501 Votes Cast; Dewey Leads Laubenheimer (D) 3984. President Elect Truman 2 to 1 in Village

Well, it's all over but the shouting

and crying. As you all know by now President Harry S. Truman was reelected over Republican Thomas E. Dewey in one of the most stunning upsets in history. Installed with Truman was his running mate, Sen. Alben W. Barkley, as vice president. Truman was counted out by all th public opinion polls and leading na. tional newspapers, magazines an commentators.

The veters also elected a De ic Congress and gave Truman a comfortable majority in the Senate. Down to defeat with Dewey went Republican candidates in key Congressiona races and gubernatorial contests. of the surprises in the election was Truman's victory in Wisconsin by a wide margin. The state went Repub lican four years ago when Dewey car ried it over Roosevelt by 12,000 votes.

Washington county reversed the state pattern by favoring Dewey with 6,680 votes to 4,495 for Truman, However, Dewey's total was more than 2,000 below the vote he attracted in the county in 1944. The village of Kowaskum, as expected, favored Dewey by a large margin although the Dem. ocrats showed a gain in the number of votes polled. Dewey won out by a 2 to 1 margin here, polling 315 votes to 157 for Truman. Thomas receive 2 votes and Wallace 1 in the village and surprisingly enough 25 presidential ballots were left blank. A total of 501 ballots were cast in the village. the second largest number on record.

The village of Kewaskum was the first precinct in the state to get in the plection returns. The polls closed here at 5:30 and at 5:48 the returns had already been sent in to the Associated Atty .- Snyder, 217. Reg. of Deeds-Press, The local returns were the first Pick, 226. Bake Your Fruit Cakes Early (See Recipes Below)

Early Christmas Plan

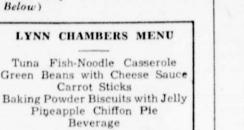

IT'S NOT TOO early to think of Christmas now, especially if you

want to have fruit cake and plum puddings on hand. These foods are best when mellowed and ripened for several weeks be-

fore being eaten. Then, too, it's a good idea to get some of the work out of the way before the holidays are literally on preparing the ingredients for both fruit cake and pudding because they both require chopped fruit and long paper. Store in tightly covered tin. baking and steaming time.

. . . WHITE OR LIGHT fruit cakes find many admirers each year. This tasty. fruit cake is not as heavy as the dark kind, and you may find it nice to vary with the latter variety. White Fruit Cake 3/2 cup butter 134 cup sifted flour 1/2 teaspoon soda 2 tablespoons lemon juice 6 egg whites, beaten stiff 114 cups powdered sugar % cup candied cherries 16 cup candied pineapple 1/2 cup blanched pistachio nuts or almonds 1/2 cup sultana raisins

Dark Fruit Cake

- 1 pound brown sugar
- 1 pound butter
- 1 pound flour
- 12 eggs, beaten separately
- 1 teaspoon soda
- 1 teaspoon grated nutmeg
- 14 pound each, candled orange
- peel, lemon peel, citron, all
- cut fine
- 12 cup molasses 14 cup fruit juice
- 2 teaspoons cinnamon
- I teaspoon ground cloves
- pound almonds, blanched
- pound pecans, unbroken
- pounds seeded raisins
- 1 pound sultana raisins pound dates
- pound figs
- l pound candied pineapple
- 1 pound candied cherries

Cut pineapple into small pieces. Remove stem end from figs and cut. Stone and cut dates. Mix all these with one cup flour. Mix the remaining flour with soda and spices. Cream the butter until fluffy, add and stir well. Add the flour mixture alternately with molasses and fruit juice. Gently fold in the beaten whites, then the dates and raisins and other fruit, and nuts. Line four bread pans with waxed paper and butter. Pour batter into pans, twothirds full. Set pans in oven, 300

If you bake rather than bakesteam the fruit cake, have a small dish of water in

the oven so that the cake will also have more moistness and will be glossy in appearance. Trimmings put

on the cakes should be placed on after they have baked for two hours. Almond halves, candied pineapple and cherries are most frequently used.

Plum Pudding 1 cup flour 1 pound seeded raisins 14 pound citron, lemon and orange peel, cut fine 14 pound seedless raisins 1/2 pound chopped almonds 1/2 pound bread crumbs 1/2 cup sugar I teaspoon baking powder 1 teaspoon ground cinnamon 1/2 teaspoon ground cloves

1/2 teaspoon ground allspice 1 teaspoon salt

- 1 cup suet, chopped fine 1 cup molasses

WEEKLY NEWS ANALYSIS-**U. N. Says Cease Fire in Palestine; Truman Asks More Defense Funds; U. S. Atom Control Plan Approved**

-By Bill Schoentgen, WNU Staff Writer-(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

CEASE FIRE:

Holy Land Almost before anyone knew what

was happening fierce fighting between Israeli and Egyptian forces had flared into bloom in the Negev, southern Palestine desert area. ISRAELI government spokesmen said the purpose of the Israeli attack was to smash open the road to Jewish settlements in the Negev. Blocked transportation lines had prevented the Jews from running supply convoys to isolated settlements in the district. But Dr. Ralph Bunche, acting

Palestine mediator for the U. N., in his report to the security council, told a different story. Blame for the eruption of fighting in the Negev, he said, was not a "question of black and white."

"EACH side has soiled its hands in the grim business of trying to win a war through the instrumentality of a forced truce," was his version of the conflict.

By the time the battle had pro ceeded savagely for six days the harassed U. N. security council had had enough. It commanded both Arabs and Jews to issue immediate cease-fire orders.

Earlier, Bunche had attempted to promote a three-day truce in the fighting, with each side holding the positions it then was occupying. The effort fell through, however, when Israel rejected the proposal.

EVEN as the security council acted the fighting was spreading from the Negev to other fronts in the Holy Land-along the Jerusalem-Tel Aviv highway, where Trans-

Jordan forces were grouped, and northeast of Tel Aviv in areas held by other Arab forces. account Results of the security council order, at the outset, at least, were

disappointing. Each side tried to shift the blame to the other; neither appeared willing to hold the battle. Palestine truce observers informed the United Nations that the Israeli forces generally appeared to be the attackers in the new fighting

that had developed outside the southern front in the Negev. CONTROL PLAN:

How to establish effective, workable control of atomic energy on an international scale is one of the rocks upon which the U.N. has almost foundered more than once, but the situation began to look a shade or two brighter when the United Nations suddenly steeled its resistance to almost impossible Russian demands on the issue.

SQUABBLE: Yugoslavia

Russia continues not only to have great and grievous trouble with the United States and differences of opinion with most of the member countries of the United Nations, but her political rift with the up-start satellite also is growing worse instead of better.

THE TROUBLE originally began within the framework of the Comir form (Communist Information Bureau), the master organization through which Russia controls her satellites, when Marshall Tito said his nation would not bow to the Cominform edict ordering Yugoslavia to make itself a precise model of Soviet Russia in all political and economic aspects.

And in recent weeks the "heresy" of Tito and the central committee of the Yugoslav Communist party has become more absolute and more determined than ever.

THAT holds true despite the fact that Yugoslav Foreign Minister Edward Kardelj, has been displaying firm adherence to the position of the Russian bloc in the United Nations general assembly arguments.

Traffic Signals Utilized For Large - Scale Cooking

PHILADELPHIA. - Large-scale might elect a totally bad president cooking now is being controlled by signalling systems similar to those being used on highways and railroads.

"The new signalling systems," it was revealed by Lloyd E. Slater, food industry engineer for Brown Instrument company, "will control large-volume cooking time and temperature, known as cooking cycles, in the processing of many different types of canned foods and dairy products. Field tests show that the system is providing higher quality foods, more uniform cooking, retention of original food flavor and a decrease in food losses."

The system includes sound signals or stop-and-go lights which automatically announce to processors the completion of cooking periods, or cycles, ranging from . few minutes to three hours.

"Boy, I'll say," Freddy and I chanted in unison, "he's swell!"

The newcomer, who was busy inspecting the premises, was just dog; part airedale, part hound. He was big, grayish-brown, and would have passed for a genuine airedale if he hadn't had those big floppy, hound-dog ears.

We had always wanted a dog but Dad said we didn't have a place for a dog, and he wouldn't have one if he had to keep it tied.

"What'll we call him, Mom?" I asked eagerly.

"Why don't you and Freddy figure that out for yourself, son," she said as she went toward the kitchen to get dinner under way.

All my life I had wanted people to call me Jack, because I liked it for a nickname; but all I ever heard was just plain John, so I said:

"Let's call him Jack, Freddy. 'Yeah-Jack's a good name all right. Here, Jack, come over here, old boy!" he called to the dog. And Jack wagged his tail, put his big front paws up on the couch, and licked Freddy on the nose.
