# Lunch Box Meals Should Contain Adequate Calories

Keep a supply of cookies on hand because they're so easy to wrap and slip in the lunch box with fresh fruit. Drop cookies with fruit and nuts are excellent from a nutritional standpoint.

#### School Days

School days, school days . . . they should be golden rule days for mothers as well

Most mothers wouldn't hear of the youngster eating a slim sandwich and a coke if they were eating at home, but many of them ignore such eating habits away from home. Each child, who eats out near school, should be thoroughly coached in the selection of his food

If lunch is brought from home, the mother has an accurate check 1 tablespoon chopped, stuffed olives on her child's food. She will be able to tell whether the child eats his food or not by his general behaviour and physical condition.

Now, what are the requirements of a good noonday meal? They are a third of the day's calories and a third, if possible, of the fruit, vegetables, meat or substitute, bread and milk required for good health.

A good idea for the mother who must prepare daily lunches is to have a shelf with all lunch-making

# LYNN SAYS:

Serve Mixed Grills: When you vant something novel and appeite-appealing, put fruit, vegetales and meat together to broil. Here are some intriguing cominations:

Fillets of beef with mushroom aps; tomato slices dotted with butter, sprinkled with salt and

pepper Thick lamb chops with kidneys, bacon and little pork sausage; slices of pineapple or whole, broiled peaches.

Asparagus rolled in thin slices f ham; sweet potatoes in apple r orange shells; mushroom aps and cauliflower flowers. Sweetbreads placed on ham or anadian bacon slices; mushroom caps and bananas wrapped in bacon.

and marmalade. Lastly fold in egg and milk Bake in a well greased bread tin (let mixture stand in tin 10 minutes before baking) then use a moderate (350 degree) oven for % to 1 hour.

If sandwiches are the mainstay of the box lunch, they should be just as interest-

ing as it is possible to make them. Have the bread moistly fresh, use softened butter, or a flavored butter

(like chili or mustard butter), have the filling well seasoned and not too dry. If using lettuce, have it washed well and very carefully dried. You'll like ome of these ideas:

Chili butter: soften 1/4 cup butter and mix thoroughly with 1 tablespoon chili sauce.

Mustard butter: mix 1/2 cup butter with 2 or 3 tablespoons of propared mustard.

## Cream Cheese-Olive Filling.

3 ounces cream cheese 1/4 cup sweet pickle relish 1 tablespoon mayonnaise or cooked dressing

Blend together thoroughly and spread on white or whole wheat bread.

# Liver Spread. cup liver sausage, mashed

1 tablespoon sweet pickle relish 1 tablespoon mayonnaise 1 teaspoon chili sauce Mix thoroughly and use on rye

bread. Here are some thumbnail sug-

# THE PSYCHIATRIST AND THE WORLD

("Psychiatry may play an important part in world peace, United Nations World Health Organization is told."—News Item)

Doctor (looking at the battered world) - Now just relax and be perfectly candid with me. I want to find out what's the matter with you.

World - Can you find anything that ain't?

Doctor - It's all a matter of psychiatry, I think; just a matter of reviewing your past life.

World - Reviewing my past will be no help, doc. It only makes me feel worse.

Doctor - Just leave that to me. Now we've got to find out what has made you act the way you do. Did anything ever happen to you as a child? Did you ever fall out of your high chair?

World - I couldn't say for certain. But I've been falling out of it ever since!

Doctor - I ask that because I observe many bruises on your head. World - You should see the ones in some other places!

Doctor -- Was your home life

marked by violence at any period? World - Sometimes I don't feel that I had any home life; it seems that I was always on horseback or on an army truck.

Doctor - Did you as a child teel frustrated, unable to express youractress, not merely as an underself, balked in attaining your dedressed siren. sires?

World - One time when I showed up with gun powder, which was really a lovely plaything, they bawled me out sumpin' awful. I got licked for that, too.

Doctor - Clear as a bell! They filled your young mind with the feeling of frustrations. Your natural development was thwarted. I'll bet they even objected when you played with poison gas.

World - Yep. What a row they made. I remember they said I would come to no good end and

might even wind up as the kind of boy who would throw atom bombs.

Doctor - Just as I thought! You were never allowed to express yourself fully! You became an introvert, a duplexvert and possibly a nincomvert.

World - Yeah! Ain't parents awful?

(This settles everything. The psychiatrist promises to fix him up in no time. All he has to do is to let himself go, shake off all inhibitions, regard himself as mas. at Republic and radio and personal

#### **By KATHLEEN NORRIS**

THE beauty of the old days when everyone went to church was that religion gives people a code-a rule by which to live and by which to judge their own actions and those of others.

Without religion it is hard to hold young persons to moral law. Their natural question "Why"? has no answer.

Some years ago, the 17-year-old daughter of a friend of mine secretly rented a small Park avenue apartment and entertained her friends there while her mother thought she was merely dining and visiting with perfectly nice school fellows. Her expenses and the apartment were shared by a boy of 18. To all of her heart-broken parents subsequent reproaches she only pertly answered why "why?" Why shouldn't she spend Gran-

ny's legacy that way? Why shouldn't girls and boys live together if they wanted to? Why should she tell her father and mother anything? What was there to be ashamed of? She really did not know the answers.

At first glance youngsters do not see the connection between decency and religion. Religion itself - as demonstrated by many of its ex-

# FORCE OF RELIGION

Religion used to be a much stronger force in American life than it is today. Too many people, particularly the young, see no reason why they can't do what they please. They see older people getting away with all sorts of crooked business deals, with deceit, with infidelity. What is the use of clinging to outmoded dogmas and restrictive moral codes, they ask.

As Miss Norris says in today's article, the young people are de-ceived by the surface of things, where they see so much of greed, stupidity and sin. Much of it is alluring and apparently satisfying. What they don't see, Miss Norris points out, is the thousands and millions of humble people who obey the laws of God and find their greatest happiness in following His Word.

These humble people know that faith and the Holy Law will save young lives from ruin. They realize that doing the generous, forgiving thing is worthwhile, that it brings peace and quiet happiness. It is the only power that can save the modern world

# ansas Re-appraising

#### **By EDWARD EMERINE** WNU Features

States, like men, should not be judged by hearsay. If you have been reading stale joke books, or listening to radio comics, you may have some preconceived and erroneous ideas about one of the greatest of the 48 states. It is time for you to re-appraise Arkansas. A few weeks ago I made an auto-

mobile trip through Arkansas, folowing the general course of U.S. Highway No. 67 from Poplar Bluffs, Mo., to Texarkana. We visited Corning, Walnut Ridge, Newport, Searcy, Little Rock, Arkadelphia and other towns.

We saw fields of rice, corn, cotton and other staple crops on land that was black and rich. We heard the sharp ring of saws biting into both soft and hard woods. We heard factory whistles, too, and saw hundreds of men carrying dinner pails. Horses, mules and tractors furnished power for farming, while huge trucks hauled loads of giant watermelons, fat cattle, milk, oil, lumber, logs, poles, crates of fruits and berries and other products. Fruit trees were heavily laden, the boughs bending low.

#### Progress is Evident. We traveled over splendid paved

roads, across rich coastal plains and through mountain scenery as majestic as any traveler could ever want. There were fine homes, big barns and well-kept acres on either side of the road. There was construction everywhere, for Arkan- sas became a state. sas is building new homes, stores, garages and other structures. Steel, cement, brick and bright new lumber were going into those buildings. New homes, in every stage of construction, were to be seen. Some were near-mansions, while others were simple structures. Barns, sheds and fences were going

up too. Arkansas, we found them friendly, courteous, intelligent. They smiled easily, were proud of their state, and sure of its future. Tourists who had visited every part of the Ozark and Ouachita forest and mountain areas in the northwestern part of the state as well as the lower coastal plains in the southeast had seen just what we saw - construction. progress and resolute faith.

First settlers of Arkansas were the Indians, the Quapaws who lived south of the Arkansas river and the Osages who lived north of it. They called the land Akansa, but somewhere along the way an

NATIVE RESIDENT . . . Ben Laney, governor of Arkansas, is a native and life-long resident the state. He was born in a of small rural area of Ouachita county called "Cooterneck." Before his election as governor, he was a school teacher, drug store operator, oil man, agriculturist

sas was a part of Louisiana from 1804 to 1812, and from 1812 to 1819 a part of Missouri. In 1836, Arkan-

Arkansas is a great agricultural state, with soil new and fertile. Levees, ditches and canals have redeemed alluvial lands along the St. Francis, the Arkansas and Mississippi rivers. The state has an almost inexhaustible timber supply, with forests of pine and hard woods covering nearly two-thirds of

the state. At Eureka, Heber and When we talked to the people of Hot Springs, health-giving waters have visited that state can heartily have long been used.

side

"r" was inserted and a final "s'

Industries of Arkansas are de voted almost entirely to extracting or processing products which originate within the state's boundaries. There are 28 oil and gas producing fields in six southern Arkansas counties and 16 gas fields in five western counties. Petroleum reserves are estimated at more than 300 million barrels and reserves of natural gas at over 1,000 billion cubic feet.

Climate, scenic attractions, recreational facilities and curative waters combine to bring great numbers of tourists and health seekers to Arkansas each year. The state's most widely known attraction is Hot Springs National park, containing 47 hot springs with temperatures up to 145 degrees.

Adjacent to Hot Springs are Lakes Catherine and Hamilton with more than 450 miles of shoreline. Annual spring racing meets are held at Oak Lawn jockey club. Golf is played the year around.

The state's scenic highlands inciude two mountain groups, the Ozarks and Ouachitas, both easily accessible. State parks provide exceptional recreational facilities.

#### Sportsman's Paradise.

Arkansas' duck shooting is nationally famous. Rice fields in the prairie section attract mallards during the winter migration. Deer, quail and turkey provide plenty of hunting, and fishing may be enjoyed in the numerous lakes and streams. "Float fishing" on the White river and some of its tributaries is a unique Arkansas pastime, which is becoming increasingly popular with visitors.

BOB REYNOLDS, Prop. **Closed Every Monday** 

... Yes, sir - I've decided that I'm going to be a farmer just like my Dad. I can't imagine any better place for an American boy to live and work than on an electrified farm like ours. Farm work is as healthy as all outdoors and easy, too - at least since Reddy Kilowatt moved in. Gosh how I used to squawk about hauling water for the kitchen and for the cattle but now our electric water system takes care of all that for us. Dad says our electric water system has paid for itself in labor costs alone not to mention increased production. Our SILO UNLOADER is really something, too - but I'll tell you more about that next month.

EDITOR'S NOTE: This newspaper through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W. Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

# **Provisions of Terminal Pay**

Veterans' Service bureau today contains the answers to countless vious. inquiries which have come to our Washington office concerning provisions of the new terminal pay law for enlisted men, recently signed by the President. Official title to the act is the armed forces leave act of 1946, which, by the way, is the first major revision of armed forces leave policies in 70 years, since the basic law respecting army and navy officers' leaves dates from 1874, with an amendment in 1876.

Here's what the act does: Overall, it gives to about 15 million former army, navy, marine and coast guard members an estimated 2.7 billion dollars in cash and interest bearing five-year bonds.

Essentially the act gives officers and enlisted men and women of all services identical leave rights and limits the amount of leave which any individual may accrue to 60 days, instead of the maximum of 120 days for officers as heretofore.

Men still in active service who While rejecting Russia's proposal have accumulated from 61 to 120 for joint control of the vital waterdays leave as of September 1, 1946, way with Turkey, the U.S. indicatwill be reimbursed in cash and ed its willingness to participate in bonds for the balance over 60 days, a conference to revise existing regand on September 1 will have to ulations and expressed agreement their credit 60 days leave. As more leave time accrues to these persons, they must take their leave or lose credit for it.

> All veterans who already have left the service will be paid in cash and bonds for accumulated leave not taken up to 120 days between September 8, 1939, and September 1, 1946. The treasury, the army and the navy have outlined the following steps to be taken by veterans in applying for their payments:

1. Obtain from any post office in the country a form entitled, "Claim for Settlement Unused Leave" and the instruction sheet which goes with it.

2. Fill out this form, following the instruction sheet. If assistance is desired it may be obtained at any of the 3,000 - odd veterans' community information or advisory cenen to such parties as the Polish ters throughout the nation, or at the Convinced that the U. S. wasn't Workers, Peasants, Labor and So- office of any state or county vet-

Released by Westerr Newspaper Union. CIO'S 'WAGE BOOST' POLICY FORCES INFLATION ON US

WASHINGTON. - Phil Murray called in his CIO union directors for what was supposed to be a replanning of the economic, if not the political line-and who would not?

The news behind the news is becoming so plain it is beginning to show through. The transparency of recent events has been rather ob-

Consider, for no more than a few moments, the salient news of the day upon which the CIO directors were gathering together their belongings to attend the supposed replanning. The Packard Motor company reported its first half-year results upon that day. As CIO is primarily an auto workers union, no report could be more important for Mr. Murray's consideration. It showed this:

> Packard netted a loss on operations the first six months of this year of exactly \$2,590,158. Last year it earned \$1,064,450 in the same period. The loss this year was attributed by the company to the auto and steel strikes for higher wages (increases were granted to the extent of about 20 per cent). Packard was typical of the motor and steel industries. Thus under ordinary circumstances you would expect a depression, or recession, or at the very least certain strongly deteriorating economic consequences to flow from losses.

#### DREW ON RESERVES

These were avoided because the company used its reconversion funds and reserves to hold its final net profits at or near the usual figure. If dividends had been cut, the amount of money going out to stockholders would be less, and consequently there would be that much less to be spent in the flow of the economy. The companies, then, have paid great sums for the strikes, mostly from their reserves and funds, but the economic consequences of the strikes have luckily been avoided because they had this money available

But on the very day preceding the foregathering of the CIO leaders, the OPA announced a price increase for automobiles. on the apparent ground that the companies could not be expected to make money at the old prices in view of the increased cost of labor, materials and what not. The prices of Packard were increased more

In case of veterans from the army, a form for which to apply for a certificate may be obtained at any recruiting office. It is a good idea to have at least one photostatic copy of your original discharge certificate made for your own files.

5. Upon receipt of the claim and supporting papers, the paying officer will examine all documents to make certain they are in proper form for payment, and after the supporting papers, the paying oftheir purpose, they will be mailed back to you. Payment will be made as soon as possible, possibly by October 1. But do not write or call in person to paying officers inquiring about your claim. It will only delay speedy settlement of

6. If the amount of the claim is less than \$50, or if the claimant was last separated from active service before January 1, 1943, payment will be made in full by treasury check. For claims over \$50 payment will be in bonds in multiples of \$25, with a check for the balance. For instance, if the leave claim is for \$219, the veteran will get \$200 in \$25 bonds and a check or \$19. In cases where veterans have died, or in cases where they have been adjudged incompetent, payment will be made fully by check to survivors.

7. All payments will be made at of the last separation from active their enlisted leave compensated 8. All claims must be filed by the bonds is determined by the date ice and are dated as of the first

than the average. It's cheapest car was moved up in the list price from \$1,510 to \$1,624 (about \$114, or 7.5 per cent), while its highest list price auto was jumped from \$2,654 to \$2,863 (\$209, which is about 7.9 per cent). Here then is where we are. No

ledgerdemain (and I do mean ledger) is necessary to figure it out. Several price increases have already been granted. Another is reported to be in prospect, although I do not have any information concerning that. The forces of inflation are so strongly and unmistakably at work no one can pretend to avoid or ignore them. But Packard stock is still selling around \$9 which is hardly inflationary. We have had strikes. losses, have eaten up reserves, have increased costs of materials and workmanship, have held some lines, and some of the CIO leaders have thought the way out is to start the thing all over again with more strikes for another wage increase, which will help force another price increase - a process which would surely be ruinous because it would spread economic waste as if by whirlwind.

## CONTRAST WITH RUSSIA

The AFL could give the CIO bosses some interesting information which should serve as a warning. The Labor Monthly Survey for August has collected recent news reports, penetrating the Russian censorship, and shows these facts: Average wage in a Stalingrad steel plant as late as this July was \$64 a month and in a tractor factory \$82 a month. The AFL composer of that collection of material on Rusisan wages and prices reported: "Automobiles, radios at home, bathtubs, vacuum cleaners and other things the American worker enjoys daily are nothing but dreams." . . .

# PRIMARY 'VICTORIES'

Results in the primaries were not so startling as many commentators tried to indicate. Take Missouri, for instance. This is a state with an historically inquisitive nature. Mr. Truman won there, defeating an opponent in a district adjoining his own. The defeated opponent, Rep. Roger Slaughter, signalized the tragedy by a sharp denunciation of what he called "an alliance" between the CIO political action group and the Democratic national committee. . . .

Also ponder the predicaments beaind the falling of Sen. Burton K. Wheeler, upon the Olympian heights of Montana, which, I think, has tour electoral votes. The cascading of this pro-labor man in the primaries was attended by an endorsement from this same Mr. Truman. But the enigma only begins aere. Wheeler went down, all the sastern reports say, because of the CIO - PAC, which (according to Slaughter) is supposed to have an alliance with Mr. Truman. Figure that one out.

## **Bird Evicted From Plane** In Its Own Best Interests

WASHINGTON. - The housing shortage has finally caught up with Sally, the swallow.

Mechanics evicted her and her three eggs from the hollow rudder Caribs to the entrenched fortress of a Pennsylvania airlines DC-4 of the seamen. Dick noticed for the training plane. They did it, howevfirst time they were protected by er, in Sally's best interests.

While the plane went on flights Sally fluttered worriedly around the hangars at National airport. But as soon as the ship struck the runway on return trips Sally flew to meet it and once more happily perched atop her nest and eggs. The plane is going to be reconverted into a 59-passenger airliner, so the mechanics have set out to find Sally a new home around the airport. Removing the nest, they broke one of the eggs.

## **Diamond Plant Is Held** Up, Robbed in Palestine

JERUSALEM. - Forty Jews, "They could get armed with submachine guns and pistols, held up a diamond polishing plant near Tel Aviv and escaped with \$120,000 to \$160,000 worth of stones.

The robbery evidently was carefully planned and executed. Part arms, or if they had taken them of the bandit gang currounded the building and cut the telephone lines. The others gathered up the diamonds, and then the whole gang

ing chemists, have just completed a test with a group of men and women suffering from Athlete's Foot. These people were told to use Soretone. At the end of only . ten-day test period, their feet were examined in two ways: 1. Scrapings were taken from the feet and examined by the bacteriologist. 2. Each subject was examined by a physician. We quote from the report

"After the use of Soretone according to the directions on the label for a period of only ten days, 80.6% of the cases showed clinical improvement of an infection which is most stubborn to control." Improvements were shown in the symp-

toms of Athlete's Foot-the itching, burning, redness, etc. The report says:

"In our opinion Scretone is of very definite benefit in the treatment of this disease, which is commonly known as 'Athlete's Foot'."

So if Athlete's Foot troubles you, don't temporize with this nasty, devilish, stubborn infection. Get SORETONE! McKesson Robbins, Inc., Bridgeport, Connecticut.
