**PETER B. PEEVE**  
RAKES TURN UP IN THE MOST UNEXPECTED PLACES

**POP**  
By J. Millar Watt

ONE OF THESE DAYS I'M GOING TO WRAP MYSELF IN BARBED WIRE

AND GIVE HIM THE SURPRISE OF HIS LIFE!

**SOMEBODY'S STENOGR**  
WNU Features.

DID YOU NOTICE THAT DAME WHO WAS SEEING THE BOSS FOR YOUR JOB?

NO, I NEVER NOTICED HER!

**SUPER-DUMB DORA!**  
Harry—What position does your brother play on the baseball team?  
Mary—A sort of crouched, bent down position!

**Perfect Prescription**  
Doctor—You look much better today.  
Patient—Yes, I followed the directions on your medicine bottle.  
Doctor—What were they?  
Patient—Keep the bottle tightly corked!

**Real Vacation**  
Brown—I love summer resorts.  
Blue—But I thought you told me you'd never been at one.  
Brown—That's right, but my wife has!

**Free Ride**  
MacTavish and the conductor had a heated argument over the fare. Finally in disgust, the conductor threw Mac's suitcase out of the window of the train just as they passed over a river.  
"Mon," screamed Mac, "It isn't enough to overcharge me, but now you try to drown my little boy!"

**Solution No. 1**  
Nit—How can I avoid falling hair?  
Wit—Duck or hold a newspaper over your head!

**ETERNAL PUNISHMENT**  
An ardent golfer died, and as he had not led a very good life he went to "the other place." Here, to his surprise, he found a beautiful golf course—delightful fairways, perfect greens, clubs ready to hand and even a caddy. He thought that this was too good to be true, and picked up a club. Then he looked for a ball. Finding none, he asked the caddy.  
"Ah," replied the caddy, "there isn't one. That's where the catch comes in!"

**Fast Worker**  
First Stenographer—How's your speed?  
Second Ditto—Fine, thanks! I've only been working here six weeks and I'm engaged to the boss already.

**Just the Type**  
Plumbing Contractor—Have you got any references?  
Job Applicant—Yeah, but I left them at home. I'll go and get 'em.  
Plumbing Contractor—Never mind, you'll do!

**Tongue Twister**  
Auntie—Have you lost another tooth, Betty?  
Betty—Yes, Auntie, I limp now when I talk.

**Rosy Future**  
Pessimist—My business is flat on its back.  
Optimist—Well, it must be looking up then!

**Without a Rash**  
Nit—Is kleptomaniac catching?  
Wit—No, it's taking!

**DOUBLE CHECK**

Jane—Would you go out with a fellow who has a past?  
Joan—It all depends on whether he has a present for me.

**Last Howl!**  
Neighbor—Your dog howled all last night.  
Owner—They say that's a sign of death. Whose, I wonder?  
Neighbor—If your dog howls tonight, it'll be his!

**From Nine to Three**  
Harry—Wanna get in on something there's a lot of money in? I can let you in on the ground floor!  
Jerry—Sure. What is it?  
Harry—The Second National bank—I just got a job as doorman.

**Trained to Take It**  
Jimmy—Mom sometimes shouts and yells at Dad for hours. But he just stands and smiles.  
Tommy—Is he deaf?  
Jimmy—No, he's a baseball umpire!

**All Rotten**  
Joe—I got sick yesterday just from eating eggs.  
Bill—Too bad.  
Joe—Two? I think all of them were!

**Star Dust**  
STAGE-SCREEN-RADIO  
By VIRGINIA VALE  
Released by Western Newspaper Union.

EVERYONE who's interested in movies has heard of Pickfair, the stately white house that Douglas Fairbanks and Mary Pickford built on a Beverly Hills knoll 25 years ago—where they sat side by side at dinner parties, and lived a dignified and gracious life. Well, RKO persuaded Mary to let its sweeping lawn be used as the backdrop for scenes of "That Hunter Girl," a picture about the richest girl in the world. Laraine Day and Alan Marshal, Marshal Hunt and Alyn Jostyn, were to get involved in the sprinkler system. But—RKO had to install special pipes for the water, then the sun wouldn't shine—you'll see Pickfair as a background, but credit RKO with a struggle to show it to you!

Republic Pictures executives are sort of going all out on their new musical, "Brazil," what with casting Tito Guizar, that favorite of con-

TITO GUIZAR

cert stage and radio, as the lead, and adding Veloz and Yolanda, the dance team, and Edward Everett Horton for good measure.

There was a reason why Carole Landis tossed a dinner party for her co-stars, Pat O'Brien and George Murphy of "Having Wonderful Crime," as well as Producer Bob Fellows and Director Eddie Sutherland, just before the company went to Del Monte on location. Jack Plangini was her cook before resigning two years ago to enroll in the merchant marine—and his ship was in port—and he volunteered to return for an evening.

Italian natives and American and British soldiers on Italian soil are enjoying a daily full-hour of recorded music by Arturo Toscanini and the NBC symphony orchestra; the program is presented every night over the Naples radio station, under the direction of the Allied military authorities, and consists of compilations of recordings, many of which were made from actual Sunday broadcasts heard here.

Jean Heather, Paramount actress, received a cuff link the other day, on the set of "Murder, He Says." She gave it to Lieut. Dan David, and he wore it in his cap while completing 90 missions against the Japs. "Had to bring it back to you," said he, returning it.

Don Barry, star of many Republic action western films, returns to the studio to go to work there, after a six months' tour of army posts on three fighting fronts. His return will be marked by stardom in straight dramatic roles.

Cass Daley, the comedienne, is forming a non-profit entertainment enterprise called "Laugh Makers Unlimited." Her idea is that funny folk of pictures and radio will pool their ideas and talent in working up comedy shows to be given at service hospitals on the West coast.

Better see "Attack!" The U. S. signal corps is responsible for photographing it; it's a six-reeler which chronicles the Battle for New Britain. It brings to the screen the complete beachhead storming operation from beginning to end, is the first war picture that shows an attack from inception to consummation; it represents the Arawe beach attack on December 15 and the December 25 pressing on to Cape Gloucester.

Kay Kayser's going to take a vacation, his first in six years on NBC; starting July 5, Phil Harris will take his place for eight weeks. The band and soloists will stay right on. And for his vacation Kyser goes overseas, just where is a military secret.

**ODDS AND ENDS**—That replacement show for Bergen and McCarthy sounds very nice—there's Grace Fields, Bill Goodwin as announcer, and Lou Brink, with a 20-piece orchestra playing his famous arrangements. . . . Veronica Lake has gone kissless in her last four pictures; she makes up for that with torrid love scenes with Sonny Tufts and Eddie Bracken in "Bring on the Girls." . . . Sonny Tufts lived in an auto court while starring with Paulette Goddard Meredith in "I Love a Soldier"—now he's bought a house with three on a half acre on a hill. . . . Alana Ladd, daughter of Alan, received 2,700 cards and letters from daddys on her first birthday anniversary.

When you see Betty Hutton in "Incendiary Blonde," look for a woman who plays a hysterical spectator. She's Mabel Adams, Betty's mother. Director George Marshall thinks she has the making of a charming character comedienne.

Diana Lynn, the cute youngster in "The Miracle of Morgan's Creek," will play her own arrangement of the first movement of Grieg's piano concerto in A Minor on that coffee program that's been moved from Thursday to Friday evening.

**PATTERNS**  
SEWING CIRCLE

1946 36-52  
1984 11-18  
Crisp Charm

CRISP and gay and youthful is this pearly flared jacket over a full-gored skirt. It will make up smartly in all sorts of materials—from flowered crepes to starched and shining piques and tubbale cottons.

Barbara Bell Pattern No. 1984 is designed for sizes 11, 12, 13, 14, 15, 16 and 18. Size 12, short sleeves, requires 4 1/2 yards of 39-inch material.

Barbara Bell Pattern No. 1946 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires 4 1/2 yards of 39-inch material.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

**Tongue is Chameleon's Gun; It's Snake's Ears**

Tongues of certain animals and insects are far more efficient than those of man. The chameleon's tongue, for example, works like a pop-gun, hitting with unerring aim insects on the barks of trees and whisking them back on its sticky tip into the creature's mouth.

Nature forgot to give the snake ears, but she gave it a tongue equipped with auditory organs that enable it to amplify the slightest sound. The snake also employs its tongue as a "feeler" in the dark.

Another marvelous contraption lies in the butterfly's mouth. Consisting of two spiral tubes, when uncoiled and at work it sucks up the juices of flowers like a vacuum cleaner.

**JUST**

**Dead Wreckoning**  
Driver—Examiner—What would you do if the car brakes suddenly failed to work?  
Pupil—Hit something cheap.  
"What is a 'problem child?'" asked a reader. Just another example of mind over mater.

**His Failing**  
Mr. Puff—I can go out with any girl I please.  
Miss Ruff—Too bad you can't please any of them, isn't it?

**Has Had Enough**  
Teacher—This makes four times I've had to punish you this week. What have you to say to that?  
Bobbie—I'm glad it's Friday, teacher.

**A Coverup**  
Mister—What do you think would go well with purple and green socks, dear?  
Missus—Hip boots.

**Real Problem**  
At the airport, every time a plane took off, the cook's dog dashed along the runway in pursuit.  
"Does your dog always do that?" asked a newly arrived officer.  
"Yes, sir."  
"Why?"  
"I dunno, sir; but what worries me is what he's going to do with it when he catches one."

**Hobbled**  
Joan—I think I lost a dollar.  
Jasper—Don't worry. It's around here some place. You know a dollar doesn't go far these days.

Remind yourself to ask for **Clarion** when Radios are again available

The radios that CLARION will offer in the post-war era will be as fine as engineering and mechanical skill can conceive or money can buy.

Styled right—built right—and priced right—it will pay you to put a reminder string on your finger today so that on some still unknown tomorrow you may go to your favorite retailer to see the CLARION set you have in mind.

Your CLARION dealer will be able to supply you with the radio you want and need—whether a table model, portable, battery set, console or radio-phonograph.

All these will have exquisite tonal quality and accurate selectivity. Somewhere in the CLARION line you'll find the type of set you are looking for, at a pleasing price.

Watch for CLARION when Peace removes all merchandising barriers.

HORN HOME; TRANSFERRED
Pfc. Francis A. Horn, who was transferred recently from Camp Pickett, Va. to Fort Bragg, N. C., arrived home last Thursday to spend a 15-day furlough at the home of his parents, Mr. and Mrs. Peter Horn, and daughter, Pfc. Horn has two brothers in service. His new address is Pfc. Francis A. Horn, Hq. Btry, 952nd F. A. Bn., Fort Bragg, N. C.

HERBERT MADE CORPORAL
Gordon E. Herbert, son of Mrs. Mary Herbert of Kewaskum, has been promoted from private first class to the rank of corporal at an overseas base in the European theater of operations, according to announcement from the public relations section of the U. S. army.

REINDEL BACK AT HOSPITAL
Pvt. Roger Reindel returned to the Mayo General hospital at Galesburg, Ill. the forepart of this week after spending a furlough with his parents, Mr. and Mrs. George Reindel, and relatives and friends. Reindel returned to the states a few weeks ago from Italy, where he was wounded in action early in the year. He was confined in hospitals in Italy and Africa before returning to the states and was transferred from a hospital in South Carolina to Galesburg to recuperate. Shot through the leg, he gets around with the aid of crutches.

PFC. LOUIS HEISLER HOME
Pfc. Louis Heisler Jr. of Gulfport Field, Miss. arrived home early Friday morning to spend a 15-day furlough with his parents, Mr. and Mrs. Louis J. Heisler, and relatives and friends. He will leave for camp again about June 23.

TRANHOLM MADE 1ST SGT.
Benjamin M. Tranholm, who is stationed at an overseas base, has been promoted from staff sergeant to the rank of first sergeant, according to word received by his wife, Mrs. Audrey Tranholm of Kewaskum.

PROMOTE HOWARD BACKHAUS
Mr. and Mrs. Otto Backhaus received word the past week from their son, Pvt. Howard Backhaus of Fort George G. Meade, Md., that he has been promoted to the rank of private first class.

MARINE HOME; TRANSFERRED
Pvt. Oliver Eichstedt left again Sunday noon after spending a 10-day furlough with his parents, Mr. and Mrs. Arthur Eichstedt, and family. Oliver received the furlough after completing his "boot" training and 30 days of mess duty at the marine base at San Diego, Calif. He will report back at San Diego to be transferred to Camp Pendleton, Calif. for further training.

TRANSFER "OLLIE" STAEHLER
Aloysius S. Staehler S 2/c, who spent a leave at the home of his parents, Mr. and Mrs. Alvis Staehler, recently after completing his "boot" training at Great Lakes, Ill., has been transferred to the naval base at Shoemaker, Calif. His new address is Aloysius S. Staehler S 2/c, U.S.N.R.B., Bk. Shoemaker, Calif.

FELLENZ AT NEW AIR FIELD
A/S Lynes Fellenz, son of Mr. and Mrs. Peter Fellenz of Route 1, Kewaskum, sends a postcard informing this office that he has been transferred from Sheppard Field, Wichita, Tex. to the Alee Army Air Field at Victoria, Tex. His new address is A/S Lynes W. Fellenz 26336196, Albrecht Trainee Detachment, Alee Army Air Field, Barracks K, Victoria, Tex.

UELMEIN TRANSFERRED; WRITES
Pfc. Frank A. Uelmein of near St. Michaels has been transferred from Camp McCoy, Wis. to Fort Leonard Wood, Mo. His address is Pfc. Frank A. Uelmein 38216818, Hq. Btry, 75th F. A. Bn., Fort Leonard Wood, Mo. In a brief letter, telling of his transfer, he writes:

"The Bill and all:
'Will drop you a few lines telling you of my transfer from good old Camp McCoy, one of the finest camps in the U. S. A. I think, to this place, Fort Leonard Wood, Mo. I'm assigned to headquarters battery, 75th F. A. Bn.
'That's all. Where I am right now it is getting kinda dark in the woods, so you know where I am writing these few words.
'I'll sign off now, wishing you all my best wishes to our good state of Wisconsin.'
Love
Frank

PFC. KRUEGER WEEK ENDS
Pfc. Harold Krueger of Camp Atterbury, Ind. was home Sunday on a week end pass to visit his folks, Mr. and Mrs. Wallace Krueger, and son in the town of Auburn.

NOTICE TO READERS
This column is cut shorter than usual due to the double page war loan drive spread in this issue. We have letters from WAC Fern Burke of Fort Oglethorpe, Ga. and Pvt. James Andre in North Africa, which we will give to you next week among other items.

Robert Rumel is a grandson of John Thill and will be inducted into the army June 21.

MILLERS SAY INVEST WISELY. BUY WAR BONDS AND HOME FURNISHINGS.—adv.

ST. KILIAN SCHOOL NEWS

It is an annual custom for the 7th grade pupils to sponsor a picnic for the graduating class. This event took place on June 5th at the West Bend park. At ten o'clock in the morning the 7th and 8th graders with their teachers drove to West Bend to enjoy the day. The lunch baskets contained all kinds of good things to eat. At noon time everyone professed a hunger which lightened the lunch baskets considerably. The boys enjoyed several good games of ball. The girls amused themselves on the swings and slides in the park. At 5 o'clock the cars arrived to take the picnickers back to St. Kilian.

On Tuesday the good ladies of our parish met in the school for the purpose of giving the classrooms and corridors a good cleaning. At noon the work was finished. A hearty "thank you" to the ladies who helped.

Check and service emergency brake. 6. Help you and your family to have maximum driving safety. Come in for these vital services—today! "FIRST IN SERVICE" HONECK & SONS, Inc., Kewaskum, Wis.

### County Agent Notes

#### 10 DAY ORCHARD SPRAY

Most farm orchards will be ready for the 10-day orchard spray during the second week in June. This spray is for the control of scab, cherry leaf spot, brown rot of plum, cankerworm, curculio, and the first brood of codling moth. The materials to use are two gallons of liquid lime sulphur, three pounds of lead arsenate dissolved in 100 gallons of water.

The weather has been favorable for the development and growth of orchard insects and diseases. Fruit growers are cautioned that it will pay them well to keep the foliage and the growing fruit covered with the above spray solution at all times. In 10-12 days following this application a similar one should again be made. With the value of farm orchard fruits as high as it is this year no fruit grower can afford to neglect the production of clean fruit by his failure to apply a sufficient amount of spray material at the proper time.

#### SPITBUGS BECOMING NUMEROUS

The little green bug which protects itself with a thick coat of white foamy saliva, and which is commonly known as the spitbug, is making its appearance on numerous vegetables and particularly on strawberries. These bugs are sucking bugs and suck the juice of the plant they infest causing the plant to wither and dry up. They are particularly damaging in strawberry fields.

The bug can be controlled with a heavy application of rotenone dust. This dust can be applied directly to the plant at any time during the day when the sun is shining and the air is fairly warm. On cool, cloudy days these insects are not active and dusting will not have the best effects.

#### POTATO FLEA BEETLE CONTROL

Flea beetles on potatoes can be controlled with either a Bordeaux spray or with a rotenone dust. Bordeaux can be purchased at local insecticide stores with full directions printed on the package for making the spray solution. On small fields the spray can be applied with a three gallon knapsack type sprayer. The use of a rotenone dust makes flea beetle control easier work than applying the spray. The dust may be applied any time during the day or evening when there is little or no wind. Never use dust as an insecticide when a strong wind is blowing as the wind will carry the dust away from the plant.

Potato beetles, which are commonly known as potato bugs are best controlled with a spray mixture consisting of two tablespoonfuls of lead arsenate dissolved in one gallon of water. This should be applied when the potato beetles are in the growing or larva stage.

#### DISTRICT 4-H CLUB MEETINGS

Project meetings for special help to 4-H club members in the dairy, garden, and foods projects were held this week at the following places:

- June 12—2:00 p. m., Alfred Horst home; June 13—2:00 p. m., John Kopp home; June 14—7:30 p. m., Jacob Jantz home; June 14—2:00 p. m., Joe Matecnaer home; June 14—7:30 p. m., Willard Gerner home; June 15—2:00 p. m., Harry L. Klasinger home; June 16—2:00 p. m., Christ Mayer home; June 16—7:30 p. m., Wm. Kuhn home.

Club members were urged to attend the district project club meeting which was assigned to them. Al. C. Jindra, assistant county agricultural, and Miss Gwen Broege, county home agent, were in charge of the district meetings.

#### LET'S GET RID OF POISON IVY

This poisonous pest with its shiny, three-part leaves and its clusters of waxy, greenish-white to cream-colored berries is not sufficiently familiar to far too many. As a perennial shrub it may grow three to four feet high but usually is much smaller. By means of rootlets sent out from the stems it may climb trees, fence posts or other objects. It is found in woods, parks, orchards, fence rows and roadsides, and is the cause of much human misery, medical expense and the loss of thousands of man hours of labor each year. It can and should be eradicated wherever it is found.

#### CHEMICAL SPRAYS ARE MOST EFFECTIVE

The best time to apply the following spray solutions is during July and early August when the poison ivy is making its most luxuriant growth. Control will be less effective if made earlier or later in the season. The spray applications may be made with knapsack sprayers or power sprayers and should be made several hours in advance of any expected rains.

Ammonium sulphamate—most effective known chemical poison ivy treatment—is sold at present only under the trade name of Amvite Weed Killer. This is a very recent product and the most effective available material for eradicating the plant. It may be purchased from the F. R. Gifford company, 2201 University avenue, Madison, or from Bouley Bros. company, Fond du Lac. It is not recommended for the control of any other noxious perennials weeds at the present time.

For poison ivy dissolve 1/2 to 1 pound in 1 gallon of water and apply this solution at the rate of about 1 gallon to 100 square feet where the plants are in solid patches. Scattered plants should be sprayed only enough to thoroughly wet all leaf surfaces.

No fire hazard is involved in using this spray material. It may safely be applied to poison ivy growing among dry leaf litter in wooded areas or orchards. Poison ivy growing near trees and shrubs may safely be sprayed with this material without injury to the trees and shrubs provided the spray solution does not contact the leaves or young bark of such plants. Spray equipment should be thoroughly rinsed after using.

Sodium chlorate is a well known weed killer in Wisconsin. It is not as effective on poison ivy as is ammonium sulphamate. However, since it costs only one-half to one-third as much it may be used on poison ivy in waste areas, along fence rows and in places where there is no fire hazard nor danger to valuable trees or shrubs.

Dissolve 1 pound in 1 gallon of water and spray this amount of solution on approximately 100 square feet. Scattered plants should be sprayed only enough to thoroughly wet all leaf surfaces. It is very important when spraying with sodium chlorate that both upper and lower leaf surfaces be thoroughly wet and that no rain occur for at least 1 to 12 hours after spraying.

Do not apply sodium chlorate any closer than 10 feet of valuable trees or shrubs nor in woods or parks where dry leaves or weeds are abundant. Chlorate solutions should be kept off clothes and other combustible materials. Clothes which become contaminated should be thoroughly washed before placing aside or being worn again.

Poison ivy plants which recover after treatment with sodium chlorate or ammonium sulphamate should be re-treated when they have produced several good sized leaves.

#### GRUBBING REQUIRES CARE

Poison ivy spreads very rapidly by shallow underground stems. Such stems may spread onto a lawn from a wooded area or fence row. Eradication by chemicals in such areas without injury to the lawn is impossible in such cases grubbing is the best solution. Grubbing of poison ivy in other areas may also be done if care is taken. Persons who engage in this operation should have their druggist prepare an anti-poison ivy cream according to directions given in volume 55, pages 1327 to 1332 of the U. S. Health Reports for 1940.

This cream when freshly prepared every two weeks and applied to any exposed parts of the skin will prevent poisoning when working around or hiking through poison ivy infested areas. The cream should be washed off with ordinary laundry soap and be freshly applied every half day. Gloves should be thoroughly washed before setting aside or being worn. Whenever poisoning does result a physician should be consulted at once. There are no remedies which will cure the poisoning. The best that known remedies can do is to relieve the skin irritation.

E. E. Skallskey, County Agent.

#### Home Demonstration Agent NEWS NOTES

—BY— GWENDOLYN BROEGE County Home Agent

#### ASK HOUSEWIVES CONTINUE SAVING KITCHEN FATS

Now that lard is off the ration list, Washington county homemakers are asking if they still need to save their used kitchen fats and oils.

Miss Broege, home demonstration agent, Washington county, passes on this information from Mrs. Margaret McCordic, home management specialist at the University of Wisconsin. Mrs. McCordic explains that there are two types of fats—hard fats and soft or liquid fats. She says the real shortage is in HARD fats, the type formerly imported to the United States. Salvaged kitchen fats are hard fats, and she explains that's why so much emphasis is being placed right now on the fat salvage program. It is estimated that about 500,000,000 pounds of kitchen fats are wasted annually. The fat salvage collection goal is less than half that.

In assigning the reason for taking lard off the ration list, Mrs. McCordic says that rationing is popularly believed to be a control on the quantity of food civilians receive, though actually its primary function is to give each consumer an opportunity to obtain a fair share of the available supply. The most effective means of control is at the source—by limiting the manufacturer. Obviously, this cannot hold true with lard, since lard is a by-product of the hog slaughtering and curried lard production would result in curtailed meat production. Therefore, in a period of heavy slaughter such as the last few months, the production of lard exceeds the normal, and when all storage facilities are filled, it is necessary to remove restrictions on its use until the supply is reduced. This situation was responsible for lard being taken off rationing.

With the removal of lard from rationing, the civilian demand on the companion products, shortening and cooking oils, which are largely interchangeable with lard, decreased to a point where the supply became adequate to provide equitable distribution to consumers without rationing. Accordingly, in line with the governmental policy of removing restrictions whenever they are no longer needed, shortening and cooking oils no longer require ration points.

#### Attend Aquatic School to Take Water Safety Course

Bette Mae Benedict and Marjorie Nielsen of West Bend and Ernest Mitchell of Kewaskum are attending the Red Cross National Aquatic school at Excelsior, Minnesota, for intensive training in water safety, swimming instruction and life saving. The course of instruction runs from June 7 to 17. Miss Benedict, who is a certified Red Cross swimming instructor, is taking a refresher course and will be in charge of the West Bend Red Cross swimming instruction and water safety courses at the park this summer, assisted by Miss Nielsen and Mrs. Henry Schowalter who obtained her instructor's certificate at the Oconomowoc water safety school last summer. The Red Cross water safety activities are given each summer in cooperation with the recreational program of the West Bend Athletic commission. This year Harold Hoopman will be in charge of the entire park program.

Ernest Mitchell will supervise the summer recreational program at Kewaskum. He is taking the water safety course in order to enlarge the activities of the summer program at Kewaskum where we also have splendid swimming facilities. Our citizens in West Bend and Kewaskum are indeed fortunate in having well trained instructors in the latest and best methods for swimming and life saving activities.

#### Norwegian Will Speak at Annual Red Cross Meeting

Mrs. Julie Marie Colbjornsen, wife of a Norwegian Parliament member and a Red Cross volunteer in two nations, will speak at the annual meeting of the West Bend Red Cross chapter June 23. This will be a 6:30 dinner meeting and is open to the public. Reservations should be made at the Red Cross office before Saturday, June 24. It will be held at the Fifth Avenue Methodist church in West Bend and the cost will be 55c per plate.

While her husband was assigned to the dangerous task of taking the gold of the Bank of Norway out of the country by rowboat, Mrs. Colbjornsen remained in Norway for a full year with no word from him. When she discovered that her name was on the Gestapo list she made her escape alone on skis across the mountains in Sweden, then to Turkey, India and South America and finally to the United States where she joined Mr. Colbjornsen.

Resuming her Red Cross work soon after her arrival in Washington, this noted volunteer became a member of the first nurses aide class to be graduated in this country. After serving in two hospitals as an aide, she became assistant captain in charge of nurses aides' activities in several clinics in Washington, D. C. She has more than 1,000 volunteer hours to her credit.

This interesting speaker is widely traveled and speaks French, German, Icelandic, Swedish, Danish, in addition to English and Norwegian. She attended the National Dramatic School of Norway and made her stage debut in Carl Miller's drama, "The Flame." All local Red Cross workers who have uniforms for their branch of service are asked to wear them at this annual meeting.

#### FARM AND HOME LINES

With 685 proven dairy sires, Wisconsin leads the nation. This is the announcement of Glen Vergeron, in charge of dairy herd improvement association work in the state. There are more than 3,100 proven dairy bulls in the United States.

A new variety of spring wheat, called "Henry," has been developed by plant breeders at the Wisconsin Experiment station. It is expected that this variety will mean as much to spring wheat in Wisconsin as Vicland does to oats.

Wisconsin farmers are being urged to make every effort to harvest clover and alfalfa seed this summer. More than \$17,000,000 has been advanced to 32 borrowers from the Rural Electrification Administration in Wisconsin.

Maple sugar and syrup production in Wisconsin this spring was slightly larger than a year ago, declares the state crop reporting service. During the past year 1,896 head of livestock were killed or injured on the right-of-way of one railroad whose lines serve Wisconsin.

Mandarin 507 and Wisconsin Early Black are early soybean varieties recommended for use in upper Wisconsin.

High school athletes are being recruited as farm workers this summer. It is estimated that there are 25,000 high school athletes in the state.

#### OFFICIAL NOTICE

Public notice is hereby given that the following application for Class "B" license to sell intoxicating liquors within the limits of the Town of Kewaskum, Wisconsin, has been filed in the office of the clerk of said town of Kewaskum, under the provision of the Wisconsin Liquor Control Law and the granting of same is now pending: Name Location MATH H. HERRIGES—South side of Highway 28, at St. Michael's Wis. Dated this 1st day of June, 1944. 6-9-2p A. H. Seefeldt, Town Clerk

#### CLASSIFIED ADS

FOR SALE—Two-burner electric plate with 3-way switch; like new. Inquire at this office. 5-26-4p

FOR SALE—Purebred Holstein yearling bull. Can deliver. E. J. Schowalter, Jackson, Wis. 6-9-2tp

FOR SALE—1-burner oil stove with oven, also kitchen table. Inquire at this office. 5-26-4p

FOR SALE—House and four lots on East Water street, Kewaskum. Inquire Arthur Stark, R. 1, Cedarburg. 5-26-4tp

FOR SALE—2 apartment brick house on Fond du Lac avenue, Kewaskum, known as the Wesenberg estate. Inquire Art Schramm, Cedarburg, R. 1. 5-26-4tp

FOR SALE—Selected seed potatoes, Chippewas, Katahdan and Sebagoes. Also 105 days hybrid seed corn. Inquire at Chevrolet garage, Kewaskum. 5-5-4p

FOR SALE—Horses, milk cows, service bulls, straw and corn. K. A. Honck, Chevrolet Garage, Kewaskum. 2-9-4p

#### Ration Notes

DO YOUR BUSINESS WITH THE RATION OFFICE BY MAIL. PROCESSED FOODS: Blue stamps A3 to V8, inclusive, good for 10 points each, indefinitely.

MEATS AND FATS: Red stamps A3 to W3 (book 4), inclusive, good for 10 points each, indefinitely.

PLEASE USE TOKENS WHEN POSSIBLE. SUGAR: Stamps No. 30 and 31 (book 4) valid for five pounds indefinitely.

Beginning May 15th only ten pounds of canning sugar per person will be issued. The remaining allotment will be issued at a later date.

CANNING SUGAR: Applications may be obtained from your local grocery store or from the ration office. You may apply now. Please send spare stamps No. 37 and NOT Sugar Stamp No. 37. Beginning May 15, 1944, two periods in which consumers may apply for home canning sugar became effective, and the maximum to be issued in each period is 10 lbs. per person. The first period, closes July 15th. Second period begins August 1st and closes October 31st.

SHOES: Airplane stamps 1 and 2 (book 3) good for one pair each, indefinitely.

THE WEST BEND RATIONING OFFICE IS ABSOLUTELY CLOSED EVERY FRIDAY AFTERNOON BECAUSE OF BOARD MEETINGS. DO NOT COME TO THE RATION OFFICE UNLESS YOU HAVE MADE AN APPOINTMENT WITH ONE OF THE BOARDS.

FUEL OIL: Fuel oil renewals for heating purposes not in the local office at this time will be considered late applicants and may have to take a cut in rations.

GASOLINE: No. 11 coupons (A book) valid until June 21st for three gallons each. B3 and 4, C3 and 4 supplemental rations good for five gallons each.

HAVE ALL RENEWALS AT THIS OFFICE TEN DAYS BEFORE EXPIRATION DATE.

TIRE INSPECTIONS: Tire inspections for cars have been cancelled. Trucks must have regular inspections. Do not destroy any inspection record you have as they are always required for all gasoline and tire applications.

STOVES: No application needed for stoves used over 90 days. All certificates must be endorsed by applicant.
