**Well-Known Tambourine Gives Way to Box**

COLUMBUS, OHIO—The tambourine, identified with the Salvation Army since its founding in 1865, is being given a back-seat by an unglamorous, but practical, red plastic collection box. Salvation Army officials here disclosed that the boxes would be tried out in Columbus and that corps in some cities already had abolished the tambourine as a collection device. The box, designed by Col. Albert

Hamsdale, state commander for Missouri, has a total of 23 patented features. The handle end of the box is removable, but it is padlocked to the box so it cannot be opened without a key. A deposit slot at the top takes coins up to a half-dollar and folded bills, but coins cannot be shaken out. The box is in the shape of the Salvation Army seal. There were indications here that some of the old-timers may balk

at using the modern receptacle. A veteran soldier in the Salvation Army, Orville "Pop" Ryan, commented: "I'll take the tambourine for mine. I've been carrying it for 25 years around here and think it works fine." "Sometimes, too, I need something which will attract a little attention when I go through the bars," he added.

**Bismarck Fray Is Described**

INDIRECTLY, Herman Goering was responsible for the destruction of the German battleship Bismarck, it has been revealed.

Rear Admiral D. V. Gallery, U.S.N., recently cited the reluctance—or refusal—of the Luftwaffe to come to the aid of the German battleship as one of the factors that led to her sinking by the British on May 21, 1941.

At the same time, Admiral Gallery, who interrogated survivors of the ill-fated dreadnaught, points out that the entire battle was virtually a comedy of errors on both sides, with luck and British misdeeds favoring the Nazis. The latter pulled several boners themselves, Gallery states. "The Nazis committed a fatal blunder at the beginning. Concern with the fuel supplies completely dominated the plans of the admirals on both sides. Nevertheless, the Bismarck sailed from Norway 2,000 tons short of her full capacity of fuel!"

A serio-comic touch was lent to the entire "Battle of Blunders," the Admiral states, when the Germans, without radar of their own, kept accurate track of the British ships stalking the Bismarck by

means of excellent listening devices. The British employed radar for the same purpose. As a result of the tracking, each navy jumped to the conclusion that the other had stolen its technical secrets.

Admiral Gallery reveals that the British might have sent a boarding party aboard the foundering Bismarck but failed to do so. "She was a pushover to board, there was little to lose in trying, and there was a glorious page in naval history to gain, if the attempt succeeded." Had the Bismarck been towed to port, it would have given the greatest boost of the war to British morale.

**3 Reasons Why HADACOL IS PRAISED BY THOUSANDS**

**HADACOL brings relief to folks troubled with Stomach Distress, Weak, Run-Down Conditions and Nervousness when due to deficiencies of Vitamins B1, B2, Niacin and Iron**

**Norman Christopher, 2344 Cumberland, Houston, Texas:** "After I got out of the Army I was underweight, nervous, couldn't sleep and had a terrible time getting food to agree with me. When I would wake up in the morning I would always be sick at my stomach — I could never eat breakfast—imagine having to wait until noon before eating the first meal of the day. Even then just a few mouthfuls of food would fill me up. At night I couldn't sleep—I would just roll and toss all night. After the third bottle of HADACOL I could tell a difference in my eating and sleeping habits. Now after a year's time of taking HADACOL, I have gained almost 20 pounds. I sleep well—and the most wonderful thing—I can enjoy three full meals a day."

**Mrs. John A. Feight, Jr., Rt. 1, Bedford, Pennsylvania:** "Anything I ate made my stomach ache and churn all night. . . . My food never seemed to get digested and therefore I would wake frequently in the night with pains. I would be nervous and think over the day's nerve-racking experiences. Every little thing irritated me. I couldn't stand children around me. They made me nervous. I would holler at my two-year-old daughter, Vickie, for nothing at all. Since taking HADACOL all my nausea and nervousness have passed away. All I can say for HADACOL is that it's made me see that this is a beautiful world after all. I'm 29 years old and am a housewife. I really do feel as great as I look on the photograph."

**Mrs. Maurice Bellard, P. O. Box 226, Church Point, Louisiana:** "Some friends of mine have been taking HADACOL and found that it had done them a lot of good, and they suggested that I start giving HADACOL to my 16-year-old son Archie Bellard. He has been taking HADACOL for about two months, and since taking it he feels much better. Before he started taking HADACOL he felt weak, and was run-down, and he didn't feel like playing or working. Since he is taking HADACOL he has more energy, and he has a good appetite. I owe the friends, who suggested HADACOL to me, many thanks, but I owe HADACOL many more thanks, and since it has done Archie so much good, I will never be without it again."

**HADACOL CAN HELP YOU!**

If your system is lacking in Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron, HADACOL can help you as it has helped thousands of other fine folks who had deficiencies of these important elements, which HADACOL contains.

HADACOL brings blessed relief to folks troubled with aches and pains, stomach disturbances (indigestion, gas, heartburn, "sour risings" after meals, bloating), a weak, run-down condition, poor appetite and nervousness when these troubles are due to a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron.

# U.S. Home Owners Are Urged To Prepare for Atomic Attack

(The second of two articles)

## Senator Byrd Tries To Save Nation Nine Billion

By Wright A. Patterson

SENATOR BYRD, Democrat of Virginia, says, and knows, that there can be a cut from the President's budget, that calls for taxes of better than 71 billions of dollars in order to pay as we go for our war preparations. Of these more than 71 billions, Senator Byrd proposes to cut more than nine billion, without hampering the defense preparations to the extent of a single dollar. He would take out of that budget only those items that call for expenditures on strictly home projects, either those proposed to start, such as the St. Lawrence waterway, or those for continuing work on projects started in previous years, or those new or continuing projects, in this country or abroad, that have no possible connection with our American defense.

In the United States there are approximately 30 million families. That immediately unnecessary nine billion of taxes, means a burden of some \$300 as an average for each of those 30 million families. That is a sizable item in the budget of the average American family. In adding such an amount to the family expenditures, adjustments must be made to provide for the unneeded tax item. A family of my acquaintance had a family discussion as to what expense they could cut out in order to provide for that additional tax item.

There are few American families that would not willingly sacrifice

is well built, the cellar is the safest place to be in case of an atomic attack.

The lower you get, the more barriers there are likely to be against blast, heat and radioactivity.

Select the basement wall nearest the probable target area of your city. If the house is blown over, it will most likely fall away from this wall. If you have a work bench or strong table, big enough to get under, move it into your shelter area, near a wall or strong supporting column. If the time comes when you actually have to take shelter, lie under the table.

If you live in a home that has no basement, choose a shelter area without windows, on the ground floor. An interior hallway is probably best. In time of emergency the shelter area should be cleared of mirrors or other objects that might cause injury.

If you live in an apartment house, rules for taking shelter will be posted in your building. Learn them!

IT IS HOPED—but it's not at all certain—that news of the attack will come through in sufficient time to enable air raid stations to warn the citizens. The alert will be a warbling siren blast lasting three minutes.

Immediately close all your Venetian blinds to keep radioactivity as much as possible out of the house. Go to your shelter.

Your shelter should be supplied well in advance with the following items:

1. First aid kit.
2. Fire extinguisher.
3. Axe and crowbar; a shovel.
4. Battery operated radio to listen for instructions or all-clear signal.
5. At least one flashlight.
6. An emergency supply of canned food and bottled water in the event that an attack continues for several hours.

Household preparedness plus many important facts concerning the actual strength and effects of atom bombs are part of the new film authorized by the federal office of civilian defense, "Survival Under Atomic Attack." Dr. Richard Gerstell, consultant to the federal office of civilian defense, and technical advisor on the film, urges every American to see the picture and follow its advice.

Says Dr. Gerstell: "It can happen here—it can happen anywhere!"

The film is available to church groups, factory, club, or private atom owners at Castle Films, 445 Park Avenue, New York City.

family or personal interests in order to assist to the utmost in the effort to protect this, their, country against Stalin and his Red army. They fully appreciate living in this land of freedom, liberty and opportunity, but they object to making sacrifices so as to pay unneeded taxes in these inopportune times; they object to financing more TVA enterprises, building more dams to produce more power or more light, when private enterprise will provide all we can use; starting new projects such as the St. Lawrence waterway, or continuing work upon those that were started in past years.

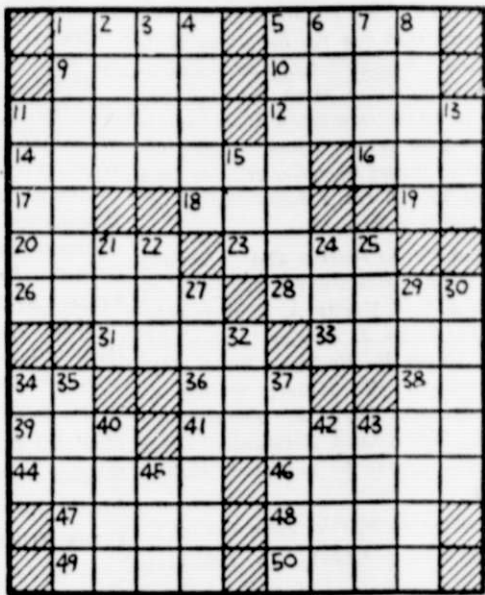

Those things we can get along without until a more opportune time. That family could not see why they should be called upon to discontinue little Margaret's music lessons, at a time when she was making such magical progress, or why they must stop movies for Margaret and the two boys, or deprive them of ice cream cones or candies, and cut out their weekly allowance. These expenses, plus the new clothes and new shoes for the children, a new dress for Mother and Dad's annual new suit, must all be sacrificed in order to pay the tax collector, so the government could do things now it could just as well do at some other time.

Of course the Dad and Mother of this family realize that the \$300 they must pay will not all be collected from them directly. A portion will be paid indirectly, but directly or indirectly it must be

THE FICTION CORNER

## FIXATION ON FATHER

By Richard H. Wilkinson

MR. Harlow sat bolt upright in his chair. The psychology lecturer was saying: "And in the normal family, when the daughter reaches the age of 12 or 13, it is quite likely that her fixation will shift from her mother to her father. They will become great friends. Often this fixation on

father will remain until the daughter transfers her affections to a mate. However, if father does not respond to daughter's fixation, the child will, unconsciously, shift back to mother, who, in many cases has resented the original transfer—"

So that was it! he told himself. So that was the cause of his wife's indignation and wrath and resentment. In his mind's eye the pieces of the puzzle that had troubled him for the past month fell into place. He understood now what had happened; he could see it taking place, step by step. Virginia, his only child had attained the age of 13. She was nearing maturity. Gradually, unconsciously, her fixation had transferred from mother to father. The two had become great friends. Mr. Harlow had been tremendously proud and happy.

Not so Mrs. Harlow. Mrs. Harlow was annoyed. She hadn't understood and presently her annoyance

Abruptly she flung her arms about her father's neck and promised him that no matter what happened she would keep his secret.

changed to resentment against her husband.

Mr. Harlow returned late that night. It was not his habit to return home late, but tonight there was a definite purpose. Mrs. Harlow had retired, and 10 minutes after he entered the house his daughter Virginia came in. Virginia had been to a party.

Seeing a light in the living room, Virginia came to the door. At sight of her father sitting there alone she uttered a little cry of delight and bounded upon his knee, with the full intention of providing him with details concerning her evening's activities. Something about the expression on her parent's face, however, restrained her.

MR. Harlow smiled at her in a manner that bespoke faint embarrassment. He attempted to brush something from his coat but failed. Thus having had her attention attracted to the something, Virginia investigated and found it to be a dab of powder. She looked at it and frowned. Looking further she discovered a long strand of blond hair.

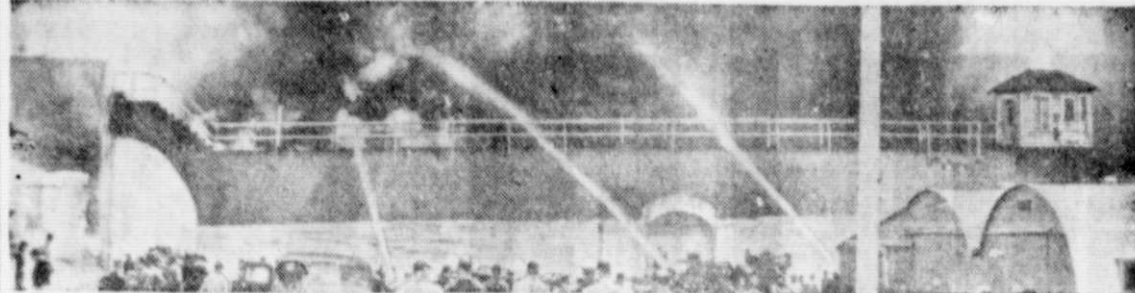

Horror filled her eyes, a hurt look, an expression of awe and wonder and incredulity, gradually giving way to something bordering on accusation and scorn.

"Why, Daddy! Whatever—who?" Mr. Harlow interrupted, gesturing airily, saying something about an apology, presently lapsing into a lengthy but rather stupid discourse and ending by stating that it would not be wise or necessary to mention the matter to her mother.

Virginia stared. Abruptly she flung her arms about her father's neck and promised him that no matter what happened she would keep his secret. It would be their secret. Poor mother. She must never know. But he must promise—

Yes, yes. Of course he'd promise. It was all very silly anyway. Just one of those regretful things that would never be repeated.

After awhile Virginia rose and left him. Her attitude brought a lump into Mr. Harlow's throat. But when she had gone he sighed in relief. Beginning tomorrow, he knew, his daughter's fixation would be transferred back to her mother. Mrs. Harlow would cease to be irritable and resentful. Harmony would reign once more in the household. And sometime, Mr. Harlow told himself, when Virginia was safely married and away, he would explain it all—and hope that she would understand.

Tea for Two

Add a mother-in-law story. Niblick, a man inordinately proud of his golf scores, took his mother-in-law with him to the course one day. After depositing her on a bench, he and a chum started for the first tee. There Niblick announced, "I want to make a good, long drive now. My mother-in-law is watching from the bench outside the clubhouse."

"Why, that's almost 300 yards!" his chum cried. "You couldn't possibly hit her from here."

Chewing-Gum Laxative

Acts Chiefly to REMOVE WASTE - NOT GOOD FOOD

Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. You, here, why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon . . . right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that typical weak, tired, worn-out feeling. Use FEEN-A-MINT and feel your "peppy," energetic self! (See FEEN-A-MINT! No increase in price—still 25c or only 10c.)

# Firestone CHAMPIONS BOTH

LIKE Richard Pappé and Earl Thompson, you probably have a definite preference for either an Open-Center or a Traction-Center Tire. That's because you know the soil conditions on your farm better than anyone else.

If your judgment and experience tell you that an Open-Center Tire is better, take a good look at the Firestone Champion Open-Center.

It is the only Open-Center Tire with Power-Arc traction bars, tapered and

curved to take a deep, full-traction bite. The bars are curved and flared to cup the soil for a better grip and positive cleaning.

If your judgment tells you that a Traction-Center Tire will do a better job, then there's just one tire for you—the patented Firestone Champion Traction-Center. It's the only Traction-Center Tire on the market. It is the stand-by of a million farmers today.

Either of these tires will do a great job for you. They're both Champions.

# MAIN STREET IN ACTION

## Any Small Community Can Institute A Balanced Adult-Education Program

"An education program for a small community is incomplete without a well-balanced program of adult education." The authority for that statement is one of the nation's leading professional educators, Dr. Roben J. Maaske, president of the Oregon College of Education at Monmouth, Oregon.

The implication in that assertion is that no community, however small, can rest on the status of its first-grade-through-high-school formal public education program and say that it is doing the best it can for itself and its inhabitants in the profoundly vital area of knowledge and learning.

In other words, you're never too old to learn.

Sac City, Iowa, population 3,164, has operated a successful community adult-education program for approximately 20 years. It represents a fine practical example of cooperation among a town's citizens.

### A MAIN STREET FEATURE

The program is under the direction of a council composed of 40 persons—10 men and 10 women from farms in the area, and the same number from Sac City and other nearby small communities involved. The yearly schedule involves a variety of classes chosen to meet the expressed needs of the adult "student body."

There are also various recreational activities and occasional community forums on every year's agenda. Everyone enrolling for classes pays a fee of \$1.50, a price certainly within reach of virtually anyone who might be interested.

While the Sac City adult-education program is, in fact, the local citizens' own project, the superintendent of schools, the board of education, and the community adult-education council guide and direct the activities through advice and stimulation in planning.

Writing in the April issue of the NEA Journal, Dr. Maaske cites another illuminating instance of heartening community action along the same lines:

Olivet, Michigan. Population about 604. Situated in the lake area near Battle Creek. Home of Olivet College. At first glance you wouldn't suspect that a little town with only about 600 persons in it might be a place where adult-education activities could flourish with any success.

But if you look again you will note that Olivet is the site of Olivet College. The fact that Olivet College is an old school (as schools go in the relatively young Middle West) which was organized in 1844, probably means that the town itself has grown up imbued with the ideals of education.

Be that as it may, the Olivet adult-education program does not function as part of the college. It operates, rather, in the Walton township unit school at Olivet, where it was launched in 1946.

The annual schedule customarily features a variety of classes, many of them agricultural in nature because the community is dependent to a large extent upon its agriculture potential and farm commodities. Basically, the program is designed to appeal to the interests of a large segment of the population, and at the same time provide education and added skills where they will be most useful.

The over-all emphasis of the Olivet adult-education program is placed upon total community improvement.

Operation of the Olivet program is similar to that of Sac City, Iowa. There is one difference, however, in that a part-time paid director, who serves also as vocational director in the school, acts as administrator of the program and also has the important function of training volunteer leaders.

Sac City and Olivet are outstanding examples of this kind of community work, but, as Dr. Maaske points out, many other small towns in the country have done the same thing. While setting up an adult-education program is not exactly easy, it can be done by virtually any community, regardless of its size.

The key word here, as in other fields of local endeavor, is "cooperation." Begin with a nucleus of local persons who really believe in the value and efficacy of adult-education. Get cooperation from school officials, the librarian, city officials, businessmen, and other community leaders. Once such a program is established on a sound basis, it is very likely to be successful in its own right.

There are six basic phases to establishing an adult-education set-up, according to Dr. Maaske, and they will be outlined in this space next week.

There is a time in every man's education when he arrives at the conviction that envy is ignorance; that imitation is suicide; that he must take himself for better, for worse, as his portion; that though the wide universe is full of good, no kernel of nourishing corn can come to him but through his toil beset on that plot of ground which is given him to till.

# OPS Orders New Beef Price Control Plan Calling for 10 Cent Rollback

**BEF PRICE CONTROLS**—In one sweeping order that will touch nearly every family in the home towns of America as well as 300,000 meat retailers and 25,000 packers, slaughterers and other meat wholesalers, the OPS put into force a new beef price control program calling for almost a dime-a-pound roll-back at the butcher shop by October 1.

The order is expected to save the American housewife \$700 million in the butcher shops. Housewives cannot expect retail prices of beef to drop immediately, however, because the program provides for progressively reducing ceiling over a period of time that will allow livestock producers to unload their high cost animals.

Livestock men have balked at controls over cattle prices and warned they would result in less meat production. Michael V. DiSalle, OPS director, will likely be severely criticized by the industry.

These are the steps in the new beef program:

1. A 10 per cent cut in prices which slaughterers may pay the farmer for cattle. This goes into effect for accounting periods beginning on or after May 20.

2. Dollar and cents ceilings are fixed for wholesaler and retailers for the first time. The wholesaler ceilings go into effect May 19, the retail ceilings on May 14. Butcher shops must post retail ceiling price charts, by grade and cut, by June 4.

3. Prices slaughterers may pay for cattle are to be reduced an additional four and one-half per cent on August 1 and by same amount on October 1.

4. On the same August 1 and October 1 dates, retail beef prices cuts from four to five cents a pound will go into effect.

Editors Meet

Edwin S. Friendly (left), retiring president of the American newspaper publishers association, hands over his gavel to his successor, Charles F. McCabill. The editors held their 69th annual convention recently in New York.

**MORE CONTROLS**—Main Street may feel a greater degree of the control pinch if President Truman's proposed legislation gets through congress. He has called for re-enactment, with some stiffening, of virtually everything in the defense production act of 1950. In view of Mr. Truman's recent troubles, it is doubtful if his suggestions will be accepted without considerable criticism.

- He proposed:
1. Fixing the parity price for each farm commodity as of the beginning of its marketing season for price control to cover the entire season.
  2. Establishing effective rent controls for both residential and commercial properties "wherever needed to stabilize the cost of living and the cost of doing business."
  3. Strengthening machinery for the enforcement of price control regulations.
  4. Authorizing the government "to build and operate defense plants, to produce essential materials and equipment."
  5. Providing for controls over credit in the sale of existing housing.
  6. Regulating speculative trading on commodity exchanges.

**THINGS TO COME**—If the man on Main Street thinks the Truman-MacArthur controversy is going to die, he is badly mistaken. The battle is just about to begin.

This was indicated in a long and extemporaneous speech by Sen. Robert Taft in which he attacked the U.S. joint chiefs of staff and demanded that the U.S. go "all-out" in Korea.

The senator said that he was willing to follow the MacArthur proposals for bombing military objectives in Communist China and for giving logistical support, meaning transport and cover, to Nationalist attack on China proper.

The senator's speech made it clear that the Republican plan to use the forthcoming investigations of the MacArthur dismissal to force an overturning of present far east policy.

**A WARNING TO AMERICA**—Robert A. Vogeler, shaky, pale and nervous was released from a Hungarian prison after 17 months imprisonment. He had a message for the Main Street of America.

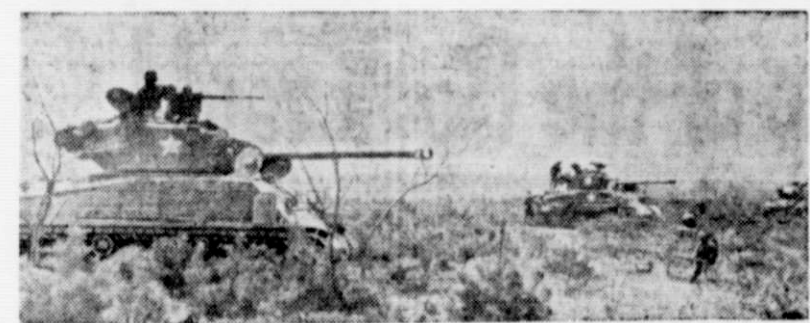

"I want to warn every individual American that what happened to me can happen to them if we don't band together to destroy these enemies of individual freedom," he told newsmen after his release.

"I have a message for America—an important one. 'America must be made aware of what can happen to human rights—right of a person to go where he wants and say what he wants . . . or the right to be able to go to bed and not be afraid of being taken away from his family to prison in the middle of the night.'"

**RETURN OF LABOR**—With the return of organized labor to all defense-mobilization agencies, the man on Main Street can expect the unions to exert a greater influence over the administration's future defense proposals.

It was evident by labor's return to the defense agencies that the administration had surrendered on many points of conflict and is now willing to listen to the united labor policy committee.

Union leaders made known immediately their first campaign. As expressed it, "We will now turn the heat on congress by undertaking a new campaign for tighter price-control laws and other legislation to insure equality of sacrifice in the defense effort."

Chinese Attack South of Parallel

A U.S. tank battalion lumbers into a defense position north of Seoul, prepared to take a heavy toll of advancing Chinese Communist forces.

**SPRING IN KOREA**—It is spring in Korea. But there is no peace and tranquility in the warm sun. The song birds can not be heard for the constant roar of artillery. The tender sprigs of grass and shrubs are trampled beneath the boots of invading Chinese and defending United Nations troops. It is time for war in Korea.

But the great Communist spring offensive is not doing so well. And the people in the home towns of America who are thinking of their sons and brothers and husbands have gained confidence from reports of allied victories.

The Reds approached Seoul, but came to a dead stop after allied naval, air and artillery bombardments. On other fronts the fighting had died down for the time being.

But as long as it is spring in Korea, the Communists will attack. This time, however, they are running into a meat grinder of fire power.

A SLIGHT DECLINE

## Food Prices Down .3 of a Per Cent

The bureau of labor statistics reported that a survey of eight cities revealed that retail food prices declined slightly during the latter part of March.

It was the second time since the wage-price freeze of January 25 that there was a falling off in the retail food-price index kept by the bureau. The decline, however, was only .3 of a per cent.

## Daily Water Use Hits 1,100 Gallons a Person

Americans are the cleanest or most wasteful people in the world. According to recent figures, Americans used 170,000,000,000 gallons of water daily last year in their homes, farms, factories and business establishments.

The Geological Survey, supplying this estimate, figured it amounted to 1,100 gallons a day for each person in the United States.

### WILLIS THE WHITEWING

"DON'T tell me these generals are fighting for a better world," groaned Willis the White-wing as he took off weight cleaning the streets after the great parade for General MacArthur. "The better life for small people, my eye! Freedom! Baloney! The confetti and ticker tape will tie me down like I ain't been tied down since Lindbergh came home. Whaddya mean, 'stopping aggressors everywhere'?" How about these people who threw all this litter down on me!"

Willis, never a parade lover, was plenty sore this time. "This job finishes me with Truman and the Democrats. They have been talkin' about makin' life easier for the common man for years, and look at these streets!! They promise me they'll make it easier for me and what do they do? Call home our greatest national hero and bring on the biggest parade in years. If I am ever the same again it will be due to miracle drugs and a switch to the Republicans."

"The streets certainly took a beating," we observed.

"The blizzard of '88 couldn't top it," said Willis the White-wing. "See that pile of confetti over there? I'll bet I'll find a half-dozen guys under it still tryin' to blow horns. Other parades had just one-handed ticker tape and confetti throwers. This one used only people who threw with both hands. I always said it was a mistake gettin' into Korea anyhow. We should get out."

"Immediately?" we asked.

"No. That would mean another parade and I wanna get a little rest after I get this one cleaned up," he replied. "But what have we got out of the Korean war? Brooms with longer bristles and shorter handles! Smaller shovels! Longer lines of marches!"

"Didn't you get a kick out of MacArthur's homecoming?" We asked.

"He's a great guy. I like him. But strictly before a parade, not after. With me he's extendin' the struggle, not limitin' it. I expect to be strugglin' in this rubbish another ten hours. I hear the army is keepin' the Chinese off balance. Anyhow, that's where they're keepin' me."

"You don't favor a holding operation, do you?"

"The way I ache now I would even cheer for a stalemate," snapped Willis.

"Don't you realize the world is in a state of crisis and that we must all do our part in any given situation?"

"So a broom and shovel stops Russia!" shrugged Willis. "So we show the Kremlin we are ahead in confetti! So we prove to Joe Stalin that we lead the world in ticker tape tossin'! I'll bet Malik would pay big money for a picture of me knee-deep in this litter."

"What for?" we asked.

"To rush to Ivestia showing me as an enslaved worker consigned by Wall Street to a life of hard labor and probably blaming my backache of the American military machine and capitalism. I hear Moscow is already charging the American people with dropping confetti in a rehearsal for dropping potato bugs and flu germs. Lissen, bub, are you for lightenin' the burdens of people everywhere? Then grab a broom!"

### YE GOTHAM BUGLE

The stock of a jeweler held in a basketball fix was sold at auction the other day. We hear nothing caused more laughs than the query from a bidder on a defective article. "Can this be FIXED?"

If the sailor charged with having \$125,000 worth of dope on the Big Mo had had it when she went around he could have gotten it off single-handed. . . . City of New York is offering a ferryboat holding 1,160 people and 60 autos to the highest bidder. It would have saved a lot of wear and tear on a house if we had had it as a television room during the big parade. . . . The country's most engrossed baseball fan was found during the MacArthur procession. Fellow asked him who the parade was for and he replied, "Mickey Mantle!" . . . The Office Tory calls Secretary Acheson Dizzy Dean. . . . The envy of every kid in America was General MacArthur's 13-year-old son.

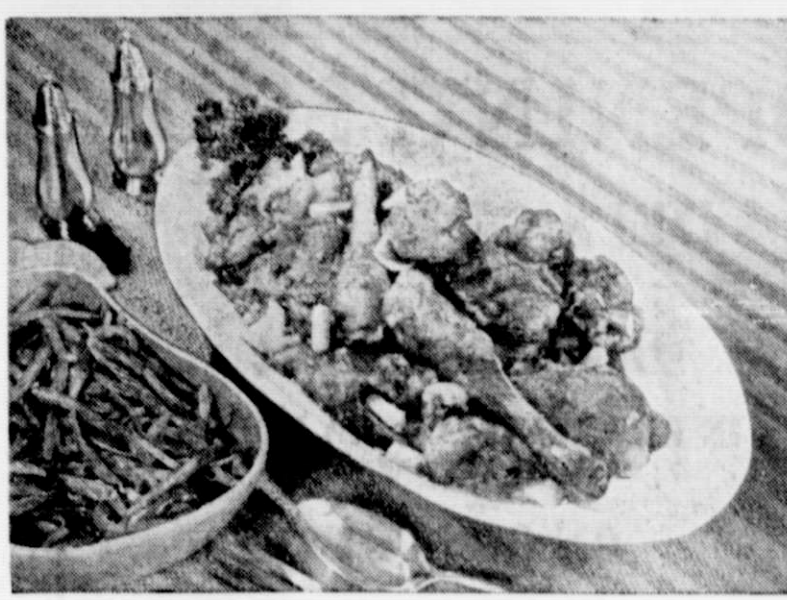

"\$125,000 Worth of Morphine Found on Big Mo"—Headline. Is that why it has been called a dream ship?

"I have no intention of entering the foreign policy field. This is a civilian responsibility. But a soldier can often see strategic perils that laymen might overlook." — General Omar Bradley in a public speech the night before MacArthur landed in the U.S.A. It matters talking, eh?

### VANISHING AMERICANISMS

Senator Kefauver seems to think the underworld can now be taken care of by public indignation and special crime probes in various infected communities. He was never so wrong. The public cools off fast and needs the fire, color and drama of the Kefauver routine to stir it up for at least another six months. Few community crime probes ever did a lasting job from the "Who Hit Billy Patterson" mystery to the present day. You have to keep at it.

### Freeze Foods Now for Later Use

**Successful Freezing**

ONE OF THE MOST satisfactory ways of preserving foods that has come into the limelight recently for home use is that of quick-freezing it. Compared with canning and dehydrating methods, freezing is easy.

There are, however, many misconceptions regarding the process of freezing and storing them in home freezer or locker, and one of the main ones is that you simply have to wash the food and store it.

Five essentials are necessary to the successful freezing of fruits, vegetables, poultry and meat. The variety used must be good for freezing; fruits and vegetables must have reached a certain degree of maturity, for like any other preserving process, freezing only keeps food until it's used and does not improve it.

Preparation for packaging must be done carefully, and proper packaging should be used to prevent a common ailment of frozen foods, namely, that of freezer burn. Storage must be at the recommended temperature 0°F. or below.

Equipment for freezing naturally includes a locker or a freezer to which you have ready access. If you rent a locker, then freeze only enough foods to fit into the refrigerator before you can take them to the locker. This must be within 24 hours of their packaging.

**High Flavor, Color Gives Good Frozen Product**

Generally speaking, in the matter of fruits and vegetables, those with high color and excellent flavor should be used for freezing.

Those who freeze foods have already run into the term "optimum maturity." This means that fruits and vegetables suitable for freezing should have reached their peak of ripeness to be ready for the freezer. Fruits and vegetables at this stage are sweetest, full of flavor and ripe. This is the flavor and appearance which you want to preserve.

Get fruits and vegetables into the freezer right after picking, if it's at all possible. If you wait for too long after picking or harvesting, the produce loses flavor and deteriorates in texture.

**Check These Varieties For Vegetables**

If you're planning to freeze any of the following vegetables, check varieties to get the best results. In asparagus, for example, you'll find that both Mary Washington and Martha Washington rate high. The Dwarf Improved and Long Island Improved varieties of Brussels Sprouts are considered good.

Fordhook lima beans retain superior color and flavor when frozen, and so do the Kentucky Wonder green snap beans.

Italian green sprouting broccoli is superior because of its fresh flavor and color for freezing purposes, while the Thomas Laxton and Dark Podded Thomas Laxton peas give a superior frozen product.

Savoy type spinach is recommended for those freezing this vegetable in the Eastern part of the country.

**LYNN SAYS: Serve Summer Foods With a Flair**

Keep the flavor intact in those tender asparagus spears. Don't scrape, just brush it. Break, don't cut and tie with a string. Cook with the heads up, then served with browned butter and bread crumbs.

Lemon gelatin salads are cooling for hot days. Choose a canned fish for plain gelatin and lemon juice molds: shrimp, sardines, lobster or crabmeat. Serve with garden red tomatoes.

For porch suppers nothing could be simpler than scalloped potatoes made with cold boiled and sliced potatoes, layered with hamburgers and sliced tomatoes.

Little thin pancakes served with just a bit of whipped cream and fresh sugared berries make one of the most perfect desserts you've ever tasted.

### The Way it Happened . . .

IN ANNAPOLIS . . . Members of the Maryland Turkey Producers Association met to talk over ways & means of making the public turkey-conscious, set down to a lunch of veal cutlets.

IN TORONTO . . . William Bray, arrested for beating up a total stranger, explained to police that he got the wrong address: "I was looking for one of my wife's relatives."

IN LONG ISLAND CITY, N.Y. . . . Salvatore La Scala was acquitted of robbery on an alibi: at the time of the robbery he was in Brooklyn running errands for his employer, a bookie.

**INVITE VOLUNTEER FIREMEN TO NORTH LAKE TOURNAMENT**

The North Lake volunteer fire department announces their annual picnic will be held in Firemen's park in the village of North Lake on Saturday evening, June 30, and Sunday, July 1.

In conjunction with their picnic and carnival, which is southern Wisconsin's most popular summer attraction, the North Lake firemen announce they will institute the North Lake volunteer water fight tournament for the first time in history.

Any volunteer fire department, and only volunteers, are invited to register. Your fire chief must register your team with William J. Dong, secretary, North Lake, Wisconsin, before June 1, including the names of the contestants and a three-dollar forfeit fee, which will act as a guarantee that your team will be present on the field of battle. This fee will be returned to your department if your team appears on the field at the appointed hour. The hours of combat will be announced later, although present plans call for the semi-finals to be "splashed off" on Saturday evening, June 30, and the finals will be "sprayed" on Sunday evening, July 1.

If there are a multiple number of teams entered, the "spray offs" will be held earlier, possibly the previous week.

Trophies, which will be on display in North Lake in a few weeks, will be awarded to the first four place teams. Place participation awards will be given to the individual fighters in proper ceremony on Sunday evening, July 1.

Register your team today!

The settlements made during 1950 are as follows: Compensation and pensions to veterans and dependents \$23,806.20, Benefits from the Wisconsin Dept. of Veterans Affairs 1,260.00, Hospitalization at Wood 5,060.00, Burial allowance 2,100.00, Insurance reinstated and renewed 121,000.00, Insurance settlements 24,000.00, Loans from Wisconsin Dept. of Veterans Affairs 3,900.00, Rehabilitation 10,675.00, Gratuity pay and pay due soldier 1,499.39. Total \$193,300.59.

Monetary benefits paid by Veterans Administration for medical and dental outpatient treatment are not considered in the above tabulation, as the amount is not available. We therefore submit only the number of cases. This is also true in other benefits. The following figures are quoted:

Outpatient dental and medical care 28, Applications for training and education 74, Headstones for veterans' graves 9, Burial flags 13, Domiciliary care at King-Old members 7, New members 2, Domiciliary care at Wood 2, Permanent patients at VA neuropsychiatric hospitals 7. Total 142.

In the past year much federal legislation has been enacted which has changed many benefits.

Spanish American veterans have been made eligible for outpatient care for practically every medical or dental disability, whether service connected or otherwise.

Non-service connected pension requirements for World War I veterans have been liberalized, and a review of the files will be made to determine whether any of our applicants are eligible for a greater

amount of compensation. Tubercular veterans have been granted greater benefits by virtue of new legislation. It will require considerable study until all of our files can be reviewed and proper steps taken to assure the veteran his just compensation.

An increase was granted in all service connected cases and dependency grants liberalized.

Already we have had two deaths in the Korean conflict and a number of Washington County boys have been wounded. This condition will be complicated as legislation now in effect puts these men into two categories.

Reemployment rights have again been granted to those in the armed forces. Your Service Officer is appointed by the State Selective Service as the Reemployment Committee for Washington County.

Washington County in 1950 had 15 deaths, which included one Spanish American War veteran, who died at King, Wisconsin, and was buried at the cemetery of the Grand Army Home.

The deaths were as follows:

Table with columns: Spanish American, World War I, World War II, Total. Spanish American 1, World War I 1, World War II 3, Total 5.

Your Service Officer wishes to take this opportunity to express his appreciation for the assistance and cooperation extended during the past year. Our services are at your command and we would appreciate an opportunity to discuss any problem which might present itself regarding any veteran in your community.

Respectfully submitted, GEORGE A. KOLB, Veterans Service Officer, Washington County

**52nd ANNUAL REPORT OF THE WASHINGTON COUNTY HOSPITAL AND HOME TRUSTEES, SUPERINTENDENT AND MATRON**

To the Honorable Board of Supervisors  
Washington County, Wisconsin  
Gentlemen:

The Trustees, Superintendent, and Matron herewith present our Annual Report of the Washington County Hospital and Home for the year ending June 30, 1950:

Our major efforts this past year were expended on the County Home. New terrazzo floors, plumbing, wiring, fixtures, and redecorating have been completed. New furnishings are being purchased and planned to complete our remodeling, giving the inmates a better and more modern place to live.

We are modernizing our laundry, installing some new drying and ironing equipment. The Recreation Hall has been redecorated, the boilers repaired, and other improvements have been added to make a better home for our patients.

We have purchased new and added improvements to our farm buildings and machinery making the farm tasks lighter, and enabling us to bring more and better food to our tables.

Our problem, now, is to provide adequate housing for our employees, and we hope the County Board will give this their serious consideration.

We are grateful to the County Board for their generosity to us this past year, to the Committee on Institutions for their help and suggestions; to our Dentist, who has given our patients their dental care; to our Doctor, who has given our patients excellent medical care; to the Knights of Columbus, Clergy, Police Department, Women's Club, Moose, and the various other organizations, who have given their services; to our fine group of employees, who have faithfully helped us to care for our patients.

We regretted the loss in death of Harland LeCount, who gave so graciously of his time and ability during his short term as Trustee.

Spanish American veterans have been made eligible for outpatient care for practically every medical or dental disability, whether service connected or otherwise.

Non-service connected pension requirements for World War I veterans have been liberalized, and a review of the files will be made to determine whether any of our applicants are eligible for a greater

amount of compensation. Tubercular veterans have been granted greater benefits by virtue of new legislation. It will require considerable study until all of our files can be reviewed and proper steps taken to assure the veteran his just compensation.

An increase was granted in all service connected cases and dependency grants liberalized.

### Report No. 24 COUNTY CLUB AGENT

To the Honorable Board of Supervisors  
Washington County, Wisconsin  
Ladies and Gentlemen:

On the following pages you will find my annual report for 1949-50. You will find this report considerably condensed as this was the suggestion the agent received last year. However, I shall try to illustrate some of the highlights of last year's program by means of colored slides (photographs) which were taken during the past year. I should further like to mention that a more complete report of the club agent's activities will be on file in the 4-H office. Anyone is welcome to this report and the writer will gladly answer any questions pertaining to same.

The program of work for 1949-50 was developed from the suggestions of the local program planning committee. This group was comprised of persons from various parts of the county. The 4-H club agent has the responsibility for the coordination of the 4-H club program. This includes the educational, recreational, and community service phases, as well as giving help to members in the various projects.

The County 4-H Leaders Association and their appointed committees have helped a great deal in determining and directing 4-H club activities. Cooperation received from the members of the County Agriculture Committee, the extension supervisors and specialists, and personnel of other organizations has been greatly appreciated.

The agent expresses sincere appreciation to Mr. E. E. Skalsky and Mrs. Mariel Kolb Suckow who have freely given cooperation and assistance to the 4-H program.

Sincerely,  
EVERETT E. OLSEN  
County Club Agent

(A complete report of Report No. 24 is filed in the County Clerk's office).

Moved by Mr. Bammel, seconded by Mr. Peters that the meeting be adjourned until 10:00 a.m. Thursday morning. Motion carried. Meeting adjourned.

Respectfully submitted,

### Report No. 25 WASHINGTON COUNTY HOME AGENT

To the Honorable Board of Supervisors  
Washington County, Wisconsin  
Ladies and Gentlemen:

It has been my privilege to work in Washington County as the Home Demonstration Agent for the past sixteen months. I sincerely appreciate the opportunity which has been given me, through your agricultural committee, to help carry on an educational program in Washington County.

This annual report to you covers the period from November 1, 1949 to October 31, 1950. The work of the home agent has been based on the 1949 and 1950 Programs of Work that were developed through local Program Planning Committees. It is hoped that the major function of our Cooperative Extension service—the improvement of rural living, family and community life—has been carried out.

Although the major responsibility for the 4-H club program has been carried by the 4-H club agent, the home demonstration agent has assisted with the 4-H home economics projects and with local and county 4-H meetings and activities.

Additional information concerning home demonstration work in the county is included in copies of the annual report of extension workers on file in the Home Agent's office and in the office of the Superintendent of Schools. The home agent will also be glad to answer any questions about the report.

The cooperation of the members of the county agricultural committee, the county planning committee, 4-H club leaders and members, officers and members of homemakers' clubs, and personnel of other county organizations has been greatly appreciated.

The home agent would also like to express sincere appreciation for the cooperation and assistance given by the County Agent, Mr. E. E. Skalsky, the Club Agent, Mr. E. E. Olsen, the state extension supervisors and the specialists.

Respectfully submitted,  
(Mrs.) MARIEL KOLB SUCKOW,

**52nd ANNUAL REPORT OF THE WASHINGTON COUNTY HOSPITAL AND HOME TRUSTEES, SUPERINTENDENT AND MATRON**

To the Honorable Board of Supervisors  
Washington County, Wisconsin

The Trustees, Superintendent, and Matron herewith present our Annual Report of the Washington County Hospital and Home for the year ending June 30, 1950:

Our major efforts this past year were expended on the County Home. New terrazzo floors, plumbing, wiring, fixtures, and redecorating have been completed. New furnishings are being purchased and planned to complete our remodeling, giving the inmates a better and more modern place to live.

We are modernizing our laundry, installing some new drying and ironing equipment. The Recreation Hall has been redecorated, the boilers repaired, and other improvements have been added to make a better home for our patients.

We have purchased new and added improvements to our farm buildings and machinery making the farm tasks lighter, and enabling us to bring more and better food to our tables.

Our problem, now, is to provide adequate housing for our employees, and we hope the County Board will give this their serious consideration.

We are grateful to the County Board for their generosity to us this past year, to the Committee on Institutions for their help and suggestions; to our Dentist, who has given our patients their dental care; to our Doctor, who has given our patients excellent medical care; to the Knights of Columbus, Clergy, Police Department, Women's Club, Moose, and the various other organizations, who have given their services; to our fine group of employees, who have faithfully helped us to care for our patients.

We regretted the loss in death of Harland LeCount, who gave so graciously of his time and ability during his short term as Trustee.

**County Home Properties**

**In these situations.** At the Teachers Institute this fall, many practical methods of avoiding accidents was emphasized by Orlo Miller, Health Co-ordinator in the Bureau of Public Instruction. Mr. Miller advised the teachers in purchasing future playground equipment.

**Speech defectives.** On the whole, make up the largest single group of seriously handicapped children in this county. These defects include the failure of speech to develop or a distortion of normal forms. Nothing else our schools offer can compare with it in importance as it causes so much emotional instability.

Washington County is seriously lacking in this area as no speech therapist is available for services, and schools that accept our referrals are crowded.

**TUBERCULOSIS**

The control of tuberculosis is the responsibility of everyone. Each individual must cooperate in the effort to find all existing cases of tuberculosis. The hope for the eradication of tuberculosis depends upon successful application of known methods of prevention.

A chest examination was done on all teachers and school personnel in the county this fall and no tuberculosis was found.

In spring, 1951, the State Board of Health will bring two X-ray units to the county for 20 days. The last time a county-wide x-ray program was offered was in December, 1948.

**COUNTY HEALTH NEEDS**

1. Continued stimulation and education in the dental health program.
2. Immunization stressed for infant and preschool children.
3. More stress in health education for maternal and child health.
4. A well-established fund for the correction of defects for borderline cases.
5. Additional nursing service.
6. A well-established follow-up program on tuberculosis cases, including tuberculin testing and x-rays of all contacts as soon as known case of tuberculosis is discovered.
7. More emphasis on nutrition, improvement of school lunches.
8. Child guidance clinic.
9. Parent guidance during special school health programs.

Respectfully submitted,

**Report No. 18  
INSURANCE COMMITTEE**

Washington County Board  
West Bend, Wisconsin  
Gentlemen:

The Washington County Underwriters Association was organized for the purpose of handling Washington County insurance as efficiently and economically as possible, and with a minimum of disturbance to busy County officials.

In carrying out these plans, our insurance committee respectfully submits the following report on County insurance matters.

Since our last report, we find, through the facilities of Engineering Departments of several large insurance companies, that construction costs have gone decidedly upward. The rise in building materials and labor costs has continued, and there is presently no indication of any leveling off.

The Association has made a further study of the appraised valuations as determined by the Rau Appraisal Company, as of January 27, 1944, on the following properties of Washington County:

The Court House — The Hospital — The Home

This study shows that in order to conform with the respective co-insurance clauses on the present policies, increases ought immediately be made in the existing insurance on the buildings. We have not been provided with any contents valuations but presume that the amounts of insurance ought likewise be increased there.

**COURT HOUSE FORM**

	Ins. Presently Carried as of Oct. 1, 1950	Recommended Increase	Approx. Ann. Cost
1. Court House (Building)	\$92,000.00	\$8,000.00*	\$11.77

The 80% co-insurance clause applies to Items 1 and 4, above.

1. Asylum Building	\$160,500.00	\$14,500.00*	\$41.44

1. Home	\$88,600.00	\$7,400.00*	\$19.24
2. Contents	5,000.00		

\*We understand that material improvements and additions have been made to County property at the Hospital and Home. We again suggest that any such improvements so made which affects the value of the property, should be considered in placing insurance to conform with the co-insurance requirements (80% co-insurance applies on the County Home Building). Our recommended increases do not include improvements made during the past year.

With the upward trend of building, material and construction costs, we suggest a new appraisal be made on the County buildings to bring the values up-to-date. The most recent appraisal was made by the Rau Appraisal Company in January, 1944. This appraisal can be brought up-to-date for a consideration much less than the cost of a new appraisal.

**WASHINGTON COUNTY HIGHWAY BUILDINGS**

On the following properties of the County, no appraisals have been made, the Association having been informed that the County is content to rely on the original cost of these buildings plus estimates of appreciation due to rise in building costs. In the opinion of the Association, an appraisal of these properties would constitute a preferred basis for insurance.

	Ins. Presently Carried as of Oct. 1, 1950	Recommended Increase	Approx. Ann. Cost
1. West Bend Highway Shop	\$79,500.00	\$7,000.00	\$30.66

7. Barn No. 4	7,000.00		
8. Comfort Station	500.00		

The insurance on the barns was increased as of August 21, 1950.

The insurance on these barns and contents is written without co-insurance. As indicated above, we have no way of determining whether the amounts of insurance are reasonably adequate. We presume that your Committee may secure information regarding the value of contents from heads of the various departments.

The insurance on the farm buildings and personal property provides fire and extended coverage. The present amounts now covering

(7) **PASSING STREET CARS ON TWO-WAY HIGHWAY.** It shall be unlawful for the operator of a vehicle on a two-way highway to overtake and pass upon the left any street car proceeding in the same direction whether such car is actually in motion or at rest.

(10) **PASSING VEHICLES AT INTERSECTIONS.** Whenever any vehicle has stopped at a marked or unmarked crosswalk or at any intersection to permit a pedestrian to cross the highway, it shall be unlawful for the operator of any other vehicle approaching from the rear to overtake and pass such stopped vehicle.

(11) **PASSING OR MEETING FRIGHTENED ANIMALS.** The operator of any vehicle upon any highway, upon a signal by putting up the hand or other signal of distress made by a person riding, driving or leading an animal which is frightened, shall cause such motor vehicle to stop unless a movement forward is necessary to avoid an accident or injury, and such operator shall, upon request, stop all motive power until such animal is under control.

(12) **PASSING SCHOOL BUSES WHILE LOADING OR UNLOADING CHILDREN.** The driver of a vehicle upon meeting or overtaking any school bus which has stopped on the highway for the purpose of receiving or discharging any school children shall approach or overtake such bus at a speed not to exceed 15 miles per hour. The term "school bus" as used in this subsection means any motor vehicle defined or referred to in Wisconsin Statutes for 1949 section 110.035 or section 40.347 (1) and which is painted substantially as prescribed in section 40.347 (1) of Wisconsin Statutes for 1949. (4) **TURNING AROUND AT CERTAIN INTERSECTIONS PROHIBITED.** At any intersection where traffic is controlled by a traffic control signal or by a traffic officer, it shall be unlawful for the operator of a vehicle to turn such vehicle at the intersection so as to proceed in the opposite direction.

(5) **TURNING AROUND IN MID-BLOCK PROHIBITED ON CERTAIN HIGHWAYS.** It shall be unlawful for the operator of any vehicle operating on any street in a business district or on any artery for through traffic in a residence district to turn his vehicle so as to proceed in the opposite direction at any place except at an intersection where such turns are permitted.

## 175. Turning movements and required signals.

(1) No person shall turn a vehicle at an intersection unless the vehicle is in proper position upon the roadway as required in section 17, or turn a vehicle to enter a private road or driveway or otherwise turn a vehicle from a direct course or move right or left upon a roadway unless and until such movement can be made with reasonable safety. No person shall so turn any vehicle without giving an appropriate signal in the manner hereinafter provided in the event any other traffic may be affected by such movement.

(2) A signal of intention to turn, right or left when required shall be given continuously during not less than the last 100 feet traveled by the vehicle before turning.

(3) No person shall stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided in sections 176 and 177 to the driver of any vehicle immediately to the rear when there is opportunity to give such signal.

176. **Signals by hand and arm or signal device.** Any stop or turn signal when required herein shall be given either by means of the hand and arm or by a signal lamp or lamps or mechanical signal device of a type approved by the department, but when a vehicle is so constructed or loaded that a hand-and-arm signal would not be visible both to the front and rear of such vehicle then said signals must be given by such lamp or lamps or signal device.

177. **Method of giving hand-and-arm signals.** All signals herein required given by hand and arm shall be given from the left side of the vehicle in the following manner and such signals shall indicate as follows:

(6) **RIGHT OF WAY OF FUNERAL PROCESSIONS.** Funeral processions shall have the right of way at intersections when vehicles comprising such procession shall have their headlights lighted, excepting in case of an emergency or when directed otherwise by a traffic officer. Such processions, however, shall be governed by traffic control signals except that when the leading vehicle has proceeded across an intersection in accordance with such signal, all vehicles in such procession may so proceed regardless of any change in such signal. It shall be unlawful for any vehicles to form a procession and have their headlights lighted for the purpose of

securing the right of way granted by this subsection to funeral processions.

Beginning on January 1, 1950, in accordance with the provisions of Ordinance No. 31, adopted by the County Board on November 26, 1949, the Public Welfare Department was to administer direct relief for those municipalities in our county who would contract with the department to do so. The response and cooperation of the local municipalities was beyond expectation. By January 1, 1950, the effective date of the ordinance, seventeen of the twenty municipalities in Washington County had already contracted with our department for that service. By the first of August, 1950, the total had reached nineteen (19) municipalities.

The Village of Slinger is the only political subdivision of Washington County which has failed to join the Washington County unit system of relief.

The cooperation which we have received from the officials of the various municipalities has been splendid, and it is our sincere wish and hope that our services have satisfied them as much as their cooperation has satisfied us.

We have worked out a system of relief administration which embodies State Department of Public Welfare recommended standards. This applies to all direct relief cases, and we are happy to inform you and the public at this time, that for the first time since 1935, the administration of direct relief in this county is on a uniform and standardized system.

On January 1, 1950 we took over fifteen (15) direct relief cases from the various municipalities. During the year the caseload varied from a high of thirty-seven (37) to a low of sixteen (16), which was the December 1950 caseload. During the year a total of seventy-two (72) new applications for direct relief were received of which a total of fifty-eight (58) were approved after having been found to be eligible for assistance and fourteen (14) were denied because of not being eligible. Most accepted cases were of short duration.

Applicants for direct relief are required to turn in their automobile licenses and title, and must show proof of having registered for employment with the Wisconsin State Employment Service as a prerequisite to the granting of direct relief. Our caseworkers also contact local industry for possible jobs for applicants and in that way, in a great many cases, relief is unnecessary because of employment made available for the applicant.

It is interesting to call to your attention the fact that only four counties of the seventy-one making up the State of Wisconsin, show a lower direct relief caseload in the month of December than our caseload in Washington County.

Report No. 32 of the Wisconsin Retirement Fund was presented by the County Clerk. Moved by Mrs. Courtney, seconded by Mr. Koller that Report No. 32 be adopted and filed. Motion carried.

### Report No. 32 REPORT OF WISCONSIN RETIREMENT FUND (66.90—Statutes)

Washington County, by a resolution dated November 17, 1946, began participating in the Wisconsin Retirement Fund for elected and appointed officials, and employees, as of January, 1947. By the same resolution, the Director of the Public Welfare Department was appointed as the agent to represent the County Board of Supervisors in all matters pertaining to the Retirement Fund for Washington County, as liaison to the Retirement Office.

Individual employment records for each employee and participating official are maintained by your Agent. All department heads of County government submit copies of semi-monthly payroll for employees, to the Agent, from which are completed necessary monthly reports required by the State Office. These reports, when completed, are submitted to the County Clerk who then issues two checks at the end of each month, payable to the State Retirement Office, one for the employer's contribution, and the other for the employee's contribution. Financial records for this account are maintained in the office of the County Clerk.

On the following chart we submit figures showing monthly employer's and employee's contributions to the Retirement Fund for the 1950 fiscal year:

Month	Employer's	Employee's
January	\$2,997.64	\$1,332.57
February	2,133.62	1,350.49
March	2,224.91	1,413.11
April	2,075.86	1,318.99
May	2,119.58	1,346.09
June	2,161.65	1,394.63
July	2,112.97	1,342.40
August	2,297.02	1,459.39
September	2,283.68	1,450.15
October	2,327.90	1,502.97
November	2,243.47	1,425.36
December	2,389.81	1,518.33
<b>TOTAL</b>	<b>\$26,493.11</b>	<b>\$16,854.68</b>

The rate for 1950 for the municipality (Washington County) was the regular matching contribution of 5% on current earnings for the employee's and officials, plus 2.87% for prior service credits, a total of 7.87%.

During 1951, the rate for the municipality has been reduced to only 2.25% for prior service credits, plus the regular 5% for current earnings, or a total of 7.25%. During 1949, the municipality's rate for current earnings and prior service credits was 9.01%. This is to be noted that there has been a steady decline for the municipality's prior service credit rate. Eventually, after all prior service credits have been paid in by the municipality, the County rate will be the 5% matching contribution only.

The Advisory Board to your Agent, who were appointed by the County Board, are Wm. T. Leins of West Bend; Carl Schaefer of Kewaskum; and R. W. Laubenthal of Richfield.

Respectfully submitted,  
ANTON P. STARAL,  
County Clerk

### REPORT OF SHERIFF'S COMMITTEE

We, the members of the Sheriff's Committee of Washington County, having met in special committee meeting hereby recommend to the Washington County Board of Supervisors that full-time radio operators, Elmer Zell, Anthony Noegel, and Clyde Roehrdanz receive an increase in salary of \$25.00 per month. Said salaries would be increased from \$225.00 per month to \$250.00 per month. We feel that said increases in salary would be in line with present living conditions.

This increase would provide a car allowance of \$150.00 per month. We the members of this committee feel that said increases are in line with present existing conditions.
