

Village Board Places Order for 32 New Street Name Signs

Regular meeting, Feb. 4, 1952. The Village Board of Kewaskum, Wisconsin met in regular monthly meeting with President C. Miller presiding and all board members present.

The board arranged with Architect Alfred Stuedey an inspection meeting for Tuesday evening, February 12, 1952 at 7:30 p. m. preparatory to the final acceptance of the municipal building.

Mr. Davidson of Davidson Office Supply demonstrated to the board the workings of a calculating machine. Purchase of such a machine was referred to the committee on equipment.

Mr. George Brandt and Albert Rheingans were advised that the correctness of the water assessment against their property was being investigated.

A request for the removal of the trees along the west side of Fond du Lac Ave. opposite the new Maaske building was referred to the committee on streets.

Motion by G. Hansen, seconded by A. Martin and carried that the commissioner be authorized to place an order with Mr. Les Hammel of Heloit, Wis. for thirty-two (32) street signs for the sum of two hundred fifty-six dollars (\$256.00).

Representatives of the Reeco Manufacturing Co., the Wagner Manufacturing Co. and the Stone Manufacturing Co. presented to the board what they had to offer in front end loaders and street graders.

Motion by C. Sparks, seconded by G. Hansen and carried that the Municipal Water Dept. account No. 71-29 in the amount of \$35.00 be dropped from the tax roll and be turned over to Village Attorney K. Wm. Haebig for collection.

Motion by L. Kohn, seconded by J. Eberle and carried that the commissioner advertise for sealed bids on the construction of sidewalk, curb and gutter; bids to be turned in no later than 8:00 p. m. March 3rd, 1952.

Motion by L. Kohn, seconded by E. Schaefer and carried that the application of George Schlosser for an operator's license be approved.

The commissioner was instructed to contact the Electric Co. in regard to the repairing of the street light on Main street near the Endlich store.

Motion by A. Martin, seconded by E. Schaefer and carried that all bids and wages as recommended and approved by the finance committee be allowed and paid.

Table with 2 columns: Item and Amount. Includes Associated Hospital Service, insurance, Milton Struening wages, Wis. Electric Power Co., electric power, Frank Felix material for Christmas decorations, E. M. Romaine tax bond, Wis. Fire Apparatus Corp., foam nozzle and liquid, Wash. County Highway Comm., snow removal, Geo. Hansen & Son, movie tickets for safety patrol, County of Washington, prisoners meals, W. C. Geidel & Son, Christmas decorations, Honck Chevrolet, repairs, Rimmel Manufacturing Co., angle iron, Edwin A. Bartelt, insurance premium, Commonwealth Telephone Co., tel. service, Lee Honck Farm Supply, electricity for Christmas lights, H. J. Lay Lumber Co., material for fire house, Shadbolt & Boyd, chuck for electric drill, Automotive Sales & Service, extinguisher recharge, Davidson Office Supply, office supplies, Shell Oil Co., fuel, Schaefer Brothers, gas & repairs, Frank Krueger, repairs in fire house, Frank Krueger, final payment on contract, Erdmann Electric, final payment on contract, Petty Cash Fund, misc. expenses, Kewaskum Statesman, publishing minutes, Earl Kraft, electricity for Christmas lights, Municipal Water Dept., assessments collected in tax roll, Frank Vietor, wages, School Dist. No. 5, 1/2 of utility tax from state, Myron Perschbacher, repairs for fire dept., T. A. Chapman Co., drapes for library (paid out of money donated to library fund by Woman's club), A. C. McClurg & Co., library books, Field Enterprises, supplement to World Book, Mrs. Fred Schleit, librarians salaries.

Marilyn Krueger Enlists in WAVES; Others Join Up

Miss Marilyn Krueger, daughter of Mr. and Mrs. Frank Krueger of Kewaskum, who had been employed in Milwaukee, enlisted in the WAVES recently for a period of four years. She left for Bainbridge, Maryland, where she will receive nine weeks of "boot training" at the U. S. Naval Training Center. Miss Krueger's address is as follows: Marilyn Jean Krueger 8-16, U.S.N., Co. 23 (W) Bldg. 21, reg. 3, U. S. Naval Training Center, Bainbridge, Maryland.

SFC Arnold Gulley reported last week that six Washington county enlistees have left for the army or air force in January. They are as follows: Army enlistees—Vivian Henke, 18, Hartford; Frederic Mehre, 19, Germantown, and Warren Horlamus, 24, West Bend. Air force—Alvin Hoganson, 18, and Richard Koester, 18, both of Hartford, and Robert Weyres, 18, Barton.

List Honor Pupils at Holy Trinity School

The following pupils at Holy Trinity school maintained either first or second honors throughout the first semester. The recorded per cents are the semester averages.

- First honors (100% to 93%) 7th grade—Audrey Amerling 96, Susan Weddig 96, Mary Ellen Jaeger 94. First honors 8th grade—Carol Jane Rohlinger 96. Second honors (92% to 85%) 7th grade—Patricia Hron 92, Roger Dohke 91, Ronald Bales 88, Richard Schmidt 86, Lorinda Volm 86, Mary Schaefer 86. Second honors 8th grade—Adeine Ketter 92, Crescentia Ruplinger 91, Judith Weddig 91, Carole Harbeck 90, Edward Miller 89, Maurice Struening 89, Beverly Hamthun 89, Mary Jane Falk 86, Darlene Nischke 86.

SIX NEW PUPILS ENROLL

Six new pupils enrolled at Holy Trinity since the New Year. The children from South Milwaukee are: Rosemary Lena, grade 4; Walter Molkenthine, grade 1. During the first week of February, four children came from St. Peter's school in Slinger. They are: Kathleen Merk, grade 5; Robert Merk, grade 4; David Merk, grade 2; Gregor Merk, grade 1. This brings the enrollment to 182 pupils.

SOIL, WATER CONSERVATION MEETING AT WAYNE FEB. 19

The highest producing farms are the ones upon which the soil and the annual rainfall are conserved. Attend a farmers' meeting on Tuesday evening, Feb. 19, at 8:00 p. m., in Barney Strobel's hall, Wayne (formerly Schneider's hall) and learn how the soil and water can best be conserved on your farm. The program for the evening meeting will be: Saving Our Soil and Our Rainfall—O. R. Zeasman, soil specialist, College of Agriculture. Film and talk on "Grass Silage for Our Farms"—E. E. Skalsky, county agent. This will be a good worthwhile program. You are invited to attend.

BIRTHS

- EBERT—A daughter to Mr. and Mrs. Elmer Ebert, Kewaskum, Sunday, Feb. 10. GRUENDEMAN—A son to Mr. and Mrs. Paul Gruendeman, Kewaskum, Tuesday, Feb. 12. BOWSER—A daughter to Mr. and Mrs. Warren Bowser, R. 1, West Bend, Tuesday, Feb. 12. Mr. Bowser is a former Kewaskum resident. WILSON—A daughter to Mr. and Mrs. Walter Wilson, Kewaskum, at St. Agnes hospital, Fond du Lac, Wednesday, Feb. 6. ZEHREN—Mr. and Mrs. Leo Zehren, St. Kilian, are the parents of a son born Saturday, Feb. 2, at St. Agnes hospital.

ON ACADEMY HONOR ROLL

Suzanne Rosenheimer, daughter of Mr. and Mrs. M. W. Rosenheimer, Kewaskum, is a member of the honor roll, having an average of 85, at Wayland academy, Beaver Dam, for the first semester of the present school year.

WATER DEPARTMENT

Village of Kewaskum, electric power and labor 216.83. Bank of Kewaskum, interest 512.50. Frank Krueger, pipe fittings 8.85. Village of Kewaskum, petty cash fund freight 5.87. P. R. Denzel, packing 2.54. Shell Oil Co., fuel 47.96. Milwaukee Lead Works, service fittings 172.76. Upon motion by J. Eberle, seconded by E. Schaefer and duly carried, the board adjourned. William S. Martin, Village Commissioner.

Funeral Rites for Augusta Backhaus

Funeral services for Miss Augusta Backhaus of Myra, a native of the town of Kewaskum, were held at 2 p. m. Wednesday, Feb. 13, at the Ohlrogge Funeral home, West Bend. The Rev. R. W. Groth officiated and burial was in Pilgrim's Rest cemetery there. The remains were in state at the funeral home from 2 p. m. Tuesday until the time of the final rites.

Miss Backhaus, who was born in the town of Kewaskum on September 22, 1877, passed away at her home in Myra on Sunday, February 10. She was 74 years old. The deceased is survived by a sister, Mrs. Robert (Louisa) Yost of West Bend, and three brothers, Fred Backhaus of the town of Jackson, and Charles and Paul Backhaus of the town of Kewaskum.

MRS. HELEN VOLZ

Mrs. Helen Volz, 82, widow of Joseph Volz, died Sunday, Feb. 10, at 12:30 p. m. at the home of her daughter, Mrs. Matt Serwe, in Campbellsport.

Mrs. Volz was born Aug. 16, 1869, in the town of Ashford, and was married April 12, 1920. Mr. and Mrs. Volz lived on a farm in the town of Auburn. She was a member of the Christian Mothers society of St. Matthew's church, Campbellsport.

Surviving are her daughter, Mrs. Serwe, and a son, Joseph, of the town of Auburn; a brother, John Thill of Milwaukee; six sisters, Mrs. Clara Powers of Campbellsport, Mrs. Elizabeth Meikensperger of Germantown, and Mrs. Josephine Lattie, and Mary, Catherine and Regina Thill of Milwaukee; 16 grandchildren and nine great-grandchildren.

Funeral services were held from the Twobig Funeral home, Campbellsport, on Wednesday at 9:30 a. m. and at 10 a. m. at St. Matthew's church. The Rev. Peter Schwamb officiated and burial was in the parish cemetery.

Radio Program Conducted to Help March of Dimes

A final effort to help raise additional funds for the 1952 March of Dimes in Washington county was conducted over radio station WBKV in West Bend on Feb. 15 between 3 and 4:45 p. m. General Chairman J. Tom Merriam announced Monday.

The program, entitled "Anything for a Buck," featured songs, recordings, musical selections—anything which listeners to the station requested. In exchange, the listener pledged a contribution of \$1 or more to the March of Dimes campaign. Up to Friday, listeners wrote to the station at West Bend and made their request. If they wished to have some special person appear on the program and perform, they could state so in request. The station in turn made every effort to contact that person and have him appear on the program and fulfill the request.

During the course of the program, telephone calls for requests were also received. If possible, the requests made were carried out. All that was necessary in this case was the person's name and his promise to contribute \$1 or more to the polo campaign. Merriam said that the program was conducted on the last day of the March of Dimes campaign as a final attempt to put Washington county over the top in its goal. He added, however, that contributions are always welcome at March of Dimes headquarters in West Bend, and that persons who have not yet made their contributions to this year's drive to mail their donations directly to him at March of Dimes, 101 S. Sixth Ave., West Bend.

FIFTH DISPLACED PERSONS FAMILY ARRIVES IN VILLAGE

Another displaced persons family, the fifth to come to Kewaskum, arrived on Monday, January 28, through the efforts of Mr. and Mrs. Killian A. Honck, Sr., who sponsored the family. They are Mr. and Mrs. Gunter Dreblow and family of Stettin, Germany. Mrs. Dreblow is a cousin of Mrs. Honck. The family is now residing in the farm home owned by the Honcks just south of the village park.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Sylvester Doring of R. 3, West Bend, announce the engagement of their daughter Betty to Staff Sgt. Rollin Anderson, son of Mr. and Mrs. Carl J. Anderson of Sparta. Sgt. Anderson has just returned home from Korea and later will report at a camp in Maryland.

BAKE SALE

The Women's Guild of the Peace N. and R. church will conduct a bake sale in the church parlors on Saturday, Feb. 23, at 2:00 o'clock p. m.

Haebig Blocks Try for Fish Hatchery

The state conservation commission has neither granted nor refused the application to have Leisenberger's lake near Barton licensed as a private fish hatchery, although an attempt to get private control of the lake at the commission's meeting in Madison was unsuccessful. The commission continued to keep it under advisement, following heated arguments.

K. William Haebig of Kewaskum, Washington county assemblyman, successfully blocked the motion to have the license granted. He brought out sound points in opposition to the license which apparently decided the commission to defer its judgment on the application.

Louis Allis, Jr., vice-president of the Louis Allis Co. of Milwaukee, had asked for the license for the two acre lake or pond, Atty. Roman Papka, Milwaukee, represented him.

A hearing was held by the conservation department last October in West Bend on this application. Attorney G. E. Otten and Haebig appeared in the interests of the general public, opposing the granting of a private fish hatchery license for Leisenberger lake. Clem Mayer, representing 163 members of the Jackson Sportsmens club and 22 others also appeared in opposition.

It was pointed out at the meeting in Madison Monday by Papka, as it was at the meeting in West Bend, that Allis' hobby is experimenting with fish and that the public can not get access to the lake anyway. Allis gave the University of Wisconsin \$3,500 this year to assist in experiments with his pond, which consist of attempting to create a two level lake, with bass living on the upper level and trout in the depths.

According to a report of the meeting published in the Milwaukee Journal on Tuesday, two commissioners voiced their opinion in favor of the project and moved it to be granted when Haebig arose from the rear of the room and said, "May I say a few words in opposition?" The Journal story went on: "Haebig pointed out that the waters of the state and the fish in them belong to the public but that once a hatchery license was granted they were withdrawn from the public and put to purely private use. If this man can have a license for his 'two acre lake, then someone else may be able to obtain one for a 200 acre lake," he said.

"Words flew thick and fast. When the dust settled, the license had not been granted—but everybody knew that Haebig had won his point.

HEINEMANN DAIRY INJUNCTION REQUEST REJECTED IN COURT

The request of the Kewaskum Dairy Co. and William H. Heinemann Creameries, Inc. of Jackson for an injunction against the Federal Milk Marketing Authority in Milwaukee was rejected Friday in Federal Court in Milwaukee. Judge Robert E. Teban ruled that, because of provisions of the Federal Administrative Procedures Act, he had no jurisdiction to rule on legality of the Marketing Authority. The dairies had challenged the authority of Agriculture Secretary Charles Brannan to issue an order setting a floor on milk prices.

The Kewaskum and Heinemann firms have merged since they filed suit last May.

HOSPITAL NEWS

Edward, son of Mr. and Mrs. Emil Klumb, Kewaskum, underwent an operation at St. Joseph's hospital, West Bend, on Monday, Feb. 4. Mrs. William A. Backhaus, village, who was a patient at Sacred Heart sanatorium, Milwaukee, for the past several months, returned to her home on Tuesday, Feb. 5. Mrs. Sam Gudex, R. 3, Campbellsport, has been removed to her home from St. Agnes hospital, Fond du Lac, where she recently underwent an operation.

Frank Sarauer, St. Kilian, returned home after being a patient at St. Agnes hospital for some weeks. He underwent a major operation.

BARTELT'S MOVE TO VILLAGE

Mr. and Mrs. David Bartelt and daughter of Madison last Wednesday moved into the upper apartment of the John Schmitt residence on South Fond du Lac Ave. Mr. Bartelt, who attended law school at the University of Wisconsin, will practice with his brother, Atty. Lyle Bartelt. He is the son of Mr. and Mrs. August Partier of this village.

PARISH CARD PARTY

For an enjoyable afternoon, come and play cards at Holy Trinity hall on Sunday afternoon, Feb. 24, at 2 o'clock sharp. The card party will be sponsored by the Ladies' Altar society. All games played. Lovely prizes given and a good lunch will be served.

Indians Trim Oaks, Near Share of Title

TRI-COUNTY STANDINGS. Kewaskum 10 1, North Fond du Lac 10 1, Campbellsport 8 3, Brandon 5 6, Rosendale 5 6, Oakfield 3 8, Lomira 0 12. Results Friday—Kewaskum 42, Oakfield 20; North Fondy 40, Rosendale 26; Campbellsport 82, Lomira 34. Games this Friday—Campbellsport at Kewaskum, Rosendale at Brandon, Oakfield at North Fondy.

The Kewaskum Indians needed a victory in their last conference game of the season here Friday night to clinch a share of the Tri-County championship with North Fond du Lac. However, this wasn't expected to be easily done as the finale was with the strong Campbellsport Belles, holders of third place. Earlier this season the Indians beat the Belles, 41-27, at Campbellsport.

Although Friday's encounter was the last conference tilt of the campaign Kewaskum still plays West Bend of the Little Ten conference there Monday night and Random Lake here next Friday night before entering the W.L.A.A. tournament the following week.

While the Indians were expected to have a rough time in their final contest with the Belles, North Fondy was highly favored to coast past Oakfield with the home floor advantage. Both North Fondy and Kewaskum won ten games and lost but one, this to each other.

In trimming Oakfield there, 42-20, the Indians were ahead by only two points, 10-8, at the quarter and 20-14 at halftime. But they held the Oaks scoreless in the third period while adding six points to their total. In the final quarter the Mitchellmen walked away from their opponents, netting 16 points to Oakfield's six.

The Oaks tried to play possession type of ball so the Indians turned down free throws in the second half to keep possession themselves. Although Center George Hanrahan was high scorer with 12 points, Guard Elie Hamthun played a great floor game for the co-leaders. Stageman was tops for the Oaks with 10 points. Oakfield was able to get only four offensive rebounds against their taller opponents.

WEEK-END STANDINGS. Kewaskum FG FT PP, Wiertman, f 2 1 1, Meisenheimer, f 4 0 2, Hanrahan, c 5 2 0, Hamthun, g 4 1 2, Bunter, g 4 0 2. OAKFIELD FG FT PP, W. Collier, f 0 0 4, Stageman, f 5 0 3, Ryan, c 3 0 5, Bloohm, g 0 0 2, Guelzow, g 1 1 3, De Witz, g 0 1 0. Kewaskum 10 10 6 16-42, Oakfield 6 6 0 6-20.

Hartford Plays Here in Lakes Tilt Sunday

LAND O' LAKES STANDINGS (Northern Division). Won Lost, Horicon 21 2, Kewaskum 9 2, Mayville 8 3, Cedarburg 6 4, Grafton 6 5, Rosendale 6 5, West Bend 4 7, Hartford 4 8, Waupun 4 8, Campbellsport 0 12. Games this week end—Saturday evening: Horicon at Rosendale, Cedarburg at Mayville; Sunday night: Hartford at Kewaskum, Campbellsport at Grafton, Waupun at West Bend.

The Kewaskum Chevrolets had no game scheduled the past week but will return to play this Sunday night when the team entertains Hartford starting at 8:15. The Chevys defeated Hartford on their home floor in the first meeting between the two clubs.

Kewaskum still is right up at the top of the heap with leading Horicon. Each team has lost only twice but Horicon is a game ahead by virtue of having played two more games to date. The leaders might run into trouble this Saturday night on the troublesome Rosendale floor.

TRI-COUNTY CONFERENCE MEMBERS HOLD MEETING

Members of the Fox River Valley Tri-County conference met Wednesday, Feb. 13, at the Hobnob, Fond du Lac. Inter-school music and athletic competition were discussed. Principals and coaches of North Fond du Lac, Rosendale, Brandon, Campbellsport, Kewaskum, Lomira, Oakfield and Green Lake High schools attended.

Three Persons Hurt in Collision of Two Cars

Three persons were injured Sunday in a two-car collision on county road H at the intersection of the Beas Moraine drive. Suffering minor injuries were Harold Kaib, 24, of Kewaskum; Mrs. Kaib, 26, and Marie Kaib, Jr., age not given. The Kaib auto collided with an auto driven by Arnold Bier, 44, R. 2, Kewaskum. Bier was driving east on H and was going to turn north on Beas Moraine drive when the accident happened. Bier noticed the lights from the Kaib car coming from the east so he stopped in his lane on H to wait for Kaib to go past before turning north. The Kaib car struck the Bier machine in the left front, according to the sheriff's report.

At 9:40 a. m. Wednesday Leonard A. Shaudvitis, 26, and Raymond Scheid, 31, both of R. 3, Campbellsport, were involved in a collision of their vehicles on the east shore of Lake Koshong near Elmore. Shaudvitis was driving a milk truck south and Scheid was driving his car north when the machines sideswiped. Police said that there was a deep ice rut in the road at the time and that it was a contributing factor in the mishap. The milk truck is owned by Heimer and Klein of Kewaskum. The left rear of the truck and the front of the car were damaged.

Badger Firemen to Hold Midwinter Banquet Mar. 9

At a meeting of the officers of the Badger Firemen's association at the Marty Zivko Hotel and Ballroom at Hartford off day last week, arrangements were made for the annual midwinter meeting and banquet, which will be held at Zivko's on Sunday, March 9. The meeting, usually held in January of each year, will be attended by about 200 chiefs, delegates and firemen.

The meeting of chiefs and delegates of the various member fire departments will be held at 2:30 p. m. At 6 p. m. the banquet will be served. A speaker and entertainment has been scheduled for the event. A country style dinner will be served. The change in the meeting date was made in the hope that weather conditions at that time will be more favorable for travel than in January. Nearly all of the members of the Kewaskum fire department plan to attend.

ELLA'S BAKERY TO HAVE OPENING ON SATURDAY

Ella's Bakery, under the management of Mrs. Ella Backhaus, will be open for business this Saturday, Feb. 15, in the Smoley building on Main st. Prizes will be given on opening day. Ella's Bakery will not be a branch of the Campbellsport Bakery as announced previously but her own private business, selling Campbellsport Bakery goods. Bakery hours are from 7:00 a. m. to 5:30 p. m.

BARBER SHOP CLOSED

Victor's Barber Shop will be closed on Wednesday, Feb. 20, until 4 p. m. for the reason that Mr. Victor has an appointment at the Mayo Clinic at Rochester, Minn. and his assistant, Homer Schaub, must serve on jury duty that day. However, the shop will be open after 5 p. m. and in the evening. The barbers ask their customers to bear with them in this unavoidable circumstance.

TEACHER BREAKS ARM

Miss Virginia Zukowski, English and history teacher at the Kewaskum High school, suffered a broken arm in a fall on the ice last Friday.

MAP PLANS FOR RED CROSS DRIVE

West Bend—Making plans for the Lauson, chairman of the 1952 Red Cross fund drive, chapter officers met recently at the office in man, chapter treasurer, and Fred the public library building. Among drive will get underway March 1 in the West Bend chapter area.

Red Cross Drive to Begin in Area Mar. 1; Chairman Named

Appointment of R. G. Lauson, West Bend, to direct the 1952 Red Cross fund campaign in this area has been announced by Fred Holt, chairman of the West Bend chapter. Holt reported that the drive will get underway March 1 and that it is hoped the quota will be reached in about two weeks time. "West Bend chapter area has always been one of the first in Wisconsin to reach its goal and we are hopeful that this year we might set the pace for the entire state," Holt said. He urged that people who are asked to serve in various capacities in the campaign accept their responsibilities for the good of the community, explaining that it will take a lot of hard work by many volunteers to make a complete success of the fund drive.

In accepting the assignment to direct the drive, Chairman Lauson issued an appeal for continued generous support of Red Cross activities in the West Bend area as well as on the national and international scenes.

"Red Cross is all of us, working together to alleviate human suffering, to bring comfort and cheer to the down-trodden, to give new hope to victims of misfortune," Lauson said, adding that the wonderful job Red Cross is doing in Korea, alongside our fighting men, ought to be more than enough to convince most people of the need for generous contributions during the 1952 campaign.

While the national slogan for the drive this year is "Answer The Call," Lauson said that he has his own local slogan—"Don't Give Until It Hurts, Give Until You Feel Good and Are Proud of Your Contribution."

A breakdown of the quota is now being made and it is expected that the total amount to be raised will be announced next week. Meanwhile Lauson is busy contacting potential precinct chairmen and other campaign workers. He said he hopes to have a full slate of sub-chairmen ready for announcement in a week.

Persons who are willing to work during the 1952 fund campaign are urged to call the Red Cross office, phone West Bend 392, to volunteer their services.

PRIZE WINNERS IN SKAT AT LEGION TOURNAMENT

Prize winners at the skat tournament sponsored by Robert G. Romaine Post 384 of the Legion at the clubhouse last Thursday night were:

- 1. John Butzkovits, Kewaskum, 15 games. 2. Wilmer Prost, Kewaskum, 514 points. 3. Alex Yahr, West Bend, heart solo vs. 5. 4. George Heilman, West Bend, 13 games. 5. S. Lang, West Bend, 461 points. The Legion will sponsor another skat tournament next Thursday night, Feb. 21.

SHEEPSHEAD WINNERS

Prize winners at the sheephead tournament at Heister's tavern Monday night were: 1. Leo Plasek, 49-0; 2. Arnold Prost, 26-2-24; 3. Ray Kudek, 26-14-22. Next Monday night, Feb. 18, a skat tourney will be held at Heister's at 8 p. m.

CELEBRATE ANNIVERSARY

Mr. and Mrs. Oscar Griepentrog of near Kohlsville celebrated their 25th wedding anniversary with a dance at the Kewaskum Opera House Saturday night. The celebration was well attended.

# MAIN STREET IN ACTION

## This Community Established a Program For Adult Education in 'Better Living'

About 50 farm families make up the community of Smithfield in Carroll county, Georgia. For years, an aged citizen in this open country neighborhood had a constant and compelling urge to graduate from some kind of school before he died. He had watched his children and grandchildren, his neighbors' children and grandchildren receive their diplomas from high school and college. And each commencement that he attended, intensified his desire to be a participant sometime in one of them.

### A MAIN STREET FEATURE

Then quite suddenly and unexpectedly events took a turn in his favor. Smithfield won a \$50 prize in a community improvement contest. This started the people to thinking and talking about other community projects. So one evening some Smithfield people arranged to meet some friends from West Georgia College and some

members of the Mountain View-Garrett's Chapel Community Improvement Club at a wiener roast. They made plans, as they ate hot dogs, for community improvement. And our graduation-minded old gentleman forked over his long-cherished dream of a community school in which adults might take certain planned courses, and upon the completion of these courses they would receive publicly a certificate of graduation. Each group liked the idea and as a result the "College in the Community" was set up by the farm families of Smithfield with West Georgia College and the Mountain View-Garrett's Chapel Community Improvement Club acting as sponsors.

They opened the school in November with class meetings held every two weeks. While Pop and Mom did the learning, West Georgia College students entertained the children with games, songs and stories. The students in this school chose their teachers from the faculty of West Georgia College. They also set up the curriculum which provided for courses in home planning and remodeling, interior decorating, family relations, health, speech, musical appreciation and church community service.

April was selected as commencement month. To their friends outside Smithfield the graduates sent printed invitations to the graduation exercises. They invited three commencement speakers because they could not decide unanimously on any particular one of the three. Very early on the night of graduation happy families and friends packed the high school auditorium where the exercises were held. With pride and pleasure they watched West Georgia College present to each graduate a roll of ribbon-tied paper which certified that the graduate had "completed a locally planned course of study in COMMUNITY LIVING sponsored jointly by Mountain View-Garrett's Chapel Community Improvement Club and West Georgia College."

What, besides the morale-boosting certificates that ever afterward made them feel they were somebodies that amounted to something, did these graduates get out of their community schooling? If you are asking for evidence of tangible rewards, here's a home a graduate has planned or remodeled; a room he has decorated or redecorated; new picture windows in a living room that once had inadequate sunlight and a scanty view of the outside.

In the realm of the intangible, the graduate will tell you that his classes in musical appreciation, for instance, have kindled his appreciation of the aesthetic, just as his study of interior decorating enriched his life with a new sense of beauty.

"Now," he says, "I have something to think about when I follow the plow."

From his classes in family relations, he learned how to get along better with family and friends. As one student expressed it, "You know you have to love them in spite of being kin to them."

And now that these Community College graduates know a thing or two about this and that, they're not afraid to take a stand on local election issues and other community affairs.

Also they have learned this important fact—that cooperative effort for individual and community benefit is a wise thing and can be both a pleasure and a profit.

Head knowledge is good, but heart knowledge is indispensable. The training of the hands and feet must be added to make a rounded education. We must all learn these days to become spiritual pioneers if we would save the world from chaos.

—E. V. Hammond

QUEEN . . . Pat Matthews, elected "Miss Wings" by Florida aviators.

FLYING CONGRESSMAN . . . Rep. Peter Mack (D. Ill.) landed in San Francisco to complete longest overwater hop on his round-the-world goodwill flight in a single-engine plane. He is standing on wing of plane shaking hands with airport official. He later completed the globe-circling hop in the aircraft without mishap. He described it as a goodwill mission to the places that he touched on the flight.

RIOTING CELEBRANTS . . . Police try to hold back eager crowds scrambling for candy dropped by a helicopter on the square outside the Abdin palace in Cairo during the celebration of the birth of a son to King Farouk and Queen Nour-Eldin. The prince was given the name Ahmed Fuad and given the title of Prince of Said. This occurred while other riots took place in different parts of Egypt in demonstrations for the departure of the British from the land.

LEE UNVEILED AT WEST POINT . . . Hanson Edward Ely III and Ann Carter Lee Ely, great-grandchildren of General Robert E. Lee, admire portrait of the general they have just unveiled at the United States military academy. The general wears the grey uniform of the Confederacy. It is the first portrait of a graduate of the academy in a Confederate uniform to be hung at West Point.

BRITISH MYSTERY PLANE . . . Photographed for first time is the Gloster GA 5, powered by two Armstrong Siddeley jets. It is a radar-equipped all-weather, day and night long-range Delta fighter, claimed by the RAF to be the only plane of its kind. It is better qualified than any other fighter to destroy atom bombers. Its speed, range, armament and radar gear are secret. Its unusual shape answers a design problem for aircraft traveling at sonic speeds.

THREATENING . . . Donald Rankin, Denver, accused of sending booby-trapped sticks of dynamite through the mails to James McCray, Bowling Green, Ohio, points threatening finger at photographer and gets arm ready to swing at camera.

LIBYAN STALWART . . . This proud Cyrenaican soldier represents the well-trained militia that keeps law and order in the world's newest kingdom—Libya. France, England and the United States have military forces in the new nation.

COLD WAR . . . Corporal George Waddington, New Kensington, Pa., is coping with the cold war in Korea by melting snow in his helmet to get washing water. Winter has come to Korea with below-zero temperatures on some parts of front.

CLEAN SWEEP . . . Politicians will resort to any stunt to keep in limelight. Here Senator Joseph McCarthy (R., Wisc.) poses in front of Capitol with broom sent by club in Littlechute, Wisc., for him to clean corruption out of the Capitol.

BIG FISH . . . Boston Red Sox slugger Ted Williams has put aside baseball thoughts or thoughts of his recall to the marine corps to lead the annual Miami fishing tournament with a 19 pound, 11 ounce bonafish caught in Florida.

### Make Baby's Crib From Easy Pattern

ORDINARY hand tools are all that is needed to make this crib. The pattern gives full size tracing designs for the lambs with color directions. Paint directly on the surface or cut out of quarter-inch plywood, then paint and glue on crib and walls or hang at different angles. Everything is complete on pattern 357, price 25c.

WORKSHOP PATTERN SERVICE  
Bedford Hills, New York

### Night Coughing Quickly Relieved by Home Mixture

Saves Big Dollars. No Cooking. This splendid recipe is used by millions because it makes such an effective medicine for coughs due to colds. It's so easy to mix—a child could do it. From any drugstore get 2½ ounces of Pinex, a special compound of proven ingredients, in concentrated form, well-known for its soothing effect on throat and bronchial irritations. Then make a syrup with two cups of granulated sugar and one cup of water. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup. Put the Pinex into a pint bottle and fill up with your syrup. This makes a full pint of cough medicine, very effective and quick-acting, and you get about four times as much for your money. It never spoils, and children love its pleasant taste. This cough syrup takes hold of coughs, giving quick relief. It loosens phlegm, soothes irritated membranes, helps clear air passages. Money refunded if Pinex doesn't please.

FOR EXTRA CONVENIENCE GET NEW READY-MIXED, READY-TO-USE PINEX!

of Main Street and the World

# Hoover Revives the 'Great Debate'; Association Reports on Farm Labor

**GREAT DEBATE**— Ex-President Herbert Hoover, in a major radio and television address, revived the "great debate" and possibly an important issue in the 1952 presidential campaign.

The 77-year-old former chief executive expressed alarm at the "dangerous overstraining of our economy by our gigantic expenditures" and urged reduction in our armies as a way to cut down on spending. Instead of armies, he would have the country concentrate on highly mobile air and sea forces for defense.

In explaining his viewpoint, he said: "The first purpose of this republic must be the defense of this Gibraltar of freedom—that is, the Western hemisphere." Western Europe, he added, must be told that it must provide its own ground armies and that the United States will provide air and sea shields and munitions, all that the country can afford.

For the home towners, who have been gravely concerned about the possibilities of war, the former president had a reassuring comment. There is a lack of alarm in Europe because of a number of reasons. These included the fact the Russians could have conquered Europe before this if they wanted; that the Russians do not want to absorb any more nations now; that the Russians would be hard hurt in an atomic war, and that Stalin's first interests are in Asia at the moment.

Hoover's last major speech was December 20, 1950. In it he criticized the administration's foreign policy and the handling of the Far East conflict. In his latest address he again attacked the Korean situation by saying "we denied ourselves victory" by not bombing Red China and using Chiang Kai-shek's armies.

The "great debate" has been revived and it will become a growing issue as this presidential year progresses. And congress, now considering one of the greatest peace-time budgets in the nation's history, will watch closely for reaction to the former president's speech in the home towns of the nation.

**EGYPT**—King Farouk of Egypt, who is one of the most unpredictable rulers in the world, dismissed the nationalist government that had brought his country and Britain to the verge of war. The action came after Cairo was made the scene of rioting, looting, and destruction of property by anti-British mobs.

The new Premier, Maher Pasha, held the same position early in World War II and is believed to be a little less anti-British than the ousted Premier Mustapha Nahas Pasha. But it was evident that Britain still faced a serious situation in Egypt and the Suez canal zone. The new Premier announced he would continue to press for the evacuation of British troops from Egypt and the unification of Egypt and the Anglo-Egyptian Sudan under Egyptian rule.

Meanwhile, Cairo was put under strict military rule and martial law declared for all of Egypt. At least 35 buildings were destroyed by fire during the rioting and 100 persons killed. Martial law will remain in effect for at least two months, the government announced.

**FARM WASTE**—The National Planning Association, a nonprofit, non-political organization of leaders in industry, agriculture, labor and the professions, reports the productive effort of 2,000,000 farm families in the nation is being wasted.

The association said these families are not producing for a number of reasons, including insufficient land, lack of capital, unsuitable methods, low educational standards, isolation from markets, and "static" community standards.

As for underemployment, the association reported it most pronounced in the cotton South—excluding highly mechanized areas, the southern Appalachian and Ozark mountains, the cut-over lands of Michigan, Wisconsin and Minnesota, the mountainous areas of northern New Mexico and Arizona, and the southern counties of Illinois, Indiana, and Ohio.

**CRISIS AHEAD**—In a report on the government's year-old effort to hold prices and wages in line, government officials report moderate success, but warn of a crisis ahead. Charles E. Wilson, mobilization director, was the official who warned that there is a crisis ahead in the battle against inflation.

Michael V. DiSalle, director of the office of price stabilization, said: "It is gratifying to realize that after a full year the cost of living has been held to a very moderate increase."

And Nathan P. Feinsinger, chairman of the wage stabilization board, said: "I believe it can fairly be said that the control of the movement of wage rates since the establishment of our program is as good if not better than hoped for by experienced and objective observers."

The latest consumer's price index by the Bureau of Labor was 189.1—or 89.1 per cent higher than the average for the 1935-1939 years. That is an increase of 2.9 per cent since February, 1951, when the wage-price freeze was first reflected.

**UMT FIGHT**—One of the great fights shaping up in the present congress is universal military training. Congress has approved UMT in principle, but has not authorized machinery to get it into operation.

One round of that fight took place at a house armed services committee hearing. Chairman Carl Vinson, striking back at critics of the program, denied charges that the program is un-American, anti-Christian, immoral and would lead us to financial chaos.

Said Vinson: "If it is un-American and anti-Christian to defend the greatest Christian nation in the world through a fair, effective and less costly system of military training, then I plead guilty."

He said congress must approve UMT or defeat it and explain to the taxpayers that they must maintain an armed force of millions of men for the next 20 years through operation of the draft.

Many observers believe that Congress may enact a temporary measure this session, delaying action on a permanent measure until the 83rd congress meets.

**ASIA**—There seemed to be a general feeling in Washington and Korea that talks between the Communists and United Nations' delegates is on the verge of collapse. It was because of this feeling military leaders have been meeting to consider what steps should be taken in such an event.

Meanwhile, the United States, Britain and France served plain notice they would call for United Nations action to meet any new Communist attack in southeast Asia.

Russia recently charged that the West has been building up strength along the Burmese and Indochinese frontiers for an attack on Communist China. This, the three powers say, is to cover up for a possible Communist military move in that part of the world.

If nothing else, these charges and countercharges are an indication that trouble is building up in other parts of Asia.

A new experimental lightweight caliber .30 rifle has been developed by Army Ordnance. Weighing about eight pounds, the new rifle is capable of selective semi or full automatic fire from its 20-round magazine. It embodies all of the M1 rifle's combat proved punch, accuracy and reliability plus the fully automatic feature, but weighs 1 3/4 pounds less.

### U. S. NEWSPAPERS

#### Use 60 Per Cent of World's Newsprint

According to the United Nations' 1951 yearbook, the United States used 60 per cent of the world's newsprint in 1950, but was only seventh in circulation.

The highest daily circulation in 1950, in proportion to the population, was recorded in the United Kingdom with 599 copies for each 1,000 inhabitants. Australia had 455 copies a thousand; Luxembourg,

441; Denmark, 414; United States 357, and Switzerland 354.

Those countries which have suffered serious curtailment in newsprint supplies, especially England, have maintained circulations by a drastic reduction in size.

In Burma, India and Iraq there was only a circulation of six copies of daily newspapers per thousand population, the book reported.

Before World War II the United Kingdom was the largest consumer of newsprint, with the United States a close second. In 1950 the figures were reversed with the U.S. using 5,386,000 metric tons, an increase of two-thirds over pre-war consumption. The United Kingdom was second with 653,000 tons, and Canada third with 322,000.

The yearbook reported that more than half of the world's newsprint—outside Russia—was produced in Canada in 1950. Second largest producer was the United States, and third, the United Kingdom.

### Military Training

IT'S a safe bet that congress will not legislate a universal military training program for 18-year-olds during the present session. Probably a "standby" law for future emergencies will be enacted—but that's all.

The proposed UMT bill now before congress would provide for 18 months of basic training, including six months of basic training, for all 18 1/2-year-old youths in peacetime after the present selective service law has expired.

Thus, the UMT program could not be initiated in the foreseeable future, since the present selective service or draft law will not be allowed to expire during the Korean War or during any threatening crisis thereafter.

At a closed-door session of the house armed services committee recently, Chairman Carl Vinson of Georgia tried to put over a Pentagon-approved compromise whereby UMT would be launched on a trial basis with an initial force of 60,000 volunteers.

However, the Georgia congressman pulled in his ears and abandoned the scheme when he couldn't get a single solid backer among his Democratic and Republican colleagues.

Congressman James Patterson (Conn.), Arthur Winstead (Miss.), Walter Norblad (Ore.), Clyde Doyle of California, and others pointed out that it would be impractical and costly to have a token UMT and the draft program operating simultaneously. They also argued there wouldn't be enough seasoned officers to train UMT volunteers unless they were recalled from combat.

### Eisenhower Smears

The smears which President Truman predicted for his friend Dwight Eisenhower have already started—in Maine and California. In the latter state, the so-called "Partisan Republicans," who do not otherwise identify themselves, are circulating copies of a scurrilous sheet accusing Eisenhower of being a stooge for Stalin.

Here are some typical smear quotes: "The Communist party did not officially support Eisenhower for the presidency, but gave him a great ovation and boost at their convention in New York on May 20, 1944. Communists unanimously greeted 'three great men' who were: Joseph Stalin, Marshal Tito and Dwight Eisenhower."

The Soviet gangsters decorated Eisenhower with the Order of Suworov which is given to those who serve the Soviet cause. What service did Eisenhower perform to warrant this great (?) honor? We remember that Roosevelt selected Eisenhower over 335 senior officers. Roosevelt knew that other generals would refuse to perform the pro-Soviet role which Eisenhower so obediently played."

In the last stages of his career as president of Columbia University, Eisenhower again revealed his peculiar pro-Soviet bias. The case in point is the acceptance of \$30,000 subsidy from the Communist government of Poland by Columbia university. This subsidy was donated to further Communism.

Later Maine's Sen. Owen Brewster, a member of the Taft inner circle, got hold of the above smear sheet and helped to have it circulated in Maine.

**Grain Disappears**  
Next scandal to explode into headlines will result from a team of government investigators now trying to trace \$3,800,000 worth of government grain that has mysteriously vanished from southwestern storage bins.

So far the investigators report: 1. Warehousemen have been peddling the taxpayers' grain for their own private profit. 2. Other warehousemen have negligently allowed grain to spoil. 3. At least 43 instances of missing grain still haven't been accounted for.

These findings have been reported to congress by Lindsay Warren's accounting office, which checked the books of the Dallas Commodity office covering the states of Texas, Louisiana, Arkansas, Oklahoma and New Mexico. A copy of this confidential report has been obtained by this column.

"From our examination to date," the report declares, "it appears obvious that even a conservative estimate of shortages in grain alone, would exceed \$3,800,000."

### Forced Action

Though "shortages were known to have existed in early 1951," the report complains that "action in regard to the known irregularities has had to be literally forced on the commodity office. Even after the situation had deteriorated to the extent where prominent grain operators in this area were demanding corrective action to protect the trade, the responsible administrative officials continued action on their part was unnecessary."

"It was not until November and December that any of the cases were referred to the solicitor's office," the report adds.

Just before his speech to congress, British Prime Minister Winston Churchill took time out to sign autographs for three comely capitol secretaries. "For a man of his years, I'd say he was still quite a blade with the women," remarked house GOP Leader Joe Martin of Massachusetts. . . Besides being the only Korean War vet in Congress, Young Rep. Al Sieminski of New Jersey won the Bronze Star.

TRUMAN EXPLAINS . . . "Now this is how it works." President Harry Truman appears to be saying to Frederick J. Lawton, Director of the Bureau of the Budget, as they look over a chart showing the allocation of the tax dollar. Chart represents the estimated figures for fiscal year 1953.

### MIRROR OF YOUR MIND

Do young girls need to have "secrets"? The American Heart Association has developed "work classification units" in which you may find out, on the basis of medical diagnosis, for what and how much work you are fitted and where such work may be found. If there is a heart association in your city, find out if it how you can acquire a new interest in life.

**Answer:** Yes, writes Dr. Helene Deutsch in "The Psychology of Women." The typical girl of twelve or thereabouts finds another girl of her own age "with whom she giggles and titters, with whom she locks herself up in her room and to whom she confides her 'secrets.'" These are not especially important in themselves—what matters is that they are things which grown-ups, and especially her mother, don't know. The urge to have secrets is an effort to get even for all that the child feels was kept secret from her—for instance, the fact that mother was expecting a new baby—as well as a step toward independence.

**Can "preference tests" be faked?**  
**Answer:** Yes, says psychologist Orrin H. Cross of the University of Alabama. These tests—which attempt to show the sort of person you are and which are used by prospective employers—can be easily faked by anyone who wants to do so. The high and low scoring individuals in a group of high school students who had taken one of these tests were told to repeat it and to "fake" an interest in the opposite direction from their real one, and a similar experiment was made with college students. The results show that if an applicant knows what kind of job he is being tested for, he can easily fake his answers if he pleases.

**Must "heart trouble" keep you idle?**  
**Answer:** Probably not. According to Dr. Theodore G. Klumpff of the Office of Defense Mobilization, the nation's defense needs will require the employment of a million and a half more "handicapped" workers, and many of these may be sufferers from "heart disease" in one form or another. To meet this demand,

### KEEPING HEALTHY

## Antabuse Helps Alcoholic Recover

By Dr. James W. Barton

MOST RESEARCH WORKERS on alcoholism believe that the method used by Alcoholics Anonymous to cure the patient is the best method, because the alcoholic admits his need of help and prays daily for it. There are some alcoholics who will not admit this need and stumble along as periodic drinkers. It is in these cases that the drug antabuse may be effective because antabuse gives the alcoholic chemical insurance against taking that first drink—the drink that may lead to a disastrous binge. Thus, antabuse builds a chemical fence around the alcoholic.

At a meeting held under the auspices of the New York medical committee on alcoholism, the manufacturers of antabuse in this country reported that the drug has been tested in more than 100 clinics in the United States and Canada by more than 800 qualified physicians and with more than 5,000 patients. "Using antabuse, 50 per cent of these alcoholics have achieved permanent abstinence; another 25 per cent made basic improvement, the condition necessary for rehabilitation."

Antabuse compels the patient to remain sober as long as he continues to take the drug. The very fact that the alcoholic takes the drug shows that he wants to be cured. Since he takes antabuse and thus remains sober, the doctor has his real chance to discuss the matter with the patient and learn his problems. "Excessive drinking is always a symptom of some underlying disturbance which may be medical or social or emotional or, more often, all three combined."

Having stopped the drinking, it can be learned why the patient started to drink excessively in the first place. "This can be deep psychoanalysis, psycho or emotional treatment, group treatment, medical rehabilitation, and a firm contact with Alcoholics Anonymous."

Antabuse is a small white tablet taken by mouth.

### HEALTH NOTES

- Electroencephalograph tracings enable the physician to diagnose epilepsy.
- Meat or other protein must be eaten every day if the strength of the body tissues is to be maintained.
- Many old persons fail to drink milk because these persons grew up when the value of milk was not appreciated.
- When there is underactivity of the gonads in the female, excess fat is greater in the hips and thighs than elsewhere.
- When a metabolism test shows that the thyroid gland is underactive, thyroid extract may be given with excellent results.
- The draggy feeling caused by an overloaded colon is caused not only by the wastes or poisons in the colon but also by the stretching or pulling of its nerves.
- Diabetes is the only chronic disease for which there is a known control—insulin.
- Tonsils should be removed when there is recurrent swellings of the glands of the neck.
- The chief causes of arthritis are injury, exposure, infection, and disorders of the glands and of the circulation of the blood.
- In treatment of overweight the use of rigid diets, thyroid extract and amphetamine may be illogical and dangerous.
- Allergy to certain foods is the most common source of migraine headaches, but allergic substances in the air are also causes.
- The idea that abrupt withdrawal of drugs and alcohol brings delirium is not true. In delirium caused by drugs, it is advisable to discontinue the drug abruptly.

### Cold Frame Is Still Best Garden Helper

#### Most Valuable Space In Any Garden Area

The most valuable 18 square feet in any garden area is that which is covered with a cold frame. And the smaller the garden, the more rewarding will be this ancient device.

It began as a pit, some thousands of years ago. Today it's an enclosure, partly below ground, with a protective covering which admits daylight.

Anyone who can drive a nail, and operate a saw, can build a cold frame. The boards can be cut in the basement or garage, and put together in a short time as soon as possible to work outdoors.

The above illustration is a practical working-drawing of a standard one-sash cold frame. Standard glazed sash is 3 by 6 feet; but a frame can be made of any convenient dimensions, if sash of a

suitable size is available. Sash covered with transparent plastic materials will be much lighter than glazed-sash, and also will allow ultra-violet rays to pass through to the plants.

The usual practice is to sink the frame into the ground about six inches, and to pile earth around it outside, for insulation. Inside it may be filled to ground level with the best top soil available, or the floor may be covered with two or three inches of cinders or gravel, on which shallow seed boxes (flats) are placed.

### Higher Production Is Goal of U.S. Farmers

Again American farmers are being called on to turn out high yields of food, feeds and fibers. The production goals recently announced by the Department of Agriculture for 1952 anticipate a total production of 4 per cent higher than the record production of 1951 and 50 per cent more than the prewar average from 1935 to 1939.

This production is being asked although farmers will have about 200,000 fewer farm workers available in 1952. During 1951, 400,000 workers left the farms. About 80 per cent went to work in other industries. Armed forces took the other 20 per cent.

Production at the goal level will require increased yields per acre in all major crops, and selective acreage expansion in those most needed to insure our economic stability in these pressing times.

The task for farmers is made more difficult because their need for fertilizers will be far greater than the supply. At the same time farm machinery production in 1952 will be considerably less than farmers desire.

The Department of Agriculture will do all it can to offset these shortages, but such scarcities are a warning signal to the American farmer.

### Easier Loading

A farmer handy with tools can make a drop-side to his wagon or truck as illustrated above with a few pieces of scrap iron and a length of pipe. It will save considerable trouble loading and unloading, especially when the truck is pulled close to a loading platform.

### Essentials for Ideal Farm Life Are Listed

An Oregon rural life committee, after a statewide survey, came up with the following nine essentials for the "ideal" farm home: (1) Adequate income, (2) time to enjoy life, (3) a family goal, (4) family love and understanding, (5) religious education and spiritual values, (6) parental recognition of opportunity, (7) ability to build character in children, (8) evaluation of ideals, and (9) belief in family.

### Chemical Treatment Of Fence Posts Pays

Horticulturists report that by treating posts with penta (pentachlorophenol) you can extend a fence post's normal life span in the ground from less than five years to 15 or more. Here's how to treat them. Soak them for about two days in a large oil drum (50 or 100 gallons) filled with a 5 per cent solution of penta in fuel oil. After drying, set them in the field. It costs about 18 or 20 cents apiece.

**Canned Ham**  
Canned hams can come to the rescue when you plan to serve many guests. Although they cost more in the beginning there is less waste. And since they are precooked, the baking time is cut to about one and one-half hours, depending upon the size.

**Linoleum**  
If you clean your linoleum floor with a long-handled sponge mop, you know how annoying it is to bend over to clean spots that the mop won't touch. Here's a easier way—dust baking soda on the spot. Soda can't scratch linoleum so you can be liberal. Then scrub with the damp mop and the spot is gone.

### How To Relieve Bronchitis

Cremulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial membranes. Guaranteed to please you or money refunded. Cremulsion has stood the test of millions of users.

### CREMULSION

RELIEVES Coughs, Chest Colds, Acute Bronchitis

**EAT ANYTHING WITH FALSE TEETH!**  
If you have trouble with plates that slip, rock, cause sore gums—try Brimms Plasti-Liner. One application makes plates fit snugly without powder or paste, because Brimms Plasti-Liner hardens permanently to your plate. Relines and refits loose plates in a way no powder or paste can do. Even old dentures get new lease on life—lasting six months to a year or longer. YOU CAN EAT ANYTHING! Simply lay a 1/2" strip of Plasti-Liner on troublesome upper or lower. Bite and it molds perfectly. Easy to use, tasteless, odorless, harmless to you and your plates. Removable as directed. Money back if not completely satisfied. Ask your dentist.

### BRIMMS PLASTI-LINER

THE PERMANENT DENTURE RELINER

### FEEL AWFUL?

**DUE TO COLD MISERIES** gives fast symptomatic **666 RELIEF**

**HE SAYS ORA DENTURE CLEANSER IS BEST!**

"Since using ORA my denture is always clean and sparkling," says Max N. Serick, Portland, Me.

**DENTISTS PRAISE ORA**

In a survey, an overwhelming majority of dentists praised this marvelous new cleanser. No harmful brushing that can ruin dentures. Just place in ORA solution for 15 minutes or overnight. Removes tobacco stains. ORA is guaranteed not to harm dentures. Get ORA today. All druggists. A Product of McKesson & Robbins, Inc.

Child's Mild MUSTEROLE is made especially for kiddies to promptly relieve coughs, sore throat and break up local congestion of chest colds. ORA creates a sensation of protective warming on chest, throat and back, bringing soothing relief!

### Child's Mild MUSTEROLE

It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE - NOT GOOD FOOD

Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon—right in the stomach. Where food is being digested. Large doses of such laxatives upset digestion. Flush away nourishing food you need for health and energy. You feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowels where it removes mostly waste, not good food! You avoid that typical weak, tired, run-down feeling. Use FEEN-A-MINT and feel your "peppy," energetic self—full of life! Get FEEN-A-MINT! No increase in price—still 25¢, 50¢ or 10¢.

### FEEN-A-MINT FAMOUS CHEWING-GUM LAXATIVE

TO KILL Chicken Lice AND Mites

Apply Black Leaf 40 to roosts with handy Cap Brush. Fumes rise, killing lice and feather mites, while chickens perch. One ounce treats 60 feet of roosts—80 chickens. Directions on package. Ask for Black Leaf 40, the dependable insecticide of many uses. Tobacco Products Chemical Corporation, Richmond, Virginia

## Will Observe Brotherhood Week in County Feb. 17-24

What is this National Conference of Christians and Jews? It is a nationwide organization for the propagation and promotion of the spirit of brotherhood among all the people of the United States regardless of creed, color or nationality. As in other communities, Brotherhood Week will be observed in Washington county from February 17 to February 24. Every church and church organization, every service group, all farm organizations and labor organizations and all schools as well as the two radio stations are going to participate in this program. The newspapers will do their part, of course.

The responses to the appeals of the committee have been generous and effective. We appeal to our readers to join in the spirit of brotherhood to make this week a memorable one and to make it easier for everyone throughout the year and the years to come to adhere to the sound fundamental principles of brotherhood.

**NOTICE TO CONTRACTORS**  
Sealed bids will be accepted no later than 2 p. m., March 2nd, 1952 by the Village of Kewaskum, Washington County, Wisconsin, for the construction of approximately three thousand (3000) lineal feet of concrete sidewalk, curb and gutter. Specifications may be obtained at the office of the Village Commissioner. The Board reserves the right to accept or reject any or all bids.  
Village Commissioner,  
2-15-5  
William S. Martin

The Wisconsin State Historical Society, with headquarters at the University of Wisconsin, now has 15,709 junior members scattered throughout the state.

## County Agent Notes

(E. E. Skalsky, County Agent)  
**COMMERCIAL FERTILIZER AND SOILS MEETING AT ROCKFIELD**

The production goals made public recently ask for the biggest farm production ever requested by the United States Department of Agriculture.

A farmers' meeting to be held at 1:30 p. m. on Tuesday, Feb. 19, at Rockfield Inn, Rockfield, will offer you many suggestions for getting the big farm production wanted.

The speakers will be: C. J. Chapman, soil and commercial fertilizer specialist of the College of Agriculture, who will speak on 'What's New in the Use of Fertilizer,' and O. R. Zeaman, soil and water conservation specialist of the college. His talk will tell how farmers can best conserve the soil and the soil moisture.

A number of good attendance prizes will be donated by the Washington County Co-op Farm Supply of Rockfield. Drawing for the first prize will be at 1:30 o'clock.

## ANNUAL MEETING OF FRUIT GROWERS AT JACKSON MAR. 4

The annual meeting of the Washington County Fruit Growers association will be held on Tuesday, March 4. The program is scheduled to get underway at 10:00 o'clock a. m. and will continue into the afternoon. Colored films showing commercial orchard practices in larger eastern orchards will be shown to supplement the speaking program. A more complete announcement of the program to be presented will be published at a later date.

## STATE'S SECOND MARKET HOG SHOW AND CARCASS CONTEST

The 2nd Wisconsin Spring Market Hog show and Carcass contest will be held in the coliseum, State Fair park, West Allis, on Friday and Saturday, March 14 and 15. Entries will be received in the following divisions:

Junior Division—\$100.00 in premiums.

Open division, showing by breeds—\$1600.00.

Carcass Contest—Ribbons and \$250.00 in premiums.

Truckload of 10 Hogs—\$250.00 in premiums.

Feeder Pig Class, 20-50 lbs.—\$25.00 in premiums.

All hogs entered in the show, except in the feeder pig division, must be sold. The public is invited to see the show which will be of interest to producer and consumer.

Any one desiring a premium book and entry form should write to D. R. Williams, Stock Pavilion, Madison 6, Wisconsin.

## 14TH ANNUAL ADA MEETING AT MADISON FEB. 19 AND 20

The 14th annual meeting of the American Dairy Association of Wisconsin will be held at the Hotel Loraine, Madison, on Feb. 19 and 20. An invitation to attend is extended to all dairy farmers of the state.

The meeting will open with a noon luncheon on Tuesday, Feb. 19, and close on the afternoon of Wednesday, Feb. 20. Among those to speak during the two day meeting are Norman Myrick, editor of American Milk Review, New York City; Don Anderson, deputy director, dairy division, P & M; H. D. Scott, Research Foundation, Madison, and other well known in the field of dairy marketing. The banquet will be on Tuesday evening.

## POST OFFICE CLOSED

On Friday, Feb. 22, in observance of Washington's birthday the post office will be closed at 9 a. m. There will be no window service after that time.

There will also be no money orders issued and no rural delivery. First class mail will be dispatched and the lobby will remain open all day.

Frank Heppie, Postmaster

## on Monday, Feb. 18, at 12:30 P. M.

On the premises known as the Paul Halfmann farm, 1 1/2 miles northwest of Campbellport; watch for auction arrows on 47 and county trunk "V" and "Y" denoting way to sale.

**LIVESTOCK**—20 head of high grade and registered cattle, consisting of 13 milch cows, of which one is a pure-bred registered Holstein cow; some fresh with calf by side, some springing, balance due later; 2 18-month-old Holstein heifers, open; 18-month-old pure-bred Holstein bull, 3 month old heifer calf, bull calf. Cattle tested for Bang's and TB; 2 Sheppard puppies, 100 White Leghorn laying hens.

**MACHINERY**—McCormick-Deering H tractor on rubber, with starter and lights, and cultivating attachment; new Gehl chopper with continental motor, complete with hay and corn attachments; new chopper wagon with Gehl rack, electric unloading device, new Massey-Harris blower used only one season, McCormick-Deering 5 foot combine

## BOLTONVILLE BUSY BEAVERS 4-H CLUB NEWS

Gordon Wolfgram, Boy Scout leader, and four scouts from Troop 22, Kenneth Dressel, Gordon Schloemer, Stephen Anderson, and Jimmy Marsden told the Boltonville busy Beavers 4-H club how Boy Scouting helps them to become good citizens at the regular monthly meeting, Monday evening, Feb. 11, at the MW lodge rooms.

The Boy Scouts cited their laws, gave the history of scouting, and told how their troops function. They showed the 4-H members how to tie a square knot, sheep bend, pipe hitch, bowline, two half hitches, timber hitch, miller's knot, and the sheepshank.

'Leave It to Tim' a radio skit on the prevention of accidents was presented by Arlene Staehler, Kenneth and Mary Ann Stahl, Douglas Wierman, with Evelyn Staehler as narrator. A father's accident while vacation packing arrested the family to the need for greater safety in the home.

Miss Elsie L. A. Dauer, Germany, who will make her home in America, told the Boy Scouts and 4-H members of her interesting experiences in England and Germany.

Carol Belger showed how to make a bleeding heart centerpiece with apples, pipe cleaner, and small red valentines. Carol Heffey, Evelyn and Arlene Stahl, Irene Enright, Mary Degner, Margt Weiss, Mary Ann Stahl, Eileen Laatsch favored the club with the song, 'The Wedding of Jack and Jill.'

The 'Happy Birthday' song will be sung for Kenneth Kohl and Elmer Belger over WBKV on the morning of Feb. 20, Kenneth's Feb. 17.

It was reported that the club won third prize at the Boltonville masquerade on Sunday evening. Mrs. John Youngbauer has volunteered to be the sewing project leader.

The window display for the week of March 1-9 for National 4-H week will be in charge of Myrna Laatsch and Norbert Dettmann, co-chairmen. Others who volunteered to assist on the committee are Marilyn and Eileen Laatsch, Kathleen Degner, Rose Mary Staehler, and Roger Zettler.

The next meeting will be held March 12 with Carol Riley and Evelyn Staehler in charge of refreshments.

A delicious lunch was served by the committee of fruit jello and val cakes decorated by Mrs. Ervin Degner to the guests and club members.

## New Prospect

Mr. and Mrs. Frank Bowen, in company with Mr. and Mrs. Jerome Bowen and family spent Sunday evening at the home of Dr. and Mrs. Alex Ulrich in Plymouth.

Mr. and Mrs. George H. Meyer and Edith visited Mr. and Mrs. Leo Ketter and sons near Campbellport Sunday afternoon.

Mr. and Mrs. Marvin Grams and children of Sheboygan visited Mr. and Mrs. Walter Jandre Sunday afternoon.

Mr. and Mrs. Frank Klostermann motored to Milwaukee Monday.

On Friday Mr. and Mrs. Koch of Pewaukee, who recently returned from a trip to Germany and other foreign countries, visited Mr. and Mrs. Walter Jandre.

Hereafter, veterans who have served since June 27, 1950, and apply for dental out-patient treatment from the VA will be given a dental examination if they apply within one year of their separation from service, it was said this week by J. P. Cullen, manager.

This is to insure that the VA will have a record of their dental disabilities existing within a year of their separation. This record will then be considered when their claim for service connected dental disabilities is rated.

This is similar to the rights given to World War II veterans.

Out-patient dental treatment at government expense is available to veterans in need of treatment for service-connected dental disabilities. Cullen said that if treatment is approved, veterans may be treated in a VA clinic or by a fee-basis dentist in the veteran's home town.

The 12th annual Milwaukee Sentinel Sports show, including boat and trailer shows opens Saturday at the Milwaukee arena and auditorium. The Sports Show continues through Sunday, Feb. 24.

## THE SIX LEADING CAUSES OF DEATH IN THE UNITED STATES 1950

## National Survey Shows Heart Disease Tops All

According to the American Heart Association, heart and blood vessel diseases are by far the most serious threat to our nation's life and health. Mortality figures compiled by the National Office of Vital Statistics show that heart diseases are responsible for more deaths than the next five leading causes combined.

Despite great advances in the prevention of some forms of heart disease and new techniques in the treatment of others, it was pointed out, deaths due to heart and circulation diseases are on the rise—largely because of advances in other fields of medicine that lengthen the life span to the ages where heart diseases are most common.

However, heart diseases are not respecters of the young. Next to accidents they were responsible for more deaths in the 5 to 19-year age group than any other cause. Only in the 20 to 34-year group does any other disease—tuberculosis—strike down more persons.

From 35 to 54, heart diseases cause 26.7 per cent of all deaths, according to latest available figures.

In the 55 to 74-year group, the percentage runs up to 52.1, and above 74 years heart and circulation diseases account for 60 per cent of all deaths.

Figures for cause of death in 1950, latest available statistics, were: 745,000 heart and circulation diseases; 209,000 cancer; 88,000 pneumonia; 47,000 tuberculosis; 29,000 nephritis. Heart diseases caused more deaths than the next five leading causes combined—44 per cent of the total for all causes.

Nevertheless, there is a bright side to the picture. Recent advances, according to the American Heart Association, in the diagnosis, treatment and prevention of heart diseases are creating "new hope for hearts." The AHA and its affiliates are attacking the heart diseases with a nationwide program of research, education and community services.

The 1952 Heart Fund, conducted throughout the month of February, is seeking the finances needed to carry forward this vital program. In every section of the country, Americans are being asked to join the fight against heart disease by contributing to the 1952 Heart Fund.

HERE'S WHAT WE MEAN WHEN WE SAY . . .

## MODERN WIRING

Today, most Americans depend on electricity for refrigeration, cooking, cleaning, entertaining, lighting and many other modern comforts. And yet, many homes have old-fashioned wiring systems installed many years ago when practically the only job for electricity was lighting. Here's what we mean by modern wiring!

**MODERN SERVICE ENTRANCE**

A modern electric service entrance means that the wires coming into your home are large enough to handle your present and future electrical needs. A service entrance always has three wires. The size of the wires required depends upon the size of your home and the amount of electrical equipment you use. For example, the average home of 1,000 to 1,500 square feet should have a service entrance consisting of 3 No. 4 wires.

**PLENTY OF CIRCUITS**

Branch circuits carry electricity from the Service Entrance to all the lights and appliances. If there are not enough circuits or if the wires are too small, power is wasted through useless heating of the wire. Then lights grow dim and appliances do not operate at their best efficiency. That's why a modern wiring system must have enough circuits. The average modern home should have at least 8 circuits.

**PLENTY OF OUTLETS**

A modern wiring system has plenty of convenience outlets. They should be placed at the proper locations to permit convenient and efficient use of appliances, radios and portable lamps, regardless of changes in furniture arrangement and without resort to unsightly tangles of extension cords. For example, a modern living room should have outlets spaced so that no point along the floor line of usable wall space is more than 6 feet from an outlet.

ASK YOUR LOCAL WIRING CONTRACTOR FOR AN ESTIMATE ON MODERNIZING YOUR WIRING

Guests were also entertained in the evening at the Ramel home.

—Sgt. Walter Klug, grandson of Mr. and Mrs. Walter Klug of this village, and his bride, the former Phyllis Ann Tice, both of Topeka, Kansas, are spending their honeymoon with relatives in Batavia and Kewaskum. The couple was married on Jan. 20. Mrs. Walter Klug gave a bridal shower in honor of the bride at her home last Wednesday evening. Sgt. Klug is stationed at Forbes Air Force Base, Topeka.

**A VALENTINE EDITORIAL**

**Hearts & Pocketbooks**

Traditionally, Saint Valentine's Day has been the symbol of love and lyricism. The early Roman martyrs whose memory we celebrate have been lost in a welter of romantic notion surrounding February 14th, not the least of which was the Medieval belief that on this day the birds began to mate. Since those days the date has become an occasion for a profusion of verse, flowers, candy and lavender hearts pierced and pinned together forever by obese little Cupids' arrows.

No matter what the origin of the festival, by chance or design the American Heart Association and its affiliate here, have chosen the date as the mid-point of its annual February appeal—the Heart Fund. It reminds all persons to think of heart problems and face some serious facts.

In 1950, latest year for available statistics, 745,440 Americans died of heart or circulatory system diseases. This toll is almost double that of cancer (208,930), accidents (88,130), pneumonia (46,700), tuberculosis (34,100) and nephritis (28,540)—all added together (406,400). How many persons have been restricted in their activity or completely bedridden is unknown, but there is hardly an adult who has not seen the effects of heart diseases upon his family, friends or associates.

This sobering recital is printed here to allay, not create, panic. The affiliated American Heart associations have attacked this problem at its roots. Through research they are attempting to find the causes and cures for heart and circulatory ills. Through education they are spreading newly acquired information about the diseases to the professions most affected and to the general public. Through service they are continually correlating activities of existing agencies that can be helpful to sufferers of these diseases.

However, research—main key to the problem—is a slow and costly process. Thousands of clues must be pursued, very often without profit. Thousands of skilled scientists must be utilized, valuable equipment constructed. On this, Saint Valentine's Day, some of the symbolism of the occasion could well be translated into action by making a contribution to help our hearts and the hearts of our loved ones.

**RURAL ART SHOW NOW ON; MISS MOHME ON COMMITTEE**

The Seventh Eastern Rural Art show is now taking place at the Sheboygan County Normal school, Sheboygan Falls. If you have a chance, visit the art show and see the exhibits from Manitowoc, Calumet, Fond du Lac, Washington, Ozaukee, Milwaukee and Sheboygan county rural artists.

The one-day art school will be held from 10:00 a. m. to 3:45 p. m. on Saturday, Feb. 16. At that time, you may watch demonstrations or hear lectures on painting techniques.

L. O. Tetzlaff, principal of the Sheboygan County Normal school, is chairman of the art show. Miss Gertrude Mohme of the County Normal school, a former Kewaskum resident, is chairman of the entry committee. They are being assisted by members of the Sheboygan County Extension Office, Superintendent of Schools office, and Peter Lorier, a rural artist residing in Sheboygan county.

The following were to Milwaukee on Sunday to honor Mrs. Lena Selig on her birthday anniversary: Mrs. Arthur Koch, Mr. and Mrs. August Koch, Terry and Barbara, Mrs. Ervin Koch, Mr. and Mrs. Kilian Honeck, Jr., and Beth, Lynn and Jane, Mr. and Mrs. Willard Bartelt and Tommy.

**Marvin Martin on Reuss for Senate Committee**

Six Washington county residents have accepted membership on the steering committee of the "Reuss for U. S. Senate Committee." They are: County Chairman of the Democratic Party, Thomas O'Meara; Ben Helting, and County DOC Chairman Clyde Schloemer, all of West Bend; Norma Kirchner, Barton; John Gahlman, Hartford, and Marvin Martin, Kewaskum.

More than 400 Wisconsinites from all 71 counties in the state are now members of the steering group which

will aid Henry S. Reuss (rhymes with choice) in his campaign for the United States senate seat now held by Joseph McCarthy. The group will develop strategy, aid in membership plans, and generally help Reuss' campaign in their own areas.

Included in the 400 names are Democratic party officers in 51 Wisconsin

counties; the remaining counties are represented by rank and file voters of the Democratic and Republican parties and some people classifying themselves as independents. Robert W. Landry, state assemblyman from Milwaukee, is chairman of the Reuss group.

Reuss, 39 year old Milwaukee attorney, announced his candidacy on Nov. 8, and has been conducting an active race ever since. He has traveled over 10,000 miles in the state, and has averaged a speech a day for the past 90 days.

In announcing his candidacy, Reuss proclaimed "...from now on it's either me or McCarthy." Reuss has promised a forceful campaign, basing his platform on peace, prosperity, and honesty in government; plus development of an effective method of fighting communism without the smear tactics of "McCarthyism."

Reuss is the only candidate for the Democratic nomination.

Farm production costs will be higher in 1952 than in any other year, I. F. Hall, farm economist at the University of Wisconsin expects costs to be about five per cent above 1951. And in 1951 costs were 12 per cent above 1950.

**Team Pancakes with Rosy Scrambled Eggs**  
(See Recipes Below)

- Serve Pancakes**
- STACK THEM FOR breakfast, luncheon, dinner or supper - pancakes, of course! These versatile cakes, made thick or thin according to your taste will go to any meal.
  - Make them plain for the morning and serve with breakfast meats, plenty of syrup.
  - Then, if you like pancakes as a main dish, add eggs or meat to the menu to serve as an accompaniment.
  - With very sweet sauces, whipped cream, confectioners' sugar, berries or fruit or jelly, pancakes make a lovely but simple dessert.
  - Have your griddle so hot that drops of water will skip around on it. It takes only a few seconds to brown one side of the cake and have it puffy and full of bubbles when the griddle's properly heated. Before the bubbles break, turn the pancakes. If you want them light.
  - Pancakes are easily made thick or thin by adjusting the liquid in the batter. Have them to your taste!

Here's a dish that goes to breakfast, luncheon, supper or snack with equal ease:

**Pancakes, Rosy Scrambled Eggs**  
(Serves 7-8)

**Pancakes**  
2 cups pancake ready-mix  
2 cups milk

**Scrambled Eggs:**  
6 eggs  
2 teaspoons salt  
1/2 teaspoon pepper  
2 tablespoons butter or substitute  
1 1/2 cups well drained, canned whole tomatoes

Add milk to unsifted ready-mix all at once and stir lightly. Somewhat lumpy batter makes light, fluffy cakes. Pour 1/4 cup batter for each pancake onto a hot, lightly-greased griddle. Bake to a golden brown, turning once. Keep pancakes hot in the oven while making scrambled eggs.

To make scrambled eggs, beat eggs, salt and pepper with a rotary egg beater until foamy. Melt butter in frying pan; add eggs and cook over low heat until eggs are thickened but still moist. Cut tomatoes in wedges and fold into eggs.

To serve, put two pancakes together sandwich fashion with scrambled eggs between and over the top.

Here are pancakes that are served with sausage, but this is a bit unusual for the sausage is used for a spicy sauce which is spooned between the pancakes.

**Spicy Meat-Filled Pancakes**  
(Makes 14-16 Pancakes)

**Sauce:**  
1 pound pork sausage meat  
1/2 cup chopped onion  
1/2 cup chopped celery  
1 tablespoon flour  
1 cup tomato juice  
1 teaspoon salt  
1 tablespoon brown sugar

**Pancakes:**  
2 cups pancake ready-mix  
2 cups milk

To make sauce, brown pork sausage meat slowly; pour off fat. Add

vegetables to meat and brown lightly. Stir in flour. Add remaining ingredients and combine thoroughly. Cover and cook slowly for one-half hour.

For pancakes, add milk to ready-mix all at once and stir lightly. Bake on lightly greased griddle, using 1/4 cup batter for each cake, turning only once. Put two or three pancakes together with sauce between and over them.

Those who like old-fashioned buckwheat cakes for breakfast will enjoy these which can be set in the evening for rising overnight. Since the recipe makes a large quantity, all the batter need not be used at once, but may be kept in a cool place.

**Buckwheat Cakes**  
(Makes 24 cakes)

1 cake compressed or 1 package dry yeast  
3 tablespoons molasses  
2 1/4 cups lukewarm water  
1 cup milk  
1 1/2 teaspoons salt  
2 cups buckwheat flour  
1 cup sifted white flour

Dissolve yeast in lukewarm water; when thoroughly dissolved, add molasses, salt and milk, add -it and cool to lukewarm. Add yeast, then stir in buckwheat and white flour gradually. Beat until smooth. Cover and let rise in a warm place overnight. Stir down and bake on hot, greased griddle. If some batter is kept for later use, add to it 1/2 teaspoon soda before using.

Pancakes for dessert should be small and thin. You'll want to use several for each serving, of course. Here's a recipe that makes them thin, tender and delicious:

**Dessert Pancakes**  
(Makes 30 3-inch cakes)

1 cup milk  
2 tablespoons butter  
2 eggs, beaten  
1/2 cup sifted flour  
1 teaspoon baking powder  
1/2 teaspoon salt

Heat together milk and butter in a saucepan. When slightly cooled, beat in eggs, flour, baking powder and salt. Beat until smooth. Bake in a small skillet, pouring some batter in lightly greased pan and tilting to cover the bottom evenly. Cook for one minute, then turn and cook other side until lightly browned. These pancakes may have to be turned several times to brown them evenly.

**Honey Sauce for Pancakes**  
(Makes 1 1/2 cups)

1 cup strained honey  
1/2 cup maple syrup  
1 teaspoon cinnamon

Mix together honey and syrup in top of double boiler. When thoroughly heated, remove from fire and blend in cinnamon. Serve hot over dessert pancakes.

Custards will not be so watery if they're baked in a pan of water which will help keep the baking temperature more moderate.

If you want cakes and breads to rise well, do not grease the sides of the pan in which they're being baked.

Freshen your muffins, biscuits and rolls in the oven by placing them in one pan which is then placed in a pan of water and let heat through. The steam from the water will prevent them from drying too much.

Never try to clean spilled juices or drippings from an oven while they are still liquid. Sprinkle salt to prevent burning and let crust. They're easy to clean out.

Try this on your next batch of baking powder biscuits for more flakiness; roll dough thinner and use two rounds of dough in place of one for each biscuit.

For custard pies that aren't the least bit soggy, bake crust by itself and then the custard in a pan exactly the same as the crust. When both are cooled, loosen custard and slip carefully onto the piecrust.

**KIDNEYS MUST REMOVE EXCESS WASTE**  
When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts. If reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 60 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

**DOAN'S PILLS**  
**Stops Laxatives**  
regains youthful regularity

"For thirty years, I took so many kinds of pills and laxatives to relieve constipation. Since I started eating ALL-BRAN every day, those troubles are over," says busy Bethany Mo. woman. If you, too, suffer from irregularity due to lack of dietary bulk, try toasty ALL-BRAN. It's helped thousands to regain youthful regularity. Rich in iron, high in cereal protein, provides essential B and D vitamins. Not habit-forming. It's the only type ready-to-eat cereal that supplies all the bulk you may need. Eat 1/2 cup every day; drink plenty of liquids. If you're not completely satisfied after 10 days send empty carton to Kellogg's, Battle Creek, Mich., and get DOUBLE YOUR MONEY BACK!

**a little safety is good for life**

LIFE SAVING

Improved Artificial Respiration Method Is Adopted by Red Cross

An improved method of artificial respiration, known as the back-pressure arm-lift has been adopted by the American National Red Cross...

To start the cycle the operator places his hands on the victim's back so that the thumbs just touch and the heels of the hands are just below a line running between the armpits as illustrated above.

Star Dust STAGE SCREEN RADIO

MARIE WILSON, of CBS Radio's "My Friend Irma", is so obliging that press agents adore her; no matter what kind of stunt they whip up for her she cooperates.

MARIE WILSON

phone in with a pledge of a nice, high donation, but the old school friend who'd lost track of her.

Ursula Theiss, German actress who was signed by Howard Hughes after he saw her picture, spent four months here learning English, then was sent to India to make "Monsoon."

ODDS AND ENDS . . . TV conscious ministers from Alaska, Holland, the Philippines, Canada, India and West Africa are here attending workshops arranged by the Protestant Broadcasting and Film Commission.

GRASSROOTS

Present Administration Certainly Has the Brass

By Wright A. Patterson

AT THE CLOSE of World War II we had in the uniform of our armed forces close to 12 million men, of which a little more than 300 were generals or admirals, in other words "top brass."

Now with armed forces totaling only about one and a half million men we have over 3,000 generals or admirals.

An investigating committee of the senate is attempting to find the "why" of such an increase of high ranking officers, and what they are doing.

There are more than 3,000 generals and admirals, and it is the belief of members of that committee that they are but muddying the waters of the preparedness effort and adding materially to the cost of that preparedness.

This large number of "top brass" has not only filled the mammoth Pentagon building, but has forced the government to rent outside offices to accommodate the generals and admirals, and the members of their staffs, and the several thousands of civilian secretaries and clerks, the bureaucratic army over which they preside and command.

Charge Fired Workman Kicked Boss into River

LONDON—A workman was hauled into court and charged with kicking his boss into the Thames River and then throwing rocks at him because he lost his job.

The defendant, George F. Edwards, pleaded innocent to a charge of attempted murder.

A witness said Edwards admitted booting the boss into the water and the boss claimed that Edwards then threw rocks.

Army Chemical Corps assigned four research teams to study comparative values of various methods.

The results of the research showed that the prone pressure method was less effective in the amount of air exchanged. It compresses the chest but does not actively expand it.

Research also showed that the hip-lift back-pressure method and the hip-roll back-pressure method are difficult to perform and cannot be done at all by frail rescuers on heavy victims.

The back-pressure arm-lift method was recommended because it does not tire the rescuer unduly, can be performed by a small person on a heavy victim, and is relatively easy to teach.

The Red Cross will include the new method in first aid and life saving courses as soon as possible. Three million supplements on the new system are being printed for inclusion in its first aid and water safety textbooks.

The Red Cross pointed out that because of the widespread teaching program the changeover cannot be accomplished immediately. Millions of persons already trained in the prone pressure method, which has saved many lives, should continue to use it until they have received training in the new method.

THE VICTIM is placed face down in a prone position with arms over head and bent at the elbows, one hand upon the other, and the head turned to one side so that the cheek rests on the hands. The rescuer, on one or both knees at the victim's head, places his hands on the victim's back, with thumbs just touching and the heels of the hands just below a line running between the victim's armpits.

SPORTLIGHT by GRANTLAND RICE

All-Time Top Coach

BEVERLY HILLS, Cal.—Who should be named as the top football coach of all time? I have a hunch that if this query should ever be put to a national vote the winner would be Knute Rockne. The Rock was one of the greatest.

Grantland Rice

They have two candidates out this way along the Pacific's placid rim. The two are Glen (Pop) Warner and Alonzo Stagg. "Warner and Stagg" an old-timer of considerable repute says, "were great inventors as well as great coaches. Between them they gave the game something beyond all others—the single wing, the double wing, the direct pass to the ball carrier, the spiral pass from center, early use of the forward pass as a real offensive weapon, these and many other things that all other coaches used later."

THE FICTION CORNER

THE RED MUFLER

By Richard Hill Wilkinson

CONSTABLE Simon McCall, noticed that the fringe of Bruce Wyatt's long woolen muffler was stained a deep red.

"Over to Jake Dearborn's. Him and me and some others played poker till about 2:30."

Simon listened only half attentively. He was trying to think of some one who would have a reason for killing Jim Cary. Cary and Bruce Wyatt were partners.

"Where'd you go after the dance, Bruce?"

"Over to Jake Dearborn's. Him and me and some others played poker till about 2:30."

Simon smiled faintly. "Well, if Jake and the others back that up I guess we'd better look elsewhere for a suspect."

"Where yuh goin' to start? Who'd want to kill old Jim?" Wyatt asked.

"Old Jim? He's not so old. About 30, I guess," Simon said. "Thirty,

THE RED MUFLER

"Been dead about five hours," Doc Leland said, finishing his examination.

and just now falling in love. I expect you knew about Jim's interest in Freda Burnett, Bruce?"

WYATT looked up quickly. "Why, no," he said. "No, I didn't know."

"You didn't?" Simon's voice was almost eager. "Well, well. That gives me the motive, then."

Wyatt stared blankly. "Eh?"

"I said, that little remark of yours provides a motive for the killing, Bruce. It makes you out a liar, too."

Bruce Wyatt thrust out his jaw in an angry gesture. "What the devil are you talking about, McCall?"

"About why you killed Jim?"

"Me? Killed him? You're crazy!"

"Oh, no, I'm not. You killed him because you were crazy about Freda yourself and you couldn't stand to see Jim getting in there ahead of you. You did it last night about 10 o'clock when every one was at the dance."

"You must be sick yourself, Simon. You don't know what you're saying. You can't prove that. You said yourself no one would be able to tell who left the dance long enough to come over here, murder Jim and get back again."

"That," said Constable Simon easily, "is something I won't have to worry about. The fact is, I know you've lied to me twice, and I know you were with Jim a minute or two after he died. That's enough to make an arrest on, since you're so fired careful about thinking up alibis."

Wyatt opened his mouth and closed it again. He stood still, waiting, still puzzled.

And Simon explained: "The blood on your muffler, Bruce. You probably got it there when you bent over Jim all right, but that was shortly after 10 last evening. Blood, you know, dries and hardens within a few minutes. None would have got on your muffler five hours after the wound was made."

Doc Leland made a gasping sound, which was at once confirmation of the statement.

Bruce Wyatt's glance darted to the face of the doctor, and without looking again at Simon he leaped toward the wall.

But Constable McCall was a good shot. The interior of the tiny cabin fairly rocked with the crash of his service gun, mingling with the cry of pain from Bruce Wyatt as the heavy slug tore through his hand even as his fingers coiled about the rifle barrel.

Superior Productivity Milton Katz, E.C.A. envoy, points out that European industrial productivity is between one-third and one-fourth that of the U.S. It is even less in the case of man-day production of bituminous coal.

SEWING CIRCLE PATTERNS

## You—and the SCRAP METAL EMERGENCY

ANSWERS every farmer should have to questions about scrap iron and steel

- jects made of metal. It may be resting and rusting in fence corners, in the fields, the barnyard or the tool shed.
- Q. What should be done with farm scrap?  
A. See that every bit of scrap gets to the scrap dealer located nearest to you. He will break it up into sizes used by the steel mills and foundries. He'll classify the metals then ship the scrap in carload lots. If you do not know the name of your local scrap dealer, consult your local implement dealer for this information.
- Q. What else can I do about farm scrap?  
A. Support the scrap drive organized in your locality. Work with your local Scrap Mobilization Committee in getting the scrap started back to the steel mills and foundries through the local scrap dealer.
- Q. Why is iron and steel scrap a matter of importance to farmers?  
A. Steel for our Country's defense program and civilian economy is being produced at the highest annual rate ever... and this will be greatly increased in 1952. Farm machinery and equipment needs must come from this over-all supply. As steel production increases the need for scrap increases.
- Q. How does scrap figure in the production of steel?  
A. One pound of scrap is needed to make two pounds of steel.
- Q. Is scrap getting scarce?  
A. Yes, the supply of scrap at the steel mills and foundries is not increasing fast enough to meet the needs of expanding steel production. Yet, there are millions of tons of idle iron and steel scrap, in small amounts, on farms throughout the country.
- Q. What if the needed scrap isn't obtained?  
A. That will mean a serious loss of steel production... fewer products will be made of steel. It will mean more shortages of civilian products. Defense needs come first.
- Q. Why not use pig iron instead of scrap?  
A. Every ton of scrap conserves approximately 2 tons of iron ore, 1 ton of coal, nearly 1/2 ton of limestone and many other vital natural resources—to say nothing of transportation facilities. Besides, there are not enough blast furnaces to produce the iron needed to maintain production.
- Q. How can more scrap be furnished?  
A. By everybody pitching in—as we always do in every emergency—and searching out all possible sources of scrap. Manufacturers of all kinds of products are conducting scrap drives. Old ships are being salvaged... scrap is being obtained from countless sources including farms.
- Q. What is farm scrap?  
A. It is any worn out, obsolete, unrepairable equipment, tools or other objects made of metal.
- Q. What is scrap?  
A. It is any worn out, obsolete, unrepairable equipment, tools or other objects made of metal.

..... Copper, Brass, Bronze and Lead Scrap are needed too! .....
