

## 12 County Inductees Leave for Army Duty

Twelve Washington county men left the selective service office in Hartford Saturday morning for induction into the armed forces at Milwaukee. This was the second group of draftees to leave the county since the Korean outbreak.

The group included: Herman Simon, R. S. Hartford; Robert Tock, West Bend; Roger Hawig, Campbellsport; James Muller, West Bend; Robert Fritz, Hartford; Jerome Boettcher, West Bend; Oscar Hetzel, Slinger; Anton Pfeifer, Hartford; Herbert Van Beek, West Bend; Albert Lauffer, West Bend; Donald Hennes, Hubertus; and Leander Rottler, Hartford.

A total of 74 county men left last Tuesday for pre-induction physicals at Milwaukee. The county quota for the next pre-induction physical Nov. 16 is only 15 men.

### FOND DU LAC GROUP LEAVES

The second group of 27 Fond du Lac county selectees to be inducted left that city Oct. 27. The group included Roger W. Koch and Marvin F. Marquardt, R. 2, Campbellsport, and Henry A. Straub, R. 1, Campbellsport.

### BOLTONVILLE BUSY BEAVERS 4-H CLUB

Elmer Belger was elected president of the Boltonville Busy Beavers 4-H club at the monthly meeting held on Wednesday evening, Oct. 11, at the school. Other officers elected: Roger Groeschel, vice president; Marilyn Laatsch, secretary; Rose Marie Staehler, treasurer, and Douglas Wierman, reporter. Installation of these officers and initiation of the seven new members, Janice Riley, Ronald Zettler, Mary Ann and Kenneth Stahl, Irene Enright, Mary Decker, and Eileen Laatsch, will take place at the November meeting. Club members had five visitors—June Staehler, Sharon Fay, Sharon Gilford, Margo Weiss, and Jerry Yearling.

Juan Fay, president, told the club of the two events being recognized in the month of October by 4-H members. Fire Prevention week, Oct. 9-14, and United Nation's day, Oct. 24.

Mr. Scheid, instructor of agriculture, Kewaskum High school, gave an excellent talk on fire losses. By graphs he showed the estimate fire losses for 1950, the causes of these losses, and 4 rules for club members to remember in preventing fires.

Club members of the Boltonville school under the direction of Mr. Leithan, principal, had inspected the school, hall, and church for possible fire hazards. The report of their findings was well given by Harold Gilford. Three film strips on fire prevention were shown by Douglas Wierman.

Elmer Plamm, president of the Boltonville fire department, honored the members by his presence and gave very helpful advice to the young citizens who would be the future members of the fire department.

In recognition of United Nation's day, Walter Dishno gave the pledge for the United Nations flag in which members give full support to the United Nations, the one great hope for a peaceful world, with freedom and safety for all.

Mr. Olsch, county club agent, invited the members to attend the achievement program, Nov. 2, and enumerated the awards that members can strive for in 1951.

Other features of the meeting were the singing of "America the Beautiful," the giving of the pledge, the pledge of allegiance, the roll call, the reading of the minutes by Caroline Braenderer and the treasurer's report by Elmer Belger.

Roger Zettler and Elmer Belger served soda and the delicious cup cakes that they had baked to the 33 persons present. For the November meeting, the parents of the newly elected officers will be in charge of the refreshments.

## Brandon Hands Indians First Defeat, 32-28

Kewaskum, which had been undefeated and tied for first place with Campbellsport in the Fox River Valley Tri-County loop, gave their championship chances a pretty good kick in the pants Friday when Brandon handed the Indians a 32-28 setback on Kewaskum's home gridiron.

It was a close, see-saw battle but this didn't help the Indians in the final outcome. The defeat dropped Kewaskum to a tie for second place with Brandon. Both have won 3 and lost 1. Campbellsport, by blasting Oakfield, 40-6, Saturday remains undefeated and alone at the top of the heap, thanks to Kewaskum's loss. In the other game Saturday Green Lake easily whipped Lomira, 40-16.

Kewaskum still was in a position to tie for the league crown if they could beat the Belles in the final game played at Campbellsport Friday at that school's homecoming. If this happened these two teams and Brandon, which should win easily over Green Lake Saturday, could all be tied. A Belle victory and they are undisputed champs.

In Friday's contest against Brandon both teams tallied four touchdowns but an extra point and a safety was the victory margin for the invaders. Konnie Vorpahl and Arnold Riese scored three touchdowns each. Wally Cudnowski scored first for the Indians and when Vorpahl ran over in the first period and Edgar Loomis converted, the score was 14-0. Kewaskum, Brandon got two points when Hilbert Justman was tackled behind his own goal line. Moments later Riese scored and Tom Miller booted the two-pointer. With 15 seconds remaining in the half, Riese raced 65 yards to put Brandon out ahead, 18-14.

Kewaskum charged back and scored the first time it had the ball in the third quarter. Vorpahl went over and Loomis kicked the extra points to give the Indians a 22-18 lead. Then Tim Flaherty put Brandon back in front 26-22 and Riese tallied with five minutes remaining to make it 32-22. Vorpahl ran over the final Indian TD.

## Attend the Farm and Home Show Saturday and Sunday

Kiwanis Club Sponsors Two-Day Event at High School; 26 Exhibits, Prizes, Entertainment

This is the week end of the big Farm and Home show to be held in the Kewaskum High school and agricultural buildings under the sponsorship of the Kiwanis club. The first show of its kind ever held in Kewaskum, it will feature four sessions—two each day Saturday and Sunday, 2:30 to 5:30 p. m. and 7:30 to 10:30 p. m.

The two-day show will feature exhibits and booths by 26 merchants, industries and other businesses. Admission is only 25 cents and children under 10 accompanied by their parents will be admitted free. The exhibits will offer ideas for farm and home improvements. Sunday particular emphasis will be given to the farm and its equipment.

Each session will provide a fine program of entertainment and specialties. Featured acts will include Judy Weslar, baton twirling champion, first prize winner at the V.F.W. national convention; Jack Larkin, one of America's foremost magicians, using live rabbits and pigeons; Chet Kohr, comedy rhymer, and music by the West Bend Music Center Accordioners.

Special merchandise certificate prizes will be given at each session and a grand attendance prize will be given at the show's close. Total prizes will amount to \$50.00. Gifts will be provided and refreshments served.

A list of the exhibitors was published in our last issue. These exhibitors are receiving the aid of manufacturers and suppliers in planning interesting displays. The Kiwanis club is depending on public support to make the first farm and home show a success. Clifford Stautz is chairman of the arrangement committee. Don't miss this excellent display by Kewaskum merchants, service agencies and industries.

### FARM CREDIT ASSOCIATION HOLDS LOAN PAY-OFF NIGHT

Guido Schroeder, president of the Juneau Production Credit association announced the past week that Tuesday evening, Oct. 24, was farmers' pay-off night at West Park pavilion in West Bend. He stated that members in Washington and surrounding counties participated in a ceremony in which their association had the distinction of being one of the few in the district to repay Uncle Sam in full the money he invested in their association back in 1934.

Through the past 17 years of economical operations the original government capital has been reduced to \$5,000.00. Mr. Schroeder stated that a representative of Uncle Sam was at the meeting to accept the \$5,000.00 check in full payment.

Washington county farmers are to be congratulated upon their achievement of 100% local farmer ownership.

### RAT CONTROL DEMONSTRATION ON ELWYN HAMLIN FARM NOV. 3

To show how Warfarin, the new rat and other rodent control poison bait can best be used, a demonstration will be held on the Elwyn Hamlyn farm on Friday afternoon, Nov. 3. The demonstration will start at 1:30 o'clock. The Hamlyn farm is located on the Myra road and two and one-half miles east of West Bend.

Warfarin is a new rat and mouse poison, developed at the University of Wisconsin and marketed through the Wisconsin Alumni Research Foundation. It is said to be a very effective poison for rodents and harmless to most other farm animals. Any one interested in the use of this rat bait is invited to attend the demonstration on Friday afternoon, Nov. 3, on the Hamlyn farm.

### GIRL SCOUTS SHOW DISPLAY FOR NATIONAL SCOUT WEEK

The week beginning Oct. 27 is National Girl Scout week. It commemorates the birthday of their founder, Juliette Low. The Kewaskum Girl Scouts will have a display in the L. Rosenheimer store window during this week to show their uniforms and various equipment. You will see some of the work they have done and are planning to do.

## Casserole Cookery Helps Cut Down Soaring Food Bills

WHEN THE FOOD budget evades all your efforts to keep within its necessary limits, then it's time to start fixing those nourishing, appetite-satisfying casseroles. There's a good bit of eating in a fine casserole, and you can frequently use left-over meats and vegetables in them rather than wasting them.

Even when saving money is no object, there are many people who like the home-like atmosphere of having a casserole dinner. Plan them as well, cook them as carefully as a roast, and your family will enjoy them as much as the Sunday dinner with chicken or a roast.

**PROTEIN-RICH** eggs and milk extend less than a pound of ham in this tasty casserole dish:

### "Deviled Ham Puff" (Serves 6)

- 8 slices, day-old white bread
- 3/4 pound cooked ham, ground
- 3 tablespoons prepared mustard
- 1 tablespoon horseradish, if desired
- 4 eggs, slightly beaten
- 2 cups milk
- 1/2 teaspoon salt
- Pepper to taste

Spread bread out and let stand several hours to dry out; then toast, lightly. Cut crusts from the slices and place crusts in a greased, shallow pan, 9x1 1/2 inches. Combine ham, mustard and horseradish and spread in an even layer over the crusts, then arrange the whole slices, cut in half diagonally, on top. Mix the eggs, milk, salt and pepper and pour slowly over the bread so as to saturate the top slices; allow to stand for one hour. Bake in a moderate (350°) oven for one hour. Serve immediately.

### Dried Beef Casserole (Serves 6)

- 1/4 cup chopped onion
- 1/4 cup chopped celery
- 3/4 pound dried beef, shredded
- 1/4 cup fat
- 4 tablespoons flour
- 2 cups milk
- 2 cups cooked macaroni
- 1/2 teaspoon salt
- 1/2 teaspoon pepper
- 1 cup cooked peas
- 1/2 cup grated American cheese

Cook onions, celery and dried beef in hot fat until onions are golden. Blend in flour, then milk gradually and stir until slightly thickened. Add macaroni, salt, pepper, peas; then pour into greased 1 1/2 quart casserole. Sprinkle with grated cheese. Bake in a moderate (350°) oven 15 minutes.

### Frankfurter-Tomato Casserole (Serves 6)

- 6 frankfurters
- 4 slices dry bread
- 1 No. 2 1/2 size can tomatoes
- 2 tablespoons finely chopped onion
- 1/4 teaspoon sugar
- 1/2 teaspoon salt
- 1/4 teaspoon pepper
- 1/4 teaspoon dry mustard

Place three frankfurters on bottom of greased 1 1/2-quart casserole.

Meat, potatoes and several colorful vegetables are included in this delicious main dish pie. Note the effectiveness of baking powder biscuits cut with a doughnut cutter as topping.

### LYNN SAYS: Salads Add Color, Contrast to Meals

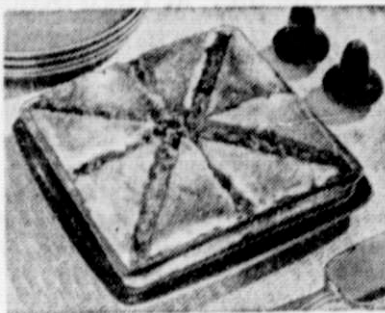

Leftover bits of roast duck make an elegant salad. Combine with cut-up orange and ripe olives. Use a tart French dressing made with both lemon juice and tarragon vinegar with enough freshly ground pepper for high seasoning. Serve on watercress.

For a simple fruit salad, roll orange slices or sections in shredded coconut and serve with honey French dressing on a bed of greens.

Tomatoes are delicious when stuffed with seasoned cooked vegetable like lima beans or green peas mixed with chopped celery and mayonnaise.

Glory in a plain cabbage salad with sour cream dressing. Shred the cabbage fine and simply add some celery seed before folding in the dressing.

Tiny cauliflower flowerets, tender spinach leaves, shredded carrots and salad greens make a vegetable salad plate when served with French or Chiffonade dressing.

This interesting casserole uses leftover ground ham with protein-rich eggs and milk, a seasoning of horseradish, with toast triangles, to make a dish worthy of hearty eating.

### LYNN CHAMBERS' MENU

- \*Deviled Ham Puff
- Lima Beans or String Beans
- Orange-Coconut Salad
- Muffin Jelly Beverage
- \*Recipe Given

Break dry bread into chunks and place over frankfurters. Combine all remaining ingredients and heat to boiling. Pour hot tomato mixture over bread. Top with three remaining frankfurters. Bake in a moderate (350°) oven.

### Liver Casserole

- 1 1/2 pounds liver
- 2 onions, sliced
- 2 slices bacon
- 3/4 cup spaghetti
- 1/2 green pepper, sliced
- 1/2 red pepper, sliced
- 1 1/2 cups strained tomato
- 2 teaspoons salt

Place liver, in once piece, in casserole with onion. Lay pieces of bacon over liver.

Place in a very hot oven (500°) for 20 minutes. Cook spaghetti in boiling, salted water until tender. Drain and add to liver. Add peppers, tomato and salt. Cover and bake in a slow (300°) oven for 3 hours.

### Meat and Vegetable Pie (Serves 6)

- 1 medium onion, sliced
- 1/2 cup celery, sliced
- 2 chicken bouillon cubes
- 5 tablespoons butter
- 5 tablespoons flour
- 2 1/2 cups milk
- 1/2 teaspoon salt
- 2 cups diced, cooked veal
- 2 cooked potatoes, diced
- 2 cooked carrots, sliced
- 1/2 cup cooked peas
- 1/2 cup cooked lima beans

Cover sliced onion with boiling water and let stand until needed. Cook celery until tender in 1/2 cup water. Dissolve bouillon cubes in boiling water. Make a white sauce of butter, flour and milk; add salt. Combine with drained onion, celery, bouillon, meat and vegetables. Turn into buttered casserole or baking dish and cover with small baking powder biscuits.

### Baking Powder Biscuits

- 2 cups all-purpose flour
- 4 teaspoons baking powder
- 1/2 teaspoon salt
- 1/2 cup butter
- 1/2 cup milk

Sift flour, measure; sift twice with baking powder and salt. Add butter and cut with pastry blender or two knives. Add milk and stir quickly. When dough is formed, turn on floured board and knead for about 20 seconds. Roll to 1/4-inch thickness and cut into small biscuits; lay on top of mixture in casserole. Bake in a hot (450°) oven for 12 to 15 minutes.

### Southern Sausage Casserole (Serves 4)

- 4 large sweet potatoes, cooked
- 1 pound pork sausage meat
- 4 large apples
- Salt, Water, Brown Sugar

Peel potatoes and cut into thin slices. Place half in the bottom of greased casserole; cover with sausage, shaped into 4 cakes. Add apples cut in thick slices. Sprinkle with salt, brush with water and sprinkle with brown sugar. Bake in a moderate (350°) oven for about 1 hour.

Canned pineapple, fresh pear sections and preserved ginger offer a tasty combination for cold weather eating.

Cooked green peas and diced potatoes can be combined with leftover lamb for a main dish salad. Add some chopped mint to the French dressing before serving.

Banana, pear, orange and pistachio nuts folded into half mayonnaise and half whipped cream make a salad lovely and tasty enough for a ladies' luncheon.

Another good party salad uses cling peach halves with cream cheese balls, and shredded almonds which are either plain or toasted. No need to skip salads when there are so many combinations available even during cool weather. Try diced dates, sections of orange and a dusting of coconut.

Chunky banana wedges, pineapple pieces, sliced orange and seedless grapes will please the most finicky of eaters. Sour cream dressing is excellent.

For color and flavor contrast use sliced tangerines with sliced pineapple, then add green or red pepper rings. French dressing is fine for these flavors.

## Good Dairy Barn Lighting Essential

### Speeds Up Work, Aids Sanitation Problems

Good lighting in the dairy barn is not only convenient, but necessary. For it speeds up work and helps the dairyman with his sanitation problems.

Farmers, therefore, are cautioned by agricultural engineers to wire their barns so that they have plenty of illumination on the job, around the job and going to and from the job. For these purposes, it is recommended that lighting outlets be located every 12 feet on the center line of the litter alley and every 20 feet on the center line of the feed alley.

The above picture illustrates lighting outlets at 12-foot intervals on the center line of the litter alley and every 20 feet on the center line of the feed alley.

If more illumination is desired than can be obtained from the above plan, a second line of lights can be placed in the litter alley over the hind quarters of each row of cows. Flood lights on the outside corner of the barn, or conveniently placed yard lights, will help prevent accidents by illuminating the farmer's path from the barn to the house. If a milk house loading platform is used, it also should be well lighted.

## Individual Lifetime Meat Quota Set at 55 Animals

Your lifetime quota of meat in terms of live animals represent 33 hogs, 10 lambs, 3 steers and 4 veal calves, a livestock publication reports.

That's provided you live to be 68.3 years of age—the life expectancy of a man born in the United States today.

The data was based upon actual consumption of the amount of meat eaten by the average person over a 52 year period. Since the turn of the century, average per capita meat consumption has been 67 pounds of pork, 61 pounds of beef, 7.5 pounds of veal and 6 pounds of lamb.

"Since the beginning of the century," the publication said, "the high point in per capita meat consumption was reached in 1918 at 163 pounds. The low point was 117 pounds in 1935. Since that time, however, meat consumption per capita has been fluctuating around 150 pounds per year."

## Final Vaccination

Oscar Flores, director, (left) and General Harry H. Johnson, co-director, were on hand to see the final dose of vaccine administered in the three-year battle to eradicate foot-and-mouth disease in Mexico. During the campaign approximately 17,000,000 animals were vaccinated three times, and the majority of them received a fourth immunization.

There have been no outbreaks of the disease since December, 1949.

## Fresh Market Vegetable Tonnage Tops Last Year

The total tonnage of vegetables for fresh market during the 1950 summer season was approximately 4 per cent more than last year, the United States department of agriculture reports.

Substantially larger quantities of onions, watermelons, and cabbage, and more lettuce than last year, were noted in the report. Tonnages of celery, tomatoes and peas were down somewhat.

## Potato Acreage Yield Tops All Time Record

A record yield of 223 bushels of white potatoes per acre was forecast in the August crop report, or nine bushels above the July estimate and seven bushels above the previous record of 216 bushels in 1948.

This increased yield per acre is partially offset by the acreage estimate of 1,847,000 which is the smallest acreage planted since 1876 and 4 per cent less than in 1949.

# MIRROR Of Your MIND

By Lawrence Gould

## Should a stepfather discipline teen-agers?

Answer: Not if it can be avoided—the most he can wisely do is to "back up" their mother. For you cannot really make a child obey who once he's old enough to go about by himself, and if he does so at all—at least, when you are not looking—it will be only because he loves and trusts you. The average adolescent longs to find someone to whom he can go for advice and will turn gladly to a person he feels has his welfare at heart, but to give him orders before you have won his confidence will only spur him to defy them.

## Will "will power" cure alcoholism?

Answer: No, maintains Dwight Anderson, self-titled "dry drunkard," in his comprehensive and illuminating book, "The Other Side of the Bottle." "I don't know of a single dry alcoholic who has managed it by will alone. An alcoholic must be so profoundly convinced that alcohol is harmful to him that he will automatically resist the idea of taking a drink." Until sad experience has brought him this conviction, mere determination not to drink serves mainly to keep the idea of drinking in his mind and give it "a glamour that is almost irresistible."

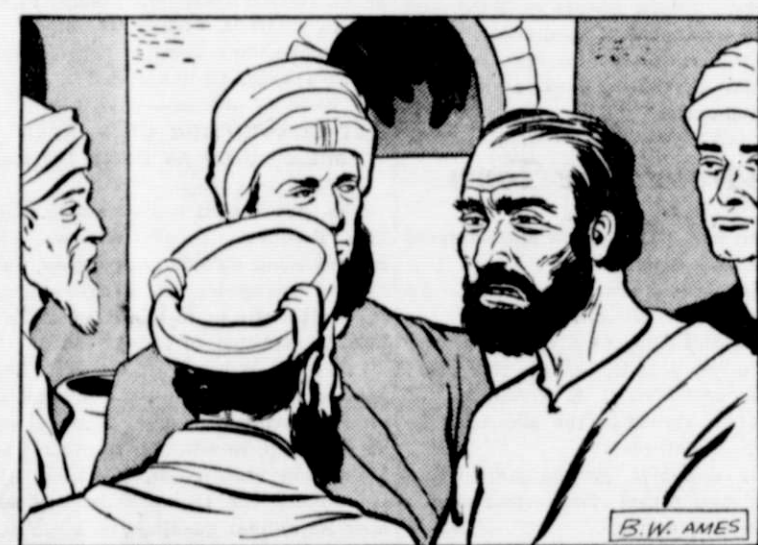

## Do men work mainly for money?

Answer: No, report industrial psychologists who have studied labor-management relations. Research uniformly shows that "job security" is more important to the average worker than high wages and that once this is achieved, what he wants next is "ego-satisfaction." Morale and efficiency

## Stepdad Should Avoid Discipline

are highest where the worker feels his job is regarded as important by the "higher-ups," and that his ideas will receive consideration. A demand for more pay frequently is an unconscious protest against being denied recognition as a person.

# LOOKING AT RELIGION

JEREMIAH HAS BEEN CALLED "THE WEEPING PROPHET" AND "THE PROPHET OF PESSIMISM." IT HAS BEEN ASSUMED THAT HE WAS TIMID BECAUSE OF HIS UNUSUALLY TENDER AND SYMPATHETIC NATURE. ON THE CONTRARY, THERE WAS NOT A MORE HEROIC AND COURAGEOUS SOUL IN JUDAH THEN, AS IS PROVED BY HIS FIGHT AGAINST CORRUPTION.

# KEEPING HEALTHY

## Noise, Hearing in Industrial Plants

By Dr. James W. Barton

"OFFICES of an industrial plant are always placed in quiet parts of the plant and are often sound-conditioned, but the worker is continually subjected to noise of an injurious level," says Dr. W. E. Grove, Milwaukee, in *Industrial Medicine*. Because noise interferes with work of any kind and continuous noise is bound to affect the hearing ability of the workers, Dr. Grove suggests that an accurate ear examination and hearing test should be made of every person starting on a new job. If this is done accurately and systematically from year to year, management will soon have a record of every person in the plant. Hearing specialists from long experience have found that some ears are more affected by or susceptible to noise than others.

If any workman has a hearing loss of over 90 decibels (a decibel is the smallest amount of noise that can be heard by the human ear), he should be rechecked in a week. If at the end of the week, there is any noticeable loss of hearing or if he has a continuous noise in his ears, he should be shifted to some less noisy job or, if this cannot be arranged, should wear some type of ear protector. The wearing of ear stoppers (used to prevent water getting in ears while swimming) seems to reduce noise by 50 to 60 per cent.

In the shops of one company employing 1,200 men, 250 were exposed to a noise level of 150-120 decibels. Examination of 35 revealed, with one or two exceptions, profound nerve deafness that appeared to be caused by the noise in the shop. Ear specialists have known for many years that despite some being more susceptible to noise than others, all ears will suffer from noise of that high intensity if it is continued long enough.

# HEALTH NOTES

- Red blood cell paste cures chronic leg ulcers.
- Cleaning teeth after eating sugar prevents tooth decay.
- Vitamin A is used in treatment of the hard of hearing.
- Anything that upsets the liver upsets all the body processes.
- Using substitute drugs for cortisone and ACTH is a dangerous matter.
- Our food needs salt to stimulate appetite and flow of the digestive juices.
- The cause of night cramp is not known as it occurs in patients with no disturbances of arteries or veins.
- A constant steady heat may be applied to rheumatic patients by means of an electric blanket.
- A big factor in reducing the death rate in tuberculosis is the germ-killing drug, streptomycin, which is very effective in certain types of disease.
- Massage, removal of dandruff and application of slightly irritating drugs increase the circulation of the scalp and prevent loss of hair.
- To keep the liver in good shape, avoid too much starch and fats and perform bending exercises.
- Alcoholism is considered a disease due to some lack in the individual.
- Some doctors allow their patients to get out of bed for a short time on the day of a hernia operation.
- The operation known as prefrontal lobotomy can relieve unbearable pain in some cases.

## The Way it Happened...

IN MILWAUKEE... Manager Arnold Brumm of the Ritz theater announced that Monday evening, known as "Dignity Night," people who eat peanuts, popcorn or candy during the show will sit in a special section.

IN PAINESVILLE, OHIO... Policeman Leon DeBolt investigated a girl's complaint against her father, wrote report on case: "Daughter, 15 years old, stayed out till 3 a.m. Got paddled. Needed it."

IN JERSEY CITY... Fortuneteller Rachel Lilly called police, requested they help her find her car and crystal ball.

WHEN SLEEP WON'T COME AND YOU FEEL GLUM

Use Chewing-Gum Laxative—REMOVES WASTE...NOT GOOD FOOD

• When you can't sleep—feel just awful because you used a laxative—do as MILLIONS do—chew FEEN-A-MINT. Doctors say many other laxatives start their "flushing" action too soon...right in the stomach. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy—you feel weak, worn out. But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that weak, tired feeling. Use FEEN-A-MINT and feel full of life! Try 25c. 50c. or only 10¢

**Household Hints**

Coffee and tea stains are the commonest cause of dingy looking dishcloths. Keep your cloths sweet smelling and clean looking by putting them in a wide-mouthed jar filled with half water, half laundry bleach, whenever the cloth isn't in use.

Make your own pot holders by cutting squares from the unworn parts of discarded Turkish towels; sew two squares together to make one good pot holder.

Sheets usually wear out in the middle while the edges are still in good shape. Before too much wear takes place, cut the sheet in half lengthwise; sew the two former selvage edges together and run a hem around the new rough edges.

The most annoying thing about aquamarine blue dye is that it's got a lot of red in it; but you don't usually find that out until you store an aquamarine dress in the closet and then take it out six months later to discover a reddish cast on the material. Exposure to perspiration and light are the two principal causes. So, before you put an aquamarine garment away for the season, have it thoroughly cleaned and store it in a black cloth bag.

# CCCES CONTEST

Last Entry Day Tuesday, Oct. 31, 1950

105 Electrical PRIZES  
Retail Price \$9,000

HERE'S HOW TO ENTER

**PART 1** Here is an outline diagram of a kitchen without the electric equipment that makes it a modern kitchen.

Here are the electric appliances, lighting fixtures and outlets that will make it a modern kitchen and give it CCCES.

Cut out the kitchen diagram. Cut out the electric kitchen equipment and paste each one in its proper position in the kitchen diagram. Make the kitchen All-Electric.

**PART 2** Write a statement not to exceed 200 words telling why the modern home is All-Electric. Use each of the five key words which the letters CCCES stand for. The words appear in this ad. Tell in your opinion what each of these five words means in the All-Electric home. Your own words will win. Base them on your own knowledge, experience and desires.

### CONTEST RULES

The contest is divided into two parts.  
1. Cut out of this ad the kitchen diagram. Cut out the kitchen appliances, lighting fixtures, and outlets and paste them in place on the kitchen diagram.  
2. Write in 200 words or less what CCCES means to you — or could mean to you — in an All-Electric home. Include in your written statement the five key words beginning with each of the letters CCCES. The words appear in this advertisement.

### SEE THESE PRIZES ON DISPLAY AT YOUR ELECTRICAL DEALER OR AT THE ELECTRIC CO.

**15 FIRST PRIZES** The 15 statements and completed model kitchen pastesups selected by the judges as best, will receive their choice of —  
Electric Range • Electric Water Heater • Home Freezer • Automatic Washer • Electric Clothes Dryer • Electric Refrigerator • Television Receiver  
Up to a retail price of \$300 each

**30 SECOND PRIZES** The 30 statements and completed model kitchen pastesups which are selected by the judges as second best, will receive their choice of —  
Electric Roaster • Electric Cleaner and attachments • Electric Blankets (2) • Radio • Washing Machine  
Up to a retail price of \$100 each

**60 THIRD PRIZES** The 60 statements and completed model kitchen pastesups selected by the judges as third best, will receive their choice of —  
Electric Shaver • Automatic Toaster • Automatic Percolator • Steam Iron • Casserole • Waffle Iron • Electric Sheet • Deep Fryer  
Up to a retail price of \$25 each

Each contestant will receive a lovely Reddy Kilowatt pin in red enamel and gold finish.

Prizes as stated will be awarded on the basis of correctly pasting cut-outs in the kitchen diagram, and the originality and completeness of your statement in 200 words or less on the advantages of All-Electric living, using the words that CCCES stand for.

Judges' decisions are final. All entries become the property of Wisconsin Electric Power Company. Duplicate prizes in case of ties.

Winners will be notified by registered mail and their names will be published in newspapers.

The 105 winners will select their prizes up to the amount stated at the electrical dealer of their own choice at The Electric Co.

Contest is open to the families of customers of Wisconsin Electric Power Co.

Not eligible for the contest are — employees and families of electric appliance dealers and employees and families of Wisconsin Electric Power Co. and affiliated companies.

REMEMBER — Only the All-Electric Home Has CCCES. Ask your friends and neighbors who have switched to All-Electric living — they can give you first-hand information about the CCCES of an All-Electric home.

Now, boys and girls, get your scissors and paste pots — dads and mothers, your paste and pencils — win one of the big prizes for yourself.

WEEKLY NEWS ANALYSIS

**Peace Talks Proposed by Stassen; U. N. Forces Cross 38th Parallel; High Prices Weaken Defense Plan**

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Harold E. Stassen, president of University of Pennsylvania as he announced contents of a message he sent to Soviet Generalissimo Joseph Stalin, proposing that they confer and urging Russia to "stop the drift to war." Stassen's message was delivered to the Soviet embassy and a copy to the state department.

**STASSEN:**

**A Just World Peace**

Harold E. Stassen, president of the University of Pennsylvania and twice an aspirant for the Republican presidential nomination, stepped in where angels fear to tread.

The former Minnesota governor wrote a letter to Premier Stalin suggesting that they confer on steps that need be taken to achieve "a just world peace."

Stassen was quick to point out that his letter was written without consultation either with President Truman or the state department; that is, Stassen had written to Stalin in his private capacity and the letter had no official inspiration.

Stassen declared that, if his bid was successful, he would have "four or five of this country's top citizen leaders" accompany him to Moscow for the conference.

There is a possibility that Stalin might accept Stassen's proposal. In fact, some quarters believe the Russians will jump at the chance, if for nothing else, at least for the opportunity to pound out the old propaganda line that the Soviet is anxious for world peace.

There is little possibility, however, that anything constructive will come of such a meeting. Whatever Stassen's delegation might agree upon would have no official standing and in all probability would not coincide with American foreign policy.

As could be expected, Stassen's gesture produced political overtones immediately. One Democratic spokesman pointed out that the initiative of any such project properly belongs with the state department.

**RIISING COSTS:**

**Cut 750 Jet Fighters**

The howl of the housewife that prices have climbed and any reasonable or sensible level was taken up by the air force which reported between April and September increases weakened the force's purchasing power by an equivalent of 750 F-86 jet fighter planes.

The cost increases in essential materials, John McCone, under-secretary for air, told the house armed services subcommittee would run about \$315 million.

The under-secretary cited many examples. Among the increases were crude rubber, 128.9 per cent; aluminum, 2.9 per cent; copper, 23.6 per cent; tin 32.9 per cent; plus signs of accompanying wage rises as another basic factor in cost estimation.

It all boils down to the fact which the housewife has long known: prices are climbing by leaps and bounds. If the increases were hurting the armed service then perhaps something would be done to relieve the pinch on the general public.

Rep. Carl Vinson, member of the armed services committee, was blunt about the situation:

"Let's not kid ourselves. Congress has a choice of seeing these programs cut (4,428 new aircraft by 1952), or coming up with additional appropriations to meet these rising costs."

V.F.W. HOWLS

**U. N. Flag 'Superseding' Old Glory**

To most people it was amusing, but to the department of agriculture it was serious.

The V. F. W., through its national commander, accused the agriculture department of "an apparent effort to flood the country with United Nations flags" to take the place of Old Glory over the nation's schools.

The commander said the agricul-

**DOCTORS:**

**Required to Register**

Doctors, dentists, and veterinarians below the age of 50 who are not in the armed forces or reserves and who have not served for 20 or 21 months on active duty registered for military duty.

The move was aimed at prodding into military service an estimated 5,600 doctors and 3,900 dentists who received all or most of their training at government expense during World War II.

**UNITED NATIONS:**

**New Twist for Soviet**

While men died on the battlefields of Korea, power politics continued to rage in the United Nations, but with a new twist from the Soviet Union.

The new twist developed when the United States urged the U. N. to adopt a plan by which national troops would form a U. N. force to keep world peace by the veto-free general assembly.

Instead of ripping the plan apart, Soviet foreign minister Andrei Vishinsky said he saw some good point in it, but suggested each point of the proposal be discussed separately.

At first the western diplomats were shaken by Vishinsky's conciliatory tone and stared at each other in disbelief. But then it dawned upon them that by discussing the points separately, Russia almost certainly meant to oppose the key provision that would allow the general assembly to meet in 24 hours and act against aggression if a veto paralyzed the security council.

It was the old, old story of politics between world powers.

**CHICAGO:**

**A Case of Jitters**

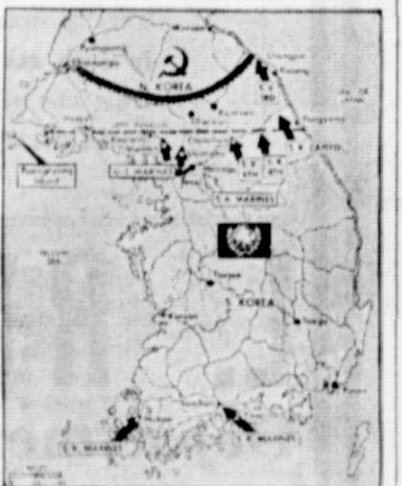

Senator Kefauver of Tennessee and his crime investigating committee arrived in Chicago, held a series of hearings, and departed leaving a case of jitters behind them that reached into high circles.

Said the senator as he departed: "We think we have found strong evidence that the Capone syndicate is still operating . . . There is evidence of gangsters muscling into legitimate businesses, and of political ties between gangsters and politicians of both parties."

Kefauver's committee planned hearings in New York, Philadelphia and then a jump back to Chicago. A recent hearing in Miami revealed connections between gamblers and city officials in that winter resort.

After the Chicago hearings, Kefauver said he is convinced that a Mafia is in operation in Chicago at present. The Mafia is an Italo-Sicilian-born secret society of loose organization that specializes in extortion, and deals out its own punishment.

**Civil Defense**

The jagged line was the approximate defense line of North Korean forces battling against United Nations forces under Gen. Douglas MacArthur at the time the general demanded the surrender of the Communists.

**SECURITY LAW:**

**Matter of Discretion**

The nation's new Internal Security act has already been under fire in enforcement. The law had threatened a time to bar the return to this country of Arturo Toscanini, the world's most renowned conductor.

The immigration department quickly issued a statement saying the musician would be allowed to re-enter this country, thereby avoiding a storm of protests.

At the same time Attorney General J. Howard McGrath said he was using his "discretionary" power in permitting Friedrich Gulda, 20, Austrian pianist, to enter this country for his American debut at Carnegie Hall.

Gulda joined the Nazi youth movement at the age of 10 because the law forced him to. The new law bars admission to the country of anyone who ever has been a member of, or "affiliated" with, a Communist, Nazi, or Fascist party.

**CASUALTIES:**

**Heaviest Report**

As United Nations forces crossed the 38th parallel and advanced into Communist territory, the department of defense released the heaviest casualty list of the Korean campaign.

It contained names of 1,211 members of the U.S. armed services. The deaths numbered 225; those wounded in action, 822; missing in action, 73, and injured 48.

**CRIME:**

**Up in Rural Areas**

It's hard to believe, but the facts are there just the same. The country crossroads continue to hold the crime spotlight during the first half of 1950.

The F.B.I. reported an increase of 7.4 per cent in rural crime compared with the same period in 1949. In the first half of last year, rural crime jumped 7.6 per cent. Rural murders increased 1.6 per cent; rape, 4.8; robbery, 3.4

In contrast, the bureau's report showed that urban crime increased only 1.9 per cent. One out of every 20 dwellers were charged with some violation such as drunkenness, disorderly conduct, assault, larceny and the like. A total of 63,615 persons under 21 years of age were arrested during the first half of 1950, representing 15.8 per cent of total arrests. The predominating age of persons arrested was 21, followed by 22, 23, 19 and 20. Assaults, burglary and larceny were also up in the rural areas.

**'Crack' Patrol**

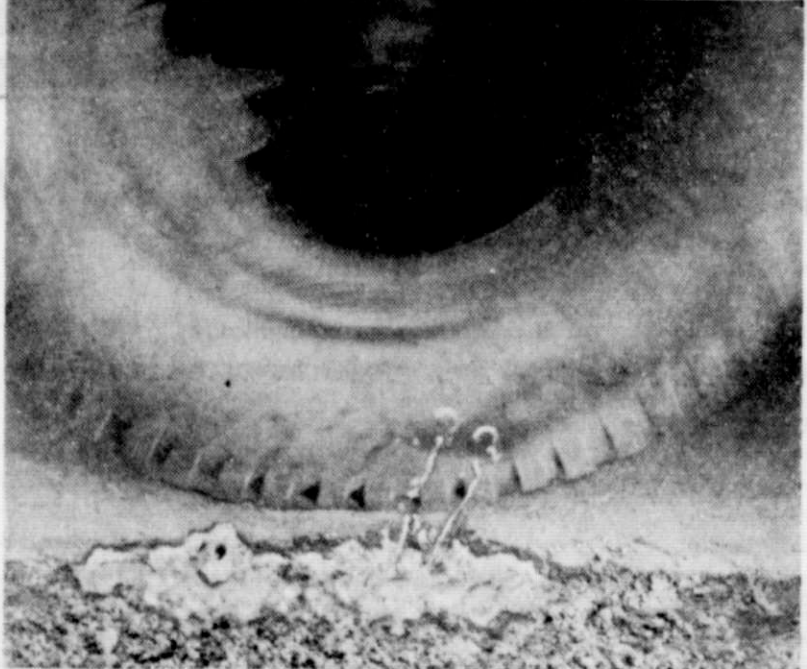

Results of the test are expected to furnish a long-needed answer to the hotly contested debate over the causes of highway damage. Commercial highway users and state officials have indicated equal interest in the tests. U. S. engineer Sydney Smith (above) points to steel reinforcements in a core of concrete taken from the test highway. Smith represents the U. S. bureau of public roads.

Electrician Richard Hopkins (above) checks the photo-electric trip counter used to count trips made by the trucks. Each pair of trucks pounds a section of the highway every hour of the day and night, traveling about 375 miles in a 24-hour period. Engineers estimate the trucks will have traveled more than half a million miles within six months, giving the test road the equivalent of 20 years of normal heavy truck traffic.

Engineers on the test patrol the highway each day (above) seeking new pavement damage. Each fresh crack is recorded and indexed and rechecked every day. Engineer Asriel Taragin takes his turn on the patrol. Highway engineers have long contended that "pumping" of concrete roads during wet weather is a major factor in smashing pavements. The picture (right) was taken at the instant the rear wheels of a truck carrying a 32,000 pound axle load passed over a pumping spot in the highway.

LIVE STOCK EXPOSITION

51st International Live Stock Show Opens in Chicago Nov. 25

All roads lead to Chicago every year when the International Live Stock Exposition is on in the international amphitheatre at the Chicago stock yards. And this year will be no exception when the big show, world's leading event of its kind, begins its second centenary, November 25 through December 2.

An Illinois farm youth shown with his champion barrow at last year's International Live Stock Exposition.

William E. Ogilvie, secretary-manager of the exposition since its revival after World War II, believes that the coming 51st edition should set new precedents in scope and quality.

He points out that increased prize money for the show should help to encourage the exhibition of the very tops of livestock from both the United States and Canada. Especially outstanding are the increases subscribed in the cattle department which it is anticipated will attract record entries.

Prizes for all cattle classes will be \$61,370, the largest total ever offered. Many prize increases made in other breeds to mark the occasion of the golden jubilee show are retained this year.

Two years ago the horse show, which highlights the entertainment program with 13 performances, took on a western flavor with the addition of a "cutting horse contest" for quarter horses, so named as being the fastest horse over a quarter mile and ideally adapted to ranch work.

But the glamor of the steer show in the amphitheatre, which houses most of the livestock at the international, does not dim in the importance of the great show of carloads of fat cattle, sheep and swine that goes on in nearby pens of the Chicago market.

Last year's champion, a hereford named Judge Roy Bean, was purchased from his Pecos county, Texas 4-H club owners at a record \$11.50 per pound by Dearborn Motors of Detroit. Dearborn hauled the steer in a special plane on a 19,000 mile tour of the country.

But the glamor of the steer show in the amphitheatre, which houses most of the livestock at the international, does not dim in the importance of the great show of carloads of fat cattle, sheep and swine that goes on in nearby pens of the Chicago market.

Other features in connection with the international that have become familiar in the years since 1900 include the grain and hay show, which is recognized as the world's largest competitive showing of farm crops, with exhibits from nearly every state and all provinces of Canada; and the interesting and educational meats show, first staged in 1924, which provides a display window for the final phase of meat production from packer to consumer's table; and the national 4-H club congress held in conjunction with the exposition.

Reviewing the first international in 1900, an early day writer said, "Scarcely a feature of this exposition missed the sensational. The union of elements which gave it birth, its magnitude, the character of its exhibitors, the outstanding quality of its stock, the contagious enthusiasm engendered at its auction sales, its record-breaking prices for bullocks, the overwhelming evidence of popular appreciation—these features it has built an enduring monument. Great is the livestock industry, and the International Livestock Exposition is its prophet."

CBUS has terminated its deal with "Lum and Abner" and has made a settlement with the rural comedy team for the remaining four years of the six-year contract. Lack of sponsor interest was given as the reason.

Because I sometimes tote around more than two dollars, and because my house has demonstrated a tendency to get burgled, I have a licence to carry a revolver—and sometimes do.

And it isn't because I haven't practiced a-plenty. There's a makeshift pistol range back of my house up at Mt. Kisco, and over the years I guess I've used up enough ammunition to keep a small Balkan war going.

The U. S. army evidently agrees with me about the whoopie-doo difficulty in handling this tricky bit of mechanism effectively. Next time you see newswire closeups of the kids who are doing the fighting in Korea, look closely and you'll see they're armed with rifles—Garands and Browning automatics—but about the only place you'll see a six-gun will be in the holster of a two-star general.

I FIRST LEARNED that expert shooting with a revolver is more bull than bullseye when I moseyed down to Ft. Worth 14 years ago to stage that city's centennial exposition. One of the whoopie-doo I put on "The Last Frontier," was a wild west show, and the cast included the best boss hands in the business—Galahads in 10-gallon hats who had won prize money in every rodeo from Pendleton to Madison Square Garden. Naturally, I want-

Dr. A. D. Weber, of Kansas State College, Manhattan, will return to judge the steers again this year. The only American to judge these classes since the exposition departed from the custom of having foreign judges two years ago, "Dad" Weber, as he is known among his students, is one of the most popular cattle judges in the country.

THE EIGHT DAYS of the exposition are packed with thrills for agricultural visitors. But the real high points of the show are when the grand champion steer is selected on Tuesday and when he is sold on Thursday.

I FIRST LEARNED that expert shooting with a revolver is more bull than bullseye when I moseyed down to Ft. Worth 14 years ago to stage that city's centennial exposition. One of the whoopie-doo I put on "The Last Frontier," was a wild west show, and the cast included the best boss hands in the business—Galahads in 10-gallon hats who had won prize money in every rodeo from Pendleton to Madison Square Garden. Naturally, I want-

ed to include an exhibition of pistol shooting, and as a charter member of the Zane Grey club I figured that almost any one of my bronco busters could pop a clay pigeon out of a girl's mouth at 30 feet.

Well, I figured wrong. There was no one in the cast who could hit the pipe without taking the mouth with it, and I wound up having to import the national pistol champion—a skinny kid from Brooklyn who had learned marksmanship in a Coney Island shooting gallery.

This neptness with what Dan Ranyon used to call "the equalizer" is even more common among gangsters. Sure, the hoodlums of the 20's, pistol-toting more a citizen, but almost invariably the victim was in a motor car, and the range a couple of inches from the nape of his neck. Whenever the corpse-to-be figured to be more than a few feet away, the killer used sword-stick shotguns with a three-foot spread, or tommyguns which produced a spray like a garden hose.

A few years back, an ex-bootlegger—now vice president of a national whiskey company—told me a story about Al Capone which illustrates my point. It seems Al was guards as playing football with a tipped off that one of his body-rival gang, so he threw a banquet

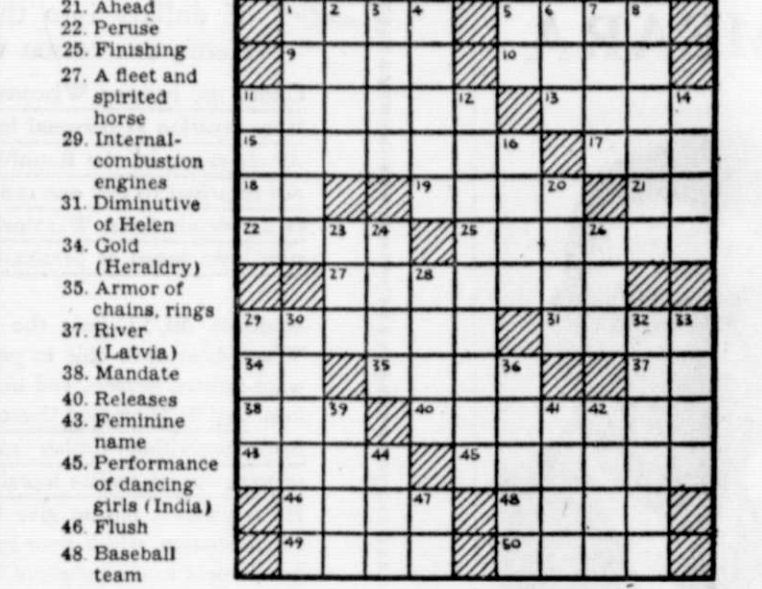

for 200 of his hired help, and after the feed made some complimentary remarks about the double-crosser and asked him to get up on the table and take a bow. As the guest of honor was bowing, the 200 hoodlums reached for their rods and let him have it. But when Capone—always the good bookkeeper—counted the bullet holes, he found only 20 in the carcass—180 of the triggermen had missed.

YEARS AGO, I used to haunt the 42nd street shooting galleries, and got so handy with a .22 rifle that I could knock the dancing celluloid ball off the stream of water five times out of ten. And I was plenty cocky about my marksmanship until one day when I went up to see Ben Hecht at his place in Nyack.

THE BILL SWEARS OFF

By Richard H. Wilkinson

BILL Clifford is off women for life. Dagmar Fanchon is the reason. It happened this way. Carolyn, Bill's sister, brought Dagmar up to the Clifford camp on Lake Winnepesaukee last June after school closed. The two girls had been roommates at Wellesley. Bill's mother and father and Bill were all present. Bill was up from New York for his annual two weeks vacation.

As a rule women didn't interest Bill very much. But this Dagmar female bowled him over. She was a brunette with dark brown eyes and a petite figure. Bill took one look at her and fell.

Even so, Dagmar, who rather went for Bill also, had competition. For Bill was a man with a hobby. Fishing. He was nuts on it, and as usual had planned to spend his annual two weeks frisking about in caves and inlets and bays with rod and line. It depressed him to think he'd have to divide his time between flirting with trout and flirting with Dagmar.

But on the second day the situation was settled. For Dagmar, after listening to one of Bill's fish stories, announced that she thought fishing must be fun and would Bill take her?

They set out the next morning in Bill's outboard. Bill produced a couple of Whirling Duns and proceeded to rig tackle. "Fish are sensitive to color," he explained. "On a day as bright as this a dull fly does the trick."

They entered a cove, cut the motor and drifted. "We'll be sure to land something here," Bill explained. He cast and Dagmar cast. Very patiently Bill unspooled her line from an overhanging bough and explained how the thing was done. Dagmar nodded and tried again.

They fished for an hour and failed to land the big one Bill promised. It grew cloudy and the sun disappeared. "Ah," Bill said, "We'd better change to a bright fly." Dagmar suddenly said: "There's something pulling on my line!"

"You've got a bite!" he yelled. "Start reeling in!" He got up and stumbled over a creel. When he looked up Dagmar was holding her line clear of the water. A ten-inch trout was dangling from the hook.

"No!" Bill yelled. "That's not the way! You've got to play him!" But Dagmar didn't understand. She began swinging the fish like a pendulum. Presently she caught the line on the up swing and held it, the 10-inch squirming on the hook.

"LOOK out!" Bill yelled. "You'll lose him! Don't do that! You've got to play him! Bring him in with a net!" But Dagmar said: "I can't see what's wrong with this method. After all, the idea is to catch fish, isn't it?" And she dropped the trout, hook, line and all in the bottom of the boat.

Bill made a lunge at her rod, but he tripped again, fell sideways. The outboard wobbled. Dagmar, caught off balance, threw out her hands to brace herself, missed the gunwale and went sprawling overboard. Bill was already in the water, and it wasn't until he'd gone down and come up again spluttering, that he remembered he could not swim. He yelled, splashing around with his hands and shipping a lot of water. He went down again and came up. Then suddenly he felt a pair of hands grabbing him underneath the shoulders. He clutched at the hands wildly, and something hit him a stunning blow on the jaw.

When Bill opened his eyes he was lying on shore. Dagmar was close by, wringing out her dress. Bill sat up. "What happened?" Dagmar smiled. "You tell me." Bill thought back, and the picture his memory conjured was most humiliating. Right then and there he made his resolve that he was off women for life. Unless, of course, he marries Dagmar Fanchon.

THE WEEK In Religion

INSPIRATION Evil Thoughts

AN EDITORIAL

WHOEVER DELIBERATELY VIOLATES any of God's laws sins twice. The first sin lies in the intention that precedes the action. Thus a man who plans but does not actually commit the sin of murder has nevertheless branded himself, in God's eyes, as a murderer.

The same is true of adultery, stealing, or any other moral offense. Every man who offends God sins first through thought. It is in the mind that temptation takes root and the battle begins between conscience and the enticements of evil.

Bad thoughts, even those which may never be translated into bad action, must never be allowed to gain control of the mind. Unchaste, lewd and even lustful thoughts invade the minds of the most virtuous. Temptations come unsought, but when they are resisted and overcome the soul is strengthened and acquires an added merit in the sight of God.

The secret of fighting evil thoughts lies principally in prayer. Impure thoughts must be replaced by something good. As soon as the mind perceives it is being seduced to evil, it should turn at once to God. The mind cannot hold two thoughts at once. Even the most persistent temptation must eventually yield to prayer and the grace of God.

It is always a help to keep constantly aware of the fact that God knows and judges every thought. Some people permit evil to occupy their minds because they feel safe in so doing. If they could only be made to realize that God only one day weigh each person, not only by his deeds but by his thoughts as well, they would be deeply concerned about leading a good life, even in their minds.

It is all too true that a person's thoughts create his character. His thoughts determine whether at the last he will stand worthily at the bar of eternal judgment or bow his head, ashamed and condemned by his hidden iniquities.

The above editorial and other material appearing in this column, was prepared by Religious News Service.

Religious Question Box

Q: What are the Forty-Two Articles? A: Articles of faith framed largely by Archbishop Cranmer and issued without formal authorization for the church of England in 1553. They later served as bases of the Thirty-Nine Articles, doctrinal formula of the Anglican Church.

Q: When did the Jews first settle in Scotland? A: At the beginning of the 19th century.

Q: What are Titular Sees? A: In the Roman Catholic Church, sees in which the Church once flourished but which later were overrun by pagans and no longer have resident bishops. Titular sees are now assigned to bishops who have no dioceses of their own for example, auxiliary bishops.

Q: What was the Corporation Act of 1661? A: A law excluding Dissenters (from the Established Church of England) from membership in municipal and similar corporations in England. It gradually fell into desuetude after 1718 but was not finally repealed until 1828.

Q: What is the Epiphany? A: A Christian festival intended to commemorate the manifestation of Christ to the Wise Men from the East.

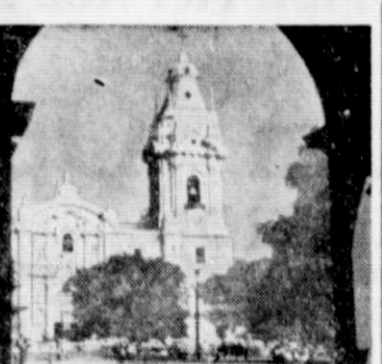

Church of God Backs Bid for Presidency

RED BAY, Ala. — Delegates to the Church of God general assembly here endorsed the candidacy of their leader, Bishop Homer Tomlinson of New York, for the Presidency of the United States. Bishop Tomlinson had announced his candidacy at an earlier session.

Addressing the closing sessions of the convention, Bishop Tomlinson said he would ask for the united support of all churches.

One of the ministerial delegates raised the question of just what the Church would be expected to do in the matter.

The Rev. Oliver Mills, national secretary, pressed the bishop with this question: "I remember hearing your father (founder of the Church of God) say many times that the nations would call upon the Church of God when their governments became too corrupt. I felt that this would come but I really felt, according to the Scriptures, that they would come to you, not you to them."

Graham Predicts Judgment Day In Two Years

PASADENA, Cal. — Evangelist Billy Graham, holding a one night evangelistic crusade in the Rose Bowl here, predicted that the end of the world and the Judgment Day will come within the next two years.

The young revivalist spoke to a crowd of 45,000. "I'm revising my figures," he told a silent and serious audience. "Last year in Los Angeles I told you that we had five years, now I think we have only two, and after that—the end."

Thousands came from all over the Southern California area to hear the preacher. Many arrived long before the rally and brought lunches to eat while they waited in the stands.

Toward the end of the services Dr. Graham, dressed in a bright green suit, called upon his audience to stand up and "begin new lives with Jesus." More than 2,000 came down from the stands afoot, on crutches, and some in wheelchairs.

One rally official called the response the largest mass conversion in the history of Southern California.

The audience provided the Minneapolis evangelist with a colorful background.

Legion Post Seeks Ouster of Pacifist

ASHEVILLE, N. C.—The Rockwell-Balwell post of the American Legion here adopted a resolution demanding the resignation of the Rev. Henry V. Lofquist as chaplain of the Good Samaritan Mission. The legionnaires said the clergyman had been listed in leaflets distributed here as secretary-treasurer of the Peace Fellowship of Presbyterians, U.S., which the Legion group described as a pacifist organization.

Asserting that the Fellowship's constitution states that "we refuse to participate in any war or to sanction military preparations," the post asked that in the event Mr. Lofquist does not resign, the Community Chest, of which the Mission is an agency, demand his resignation.

Mr. Lofquist, chaplain of the Mission since April 1, 1943, and pastor of a Presbyterian church in Brookhaven, Miss., for 17 years before coming here, has given no indication of acceding to the Legion's request. He said that any request for his resignation would have to come from the board of directors of the Mission, which does not meet until October.

Lawsuit in Missouri Would Bar State Aid

JEFFERSON CITY, Mo. — The Missouri Association for Free Public Schools filed suit in Cole county circuit court here to stop payment of state funds to schools allegedly controlled by a religious group.

Four school districts in as many Missouri counties were named as receiving state aid while, the suit claimed, their schools are wholly or partly administered by the Roman Catholic church.

The association, described by its attorney as a "non-sectarian group which desires complete separation of church and state," asked that state support be suspended or that the districts be removed from Catholic control.

The plaintiffs charged that some of the schools held classes in buildings owned by the Catholic church, and that in many instances the teachers were members of Catholic orders who had vowed to dedicate their lives to the service of the church.

According to the association, the Missouri constitution forbids payment of public funds to aid any religious creed, church, or sectarian purpose.

FIRST AID to the AILING HOUSE by ROGER C. WHITMAN MIXING COLORING WITH PLASTER Question: We are going to have our new home plastered, and I would like to know if this integral coloring mixed in with the plaster is a good thing to have done. Answer: Yes, I consider it a very good way to get color on your walls without having to do a separate painting job afterwards. To be sure of a uniform color use only the factory-mixed material. Color mixing of plaster "on the job" is not always satisfactory.

## Tom Fairchild will work for peace as your Senator

And Here's How:

● He'll Talk Peace, Not War

Tom Fairchild thinks the best way to prevent war is to talk and act for peace while preparing to defend ourselves against any aggression. "We must talk and work for peace at every opportunity," he says. "We cannot afford to omit any honorable step to peace, but we must not talk peace at any price."

● He'll Work for a Strong UN

Fairchild says the United Nations is one of the best hopes for lasting world peace. He'll work to make it strong by cutting out the veto and setting up an international police force.

● He'll Work for United Foreign Policy

Fairchild is a firm supporter of the American foreign policy which resisted Communist aggression, brought victory in Korea, strengthened the UN, and greatly improved the chances for peace. "Americans can be proud of our success in halting Red aggression," Fairchild says. "We have stood united and won out in war, and now we will stand shoulder to shoulder for a democratic peace for all."

## Make Them Pay Their Share!

Each election year, the clique of wealthy men who control the Republican Party policies in Wisconsin pour thousands of dollars into the campaign to elect their candidates. Here's one reason why!

Under the present Wisconsin Tax Law, state corporation dividends are exempt from taxation as personal income. Wealthy industrialists thus enjoy huge savings. As an example, the Republican candidate for Governor, Walter J. Kohler, was not required to pay one cent of personal income taxes on \$560,218.62 he received as dividends from Wisconsin corporations during the last four years. Had this sum been taxed as personal income, your state would have received \$43,255.68.

Someone **MUST** bear the cost of state government! When those most able to pay enjoy tax exemptions, the wage-earners, farmers, and small merchants must carry the load. Carl W. Thompson, Democratic candidate for Governor, is pledged without further "study" or other delaying action, to work for immediate repeal of this unfair tax provision. He is pledged, too, to give Wisconsin a forward-looking administration, which once again will bring representative government to the people of this state.

Vote for the man who represents YOU in your state capital.
