Expect 250 Servicemen at Bar-N Benefit Party

About 250 servicemen are expected to attend the gala party for the benefit of the men and women from Kewaskum serving their country's armed forces to be given at the Bar-N Ranch this Saturday evening, July 24. The servicemen are members of a national guard unit who will be stationed at Mauthe Lake nearby where they are to go on maneuvers. They are expected to pass through Kewaskum Saturday morning. All proceeds of the dance, bar and side amusements will be evenly distributed to provide gifts for the Kewaskum servicemen.

The various businessmen serving on committees have contributed freely, without compensation, of time and service, and the management of the Bar-N Ranch has donated its facilities to make this one of the season's most gala affairs. Tickets are now on sale for the nominal sum of 50c and can be purchased from various businessmen and other volunteer sellers. The Weis Harmonizers will provide both modern and old time music. Tickets are selling well and a large crowd is expected. Everyone should support this party—don't let the boys down.

The entire proceeds will be given to the committees in charge of sending gifts to our boys. Three war stamp prizes of \$5.00, \$3.00 and \$2.00 will be given as door prizes. Five dollars' war stamps goes to the one who sells the most advance tickets. Tickets will be collected by noon Saturday. To get to the Bar-N from Kewaskum turn right on Highway 28, then left on blacktop and follow same to ranch.

The surviving children are Jennie (Mrs. W. Davis) of Bremerton, Wash. Mrs. Martha Stage of Milwaukee, William, Emma and Mrs. Ella Martin of this village. Also surviving are one daughter-in-law, one son-in-law, 14 grandchildren, three great-grandchildren and one sister, Mrs. Katie Nordhaus, of this village.

Funeral rites were conducted on Monday, July 19, at the St. Lucas Evangelical Lutheran church at 1:30 p. m. The Rev. Gerhard Knies officiating. Interment was made in the congregation's cemetery. Mr. Bunkmann was a past officer of the St. Lucas congregation.

Miss Bath Married to Soldier; Others Wed

Mixed flowers decorated the altar of Holy Trinity church for the wedding of Miss Dolores Bath, daughter of Mr. and Mrs. Math. N. Bath of Route 1, Kewaskum, and Tech. Cpl. Stanley A. Brodzeller of Camp Atterbury, Ind., son of Mr. and Mrs. Joe Brodzeller of Route 2, Kewaskum. The Rev. F. C. La Bovi read the military nuptial service at 9 a. m. Wednesday, July 14.

Given in marriage by her father, the bride wore a white sheer silk chiffon gown trimmed with lace and having a sweetheart neckline. Her fingertip length veil was held with orange bouquets and she carried an arm bouquet of white staphanotis and swansonia. The bride was attended by her sister, Miss Alice Bath, as maid of honor. She was also attended in a white silk chiffon gown with matching head veil. She carried white feverfew and red roses. The bridesmaids were Mrs. Alex Pesch, sister of the bride, and Mrs. William Dricken, sister of the groom. The bridesmaids were dressed alike in blue silk chiffon, trimmed with pink and wore matching head veils. They also carried arm bouquets of red roses and feverfew. Little Miss Mary Ann Bath, sister of the bride, was flower girl. She wore a street length white crepe dress.

The bridegroom was attended by his brother, Sylvester Brodzeller, as best man and Clarence Bath, brother of the bride, and Alex Pesch, brother-in-law of the bride, were groomsmen. The ushers were Harold Bath, brother of the bride, and Cornelius Brodzeller, brother of the groom.

A reception was held at the home of the bride's parents at 4 o'clock in the afternoon for 75 guests. The home was decorated with blue and white crepe paper and a pink center piece. In the evening a wedding dance was held at the Lighthouse ballroom.

The bridegroom left Saturday, July 17, for Camp Atterbury, where he is stationed with the army. His bride remained here to make her home with her parents while he is in service. She is employed at the Enger-Kreaz company in West Bend.

The bridegroom left Saturday, July 17, for Camp Atterbury, where he is stationed with the army. His bride remained here to make her home with her parents while he is in service. She is employed at the Enger-Kreaz company in West Bend.

Car Sideswipes Truck, Then Hits Tree Headon

Four young people very luckily escaped serious injury at about 7:30 a. m. Wednesday, July 21, in a traffic accident on Highway 55 on the curve near the Wm. Bruhn service station just north of Kewaskum, when a car driven by Herman Ringhand of Waukegan sideswiped a semi-trailer truck owned by the Steffe Freight Lines of Wausau. The driver then lost control of his auto and ran off the highway, striking a tree headon on the west side of the highway about 2 1/2 feet from where the truck was sideswiped, according to Deputy Sheriff Carl F. Schaefer of this village, who investigated.

Passengers in the car with Ringhand were his brother, Arlie, and two Campbellsville girls. The driver gave the names of the girls as the Misses Hoffmann and Enfelt but failed to report their first names. Both of the Ringhand youths are in service and are home on furloughs. They were driving north at the time of the accident.

The Hoffmann girl sustained slight bruises and was treated by Dr. R. G. Edwards. All of the other occupants were shaken up but uninjured. The front end of the auto was badly damaged. The truck escaped damage.

Thanks Local Churches For Red Cross Donation

A letter of appreciation was received by the Rev. R. G. Beck from Henry O. Schowalter, chairman of the West Bend chapter, American Red Cross, for the recent contribution made by the local churches to the Red Cross. The money was collected at a lecture given at the Peace Ev. and Reformed church by Dr. Pierce Beare, missionary to China, May 30. The people of all the local churches attended the lecture and contributed towards the cause. Mr. Schowalter's letter follows:

July 5, 1943

Rev. R. G. Beck
Kewaskum, Wisconsin

Dear Reverend Beck:

In behalf of the West Bend chapter, American Red Cross, I want to express to St. Lucas Lutheran church, Holy Trinity Catholic church and Peace Evangelical and Reformed church, all of Kewaskum, the sincere appreciation of both the local and national chapter for your contribution of \$35.25 to help the work of the Red Cross in the war emergency field.

Your Red Cross is today assisting those in need in every corner of the globe and your contributions may be assured that it will be used to alleviate the suffering of those less fortunate than we. It is particularly gratifying that this contribution comes as a result of interdenominational action. The Red Cross renders its services with that same spirit—regardless of race, color or creed.

Your community has also responded wholeheartedly to the many activities of the Red Cross in other fields and to the many citizens who have given of their time and efforts I extend our appreciation.

Very truly yours,
Henry O. Schowalter,
Chapter Chairman

LUNCHES AT SKUP'S TAVERN

Fish fry every Friday night and roast spring chicken lunch served every Saturday night at Skup's Tavern, Kewaskum. Visit Skup's.

MOVE HERE FROM MILWAUKEE

Mrs. Arnold Oppermann and children moved to this village from Milwaukee last week and are occupying the upper flat in the Mrs. Otto Haebeck home on East Main street. Mr. Oppermann is in the army.

LUNCHES AT HEISLER'S

Fish fry every Friday night and special sandwiches served every Saturday evening at Louis Heisler's tavern.

NOTICE

SUBSCRIPTION PRICES GOING UP

Increasing production costs, the increased cost of materials, and existing conditions make it necessary for us to advance the subscription prices of the Kewaskum Statesman. Effective August 1, the rates will be \$2.00 for one year, \$1.00 for six months and 50 cents for three months. The single copy price will remain at 5 cents.

All new subscriptions and renewals paid before Aug. 1 will be at existing prices of \$1.50 a year and 75c for six months. All subscriptions paid in advance before Aug. 1 will be at the old rate of \$1.50.

THE PUBLISHERS

War Savings Staff, Victory Fund Merged

Robert H. Rolfs has been appointed executive chairman of Washington county for the war finance committee of Wisconsin. This appointment was made by Walter Kasten who is now state chairman of the war finance committee.

Throughout the entire nation the war savings staff and the victory fund committee which operated as separate units have been merged into one unit known as the War Finance Committee.

Operating under the U. S. treasury department. The organizations, as far as name are concerned, that is the war savings staff and the victory fund committee, are dissolved in this new organization but in affect members of both organizations are now part of the war finance committee under one head.

The war finance committee will have complete charge of all war financing covering all issues authorized by the treasury department. The manner of operations of the committee will be practically the same as the methods of operations of the war savings staff and the victory fund committee. In organization, practically the same members in Washington county will be working on the war finance committee as formerly worked on the other two committees.

As a new organization, three divisions have been created: 1. The banking division which will be responsible for the solicitation of the corporations and larger individual accounts; 2. The industrial division which will have charge of the payroll deduction plan; 3. The community division which will be in control of community events such as bond rallies and similar occasions and far more important, a house to house or farm to farm solicitation.

Mr. Rolfs has appointed three divisional chairmen to handle these three divisions. Louis Kuehthau will serve as divisional chairman in the banking division; Walter Malzahn will serve as divisional chairman in the industrial division and Harold O. Leiser will serve as divisional chairman in the community division.

All former city, village and township organizations, including chairmen and personnel of the committees will continue to operate just as before. So, in reality, after all is said and done, the only change that is being made is the change in the name, as far as the organization in Washington county is concerned.

Pfc. Harter, Wounded, Awarded Purple Heart

Pfc. Ray Harter, 28, son of Mrs. Joseph Harter Sr. of Wabeno, a nephew of Jacob and Gregor Harter of the town of Auburn and grandson of the late Mr. and Mrs. John Harter of this village, has been awarded the Purple Heart. Harter, one of four brothers in the service, was wounded Dec. 28 in the battle of Buna. He has been in a hospital in Australia for five and a half months. The young man has many relatives in this vicinity and is quite well known here.

The other brothers in service are: Ambrose, stationed at Camp Chaffee, Ark.; Lester, stationed at Detroit Mich.; and Harold, stationed at Kodiak, Alaska.

Three other brothers live in Milwaukee. They are Herschel J., 4464 N. 63rd st.; Joseph Jr., 5517 N. 47th st.; and Sylvester, 2356 N. 29th st. Harter also has three sisters, Mrs. Marian Noffke and Helen Anne, living in Milwaukee, and Patricia, living with her mother at Wabeno. Ray Harter's wife, Lois, lives at Oak Park, Ill.

Nurse's Aide Corps to Begin Course Aug. 15

Appointment of Mrs. Henry O. Rexner of West Bend as chairman of the Red Cross committee on volunteer nurse's aides of that city was announced last week by Henry O. Schowalter, secretary of the West Bend Red Cross chapter. Mrs. Leonard Thorson, registered nurse, has been appointed Red Cross instructor for the volunteer nurse's aide corps.

Other members of the West Bend nurse's aide corps committee are Dr. A. H. Heidner, Mesdames E. R. Vornholt, Kathryn H. Huber, John Rilling, Austin Hancock, John Bushman, Warren Cooley, Robert Lake, Dr. H. Meyer Lynch, Sister Josephine and Sister Loretta of St. Joseph's hospital, and Miss Clara Jaehnic.

Plans are being made to begin a new nurse's aide intensive 80-hour instruction course on about Aug. 15. Already the first nurse's aide class at West Bend is completing its course of instruction.

"I cannot over-emphasize the value of the work of the nurse's aide corps. With our present shortage of trained nurses we must depend on the help of others. Every woman who is able to give her time to this work is doing her patriotic duty."

Dr. A. H. Heidner
Chief of Emergency
Medical Service

Instruction and details regarding the graduation exercises of this first class will appear in a later issue of this paper.

The first part of the course will be given at St. Joseph's hospital at West Bend starting about Aug. 15, and will be followed by practical work in the hospital, which is acting as a training center.

American women between the ages of 18 and 50 (age limit may be extended by the committee), physically fit and able to give a minimum of 150 hours service per year without pay should apply for information about the volunteer nurse's aide corps to Mrs. Henry O. Rexner, chairman, or any of the committee members, and if interested, registration headquarters are at the Red Cross rooms in the library building in West Bend.

Nurse's aides, by undertaking a number of necessary hospital duties will release the professional nurse for the more technical work for which she has had special training. By helping to maintain our essential civilian health services, they will be doing a job of real value to our national war effort.

Mrs. Thorson is an able instructor in the work of nurse's aides, having graduated from Luther hospital, Eau Claire, Wis., and having been a private duty nurse in that city.

MRS. HERMAN HOME SOLD

The home and property of the late Mrs. Mary Herman on Fond du Lac avenue was sold this week by the estate to Mr. and Mrs. Ed. Groszklaus of the town of Farmington, Route 2, Kewaskum. Mrs. Harold Riley of West Bend, a daughter of Mrs. Herman, is executor of the estate. The new owners will not move into the home but will remain on their farm at present. The present tenants, the Marvyn Schaefer family and Mrs. Bertha Casper, will continue to occupy the home.

FIREMEN'S DANCE

The Beechwood fire department will sponsor a dance in the firemen's new hall at Beechwood on Saturday, July 21. Music by John Klinka's orchestra furnishing modern and old time music. Admission 40c, including tax. Refreshments sold. All are invited.

UNDERSTANDING REACHED
IN WEST BEND OPA MATTER

The executive committee of the Washington County Council of Defense, after a review of events leading up to the attempted gasoline check-up in West Bend on July 10, concluded that there was a misunderstanding between city officials and OPA officials. As a result of discussion between the executive committee, mutual co-operation has been pledged and a full understanding has been reached as to the procedure to follow in the event of future check-ups.

Alice Kurtzweil, 14, Drowning Victim at Lake Bernice Sunday

Alice Kurtzweil, aged 14, of the town of Germantown, was drowned Sunday afternoon, July 18, while in bathing at Lake Bernice, near Campbellsport, better known by its former name, Schrauth's Pond. She was at the lake with friends and had gone in bathing shortly after dinner. A Boy Scout, who also happened to be at the lake, saw her struggling in the water and went to her rescue. He was clawed and driven off by the frantic child, being unable to pull her out of the deep water and save her. The body was recovered an hour later. A Fond du Lac rescue squad was summoned. It is reported, but was unable to revive the girl.

Miss Kurtzweil, whose parents are both dead, had been making her home with an aunt in the town of Germantown about two miles north of Menomonee Falls. Surviving her are relatives, including her grandmother and four brothers, two of whom are in service.

The remains lay in state at the A. A. Schmidt and Sons funeral home, Menomonee Falls, Tuesday night and were taken to Edgar, Wis. on Wednesday, where services were held on Thursday morning, July 22, at the Warner Funeral home.

This was the second drowning in a nearby lake within two weeks. James Hollis, Jr., 29, of Milwaukee, drowned in Lake Fifteen in the town of Auburn on Sunday, July 4. William, 7, son of Mr. and Mrs. Elmer Peters of Big Cedar lake also drowned in that lake on July 5.

MUST ENDORSE GAS COUPONS WHEN NEW BOOKS ARE ISSUED

Motorists and other gasoline users, beginning July 22, must endorse in ink all coupons as soon as any new ration books are issued to them. Raymond S. McKeough, regional OPA administrator, announced this week. Likewise, coupons already in their possession had to be endorsed by July 22 if the necessary endorsements were not made before then.

Most of the new coupons will be endorsed on the face instead of the back, McKeough disclosed, space for endorsement on the face already having been provided. Persons with old coupons which were to be endorsed by July 22 made the notations on the back, as previously.

The information to be noted on the face of the new "A," "B," "C," "D," and "T" coupons will remain the same as before, the license number and the state of registration for the vehicle for which the ration was issued.

The endorsement procedure was changed as a further protection against misuse of gasoline coupons, and as a safeguard for motorists where ration books may be lost or stolen. McKeough pointed out. He warned that failure to make the proper endorsements by July 22 may result in loss of the ration.

Tavernkeepers of County Send Cigarettes Overseas

Through the efforts of the Tavern League of Washington County, every tavernkeeper in the county was solicited for donations for cigarettes to be given to the boys serving in the armed forces overseas. The response of every tavernkeeper was very generous and the drive netted the boys 28,000 cigarettes or 14,000 packs of free cigarettes.

A meeting of the tavern league held Monday, July 12, at Hartford was attended by 50 members, who heard a very interesting talk by Paul E. Jorgensen, general counsel of the state tavern league, after which all took part in a round table discussion on this new closing law.

The tavern league is putting boxes on all bars in the county for smokers for the boys in service, according to Elmer Peters, Big Cedar lake, secretary-treasurer of the county league.

ODT REPRESENTATIVE TO MEET WITH TRUCK OWNERS

For the convenience of commercial motor vehicle operators in West Bend and vicinity, a representative of the Milwaukee office of the office of defense transportation will again be in West Bend with headquarters at the Bank of West Bend building on Friday, Aug. 20. The representative was also in that city last Friday.

Truck owners who have been allotted insufficient gasoline on their certificates of war necessity are urged to get in touch with this field representative.

Owners of trucks used in the transportation of farm products and supplies should continue to apply through the county farm transportation committee of the USDA war board. The committee in Washington county is located in the Bank of West Bend building.

LEAGUE STANDINGS

TEAM	W	L	PCT
Dundee	5	1	.833
St. Michaels	4	2	.667
St. Bridgets	4	3	.571
St. Killian	3	3	.500
Kewaskum	2	4	.334
Ashford	0	6	.000

RESULTS LAST SUNDAY

Dundee 5, Kewaskum 4
St. Bridgets 9, Ashford 8
St. Killian 4, St. Michaels 3

GAMES THIS SUNDAY

St. Killian at Kewaskum
St. Michaels at Ashford
Dundee at St. Bridgets

Kewaskum was nosed out at Dundee by the league leaders Sunday, 5-1, dropping the team to fifth place. All of Dundee's runs were unearned, resulting from Kewaskum's streak of errors. The local team had many men left on the bases. This Sunday St. Killian comes to Kewaskum.

Engineers Hit the Enemy First

"American forces have landed at —" Behind this commonplace phrase lies months of training and preparation on the part of the amphibious engineers—the first troops to land in an assault on enemy shores. The engineers are a streamlined unit thoroughly trained in the operation of small boats and in the demolition of enemy defenses. Most of the men picked for this service were small boat operators, boatbuilders and fishermen in civilian life. They are now the vanguards of attacking U. S. forces and specialize in carrying the fight to the enemy.

Landing techniques are demonstrated by soldiers at Camp Johnston, Florida, where amphibious engineer units are trained by a staff commanded by Brigadier General David A. Ogen. Above, a craft has been beached. The engineers run to their objectives, usually barbed wire entanglements, pillboxes, or other obstacles to successful landing of attack troops and heavier equipment which follow the engineers. A new technique in climbing over barbed wire entanglements is shown at right. Some of the men form a ladder of rifles on which those following quickly climb and hurry on to their objectives.

As bullets whine and charges explode amphibious engineers make a landing to establish a beachhead during maneuvers. Note the explosion at right center nearly concealing the landing boat.

Success of American landing operations were brilliantly shown when the Japs were swept from the Aleutian island of Attu. Above, two members of the navy shore patrol aid in pulling an ammunition cart over a ridge on Attu. Lower left, an American soldier studies Japanese graves on Attu—the end of most of the Japs who resisted Americans in this sector. Very few Japs were captured. They either died in battle or committed suicide.

A loud speaker is used to carry instructions to a landing boat at Attu. The Attu campaign was a combined army and navy operation.

Scores of soldiers pour from landing boats onto the black volcanic sand of Massacre bay, on Attu. This is the southern landing force.

Recent Allied Success in Undersea War Is Result of Coordinated Campaign

Improved Weapons, Better Use of Old, Defeating Subs

"The submarine was utterly defeated in May," Prime Minister Churchill stated triumphantly in a recent address. The first lord of the admiralty amended this by announcing that the British navy had set a new record in that month for U-boat sinkings, and that losses now exceeded German production.

Thus the gravest threat to Allied success, the submarine campaign against shipping, is being answered, as it was in World War I. Success is coming faster than anyone dared hope a little while ago. In April Admiral King of the U. S. navy predicted that the submarine danger would be brought under control within four to six months. Secretary of Navy Knox a few days later said that the increasing numbers of destroyers now guarding convoys would soon have their beneficial effect.

The peril to the "bridge of ships" carrying war supplies to Europe and the Orient is not being met by any one "secret weapon." Destroyers, airplanes, cannon, radar, helicopters, balloons and many other war machines are being employed in combinations best adapted to the task.

The change for the better has come rather suddenly. Only last January the tremendous losses in shipping tonnage were causing extreme concern in Allied war councils. Almost a million tons a month were being sunk last year. Charles E. Walsh, chief of the maritime procurement division, has revealed that over 11 million tons went down in the first year of war. The Merchant Marine reports that nearly 5,000 men have been lost in the last 20 months. Until very lately, there was little light through the dark clouds.

Ships Getting Through. Now the great fleets of merchant ships are arriving in Allied ports with small losses. The protection devised by the navy is succeeding. A convoy, which may consist of hundreds of ships carrying ammunition, food, plane parts, oil and thousands of other war materials, as well as troops, offers many tar-

gets for enemy submarines and torpedo planes. Destroyers, ranging along the flanks, and ahead and behind the convoy, are the usual defenders of the slow and helpless freighters, tankers and troopships. But the "greyhounds of the sea" have a lot of auxiliaries under the new system.

One of these is the corvette, a small merchant ship converted to a light warship. It can function much as the destroyer does, although it does not have its speed or maneuverability. Then there is the aircraft carrier, which is accompanying large convoys lately. Planes from the carrier can patrol a wide circle and prevent any enemy surface craft from surprising the convoy. That new marvel, radar, can locate enemy planes and submarines with amazing accuracy, in fogs or at night. Destroyers are being equipped with radar now. Listening devices to detect submarines by the pulsations of their propellers, have been in use for some time, so the officers in charge of the defense of a convoy have several means of knowing when the enemy is approaching.

Only about 500 miles of the voyage between the United States and British ports is beyond the range of land based aircraft, according to Secretary Knox. The patrol planes of the Allies can protect shipping within an arc six or seven hundred miles in radius.

Ships Mount Heavy Guns. Convoys are so large, however, that despite all sorts of armed guardians, some ships will be attacked, and perhaps damaged or sunk. Often too, a single merchant ship has to travel without escort to enter a small port off the regular run, or for a number of other reasons. Merchant ships have long been accustomed to mount some cannon in wartime, but against modern enemy craft, ordinary seamen have little chance to use their weapons effectively. The maritime commission has ordered every American ship to carry a five-inch gun. A crew from the navy mans the piece, which is deadly to enemy submarines and destroyers, or any vessel with thinner armor than a cruiser.

Ships are protected against aircraft by anti-aircraft guns and 50 caliber machine guns. Expert navy crews also handle these ordnance. Submarines and planes are reluctant to get too close to a ship that can defend herself, and torpedoes, bombs and gunfire aimed from a distance are less accurate.

A barrage balloon is now being added to the defensive equipment of merchant ships. The balloon trails steel cables when in the air, thereby preventing a divebomber plane from getting too close to the ship, or from running along it and strafing the crew with machine gun bullets. The gas bag is raised and lowered by a cable attached to a winch near the stern.

Last month the maritime commission and the War Shipping Administration decided, after a successful demonstration, that helicopters can be employed to give added protection to individual ships. Every new Liberty model ship will carry a helicopter, according to present plans. As these peculiar aircraft can rise and descend almost vertically, they can operate from a small area on the deck of a vessel. Whether the ship is part of a convoy or sailing alone, the helicopter can hover around, watching for the enemy.

Some Sinkings Inevitable. Ships will be damaged and sunk, however, despite all defensive precautions and efforts. Some are wrecked by storms, or are smashed on rocks or icebergs. Even when in a sinking condition, nevertheless, a ship may sometimes be saved by some of the safety features that are part of a modern ship. If the ship must be abandoned, other emergency features help to save the lives of the crew.

Many safety devices have been added, and old ones have been improved. Several have been built into the ship itself. The maritime commission found that men were hurt frequently in the dark passages when the lights went out after a torpedo had struck. Luminous-paint signs now mark all passages and exits, and directions point to ladders and indicate the switches of emergency lights.

A HELICOPTER LANDS—Settling slowly on the space marked out for its landing "field" on the deck of a Victory ship, this helicopter makes a perfect landing. This peculiar aircraft can rise and descend almost vertically, and can hover over the water, spotting submarines.

Luminous-paint signs now mark all passages and exits, and directions point to ladders and indicate the switches of emergency lights. FOR SHIPWRECKED SAILORS—The boat has built-in air tanks that render it non-sinkable, and there are grab-rails fastened to the bottom, so that seamen can hang on if it overturns.

FOR SHIPWRECKED SAILORS—The boat has built-in air tanks that render it non-sinkable, and there are grab-rails fastened to the bottom, so that seamen can hang on if it overturns.

WHY SUBS SHY AWAY—This extremely efficient big gun has earned the respect of submarines and enemy surface craft. Every Liberty ship is defended by one of these five-inch naval rifles, manned by an expert navy gun crew. Only a cruiser can stand up against the shells. Fifty caliber anti-aircraft guns, also fired by navy specialists defend a ship from air attack.

—Buy War Bonds—

Crash panels must now be put into every door, by coast guard regulations. These are sections of thin wood within every door, that can be smashed out by trapped crewmen, leaving a space big enough to permit escape.

To preserve the nerve centers of a ship as long as possible, the pilot house and radio shack are covered with reinforced concrete and steel capable of withstanding submarine shelling.

Latest in Life Boats. Finally, when seamen have to abandon ship, the latest and best in life-saving equipment comes into play. By orders of the coast guard, the life boats are always kept swung out and clamped against canvas-covered cushions. The ropes holding the boats are secured by a single "pelican" hook which can be tripped by simply releasing a catch allowing the boat to be lowered into the water in a minute or two.

At the same time a boat is lowered, a life net, kept rolled up against the side of the ship just before

LIFE RAFT—Six research men are shown testing the new rubber life raft under actual shipwreck conditions for the Maritime Commission. They were "cast adrift" near Cape Fear, N. C., to study conditions of survival at sea, and to report defects and possibilities for improvement. Merchant ships carry these rafts in addition to the lifeboats.

Water rations on each boat have been increased from three to ten quarts per person. Fourteen ounces each of pemmican, malted milk tablets, chocolate and type C army ration biscuits must be included in every boat for each person.

Rubber lifesaving suits are issued to each member of the crew. Besides keeping a man dry while in the water, the suits give protection against exposure in a lifeboat or raft. Attached to the shoulder of each suit is a jackknife with which a man can free himself if he is entangled in ropes, and a police whistle and a red signal light to attract the attention of rescuers.

So the perils to Allied shipping are being combated successfully by combining all known resources of warships, planes, guns and radio. The war goods are getting through. The ships are arriving safely. But when a ship does go down the brave seamen have a much better chance of living to sail again than ever before, thanks to ever better equipment.

Smokes and the SOLDIER. Is it true that a soldier is always hungry? Yes—up to a point. But the Quartermaster Department has found that some soldiers, particularly new recruits, actually don't eat enough.

The Army mess table is exactly like a football team's training table. The food served there is carefully planned to aid in the physical development of the soldier. And the Army has discovered certain little ways to increase Johnny Doughboy's appetite.

The Army has found it can add to a soldier's enjoyment of his food—and therefore increase his consumption of all those carefully prepared vitamins, minerals, and proteins—if he is allowed to smoke during meals. Measured tests run by the Quartermaster's Department show that food consumption actually increased by 5% when soldiers were permitted to smoke cigarettes at the mess table.

"Smokes," of course, play a prominent part in many phases of the life of a soldier. Whenever you see a news photo of soldiers at ease, you're apt to see them enjoying a cigarette. Particularly among American troops overseas, cigarettes—real American cigarettes—are highly prized and almost never present in sufficient quantities.

What kind of cigarettes do Uncle Sam's fighting men prefer? Well, records show that the favorite cigarette is Camel. That is true not only with men in the Army, but with Sailors, Marines, and Coast Guardsmen as well. Sales records from the service men's own stores—Post Exchange, Sales Commissaries, Ship's Service Stores, Ship's Stores, and Canteens—show that Camels are first with men in all branches of the service.

ON THE HOME FRONT

With RUTH WYETH SPEARS

THESE pot holders proved to be "best sellers" at a bazaar. They were made by a group of women who resolved not to produce a single holder in a dull color or combination. That is probably the secret of their success.

Most of the materials came from scrap bags but a few pennies

were spent for bias bindings and packing to accent tones in the wide assortment of prints. Pieces of cotton flannel or sheet wadding were used for interlining. The material was cut six inches square and the corners rounded so that the machine binder could be used for the edges. The backing, interlining and top were basted together

er before quilting them by sewing across from side to side, then from corner to corner. A loop hanger was stitched in the binding.

And Nary a Drop Was Spilt Along the Way. A young Scottish couple had moved from their country cottage into a modern house. All their goods and chattels arrived safely—with exception of the rain tub.

After the wife had pleaded with her husband that this was an asset to her household, he said he would go and get it that evening. As he had not arrived home at 12:30 a. m. his wife became worried. At 1:15 a. m. the back gate slammed and there was a dull thud. In a few seconds the door opened to reveal a disheveled and perspiring man, who said: "Ee, lass, 'A've 'ad job wit' 'ooob. 'The didn't tell me it were full o' watter."

SMOKES and the SOLDIER. Is it true that a soldier is always hungry? Yes—up to a point. But the Quartermaster Department has found that some soldiers, particularly new recruits, actually don't eat enough.

The Army mess table is exactly like a football team's training table. The food served there is carefully planned to aid in the physical development of the soldier. And the Army has discovered certain little ways to increase Johnny Doughboy's appetite.

Kathleen Norris Says:

Difficult Children

By Lynn Chambers

Illustration by Douglas

Don't punish your child, especially a child who is six or more; don't punish him more than you would attempt to punish the friend who inadvertently destroyed a table or broke a teacup of yours, or who forgot a date or said a nasty or unkind thing.

CHILDHOOD PROBLEMS

The change from babyhood to childhood is not made overnight. This transition is sometimes a period of unhappiness for the child and anxiety for the mother unless mother is capable of understanding and handling the situation. The competition presented by an infant for the attentions of parents sometimes causes emotional upsets in young children. Kathleen Norris passes on the experience of one mother who met and solved this problem with the aid of a child psychologist. Punishment is not the way to lead a child to happiness and success in this bewildering world.

us to see if he's awake? Will you hold him while I go for his blanket? Also always refer to Jackie when speaking of him to callers. "Jackie, do you suppose he'd cry if I brought him down? You know he behaves better for his big sister than he does for me."

"Secondly, I was to buy the new bed and make it up, telling Jacqueline that she could sleep in her own crib as long as she liked, but being sure to call the bed to her small friends' attention, and tell them that when she felt big enough to move into it she was to have a surprise or a story every night for a week, to celebrate. How many of them had real beds to sleep in? Poor little Keith had to sleep in a basket, and then he'd have to sleep in the crib when Jacqueline was all finished with it.

"The first night she got into her crib, but demanded a story. I said that babies couldn't understand stories, but big girls did, so she must wait until she moved into her own room and bed. She moved the next night, assuring the unconscious Keith, as she swept past him with books and woolly animals, that he could have the old crib whenever he wanted it.

"The third suggestion was that I give Jacqueline a little time all to herself every day. As I had no nurse and my daughter was in school until three, this was hard to find, but we settled upon half-past six to seven. Keith was in bed then, Daddy not yet home. During this half-hour she had her bath and supper, but she had stories, too, and we did not allow the telephone, doorbell or Keith to interrupt. If he fretted, we ignored him. If a caller came, Lily said I could not come down.

Girl Revelled in Personal Hour.
"I took this very seriously; never, for all the weeks we kept it up, breaking into it even for a message. She revelled in it; it had to her all the charm of conspiracy. Curiously enough, my suggestion one night that there might someday be other children, when Keith might have to give up the crib and surrender much of my attention to a smaller baby, was tremendously satisfying to her. Her exultation at this idea was a revelation to me of what she was—perhaps unconsciously—feeling toward him.

"Then he'll hear you talking to that baby in the night," she said. "And everyone will bring things for that baby!"

"I pass this experience along to other mothers," the letter concludes, "because, simple as this cure was, it was fundamentally important. It established a priceless affection and confidence between me and my firstborn, and saved me hours of worry and distress."

So don't punish your child any more than you would attempt to punish the friend who inadvertently hurt your feelings. Remember that little Seven isn't eloquent, that grown-ups are mysterious, powerful and sometimes fearful element in his life, that he grows tearful, stammers, lies, steals to save himself from their wrath, and that like many an older criminal, he needs the irresistible force of love—love unreasonable and all-forgiving, love that laughs and heals and helps, to find his place in this bewildering world.

Vegetable Canning Guide

Non-Acid Vegetables
Are you putting up many greens and vegetables from your Victory garden this year? In other years, the first question we asked after that, was, do you have a pressure cooker?

You see, a pressure cooker is the safest, most desirable method of putting up vegetables which are non-acid. The reason: In most soil there is a deadly germ called Botulism which attaches itself to vegetables in the non-acid class, to which most of them belong. Mr. Botulism is hard to destroy except by extreme heat—which the pressure cooker can give as most vegetables are processed at an above-boiling point, 240 degrees Fahrenheit.

Let me go on record as saying use the pressure cooker if you possibly can. Chances of your being able to buy one are slim, but perhaps there's a neighbor or friend or a local canning center which will give you the means of having one. If it's absolutely impossible to obtain a pressure cooker, do non-acid vegetables by the boiling water bath. It takes much longer to process the vegetables, but don't skimp a minute of it, if you would be successful.

Processing Foods
Processing times have been carefully tested and cannot be shortened. Follow them to the letter to get results. Processing may be done in various ways, and it is important to select the one best suited to the food you are putting up.

A pressure cooker gives you the greatest degree of safety in canning non-acid vegetables as it permits the greatest degree of heat to penetrate the jar and thus destroy botulism. To use the pressure cooker, prepare the product, pre-cook it and pack carefully in sterilized jars. Adjust cap. Prepare pressure cooker by pouring hot water into the bottom of the cooker up to the level of the rack. Place filled jars on rack, allowing for sufficient circulation of water around them. Be sure jars do not touch.

Place top on pressure cooker and clamp on tightly. Leave pot cook open 7-10 minutes to exhaust all steam in cooker, otherwise you will not get correct pressure. After all steam is exhausted, close pet-cock and let pressure mount to desired degree, then turn down heat, and maintain pressure exactly or liquid will be drained from jars if pressure is allowed to fluctuate.

When processing time is up, remove cooker from heat, let pressure reach zero, then remove lid, so steam does not hit you when cooker is opened. Set jars on several thickness of cloth or paper, and let cool, without inverting.

Hot Water Bath.
A large, deep vessel with a tight-fitting cover is best for making this type of canner. Use a big kettle, a lard can, a deep well cooker with galvanized wire or rack at the bottom of it to hold the jars one-half inch from the bottom of the canner. Before putting jars in canner, have water boiling briskly. If the jars lower the temperature and it stops boiling when they're submerged, do not count processing time until the water boils.

It's especially important to make certain there's plenty of water in the boiling water bath. There should be enough to come two inches above the jars. If water boils out during processing, add some boiling water from a teakettle on the range.

Canning Procedure.
Use the table given at the head of this column for guiding you in pre-cooking and processing vegetables. The ideal way of proceeding with your canning is as follows:
First, before you even start canning, get jars ready by washing them in hot soapy suds and scalding them thoroughly. Check for nicks, cracks and sharp edges on jars, to see that they are perfect. Prepare jars ahead of time and invert them on several thicknesses of clean towel near your stove so that you have them on hand when canning.

Prepare vegetables by washing thoroughly and then cutting or preparing as for table. Pre-cook, according to table. Pack in sterile jars and process for required time. Set jars to cool, after processing on several thicknesses of towel or newspaper, away from drafts. Let cool for 24 hours. If using a self-sealing lid with screw band, remove screw band and use it over again. Test the jars by tapping gently on lid. If you get a high ringing note, the jar is sealed and may be stored.

Reasons for Spoilage.
Spoilage reasons are many and may be traced to any part of the canning procedure. Sometimes it is easier to avoid failures if you know what causes certain types of spoilage.
If fruit or vegetables are over-ripe, sterilization is difficult as bacteria may have developed to a degree which it is not possible to arrest. Use only produce in prime condition as you get out of your jars what you put in them.
Washing all vegetables and fruits before working will get rid of bacteria which cling to the soil.
Unclean jars can work havoc with your canning effort. Best remedy for this is washing jars thoroughly in clean soapy suds and then scalding, and laying the jars inverted on several thicknesses of clean towel until ready to use.

If you have a canning problem, write to Miss Lynn Chambers, Western Newspaper Union, 210 South Desplaines Street, Chicago, Ill. Please enclose a stamped, self-addressed envelope for your reply. Released by Western Newspaper Union.

Antique Dealers and Their Ways Discussed by Decorating Expert

By ELIZABETH MacRAE BOYKIN
Right now there is quite a boom in antique furniture and other household goods. The wise ones, as usual, have many explanations for this—the lack of extra cash floating around in lots of pockets, the inevitable group of wary investors who look askance at inflationary possibilities and run quick to the nearest antique dealer to put their money in something they think will be safe and lasting. And then there are those fans who, year in and year out hunt down additions to their collections and who are stopped by neither snow, nor sleet, nor gas rationing, nor war in their pursuits of the old and the beautiful.
The new and uninitiated buyers of antiques have a thing or two to learn about the antique dealer who is more often than not the queer rive who'd rather buy than sell.

PATTERNS SEWING CIRCLE

Pattern No. 8445 is in sizes 10, 12, 14, 16, 18 and 20. Size 12 dress takes 3 yards 28-inch material, jacket 1 1/2 yards.
Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers. Send your order to:

SEWING CIRCLE PATTERN DEPT.

Gallant Was the Word of Englishman to His Queen
A pendant to the historic cloak incident of Queen Elizabeth and Sir Walter Raleigh is surely supplied in this story, told by Arthur Croxton, many years manager of the London Coliseum music hall (in his reminiscences):
The courtly mayor of a small town in the Midlands of England had the honor of dancing, at some public ceremonial, with Queen Alexandra—then princess of Wales. She smilingly warned him that she had just had measles in her household, and that she hoped that she would not give him the disease. Bowing low, the mayor answered, "Your royal highness, I should be happy to take anything from so charming a source."

HOUSEHOLD HINTS

Handles of garden tools should be sandpapered and waxed to save splinters in fingers and hands.
If a refrigerator sets into the wall, take care to allow several inches of space on each side and at least a foot of space on top for good circulation of air around all sides of it.
Before starting to drive that small truck, stick it through a strip of heavy paper—brown wrapping paper is fine. Then you can hold the paper while you drive, and save your thumb. The paper tears out easily.
When papering a room, write behind the door the number of rolls and yards of border used. This is very handy for reference the next time.
In making applesauce, lemon juice or a few slices of lemon cooked with the apples gives a fragrant and pleasing flavor. It is also a good trick when preparing apples for pies.

'Not Heat, but Humidity'—Here's What Can Be Done

Too much humidity is ruinous to people's dispositions in warm weather, and dampness takes an annual toll of home articles, damaged by mildew and mold in basements and closets.

Many householders have found an effective remedy by using common calcium chloride in simple home-made devices. Calcium chloride flakes attract 3 to 3 1/2 times their weight in water from the air.

An efficient dehumidifier, which may be used in any part of the house, can be made with a simple painted wooden cabinet, with a wire or cloth-covered frame, or frames, containing the chemical flakes. The solution drips into a water-proofed hopper. By installing a fan in one end, the drying of the air can be speeded up.

Under conditions of lower humidity, the room becomes a cool and pleasant refuge against the hot and humid air outside.

IMPORTANT NOTICE TO HOME CANNERS

The Glass Top Seal Fruit Jar Cap for Home Canning was developed as a Wartime product to conserve metal. It consists of a Metal Band, Glass Lid and Rubber Ring.

Because of the difference in the nature of these three materials this Cap must be used differently from any other fruit jar cap. If used properly it will give excellent results. If not used properly, results will be bad, including failure to seal and breakage of jars. Following are simple instructions for use of the Glass Top Seal Cap and must be followed carefully.

1. Do NOT use in Oven Canning.
2. If processing, (cooking in jar), leave 1 inch space in top of jar. If using open kettle, leave 1/2 inch space in top of jar.
3. Fit rubber around projection on bottom side of lid.
4. Place lid so rubber lies between lid and top edge of jar.
5. Turn bands tight, then loosen slightly (about 1/4 turn). Bands must fit loosely during processing (cooking). This is important and must be done to insure best results. If using Open Kettle, screw bands tight as soon as jar is filled.
6. After processing, screw bands tight to complete seal. Remove bands 12 hours after canning.

DO NOT TURN FILLED JARS UPSIDE DOWN

This information is published in the interest of home canning and preservation and conservation of food.

BALL BROTHERS COMPANY
MUNCIE, INDIANA, U. S. A.

A Letter to Hirohito

By Stephen Vincent Benet
 Dear Hirohito—this is me.
 This is me—one American farmer.
 Six million farms and over in this country, last census.
 Six million farms and over. Six million places where we can raise food for freedom.
 Food for the men on the ships and the men in the planes.
 Food for the boys like my boy in his soldier clothes.
 Food for Ed Summers' boy on his destroyer and Gus Taub's boy over in the tank plant.
 Food for all kinds of folks I'll never see in my life, who are fighting on our side.
 British children and British seamen and Chinese soldiers, and even Australians.
 Shucks, I can't add 'em all up. Can't even add myself up. My farm's just one out of the six million.
 But I want to say this: We're all against you, Hirohito.
 Every bushel of wheat in this country is against you. Everytime a Wisconsin hog puts on another pound, that pound's against you.
 Against you and all your works, because we don't like you and can't stand you and we're bound and determined to get rid of you whatever it costs us all.
 Ever think what that means, Hirohito—what it means to rouse up a free people? Well, I wouldn't blame you if didn't. Never heard you know much

about free farmers and their ways. Particularly our kind.
 There's six million farms against you, Hirohito, just in this one country—six million farms and their farmers—the men with the slow talk and the sunburnt backs to their necks—the women who know that farm women's day never ends.
 And we're not a special class or a special interest. We're part of something and working for something that's bigger than any of us—something big as the sky above us and fertile as the earth underfoot.
 It's called the United States, Hirohito, and she was born in freedom!

SOUTH ELMORE

Mr. and Mrs. Bill Greshow of Milwaukee visited with the Thill and Voland families Sunday.
 Mr. and Mrs. Ted Rothe and daughter Phyllis of Milwaukee visited with the Jonas Voland family Sunday.

 Henry Wagner, 73, retired farmer, died suddenly at St. Agnes hospital Tuesday morning at 1:30 where he had been confined the past nine months since the amputation of his leg. Deceased was born on a farm near St. Kilian June 15, 1870, son of Henry and Anna Wagner. His sister Julia, passed away July 11, 1940 and brother, John, Nov. 20, 1941. The body lay in state at Miller's funeral home at Kewaskum from where funeral services were held Thursday morning at 9:00 o'clock and at 9:30 at St. Kilian's church. St. Kilian. Burial was in the adjoining cemetery.

Men who ought to know think that there will be a shortage of feed grain within a year.

More than 4,000 cherry pickers are needed in the Door county cherry orchards this month.

Wisconsin at war will be the theme of the 6th annual art exhibition at the Wisconsin state fair, August 21-27.

WISCONSIN GAS & ELECTRIC COMPANY

County Agent Notes

LOCAL FARMERS MAY EMPLOY JAMAICANS

Jamaican workers, borrowed from Wisconsin's canning crop areas, may ease the emergency farm labor situation in Washington county in the next month, reports County Farm Labor Assistant Leonard Winn.
 The Jamaicans are about through with the pea harvest, and several hundred are available for rush work from now until corn canning starts in mid-August. Some will be available even beyond that time. The workers will have to be transported daily and from work on individual farms. Some pooling may be possible on this transportation problem.
 The Jamaicans are not generally adept with machinery, but they are intelligent, well-educated, and quick to pick up most ordinary farm jobs. They are able to handle haying, corn detasseling, weeding, grain shocking and any other hand work.
 They can be hired at the same wage and under the same conditions as local people at the same jobs. However they must be guaranteed a gross income of at least \$3 a day, and be assured of work three-fourths of the time. Board is deducted from their pay checks.
 State farm labor leaders are giving the Jamaicans credit for having saved much of the pea crop this year.

ARMSTRONG

Mrs. Mollie McCoy Faber of Fond du Lac is a guest of Mrs. Emma Cayanaugh.
 Mrs. Anna McPhillips of Chicago is a guest of her sister, Mrs. Charles F. Twobig.
 Mr. and Mrs. John Hughes of Kansas City are visiting at the George Stack home.
 Members of the George Scannel family enjoyed a picnic supper at Long Lake Sunday evening.
 Mr. and Mrs. Charles F. Twobig visited the latter's parents at New London over the week end.
 Miss Mary McNamara of Milwaukee kept the week end with her parents, Mr. and Mrs. Stephen McNamara.
 Mr. and Mrs. John W. Shea and sons, Jack and Michael, of Manitowish spent the week end at the O'Connor home.
 The Armstrong baseball team sponsored a dance in Our Lady of Angels parish hall on Wednesday evening, July 21.
 A daughter was born last week at St. Agnes hospital, Fond du Lac. Mr. and Mrs. Edson Harvey, Mrs. Harvey was Miss Laura Scannell before her marriage.
 Technical Sergeant James Anderson of Baton Rouge, La. is spending a furlough at the home of his parents, Mr. and Mrs. Thomas Anderson. Miss Eunice Anderson of Milwaukee spent the week end at home.
 Old Time Dance at Goring's Resort, Big Cedar Lake, Sunday, July 25. Music by Pep Babler's Orchestra. Admission 40c per person including tax, special caller. Old Time Dance every Sunday. Service men in uniform free.
 L. and Mrs. George J. Twobig and son Richard left Friday for New Orleans, La. where Lt. Twobig will report to La Garde General hospital. They were guests the past two weeks at the George R. Twobig home and at the home of Mrs. Twobig's parents, Mr. and Mrs. Wm. Gru at Spaulding Mich.
 Summer school for the children of Our Lady of Angels parish closed last week. Rev. Joseph Pierron is spending several weeks in northern Wisconsin. During his absence a Capuchin father from Mt. Calvary will attend the parish. Sunday masses during the summer months are at 5 and 8:30 a. m. and at 8 a. m. daily.

WHO HAS OLDEST GRAIN BINDER IN WASHINGTON COUNTY?

Who in Washington county has the oldest grain binder that is still in service and will be used to harvest the 1943 crop?
 We believe that there are a number of farmers who, by care and repair are making their binders give the maximum service. This is an important effort now that the use of farm machinery must be stretched to the utmost.

The state fair is anxious to locate the oldest grain binder in the state which is still in use. Will anyone having such a machine, kindly notify the agricultural extension office.

WAUCOUSA

Elmond Bus'uff of Eden visited relatives here Sunday.
 Miss Joanna Reimer of Campbellsport spent Sunday with Elaine Engels.
 Dorothy Schultz is visiting her brother and wife near Fond du Lac this week.
 Mr. and Mrs. H. L. Engels and daughter Loraine of Marshfield were callers here Friday.

 Mr. and Mrs. L. Frazier and Mrs. Mary Kraemer of Fond du Lac and their guest, Miss Rose Engels from Pasadena, Calif., visited relatives here recently.

WAUCOUSA

Old Time Dance at Goring's Resort Big Cedar Lake, Sunday, July 25. Music by Pep Babler's Orchestra. Admission 40c per person including tax, special caller. Old Time Dance every Sunday. Service men in uniform free.

USUAL FARM TERMS

ART LAUFER, Owner Art Quade, West Bend, Auctioneer Louis Koehntz, West Bend, Cashier.

FARM AND HOME LINES

More than 1000 4-H club members participated in the district club leadership training camps held in June and July.

Wisconsin Jersey breeders are giving a registered calf to the 4-H club boy or girl making the best showing in their dairy project with Jersey cattle.

Molly Pitcher Tag Day, August 4

The modern Molly Pitcher will greet you throughout the nation on August 4th when brigades of Mollys will tag every buyer of War Bonds and Stamps. They will carry on the tradition of the Revolutionary War heroine who has gone down in history because she aided her fighters at the battle of Monmouth in 1778.

Please Return Empties Promptly

Because of the shortage of materials it is almost impossible to get new beer kegs and cases.

When our customers hold empty kegs and cases longer than necessary we find it very difficult to give prompt delivery service.

Therefore, we will regard it as a special favor if you will return kegs and cases as soon as they are empty.

THANK YOU!

High school book fund	2,322.60	
Manual training receipts	184.97	
State aid	92.67	
School aid	1,669.73	
Village of Kewaskum, school tax	12,011.66	
School aid, state \$750.00; county \$750.00; per capita \$53.50	1,553.50	
State school tax, town of Kewaskum	144.86	
State school tax, village of Kewaskum	382.46	
Utility tax, town of Kewaskum	3.56	
Utility tax, village of Kewaskum	4,000.00	
Transferred from sinking fund to general fund	210.56	
Misc. receipts for merchandise sold etc.		
Total Receipts	32,413.57	
Balance on hand July 1, 1942	8,638.89	
GRAND TOTALS	41,052.46	

A. P. SCHAEFFER, Treasurer

Clothing From County Is Shipped to Russia

A total of more than 215,000 pounds of clothing either has been or is about to be shipped from Wisconsin to Russia, to be worn by civilian war victims, it was announced last Tuesday by Robert L. Reisinger, of Milwaukee, state campaign chairman of the Wisconsin War fund.

The clothing was collected by Russian War relief, one of the organizations which will receive the proceeds of the campaign for funds which will be conducted throughout the state this fall by the Wisconsin War fund. Money allotted to Russian War relief will be used for the transportation of the clothing, and also for medical and surgical supplies for Russian civilians and soldiers.

Carload shipments, which weigh 20,000 pounds, will be sent directly from the city in which they originate. Shipments of less than a carload will go to Milwaukee, where they will be pooled to form carload lots. Cities which have sent such shipments and the amounts are:

West Bend, 6,560 pounds; Appleton, 4,100; Janesville, 1,800; Neenah, 1,100; Prairie du Sac, 950; Jackson, 850; Stevens Point, 745; Sauk City, 611; Manitowoc, 475; Deerpark, 300; Weirhauser, 80; Delavan and Prairie du Chien, 50 each.

A direct shipment of 28,000 pounds has already been made from Sheboygan to Russia.

CUSTOM SLAUGHTERERS NOW REQUIRED TO HAVE PERMITS

According to the latest information received by Raymond D. Lepien, chairman of the Washington County USDA War board, under Food Distribution Order 27, Amendment 4, custom slaughterers are required, since July 1, to obtain a permit to slaughter.

The term "custom slaughterer" means the killing for meat production, of livestock for the owner by any person other than such owner.

Applications for such permits must be filed with the county war meat committee of the Washington County War board located in the Bank of West Bend building, West Bend. Persons who are registered under and operate under MRO-1, as amended, are not subject to this order. Farm slaughterers, butchers, and local slaughterers who already have a slaughter permit will not have to obtain a new permit to do custom slaughtering. However, they must maintain records on form FDO-27-10 of custom slaughtering, which forms may be secured from the Washington County USDA War board.

Anyone doing custom slaughter who does not have a permit now and who is not registered under MRO-1, as amended, is subject to the provisions of this order and must secure a permit at once.

WEDDING ANNIVERSARY
The following helped celebrate the 56th wedding anniversary of Mr. and Mrs. Fred Zimmermann Saturday evening at their home: Mr. and Mrs. Alfred Zimmermann and family of Milwaukee, Mr. and Mrs. Harry Varney and family and Miss Erna Zimmermann of West Bend, Mr. and Mrs. Otto Giese and family of the town of Auburn.

FETED ON BIRTHDAY
The following people gathered at the home of Mr. and Mrs. Jos. Theusch last Thursday evening to celebrate Mrs. Theusch's birthday: Mr. and Mrs. Ben Voim and family, Mr. and Mrs. Edward Theusch and family, Mr. and Mrs. Peter Schrauth and family of the town of Kewaskum, Mr. and Mrs. Walter Theusch and family of the town of Wayne, Mr. and Mrs. Alvin Weisner and family of St. Kilian and Miss Amanda Dettman of Kohlsville.

PICNIC SUPPER FOR WAVE
Miss Alexia Mayer of this village entertained a number of friends at a picnic supper in the Kewaskum park Sunday in honor of her friend, Miss Shirley Sepersky of Barton, who has enlisted in the WAVES. Miss Sepersky has received her call to active service and will leave next week to begin training.

HOLY TRINITY CHURCH
Masses on Sundays and holidays at 6 and 9 a. m.

ST. BRIDGET'S MISSION
Sunday is Ladies Altar society communion Sunday.
Mass on Sundays and holidays at 7:30 a. m.

Cranberry growers are hunting for 1800 men to harvest the famous little red berries. Women and children cannot be used in the cranberry harvest, report growers.

More than 44 per cent of the milk received at Wisconsin dairy plants in 1942 was used in making cheese.

WEEKLY NEWS ANALYSIS

Furious Tank Battles Rage in Russia As Nazis Seek to Encircle Red Army; Farm Income Increased by Two Billion; Allied Victories Threaten Jap Bases

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper. Released by Western Newspaper Union.

For meritorious work as commander and military governor of the Territory of Hawaii during the critical period after Pearl Harbor, Lieut. Gen. Delos Emmons (extreme right) receives Distinguished Service Medal from Secretary of War Henry Stimson (at extreme left). Brig. Gen. H. B. Lewis (center) attended the ceremonies.

RUSSIA: Blitz Again

Seeking to wipe out the big Russian bulge on the central front, 500,000 German soldiers continued their attacks at both ends of the bulge, with the objective of encircling the huge Red army from the rear.

At the southern extremity of the bulge near Belgorod, the Reds admitted that the Nazis had scored early gains. According to the Russians, the Germans were backing up their forces with masses of tanks and airplanes. In action was a new tank, bigger than the 60-ton Mark VI.

From dispatches, the battle assumed the old lines of German blitzkrieg. The Nazis concentrated their strength at certain points and then threw their whole weight against them. As their forces streamed through, the Russians moved to pinch off the tanks and infantry and isolate them from the main armies.

Although claiming success, the Germans said that the huge bulge still extended 85 miles to the west.

CONGRESS: Adjourns for Recess

Capping its hectic deliberations with an agreement to give President Roosevelt a free hand in reducing retail food costs through subsidies, the 78th congress recessed for a summer vacation.

The session saw passage of notable legislation. For the first time, taxpayers were put on a current basis with the enactment of pay-as-you-go legislation. Approximately 130 billion dollars was appropriated.

The administration's authority to make lend-lease and reciprocal trade agreements was renewed, and permission was given for use of 2 billion dollars to stabilize foreign currencies.

President Roosevelt's limitation of wartime salaries to \$25,000 was repealed. Spurred by the walkout of the nation's coal miners, anti-strike legislation was passed over a presidential veto.

Trapped in the narrow Kula gulf, eight Japanese warships were reported sunk, sent to the bottom by a thunderous broadside from U. S. naval vessels.

By making two landings on New Georgia island, American troops closed in on Munda from the north and east. Finished by the Japs last December, this air base would give Allied fighters and bombers a springboard for attacking the great enemy naval and airplane center of Rabaul, between the Solomons and New Guinea.

Strafed and bombed by Allied airmen, Jap troops gave ground before advancing columns in the area south of Salamaua.

HIGHLIGHTS . . . in the week's news

MAIL ORDERS: Both the big mail order companies, Montgomery Ward and Sears Roebuck had larger sales in June of this year than in June, 1942.

SHIP BUILDERS: Union officials allegedly representing 1,100,000 shipyard workers have presented the biggest wage adjustment case in the War Labor board's history.

PLANES: Four-motored American bombers, operating with the British eighth air force, have shot down 1,190 Axis planes, probably destroyed 525 more, and damaged 501 over Europe in one year, the War department reveals.

BEER: The malt supply is adequate to provide beer for both civilian and military consumption, a spokesman of the War Foods administration believes, but adds that difficulties in bottling and transportation are serious.

FARM INCOME: Up by 2 Billion

Boosted by a 36 per cent increase from marketing, farm income for the first five months of 1943 was up two billion dollars over last year.

Total income amounted to \$6,788,000,000. Of this, \$6,412,000,000 was gotten from marketing, while \$376,000,000 was obtained in government payments.

The big increase from marketing was attributed to the larger returns from oil-bearing crops, tobacco, poultry and eggs. Substantial gains also were reported for all commodity groups.

The nation's heavy year-round demand for food was reflected in figures which showed that the increase in income from April to May was less than seasonal. Small increases resulted from marketing of vegetables, fruits and nuts and dairy products, among other crops.

MUNITIONS: Need Great Quantities

Gigantic quantities of prospect and equally gigantic quantities of materials will be needed to achieve the victory, but the U. S. and Canada are equal to the task of supplying the Allied forces, Donald Nelson said in an address to the Canadian club.

Since the outbreak of the war, Nelson said, the two countries have turned out 115,000 airplanes, and before the end of the year, our capacity will be 112,000 annually.

More than 175,000 large caliber guns have been made, he continued, and more than 1,500,000 machine guns and 6,000,000 rifles have been produced. About 25 billion rounds of small arms ammunition—1,500 bullets to each Axis soldier—have been manufactured.

Close to 6,000 tanks, more than 1,600,000 trucks and nearly 70,000 scout and combat cars have rolled off the assembly line of the two nations, Nelson revealed. About 20 million tons of merchant shipping have left the ways, and production has now reached the rate of 22 million tons annually.

MEDITERRANEAN: Europe Tense

Allied air action at both ends of the Mediterranean and large concentrations of Allied shipping in North Africa have heightened the tension in the Axis' European fortress.

The Germans were chiefly concerned with Allied activity in the Near East. They interpreted frequent flights of Allied bombers and reconnaissance planes over the Aegean islands as preparation for a big push against the Grecian mainland. American fliers have raided Axis air bases near Athens, and British Commandos landed on the main Aegean island of Crete to probe enemy defenses and strike at an airfield.

In North Africa, the Allies were said to have massed over 1,000,000 tons of shipping, heavily shepherded by battleships, cruisers and aircraft carriers. Hundreds of Allied planes have been assembled for attack.

American and British bombers continued to pound Sicilian airbases. Appearance of Axis fighter planes in force indicates that the enemy intends to challenge the Allies' occupation of Italy's neighboring islands.

MEAT:

Hog Marketing Heavy

Because of heavy pork production, output of meat has been running fairly even with that of 1942. Record slaughtering of hogs has offset the decline in the butchering of cattle, and, to a considerably smaller extent, of sheep.

According to recent estimates of the War Meat board, hog slaughter rose 26 per cent over last year, and pork production was up 40 per cent. The severe decline in cattle slaughter and resulting meat products amounted to 40 per cent under last year. Although calf butchering slid 28 per cent, meat output was down about 38 per cent.

Moderate decreases were noted for sheep and lamb slaughter, although meat production showed a sharper drop.

GIRAUD Welcomed in Capital

While 15,000 residents of Martinique reportedly rioted in support of Gen. Charles DeGaulle, Gen. Henri Giraud was received in Washington by President Roosevelt under circumstances indicating the Allies' public acceptance of his leadership of the French National committee.

According to the Martinique reports, the rioters' actions prompted the administrator of the island to consider severance of relations with Vichy and entrance into the provisional government of the French National committee headed by Generals Giraud and DeGaulle. The committee already had appointed a military commander over the territory.

General Giraud's stock in Allied circles rose with the U. S. government's announcement that it had uncovered a secret document, showing that General DeGaulle's followers have sworn to perpetuate him in power after the war, contrary to the promise that the French people would be permitted to freely choose their own leaders following the liberation of the nation.

Production Miracle

Sprawling over 1,350 acres of rambling plains near Fontana, Calif., stands the first complete steel mill ever built west of the Rocky mountains—the work of Henry J. Kaiser, the production genius of World War II, the man who can get things done.

Fifteen months ago, 60,000 hogs grubbed over these plains. Today, a long row of white buildings of concrete and steel, with entire sides of windows tinted blue, mark the first great steel mill to be laid out on an assembly line basis. Relegating the monotonous victory gardens planted around the entire site.

Everything in the new mill is moved by 3 1/2 miles of conveyor belt. Ore from Utah and coal from California move to grinders and coke ovens on these conveyors. Two banks of 45 coke ovens each feed a huge 97 foot blast furnace, which resembles a milk bottle. In the fall, a mill for rolling steel plates will be completed to round out the construction, and the building alone will be 1,100 feet long and 300 feet wide.

Built in consultation with the United States, Bethlehem and Republic Steel corporations, the Fontana mill has cost \$3 million dollars. The RFC advanced the funds.

SHOPPING NEWS: Stockings; Salmon

Government agencies moved on two fronts to give good cheer to the women and housewives of America. War Production board announced that it would permit spinning of 100 denier rayon yarn to assure continued manufacture of full-fashioned hosiery. WPB also allowed an increase of 1 1/2 inches in the length of women's full-fashioned acetate rayon stockings to provide better wear, since this type does not stretch readily.

The price of the half-can size of Alaska Chinook salmon was "rolled-back" six cents by the Office of Price administration. Maximum dollars and cents ceilings also were placed on canned Alaska King, Coho, Pink and Puget Sound sockeye salmon.

Speaking before the house of commons, Sir Kingsley Wood, Great Britain's finance minister, revealed that taxes took 40 per cent of all private income in England last year. More than 12 million Britons are on the tax rolls, and of these, 10 million are in the lower brackets.

It was also announced that already the British government has borrowed a sum more than double the size of the national debt before the war began. The debt now approximates 70 billion dollars.

Sir Kingsley said that thus far Great Britain has advanced 780 million dollars to Allied governments, exclusive of lend-lease aid.

In an action marking a new step in social hygiene in the United States, Gov. Chauncey Sparks of Alabama signed a bill requiring blood tests for syphilis of every resident in the state between 14 and 50 years of age.

An appropriation not to exceed \$75,000 annually will be made under the law, provisions of which call for tests on a county-wide basis under direction of the state health department.

Adoption of pre-marriage health examination laws by four states this year brought to 30 the number now requiring such tests. More than 70 per cent of the nation's population is resident in the states.

Laws requiring pre-natal examinations to prevent transmission of syphilis to unborn children were adopted by four states this year. Thirty states now have such laws.

Laws governing blood tests for marriage vary, from some requiring a physician's venereal certificate for males, to others demanding a Wasserman and serological test.

Who's News This Week

By Delos Wheeler Lovelace

Consolidated Features.—WNU Release.

NEW YORK.—Peace and its problems are the concern of brisk Nelson Rockefeller. His Office of Inter-American Affairs, having scotched the Rockefeller Does Axis fifth, As Well on Own columns southward, works now, he says, for a long-term two-continent control of production and prices.

An aggressive grandson of the aggressive John D. Sr., young Nelson has fixed himself solidly in the hemispheric picture. His family name may have helped him to a running start and Harry Hopkins' blessing gave him an early breather, but latterly he seems to have done very well on his own.

He is 35 now, with the strong, squarish face of his father and considerable good looks. Married 13 years he has five children—Rodman, Ann, Steven, and twins, Michael and Mary. Not until the second twin was one of the five named for Mary Todhunter Clark whom Rockefeller married practically the minute he finished his studies at Dartmouth.

At Dartmouth he lived on \$1,500 a year, but he had to save 10 per cent and give 10 away. That was a 20 per cent income slash long before Morgenthau got the idea. But he learned to handle money. And now, as a trustee of the Rich Metropolitan Museum of Art and of the Livly Modern Museum, and as a director of the family's epochal Rockefeller Center, he deals with mountains of currency and never turns a hair.

THROUGH three long years Sir Bernard Page's Home Command has stood on the alert, never sure it would not need to fight on the beaches of the Coasting Down Hill hills. Now, With a Tail Wind however, England hears of a happily "altered military situation" at Sir Bernard orders soldiers to begin tearing down those barriers hurriedly raised when the terrible Hun was just outside the gate.

A lieutenant general, Sir Bernard has been commander-in-chief of the Home forces for a couple of years. Earlier he tangled with the Nazis in Norway. They had him outnumbered and his problem was to pull back his hardpressed troops and embark them without a major engagement.

He deployed by day, forced the Nazis to deploy to meet the threat of battle, then at night ran like all get-out for the coast. It was a backhanded victory, but then he was content.

In the last war Sir Bernard ended up a major, DSO, MC, with an Italian decoration, numerous flattering dispatches and four wounds, including a crippled left arm. When the French chivvied Abdel Krim he was an observer, perhaps picking up some pointers about night retreats.

A redheaded son of a one-time bishop of Oxford, and 55 years old, he still is enough influenced by his father to want sweetness and light in his army. Not long ago he ordered an end of strong language, or at any rate less of it. With these barriers falling his soldiers should find obedience easier.

THEY tell you, in army circles, that Lieut. Gen. Joseph T. McNarney is about the best poker player in uniform anywhere. They do not. Best Poker Player mean, how In Army Says Japs ever, that On Skids; No Bluff he is bluffing when he warns that the tide of war has turned and the Japs had best hunt high ground.

Deputy chief of staff, the youngest officer ever to hold that post, McNarney is generally considered a soldier who talks only when he knows his facts.

He was born in Pennsylvania 50 years ago. His father was a lawyer, a tough prosecutor; his mother an indomitable temperance worker. After West Point he switched in '15 to the signal corps which then included the little air arm we possessed. About the same time he switched to matrimony with a handsome little school ma'am from San Diego.

He was an air officer in France through the little World war and has been one ever since. Like other top commanders of the American army at this time, his permanent rank is nothing much. The lieutenant generalcy is but a temporary one, and unless our congress is big hearted after peace is declared, he might drop back to colonelcy.

He is a tall man and lean and dark, with not much hair forward any more. By some he has been called dour, taciturn and ruthless, but his many good friends insist that the word "fair" be added.

He wouldn't, they all agree however, cover up for anybody, but on the other hand he will take no credit for what another man does.

Imported Bauxite In the past, approximately three-quarters of the bauxite used for aluminum manufacture in the United States was imported from Surinam (Dutch Guiana). Bauxite in quantity is found in Arkansas (including high-grade bauxite); smaller quantities are found in Alabama, Georgia and Virginia.

Washington Digest

FDR Must Take Helm Again To Achieve National Unity

Administration, Congress Must Get Tough in Throttling Various Pressure Groups Seeking Advantages for Chosen Few.

By BAUKHAGE News Analyst and Commentator.

WNU Service, Union Trust Building Washington, D. C.

In the next few weeks decisions will be reached which will affect the length of the war and they will not be made on the military fronts. They will be made in small town offices, leaning across fences, down at the post office or the court house, on front stoops, at the Elks club, in the lodge rooms and after meetin's of one kind or another in every middlesex, village and farm in the country.

They will result from conversations between the congressmen, home to mend their 1944 fences, and their constituents. The nation faces a crisis on the home front. Unless it is solved in the common sense American way, it is going to prolong the war months, and perhaps longer. Its presence has already delayed the capitulation of Italy, according to some of the more pessimistic pessimists around Washington.

As success on the battlefield grows, the efforts of those trying to support a total war are being defeated on the home front.

Two Events

Two events mark the low in unified effort for victory. One was when a reporter, with no evil in mind as far as I know, asked the President if he would make any comment for background on the statement that although things were going well on the battlefield, they were not going so well on the administration front (meaning home front). The President replied with a castigation of the press and radio. Some of their representatives, he said, were encouraging governmental friction. He could have given a blasting, rip-roaring answer which would have encouraged the country. As it was, he made some of the men whose job it is to interpret the news to the country, too mad to be objective.

The second event which marked the nadir in shoulder-to-shoulder effort on the home front was when congress came within an eyelash of killing the use of any and all subsidies which would have broken a wide hole in the anti-inflation dam. Let me state immediately that I do not believe that subsidies is the panacea for our inflation ills, but to have wiped them out completely at that time would have meant jerking the one, wobbling support we did have right out from under the price-control structure.

Since then the President has perked up and taken a positive stand and congress on second thought modified its berserk mood and evolved a compromise.

Now it is up to the people. If the congressmen are convinced that they can afford to go national and not be defeated a year from November; if they are convinced that the people will support their votes if they vote for what they think the country needs and not to suit the pressure groups that sit on their desks all day, the crisis will pass.

Crack-Down Necessary

The objectives are pretty clear. In the first place, the President has got to take the helm again. He has got to crack down. He has got to see that disensions do not break out. He has got to see to it that the secretary of the treasury comes out with a clear-cut tax and savings program which will absorb the inflation dollars. Congress will have to support that program.

The pressure groups whose purpose it is to get their members more money for products or wages, will have to be throttled. This means that the administration has to be tough. Congress will have to have courage. The people will have to support their elected representatives.

The vast majority of Americans are perfectly willing to carry their share of the load. They are not willing to make sacrifices if they believe someone else is getting the benefit and shirking their share. The farmer will work the skin off his hands and take a meager reward if it's for the good of the country and the boy he spared to join the army. But not if somebody tells

him the workman is making all the money at an easy job.

The workman will face higher living costs—and he certainly has to, without a wage raise, until somebody comes along and tells him the farmer is getting rich and that is why his food costs go up. And so on.

The reason why I believe this is because I receive letters like the following:

"My husband is 67 years old—working and making \$38.00 a week when tax is taken out. We are buying two war bonds each month—but we have a son in the navy—and one designing aviation tools in a plant in Atlanta. Perhaps he, too, will soon be in the service, though married he has no children—yet.

"We are like many—trying to carry our end of the war effort—but we have many friends and relatives who though making hundreds a month don't buy a bond. These same people went through the depression—with jobs—while we took it the hard way. Our two boys suffered from malnutrition during those years.

"Don't you think this makes a difference in point of view? You see we suffered—making you think. My boys bought war bonds right from the start. Their dad and I feel the need of a decent world to live in, too, for we had to live in a deprived world for several years. It gave us a different slant on life. We want a decent world for our children and grandchildren—and other people's children.

"Selfishness and greed will have to go—if we are to have that decent world." If a congressman's constituents talk to him that way, we won't have much more trouble on the home front. Hitler will have to begin worrying again.

Diary of a Broadcaster

The Washington atmosphere affects strangers who tarry long within the shadow of the Washington monument or the Capitol dome. It affects not only the so-called high society but the citizens of cat-and-dogdom as well. Today, I came down town at an odd hour—an interesting hour. I was a little later than usual. The war workers and the boarding-house cats and the alley pups, which wait until the workers are out of the way, had vanished on their various duties; only an indolent and disreputable Tom still paused to massage its hips against a garbage can, and a yellowish part-fax terrier, certainly part, and from his brush, certainly more fox than terrier, lay in the exact center of the alley where anything that ran down the middle gutter would eventually reach him.

These creatures sniff at protocol and treat it as they do anything else they sniff at. But that hour is also the hour of the pet parade, for the handsome creatures that strain at leashes. The most unhappy person I met at this bewitching hour is a thin little relic of a butler, who is literally torn between losing his dignity and his grip on one of the embassy great dunes.

No men like to walk dogs. All dogs like to walk men. But one gentleman dog nurse dared me to stare him down. He was being led by a stiff-legged aristocrat, a young wired-haired fox, as white and starched as if his proud mamma prepared him for a birthday party. Then there was the sad-eyed cocker, who dropped his eyes, sardier still when it realized I had noted that its mistress was wearing a far too informal house dress for polite street wear.

And then, there was the little one-by-five, it undulated along with a rather forced smile. It was a dachshund and probably anti-Nazi. It was hustling along like a caterpillar in high gear, trotting with its hind legs, and hopping with its little turtle-paws in front. I even met a feline on a leash, a great big tortoiseshell Thomas—it looked as if it was safer that way for the rest of us—all I could think of was "tiger, tiger, burning bright in the jungle of the night."

BRIEFS . . . by Baukhage

The American soldier's average coffee ration is 40 cups of coffee a month.

The Army Service Forces is the largest employer of women in the United States today, with a total of 379,300, or approximately 38 per cent of the more than 1,000,000 civilian workers employed in ordnance plants, depots, etc.

The German radio recently broadcast the following advice to housewives saving gas, electricity and water: (1) Don't heat more water than you need (2) Don't cook soup and vegetables too long (3) Use electricity sparingly and put out blackout lamps when it is light outside (4) When ironing, arrange things so you don't have to heat the iron several times. Bedclothes and table linen should not be ironed at all (5) Don't waste water (6) Use the radio with "common sense."

The German occupation forces have "ceased quarrying" for large stone blocks in the southern province of Vestfold, the Stockholm newspaper Aftonbladet said in an article reported to the OWI. The Germans had intended using the stone for victory monuments, the article said. Waste labor obviously will not be countenanced.

Under the heading "Motor Cars Learn to Walk," a Nazi newspaper in the heavily bombed Ruhr district recently published an article reporting that a number of motor delivery trucks in Cologne were now being drawn by horses.

The British radio has described the exploits of a Russian "Robin Hood" who for two years has harried the Germans. In that time, he was said, he had killed 400 Germans, captured much material and blown up a power station.

Sister's Dress Here

Pattern No. 5527. LITTLE sister will love something right out of her handbox in this charming Make it her "best" little dress in pale pink, blue or green organdie or dotted Applique the flowers in a darker shade of the material.

The dress is designed for Pattern number is 5527. Approx. 52 inches long. The dress is made of the same pattern. Due to an unusually large current war conditions slightly more is required in filling order for the most popular pattern number. Send your order to: HOME NEEDLEWORKS 520 South Wells St.

Aborigines of Australia Still Live in Crude

Although the white continent of Australia began in 1788, the majority of its aborigines still know how to cultivate land, clothes or build a shelter than a windbreak, says Gladys. These people have always looked upon as little more than animals. In fact, up to ago, a settler merely permitted to "shoot, poison or permit kill" them at will.

"Selfishness and greed will have to go—if we are to have that decent world." If a congressman's constituents talk to him that way, we won't have much more trouble on the home front. Hitler will have to begin worrying again.

A DAB A DAY KEEPS PO... AWAY

New cream positively does underarm perspiration. 1. Not stiff, not messy—Yodora's like vanilla cream! Dab it on—2. Actually soothing—Yodora is right after shaving. 3. Won't not delicate fabrics. 4. Keeps soft! Yodora does not waste; goes far. Yet hot climate tests—made to prove this dainty deodorant keeps arms immaculately sweet—under severe conditions. Try Yodora's in jars—10¢, 30¢, 60¢. McKesson & Robbins, Inc., Bridgeport, Connecticut.

YODORA DEODORANT CREAM

In the Sunlight! Do not anticipate trouble, worry about what may happen. Keep in the sunlight. Franklin.

SHAVE with SHELLY

Feel the Difference! SHELLY BLADES. 4 for 10¢. Manufactured and packaged by Federal Razor Blade Co., Inc.

Black Leaf 40

JUST A DASH IN FEATHERS OR SPREAD ON ROOSTERS. ADD YOUR BIT!

Turn in your scrap iron, rags and waste fats to produce that needed part for gun, plane, ship or ammunition.

THEY WERE EXPENDABLE

by W. L. WHITE W.N.U. FEATURES

THE STORY SO FAR: The story of their part in the battle for the Philippines is being told by four of the five naval officers who are all that is left of Motor Torpedo Boat Squadron 3. They are: Lt. John Bulkeley (now Lieutenant Commander), squadron commander; Lt. R. B. Kelly, second-in-command; and Ensigns Anthony Akers and George E. Cox Jr. After Pearl Harbor, Lt. Bulkeley orders Lt. Kelly to take three of the boats to Bataan, where they

set up headquarters. Kelly has a badly gashed finger, but doesn't dare take time to go to the hospital, as things are moving fast. During the first big air raid the PT boats shot down three Jap dive bombers. Kelly is speaking.

CHAPTER III

"When Bulkeley got back he took one look at me and ordered me to the hospital at Corregidor. But when we got there they told us that beautiful modern one-thousand-bed hospital had been abandoned. There was, I don't know how much it had cost, as useless to us as a Buddhist monastery. The patients had all been moved down into one hundred beds in one of the tunnels in the Rock. I wasn't so delirious that I couldn't figure out why. Because with no aircraft or anti-aircraft protection, that big expensive topside hospital was just an unprotected target.

"The dope on the listening devices seemed to be, he said, that they had picked up the Japs a hundred miles at sea, followed them in all right, but then lost when they were fifteen miles off the coast.

"But somebody decided the Japs must be heading for Baguio, and they were sitting there, all gassed up, waiting word to take off and intercept the Japs before they got to Baguio. Whereas, as a matter of fact, the Japs were perched in a cloud right over their own field, waiting to let them have it.

"He said after the bombing they'd managed to piece together out of the wreckage about ten per cent of the planes they'd originally had. A week later he'd cracked up landing on a soft spot on the field—a bomb crater that hadn't been properly filled—and here he was.

"The next time the skipper here dropped in on me, he said that the dope he was getting—that we had only six P-40's left. So it got down to two; we called 'em the Phantom and the Lone Ranger.

"And I said, 'My God, what's going to happen to us?'"

"I told him I didn't know," said Bulkeley, "but that I'd been talking to the Admiral, who'd said that we couldn't possibly hope to hold the Philippine Islands, that Singapore and Hong Kong would all too, unless help arrived—and soon. And didn't guess that yet?"

"Well, that floored me," said Kelly. "So I asked him how they were going to use the MTB's—wouldn't they let us go out on our offensive missions? He said he'd been trying to get the Admiral to let him go to Lingayen Gulf on a raid. Eighty Jap transports were taking their landing troops, and our coastal batteries were having to fall back because of Jap air superiority—Jap fighters diving on the batteries and machine-gunning them until no one could take it.

"Then I asked the skipper how the infantry was holding. 'Not worth a damn,' he said. 'The strafing is just cutting them to ribbons. Not only that, but the Japs are landing only tanks and heavy armor. And their weapons which are just what we need and haven't got.' By the time he left, I was as low as he was.

"That night Peggy, who was on night duty, got a few minutes off about one o'clock to come in and shoot the breeze with me. She'd been picking up a lot of stuff, and she said a bunch of our tank-corp boys had just been brought in. She told me what they'd been telling her, and finally said she guessed it wouldn't hurt if I went in and lay down for half an hour on an empty bunk next to them, so I could hear it myself.

"They'd walked two hundred kilometers barefoot. Four tankloads of them had been sent in to head off a Jap landing near Batangas—they were to go ahead of four columns of infantry and pave the way for retaking a little fishing village held by a small Jap force.

"The boys said their major had assured them the Japs had nothing bigger than 50-caliber machine guns—of course their armor would stop that. So they started on in, when all of a sudden—Bam! The Japs had waited until they got within good range, and then opened up with anti-tank gun which knocked the doors off the lead tank, and then, because the road was too narrow for the rest to turn around on, they knocked the treads off all the others except one.

"Well, then what did you do?" I asked the kids.

"Fired about two hundred rounds of 50-caliber and four rounds of 37-millimeter cannon."

"Which way were you shooting?" "Every which way. You see, it all happened so fast we couldn't tell where the Jap fire was coming from. At the end of five minutes, three of those tanks ended up in the rice paddy—they were fourteen light tanks—two of them with the doors blown off, and in one of the rest were jammed. The one that got out the legs off the lieutenant in command. The others were riddled with holes. Our tank was the only one that wasn't hurt."

"So what did you do?" "Tried to turn it around and get the hell out of there. But the road was too narrow, and then the tank got stuck in reverse, and ended up in the rice paddy."

"What did the infantry do?" "Ran like rabbits."

"Didn't they have any guns?" "Only rifles—not a machine gun in the crowd. Maybe they didn't have anything else to give them, but anyway the major said all they would find up there was rifles, and if there were any Jap machine guns, the tanks would deal with that. So there they were, being cut to ribbons by concealed machine-gun fire, and nothing else to do but get for cover."

"Didn't all this—sending those tanks into a trap without scouting ahead—seem like a damn-fool maneuver to you?" I asked him.

"Well, the kid said, 'the major and the lieutenant had worked out the same maneuver at armored school back in the States. It had worked there; they thought it was pretty good.'"

"So I asked the kid why he thought it hadn't worked this time in the Philippines?"

"Maybe because the Japs were too clever in hiding their anti-tank guns and too good shots. They knocked the tanks before they had time to do anything. And then, unlike the roads back in the States, these were narrow native roads, with rice paddies on both sides—you couldn't maneuver."

FIRST-AID to the AILING HOUSE

By ROGER B. WHITMAN

Roger B. Whitman—WNU Features.

CLOGGED CESSPOOL

Question: Is there any chemical that can be used in a cesspool that is clogged and overflowing?

Answer: Nothing that is really practical. Trouble starts with the soaking of grease into the masonry walls, which prevents the liquids from seeping out to the ground. The surest remedy for that condition is to dig a new but smaller cesspool alongside, to be filled by overflow from the first one. Properly built, this should last for many years. In building any cesspool, a grease-trap should be set into drain-pipe leading from the kitchen sink, which will separate the grease and avoid trouble. Of course, the grease should be removed from the grease-trap every three or four months.

Moisture in Basement

Question: I have a room in the basement that once was used as a coal shed, and the odor of moisture still persists. Will you tell me how to remove the odor, as well as the moisture?

Answer: Scrub the walls and floors with a solution of washing soda, about a cupful to each gallon of hot water. Rinse with clear water and, when the surfaces are dry, sprinkle a generous amount of chloride of lime around the edges of the floor. This chemical is an excellent deodorant. If dampness, but not water, comes through the concrete, apply a coat of damp-proof cement paint—the kind that comes in powder form and is mixed with water.

Ripping a board with a rip-saw—that is, cutting it with the grain—is no trick for this woman who has learned how at home repairs class. When she has completed the course she will be able to do most any wood working job about the house.

Closing Cracks

Question: Is there any material that could be applied to storm sash to prevent cold air from seeping through the cracks between the sash and window frames? Would Scotch tape applied around each window last throughout the winter?

Answer: If the sashes do not fit snugly, fill the open spaces with a paper pulp. To make this, tear a newspaper into shreds and boil in water for an hour or longer. Squeeze out the moisture and force the pulp into the cracks while still moist; it will harden on drying. When dry, the filler can be given a coat of shellac to make it thoroughly waterproof.

Rough Plaster

Question: My living-room walls are rough plaster, painted. How can I make them smooth for papering?

Answer: Rub down the high points of the plaster with sandpaper wrapped around a block of wood. The remaining low places can be filled with a thick mixture of powdered whiting and glue size, put on with a trowel. The walls should be sized before papering.

Picket Fence

Question: In putting in a four-foot high picket fence, to what depth should the cedar supporting posts be placed?

Answer: To be safe, set them four feet in the ground. Although cedar is resistant to rotting, it will be an advantage to paint the underground portions of the posts with creosote or tar.

Preserving Birch Logs

Question: I have secured some birch logs from the country which I should like to use as a decoration in my fireplace. Is there something in which I could dip them to preserve them and keep out the ants?

Answer: If you suspect that the logs contain insects, sponge them with kerosene. You can preserve them by coating them with spar varnish. Get a clear variety so that the wood will not be darkened too much.

Metal Kitchen Cabinets

Question: I have two metal kitchen cabinets that I should like to change from ivory to white. Can I do this successfully?

Answer: If the present finish is in fairly good condition, first wash the cabinets, then dull the gloss by rubbing with very fine sandpaper, wipe with turpentine, and apply a coat of enamel undercoater or flat wall paint. Finish with two coats of a good quality white enamel. A badly chipped and cracked finish should be removed before attempting to refinish.

PEAS, WEEVILS AND APHIDS

Ima Dodo is hysterical with fear. We never saw her so upset, nervous and apprehensive.

"How can I get out of this? Do you know any influential politicians? Would a letter to the President do any good? Would I be tried by jury? Oh dear, oh dear!" she babbled on.

"Now look," we began . . .

"I just didn't know! I mean it was just an oversight. Should I maybe get a lawyer?"

We clapped a hand over her big mouth and shoved her into the nearest chair. "What's this all about?" we demanded.

"It could be two years and \$10,000 even," she cried.

"What have you done, robbed a bank, set fire to the orphan asylum, talked back to an OPA scout or been found in an auto while in motion? Speak!"

"I was just spraying," she bawled. "What were you spraying?"

"Peas," she sobbed. "And beans."

"You're supposed to spray peas and beans. Stop shivering. It's legal."

"But I wasn't spraying the peas against pea weevil or pea aphid," she cried. "I was spraying them for other bugs."

"What of it?"

"And that isn't all. I'm not sure I was spraying the beans against Mexican bean beetle. It's too, too terrible. They'll be after me any minute. Phone a lawyer, please!"

"Who cares what you were spraying a pea or bean for? It makes no difference."

"Oh, but it does," sobbed Ima. "There's a federal regulation as amended January 23, 1943, Section 1189, I. Look! It's right here on the spray label . . ."

Ima showed the label. It read as follows:

The use of this spray is restricted by W.P.B.'s Conservation Order M-133, as amended Jan. 23, 1943, to the following uses:

1. Peas. Against the weevil and aphid.
 2. Beans. Against Mexican bean beetle.
 3. Cole crops, other than cabbage. Against caterpillars and aphids.
- "See!" sobbed Ima, as we finished reading. "It's all so clear."
- "Woman," we said severely. "Do you mean you used a spray without being positive what you were spraying?"
- "I'm sure I hit a caterpillar instead of weevils and aphids on the peas," she wept. "And I have a feeling I sprayed aphids on the broccoli. Heaven knows what was on the beans!"
- This was too much. There was nothing to do but consult counsel and give herself up. We so advised, hoping for the best. Maybe she can prove it was an accident.

AXIS PRISONER SONG

A little trip, a little camp,
A little work, some chance for smiling;
A little rest, a little hope,
A little peace . . . and no more healing!

HUH!

Mr. Morgenthau says that by the end of the year the average family should be putting 25 per cent of its income in War Bonds. It is Howard Smith who cheers the idea but points out some difficulties. Twenty per cent of the income is deducted for new income tax; and a man is supposed to give 15 per cent to various charities, city funds, Red Cross drives, etc. This totals 80 per cent.

"That leaves 20 per cent for rent, food, clothing, transportation, fuel, light, doctors, hospitals, medicines, education, state taxes, entertainment and maybe cigarettes," says Mr. Smith, exclaiming "Who dat man!"

IDEA OF HOLLYWOOD

Out there the men wear dinner coats. All conversation's witty; The sea holds naught but pleasure boats, And every woman's pretty.

In Hollywood, yes, life is gay,
To all the world I say it.
At least I guess that it's that way,
For that's how films portray it.

DEFINITION OF A LA WASHINGTON

Effective Teamwork—Trying to operate a six-horse hitch with the horse-collar on the driver, the whiffletree where the wagonpost should be, and with a horn replacing the reins.

An all-time high for defeats is being set in a good many Victory gardens.

Can You Remember—

Away back when all you worried about in summer was whether moths would get in the white-flannel pants?

OBSERVATION

I always can Detect the man Who aimed to get A week-end tan. He sports instead A lobster-red . . . That is if he Can leave his bed!

The army has developed a chocolate bar that will not melt below 20 degrees. Now if it will turn out an ice cream that can be carried in the hip pocket.

We understand Hitler is greatly interested in that new helicopter. But he is looking for one that will rise straight up and not come down.

Old toast revised for a ration period: Count your coupons, drink and be merry . . . for tomorrow it will take more points!

Gems of Thought

WITHOUT courage there cannot be truth, and without truth there can be no other virtue.—Sir Walter Scott.

Life's uncertainties give us a new hold upon the everlasting.—M. G. Pearse.

I know not where His islands lift Their fringed palms in air; I only know I cannot drift Beyond His love and care.—WHITTIER.

Education ought to develop the immortal differences in people. Too often it merely irons them out.—Bruce Barton.

The great man is the man who does a thing for the first time.—Alexander Smith.

With Our Men and Women in Service

STAFF SGT. JOS. UELMEN HAS ARRIVED IN ENGLAND

Mr. and Mrs. Jos. Uelmen, Sr. of West Bend, residents of Kewaskum until recently, received word last Friday from their son, Staff Sgt. Joseph Uelmen, that he had arrived safely somewhere in England. Sgt. Uelmen is in the army air corps. He was stationed at Kearns, Utah, before sailing from New York. Before being sent to Kearns not so long ago, Sgt. Uelmen was stationed at Goodfellow Field, San Angelo, Tex., where he was stationed most of the time since entering service and where he received his training. His address: Staff Sgt. Jos. Uelmen, Jr., 36220602, A.P.O. 1216, Care of Postmaster, New York, N. Y. Quite a few boys from Kewaskum and vicinity have been sent overseas in recent weeks.

CPL. MYRON BELGER SENT TO UNKNOWN DESTINATION

A card has been received from Cpl. T. Myron P. Belger, son of Mr. and Mrs. Walter Belger, giving notice of a change in address. Cpl. Belger has been transferred from Camp Shelby, Miss. to an unknown destination, his address being in care of the postmaster at San Francisco, Calif. Myron was stationed at Camp Livingston, La. most of the time since entering service more than two years ago and was also stationed at Fort Monmouth, N. J. several months. His address, minus the unit identification follows: Cpl. T. Myron P. Belger, 36220554, A.P.O. 4672, Care of Postmaster, San Francisco, Calif.

STAFF SGT. BEN TRANHOLM ARRIVES SAFELY IN INDIA

Mrs. Audrey Tranholm received a letter on Monday from her husband.

West Bend Theatres

West Bend Theatre

Staff Sgt. Ben M. Tranholm, informing her that he had arrived safely somewhere in India with the armed forces. Sgt. Tranholm was formerly stationed at Camp Van Dorn, Miss. before sailing from New York.

MUCKERHEIDE ACCEPTED FOR DUTY ON SUBMARINE

LeRoy Muckerheide, seaman second class, son of Mr. and Mrs. Miles Muckerheide of R. 2, Kewaskum, has been accepted for submarine duty and has been transferred from the Naval Training Station, Farragut, Idaho, to the submarine barracks at Mare Island, Calif. In a letter to his folks, Muckerheide wrote that out of 1,000 men who applied for submarine duty, only five were accepted and he was one of the five. He passed the rigid physical requirements and mental tests. Many men were not accepted because of being unable to stand the air pressure in a submarine and took to bleeding. Seaman Muckerheide will temporarily be stationed at Mare Island to take a course of studies and then will go on submarine duty. Later he will likely be sent to an overseas submarine base for further training. LeRoy made the trip from Farragut to Mare Island aboard a sub. His address is: LeRoy Muckerheide S/2e Submarine Barracks, Navy Yard, Mare Island, Calif.

PVT. BRANDT ON TOUR OF WISCONSIN CITIES

Pvt. Melvin Brandt, son of Mr. Louis Brandt, is accompanying the 74th Military Police Battalion of Camp Skokie Valley, Ill. on its tour of 13 Wisconsin cities at present. On July 2 Pvt. Brandt returned to Camp Skokie from a similar tour of 24 cities in northern Illinois. The tour, a salute to agriculture, industry and labor, is a training maneuver and all of the normal activities of a camp's routine are displayed. In caravan, the men and equipment and vehicles of the battalion extend for a distance of six miles. In each city a parade, sham battle show, concert and establishing of a camp are displayed, including the showing and demonstration of the battalion weapons such as cannons, anti-aircraft guns, tanks, jeeps, airplanes, etc. The entire military band of the 74th is along on the tour and several broadcasts over the Wisconsin network are scheduled. A drill team, WACS and overseas veterans of World War II are along. Many famous musicians, composers, singers, comedians and radio stars are on the tour. Major Wayne King, noted orchestra leader, is master of ceremonies. Horace Henderson, writer of "Christopher Columbus" and many famous "jive" tunes, directs the orchestra, composed of former members of Duke Ellington's, Cab Calloway's and Henderson's bands. The battalion visited Janesville July 17 and 18, Beaver Dam July 20, Fond du Lac July 21, Oshkosh July 22, Appleton July 23 and will visit Green Bay July 24 and 25, Manitowish July 27, Sheboygan July 28, Waukesha July 29, Milwaukee July 30, 31, and Aug. 1, Racine Aug. 3, Kenosha Aug. 4 and Waukegan, Ill. Aug. 5. A picture of Pvt. Brandt, on parade with Company C of the battalion in one of the cities on the Illinois tour, appeared in the Skokie Muehlen, battalion newspaper, on July 15, a copy of which we have.

SCHMIDT CHIEF OPERATOR

In a letter to his folks, Mr. and Mrs. George H. Schmidt, Staff Sgt. Howard Schmidt, who is stationed somewhere in China with the army signal corps, writes that he has been promoted to chief operator. He is a radio operator. Howard also sends his regards to his many friends back home.

TRANSFERRED MANY TIMES

Cpl. Harry J. Wahlen, son of Mrs. Theresa Wahlen of Milwaukee, formerly of this village and St. Kilian, is now stationed at Florence, S. C. He has been transferred many times since entering service last October. After entering the army he was sent to Sheppard Field, Tex., where he attended airplane mechanic school for about three months. There he was given the rating of private first class. In April he left there for Ingleswood, Calif., where he attended school at the North American aviation plant studying the B-25 bomber. While there he received another promotion to corporal. Upon graduating he was transferred to Kansas City, Mo. and then to Savannah, Ga. for a few weeks at each place. Then he was transferred to his present destination, where he is assigned to the 15th Reconnaissance Squadron. This is a B-25 bomber base where combat crews are trained. In a letter to his cousin, Adolph Wahlen, R. 3, Kewaskum, Harry writes that he enjoys life in the army and says he enjoyed the mail he received from former classmates here through our printing his address in the paper. He gives his regards to all. The present address: Cpl. Harry J. Wahlen, 15th Recon. Sq., F.A.A.F., Florence, S. C.

COMPLETES COURSE; IS HOME

William Roehrdanz, son of Mr. and Mrs. August Roehrdanz of Kewaskum rural route, is spending 10 days at his home after completing a course in radio work in the signal corps at Philadelphia, Pa. After his furlough, Roehrdanz expects to be transferred elsewhere for an additional radio course. Not classed as being in active duty as yet Bill has not been given a rank or issued a uniform. He will receive a uniform when he reports back to duty. Roehrdanz was formerly employed by the Felix Radio Service in Kewaskum.

PVT. KARL TRANSFERRED

Pvt. Sylvester Karl of Kewaskum rural route has been transferred from North Camp Hood, Tex. to Camp Gordon, Ga. according to a brief letter received from him. He writes:

Dear Bill:

I got to my new camp this afternoon. I had a swell trip down here. We went through five states on the way down here. The temperature is about the same here as Texas, except the air is damper.

My address is as follows: Pvt. Sylvester Karl 36896681, A.P.O. Cavalry Reconnaissance Troop, Camp Gordon, Georgia.

Closing now with the hope this finds the friends back home all well and regards to them all.

As ever,

"Syl."

SELECTEE AT CAMP LEE

Pvt. Elmer R. Rauch of Fond du Lac, son of Wm. Rauch of this village who left for Camp Grant, Ill. on July 6 with a Fond du Lac county contingent of men, is now stationed at Camp Lee, Va. His address: Pvt. Elmer P. Rauch, Co. A 36825765, 7th Qm. Trr. Regt., T. 499, Camp Lee, Va.

STAHLER BACK TO CAMP

Cpl. Sylvester E. Stahler has returned to Fort Benning, Ga. after spending a furlough with his folks at St. Michaels and friends here. He is a baker in the army.

SELECTEE AT CAMP GRANT

Pvt. Alfred "Ollie" Uelmen, whose wife resides at Plymouth, a son of Mr. and Mrs. Jos. Uelmen of West Bend, until recently residents of this village is now stationed at Camp Grant, Ill. where he will be given his basic training. Pvt. Uelmen was inducted into the army recently and left for service July 10.

ADDRESS GIVEN

Following is the new address of Pfc. Harold O. Krueger son of Mr. and Mrs. Wallace Krueger of the town of Auburn, who recently was transferred from Fort Fisher, N. C. to Camp Butler, N. C.: Pfc. Harold O. Krueger 36298757, Btry. D. 391st A. A. Bn. Camp Butler, N. C.

WEILAND HOME

Staff Sgt. Leander Weiland, who is stationed in California, is spending a furlough with his parents and friends at St. Kilian.

Bluegrass seed is going to be scarce. The current seed crop is the smallest in four years and only half as large as last year, reports the federal Bureau of agricultural economics.

County owned lime equipment is paying its way in Sheboygan county, reports the county agent.

Weddings

(CONTINUED FROM PAGE ONE)

the bride's mother, where a lunch was served at noon to the immediate families and dinner was served in the evening for about 60 guests. The groom is a cheese molder at the Stella Cheese company in Campbellsport.

Guests included Mr. and Mrs. E.J. Mantney Sr. and sons, Herman and Lawrence, Mr. and Mrs. Oliver Grahl and daughter of Eden, Mr. and Mrs. Oliver Hansen and daughter, Mrs. A. H. Schrauth and son of Fond du Lac, Mr. and Mrs. Frank Tank and family of Waupun, Mr. and Mrs. John Burchardt and Mr. and Mrs. Len Ferber of Milwaukee, Mr. and Mrs. Conrad Wondra of Plymouth, Mr. and Mrs. Ed Mantney, Mr. and Mrs. Richard Mantney and Mr. and Mrs. Alvin Lehner of Mayville, Mr. and Mrs. Joe Harasch of Port Washington, Mr. and Mrs. Theodore Rohlinger and family of Kewaskum.

ADASHUN-STEINER

Solemn nuptial services Saturday, July 17, at St. Mary's Catholic church in Lomira united in marriage Miss Maybelle L. V. Steiner of that village and Frank P. Adashun of near Dundee, Campbellsport route. The nuptial mass was sung at 9 a. m. by the Rev. George Goetz. The bridal party entered the church to the strains of "I Love You Truly," sung by Miss Blen Kneiff of La Crosse, a teacher and friend of the bride, who also assisted the choir and sang several other numbers including "Ave Maria."

The bride wore a gown of heavy white satin with a brocaded design, fitted basque, long pointed sleeves with a full skirt. Satin covered but tons adorned the frock which had a sweetheart neckline. The skirt was completed with a train. An English net veil, with frills of satin fluttering caught from hat type halo was fingertip length. White gloves and a pearl and gold beaded bag completed the costume. She carried a prayerbook used when she made her first communion and a crystal rosary. Her bouquet was of mixed dawn and pink roses, blue delphinium, white pansies, bachelor buttons and floral ribbons. For something old she wore a cross and chain belonging to her grandmother, Mrs. Leonard Welsh. The church was decorated with white hydrangeas and summer flowers.

Miss Amelia Adashun, the maid of honor and sister of the groom, wore an aqua marquisette gown. Miss Joann M. Steiner, the bride's sister, was attired in a pink taffeta formal with burgundy velvet bow trim. Miss Irene Tarutis, niece of the groom, wore pale pink shirred marquisette. Miss Margaret Krueger of Wausau wore blue silk lace and Miss Mildred Lindner wore pale yellow taffeta with a full skirt of net. All attendants carried semi-colonial bouquets with white satin ribbon showers. They wore flowers in their hair, attached to ribbon matching their gowns. All wore white mesh gloves and carried Irish linen handkerchiefs, gifts of the bride. Shirley Luedtke, the flower girl, wore a floor length dress of pink taffeta trimmed in blue and carried a basket of white and yellow daisies. Leo Beck, the ringbearer, wore a white gabardine suit.

The groom was attended by Michael Kelly of Chicago, Ill., Alex Beck, cousin of the bride, and Robert Wellander, nephew of the groom, served as ushers. A wedding breakfast, dinner and reception were held for a large company of relatives and friends.

The bride, a city school teacher for the past four years at Wausau, attended the Fond du Lac high school and Calhoun State Teachers college where she received a bachelor of science degree. She is a member of a national honorary society, also a member of the national library foreign language society. Adashun is a dairy and poultry farmer, managing his father's farm as well as his own.

The couple left on a wedding trip to northern Wisconsin, after which they will be at home on the groom's farm near Dundee. Mr. Adashun is a son of Mr. and Mrs. John Adashun and his bride is a daughter of Mr. and Mrs. George J. Steiner.

Among the guests were Mr. and Mrs. Beck of Kewaskum, Mr. and Mrs. John Adashun, Mr. and Mrs. Walter Luedtke and daughter June of Campbellsport.

MANTEUFFEL-GUTEKUNST

Announcement was made in the Milwaukee papers last Thursday of the wedding of Miss Ruth Gutekunst daughter of Mrs. Carl J. Gutekunst, W. Blue Mound rd., and Lieut. Emanuel G. Manteuffel of Durham, N. C., son of Rev. and Mrs. Max Manteuffel, Vincennes, Ind. The marriage took place before the altar of Mount Calvary Lutheran church in Milwaukee at 8 o'clock Monday, July 5, the bride's brother, the Rev. Carl C. Gutekunst, Needah, reading the vows. The Gutekunst family formerly resided at New Fane, where the bride's father, the late Rev. Carl J. Gutekunst, served as pastor of St. John's Lutheran church many years.

The bride attended the Kewaskum high school and is a graduate of the Milwaukee hospital school of nursing. Lieut. Manteuffel is a graduate of Concordia college, Milwaukee, and attended Washington university, St. Louis, Mo. His father is a retired Lutheran minister. Mrs. Manteuffel accompanied her husband to Durham, N. C., where he is an instructor in the army finance school at Duke university.

The bride's dress of bluish Chantilly lace over duchess satin had a pleated bodice with bell shaped elbow length sleeves. A full skirt with sweeping

train was gathered to a tight fitting midriff. She wore short mits of matching lace and carried a bouquet of white gladioli centered with an orchid. Her fingertip veil of English illusion and matching lace.

Miss Helen Gutekunst attended her sister as maid of honor. She wore a dress of aqua chiffon with shirred bodice, cap sleeves and full skirt, and on her head a long streamer tulle.

Mrs. Le Roy Pokel, another sister of the bride, Misses Frances Manteuffel, a sister of the bridegroom, and Marilyn Dietrich, niece of the bridegroom, were bridesmaids. All wore apricot hued chiffon frocks made like that of the maid of honor. They carried soft yellow gladioli.

Walter Manteuffel was his brother's best man. Ushering were Armin Gutekunst, brother of the bride, Le Roy Pokel, brother-in-law of the bridegroom, and Walter Prosek, cousin of the bride.
