

Lakes, Rivers Teams Open Season Sunday

The Kewaskum teams in the northern divisions of the Land of Lakes and Rivers leagues will pry off the lid on the 1950 baseball season this Sunday, weather permitting.

The northern Lakes will consist of six teams, while eight clubs will compete in the northern Rivers. A 20-game schedule will be played in the Lakes and 21 contests in the Rivers.

Two new teams are members of the northern Lakes this year. Both are Waukesha teams, the Dales and CYO. The Waukesha teams replace Granton and Menomonee Falls. Kewaskum will have a lot of traveling to do.

Every league in the Lakes and Rivers organization has a full quota of either 8 or 6 teams in a division and every one of the 58 teams will be playing every Sunday.

Following are the schedules for the northern Lakes and Rivers:

Miss Alice Backhaus Wed to Jerome Stautz

Before an altar decorated with white gladioli, Miss Alice Backhaus, West Bend, daughter of Mr. and Mrs. Harvey Backhaus, Oakfield, became the bride of Jerome Stautz, son of Mr. and Mrs. Clifford Stautz, Kewaskum, in a two o'clock nuptial ceremony performed by the Rev. Wm. G. Schwemmer in the Peace Evangelical and Reformed church, Kewaskum, on Saturday afternoon, April 29.

During the service vocal selections were rendered by Miss Betty Ann Rose, who sang "Because," and her father, Clifford Rose, with "The Lord's Prayer."

Given in marriage by her father, the bride chose a Victorian style gown of s.pper satin and old fashioned lace with a long train and fingertip veil which fell from a Victorian headpiece. She carried white carnations and pink roses.

The bride's sister, Rita Backhaus, was her maid of honor. She wore white frosted organza over orchid taffeta with a matching floral headpiece. Her flowers were pink carnations. The bridesmaids, Annabelle Backhaus, sister of the bride, June Degner, friend of the bride, Mrs. Clayton Stautz, sisters-in-law of the groom, and Barbara Stangl, cousin of the bride, wore gowns fashioned the same as that of the maid of honor in aqua and yellow with floral headpieces to match. They carried yellow carnations. The flower girls, Eileen Quasas, cousin of the groom, and Kay Janet Denzin, cousin of the bride, were attired in aqua organza and carried flower baskets of carnations. The maid of honor and bridesmaids all wore pearl necklaces and the flower girls wore bracelets which were gifts of the bride.

Clayton Stautz was his brother's best man, while Floyd Backhaus, brother of the bride, and Floyd Stautz, brother of the groom, served as groomsmen and also ushered the guests to their places.

Dinner was served to 100 guests in the church parlors and later a reception was held at West Park ballroom, West Bend, where a wedding dance was also held in the evening.

Upon returning from a wedding trip to the eastern states, the young couple will reside at 224 N. Main st. in West Bend. Both are graduates of the Kewaskum High school. The bride is employed at the West Bend Savings & Loan association and the groom at the L. Rosenheimer Department store, Kewaskum.

Two meetings were held in the past month, April 12 and 26, at the Modern Woodmen club room. The first meeting gave our members a chance to select their projects for the year. Mr. Olson, club agent, and Mr. Skalski, county agent, showed us a film and slides on how to be good club leaders. This was followed by interesting talks on the possibilities of the Boltonville club.

At the meeting on April 26, the following officers were elected for the coming year. They will preside at the next meeting.

President, Joanne Eay; vice-president, Russell Rodenkirch; secretary, Caroline Brandner; treasurer, Elmer Belger; club reporter, Walter Dishno.

The meeting opened with the Pledge of Allegiance, the 4-H pledge, and a song by the members, "Home on the Range," accompanied by Caroline Brandner. Bill call response was led by the secretary, Marilyn Laatsch. Each member responded with the choice of his project for the year. Our club agent, Mr. Olson, gave us an interesting account on the county club activities for the summer months. Our local leader, Clara B. Jachnis, invited us to participate in the 4-H Sunday services at St. John of God church on May 11 by Rev. F. Eschweiler at 10:00 o'clock and at the St. John's Ev. & Reformed church on May 22 by Rev. M. Schorer at 10:30 o'clock.

Four conservation talks were given after Mr. Skalski carefully explained the purpose of the conservation contest: Value of Trees, Rose Marie Staehler; A Plea for the Skunk, Walter Dishno; Let's Keep Our Hedge Rows, Roger Zettler; The Woodchuck—Our Weather Prophet, Marilyn Laatsch. The judges for the contest were members of the club, namely: Norbert Dettmann, Caroline Brandner, Elmer Belger, Prize winners were junior, Marilyn Laatsch, and senior, Walter Dishno. These two winners represented the club at the county contest at Slinger May 3.

Excellent slides on a trip to the West were shown by Mr. Skalski. Committees for the next meeting were chosen: Program, the new officers, and refreshments, Kathleen Degner and Rose Marie Staehler. The members decided to come prepared to the next meeting, Wednesday evening, May 17, at Modern Woodmen club room at 8 o'clock with a descriptive name for the club. It was voted to have dues in the amount of five cents per month. The meeting adjourned after Norbert Dettmann, project leader, served refreshments of soda and cookies.

AUXILIARY CARD PARTY

The ladies' auxiliary of Kewaskum Post No. 381, American Legion, will sponsor a card party Wednesday, May 10, at 2 p. m. at the clubhouse. Canvas will be among the games played.

Elect Officers at State Beagle Club Meeting Here

The Wisconsin Beagle club held its annual meeting and spring derby trial for young dogs in Kewaskum Sunday. Officers were also elected for the coming year and all of the present officers were re-elected. They are Joe Eberle, Kewaskum, president; Ed. Arthur, Dodgeville, vice-president, and E. A. Kopp, Johnson Creek, secretary and treasurer.

Although rain Sunday made the day unfavorable for the derby trial, the events were run off as scheduled in the area surrounding Kewaskum.

The club again voted to hold the annual fall trial and specialty bench show at Kewaskum. These events will be held late in September.

School Pitcher Hurls No Hitter as Team Wins, 22-0

After absorbing a 15-1 beating in their first conference game against North Fond du Lac's Orioles, Kewaskum High school reversed matters in the second contest of the season with Brandon last Friday. Jerry Callen, Kewaskum pitcher, hurled a no-hit, no-run game as his team mates white washed and swashbuckled Brandon, 22-0, in an easy 7-inning win.

Callen struck out 13 batters and walked eight while his mates were scoring 22 runs on only 11 hits.

North Fondy and Campbellsport are the only lineups that remain undefeated in the Fox Valley Tri-County loop. Oakfield held first with three straight wins before being bumped off by North Fondy Monday, 10-1. Gordie Kaufman, Oakfield's junior pitcher, hurled no-hit, no-run ball in both of his team's first two victories and narrowly missed a third straight perfect no-hitter against Lomira Friday. The Lions' only hit came after two were out in the final inning.

MIRROR Of Your MIND

Success Breeds
Envy, Resentment
By Lawrence Gould

Are successful people apt to forget old friends?

Answer: I have seen this happen, but what is more likely to break the old ties is the discomfort both sides feel at recognizing the almost inevitable envy and resentment of the less successful person. When a stranger becomes rich and famous, you can always tell yourself it was because he had a better chance in life than you did. But the more like yourself you know the successful fellow once was, the harder it is to find an excuse for your not having done what he did. And the more inferior this makes you feel, the more you hate him.

Are there times when most of us are insane?

Answer: Technically, yes, though the "insanity" cures itself automatically and is nothing to worry about. For dreams are "hallucinations," and the only difference between them and other delusions is that we recognize that they are unreal when we wake up. Your

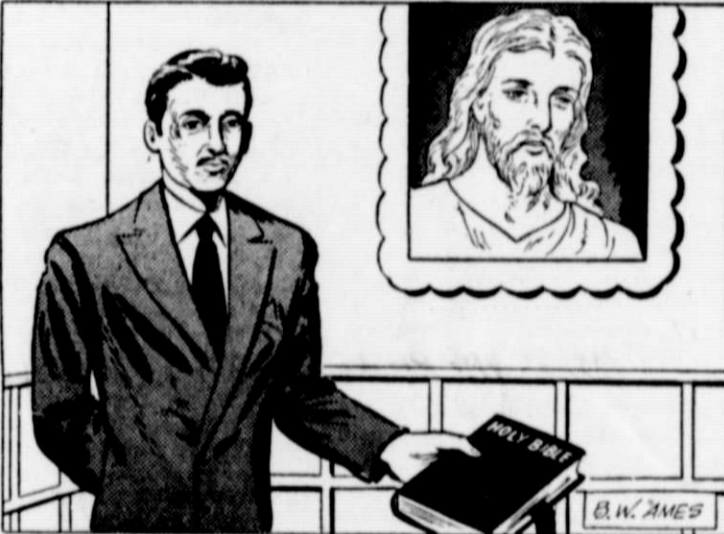

dream world—and mine—are like the "private worlds" that insane people live in, in that everything that happens in them is the product of our fears or wishes, or both. Neither logic nor awareness of reality limits the painful or delightful situations dreams can create.

Should you let a child "do as he pleases"?

Answer: It's a good idea provided that he fully understands what the results will be and is willing to accept them. Liz Baker in Baby Post tells how her five-year-old daughter wanted to wear her new party dress out to play. The child assumed that if she got the dress torn or soiled, Mother would mend and wash it. But once she was convinced that this would not happen and that doing as she pleased might mean her going to a party ragged and bedraggled, she changed to her play clothes of her own accord. She'd begun to grow up.

LOOKING AT RELIGION

A YOUNG MOHAMMEDAN WHO HAD EMBRACED CHRISTIANITY GAVE THIS REASON: "CHRISTIANITY DOESN'T HAVE MUCH IN THEOLOGY THAT MOHAMMEDANISM DOESN'T HAVE. THERE IS JUST ONE THING CHRISTIANITY HAS THAT WE DIDN'T HAVE, NOR ANYTHING LIKE IT—JESUS CHRIST."

KEEPING HEALTHY

Asthma May Be Caused by Emotions

By Dr. James W. Borton

SOME YEARS AGO research physicians in allergy found that emotional disturbances caused or aggravated attacks of asthma. While we are all familiar with the effects of emotional disturbances on the heart, stomach, lungs and intestine, that they could cause asthmatic attacks was hard to understand. It was hard to understand how allergy to various substances and also nose and throat defects could cause asthma.

In "The Canadian Medical Association Journal," Dr. H. K. Detweiler, department of medicine, University of Toronto and Toronto Western hospital, states that physicians must keep in mind the psychosomatic (mind and body point of view, which is that the mind appears as one of the several factors which produce the condition to be cured.

"It is recognized by all good clinicians that the physician who attempts to treat a patient suffering from ulcer with diet and alkalis, and who pays no attention to the detrimental effects of worries and con-

flicts in home, office or factory, the financial or sociological problems of the family and the effects of fatigue and chronic illness upon the patient's powers of resistance, will achieve little."

While an allergy may be the underlying cause of asthmatic attacks, Dr. Detweiler states that if a careful history is taken it will be found that in most cases the nervous make-up of the patient is such as to predispose him to respond in the usual manner to his underlying allergy and actually intensify the asthmatic attacks started by the absorption of the allergic substance.

This history will include inquiry into heredity, childhood neurosis, sensitivity to emotional factors and specific behavior under stress and strain. "Evidences of nervous imbalance such as cold clammy hands and feet, low blood pressure, excessive sweating, rapid heart beat, and irregularities of stomach and intestine processes, are frequently discovered in the history and physical examination."

HEALTH NOTES

Formerly, trying to get a living cornea for grafting has been almost impossible, but this difficulty has been overcome by the establishment of the eye-bank for sight restoration, New York City.

Today, so much more is known about epilepsy than formerly that most patients now under treatment are kept free of attacks.

Despite the mastoid operation, which requires chiseling out of portions of the mastoid bone, most are perfect or almost perfect hearing.

While fear of high blood pressure may make us careful, too much fear may upset all the body processes and render the condition dangerous.

In mental shock treatment, fracture of the bones occurs in some cases.

The reason some are afflicted with hay fever, urticaria (hives), frequent head colds and itching of the skin is that the afflicted ones have too much histamine in their systems.

Certain workers have certain characteristics that make them more prone to have accidents than others.

The person with a narrow, thin body on short legs does not have as much room in his chest for his lungs and is more likely to have lung trouble and indigestion.

From time to time, special diets are suggested to prevent high blood pressure, the underlying idea being the reduction of table salt and liquids.

Condition of Land Vital to Economy Good Farming Practices Aid Conservation Work

That the condition of the land and its productivity affect the vigor and vitality of the national economy is a fact becoming more generally recognized by farmers, business men and industrialists alike.

And, according to W. R. Tascher, extension soil conservationist of Washington, D.C., there is a certain point in land deterioration which when reached becomes the principal factor in influencing the nation's economy.

In the United States about two-thirds of all raw materials come from the land for the country's

This photo shows the kind of land use and development which is vital to the condition of the soil.

total industrial production, Tascher said. About 60 per cent of all manufacturing plants in this country depend upon the soil for their principal raw materials.

It is obvious, he continued, that scarcely a segment of the nation's economy can assume continued survival without the care of its land resources in such a way as to insure continued adequate production.

Spud Harvest Study Would Cut Damages

Preliminary work to determine the points in potato harvesting and handling where bruising injury occurs, with a view to developing methods for avoiding such damage, was started in North Dakota last fall, Perry V. Hemphill, associate agricultural economist of the North Dakota experiment station, reports.

A survey was made by the experiment station in cooperation with regional potato laboratory in East Grant Forks. Samples were taken immediately after digging, from the picker sacks standing in the field, from sacks on the truck at the warehouse before unloading, and from the bins immediately after unloading.

It was noted that the percentage of bruising increased during each operation. After digging it was found 11 per cent of the potatoes were bruised, after picking 17 per cent were bruised, after trucking the percentage bruised went up to 18, and after binning 41 per cent were bruised. It was noted an increase of 23 per cent may be due to the binning process alone.

Applying Shingles

In applying asphalt shingles over an old wood shingle roof, first nail down loose shingles. Split warped shingles and nail down the segments. Place beveled wood "feathering" strips along the butts of each course of old shingles. Apply an "eaves flashing strip" of asphalt roof roofing. Use six nails in each three-tab, square-but.

Overhead Water System Creating Wide Interest

The use of overhead sprinkling systems for irrigated farming has created widespread interest in areas where artificial watering is necessary to crop production.

Among the merits of overhead sprinkler systems is that land leveling—which removes valuable top soil from high spots, is not necessary, and ground ordinarily used for ditches can be utilized for growing crops.

Feed Cattle in 1950 May Break Records

The number of cattle farmers put on feed this year may break the record number of last year, according to A. W. Willis, economist and agricultural expert.

Willis said the forecast was predicted on the movement of feeder cattle, and shipments of feeder cattle into the corn belt states exceeded the previous year's figure by 30 per cent.

Serve Flavorful Breads for Winning Meals
(See Recipe Below)

Flavorful Breads

FRAGRANT YEAST BREADS and quickly made hot breads are positive guarantees that no menu can get into the doldrums. They can lift ordinary breakfasts to glorious heights; with salads or as sandwiches, they can spur luncheons to the winning menu class; and, for dinners or suppers, they can provide that extra touch that makes the meal perfection.

If you have the time to spare, make a light yeast raised dough and spice it with cinnamon or nuts. When time is scarce, put together a quick, baking powder bread and serve with a flourish.

WHEN EITHER TYPE of bread contains fruit, it will keep moist and fresh for several days. If you plan to use it for sandwiches, that's the kind to choose. When you want to serve and eat most of the bread immediately, choose the other varieties.

Date Filled Coffee Cake
(Makes 1 cake, 8x8 inches)
Filling:
1/2 cup brown sugar
1 tablespoon flour
1 tablespoon cinnamon
1/4 cup melted butter
1/4 cup chopped walnut meats
1/4 cup chopped dates
Combine ingredients and mix well.

Batter:
1/2 cup shortening
1/2 cup sugar
1/2 teaspoon vanilla flavoring
1 egg
1 1/4 cups flour
1 1/2 teaspoons baking powder
1/2 teaspoon salt
1/2 cup ready-to-eat bran
1/2 cup milk
Blend shortening, sugar and vanilla. Add egg and beat well. Add sifted dry ingredients and bran alternately with milk. Pour half of batter in greased eight-inch square pan. Cover with date filling, reserving 1/2 cup for top ping. Spread rest of batter over filling. Sprinkle remaining filling over top. Bake in preheated moderate oven (350°) about 45 minutes.

Cinnamon Nut Loaf
(Makes 1 loaf and 2-inch muffins)
1 package yeast, compressed or dry
1/4 cup lukewarm water
1 cup milk
1/4 cup sugar
1 teaspoon salt
1/2 cup melted shortening
3/4 cup sifted enriched flour
2 eggs
1/2 teaspoon vanilla extract
Soften yeast in lukewarm water. Scald milk. Add sugar, salt and shortening. Cool to lukewarm. Add one cup flour and beat well. Add eggs. Beat well. Add softened yeast. Mix well. Add more flour to make a stiff batter. Add vanilla extract. Beat thoroughly until smooth. Cover and let rise until bubbly (about one hour). Stir down and spread a thin layer of batter into loaf pan. Sprinkle 1/2 of Cinnamon-Sugar Nut Filling over bat-

ter. Spread a second layer of batter over the filling. Continue to alternate layers until there are three layers of batter and 3 layers filling ending with layer of filling on top. Bake in moderate oven (375°) 45 minutes.

Cinnamon-Sugar Nut Filling
1/2 cup sugar
3 teaspoons cinnamon
1/2 cup chopped nuts
Mix sugar and cinnamon until well blended. Add nuts.

Poppy Seed Bread
(Makes 2 braids)
1 package yeast, compressed or dry
1/4 cup lukewarm water
1/4 cup shortening
1/2 cup confectioners' sugar
1 teaspoon salt
2 eggs, beaten
1/2 cup milk or cream
4 cups sifted enriched flour (about)

Filling:
1/2 cup poppy seed
1/4 cup honey
2 tablespoons milk or cream
1 teaspoon grated orange rind
1/2 teaspoon salt
Mix together filling ingredients. Soften yeast in lukewarm water. Cream together shortening and sugar. Add salt. Mix well. Scald milk or cream. Add gradually, stirring well. Cool to lukewarm. Add softened yeast and eggs. Blend thoroughly. Add flour to make soft dough. Turn out on lightly floured board and knead until smooth and satiny. Place in greased bowl, cover and let rise in warm place (80° to 85°) until doubled in bulk (about 1 1/2 hours). When light, punch down and roll into rectangular sheet 1/2 inch thick. With sharp knife or pastry wheel cut lengthwise into six equal strips. Put filling down center of each strip. Fold strips and seal together edges. Braid together three strips. Place on greased baking sheet. Let rise until double in bulk (about 1 1/2 hours). Bake in moderate oven (350°) 35 minutes.

Spicy Lemon Nut Bread
(Makes 1 loaf)
3 cups sifted enriched flour
1/2 teaspoon baking powder
1/2 teaspoon soda
1 1/2 teaspoons nutmeg
1/4 cup sugar
1/4 cup chopped nuts
1 egg, beaten
1 medium-sized lemon
1 cup milk
3 tablespoons melted shortening
Sift together flour, baking powder, soda, salt, nutmeg and sugar. Add nuts and mix well. Combine eggs, milk and shortening. Cut lemon in fourths, remove seeds, and put lemon through food grinder. Add to egg and milk mixture. Add to flour mixture and stir until flour is moistened. Spread in greased paper-lined loaf pan. Bake in moderate oven (350°) 1 1/4 hours.

For rising, let dough stand at temperatures of 80 to 85°. If too warm, the dough may be dark colored, coarse textured and sour flavored. Also, the bread may not rise when placed in the oven.

Bread should color slightly during the first 15 minutes of baking when the rising is completed. If the crust does not color during this time, the bread may be too open and large holes will form in the crumb.

For a soft crust, brush the loaves with soft shortening or butter. To make crescents, cut the dough into a pie-shaped piece and roll from the outer edge.

Sweet rolls are attractive when drizzled with confectioners' sugar icing while still warm from the baking.

Bread rolls may be sprinkled with poppy seeds before baking or during rising if this type is liked. Round biscuits are made by rolling the dough into a shape like a broom handle. Cut one-inch slices from this roll, and shape into balls, placing them rather close together in a greased pan.

Would Be Nice
Several college presidents were discussing what they would like to do after they retired.

"Well," said one of them, "I know what I'd like to do. I'd like to be superintendent of an orphan asylum so I'd never get any letters from parents."

"I've a much better ambition," exclaimed another. "I want to be warden of a penitentiary. The alumni never come back to visit."

Hundreds Tell Bob Wills Of Hadacol's Numerous Blessings

Hundreds of folks, who are benefiting every day from taking HADACOL meet at the Trianon Building in Oklahoma City where Bob Wills, famous band leader, and his Texas Playboys broadcast each noon for HADACOL.

"It looks like all my fans are getting wonderful benefits from HADACOL," said Wills. "It is a real pleasure to broadcast for HADACOL because the folks taking HADACOL are so enthusiastic that I feel like I am performing a real service for mankind."

Hundreds have told Wills of the blessed benefits of HADACOL and the following statement by Miss Betty Lou Lobb, 720 College St., Bethany, a well-known singer, is a good example.

"I was tired, run down and lost my appetite. I suffered with gastric disturbances. I had tried almost everything but it didn't seem to help me. I had heard about the wonderful results HADACOL had been bringing to so many of my friends. Soon after taking HADACOL I was feeling much better, had no gastric disturbances and had a wonderful appetite. I am no longer nervous. I am sure that HADACOL has helped me a great deal and I recommend it to my friends."

Miss Lobb suffered with a deficiency of B Vitamins and important Minerals which HADACOL contains.

A lack of only a small amount of the B Vitamins and certain Minerals will cause digestive disturbances... Your food will not agree with you... You will have an upset stomach... You will suffer from heartburns, gas pains, and your food will sour on your stomach, and you will not be able to eat the things you like for fear of being in misery afterwards. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are surely and certainly the symptoms and signs of the lack of the B Vitamins and Minerals which HADACOL contains.

HADACOL contains not only one, but 5 of the B Vitamins. HADACOL contains not only one, but 4 of the necessary Minerals. It comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away.

Bob Wills Hears About HADACOL'S Blessings

Bob Wills, famous western music band leader, loves to talk with his fans at the Trianon Building auditorium in Oklahoma City about the blessings of HADACOL. In the picture above Miss Betty Lou Lobb, 720 College St., Bethany, Okla., a very promising young singer, tells Bob how HADACOL has helped her.

It is easy to understand, therefore, why countless of thousands have already been benefited by this amazing tonic, HADACOL.

So, it matters not who you are... it matters not where you live... or if you have tried all the medicines under the sun, give this wonderful preparation a trial. Don't go on suffering. Don't continue to lead a miserable life. Many persons who have suffered and waited for 10 to 20 years or even longer, are able now to live happy, comfortable lives again because HADACOL supplied the Vitamins and Minerals which their systems needed. Be fair to yourself. Give HADACOL a trial. Demand the genuine HADACOL. Accept no substitutes. Trial size only \$1.25. But if you are so fortunate as to obtain the large family or hospital size, we urge you to save money—only \$3.50. We are so firm in our belief that HADACOL will help you that we sell HADACOL on a money-back guarantee. If you don't feel perfectly satisfied after using HADACOL as directed, just return the empty carton and your money will be cheerfully refunded. Nothing could be fairer. If your drugist does not have HADACOL, order direct from The LeBlanc Corporation, Lafayette, Louisiana. Send no money. Just your name and address on a penny post card. Pay postman. State whether you want the \$3.50 hospital economy size or \$1.25 trial size. Remember, money cheerfully refunded unless you are 100% satisfied.—Adv.

WEEKLY NEWS ANALYSIS

Plane Incident Heats Up Cold War; German Rearmament Pleas Spread; Court Upholds Georgia Vote System

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

COLD WAR: Heating Up

Russia had heated up the Cold War. A United States air force navy Privateer had disappeared after a flight in which it was reported to have flown over Russian territory.

A WIDESPREAD HUNT by American officials was launched for the missing plane. Erroneous reports had it that life rafts from the plane had been found. The first reported rafts turned out to be only fishing boxes.

Had the Soviets shot down the plane, or so crippled it by gunfire that it crashed in the Baltic? That was the big question. Bigger yet was the question: "What would the United States do if it were developed that the plane was a victim of Russian gunfire?"

THOSE were questions that would have to wait, however, until the answer to what had actually happened to the plane had been cleared up—if it ever could be cleared up.

Meanwhile, American troops grew a little shorter with Russian tactics and was no denying that the Cold War had taken on a degree or so more heat.

GEORGIA: Unit Vote Stays

The county-unit vote determination system is unique in the United States because only two states use it. It is unique, too, in that it is found acceptable by city populations in these states, when its use gives votes in some rural counties up to 122 times more weight than those in city areas.

But, the U.S. supreme court has said the system is all right. In a 7 to 2 decision it refused to strike down the county-unit vote in Georgia. Maryland is the only other state employing this system.

JUSTICE BLACK and Douglas protested bitterly against the majority opinion, which was brief and unsigned. These two members of the court declared the action failed to plug what they called the last loopholes in the court's decision which gives Negroes the right to vote.

The majority opinion said that federal courts have no right to interfere with the way a state geographically apportions voting strength. It made no mention of any racial issue the dissenters saw in the case.

Two Georgia voters attacked the existing law. Under the system, each of Georgia's 159 counties is allotted a number of unit votes, ranging from six for the eight most-populous counties down to two for most of the counties.

THE CANDIDATE who receives the most popular votes in a county is awarded all its unit votes. The system, in that respect, works something like the electoral college.

ROYALTY: Tough Going

Everyone has known for a long time that with the exception of England, royalty has been having a tough time. With the changing times, have gone royal privilege and pomp but, chiefly regretful to royalty, the cash, too, has gone.

LATEST to join the ranks of impoverished noblemen was a German duke, Ernst August, of Cumber-land and Brunswick, father of a queen and cousin of a king.

Duke Ernst was really up against it. He was so badly off, financially, that he had to sell treasured antiques just to pay his grocery bills. Rare old relics of his family's medieval splendor were to go under the auctioneer's hammer.

Said the duke, philosophically, "Of course, I'm sorry to part with these things, but it just can't be helped." The duke was down to his last two castles—and one of them is a war ruin.

TV FOOTBALL: One Show Over

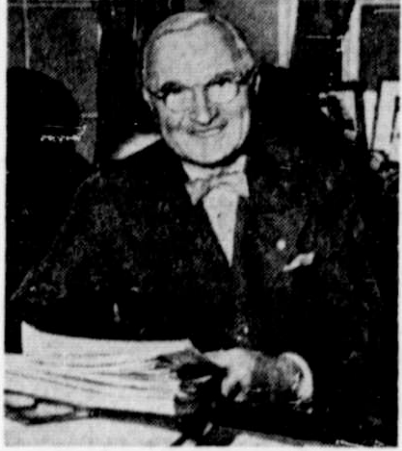

Football fans who have been following Big Ten football by television screen, will find that this fall the show's over. They'll have to go out to the stadium now, instead of sitting cozily at home and following the play.

Big Ten athletic directors, meeting in Chicago, voted to ban live television of their schools' football games for this season. The action may cost the conference \$200,000.

This was because two separate offers for more than \$100,000 each had been made for television rights for the 1950 campaign. The conference decided that "television definitely will have an adverse effect on attendance. It will affect the contest being televised, as well as other contests in the reception area." The fee was also described as "variable and debatable."

Continuing the conference ruled that live television of football would be more harmful than helpful to college athletics in general, and to football in particular.

Starts Sixth Year

Harry S. Truman, looking trim and fit, has started his sixth year as President of the United States. The Chief Executive, 66 on May 8th, rounded out his fifth year with a renewed determination to win the "cold war" with Soviet Russia.

GERMANY: A Repetition?

Any mention of rearming Germany makes cold chills run down the backs of those who remember how a beaten, dismantled Reich was permitted to come back and plunge the world into the most devastating conflict it had ever known.

THREE TIMES in the past 80 years, German war machines have struck swiftly and ruthlessly at the peace of the world. Had the German hordes ever won a world conflict, something of what the vanquished might have expected is provided in the terms laid down by these conquerors of the French in 1870, when German troops stayed on French soil until every penny of reparations demanded was paid.

How the individual may have fared under the Teuton heel was revoltingly demonstrated by Hitler and his sadistic Nazis.

Now, all the great talk, the board planning, the global thinking is merging into one resounding chorus: "Rearm Germany!"

Joining this chorus was General Jacob L. Devers, retired chief of U.S. army field forces, who said in an address in Louisville, Ky., that western Germans "Would like to fight for us, under American officers, against the Russians," if war should come, and he added "They can fight like Hell!"

NO ONE disputes that. But recent history is too grim for such proposals to be received with general equanimity. Too many people of the world will remember that it was that very fear of possible Russian attack which led France and England to sit by with folded hands while Hitler flouted the Versailles treaty and served notice on the world that he was going to rearm Germany. "Let him go," seemed to be the whispered desire, "he'll serve as an excellent buffer against the Russians."

So Chamberlain went to Berch-tesgaden with his folded umbrella and came back hugging to his breast the miserable pledge of the Austrian madman of "peace in our time."

The world had a horrible taste of that kind of "peace." To rearm Germany creates a fearful possibility that the dose may be repeated.

Whether it would win congress approval might rest on the politics involved.

STRIKE THREAT: Old Issue Flares

Two big railway unions were ready to "review the whole case" of their Diesel-engine dispute with the nation's railroads. If the results weren't satisfactory to the brotherhoods, the country faced a major strike threat.

The argument was two years old and was easy to state. The unions felt that the adoption of Diesel-powered locomotives discriminated against manpower and insisted that an extra man be put on these locomotives, whether there was any need for him or not.

The railroads, on the other hand, have refused to do this. Union leaders refused to discuss just how imminent a strike might be or when and in what matter it might be called. Instead, they indicated a review of the situation.

The union was in a highly strategic position. It was free to strike at any time, inasmuch as all "cooling off" provisions of the railway labor act have been exhausted.

Thunderjet

The air force's Republic "Thunderjet" was reaching out farther and farther to deal death and confusion to any potential U.S. enemy. The air force reported that the F-84's range has been increased to where it can carry out most types of missions more than 1,000 miles from base. The increased operation radius is available for straffing missions, bomber escort and hunting enemy fighters.

On bombing missions, the plane's radius remains at 850 miles. That is because the increase has been obtained by installing two additional fuel tanks on bomb shackles beneath the wings. On bombing missions, these tanks would have to be taken off and bombs substituted.

The added fuel tanks have a capacity of 230 gallons each. The planes already are equipped with two 230-gallon wing-tip tanks. The wing-tip tanks and the new one beneath the wings may be dropped, if necessary, during combat which adds to the versatility of the craft.

CHINA: Cry for Help

As has been the case since the dawn of history, it is the innocents who seem to suffer most in internecine strife. China is no exception. In that country of vast population and so frequently too little food, many Chinese are starving. A naturally difficult struggle for existence has been intensified by China's civil war in which the Communists emerged victorious.

NOW there is a cry for help. A Chinese Nationalist group has appealed to American labor, as an organization to help combat famine in Communist China. But with their usual skill in that department, the Reds have managed to confuse world opinion on the situation.

The Communist regime has done a good job of beclouding what almost all non-Communist sources say is one of the worst famines in China's history. The Reds have admitted that the situation is critical, saying some 16 million people were affected. Private letters filtering from Red-held China indicated the number was 53 million.

The Chinese Nationalists and western relief agencies and religious organizations have been seeking some means to help the starving, hence the appeal to American labor for help.

AN EASILY understandable obstacle, of course, was the uncertainty as to final disposition of any aid that might be forthcoming. Some assurances would have to be made that relief goods went to those for whom supplies were intended. Who could give that assurance? The Chinese Communists?

Yes, there was a way. If the Reds would agree to give safe conduct to relief missions into the area, perhaps the job of starving thousands might be successfully completed. But, barring some such procedure, the outlook was dim indeed.

THE SENATOR happens to be on good solid ground, because it is partly through federal winking at slot-machines that the individual states have so much trouble coping with the "one-armed bandits."

The federal government licenses slot-machines, despite the fact that in the vast majority of states their use and operation are illegal. If the federal government slapped a ban on the machines, as it has on narcotics, white-slave traffic and other morals offenses, the state would find it far easier to deal with the slot-machine problem.

THE BILL envisioned by Johnson would outlaw manufacture of gaming devices in states where they are prohibited and forbid their shipment into such states. It would not apply, however, to states where slot-machine operation has been made legal by legislative act.

Johnson explained his ideas on the subject as indications pointed to a fight on the senate floor on the question of who would get the job of inquiring into the nation's crime.

Johnson's bill already is through the commerce committee, where it was approved without hearings.

Whether it would win congress approval might rest on the politics involved.

Free Man

Barnard J. Smith, Jr., 24, of Fair Haven, Vt., thumps his chest and takes a deep breath of snow-filled air upon his release from jail after taking the poor-debtor's oath. His case attracted national attention because of the prevalent but obviously erroneous opinion that no one can be jailed for debt in this country. Smith was jailed for failure to satisfy a \$2,500 judgement.

If one should have a friend or acquaintance with whom he is out of contact, and whose whereabouts are unknown, the odds are one-in-25 that he, or she, is on some kind of public payroll. That's what the U.S. census bureau reports. Federal, state and local governments, the report stated, has a total of 6,204,000 workers drawing a record-high monthly total of one billion, 406 million dollars.

Too, the bureau counted only civilian workers. The commerce department, counting the 1.5 million in the armed forces and paid by the federal government, estimated government payrolls were 21.8 billion. While the federal government itself had only 33 per cent of the workers, it carried 38 per cent of the civilian payrolls. Comparative data for the states were 17 and 15 per cent, and for local governments 50 and 47 per cent. Governmental workers ranged fewer than 30 per 1,000 in six states, as compared with the general figure of 40 in 1,000.

INDUSTRY 'GOES RURAL'

Employees begin to stream out the front entrance of the plant (above) as the first shift ends at 3:30 p.m. They began work at 7 a.m. Most employees live on surrounding farms, drive to work in their own family automobiles. This corner of the plant houses the offices. Photo at right shows industrial relations man Richard Smith, seated at left, discussing union contract provisions with Mrs. Marie Whitaker and union chairman Robert Moberly.

This husband and wife team (left) has found the new plant providing them their chance to buy a home. They are Leslie and Mary Allen, ages 22 and 19, respectively. They live just a block from the plant and hope to buy their own home within a year.

Shown below Faye (left) and Roberta Pearson don't look much like factory workers. Age 20 and 18, respectively, the two girls live 12 miles from town, get up at 5 a.m. to make the first shift. Brought up on a farm, they nevertheless have developed into capable workers in the plant. Faye is taking on a night business course and hopes some day to take over a secretarial job. At present she runs a lamp-making machine and sister Roberta tests completed bulbs in the engineering section.

The work force in the Richmond community is remarkably young. The average employee age at the plant is about 22. In photo above, 19-year-old Christine Brown (left) and 27-year-old Betty Locke test flashlight and auto light bulbs. Christine previously had worked in an office in town. Betty was a farm girl, still lives 10 miles from town and helps with farm chores.

Dominican Republic Offers Home To Refugees From China's Reds

CIUDAD TRUJILLO, D.R. — One hundred and eighty displaced White Russians and 10 Chinese who fled the Communist regime now in control of most of China have arrived in the Dominican Republic and are rapidly being assimilated there.

The refugees are the first group to be invited to resettle in the West Indies nation at the invitation of President Rafael L. Trujillo, who has offered to accept several hundred more from the temporary United Nations refugee settlement on the island of Samar in the Philippines.

The step emphasizes the president's satisfaction over the outcome of his offer of a haven to Jewish refugees at Sosua at the beginning of the war—a move that has created one of the Republic's most thriving and prosperous farming and dairying communities, now making a significant contribution to Dominican well-being.

It also reflects the successful assimilation of refugees from Franco Spain and from Communist Hungary, all of whom are now participating actively in Dominican life.

In addition to its charitable aspects, the Trujillo policy of giving aid and refuge to the oppressed and exiled of other nations points up an organized program designed to bring new stock and new skills to what is probably the most rapidly evolving nation, economically and socially, in the world.

Selected Citizens

To arrange for the immigration of the latest refugee group, the Dominican secretary of the interior travelled directly to Samar, where he interviewed the first batch of potential Dominican citizens.

First meal in their new homeland is enjoyed by the White Russian refugees in a temporary mess hall in San Cristobal.

zens—selecting those who seemed most fitted by their personal background and their qualifications as technical or agricultural workers. The screening job completed, they were brought to Naples in a U.S. army transport and from there in a specially chartered vessel to Ciudad Trujillo, capitol of the Dominican Republic.

Some of the refugees brought wives and families. More than 100 of them are already earning their livings at their regular trades and occupations.

They include two doctors, one lawyer-accountant, teacher, a geologist, miners, a bacteriologist, nurses, farmers, electricians, machinists, Diesel engine operators, seamen, cabinet makers, carpenters, a barber, a watchmaker, cooks and waiters, radio and radar operators, hairdressers, manicurist and dressmakers. All government departments have cooperated to find jobs for them.

To care for them in the interim period between arrival and resettlement, the government installed the 190 in the dormitories and faculty residences of the new state agricultural college in the beautiful town of San Cristobal, only 20 miles from Ciudad Trujillo in the nearby mountains.

The college buildings have just recently been completed but will not be officially in use until study facilities are installed. In the meantime, it is an ideal home.

Columbus Returned Again and Again

Christopher Columbus returned to the land that is now known as the Dominican Republic four times because, as he wrote to King Ferdinand and Queen Isabella, "There is no fairer land than this under heaven." It occupies the eastern portion, about two-thirds, of the Island of Santo Domingo, the second largest of the Greater Antilles, situated between Cuba on the west and Puerto Rico on the east. The land is extremely fertile, and agriculture and livestock raising are the chief industries.

BROADWAY AND MAIN STREET

Tragedy of the Couple Watching the Carousel Began When the Nazis Caught Them in Vienna

By BILLY ROSE

Some of the sprightliest talk to be heard in Manhattan these nights is in the coffeehouses frequented by the talented and threadbare refugees of Mittel-Europa. Night after loquacious night, you'll find them huddled over red-and-white checked tablecloths, and though many a cultural door has been slammed in their faces, they remain a spirited and sociable lot, short on money, perhaps, but long on banter and bravado.

Most of the stories spun by these continental katzenjammers are on the comic side; yet, once in a while they come up with a yarn which leaves a ping-pong ball in your throat.

For instance, there's the tale about the old gentleman and his greying wife who, during the summer months, can be seen almost every day on the carousel near the Central park zoo, holding hands as their adjoining ponies pump up and down.

Who are they? Well, to tell you, I'll have to go back several years and several thousand miles.

Shortly after the Nazi goose-stepped into Vienna and decency went underground, a well-known surgeon and his wife, both of frowned-upon ancestry, were urged by friends to take their six-year-old son and leave the country.

The surgeon refused. "I'm needed at the hospital," he said, "and I intend to stay as long as I can be of use."

His usefulness, however, came to an end a few afternoons later

Billy Rose

when a detachment of SS men rang his doorbell. The doctor, who had been warned to expect them, led his wife and son out the rear door, but as they hurried up the street a neighbor spotted them and gave the alarm.

As the hunted trio turned a corner, they came upon a small carousel which had been set up in a public square to celebrate the arrival of the German "liberators," and thinking fast, the surgeon bought three tickets and clambered aboard with his family as the hattered runaway started up. The child was placed astride a gaudy zebra while the parents sank way back in one of those chairs whose outskirts made a swan.

The SS men searched the square and were about to move on when the boy to whom it was all a game, reached out and grabbed a brass ring and, turning to his parents, shouted, "Look, look! Now I get a free ride!"

Attracted by the boy's cries, the storm troopers dragged the doctor

and his wife from the carousel and were about to take the child when their leader, a youth with a hangman's sense of humor, stopped them. "The kid got the brass ring," he said. "He's entitled to a free ride."

As the carousel started up again, the tiny strains of "Chiribibi-bim" drowned out the mother's screams, and the last the couple saw of their son he was riding on the merry-go-round.

The surgeon was too valuable a commodity to kill right off, and so was his wife, a skilled nurse. They were sent to a slave labor camp to tend those prisoners considered too healthy for the ovens, and when the Allies marched into the camp in 1945, the couple were still alive. By this time, however, the surgeon's brain was a bit misty, but friends in New York paid his passage, and he and his wife were among the lucky ones who got by the immigration quota.

Ever since, the pair has been spending most of their summer days in the vicinity of the Central park carousel. The old boy is pretty much off his trolley, but his wife continues to humor him, and whenever he gets agitated and mutters, "Where's Otto? I saw him on the zebra a minute ago," she patiently takes him by the hand and says, "Come along, dear, maybe he got tired and went home."

SAFE . . . Leo Battershell has set what probably is a world's record by driving 1,098,375 miles during the past nine years without a single accident—not so much as a scratched fender. He is a member of the protection department of the western Cartridge company at East Alton, Ill.

This is Your Paper Printing News Is a Duty

By William R. Nelson

MANY readers of newspapers are mistakenly reluctant to report newsworthy events about which only they know the facts. To some it apparently is embarrassing to tell the paper about social affairs in their homes, visitors, information received in letters, or other equally newsworthy items.

Telling the paper about news, whatever its nature, whether large or small in importance, should not cause embarrassment, and will not if rightly regarded. In fact, giving news to the home town newspaper might better be looked upon as a social and civic duty one owes to the community. Certainly the newspaper will receive it in that way.

Newspapers cannot afford to maintain staffs large enough to actually hunt out every news item they publish. All must also rely upon voluntarily supplied news tips and items for a large part of the news they publish.

But there is another way to look at it that is equally important. Whenever you invite guests into your home you are honoring them. When they accept they are honoring you. To acquaint the community with such incidents is a gracious action which your guests and the community will fully approve.

Even information received in letters, excepting of course the confidential and purely personal, is news if the writer is known by others.

On those occasions when sickness, accidents, or other personal troubles occur, the community will want to know about them, so it can respond accordingly. To neglect or refuse to give such information deprives your neighbors and other friends of opportunity to show their interest and friendship.

One of the main reasons why people like to live in smaller communities is the greater number of friends they make. One of the surest ways to make friends is by giving news to the home town newspaper.

Next time you entertain, have guests, receive news in a letter, there is illness, or some member of your family experiences disappointment or success, tell the paper about it. If you have never done so before you will be surprised and pleased by the glow of satisfaction its publication will generate.

Star Dust STAGE-SCREEN-RADIO

By INEZ GERHARD

TWO YEARS AGO Frances Gifford's movie career looked fine; she had been in about a dozen pictures, with increasingly important roles. Then, at the height of the New Year's festivities, she was in an automobile accident. She spent

agonizing months in bed, never sure whether she would ever face a camera again. Complete recovery finally came, plastic surgery restored her beauty, and she has returned to the screen in Paramount's "Riding High," opposite Bing Crosby. Ahead lies the success she deserves.

"Riding High," a Frank Capra production, is one of Crosby's best. It is a race track story, with Bing starred as a broken-down vagabond, owner of one horse and no money. There is a nice little love story, there are new songs and old ones, and a fine cast, which includes Elizabeth Taylor to play opposite him, so once more they tried to persuade her.

Sammy Kaye is recording a series of 14 radio shows to step up the United States navy recruiting program. The series will be heard on 1,500 radio stations throughout the country, starting in July. George Hicks does the announcing.

Following the appearance of his article, "Be Kind to Bachelors," Ben Grauer reports the receipt of letters from all parts of the country applauding his stand on bachelorhood. More than 90 per cent are from women. Ben's a most eligible bachelor.

George Fisher has joined the ranks of radio commentators who have become movie actors. Fisher, whose "Hollywood Whispers" CBS show is one of the West coast's most popular daily programs, also conducts "Confidential Closeups" over NBC Saturdays. He will make his movie debut in E. A. Dupont's "The Dungeon," co-starring John Ireland, Mercedes McCambridge and Emlin Williams.

ODDS AND ENDS . . . RKO's first big-budget musical since the days of its Ginger Rogers and Fred Astaire successes will be "Two Tickets to Broadway" . . . Charles Boyer will star in "Foreign Legion," playing a monk . . . In "The Great Jewel Robber" David Brian plays a thief who specialized in stealing furs and jewels.

THE FICTION CORNER PERPLEXING RIDDLE

By Richard H. Wilkinson

L. T. JEFF BOYNTON of the Union army's Company E, second regiment, Massachusetts volunteers, wore a look of utter dejection as he entered headquarters tent, nodded wearily to Capt. Finn Lacey and slumped onto a stool. The captain stopped writing, leaned back in his chair.

"She wouldn't talk, eh?" "No, she wouldn't talk," Boynton answered. He stretched his long legs out in front of him and studied the worn toe of his boot.

"Maybe she's not a spy after all," Lacey hazarded. Boynton's blue eyes flashed as he jerked up his head. "Yes, she is! I'm sure of it."

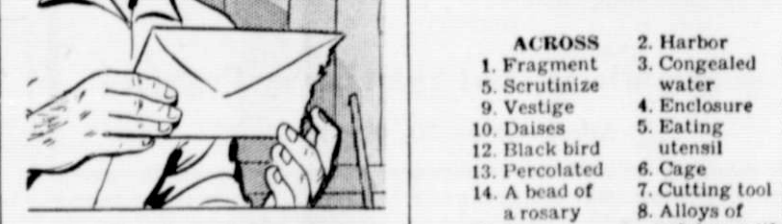

Lacey shrugged and gestured with his cigar. "If you're so sure, we'll hold a court-martial and—"

"No!" Boynton was on his feet. "Don't do that, sir. We haven't enough evidence to convict. It will mean she'll go free and we'll lose our one chance of stopping the leak. Information is getting through somehow. Alice Struthers is responsible. We must learn her methods."

How? That was the question that had driven Lt. Boynton nearly to distraction, had caused him the loss of sleep and wearied his brain from thinking. A week ago, basing the act on the slimmest of reasons, he had had Alice Struthers arrested.

The paper was yellow, the ink faded. The postage stamp had been ended that he found the answer to the riddle. One day while going through his relics of long ago battles he came upon a letter. It was one that Alice Struthers had written to her friends in the South, and which she had kept for a souvenir.

rested, to be held for questioning regarding the leakage of information to Confederate Gen. Johnson. "You can't hold her forever without a trial, Boynton," the older man pointed out after another week had passed in which the lieutenant had failed completely in his efforts to unearth some grain of evidence. "Miss Struthers is popular among the officers. Some swear they have known her for years and will vouch for her loyalty to the Union."

"Which makes it all the more likely she would succeed as a spy. I happen to know that all of Miss Struthers' maternal ancestors came from Georgia. She herself spent a good part of her girlhood in Savannah."

Idly he fingered a package of letters he had brought in with him. "I'm convinced that in these letters the girl is sending out the information. How, I don't know. Certainly she is using no code. I have checked every letter a dozen times. Purposely I have permitted each to be mailed. Events immediately following convince me that some
