Utensil Company Completes Million Jacob Kudek of Town 52 Prizes Awarded at Dollar Order for Lever Brothers Co. Wayne Died Thursday

Order is One of Largest Placed in | Country; Includes Almost Two Excavate for Four More Million Pieces of Aluminumware

One of the largest single orders for Utensil Co. for Lever Brothers Co.

Valued at about a million dollars, eluminumware for use in merchandis. shortening manufacturer.

The Wisconsin made aluminumware is for use by Lever Brothers in the 250,000 grocery stores which its sales staff covers, according to Frederic Schneller, general merchandising manager. He is a former Milwaukee adsive promotion of its kind ever used they purchased from Mrs. Walter Belin the field of merchandising,'

Walter W. McKee, Lever vice-pres ident in charge of sales, described the promotion as "the biggest thing v have ever done." The pans are sold in ening and soap products.

Lever expects that the fry pan combination will sell 2,250,000 pounds of property north of the village on Satshortening, and the saucepan will run urday afternoon and Sunday. All meminto 4,500,000 packages of soaps and bers are urged to turn out and lend a

kum Utensil, said that the big order was the second produced by his firm ants, given to the association by the for Lever Brothers, Some 600,000 aluminumware pieces were produced roosters. Members are also reminded last summer for a promotion in which to bring in their membership dues to A native of the town of Ashford, Kewaskum shipped the utensils to persons who sent in coupons.

six weeks, compared with a production period for the larger order which 25 extra employes were hired for work on the second order, Normally Kewas Reigle explained.

since World War II. The firm was uminum Co. and wes sold in 1945 to a group from Massillon Ohio, headed by surer, and Reigie's brother. Charles,

vice-president. at the time of the purchase. As it grew, the firm expanded its plant and sister, Mr. and Mrs. Art. Roecker in equipment by about Ear times, James Reigle said. Such new products have been added as cold pack canners, preserving kettles, roasters, chicken fryers, dutch ovens, blanchers, waterless cookers, stove top ovens, whistling tea kettles, cooky sheets and lock lid

BROADWAY AND MAIN STREET

Patty MacVeigh, a Patient Cop, Worked Hard To Solve 'Hugger Mugger in Automat' Mystery

As a burglaree, I've done a considerable amount of hanging the foot of the stairs he collapsed around police stations lately, and I've made a highly edifying discovery—the average New York detective is plenty smart and, considering how few of them there are, gets plenty of results.

To give you an idea of what the ordinary cop can do once he gets go-

ing, let me tell you the classic story of Detective Patty MacVeigh and how he solved the case usually referred to as "Hugger-Mugger in the Automat."

One morning in August, 1933, two

few minutes of each other in the nickel - in - theslot restaurant at Broadway and 104th street. One. a dowdy old dame named Lil-Rosenfeld, keeled over in the restaurant's mezzanine, and the other, a middle-

aged garageman named Harry Jellinek, was found outside the little were caused by a powerful dose of cyanide of potassium.

Was it a case of double mi der? Was it double spicide? Or was it murder and suicide?

Detective Patty MacVeigh was handed this sizzling spull, and went about cooling it off not like a Sherlock Holmes but like an ordinary policeman. He started by question and headed for the men's room. At needed to save his garage and life.

Fiction

So far, so clear, Next, Mac-Veigh went to work on Lillian Rosenfeld. She had been a harmless old bat who scavenged around junk beaps, and for 28 years had lived in a \$7-a-month basement room which was filled with everything from old piano rolls to a rusty weather vane.

From employees of the Automat, the detective learned that on sevexal occasions the old dame had parked herself in the mezzanine where she could watch the tables on the main floor, and when somethe left without finishing a meal, she would hurry down and eat the remains or scoop them into a paper

That finished the case. Obviously he scavenger had seen Jellinek eave part of his roll and had popped the half-eaten bun into her mouth

MacVeigh's investigation uncovered an additional irony. While sifting through the hodge-podge of Lillian's room, he found six bankbooks which showed she had \$45,000 stashed in various banks in Manhattan and New Jersey. The annual interest on her nest egg was \$1,200, or eight times the amount Jellinek

PEOPLE, who have visited market places in foreign lands find them picturesque, quaint and colorful. If they had studied them carefully they would have found them also most inefficient. To sell things there it is necessary to transport them to the market place, display them, wait for customers, and take home what remains unsold. Often considerably deterioriated in value. Perhaps one of the very real contributors to our high American standard of living is the greater efficiency of our less picturesque market places, the classified or want ad columns of our papers.

were playing on a lawn. One of them was crying. Joe stopped to see what the trouble was. A little girl had lost her rag doll. It was somewhere about, but she couldn't thought she ought to stay home that night and rest. Elizabeth went find it. Dusty licked the little girl's hand. She cooed happily and patted his head. The other children crowded about. Joe unsnapped Dusty's leash, held the little girl's skirt to his nose and said: "Go find!"

Dusty let out a yip and went bounding away. Two minutes later he came back, holding in his mouth the rag doll. The litthe girl clapped her hands. "Smart dog," said a voice.

Joe turned. A car had stopped at the curb. A small round man with a friendly face had emerged onto the sidewalk. Joe nodded, "Pure bred Springer. They're all smart."
"Are they?" said the little man. His eyes twinkled. "Like to sell a lot of stern critics lying in wait for him. In his off-screen moments him?" Joe said nothing. He felt a he taught English and dramatics queer prickling at the base of his at Lafayette Junior high school in skull. "Like to sell him?" said the man again.

Flying Saucers Found To Be Just Light Beams

NEW YORK. - Flying saucers dozens of telephone calls to police and news desks.

policemen sent to investigate. But officers reported laconically lights across the Hudson river in Jersey City, where a new radii outside.

The Triple Contest

YEAR AGO a brace of outsiders broke in and scrambled up the batting leaderships. They were George Kell of the Tigers and Jackie Robinson of the Dodgers.

You could have gotten any price you wanted against last April. Ralph Kiner took over the home-run crop but Kiner realbelonged. He's been the best homerun hitter baseball has known in many

Grantland Rice years. But the three who were supposed to lead the double pack barely missed. They were Ted Williams and Joe DiMaggio for the American league and Stan Musial for the National. Di-Maggio actually led his league but he wasn't in enough games to draw a count. All three look to be in shape now and this should mean that two of the three should take over the top spot again. Here are the 1949 records: Di-

Maggio .346; Williams, .343; Mus-ial, .338. This is a good close finish. Their lifetime marks are Williams, .358; Musial, .348; DiMaggio, .331. DiMaggio is 35 years old; Williams is 31 and Musial is 29. Ted Williams is still the top hitter in baseball for all-around value. But his margin isn't too far above DiMaggio or Musial. Unless some ragged breaks arrive all three should have big years-years that rank close to their best. All three are in shape and all three have been hitting well in the Citrus Circuit, which doesn't mean too much

Musial got away badly in 1948 and 1949. He came from .240 last season to .338 but he admits he needs a faster take off. "I wasn't too well in 1948," he says. "I just wasn't hitting in the early part of the 1949 season. Enos Slaughter had the same experience and it was some time before he got going again. I never felt better than I do now so there'll be no reason for another early slump."

If Ted Williams worries about his hitting, he never shows it. He never shows that he has tightened Ted has the finest hand-andwrist action, the best coordination between eyes and hands, I've ever seen. No one else in baseball can wait so long before starting his swing. "Right out of your glove," Bill Dickey says.

DiMaggio's 1949 mark was remarkable, considering his late start and his other ills. But Joe, like Ted and Stan, looks physically ready for a big year. This is also serving notice on Kell and Robinson that both have a battle on before taking over the lead again. A young fellow by the name of Country Slaughter might cut in.

The Leading Slugger

In the way of distance hitting, Ralph Kiner has left the others buried in a snowdrift. His last three seasons with the Pirates have been years that almost matched Babe Ruth. The 27-yearold outfielder hit 51 home runs in 1947, 40 home runs in 1948 and 54 in 1949

"I think Babe's mark of 60 is pretty safe," Kiner said in California, a few weeks ago. "You've just got to keep hitting home runs all the time. I hit 20 in the last 30 days and still fell six short last season. You have to get away good to have even a chance to reach 60."

With Johnny Mize not playing too often and Joe DiMaggio getting no younger, the main American league job falls to Ted Williams. Ted blew himself to 43 homers last year, the best big-league mark of his career. Stan Musial had 36 and this Cardinal is another who may make his challenge. But the job of catching Kiner looks to be out of range now They were rating Luke Easter,

the new Indian slugger, as the one to watch. Easter is a long-distance hitter with tremendous power, but his spring hitting hasn't been any too spectacular. There are more than a few who believe Doby, his teammate, will get more home Easter is a slugging giant,

when he happens to connect. But swinging at big-league pitching for the first time isn't quite as simple as lighting a cigarette. For all-around power the Red Sox again should be the best hit-

ting team in either league.

Call of the Wild

If you want to pick up any real information about ballplayers and their varying ways, you should seek out veteran scouts. I stumbled over a nest, or covey, containing three of these invaluable assets. either located temporarily here or passing through.

I had just one question to ask

-"Why is it that the modern game has so many wild pitchers who have a planet full of stuff but only a vague idea of where the plate is? We began checking over old-

time stars—Cy Young, Walter Johnson, Christy Mathewson, Grover Alexander. Clark Griffith, Addie Joss, Smoky Joe Wood, Chief over Manhattan were reported in Bender, Eddie Plank, Jack Coombs. Miner Brown. Ed Walsh, Doc White. Nick Altrock, Lefty Grove, Luminous disks on low-hanging Herb Pennock, Dizzy Dean- all clouds indeed were observed by great pitchers who in the main great pitchers who in the main could pitch into a tin cup. They had never heard "The call of the that they were caused by search- wild." They could cut an inch off either side of the plate, inside or

Proper Milk Cooling Necessary for Grade Warm Milk Excellent For Bacteria Breeding

order to be classed as Grade A. Unsatisfactory cooling can make good pasture, a healthy herd and observance of all health and management rules look mighty sick. To preserve quality, milk should be cooled to 50 degrees or lower soon after it is drawn. Milk is cooled in one of three ways on the farm: by water, ice and mechanical refrigeration.

Milk must be cooled properly in

Electric milk coolers are thermo-staticaly controlled and use from 25 to 30 KWH per month to cool 10

Farmer sets timer to operate an extra agitator on a conventional milk cooler.

4

gallons of milk per day. Even they, however, might be improved. One attempt to do this is illustrated in the accompanying photograph. It shows a farmer setting a timer to operate an extra agitaor on a conventional cooler. By means of this special equipment, he starts building up the ice bank in the cooler the minute the milk cans are immersed. There is no waiting for the escaping heat from the milk to set the cooling mechanism in action.

Small Acreage Farmers **Practice Conservation**

Small-farm operators are beginning to change their belief that soil conservation is a luxury they can't afford.

Thousands of small farms are now practicing all-out soil conservation with exciting results. Back in the 1930's, a farming

magazine recalls, farmers were told to cut down on corn and small grain. The idea was to keep more of the land in grass and most of the rest in hay crops most of the

After giving soil conservation a try, thousands of operators of small farms have now concluded, the magazine finds, that one can raise more of everything. Some have doubled production in just a few years under soil conservation practices.

Broilers Need Water

Broilers need water to put on weight. Laying hens need it to maintain satisfactory egg production. And they need it all year round-winter and summer.

In years past, poultry waterers required almost constant attention during the winter. Often the battle against ice was fought with steaming kettles of water.

One method of overcoming this problem is presented in the accompanying illustration. It shows the installation of a heat lamp over a common type of waterer. The warmth produced is sufficient to keep the water free of ice as well as to prevent litter from becoming wet around the waterer.

Dry Silage Sometimes Contains Few Vitamins

Dry silage, which has been subjected to long-continued, high heat of fermentation, has little carotene of Vitamin-A content left in it. Carotene usually is badly needed to supplement the other rations.

The farmer with several silos to fill should start several days ahead of when the kernels have finished denting to avoid ending up the silo-filling with corn that is "rattle dry" as it is blown in.

Stray Dog Curb Is Urged To Protect Young Lambs

Those frisky spring lambs can become a sorry sight if stray dogs are permitted to ravage the flock, warns L. K. Bear, extension sheep specialist at Ohio State university.

He suggests as the best solution to the dog problem the elimination or control of stray dogs and urges farm families to protect their children, valuable pets and working dogs from contact with these strays.

Announces Hadacol Rationing

SENATOR DUDLEY J. LeBLANC

The continued increasing demand for HADACOL, one of the truly great medical discoveries given to the world by Senator Dudley J. LeBlanc, has made it necessary to decrease the ration allowance on HADACOL from six to two bottles.

"We placed the limit at two bottles to a customer only after trying every other alternative," said Senator LeBlanc in Lafayette, La. "The demand for HADACOL has increased 1000 per cent in the past year.

"When I created HADACOL I read every available authoritative medical and drug book in order to use the very finest ingredients regardless of cost. I read on page 234, U. S. Dispensatory, 23rd edition, that 'Theoretically Calcium Glycerophosphate should for many purposes be superior to most other calcium salts because it represents both calcium and phosphoric acid in a soluble combination.'

"Little did I realize when I made Calcium Glycerophosphate a part of the now famous HADACOL formula that in time the demand for this great medical discovery—HADACOL—would be so great that we would use up the entire available supply in the United States of this

Yes, in HADACOL, Senator LeBlanc envisioned the medicine that would bring blessings to folks of all ages. Perhaps others could have placed the same ingredients in a medicine, but it remained for him to develop a formula which contains the most expensive ingredients of their kind. For instance, he uses Vitamin B-6 which costs at the factory \$550 a kilogram, which is less than half a gallon.

At the present time it is difficult to predict how long the shortage of HADACOL will continue. It is still being merchandised in less than a third of the nation and is being denied to all foreign countries because of the production bottlenecks.

Senator LeBlanc was the first candidate for Governor in Louisiana to advocate the Old Age Pension. In fact, it is said by some that he was the first public official to talk about specific Old Age Assistance in the United States.

His heart has always beaten in sympathy with the cause of the down-trodden, and with that very thought in mind he developed a medical formula known as HADACOL that is now sweeping the Southland. People are singing the praises of HADACOL everywhere it is sold.

Senator LeBlanc has served his people in public life faithfully and rell. In private life he brings to you a service which is appreciated by suffering humanity-HADACOL

And, as he has so often said to his enemies and to those who op-posed his Old Age Pension: "Let me quote you an ancient mandate of

"'Honor thy father and thy mother that thy days may be long upon the land which the Lord thy God giveth thee.'"

So it is that there is a man who has worked untiringly for the cause of the common man, the infirm and the sickly, and by his past activities in behalf of these people you have the assurance that what he has produced in HADACOL he believes to be the best for you that

So, if you have been sickly for a long time and you can't find the cause, then you owe it to yourself to try HADACOL. Why not be wise? Don't be satisfied with temporary relief. Get after the cause of your bon't be satisfied with temporary relief. Get after the cause of your trouble. And, as so often, it's because you need this amazing health-building, nerve and tissue repairing HADACOL formula. Millions of people have benefited by it. So don't you think that you owe it to yourself to give this great medicine a chance to help you? Remember the name HADACOL! Remember the man who discovered this remedy! Remember his activities in behalf of the poor, the humble and the needy! Don't delay. Start using HADACOL—you and your family—today!

We are asking our customers to have patience, and accept no substitute. Insist on the genuine HADACOL! Remember there is nothing that was ever made but what it could be made worse and sold for less. and that is what you call imitation.

Trial size only \$1.25. But if you are so fortunate as to obtain the large family or hospital size, we urge you to save money-only \$3.50. We are so firm in our belief that HADACOL will help you that we sell HADACOL on a money-back guarantee. If you don't feel perfectly satisfied after using HADACOL as directed, just return the empty carton and your money will be cheerfully refunded. Nothing could be

If you druggist does not have HADACOL, order direct from The LeBlanc Corporation, Lafayette, Louisiana. Send no money. Just your name and address on a penny post card. Pay postman. State whether you want the \$3.50 hospital economy size or \$1.25 trial size. Remember, money cheerfully refunded unless you are 100% satisfied.

U. S. Defense Setup Challenged; Progress Reported in ECA Field; **Truman Signs Crop Increase Act**

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

DEFENSE:

Charges Hurled

Charges that the government has been "ragging its feet" in organizing civil defense against an Abomb attack and in telling Americans how to protect themselves have been hurled by four big-city

MAYOR Elmer E. Robinson of San Francisco minced no words in asserting that federal authorities have "fumbled the ball" of civilian defense. He urged that a policy of total defense be inaugurated immediately by the federal government.

Federal planners have said that local officials will have to assume primary responsibility for civilian defense against atomic warfare, the government's role being that

THAT MUST have seemed an odd stand to take to officials who have no knowledge of atomic bomb effects or of the first steps to take toward protection if such bombings occur. Surely public leaders were within the bonds of reason and logic when they demanded that the government channel to them more information on how to provide protection against atomic warfareinformation which only the federal government possesses, if anyone or any group does possess it.

The government's attitude seemed a callous one and hard to reconcile with all the scare techinques prevalent in connection with the possibility of another war in which the A-bomb or the H-bomb would be the most frightful weapons.

FOREIGN AID:

Some Progress

As the economic cooperation administration started its third year of operations, Marshall plan countries were being urged to take two steps of paramount importance to make themselves independent of extraordinary outside aid by the time ECA ends in June of 1952.

COUNTRIES participating in the Marshall plan were to be told that they should intensify efforts to sell more products to the United States and other hard-currency areas. ECA pointed to that as one means of closing the dollar gap.

In that connection, the agency continued, the U.S. could assist by following increasingly liberal import policies and commercial policies generally so that trade barriers do not prevent European countries from increasing dollar earnings in this country.

AS to European economic unification, ECA stated its belief that the establishment of an effective European payments union is of great importance. Elimination of public and private trade restric tions also were said to be a contributing factor to economic unifi-

As a result of increased production and financial and political stabilization, ECA said, communism has been placed on the defensive in all participating coun-

HOGS:

No Props

For the first time within the past eight years, hogs were being bought and sold at major U.S. markets without any price supports-and dealers admitted it was difficult to note any difference.

PRICES were steady to 25 cents higher. What did that mean? Was it an indication that federal agricultural planners could have been wrong all these years? If that were the case, there probably would be no admission of it.

In fact, one U.S. department of agriculture spokesman hailed the event as a "normal market." It was "just a matter of supply and demand," he said, as if the department had been aware of and had considered that venerable law ever since the government went into the farming business.

FARMERS and traders, however, held varying opinions as to what might happen when the markets opened for the first time since hog price supports were allowed to die. Some felt growers would become panicky and flood the market with hogs. But, as was reported, nothing happened.

Anti-support adherents, nevertheless, could draw little consolation from the evident, for farm leaders had made it clear vigorous efforts would be made to restore hog price props.

SUBMARINES:

But Whose?

Cloaked with all the color and trappings of mystery and suspense was the report that a naval officer had made instrument contact with 'one or more' unidentified submarines about 17 miles off the Cali-OFFICIALLY, the western sea

frontier, which ordered the hunt, "results and comment negative." It added the search had been discontinued.

But Captain J. A. Holbrook, a former submarine officer who commanded the U.S.S. Colahan on the search, had a different story.

"It is my opinion as a submarine officer," he said, "that we probably had contact with one or more submarines in the area." The captain and his crew put to sea after a report by a navy patrol-plane pilot that he had seen a submarine 40 miles off Cape Mendocino.

THE NAVY said no U.S. subs were in that area. Whose subs, then, were hey, if there were any subs? Were they Russian vessels? | 70 A.D.

'Hot' Shirt

Defense Secretary Louis Johnson (right) talks "cold war" in a "hot" shirt as he and President Truman discuss defense strategy and anti-Communist activities at the "little White House" in Key West, Fla. Secretary Johnson's shirt recalls the "Solomon-in-all-his glory" quotation, but even it was topped by one the President frequently donned for

CROP BOOST:

A Compromise

In any manner likely to affect the farm vote-with the congressional elections not so many months away-President Truman showed an unwonted disposition to compromise, rather than come out fighting against anything he didn't like, as he has done so frequently in the past.

THE PRESIDENT compromised on an agricultural bill raising acreage limitations on cotton and peanuts for 1950 and modifying price supports for Irish potatoes

next year. In signing the measure after long study, the President noted, according to the presidential press secretary, Charles G. Ross, that "the good features outweighed the undesirable features." And with that profound utterance, the bill was signed into law.

The President acted after undergoing heavy pressure from groups urging approval of veto of the joint resolution.

The section affecting potatoes knocks out price supports for potatoes in 1951 unless marketing quotas are then in effect. Additional legislation would be needed. however, to put such quotas into operation in 1951.

THE MEASURE as approved authorizes an increase of 1.5 million acres in cotton acreage this year and a 50 per cent increase in acreage of peanuts planted for oil production. The previous cotton allowance was 27 million acres.

It would permit peanut growers bama - 100,000 more acres and would permit excess peanuts to be grown for oil without penalties on certain conditions.

JAPAN:

Bible vs. Marx

Believing that Christianity and the Bible are the dykes that are holding up the flood of communism in Japan, the American Bible Society is beginning a campaign to send Bibles to Japan - Bibles printed in the Japanese language. Already the society has distributed a total of 2,789,956 Bibles among the Japanese, but it is felt -and this sentiment is shared by Gen. Douglas MacArthur, that isn't

GENERAL MacARTHUR isn't alone in that opinion. He has asked for millions more. And Dr. Shiro Murata, an officer of the Japan Bible Society, said: "The eyes of Japan are fixed on two books. One is Das Kapital by Karl Marx. The other is the Holv Bible. Japan is at the crossroads."

To usher in its program of Bibles for the Japanese, the American Bible Society this month is sponsoring a huge signature book of donors for the purpose of raising funds with which to purchase and send the Bibles. Every person who contributes one dollar or more to the project will be asked to sign the donor book.

WHEN the campaign comes to an end, probably this fall, the huge book, bearing the signature of every donor, will be forwarded to Japan where it will be displayed in the offices of the Japan Bible Society as a token of friendship from the people of America to the people of Japan.

Adam's Daughter?

Did Adam have a daughter, no iention of whom is in the Bible? Dr. Guido Kisch, noted scholar, has declared that a 900-year-old Latin manuscript claims that Adam had a daughter whose name was never mentioned in any version of the Old Testament. Dr. Kisch said the manuscript, oldest and most accurate version known "Biblical Antiquities,"

tioned a daughter named Noaba. The Bible lists Cain, Abel and Seth, but not Noaba.

men-

Kisch brought this new information to light in a book containing the complete Latin text of the document and a study and analysis | many is still their main goal. With of it. The ancient document was written by a man now referred to idly and effectively shake the hold as "Pseudo-Philo," because, in the middle ages, he was thought to be the Jewish philosopher Philo of Alexandria.

The history, rooted in ancient Jewish tradition and legend, was

SECURITY:

A Denial

U.S. State Secretary Dean Acheson branded as falsehoods statements by Sen. Joseph McCarthy that Owen Lattimore-whom Mc-Carthy had called a Soviet agent -was the actual director of American policy in the Far East. Answering questions at a press conference, Acheson added that:

1. Lattimore never was employed by the state department. 2. He (Acheson) isn't sure he ever met Lattimore.

3. Lattimore's contacts with the state department have been limit-

ed to a few occasions. 4. According to his information, Lattimore never had a desk at the

state department.

Lattimore, a Far Eastern expert and a professor at John Hopkins university, had reached London from Afghanistan, from whence he was returning to answer Mc-Carthy's charges. In London, Lattimore branded the McCarthy charges as "unmitigated lies." McCarthy, meanwhile, was in a hospital after a four-hour senate speech in which he said he would produce a witness who would swear Lattimore was a member of the Communist party. He told the senate he had documents to prove that Lattimore was a Soviet agent who was getting instructions from Moscow as long ago as 1936.

Lattimore was most important to McCarthy, for the senator had declared he would rest his entire case of Communist leanings in the state department on the outcome of his charges against Lattimore.

And, unless the senator could produce his witness and his documents, the case boiled down to one of the senator's word against that of Acheson and Lattimore, with the public deciding as it pleased about who was right.

FLYING DISKS:

Navy Says 'No'

If there are, or were, any flying saucers whirring through space, the United States navy has nothing to do with them and knows nothing about them. The air force said the same thing

THE SERVICES also denied that they are developing secret planes, guided missiles or anything else that could be mistaken for flying

These denials were issued after two published reports traced the saucers to navy and air force "secret" projects.

An air force spokeman declared that "the armed forces are not doing anything that could be traced to being the basis of reports of flying saucers."

He said the air force position was the same as it was last December when it announced-after investigating 375 reports of flying saucers that they were "misinterpretations of various conventional objects, a mild form of mass hysteria ain't no such thing" as a flying

developing super-speed planes that man of the top loyalty review -principally in Texas and Ala- have been spotted as "saucers." Said he: "The navy is not experimenting with, or doing research any type of plane or guided

missile that resembles in any way

a flying saucer." So, that should be that. However, it would be difficult to convince many Americans that there are no flying saucers, and if a troubled citizen, seeking, subconsciously or not, a momentary relief from his woes and burdens, thinks an object in the sky is a flying saucer, no particular harm has been done. In

fact it may do him some good.

Boy of The Year

David Russo, who was selected "Boy of The Year" of the Boys Clubs of America, holds the plaque awarded him and gets a kiss from his mother after arriving in Hollywood for a three-day tour of film and radio studios.

GERMANY:

Crisis Impends

According to U.S. German High Commissioner John J. McCloy, a 'real crisis' appears inevitable in Germany, McCloy uttered the warning in a talk before a congress subcommittee. He told a house group that Soviet pressure is a result of confidence, rather than any "sense of inferiority or fear of attack" by western forces. "The Russians feel their strength," he

McCloy pulled no punches in his description of conditions in Germany. "Their points of attack are Germany and the Far East," he said of the Russians. "But Gerit, they feel they would most rapof democracy in the west.

"The struggle is immediate and intensive," McCloy continued. 'We in Germany feel we are facing a critical point in history." Did he mean the U.S. would have to written by a Jew in Palestine about | use force of arms to hold Germa

Truman Hits Back

DRESIDENT TRUMAN really poured it on mud-slinging Sen. McCarthy in a long-distance phone conference from his vacation headquarters at Key West with congressional leaders in Washington.

"What's wrong with that fellow, anyway?" exploded Truman. "Doesn't he know that he is doing irreparable harm to his govern-ment by all this loose talk?"

The President commented that McCarthy's unsupported charges that the state department "loaded with pro-Communists" already had seriously undermined the morale, and perhaps the efficiency, of this vital branch of the government.

"Think of the great numbers of loyal personnel in the department who have given their whole lives to their government," he said, "and think what McCarthy has done to the spirit of these people. It wouldn't surprise me if many of them were thinking of resigning. They probably figure that they'll bo next on Mc-Carthy's list and they con't want to have their families dragged through such an or-

The effects of McCarthy's character assassination and reckless rantings were even more damaging on U.S. prestige abroad, Truman emphasized particularly in western Europe, where we must keep our heads high in the cold

war with Russia. McCarthy has played right into the hands of Russian propagandists who are doing everything to sell their satellites and other western European countries the idea that the United States is divided against itself, the president declared.

He added that McCarthy had made the job of our foreign diplomats "doubly difficult," because they are afraid to be seen talking to anyone who might be accused of pro-Communist leanings in France, Italy and other countries,

even in the course of their duties. As a result, the President said, our embassies and legations in some countries had become "virtually isolated" and our foreignservice personnel in these places seriously demoralized.

Inside Facts

Things most people don't know about alleged "Commies" in government: Chairman of the state department's loyalty review board charged with weeding out Communists is a Republican-Gen. Conor hoaxes." In other words "there | rad Snow of New Hampshire. He was appointed on the recommendation of GOP Sen. Styles Bridges. A NAVY SPOKESMAN denied a backstage brain-truster for Senwith equal vigor that the navy is ator McCarthy's attacks . . . Chairboard is also a republican, Seth Richardson, who served under Hoover. Most of the lawyers under him are also Republican.

> Neither Truman nor anyone else can overrule them . . . the courts . . . Actually, Acheson has fired more state department employees than any other secretary of state . McCarthy's attacks have been almost as vitrolic as Moscow's. Here is its latest diatribe against Acheson, "This truly incorrigible liar . . . swindler . . . a hired lackey of the instigators of war who spent his scanty brains to belie truth, freedom and peace . .: . Acheson's true masters are the banks and concerns who dream of looting the globe." Acheson's family is wor-

ried over his terrific strain. He is wondering whether he has not become a liability, that for the good of U.S. foreign policy he should resign . . Writes another secretary of state, Henry L. Stimson, in the Hoover cabinet, about Senator McCarthy: "The man who seeks to gain political advantage from personal attack on a secretary of state is a man who seeks political advantage from damage to his country.

"Flying Saucers"

Harassed over flying saucers. the air force now refers queries to the first chapter of the prophet Ezekiel who saw a living wheel in the heavens. Airmen are not arguing with Ezekiel and cast no doubt upce what he saw. But they do care doubt on modern prophets. They say they have tracked down every flyin-saucer report, and there ain't no such animal.

The Brotherhood of Railroad Trainmen, slightly gleeful at presidential seasickness, remind him: 'Mr. President, modern streamliners, manned by competent union crews, run daily between Washington and Florida. And no little brown pills are required."

Two great Bible fans are fighting for the Republican senatorial nomination in New Hampshire. Sen. Charles Tobey and challenger Wes Powell are doing their best to outquote each other . . . Bradley Nash has written a book on Herbert Hoover's reforms.

Good Man Lost

One of the best men in government resigned the other day -Tracy Vorhees, undersecretary of the army. A Republican, Truman could have kept him on by promoting him to be secretary of the Army, a post to be vacant when Gordon Gray becomes President of North Carolina U. But despite the urge for a bipartisan policy, Truman hasn't been appointing many Republicans lately However, Frank Pace, who will replace Gray. Also is a good man.

SISTER KENNY AND GOV. YOUNGDAHL OF MINNESOTA Australian nurse feted at huge civic luncheon in Minneapolis

A LIFE'S WORK

Nation Honors Elizabeth Kenny For Unstinting Battle on Polio

MINNEAPOLIS-Two-fold tribute, coming within a period of two weeks from entirely different sources, has recently been be-stowed upon Sister Elizabeth Kenny, the Australian nurse whose concept and treatment of infantile paralysis has spelled real hope for victims everywhere of this crippling disease.

Both honors are clearly indicative of the high place Sister Kenny has won for herself in the hearts of American mothers and fathers. But even more, they herald in no uncertain terms the marked progress towards official acceptance of the great healing gift which she brough from her homeland and is now making available to every polio sufferer through the Sister Elizabeth Kenny Foundation.

The first honor came from the American people direct through a nationwide poll of public opinion (Gallup). In this survey she and Mrs. Eleanor Roosevelt were selected as the two most admired women in any part of the world. The second, of perhaps even

greater significance, was the imited visa" bill passed by both houses of congress and signed by President Truman, giving Sister Kenny the unprecedented privilege of leaving and re-entering the United States at will and without the usual passport or immigration

Broadcast Application

The bill was described by one member of the house judiciary committee as the broadest in its individual application of any migration measure ever passed by congress. Sister Kenny may now leave the United States to pursue elsewhere her never-ending fight against the Great Crippler, polio,

and return as she chooses. Passage of the bill was hailed by Marvin L. Kline of Minneapolis, Minnesota, national executive director of the Sister Elizabeth Kenny Foundation, as an "unprecedented manifestation of America's unity in the humanitarian cause of Sister Kenny's work."

"Continued virtual elimination of the crippling after-effects of polio and availability of the famous Kenny treatment to polio sufferers everywhere is assured to an even greater degree by the official recognition of her work through this congressional act," Kline said.

great efforts have already received recognition throughout the world, including even countries behind the Iron Curtain. Always desirous of doing all within her power to give to others of her knowledge of the treatment of infantile paralysis. the Australian nurse has traveled hundreds of thousands of miles from her native land and from America to foregin shores. Her unflinching courage is re-

sponsible for satisfactory recovery from the disease of thousands of victims in more than a score of countries. Today, carrying on in her name and backing up the pioneering in her field among medical doctors in many foreign lands, the Kenny Foundation has trained nearly 50 registered nurses and physical therapists to become fullfledged Kenny technicians. A class of 23 is presently in train-

ing on a scholarship basis, and current planning of Kenny Foundation officials is to make it possible for even larger classes to take up this humanitarian work in the future. Additional scholarships are being given by the Kenny Foundation to those registering for a new class scheduled to start June 12, 1950.

Training Course

The Kenny Technician training course is of 30 months duration for qualified registered nurses and 18 months for physical therapists. The cost of this, as well as all other phases of the Kenny Foundation's operations, is financed through public contributions. The foundation has no other source of income than through this means.

Minneapolis, where the Kenny Foundation maintains its national offices, is the international training center for Kenny technicians. Other centers where the Kenny Founda-

Polio Struck With Fury in 1949

In 1949, for the fourth time in the history of the U. S., polio-

myelitis struck the nation with epidemic fury. And although the

country had been alarmed three times before, the violence of the

disease reached a new peak last year. From January 1 to October

2, there were 33,144 cases, and the final accounting was expected

to record more than 40,000 cases by December 31, as compared

with the 1948 maximum of 28,000. Geographically, polio is ruthless-

ly impartial, and polio outbreaks occur annually in late June through

VICTIMS . . Most children stricken by polio can be cured.

September, with the peak coming in mid-September, generally.

SISTER ELIZABETH KENNY America bonors ber humanitarian contributions

tion provides technician training and treatment are located Prague, Czechoslovakia; Brussels, Belgium; Pontiac, Michigan; Buffalo, New York and Jersey City, New Jersey.

Trained Kenny technicians are located in Czechoslovakia, Belgium, England, Canada, Argen tina and Australia. Today, 10 years after her first arrival in the United States and 39

years after she treated her first

polio case in the Australian bush ountry, Sister Kenny is still pushing vigorously and giving alert leadership to the work for humanity which is so close to her heart. And so it is understandable why grateful America should accord Sister Kenny the honor of selecting

her as one of the two most admired women of the world—and why the congress of this great nation should salute her for unselfish efforts by voting her such signal Minneapolis, where Sister Kenny first demonstrated her concept and

treatment of polio in the United States and the hub from which knowledge of the Kenny treatment has spread to all parts of the world recently paid fitting tribute to the Australian nurse at a big civic

luncheon. Praised for Efforts

Business, professional, civic and abor leaders of the city and state lauded her for her humanitarian contributions to the people of the world. Principal speaker was Luther Youngdahl, governor of the state, who presented her with a scroll commending her efforts and signed by himself; the mayors of Minneapolis and St. Paul; Donald C. Dayton, president of the Kenny Foundation; Marvin L. Kline, executive director, and Dr. E J. Huenekens, national medical direc-

tor of the Kenny Foundation. Since the opening of Elizabeth Kenny Institute in Minneapolis, which alone has restored thousands of polio sufferers to normal living and which is open to victims of this disease regardless of race, creed or ability to pay as long bed space is available. Sister Kenny has been awarded many other honors.

Among them are the Gold Key of physical medicine from the American Congress of Physical Theraphy: the Bronze Plaque for numanitarian service from the Minnesota Public Health Association in cooperation with the Minnesota Federation of Women's Clubs; the Silver Plaque from the Variety Clubs of America and the Parents' Magazine medal for service to children.

She has received the honorary degree of Doctor of Science. University of Rochester; Doctor of Humane Letters, New York university; Master of Arts, Rutgers university and has been made an honorary member of the American Nurses' Association.

Van Camp's **New Orleans Style Red Kidney Beans**

Van Camp's...Van Camp's only . . . puts up this delicious dish-choice red kidney beans in a sauce that is "old-world" in flavor; not too sweet nor too spicy, but just right. You'll say they're different . . . the best ever. Ready to-

Leftover Ham and Eggs Make Interesting Dish For Supper, Luncheon

YOU'LL BE GLAD to have ham leftover from your Easter dinner as well as those hard-cooked eggs from the traditional Easter egg hunt. Both can help make your menus in-teresting if you add a few glamorous touches to them.

You can serve juicy pink slices of ham in sandwiches or with salad as long as you can slice them, but when you get down to the smaller pieces, then you may be looking for such recipes as call for diced or ground ham.

*Ham a la King in Toast Cups (Serves 6)

3 tablespoons butter 1 tablespoon diced onion 1/2 teaspoon salt 1/8 teaspoon pepper

4 tablespoons flour 21/2 cups milk 1 cup diced, cooked celery 2 cups julienned cooked ham

4 sliced hard-cooked eggs 1/2 teaspoon Worcestershire sauce Melt butter, add onion and cook until tender over low heat, while stirring. Add seasonings and flour blend. Add milk and cook until thick-

ened, stirring constantly. Add celery, ham, sliced eggs and Worcestershire sauce, reserving a few egg slices to garnish top. Heat and serve in hot toast cups. Toast Cups

6 thin slices bread 3 tablespoons melted butter Remove crusts from bread slices Brush both sides of each slice with melted butter. Press into six, threeinch muffin pans with two points each side. Bake in a moderately hot oven (375°) for 12 minutes un-

til lightly browned. Smoked Ham-Pineapple Patties (Serves 6) 3 cups ground leftover ham

1/2 cup dry bread crumbs ½ teaspoon ground cloves a teaspoon salt

1 tablespoon brown sugar eggs 6 slices canned pineapple

Combine meat, crumbs, seasonings, sugar, and well beaten eggs. Mix thoroughly. Form into six flat patties. Arrange pineapple slices in a shallow baking pan. Place a patty on each ring. Bake in a hot oven (325°) about 25 minutes or until browned.

Ribbon Egg Salad 12 hard-cooked eggs French dressing 2 tablespoons unflavored gela-

1/2 cup cold water 1/2 cup boiling water 11/2 cups salad dressing 2 teaspoons minced onion

3 tablespoons lemon juice

1/2 teaspoon salt

1/2 cup chopped parsley Separate yolks and whites. Force the yolks through a sieve and moisten with French dressing. Press the yolks firmly onto bottom of greased mold. Chop the whites. Soften gelatin in cold water and dissolve in boiling water. Cool. When sirupy in consistency, add salad dressing, onion, lemon juice and salt. Pour about half of this mixture over yolks and chill until firm. Add

chopped parsley and egg whites to

remaining gelatin mixture and pour

into mold. Chill until firm.

Cream sauce, strips of ham and hard-cooked eggs served in toast cups make such a tasty and delicious dish when served in this way, you'd never guess leftovers were being used.

LYNN SAYS: Pep Up Lunches With Variety

Tuna fish salad for sandwiches to it some broiled bacon, you give

it a welcome change of flavor. Swiss cheese paired with thinly sliced dried beef and sliced tomato box sandwich. If the sandwich filling is rather

dry, give it succulence by dipping an egg-milk mixture and fry it for French Fried sandwiches. a bit of pimiento for color. If you like sardines, you like them in rye bread sandwiches. Why

want something special? The flavor of liverwurst can be improved by mixing it into a spread with chili sauce. Top with bread and butter pickles or sliced stuffed

olives when putting together the sandwich. Simple salad luncheons can be enhanced with crabmeat sandwiches made colorful with waterthem in thin dainty strips.

Add other ingredients to both ham and eggs to enhance their flavor and extend these protein foods when preparing them into luncheon or supper dishes.

LYNN CHAMBERS' MENU Hot Tomato Juice *Ham a la King in Toast Cups Carrot Strips and Green Beans Pear Salad Beverage Chocolate Pudding *Recipe Given

Eggs Stuffed with Crab Meat (Makes 12 stuffed eggs) 6 hard-cooked eggs 1 teaspoon dry mustard

1/2 teaspoon salt 1 cup flaked crab meat 1 cup chopped celery 2 tablespoons chopped green pepper

% cup mayonnaise

Paprika Cut eggs into halves crosswise. Remove yolks, mash and mix with remaining ingredients. Fill whites, sprinkle with paprika.

Baked Hawaiian Hash (Serves 5)

3 tablespoons butter, melted 3 cups diced leftover cooked smoked ham 3 cups diced cooked sweet po-

tatoes 14 cup finely chopped onion 1/2 teaspoon salt 14 teaspoon pepper

1/2 cup pineapple juice 3 slices pineapple, cut in half 1/3 cup brown sugar 2 tablespoons butter

30 minutes. Remove from oven; top with halved pineapple slices: sprinkle with sugar; dot with two tablespoons butter. Broil until pineapple is lightly browned, about seven minutes.

Baked Tomatoes and Hard-Cooked Eggs (Serves 6)

2 medium tomatoes, peeled 6 slices bread

6 hard-cooked eggs, sliced 2 cups Cheese Sauce 12 strips cooked bacon Parsley Cut each tomato into three slices

rosswise. Toast bread lightly. Arrange sliced egg on each slice of toast, cover with a slice of tomato and bake in moderate oven (350°) 15 minutes. Pour hot cheese sauce over tomato and return to oven to heat until sauce begins to bubble. Remove from oven,

garnish each service with two bacon strips and parsley. *Pineapple Nut Cake (Serves 6-8)

cup butter 1 cup sugar 3 egg yolks 1 cup crushed, canned pineapple ½ cup nutmeats, chopped

14 graham crackers, crumbled 1/4 cup pineapple juice 1/2 cup heavy cream, whipped Cream together butter and sugar.

Add egg yolks and continue creaming until well blended. Add pineapple and nutmeats. Arrange alternate layers of crumbs and pineapple mixture in loaf pan, leaving crumbs as top and bottom layers. Moisten with juice. Set in refrigerator for 12 hours. Serve in slices with whipped cream.

Chicken and ham are flavor mates for sandwiches. Enhance the flavor by spreading the bread with a Thousand Island dressing.

is nothing new, but when you add For something distinctly different, try using a scrambled egg filling in noontime sandwiches. Color and flavor appeal are given the sandwich by adding some chopped will travel well if made into a lunch green pepper or chopped onion to

Peanut butter is an old favorite. but it takes on interest when mixed with chopped crisp cucumber and

Sardines, mashed and seasoned with a tart salad dressing, then not team them with cheese and mixed with riced hard-cooked eggs, grill the sandwich if you really give a colorful and tasty sandwich spread.

Leftover meat or ham loaf yields a tasty sandwich when you pair the meat with bread and butter pickles and a thin layer of mustard mixed with mayonnaise.

Extend that bit of leftover baked beans with chili sauce and use with sliced pickles or thinly sliced cress. Roll the sandwiches, or cut onions in between fresh bread for a hearty -andwich.

RIFLE SAFETY

Americans, a race of rifle shooters, take to the spirit early and each spring youngsters get busy oiling on their .22 rifles in anticipation of another season of fun with a gun. Captain Jack Lacy, famed marksman and gun tester at Winchester, always emphasizes the need for safety in gun handling. In this series of photos of "do's" and "don'ts" on rifle safety, he was assisted by John Paulson and Steve Pachl (smaller of the two boys). In the photo above, Captain Lacy is stressing the first "do" -treat every gun as if it were loaded. At left, "rough-housing" or "horse-play" when holding a gun is a most definite "don't."

It is bad and dangerous policy to shoot at rocks (above) for the obvious reason that the bullet may ricochet and fly off to injure someone. In the action shown in photo at right, the boy is courting death or injury by jumping a fence while carrying a gun. This is one of the most important of all "don'ts" in safe rifle-handling. Bullets can ricochet from water, too (below).

For the same reason that

it is dangerous to shoot at

rocks, it is just as danger-

ous to shoot at objects float-

ing on the water. Bullets will

ricochet off water and may

rocket off and strike some-

thing which may cause a lot

of regret to the shooter. As

demonstrated at right, al-

ways shoot at targets with

safe backgrounds.

The practice of shooting at glass insulators (above) on telephone or power lines is another important "don't." Too, it is unlawful in practically every state in the union to

YES, in just 7 days . . . in one short week . . . a group of people who changed from their old dentifrices to Calox Tooth Powder averaged 38% brighter teeth by scientific test. Why not change to Calox yourself? Buy Calox today . . . so your teeth can start looking Brighter tomorrow!

One application MAKES FALSE TEETH FIT for the life of your plates

If your plates are loose and slip or hurt, refit them for instant, permanent comfort with soft Brimms Plasti-Liner strips. Lay strip on upper or lower plate . . . bite and it molds perfectly. Hardens for lasting fit and comfort. Even on old tubber plates, Brimms Plasti-Liner gives good results from six months to a year or longer. Ends forever mess and bother of temporary applications that last a few hours or days. Stops sipping, rocking plates and sore gums. Eat anything. Talk freely. Enjoy the comfort thousands of people all over the country now get with Brimms Plasti-Liner.

Easy to Re-fit or Tighten False Teeth Permanently Tasteless, odoriess, harmless to you and your plates. Can be removed as per directions. Users say: "Now I can eat anything." Money back guarantee. \$1.25 for liner for one plate; \$2.25 for both plates. At your drug store.

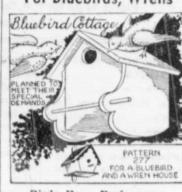

If you are not afraid to face the music, you may get to lead the band some day.

Many a man who is proud of his right to say what he pleases wishes he had the courage to do

The perfect man died yesterday, and another won't be born until tomorrow.

SUSPECT CAUSE OF BACKACHES

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney fun-tion. This may lead many folks to com-plain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomports are due to these

dampness or detary indiscretions.

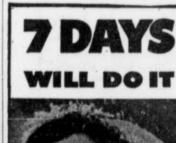

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often etherwise occur, it's amexing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out wasts. Get Doan's Pills today!
