

## Mark Coulter, 3, Town of Wayne, Killed by Car

### TWO OTHER PERSONS KILLED IN CAR, TRAIN ACCIDENTS IN COUNTY DURING WEEK

Death claimed three lives in traffic accidents in Washington county this week. The three tragedies boosted the total 1953 traffic fatalities for the county to six.

Mark Coulter, almost 3, of the town of Wayne, R. 2, Campbellsport, son of William Coulter and the late Mrs. Coulter, was struck by a car driven by Michael Darmody, 62, R. 3, Kewaskum. The accident occurred Sunday at about 4 p. m. 1/2 mile north of Wayne on County Trunk W.

Darmody was following another auto driven by Al Urban, Campbellsport, just before the tragedy took place. The small boy waited until the Urban car went by and then proceeded to dash across the road, apparently not seeing the second vehicle. Darmody applied his brakes and his car skidded about 60 feet before hitting the child.

The youngster, who had been playing with companions, was removed to St. Joseph's hospital at West Bend, but was dead upon arrival.

Mark Randall Coulter, whose father resides on a farm 1/2 mile north of Wayne Center, was born Aug. 1, 1950 at Fond du Lac. Surviving along with the father are four brothers and two sisters, William J. Coulter Jr. of Millmore, and Ramona, Sharon, Daniel, Timothy and Loren, all at home. His mother, nee Kathryn Urban, passed away Oct. 18, 1952, less than one year ago.

The body was in state at the Miller Funeral home, Kewaskum, from 2 p. m. Tuesday until 11 a. m. Wednesday and at the Salem Reformed church, Wayne, from 12 noon Wednesday until 2 p. m. the hour of services. The Rev. Donald Koehn presided and burial took place in the parish cemetery.

In another traffic fatality Sunday, Joseph H. Schmidt, 47, of 132A East Concordia, Milwaukee, was killed shortly before 5 p. m. when a car driven by Monroe P. Mueller, 48, Milwaukee, left the road and hit a large boulder near Holy Hill, on County Trunk K. Schmidt died of a broken neck and skull fracture. Also injured was the driver, who suffered an injured knee and back and a cut lip. He was removed to St. Joseph's hospital in Hartford.

Washington county's third fatality within a three day period occurred Tuesday evening at about 6:03 when Robert E. Doyle, 29, of Cedarburg, was killed when the car in which he was riding struck a north bound train at a crossing two miles south of Jackson. The driver of the car, Gerald Boegel, 19, R. 4, West Bend, was reported to be severely injured. Boegel was removed to St. Joseph's hospital, West Bend. Boegel was traveling east on the town road when his car smashed into the train between the first and second power units. After the impact, the car spun around and careened down an embankment and broke off a telegraph pole. The auto was completely demolished. Doyle was thrown from the car and was found later about 75 feet north of it. He originally came from Bell Grain, Minn.

### MRS. PETERMANN DELEGATE AT NATIONAL CONFERENCE

Mrs. Art. Petermann of Kewaskum was one of 5,508 delegates attending the Fifth National Conference on Christian Education, Purdue university, Lafayette, Ind., on June 30-July 3. Mrs. Petermann represented Peace Ev. and Reformed church, Kewaskum. The conference this year was the largest gathering in the history of the church.

### BIRTHS

SCHOOPS—A daughter to Mr. and Mrs. Theodore Schoops, Kewaskum, Thursday, July 2.

MATHIEU—A daughter, Diane, to Mr. and Mrs. Roger Mathieu, Campbellsport, Saturday, June 27.

### MITCHELLS BUY HOME

Mr. and Mrs. Ernest Mitchell have purchased the home on Prospect ave. which they have been renting from Mrs. Josephine Slesar.

## Chevs Shaded, 1-0; Win Sunday, 11-0

Results Sunday—Kewaskum 11, Saukville 0; Mequon 6, Germanatown 4; Grafton 9, Cedarburg 2; Port Washington 16, Newburg 2.

Game Thursday, July 9—Kewaskum at West Bend (night). Games Sunday, July 12—Kewaskum at Newburg, Belgium at Germanatown, Grafton at Saukville, Mequon at Port Washington, West Bend at Cedarburg.

Kewaskum split even in two contests over the week end. On July 4 they made up a rained out tilt at Mequon and were nosed out in a

### CHEVS NOSED OUT AGAIN 1-0 AT WEST BEND

For the second time in five days the Kewaskum Chevs were nosed out by a 1-0 score in a night tilt at West Bend Thursday in the Lakes league. Killy Honeck and Jim Weiss opposed each other in a terrific mound duel. Both pitched shutout ball until the ninth inning when West Bend scored their lone run. Up until the last frame Honeck hadn't allowed a Bender to get further than second base. Details in our next issue.

### THRILLING PITCHERS' BATTLE, 1-0. ON THE HOME FIELD SUNDAY THE CHEVS SWAMPED SAUKVILLE TO THE TUNE OF 11-0. THE SPLIT LEFT THE TEAM IN 5TH PLACE IN THE STANDINGS.

The Mequon game was a brilliant pitchers' duel between young Don Meisenheimer of Kewaskum and Don Rennieke of Mequon. Meisy gave up only six hits but lost his game when Marv Stabilefeldt rapped out a double with two away in the opening frame and scored on Nick Burczyk's single. Rennieke held the Chevrolets to five hits in chalking up the win.

The contest was played under protest when Manager Killy Honeck protested that Mequon had switched balls in the bottom half of

### STAUTZ IS INJURED

Jerome "Red" Stautz, regular infielder and leading batter on the Kewaskum Lakes team, suffered a dislocated shoulder sliding into base in a softball game at West Bend Tuesday night and will be lost to the team for an indefinite time, possibly for the remainder of the season. His injury is a blow to the team.

### THE CHEVS HAD A CIRCUS AGAINST SAUKVILLE HERE SUNDAY. AL DUENKEL AND MANAGER HONECK, TWO VETERANS, TOOK TURNS ON THE HILL AND ISSUED ONLY THREE HITS IN BLANKING THE SAUKS. DUENKEL ALLOWED ALL OF THE THREE BINGLES IN THE SIX INNINGS HE WORKED WHILE HONECK TURNED IN A HITLESS PERFORMANCE IN HIS THREE FRAMES OF WORK. KEWASKUM POUNDED OUT 17 HITS OFF OF WILLIAMS AND SCHREINER.

The winners started off with four runs in the opening inning and kept packing away for seven more in later frames. Bob Felix, with three for five, collected the most hits. Five of his mates garnered two apiece. One of these was Augie Bilgo, whose safeties included a home run, his second of the season.

Jerry Stautz leads the Chevs in hitting with a fat 477 mark on 15 hits in 36 trips to the plate. Bilgo, who has poked out two homers, a

## Burglary at Lee Honeck Station

The Lee Honeck Farm Supply service station on South Pond du Lac avenue was burglarized sometime last Friday night, July 3, or early Saturday morning. Lee Honeck said he believed the burglary took place sometime after midnight. A total of about \$118 in cash was taken from a drawer in the station. Evidently the burglar or burglars knew where the money was kept, because nothing else was disturbed nor stolen.

Entrance to the building was gained by forcing a rear window. The break-in was discovered Saturday morning when the place was opened for business.

Police are working on the burglary and hope to apprehend the guilty parties as they have in other recent burglaries in the village.

### KEWASKUM COUPLE HURT IN COLLISION

Mr. and Mrs. Gilbert Sell, Kewaskum, were injured when their auto collided almost head on with another vehicle on a highway near Theresa last Friday night. The young couple was removed to St. Joseph's hospital, West Bend. Mr. Sell is still confined there with a fractured leg and other injuries, while Mrs. Sell, who suffered lesser injuries, was released from the hospital the next day. The Sells were returning home from a vacation trip when the mishap occurred. The driver of the other car is reported to have been on the wrong side of the road. Both machines were badly damaged. Merlin J. Bierzter, Barton, and Alfred Preuss, Milwaukee, were drivers of cars involved in a traffic accident on County Trunk G in the Kettle Moraine area last Friday.

### ANTONELLI PITCHING! HEISDORF CATCHING!

The Milwaukee Braves may sign up a new catcher. He's Johnnie Heisdorf of Kewaskum. John went down to see the Braves hang a 4 to 1 defeat on the Chicago Cubs Tuesday night. Antonelli, Braves pitcher, delivered a pitch to the plate. Frank Baumholtz, heavy clubbing Cub outfielder, fouled it off and Heisdorf made a one-hand stab of the ball at his place in the lower grandstand to the right of home plate. So John is the proud owner of a National league souvenir. A number of other local fans attended Tuesday night's game.

### KRUEGER BABY BAPTIZED

The little daughter of Mr. and Mrs. Harold Krueger, town of Kewaskum, was baptized by the Rev. Gerhard Kaniess in St. Lucas Ev. Lutheran church Sunday. She was given the name Debra Ann. Sponsors were Jules Dreher and Beverly Stahl. Relatives were entertained.

triple and a double, boasts a .435 average. Wierman is hitting .441 and Edwards is pounding the apple at a .370 clip.

The Chevrolets played a night tilt at West Bend Thursday and on Sunday they go to Newburg to play the tail enders. There is a picnic here Sunday and the ball team should also have one at Newburg.

## Set for Firemen, Legion Picnic This Week End

This is the big week end of the annual picnic sponsored by the Kewaskum firemen and American Legion Post No. 384. It will be held on Saturday evening and Sunday in the village park. The sponsors have been working for the event most of the week and everything is set for a grand time.

Highlighting the picnic Saturday evening will be a square dance exhibition at 7:30 p. m. with Roy Christianson, Wisconsin's singing caller. All of the concession and amusement stands will be open this evening.

The doings Sunday will start with a monster parade promptly at 12:30 p. m. A very fine parade has been lined up for this year's picnic and it will be worthwhile to witness. The line of march will originate at the Legion clubhouse and proceed south on Fond du Lac ave., east on Main st., and then south again on East Water st. to the park.

The parade will feature three excellent musical organizations, including the Mercy High school all-girls' drum and bugle corps of Milwaukee, the Cedarburg Civic band, and our Kewaskum High school band. Prizes will be awarded for the best children's and commercial floats. A number of businessmen and organizations will enter floats and more are invited. Many visiting Legionnaires and fire departments, the West Bend Civil Air Patrol and numerous other organizations and units will take part in the parade.

The Cedarburg band will play concert music during the afternoon and evening. Entertainment acts will be staged by Huber's Vagabonds, who are famous performers. Still another feature will be the water fights at 6:30 p. m. Firemen from Batavia, Barton, Boltonville and Campbellsport will do the water fighting. The first two winners will battle it out for the championship.

There will be entertainment all day and a variety of concessions and amusements. Come, spend the week end with the Legion and firemen, and have a real good time.

### In the Service

#### PVT. HAROLD BATH HOME FROM KOREA

Pvt. Harold Bath of the town of Kewaskum arrived in San Francisco on June 26 and is now spending a furlough with his wife, relatives and friends. He served overseas for 11 months, most of which was spent in Korea with the 32nd Infantry regiment. Pvt. Bath expects to be discharged in September of this year at which time he will have completed 21 months of service.

#### GERHARD KANIESS, JR. RETURNS FROM KOREA

Gerhard Kaniess, Jr., son of Rev. and Mrs. Gerhard Kaniess, Kewaskum, has arrived home from Korea where he served with the U. S. Marine Corps. He will spend a 30-day leave at his home, following which he will report to a camp in California to receive his discharge from the service.

#### PVT. KIRMS ARRIVES IN KOREA FOR DUTY

With the 15th Infantry Div. in Korea—Pvt. Robert H. Kirms, whose wife, Loretta, lives on Route 2, Kewaskum, recently arrived in Korea for duty with the 45th Infantry Division.

Kirms, who entered the army in November, 1952, was last stationed at Camp Roberts, Calif. His parents, Mr. and Mrs. Elmer Kirms, live on Route 1, Belgium.

### HOSPITAL NEWS

Louis Bath, Sr., Kewaskum, submitted to medical treatment and minor surgery at St. Joseph's hospital, West Bend, Wednesday, July 8. He has returned to his home.

### NEW PASTOR AT WAYNE

The Rev. and Mrs. Donald Koehn of Milwaukee moved to Wayne last week. The newly ordained Rev. Koehn has assumed the pastorate of Salem E and R church there.

## Werner A. Bruhn Dies Suddenly

Werner Arthur Bruhn, Kewaskum, who would have reached the age of 44 years on Saturday, died suddenly of a coronary attack at 8:30 p. m. Sunday, July 5, at the home of his brother-in-law and sister, Mr. and Mrs. Milton Borchert in this village, with whom he stayed.

A son of the late Herman and Emma Bruhn, Werner was born on July 11, 1909, at Oakfield. He lived in Kewaskum and vicinity most of his life. He served in the U. S. Army during World War II, from Sept. 6, 1940 to July 16, 1945. Most of this time he spent overseas in the Pacific theatre. He was a member of Robert G. Romaine Post 384, American Legion, of Kewaskum and was very interested and active in Legion work since his discharge from the army. Werner was well known and liked, which was shown by the large floral offering and attendance at his funeral.

The young man, who was about with his friends until shortly before his unexpected death, is survived by four sisters and three brothers, Helen Bruhn of Panama City, Panama, Nora (Mrs. Bruno Leue) of Mt. Prospect, Ill., Elsie (Mrs. Sylvester Muckerheide) of Kewaskum, Linda (Mrs. Milton Borchert) of Kewaskum, Al. H. Bruhn of Medford, Columbia, South America, William A. Bruhn of Kewaskum and Richard E. Bruhn of Panama City, Panama.

The remains were in state at the Miller Funeral home from 2 p. m. Wednesday until 2 p. m. Thursday, when funeral services were held at the funeral home. The Rev. F. L. Rodenbeck officiated and interment was in Oveka cemetery at Oakfield. Military rites were conducted at the grave by the Kewaskum American Legion post.

## Proposal to Construct Sidewalk Given Board

### Adjourned Meeting June 30, 1953

The Village Board of the Village of Kewaskum, Washington County, Wisconsin met in an adjourned meeting with President C. Miles presiding and all board members present except Trustee Sparks.

The reading of the minutes of the previous meeting was dispensed with. Motion by J. Eberle, seconded by L. Kohn and carried that the application of Mary O. Jilbert for a Combination Class B Fermented Malt Beverage and Intoxicating Liquor License to operate the Republican Hotel should be approved and that the proper license should be issued upon payment of the proper fee.

Mr. Alex Nuemen of Saukville, Wisconsin asked permission to present a proposal for the construction of concrete sidewalk, curb and gutter. His proposal was as follows: Sidewalk, 40¢ per sq. ft. curb and gutter; \$2.65 per running ft. All work to be done according to village specifications.

It was the recommendation of the Sidewalk Committee that this proposal be tabled for future consideration.

Motion by L. Kohn, seconded by M. Schaefer and carried that the application of Gilbert Buechel for an Operator's License be approved and that the proper license be issued upon payment of the proper fee.

Motion by M. Schaefer, seconded by J. Stellpflug and carried that the application of Florence Schantz for an Operator's License be approved and that the proper license be issued upon the payment of the proper fee.

Upon motion by A. Martin, seconded by J. Eberle and carried, the board adjourned.

### ANNUAL SCHOOL MEETING

Notice is hereby given that the annual meeting of Jt. School District No. 5 of the Village and Town of Kewaskum, Washington County, Wisconsin, will be held at the Kewaskum High School Auditorium on Monday, the 13th day of July, 1953 at 8:00 o'clock p. m. 7-3-53 Paul Landmann, Clerk

## Harry Justman, Lloyd Backhaus Take Brides

The Rev. Walter Nommensen performed the 2 o'clock ceremony in St. Peter's church, Addison, on Saturday afternoon, June 27, during which vows were exchanged by Miss Rita Schuppel and Harry Justman, both of Route 2, Kewaskum, Mr. and Mrs. John Schuppel, Sr. and Mr. and Mrs. Herbert Justman, Sr. are their parents.

The bridal gown of white nylon over satin was fashioned with a lace outlined drape shoulder neckline. The long sleeves came to points over her wrists. Lace formed an apron effect on the full skirt which was entrain. Her flowers were white roses and carnations.

Miss Laura Justman, the maid of honor, wore a yellow nylon gown styled like that of the bride. Her crown of pearls and net was worn with a brief lace veil. An identical ensemble in Nile green was worn by Lilly Ann Justman, who served as bridal aide. Little Miss Kathleen Schuppel was the flower girl. All of the attendants carried red roses and white carnations.

Completing the bridal party were the best man, Donald Schuppel, and Kenneth Keding, the groomsmen, Master Hiram Justman served as ring bearer.

A reception at the Schuppel home preceded a wedding dance at the Kewaskum Opera House.

Mr. Justman and his bride will reside at Route 2, Kewaskum. Both are employed at the West Bend Aluminum company. She is a graduate of West Bend High school.

### BACKHAUS-MITTELSTADT

Miss Carmen Viola Mittelstadt, daughter of Mr. and Mrs. Harold Mittelstadt, R. 1, Hartford, and Lloyd Backhaus, son of Mr. and Mrs. William Backhaus, R. 2, Kewaskum, were married by the Rev. L. A. Kern in the First Evangelical United Brethren church at Hartford in a 3:00 o'clock ceremony on Saturday afternoon, June 27.

During the service Miss Joy Welker sang "The Lord's Prayer" and "Because." Two bouquets of white gladioli decorated the church for the nuptial rite.

The bride wore a gown of lace satin and nylon tulle fashioned with a lace waist and high collar. There was a lace panel down the front of the dress and the train had an edging of lace around it. The veil was fingertip length with a lace edging and the crown was of pearl sequins and pearls. Her flowers were white gladioli with silver sprinkled on them and an orchid.

The maid of honor, Miss Dolores Mittelstadt, and the bridesmaids, Mrs. Sylvester Karl and Mrs. Bernard Nelson, all wore copper-colored, ballerina length, strapless dresses with a small jacket. They wore shoes dyed to match their dresses. Their flowers were the same as the bride's, minus the orchid. Serving as usherettes were Mrs. Floyd Mittelstadt and Mrs. Myron Petri.

Glenway Backhaus served as best man for the bridegroom, while Orval Mittelstadt and Floyd Mittelstadt acted as groomsmen.

Supper was served at 4:00 p. m. to 115 guests in the church basement and a reception for 100 guests was held at the bride's home. In the evening a wedding dance was held at Vivian's resort, Big Cedar lake.

The newlyweds have returned from a honeymoon at the cottage of the bride's parents at Eagle River and now are at home since July 7 on R. 2, Kewaskum, where the bridegroom is engaged in farming and is an inseminator for E.C.B.A.C. He graduated from the Kewaskum High school. His bride, a Hartford High school graduate, had been employed as a waitress at the Hartford Coffee Shop and was a student.

### MISS GEIDEL ENGAGED

Miss Delores Geldel, daughter of Mr. and Mrs. Franklin Geldel, R. 2, Campbellsport, wishes to announce her engagement to Kenneth Jandre, son of Mr. and Mrs. Walter Jandre, also of R. 2, Campbellsport.

### MOVE TO WEST BEND

Mr. and Mrs. William Backhaus and family of R. 3, Kewaskum, have moved from their farm to a home in West Bend. Their son, Lloyd, and wife, recent newlyweds, are now occupying the farm.

## Norman Ludwig, 25, of Town of Auburn is Killed in Accident

### LOSES LIFE IN MISHAP NEAR MEDFORD ON TRIP TO SEE PARENTS OF BUDDY KILLED IN KOREAN WAR

Norman V. Ludwig, 25-year-old Korean war veteran from the town of Auburn, near Dundee, lost his life in a traffic accident near Medford Monday enroute to Wausau where he had planned to visit the parents of a friend who was killed overseas while the two were serving in the armed forces.

Ludwig, son of Mr. and Mrs. Vilas Ludwig, left Campbellsport by car Monday on a vacation and planned to visit the parents of the late Douglas Rose of Wausau. Ludwig returned to this county on March 10 after serving 19 1/2 months in Korea. Authorities at Medford said that Ludwig's car left Highway 79 at a curve and rolled over.

Norman Vernon Ludwig was born March 29, 1928, in the town of Auburn. Survivors include his parents, brother, Elton, of Kewaskum, and two sisters, Joyce and Dolores, both at home.

Funeral services were held at 2 p. m. Friday at Trinity Lutheran church in Dundee, with the Rev. Harvey Kahrs officiating. Burial was in Union cemetery, Campbellsport. The body was in state at the Twohig Funeral home, Campbellsport, from 2 p. m. Thursday until 11 a. m. Friday when it was taken to the church, lying in state there from noon until the hour of services.

## Cancer Drive Over Top, Chairman Kenny Reports

Washington county residents have over-subscribed the cancer fund campaign again this year, according to an announcement made this week by general campaign chairman Thomas J. Kenny of West Bend. Kenny said the voluntary letter campaign conducted last month produced the balance of contributions needed to reach the county's 1953 quota in the fight against cancer. He has turned \$3,370 over to the American Cancer society to help continue the broad research and education program of the national organization. A portion of the quota was raised during the Community Chest campaigns in West Bend-Barton and Hartford last fall, he pointed out.

"The people of Washington county can be proud of their record in support of the battle to conquer cancer, and can feel confident that they are playing an important role in backing up the medical researchers in the fight to find the answers that will mean the struggle has been won," Kenny said.

He extended thanks to all who helped reach the quota with their contributions and to those who volunteered to assist with the work of the fund campaign. Assisting in the campaign were vice chairman H. E. Peizer, Hartford, and the following district chairmen: Edwin Kratz, town of Polk; Lawrence Blazel, town of Trenton; Albert Ebling, town of Richfield; Victor Bauer, town of Wayne; A. John Cleary, town of Erin; Hugo Rhein, town of Germanatown; Guido Schroeder, town of West Bend; Clarence Comm, town of Jackson; Al Seefeldt, town of Kewaskum; Edwin Hausmann, town of Barton; Mrs. William H. Dieterich, town of Hartford; Merton Murray, town of Farmington; G. A. Fleckman, town of Addison; William Kratz, village of Singer; O. P. Butzke, village of Jackson; Lavern Schaefer, village of Germanatown; Lehman Rosenhauer, Jr., village of Kewaskum; Herb Matenaer, village of Barton; Walter Obenberger, city of Hartford; and Mayor Michael Gehl, city of West Bend.

### MARRIAGE LICENSES

Curtis E. Link, R. 3, Kewaskum, and Joanne M. Fay, R. 1, Kewaskum; wedding July 11. Frederick H. Engel, Jr., R. 3, Kewaskum, and Mary Gay Scaries, Kewaskum; wedding July 11. Elroy N. Getzke, R. 2, Campbellsport, and Lucille D. Janz, West Bend; wedding July 11.

### Behind The Scenes In American Business

By Reynolds Knight

NEW YORK—The change in the financial climate over the last four or five months is marked. The changing level of interest rates will have a fundamental effect on savings and investment in the next few years.

That is a long-term consideration. The small businessman, the salaried man, the home buyer, and the rest of our minor economic cogs should remember, however, that no vast changes will occur overnight. Business will be good for many months hence on the basis of factors which are already operating and can't reverse themselves in a hurry.

In May industry and regional governments—states, cities, local taxing districts and special authorities—floated \$1.1 billion of borrowings. Public utilities borrowed \$230 million of this.

Building plans may have been scaled down from the early-1953 estimate of \$27 billion, but they are still far above last year's. They will sustain the economy for a time at least against anything but an absolute—and unthinkable—collapse of demand for consumer goods.

LEAVE IT TO THE GIRLS—Housewives of tomorrow may be better businessmen than their husbands, it appears from a national letter-writing contest on free enterprise. Of 78 prize winners in the Sheaffer Pen Company's letter competition on "How I Benefit from Free Competitive Enterprise," 47 were girls. Girls took first and third places.

Carolyn Meintz, 14, a freshman at Utica (N.Y.) Catholic Academy, won first prize of \$250 plus an all-expense trip to Washington, D. C. She competed with about 10,000 other students, mostly high school seniors and juniors, from every state, Hawaii and Alaska.

"Contest entries from girls disclosed a sound understanding of free enterprise, its benefits to the individual and its contributions to American progress," said Walter A. Sheaffer II, president of the sponsoring company. "Consumer expenditure figures show the housewife controls the American family's pursestrings. Those pursestrings will be in good hands for the coming generation."

THINGS TO COME—A respirator for workers in paint spray and chemical fogs has a soft aluminum facepiece which can be fitted to the wearer. . . . A fish-scaling and cleaning knife with a large cork handle can't be lost overboard. It floats. . . . From Germany comes an automatic fog-maker to plug into the dashboard of your automobile. . . . A more flexible insulator reduces the time needed to put up an electric fence to restrain cattle. . . . A gadget for examining a diamond makes it look 20 times as large as it appears on your finger.

PASSED-ON SAVINGS—Behind the recent sharp price reduction on the Henry J. models of Kaiser Motors are benefits derived from expanded operations. The company has embarked on the largest expansion program in its history. Company spokesmen say this is resulting in lower production costs for engines and other parts.

Benefits thus passed on to the public run as high as \$150 per car. This is in sharp contrast to the probability of price increases by other manufacturers as a result of the new labor agreements in the automobile industry.

IT ISN'T PEACE—Whatever will come from a cease-fire agreement in Korea, the Administration has begun to emphasize, it won't be peace. All the problems that have been vexing the nation will remain—at home and abroad.

Just a brief listing from sources close to President Eisenhower: The drive to keep taxes up until the budget is balanced will continue. No new cuts in defense, beyond the controversial ones already made, are contemplated. European allies will still be pressed to unite to defend themselves. The demand that the Russians show goodwill by some deed like getting out of Austria stands.

Of course, these things are determined in the end by outcome of pressure from Congress. What the President plans is not always what comes to pass. Response to recent TV and personal appearances seem to show, however, that Ike's great prestige with the voter still exists, and an end to the Korean bloodletting will raise it further.

BITS O' BUSINESS—The National Association of Real Estate Boards is launching a private mortgage pool to take the place of government discounting of home sales paper. . . . The last week of May and the first week of June saw steel output above 100 per cent of theoretical capacity. . . . Hungary is supposed to be next of the Red satellites to revalue its currency, wiping out workers' savings to make them work harder. . . . Power mower makers report a big upsurge of sales. A long wet spell, then sudden heat, made hand variety too hard to push in dense grass.

### About The Home

By FRANCES DELL

The tuberous begonia is a beautiful and all-around useful flower to have in your garden.

Tuberous begonias are not hard to grow. You can start with tiny seed sown on top of loose, peaty soil. It will take about three months to get a small tuber. It will be much quicker to buy top quality tubers though somewhat expensive in some sections of the country.

In three to five weeks the tubers will have sprouted and the leaves opened. Then, it will be time to lift the tubers, disturbing the roots as little as possible, and plant each one half an inch deep in a three or four inch clay pot.

Correct potting soil is most necessary. It should be light, loose and absorbent, but well drained. A good mixture would be two-thirds sandy loam and one-third peat moss.

When potting tubers, cover the hole in the pot with half an inch of gravel; fill two-thirds full with soil. Set the tuber in place and cover half inch deep. Firm soil with thumbs.

Next, prepare soil in outdoor bed, mixing in humus and a tablespoon of bone meal for each plant.

The plants should be set out twelve inches apart and two inches deep. Keep them well watered and mulched.

### SOME FOLKS JUST CAN'T MISS

Wayne Deden graduated from Red Wing high with athletic and scholastic honors, plus the distinction of not having been absent or tardy in his six years at junior and senior high; Duane Baringer, another athlete, had a similar four-year record. . . . Eleanor Svoboda completed her grade schooling at New Prague with an 8-year perfect attendance record. . . . Among a dozen Maynard school pupils cited for perfect attendance the past year is Ardy's Hinderks, who graduated from high school with a perfect attendance record compassing her entire 12 years of schooling.

## Norway Sardines Satisfying and Versatile

BY DOROTHY MADDOX

SARDINES, hot or cold, are always a welcome addition to any meal and make wonderful between-meal snacks. Sandwiches made with Norway sardines combined with lettuce, tomatoes and cucumbers on white, rye or pumpernickel bread, and served at your afternoon or evening Canasta party are refreshing these warm days. Here's the way we make them at our house:

### NORWEGIAN SNACK-TIME SANDWICHES

(18 party-size sandwiches)

Six slices white bread, 6 slices black pumpernickel, 6 slices rye bread, 3 (3 1/4-ounce) cans Norway sardines, butter, mayonnaise, 1 cucumber, 2 tomatoes, 1 small head lettuce.

Butter bread and place lettuce leaves on three slices of each kind of bread. Completely cover lettuce with sardines. Add thinly sliced tomatoes to five halves and thinly sliced cucumbers to other four halves. Spread the remaining nine slices of bread with mayonnaise. Press tops on firmly and cut sandwiches diagonally.

Potato salad, always a favorite, takes on a tangy new slant when sardines are added. The Norwegians do it this way. It's different and delicious.

### NORSE POTATO SALAD

(8 servings)

One (3 1/4-ounce) tin Norway sardines, 8 medium-sized potatoes, 2 hard-cooked eggs, 3 celery stalks, small head Romaine lettuce, 1 cucumber, 3 large sprigs parsley, chives, dry mustard, 4 tablespoons olive oil, 2 tablespoons vinegar, salt, pepper.

Cook potatoes and set to cool. Cut the cooled potatoes in slices about 1/4-inch thick. Finely chop the celery stalks, 1 hard-cooked egg, fresh parsley sprigs and fresh chives. Mix ingredients in bowl. Drain olive oil from sardines into a second bowl and add additional olive oil, and 2 tablespoons vinegar.

Season with pinch of dry mustard and salt and pepper to taste. Pour over salad and mix thoroughly. Finally, line the salad bowl

Norwegian snack-time sandwiches are ideal for hot weather parties.

with lettuce leaves and transfer salad from the mixing bowl. Arrange whole sardines in a pyramid in the center of the salad over quartered sections of hard-cooked egg. Decorate salad with slices of fresh cucumbers with rinds.

Note: The small rich sardines from Norway come packed in either olive oil or natural sild oil. To keep any leftovers in perfect condition for the next serving, store in a tightly covered glass or plastic container, in their own oil. Keep them in refrigerator.

Mustn't Cheat  
Two crooked boxing managers were discussing a forthcoming fight "At the end of the second round," said the first, "your man will hit mine and he will go down for the count."

"No, no," expostulated the second. "Not the second round; in the seventh or eighth. We mustn't cheat the public."

On A Diet  
A man was introduced to a circus sword swallower. Not having seen a sword swallower before, he asked him to demonstrate his art, whereupon the fellow apparently, swallowed some pins and needles. "But," protested the man, "those aren't swords—they're pins and needles." "I know," was the reply, "I'm on a diet."

## Long-Grass Silage Stack Economical & Reliable Says Soil Conservationist

The grass silage stack has become one of the many weapons the farmer uses in his constant battle with the weather. One of the newest of these is the long-grass silage stack.

Weather conditions during the first cutting of the hay crop has forced many farmers to turn to grass silage in efforts to serve their valuable grass-legume roughage, according to Dale Schoephorster, farm planner for the Burnett County Soil Conservation district.

Effective conservation of soil and water is built around the use of more grass and legumes in many cases, he said. This increased acreage of meadow has farmers seeking economical methods of handling it. Many farmers do not own forage choppers and cannot purchase or rent chopping equipment.

Long grass silage has been found to be the answer in many cases. The technique of putting it up has been explained by Walter Weiss, Soil Conservation Service agronomist and silage authority, who has gleaned the material from the experience of many midwestern farmers.

The forage is taken directly from the swath after mowing, without the use of a chopper or cutter, and placed directly in a stack or trench silo. Weiss said results thus far had been encouraging.

For many farmers the stack has proved to be an economical, practical and reliable method of making a high quality feed from a crop that usually is difficult to harvest and cure because of the weather. The stack method makes it possible for farmers without upright silos to save their first cutting. The stack method can be used on any soil condition and at very little cost.

Plan ahead for your grass silage stack, Weiss said, and locate it for convenience in feeding. Consider wind direction to avoid offensive odors from reaching the house. Consider weather hazards such as snow and severe winds. Many farmers are self-feeding their long silage, so consider this possibility in site selection.

Figure the size of stack needed. One ton of hay, if put up as silage, equals three tons. A cubic foot of settled grass silage weighs approximately 40 pounds.

When soil conditions will permit, you can use a shallow or deep trench in storing long grass silage. Be sure you have drainage to the sides of the trench (crowned center) and lengthwise. Build it like a highway and have at least one foot of fall in 50 feet of length. If possible, have one end of trench at ground level. When you can travel over the stack, do not use a trench (shallow or deep) and still want side protection, you should push a soil ridge or berm up ahead of filling. This can easily be done by plowing a few furrows on each side of the stack site. Then with the manure loader, push up a 3 to 4-foot earth ridge.

A large proportion of farmers will use front or rear-mounted buck-rakes when putting up long grass silage. The following suggestions will be found helpful: Leave a high stubble when mowing. If possible, mow with wide tread tractor, so that none of the swath is driven over by tractor wheels.

Line up the point end of the buckrake teeth. When some are higher than others, they cause trouble in loading. The back part or heel of the buckrake must have freedom so it can be from 6 to 18 inches above ground and still have point end of teeth flush to the ground. If teeth are flat to ground for their entire length the green forage is more likely to get under the teeth than if heel is off the ground.

Do not windrow; pick up direct from mower swath. Buck up the forage in same direction you mow it up in any direction. Steel teeth make loading easier. For safety reasons, don't carry

or travel with load higher than radiator cap.

Pack it well. Weigh down light tractor used for packing. Build stack so packing tractor can go off and on either end.

With some front-mounted stackers and with all rear-mounted buckrakes you travel over the stack when unloading. Have a separate tractor for packing and keep packing constantly.

You can travel in high gear, both loaded and empty, with smooth travel lanes. With front-mounted buck, one-half mile hauls may be about the limit; with rear-mounted buck you can travel greater distances.

Put up forage in early (high quality hay) stage of maturity and do not over-wilt. Green material packs easier than mature or over-wilted hay.

Keep sides of stack as straight as possible and still be able to pack out against the edges.

As long as it can be safely done, pack the side edges of the stack with one hind wheel of the packing tractor on the ground and the other on the edge of stack. Keep top of stack flat. Too much crown makes packing out on edge difficult as well as dangerous.

Pack once or twice a day, for 4 to 5 days after completing stack. Don't give up too soon. What appears impossible the first few hours is easy an hour later.

Where the distance to haul is greater than one-half mile, some farmers use a stacker and dump truck combination in making long silage. Others use a hay loader and truck with hoist, so that the green forage may easily be dumped and spread while driving through the trench or over the stack.

Still others are using a hay rack bed, two-wheeled, dual-wheeled tractor and a heavy duty hay loader in putting up long silage. The hay rack bed is equipped with a conveyor (manure spreader apron) operated from the tractor power take-off through a car transmission and differential mounted on the stub tongue of the trailer.

When loading, the green forage is picked up out of the swath and allowed to pile up loader high. Then that portion of the load is moved forward on the rack by the conveyor. With three such hitches the entire rack is loaded with no manual labor involved. By reversing the conveyor unloading can be done on one location or while driving through the trench.

Another method is that of taking a one and one-half ton truck, reversing the gears, extending the gear shift lever, raising the seat, and mounting a hydraulic stacker on what was the rear end. What was the rear end of the truck is now the front end with the motor at the rear. Loads up to 3,000 pounds are easily handled with this type of equipment.

Long grass silage is not a substitute for chopped silage. It is just another way, whereby more of the nutrients from the meadow crops can be saved for feeding to livestock.

### MAYBE CRICKET READ THE AD . . .

Ray Nelson lives at Hills and has a parakeet—that is, had—no, he has a parakeet. One recent evening said parakeet took advantage of an open door, a fine evening, and a primeval wanderlust to go definitely AWOL. Ray, as everyone should in such circumstances, took off with equal promptitude and purpose for the local newspaper, the Hills Crescent to insert a want ad; which, said, among other things, that the AWOL parakeet would answer to the call, "Hi Cricket." Next day one of Art Rogness' boys mentioned to his dad an unusual bird in the yard. As all good people should, Art had read the local paper and the want ads. So he went out, called "Hi, Cricket," and lo—Ray Nelson has a parakeet.

### Bible Comment:

## Paul Was Founder Of the First Church At Ancient Philippi

THE name "Philippi" may mean little to the casual 20th century observer, but it was in that ancient city that Christianity was founded. From there the new religion was introduced into Europe. From thence it spread to our western world.

Answering the Macedonian call, Paul crossed the sea from Asia to Europe. He had seen a vision of a Macedonian man standing beside his bed saying, "Come over into Macedonia and help us."

The vision may have been an expression of Paul's waking thoughts for he must have felt, even then, that he wanted to preach the Gospel to the ends of the earth.

Paul was an imperialist and the empire he sought to build was the empire of Christ.

In this empire the lives of men would be ruled by the constraining love of Christ. But it was to be an empire nevertheless, world-wide in its sweep and ruling every destiny of man.

No earthly empire builder was ever inspired with a greater vision than that seen by Paul. And certainly, none ever served his purpose with greater intensity, determination, and courage than Paul.

As Christ began His empire among lowly fishermen and others from every walk of humble life, so the first Christian church in Europe began among a group of women meeting for prayer by a river outside the city of Philippi.

The fact that Paul had strong ideas concerning the proper place of women in society did not prevent his supreme appreciation of their value in the work and life of the church.

Among the notable women who had much to do with the acceptance and spread of the Gospel was Lydia of Philippi.

A seller of purple and apparently a very good business woman, Lydia turned from commerce to make the service of the Lord her chief business.

Paul benefitted a great deal from the generosity of Lydia. When she was baptized, she gave him the wonderful hospitality of a Christian home.

A fine gift indeed!

For a durable floor finish that is easy to apply, use a penetrating floor seal. It resists wear and discoloration and is easy to clean.

BACKSTAGE BARKERS—Puppies and pooches belonging to Broadway stars wait for the final curtain when their masters will take them home. Spaniel-sitter for the evening is understudy Jimmie Komack who is seen studying lines for the show "New Faces."

## Ten Word INTELLIGRAM

- Check the correct word.
- The Book of Genesis is in the (Old) (New) Testament.
  - A sonnet has (24) (14) lines.
  - (Bears) (Buffalos) hibernate in winter.
  - Fletcher means (flyswatter) (arrow-maker).
  - Tungsten is a (metal) (Chinese).
  - Ben Hogan is a (jockey) (golfer).
  - The thyroid is a (gland) (thigh).
  - An octagon has (18) (8) sides.
  - Sir Winston Churchill is a (peer) (commoner).
  - An apiarist studies (apes) (bees).
- Check your answers, scoring yourself 10 points for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior; 90-100, very superior.

Decoded Intelligram  
1—Old, 2—14, 3—Bears, 4—Arrow-maker, 5—Metal, 6—Golfer, 7—Gland, 8—8, 9—Commoner, 10—Bees.

### Ice Cold Cream — Navy Style

FAR EASTERN WATERS—(FHTNC)—Open house aboard the small seaplane tender USS Corson for students of the Iwakuni (Japan) Dependence School, means grins for guests and crew members alike, plus a big dividend of strawberry ice cream. Norman A. Partain, commissaryman third class, USN, of Houston, Texas, is flanked by two first graders from the school for children of military personnel; at the left is Lily Fujimoto of Iwakuni, and at the right, Tim Stodgell, formerly of Independence, Kan. (Official U. S. Navy Photo No. 410049)

## GOOD HEALTH

1. Is effective LUNG SURGERY NEW?  
2. WHAT IS PRURITIS?  
3. WHY DO DOCTORS SHINE A LIGHT NEAR YOUR EYES?

Answer to Question No. 1:  
1. Only thirty years ago operations on the lungs were great rarities and were performed with most elaborate apparatus. Most of these early operations were fatal. Today operations on the lungs are performed frequently for tumors and tuberculosis. Many patients have complete recovery, due to exceptional advances in surgery. Recent research indicates that humans may live if as much as 75% of the lung tissue has been removed.

Answer to Question No. 2:  
2. If the pupils of the eye fail to contract when a light is shone

near them, it may reveal dysfunction of certain nerves and brain centers. Only a doctor is able to judge the exact meaning of the reaction to conduct further tests if necessary.

Answer to Question No. 3:  
3. Pruritis is a medical term which merely means itching. However, it differs from the itch caused by a mosquito bite or poison ivy, in that pruritis refers to the itching which comes from no obvious cause. It sometimes occurs in such conditions as jaundice, diabetes, or just plain "nerves."

# Sports Afield

By Ted Kesting

There are such wild misconceptions of what pickereel are and where they are found, let's try and clear up the matter. In North America there are but three species: 1) The eastern pickereel, found mainly east of the Alleghenies from Canada to Florida, but sometimes caught around the Gulf states to Texas; the record is 9 pounds. 2) The barred pickereel whose range is the same as the eastern pickereel but not reported so far toward the southwest; there are no records but it rarely gets over a foot long and one pound weight. 3) The mud pickereel, found from Ontario through Iowa to the Gulf states and rarely in southern Wisconsin; no records, but is somewhat smaller than the barred pickereel. These pickereel are members of the Esocidae or pike family, the only other North American members of which are the pike and muskellunge. (The walleye is sometimes called a pickereel or a pike. It is neither, but a member of the perch family; note the spines on his back—none of the pike family has spines.)

The barred and mud pickereel are too small to be of much importance as sport fish. But in some places the eastern pickereel will average at least as large as bass. Although the pickereel rarely breaks water like a bass, he will put up a good scrap and he is really faster in his runs.

Jason Lucas says there is no need of a large assortment of lures to catch pickereel. "I've had much the best success catching pickereel on a fly rod using a plain chrome or nickel spinner ed thing to cast with a fly rod that I generally troll it—morning

roughly the size of a nickel, and behind that a plain hook with a couple of inches of pork rind on it. But a spinner is such a wretched evening—right against the outer edge of a weed bed; sometimes farther out."

Tiny fly-rod plugs are often good, too. Their color doesn't seem important, but I'm inclined to favor one that's mainly white, with perhaps a dash of bright red. For one who prefers to cast with his fly rod—which is certainly more fun—bass poppers often work fine. When they don't seem to want surface lures, a streamer is about the best, especially if it is allowed to sink a good distance before retrieving. Here again color doesn't seem important, but I prefer plain white.

With a casting rod, and plug that will catch bass will catch pickereel. However, a metal spoon or spinner is practically standard for pickereel. I rely on plain nickel or silver color. With these casting spoons a bass-size strip of pork rind helps get more strikes. If you're going to use plugs, the style isn't too important but good action is.

Spinning tackle is, of course, excellent for pickereel. The types of lures to use with it are exactly the same as for casting tackle.

## Handy Jim's FIX-UP TIPS For Farm and Home

**Round Corners for Hens**  
EVERY house, including one for chickens, needs its corners. In the case of chickens, though, corners are dangerous. They are dead-end streets to chickens. One bird may reach the corner. Others following it can begin piling up until the original discoverer of the corner has smothered.

Corners just aren't good in a chicken house. Another reason is that they are difficult to clean. Here's how some farmers have kept their biddies from so foolishly getting into a fatal corner. They've taken a long strip of Masonite 1/4" Tempered Presdwood, two feet wide, and curved it around the corners, nailing the ends to the wall studs and the curved center to a 2" x 4" stake jutting out from the corner. This neat trick eliminates the corner.

As long as the Presdwood was "de-fatalizing" the corners, many poultry men have extended the material all the way around the chicken house, so that it serves as a peck-proof strip. Tempered Presdwood is so tough and smooth that chickens can make no impression on it.

A Milwaukee man recorded atomic explosions with a deep well. He'll probably use that well for something else if the explosions get too close.

A Wisconsin mother just gave birth to her fourth pair of twins. With her it's just double or nothing!

## SCALED QUAIL

In years when the rains visit the usually arid Southwest of the United States, little coveys of blue-gray quail may be reasonably abundant except where overgrazing may have cancelled out the advantages brought by the rains. These quail range from western Oklahoma, western Texas and southern Colorado south through Arizona and New Mexico to southern Sonora and northern Chihuahua. Scurrying must well be defined as the way in which these pleasing animals get over the ground. They may move slowly for a few initial steps, but when they decide that it is best to be elsewhere they move and move rapidly.

Scaled quail are to be found in two varieties: The Arizona Scaled Quail, whose range is much as described; and the Chestnut-bellied Scaled Quail, whose range in the United States is limited to southern Texas but which is more generally thought of as a Mexican bird.

These quail are typical of the desert country though they are often the commonest quail around ranch houses and associated cultivated lands. In the fall months they are likely to be found at slightly higher elevations than is the case during the nesting season. However, a covey may spend its entire lifetime within a relatively small area. The abundance of the quail varies definitely with the nature of the season. In dry years there may appear to be no young birds, while in more favorable seasons there may be a number of broods and plenty of young to be seen.

The Scaled Quail are also called "blue quail" and "cotton-tops" and as is so often the case, a combination of these common names gives us a reasonable description of the animal. The general effect is a light blue. The feathers of the neck and breast are a light gray-blue with dark borders making the animals appear to be scaled. The top of the head has a short crest that is white-tipped giving the name cotton-top and white-top. The back, tail and wings may appear to be dull brownish. The wings at rest may be marked on their inner margins by a white streak. The young birds of the year are almost indistinguishable from the adults except for their smaller size. The very young may show a brownish crest and many of the feathers have white shaft streaks that do not appear in the mature birds.

The Scaled Quail is about one foot in length. It builds its nest under low vegetation, sometimes in a grain field. From 12 to 14 thick-shelled, lusterless, creamy eggs, usually dotted with reddish brown, are laid. The food of these quail is more largely insects than is the case with most other quails and may be up to 29 per cent animal matter. About 50 per cent of the total food is weed seeds and the remaining part is fruits.

Apparently the recuperative power of the Scaled Quail is such that with reasonable management its numbers may be maintained in the area where it is normally found. It is with the determination of what these management practices may be and the application of what is known about wildlife in general that the National Wildlife Federation is concerned.

—E. Laurence Palmer.

## Rubber Rebounds Against Blight Across Latin American Tropics

Rubber growing is returning to the Americas on a beachhead blasted out by science against the leaf blight disease.

The weapons include delicate Hevea rubber seedlings nursed back across the Pacific to their ancestral home, and "sandwich trees" built by plant experts juggling roots, trunks, and treestops like pieces in a jigsaw puzzle.

Tropical America's natural rubber output is still only a drop in the world's rubber-collecting cup, the National Geographic Society says. But the success of plant disease fighters in growing resistant strains from southern Mexico to Brazil now offers hope that rubber can again become a major crop in countries where rubber began.

**From Amazon To Asia**  
Compared to the slow, staid travels of other vegetable products, natural rubber has bounced around the world and back in less than a century. Its trail of wealth leads from Amazon jungles to England's Royal Botanical Gardens at Kew, thence to Ceylon and Singapore and to huge close-ranked rubber plantations all across Malaya, Java, Borneo, and Sumatra.

As late as 1900, nearly 99 per cent of the world's rubber came from Brazil. But jungle workers tapping one or two wild trees per acre could not keep pace with skyrocketing demands of the automobile age. By 1934, the Far East's plantation system accounted for 99 per cent of rubber production.

Ironically, although South American Para or Hevea rubber made Far East plantations possible, it could not be domesticated in this hemisphere. As fast as trees were planted in close formations, they fell victim to leaf blight, a disease that does not exist in the Orient.

Since the early 1920's, major U. S. rubber companies have tried to establish plantations in the American tropics. Beginning in 1940, their efforts and those of cooperating Latin American countries have been aided by scientists of the U. S. Department of Agriculture.

**Tailor-made Trees**  
Rubber trees sometimes were rebuilt from the ground up—

## NEW MATERIALS USED IN MEN'S SUMMER SUITS

Men's summer suits that resist wrinkles and hold a crease are available in both medium and high cost fabrics, according to Gladys Meloche, clothing specialist at the U. of Wis.

The medium price suits are made of an orlon and cotton blend. Orlon makes the material wrinkle resistant and cotton makes it cooler, because cotton is porous and absorbs moisture. The orlon, being stronger than cotton, makes a longer wearing and lighter weight material.

The most costly material used for summer suits is a dacron and wool blend. The dacron gives strength and the wool provides the absorbent quality, making it cooler to wear than an all-dacron fabric. The dacron-wool blend is easy to tailor, fit, and press because the wool adds "give" or elasticity to the material.

An all-dacron fabric is difficult to press at home because too hot an iron or too much pressure will damage the material. Stitching leaves permanent marks on dacron, so if you alter an all-dacron suit it can be "taken in" but not "let out."

Usually the orlon-cotton blend and wrinkle-resistant cotton suits are unlined. Unlined suits aren't as tailored in appearance as lined suits but they are easy to wash at home. It's better to dry clean lined summer suits because the lining makes it hard to do a good home-wash and press job.

roots from one Hevea strain, trunk from another, foliage from still another, joined by grafting. High-yielding strains from Sumatra, nursed in the Philippines, were brought to Costa Rica. Disease-resistant varieties were hunted down in jungles of the Amazon.

Today there are three U. S. rubber research stations in the tropics, at Turrialba, Costa Rica; Marfranc, Haiti; and Cuyotenango, Guatemala. Experimental plantings have been made successfully in at least nine countries to the south. Quarantine gardens at Coconut Grove, Florida, act as a clearing house for the entire hemisphere.

Results are beginning to show. Carefully selected and tended rubber trees with blight resistance are coming into production. Plantings are expected to increase 20 per cent in 1953 alone. Small farmers, seeing rubber successfully grown and sold, are asking for seedlings to plant among their coffee and cacao. With leaf blight beater, American-grown rubber is on the rebound.

## Look Out For Weeds; They're Summer Hazards

About the only people who ever think longingly of a long, hard winter are sufferers from the pollens of weeds and grass and from the poisonous plants that lurk in woods and fields of summer.

Doctors of the Minnesota State Medical association today point out the dangers of such summer traitors as poison ivy, therefore, also urge upon hay fever sufferers the advisability of taking steps now to avoid worse trouble later on.

If you are suffering from what seems to be a perpetual cold now, according to the bulletin, you probably have what is known as "rose fever" which comes from pollens of grasses. Roses themselves are not guilty of any of fense against such sufferers.

For these people and for the more numerous sufferers from the late August pollens of ragweed, injection of pollen extracts, given well before the pollen season starts, often help considerably, the doctors say. Also there are medications, such as the antihistamines, which are frequently effective but must be given under a doctor's supervision. For those who can pack up and leave, there is, of course, the best treatment of all—avoiding the pollens entirely.

On the other hand, ivy poisoning can be by-passed no matter where you live, the doctors point out. To do that, it is necessary to learn to know the familiar low, three-leaved plant and its equally dangerous cousin, the poison oak.

Ivy poisoning results from contact with oils on the leaves and stems of the plants. It is particularly potent if the plant is wet. Immediate washing with soap and water is the best antidote if you have inadvertently touched the plant, the bulletin says; but if irritation and blisters have already appeared, prompt treatment and care by a physician is necessary to avoid spreading the area of trouble.

**MAY H:** Will a low fat diet help to prevent hardening of the arteries?

**ANSWER:** Avoiding excess weight is now considered more important in avoiding hardening of the arteries, than mere reduction of fat in the diet.

FRANCIS KING HENRY THE THIRD OWNED 2000 "LAP" DOGS, WHICH WERE LOOKED AFTER BY 550 SERVANTS.

WILLIAMS, EDITOR OF DOG WORLD, CHICAGO, HAS JUDGED DOGS AS FAR NORTH AS ANCHORAGE, ALASKA, AND AS FAR SOUTH AS KIMBERLEY, AFRICA.

Your shoe choices for summer will naturally be based on foot comfort. But you want flattering styles, too, says Betty Ann. Here are some principles to guide you in selecting the right ones for you.

If you have a narrow foot, you can wear the shell pumps, shallowly cut, with short straps. But yours is the foot that can wear almost any style with grace.

If your foot is long, the short vamp will make it appear less lengthy. But avoid this vamp if your foot is broad as well as long. Depend on contrasts in color and material in the shoe style to give an illusion of foreshortening.

High heels likewise foreshorten the length, so, regardless of your stature, wear high heels if your feet are long. Let the heel height be in proportion to your leg.

A broad foot will look broader if toes are square and vamps rounded, so look for V-shaped vamps and toes that tend to be pointed. Avoid contrasting bands of color that make a broad foot boatlike.

White and pastel shoes are for girls with pretty, well shaped feet. Dark shoes help make the feet look shorter and narrower.

Ankle straps may be pretty in the evening but only on girls with very slender ankles, for the circular bands are thickening. Vertical straps are more slenderizing for broad feet than horizontal ones. The T-strap that slices the foot down the middle is one vertical design.

A mature woman sometimes gives a masculine look to her appearance that is totally at variance with her true, feminine personality. She does this by wearing man tailored suits and fedora hats.

She believes these clothes to be neat and in classic good taste, but one wonders if she thinks of becomingness. They may become the younger woman, particularly if she is slender with excellent body proportions, but not the mature woman.

The stiff tweeds and worsteds of these suits and their broad shoulders and practical, straight skirts provide no softness for the mature woman, and softness is what she needs.

If you are a mature woman whose habit it has been to wear man tailored suits, why not, the next time you shop for clothes, try on a dressmaker suit or dress? Select one made from a soft fabric, with flattering details and cut. The more youthful, and at the same time perfectly simple, the suit or dress is, the more likely it is to flatter you.

To wear with your new soft suit or dress, select a hat that's the antithesis of the fedora—small, shapely, simple and flattering.

The mature woman is right to want to be neat. Neatness is an essential for her—but it should be combined with softness and femininity.

The newest note in white is in leather jewelry—white capeskin and pigskin earrings, pins and cuff, bangle and expansion bracelets.

In the white leather picture also are cord collars—plain, fringed or rhinestone studded. These are lined with fabric. You can have white calf, colt or kid handbags in box, barrel or bucket shapes and white leather belts to complete the snowy look.

Upkeep of these accessories isn't as worrisome as it may sound. Soap and water care will keep all of these accessories clean. Make a thick soapsuds and scoop off the top of the bowl. Sponge off the soil and then wipe the leather with a clean, damp cloth.

It's best to sponge these white leathers after every wearing, for appearance's sake and because ingrained dirt is bad for the leather and hard to remove.

Never immerse leather, unless it's in gloves. Let suds alone do the job.

Avoid lipstick stains. Dry in an airy place, away from excessive light and heat.

Wash white leather from the start, as dry cleaning dissolves the washable finish.

When you are preparing scrambled eggs in a double boiler, keep the water in the lower part of the utensil at simmering temperature and stir occasionally.

**JOHNNY T:** Is there anything I can put on to keep chiggers off?  
**ANSWER:** Yes, there are several proprietary preparations all about the same. Rub over wrists, arms, ankles, legs, neck, ears and face. The effect will last two to four hours. It will be more lasting if clothing is sprayed, too.

**COURT, WASHINGTON COUNTY**  
**NOTICE OF APPLICATION FOR PROBATE OF WILL—TAKING PROOFS OF HEIRSHIP—AND TO CREDITORS**

IN THE MATTER OF THE ESTATE OF Benjamin Bresemann, also known as Benjamin E. Bresemann, Deceased.

Notice is hereby given that at a term of said Court to be held on Tuesday, the 28th day of July, 1953, at 10 o'clock in the forenoon of said day, at the court house in the city of West Bend, in said County, there will be heard and considered:

The application of Allen Carl Bresemann for the probate of the Will of Benjamin Bresemann, also known as Benjamin E. Bresemann, deceased, said Will being dated the 25th day of November, 1921, and for the appointment of an executor of the estate of said Benjamin Bresemann, also known as Benjamin E. Bresemann, deceased, late of the town of Wayne, in said County, and for taking proofs of who are the heirs of said decedent.

Notice is further given that all claims against the said Benjamin Bresemann, also known as Benjamin E. Bresemann, deceased, late of the town of Wayne, in Washington County, Wisconsin, must be presented to said County Court at West Bend in said County on or before the 1st day of December, 1953 or be barred; and that all such claims and demands will be examined and adjusted at a term of said Court to be held at the court house in the city of West Bend, in said County, on Tuesday, the 2nd day of February, 1954, at 10 o'clock in the forenoon of said day.

Dated June 24th, 1953.

By Order of the Court,  
Milton L. Meister, Judge,  
Bartel & Bartel, Attorneys  
Theatre Building,  
Kewaskum, Wisconsin. 7-3-3t

at 10 o'clock in the forenoon of said day, at the Courthouse in the City of West Bend, in said County, there will be heard and considered:

The application of Margaret Harter for the probate of the Will of John Mertes, deceased, said Will being dated the 28th day of May, 1937, and for the appointment of an executrix or administrator with the will annexed of the estate of said John Mertes, deceased, late of the Village of Kewaskum, in said County, and for taking proofs of who are the heirs of said decedent;

Notice is further given that all claims against the said John Mertes, deceased, late of the Village of Kewaskum, in Washington County, Wisconsin must be presented to said County Court at West Bend, in said County, on or before the 1st day of December, 1953 or be barred; and that all such claims and demands will be examined and adjusted at a term of said Court to be held at the court house in the city of West Bend, in said County, on Tuesday, the 2nd day of February, 1954, at 10 o'clock in the forenoon of said day.

**New! Anyone Can Have HOT WATER QUICK!**

**NEW POCKET-SIZE PORTABLE WATER HEATER COSTS LESS THAN \$3.00**

Merely place a portable FAST-WAY Water Heater in a receptacle containing water. Plug in nearest socket... get HOT WATER QUICK! Thousands use for bathing, scrubbing, washing, cleaning cream separators, milk cans, pails, etc. Heats small quantities very fast. Speed of heating large quantities depends on the quantity. Compare with gas. No fire to build—no hot water to carry—no running up and down stairs. No dirt, no noise, no top heavy fuel bills. Handy! Inexpensive! Read directions before using, follow. Now costs less than \$3.00. For sale by:

On all these points of comparison... **Chevrolet's farther ahead than ever!**

**... IN NEW AND ADVANCED STYLING**—The new long, low, sleek lines of the 1953 Chevrolet set new standards of beauty in the low-price field. Here you will see careful detailing and a richness of appointments always before found only in much costlier cars.

**... IN HIGH-POWERED PERFORMANCE**—The most powerful engine in the low-price field! The entirely new 115-h.p. "Blue-Flame" engine in combination with new Powerglide® brings you new high compression power and a wonderful gain in economy, too. In gearshift models you will find the advanced high-compression 108-h.p. "Thrill-King" engine.

**... IN SMOOTH, SIMPLE AUTOMATIC DRIVING**—Expect faster getaway with Powerglide's new automatic starting and passing range... and new economy, too. Chevrolet's new Power Steering® takes over 80 per cent of the work of steering, making parking unbelievably easy.

**... IN ECONOMY AND VALUE**—Now, you'll get many more miles out of every gallon of gasoline. You'll save on over-all operation and upkeep, too. Yet Chevrolet remains the lowest-priced line in the low-price field.

**... IN AMERICA'S FAVOR**—Again this year—as in every single postwar year—more people are buying Chevrolets than any other car. In fact, latest official registration figures show that Chevrolet is over 25% ahead of the second-place car. Nearly 2 million more people now own Chevrolets than any other make.

\*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Ten" and Bel Air models only. Power Steering available on all models.

**CHEVROLET**  
MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

Following the lady ambassador to Europe is her extensive wardrobe. Care and transportation of a wardrobe is a problem for any diplomat's aides. But in the case of a lady diplomat, the problem assumes astronomical proportions. Seen above, Roman workmen unload part of the trunks and chests containing the habiliments of United States Ambassador Clare Boothe Luce.

GREASE MONKEY learns he must do more than ape the antics of Army pilots at Fort Sill, Okla., in order to fly the H-23 helicopter. The chimpanzee was denied permission to fly—even as a passenger.

DOORMAN—New York policeman Leonard Michalisen is quite happy to demonstrate the "open door policy" when the person involved is someone as attractive as Betty Weisinger. The lady caught her head in a subway turnstile, as seen above, and Patrolman Michalisen of the police emergency squad freed her.

International Dairy Show at Chicago, Oct. 10-17

(Left to Right)—William Wood Prince, president of the Chicago Stock Yards; Edward J. F. Young, Chicago; W. A. Wentworth, (seated) New York City; and Dean H. H. Kildee, Ames, Iowa.

Nationally prominent men of the dairy industry were put at the helm of the first International Dairy Show, scheduled for October 10 to 17 in the International Amphitheatre, Chicago.

The show, which will be patterned after the famed International Live Stock Exposition, will be headed by W. A. Wentworth, of New York City, Chairman of the National Dairy Council, as president; and J. F. Young, president of the Chicago Farmers Club and Holstein breeder, as vice-president.

William E. Ogilvie, who is secretary-manager of the International Live Stock Exposition, was elected to the same position in the International Dairy Show. Charles S. Potter, vice-president of the Chicago Stock Yards, was elected treasurer; and Horace Walker, superintendent of cattle at the International Live Stock Exposition, as assistant manager.

The Executive Committee of the International Live Stock Exposition will be in an advisory capacity to the new show's organization and development. Its members are William Wood Prince, Chairman of the Exposition; Jess C. Andrew, West Point, Indiana, President; and H. H. Kildee, Ames, Iowa.

Good Foot Care Urged For Summer Comfort

The "barefoot boy" of song and story gets only a qualified nod from doctors of the Minnesota State Medical association in a bulletin issued today on summer foot care.

Going barefoot is a fine thing, good for the feet and good for the budget, in sand and soft grass, they say. Not so good where feet may be subject to injury from snags, nails or glass. In any case, feet should be watched for cuts, scratches, blisters, irritations of any kind and prompt first aid measures taken to protect from infections.

Summer shoes for children with normal feet should be low and pliable and interfere as little as possible with the normal action of the foot. They should also be fitted properly to allow for spread and stretch.

Weak feet, that is feet that change their shape and contour more than normal when subject to ordinary body weight-bearing, need support during the growth period of childhood. Such feet should have the attention of a physician to prevent trouble and pain later on.

For adults, summer pleasure during the hot months is likely to depend as much on proper shoes as any other one factor, the doctors point out. Feet often swell in the heat and shoes should be roomy and comfortable and without any chafing at the heels to carry people around happily in hot weather. They should also be well ventilated and they should be alternated, if possible, to allow for complete drying between wearings.

That other summer bogey, "athlete's foot," is a fungus infection which can attack in winter as well as summer and is most often contracted at swimming pools or gym floors. The best preventative is good hygiene, says the bulletin, that is, frequent washing and thorough drying between the toes. Slippers should be worn wherever many people walk inside with bare feet on damp floors. Prompt treatment, if the infection should appear, will avoid a great deal of trouble later on.

Gamma Globulin Supply Limited

Once again the polio season is here. During the past year our medical laboratories have made great strides against polio. Much has been written concerning the discovery that gamma globulin, properly administered, provides temporary protection against the crippling caused by polio. Lately vaccines which aid the body build up a resistance against the disease have also been discovered.

However, these vaccines are still in the experimental stage, and will not be available for widespread use for some time—certainly not for this season. The small supply of gamma globulin will be limited almost entirely to persons living in a home where an acute case of polio has been diagnosed.

The office of Defense Mobilization has designated the state board of health as the official agency to control the distribution and use of gamma globulin. If the need meets certain requirements, local doctors can obtain it from district health offices or city health departments having full-time medical health officers.

At the present time only one dose of gamma globulin is available on the average for every 100 persons under 20 years of age. Thus, its widespread use is impossible—and for that matter, impracticable. Since it is only effective for a short period of time, shots given before it is needed might wear off too soon, leaving your child exposed a short time later. Also, by giving your child a gamma globulin shot he may not need, you deprive someone else's child a chance to avoid paralysis. Your doctor knows when it is needed, and how to obtain it.

Our best protection against polio continues to lie in the good health rules and precautions. If we don't get overtired or chilled, don't mix with new groups or any large crowds; and take extra precautions concerning our personal cleanliness we will have done as much as is humanly possible to avoid this disease. If suspicious symptoms do occur, your family doctor can best diagnose, and if necessary, prescribe treatment.

1 Word Can Change Your Life—PACE

Does life carry you along at such a pace that you try running on ahead of God, pulling his hand, and yelling: "Come on!" But you can't hurry God. "A day with him is as a thousand years." He is patient. He takes his time.

In one of his impulsive moments, Martin Luther cried: "If I were God and the world had treated me as it has treated Him, I would have kicked the wretched thing to pieces long ago." That's just it. A man might, God won't. He knows it takes plenty of time to do anything worthwhile. He works on with mammoth perseverance and waits with wonderful patience. The trouble with so many of us is that we want the peep to be a chicken before the cracked shell has had time to dry.

God takes his time and so must you. Let him set the pace, the word that can change your life

HELLO!—Oblivious to all other men and planes at the Whidbey Naval Air Station, Wash., Lt. J. R. D. Allard and Mrs. Allard, of Salem, Ill., have eyes only for each other. Lieutenant Allard had just returned from Korean duty after flying many combat missions with a six-plane Navy patrol squadron.

AS MARGARINE AND BUTTER SLUG IT OUT

This might be called "the battle of the bulge," though little has been said about the calory content. Anyway, the University publishes enlightening findings regarding butter-margarine competition. At 50c a pound 81% say they would buy butter; with butter at \$1.00 a pound 47% would buy margarine—Webster says that's a "hard" g, like in garden . . . On \$60 income 16% of families use margarine only, up to \$100 11%, above that figure about 3.5%. In 1938 96% used butter only, now 61.4%; then only 3.5% used both butter and margarine, now 29%; then less than 1% used margarine only, now almost 10%. Nearly 80% of margarine buyers color it, 26% would buy more if it were colored, 33% would pay more for colored margarine.

HAIR BREADTH HARRY

### REMOVE WALLPAPER WITH A STEAMER

1—Soften wallpaper with steamer handpiece.  
2—Scrape off softened paper with wide blade scraping knife.  
3—Remove paste while still soft.

### QUICK! rub on MUSTEROLE

to speedily relieve muscular ACHES, PAINS STIFFNESS

### REMOVE WALLPAPER WITH A STEAMER

When redecorating walls, people are in the habit of applying wallpaper over the top of the previous layer. Some people excuse this practice by claiming that the extra layers of paper give added insulation. Probably the real reason is because it is too much work to remove the old paper, particularly if there are several layers.

The practice of applying one layer of wallpaper over another is acceptable if the first layer is stuck tightly, and if there are no breaks or grease spots. But there should never be more than two, or at the most, three layers. Eventually, it will have to be removed. The more layers, the more difficult it will be to remove.

Wallpaper which has been painted, shellaced or varnished, is difficult to remove. In these cases, it is often necessary to scratch the surface with an old saw to allow the water to get through the paper and soften the paste.

Wallpaper may be removed by wetting it with a sponge or rag and warm water. But this is a slow, tedious process. Most paint stores, and some hardware stores have steamers for rent. With a steamer, wallpaper may be loosened as fast as you are able to peel it off.

**CAUTION:** Do not use a steamer on beaver board or plaster board walls. There is danger of getting the walls too wet and damaging the wall surface.

Also, open windows to allow steam to escape from the room.

### "Monthly Pains" stopped or amazingly relieved

in 3 out of 4 cases in doctors' tests!

• Chances are you're putting up — unnecessarily — with the functionally caused pains, cramps and weak "no good" feelings of menstruation!

For, in actual tests by doctors, Lydia Pinkham's Compound brought complete or striking relief from such distress in 3 out of 4 of the cases!

Lydia Pinkham's is modern in its action!

So get Lydia E. Pinkham's Vegetable Compound — or new, improved Tablets with added iron. See if — taken through the month — it doesn't give relief from those backaches, jitters — help you feel better before and during your period!

Or — if you suffer from functional "hot flashes" or "change of life," find out how wonderful Pinkham's is for that, too!

It has a quivering effect on uterine contractions that often cause "period" pain!

### So Goes The Mind

By Orin R. Yost, M. D.  
Medical Director, Edgewood Sanitarium

(Editor's Note: Dr. Yost is a graduate of the Medical College of Virginia at Richmond, studied psychiatry at St. Elizabeth's Hospital in Washington, D. C., taught psychiatry at Columbia University, New York, was division psychiatrist of the 79th division in World War II, and is presently Medical Director of Edgewood Sanitarium Foundation.)

### SPECIAL NEEDS OF CHILDREN POINTED OUT

What about children who lie and steal and commit other acts of delinquency and crime? They must, of course, be corrected. But is this enough? Does punishment solve the problem?

All parents of wayward children soon learn that merely punishing them does not correct them nor does it solve their problems. After repeated failure, parents become bewildered and discouraged. Their love for their children turns to hate. In anguish and hopelessness they ultimately reject their children and in desperation leave them to public officials to control.

To say that these children are born thieves and liars is no longer acceptable to thinking people. Nor can it be said that they cannot distinguish good from evil. On the contrary, their delinquencies are often motivated by the knowledge that the evil they do will hurt another.

It is not enough to seek methods of correcting. There must also be a search for understanding the reason why they lie and steal. When the real reasons for their delinquencies are known, then intelligent management can be instituted. This calls into play a new approach, the study of the personality of the child, his feelings about himself and his relationships with others in the home and community in which he lives.

Until the advent of the mental hygiene movement, little thought was given to underlying causes of human behavior problems. Children, as well as adults with personality difficulties came in for study. After a time it became evident that there were many and varied causes for juvenile delinquency, and that all children behaved in a different way, a special way even under apparently similar circumstances. That they react as total beings, their thought systems, and psyche, as well as to persons, things and the atmosphere of which they are a part.

It became evident that children differ from adults in certain significant psychological respects. They require freedom to grow emotionally and intellectually, as well as physically. That they are not merely small adults. Their interests differ from those of adults. They want to play and have fun and they want especially the security which can be found only in a united family. Yet they want love. They imitate their elders, learning more from them than in any other way. They are by nature self-centered and must learn, often painfully, how to deal effectively with the frustrations of the reality round about them. Only in so doing can they develop a sense of their responsibility toward others.

The relationship which children have with their parents is a special one, and differs with each parent. It changes from time to time. This is basic in the developing personality and depends most of all upon the certainty of deep love and affection of the parents toward them, unless they are loved, they do not learn to love others.

It must be clearly understood that the causes of juvenile delinquency and its control are not well known. But there are certainly indications that it is a forerunner of most adult criminality.

It is now proposed to deal with the problem through a more intensive and extensive study of juvenile crime and of the personality of the delinquent. Research and follow-up studies are necessary to bring this about.

cares for an amazing number of types of accidents and illnesses. Laboratory and x-ray facilities, drugs and medicine, physical and therapeutic equipment must all be available to the physician to meet the daily demands of his patients.

One can readily imagine the tremendous amount of bookkeeping and records that must be kept to maintain so complicated an organization. Administrators, business managers, accountants, and personnel directors have all become necessary staff members in our modern hospitals.

Many hospitals are also educational institutions with complete schools of nursing as well as teaching facilities for the medical interns and hospital technicians.

Yes—today's hospital is a complex organization where medical, nursing, educational, business, and commercial activities are a daily occurrence.

## Sarah Anne's COOKING CLASS

### Corned Beef In Summer Gel-Loaf

Gel-cookery, the branch of food preparation using unflavored gelatin, produces this attractive corned beef and cheese loaf. As party fare, it is filling yet delicate in the subtle blending of meat, cheese and vegetable flavors.

Main dishes calling for unflavored gelatine are summer treasures... easy to prepare, cool to tempt the appetite. For this corned beef and cheese loaf there is little preparation... the meat is canned and ready for use.

- #### Molded Corned Beef-Cheese Loaf
- |                                 |   |
|---------------------------------|---|
| 2 envelopes unflavored gelatine | 1 1/2 cups mayonnaise or salad dressing |
| 1 cup cold water                | 1 tablespoon grated onion               |
| 1 teaspoon salt                 | 1 1/2 cups finely diced celery          |
| 2 tablespoons lemon juice       | 1/2 cup finely diced green pepper       |
| 1/2 teaspoon Tabasco            | 1 12-oz. can corned beef, finely cut    |
|                                 | 1/2 cup grated American cheese          |
- Soften gelatine in cold water. Place over boiling water and stir until gelatine is dissolved. Add salt, lemon juice and Tabasco; cool. Gradually stir into mayonnaise or salad dressing; mix in remaining ingredients. Turn into a 6-cup loaf pan; chill until firm. Unmold and garnish with spiced peach halves filled with pickle relish and salad greens. YIELD: 8 to 10 servings.
- Note: Cut recipe in half to fill 5 to 6 individual molds.

Supplies of beef continue plentiful, and prices on beef have dropped; so now's the time to bring out all those favorite recipes and place a beef dinner that will please the whole family.

#### Sweet-Sour Short Ribs

3 pounds short ribs  
Salt, pepper, flour, lard  
1 cup sliced onions  
1 clove garlic  
1 1/3 cups hot water  
1 small bay leaf  
1/2 cup vinegar  
3 tablespoons brown sugar  
1/3 cup catchup

Have short ribs cut in serving portions. Remove excess fat. Sprinkle with salt and pepper, and dredge with flour. Brown well on all sides in a large skillet in several tablespoons hot lard or other fat. Remove to a Dutch oven or other large heavy pan. Cook onions and chopped garlic in fat until soft; add to short ribs. Combine remaining ingredients and pour over ribs. Cover tightly and cook over low heat until tender about 2 1/2 to 3 hours. Remove ribs to serving platter and keep warm. Pour most of fat from drippings, stir in 2 tablespoons flour and enough water to dilute to strength desired. Cook until thickened. Serve short ribs and gravy on hot buttered noodles.

#### Beef Stew

1. Brown the meat thoroughly

#### Meat Loaf

1 1/2 lbs. ground beef  
1/2 lb. ground pork  
1/2 cup finely chopped onion  
2 teaspoons salt  
1/2 teaspoon pepper  
1 tablespoon Worcestershire sauce  
2 eggs  
1 cup tomato juice  
4 slices bread  
1/3 cup catchup

Combine meat with onions and seasonings. Beat eggs and add tomato juice. Cube bread and soak in liquid mixture. Beat well. Pack into a 5" x 9" loaf pan. Bake at 350 degrees for 1 1/2 hours. Let loaf stand 10 minutes then drain off liquid and turn out of pan. Spread with catchup.

#### Meat Balls

1 lb. ground chuck  
1 cup soft bread crumbs  
1/3 cup catchup  
1 egg  
1 cup grated cheese (1/4 lb.)  
1/2 cup finely chopped green pepper  
2 tablespoons minced onion  
1/4 cup lemon juice  
1 teaspoon salt  
12 slices bacon

Add bread crumbs to catchup and slightly beaten egg. Combine with remaining ingredients except bacon. Shape mixture into 12 balls and wrap each ball with 1 slice of bacon. Fasten bacon securely with a toothpick. Bake on a rack in a shallow pan in an oven 400 degrees for 45 minutes. Turn balls two or three times during baking to cook bacon evenly.

### Identification Needed To Buy Fishing License

You had better be prepared to positively identify yourself when you go to buy a resident fishing license this year, the conservation department advises, because of the state drive that is being made to prevent non-residents getting by on resident permits.

License sales outlets report that the demand for identification is having a decided effect in convincing non-residents that they can't get by on the cheaper resident licenses. In a number of cases, prospective purchasers of resident licenses changed their minds and decided to buy non-resident licenses when asked for identification.

It is a bit more trouble for residents to furnish identification, the department says, but it is necessary to hold the resident group to only those people who live in the state. The identification rule will also apply in the sale of hunting licenses.

IT TAKES BETWEEN 4 AND 4 1/2 SECONDS TO COMPLETE A DOUBLE PLAY FROM THE TIME THE BALL LEAVES THE PITCHER'S HAND UNTIL THE FIRST BASEMAN TAKES THE THROW FOR THE SECOND OUT. (THIS ALLOWS TIME FOR TWO OTHER INFIELDERS TO REACH THE BALL.)

ARMY NURSES enjoy a sight-seeing tour in historic Heidelberg, Germany. First Lieutenant Maude Kennedy (left) of 1350 Run Road, Pittsburgh, Pa., and First Lieutenant Zoe M. Orner of Logantown, Pa., pause along the bank of the Neckar River to enjoy the scenic view.

With a worried look, King Feisal of Iraq stands and salutes as the band plays his nation's national anthem. Watching him, at left, is Iraqi Premier Jamil El-Mafdal. At right is seen a soldier, who also is saluting while the anthem is played.

RED CASUALTIES OF 1,897,000 ARE MORE THAN FOUR TIMES THOSE OF UN FORCES SINCE JUNE 25, 1950.

UN FORCES HAVE SUFFERED 406,542 CASUALTIES SINCE JUNE 25, 1950.

During approximately three years of fighting in Korea, casualties have been almost four times greater for the Reds than for UN forces as seen in the above chart. Official figures recently released reveal American losses to be 24,119 dead, 130,665 wounded, 11,345 missing. South Korean casualties are 256,901. The 15 other nations fighting on the UN side reported a total of 2550 dead, 9056 wounded, 1596 missing. Officially estimated total casualties for Red Chinese forces are 1,895,000. North Korean casualties are estimated at 802,000.
