

Hy. Rosenheimer New Director of School District

Succeeds L. N. Peterson; Budget Increased at Annual Meeting Attended by 32 People Monday

The annual meeting of the electors of Jt. School District No. 5 of the Village and Town of Kewaskum was held in the high school auditorium Monday evening, July 14, at 8:00 o'clock p. m., there being 32 electors present.

It was moved by Marvin Martin and seconded by E. M. Romaine that L. N. Peterson, director, act as chairman. Nominations were closed and unanimous vote was cast for Peterson as chairman.

The minutes of the previous annual meeting were read by the clerk. It was moved by Chas. Reigle and seconded by Dr. F. E. Nolting to approve the minutes as read. This was carried.

The clerk's report for 1951-1952 was read and motion was made by Henry Rosenheimer and seconded by Walter Wesenberg to accept the clerk's report. This was carried.

Clifford Stautz read the treasurer's report for 1951-52 and motion was made by Chas. Miller and seconded by Mrs. Henry Rosenheimer to accept the treasurer's report. This was carried.

The auditor's report, compiled by Ralph J. Marx; C.P.A., was read by the clerk. It was moved by Dr. F. E. Nolting and seconded by Henry Rosenheimer to approve the auditor's report. This was carried.

Upon motion by Walter Wesenberg and a second by Willard Bartelt, Henry Rosenheimer was nominated for the office of director vacated by L. N. Peterson. As there were no other nominations from the floor it was moved by Dr. F. E. Nolting and a second by Louis Bath that a unanimous ballot be cast for Henry Rosenheimer for director. Carried.

Mr. Peterson received a hearty round of applause from the electors for his six years of faithful service to the board and to the community.

After explaining the increase in the budget for 1952-53 to the electors, the main reason being the switching over from coal firing to oil burning equipment in the high school unit, it was moved by Chas. Miller and seconded by Dr. F. E. Nolting that the budget as recommended to the electors be approved. Carried.

The following resolutions were adopted:

RESOLUTION NO. 1 "Be it resolved by the electors of Jt. School District No. 5 of the Village and Town of Kewaskum that the sum of \$46,000.00 be levied on the assessed valuation of the district for the ensuing year, the sum of \$39,200.00 to be used for current expenses and the sum of \$6,800.00 to be set aside for interest and retirement of kindergarten and grade school bonds."

Charles Miller (Moved) Dr. F. E. Nolting (Second) RESOLUTION NO. 2 "Be it resolved by the electors of Jt. School District No. 5 of the Village and Town of Kewaskum that the school year be set at nine months or 180 days."

Dr. F. E. Nolting (Moved) Mrs. Henry Rosenheimer (Second) RESOLUTION NO. 3 "Be it resolved by the electors of Jt. School District No. 5 of the Village and Town of Kewaskum that there be furnished free text books to all high school and grade school students for the ensuing year."

Mrs. Carl Johnson (Moved) Mrs. C. F. Schaefer (Second) RESOLUTION NO. 4 "Be it resolved by the electors of Jt. School District No. 5 of the Village and Town of Kewaskum that the District Board be and is hereby authorized to borrow from some bank, corporation or individual a sum not to exceed \$40,000.00 for a term not to exceed six months or beyond May 1, 1953 (in the ensuing year) at the rate not to exceed 3 percent for the purpose of defraying the expenses of the district until funds shall be available or received from taxes levied and the district board is hereby authorized to extend such obligation therefore and such security given and for the payment of this loan or loans as may be agreed upon by the parties in interest and not prohibited by law. Any amount borrowed should be repaid prior to May 1 of the school term."

E. M. Romaine (Moved) Walter Wesenberg (Second) RESOLUTION NO. 5 "Be it resolved by the electors of Jt. School District No. 5 of the Village and Town of Kewaskum that the salaries of the officers of the School Board be affixed as follows:

Treasurer \$100.00 Clerk \$200.00 Director \$75.00

Chas. E. Reigle (Moved) Marvin A. Martin (Second) There being no further business to come before the meeting, upon motion by Dr. F. E. Nolting and a second by Louis Bath, it was moved to adjourn.

Paul Landmann, Clerk

Donkey Baseball Game Here Saturday Evening

Robert Romaine Post No. 384, American Legion, will sponsor a donkey baseball game at the Kewaskum ball park on Saturday night, July 19. The game will get underway at 8:00 p. m.

The Legion is organizing a team of baseball players (?) who will take on Strobel's Wayne champs for the encounter. Barney promises that Wayne will send their topnotch jackass-busters for this tussle and the Kewaskum veterans will try to out-veteran the donkeys and take Wayne into camp.

Advance tickets for this donkey world series can be purchased at Miller's Furniture Store, Wittman's Barber Shop and Wietor's Barger Shop. They can also be bought at the ball park on the night of the game. There'll be plenty of seats for everyone so why stay away?

Anyone who has ever seen a donkey ball game knows how hilarious they can get. It's a real comedy seeing the willing-to-take-punishment riders try to mount the stubborn, bucking donkeys and round the bases. Come for a side-splitting treat.

LOCAL IMPLEMENT DEALER ANNOUNCES NEW TRACTORS

Two new Heavy-duty 2 and 3-pow general-purpose tractors—the John Deere Models "50" and "60" are being announced Saturday, July 19, by L. Rosenheimer.

At the announcement day, which includes the first public showing of the Model "60," Henry Rosenheimer and Carl Bachhaus of L. Rosenheimer will announce that these new tractors replace the Models "A" and "B" in the John Deere line.

Among the major advancements featured on the new tractors, L. Rosenheimer listed duplex carburetion, "live" power shaft, "live" high pressure Poyr-Trol, quick-change wheel tread, effortless steering, and new, more practical styling. These new features, the dealer added, mean stepped-up tractor performance, easier handling, greater comfort and convenience, and better all-around economy.

The new Model "60" is on display at L. Rosenheimer. The firm cordially invites everyone to stop in at the store and see this new tractor.

KEWASKUM YOUNG LADY INJURED IN ACCIDENT

An auto driven by Marvin Zimdars, 20, R. 1, Fredonia, went out of control early Monday on County Trunk H, a mile west of Fillmore. The car went off the road and rolled over. The driver received a bruised right shoulder. Ione Schladweiler, 20, R. 1, Kewaskum, suffered bruised arms and a possible neck injury.

ATTENDS FIRE CONVENTION

Fire Chief Harry J. Schaefer attended the annual convention of the Wisconsin Fire Chiefs association which convened at Beaver Dam on Monday and closed Wednesday.

KOERBLES BUY HOME

Mr. and Mrs. Donald Koerble have purchased the home they now occupy south of the village limits from Mr. and Mrs. Ed. Groszklaus.

orized to extend such obligation therefore and such security given and for the payment of this loan or loans as may be agreed upon by the parties in interest and not prohibited by law. Any amount borrowed should be repaid prior to May 1 of the school term."

E. M. Romaine (Moved) Walter Wesenberg (Second) RESOLUTION NO. 5

"Be it resolved by the electors of Jt. School District No. 5 of the Village and Town of Kewaskum that the salaries of the officers of the School Board be affixed as follows:

Treasurer \$100.00 Clerk \$200.00 Director \$75.00

Chas. E. Reigle (Moved) Marvin A. Martin (Second) There being no further business to come before the meeting, upon motion by Dr. F. E. Nolting and a second by Louis Bath, it was moved to adjourn.

Paul Landmann, Clerk

Newburg Blanked by Chevs, 11-0

LAND O LAKES STANDINGS (Northern Division)

Table with columns: Team, Won, Lost. Rows: Granville, Kewaskum, Mequon, West Bend, Slinger, Saukville, Newburg, Germantown, Cedarburg.

Score Friday night—Cedarburg 7, Saukville 6. Scores last Sunday—Kewaskum 11, Newburg 9; West Bend 7, Germantown 6; Grafton 5, Saukville 3; Mequon 7, Slinger 0.

Games this Sunday—Kewaskum at Grafton, Newburg at Mequon, Slinger at West Bend, Granville at Germantown.

"Killy" Honeck shut out Newburg here Sunday in a three-hitter while he and his mates were pounding two opposing pitchers for a 11-0 score. The victory avenged an early season 6-5 setback at Newburg which cost Kewaskum a current second place tie. The win kept the Chevies in third place, a game behind Grafton.

While Honeck was being very stingy in his three-hit performance, his team pounded out 13 safeties off of R. Mertiz and A. Schladweiler, who came in in the 8th inning to try and put out Kewaskum's four-run fire. Schladweiler was picked for three more hits before retiring the side. Throwing his best game of the season, Honeck didn't give up a single walk and struck out six hitters. Mertiz fanned four and gave up four bases on balls. Schladweiler whiffed one. Five errors behind Honeck made him bear down in the clutches to gain the whitewash. Newburg also had five. The Chevys scored 19 of their runs in three big innings. Leading the hit parade were Norm Held, Jerry and Clayton Stautz and Lloyd Petermann, all with two apiece. J. Stautz and Petermann included two baggers. Newburg's few hits were divided. They had only eight men on the bases and only twice did runners reach third base.

This Sunday the going will be rougher—much rougher, when Kewaskum plays at Grafton against the second spot team. A victory would give the Chevys a tie for second. Grafton was nosed out 4-3 here a few weeks back but this time they have the advantage of their home field.

Table with columns: Team, AB, R, H, E. Rows: NEWBURG, A. Schladweiler, A. Bremer, R. Heteberg, V. Kramer, R. Donath, F. Bremser, W. Gerner, M. Wilkens, H. Kirst, J. Hespe, R. Longan, R. Mertiz, A. Kempf.

Table with columns: Team, AB, R, H, E. Rows: Kewaskum, N. Held, J. Stautz, C. Stautz, W. Prost, A. Bilgo, E. Dekker, R. Schleif, A. Duenkel, L. Petermann, K. Honeck.

BIRTHS

REINDEL—Twin sons to Mr. and Mrs. Allen Reindel, Kewaskum, on Tuesday, July 15. The Reindels have two other sons.

BATH—A daughter to Mr. and Mrs. Harold Bath, R. 1, Kewaskum, Saturday, July 12. Mr. Bath is serving with the army overseas.

GIESE—A son to Mr. and Mrs. Donald Giese, R. 3, Campbellsport, Tuesday, July 15.

—Miss Vernette Bachhaus of Milwaukee spent from Tuesday to Thursday with her mother.

Firemen-Legion Picnic, Parade Draw Thousands

Throng Flock to Park to Make Event Great Success; Parade One of Best Held

What may be a record crowd for Kewaskum attended the annual picnic and parade sponsored by the fire department and American Legion post Saturday night and Sunday. The streets were jammed all along the line of march for the parade Sunday noon, which was one of the best held here in a long time. Hot, pleasant weather over the week end helped attract huge numbers to the park both Saturday evening and Sunday afternoon and evening.

There was a little rain right around the supper hour Sunday that sent people scurrying for cover but luckily it came at the deadiest time of the afternoon when farmers were gone for chores, others were home for supper, and there weren't so many folks present. The rain was short-lived and the evening turned out warm and beautiful to bring another large turnout to the park.

Many more spectators than in recent years witnessed the parade. It was followed by a jam of cars attempting to get to the park. Parking space was hard to find and this kept many people from taking in the picnic. A lot of cars went on through.

The surprisingly large crowd on Saturday night kept the various amusement and concession stands operating until almost 1 a. m. The main attraction for the evening was the square dance exhibition on the band stand. Between 30 and 40 persons participated in the square dancing, most of them from a distance. Dancers were rewarded for their efforts. This novel exhibition made a hit with the spectators.

Headlining the 12:30 p. m. parade Sunday were the Oconomowoc American Legion champion band with their famous baton twirler, the Mercy High school all-girls' drum and bugle corps of Milwaukee, and the Kewaskum Legion Junior drum and bugle corps. There were many fine floats, children's entries, ancient cars and machinery, scouts, visiting Legion posts and fire departments, West Bend Civil Air Patrol and equipment, and other interesting units in the parade. The line of march proceeded from the Legion club house to the park. During the parade traffic was held up for long distances north, south and east of the village.

Immediately following the parade the Mercy High school girls' corps put on a wonderful exhibition in the park. The crack corps received a thunderous ovation when they finished their skillful demonstration. The famous Oconomowoc band entertained throughout the remainder of the afternoon and again in the evening. Their troupe included famous vocalists, their prize winning baton twirler, whistling and dancing acts. The Oconomowoc organization, which has appeared here before, as always made a tremendous hit with the crowds. Their musicians, singers and acts were well received and drew much praise.

Many, many dozens of half barrels of beer and cases of soda, and hundreds of pounds of hamburger and bratwurst were gobbled up. There were a variety of amusements and entertainment stands, including some new ones. Those in attendance especially got a big kick out of dunking the firemen and Legionnaires in the tank of water. The way people came back and stayed in the park proved that they all had an enjoyable time.

Prize winners in the parade, who were judged by Mr. Comfort of San Francisco, Calif., Mrs. Ed. Brandt of Teaneck, N. J., and Mayor Charles Miller, were as follows: Children's bike and trike—1, Tommy Bartelt, \$4.00; 2, Jimmy Marx, \$2.00; 3, Donna Ewert, \$2.00. Children's floats—1, Marvin Schaefer children, \$4.00; 2, Kay Dorn, \$2.00; 3, Nancy and Colleen Held, \$2.00.

Commercial floats—1, Miller's Furniture, \$15.00; 2, "Jimmy" Miller's tavern, \$10.00; 3, L. Rosenheimer, \$5.00.

Their annual event was a splendid

County Fair Opens at Slinger July 24

Thursday will be entry day for the 95th annual Washington county fair to be held on the county fair grounds at Slinger, July 24-27. It will again operate as a free fair with no admission charge and plenty of free parking space.

Practically all available space on the fair grounds will be occupied by exhibits, concessions and the midway, according to E. E. Skalskey, secretary of the fair.

About the same number of exhibits will be featured as last year although 4-H enrollment will be larger than any year in the past. About 25 tents will be erected to house commercial and farm implement displays. In addition to the permanent barns, three tents are to be set up to shelter livestock.

BUS TRANSPORTATION—For persons who wish to eliminate the bother of parking or possible traffic congestion bus service will be available from West Bend on Saturday and Sunday, July 26 and 27 as follows:

Buses will load at corner Hickory and Main. Saturday evening, July 26—Leave West Bend at 7:00 p. m. (corner Hickory and Main. Leave the fair grounds at 11:00 p. m. Sunday afternoon, July 27—Leave West Bend at 1:00 p. m. and 7:00 p. m. Sunday evening—Leave fair grounds at 5:00 p. m. and 11:00 p. m.

A new mobile unit display, furnished by the University of Wisconsin Extension Service, will feature new ideas in farming and home making. A 20 by 80 foot "Electric Living" tent will again be sponsored by the Wisconsin Electric Power company, showing electrical equipment for both rural and urban homes and for the barn in general.

Several free acts will be presented from the entertainment platform each evening. These will include a trained dog act recently seen on WTMJ-TV and a baton twirling act by Connie Rhodeo who was twice selected as the American Legion national champion.

Advanced entries of livestock indicate that these entries may be equal to or exceed the number of last year. An abundance of farm machinery will also be on display.

All entries must be entered at the fair before 8:00 p. m. on Thursday. It is hoped that exhibitors will make entries during the daytime rather than in the evening. Entry clerks will be ready to receive entries by 8:30 a. m.

Snapp's Greater Shows will present an attractive midway of shows and rides. They are a big outfit, featuring a wide variety of rides and several side shows.

A complete list of merchants who requested space at the fair include: Miller Furniture Co., Kewaskum; Malsack Appliance, Slinger; Wayne Electric, Slinger; West Bend Implement Co., West Bend; Weiss Hardware, Allenton; Ritter Furniture, Allenton; St. Lawrence Garage, Hartford, R. 2; Larson Appliance, West Bend; P. A. Mueller, Hartford; Holland Furnace, Gordon Appliance, H. Kuester Appliance, West Bend; Central Chevrolet, Hartford; Carl Freehaug Implement, Slinger; Berg Implement, Slinger; Butzke Implement, Jackson; Milton Riek, Hartford; Nagel & Hardt, Milwaukee; Minnesota Woolens, Leach & Christensen, Hartford; Associate Breeding Service, Curtis Candy Breeding Service, Pieper Bros. Breeding Service.

Four stands will be situated on the fair grounds to serve food and refreshments. Many other stands will have pop, ice cream, etc.

A larger 4-H enrollment and numerous open class exhibits will occupy the tables and shelves of displays of canning, baking, clothing, grains, vegetables, educational booths and handicraft.

A general outline of the county

success and the firemen and Legion want to sincerely thank all the wonderful people who attended in such large numbers to make it so good one, and all who assisted and co-operated in any way.

Holy Trinity Parish Men Attend Illinois Retreat

Sixteen men were in the Kewaskum group which attended a retreat given at St. Mary's Mission House, Toehny, Ill. from Friday, July 11, to Sunday, July 13. Father William Kraus, S.V.D., was the retreat master. A total of 45 men, including the Kewaskum group and one from Illinois, made the retreat.

The Kewaskum group included: Wm. Padlesak of Oshkosh, James Green of Madison, Gerald Green of Carpentersville, Ill., Tony Staehler, Gerald Staehler and Tony Herriges of St. Michaels, and John Marx, Jac. Bruessel, Jr., Wm. Lettow, Louis Bath, Tom Green, Lawrence Wallenfels, John Trapp, Ralph Remmel, Dr. Robert Kauth and Claver Simon of Kewaskum.

DILLINGERS MOVE HERE Mr. and Mrs. Henry Dillinger and son of the town of Auburn have moved into the south flat of the L. Rosenheimer home on Fond du Lac ave. formerly occupied by the John Vorpahl family. They will reside there until their new home in Roseland Heights is completed.

JUNEAU PLAYS HERE

The Kewaskum Rock River Junior league team will meet the powerful Juneau nine on the home field Sunday starting at 2 p. m. Results of last Sunday's game with Leroy were not turned in to this paper.

HOSPITAL NEWS

Mrs. Edward Hansen, Kewaskum, was a patient at St. Joseph's hospital, West Bend, the past week.

fair program follows: Thursday, July 24—Entry day. Evening—Hartford American Legion band and entertainment. Friday, July 25—Judging of foods, booths, vegetables, flowers, handicraft, sheep, swine, colts and baby beef. Evening—West Bend band and entertainment. Saturday, July 26—Judging of dairy cattle, demonstrations, clothing, canning, and poultry. Evening—4-H girls' dress revue and entertainment. Sunday, July 27—Judging of dairy cattle, sire project entries. Sunday afternoon—Jefferson American Legion band. Sunday evening—Jefferson American Legion band and entertainment.

Judges at the fair will include: Agriculture—Dairy: Harvey Swartz, Waukesha; Meat animals and horses: Edward Hanser, College of Agriculture; Farm Crops: S. S. Mathisen, Milwaukee county agricultural agent; Vegetables and flowers: C. L. Kuehner, horticulturist, College of Agriculture; Poultry: Wm. Hallbach, Dept. of Agriculture, Madison; Clothing: Harriet Pickering, home agent, Ozaukee county; Foods: Margaret Stone, home agent, Fond du Lac county. Education—Exhibits will be shown by the following youth organizations: the 28 4-H clubs of the county, Future Farmers Associations of West Bend, Hartford, Kewaskum, and Slinger high schools; the West Bend Junior Red Cross chapter, the Future Homemakers group of Slinger high school and the Washington County Young Adult club.

There will be ample parking facilities for all who attend the fair. A 5-acre parking area on the Franklin Roecker farm is available to the west of Highway 41 at the fair grounds and there will be plenty of parking space on the main grounds.

Free members of the Washington County Board of Supervisors, Wm. Kuhn, Rockfield, Emil Gauger, Route 1, West Bend, and Guido Schroeder, Route 5, West Bend, along with Robert Stodja, county 4-H club leader, and Betty Ann Whitmore, county home demonstration agent, are cooperating with E. E. Skalskey, the executive secretary of the fair, in planning this 95th annual event.

A cordial invitation is extended to everyone to attend the fair. Washington county's fair has gained state-wide recognition in recent years as one of the largest and most popularly attended in the state.

Manthei Found Not Guilty in Homicide Case

A 12-man municipal court jury, after 2½ hours of deliberation on Wednesday, returned a unanimous verdict of not guilty for Earl W. Manthei, 26, Kewaskum. Manthei was charged with negligent homicide when a car driven by him on June 13, 1952, collided with a bicycle driven by Ronald Stroom, 14, of Campbellsport, causing his death on Highway Y about one mile east of Campbellsport.

The state, by District Attorney Eugene F. McEay, produced evidence that both Manthei and Stroom were going west on County Trunk Y and that while attempting to pass Stroom, Manthei failed to turn out far enough and hit the bicycle in the rear wheel. Physical evidence by the state showed that all the glass and debris lay on the north bank of the road and that none lay in the roadway. A disinterested witness stated that Manthei had been drinking beer on the afternoon of the accident. The state further alleged that Manthei was driving at an excessive rate of speed by attempting to show that the Stroom body was hurled a distance of 51 feet from the impact, landing across the fence on the north side of the road, and that he was illegally passing going up hill at the time of impact.

Manthei, represented by Bartelt and Bartelt, Kewaskum attorneys, stated that he was driving 45 to 50 miles per hour and that he almost gave Stroom all of the north side of the road when he attempted to pass him but that just as he was about to pass the bicycle veered into his path of travel and that there was nothing that he could do to avoid the collision. He stated that during the afternoon he had drunk a couple of small beers but that he felt no effect from the beer.

Attorney Lyle Bartelt, in his arguments to the jury, stated that both he and the defendant felt sorry for the Stroom family survivors in their bereavement, but that at most this was a case of just ordinary negligence which could easily happen to anyone but that the facts of the case did not warrant a finding by the jury that Manthei was guilty of the crime of negligent homicide.

The jurors went to the scene of the accident earlier in the week to inspect the site. Fond du Lac county authorities had not been satisfied with Manthei's explanation of the mishap and they summoned him to a conference. The authorities sought to have Manthei submit to a lie detector examination at Madison. At first he consented to the test but he subsequently engaged an attorney who notified the prosecutor that the test would not be consented to. Judge Hazen W. McEay presided.

WATER DEPT. NOTICE

The Kewaskum Municipal Water Dept. has at the present time a crew of men at work cleaning, repairing and painting its water tower. From time to time, you may find your water supply to be slightly discolored. This is merely disturbed rust in the distribution system which is perfectly harmless and is a condition which is beyond our control while these repairs are being made but which generally clears up in a very short time. If you find the water pressure low or the supply seems inadequate, do not be alarmed as this condition adjusts itself very rapidly. We respectfully ask that you bear with us for a short time and that you be conservative in the use of water until our plant is again back in normal operation, which should be in about seven days.

Municipal Water Dept. William S. Martin Village Commissioner

CAFETERIA SUPPER

The Ladies' Aitar society of Holy Trinity parish, Kewaskum, is sponsoring a cafeteria supper in the parish hall, Sunday, July 27, beginning at 4 p. m. The public is invited. 7-18-2t

Don't Do This!

What not to do when you go on vacation is shown here by Model Dee Kranz: Don't post signs that reveal the house is empty. It's an invitation to burglars. A new "Check-list for Vacationers" warns that many vacationers leave such signs behind, in notices to the milkman, postman or newsboy. Instead, tell the milkman in advance to stop deliveries, ask the post office to hold your mail, and have the newspaper sent to your vacation address.

Other Do's and Don'ts prominent on the check-list include: DO lock doors and windows— but DON'T pull down window

shades for that also signals an empty house and invites trouble. DON'T forget flashlight, first aid kit, camera and film, bottle opener, can opener, cleansing tissue, sun glasses, aspirin, and sun lotion.

DO turn off water and the gas hot water heater to avoid leaks that may develop—and DO pull plugs out of electric outlets to avoid short-circuits that could cause fire.

DO make reservations in advance unless planning your trip "gypsy style." Otherwise, start looking for lodging about 4 or 5 p. m.

Six Simple Rules For Vacationists

"Vacationitis" is not listed in any medical book, but it is a fairly common summertime ailment, according to a news release from the state Christmas Seal organization.

"You don't have to return from your vacation sun-blistered and exhausted," the release states. "Observing health and safety rules will bring you back home healthy, happy and in one piece."

Six of the simple rules listed for vacationers planning to spend weeks or week ends in the out-of-doors are as follows:

Take your sunshine in small doses to avoid painful burns. Go easy on exercise and vigorous sports.

Drink only tested water or else boil it before drinking.

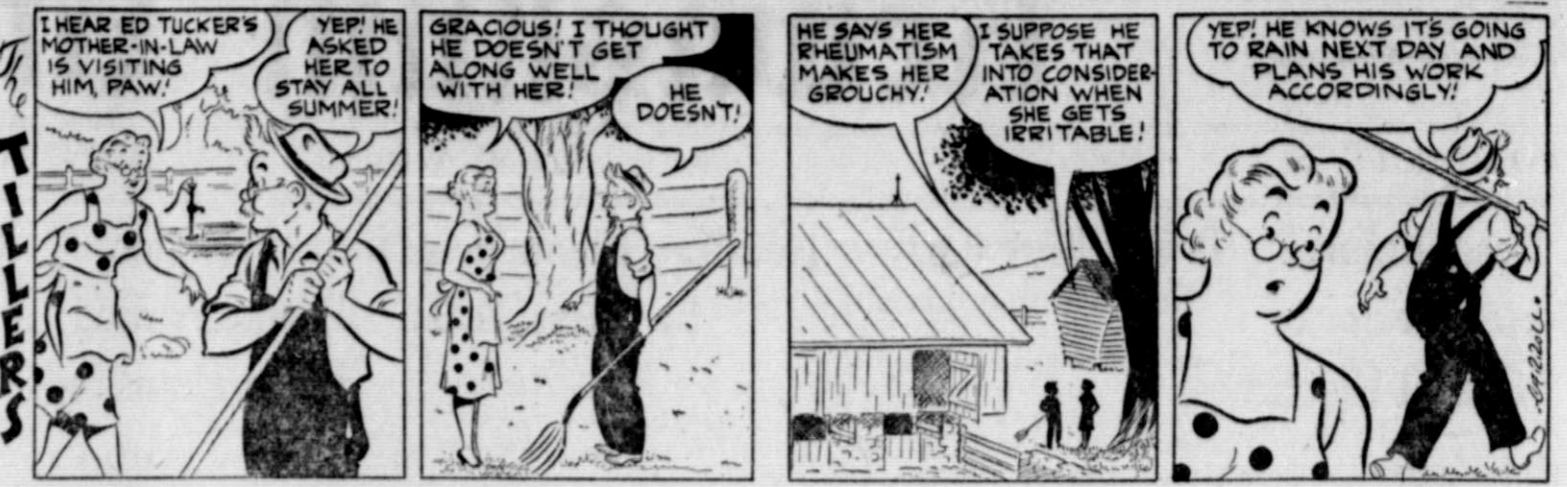

Beware of shiny leaves in clusters of three—they're poison ivy.

Know how to swim if you're going in for water sports. And when you dive, look before you leap to be sure of avoiding submerged logs, boulders or other dangerous objects.

Drive carefully. It's better to get there an hour or two later than not at all.

"Take it easy" is the rule that sums up all others," the release concludes. "Relax—don't rush—and the end of your vacation will find you hale, whole and happy."

To cultivate kindness is a part of the business of life.

BRINGING WOUNDED TO HOSPITAL SHIP—"Flight Quarters" has been sounded and the duty section of the USS Consolation reports on the double to man the flight deck for the landing of the wounded from Korean combat zones. Smooth landing of the helicopter and the speedy evacuation is uppermost in saving battle casualties. (Department of Defense photo.)

Q. What is this method of meat cookery?
A. Cooking in liquid. (Large cuts and stews)
Q. How should meat be cooked in liquid?
A. Brown the meat thoroughly in own fat or lard, when desirable. Season with salt and pepper. Cover with liquid, place cover on utensil and simmer until tender.
Q. What meats are prepared by this method?
A. Beef — neck, shank, heel of round, plate, brisket, chuck, flank, heart, tongue, kidney, corned beef. Veal—shoulder, flank, neck, shank, breast, tongue, heart, kidney. Pork — hocks. Smoked Pork—ham, picnic, butt. Lamb — neck, breast, shoulder, shank.

Dr. A. E. Jacobson, Thief River Falls, recently completed 25 years of perfect Rotary attendance. . . Four Albert Lea men recently were honored for 50 years each in Masonry. . . Since 1887, even while mining in Patagonia, Otto Waskow has subscribed to the North St. Paul Review; for 71 years Anna Olson of Ogilvie has read Mora Times, prompting the editor to ask, "Can anyone top that?" To which Redwood Falls Gazette replies with announcement that J. C. Miller, Bertha banker at 90, has read the Gazette for the past 60 years. . . At 85 Tom Thompson, Madison, carves nutcrackers, dolls, pipes. . . L. G. Davis, 93, has practiced law in Sleepy Eye 71 years, has occupied the same office 53 years, and has been in partnership with Alvin Berg, some score of years his junior, 42 years.

CITY AND CITIZEN GROW OLD TOGETHER

Ortonville—July 17, 1879, Martin Schoen was nine and this village wasn't much if any older. Coming with his parents from Glencoe, they lived in tents until two carpenters in the party could get some frame houses built. Several steam boats plied Big Stone lake, and that fall the rails came. The Schoens opened a furniture store which soon was one of the state's largest. Thirty-seven years later Martin, still young, went into the real estate business. Today at 82 he is still young and still in the real estate business, claiming to have worn out more Ortonville sidewalk than any other person living or dead. From church committees through mayor he has held practically every office to which fellow citizens can elect or appoint him.

HOW TO BUILD A WINDOW SHELF FOR HOUSE PLANTS

There are several solutions to the shelf problem for house plants.

The simplest is to buy metal brackets to attach to the window sash, and use plate glass shelves.

Another solution, as illustrated, is to cut a shelf out of one-inch finished lumber.

The shelf may extend around the window molding, as illustrated, or may be cut to fit inside the molding.

A width of six inches should be enough to hold most potted plants.

To keep the shelf in place, nail a strip of sheet metal to the top edge on the window side. Bend this strip of metal to fit between the present window ledge and the sash.

The metal may be nailed to the outside edge of the window ledge. (See illustration.)

If the shelf must be wider than six inches, or if it must support an extra heavy load, one or more braces may be used, as illustrated.

Nail the braces to the bottom of the shelf and to the top of the baseboard.

Another solution is to use shelf

brackets in an upside down position to hold the shelf in place. Fasten the brackets to both shelf and sash with wood screws.

Dairy Foods Cost Less Than In Prewar Days

Dairy Foods today cost less than they did before World War II. That startling disclosure was made recently by John Brandt, chairman of the June Dairy Month activities for Minnesota, as he emphasized the importance and economy of dairy foods. "Real purchasing power," said Brandt, "isn't figured in dollars and cents, but on the basis of how long you have to work for the money to buy what you want."

Dairy foods cost less of the average industrial worker's hourly wage during 1951 than before, Brandt points out. Last year, an hour's work bought 7.3 quarts of milk as compared with only 5.7 quarts in 1940. Last year's averages also show that an hour's pay would buy two pounds of butter or 2.8 pounds of cheese or 5.2 pints of ice cream.

Brandt pointed out additional facts about the cost of dairy products in citing a recent public opinion poll which showed that 55 per cent of those quizzed believed milk to be the most nutritious food for their money. But the average American thinks milk companies make five cents profit on each quart of milk and 14 per cent believe it to be as high as ten cents on each quart. Only about three per cent knew the facts, that the profit is in the neighborhood of a small fraction of a penny.

Milk is a low cost food and more than 60 million quarts are being distributed to American consumers every day at prices that have gone up less than other major food groups.

Cost of living index figures compiled by the U. S. government show prices of all foods last January 15 at 232.4 compared to the 1935-39 base of 100, while the home-delivered milk is only 196.0. The economy record of milk compared to the "all-foods" index has been maintained despite the fact that milk company wages, operating expenses and prices of the raw product has been at high levels. The industry is a highly competitive business in which approximately 85 per cent of its sales income goes directly back into the hands of dairy farmers and employees in processing and distribution.

As the most widely used food, milk comprises more than 25 per cent of the foods consumed annually by the average American. Larger food budgets would be needed in the home if the vitamins, minerals and calories supplied by milk had to be secured from other sources.

Surveys show that milk is the favorite food of Minnesota homes and mothers consider it the most essential food of all, Brandt notes. Seven out of every ten American housewives are well aware of the high nutritious value of milk, according to an Opinion Research survey. Given a long list of foods, housewives were asked which were the most important. Milk came first as 71 per cent said it is the most essential. Another striking opinion gathered from surveys shows that milk is the last of all the food housewives will cut down on in an inflationary situation.

Dairy Month in Minnesota is being sponsored by the entire dairy industry of the state.

Problem

How to get the experience without which nobody will give him the job is the young man's employment problem.—Boston Globe

HIGH AND DRY IN CHICAGO—Almost as if by design, Ernest Karlsson and Ruben Markstrom, both of Chicago, are confronted with identical problems. They both spent the winter building boats in their houses; Karlsson in his basement, Markstrom in his second floor living room. At right, the Karlsson family enjoys an imaginary cruise in their 21-foot motor boat as dad applies some finishing touches. He'll have to remove the stairs, at right, and knock an eight-foot hole in the basement wall to extricate his handicraft project. Markstrom, left, with his wife, plans to lower his 14-foot, 225-pound ship out the window.

GRANDFATHER, WHAT A BIG CAR YOU HAD—Appropriately shy, Deborah Collier, left, 3½, and Grace Lyons, 4, pose beside the overturned car which gave them a wild downhill ride in Boston when they accidentally loosened the hand brake. The car, owned by Deborah's grandfather, went over a curb, sideswiped a tree, knocked down a fence and came to a final halt with its rear end high and its front wheels hanging over a 15-foot drop.

Sarah Anne's COOKING CLASS

PICNIC FUN AT HOME

Here's a picnic that takes place right in your own backyard. The menu is planned around a juicy meat loaf that has a surprise filling. It's served with individual casseroles of baked beans, assorted relishes and a wonderful cherry pie.

- Cocoaint Milk Shake**
 ½ cup cocoa
 2/3 cup sugar
 ½ teaspoon salt
 1 cup hot water
 24 mint leaves
 5 cups chilled milk
 Mix cocoa, sugar, and salt in saucepan, add hot water; boil 2 minutes, stirring constantly. Chill. Crush mint leaves with wooden spoon; add milk and chocolate sauce, and let stand in refrigerator for 15 to 30 minutes. Strain out crushed mint leaves and serve garnished with sprigs of fresh mint. Serves 6.

- Pastel Punch**
 1½ cups washed, hulled strawberries
 ¾ cup sugar
 Few grains salt
 4 cups cold milk
 1 pint strawberry ice cream
 1 pint mint ice cream
 Strawberry garnish
 Mash strawberries; add sugar and salt and blend. Add cold milk, stirring until thoroughly mixed. Turn into tall glasses. Top with strawberry and mint ice cream. Garnish with whole or sliced strawberries. Makes six glasses.

- Meat and Vegetable Pie au Gratin**
 3 tablespoons butter
 4 tablespoons flour
 2 cups milk
 ½ teaspoon salt
 ¼ lb. sharp American cheese
 2 cups diced, cooked ham, veal or beef
 2 cups cooked carrots
 2 cups cooked potatoes
 Melt butter, blend in flour, add milk and cook over low heat until thickened, stirring constantly. Add salt and cheese and stir until cheese is melted. Combine cheese sauce with meat and diced vegetables. Pour into buttered casserole, top with buttered crumbs. Bake in a moderate oven, 350 degrees F., for 45 minutes. Serves 6 to 8.

- Cardinal Cherry Pudding**
 1 cup cake flour
 ¼ teaspoon soda
 ½ teaspoon baking powder
 ¾ teaspoon salt
 1 cup sugar
 ¼ cup butter
 1 egg
 1 cup cream style cottage cheese
 1 teaspoon grated lemon rind
 Sift flour once, measure and re-sift with the soda, baking powder, salt, and sugar. Cut in butter with a pastry blender or two knives until the mixture resembles

coarse meal. Add egg, cottage cheese, and lemon rind, and beat vigorously for 2 minutes. Pour into six well oiled custard cups and bake in a 350 degree F. oven about 30 to 35 minutes, or until done. Serve warm with cherry sauce. Serves 6.

- Sauce**
 ¾ cup sugar
 ½ teaspoon salt
 2 tablespoons cornstarch
 1 cup cherry juice
 1 tablespoon butter
 2 teaspoons lemon juice
 1 cup canned sour cherries
 Combine sugar, salt, and cornstarch, and blend well. Add the fruit juice and blend. Cook, stirring constantly, over low heat until the sauce thickens and is clear. Add butter, lemon juice, and cherries. Serves 6.

- Anchovy Cheese Salad**
 1 2-ounce can anchovies, drained
 1 teaspoon finely cut chives
 1 pint creamed cottage cheese
 Crisp lettuce leaves
 6 small tomatoes, peeled and sliced
 Chop 2/3 of the anchovies into small pieces. Cut 1/3 into long strips for garnish. Add chives and finely chopped anchovies to the cottage cheese, and mix lightly. Cover and place in refrigerator for at least a half hour to blend flavors. Arrange lettuce cups on a large plate. Put mound of cottage cheese in the center and overlap tomato slices on the lettuce around the edge. Place strips of anchovies on top of the cheese as a garnish. Serve with mayonnaise or French dressing. Serves six.

- Salmon and Cucumber Salad Mold**
 1 7-ounce can red salmon
 1 package lemon flavored gelatin
 1 cup hot water
 1/3 cup vinegar or lemon juice
 1 cup evaporated milk
 1 teaspoon Worcestershire sauce
 ½ cup finely chopped cucumber
 ¼ cup finely chopped green pepper
 2 tablespoons grated onion
 Remove bones and skin from salmon but do not drain. Flake salmon in the salmon liquid. Dissolve gelatin in the hot water. Add vinegar. Chill until gelatin begins to thicken, stirring frequently while cooling to keep smooth. Stir in milk, Worcestershire sauce, vegetables, and flaked salmon. Turn into a loaf pan 8½ x 4½ x 2½ inches. Chill until

set, at least 3 hours before serving. Unmold on chilled platter when ready to serve. Garnish with parsley, watercress, or salad greens. Serves 6-8.

- Butter Crunch a la Mode**
 4 tablespoons butter
 1 cup brown sugar
 2 tablespoons flour
 ¼ cup water
 4 to 5 cups corn flakes
 1 quart vanilla ice cream
 Melt butter and stir in the combined sugar and flour. Add water, stirring to blend; cook over low heat until mixture forms a soft ball in cold water, 236 degrees F. Quickly pour over the cereal, mixing thoroughly. Spread out on large pan and partially cool. Pack into a well oiled 1-quart ring mold. Chill in refrigerator. Loosen edges with knife and turn out onto serving plate. Fill center with ice cream. Sprinkle fresh or frozen raspberries or other berries over the top and serve. Serves six.

WOODWORKING FUN

Put your skill to work and make this sextet of wood cutouts to compliment your flowers. A young duck has a slick chick for his pal, while the lamb and the deer frolic coyly with each other. Two demure little ladies have other purposes in life—they make two handsome wall plaques when cut from thin wood and painted. Complete directions on how to assemble and paint. C9667, 20c. Send orders to: Homecraft Service, Journal Pub. Co., Inc., 2500 Buchanan, Kansas City 16, Mo.

 Send THIRTY CENTS in coins for this pattern to 170 Newspaper Pattern Dept., 232 West 18th St., New York 11, N. Y. Print NAME, ADDRESS with ZONE.

PARISIAN "SKI-REWBALLISM" — S'no snow in Paris these warm summer days, so French Olympic ski champion Henri Oreiller, who is also a singer and composer in a Parisian cabaret, gayly "slaloms" down the Champs Elysees on a pair of wheeled skis. The apparently unconcerned gendarme gives the impression that such stunts are as common in France as in the U. S.

FRESH-FROZEN SUBMICROSCOPY — Using a new freeze-drying technique he developed, Dr. Robley Williams, professor of biophysics in the University of California at Berkeley, made these pictures of the submicroscopic world with an electron microscope. At left is an organism freeze-dried and at right is a similar one air-dried, by the conventional method. Note the freeze-dried specimen retains its live shape and casts long shadows, whereas the other is squashed almost flat by the removal of water. The organism is 1/2000 of an inch long.

U.N. Works to Control Narcotic Drugs

The United Nations keeps an open eye on word production and consumption of narcotic drugs and on their traffic. Through its Commission on Narcotic Drugs, U.N. considers reports from governments on their observance of international treaties on drug control, on illicit traffic and on seizures in their territories. The Commission is now considering measures to limit opium production and its use to scientific and medical purposes. Charles C. Fulton, head chemist of the U.N. Division of Narcotic Drugs, is seen here in his laboratory trying to determine the origin of some seized drugs.

RED CROSS OFFERS CARE OF SICK, HOME NURSING COURSE

Another 12 hour course in "Home Nursing and Care of the Sick" will be offered to interested persons in this area starting next Monday, July 21. Classes will be taught by Mrs. George Sampson and the course will be offered under the auspices of the West Bend chapter, American Red Cross.

Although the original session will be held on Monday night, members of the class will determine at that time by majority preference which nights of the week to meet thereafter. Consisting of six two-hour sessions, the course will be taught over a three week span with two evening classes per week. Red Cross home nursing certificates will be awarded to all who complete the 12 hour course.

Only a limited number of people

FOR ANY INFORMATION TO BUY HOMES UNDER F. H. A. GOVERNMENT INSURANCE LOANS, ABOUT MONTHLY PLAN SEE, CALL OR WRITE HARRY H. MAASKE, KEWASKUM, TELEPHONE 2. 6-12-17

can be accommodated in a class of this kind and interested persons are urged to register at once. Registration can be completed by calling Mrs. Sampson, West Bend 1519 or the Red Cross office, West Bend

392. Any person in the chapter area, covering roughly the northeastern half of the county is eligible to register for the course, for which there is no fee.

NOW! ANYONE CAN HAVE HOT WATER QUICK!

NEW "POCKET-SIZE" PORTABLE WATER HEATER NOW COSTS LESS THAN \$3.00

Merely place a FAST-WAY Portable Water Heater in a receptacle containing water. Plug into nearest socket... get HOT WATER QUICK! Thousands use for bathing, scrubbing, washing, cleaning milk separators, etc. Heats small quantities very fast. The speed of heating large quantities depending on the quantity. Compares with gas! IN THE SERVICE
PVT. NIGH FLIES BACK TO STATES FROM JAPAN
Word was received here on Monday through a telephone call that Pvt. Leo Nigh had arrived back in California from Japan, where he was hospitalized with an ear ailment. He suffered the ailment soon after arriving in Korea recently and was returned to Japan, from where he was flown back to the states via Hawaii. Pvt. Nigh, son of the Elmer Nighs of the town of Auburn, said that he expects to be sent to Walter Reed hospital in Washington for further treatment.

TESSAR MADE CORPORAL
Mr. and Mrs. Jack Tessar, Kewaskum, received word that their son John, who is serving in Korea, has been promoted to the rank of corporal. His latest address is Cpl. John Tessar, Jr. RA16376973, Btry. C, 159th P. A. Bn., APO 301, San Francisco, Calif.

VORPAHL TO ALASKA
Pfc. Anthony J. Vorpahl left for Fort Lawton, Wash. Monday after spending a 27-day furlough with his parents, Mr. and Mrs. John Vorpahl, Kewaskum. He expects to be sent to Alaska.

—Mrs. H. A. Wrucke and daughter, Mrs. Harold C. Johnson and Mrs. Melvin Heian of Campbellsport motored to West Concord, Minn. and were guests of Mr. and Mrs. Elmer J. Smith and family. Mrs. Smith was Mrs. Johnson's first school teacher, who recently broke her hip, but is able to get around in a wheel chair. Mrs. Smith is a sister of Mrs. Wrucke and an aunt of Mrs. Heian and Mrs. Johnson. They returned from Minnesota on Wednesday evening.

**Behind The Scenes
In American Business**

By Reynolds Knight

New York — Some 212,000 retailers across the nation may raise prices somewhat on a number of commodities including luggage, hardware, furniture, electrical appliances and china. The Office of Price Stabilization authorized the ceiling hikes because of increases in costs since price stabilization went into effect.

While the cost increases are fractional they are often equal to a good part of the narrow profit margins on which some retailers operate. The ceiling hikes allowed by the government range from a penny or so on small items to more than a dollar on more expensive goods.

There is no cause for gloom on the part of the consumer nor joy on the part of the retailer, though, because few of the items with higher ceilings are selling at prices even equal to the old ceilings. Because of this the OPS believes that any short-term price rises will be negligible.

FRINGE TV—A small town in the heart of New England's summer vacation land took the lead this week in opening up the entire section to the type of clear and stable television reception enjoyed in metropolitan areas. The town was Laconia, N. H., which began operation of an RCA Antennaplex system of Community television reception.

On Mount Belknap, five miles outside of Laconia, a 50-foot antenna was erected to pick up television signals from Boston, 120 miles away. Then a coaxial cable was strung on telephone poles down the side of the mountain and into the town—a distance of 30,000 feet. By subscribing to the new service, residents can tie their television sets into the coaxial cable and receive a picture equal to that in Boston.

REA engineers feel that Laconia's action points the way by which scores of other American towns, now in the fringe area for TV reception, can lick the problems of video blackouts and erratic reception.

THINGS TO COME — Quick change for leather wear is possible with a new liquid which gives a flexible coating in seven colors. . . . Tin-lead tape solder containing rosin flux will melt with the heat of a single match, the maker claims. . . . A device to stop corroding at auto battery terminals insures quicker starts and better lights. . . . A letter-weighter and pencil combination weighs mail from one to eight ounces. The pencil itself is calibrated to show the amount of postage necessary to send an item by ordinary mail, air mail or parcel post. . . . A powdered coffee cream, which needs no refrigeration but dissolves instantly when added to hot coffee, is being test-marketed.

MAMA KNOWS BEST — New discoveries are made every day in merchandising which give entirely different slants on old ideas of selling. For instance, marketing analysts have recently discovered that the man of the house has a great deal more influence over food and clothes purchases than retailers ever dreamed of. As a result a number of things have been done to make these kinds of merchandise appeal more to men.

The latest twist is that women have a lot more to say about buying automobiles than is generally realized. Clyde R. Paton, director of engineering for Willys-Ovealand Motors, Inc., estimates that women make the final decision in buying cars 80 per cent of the time.

Because of this, according to Paton, Willys aimed at appealing to women's wants as well as men's in designing the firm's new Aero Willys passenger car line—economy of operation (foremost in a woman's thoughts) the smartness of a fashionable limousine but with a small car's maneuverability; driving ease, and (for parking, no doubt) wide visibility and fenders that can be seen from the driver's seat.

BUMPER CROPS — Potato shortage or no, the nation will have a fine crop year, according to a report by the Agriculture Department.

Wheat was the only major crop forecast by the government, but it was rated at 1,326,157,000 bushels. It will be second largest on record if it materializes, and only 33 million bushels under the record 1947. Last year the wheat crop was only 987,474,000 bushels.

Of the lesser crop forecasts hay will about equal last year's 108,500,000 tons, but rye will probably be down to 16,974,000 bushels, the smallest since 1934. Although no figures were given for the other crops, the department said prospects in general are better than average throughout the country.

Thought works in silence, so does virtue. One might erect statues to silence.—Thomas Carlyle.

FIRST AID for Everybody

XII--First Aid in Civil Defense

(This is the last of a series of articles, written especially for Central Press Association and this newspaper on first aid, a subject gripping the nation in the light of threatened atomic aggression. The articles are based on the American Red Cross First Aid course. First aid principles, applicable to atomic as well as other disasters, are outlined. The Red Cross offers a 22-hour course free which teaches fully the technique of first aid.)

By Central Press

AT TIMES the usual first aid methods must be modified to do the best for the most but the basic principles of good care still can be followed.

The Civil Defense supplement to the Red Cross First Aid textbook warns that a first aider should not permit the urgency of a situation to lead him into an "anything goes" attitude. He should adopt as his guide the "best first aid possible under the over-all circumstances."

In the case of disaster, first aid procedures should be confined to the minimum necessary to protect casualties until medical help is available. First aiders should work in an organized orderly fashion. They may have to handle many victims. The Red Cross first aid course has been extended from 18 to 22 hours to cover their duties.

The extent of first aid in an atom bomb attack must be geared to several factors, including the distance from the center of a blast and first aid stations in given areas. Up to a mile and a quarter in all directions from the blast center will be the area of very heavy destruction and loss of life. The damage and casualties will still be severe a mile and seven-eighths from the center, but not so bad as in the first area, and they will be relatively minor three and an eighth miles away.

The first aider's first job may be to get a victim to safety. If walls are falling he can't wait for a stretcher and he can't "splint them

Blanket can be used to remove seriously injured person from danger.

where they lie." He may not be able to cleanse a minor cut or scratch. This patient may have to walk to a rear area.

But the Red Cross textbook's rules to see what injures the patient has and to treat the most serious ones first, hold good in an atom bomb attack. It is estimated that in Hiroshima and Nagasaki 85 per cent of the fatalities were due to wounds, fractures, crushing injuries and burns. Five to 15 per cent were due to radiation sickness.

The first aider's work for the most part will be to arrest hemorrhage, treat burns, relieve pain, care for shock and apply dry dressings, no ointments, where possible.

Atom bomb injuries are classified as follows:

- 1—Injuries due to force of explosion.
 - (a) Indirect blast injury—the force of the wave will topple buildings and shatter glass, causing injuries.
 - (b) Direct blast injury due to pressure changes.
- 2—Burn injuries.
 - (a) Flash burns—caused by radiant heat waves coming from the bomb.
 - (b) Other thermal (heat) burns caused by flame or contact with hot objects.
- 3—Radiation sickness.

REMINDFUL OF NOAH'S ARK

It was not disclosed who counted the 200,000 house-hunting Mankato bees reported to have taken over for an hour or two a truck parked on a downtown street. . . . After Carlisle farmers tracked a fox to her lair, mama and two cubs escaped, leaving

SAFETY FOR A SIGHTLESS ONE—The sign at right usually evokes curiosity from motorists driving between Meriden and Plainfield, N. H. But to Horatio Hendrick, sightless since birth, it lends comfort. Poultry farmer Hendrick is shown with his son David and dog Rex as they cross the road between the poultry yard and their house.

SECRETARIES' BEST FRIEND—Secretaries visiting the annual Inventors' Fair in Paris have shown so much interest in this gadget that it is to be put into production. A tin can, an auto hub cap, a note pad and an alarm clock were used to fashion the original model. A nimble secretary can light her desk, take notes, and time appointments with the minimum of effort, by using the device.

Bible Comment:

**Attitude of Mind,
Not Momentary
Mood, Shows Faith**

AT the outset of Job's sufferings his wife appears. Many wives have been a support to their husbands in times of need, but such was not the case with Job's wife.

Apparently without any vital faith herself she virtually taunted Job with his own faith, saying to him, in effect, "Now, where's your God? What's the use of your faith, when you're covered from head to foot with boils? You'd better curse God and die."

What a woman! A man covered with boils could be pardoned for being irritable, but Job surely was doubly justified in losing some of his patience, and telling her that she was speaking like a fool: "Thou speakest as one of the foolish women speaketh."

But in the rest of his reply wisdom conquered impatience. In memorable words he said: "What? Shall we receive good at the hand of God, and shall we not receive evil?" The record truly says that "in all this did not Job sin with his lips."

There were times when Job's faith and patient endurance were not so strong, when his suffering seemed greater than he could bear, and when he felt as Jesus was to feel on the Cross, as if God had forsaken him. One might call such a mood a not unnatural reaction to intense suffering. The outcry of Jesus was more an agonizing prayer than an expression of lack of faith. Did He not say to the penitent thief, "Today shalt thou be with me in Paradise?"

It is not the mood of the moment, but the attitude of mind and heart—and will—that is the essence of faith, and of trust of God. The Bible teaches consistently that the good and upright are secure in God's keeping, but it does not teach that they are immune from trouble. The prophets held their faith and were true to their mission through deep persecution and suffering. But when Paul had listed all the troubles that could befall man, and all the forces that could war against him, his conclusion was that nothing could separate him from the love of God. That is the New Testament version of the Book of Job.

Here's the Answer

Sports Afield

By Ted Kesting

You often hear that spinning is a foolproof method of casting. Nevertheless, as many fishermen will tell you, you can get into trouble with a spinning outfit. Most such troubles, according to Joe Bates, one of this country's first spinning enthusiasts, have to do with the selection and handling of spinning lines.

First, be sure that the line is put on the reel spool properly. Make a slip noose on the end of the line; slip it over the reel spool and pull it tight. Wind the line directly on the reel by turning the reel handle, taking it off the unrolling spool. Then pay out all the line and reel it in again, allowing it to slide through the forefinger and thumb of the right hand. This will remove the twist and give proper tension.

It is important that you fill the spool to the lip—and to the lip only. A spool filled too full often causes snarls, and at the very least, makes the line difficult to handle. A spool filled not full enough shortens the distance of the cast.

Use as light line as possible. Lighter lines mean longer casts and they are less noticeable to fish. Lines in the three- or four-pound strength range are strong enough for all normal inland fishing. The way the lure is tied on is very important too. Of the several good strong knots suitable, my preference is the half barrel knot using at least six turns around the line. If the lure happens to have a turned-down eye, the turtle knot is best.

The line can be controlled with the sidecast more easily than with the overhead cast. This sidecast is done with an accelerated upswing and is the most valuable cast to learn in spinning. But the greatest secret in casting is finger-tip control. The line is picked up on the tip of the forefinger rather than in the cleft of

the finger's joint. Keep that forefinger in position, just out of the way of the uncoiling line, prepared to drop instantly. It helps stop the lure if a bad cast sends it too close to trees and bushes. Equally important, the use of the forefinger in slowing down the lure straightens out the line and makes the lure land hook forward, instead of letting it dally back with the line where it might tangle.

QUESTION: I plan to build a small brick house and would like the correct formula for mortar. We have mixed some but it seems to dry so fast we can lay only a few bricks at a time.

—F. G. Peoria, Arizona

ANSWER: Best formula is 1 part mortar cement, 2 to 3 parts sharp sand, enough pure water to make a smooth, workable mass. Water should be pure enough to drink, sand should be damp, and bricks soaked with water just before laying.

QUESTION: Am building a 2-car garage with a 2-room cottage apartment above. Can you tell me what insulation and flooring to put over the garage to prevent seepage of cold drafts and fumes from the garage into the upper rooms?

—E. F. A., Pittsburgh, Penna.

ANSWER: Most communities require a lining of masonry, stucco, or metal between garage and dwelling where the two are joined. We'd suggest stucco on metal lath. Use mineral wool bats or metal foil insulation between joists over the garage, and tar paper or felt between sub-flooring and finish floor in the overhead apartment. This combination will serve all purposes.

QUESTION: Can you tell us how to plaster cracks in our ceiling apartment above. Can you tell us how to plaster a crack in the ceiling and how to fill it with a plaster that is loose and needs to be removed?

—R. R., Chicago, Illinois

ANSWER: Press upward on any bulging sections of plaster, and if these break loose the ceiling is in bad shape and for safety's sake should be completely removed. Small cracks can be scraped clean of loose material with a pointed tool, and resanded to form an inverted V with the point upward. Wet the inside of the crack and fill with spackling compound or plaster-of-paris. Sand smooth when dry, size with glue or shellac before repainting or papering.

Dairy Barn Building Tips

If you are planning to remodel your dairy barn, Lester Legrid of the State Department of Agriculture has a few suggestions.

Legrid says you should first decide whether the present building is worth extensive remodeling. Make sure there is a good solid foundation, a sound frame, and sturdy roof. Check also on the location and whether the barn is large enough to meet future needs.

Second, Legrid advises keeping cow comfort in mind. Improvements including wider and longer stall platforms may prevent costly udder injuries and insure better herd health.

Plenty of light is also essential for a good dairy barn and should be provided for in the remodeling plan, as well as adequate ventilation for fresh air supply.

Legrid concludes that the dairy barn is one of the most important factors in quality milk production. With a properly planned barn, producers can cut down on chores and labor besides enjoying greater convenience and ease in milk output.

In making building unit changes Legrid also reminds farmers to plan, locate, and build the milk house required under state minimum dairy standards by November 15th of this year. County agents, dairy plant fieldmen, dairy inspectors and building specialists will be helpful in making buildings plans.

NOISE FOR THE BIRDS—Gratified with the way his noise-maker is keeping pigeons away from the Hammont, Ind., city hall custodian Schuyler Grubbs adds an old license plate to his gimmick. Grubbs says the pigeons sit on the cable and convert it into a noise-maker.

ANSWERS TO Intelligence Test

'Fairy Tiara' Inspires Delicate New Jewelry

Unique Method of Using Twisted Wire Makes Pieces Usable in Various Forms

BY EDNA MILES

JEWELRY with the look of dewdrops trembling on a cobweb is not only a new idea in costume jewelry fashions, it's ideal for wear on sheer, fragile summer dresses.

Designed by Sustain, this new jewelry sprang from a request of the designer's three-year-old daughter for a "fairy tiara." He made it for her, and from that came the notion that big girls, as well as small, might like such pieces.

Made by hand, these pieces are gossamer in effect. The newest collection, for summer, features tiny flowers done in delicate motifs. There are tiaras to be worn with matching earrings of white daisies, blue forget-me-nots, and yellow black-eyed Susans. There's another special series of stylized flowers in a rainbow of opalescent pastels.

The entire collection includes glittering rhinestones, synthetic pearls, jet and porcelain beads, and all of them handled for an airy, fragile effect.

Because the stones are hand-set on hand-twisted wires, the pieces are versatile. The tiara, for instance, can be worn as a necklace, too, or as one strap on a strapless evening gown.

Iridescent petals with brilliant rhinestone centers are set by hand into flexible metal wires and shaped into earrings, pins and tiara-necklaces. These are ideal for wear with pale-colored, sheer summer dresses.

Test Your Intelligence

Score 10 points for each correct answer in the first six questions:

- Which of the following generals later became President of the U. S.?
—Sherman —Sheridan —Grant —Lee
- The Kentucky Derby is run at the city of:
—Lexington —Louisville —Covington —Frankfort
- The Mikado is associated with:
—China —Iran —Spain —Japan
- Gen. Matthew Ridgway is commander of:
—SHAPE —SCAP —USAF —AAA
- The old Republic of Texas included part of the present state of:
—Montana —California —Wyoming —Oklahoma
- The first U. S. Secretary of Defense was:
—Louis Johnson —Edward Stettinius —Robert Lovett

7. Listed below, at left, are five words and opposite them, mixed up. Words or phrases that express opposite ideas. Match them, scoring eight points for each correct judgment.

(A) accelerate	—worsen
(B) procrastinate	—permit
(C) alleviate	—reduce
(D) interdict	—slow down
(E) propagate	—do it now

Total your points. A score of 0-20 is poor; 30-60, average; 70-80, superior; 90-100, very superior.

Tech. Assistance Reaches All Parts Of The World

UNITED NATIONS, N. Y.—Coal mining in Ecuador, drilling for oil in Afghanistan, improvement of new industries in Yugoslavia, better use of inland waterways in India and Pakistan, and the training for better railway operation in southeast Asia, are a few typical examples of how the United Nations is contributing to the economic development of its member countries, according to a report released at U. N. Headquarters.

Covering a fifteen month period ending last March, the report is now before the current session of the U. N. Economic and Social Council. It reveals that 65 countries, covering every region of the world, received expert assistance in a variety of fields from the U. N. Technical Assistance Administration. And with more than 300 specific requests for additional aid projects on the books, the U. N. Technical Assistance Administration looks forward to a record year ahead for aiding both advanced and backward countries in their development programs.

Described as "round two"—when government requests were mainly for aid in carrying out projects recommended by earlier missions—U. N. assistance under its specific program is given in three main fields: social welfare, economic development and public administration. Assistance in other fields is given by the specialized agencies—working in the fields of health, food, labor, aviation, education, telecommunications and meteorology — which with the U. N. TAA, coordinate their programs through the Technical Assistance Board.

In explaining the flood of new requests for assistance, Hugh L. Keenleyside, Director-General of the TAA, said that last year governments were not fully aware of the program and requests were relatively few. Of the \$20,000,000 contributed by U. N. member countries for the first year's operation, only seven or eight millions had been spent. Now, he continued, requests are coming in so rapidly that the problem was to find qualified experts who are willing to take the assignments. With the unspent portion of last year's funds, the Director-General indicated that the TAA and the specialized agencies would have about \$30,000,000 at their disposal for 1952 operations.

Projects being carried out in the follow-up stage of the program include advice on coal mining in Ecuador, where the second of two experts is now ending his assignment to advise the government on ways to mine a lignite deposit which an earlier expert found usable as industrial fuel. In Afghanistan, where a previous mission found six sources of oil, an oil consultant is now aiding the government in a test drilling. In Yugoslavia, recommendations for the correct use of large asbestos deposits are being implemented by an asbestos expert and another expert is helping to establish a factory for automotive engine parts.

Current work in India illustrates integrated planning and the use of international technical services to carry them out. A five-year program of development has been worked out by India's National Planning Commission. Six experts now being recruited by the U. N. will help operate a large fertilizer plant at Sindri. One will aid in installing a coke oven and a methanol plant received as war reparations from Germany. Both India and Pakistan are preparing a pilot project on better use of inland waterways, resulting from a TAA-

Army Gets New M-47 Tank Ahead Of Schedule

The Army unveiled its new M-47 medium tank at the Aberdeen Proving Ground, Maryland, last week and announced that at least a year has been saved in getting production by short-cutting development.

The new M-47 is a 48-ton tank which existed only in design drawings of its component parts when the fighting broke out in Korea. Within three weeks it was decided that speed was vital and on July 17, 1950, the M-47 was ordered directly into production, completely by-passing the usual mock-up, pilot model, and engineering and service board tests and field test stages. The M-47 was jumped from the drawing board directly to tooling.

The first M-47's started rolling off the line in May 1951, and were examined for the "bugs" to be expected when normal engineering development is telescoped in this way.

Serious difficulties were found in the hydraulic traversing mechanism of the turret, but engineering analysis indicated they could be corrected later without returning the tanks to the production line. It was decided not to halt production or even to slow it down. The output of tanks-with-bugs was lined up for future modification as soon as the proper engineering correction could be developed. The complete correction took about six months to verify.

The final correction was introduced first into the tanks on the current production line, and they became available for testing last month. The troublesome fire-control system finally functioned as it was designed to do. The tanks now coming off the production line are acceptable.

The previous output of the production line is now quickly getting the corrective modification. The result is that the Army will have a large number of these tanks ready for issue to the troops.

In the judgment of Gen. J. Lawton Collins, Army Chief of Staff, the gamble taken in short-cutting normal development and production has paid off in the saving of time and also money in the fast procurement of the needed tanks.

The M-47 weighs approximately 48 tons. The armor protection has been improved to make it more difficult for an enemy shell to "get a bite." Its gun has a higher velocity and greater effect.

Its advances in equipment over previous medium tanks includes a range finder to increase the probability of a first-round hit; an automatic compensator which restores the setting of the gun after each round without manual adjustments to adjust for the effect of the recoil; two separate and distinct fire-control systems which allow the gun to be sighted and fired by either the gunner or the tank commander; and both fire-controllers have been given an improved field of vision to spot targets more quickly.

The engine is an improved Ordnance-Continental, air-cooled, 810 HP, V-12. An Allison cross-drive transmission gives flexibility of operation which will outmaneuver any known enemy tank of the battlefield. Further details regarding the armor and equipment of the turret can not be divulged at this time.

The tank is being manufactured by the Army's Detroit Arsenal and the American Locomotive Company, Schenectady, N. Y.

SPOTTY FUTURE—If your wife breaks out in spots this summer don't call a doctor.

Chances are she's just experimenting with a new shampoo that lightens the hair without ammonia and can be used for spot-dyeing. The model, above, demonstrates the polka-dot version in New York. Other variations include semi-circular stripes and light chignons with dark hair.

THESE WOMEN!

"Here comes old 'have you got change for a quarter!'"

STRICTLY BUSINESS

"Hello, Argyle—still living near the airport?"

HAIR AND RECORDS JUST KEEP GROWING

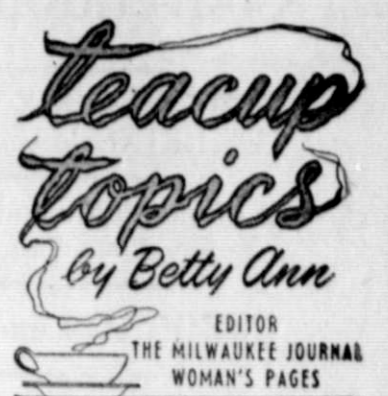

Not long ago B. W. Harkness retired at 74, after 56 years in the barber trade, 53 of them in the town of Mabel. . . More haircuts and shaves than any other barber in the world is the probable record of John A. Sundgren, 86, who retired at Duluth after 74 years of clipping and snipping—57 years in Duluth, 30 in the same shop. . . How many shears and razors these two old timers wore out was not disclosed, but at Farmington Matt Frame, 81, is still using a 61-year-old straight-edge razor.

It is an immense advantage never to have said a thing.—Antoine de Rivarol.

Ticklers

"Poodle cut, please!"

EDITOR THE MILWAUKEE JOURNAL WOMAN'S PAGES

If someone asked you to describe yourself, what would you say? Do you think you are the petite, feminine type, or the more robust, outdoor girl? Are you confident and responsive, or do you consider your personality more on the quiet side?

The crux of the matter is this—do you see yourself as you really are, or only as you would like to be? This is a question you must answer, before you can make the most of your personality and appearance.

Because a dress or hat looks lovely on a model, for instance, that's no guarantee it will be right for you. Frills and ruffles may suit your feminine figure, but not at all times. Even the most fragile women must acknowledge that certain occasions call for a little less fluff.

Perhaps everyone has always claimed you give a small appearance even though you are 5 feet 9 inches. Well, if that's the case, you probably see no reason why you can't wear small hats, tiny belts and carry undersize pocket-books.

Actually, you probably look small only because your clothes choices are just right for your figure.

Ask yourself if your voice and mannerisms belong to you or are they merely acquired. A petite woman may think it is appropriate for her to act like a "little girl," but chances are she would be much more appealing if she would just be natural.

Learn to be an individual. Don't copy anyone else's style. Look for your true self, and once you have found it, try never to lose it again.

To antique unfinished pine, stain with a solution of strong tea and a little water. Then add two thin coats of white shellac and wax. Be sure the wood is thoroughly dry between each application.

Perfume atomizers are handy, economical, efficient and most important, they diffuse fragrance evenly, thus releasing its full beauty. Atomizers also encourage women to use fragrance more often, not only personally but around the home as well.

Suits bulky and boxy or suits slim as willow wands, which will you have?

Reviewers of the fall collections sway with the wands one day and square off mentally with the boxes the next. We'll leave the merits and demerits of the pair up to you when shipments of merchandise begin to arrive.

If you thought last year's poodles and fleeces were thick it's only because you were as unaware as we were of how thick materials can get. It's astonishing how deep a curly cloth pile can go and how long a fleece's hair can be. "Utterly fascinating," say the buyers and fashion writers and how warm they look. This, of course, is not reliable testing weather.

At Seymour-Fox, as in all other pace making houses, the suit has returned to its bona fide position. It has quit trying to be a dress. Jacket lengths vary from waistline to well down over the hip. The deep wools and the sleek wools are tempered with a goody sprinkling of tweeds collared in black velvet.

Nut Pinwheels

To prepare the nut pinwheel sandwiches combine these ingredients: One and one-half (three ounce) packages cream cheese, three tablespoons milk, three tablespoons chopped parsley, one-eighth teaspoon minced onion, two lengthwise slices whole wheat bread (cut from unsliced sandwich loaf); another one and one-half packages cream cheese; two tablespoons milk and one cup chopped nut meats.

Combine one and one-half packages cream cheese and milk until soft. Add parsley and onion. Remove crusts from bread and spread one-half cup cream cheese-parsley mixture on each slice. Cut each slice crosswise into equal halves. Roll each half slice of bread up like a jelly roll. Combine remainder of cream cheese and milk until soft. Cover the outside of each roll with a thin coating of cream cheese, then roll in chopped nut meats. Wrap each one in waxed paper, twisting ends of paper. Place on a flat surface so that rolls rest on last turn of bread; chill. To serve: Unwrap and cut each roll into six slices. Yield: Two dozen nut pinwheel sandwiches.

VETS TO BE INTERVIEWED SUNDAY FOR JOINING DAY

John Richling, Jr., national service officer of the Disabled American Veterans, will be in West Bend Sunday to interview disabled veterans who have questions on their claims and who are desirous of becoming charter members of the DAV unit being organized in Washington county.

Richling will appear in West Bend at 2 p. m. at the VFW club-rooms at the rear of Chapple's Bar on Main st. (formerly Klassen's).

If possible it is planned to have the state DAV commander at the meeting. All veterans desiring further information in regard to the meeting or about joining the county chapter are urged to call John Gutjahr at 1124RU, West Bend.

William S. Martin,
Village Commissioner

CARD OF THANKS

Our heartfelt thanks to all who

extended comforting sympathy and help in our recent sorrow, the death of our beloved husband and father, Frank Sarauer. We are deeply grateful to Rev. J. B. Reichel, the pallbearers, organist, choir, drivers, members of the Holy Name society, ladies who helped with the meal, traffic officer, Miller's, for the floral and spiritual bouquets, and to all who showed respect.

Mrs. Frank Sarauer and Family
