

Two Local Scouts Leave to Attend National Jamboree

Troop 7 of Section 25, including nine Boy Scouts of Washington county, have now arrived at Santa Ana, Calif., to participate in the third National Scout Jamboree, July 17-23. Some 50,000 scouts from all over the country are attending.

The Badger Council Jamboree contingent departed from Fond du Lac at 1 p. m. last Saturday and arrived at Santa Ana on Thursday.

Scouts attending the Jamboree from Washington county included: Steve Bauer and John Kliska, of West Bend; John DeLorme, Richfeld, assistant scoutmaster; Ger Weidenberg, Donald Schulteis, and Oliver Schulteis of Germantown; David Courtney and Richard Hughes, Hartford, and Michael McBride and Robert Sparks of Kewaskum.

The itinerary included the following:

KEWASKUM MAN REPRESENTS SCOUTS AT JAMBOREE

L. N. Peterson, Kewaskum, former Badger council president, Boy Scouts of America, was the official representative of the council at the Boy Scout's forty-third annual meeting held at Los Angeles July 16 and 17. Following the convocation the representatives attended the opening session of the Jamboree in Santa Ana on July 17.

A tour of the Black Hills and steak dinner on July 12, a tour of Yellowstone park about five hours at Salt Lake City on July 14, including tour of Salt Lake and supper at Temple Square Hotel; three or four stops in Utah and Nevada on July 15 with supper at Las Vegas; tour of Hoover Dam on July 16 and arriving at Santa Ana at 3 p. m.

The homeward trip will include stops at Grand Canyon, Ariz. on July 25; Gallup, New Mexico, where they will attend church on July 26; Amarillo, Texas, on July 26; Emporia, Kans. on July 27; Des Moines, Iowa, on July 28, and back to Wisconsin on July 29.

In the Service

CPL. KRUEGER, WIFE HOME

Cpl. Merrill Krueger and wife of San Antonio, Tex. are spending the former's furlough with their folks. Mr. and Mrs. Wallace Krueger, parents had not been completed at William Techtman, Kewaskum.

HAS EMERGENCY LEAVE

Pvt. Gregor Rohlinger of Fort Lewis, Wash. is spending an emergency leave with his parents, Mr. and Mrs. Leo Rohlinger, R. 3, Kewaskum. He was given the leave because of the death of his grandmother and later was given a five-day extension. He will leave to return to Fort Lewis on Monday.

Mrs. Gantenbein Dies

Mrs. Luella Gantenbein, 62, of Kewaskum, died at St. Joseph's hospital, West Bend, Friday morning, July 17, following a lingering illness. She was an employee of Regal Ware, Inc. Funeral arrangements had not been completed at the time of this writing.

ICE CREAM SOCIAL AT WAYNE CHURCH JULY 26

The Young Adults of Salem congregation at Wayne are sponsoring an ice cream social on Sunday afternoon, July 26, from 3:00 o'clock until 6:00.

Ice cream sundae will be the specialty. Bring your friends and tell your neighbors. The public is cordially invited.

NOTICE TO HOLDERS OF BASE- BALL TICKETS

Everyone who has a ticket to the Milwaukee Braves ball game on August 3 (Kewaskum night) and wishes to go by bus will please have their name on the bus list at Dr. Nolting's office so that adequate transportation can be obtained.

Chevs Lose to West Bend, Beat Newburg

LAND O' LAKES STANDINGS (Northern Division)

	Won	Lost
Grafton	9	1
Belgium	8	2
Port Washington	5	2
West Bend	3	2
KEWASKUM	5	4
Mequon	5	4
Cedarburg	4	4
Germantown	3	7
Saukville	1	8
Newburg	1	9

Score Thursday night—West Bend 1, Kewaskum 0.

Scores Sunday—Kewaskum 12, Newburg 6; West Bend 9, Cedarburg 6; Port 10, Mequon 3; Grafton 14, Saukville 1; Belgium 9, Germantown 4.

Games this Sunday—Kewaskum at Port, Germantown at West Bend, Grafton at Mequon, Belgium at Cedarburg, Saukville at Newburg.

Kewaskum broke even again in a couple of games the past week. In a night game at West Bend last Thursday the Chevrons were nosed out in another outstanding pitcher's duel, 1-0, and Sunday at Newburg the team came out on top by a 12-6 margin. The 1-0 setback to the Benders was the Chev's second by that score within six days. They lost to Mequon by a 1-0 count on July 4. Tough luck!

In one of the finest games of the season, West Bend eked out their one-run victory in the last of the ninth inning under the lights. It was a great duel between Jimmy Weiss of the Benders and Manager Kelly Honeck. Weiss pitched a 4-shutout, struck out 12 batters and gave up only three walks. Honeck did just as well if not better. He allowed only three hits, fanned nine and passed 'em, and that walk was intentional.

After blanking the Benders for eight frames, it was a heartbreaker to lose in the final inning. Norb. Soyk opened the frame with a single. Ken Franks sacrifice moved Soyk into scoring position and then Roy Kissinger drove him home with another single. Up to then Honeck had thrown a one-hitter. He pitched perfect ball for the first five innings, retiring the side in order in each frame. Weiss was touched for only one safety in the first five innings.

Kewaskum had a great chance to score in the eighth inning. Weiss hit the first batter and walked the next two. Then he struck out three batters in a row to retire the side. The hitters were C. Stautz, Bilgo and Tassar, all pretty good stickers. Jerry Stautz did not play because of an injury. The Chev's also threatened to score in the 7th and 9th stanzas but couldn't come through when the chance was there. Kewaskum left eight men stranded on the bases and the Benders only four. West Bend played errorless ball after committing eight miscues in their previous start. Honeck had two errors behind him. The hits on both teams were divided.

The Chevrons made up for the drought at Newburg Sunday when they pounded two hurlers for 13 safeties, good for a 12-6 victory. The boys tied the win as early as the 4th inning when they splurged for seven big markers on eight hits and two walks.

Young Don Meisenheimer was on the hill for the winners and he tossed a six-hitter. Meisy struck out eight Newburgers and walked five. Mertzig and Kletzien shared the mound chores for the losers. Mertzig passed three and fanned two. Kletzien walked four and whiffed four swingers.

Heading Kewaskum's hit parade was Bob Felix, who connected for three singles in four trips. Dick Edwards, "Pete" Petermann and Meisenheimer each added two safeties. Jespe and Flaecher got two apiece for Newburg and W. Kletzien homered in the last of the ninth.

This Sunday Kewaskum faces the young Port Washington team for the first time at Port. The contest was scheduled to be played here but was reversed because the local diamond has been torn up for improvement and is not in shape yet.

(CONTINUED ON LAST PAGE)

Mrs. Simon Hawig, Town Wayne, Dies

Mrs. Simon Hawig, 85, nee Margaret Heisler, of the town of Wayne died Sunday morning, July 12, at her home. She had been ill for the past 25 years or longer.

Born Nov. 8, 1867, in the town of Ashford, she had been a resident of the town of Wayne for the past 56 years. She was married to Simon Hawig at St. Killian and he preceded her in death in 1931.

Four children were born to the couple, all of whom survive. They are Arnold, Lucinda, Jacob and John Hawig, all of the town of Wayne. The deceased is further survived by three grandchildren, Arnold, Jr., Roger and Sylvester Hawig; one sister, Mrs. Kathryn Steichen of Florida; one daughter-in-law, Mrs. Arnold Hawig, and many nieces, nephews and other relatives.

The body was in state at Miller's Funeral home from 2 p. m. Tuesday until 9 a. m. Wednesday. Funeral rites were held at 9:30 a. m. Wednesday in St. Bridget's church, town of Wayne, the Rev. F. C. La Buwi officiating. Burial was in the parish cemetery.

MRS. JOHANNA HALL

Funeral services for Mrs. Johanna Hall, 84, widow of Michael M. Hall, a native of the town of Ashford, who died Tuesday, July 7, at the home of her daughter, Mrs. Reginald Pierret in that township, were held Friday at 9:30 a. m. at St. Martin's church, Ashford, with burial in the church cemetery. The Rev. A. P. Kraus officiated.

Born Feb. 13, 1869, Mrs. Hall was married on Nov. 26, 1889, at St. Martin's church at Ashford. Surviving are three daughters and three sons, Mrs. Pierret, Miss Frances Hall, Campbellsport, Mrs. Leo Rohlinger, Kewaskum, Michael and John, Campbellsport, and Gregor, West Bend; 25 grandchildren, and five great-grandchildren. Three daughters preceded her in death.

HOSPITAL NEWS

Richard, son of Mr. and Mrs. Jacob Kuehl, Kewaskum, is a patient at St. Agnes hospital, Fond du Lac, where he underwent surgery last Tuesday.

Susan, daughter of Mr. and Mrs. Harold Marx, Kewaskum, submitted to an appendectomy at St. Joseph's hospital, West Bend, last week.

Dennis Lee, son of Mr. and Mrs. Roger Kuehl, St. Killian, has returned home from St. Agnes hospital, where he was confined for a week with a cut foot injured in a grass mower.

EDGAR LOOMIS, OTHERS CALLED TO ARMY DUTY

A total of 19 draftees comprised the Fond du Lac county group which departed for the examining and induction station at Milwaukee July 15. The selectees included Cornelius Joseph Reisler, R. 1, Campbellsport, and Edgar James Loomis, R. 2, Campbellsport (New Prospect), who just recently was married to Janette Krueger of Kewaskum.

HARTER BABY BAPTIZED

The infant son of Mr. and Mrs. Gregory Harter, town of Auburn, was baptized by Rev. P. Schwamb at St. Matthew's church, Campbellsport, receiving the name Glen Louis. Sponsors were Roland Stoffel and Gloria Harter. The little fellow, who has two sisters and a brother, was born June 27, at St. Agnes hospital, Fond du Lac.

BIRTHS

SCHUPPEL—A son to Mr. and Mrs. Donald Schuppel, R. 2, Kewaskum, Sunday, July 12.

MEINHARDT—A son to Mr. and Mrs. Lester Meinhardt, Madison, recently, Mr. Meinhardt is a son of Mr. and Mrs. Fred Meinhardt, Kewaskum.

MARRIAGE LICENSE

August F. Bilgo, Kewaskum, and Verla R. Schloemer, West Bend; wedding July 18.

Many people who aim to please need target practice.—Wellman L. France.

Firemen-Legion Picnic Here is a Great Success

Ideal Weather Over Week End Draws Record Crowds to Event, Parade; Many Prizes Awarded

Another Firemen-Legion sponsored picnic in Kewaskum is history and this year's annual week end event was one of the most successful ever held. Warm, humid weather which was perfect for a picnic helped draw record or near record crowds Saturday night and Sunday. Threatening clouds filled the sky early Sunday afternoon but not a drop of rain fell and later the sun shined hot and bright again.

Although the crowd was not as large at one time as it has been at some previous doings here, the total for both days was larger and the gross amount taken in was very good. Refreshment stands were especially busy and the games and amusements were well patronized. Almost everything went off very smoothly.

Saturday night's square dance exhibition appealed to the people and the dancers kept it for a length of time. The folks stayed in the park with the weather so warm and the stands operated until a late hour.

Sunday's feature was the parade at 12:30 p. m. to start off the day's activities. This year's parade was one of the finest held here in years and it was witnessed by a very big crowd which lined the streets. The parade was highly praised by spectators as one of the best they've seen at picnics in this area. Musical organizations highlighting the parade were the Mercy High school all-girls' drum and bugle corps of Milwaukee, Cedarburg Civic band and Kewaskum High school band. There were a number of beautiful commercial floats and many very original and decorative children's entries, both serious and comical. Visiting fire departments, Legion and V.F.W. posts, and many other units rounded out the parade. During it, traffic was tied up for about two miles south of Kewaskum. Newspaper photographers and numerous amateurs took photos of the parade. Pictures were taken in the park during the picnic, too, of some of the busiest stands.

Among the commercial floats, first prize went to the Kettle Moraine V.F.W. post with their float depicting the flag raising on Iwo Jima, second was won by Kohn Bros. with their ancient and unusual steam engine, threshing equipment and other machinery. Third was awarded to the Miller Furniture "Baby Sitter Paradise," fourth to Billy's Car Hop's float, and fifth to the very comical "Ma and Pa Kettle" with their jalopy and kids.

Children's float prize winners were: 1. Alice in Dairyland; 2. Covered Wagon; 3. Uncle Sam; 4. The Three Bears; 5. Little Girl in Yellow and Green Pushing Buggy; 6. Hot Dogs; 7. Old Gold Cigarette Girls; 8. Barbara Koch; 9. Two Indian Girls; 10. Johnson Indian Boys. A record of the names of the children was not kept.

Parade judges were Mrs. Minnie Mertes, Clifford Rose and Charles Sparks.

During the afternoon and evening Sunday music was provided by the Cedarburg Civic band and entertaining acrobatic and tumbling acts were staged by Huber's Vagabonds. The latter made a big hit.

Another Sunday feature included the water fights at 6:30 p. m. Barton defeated Campbellsport in the first fight and Boltonville bested Batavia in the second. In the championship round Barton got the best of Boltonville in the first fight but then it was called a draw when the equipment broke and the time ran too long.

Winners of the valuable prizes awarded in the evening, on which tickets were sold by the firemen and Legionnaires were as follows:

1. Speed Queen Washer (\$99.95)—Ed. Schaefer, Kewaskum.
2. Lloyd chrome table and four chairs (\$79.00)—Donald Det, Kewaskum.
3. G. E. vacuum cleaner (\$74.95)—Stan and Larry's, New Prospect.
4. Marlin 32 special calibre rifle (\$68.95)—Carl Waehs, West Bend.

Mary Gay Searles, Fred Engel Jr. Wed

Fred H. Engel, Jr. and his bride of Saturday, July 11, will reside at Wayne when they return from their honeymoon in the Black Hills, So. Dak. and Colorado. The 9:30 nuptial mass was read in Holy Trinity church, Kewaskum, by the Rev. F. C. La Buwi.

Mrs. Engel is the former Mary Gay Searles, and is a daughter of Mrs. A. H. Runte, Kewaskum, and C. A. Searles, Wisconsin Rapids, Wis. Mr. Engel is a son of Mr. and Mrs. Fred Engel, Sr., Neenah.

A dinner in the church parlors was followed by a reception at the Moombs Inn at Germantown.

Iridescent embroidery at the neckline and on the full skirt enhanced the bridal gown of tulle, lace, satin and net. The fitted bodice with long lace sleeves, was closed to the waistline with tiny self-covered buttons. The skirt was entrained and was worn over satin. Her veil fell from a crown of iridescents. Ivy and stephanotis formed the bridal bouquet.

Spanish type gowns of white tulle over net with ruffle trimmed skirts were worn by Mrs. R. J. Schlosser, the matron of honor, and the bridesmaids, Karen Searles, Violet Ramthun, Louise Ströhmeyer, Betty Koerble and Ruth Gillespie. Stoles were worn over the strapless bodices of the ballerina length gowns. They carried bouquets of polished ivy and wore crowns of ivy and stephanotis in their hair. White shoes completed their attire.

The bridegroom was attended by Sgt. R. J. Schlosser as best man. Guests were seated by Aloysius Staehler and John McElhatton.

The bridegroom is employed as a laboratory technician at Regal Ware, Inc., Kewaskum. He is a graduate of Neenah High school and Fond du Lac Junior college. His bride graduated from Kewaskum High school and attended State College at Stevens Point and Milwaukee State College.

NO SERVICES AT NEW FANE SUN.; PASTOR ON VACATION

On Sunday, July 19, there will be no services at St. John's Lutheran church, New Fane.

Services will be resumed on Sunday, July 26, at 9:30 a. m., when the Rev. Ed. Schmidt will conduct the service in the absence of Rev. E. J. Zanow, who is vacationing in New Mexico at this time.

Rev. Schmidt is stewardship secretary and mission director of the South Wisconsin District of the Lutheran church, Missouri Synod.

LETTER TO EDITOR

A letter to the editor was received on Wednesday signed by "A Citizen," who requested that we publish it. It pertained to the village board. We will be happy to print the letter if the writer will give us his or her name. It is not necessary to publish the name of the person with the letter but we must have it for our personal reference. Readers are again reminded that all news items turned in must be signed.

DREHERS OPERATE TAVERN

The Wayne tavern reopened last Thursday, July 9. The present temporary operators are Marlin Dreher and Lester Dreher of Kewaskum. Owners of the tavern are Forester Bros., who purchased it in 1932. The tavern and a home will be sold at auction Sunday, Aug. 2.

Advertisements in the Statesman Want Ad Section.

5. G. E. electric toaster (\$35.95)—Bernard Hafemann, Kewaskum.
6. G. E. steam iron (\$18.95)—Louis J. Heisler, (Sr.), Kewaskum.
7. Table lamp (\$17.95)—Lee Bradke, Kewaskum.
8. Bridge set, table and 4 chairs (\$16.95)—Urb. Gehl, West Bend.
9. Hydraulic bumper jack (\$13.75)—Mrs. Lee Bradke, Kewaskum.
10. Regal electric percolator (12.95)—George E. Koerble, Kewaskum.

The firemen and Legion post wish to extend thanks to everyone who helped in any way to make their picnic such an outstanding success, especially all the helpers, those who participated in the parade, and assisted in any other way.

C. Stautz is New Legion Commander

Robert G. Romaine Post No. 381, American Legion, of Kewaskum, has elected Clayton Stautz to succeed Ralph Marx as commander for the ensuing year. Other officers were also elected by the Legion for the next year. They are as follows: 1st vice-commander, Otto Weddig; 2nd vice-commander, Lee Honeck; chaplain, Allen Tassar; sergeant-at-arms, Darwin Bruesel; historian, Elsie Muckerheide; executive board, Wilmer Frost, Norman Held and Sylvester Terlinden.

The new officers of the post will be installed at the September meeting.

Annual County Fair to Start July 30

The gates, so to speak, of the Washington county fair will open for the 58th annual time a week from next Thursday at the fairgrounds at Slinger. The Washington county fair is a 4-day event starting on Thursday, July 30, and closing Sunday, Aug. 2.

The fair operates as a free fair with no admission charges and with plenty of free parking space.

Practically all of the available space on the fairgrounds will be occupied by exhibits, concessions, and the midway according to E. E. Skalesky, secretary of the fair. More than 25 tents will be erected to house the many commercial displays for which concession space has been requested. All indoor space will be occupied by the usual exhibits of clothing, foods, canning, baking, vegetables, flowers and educational booths.

It is expected that livestock entries will occupy all available barn space including space in the new 60x100 foot highway storage shed. Poultry as in past years will be housed in a tent east of the barns.

Many commercial concerns of the county have requested space for exhibiting their merchandise. Farm implement dealers who will have a large display will occupy space south of the barns. So also will automobiles and other types of machinery be exhibited in this area.

The Wisconsin Electric Power company will have their usual space including a large tent featuring electrical equipment of all kinds. A new feature this year will include an electrically operated feed mill which will grind grain free for farmers at various times during the 4-day event.

A full evening's program is being planned for Thursday and Friday evenings, July 30 and 31, starting at 7:30 o'clock with a concert by a county band.

On Saturday and Sunday, an afternoon and evening program will be presented. More information on the various program numbers will be given in a later issue.

Saturday afternoon will be set aside as a special day for the children. Admission to shows and rides will be reduced to nine (9) cents. A full afternoon program of free acts will be presented.

Arrangements have been made with the Johnson Bus Service to operate busses to and from the fairgrounds. Here is the schedule:

Friday evening, July 31—Take on passengers at the intersection of Highways 33 and 55 (across from Echn's filling station) and also at the corner of Hickory and Main streets, West Bend. The busses will load at 7:00 p. m.

On Saturday and Sunday there will be both afternoon and evening bus service. The busses will leave West Bend at 1:00 and 7:00 p. m. All afternoon busses will leave the fairgrounds at 5:00 p. m. and the evening busses at 11:00 p. m. for the return trip to West Bend. This bus service will enable children and those who do not care to drive to spend the afternoon or evening at the fair.

All livestock exhibitors are reminded to make livestock entries as per the schedule given on page 27 of the premium book. Late entries cannot be accepted for premium competition.

MISS HOFFMAN ENGAGED

Mr. and Mrs. Paul F. Hoffman, Sr., Kewaskum, announced the engagement of their daughter, Dorothy Marie, to Robert R. Reuter, West Bend, on Sunday, July 12.

Badger Firemen 75th Tourney at Germantown Sun.

The Germantown firemen have been working to make the Badger Firemen's association diamond jubilee and tournament and their annual picnic on July 18 and 19 the biggest event of the season.

Saturday evening will open with a picnic and carnival. There will be a continuous 4-hour show by the High "C" Review of 24 artists.

Sunday firemen from the association, including Kewaskum, will assemble at 8:45 a. m. and contests by the various departments will begin at 9 a. m. The parade will begin at 12:30 led by the championship Oconomowoc Legion band augmented by the Amvet Drum and Bugle Corps of Menomonee Falls and the Ladies' Drum and Bugle Corps of the Henry J. Schaefer Legion Post of Milwaukee. Children are invited to enter the costume parade. The grand award will be a new bicycle. Regular cash prizes will be awarded other winners. The parade will also include members from the 23 fire departments of the association and floats.

Entertainment will be furnished by the Oconomowoc band. The Clipper City rides and carnival will have the rides. There will be free parking for at least 5,000 cars.

Kewaskum firemen are urged to participate in the parade. Cash prizes will be awarded to departments with the most men. Many local firemen and their families will attend.

Farm Management Tour of Local Farms Tuesday

The annual mid-summer farm management tour will be held on Tuesday afternoon, July 21. The tour will assemble on the Roman Forester farm near Kewaskum, at 1:30 o'clock. Any farmer is cordially invited to attend.

The Roman Forester farm is located on Highway 29, two miles west of Highway 45-55.

Here is the program for the afternoon:

- a. 14 varieties of leading varieties of oats, b. 4 varieties of leading varieties of barley, c. Commercial fertilizer trials with 8-20-20 and 0-10-20, d. Growing corn field in 100-bushel yield contest, e. Hay crusher in action.

3:00 p. m.—Mrs. Joe Schoofs farm orchard; orchard is on Highway 28 and one mile east of grain test plot.

See: a. Well cared for farm orchard, b. Effective orchard spraying program.

3:30 p. m.—Louis T. Ogenhoft farm, 1/2 mile north of Schoofs orchard.

See: a. Contour strips, b. Diversion terraces, c. Mow drying of chopped and long hay.

Mr. Vandervest of the agronomy department, College of Agriculture, will be present to discuss the relative merits of the new grain varieties.

The purpose of this tour is to show good accepted farm practices not commonly found on most farms. There will also be other worthwhile farm practices for you to see.

Scores Sunday—Kewaskum 11, Fillmore 8; Bears 12, Beechwood 9; Merchants 15, New Fane 5; Wayne 11-14, Allenton 10-6 (doubleheader).

Schedule Sunday—Merchants at Kewaskum, Fillmore at Beechwood, Wayne at Bears, Allenton at New Fane.

—MODERN PAINLESS CHIRO- PRACTIC. ROBERT G. ROBERTS, D. C., 702 ELM ST., WEST BEND, WIS. 7-37-12

—Mr. and Mrs. Aug. C. Ebenreiter vacationed a few days the past week in Door county.

Teacup Topics

By Betty Ann

EDITOR
THE MILWAUKEE JOURNAL
WOMAN'S PAGES

Teen agers, have you noticed that girls who fiddle with their hair and faces are often the ones with unattractive scalp and complexion conditions?

You carry bacteria to your skin, whether on face or scalp, whenever you finger it. Your skin already has bacteria on its surface, simply from contact with the air, but it does a good job of preventing blemishes if you cooperate. Don't add to its burden by giving it germs from your fingertips.

Cooperation with your skin means washing it twice a day with a neutral soap and water, says Betty Ann. It means getting enough sleep and eating a balanced diet, with no undue emphasis on carbohydrates and fats. It means keeping combs and brushes, towels and washcloths sanitary. Never borrow those of anyone else.

If you should be unfortunate enough to develop a blemish or two, leave them alone until they are ready to be squeezed antiseptically. Fussing with them will enlarge the area of infection and may leave a scar. Scratching your scalp can do the same. Find out the cause of the itching—it may be dryness or the need for a shampoo—and overcome it.

Even a perfectly smooth skin may develop blemishes if a girl can't keep her hands away from it. So, beware of any tendency to twiddle with curls or rub your skin as you concentrate on other things.

Style advances in other home furnishings are strongly influencing the designing of china and lamps. In china—as in furniture—the trend is toward modern and casual. Formal china goes more contemporary; earthenware takes an even more casual look with accent on textural effects.

Patterns lean toward simplicity with outdoor subjects popular: Twigs, branches, pine cones, well drawn florals, patterns inspired by the desert.

Colors are outdoorsy, too: Green topping the list in glasses as well as dishes. Blue is coming up in china and earthenware; brown is a runnerup to green in glassware. Last season's gray for dishes is still the popular tone for use on top of gay, colorful mats. Things to watch: Platinum as a decoration for china and the growing use of detergent resistant decorations. Dishwashers and the new detergents can do things to poor decorations. Also consider the new smart oven to tableware. It saves on extra dishwashing and time; it's decorative on the table.

Modern has become softened in lamps the way it has in furniture. It isn't that crazy abstract type we had for a while. There's a more elegant look to lamps as more brass, instead of wrought iron, is being used. Black and brass being used together. Black or brass in combination with rattan, wood or ceramics is a new note.

Like china, texture is important in ceramic based lamps. White is the smart accent color. You can get all size lamps now instead of previous season's leanings to the tall or the shorts. There are plenty of long, low lamps to set atop long furniture pieces. In shades look for more texture, too: Plasticized shades with flowers or ferns embedded in them. They give a soft hazy look.

Vegetable Ring Salad

One envelope unflavored gelatin; ¼ cup cold water; 1 can (1½ cups) condensed consommé; 2 hard cooked eggs, sliced or chopped; 1 cup shredded cabbage; ¼ cup sliced stuffed olives; 3 tablespoons sweet pickle relish; 2 tablespoons lemon juice.

Soften gelatin in cold water. Heat one-fourth can consommé; add gelatin and dissolve. Stir gelatin into remaining consommé; chill until slightly thick. Add remaining ingredients. Rinse a one quart mold with cold water; pour in salad. Chill until firm; unmold, serve on salad greens. Six servings.

For a quick and delicious company dessert fold halved sweetened strawberries (well drained) and diced bananas into sweetened whipped cream. Spoon into sherbet glasses and garnish with curly shaving of semisweet chocolate.

When you use kitchen wax on your cabinets and other enameled surfaces, remember to apply the wax to no more than a few square feet at a time, rubbing only enough to loosen dirt. While the wax is still moist, polish with a clean, dry cloth.

About The Home

By FRANCES DELL

Statistics show that most accidents in the home result from carelessness. Something can be done about this.

Ladders are a "must" in every household, and should be used when washing windows, hanging curtains and cleaning walls and ceilings, etc. Many hard falls have resulted from a housewife using a chair or stool to perform such jobs.

The burners on gas stoves should be completely turned off when not lighted for use. Pilot lights should be high enough to remain burning even when gas is low. When children are in the kitchen be sure that all of the pots cooking, are pushed to the back of the stove out of their reach.

Train children to pick up and put away their toys. Never allow toys to remain scattered over the floor as this is one of the greatest household hazards known. Provide an attractive chest decorated with nursery figures.

PARISIAN PYRAMID—Three Sunday afternoon athletes perform a difficult hand-balancing act. They are seen above on the bank of the Seine River in the heart of the French capital.

A POUND OF FIRE INSURANCE

A pound of baking soda kept in the glove compartment of your car is a wise precaution. Fires can get started quickly—in the engine, even in the upholstery or ashtray. Sprinkle soda over the smoking spot, and fire will be instantly extinguished. Baking soda produces carbon dioxide which settles around the blaze, cuts off its oxygen, and squelches the fire.

GOOD HEALTH

1. WHY IS CANCER TREATMENT LIKE GARDENING?

2. HOW LONG DOES PNEUMONIA HOSPITALIZE YOU?

3. WHAT DO COLDS COST?

Answer to Question No. 1:

1. The Sloan-Kettering Institute points out that, since cancer is like a terrible weed, the destruction of the disorderly growth of cancer cells follows gardening methods: pulling out the weeds (surgery); burning out the weeds (irradiation); altering the soil (changing body fluids by giving steroid hormones); killing the weed in the soil (giving treatment to kill cancer cells, yet leaving normal cells unharmed); exploding weeds with chemicals (use of chemicals which explode cancer cells). Every gardener knows weeds are easiest to destroy when they first appear. The same is true of cancer.

Answer to Question No. 2:

2. It used to be that pneumonia would keep you in the hospital for as long as five weeks. Now, because of modern drugs and techniques, many cases of pneumonia can be discharged from the hospital in five days. Although hospital costs have risen, because modern hospitals, adapted to high standards of medical care, are expensive to operate, this reduction in the length of hospital stay has actually lessened the expense of illness.

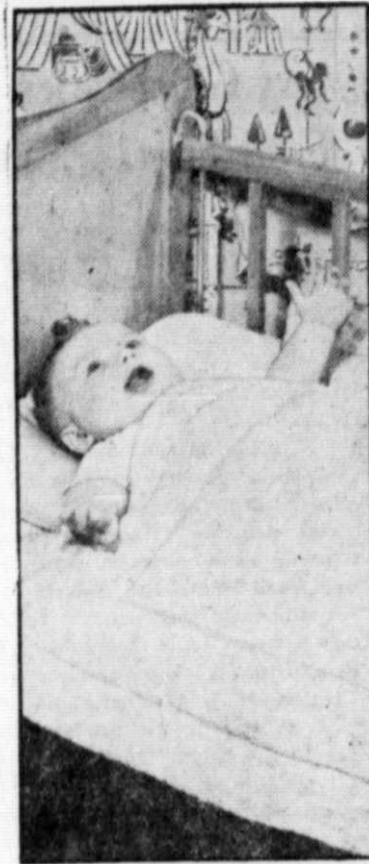

Answer to Question No. 3:

3. Authorities say 40 per cent of all days lost from work are due to colds. Assuming a \$7 a day loss in earnings or productive capacity, colds cost \$420,000,000 a year on this basis alone. In addition, they often lead to more expensive and more serious illnesses.

Here Are Time-Saving Bedclothes for Baby

BY EDNA MILES

This brand-new quilt is in puckered nylon with an all-nylon filling. It's printed with floral patterns and pastel colors.

MAKING up a bed for most small fry requires athletic prowess plus the vigilance of a sheriff in a Western movie. As fast as the bed is smooth and neat, the small gremlin tears it apart. The sheets either land on the floor or engulf the bed's occupant.

Coming to mother's aid in this uneven battle are some recent bedmaking innovations. First of these is the brand-new, printed, contour crib sheet that can't possibly pull out. Because of its fitted corners, no pinning or tucking is needed. It comes in these colors, too: yellow with green, blue with pink, and green with yellow trim.

Puckered nylon with an all-nylon filling makes a light, airy, cozy comfort-quilt that washes easily and dries quickly. Through washings, it retains its shape. Furthermore, it is moth and mildew resistant.

This is ideal for babies who are allergic to wool. But it's also ideal for mothers who are allergic to the idea of slaving over a wash tub. It cuts down on the need for large stacks of bedding for baby and makes it possible to save on both money and space.

This is in floral patterns and comes in the pastels: pink, blue, white and maize.

This new fitted crib sheet stays smooth and tidy no matter how much a baby kicks and tumbles about in bed. It's printed with a gay bunny pattern in bright colors attractive to children.

"Take It Easy" Cited As Hot Weather Advice By Doctors

Nobody ever beat the heat by worrying about it, according to a bulletin about hot weather issued by the Minnesota State Medical association.

"Take it easy" is cited as good weather advice, as well as a popular tag-line. If everybody took the advice seriously when the mercury climbs to the 90 mark and higher, there would be fewer heat collapses and a much better summer for all concerned.

Beating the heat is a matter of good psychology and a few simple rules, according to the doctors. First, you should wear light, loose clothes, preferably cotton, and as few as possible. Second, you should stay out of the hot sun when you can, and wear protection for head and eyes, when you can't. Third, you should stop hurrying and worrying. Fourth, you should eat a lighter diet involving less hot cooking and including more than usual of vegetables and fruits. Also, you should add a little extra salt or a salt tablet to make up for salt loss in perspiration.

Having done these things, you should stop thinking about yourself and your troubles and you are practically certain to avoid any serious trouble from the heat no matter what the temperature.

For those who do fall victim to the weather, the doctors have this to say: The first signs of sunstroke are pain in the head, dizziness, dry skin and mouth, nausea and rapid, full pulse. The victim should be removed to a cool spot and stretched out with head and shoulders slightly elevated. Wet cloths or ice should be applied to the head, but no stimulants should be given; and no cool drinks, unless the victim is conscious. Call the doctor at once.

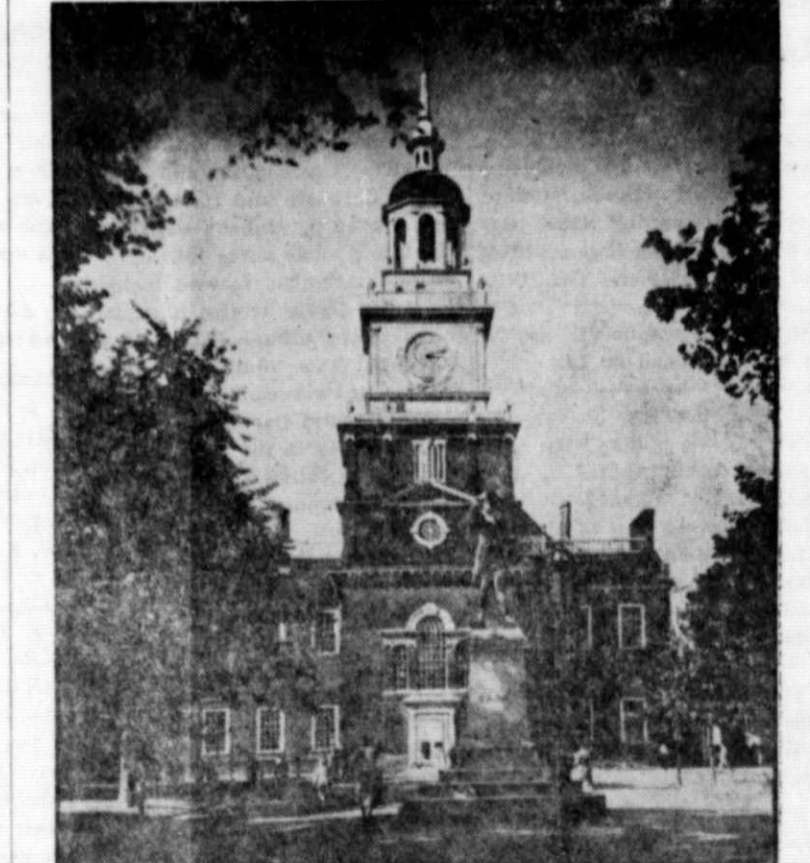

Victims of heat exhaustion from high temperatures inside or in the shade should lie down and sip cool liquids to which about a teaspoon of salt to a pint, has been added. Symptoms of heat exhaustion are faintness, weak pulse, nausea and muscular weakness. If improvement is not noted promptly, a doctor should be called.

AND INTO THE TREES—Foliage is no problem for former Open Champion Byron Nelson. Seen above, he shoots through it while playing in the Colonial Invitation Tournament at Fort Worth, Tex.

SPOTLIGHT ON BANKERS

Fifty-one Minnesota bankers are now in proud possession of the 50-year plaque awarded for half a century of banking service. Wallace L. Boss of St. Paul, new president Minnesota Bankers, succeeds S. J. Kryzsko and G. S. Bacon—a search of the records failed to reveal a "Spry" but clearly indicated that most MBA members qualify for that title. Earliest living president MBA is O. W. Lundsten who served from Hutchinson 1915-16, and now lives at Excelsior.

Independence Hall in Philadelphia stands today as a symbol of the freedom and love of liberty which Americans have cherished since July 4, 1776, when the Declaration of Independence was adopted there. The Hall has been the scene of many of America's most historic moments. The Continental Congress met there. Congress held its sessions there from 1790 to 1800. It was opened as a national museum on July 4, 1876.

Bible Comment:

Paul Ministered to The Thessalonians In Their Churches

AMONG the sources of information describing the Apostle Paul's visit to the Thessalonians, and his founding of a church there, are two outstanding Epistles. They are vital if we are to complete the story.

Lumped with the Acts, the two Epistles throw a great deal of light on the nature and method of Paul's ministry. Also illustrated for us are the conditions under which Paul founded his churches. The character of their membership is revealed. We also can determine their duration and their problems.

Paul's many enemies tried to get him in trouble with the Roman authorities by accusing him of saying there was a non-Roman king, one Jesus.

These enemies were so successful that Paul and Silas had to escape for the time being. Jason, their host, had to give evidence of his security to the authorities.

The membership of the church in Thessalonica seems to have consisted, for the most part, of Greeks and women. The same was true of a neighboring church at Berea, although men there are specifically mentioned in the texts.

Some Jews also joined the Christian group, but the preponderance of Gentiles may have accounted for some of the strange problems which arise in the church.

In the group of newly formed Christians there were evidently some idlers and loafers who were probably drawn into the group when they heard that the Christians taught that one should share what he had with his neighbor and help him as much as possible.

Paul, who plainly stated that he who does not work should not eat, stressed the fact that he supported himself.

Just how he managed to support himself on his travels and while working in his ministry is not clear.

But Paul was a superman!

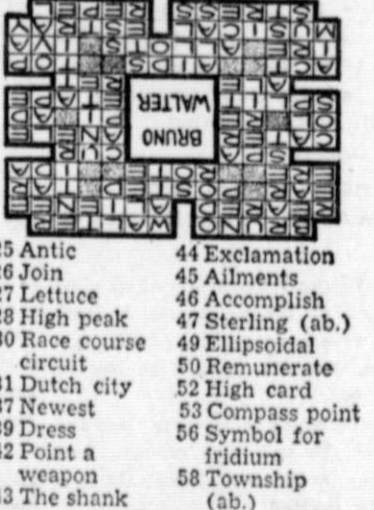

ME FOR A MIG—Promising a date to the first MIG pilot who delivers one of the Russian-built jets to United Nations' forces in Korea, the offer of pretty Kathleen Hughes, Hollywoodite, will probably add more incentive than \$100,000. The prize money was promised by American authorities hoping to obtain one of the planes for research purposes. Kathleen's offer depends on approval of General Clark.

Here's the Answer

Sports Afield

By Ted Kesting

In plug casting the reel is much the most important piece of equipment. It may be taken as axiomatic that the best reel for any given purpose is the one having the lightest spool that will not prove too fragile for it. We can take it as second axiom that a spool works most efficiently when it has the most line that it will hold without brushing the pillars.

However, when choosing a reel theories must be modified by that most unpredictable of all factors, "the personal equation." Manual dexterity, including the ability to learn delicate thumbing, varies greatly with individuals. Some anglers get much more practice than others. And no one can learn to cast with perfect, machine-like efficiency.

In practice the ordinary angler would find that with the reel theoretically most perfect he could do nothing but backlash; it

would be too fast for him. He must slow it down. So, for those who don't get to fish a great deal there has been developed the antibacklash, which greatly reduces and sometimes almost eliminates the tendency to backlash.

The man who fishes a good deal or who is long on manual dexterity should learn to cast without this device to get greatest accuracy, distance and ease in casting; he should learn to use a free-running reel. (According to Jason Lucas, a free-running reel does not mean a free-spool but a regular one with the antibacklash device not in operation and the end caps so loose that one can feel a slight click when the spool is shaken sidewise.)

The average angler who doesn't get to fish nearly as much as he'd like to should be all means use his antibacklash. But he should realize before buying a reel that the less the total-spool-and-crank-weight, the lighter he can set the antibacklash to counteract inertia—so the more accuracy, the farther, and with the least effort he can cast.

The usual way to set an antibacklash is first to tighten it, and then to loosen it gradually until the plug slides down slowly from the tip with the rod held about horizontal, and perhaps shaken a trifle. For one who casts roughly or jerkily, the setting must be tighter; as smoothness increases with practice, it can be lighter. These settings can be determined only by experimenting—but remember that if you never backlash, the setting is too heavy and will hinder your casting.

MINNESOTA TAXES COMPARED

A University economics professor has compared taxes and costs of government in Minnesota and ten other states. In the group Minnesota ranks 10th in per capita income payments, \$1,474 compared with firstplace Illinois \$1,928, 11th place North Dakota \$1,403, U. S. average \$1,581, 11-state average \$1,708. We rank second to Washington in per capita state taxes, second to South Dakota in per capita local taxes, first in total. We rank second to Wisconsin in state-local tax revenue, first in proportion of this revenue to income payments.

Wisconsin Cafes & Hotels Please Tourist Diners

Wisconsin has long been proud of its many tourist attractions, not the least of which has been its excellent eating places. Scattered throughout our state are literally thousands of cafes and restaurants to please the tastes of our visiting diners.

Largely responsible, quite naturally, have been the proprietors themselves. The vast majority maintain a high caliber of service and cleanliness; thereby setting standards which competition naturally stimulates others to match.

Encouraging and aiding the trade through the years has been the division of hotels and restaurants of the state board of health. For the past 40 years representatives of this division have regularly visited these eating places to bring them the latest developments in sanitary food handling, and offer assistance in planning efficient operation. Annual permits are issued to all places meeting reasonable standards of sanitation.

Series of two day food-handling schools are held annually throughout the state. Here employers and employees alike learn the reasons for frequent hand washing, temperature control of dishwashing, etc. to assure the clean preparation and serving of food so that illnesses are not passed on to the patrons. Films, skits, and actual demonstrations are all used to advantage in illustrating a point. The restaurant trade realizes the advantages of these schools, and attendance has increased continually with each passing year.

New eating places are inspected before they open for business. Thus proprietors are helped to avoid many of the common pitfalls. No permit is issued until this inspection is satisfactory.

Hotel and restaurant operators recognize the importance of these services offered by the state. Though they realized it would mean an increase in their yearly fees, they wholeheartedly endorsed and supported a law providing for even more adequate and efficient inspection recently enacted by the legislature. They know that wholesome food served in clean surroundings means good business.

The first paved coast-to-coast highway north of the Panama Canal Zone is being constructed between the Mexican ports of Salina Cruz on the Pacific and Coatzacoalcos on the Gulf of Mexico. Only 150 miles across at that point, as seen in the above map, the isthmus of Tehuantepec will be spanned in three hours by automobiles and trucks. The highway will be valuable in the event of war as an Atlantic-Pacific link. Heavy tropical rainfall made construction of special culverts and drains a necessity. Mexico has invested \$6,000,000 in the highway which parallels a railroad built earlier.

Air Defense By GOC Everybody's Business

A partial excerpt from an editorial in The Aircraft Flash is of interest to all of us in helping to understand the necessity and value of the "skywatch" which those of the GOC participate in.

People in small towns and rural areas may find it difficult to understand how their long hours of skywatching as members of the Ground Observer Corps help defend their homes and lives. After all, no enemy planes are going to waste precious atom bombs on farmhouses and villages. Their targets would be large cities, factories, military installations and other strategic targets.

This reasoning is correct—to a certain extent. It would certainly not be feasible for the enemy to make an atomic attack on this country's vast rural areas. But despite this fact, the results of a successful air attack on the United States could be just as disastrous to a farm family near Oak Center, Minn., as to a family in Detroit.

Consider for a moment what would happen if the enemy were to sneak in undetected and blast our large cities into rubble. What would happen to the markets farmers must have for their products? Where would people in rural areas get needed supplies which formerly came from the demolished cities? How would they handle the swarms of refugees who escaped death, but had no homes, no jobs, no food? What would happen to the integrated economy on which they are practically all dependent?

Perhaps they could manage somehow under such circumstances. Another threat we all must face is that of bacteriological warfare. Here is a weapon which would strike with equal force against every American, in city and country alike.

The combined potential of atomic and bacteriological warfare means that no one in the United States would be immune from the disastrous effects of a successful enemy air strike.

In order to mount a successful defense against an air invader, our defending forces must detect his approach as soon as possible. After that, they must continue to have accurate, timely information on his location, direction of flight, altitude, numbers, etc., to be able to knock the enemy from the skies. If enemy planes were to come in low or slip through the holes in the radar fence, the GOC would be the only consistent source of this valuable information.

Not only do all Americans share the hazards of air attack, they also share in the responsibility for defense against such an attack.

Behind The Scenes In American Business

By Reynolds Knight

NEW YORK—Many observers are anxiously viewing the steel wage increase as inflationary, but that isn't necessarily so. In any rise-and-fall economic cycle, all the wage increases up to the last one are inflationary—but the last one is deflationary. We saw that in 1930, when hourly wages in the construction industry were rising after everything else was falling, and that helped cut down total building to a drastic degree.

There will be some deflation—and it will hurt. It will hurt less than usual because so many people are on the lookout for it.

1. Industrial building is being carried along by its own momentum although the increase in demand for industrial output has leveled off.

2. Housing, automobiles and durable goods in general are meeting sales resistance.

3. Inventories are at record levels.

4. Farmers' incomes are falling, and the new administration has served notice that a showdown on controls vs. free market is at hand.

Each of these situations calls for less spending both by corporations and by prudent individuals. It is better to have this now than later, but it does mean fewer jobs, lower total pay even if hourly rates rise, and lower stock prices.

This country is so large, and its pipelines of goods and services so vast, that no one but a fool will proffer a date for any economic turn. It is not too soon, however, to place oneself in a defensive position.

BILLION-DOLLAR BOOM—Hammers are pounding and saws are singing at an unprecedented rate this summer primarily because the owners of 42 million homes are intent on bringing their living standards above par for the first time since World War II. Experts of the Gas Appliance Manufacturers Association figure that nearly \$1 billion will be spent to enlarge existing homes by converting unused attics, porches and basements into living quarters.

Kitchens, too, rate a heavy emphasis. Millions will be poured into new automatic gas ranges, gas clothes driers, a variety of room heaters to bring comfort where chill and damp reigned before, and upgraded automatic gas water heaters to supply the needs of growing families.

GAMA points out that shipments of all three major types of gas household equipment—ranges, water heaters and central heating systems—are far above the average for last year.

THINGS TO COME—A comic book publisher will present Mighty Mouse in 3-D. The reader looks through a pair of tinted cellophane glasses, sold with the magazine. . . . A new hacksaw dispenses with the conventional frame, can be used for a cut of indefinite depth. . . . Ten-cent plastic electric plugs force spikes through insulation on existing wires, offer new connections in seconds. . . . Flesh-colored nose-guards for attaching to sunglasses will make it easier to tan and not peel this summer. . . . Canigra, a plant that grows wild in the Southwest, may provide the United States' first domestic source of tannin since blight killed off the chestnut trees.

PERSISTENT SHORTAGE—One shortage for which the U. S. has not yet found a remedy is that of nickel. Of all the material shortages resulting from the Korean war, the scarcity of nickel has been a major headache not only to defense officials but also to industries whose operations are dependent upon this metal. Probably the hardest hit have been the nation's nearly 4,000 electroplaters.

Nickel is the ideal metal for bonding chromium to steel or iron. The metal finishers, plating everything from automobile bumpers to cigarette lighters, are normally the third largest users of nickel.

Recently the National Association of Metal Finishers took a critical look at the nickel situation. At the NAMF's annual meeting in Philadelphia, Raymond M. Shock, executive secretary, said the shortage was causing "extreme hardship, economic loss, sharp decreases in employment, and in many cases has forced or is threatening to force plating companies out of business entirely." Total sales of electroplating firms were substantially less in 1952 than in 1951, he said.

BITS O' BUSINESS—Housing starts in May were fewer than in April, the first time such a thing has happened since the war. . . . Westinghouse Electric and its CIO workers joined in a demonstration against competing British machinery. . . . An RFC loan kept the sheriff of Hennepin county, Minnesota, from foreclosing on an old folks' home.

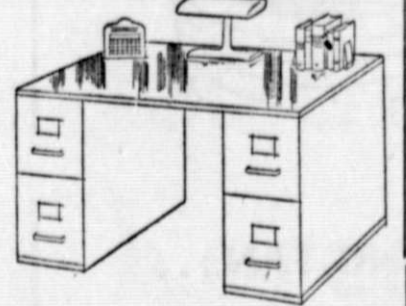

One-sided—Mr. Smith—May I have the pleasure of the next dance? Miss Slim—You may. I know I won't get any pleasure out of it.

CRACKERS AND CHEESE—It is a good old American custom to celebrate the Fourth of July with a picnic. And, what better refreshment for a picnic than crackers and cheese. Serving up his special brand for the day, our photographer combined (fire) crackers and cheese (cake) to produce the eye-appealing picture of Norma Randall, Hollywood actress, seen above.

Business Center in Home
HOMEMAKING is a "business," and it could be kept in a more businesslike manner if there were a desk and files. Every family needs such a center for the household's business operations. You needn't even purchase a desk. Just take a couple of old filing cases, add a piece of smooth-surfaced Masonite Presdply, three-

quarters of an inch thick, for a top, and your "home office" is practically ready for use.

Presdply is a versatile panel which is unusually strong. Its smooth surfaces of Tempered Presdwood are long-wearing—so tough, in fact, that many factory workbenches are covered with it. The surface may be treated with a penetrating sealer or varnish; if you like, it may be primed and painted.

In putting this simple desk together, have the Presdply cover both filing cases, leaving a 24-inch space as leg room. Drill holes in the tops of the cases—one at the front and back of each, at the extreme outer edges—and fasten the top by applying wood screws from underneath. Wood molding, available at the lumber yard that furnishes the top, may be attached with finishing nails around the edges of the top. Varnish, stain or paint the molding.

KANGAROO RAT

Kangaroo Rat ©1952 National Wildlife Federation

The naturalist Ernest Thompson Seton in his book, "Lives of the Hunted," wrote a delightful story on the kangaroo rat. It may have conditioned many people in their subsequent understanding of this animal. Unfortunately it unjustly conditions people to believe that kangaroo rats can suffer at the hands of such a harmless creature as a spotted salamander. Somehow as the years go by and we have experiences both with kangaroo rats and with spotted salamanders, we come to believe that we should depend to a considerable extent on what we see for ourselves.

If you have had the opportunity of keeping some of these delightful animals in captivity for some time, you come to feel that somehow the name "rat" should not be applied to the kangaroo rat. A rat is a despicable critter, and it is difficult to apply that term to this animal of our Southwest desert lands.

The kangaroo rat comes in a variety of species. In fact there are approximately a hundred kinds and in suitable territory there may be a population as high as 1,000 animals to the square mile. Because of the different kinds it is difficult to limit the territory occupied, but they seek hot, dry lands where coolness may be reached by burrowing a short distance underground. Some species are to be found in damp lands and some in forested areas but usually the ground is of a loose type, such as sand or clay, in which excavating is relatively easy.

One of the commoner kangaroo rats has a length of 13 inches of which 7½ inches is tail. They have long hind legs and the hind feet with their four toes may be two inches long. The eyes are large and amazingly beautiful as is so often the case with nocturnal animals. They have conspicuous long whiskers and capacious, external, fur-lined cheek pouches in which they can pack food that they carry underground for storage or consumption. Kangaroo rats do not normally drink water but may get their supply from their food.

A kangaroo rat may make an 8-foot leap and this is necessary for an animal that roams in the open. The animals do not hibernate or migrate and must keep active the year round. The larger bannertails store food regularly but this is not the practice with the smaller species.

A nest den about 8 by 10 by 5 inches is built some 3 feet underground and lined with fine plant material. It is kept free of dung and waste food and there the two to four young of a litter are born. The rats are social but the families live in separate tunnels. However if the animals are confined in a cage they will fight to the death and, while one may survive out of a group, even the survivor may become so wounded in the process of proving his superiority that he too does not live out his normal life span.

Kangaroo rats serve as food for coyotes which might otherwise prey on domestic animals. They have an interesting series of night songs which are intriguing to the camper who stops in their midst.

The National Wildlife Federation is interested in an understanding of the true role of these animals in the general economy of nature. Notes based on careful observation of young, of enemies and of food are always welcome. —E. Laurence Palmer.

Ten Word INTELLIGRAM

- Check the correct word.
1. Mt. (McKinley) (Everest) is the world's tallest.
 2. Petite means (little) (tight).
 3. F. S. Key wrote (America) (The Star-Spangled Banner).
 4. Homer was (blind) (deaf).
 5. The (Ohio) (Mississippi) divides Indiana and Kentucky.
 6. Lopez manages the (Indians) (Dodgers).
 7. A stamen is part of a (bee) (flower).
 8. AEC means (Atomic Energy Commission), (American-European Cooperation).
 9. George Elliott was a (woman) (man).
 10. World's busiest is the (Suez) (Sault Ste. Marie) Canal.

Check your answers, scoring yourself 10 points for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior; 90-100, very superior.

Decoded Intelligram
1—Everest, 2—Little, 3—The Star-Spangled Banner, 4—Blind, 5—Ohio, 6—Indians, 7—Flower, 8—Atomic Energy Commission, 9—Woman, 10—Sault Ste. Marie.

NOTICE
Public notice is hereby given that the Board of Review for the Town of Kewaskum will meet at the offices of the Town Clerk on the 20th day of July, 1953, at 8:00 p. m. pursuant to notice of adjournment adopted July 13, 1953. Taxpayers may also appear at this meeting to have their assessment reviewed by the board.
A. H. Soefeldt,
Clerk, Town of Kewaskum

CARD OF THANKS

Our sincere thanks are extended to all our relatives, neighbors and friends for the kindness and sympathy shown us in our bereavement, the death of our dear mother, Mrs. Margaret Hawig. We are especially grateful to Father La Buwi, the organist, choir, pallbearers, drivers, donors of floral pieces and spiritual bouquets, traffic officer, Miller's, and all who showed respect.
Surviving Sons and Daughter

Dundee

Mr. and Mrs. John Dubin and son Jerry of Chicago spent Friday with Mr. and Mrs. George Gilboy.

Mr. and Mrs. August Krueger of Cascade visited Sunday with the latter's father, Albert Koopke, and daughter Lulu.

Mr. and Mrs. Francis Gilboy entertained Friday evening, relatives and friends, to a fish fry. Good luck George Mueller caught enough fish for the following: Mr. and Mrs. John Trapp and daughter Bernice of Kewaskum, Mr. and Mrs. George Gilboy, Mr. and Mrs. Bernard Mueller, Gartland and children, Mrs. Mae Lemke, Mr. and Mrs. George Mueller and Clem Petrie. This just goes to show that there are fish in good old Long lake.

Mr. and Mrs. Francis Gilboy spent Sunday in Milwaukee and attended the stock car races.

Mrs. Addie Bowen of Fond du Lac visited the forepart of the week with Mr. and Mrs. Cyril Gilboy.

Mrs. Robert Wiest of Brownsville and her mother, Mrs. Anna Garriety of Lomira called on relatives and friends in the vicinity on Thursday.

Mr. and Mrs. Louis Ramthun returned home Thursday after a two weeks' vacation through the western states.

A son was born to Mr. and Mrs. Robert Berndt at 3330 North 14th st., Oshkosh, recently. Mrs. Berndt is remembered here as Betty Bahlke of Long lake.

Erich Olson of Long lake sold his cottage to George Drott, Milwaukee.

Mr. and Mrs. William Lenz visited from Friday until Sunday with

the former's parents at Wauzeka.

Mr. and Mrs. Harry Grumbly of Ohio visited several days this week with the latter's son and daughter-in-law, Mr. and Mrs. Clarence Reigel.

Mr. and Mrs. Henry Becker of Kewaskum and Mr. and Mrs. Anton Langenkamp of Milwaukee visited Tuesday with Mrs. Clara Dins and Mr. and Mrs. Ronnie Dins.

"My wife is a marvel at removing spots from my clothes."

"So is mine—especially five and ten dollar spots."—Ettrick Advance

Do you honestly know what the materials you're wearing now are made of? With so many new-type fabrics and "fabric-mixtures," it's much safer—and a lot less costly—to rely on experienced DRY cleaning. For careful work, experienced handling—phone us.

COOLING

as a trip in the

OLD OAKEN BUCKET

A PORTABLE NIGHT COOLING FAN...

Let you sleep in cool, cool comfort and you wake refreshed and ready for a new day. There's cooler night air just outside your bed room window... 10 to 15 degrees cooler than room temperature. Use a night cooling fan to trade the hot, stife daytime air for nature's own air conditioned breeze. The new portable window and night cooling fans are easily moved, plug in anywhere and are easily stored when not in use.

Around The Town

—Mr. and Mrs. Ray Pollnow and son Richard of Milwaukee visited at the William W. Guenther home Saturday evening.

—Arno Garbisch, accompanied by his sisters, Frieda and Florence of West Bend, visited relatives last week in Minnesota.

—Mr. and Mrs. Henry Rosenheimer and family are spending a vacation at Duluth, Minn. and other places of interest.

—Anthony Vorpahl and Gene Gruber left last Thursday for the state of Oregon to work in the wheat fields for about eight weeks.

—Mr. and Mrs. Francis Roden and sons, Tony and Tim, formerly of Kewaskum, have returned to their home in Fond du Lac from a two-week trip to California and Mexico.

—Mr. and Mrs. Marvin Martin attended the 25th class reunion of the class of 1928 of Fond du Lac Senior High school last Saturday. It was held at the Fond du Lac Town and Country club.

—Mr. and Mrs. Robert Scherzer and infant son of Seattle, Wash. are spending some time with her parents, Mr. and Mrs. Erich Jeske. Following their stay here the family will move to La Crosse where Mr. Scherzer has accepted a new call.

—Mrs. Louis Doms of Kewaskum, Mrs. Art. Benedum of Milwaukee, Mrs. Nick Goschey of West Bend and Fred Krause were to Greenwood, Wis. on Friday, July 3, to attend the funeral of Frank Abel. On their way home they visited at Granton with the Cattanaeh family.

—Members of the Ladies' Aid of St. Lucas Ev. Lutheran church and their pastor, Rev. Gerhard Kaniess, were guests of the Zion Ladies' Aid at Kohlsville last Thursday. Dr. Karpis of the Bethesda Lutheran home, a Latvian refugee, gave a talk. Refreshments were served.

—Mr. and Mrs. Harold C. Johnson and children spent last Thursday night at Oakfield.

—Miss Rosalie Below is spending a vacation at Shawano and Appleton. She also was at Clintonville.

—Mr. and Mrs. Harold C. Johnson and sons George and Donald and daughter Faye motored to Wisconsin Dells this week.

—Mr. and Mrs. Arnold Huck and son of Fond du Lac spent from Monday to Thursday evening with Mr. and Mrs. Robert Ours and Miss Mary Jane Mayer.

—Mr. and Mrs. Myron De Smidt and daughter Karen, Mr. and Mrs. Milton Kreif and son Tommy of West Bend, Mr. and Mrs. Jerome Kreif and daughter Karen and son Kenneth of Kewaskum were week end guests at the home of their parents, Mr. and Mrs. Harold C. Johnson and family at Campbellsport.

—Mr. and Mrs. Herman Belzer of Milwaukee visited Miss Louella Schurr Sunday and also attended the picnic here.

—Mr. and Mrs. Albert Schaefer of Milwaukee attended the picnic Sunday and visited the former's mother, Mrs. Elizabeth Schaefer.

—Mrs. Minnie Mertes and Miss Lillie Schlosser were hostesses at a bridal shower last Tuesday evening at the Mertes home in honor of Miss Dolores Schmitz, a bride of the near future.

—Members of the Blatz Quartet of Milwaukee called at the Louis J. Heister home Sunday evening while on their way back to the city from Fillmore where they sang at the picnic. One member of the quartet, Mike Rafenstein, visited here until Tuesday.

—Mr. and Mrs. Otto Backhaus had the following guests Sunday, who also attended the picnic: Mr. and Mrs. Edwin Miller and daughter Carol Ann, Mr. and Mrs. Wm. Basil of Milwaukee, Mr. and Mrs. Milton Elsentraut of Fredonia, Mr. and Mrs. Reuben Martin and sons, Mr. and Mrs. Howard Backhaus and daughters of Kewaskum, Jack Stange and sons of Town Scott.

NEW IDEA NO. 12-A TRACTOR SPREADER

Handy control levers allow you to vary the amount of manure spread without slowing up or stopping.

The "original wide-spread", improved over the years, does an unsurpassed job of shredding and distributing manure.

The bed of all New Idea Spreaders is made of selected pine, double-riveted to steel frame, won't sag or buckle.

There's a NEW IDEA Spreader for every size farm

New IDEA builds three sizes of spreaders to fit the needs of farms of all sizes. These three spreaders have the same rugged, high quality conveying, shredding, and distributing mechanism. Their main difference is capacity.

Whether you have hundreds of animals, or less than a dozen, one of these New IDEA Spreaders... the one best suited to your conditions... can make light work of a heavy but important job.

Drop by our store any time to look over these New IDEA Spreaders. Why not do it soon?

Pasture Pullets This Summer To Cut Costs

Put your pullets out on range this summer and they'll get lots of good exercise. But they should get more than exercise from the range.

James G. Halpin, poultryman at the U. of Wis., says that pasture can furnish economical feed of the highest quality for poultry. In fact you can save anywhere from ten up to forty per cent of the feed bill with good pasture.

To be good, the pasture must be young and tender. Keep it knee high to the pullets, says Halpin.

Of course it's best if the pullets themselves can do the mowing job. But if the pasture gets ahead of the flock, then move in and clip off the field. Grass may out-grow the flock during June.

Halpin favors ladino clover as the ideal summer pasture. Blue grass probably makes a good starter, but it doesn't carry thru the warmer months.

Can pullets get by on grass alone? No, says Halpin. Don't gorge the birds on grain, but they need some help to keep them growing fast. Feed just enough so that the hoppers are empty three or four hours during the day. They also need a mineral supplement.

Move the hoppers out away from the shelter a little every day so the birds have to walk several rods to get to the dry feed. They'll eat grass on the way. If hot, dry weather comes you may have to step up the grain.

NATURE NOTES . . .

Fall and winter fence-row burning is said to accomplish little but fence damage and unnecessary hardship on small game. . . . Frank R. Bergren died last winter after 40 years as depot agent at Lafayette—this spring his pet robin that had been around the depot the last twelve years, did not show up. Friends wonder if there is a connection. . . . Two apricot trees in beautiful bloom were the pride and joy of Springfield this spring.

We Like A Regular Trade

Prison Governor (to released convict) — "I'm sorry. I find we have kept you here a week too long."

Convict — "That's all right, sir. Knock it off next time."

Legal Battle

Judge — Do you challenge any of the jury?

Defendant — Well, I think I can lick that little guy on the end.

1 Word Can Change Your Life—THORN

There's something in your life you'd rather be without, isn't there? This is true of us all. What the Apostle Paul didn't want was a physical handicap he called a thorn in the flesh. Three specific times, at least, he prayed for its removal. But he begged in vain. However, while God hadn't seen fit to do as the great apostle asked, the Almighty did help him overcome it. Paul discovered that his thorn was of some good to him. For instance, it kept him from thinking more highly of himself than he ought to think.

You and I can learn something vital from Paul's experience. Whatever it is we'd rather be without and yet can't get rid of, it doesn't need to break us. With God's help it can lift us to loftier heights of being. While it isn't easy, we can discover that we can overcome our thorn, the word that can change your life.

Banded Birds Prove Stocking Helps Hunt

The Peshtigo Sportsman's club knows that at least one of every five pheasants it stocked last year was taken by a hunter.

The club stocked 220 pheasants last year, all equipped with colored bands. It offered a dollar for every tenth band turned in and collected 44 bands. The club feels that more of the birds than that were taken because there were many hunters from Brown county and elsewhere and surmises that some of the visiting hunters did not turn in their bands.

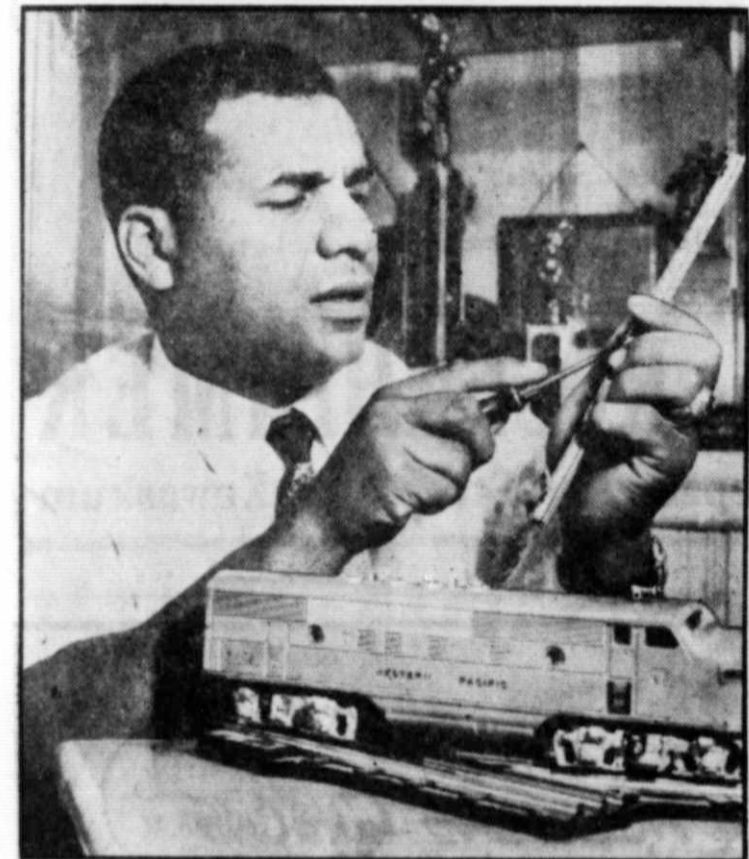

Game Manager Bernard Bradle says he is satisfied that in most cases hunters get a bigger return of birds where releases are concentrated as in the Peshtigo area last year than where scattered releases are made.

SUBSTANTIAL SERVICE RECORDS

Only 17 stars adorn the 90-year-old flag in possession of the Dr. V. E. Hilton family at Rochester, which has waved for members of the family in armed service thru five wars, beginning in the '60's. . . . Two Minneapolis sisters, Katherine and Minnie Trossen, retire from Northwestern Bell Telephone after combined service of 91 years; a third sister, Theresa, with only 44 years to her credit, will stay on awhile. . . . An even dozen of his first 1910 subscribers are still on Gay Huntley's Hill City News mailing list.

Pretty, Please

"So you've bought an automobile, have you? Do you drive it or does your wife drive it?" "Neither of us drive it. We coax it."

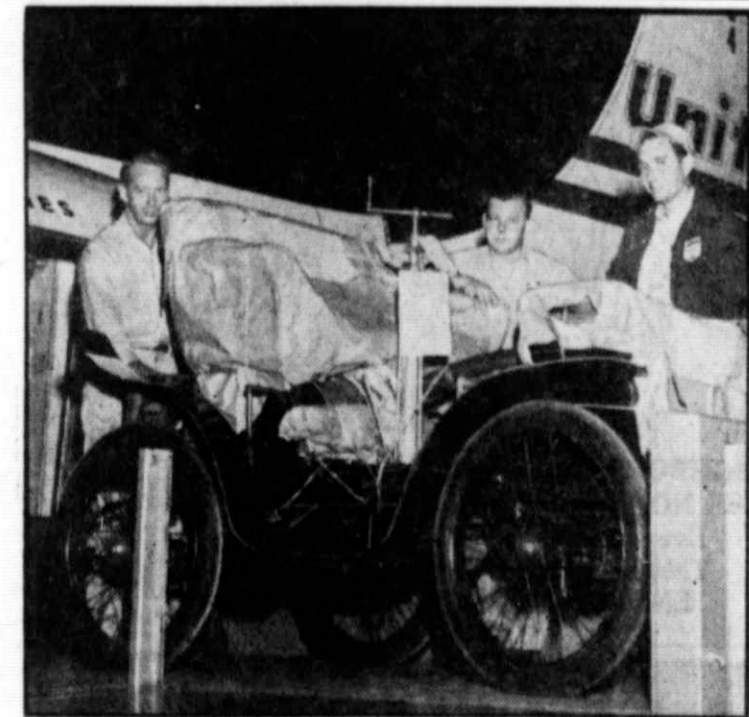

HE TRAINS—Brooklyn Dodger, Roy Campanella, believes in "training" at home as well as on the diamond. Seen above, he works on equipment for one of his many model trains in his Long Island, N. Y., home.

EAST MEETS WEST—The leopard skin and knitted sock blend in the hybrid uniform of Rifleman Chandra Bahadur Limbu, seen above, beating a side-drum at Surrey, England. He is one of the Commonwealth's famous Gurkha soldiers.

CUTE TRICK SHAVER—Disc jockeys get up very early in the morning and Bill Gordon, platter king on Cleveland, Ohio, Radio Station WHK, is no exception. He saves shaving time, however, with the help of a cute trick of a little shaver who scrapes the stubble off his cheeks just before air time. Seen above, Bill watches in a portable mirror while pretty Patty Rowe clips his whiskers with a battery-operated portable shaver. Of course I could do it myself," says Bill, "but Patty does it better."

PAST MEETS PRESENT—When this 1893 De Dion automobile chugged along over half a century ago, few realized it would move much faster someday on a huge flying Cargoliner. Seen above, the car, owned by James Melton, is being loaded at Chicago, Ill., for shipment by air to New York.

THOSE WERE THE DAYS

STRICTLY FRESH

A MIDWESTERN cop won his case against a risqué burlesque dancer by bumping and grinding before the judge. No bubbles protected him, just a badge.

A three-year-old's false teeth keep turning up lost in an English village. Seems he lays them aside when he eats caramels. Guess he doesn't need a sweet tooth when eating candy.

Artists advertising for models who wanted to earn "pin money"

had no answers. What use would an artist's model have for pins anyway?

An English pet owner is wondering where his limping cat picked up two diamonds imbedded in its paw. Somewhere that cat really put his foot in it!

A pair of Nebraska oldsters married 50 years after he proposed to her. Seems she changed her mind. Women will do that, you know!

HAIR BREADTH HARRY

"Mister Fixum's Handy Hints"

By ERNIE GARDNER

TIPS ON REMOVING A PARTITION

The home owner often finds that remodeling his home is much more within his budget than buying or building a new home. This is especially true if he can do the remodeling himself.

Remodeling often includes the removal of partitions. Just how difficult this job is, depends upon the construction of the house.

Some partitions may be called load bearing partitions. These, in addition to separating the house into rooms, carry a large part of the load of the ceiling, and in case of a two story house, partitions of the rooms above.

Ceiling joists, whenever possible, run crosswise of load bearing partitions. When it is not possible, and joists must be run parallel, the joists are usually doubled or trebled. Joists are often spliced over load bearing partitions.

When removing a load bearing partition, some provision must be made for carrying the load formerly supported by the wall.

In a one-story house, this may often be done by nailing 10" planks across the ceiling joists in the attic. The planks should be set on edge, and the ends should rest on outside wall plates or inside partitions. They should be nailed securely to the joists by means of wood or metal cleats.

In a two story house where the joists cannot be reinforced in the attic, a reinforcing beam will have to be installed under the first floor ceiling. See illustration.

Failure to provide this support may result in a weak ceiling, cracked plaster, and even complete collapse of the ceiling.

The exposed beam may be painted and decorated so that it is not too objectionable.

Partitions which are not necessary to carry the ceiling load may usually be removed without extra reinforcement. However, it is well to be sure. Call in a carpenter if in doubt.

ORDER TODAY

"MR. FIXUM'S HANDY HINTS" is a collection of 31 selected jobs from this column, printed in attractive form, for 35c. Send coins, not stamps, to Ernie Gardner, 14189 Faust Avenue, Detroit 23, Michigan.

If you're going to sew at night, be sure to have a light directed at the place where the needle is working as well as one for general light in the room.

Better tasting salads!

Miracle Whip SALAD DRESSING

THE ONE AND ONLY

So Goes The Mind

By Orin R. Yost, M. D.
Medical Director, Edgewood Sanitarium

(Editor's Note: Dr. Yost is a graduate of the Medical College of Virginia at Richmond, studied psychiatry at St. Elizabeth's Hospital in Washington, D. C., taught psychiatry at Columbia University, New York, was division psychiatrist of the 79th division in World War II, and is presently Medical Director of Edgewood Sanitarium Foundation.)

MAN'S WONDERFUL MIND

No one would disagree with the statement that we are living in a wonderful scientific age. Almost daily we hear or read of fascinating and complicated mechanisms and devices that were unknown even ten short years ago. We have become familiar with the idea of radar and jet planes and rockets. Radio and television sets have become commonplace household appliances. But the human mind is much more amazing and fascinating and complicated than any mechanism devised in the most advanced scientific laboratory.

The mind of man has been in existence in just about the same form in which we now know it, for millions of years. Yet it is only since the beginning of our present century, since the early 1900's that man has begun to make any progress in understanding his truly wonderful mind and how it works.

Take something as universal and as apparently simple as memory. You see a face on the street that looks familiar to you. You may not have seen the person in years, but almost instantly, you remember who it is. The memory of every experience that you have, is stored in special cells in your brain. The memory is there, but you are, of course, not always aware of it. Not, that is, until you have some reason to need that particular memory. This is a very efficient and practical arrangement.

Just think how confusing it would be if you had to be conscious and aware, all the time, of every single thing that you had ever known or experienced. You would have absolutely no time left for thinking or living.

There is a theory to explain memory. According to this, when you have need to remember something, your brain scans those memory cells with a minute electric circuit. When it finds what fits your needs at the moment, that cell gets connected up, or, as you might say, "plugged in" with your conscious thought. That sounds like a pretty amazing arrangement, doesn't it?

We now know, thanks to the science of psychology, a good deal of the mechanism of how the brain cells do their work. We also know something of how the mind and its workings affect your whole life. Psychology has given us an insight into the emotions, the loves, the hates, the drives and the desires that go on, in conflict with each other, in our minds. It is to psychology that we owe an understanding of how we human beings behave, and what makes us behave as we do. Perhaps the most valuable thing this science has done is that it has made it possible for us to make use of our drives and energies and to turn them into constructive channels that make for happiness and health, instead of illness and unhappiness.

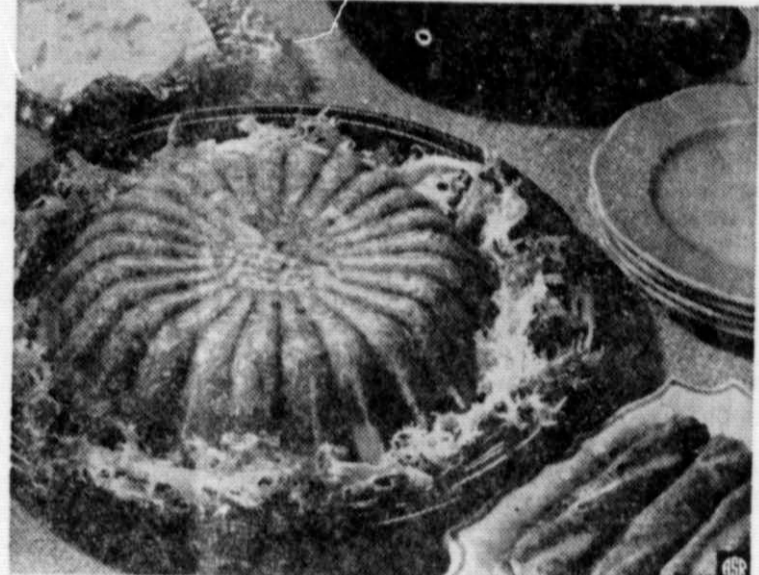

The first essential is for us to understand ourselves and our minds.

Our minds are made up of three parts: the conscious mind, the unconscious mind, and the conscience.

In a later column, we will explain the working of these three component parts of the mind.

Sarah Anne's COOKING CLASS

Ginger Jellied Salads Are Tempting

Springtime is salad time. From now on, through the warm weather months, it will take light food, attractive in appearance, to tempt the appetites of your family.

Sparkling molded salads have eye-appeal, so stimulating to jaded appetites. When pale dry ginger ale is used as the liquid in which to dissolve the gelatin, salads have an extra sparkle and extremely refreshing flavor. These salads can be served often without becoming monotonous since there are many combinations of fruits and vegetables that may be used. Here is one, using tuna fish as its main ingredient, that is delicious. If apples are not available, you might substitute drained pineapple tid-bits, or celery.

Ginger Jellied Tuna Salad

- 2 envelopes unflavored gelatin
- 1/2 cup cold water
- 2 cups hot pale dry ginger ale
- 1/4 teaspoon salt
- 1 tablespoon lemon juice
- 1 7-oz. can tuna, drained and flaked
- 1/2 cup diced, peeled apples
- 1/2 cup broken walnut meats

Sprinkle gelatin on cold water. Dissolve in hot pale dry ginger ale. Add salt and lemon juice. Chill until consistency of unbeaten egg white. Fold in tuna, apples and walnuts. Spoon into large mold which has been rinsed in cold water. Chill until set. Unmold on chicory. Makes 6 to 8 servings.

When the temperature is rising and you have supper to get, put together a cool gelatin mold, slip it in the refrigerator and forget about it. Just before supper, turn it onto a large platter, dress it with an unusual garnish and serve.

Cheese Ring Salad

- 1/2 cup Roquefort cheese
- 3 packages cream cheese
- 1/4 cup milk
- 1 teaspoon Worcestershire sauce
- 1/4 teaspoon paprika
- 1/2 teaspoon onion juice
- 1 tablespoon gelatin
- 1/4 cup cold water
- 1 cup whipped cream
- Lettuce
- Chopped chicken, fruit or cooked cold vegetables
- French dressing or mayonnaise

Mix Roquefort cheese, cream cheese, milk and seasonings, working together until smooth. Add gelatin which has been soaked in the cold water and dissolved over hot water. Fold in whipped cream. Turn into a greased ring mold and place in refrigerator until firm. Unmold on platter and garnish with lettuce. Fill the center with chopped chicken, mixed fruits or vegetables mixed with French dressing.

Golden Salad

- 1 tablespoon gelatin
 - 1/4 cup cold water
 - 1/4 cup sugar
 - 1/4 teaspoon salt
 - 1 cup hot pineapple juice
 - 1/4 cup orange juice
 - 1/4 cup vinegar
 - 3/4 cup grated raw carrots
 - 3/4 cup orange sections, cut into small pieces
 - 1 1/2 cups drained canned pineapple cut into small pieces
 - Salad greens
- Soften gelatin in cold water. Add sugar, salt and hot pineapple juice. Stir until dissolved. Add orange juice and vinegar. Chill until consistency of unbeaten egg whites. Stir in the carrots, oranges and pineapple. Pour into greased salad mold. Chill until firm. Unmold on salad greens and serve with mayonnaise or salad dressing.

Salmon Mold

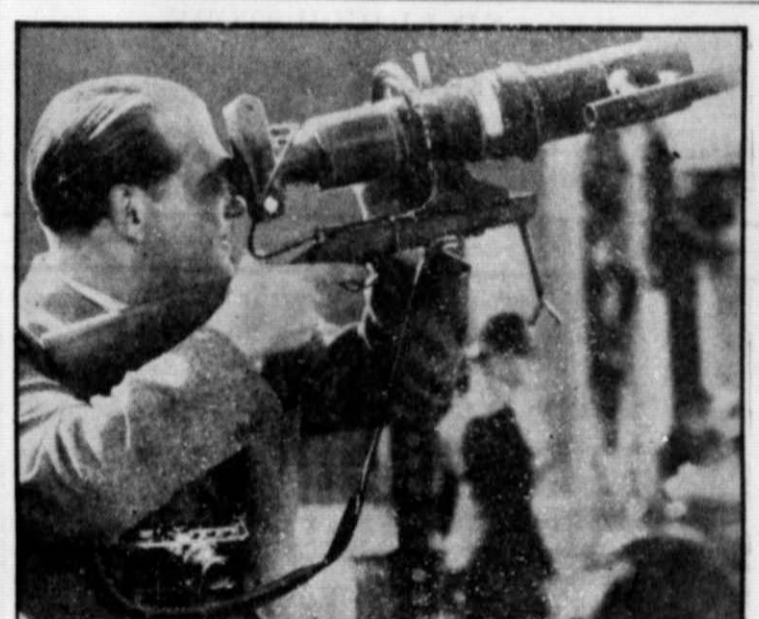

- 1/2 teaspoon tarragon
 - 1 cup boiling water
 - 1 package lemon gelatin
 - Juice of 1 lemon
 - 1 cup cooked salmon
 - 1 green pepper diced
 - 1/4 cup celery diced
 - 1/4 cup cucumber diced
 - 3 stuffed olives, sliced
 - 1 hard boiled egg, sliced
 - 1 small can anchovy fillets
- Add tarragon to boiling water. Pour over gelatin. Stir until gelatin is dissolved. Add cold water and lemon juice. Rub salad mold with salad oil. Pour enough gelatin into the mold to make a thin layer on the bottom. On this arrange anchovy fillets, slices of egg and olive slices. Chill. When set add salmon, pepper, celery and cucumbers. Pour in remaining gelatin. Chill. When ready to serve, unmold on salad greens. Garnish with lemon wedges and pass a sharp French dressing.

- Apple Sauce Cheese Salad
- 1/4 cup boiling water
- 1 1/2 cups thick canned applesauce
- 1 package lime flavored gelatin

The Grandeur of White and Silver

One doesn't need the wealth of kings to achieve a regal table setting such as this. Crisp white table cloth and napkins—a part of every home's linen wardrobe—white dinnerware and silver team together for a refreshing ensemble of splendor. White orchids are, of course, expensive, but the cool white frosted leaves of the caladium center piece can play a single role with equally striking effect. You'll hand yourself orchids if you choose as your silver pattern Community's White Orchid, so delicate of design, molding the beauty of this Queen of flowers into graceful scrolls. It plays the perfect counterpart to the theme of white and silver.

SCENE SHOOTER—Sighting sights with his specially built gun-camera, Werner Wuensch, West Berlin magazine photographer, is able to make rapid-fire takes on 35-millimeter film. The camera is adapted to long shots with a strong lens attached to the end of the "gun barrel."

ANIMALS ARE DEER—Edward Yankoe, former Chicago policeman quit his better-paying job on the force to return as a keeper at the Lincoln Park Zoo. He gave in to his love for animals. Yankoe claims they are more human than humans.

SQUIRREL FRIEND—Douglas Holmes, of Grand Rapids, Mich., shows off his pet squirrel "Skip" to his seventh grade classmates at Union High School. The boy found "Skip" several weeks ago and the two have become inseparable friends.

DUCK!—Chicago, Ill., spectators scatter in the right-field bleacher section as a home run needs their way. Hit by Ed Matthews of the Milwaukee Braves, the ball tops the wall as Chicago Cubs' player Preston Ward watches. But the Cubs won, 6-2, in spite of Matthews' homer.

Holstein Breeders of County Meet Monday

The annual mid-summer meeting of Washington county Holstein breeders and interested dairymen will be held on the Mellus Bros. farm on Monday evening, July 20, at 7:30 o'clock. In case of unfavorable weather the meeting will be indoors.

A program of interest to all dairymen has been arranged. This includes:

- 7:30—Livestock judging, junior and adult groups.
 - 8:15—Greetings from the National association, Charles C. Brace, national fieldman.
 - 8:30—Address, "The Use of Production Records in a Dairy Management Program," Earl Stallard, College of Agriculture.
 - 9:00—Address, "Building a Selling Future in Dairy Products," M. J. Franberger, American Dairy Association of Wisconsin.
 - 9:30—Musical entertainment.
- Both speakers will have a message of interest to dairymen. There will be cash and other prizes for winners in the junior and adult judging contests. The Mellus Bros. will donate a young bull calf, eligible for registration, as an attendee prize.

Refreshments will be served following the program. Any dairyman is invited to attend.

The Mellus Bros. farm is located on Highway 66 about 1 1/2 miles west of the intersection of Highways 45-55 (Gumm's garage) or 2 1/2 miles east of Ackerville.

SOCIAL SECURITY SERVICE CHANGE MADE AT WEST BEND

A change in the scheduled social security service to West Bend has been announced by K. A. Albrecht, manager of the Milwaukee office of the Social Security Administration.

Starting with July a representative of the Milwaukee office will be at the court house in West Bend on the second and fourth Wednesdays of each month rather than on every Wednesday, as before. Office hours will be the same—10:00 a. m. to 12:30 p. m.

According to Albrecht, the schedule change will coincide with a change of field representatives assigned to the West Bend area. The former representative, Robert N. Teeters, was recently transferred and promoted to the position of assistant manager of the social security office at 5306 W. Lawrence Ave., Chicago. Teeter's duties have now been assumed by Jerome L. Grummel who has been associated with the Milwaukee social security office for the past 2 1/2 years.

The purpose of regular bi-monthly visits to the court house in West Bend is to provide local service to persons in this vicinity regarding applications for old-age and survivors insurance benefits and information about the social security program.

—YES, it's Miller's at Kewaskum, or quality home furnishings at most reasonable prices. Open daily until 6, Fridays until 9 p. m. Free deliveries.

Meet the 1953 Alice in Dairyland At The Wisconsin State Fair, August 22-30

Miss Mary Ellen Jenks, 19, Chippewa Falls (upper left) is the 1953 Alice in Dairyland who will reign over the Wisconsin State Fair, Milwaukee, August 22-30. Little Miss "Hi" Jenks enjoys immensely all the fun opportunities at the fair and gets an especial thrill from the ever-popular roller coaster. Among the thousands of features at the Wisconsin State Fair will be a new and enlarged Farm Machinery Show, one of the largest in the middle west, and a five-day Horse Show, which will include entries from many communities, big and small, throughout Wisconsin, Illinois, and other states.
