

Red Cross Chapter Officers Elected at Board Meeting

Members of the board of directors of the West Bend chapter of the American Red Cross met Monday night at the public library in West Bend and elected former County Court Judge F. W. Bucklin as the chapter's chairman for the coming year. Judge Bucklin succeeds the Rev. D. L. Wanderscheider, chapter chairman for the past year, who asked to be relieved of his office.

Other officers elected include Jack Pischke, who will succeed Julius Fleischmann as treasurer of the chapter, and Mrs. Victor Bauer, who succeeds Mrs. Elmer Eberhardt as secretary. County Court Judge Milton Meister, whose term did not expire with those of Mrs. Eberhardt and Fleischmann, is the chapter's vice-chairman.

In addition to electing officers, the directors also named four of their number to the chapter's executive committee to replace Donald Ripple, August Koch of Kewaskum, John Hoffman, and Dr. June Hausmann Dhein, whose terms on this committee expired this year. Elected to replace them were Dr. Robert Kauth of Kewaskum, John Hetzel, Roy Grignon, and Mrs. Robert Berger.

A special committee to revise the chapter's by-laws was also elected at the meeting. The committee includes Atty. Henry Schowalter, chairman; Mrs. Robert Dunlop, and Judge Bucklin.

A report on the recent national convention held in Washington, D. C., was given by Mrs. Herman Stein, chairman of volunteer services of the Milwaukee chapter area.

Directors of the local chapter include Egbert Muth, Mrs. Victor Bauer, Carl Schneis, Mrs. Robert Dunlop, Leonard Drickon, Dr. Robert Kauth, Charles Strack, Mrs. Robert Berger, all of whose terms expire in 1956; Eugene Otten, Mrs. H. Rosenheimer of Kewaskum, Mrs. Arthur Schoedel, Ben Zinke, Roy Grignon, Mrs. Carl Peters, Jack Pischke, John Hetzel, Judge Milton Meister, whose terms expire in 1955; Mrs. Clarence Kircher, Francis Ackermann, Richard Donahue, William Steiner, Mrs. Paul Bruhl, Dr. William Nielson, Herbert Hamann, and the Rev. Wanderscheider, whose terms expire in 1954.

Simon Stoffel Dies

Simon Stoffel, 87, of 771 N. Boyd Way, Fox Point, father of Nicholas Stoffel, Kewaskum, and a former resident of the town of Kewaskum many years, died Thursday, Aug. 20. He is also survived by two other sons and three daughters, Rev. Roman B. Stoffel, St. Cloud; Mrs. Lawrence Schmitt, Milwaukee; Rev. Clarence Stoffel, Martinsville, Wis.; Mrs. Crescence Kern and Mrs. Jerry Mix, Milwaukee. Funeral arrangements had not been announced at this writing.

BURKES IN NEW HOME; NEUMANS MOVE TO BARTON

Mr. and Mrs. Henry Burke have moved into their new home on North ave. from the former Mrs. Hugo Vorpahl bungalow in the Stark addition, which has been sold. The Burke home is located next to the Mrs. Ed. Bassil home.

Mr. and Mrs. Russell Neuman and son Russ have moved from the upper rooms of the Mrs. Emma Lutz home, R. 1, Kewaskum, north-east of the village, to their new home at Barton.

NINETIETH BIRTHDAY OF EMIL SPRADUA OBSERVED

Emil Spradua, who makes his home with his daughter, Mrs. Clarence Mertes, Kewaskum, celebrated his 90th birthday last week Friday, Aug. 14. Relatives and friends were entertained at the home during the day in honor of the occasion.

ROGER HEBERER INDUCTED

Fond du Lac county's latest quota of draftees, who reported for induction Tuesday, Aug. 18, included 16 young men. Included with the group was Roger Allen Heberer, R. 2, Campbellsport.

Justman Bid for Painting Park Buildings Accepted

Motion by J. Stellpflug, seconded by M. Schaefer and carried that the bid of Herbert Justman of three hundred ninety-two dollars and sixty cents (\$392.66) for the painting of the buildings in the village park be accepted.

The major portion of this meeting was devoted to discussing with representatives of Regal Ware, Inc., Heinemann Creameries, Inc., Rosenheimer Malt & Grain Co. and the McMahon Engineering Co. the preliminary plans for the construction of a new disposal plant.

Upon motion made, seconded and carried, the board adjourned until Tuesday evening, July 28, 1952 at

7:00 p. m.

William S. Martin,
Village Commissioner

MILLER BABY BAPTIZED

The little daughter of Mr. and Mrs. Roman "Jimmy" Miller, Kewaskum, was baptized in Holy Trinity church by the Rev. F. C. La Buwi on Sunday. She received the name Catherine Ann. Sponsors were Mrs. Jerome Hausmann and Leroy Miller.

Funeral of Little Gladys Kuehl Held

Gladys Wilmona Kuehl, four-year old daughter of Mr. and Mrs. Marvin Kuehl, town of Wayne, died at 12:35 p. m. Thursday, Aug. 13, at St. Joseph's hospital, Milwaukee, following a serious illness of two weeks with a kidney tumor. Everything possible was done to save her life but to no avail.

Born Aug. 16, 1949 at St. Joseph's hospital, West Bend, she lived with her parents on a farm in Wayne township. Surviving are the parents, a sister, Elaine, nine years, her grandparents, Mr. and Mrs. John Kuehl, Kewaskum; great-grandmother Kuehl of the town of Wayne and great-grandmother Foerster of the town of Addison.

The body was in state after 2 p. m. Saturday at Miller's Funeral home and from 12 noon to 2 p. m. Sunday at the Salem Reformed church, Wayne, when services were held. The Rev. Donald Koehn officiated and burial was in the church cemetery.

MRS. LOUISA TERLINDEN

Mrs. Louisa Terlinden, 96, widow of Peter Terlinden, one of the oldest residents in the community, died Wednesday night, Aug. 19, at her home in Campbellsport.

Born July 13, 1857, in Germany, Mrs. Terlinden came to America when she was seven years old, the family settling at Wayne. She was the youngest of six children. Mr. and Mrs. Terlinden were married Oct. 7, 1876, and with the exception of 10 years spent at Norwood, Minn., spent their wedded life in the community. They lived on a farm in the town of Auburn, later retiring and moving to the village of Campbellsport. Mrs. Terlinden died in December, 1928.

Mrs. Terlinden was the mother of 11 children, three of whom, Viola, Olive and Eunice, preceded her in death. Those surviving are Katherine, John and Lydia Terlinden, Campbellsport; Meta Terlinden, West Allis; Charles Terlinden, Waukesha; Mrs. Anna Kleinschay, Towntown; Dr. Jacob Terlinden, Bondel, and Edward Terlinden, town of Auburn; seven grandchildren and two great-grandchildren.

The body will be in state at the Twobig Funeral home, Campbellsport, until 11 a. m. Saturday, when private services will be held, prior to removal to Campbellsport Reformed church to be in state from noon until 2 p. m., the funeral hour. The Rev. Leonard Stockman will officiate. Burial will be in the family lot in Auburn cemetery.

BIRTHS

GNACINSKI—A son to Mr. and Mrs. Eugene "Mike" Gnacinski, Kewaskum, Thursday, Aug. 20, at St. Joseph's hospital, West Bend.

DEI—A son to Mr. and Mrs. Byron Del, Port Washington, Va., Sunday, Aug. 16, at Portsmouth Naval hospital, Norfolk, Va. with the U. S. Navy.

Mr. and Mrs. Walter Dei, Kewaskum, are the paternal grandparents and Mr. and Mrs. August Sheerer, Milwaukee, the maternal grandparents.

TORNOW—A daughter to Rev. and Mrs. Hans Tornow, town of Scott, at Memorial hospital, Snyboygan, Thursday, Aug. 13.

BOWLERS ELECT VAN, BUECHEL AT MEETING

The Wa-Fon-Do Bowling league held its annual meeting at the King-Pin alleys, Campbellsport, last Tuesday evening. Officers elected for the 1953-54 season included Gib Buschel, Kewaskum, president; Elwood Hoepfner, vice-president, and John Van Blarcom, Kewaskum, secretary-treasurer. Loop bowling will start on Sept. 15.

MARY MARTIN ENGAGED

Mr. and Mrs. Arnold Martin, Kewaskum, announce the engagement of their daughter, Mary, to Frank Krueger, Jr., son of Mr. and Mrs. Frank Krueger, Sr., also of Kewaskum.

\$100,000 Fire at West Bend High School Wednesday

JANITOR OVERCOME TRYING TO SAVE FURNISHINGS; 2 DEPARTMENTS FIGHT THE BLAZE

Janitor Hubert Becker of West Bend's modern three-story high school was overcome by smoke and considerable damage was caused to the structure when fire swept the upper section Wednesday afternoon. Damage was estimated by authorities at a "conservative" \$100,000.

Defective wiring was believed to have caused the conflagration. The fire was detected shortly before 3:30 p. m.

Fire fighters rushed to the school to battle the flames. Once the fire broke through the roof, it threatened to spread out of control. Barton village firemen were summoned to help and the two departments poured tons of water on the building to successfully get the fire under control by about 6 p. m. The firemen remained at the scene well into the night to prevent another outbreak.

Becker was in the building when the fire broke out. He was overcome while attempting to haul furnishings to safety, authorities reported. He was removed to St. Joseph's hospital there and released after treatment. Becker had long held the custodian's post at the school.

Workers had just completed their summer work of renovating the interior of the school and had waxed the gymnasium floor Wednesday morning as their last task. The wax was still wet when firemen entered the building.

Most of the school's damage was caused by the heavy volume of water poured into the building. The water seeped through the second and first floor classrooms and the next day plaster was falling in most rooms. There was speculation that the damage may cause a delay in the opening of the fall term.

The high school is located in the southern portion of West Bend on Highway 55 just opposite the Amity Leather company. It was erected in 1925. Since then three additions have been built.

County Court Jurors for December Term Selected

The jury commissioners announced that they had selected 36 citizens as members of the jury panel for the next term of county court. The next term starts in December. Those on the present jury panel will be used until that time, according to a release from County Judge Milton L. Meister.

The members of the jury panel for December selected were:

Mrs. Robert Claus, Mrs. Jacob Koller, Alfred Strack, Mrs. Art Bast, Woodrow Hron, Andrew Fechter, Mrs. Ray Umbas, Andrew Weber, Pearl Rehn, Mrs. Joe Kromsreiter, Margaret Kinney, Peter Neureuther, Mrs. Math Klein, Mrs. Gilbert Arnold, Roman Mueller, George Schaf, John Roden, Henry Esselman, Mrs. Viola Falk, Frederick W. Schloemer, Ben Werner, Lawrence Ritterbusch, Fridling Hetter, George Stuetgen, Leo J. Hettler, Alfred Hemauer, Willard Lippert, Oscar Day, Richard Rosche, Joe Weber, Peter Kohl, Adam Schaefer, Frank Immel, Raymond Weichman.

LOCAL BOY DOES WELL AT FONDU LAC COUNTY FAIR

Delbert Haack, son of Mr. and Mrs. Hilbert Haack, Route 1, Kewaskum, won a first place blue ribbon in the Showmen's contest at the Fond du Lac county fair held last week at Fond du Lac.

Showing his senior purebred Holstein bull calf which merited a red ribbon in the show ring, Delbert led his calf past the judge to the top group placing.

Delbert will be a sophomore at Kewaskum High school this fall, is taking vocational agriculture, and is an outstanding F. F. A. member.

APPROACHING MARRIAGE

Mr. and Mrs. Gregor Boisbier, R. 1, Campbellsport, announce the approaching marriage of their daughter Louise Theresa, to Joseph Ralph Bonlander, son of Mr. and Mrs. Ervin Bonlander, St. Kilian. The wedding is planned for 9 a. m. on Sept. 1 at St. Martin's church, Ashford.

REV. CANON GUILBERT TO SPEAK AT PEACE CHURCH

The Rev. Canon Charles M. Guilbert of Great Cathedral, San Francisco, Calif., will speak at the morning services at Peace E and R church, Kewaskum, on Sunday, Aug. 23. Rev. Guilbert and his family are at present visiting Mrs. Guilbert's mother, Mrs. Otto E. Lay here.

SCHLOSSER FAMILY REUNION

A reunion of the Jacob Schlosser family was held in the Kewaskum park last Sunday. Mr. and Mrs. John Schlosser and family of Richmond, Ill. spent the week end with relatives here and also attended the reunion.

Ball Game Called Off; Cedarburg Here Sunday

LAND O' LAKES STANDINGS (Northern Division)

	Won	Lost
West Bend	10	2
Grafton	12	3
Port Washington	10	3
Belgium	9	5
Cedarburg	8	7
Mequon	7	7
KEWASKUM	6	7
Germantown	5	10
Newburg	2	12
Saukville	1	12

Scores last week—West Bend 20, Belgium 1; Port 7, Grafton 0; Cedarburg 9, Newburg 4; Cedarburg 25, Saukville 11.

Game Friday night—Newburg at West Bend.

Games this Sunday—Cedarburg at Kewaskum, Grafton at Newburg, Saukville at Germantown, Belgium at Mequon, West Bend at Port.

Kewaskum's game here Sunday with Germantown was called off because it was thought the infield, which was torn up earlier this summer, would not be in good enough shape to play the tilt.

However, much work was done on the diamond the past week and it is in pretty good condition. The Chevrolets have another home contest scheduled this Sunday against fifth place Cedarburg. This game will definitely be played here and will be the first one on the local field in many weeks. Fans haven't seen a game here in a long time and they are urged to come out on Sunday as there aren't many tilts left before the season closes.

West Bend took first place Sunday by about 25 percentage points by beating Belgium by a surprising 20-1 score. They passed up Grafton which had led the circuit all season. Grafton was shut out by Port Sunday, 7-0.

VILLAGE BOARD, FIREMEN GUESTS OF INSURANCE CO.

Officials of the village and members of the fire department are grateful to Theodore R. Schmidt and the Kewaskum Mutual Insurance company for entertaining them in the company's beautiful new office building Tuesday night.

After being guided through the spacious rooms of the structure, those present spent the remainder of the evening sociably and in playing cards in the large meeting room in the basement. A delicious lunch and refreshments were served by the hosts and everyone had a real enjoyable time.

LOCAL BOY DOES WELL AT FONDU LAC COUNTY FAIR

Delbert Haack, son of Mr. and Mrs. Hilbert Haack, Route 1, Kewaskum, won a first place blue ribbon in the Showmen's contest at the Fond du Lac county fair held last week at Fond du Lac.

Showing his senior purebred Holstein bull calf which merited a red ribbon in the show ring, Delbert led his calf past the judge to the top group placing.

Delbert will be a sophomore at Kewaskum High school this fall, is taking vocational agriculture, and is an outstanding F. F. A. member.

APPROACHING MARRIAGE

Mr. and Mrs. Gregor Boisbier, R. 1, Campbellsport, announce the approaching marriage of their daughter Louise Theresa, to Joseph Ralph Bonlander, son of Mr. and Mrs. Ervin Bonlander, St. Kilian. The wedding is planned for 9 a. m. on Sept. 1 at St. Martin's church, Ashford.

REV. CANON GUILBERT TO SPEAK AT PEACE CHURCH

The Rev. Canon Charles M. Guilbert of Great Cathedral, San Francisco, Calif., will speak at the morning services at Peace E and R church, Kewaskum, on Sunday, Aug. 23. Rev. Guilbert and his family are at present visiting Mrs. Guilbert's mother, Mrs. Otto E. Lay here.

SCHLOSSER FAMILY REUNION

A reunion of the Jacob Schlosser family was held in the Kewaskum park last Sunday. Mr. and Mrs. John Schlosser and family of Richmond, Ill. spent the week end with relatives here and also attended the reunion.

Youths Involved in Break-Ins Before Judge

The two other Kewaskum youths involved in a series of break-ins in Washington and Fond du Lac counties recently, one 16 and the other 17 years old, appeared before Judge Milton L. Meister in West Bend Tuesday. The case was adjourned pending further investigation.

Last week the two 15-year-old Kewaskum boys involved were committed to the Waukesha School for Boys until they are 21 years of age, unless, through exemplary conduct, they become eligible for parole before that time. Charges against the two older boys were not nearly as extensive as those against the other two.

Annual County Teachers Institute Aug. 27-28

The annual Washington County Teachers' Institute will be held on Thursday and Friday, Aug. 27 and 28 at the court house in West Bend. This was announced this week by Harry D. Sheel, county superintendent of schools.

The two day conference will open at 8:30 a. m. Aug. 27 and will continue throughout the day. Howard Emerson, music instructor in the Slinger schools, will give the opening address entitled "The Teaching of Elementary Music."

E. M. Reed, arithmetic specialist of the Silver Burdette Publishing company, will discuss Improvement of Arithmetic Teaching in the Lower Grades. Miss Mary Cook, county nurse, will speak on Health Facts.

The regular chest x-ray service will again be available during the noon luncheon period from 11:30 a. m. to 1 p. m.

On the afternoon agenda will be a discussion of Developing Skills Effectively in Lower Grades by Louise Gersbacher, Scott, Wis. A demonstration; a discussion of Hints and Hints by the county office staff and a Preview of Tomorrow in Conservation by Don Niendorf, state conservation educator.

An innovation of this year's meeting will be a county-wide conservation tour on Friday to increase the knowledge of an interest in conservation work in the county and schools. The tour will concern all phases of conservation. Guides on the tour will include E. E. Skalsky, county agricultural agent; Del Wanless, county soil conservationist; Robert Lake, county game warden; Adrian De Vriend, area forester; Armin Schwengel, game manager, and Don Niendorf, state erosion control agent.

Teachers will bring a box lunch because the tour will require the entire day. This year the theme of the institute will be conservation and an enjoyable tour is anticipated.

AUGUST BARTELT HOME AT FOREST LAKE SOLD

In a transaction made by the Bartelt Real Estate Agency on August 18, the August C. Bartelt country home at Forest Lake, town of Auburn, Fond du Lac county, was sold to George Horn and wife of West Bend.

The Bartelts, however, have retained most of their lake frontage and approximately ten acres of land abutting upon Forest lake.

DOROTHY BREIT AWARDED SCHOLARSHIP TO COLLEGE

Miss Dorothy Breit, a spring graduate of Kewaskum High school, has been awarded a freshman scholarship to Wisconsin State college in Oshkosh, according to the registrar's office.

Freshmen registration-orientation at Oshkosh is September 14, 15, 16, with upperclassmen registering the 16th. Classes resume September 17.

REGISTRATION HELD FOR PUPILS AT HOLY TRINITY

Last Thursday at 1:00 p. m. registration was held for children who expect to attend Holy Trinity Catholic school for the first time this fall. All children entering the first grade and others who did not attend the school last term were to register at this time.

REINDL AT CAMP CHAFFEE

Pvt. Harold Reindl, son of Mr. and Mrs. Kilian Reindl, St. Kilian, who was recently inducted into the army, has been assigned to Camp Chaffee, Ark. for training. His address is Pvt. Harold J. Reindl, U.S. 65480949, Btry. D, 95th A.F.A. Bn., 5th Arm. Div. Art., Camp Chaffee, Arkansas.

Rope Across Road Causes Death in Mishap Wednesday

Because of a rope stretched across Washington County Trunk HH Wednesday afternoon, Aug. 19, a farmer lost his life in a freak accident east of Kewaskum.

Edwin K. Schultz, 55, R. 1, Fredonia, was killed at 3:45 p. m. when the car he was driving ran into the rope, then went out of control and overturned, landing on him.

The sheriff's department reported that Schultz was accompanied by William Bieber, 51, Fredonia, R. 1, and was traveling at normal speed along the road when the accident occurred. Bieber said that Schultz saw the taut rope too late and jammed on his brakes before hitting the obstruction.

The rope was attached to a tractor driven by Robert Felienz, who was helping his father, Leo Felienz, pull a hay sling into their hay mow. The youth drove the farm machine across the highway with the rope which lifted the sling toward the mow. Just then Schultz' auto approached. Schultz fell from the machine as it careened. The vehicle flipped over, landing on the driver. Washington county coroner reported Schultz' death was due to a skull fracture. The fatality was the county's ninth of the year.

In the Service

BOB LUEDTKE PROMOTED TO SERGEANT IN KOREA

WITH I CORPS IN KOREA—Robert B. Luedtke, whose wife Dolores, lives at Kewaskum, recently was promoted to sergeant while serving in Korea as operations sergeant in I Corps 96th Field Artillery Battalion.

In Korea since September 1950, I Corps units spearheaded the drive from the Pusan perimeter which smashed to within 40 miles of the Yalu River before the Chinese Communists intervention.

Sergeant Luedtke, son of Mr. and Mrs. August Luedtke of Cascade, arrived in Korea last December after serving at Camp Cooke, Calif.

Before entering the army in January 1952, he was employed by Harnischfager in Port Washington.

PVT. RALPH KLEIN ARRIVES IN GERMANY

WITH 2ND ARMORED DIV. IN GERMANY—Pvt. Ralph E. Klein, son of Mr. and Mrs. Ervin S. Klein, R. 1, Kewaskum, recently arrived in Germany for duty with the 2nd Armored Division.

Klein, graduated from Random Lake High school and was employed by the Gehl Brothers Manufacturing company in West Bend, before entering the army in December, 1952.

Known as the "Hell on Wheels" division, the 2nd Armored is part of General Matthew Ridgway's NATO defense in western Europe. It is currently undergoing rugged field training in west Germany.

HAACK SENT TO GREENLAND

A/3C Howard A. Haack, son of the Edmund Haacks, Kewaskum, who was formerly stationed at St. John's, Newfoundland, Canada, was recently transferred to Thule Air Force Base in Greenland. In a note informing the Statesman of his change of address, Haack wrote that this base is known as the most important one in the overseas command. It is also the northernmost base in the world and it is now daylight 24 hours a day there. His mailing address is as follows: A/3C Howard Haack, AF16420176, 6612th Installations Squadron, APO 23, C/O Postmaster, New York, N. Y.

REINDL AT CAMP CHAFFEE

Pvt. Harold Reindl, son of Mr. and Mrs. Kilian Reindl, St. Kilian, who was recently inducted into the army, has been assigned to Camp Chaffee, Ark. for training. His address is Pvt. Harold J. Reindl, U.S. 65480949, Btry. D, 95th A.F.A. Bn., 5th Arm. Div. Art., Camp Chaffee, Arkansas.

COMPARING NOTES—Film comedian Danny Kaye, left, and Metropolitan Opera star Robert Merrill, right, blend their voices in an operatic aria during a for-older-times' sake reunion. Merrill says Danny sings as well as he does.

Turkey Celebrates Istanbul's Capture

The roar of 101 cannon on May 29 began a 10-day 500th anniversary celebration of Turkish rule over Istanbul, guardian of the Black Sea gateway.

Known to the ancients as the "Hub of the Universe," by the Russians as the "City of Kings," and by modern Turks as "The Magic City," Istanbul is one of the world's strategic centers, says the National Geographic Society. Beside the Bosphorus, the narrow neck of water which separates Europe from Asia, it is the historic meeting place of East and West.

Leaders of the Turkish Republic gathered on the hills of Maltepe overlooking Istanbul for the 101-gun salute in memory of Sultan Mohammed the Conqueror. On May 29, 1453, the massive walls were breached by a Turkish army of 150,000. Mohammed's cannon, a new weapon of the era, had pounded the fortifications for five weeks.

When taken by the Turkish Moslems, the city had been Christian-ruled for more than 1,000 years. Seeking a new location for the capital of his empire that would be secure from north European barbarians, Constantine the Great, Christian Emperor of Rome, annexed it from the Greeks in the fourth century. "New Rome" and Magnificence

Noting that the city stood among seven hills, like Rome, he named it New Rome. But his men called it Constantinople, the City of Constantine, and the name persists even today in the mind of the West.

Greco-Roman Christian theocrats reigned over a court and empire renowned for magnificence and art were nurtured here during the Middle Ages, while western Europe remained in the darkness of feudalism. In Eastern parlance, the city had been known as Byzantium. The adjective "Byzantine" still connotes richness, luxury and grandeur. El Greco was trained in its art.

Byzantium was founded nearly 700 years before Christ, when a group of Greek explorers sailed northward through the Dardanelles and over the Sea of Marmora to settle on the Asiatic shore at Chalcedon, across from Byzantium.

Some years yater, a second contingent landed on the European side of the strait. Their leader, Byzas, had been told by the oracle of Apollo at Delphi to settle "opposite the blind men." The European side seemed a place of such natural beauty for a city that the ancients soon were telling a standing joke on the blindness of those who had founded Chalcedon.

Byzantines Were Fishermen
The early Byzantines became rich on the proceeds of their fishing industry. Through the Bosphorus flows a strong current from the Black Sea, and to this water were attracted great schools of "pelamys," thought to be a species of tunny. In addition, the Byzantines placed a heavy tax on

LOVELIEST OF ALL—Christine Martel of France, recently named Miss Universe, receives congratulations from actor Jeff Chandler. The two may be seeing more of each other in the future, as one of Christine's prizes is a contract at Universal-International studios, where Chandler is also under contract.

CATCHY CATCH—It looks like some fisherman made a lucky catch, but don't be fooled. That's darlin' Kathy Darlyn adorning the sands of Sarasota, Fla., with an attractive beach robe of shimmering fishnet made of metallic thread.

LOOK HOO'S THERE—These two Michigan screech owls give each other the eye in no uncertain terms. The fluffy little birds are misnamed, according to bird experts, who say their cry is a series of clear, tremulous and plaintive notes rather than a screech.

Amend State's Auto Accident Report Law

The latest amendment to Wisconsin's auto accident reporting law corrects an inequality existing for the past two years in the matter of whether damages must total \$50 or \$100 before becoming reportable to the motor vehicle department.

Law-makers in the 1951 legislative session raised reporting limits from \$50 to \$100, but left at \$50 the limit on security provisions under the safety responsibility law.

Thus, during the past two years, a driver involved in an accident resulting in neither death nor injury, but damage of less than \$100, did not have to report such accident to the state. If he did file a report, however, he was in the position of having to comply with the safety responsibility law, which requires that damages arising from accidents must be settled within 60 days or the driver

must file security in an amount equal to the estimated damages, to be kept on file until the case was closed.

Thanks to a revision by the 1953 law-makers, the state statute now makes \$100 the minimum figure for accident reporting, and for the safety responsibility provisions. Judgments over \$100 which remain unsettled for longer than 60 days must be certified by the court to the motor vehicle department for suspension of operator's license until the judgment is paid.

Accidents leading to death, injury, or property damage totaling \$100 also must be reported to local authorities.

During the past 12 years, the number of farm workers in this country has gone down by two million, or about one-sixth. In the same time, farm output has increased nearly a third, and output of labor per man hour has risen nearly one-half.

Hurried Too Fast

An editor was in a big hurry to get his paper out when he tripped and spilled some lines of type. Quickly and angrily he picked up the type and thinking it all belonged to one story, slapped it together. However, it was two, and the following appeared in his paper:

William Smith and Lucy Anderson were disposed at public auction at my barn one mile east, a beautiful cluster of roses on her shoulder and two white calves before a background of farm implements too numerous to mention, in the presence of 70 guests including 2 milk cows, 6 mules and 1 buggy. The Rev. Jackson tied the nuptial knot with 200 feet of grass rope and the bridal couple left on a gang plow for an extended trip with terms to suit the purchasers. They will be at home to their friends with one good baby buggy and a few kitchen utensils to responsible parties and some 200 chickens.

KERRY DRAKE

MARY WORTH'S FAMILY

STRICTLY FRESH

A NEW YORK physician reports that gold is helpful in fighting arthritis. That's nothing. Money always was helpful.

The American dollar is getting smaller in value but harder to hold on to.

A Minneapolis heating company says 23 cows can heat the average home. That's under nonsense!

In 1664 a Swedish historian was ordered by his dissatisfied public to eat his book or lose

his head. At least one book has been well digested.

The steady increase in the number of working wives since World War II leveled off last year. Yep, women ARE getting smarter.

HAIR BREADTH HARRY

MODERN PAPOOSE—Latest in baby fashions takes a tip from the American Indian and lets junior sit comfortably behind, freeing mother's hands and acting as a reducing agent as well. Designed by Lois Lignell, it's made of stout denim.

SLIDING DOORS

By installing sliding doors you save the room necessary for the ordinary swinging door. The new doors and hardware have been improved so that they work better than those installed 30 years ago.

Special wall construction is necessary for this type of door. See illustration. Note that the wall studs, instead of being crosswise between the two plastered walls, are installed flatwise. Space for the door must also be left between the studs.

The hardware for the hanging type of sliding door is installed at the top. There are several types. Some of them slide on metal surfaces, and some operate on rollers.

To install this type of sliding door in an old house, it is usually necessary to rebuild the wall into which the door slides. The advantages may not be worth the expense involved.

But if you are remodeling or building a new house, it might be worth while to inquire at your local building supply dealer for prices and instructions for installing.

So Goes The Mind

By Orin R. Yost, M. D.
Medical Director, Edgewood Sanitarium

(Editor's Note: Dr. Yost is a graduate of the Medical College of Virginia at Richmond, studied psychiatry at St. Elizabeth's Hospital in Washington, D. C., taught psychiatry at Columbia University, New York, was division psychiatrist of the 79th division in World War II, and is presently Medical Director of Edgewood Sanitarium Foundation.)

MENTAL ILLNESS

What You Should Know About It
Mental illness is the name we give to a number of sicknesses of the mind that affect how a person thinks, how he feels, and how he behaves. When a person is suffering from a serious mental illness, doctors call it a psychosis. If you have ever been around a person with a psychosis, you have noticed that he seems to be living in an imaginary world of his own. Such a man is not totally unaware of what is going on around him or what is happening to him, but he has what we call "strange ideas" that do not seem to be connected with the actual world around him. He acts in a way we call "queer" or "nutty" or "crazy."

Sometimes a mentally-ill person thinks he is hearing voices; sometimes he seems to be under a compulsion to do what the voices tell him. Sometimes he thinks his family or others are trying to poison him; sometimes he seems to be sure that everybody is against him, that he is being persecuted. He may vary between moods of being terribly elated and excited, and being very depressed. Sometimes in these depressions he may withdraw completely and have no interest in anything outside his own ideas. He may think that he is some famous personage—Queen Elizabeth, or Catharine the Great, Julius Caesar or even Jesus Christ.

Such a sick person has very little or no control over what he does. What he needs is to be cared for, and to get scientific treatment for his illness. Such treatment is not in the power of his family to give him, no matter how anxious they are for him to get well, and how much they love him. Such treatment requires professional skill, knowledge and experience.

Many people believe these mentally sick individuals are insensitive to what is going on around them, but this is not the case. In most instances, the sick person is able to respond and does respond to attention and kind treatment. Sometime, during such an illness, the sufferer appears to have recovered from his symptoms, but that should not lull his family into thinking that the unhappy symptoms can be ignored in the hope that they will not return.

Seldom does mental illness come on suddenly. This is an important fact for the families of mentally ill persons to realize. In practically all instances, there are early signs and symptoms that most lay people ordinarily do not recognize, but which trained people, such as physicians, psychologists, psychiatric social workers and psychiatrists are able to recognize long before the person has an actual "breakdown."

It is important that we all learn to recognize the early signs of mental illness, for the chances of recovery are greatly increased if such illness is treated in its early stages. Great benefits have resulted from the modern scientific treatment of mental illness that hospitals are prepared to give and therefore hospital treatment is advisable for almost all severe mental illnesses.

Sarah Anne's COOKING CLASS

Bavarian Cream Glorifies Fruits

Let one of the most beautiful of food creations, a Bavarian cream, give sumptuousness to fruits at dessert time. This classic starts as a custard base into which whipped cream is folded. Then unflavored gelatine captures and molds the light, oh-so-smooth texture.

If you do not wish to use a fancy mold for the Bavarian, chill it in sherbet glasses which can go direct to the table. Or chill the dessert in a bowl, and spoon portions into individual serving dishes. The fruit garnish for this velvety custard can be fresh, canned or frozen. Sliced or crushed strawberries, a compote of fruit heightened with rum flavoring, a medley of citrus fruits... all gain glory with this gelatine delight.

Bavarian Fruit Dessert

- 1 envelope unflavored gelatine
 - 1/2 cup sugar, divided
 - 1/4 teaspoon salt
 - 1 3/4 cups cold milk
 - 2 eggs, separated
 - 1/2 teaspoon vanilla
 - 1 cup heavy cream, whipped
 - Fruits for garnish
- Mix gelatine, 1/4 cup of the sugar and salt in top of double boiler; gradually stir in cold milk. Place over boiling water and scald, stirring constantly. Beat egg yolks slightly. Slowly pour small amount of the hot mixture over egg yolks. Return to double boiler and cook, stirring constantly until mixture coats the spoon, about 3 minutes. Remove from heat; add vanilla. Chill until mixture is slightly thicker than the consistency of unbeaten egg white. Beat egg whites until stiff; gradually beat in remaining 1/4 cup sugar. Fold in gelatine mixture and whipped cream. Turn into a 5-cup mold; chill until firm. Unmold and garnish with fresh, frozen or canned fruits. YIELD: 8 servings.

There are many ways of using fresh peaches in your menus, sliced peaches and cream, peach shortcake, peach dumplings, peach pie, peach tarts, cold and frozen desserts and salads. Try them all.

Peach Sundae

- 1 quart milk
 - 1/2 pint cream
 - 4 eggs
 - 1/4 teaspoon salt
 - 1 1/2 teaspoons vanilla
 - Sweetened crushed peaches
- Scald the milk in a double boiler. Beat eggs and sugar together. Pour some of the scalded milk over the eggs and sugar. Return to the double boiler. Add salt. Cook until the custard coats the spoon. Cool. Add the cream and vanilla. Freeze. Serve with crushed peaches over it.

Peach Preserves

Wash, peel, remove the stones of the peaches and cut into quarters. Weigh peaches; use 3/4 lb. of sugar to each pound of fresh peaches. To each 3/4 lb. of sugar add 3/4 cup of water to make a syrup. Boil the sugar and water for 10 minutes. Skim and drop the peaches in the syrup. Cook until peaches are transparent. If the peaches become clear remove from syrup and spread on a platter. Boil syrup until thick. Return fruit to syrup, bring to boiling point. Put into clean, hot jars and seal.

Peach Salad

- Peaches
 - French dressing
 - Cream cheese
 - Toasted pecans, chopped
 - Lettuce
 - Green peppers, chopped
- Remove skin from peaches and cut in quarters. Sprinkle with French dressing. Arrange on lettuce. Mix cream cheese with an equal amount of chopped toasted pecans. Moisten with mayonnaise and shape into balls. Makes a pile of balls in the center of each salad. Garnish with chopped green peppers.

Broiled Peaches

Arrange peach halves cut side up in shallow pan. Dot with butter and sprinkle with brown sugar. Broil until sugar melts. Fill cavities with blueberries and serve.

Deep Dish Peach Pie

Peaches peeled and sliced
Brown sugar
Butter
Few grains salt
Plain pastry

Line sides of deep baking dish with pastry. Arrange peaches in layers in baking dish. Between layers sprinkle with brown sugar and dot with butter. Cover with plain pastry and prick with a fork. Bake 35 to 40 minutes in an oven 350 degrees.

Peach Sherbert

- 2 cups sugar
 - 1 quart water
 - 1 teaspoon gelatin
 - 2 cups fresh peach pulp
 - Juice of 1 lemon
 - Juice of 2 oranges
- Boil sugar and water for 5 minutes, add the gelatin which has

been softened in a little cold water. Chill. Add peach pulp which has been pressed through a sieve. Add lemon and orange juice and freeze.

Peach Melba

Square of cake
Vanilla ice cream
Very cold slices of peaches
Raspberry sauce

Place a square of cake on each serving plate. Top with a generous scoop of ice cream and slices of peaches.

Serve with raspberry sauce.

Raspberry Sauce

- 1 cup sieved raspberries
 - 1/4 cup sugar
- Combine raspberries and sugar. Cook over low heat until mixture is a heavy syrup.

Going over the \$2 billion mark for the first time, gasoline and other automotive taxes collected in 1952 by the federal government totaled \$2,100,066,269.

Pale oat heads showing up in part of your oat field means you have "sparrow disease," says H. L. Shands, University of Wisconsin agronomist. The best way to cure this disease is to scare the birds off with a shotgun, he says.

GLASS-JAWED ENTRY—Abbasong, a crack entry in the \$100,000 Hambletonian stake on August 12 at Goshen, N. Y., is given a good chance of winning, despite its twice-broken jaw. Raymond "Bud" Cotter, 26, is shown with the horse he hopes will beat the 18-year-old record set by "Doc" Farshall, who was 34 when he won the Hambletonian in 1934.

Furniture Fashions

New presentations introduced at the summer furniture markets range in style from adaptations of French, Spanish, Italian, and American Provincial to trend-setting Modern.

Bridging the gap between Traditional and Modern furniture, there are contemporary groups designed to capture the interest of those who prefer the combination of the heritage of Traditional and the up-to-date feeling of Modern furniture.

Shown is a French Provincial dining room group scaled to fit the smaller dining area. At the same time, it is generously proportioned so that it will add dignity to any size dining area.

Made of solid cherry wood, the table extends to 92 inches. In addition to the oval table shown, there is a choice of either a rectangular or drop-leaf model. The finish is amber tone.

French Provincial furniture is ideal for the homemaker who wants to give her home a touch of historic glamour.

Corn Builds Farm Soil When Properly Managed

Hammer mower and mulch planter at work in a fall seeded rye cover-crop. No plowing or cultivation.

Corn is often considered to be a soil-depleting crop; and usually so classified in agricultural programs. Prof. Melsted of Illinois Agricultural Experiment Station in CROPS & SOILS shows us that this is "dead wrong." There is now evidence that, with adapted hybrid seed, adequate fertilization, and the right kind of management, corn may well be one of the farmer's most profitable soil-building crops. But—and here comes the rub—we may have to modify our cultural practices to accomplish this. Prof. Melsted shows how soil fertility, soil organic matter, and soil tilth may be maintained under a system of continuous corn culture. The principal reason for our thinking that continuous corn or the corn-soybean rotation, is bad for the soil comes from our management of such rotations. Exploitive agriculture and low fertilization are the explanation. Under these practices the fertile Midwest prairie soils have lost their organic matter and have eroded badly. Nitrogen is the only soil nutrient in which one has the choice of supplying it as a fertilizer or through the growth of legumes, and the problem really becomes this: Can continuous corn and commercial nitrogen do as much as a legume crop in a rotation to build up our soils? The more organic matter the soil loses the poorer its physical properties become and the lower its productive capacity without fertilizers. Legume residues will form more soil organic matter than either straw or stover. However, if nitrogen is added to the straw and stover as they are returned to the soil, these residues can form as much soil organic matter as the legume. When the "no-cultivation" practices used with such crops are imposed upon the corn crop, it too may become a builder of soil tilth. Where sufficient moisture is present in the soil, the growing of a legume, grass, or small grain between the corn rows and the growing of fall cover crops seeded in the corn early in the fall provide excellent erosion and weed control, lessen the need for excessive cultivation, and greatly increase the amount of residues available for conversion to soil organic matter. After all, there is nothing inherent in the corn plant that makes it "hard" on the soil. Lack of adequate fertilization, failure to maintain organic matter in the soil, and excess cultivation practices are responsible for the deleterious action of corn on soils. When properly managed and adequately fertilized, corn may well be a most profitable soil-building crop.

ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set. Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.

Mrs. Lela S. Wier 2805 Arbor Hills Drive P. O. Box 2695 Jackson 7, Mississippi

It's certainly plain to see...

Chevrolet trucks must be the best buy!

This year again—for the 12th straight production year—truck users are buying more Chevrolet trucks than any other make. It's plain to see that Chevrolet trucks out-sell all others because they out-value all others!

For the best buy — buy now!

When truck users show a continued preference for one particular make of truck, you can be sure that preference is based on a single sound reason: It's the best buy! Year after year, truck users in every field show a clear-cut preference for Chevrolet trucks by buying more of them than any other make. Why not drop in and see why so many more truck buyers choose Chevrolet? You'll find, as they have, that Chevrolet trucks offer more of the features and advantages you want... more solid value in every way... yet it's the lowest-priced truck line of all!

Teacup Topics

By Betty Ann

EDITOR
THE MILWAUKEE JOURNAL
WOMAN'S PAGES

The hatlessness of summer gives one a good chance to observe the condition of women's hair, says Betty Ann.

Have you noticed how many older women are still continuing to give themselves (or have given to them) tight permanents? They are much too busy to set their hair often. The result is a frizzy, wild look. A very soft permanent, or no permanent at all if the hair has the slightest tendency to wave, can go without a setting and have a much better look than can a tight permanent.

Other hair mistakes still being made by the older generation of women are sausage curls and set looking waves. The younger generation of women doesn't, as a rule, go in for these things. Young girls learn much in a beauty way from their mothers but, in this one instance at least, the older women may profitably pay some attention to the younger ones.

How smooth, neat and natural are the styles most of the younger girls choose? No sausage curls or precise waves for them. Why not adapt the same to yourself? If the young girls you see have page boy hair styles—a timeless and pretty style—you might copy the smooth neatness but not the length. Short hair is most flattering to the majority of older women.

The smart homemaker will enjoy her new furniture more if she knows what is inside, underneath, as well as on the surface.

Following are a few suggestions, points to look for, and indicators of good quality.

Try a sofa or chair for size. Sit in it. Relax in it as you will in your own home. Here, the man of the house will have a few ideas. Logically, a comfortable chair for a small person would not be the ultimate in comfort for a 6 footer. A "lounge" chair will have a slightly downward slant from front to back of seat.

After you have determined whether it is comfortable and sized right, examine the other features. Are the cushions firm enough? Ask the sales clerk to turn the chair over. Check such features as webbing and lining. Webbing should be closely woven and firm. Nailing in the framework is taboo. Bracing with corner blocks joined by screws and glue indicates a durable and desirable piece for your home.

What is the tailoring like? Are seams and welting neat and even? If tufted, are buttons firmly sewn?

In the selection of cabinet pieces, here are some pertinent points to remember. Are drawers evenly lined up one above the other? Openings which aren't uniform will cause sticking.

On the other hand, if they are too large, you will have a wobbly and unsightly piece.

How does the finish look? Is it uniform? Do the pulls on the drawer harmonize with the rest of the piece. Finishing of the wood is planned to serve two functions: (1) to preserve the wood, allowing the natural grain or pattern to show.

These are signs which reveal value and durability. They are features you should know about your furniture.

Sultana Rolls

Two cups baking powder biscuit mix; 2 tablespoons melted butter; 1/2 cup brown sugar; 1 teaspoon cinnamon; 1/4 cup sultana raisins.

Prepare biscuit mix as directed on package. Roll out on floured board in rectangle one-fourth inch thick. Spread with melted butter. Mix brown sugar and cinnamon. Spread over surface of rectangle. Sprinkle with raisins. Roll up firmly, like jelly roll, starting with narrow edge, shaping in even roll about two inches in diameter. Slice in one-half inch slices. Place slices close together in greased pan. Bake in hot oven 425 degrees, 15 to 18 minutes. Yield: 10 to 12 rolls.

To renew nap on suede or do-skin gloves, set steam iron at "rayon" and hold about an inch above gloves. Direct steam straight on them. Before they're dry, brush with a soft bristled brush.

Now that melons are in season, a salad dessert of melon balls makes a refreshing and delightful ending for meal. Combine cantaloupe on honey dew melon with watermelon; arrange on salad greens and serve with a favorite dressing.

About The Home

By FRANCES DELL

The clematis is one of the most beautiful flowers that bloom. They last well in arrangements and can be purchased for one or two dollars for planting October or early Spring.

There are numberless species & varieties to choose from. Some can be grown in a shrub border. A few can be used to make a perennial border. Others make ideal portable plants for terrace or steps. Still others can be grown to cover walls, fences, porches, trellises and posts.

Clematis are lovely when grown with climbing roses. When planted like this, the clematis will grow up through the canes. Choose a rose that will bloom at the same time the clematis blooms.

Before planting clematis, soak the hole well. Plant the next day or when the soil is dry enough. When planting, the stems must be protected from injury. The crown should be placed three inches deep in the soil.

To protect the plants from cold, a twelve-inch layer of old manure, compost or peatmoss-mixture should be placed around the base of the plant.

The root-growing area of the plant must be shaded from the hot sun.

Be On The Alert At Street Crossings

Even if you go to the intersection to cross a street, you have to be alert!

That's the warning seen in figures released by the motor vehicle department, for 830 Wisconsin pedestrians were killed or injured at street or road intersections last year. Of this number 193 were crossing with the signal meant for them, 138 crossed against the signal, 468 crossed at intersection where no signals were provided, and 31 crossed diagonally.

Last year 420 pedestrians were hit when stepping out from behind parked cars, and 169 youngsters were struck when playing in the street.

Slight Difficulty
"Yassuh, dat hoss o' mine am de fastest hoss in de world. He kin run a mile a minute ceptin' for just one thing."

"What's dat?"
"De length of de distance am too great foh de shortness of de time."

Chicken Tabasco New Taste Treat

Fried chicken is probably the favorite of all summer meals, and with the attractive prices on this year's plentiful supply of chickens, chances are you'll want to enjoy it often, either for Sunday dinner for the family or fried ahead of time for picnics and outings. Next time you prepare a fryer, do it the way they do down in Louisiana, adding the piquant flavor of Tabasco as a sort of marinade. Sprinkle Tabasco quite freely over the pieces of chicken. Combine 1/2 cup of flour and 1 teaspoon of salt (for a 2 1/2-3 lb. fryer), and roll Tabasco-flavored chicken pieces in mixture. Fry in 1/2-inch fat in skillet, 30 to 45 minutes, or until tender. The seasoning makes for wonderful gravy, too. Pour off all fat from skillet reserving 1/4 cup fat and drippings. Pour 1 cup of warm water into skillet; scrape and stir until browned drippings are loosened; reserve. Heat fat; add 1/4 cup flour and stir to a smooth paste. Add 1 cup of top milk. Continue to cook, stirring constantly until mixture thickens. Season with salt, and a few more drops of Tabasco.

FASHION NOTE—What appeared at first glance to be an epidemic of mumps in the spectators' stand was actually a fashionable display of African head-dressings during a recent Paris parade. Each of the African dignitaries is wearing his native ceremonial turban.

Proper Beach Wear for That Trim Look

BY EDNA MILES

Halter top for shorts or skirts in white or black pique. This Dorothy Korby design is ideal for beach or summertime evenings.

LOOKING pretty at the beach takes work in the form of beforehand planning. Even casual observation of beach get-ups leads to the suspicion that seventy-five per cent of all women at the beach have never so much as glanced at themselves in the mirror before they left the house.

Full length appraisal is essential. The swim suit to cut down figure faults has been on the market for sometime now and is no rarity. The sand or sitting suit that performs similarly is designed to be kind to too-heavy thighs, upper arms and bust.

A good many women continue to cram themselves into that hardest of all suits to wear: white. This demands the absolute in figure perfection. Or, women with large derrieres bounce about in bloomer suits with ruffles across the back. They also are fond of pink which is definitely enlarging.

Another failing is that of "wearing out" old housedresses or just plain old clothes at the beach. This is fooling yourself. Just like eating that last piece of pie "to keep from wasting it."

Casual summer shoe that takes readily to sand is this Desco design in gray denim with black leather trim. Light crepe sole is flexible; whole shoe can roll up into the palm of a hand.

You're in the public eye at the beach so look your very best.

Sleek top for a pair of trim shorts is Dorothy Korby's little molded pique halter in black or white with a single big shiny black button. Bring along a skirt for cover-up and you're

ready to go on from the beach to dinner.

We've picked a sandshoe with denim upper and crinkly crepe sole as a likely beach candidate. It's light, very flexible and comes in gray denim with black kid trim.

Heart Failure Is Cause Of Most Swimming Deaths

Cramp, traditional bugaboo of swimmers, is not a major cause of drownings, according to a bulletin on swimming safety issued by the Minnesota State Medical association.

Heart failure, not muscle cramp, is the most important cause of disasters among swimmers, according to the doctors, and the most important safeguard for those who know how to swim is a physical check-up, before indulging in any strenuous water sports or any distance swimming.

Actually, the cramps, so often held responsible for the drowning of good swimmers, may have been a form of panic due to sudden fright. But the probability is that the heart, already damaged by some infection such as rheumatic fever, or by some congenital defect of the valves, was over taxed and failed, according to the doctors.

No one should ever go in for strenuous water sports without finding out the condition of his heart beforehand. That means children as well as adults, the doctors declare. But it does not mean that those with defective hearts must be barred from milder water sports.

The doctors also take a look in the bulletin at the universal condemnation of swimming after eating and come up with some doubt as to its validity.

"The theory that the stomach requires large amounts of blood for digestion which are therefore not available to the muscles after eating should apply to land sports, too," they point out, "and, if completely valid, should produce spectacular disasters, in case of violent exercise on land after eating." Further research is needed to determine just how dangerous swimming after a big meal may be, they say. Meantime, caution is recommended in this matter, too.

As to muscle cramps, the best way to avoid them in the water is to change stroke frequently and so avoid over-tired muscles. If they appear anyway, leave the water immediately, the doctors say.

MARY B.: Do the sulfa drugs ever affect reproductive organs?
ANSWER: There have been no reports of any harmful effects or change of function. On the other hand, they are often extremely helpful in clearing up infections.

E. H. Fisher, Univ. of Wis. entomologist, lists four reasons for poor fly control with insecticides. Flies may be breeding faster than chemicals can knock them out, flies may have built up resistance to insecticides, the insecticide may be too weak, or it may have been used improperly.

Approximately 1,000,000 miles of America's roads, or 40 percent of the total mileage, are used by less than ten vehicles daily.

Rheumatic Fever Being Conquered

With each passing year it is most encouraging to note the continued decrease in the number of deaths caused by rheumatic fever. Much of this progress is due to the improved health habits and living condition of our people, and the recent availability of sulfa drugs and antibiotics.

Nevertheless, rheumatic fever is still responsible for 19 out of 20 cases of heart disease among children, and its aftereffects cause more permanent disability among school children than any other disease. Surveys also show that rheumatic heart disease accounts for one-third of the crippled hearts in adult life.

While the immediate cause of rheumatic fever is still unknown, studies have proven that it usually follows a strep infection such as septic sore throat and scarlet fever. It is most common in cold, damp weather; and because of the ease of transmission of the strep infection it "seems to run in families."

The combination of poor appetite, repeated nose bleeds, pallor, low but persistent fever, rapid heart action, and pain in the arms, legs, or abdomen may mean rheumatic fever. A child with these early symptoms needs the attentive care of a physician through the weeks and months ahead so as to avoid damage to the heart as far as possible.

The wise parent goes along with the physician's direction that the patient stay in bed so as to spare the heart any unnecessary work as long as the disease is active and during the period of immediate recovery. In some instances this may take many months and only a physician is in a position to judge when it is safe to get up.

During the long period of rest the mental attitude of the child is very important. He should be kept occupied without overexertion and, above all, contented. A cheerful outlook makes the long, slow road to recovery that much easier.

Rheumatic fever is being conquered. When properly treated 70 per cent or more rheumatic fever patients do well and may ultimately lead a normal life. Progress in scientific research will result in an even greater decline in the incidence and severity of this "childhood's greatest enemy."

BRAVERY PAYS OFF—Five-year-old Diana Sue Deardoff, of Decatur, Ill., the 100,000th child to receive gamma globulin in 1953, is rewarded, by a Macon County volunteer, with a lollipop and the syringe which administered the antipolio shot.

Bible Comment:

Apostles Received Thorough Training At Master's School

JESUS was a great teacher, though He conducted no school in the ordinary sense of that word.

A famous adage described the ideal college as a log with Mark Hopkins, eminent college president, at one end and a student at the other. That conception stresses the necessary quality of all true education, that knowledge must become personalized.

The school of Jesus had that basic quality. It was mostly a school of companionship and personal contacts, a school in which the Teacher taught by constant example, and in which He encouraged every success in emulating that example. It was a school, too, in which the Teacher had infinite patience, as every true teacher must have.

The school of Jesus was like some of the schools of today in which knowledge and guidance are combined with experience and practice. Jesus sent the disciples in His school out into the villages, two by two, to practice what they had learned and to proclaim what they had heard.

When one considers how, even toward the end of His ministry, some of the Twelve were quarreling, one wonders just what the missionaries of the new-found Messiah taught the villagers. But they at least had some success, for they returned to Jesus with enthusiasm and wonderment at what they had been able to achieve.

A good school is judged by its results and its product. What a school, then, was that of Jesus, in which humble men became Apostles and spiritual world conquerors!

'Mommy, I Couldn't Be That Dirty!'

Does Mommy know the answer—the true cause for that unsightly bathtub ring? Excessive calcium and magnesium minerals in the water of 80 per cent of the United States are villains that cause exasperating extra cleaning hours. Bathtub rings, gray laundry, dull and stringy hair after shampooing, film deposits on dishes and glassware and hard scale in hot water pipes are products of "hard water." According to latest research findings of water conditioning scientists, hard water is estimated to cost the average family over \$100 a year!

Chemistry has gone to work for the American housewife. An amazing tiny "miracle" resin bead has been discovered which, when used with a softening unit, takes the dissolved calcium and magnesium out of the water, leaving it soft and easy to use. Home water softener units are now being equipped with these miracle beads—called Dowex, Nalcite and other identifying names. By use of a mechanical water softening unit in the home, a continuous supply of soft water is available for all home uses, and convenience as well as savings result.

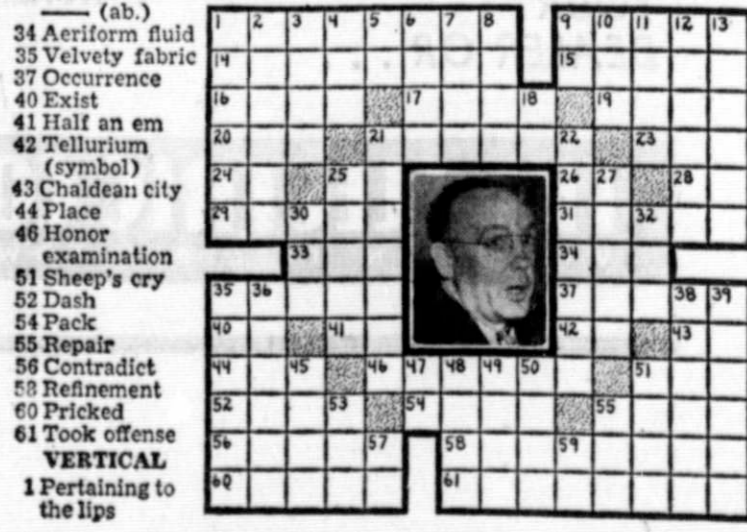

Housewives who wish to overcome the hard water problem should take these steps: Call your local water softener dealer to test tap water for hardness. Make sure that you soften both your hot and cold water because you are doing only half a job if you soften only the hot water. Make sure you understand how your water softener works. Supposedly "soft" water may actually be fairly hard. By completely softening the water, the entire family may now enjoy its benefits.

Here's the Answer

Handy Jim's FIX-UP TIPS For Farm and Home

Temporary Grain Storage

THE time to prepare extra storage for grain is before the storage is needed. Temporary bins holding up to 800 bushels can be built on the farm of materials that can be used later for other purposes, according to Masonite Corporation.

The illustrations show how several panels of Tempered Presdwood are bent into a huge circle

18" 8" in diameter and bolted together. A floor of shiplap boards, covered with sisalcraft, is laid over joists.

Grain in such a bin is kept dry and clean. The cover is a double thickness of sisalcraft laid over a protecting shoulder of hay or straw. Weights attached to wires keep the cover down. Sides of the bin are durable and moisture-resistant. Tempered Presdwood has proved itself as an all-around farm building material over a period of years.

Easy-to-follow but detailed instructions for putting up a temporary grain bin may be obtained by writing Farm Service Bureau, Suite 2039, 111 West Washington St., Chicago 2, and asking for free plan AFB-177.

Reciprocity

Pullman Porter — Beg your pardon sire, but the dollar you gave me last night had a hole in it.

Traveler — So did the blanket you gave me last night.

Too Hard Work

"Are you going to study singing, as you intended?"

"No, I gave up the idea when the teacher convinced me it would take three years of hard work to enable me to sing as well as I thought I sang already."

They Needed A First Baseman . . .

The Donald P. Brown family of Cleveland, Ohio, was one shy of having a complete baseball team. When it became known that another baby was on its way, dad, mom and their eight sons voted for a boy—a first baseman was needed. Along came eight-pound, 13-ounce Thomas, fulfilling the family wish. He is a fine, black-haired lad, but he's a little weak on his footwork around the initial sack and can't be approached by scouts until he has graduated from the bassinet and formula feeding.

Excellent Witness
Judge: "Have you any one in this court who will vouch for your character?"

Defendant: "I have, your honor—the sheriff over there."

Sheriff: "Why, your honor, I don't even know the man."

Defendant: "There you are judge, I've lived in this county more than 10 years, and the sheriff doesn't know me yet. What better character witness do you want?"

Free With The Ticket
Willie's mother took him to the movies for the first time. After watching the picture for awhile she noticed that he was chewing gum. She whispered, "Willie, where did you get the gum?"

"On my seat, mother. Didn't you get yours?"

Sunday is no day of rest for

Peruvian Indians. Into it they crowd churchgoing, marketing, dancing, gossiping, adjustment of interville politics, and love affairs.

Your Optic Nerve Gives You Away

Recent research has shown that the reactions of the optic nerve give strong indication of a person's general nervous temperament, according to the Better Vision Institute. And experiments now taking place are expected to put this fact to practical use.

When an electronic stroboscopic lamp produces light flashes of high intensity, very short duration, and very high frequency—hundreds of flashes per second, each one lasting mere thousandths of a second, that is—the eye that watches this performance behaves peculiarly. Since successive nervous impulses come crowding into the optic nerve from the retina faster than they can travel along the nerve to the brain, it is impossible for a true report to be carried to the occipital lobe at the back of the brain. The subject sees a whirling mass of light, with various colors and strange geometrical shapes coming and going.

Under this photic stimulation, even a normal person experiences some change in the electrical activity of the brain, and some discomfort. But anyone with an unstable personality reacts with greater discomfort and such symptoms as dizziness and crying spells. The people who suffer violent reactions have been shown to be the first to break down under any form of stress. Thus it is that the stability of one's nervous system can be determined by the response of the optic nerve to stroboscopic photic stimulation of gradually increasing frequency.

If the current experiments work out successfully, the stroboscope will take its place among optical instruments which are

Tips On Swine Care During Hot Weather

A five-point "hot weather" swine program, designed to help farmers prepare this spring's pig crop for an early fall market, was suggested this week by Dr. H. J. O'Connell, State Veterinarian with the Wis. Dept. of Agriculture.

Neglect of young pigs now can mean real delays in marketing. Growing pigs need attention during the summer months for the best growth and high profits.

O'Connell's recommendations include:

1. Plenty of shade for pigs. A frame covered with hay or a brush arbor type structure can be used if there are no trees on the pasture.

2. Run pigs on legume or good grass pastures if possible. Pigs on pasture are less likely to pick up parasites. Protein requirements may be cut in half by using pasture.

3. Provide plenty of good, clean, cool water at all times and plenty of space for the animals to get at the water. Pigs need more water in hot weather to thrive. If they haven't been vaccinated against cholera, have this done now.

4. Use self-feeders to save time, feed and labor and provide supplements with the grain.

5. Obtain a veterinary diagnosis when disease symptoms appear, to control outbreaks before they spread through the drove and cause serious losses or retard growth.

"The rush of summer farm work and labor shortages often prevents pigs from getting proper care," O'Connell said, "but attention to these details now will pay dividends in the fall."

The "New Deal"
Beisz — Things are going up, aren't they?

Romh — Yes, I hear \$10 was paid for votes at the last election when the old price was only \$2.

WESTERN SWING

Ride that horse or swing your gal! Embroider, textile paint with brush or tube either design on a man's or woman's shirt. The same design will make lovely luncheon sets, bedroom ensembles, blouses or an edging on a skirt. Yippee! Pardner, here is a design for even the amateur. Make a western shirt, it's fun. Fresh snow is usually piled to a depth that is 10 times as great as the water to which it melts.

. . . And Here He Is

Behind The Scenes In American Business

By Reynolds Knight

NEW YORK — Industrial production in the April-June quarter surpassed the January-March period in both dollar value and physical volume, the Department of Commerce reported last week. Consumer durables, bedeviled last year by the steel strike, were produced at a rate 40 per cent higher than in 1952, even though there were many small strikes this year.

Total personal incomes were running at an annual rate of \$24 billion—a new peak, promising among other things a lavish vacation season. The continued decline in farm prices clouds the picture a bit, although this does not bear as heavily on incomes as most of us suppose. (A farmer who markets 15 per cent more cattle this year than last, at a price cut of 20 per cent, does not lose 20 per cent of his income, but 8 per cent.)

Within the pattern of higher total incomes and spending, the patterns of what-for appear to be moving back toward long-established ratios. That is, there seems to be some decline now from the high percentage of buying of durables which has existed since World War II. J. C. Penny, billion-dollar-a-year dry goods chain, reports a June sales gain of 10 per cent, and lesser retailers had the same experience.

THOSE RUBBER PLANTS —

The government, which has been in the rubber business since early in World War II, when it financed private industry's emergency erection of the vast U. S. rubber producing facilities, is now in the process of getting out. Plans for disposing of the 29 plants—a vast industry in themselves—to private owners have brought wide differences of opinion among lawmakers.

John L. Collyer, president of B. F. Goodrich, who pioneered the move to have the plants built in the first place, recently gave the national legislators some good advice.

A healthy competitive industry, he pointed out, depends basically on continuous efficient operation of the plants. Therefore technical competence should be one condition of sale. The government should receive a full fair price for the factories, Collyer said, but Congress should remember that the taxpayers have received a substantial return by sales (by the government) of rubber, and part of the cost has been recovered through depreciation allowances.

B. F. Goodrich, in 1939, built at its own expense the first U. S. plant for the commercial production of butadiene-type rubber.

THINGS TO COME — You can get a bug-luring light for summer places. A 200-watt bulb draws the insects to where an electric grid kills them . . . A diesel-engine service station for Mississippi river towboats is built on a barge, goes to its customers . . . Three hundred hotels now imprint guests' names on match books to be placed in their rooms . . . A new radio for tractors is loud enough to be heard over the machine's clatter . . . A home workshop multiple-purpose tool, long available as a unit, can now be bought in four steps, each one doing a few more things.

MERCHANTS HONORED — "Without a dynamic distribution system, America's marvelous productivity could not for long be maintained. In the long chain that reaches from factory and farm to the consumer's shopping bag, each link is vitally important to our economy."

This tribute to American merchants came from President Eisenhower in a letter marking the recent opening of the "Merchants of America-Hall of Fame" in Chicago's Merchandise Mart. The President added: "In the days ahead, imagination and intelligent salesmanship will do much to assure our continued economic growth."

The new Hall of Fame was designed as a permanent monument to the nation's geniuses of distribution. The first four niches hold bronze busts of George Huntington Hartford, founder of the Great Atlantic and Pacific Tea Co., Marshall Field of Chicago, John Wanamaker of Philadelphia, and Frank Winfield Woolworth, originator of five-and-ten-cent stores. Additions will be made each year.

POSTAL BATTLE — A surprise entry in President Eisenhower's list of legislation he is insistent on having passed at this session is Postmaster General Summerfield's bill to reduce the postal deficit sharply by raising first-, second- and third-class rates. Even with Ike's support, this one may not make it.

As usual, there is much nonsense talked on both sides. A printed trades union spokesman advances the theory that the post office is a service department like the Coast Guard, and that its cost should be evenly spread over the whole population. Nearly everything, if you want to look at it that way, could be regarded as a general public service.

Ten Word INTELLIGRAM

Check correct word.

1. A violin has (6) (4) strings.
2. Finland is a (kingdom) (republic).
3. The American flag has (13) (7) red stripes.
4. Napoleon died at (Elba) (St. Helena).
5. (France) (America) began the construction of the Panama Canal.
6. The wireless was invented by (Thomas) (Marconi).
7. Were newspapers known to the early Romans? (yes) (no).
8. (Illinois) (Indiana) is known as the "Sucker State."
9. Was Gen. Robert E. Lee buried at Arlington? (yes) (no).
10. The uniformed police system was formed in the U. S. in (1890) (1850).

Check your answers, scoring yourself 10 points for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior; 90-100, very superior.

"This suggestion must be for the company picnic! It says, 'Go jump in the lake!'"

Sports Afield

By Ted Kesting

Everybody knows how to treat snake bite: apply a tourniquet; cut the wound so it bleeds freely; suck out as much of the poison as you can get out; bandage; give anti-venin; then get the patient to a doctor as quickly as possible.

That's all good advice. But Dr. Frank Richardson warns us that many victims of snake bite have suffered serious if not dangerous results from every one of these directions. So let's look at them; but first let's look at snake bites.

If you are bitten by a six-foot rattler it won't matter much what you do, for the poison will probably overwhelm you before anything can help. But if you are bitten by a non-poisonous snake, or a young rattler, or a poisonous snake that has recently bitten some person or animal and has used up his supply of venom, then your chief danger is the things you friends know about snake bite—that aren't so! There are far more of these simple or non-poisonous bites than there are of the highly dangerous ones. Now for a look at our instructions.

First, the tourniquet. That's to keep the poison from getting to the heart. But frequently there's very little or no poison. And since a tourniquet can be an extremely dangerous device, don't use it unless you are sure it's needed; and then loosen it frequently.

Next, open the wound and let it bleed. Don't do any cutting unless you have reason to believe there's a dangerous amount of

poison to be gotten rid of. Use a fresh razor blade that's been carried in its original package—not that trusty but usually dirty pocketknife. Make the cuts thru the two bluish holes where the fangs have penetrated; and make each one lengthwise of the limb, not crosswise.

Then suck the wound. Yes—that is if the mouth of the sucker be reasonably clean.

Bandage the wound. Only if there's a sterile roller bandage or someone has an unfolded, fresh handkerchief. Otherwise leave that little wound open to the air. It stands a better chance of remaining uninfected than if it is bandaged with the usual improper dressing.

Then give anti-venin. Frequently folks who take anti-venin have a terrifying after-condition called "anaphylactic shock"; and frequently these injections are followed by an attack of intolerable itching called serum sickness. So unless you are dead sure of the danger of snake bite, better spare the victim these unpleasant possibilities.

Get the patient to the doctor as quickly as possible. If you can do it without any violent or even active exercise on his part. Remember, in snake bite we are trying to keep the poison from reaching the heart. Anything which speeds up the circulation makes the blood carry that poison faster, whether it be exertion, worry or the whiskey that used to be urged as a cure-all for snake bite.

KETTLE MORAIN 4-H CLUB NEWS

The August meeting of the club was held at the home of Martin and Karl Haack. Roll call was answered by naming fair exhibits.

Eleanor Odekirch gave a description of her week at Upham Woods Conservation camp at Wisconsin Dells.

Karl Haack gave a demonstration on how to pick a good egg producing chicken from a poor one. Martin Haack showed the difference between corn fertilized to produce 100 bushels to the acre and a stalk of unfertilized corn.

Lunch was served by Mrs. Haack assisted by Karl and Martin.

Mrs. Petermann, Edward Kirsch, Norman Heberer and Ronald Petermann wish to thank the Busy Badgers for the delightful evening spent at their last meeting. Gunder Anderson, an exchange student from Denmark, entertained them with music and a talk about his native country.

We are proud of Rachel Petermann. She took first place in her class at the dress revue at Fond du Lac. She and another 4-H girl will represent the county at the state fair at Milwaukee. Harriet Odekirch and Rachel Petermann styled dresses at the county fair.

The club tour planned by Maynard Bartelt, Karl Haack, and Ronald Baies was July 25. After a pot luck dinner we went on our tour. All those who did not take their projects to the fair showed us what they had raised during the last year.

The next 4-H meeting will be held at the home of Mr. and Mrs. Henry Sauder Sept. 1.

NEW PROSPECT

Mr. and Mrs. Frank Meyer visited with Mr. and Mrs. John Bowser Friday.

Mr. and Mrs. Martin Dufock of Denmark and Mr. and Mrs. Lawrence Stolper of Green Bay called on Mr. and Mrs. Frank Bowen and Mr. and Mrs. Jos. P. Uelmen Wednesday.

Mr. and Mrs. George H. Meyer visited relatives at Moscona and Townsend the past week.

Miss Ruth Koenigs of Campbellport spent several days with Edith Meyer.

Kolleon Klostermann is spending a vacation with relatives in Racine this week.

Mr. and Mrs. Frank Meyer of Milwaukee spent several days of this week visiting with Mr. and Mrs. George H. Meyer.

Mr. and Mrs. Stan Porubcan and sons Ronnie and Jerry returned from their vacation at Three Lakes Thursday.

BEECHWOOD NOSES OUT SOFTBALL TEAM, 4-3

Kewaskum was defeated Sunday in a Cross Country Softball league game, being shaded by Beechwood, 4-3. In other contests New Fane upset the loop leading, unbeaten West Bend Bears, 4-2. The West Bend Merchants trounced Allenton, 10-11, and Wayne tripped Fillmore, 8-7. This Sunday Kewaskum plays at New Fane, Fillmore at Allenton, Beechwood at Wayne, and Merchants at Bears.
