturday, Jan. 30.

In Washington county coin collectors are still on hand in convenient locations to provide late donors an opportunity to give towards this great humanitarian cause. These collectors will not be removed until Monday, Feb. 1. In West Bend, extra large collectors have been placed in the banks and postoffice to allow those to give who have sympathy in their hearts for our American youngsters afflicted with the dread disease.

"Have a heart," is the last minute appeal of a spokesman for the executive committee. "Don't let it be said that you failed to answer the plaintive plea of the little girl afflicted with infantile paralysis. At a time when the world has already seen too much of suffering, let us be derelict in our duty to those who will provide this nation with the strength to carry on tomorrow. Don't let it be said that you failed to contribute to the welfare of your fellowmen. Infantile paralysis may strike anywhere, any time. Remember, your child may be stricken next."

## CHOIR ATTENDS CONCERT

The members of the adult choir of the Peace Ev. and Reformed church of Kewaskum and West Bend were guests of their respective congregations at the sacred concert presented by the St. Olaf Lutheran choir of Northfield, Minn., at the Milwaukee auditorium last Friday evening. The choir was directed by father and son, Olaf C. and F. Melius Christiansen. The choir, composed of students of the college, presented an inspirational program of choral music only.

## CHANGE SEWING CLASS TIME

Mrs. D. M. Rosenheimer wishes to announce that the Red Cross sewing class will meet afternoons at 3:10 o'clock, instead of 2:00 p. m. as heretofore to make surgical dressings in the high school building. The Wednesday evening classes will continue as usual from 7 to 9 p. m. All ladies of the community are urged to come and aid in this work.

## Faces Murder Trial in Al. Reif Death; Slayer Found Sane

Trial of Emil Schroeder, Sagola, Mich., trapper charged with the first degree murder in November of Albert E. Reif, supervisor for the Kettle Moraine state forest area, whose headquarters and residence were at Mauthe lake several miles northeast of Kewaskum, will be held at Florence the week of Feb. 21, Circuit Judge Arold F. Murphy, Marinette, has announced.

The slaying occurred last Nov. 18 near the Wisconsin-Michigan line near Iron Mountain, Mich., where Reif had been assigned to special conservation enforcement duty in anticipation of the approach of the deer hunting season. Reif's family resided with him in their new home at Mauthe lake, but now are living in Milwaukee.

The court's announcement came upon receipt of a written report from Dr. Byron Hughes, head of the Winnebago state hospital, pronouncing Schroeder sane at the end of the 30-day observation period ordered a month ago by Judge Murphy on the petition of District Attorney Allen C. Wittkopf of Florence county. Judge Murphy also announced the appointment of Atty. E. J. Martineau of Marinette as counsel to defend Schroeder in the case which will be prosecuted by Wittkopf.

A second selective service deference has been granted by the Douglas county draft board to Warden Floyd Sanders, the state's principal warden, who was with Reif at the time Reif was slain and who fought a revolver battle with the slayer in a running gun fight through the woods. Sanders must be available for the March draft.

Judge Murphy issued an order for the Marinette sheriff's department to return Schroeder to the Marinette county jail pending his trial. Dr. Hughes in his report said Schroeder had been given psychiatric, neurological, physical and laboratory examinations and had passed all satisfactorily. Schroeder, the report said, has no physical abnormalities, and his mentality was retained with the tests, except when questions were asked pertaining to the crime of which he is charged.

## Town Auburn Men Leave to Enter Army Service

Seventy-four men of Local Board No. 2 of Fond du Lac county, comprising the rural sections, left for Fort Sheridan, Ill. Saturday, Jan. 23. They were inducted the previous Saturday in Milwaukee. Four others were inducted through the furloughs and two were held over until Monday.

Included in the group were three men from the town of Auburn, namely Harold O. Krueger, son of Mr. and Mrs. Wallace Krueger; Kenneth L. Johnson, who operated the shady Grove tavern north of Kewaskum with his sister, and Robert S. Wesenberg. Others from Campbellsport and vicinity were: Angelo Campagna, Frederick Mielke, Anton Waranus, A. Buslaff and Floyd Baumhardt.

## BERG INFANT BAPTIZED

The little son of Mr. and Mrs. Alois Berg of Campbellsport, son-in-law and daughter of Mr. and Mrs. Bernard Sell of this village, was baptized Sunday at St. Matthew's church, Campbellsport, by the Rev. A. C. Ewer. He received the name Robert Donald. Sponsors were Miss Eleanor Berg and Gilbert Sell of here who acted as sponsor by proxy for Pvt. Donald Sell of Chanute, Kan., Ill.

## BEREND RESIGNS AS CLERK OF COURT; NOW IN SERVICE

Lawrence Berend, Washington county clerk of court, has resigned his position and appointed Mrs. Berend as his successor to the office. Berend is now a seaman first class in the navy. The appointment was confirmed by Circuit Judge Edward J. Gehl and became effective Jan. 13. Miss Lucille Francke will continue her work in the capacity of deputy clerk.

## COUNTY BOARD IN SESSION

The Washington County Board of Supervisors met at the courthouse in West Bend Thursday of this week for its regular January session. Principal business to be transacted includes the reading and adoption of the annual report of the highway department and the report of the public welfare department as well as other business. The session was expected to continue only two days.

## HOSPITAL NEWS

Mrs. Henry Rodenkirch of Route 2, Kewaskum, underwent an operation on Saturday, Jan. 23, at St. Joseph's hospital, West Bend.

## New Fane Man Struck by Truck on Highway

Rudolph Kolafa of Route 1, Kewaskum, proprietor of taverns at New Fane and Campbellsport, escaped injury shortly after 1 a. m. Monday, Jan. 25, when he was struck by a truck while walking on Highway 55 a short distance north of the Fond du Lac-Washington county line.

George Kernetzke was the driver of the truck, owned by the Wesley Freight line, Menominee, Mich. Kolafa's auto had become stalled in a snowbank along the highway some distance south of the scene and he was walking along the road to summon help in getting the car out. It was snowing at the time and vision was very poor because of the drifting snow. The truck driver was unable to see Kolafa until close to him. He swerved his truck but the trailer struck Kolafa and threw him to the ground.

Kolafa was brought to a Kewaskum physician, who could find no injuries but reported that the man's feet had suffered from exposure to the cold. Deputy Sheriff Carl F. Schaefer of this village was called to the scene but when he arrived Kolafa had already been brought here and the truck continued on its way.

## Blood Donors, Where Art Thou?

The office of the local chapter of the Red Cross reports that only about fifty people volunteered during the past week to donate their blood at the next call of the mobile unit to our community. This still leaves over 500 donors needed immediately in order to again prove that our community goes "over the top" in all defense activities.

Not everyone can send their own blood into war, since blood can only be taken in localities where it is possible to have it in the laboratory the following morning. To date there have been only a little over 1,000,000 donors—and this in a country of 140,000,000 people. The present Red Cross program is to get 3,000,000 pints and this is a very conservative figure, especially since a victim requiring plasma may need up to four pints.

There have been 575 donors in our community. Certainly it can be asking too much to have another 500 people volunteer this week to send their blood to war and thus join in the march to save the lives of our fighting men and women. Won't you join today or tomorrow, no later, by phoning 16 or 392 at West Bend, or by dropping a cord to the Red Cross office at West Bend.

The employees of the Aluminum company, Amity, Eger-Kress and Gehl Bros. plants in West Bend are this week actively engaged in joining this latest effort to save lives and no doubt they will all again make a splendid showing. Details of industries cooperation will be given next week.

## SCHOOL BOY HAS TOUCH OF SPINAL MENINGITIS

Billy, young son of Dr. and Mrs. R. G. Edwards of this village and a pupil in the Kewaskum public grade school, suffered a mild attack of probable spinal meningitis last Thursday. Although the illness was not definitely diagnosed as spinal meningitis by a specialist, the symptoms pointed to the disease.

Meningitis, an inflammation of the membranes of the brain or spinal cord, can be very serious and is fatal in many instances. Because the disease is contagious in one form, the grade rooms of the school were ordered closed by Dr. Edwards Friday. However, Billy's attack was not of a contagious nature as discovered later. The boy was removed to St. Joseph's hospital, West Bend, where he is still confined. Billy is feeling well and will be released from the hospital next week.

## MEYER BABY BAPTIZED

The infant daughter of Pvt. and Mrs. John Meyer, formerly of West Bend, was baptized at St. Matthew's church, Campbellsport, Sunday afternoon by the Rev. A. C. Biber, Pvt. Meyer, who is stationed at Fort Sheridan, Ill., spent the day with his wife and daughter, who are now making their home with Mrs. Meyer's parents, Mr. and Mrs. Frank Ketter, Route 1, Campbellsport. The child was named Karen Rose. Sponsors were Miss Jeanette Meyer and James Ketter. Pvt. Meyer is a son of Mr. and Mrs. Geo. H. Meyer of New Prospect.

## BLUE BOOKS AVAILABLE

Jesse M. Peters of Hartford, former senator from the 13th district, Dodge and Washington counties, writes that he still has quite a few 1942 Wisconsin Blue Books and a few 1940 Blue Books. He would like to distribute them among those people who make good use of them but does not like to distribute them promiscuously. The books may be had for the asking if those interested in having them will drop Mr. Peters a line at Hartford.

## Red Cross Chapter Ships 434 Items for War Relief

An acknowledgement from the American Red Cross depot, 1150 Industrial Drive, St. Louis, Mo., was received by the production corps volunteers of the West Bend chapter stating that the shipment of six carsons of war relief army and navy supplies arrived safely. The shipment consisted of 434 items for our armed forces, namely: 19 army sweaters, 3 pair wristlets, 12 mufflers, 4 army helmets, 8 pair army gloves. The remaining 360 items included the following foreign war relief garments: 146 children's pajamas, 15 boys' shirts, 28 rompers, 2 ladies sweaters, 12 mufflers, 7 children's sweaters, 6 besnies, and 2 pair mittens.

For this quota willing volunteers throughout the chapter gave 2,715 hours of their time. Women and girls from Barton, Boltonville, Cheesevilla, Farmington, Fillmore, Jackson, Kewaskum, Keowas, Kirchhain, Kohls-, Myra, Nabob, Newburg, St. Michaels, Trenton, Salter, Wayne, West Bend and Young America have volunteered and helped to make the boys' and girls' forces more comfortable, and to bring assistance to civilians in war-torn areas. To all the volunteers who are so willingly giving their support and co-operation to the production program, a hearty thank you is extended by Mrs. Morgan Mc Cargo, volunteer special service chairman.

At the present the local chapter has a 75 pound shipment of khaki and navy blue yarn to be made into the following items: 20 sleeveless sweaters, 34 turtleneck sweaters, 50 watch caps, 15 turtle-neck sweaters, and 10 pair gloves. The 1942 sewing project consists of children's pajamas, women's Housewa, women's slips, and men's shirts.

"This part of the war effort is just as important as manufacturing planes, tanks, and trucks," states Atty. Henry O. Schowalter, chapter chairman. "We need all the volunteer workers we can get. If you are not sewing or knitting with your church group, civilian defense unit, or as an individual, and if you know how to sew or knit, now is the time to share your talents in organizing a group, teaching a few others the art, or sewing individually. Please volunteer and get further information and directions by contacting Mrs. Morgan Mc Cargo, volunteer special service chairman; Mrs. Kenneth Coddard, knitting chairman; Mrs. D. E. Mc Lane, production chairman, or your local Red Cross headquarters.

## Schools Will Collect Books for Servicemen

As part of a national campaign to provide suitable books for members of the armed forces, Washington county schools are now organizing collection plans. The campaign runs to March 5. All schools, including rural, village and city, are taking part in this work.

Among the books preferred are fiction, non-fiction, recent text books, scientific publications, religious books, etc. All books should be in good physical condition with no loose pages. The committee has emphasized the necessity of giving only those books which are of interest to servicemen. This is not an attic-cleaning affair in which undesirable books are given merely to get rid of them.

In the villages and cities, those families who do not have children of school age should call the schools who will be glad to have some student pick up the available book or books. In the rural areas, send the books with your children or the nearest neighbor who has children attending school.

The national Victory Book campaign hopes to collect at least ten million volumes throughout the United States. This means our minimum share in Washington county would be 2500 copies. In terms of our school attendance, it means at least one volume for every two pupils enrolled.

Chairman of the victory book campaign in Washington county is Mrs. F. B. Baxter, who is being assisted by M. T. Buckley, superintendent of schools, Mrs. Otto Lay, Kewaskum; Mrs. John A. Schwalbach, Germantown; Mrs. Elmer Eberhardt, West Bend; Mrs. Gilbert Mahr, Hartford, and Mrs. F. W. Sachse, Hartford.

This is one war service campaign on which the women and children of our county can be of immeasurable help. Mrs. Baxter has stressed the fact that the subject matter contained in the books must be of such a nature as to be interesting and valuable to our men in service. You are asked to give only those books which will be worthwhile sending to the armed forces.

## LEAVES FOR ALLENTON

Norman Mayenschein, who had been employed by the Kewaskum Creamery company, left last week for Allenton, where he has obtained a similar position at a creamery. While here Mr. Mayenschein resided at the Republican hotel.

## Called For Training as an Aviation Cadet

Beard E. Hafemann, 20, son of Mr. and Mrs. Charles Hafemann of this village, received orders to report for active duty as an aviation cadet in the U. S. army air corps this week from headquarters of the Sixth Service Command, post office building, Chicago. He left Thursday to begin his training. Pvt. Hafemann enlisted as an aviation cadet last Nov. 11, Armistice day, at Milwaukee, where he passed his examination and was sworn in the same day. At that time he was allowed to return home to await the call to active service.

Hafemann reported to the officer in charge at 515 S. Franklin St., Chicago, at 3 p. m. Thursday for temporary duty. Upon completion thereof, he proceeded to Sheppard Field, Wichita Falls, Tex. to report to the commanding officer of the army air forces technical training command for further disposition. Uniforms and equipment will be furnished at Sheppard field.

Pvt. Hafemann will be given a nine months training course as an airplane pilot similar to the one taken by Lehman Rosenheimer Jr. of this village, who is now a captain in the air corps. If "washed out" as a pilot, Hafemann will become either a navigator, bombardier, gunner, or ground crew man, according to his ability and standing. A graduate of the Kewaskum high school, he was formerly employed by the Enger-Kress company in West Bend.

## HOLY TRINITY CHURCH

A meeting of the Ladies' Altar society was held after mass last Sunday to elect officers but the matter was postponed two weeks.

The Holy Name Skat club met at the John Marx home Monday evening. Prizes were won by John Mertes, John Van Blareom and Rev. F. C. LaBowl. Next Monday's meeting will be at the Elmer Kirm farm.

A meeting of the Young Ladies' sodality was held Tuesday evening at the parish school, at which time the members decided to hold a social meeting on the first Tuesday evening of each month in the future and also made plans to hold a sleigh-ride party very soon.

Mass on Sunday, Jan. 31, at 8 a. m. The St. Blaise blessing of throats will be given immediately after mass. Parishioners who have sick or aged in their homes who wish to have their throats blessed are asked to leave word at the rectory no later than Sunday evening. To conserve gas the route must be arranged and only those who apply in time can be served. Rosary devotion and benediction at 7:30 p. m. Sunday.

The semester holiday for the schools of the local parish and St. Bridget's was observed Friday, Jan. 25.

Tuesday, Feb. 2, is the feast of the Purification of the Blessed Virgin Mary and on Wednesday, Feb. 3, the feast of St. Blaise will be observed.

## ST. BRIDGET'S MISSION

The annual meeting for the reading and acceptance of the financial report was held after mass last Sunday.

Mass this Sunday will be at 10 o'clock. The annual parish meeting will be held after mass and this will be followed by a meeting of the Ladies' Altar society.

## OPA CUTS GAS STATION HOURS TO 72 PER WEEK

Acting in compliance with Oil Coordinator Tucker's new order issued by the Office of Price Administration that gasoline stations limit business to 12 hours a week, service stations in Kewaskum and neighboring cities and villages have reduced their operating time to the curtailed number of hours. The stations already have or will make out new schedules of business hours to be effective in the future. Some of the stations have their schedule posted in their place of business for the benefit of their customers.

O. V. Hansen, chairman of the board of the Wisconsin Retail Gasoline Dealers' Association, pointed out that the order was not intended to conserve gasoline but to reduce operating costs for owners and to meet the manpower shortage.

## Vyyvan Enlists in Navy

Ray Vyyvan, son of Mr. and Mrs. Leo Vyyvan of this village, and a freshman at Marquette university, Milwaukee, left last Friday for active duty in the U. S. navy. Ray enlisted Friday and left immediately for the United States Naval Training station at Farragut, Idaho, to begin training. Ray's enlistment brings the number of men in service from this village alone to around the 55 mark.

## SPECIALS AT HEISLER'S

Finest home-made pork sausage sandwiches served Saturday night and Sunday at Louis Heisler's tavern. Fish fry next Friday evening, Feb. 5. Home-made chili and sandwiches at all times.

WEEKLY NEWS ANALYSIS

Ickes Cites Small Business Peril; Congressional Pay-as-You-Go Tax Program Gets Treasury's Approval; Fifth Russ Offensive Batters Nazis

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper. Released by Western Newspaper Union.

Somewhere in China this soldier of Generalissimo Chiang Kai-shek's armies stands guard before a line of American P40 planes at an inland air base. His shift is 24 hours at a stretch in guarding these precious craft that hold off Jap advances in China.

PAY-AS-YOU-GO: Tax Gets Go-Ahead

It had been clear that official Washington in Capitol Hill to the White House had agreed that a pay-as-you-go income tax was the most effective means of raising the multi-billion revenue needed to help defray war costs.

How to apply the levy to the nation's 35,000,000 taxpayers and what yardstick to use had been the subject of numerous recommendations. The treasury department gave its support to a bill by Sen. Bennett Clark for a new 10 per cent withholding tax. Added to the prevailing 5 per cent Victory tax this would mean a total of 24 per cent withheld from payrolls.

Under the Clark program the pay-as-you-go plan would be inaugurated March 15. The taxpayer would file his income tax return on that date and pay his first quarterly 1943 taxes on the basis of his 1942 income. The corporations would then be effective on weekly or monthly paychecks, as well as on income from interest and dividends.

Persons not on payrolls such as farmers, independent business men, professional people and others could pay their taxes on a monthly or quarterly basis.

FOOD PRICES: Index Up 43 Per Cent

Skyrocketing retail prices of fresh fruits and vegetables, whose cost is not controlled by the OPA, were largely responsible for an increase of 43 per cent in the food cost index since August, 1939, the month before World War II began, according to a summary released by Secretary of Labor Frances Perkins.

Even since the price control law began to operate last spring, Mrs. Perkins said, retail food prices have gone up because of the increases in the cost of items still uncontrolled. The index in December was 9 per cent above last May and 17 per cent above December, 1941, the month the United States entered the war.

NORTH AFRICA: War vs. Politics

As French forces broke the lull in North Africa's stalemated war by capturing a number of passes on the road to the Tunisian seaport of Sousse, so, too, it appeared that the French had moved effectively to end the political strife that had hampered all-out action against the Axis.

The immediate objective of the French drive toward Sousse was that it threatened the Axis land supply routes for operations in central and southern Tunisia.

On the political front Harold MacMillan, British minister for North Africa, predicted an agreement between Gen. Henri Giraud and Gen. Charles de Gaulle, leader of the Fighting French, would remove most of the objectionable features in the present administration of North Africa.

A three-way conflict of interests had raged since the American invasion. On one side stood the Liberals and Republicans, who had welcomed the Americans. On the other stood the Vichyites and Fascists. In between were the Royalists, attempting to capitalize on the battle.

HIGHLIGHTS . . . in the week's news

LONDON: King George signed a proclamation lowering from 20 to 19 the age at which women are liable to be drafted for national service. Single women born between July 1 and December 31, 1922, will have the privilege of choosing between work in war industry and the uniform services, or they may volunteer for nursing before being called up for national war work.

CHUNGKING: Generalissimo Chiang Kai-shek, speaking of the treaties with the United States and Great Britain abolishing special concessions and privileges of those nations, "henceforth if we are weak, if we lack self-confidence, the fault will be ours." Chiang said "until today the Chinese could rightly feel their efforts to build a nation were blocked by the unequal treaties, but that the United States and Britain have "proved their high ideals and lofty purpose." He added that "this is our golden opportunity."

SMALL BUSINESS: Total War Casualty?

Economists had long been aware of the war's menacing impact on American small business, but their statistical discourses attracted little public notice. It remained for vocal Secretary of Interior Harold L. Ickes to dramatize the little business man's plight when he declared that the country now faces "the brutal fact that the war can be the final crushing blow to small business."

Pointing out that "the major portion of war production contracts are going to a few large corporations," Mr. Ickes told the senate small business committee that "should the small business man go, we all will go."

Mr. Ickes warned that "we must guard against the loss of our traditional freedom of enterprise, a loss that would result in creating a dictatorship by a few corporations and cartels over our jobs."

FIFTH OFFENSIVE: Launched by Reds

To the four Russian offensives that had jarred the Nazis loose from thousands of square miles of dearly won territory was added a fifth that appeared to be the supreme Red winter effort. Voronezh — strong point on the 1,000-mile Soviet line from Moscow to the Black Sea — was the springboard of this drive and it was the German high command itself which made the first announcement to the world.

Significance of the Voronezh offensive was that it faced the already hardpressed Nazis with a double threat. Red forces from Voronezh could turn due south to join the other offensives aimed at Rostov, or could drive westward toward Kursk and Kharkov in the Upper Ukraine and menace the Nazi hold on this world-famous granary.

Significant, too, was the fact that the Russians held the initiative. It was the Germans who were on the defensive, who must conjecture where the Reds would strike next and had costly alternatives thrust on them.

In all other theaters the Russians were pressing their newly gained advances, reoccupying areas in the Caucasus, whittling down German resistance near Stalingrad and engaging vast Nazi forces in the lower Don river reaches.

AIR TEMPO: Allied Power Rises

Prophetic of what was yet to come Allied airplanes continued to ride the skies and shower destruction on Axis-held European and Mediterranean areas.

Hitler's army in the Ruhr valley was the target of repeated bombings. Lille, locomotive manufacturing center of northern France, experienced gutting raids. On the route, also were Abbeville and St. Omar near the British channel coast of France.

In the Mediterranean, Allied bombers were active both on the island bases serving Axis troops and on the African mainland itself. Mediterranean attacks were made on Crete, Sicily and Lampedusa. African raids were made on Homs, near Tripoli and between Sousse and Sfax.

WAR PRODUCTION: No 'Self-Congratulation'

War production and manpower management have alternately been subjects for national praise and blame. The latter was the theme of a report laid before congress by the Tolan committee, which charged "general maladministration," "haphazard handling" and failure to use small industry in the war effort. The committee had been at work for a number of months studying war output.

Declaring that "we cannot afford the luxury of self-congratulation on 1942 production levels," declared that not only have our allies suffered for lack of lend-lease supplies, but the equipment of our own forces is very uneven. The committee proposed a four-point program of corrections: 1—Create a new office of war mobilization; 2—Completely reorganize the national employment service; 3—Provide federal regulation of employment agencies and "labor contractors"; 4—Revise present social security measures.

SULLIVAN BROTHERS: A Tale of Heroism

The five Sullivan brothers of World War II promised to become as celebrated in American annals as the five Bixby brothers of the Civil war, immortalized by Abraham Lincoln's letter to their mother.

Not yet was it known whether the Sullivan boys were dead or alive, but in a water communication to their parents in Waterloo, Iowa, ominously reported them "missing in action." The brothers joined the navy to avenge a friend slain at Pearl Harbor. They were shipmates at their own request and were believed casualties of the cruiser Jumeau sunk in the November battle for the Solomons.

The Sullivan brothers are George T., 29, gunner's mate second class; Francis H., 26, coxswain; Joseph E., 23, seaman, second class; Madison A., 22, seaman second class; and Albert L., 30, seaman, second class.

ROAD TO TOKYO: Mired by Rains

The road to Tokyo was bogged down by tropical rains that turned fighting Allied sectors in New Guinea into swampy mires, but in the air American and Australian commanders broadened their air offensive against the Japanese with raids on four main bases.

On the Allied air calling list were Madang and Finschaven on the northern New Guinea coast. Flying Fortress supported by medium bombers and fighter planes struck targets at Lae and Salamau. In the Lakae area 160 miles up the eastern New Guinea coast from Allied-held Buna, large fires were started among barges, stores and harbor installations.

In the Solomons, the plight of the Jap garrisons had grown more serious as efforts to land extensive supplies had been balked by American air power. The navy department reported that a three-day offensive on Guadalcanal island had progressed satisfactorily, with several Jap positions isolated and awaiting destruction. Munda island was continued against air raids.

NAZI HOME MORALE: Signs of Strain

Volumes had been written by Allied commentators about the state of the German home front since the Russ offensives, but two brief statements by high Nazi officials revealed the enormously heartening fact that Reich morale had at least begun to ebb.

The Nazi officials were Dr. Paul Joseph Goebbels, propaganda minister, and Gen. Kurt Dietmar, a leading German military critic.

Writing in the magazine Das Reich, Goebbels denounced civilian "sluggards" for impeding Nazi war effort.

PAUL JOSEPH GOEBBELS . . . Propaganda in reverse.

activities, called for more belt-tightening and announced that "burdens on the home front can and will be increased."

General Dietmar said that whether they like it or not, Germans would have to put up with new restrictions to provide more troops. He admitted that the Russians had broken through German lines on the southern front, and that the situation was becoming serious. "The need has come for still greater hardships in the home," he said, "to increase the flow of recruits to the front."

NAVY MAIL: To Be Speeded

Because the problem of mail deliveries to men in the navy, marine corps and coast guard has been complicated by the vast increase in personnel, the navy department announced that two rules would be placed in effect immediately to insure prompt service:

Parcel post packages must weigh not more than five pounds and measure not more than 15 inches in length and 36 inches in length and girth combined. Inappropriate second and third class matter such as advertising circulars would not be forwarded to men overseas.

BRIEFS . . . by Baukhage

"An Idle Ship Is a Crime Against the Public Interests."—so reads a sign over the door of John H. Lofland, Co-ordinator of Ship Repair and Conversion.

Officers of ships sailing the inland waters of the United States are licensed to sail their ships on a river where no ships sail—the Red River of the North.

Inflated life belts which are standard equipment on many United Nations ships are inflated with carbon dioxide gas—the same gas which carbonates beverages and charges water and is known in its solid form as "dry ice."

"If we want to keep the kind of a world we are fighting to win, we will have to accept the duty of maintaining at all times an adequate Merchant Marine and a healthy shipbuilding industry."—Admiral Vickers.

Washington Digest Opinions Vary on Success of Mexican Labor Plans

West, Southwest Farmers Reported Objecting to Minimum Wage Clause; Many Prefer Familiar 'Padrone' System.

By BAUKHAGE News Analyst and Commentator.

WNU Service, 1343 H Street, N.W., Washington, D. C.

What has happened to the scheme for bringing Mexican labor into the United States to help fill the gap left by the drain which industry and the draft have made on the nation?

In trying to get an answer to that question I turned up some rather interesting data which I wish to submit as an answer to that slur on our fair city that you hear frequently these days: "Washington is a madhouse."

It may at least explain what makes the wild cat wild.

I first went to an official in one of the war agencies with my query about Mexican labor. He is a very energetic, sincere worker, an anti-New Dealer, who is here trying to do his share to win the war. I am not permitted to use his name. He said:

"Somebody in our government with a lot of high ideals went to the United States to send Mexican laborers to the United States. They arranged to have a contract which would deal with each laborer as a free agent and put in all sorts of conditions which the farmer who had to hire him had to agree to, including housing, transportation, and a minimum per diem rate.

"But instead of sending over experienced farm laborers the Mexican government gathered together a lot of ne'er-do-wells and hoboos. It didn't work. In fact, the farmers got less help than usual. The trouble was that before the social-conscious officials took a hand the American farmers had been making contracts with padrones (bosses) who got the money and the workers, established the working conditions and paid the workers as they saw fit. They brought in trained workers and they made them work. But the starry-eyed members of the Mexican and American governments wouldn't hear of making use of the padrone system."

That sounded very bad to me, so I called up the offices of Senator Downey of California and Senator McFarland of Arizona, who are members of a special committee holding hearings in California and New Mexico on this question of imported farm labor.

Success Reported Senator Downey was still in California but his office was enthusiastic. I was told about how successful the use of this imported Mexican labor had been under the government's plan, in the beet industry, how it worked in the great guayule rubber fields of which 500,000 acres have been planted as part of our home-grown rubber program. How the senator was arranging with the state department for the admission of more foreign labor.

Then I talked with Senator McFarland. He said he would go along with Senator Downey in some of the things but not all. He said the farmers' complaint in Arizona was that they get neither the quantity nor the quality of workers they wanted. Cotton and dairy workers are their chief needs. He said that some of the farmers wouldn't sign a contract which the American government required. All protested against it. The objection was to the clause which established a minimum daily wage. The farmers said that the worker came out to the field in the morning, picked until he wanted to quit and then weighed in. But in order to be sure he had worked his minimum hours it was necessary to have a timekeeper and a book-keeper to check on his time and the whole process was too expensive.

Long-Staple Cotton He said, on the whole, that the Arizona farmer didn't get as many workers as needed and didn't get as good ones as he had expected.

On the department of agriculture's program for the next year there is a quota of 160,000 acres of long-staple cotton. One hundred thousand acres are allotted to Arizona. Normally, we import most of our long-staple cotton from abroad. Senator McFarland said that unless some solution of the farm labor problem was reached, unless the present contract was modified and the Arizona farmers were assured more and better hands at a lower cost, they wouldn't be able to invest

their money in planting the long-staple cotton the government wants. Neither Cotton the government wants nor Senator McFarland's had any comments on the padrone system.

Then I talked with a department of agriculture official. He was of the opinion that the contracts had worked out fairly well, and he pointed out that there was an "ideological" as well as a practical objection on the part of the farmers to the contract—the objection to establishing a minimum wage for farm labor.

Here are three quite different viewpoints. They represent a tiny fraction of the tangle which Washington has to untangle, has to reconcile.

If Washington is a madhouse, who made it mad? . . .

MacArthur Pled for Leadership

When the chapter of war history dealing with the Battle of New Guinea is written, it will be one of the most important in the whole book. That is what military men here tell me.

They began telling me that bit by bit just before the second front in Africa opened. Then the African story wiped everything else off the first pages. Recently they have been talking about New Guinea again. They keep saying to me a little reproachfully: "The American people don't realize what MacArthur has achieved down in that jungle country."

These aren't the "MacArthur men"—there are such in the army, a little group of hero worshipers who perhaps worship a bit more fervently than logically. But the men who have watched the New Guinea campaign from Stanley straight up over the Owen Stanley range and down the other side and up to the eastern coast of the island tell me that MacArthur and the leaders he has about him have done a great and a significant job.

It is great because he has accomplished what it was freely predicted the Japs could do (and didn't). It is significant because it has proved that Australians and Americans, given the training, can beat the Jap at his own game. They can (and have) beaten him with less training, without the fatalistic quality of the Jap, whose religion is to die rather than surrender even when dying isn't a military necessity.

There are two reasons, which military men put forward why the battle of New Guinea had not been painted in its true colors—represented in its true importance. One is the fact that MacArthur leans backward in his communications. Another is a peculiar copy-desk prejudice which causes them to play down reports from the distance and play up the reports from the war department in Washington.

There are two reasons why MacArthur's reports are given out from his headquarters in Australia instead of from the war department in Washington. One is that the Australians (and perhaps MacArthur) want it that way, and another is because American newspapers, which cause them to play down reports from the distance and play up the reports from the war department in Washington.

Why He Is Winning

MacArthur may have another reason for not ballyhooing his achievements. He was beaten in Bataan. He may feel that until he has a complete victory to his credit, he doesn't want to sing too loudly.

But MacArthur has won so far in New Guinea because the men under his command were able to do what they never had a chance to do on Bataan because of lack of numbers, supplies and food.

On New Guinea they were able to do better than the Japs could do, the very things which the Japs could do best. And they did it in the kind of jungle country in which that "best" was even better. They were able to adapt themselves to the environment which required a kind of fighting and a kind of endurance for which the Japanese had spent years in preparing. The kind of fighting that resulted in the fall of Singapore and the kind which the conventional British soldiers—even the Far Eastern experts—said was impossible.

Stamping Out Totalitarianism With Victory Bonds and Stamps

After you lay down your money for your war stamp or bond you feel the tingle of a patriotic fervor as you sense that your investment will help some soldier to wash the blot of totalitarianism from the face of the earth. But have you ever examined your stamp or bond carefully? This is the picture story of the careful planning and painstaking effort that went into them. Did you notice that Minute Man, for instance, on your war savings stamp? Topnotch artists first created him; special government-trained engravers cut the design free-hand on steel plates. The paper was subjected to the most rigid tests for tensile strength and ability to withstand folding. Ink was tested for color and liability to fading. After printing, your stamp was counted and inspected by exactly 29 people before it left the bureau of engraving and printing.

Depicted here are some of the steps in the making of a bond or stamp.

Right: With the sketch as a model, the engraver cut the die by hand. He used no transfer or tracing methods. Engravers worked for two to six months on the steel plate.

Designer here is working on the \$5 stamp.

Above: A laboratory technician examines the paper fibers through a microscope. Paper has a rag base, and that for the bond is as distinctive as that used for currency. It has the ability to withstand folding and creasing. Every waste scrap is accounted for. Million: That smile is worth a right. This girl, who has just checked the bonds in the delivery room, holds four packages each containing \$250,000 in war bonds—a total of \$1,000,000.

Experienced workers count the printed sheets (left) and examine them for imperfections. Defective bonds are set aside and destroyed. Sheets are counted 29 times from the time they were first placed on the press to the date of delivery. Below: Girl in foreground removes the bonds from the plate and stacks them.

11,500 Pounds of Scrap

By roadside dust relief farm wife can receive some measure of relief from dust nuisance. Along unpaved roadsides, facing both directions, can be placed signs reading "Washout." Motorists coming from both directions slow down as they approach the farm home, but to find a washout in the road. The landmark on the courthouse lawn at Nevada, Iowa, for more than eight years, the gun was donated to the scrap metal drive by Post No. 2209, Veterans of Foreign Wars of the United States. The post also contributed its "jeep" and a three-ton boiler.

# BOMBS BURST ONCE BY GRANVILLE CHURCH

THE STORY SO FAR: Jeff Curtis and his wife, Lee, are already on their way to the States. Mitchell warns them not to go. When they arrive in Tierra Libre, Mitchell's job as chief engineer of a fruit company that Jeff has

been called to fill. Later Jeff's friend Bill Henderson is killed, and Jeff suspects his employer, Senor Montoya, of murdering him and the Mitchells because they had found a clue to the strange things going on at the plantation. Other sinister figures are the company chemist Dr. Toenjes, and the flyers, Ryden and

far as he knew, and he was pretty familiar with the project by now, they had no use for generators of that size, nor were any on order that he knew of, and he'd had access—presumably—to all engineering equipment orders then placed. They reached the airfield spur. Here a wide stand of manzanitas made a black blob on the landscape. They dared not continue use of the motor, for sound rises and San Alejo was not more than a kilometer ahead and behind them.

## CHAPTER XVI

For several minutes neither man spoke. Gradually Curt edged himself into a deeper blackness, got closer to the figure between himself and the light from the open door. The darkness looked like Collins. No name came to his mind. He called the name softly. No answer. "Yes," came the low acknowledgment.

"Looking around, man?" "No." "Find anything?" "No." "Well, my friend, it's time for me to have a talk. First, let me have your gun. Let's see them."

"I have a pocket knife, and I have a leather card holder which contains three inscribed partitions. I squatted, played his flashlight on the exhibit, low against the ground, then snapped off the light. He passed and handed back the case. "That's better. Lieutenant, Nat, intelligence, eh? Glad to have you."

"I had a note from Bill Henderson. He enclosed a letter from Mr. Mitchell."

"One thing. Did you know of Mitchell's murder before you left the Zone?"

"Yes. That's the reason I was sent. Mitchell hinted in his letter at a Nazi movement here which would endanger the Canal, and he wanted someone sent to confirm some serious discoveries he'd made and take action."

"But the letter was so involved and guarded and vague that we thought it cranky stuff. We get more of that than you'd suppose. Nevertheless, we put out some feelers. No matter how wild the yarn that comes in, we can't ditch it in the waste basket."

"Naturally we have some pretty good sources of information here and there throughout these countries."

"I don't know," he confessed, "but I suspect it's strung along the top for alarm. In any case, it'd be darn near impossible for us to get over that barbed stuff in the dark. We'll burrow under."

They used the flashlight, playing it close to the ground. Putting the chisel to work to loosen the earth, Curt scraped away with his hands until they had a hole through which they could crawl. He had a sudden thought.

"Hey, take off your clothes! I've got fresh ones at Tempujo for myself, but if I give you any others it might be noticed."

"Right." Collins stripped to his shorts for the forage, and minus a gun belt, had to carry his automatic in his hand. They circled the three buildings cautiously, the two hangars, the adjoining shed-roof between, duplicate of the hangars at the other end of the field.

"Haven't yet cut the grass here," commented Curt. "Huh. Probably don't intend to—it's a better indication that the buildings aren't in active use."

High in the walls was a continuous horizontal strip of windowing in ground glass. Not the faintest glimmer of light showed anywhere. "Absolutely perfect camouflage from above," growled Curt. "Look how they built the center portion around trees. The trunks go up through the roof. I'll bet not a square foot of these buildings can be seen from the air. Only the tracks leading in here would tell anything, and they can't be avoided. But even the tracks, with the weeds not kept down, probably look like a cart path."

They were now in front. Down at the other end of the field only a few night lights showed.

"This leading platform along the front," went on Curt. "It's anchored only lightly to the buildings and the ground. My guess is it could be picked up by a couple of dozen men and swung out of the way in a few minutes. Pretty darn clever."

True, this leading platform, the height of a flat car, was not solid. It jiggled to a healthy push.

"Well, we can't force the doors, obviously."

"Can we dig under as we did with the fence, or do you suppose there's a floor?"

Curt pondered. "Bound to be a cement floor," he decided. "Anyway, we couldn't tamp down earth inside when we left. No, the wall is only corrugated sheet iron. Let's find a section to pry loose."

They searched along the back of the buildings, coming finally to a spot where Curt could use his chisel again discovered. It took some minutes before they had one sheet of the sheathing sufficiently sprung to give them entrance. There was noise to this job, try as they would to muffle it, but they seemed to have the field to themselves. They crawled through the opening.

Only Curt had a flashlight, then played it about experimentally, then more boldly, taking care that neither the beam nor the strip of windowing should hit a wall or anything.

Then it fell on something and stopped wings of death.

"By God, Collins! What'd I tell you!"

His words sounded hollow, and echoes slapped back at them from the walls. The finger of light picked out the fuselage of a huge plane that towered above the two men, that towered above and forth. A played along it back and forth. A played along it back and forth. Its long, slender, cigar-shaped body, its nose of glass, two-motored, its wings nose of glass, two-motored, its wings appearing stubby from this angle.

"A Heinkel!" exclaimed Collins, and again echoes reverberated. A Heinkel it was. But on the under side of its wings and on the side of the fuselage was lettering and the circle-within-a-star-within-a-circle emblem to identify it as an American plane!

He told of having seen only yesterday another pair of big, heavy square boxes marked generators, from Germany via Vladivostok. So

hundred feet beyond the limits of the town, Curt stepped up the pace but didn't yet use the motor.

"Can't risk it," he grunted. "Sound carries over these flats."

Not until a full kilometer from Tempujo did Curt speak again. "Okay. Starter on this car whines pretty loud. Keep pushing and I'll switch on the engine. It'll catch. Then hop in and we're off."

Curt didn't open the car wide. The engine was smooth enough, but iron wheels on iron rails in this still night air rang alarmingly loud to men who needed silence. Further, in running without lights at high speed over an uneven roadbed, even a snake unseen on the track might derail them.

Under way, Collins turned to Curt in the seat beside him. "I've followed blind so far. Where are we headed?"

Curt chuckled mirthlessly. "The one spot you want above all to visit it." After a moment, "We better have it out, Collins. Suppose we begin with you. How did you get in on this? I reckon I know, but I'd rather you told me."

"I had a note from Bill Henderson. He enclosed a letter from Mr. Mitchell."

"One thing. Did you know of Mitchell's murder before you left the Zone?"

"Yes. That's the reason I was sent. Mitchell hinted in his letter at a Nazi movement here which would endanger the Canal, and he wanted someone sent to confirm some serious discoveries he'd made and take action."

"But the letter was so involved and guarded and vague that we thought it cranky stuff. We get more of that than you'd suppose. Nevertheless, we put out some feelers. No matter how wild the yarn that comes in, we can't ditch it in the waste basket."

"Naturally we have some pretty good sources of information here and there throughout these countries."

"I don't know," he confessed, "but I suspect it's strung along the top for alarm. In any case, it'd be darn near impossible for us to get over that barbed stuff in the dark. We'll burrow under."

They used the flashlight, playing it close to the ground. Putting the chisel to work to loosen the earth, Curt scraped away with his hands until they had a hole through which they could crawl. He had a sudden thought.

"Hey, take off your clothes! I've got fresh ones at Tempujo for myself, but if I give you any others it might be noticed."

"Right." Collins stripped to his shorts for the forage, and minus a gun belt, had to carry his automatic in his hand. They circled the three buildings cautiously, the two hangars, the adjoining shed-roof between, duplicate of the hangars at the other end of the field.

"Haven't yet cut the grass here," commented Curt. "Huh. Probably don't intend to—it's a better indication that the buildings aren't in active use."

High in the walls was a continuous horizontal strip of windowing in ground glass. Not the faintest glimmer of light showed anywhere. "Absolutely perfect camouflage from above," growled Curt. "Look how they built the center portion around trees. The trunks go up through the roof. I'll bet not a square foot of these buildings can be seen from the air. Only the tracks leading in here would tell anything, and they can't be avoided. But even the tracks, with the weeds not kept down, probably look like a cart path."

They were now in front. Down at the other end of the field only a few night lights showed.

"This leading platform along the front," went on Curt. "It's anchored only lightly to the buildings and the ground. My guess is it could be picked up by a couple of dozen men and swung out of the way in a few minutes. Pretty darn clever."

True, this leading platform, the height of a flat car, was not solid. It jiggled to a healthy push.

"Well, we can't force the doors, obviously."

"Can we dig under as we did with the fence, or do you suppose there's a floor?"

Curt pondered. "Bound to be a cement floor," he decided. "Anyway, we couldn't tamp down earth inside when we left. No, the wall is only corrugated sheet iron. Let's find a section to pry loose."

They searched along the back of the buildings, coming finally to a spot where Curt could use his chisel again discovered. It took some minutes before they had one sheet of the sheathing sufficiently sprung to give them entrance. There was noise to this job, try as they would to muffle it, but they seemed to have the field to themselves. They crawled through the opening.

Only Curt had a flashlight, then played it about experimentally, then more boldly, taking care that neither the beam nor the strip of windowing should hit a wall or anything.

Then it fell on something and stopped wings of death.

"By God, Collins! What'd I tell you!"

His words sounded hollow, and echoes slapped back at them from the walls. The finger of light picked out the fuselage of a huge plane that towered above the two men, that towered above and forth. A played along it back and forth. A played along it back and forth. Its long, slender, cigar-shaped body, its nose of glass, two-motored, its wings nose of glass, two-motored, its wings appearing stubby from this angle.

"A Heinkel!" exclaimed Collins, and again echoes reverberated. A Heinkel it was. But on the under side of its wings and on the side of the fuselage was lettering and the circle-within-a-star-within-a-circle emblem to identify it as an American plane!

He told of having seen only yesterday another pair of big, heavy square boxes marked generators, from Germany via Vladivostok. So

First thing was to check up on Mitchell—the type of man, how responsible he was, and so on. Well, while we were doing that we got word of his murder. So that seemed to indicate a pretty thorough investigation was needed. I drew the detail.

"While over in Soledad getting the lay of the land, I heard of the other two deaths. That cinched it. The next step was to get in here on the ground, ferret out what was going on."

"Is that what you were doing, snooping around the docks at Tempujo tonight?" Curt chuckled. "What did you think you could learn there?"

"Listen, man," retorted Collins in a huff, "I couldn't just walk in here and look around, and ask questions. I had to get established first, so as to be accepted. You've planted me up river where there's obviously nothing to see. I've had one definite objective since our plane faked trouble the other day, but it's at San Alejo. Meanwhile, until I can get to it, there's no harm looking around where I can."

"Okay, okay," Curt apologized. "No offense. We'll give you a crack at that objective right now. Mitchell wasn't hitting the pipe. The two weeks I've been here, but only tonight did I click on it."

He told Collins about the hangars first built, later abandoned to storage purposes because the flyers pointed out the bad location.

He told of the boxed airplane wings he'd seen the day of his arrival.

"I know," put in Collins enigmatically. "I had a talk with the men of that plane when they put down at Puerto Soledad."

Curt grunted and went on. He told of Mitchell's rising suspicions over a shipment from Japan—or through Japan, he added—of eight long, square-end boxes. Heavy boxes, like over-stuffed coffins, Monahan had told him.

He told of having seen only yesterday another pair of big, heavy square boxes marked generators, from Germany via Vladivostok. So

far as he knew, and he was pretty familiar with the project by now, they had no use for generators of that size, nor were any on order that he knew of, and he'd had access—presumably—to all engineering equipment orders then placed. They reached the airfield spur. Here a wide stand of manzanitas made a black blob on the landscape. They dared not continue use of the motor, for sound rises and San Alejo was not more than a kilometer ahead and behind them.

Pushing the car up the branch line, and backing out by the third leg of the "Y" onto the main line again, they had the car headed for Tempujo once more. They left it in the blackness of the low trees.

Curt fumbled in the tool box, stuck a chisel into a hip pocket, and the two men struck off down the airfield branch. Stars there were plenty, and they gave some light, but there was no moon and the going was rough.

They followed the tracks to the spur that led to the bodega at the lower end of the field, then up this spur to the fence. This lower gate was locked, but Curt expected that. He led the way along the fence until they'd turned the corner at the end of the field, then on to the copse of trees that sheltered the big buildings. The blackness here was so thick it felt solid as they pushed into it.

"I doubt if we need to worry about a guard inside," Curt muttered. "The fence is ordinary protection and they couldn't keep a watchman at this end of the field without his showing a light at times. Lights down here would cause speculation if seen from San Alejo."

He seized hold of the fence and pulled and pushed experimentally.

"I don't know," he confessed, "but I suspect it's strung along the top for alarm. In any case, it'd be darn near impossible for us to get over that barbed stuff in the dark. We'll burrow under."

They used the flashlight, playing it close to the ground. Putting the chisel to work to loosen the earth, Curt scraped away with his hands until they had a hole through which they could crawl. He had a sudden thought.

"Hey, take off your clothes! I've got fresh ones at Tempujo for myself, but if I give you any others it might be noticed."

"Right." Collins stripped to his shorts for the forage, and minus a gun belt, had to carry his automatic in his hand. They circled the three buildings cautiously, the two hangars, the adjoining shed-roof between, duplicate of the hangars at the other end of the field.

"Haven't yet cut the grass here," commented Curt. "Huh. Probably don't intend to—it's a better indication that the buildings aren't in active use."

High in the walls was a continuous horizontal strip of windowing in ground glass. Not the faintest glimmer of light showed anywhere. "Absolutely perfect camouflage from above," growled Curt. "Look how they built the center portion around trees. The trunks go up through the roof. I'll bet not a square foot of these buildings can be seen from the air. Only the tracks leading in here would tell anything, and they can't be avoided. But even the tracks, with the weeds not kept down, probably look like a cart path."

"I know," put in Collins enigmatically. "I had a talk with the men of that plane when they put down at Puerto Soledad."

Curt grunted and went on. He told of Mitchell's rising suspicions over a shipment from Japan—or through Japan, he added—of eight long, square-end boxes. Heavy boxes, like over-stuffed coffins, Monahan had told him.

He told of having seen only yesterday another pair of big, heavy square boxes marked generators, from Germany via Vladivostok. So

First thing was to check up on Mitchell—the type of man, how responsible he was, and so on. Well, while we were doing that we got word of his murder. So that seemed to indicate a pretty thorough investigation was needed. I drew the detail.

"While over in Soledad getting the lay of the land, I heard of the other two deaths. That cinched it. The next step was to get in here on the ground, ferret out what was going on."

"Is that what you were doing, snooping around the docks at Tempujo tonight?" Curt chuckled. "What did you think you could learn there?"

"Listen, man," retorted Collins in a huff, "I couldn't just walk in here and look around, and ask questions. I had to get established first, so as to be accepted. You've planted me up river where there's obviously nothing to see. I've had one definite objective since our plane faked trouble the other day, but it's at San Alejo. Meanwhile, until I can get to it, there's no harm looking around where I can."

"Okay, okay," Curt apologized. "No offense. We'll give you a crack at that objective right now. Mitchell wasn't hitting the pipe. The two weeks I've been here, but only tonight did I click on it."

He told Collins about the hangars first built, later abandoned to storage purposes because the flyers pointed out the bad location.

He told of the boxed airplane wings he'd seen the day of his arrival.

## FIRST-AID TO THE AILING HOUSE

by Roger B. Whitman

Roger B. Whitman—WNU Features.

You may not be able to replace worn or broken household equipment. This is war. Government priorities come first. So take care of what you have and use it as you possibly can. This column by the home-owner's friend tells you how.

### HOUSE HUMIDIFIERS CAN BE HAD IN MANY FORMS

THERE are many inquiries on methods for humidifying the air of a house. With radiators, water pans can be set on top or hung to one side; but these are of no great effect because radiators do not become sufficiently hot to vaporize the water in any great amount. A much better type consists of two water pans of the same length as the radiator, made so that there is a space between them. A piece of coarse mesh cloth is placed across the space, with its ends dipping into the two water pans. Water absorbed by the ends is carried through the rest of the cloth, and evaporation is rapid by the passage of hot air through the part of the cloth over the open space. Pans of this design are on general sale. The large electrical companies and heating contractors can supply a humidifying device to be attached to the ceiling of the cellar connected to a register in the floor above. A circulating fan, a water spray connected to the plumbing, and air filter, all under adjustment, will provide the house with the degree of humidification that is required.

**Moldy Odor**  
Question: How can we kill the moldy smell in one of our downstairs rooms, caused by ground being unexcavated under the room?  
Answer: The best thing to do would be to put down a good concrete floor in the cellar and to provide more ventilation. Until you are ready to do this, however, it would help to use one of the blanket types of insulating materials, nailed between the floor joists. This kind of insulation is covered with a waterproof paper and is available in one and two-inch thicknesses. The thicker the better. You also can dry up some of the dampness by using calcium chloride, an inexpensive chemical that has the property of absorbing moisture out of the air. Place several pounds of this in a wire basket, and stand it on a pallet to catch the water that will form. Your heating plant should help to dry out the air of the cellar.

**Protecting Water Pipe**  
Question: Last winter the pipe leading from the well into my cellar froze up. The pipe is only two feet below the ground level; but it will be impossible for me to bury it deeper. My plan is to dig it up and put insulation around it. What is your advice on this?  
Answer: First, cover the pipe with a thick felt insulation. Then box it in, making all the joints of the box watertight by forcing in caulking compound. Then place additional insulation in the box, using mica pellets, water-repellent rock wool. There should be at least three inches of space to fill in between the insulated pipe and sides of the box. After putting on the cover, you can waterproof the box by applying two heavy coats of liquid tar or asphalt all over it.

**First Floor Is Cold**  
Question: Since I have the roof of my two-apartment building insulated, my tenant on the first floor complains of not getting enough heat. How could I cut down the radiation in the apartment on the second floor? The thermostat is on the second floor.  
Answer: The answer may be to put smaller radiators in the second-floor apartment. Since you insulate the roof, the radiators in the upstairs apartment apparently are too large. Your heating man may be able to rearrange the radiators you already have.

**Oilcloth on Leather**  
Question: Last summer I put oilcloth covers on my leather dining-room chair seats. Because of warm weather, the oilcloth stuck to the leather. How can I get this off? Washing does not help.  
Answer: With a dull knife try to scrape the bits of oilcloth off the leather. Do this carefully and slowly. Another method is to remove the bits by rubbing lightly with very fine steel wool. Polishing with a paste wax may be advisable.

**Paint for Cement Block**  
Question: What kind of paint should I use on my cement-block garage to make the walls waterproof inside and out?  
Answer: Use a cement base paint that contains a waterproof. Most mason material yards handle this product. It comes as a powder, to be mixed with water.

**Size of Anthracite**  
Question: I should like to burn canal and anthracite coal in an open grate in my fireplace. What size anthracite would be best suited; stove or nut?  
Answer: Nut coal would be the best for your purpose.

**Worn Copper Finish**  
Question: The outside finish of a copper kettle is wearing off. Where should I bring this kettle to have it resurfaced?  
Answer: Any garage can give you the name and address of a plating shop.

(TO BE CONTINUED)

## THE WILL OF HUMPHREY Z. CLEEK

I, Humphrey Z. Cleek, being of sound mind, do make this my last will and testament. I hereby give and bequeath:  
To my wife, Zenobia Cleek, my old five-passenger coupe in the hope she may get tires for it after the war; the two gallons of gasoline left in the tank at the time it was put up, and the road maps which I wish her to keep if only in memory of the happy days when they meant anything. I also give to her the car battery in the sincere hope it is not too far gone to be charged up, the six (6) cans of assorted soups which will be found in my strongbox at the Mercantile Trust company, the can of hash which is in my safe and the three (3) tins of sardines which she will find behind the clock in the kitchen. Also all can openers in my possession.

To my daughter, Allagala, the four (4) cans of peaches, the two (2) cans of sauerkraut and the small can of tongue which was left me by my late Uncle Frisby, and the pre-war jar of pitted cherries which I won as first prize in the 1942 Topsey Heights Golf Club Fall Tournament.

To my older son, Buckingham, my original Hochstet oil painting "Gentleman Eating" and my Gaby still-life "Tenderloin Steak," the mere inspection of which has meant so much to me in the last few months.

To my younger son, Chidsey, my watch, the old family carving knife so reminiscent of better days, and my collection of American restaurant menus, with the request that he treasure especially the ones showing dollar table d'hote meals and 40-cent luncheon specials with meatballs.

To my sister, Phronisia Dibbels, the Cleek family coffee pot, which will be of much value as an antique, in testifying to the life of a bygone America.

To my cousin, Zeke Fetherstone, the old tire which now hangs in the garage and which should be retreated in more opulent times.

To my aunt, Ella Belle Burpee, the second-string percolator, not because of any possible utility, but for whatever sentimental value it may possess for her.

To my nephew, Gideon Bloodworm, my oil ration card. It was never any good to me, but he is a man of energy and determination and may be able to do something with it.

To Samantha McCarty Persky Schmalz, maid in the Cleek household for the unusual period of almost seven successive weeks (unless she shall have carried out in the meantime her threats to go to work in the powder mill), any lamb chops that may be in the icebox and a half-pound of butter in appreciation of incredibly long service in my household.

Signed,  
HUMPHREY Z. CLEEK.  
Codicil.

Having overlooked it inadvertently in the above, I wish that any sugar and such grains of coffee as may be anywhere in my possession go to my wife outright. I also leave to her, in trust, my 1934 Eagle bicycle. Nothing can prove of greater value to her in the present shape of things.

FAIR WARNING  
Of little things so much depends;  
Beware of false acclaim.  
So watch the guys who pose as friends,  
Yet mispronounce your name.  
—MERRILL CHILCOTE.

OPA has cracked down on bowling alleys now, making them reduce their rates. They were only making pin money, as it was.

Motorists are going to be rolling their own if the gas shortage continues much longer.—Joe Nolan.

"Winter may be difficult"—Herr Hitler.

The understatement of the month.

"We have not done the slightest thing to France, England or even to America."—Adolf Hitler.

"Now, come Adolf, don't you remember that time you dropped ashes on the parlor rug?"

Henderson came in like a lamb but he is going out like a Leon.

"It's hard to think of the fuel oil mess today and realize that this administration was once accused of 'turning on the heat,'" says Elmer Twitchell.

FORWARD LOOKERS  
A wise old droop  
Was Chester Lowe:  
He sold his car  
Two years ago!

If you're out in an auto today the burden of proof that you should not have your gas card revoked is on you, should a policeman hold you up. Elmer Twitchell was stopped this morning and his alibi was that he was driving down to the ration board to see about coupons for getting a horse.

WHY MILK PRICES SOAR  
Hi diddle diddle, we're all in the middle,  
The cow jumped over the moon;  
"It's all quite okay," declared OPA,  
"As if now must be milked by balloon!"

Bing Crosby returned to his gutted home and found a shoe in it. He had had \$2,000 in cash intact. Bing was evidently determined to have enough money hidden away to get a couple of eggs and a patty of butter, anyhow.

**NEW PROSPECT**

Albert Gross of East Valley was caller in the village Tuesday. Walter Jandre and son Kenneth were callers at St. Kilian Monday. Mr. and Mrs. J. P. Uelmen were callers at Kewaskum Saturday afternoon. August Jandre, son Harvey and W. A. Kuert were callers at Adel Tuesday. Mr. and Mrs. Richard Trapp spent Tuesday evening with friends at Campbellsport. Dr. Leo Hoffman of Campbellsport was a professional caller in the village Monday. Mr. and Mrs. Geo. H. Meyer were business callers at Kewaskum Saturday afternoon. Mr. and Mrs. Frank Bowen spent Friday evening with relatives at Campbellsport. Mr. and Mrs. Walter Jandre, daughter Janice and son Kenneth spent Saturday at Sheboygan. Mr. and Mrs. Henry Becker and Mr. and Mrs. A. Kuciuskas spent Sunday

evening at West Bend. Elwyn Romaine of Kewaskum spent Thursday with his parents, Mr. and Mrs. Geo. M. Romaine. Mr. and Mrs. Norbert Uelmen of Campbellsport visited Friday evening with Mr. and Mrs. J. P. Uelmen. Mrs. Virginia Trapp of Eldorado spent over the week end with her parents, Mr. and Mrs. Richard Trapp. Mrs. Lester Butzke and daughter Carol spent Friday with her grandmother, Mrs. Barbara Schoetz, who is seriously ill. Mr. and Mrs. Edgar Sook, daughter Mary Rose and son Ellis visited Sunday with Mr. and Mrs. Wm. Bartelt and Mrs. Barbara Schoetz. Mr. and Mrs. Geo. H. Meyer, daughters Jeanette, Bernice and Edith, spent Sunday with their daughter-in-law, Mrs. John Meyer, and Mr. and Mrs. Frank Ketter near Campbellsport. Wisconsin farmers marketed cooperatively 1,185,000 pounds of wool last week.

**ST. KILIAN**

Greta and Dexter Goose of Beaver Dam spent several days with their grandmother. Friends & relatives surprised Mr. and Mrs. Raymond Boegel Monday evening in honor of their wedding anniversary. Peter Strachota of San Francisco, 3rd mate in the U. S. Merchant Marine, visited Friday with Mrs. Marie Strachota and family. Mr. and Mrs. John Kuehl have received word from their son, Pfc. Lester V. Kuehl, that he has been transferred from Camp Livingston, La., to Camp Cerrabelle, Florida. His new address is: Pfc. Lester V. Kuehl 36266503, Co. A, Infantry 112, A.P.O. 28, Camp Cerrabelle, Florida. **SON IS INDUCTED** Karl Fink of Milwaukee, son of Mr. and Mrs. Wm. Fink of here, was inducted into the armed forces Monday. Our secret weapon: U. S. Def. Bonds and Stamps. Buy them!

**County Agent Notes**

**SLINGER D.H.I.A. MET FRIDAY EVENING**  
The annual meeting of the Slinger Dairy Herd Improvement association was held at Schuck's hall, Ackerville, on Friday evening, Jan. 29. All members were urged to be present.

**FREE TREE SEEDLING ALLOTMENT**  
Anyone owning land for which reforestation is the best land use, may obtain up to 1,000 forest tree seedlings upon payment of shipping charges. These seedlings are of hardwood and evergreen varieties and are given free to encourage reforestation. Land owners who receive the trees must agree to carry out proper planting methods and to protect the seedlings against destruction by livestock. Applications for trees may be made with the county agricultural agent's office before March 1.

**NEIGHBORHOOD LEADERS OF TOWNSHIPS MET FRIDAY AFTERNOON**  
Because of the snow and cold weather the neighborhood leaders meeting scheduled to be held at Richfield on Jan. 19, could not be held. The meeting was postponed until Friday afternoon, Jan. 29. It began at 1:30 o'clock and was held in Dickel's hall. The discussions at these meetings are important to neighborhood leadership work.

**FARM MACHINERY OUTPUT TO BE SMALL**  
The limited production of new farm machinery and equipment for 1943 makes it imperative that every owner of any farm implement keep it in the best possible operating condition. It is estimated that more than 95 per cent of the agricultural production during the coming season will have to be taken care of by machinery already on the farm. As a means of making the best use of present farm machinery, those farmers who have extra or labor saving equipment will be urged to do custom work for neighbors wherever possible. However, care should be used not to take on more custom work than can be done in an average season.

**ORDER FARM MACHINERY REPAIR PARTS NOW**  
Farmers who need extra parts to repair farm machinery for the 1943 season will do well to purchase such repairs at once. The war production board has authorized the production of repair parts at 120 per cent of the 1940 output. More repair parts may be manufactured if present allotments prove insufficient. It requires time for new allocations of steel and iron to be made into machinery repair parts, hence early purchase of such parts by those who need them will enable the war production board to better ascertain how much metal has to be allotted to implement manufacturers. E. E. Skalsky, County Agent.

enemy action to civilians. On October 5, 1942, the president supplemented such allocation by letter to the secretary of the treasury (Allocation No. 42-3 56); this supplementation extended the use of such fund to provide temporary aid to civilians within the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) who are injured as the result of enemy attack or of action to meet such attack or the danger thereof, or who are injured while in the performance of their duties as civilian defense workers, or who are dependents of individuals injured or killed under the aforementioned circumstances. Such aid may include money payments and medical or other services necessary for the protection of health, safety, and welfare.

"The office of civilian defense is at present consulting with the federal security agency in the preparation of instructions and procedures for making payments of such fund. This should not be deemed to indicate that payments will be made in all reported cases, inasmuch as the instructions and procedures to be established by the federal security administrator will govern all matters, including the degree of injury to be compensated, the proof to be furnished, etc.

"It will be necessary in any event to provide for the establishment and maintenance of records with a view of claims which will arise for medical care and benefits due to death or injury sustained by civilian defense workers in the performance of their duties. The term civilian defense workers includes members of or trainees for the protective services of the United States Citizens Defense Corps as well as members of the civil air patrol and the aircraft warning service.

"As to the citizens' defense corps. Section 15 (d) (3) of Office of Civilian Defense regulations No. 3 provides for the appointment, as a member of the staff unit, or a personnel officer, who shall be responsible for the personnel and enrollment records of all members of the defense corps as well as records with respect to casualties and evacuation.

"The federal security agency proposes to require that as a condition to payment of any claim filed by a civilian defense worker in the citizens defense corps, a report of the injury shall be filed within a prescribed time with the personnel officer and that the circumstances of the injury be certified by a superior officer of the injured person. Appropriate forms will be prepared and distributed for reporting and certifying claims.

A personnel officer is to be appointed in each district by the respective district commanders who will be responsible to the county personnel officer for maintenance of accurate and complete records of his respective district. Village President Charles Miller will make this appointment for Kewaskum within the near future. H. A. Schatz, county coordinator of the citizens' defense corps, has been named as county personnel officer.

More complete details of the manner of procedure to be followed with respect to claims to be paid out of the aforesaid allocations are being awaited from the O.C.D.

**FARM AND HOME LINES**  
Smaller plantings of both winter wheat and rye were made by Wisconsin farmers in the fall of 1942 than in 1941.

Creamery men have been directed beginning Feb. 1 to set aside 30 per cent of their monthly production for direct war requirements.

In 14 out of 15 recent farm tests certified potato seed outyielded home-grown varieties, report authorities at the Wisconsin College of Agriculture.

**WOMEN AT WAR**

Mom

"Sausages for breakfast! Sausages for breakfast! I can smell 'em!" Small Joe came tumbling downstairs fastening the belt of his shorts as he came. He made a beeline for the kitchen. Pop was already sitting at the table reading the paper, while Mom held the handle of the frying-pan over the stove. Small Joe came close and sniffed the delicious smoke, wriggling all over with early-morning joy.

"Better be thankful for them while you can still get them." One glance at Mom's face told small Joe this was one of her tight-lipped days. "Not a drop of coffee in the house, and no sugar left! Put it in if there was. Some war!" Small Joe kept still.

"Letter for you, son," Pop said in his quiet voice. Small Joe made a leap for his place at table. There it was, a private personal letter for him alone, propped against his milk glass.

"Hey, Pop! It's from brother!" Small Joe was pulling the envelope apart and diving into the contents. "Hey, look what he sent me." He passed over an oblong of thick, crinkly paper while he leaned over the sheet of writing-paper.

"A twenty-five dollar War Bond," Pop said slowly. Mom turned and looked at it over Pop's shoulder, with the frying-pan in her hand.

"Listen what he says. 'How are you doing, kid? Hurry and grow up so you can help me slap the Japs. Aren't you most big enough to get into the Army? Here's something for you in your name. Let's the whole fam'ly gang up and help to win this war.'"

Pop and Mom were silent. But small Joe didn't notice that. He was full of his letter and his War Bond.

"Gee, Pop, in six years I could get into the Army, couldn't I, Pop? Gee, Pop, I want to be a soldier like brother and fight in this war. Gee, isn't that bond nifty? Look, it was issued in Honolulu. It's mine."

But Pop was looking at Mom and Mom was looking at Pop. There were tears in Mom's eyes. She shook her head sharply. Pop reached out and patted her hand gently.

"Well, can't let our soldier boy beat us to buying War Bonds, can we, old lady?" was all he said.

She shook her head again. "I guess if he can give up his job and go off to war I can do some fighting back at home," she said in a queer voice. Small Joe looked up at her in surprise. She saw him looking at her and spoke sharply. "Well, Joe. We're about ready to eat. Say grace."

Small Joe folded his hands and bent his head as he had been taught. "Oh Lord, we thank thee for this food and all thy bountiful gifts..."

"Amen," Pop said.

"Amen," Mom said. "Now eat your good sausages."

(Story from an actual report in the files of the Treasury Department.)

Amen: Say yes. Take your change in War Stamps. The least you can do is the most you can buy in War Bonds. U. S. Treasury Department

**Medical, Cash Benefits for Civilian Defense Workers**

Announcement has been made by County Commander Clyde Schloemer of the Citizens' Defense Corps of Washington county of the receipt of a communication from the office of civilian defense that provision has been made for the payment of medical and cash benefits to civilian defense workers injured in the performance of their duties. The communication includes the following:

"On February 6, 1942, the president allocated (Allocation No. 42-70), out of the appropriation entitled 'Emergency Fund for the President' contained in the Independent Offices Appropriation act, 1942, approved April 4, 1941, the sum of \$5,000,000 to the administrator of the federal security agency for providing temporary aid necessitated by

**Joseph C. Grew Warns**

**Half-Effort Will Not Defeat Japan**

By JOSEPH C. GREW

United States Ambassador to Japan until the outbreak of war, and author of "Report From Tokio."

(Written for the Treasury Department in connection with the Retainers' "SAY YES" campaign to complete the nation's 100,000,000 partially filled War Stamp album.)

WASHINGTON, D. C.—In describing one of the big air battles over Guadalcanal a recent newspaper account tells of an American flyer who parachuted from his crippled plane to the waters of Lunga Bay. The Navy craft which picked him up next went to the rescue of a Japanese pilot seen struggling in the water nearby. As the rescue boat reached the Japanese flyer he suddenly pulled out his revolver, aimed it at the drenched American pilot and pulled the trigger. The cartridge failed to explode. Then the Japanese officer turned the gun on himself with suicidal intent. Again he pulled the trigger and again his revolver failed him. At this point an American sailor knocked him out with a boat hook and pulled him aboard the American craft a prisoner.

Almost daily one reads eye-witness stories such as this one, and all of them clearly demonstrate that war with our enemy in the Pacific cannot end in compromise.

For ten years I lived in Japan. The truth is I know it from close observation: it is nothing less than the exertion of our maximum capacities, individually and collectively, in a war of offense will bring our beloved country safely to the longed-for haven of victorious peace.

Then the Japanese officer turned the gun on himself with suicidal intent. Again he pulled the trigger and again his revolver failed him. At this point an American sailor knocked him out with a boat hook and pulled him aboard the American craft a prisoner.

Almost daily one reads eye-witness stories such as this one, and all of them clearly demonstrate that war with our enemy in the Pacific cannot end in compromise.

For ten years I lived in Japan. The truth is I know it from close observation: it is nothing less than the exertion of our maximum capacities, individually and collectively, in a war of offense will bring our beloved country safely to the longed-for haven of victorious peace.

**JOSEPH C. GREW**  
Says It's Fight to Finish

From the flood of eye witness accounts of atrocity and bestiality one fact shines clear. We must utterly crush that machine and caste system. If, however, we Americans think that collectively and individually we can continue to lead our nor-

**Medical, Cash Benefits for Civilian Defense Workers**

mal lives, leaving the spirit of self-sacrifice to our soldiers and sailors, we shall unquestionably run the risk of a stalemate with Japan. I do not have the slightest doubt of our eventual victory. But I do not wish to see the period of our blood, sweat and tears indefinitely and unnecessarily prolonged. We must not fail to realize that we are up against a powerful fighting machine, a people whose morale cannot be broken even by successive defeats and untold economic hardship, a people who gladly sacrifice their lives for their Emperor and their nation. We must also remember that Japan did not start this war without carefully laid military plans for victory over the United States and a peace dictated by their war lords at the White House.

This is a total war, the only answer to which is a total American victory. It is a war in which half measures of any kind mean incredible waste of material, energy and human life. In this sense a half-filled War Savings Stamp album is symbolic of a half effort. There are, I am told, roughly 100 million partially complete War Stamp albums now in circulation. These uncompleted Stamp albums are, in a measure, like a 100 million threats to the other hand, for every War Savings album completed and cashed in for a Bond, you the sailor take a forward step on the uphill road to total victory. **What You Buy With WAR BONDS**

The ordinary machine gun is too cumbersome for our Marines, especially for parachute troops. So the Marines have adopted new models of the Reising sub-machine gun, a .45-caliber weapon.

The new gun used by the paratroops is a compact model with a pistol grip and a steel-frame stock which folds out of the way when not in use. You can help buy these for our Boys in the Solomons and elsewhere with your purchase of War Bonds. Join the Payroll Savings Plan and let's "Top that ten percent." U. S. Treasury Department

**War Stamp Sales Over Half Billion Dollars, Album Drive Opens**

**SAY YES!**  
 Take your change in WAR STAMPS

Appealing Margaret C. Russell of the War Savings Staff tucks up this new Treasury poster which will be seen from coast to coast. It pictures retailers' slogan, "SAY YES." A drive is underway for Americans to buy additional War Stamps to fill albums and convert them into War Bonds.

WASHINGTON, D. C.—The nation's retailers from the tiniest hamlets to the mighty cities are acting as spearhead in a great effort to sell the additional War Savings Stamps needed to fill more than 100,000,000 albums now in the hands of the American people.

According to a report released by the Treasury Department today, sales of War Savings Stamps totaled \$559,777,000 for the period from May 1, 1941, through November, 1942.

Stamp sales have risen from less than three million dollars per month when they were first introduced to the public to an average of more than fifty million dollars per month at the present time.

The Treasury's slogan, "A half-

HOUSEHOLD MEMOS... by Lynn Chambers

Wake Up and Shine... for a Hearty Breakfast! (See Recipes Below)

This Week's Breakfast

- Sliced Oranges
Hot Oatmeal Honey Top Milk
Coddled Eggs
Butterscotch Pecan Rolls
Beverage
\*Recipe Given

or vitaminized margarine—honey and butter syrup, melted together, or dark corn syrup flavored with a maple extract are all that could be desired, luscious indeed.

Freshly baked rolls with swirls of brown syrup and whole pecans on top are bound to make your breakfast a real pleasure.

\*Butterscotch Pecan Rolls. (Makes 3 dozen)

- 1 package yeast, compressed or granular
3/4 cup warm water
3/4 cup milk, scalded, cooled to lukewarm
1 teaspoon salt
1/2 cup sugar
1/4 cup melted shortening
2 eggs, well beaten
About 4 cups sifted all-purpose flour

- 1 cup butter, softened
1 cup brown sugar, packed firmly
1 cup pecan meal

Pour 3/4 cup lukewarm water over yeast; add 1 tablespoon sugar, stir, let stand about 5 minutes.

Dissolve salt and remaining sugar in milk. When lukewarm add yeast and blend with 2 cups flour.

Beat very thoroughly. Mix well and beat three minutes. Add remaining flour enough to make a smooth dough.

Knead lightly on board about 5 minutes. Use only enough flour to keep dough from sticking.

Dough should be kept as soft as possible. Grease top and let rise until doubled. Fold dough down again and let rise again until doubled.

To shape: Roll dough into oblong pieces until 1/4 inch thick. Spread with butter, brown sugar and nuts.

Roll as for jelly roll. Cut into 1 to 1 1/2 inch slices. Use muffin tins, add 1/2 spoonful of butter, and a few nutmeats to each pan.

Place rolls of dough, cut side down on each pan. Let rise again until double. Bake about 12 to 15 minutes in a hot (400 to 425-degree) oven.

Remove from pans immediately. Quick Coffee Cake.

- 1/2 cup butter
1 cup sugar
1 egg
1 1/2 cups flour
2 1/2 teaspoons baking powder
1/4 teaspoon salt
1 cup milk
1 teaspoon vanilla

Cream butter and sugar. Add egg and beat until light. Add sifted dry ingredients alternately with milk and beat for several minutes.

Add vanilla and pour into a greased, shallow pan. Spread with topping and bake in a moderate (350-degree) oven 25 to 30 minutes.

Topping: 2 egg whites, 1 cup brown sugar, Nutmeats

Beat egg whites stiff. Fold in sugar. Spread on batter and sprinkle with chopped nutmeats.

Have you a particular household or cooking problem on which you would like expert advice? Write to Miss Lynn Chambers at Western Newspaper Union, 210 South Desplaines Street, Chicago, Illinois, explaining your problem fully to her.

Please enclose a stamped, self-addressed envelope for your reply. Released by Western Newspaper Union.

PATTERNS SEWING CIRCLE

For All Occasions.

NO DESIGN is more successful for an all-occasion dress than the classic shirtwaist! In this button-front version you also have a dress which can be slipped on in a twinkling and a dress which may be effectively decorated with a row of handsome buttons and a stunning belt.

WINGS OVER AMERICA

The romance of aviation—from Kitty Hawk to the Coral Sea

THE INSIDE STORY OF AMERICAN AVIATION

By HARRY BRUNO

"A fascinating account of a romantic chapter in the nation's development... written by an expert."—N. Y. Sun

Here is the stirring saga of America's achievements in the air and a revealing forecast of its future.

WINGS OVER AMERICA is an intimate, personal account of the Wrights, Billy Mitchell, Charles Lindbergh, Jimmy Doolittle—all the pioneers as well as the men and the planes in the thick of today's fighting.

Over 100 rare photos, many never before printed. 416 pages.

Already in 3rd Large Edition At your favorite bookstore or sent postpaid on receipt of \$3.09 to

ROBERT M. MCBRIDE & CO. Book Publishers 116 EAST 16TH STREET, NEW YORK CITY

Gems of Thought

THAT spot of ground pleases me in which small possession makes me happy, and where slight resources are abundant.—Martial.

If you can be well without health you may be happy without virtue.

He that climbs the tall tree has soon right to the fruit: He that leaps the wide gulf should prevail in his suit.—SCOTT

The symbols of the invisible are the loveliest of what is visible.—Byron.

His own estimate must be measure enough, his own praise reward enough for him.—Emerson.

Sequoia Trees

Of the Sequoia trees there are two species, the redwood and the Big-Tree (Giant Sequoia). The redwood will reproduce itself from the stump, and has been known to grow to a height of 80 feet and a diameter of 16 inches in 30 years.

The Giant Sequoia grow to greater height and diameter than the redwood. One tree is 325 feet tall, and measures 35.7 feet four feet above the ground.

Many of the trees are estimated to be 2,500 years old.

Functions of Blood

Our bodies are collections of living cells numbering billions. Each cell carries on its work and functions—it is a tiny factory—and constantly needs supplies and also a means of carrying away waste products.

Fresh, arterial blood carries nourishment from our heart to all the cells; venous blood carries away the waste.

ON THE HOME FRONT with RUTH WYETH SPEARS

IN the good old days when dress-makers were paid according to the number of spools of thread they used, the empty spools were saved until enough had been accumulated to make a corner what-not or hanging shelves.

You will need 60 spools; 12 1/2 feet of wire just stiff enough to bend easily; and three boards of the size desired for the shelves.

NOTE: These spool shelves are from Book 3 of the series of eight booklets which Mrs. Spears has prepared for our readers.

A Bit on the Humorous Side

Thoughtful of Him "My dear, a great doctor says women require more sleep than men."

His Lot "How many times shall I bow?" said the novice entertainer at the battalion variety show.

MAKEUP "Daughter and her beau must have had a terrible quarrel."

Handicapped A company of recruits, having been issued with new boots, went for a route march to "run them in."

He Got It He—My train goes in fifteen minutes. Can you not give me one ray of hope before I leave you forever?

She—Er—that clock is half an hour fast.

Stuck With Him "I once loved a girl who made a complete fool of me."

Man, they say, is made of dust. But some women think it is gold dust.

COLDS' MISERIES PENETRO

For colds' coughs, nasal congestion, muscle aches get Penetro—modern medication in mutton suet base. 25c, double supply 50c.

Worst Slaves The worst of slaves are those that are constantly serving their passions.—Diogenes.

SAVE MEAT WITH TASTY ALL-BRAN MEAT PATTIES

Here's a grand recipe for these times! Delicious, nourishing meat patties—made with Kellogg's All-Bran. Makes meat go further. Gives these patties a tempting, crunchy texture—plus all the nutritional benefits of All-Bran: valuable proteins, carbohydrates, vitamins and minerals. Try it!

Kellogg's All-Bran Meat Patties 1 egg, 1 tablespoon, 2 teaspoons salt, 1/4 teaspoon pepper, 1 cup milk, 2 tablespoons, 1/4 cup catsup, minced onion, 1 cup Kellogg's All-Bran, 1 pound ground beef.

Beat egg, add salt, pepper, onion, parsley, milk, catsup and All-Bran. Let soak until most of moisture is taken up. Add beef and mix thoroughly. Bake in hot oven (450° F.) about 20 minutes or broil about 15 minutes. Remove meat patties from pan. Add some milk and seasonings to drippings. Thicken, slightly to make gravy. Yield: 5 servings, 2 patties each.

Fear of Evil Often the fear of one evil leads us into a worse.—Boileau.

SNAPPY FACTS ABOUT RUBBER

The first known rubber hose was manufactured in England in 1827.

Collapsible rubber boots equipped with paddles, ball-hole plugs, sea-anchor, water, etc., are being produced for fighting U. S. seamen.

An Omaha, Neb., fire salesman needed into court before releasing for parking his car near a hydrant first talked himself out of the \$2 fine, then said two new tires to the judge, two to the cop who arrested him and two to the court attendant.

Production of War tires is definitely tied to the production of reclaimed rubber. It is estimated that the country has refining capacity to process 360,000 tons of reclaimed a year.

Rubber authorities estimate that 900 million tires have been scrapped since World War I.

In war or peace B.F. Goodrich FIRST IN RUBBER

AROUND THE HOUSE

In lieu of anything better, cigarette ashes make a good silver polish.

Don't put furniture near hot radiators; don't put it near open windows; and don't let your house get too dry.

Kerosene will soften shoes and boots that have been hardened by water, and will render them pliable.

Mice have a great dislike of peppermint. A little oil of peppermint placed round their haunts will soon drive the pests away.

Bird Cannot Walk

A curious formation of its feet won't permit the chimney swift to walk upon ground. Nor can it rest in trees like other birds.

Enamel is a glasslike product and is subject to cracking with sudden changes of temperature.

Core and slice apples, put into a baking dish and cover with cream. Add sugar and spices, if desired. Bake for 20 minutes, or until apples are soft.

Cook rice quickly in a quantity of salted boiling water and pour it into a colander. The grains will be tender and whole. But be sure to save the water, to starch any delicate-texture wash goods.

The National Bureau of Standards does not recommend the use of oil paints on concrete, but says that if the concrete is thoroughly dry and remains dry, house paints can be used.

Grease accumulations can be removed from clogging drain pipes by putting baking soda down the drain and then pouring in a little vinegar.

Core and slice apples, put into a baking dish and cover with cream. Add sugar and spices, if desired. Bake for 20 minutes, or until apples are soft.

Cook rice quickly in a quantity of salted boiling water and pour it into a colander. The grains will be tender and whole. But be sure to save the water, to starch any delicate-texture wash goods.

Origins Taken From Past, But Developed Into Typical American

ELIZABETH MacRAE BOYKIN like these, it doesn't hurt to pause and examine things, though it's a stout diet, we approach it through the path of arts and decoration.

For the founders of our country were very profoundly interested in home building and furnishing. We must not make the mistake, either to them or to us, of regarding this interest as something that happened after we were creating an American architecture and interpreting the terms of every-day life into the American way into real life.

Examine their achievements and you will see a very clear picture of what they had in mind for us. We see, even in the mansions of Mount Vernon, an awesome simplicity and a classic dignity. There was a sense of these homes,

to be sure, befitting their station and use, an elegance that needed no froth, an elegance of restraint and poise. Despite the fact that they were frankly mansions of state, they nevertheless created a pattern for homes of more modest means.

True enough this American idiom in architecture and decoration didn't spring into sudden maturity in this new world—any more than our new government was something that happened all of a sudden on these shores. All these things grew out of the past. We took our heritage of art and architecture, as we took our heritage of government, and went on from there developing something that was peculiarly American and our own. That's why the American home, as created by the men who made the American government, was, though flavored with English, French, Roman, Greek and Chinese antecedents, a native of a new world.

## ATTENTION

Horse and Cattle Owners!

Dead animals are essential to help win the war as they are processed into a high grade feed for poultry, cattle and hogs which in return produce essentials which we must have to win a war. Glycerine is taken out of all Fats and Oils from dead animals and this is made into T. N. T. for high explosives, and only Rendering Plants produce these products; as all dead animals buried or used otherwise are a waste to our country. Call your Renderer, Wm. Laabs, to collect your dead animals and you will be paid a fair price for them. Renderers can not pay an inflationary price as there is a ceiling on all of the products of rendering plants. Call at your nearest Phone West Bend 75 or Campbellsport 25F1 and reverse charges when you call. Yours truly, Wm. Laabs, Renderer.

# KEWASKUM HIGH-lights

## SEMESTER EXAMINATIONS

First semester examinations were held on Friday, Jan. 22, and Monday, Jan. 25. Original plans to have them on the 21st and 22nd were postponed due to the low attendance rate because of bad weather. The examinations were written in the assembly, and study halls were provided for those not writing. Those who were not in attendance for the exams, and those who had conflicts, made individual arrangements with the teachers.  
Due to the buses, the pupils remained the entire day at school instead of being excused when not writing as had been the custom on other years.

## NEW PROGRAM

The Kewaskum high school program for the next semester will run on a rotating schedule in order to fit in all the new courses of the boys for pre-induction to the army.  
The new schedule will include basic mathematics for those boys who have never had geometry or advanced algebra, and physical fitness which eleven senior and junior boys are required to take. These courses are compulsory because the armed forces state that pre-training will cut the length of time needed for physical fitness and more time can be spent for technical training.  
This rotating schedule will be used by all schools in the entire nation.

## PRE-INDUCTION COURSES

Principal C. Rose and Mr. Mitchell attended a conference at Milwaukee Teachers' college in Milwaukee Wednesday, Jan. 26, called by State Superintendent Mr. Merritt for a discussion of curricular changes in the schools.  
They decided that all taking mathematics and physics are to remain in the class. Physics will include parts adaptable to the war effort. We must have a physical fitness program for pre-induction courses. A basic mathematics class will be held for boys who have not had geometry or advanced algebra.  
In the afternoon Mr. Heppel, director of physical education in Milwaukee, presented a physical fitness demonstration.

## MEASLES

There are now four cases of measles in our school. Some have returned, some not. The quarantine is for two weeks. If you show any symptoms as a cold, running nose, or temperature, you are to stay at home.  
All students absent for more than three days will be expected to have certificates of health to reenter.

## Twenty-five Years Ago

(1915)  
Mrs. Joseph Grittner sold her home on E. Main st. to Albert Buss of the town of Kewaskum. Possession was given at once.  
Three more from this village enlisted in Co. E, Fond du Lac recently, namely Carl Schaefer, Walter Schaefer and Math. Beisbier, Jr. With the addition of three new members from here it is probable that an auxiliary squad of Co. E, 2nd Wisconsin Infantry will be organized in Kewaskum. Maurice and Adolph Rosenheimer also enlisted recently.

John F. and Albert Schaefer and Wm. Eberle left for Milwaukee, where they joined 35 members of the Overland Co. for a trip to Toledo, Ohio. Their return trip will be made with 35 new Overland cars.  
C. L. Uthus, who conducted a tailshop at Campbellsport, opened a similar shop in the Chas. Schaefer building in this village.  
Arnold Hauerwas, 9, of Milwaukee, grandson of Mrs. Nic. Mayer of this village, is in a precarious state at a Milwaukee hospital as the result of injuries received when run over by an auto. He suffered several broken ribs and other internal injuries.  
Wm. Foerster received a full supply of manure spreaders this week.—Wayne correspondent.

Following is the first list of recruits from this village, published some time ago, who have answered their country's call: Army—Ralph Petri, Chas. Guth, Edw. Backus, Emerson Olwin, Alfred Meinecke, John Meinecke, Walter Matieu, Robert Backus, Leo Harter, Gregor Harter, Dennis McCullough (rejected), Arnold Hanson (rejected), marine corps—Jack Tessar, Edward W. Miller; signal corps—Theodore R. Schmidt, Carl Schaefer, Walter Schaefer, Maurice Rosenheimer, Adolph Rosenheimer; medical reserve—Alten Altenhofen; Red Cross—35 members.

J. H. G. Lieven, chairman, and Geo. E. Schmidt, secretary, officers of the newly organized Washington County Defense Council, deem it their duty to call upon the people of Washington county to respond in whatever need is required to win this great and destructive war. One of the important factors will be united action for increasing and conserving the food supplies of our country. Neglect indicates a lack of patriotism. Men, women, boys and girls are all needed.

Wisconsin neighborhood volunteer leaders are playing an important part in helping their neighbors plan needed adjustments in farm management for the coming year, reports A. F. Wieden of the College of Agriculture.

## With The Local Men Serving Their Country

### TECH. HOWARD SCHMIDT NOW STATIONED IN CHINA

Mr. and Mrs. George H. Schmidt received word from their son, Tech. 4th Grade Howard N. Schmidt of the army signal corps this week that he is now stationed somewhere in China, where he arrived safely recently. He was transferred to China from India, where he was stationed many months. Howard had written previously that he was being transferred to an unknown base. In compliance with the order of the Office of Censorship, Washington, not to publish addresses of men in service overseas to avoid providing information to the enemy, we are unable to print Howard's new address.

### I. T. ROSENHEIMER IS PROMOTED TO CAPTAIN

First Lt. Lehman L. Rosenheimer, son of Mr. and Mrs. L. P. Rosenheimer, was honored last week by being advanced to the rank of captain in the army air corps. Capt. Rosenheimer is still at the Advanced Bombardier Base at Carlsbad, New Mexico, where he is flight commander. He reports that the best bombers received at the field and used for training are the P-31 Lockheed with two 2,000 h. p. engines able to fly close to 4,000 miles per hour.

### REACHES DESTINATION

Pvt. Henry Fellenz, son of Mr. and Mrs. Jac. Fellenz of Route 1, Kewaskum, has sent word to his brother-in-law and sister, Mr. and Mrs. Oscar Firsig here, that he arrived safely at his destination for which he sailed some time ago. However, he did not mention where he is stationed. While in the states, Pvt. Fellenz was stationed at Camp Miles Standish, Taunton, Mass. The address to which his Statesman is being mailed cannot be published.

### FURLOUGH AFTER COURSE

Corp. Myron Belger of the 503rd Sig. Serv. Regt., Fort Monmouth, N. J., arrived home this week to spend a five day furlough with his folks. Mr. and Mrs. Walter Belger, after completing a 12 week course at officers' training school, Corp. Belger will leave again Monday to return to Fort Monmouth for an additional 12 week course.

### GASHOUSE GANG IN FLORIDA

Ten young men from Kewaskum and vicinity, including several members of the Kewaskum Gashouse gang and a few others who have been stationed at Camp Livingston, La., since being inducted into the army last fall, all have been transferred to Camp Carrabelle, Tallahassee, Fla. We have learned that several in the following group have also been promoted:  
Carl Mayer, son of Mr. and Mrs. Joe Mayer, who recently was promoted from private to private first class, sends the following information on a post card:  
Jan. 21, 1943

### I. J. DON AND BILL

You can start sending the Statesman down to Florida now. We just got down here today. I don't know where all that sunshine is that Florida is supposed to have. It's a little cloudy. Can't say much about the camp as yet. It's pretty sandy. No floors in the huts and about 40 men in a hut. That's about all.  
Carl Mayer

### His address is: Pfc. Carl Mayer, Co. B, 110th Inf., A.P.O. 28, Camp Carrabelle, Fla.

Werner Hoerig, son of Mrs. Rosalia Hoerig of Kewaskum, Route 2, who has been promoted to private first class and is now camp bugler, is also at Camp Carrabelle. His address is: Pfc. Werner Hoerig, Co. G, 110th Inf., A.P.O. 28, Camp Carrabelle.

Pvt. Walter Werner, son of Mr. and Mrs. Emil Werner, has been promoted to the rank of corporal, according to a card sent to Gashouse headquarters. His address: Cpl. Walter Werner, 3626642, 110th Anti Tank Co., A.P.O. 28, Camp Carrabelle.

Pvt. Ralph Marx, son of Mr. and Mrs. John Marx, has been advanced to private first class at his new address which follows: Pfc. Ralph Marx, ASN, 2626596, Co. L, 112th Inf., A.P.O. 22, Camp Carrabelle.

Pvt. Paul Kral, son of John Kral, has the following address now: Pvt. Paul Kral, Hdq. Co., 3rd Bn., 112th Inf., A.P.O. 28, Camp Carrabelle.

Pvt. Fredric Siegel, son of Mr. and Mrs. Peter Siegel of the town of Auburn, has this address: Pvt. Fredric Siegel, Med. Det., 112th Inf., A.P.O. 28, Camp Carrabelle, according to a card sent to Gashouse headquarters. However, another card sent later from New Orleans, mentioned that he was being transferred back from Camp Carrabelle to Camp Livingston.

Pvt. Marlin Dreher, son of Mr. and Mrs. Julius Dreher, has this new address according to relatives: Pvt. Marlin Dreher, 3626572, Hq. Co., 35th Inf. Div., Camp Carrabelle.

Following is the address of Pfc. Lester V. Kuehl, son of Mr. and Mrs. John Kuehl of St. Kilian: Pfc. Lester V. Kuehl, 3626603, Co. A, 112th Inf., A.P.O. 28, Camp Carrabelle.

The two others also reported transferred to Camp Carrabelle are Pvt. Matthew Metz, son of Mr. and Mrs. John Metz of Kewaskum, R. R., and Pvt. Wilmer Ramthun, son of Mrs. Ot. Ramthun, Sr. However, their address could not be learned.

### JAMES STRUPP WRITES

The following letter was received from Seaman Second Class Jim Strupp, son of the Roman Strupps, who is at the Naval Training Station Service school, Great Lakes, Ill.:  
Jan. 21, 1943

### Hi Don and Bill:

I just wanted to let you know about a small change in my address. We were moved from Barracks 704 to Barracks 607, L. S.  
I am fine and enjoy the paper very much.

My address now is: James Strupp, Seaman second class, Group 3 S. S., Section M11-54, Barracks 607 L. S., U. S. N. T. S., Great Lakes, Ill.  
Jim Strupp

### TELLS OF LIFE IN AFRICA

In a recent letter written to his family, Staff Sgt. Otto Weddig, son of John Weddig, who is stationed somewhere in North Africa since leaving England, tells of some of his experiences in Africa. The censored letter was received Jan. 16. Here are a few paragraphs from the letter:  
"On Thanksgiving day I was very thankful that I had saved a sandwich from the day before or else I wouldn't have had anything to eat that day—and it wasn't turkey either.  
"On New Year's day several of the other boys and I went to town and got a shave and a good steam bath. It was the first in over a month. Most of the people speak French in these African cities. There are many Arabs here.  
"Had a letter from Howard Schmidt. He is still in India. I will have to write him a few lines.  
"During the day time we are busy working and at night it gets dark too soon to read or write as we do not have lights in our pup tents.  
"If a person likes wine, this is one country he really can get all he wants and very cheap. Most people drink wine instead of water over here as water is rationed."

### TRANSFER PVT. ANDRE

Pvt. James Andre, son of Mr. and Mrs. John Andre, has been transferred to Camp Pickett, Va., after being stationed at Fort Lewis, Wash., only a short time since being inducted. He writes this on a card to the editor:  
Pvt. James Andre  
Co. H, 40th Eng. Reg.  
Camp Pickett, Va.  
Moved again. Am seeing America first before we go over and lick the hell out of the Axis.  
J. P. Andre

### HARTER ON FURLOUGH

Corp. Sylvester Harter of Camp Carson, Colo., arrived Sunday to spend a nine day furlough with his parents, Mr. and Mrs. Jacob Harter, and his wife and infant daughter born recently. Corp. Harter, proprietor of the Kewaskum Frozen Foods locker plant, is camp bugler and mailman. He expects to leave again Monday.

### TRANSFERRED, PROMOTED

Pvt. Bernard D. Horn, son of Mr. and Mrs. Peter Horn, has been transferred from Camp McQuaide, Calif., to Fort Jackson, S. C. He has been promoted to private first class. His address is: Pfc. Bernard D. Horn 36266581, Btry. D, 265th C. A. (HD) A.P.O. 212, Co. of Postmaster, Fort Jackson, S. C.

### PVT. LUBITZ HOME

Pvt. Helmuth Lubitz, Qm. Det. Bldr. 28, Camp Hale, Pando, Colo., is spending a furlough with his parents, Mr. and Mrs. Helmuth Lubitz, Sr.

### HAS CHANGE OF ADDRESS

The following notice of change of address was received from Pvt. Walter Bruessel, son of Jac. Bruessel of the town of Kewaskum:  
Pvt. Walter Bruessel  
Serial No. 36266556  
7th Signal Photo Lav Unit  
Camp Livingston, La.  
Hello Bill:  
Hope you and your family are well like myself. As you noticed above I have a new address so please send my paper as I sure love reading the news of the home town.  
Your friend,  
Walt

### FELLEZ HAS FURLOUGH

PFC. Arnold Fellenz of Fort S. A. Houston, Tex. arrived last week Friday evening to spend a ten day furlough at his home in the town of Kewaskum. PFC. Fellenz left for Texas again Friday noon.

### ADDRESS IS CHANGED

Pvt. Harold Bunkelmann, son of Mr. and Mrs. Wm. Bunkelmann, who left for service last week Tuesday and was sent from Fort Sheridan, Ill. to Fort Sill, Okla. has had a change of address there. The new address: Pvt. Harold Bunkelmann, Btry L, 32 Bn., 1st Regt. F.A.R.T. C., Fort Sill, Okla. He is attending school for surveying.

### KARL ON FURLOUGH

Tech. Cpl. Joseph C. Karl of the Panama Motor Base Depot Regt., Panama, Calif., is spending a furlough at his home in the town of Kewaskum.

### HOME OVER WEEK END

Ellsworth Prost, seaman second class of Great Lakes, Ill. spent Saturday and Sunday on a 30 hour leave with friends at Milwaukee and with his folks. Mr. and Mrs. Arnold Prost, in the town of Kewaskum.

### PVT. BRANDT HOME

Pvt. Melvin "Doc" Brandt of Camp Skokie, Glenview, Ill. spent the week end at the home of his mother, Mrs. Louis Brandt, and daughter.

### HERE OVER WEEK END

Storekeeper Harry Koch of the coast guard, stationed in Chicago, and lady friend, Miss Dorothy Gohlke of Milwaukee, spent Saturday and Sunday at the farmer's home here.

## Ration Notes

1. Beginning this week, rationing of office hours have been extended so that in West Bend the rationing office will be open from 7:30 a. m. until 5:30 p. m. daily including Saturday. Longer office hours will make it possible to accommodate factory workers and farmers in the surrounding areas more satisfactorily.  
2. Fuel oil coupon No. 4 is now valid for 11 gallons. This coupon was originally scheduled to become valid on Feb. 5 but due to the severe cold wave, the date has been advanced. All fuel oil dealers were notified last week as soon as information reached the rationing office.  
3. When making renewals of fuel oil and kerosene rations which were issued for three month periods, be sure to mail in the portion of the coupon sheet with the serial number on it. These renewals can be made by mail. Include the coupon sheet as well as a statement as to the amount of kerosene or fuel oil that you will need for the next three months. Your coupons will be sent to you by mail within a few days.  
4. Gasoline coupon No. 4 in your A book became valid Jan. 22. All No. 3 coupons which were not used by Jan. 22nd are now void.  
5. C books and B books to expire on March 1 may be renewed any time after Feb. 1. In other words renewal of supplemental gasoline books can be made any time within 30 days of the expiration date. In order to renew your supplemental gasoline ration you must have your tires inspected and submit the inspection record together with a special renewal blank. This renewal blank is obtainable after Feb. 1 from your employer, from the county treasurer or from the Hartford and West Bend ration offices. It is suggested that you apply for your renewal as soon as possible.  
6. The ration board office emphasizes that all applicants for tires must turn in either the tire inspection record or certificates of necessity with all tire applications. Failure to submit tire inspection record when applying for passenger car tires or certificate of necessity when applying for truck tires will delay action by the board until these records are submitted.  
7. Sugar coupon No. 10 is good for three pounds of sugar until midnight Jan. 31. On Feb. 1, coupon No. 11 becomes valid and will be good for three pounds of sugar until March 15.  
8. Coffee coupon No. 22 is good for one pound of coffee until midnight Feb. 7.  
9. Ration book No. 2 will be issued sometime the latter part of February. Full details will be given in advance of registration dates. It will be absolutely necessary to have war ration book No. 1 in order to be issued book No. 2. If for some reason you still do not have book No. 1, get in touch with your nearest ration board office immediately to learn the necessary steps to be taken. Do not delay!  
10. The county traveler, Miss Miria A. Pick, contacts the various areas throughout the county as shown in the schedule below. Residents throughout

the county are urged to check this schedule in order to eliminate as much as possible unnecessary driving in connection with rationing needs.  
Monday—9:30 a. m. to 12 noon, Germantown insurance hall; 1:30 to 4 p. m., Richfield, Laubenhelm's garage.  
Tuesday—9:30 a. m. to 12 noon, Jackson village hall; 1:30 to 4 p. m., Newburg, school house.  
Wednesday—9:30 a. m. to 12 noon, Slinger village hall; 1:30 to 4 p. m., Hartford, council of defense office.  
Thursday—9:30 a. m. to 12 noon, Kewaskum village hall; 1:30 to 4 p. m., Allenton, Zimmels hotel.

### FARM AND HOME LINES

A good milk house makes it easier for farmers to produce the kind of milk they want for their quality program, workers at the University of Wisconsin report.

Women are now buying more low-heeled than high-heeled shoes. Reason is, they're filling positions formerly occupied by men and doing more heavy and tiring work in war industries, where they need comfortable shoes.

A small farm potato patch, producing abundantly, will save money and bolster the country's food supply by reducing the amount that must be bought on the open market, vegetable specialists at the College of Agriculture point out.

## What You Buy With WAR BONDS

It is imperative that the ships lanes be kept free of ice. With American troops occupying Iceland and the Navy using the northern route for transportation of supplies to Russia, ice breakers are essential to naval operations. The ice breaker is a specially constructed ship with heavily armored bows and powerful engines that crush the ice floes rather than ram through them.

Ice breakers of the Kichapoo class operating in the North Atlantic cost approximately \$10,000,000. You can help our Navy build these ships by investing at least ten percent of your income in War Bonds every pay day. Enroll in the payroll savings plan or apply at the nearest bank or postoffice. U. S. Treasury Department

ON PAY DAY, BUY BONDS

## OUR DEMOCRACY

PREPAREDNESS AND DEFENSE  
BEGINNING WITH THE MUSKET BEHIND THE DOOR OF THE CABIN IN THE WILDERNESS, AND THE VOLUNTEER FIRE DEPARTMENT IN THE NEW, GROWING TOWN, PREPAREDNESS HAS BEEN NATURAL TO AMERICANS—ONCE THEY KNEW THEY NEEDED IT.

COAST GUARDS—FOREST RANGERS—PUBLIC HEALTH WORKERS—FIRE INSURANCE—LIFE INSURANCE—THE POLICE—WITH THESE WE ARE READY TO AVERT, OR IF NEED BE, WITHSTAND EVIL DAYS, AS WE NOW PREPARE WITH TANKS AND PLANES AND HOWITZERS.

## United Nations Are Blasting The Axis Powers As Defense Plants Are Working 24 Hour Shifts

(1) This mountain of machines operated by women "Somewhere in Canada" eject 303 Brass cartridge cases. (Photo WIE, Ottawa). (2) This girl sits on the floor as she installs Copper cables on a basic trainer. (Photo "Littie Aircraft"). (3) "Somewhere on the Pacific Coast" Norma Rae is reaching for a high note as part of the U.S.O. entertainment. (Photo Acme). (4) Australian women like those of other United Nations are working "Harness Tubes. A perfect joint has to be made. (British Official Photo).  
PRODUCTION OF Ships, Planes, Tanks, Ammunition and other war armament by the United Nations has long since exceeded those of the Axis Powers. Soon the United States will be producing more equipment than Germany, Italy and Japan. The great Copper mines of this country and South America are working three eight-hour shifts so that war materials for our armed forces and those of the United Nations will have a sufficient supply of the red metal to keep them cranking blast until the Axis Nations are utterly crushed. Millions of pounds of Copper and Brass are being used each month in this country while many other millions are being shipped through Lend-Lease to other of our Allies. Three million women are working in War Industry plants while more than twice that number are employed in England, Russia, Canada and Australia are also employing many women.
