

Board Authorizes Buying Gas, Smoke Masks for Firemen

Regular Meeting, Aug. 4, 1953
The Village Board of Kewaskum, Washington County, Wisconsin, met in regular monthly meeting with President C. Miller presiding and all board members present.

The minutes of the previous meeting were approved as presented.

Motion by A. Martin, seconded by L. Kohn and carried that the hydrant near the Standard Oil Co. on Clinton street be moved to a convenient position across the street provided that the Standard Oil Co. pay one-half the cost of such removal and it is further stipulated that the maximum cost of this project shall not exceed three hundred fifty dollars (\$350.00).

Motion by J. Stelplfug, seconded by C. Sparks and carried that the painter, Herbert Justman, be authorized to include the painting of the block wall on the park beer stand; this to be an addition to his park painting contract.

It was suggested by the chairman of Building Maintenance that an additional estimate be obtained for the resurfacing of the roof of pump house No. 1 and reservoir No. 1 and the commissioner was authorized to secure such an estimate from a reliable concern.

Motion by J. Stelplfug, seconded by L. Kohn and carried that the application of Harold Ueimen be approved for an operator's license and such a license be issued upon payment of the proper fee.

It was recommended by Trustee Eberle, chairman of the Fire and Police committee, that the commissioner and the chief of the Fire Dept. be authorized to purchase a set of gas and smoke masks of a type as specified by the Fire Dept. as best suited to their needs. Motion by A. Martin, seconded by L. Kohn and carried that this recommendation be approved.

Motion by L. Kohn, seconded by A. Martin and carried that all bills and wages as recommended and approved by the Finance Committee be allowed and paid.

Coach Honeck Hits But East Stars Beat North

The Northern division Land O' Lakes all-stars clashed with the Eastern division stars last Wednesday night at Lannon in the final game of the Lakes all-star series. The East won by an 8-2 score. The North previously defeated the West and the East beat the South to enter the final round.

The Northern stars were able to get but one mealy hit up until the ninth inning and so Killy Honeck of Kewaskum, who was on the squad as a coach not a player, went in to pinch hit for Bob Eernisse in the ninth inning. Killy slugged out a clean single and drove the North's second run across the plate. Earlier in the tilt Marty Jaeger of Grafton got the North's only other safety.

Honeck was "persuaded" to pinch bat with two outs in the ninth and the score 8-1, with runners on first and second. He shoved the "persuasion" right down their throats by coming through with a solid drive between first and second.

Actually the Northern team played more of a Lannon nine than it did an all-star team as the East used six Lannon players for five pitchers and three for the entire game. They must have wanted to win this strictly exhibition affair very much. Don Schmidt of Lannon, who has lost only one of 37 games in Lakes competition hurled five frames and no doubt would have stayed in longer had not the North put up a howl. Ordinarily in an all-star contest each pitcher is limited to three innings. Jitts Lawrence finished the game.

The North was guilty of seven errors. The four pitchers did a good job, allowing only six hits but the defense was too vulnerable. Other Kewaskum players on the star squad were Augie Bilgo, Dick Edwards and John Tessar.

Funeral of Simon Stoffel, Fr. Klink

Funeral services were held at St. Monica's church in Milwaukee on Monday morning, Aug. 24, at 10 o'clock for Simon Stoffel, 57, of 7719 N. Boyd Way, Fox Point, who died last Thursday, Aug. 20. The father of Nicholas Stoffel of Kewaskum, Mr. Stoffel was a former resident of the town of Kewaskum where he farmed up until the time of his retirement when he and his late wife moved to Milwaukee. Interment was in Holy Cross cemetery, Milwaukee.

A Holy Name society member, Mr. Stoffel is survived by six children, Nicholas here, Rev. Roman B. Stoffel of St. Cloud, Mrs. Lawrence Schmitt of Milwaukee, Rev. Clarence Stoffel of Martinsville, Mrs. Crescence Kern and Mrs. Jerry Mix of Milwaukee; a brother, Nicholas Stoffel of West Bend, and a sister, Mrs. Anna Gundrum of Hartford.

A number of local relatives attended the rites and viewed the remains.

REV. ADOLPH J. KLINK

A solemn requiem mass for the Rev. Adolph J. Klink, 72, brother of Mrs. Pauline La Buwi, Kewaskum, former spiritual director of the School Sisters of St. Francis, will be celebrated at 11 a. m. Saturday at St. Joseph's convent chapel, Milwaukee, with the Rev. Francis La Buwi, Kewaskum, a nephew, officiating. Msgr. Peter K. Flaseh, pastor of St. Catherine's church, will preach. The office of the dead will be recited at 10:30 a. m. preceding the mass. Burial will be in Mount Olivet cemetery there.

Fr. Klink died Tuesday at Sacred Heart Sanitarium. He resigned as spiritual director of the order Aug. 4 because of ill health. A nephew, Fr. A. M. Klink, former director of the Society for the Propagation of the Faith of the Milwaukee archdiocese, succeeded him as spiritual director. The School Sisters of St. Francis operate Alverno College and Sacred Heart Sanitarium in Milwaukee, teach in schools there and other parts of the country and maintain hospitals at Beaver Dam and Waupun.

Fr. Adolph Klink was born at Rubicon, Wis. He attended St. Francis Minor and Major seminaries and was ordained in 1907 at the major seminary. He held assistant pastorates at St. Anthony's and St. Michael's churches in Milwaukee and then served as chaplain at St. Colette's school at Jefferson. He became spiritual director of the School Sisters of St. Francis in 1917. His office was at St. Joseph's convent, 1501 S. Layton Ave.

Surviving are a brother, Eugene, Milwaukee, his sister, Mrs. La Buwi, Kewaskum. Besides his nephew, Fr. La Buwi, pastor of Holy Trinity church here, he leaves a niece, Sister Mary Adolph, O.S.F., of Sacred Heart parish, Milwaukee.

MRS. JOHN GATZKE

Mrs. John Gatzke, 66, nee Clara Sonnemann, of 229 E. Elizabeth st., Plymouth, step-mother of Mrs. Clayton Kohn, Kewaskum, died Monday evening, Aug. 24, at Plymouth hospital after a brief illness.

Born Dec. 29, 1886, in the town of Schleswig, Manitowoc county, a daughter of Mr. and Mrs. Ernest Sonnemann, she was married to Carl Dickmann in 1905. Before moving to Plymouth in 1923, the couple lived at Louis Corners in the town of Meeme for seven years, and in Kiel for nine years. Mr. Dickmann died Oct. 22, 1927. Nine years later, on Dec. 26, 1936, she was married to John Gatzke. Since that time she made her home in Plymouth.

Mrs. Gatzke was a member of St. John's Ev. Lutheran church at Plymouth, the Ladies' Aid society at Louis Corners, and the Frauenverein B. U. G. Germania society of Kiel.

Survivors are her husband; two sons, Eddie Dickmann, Thiensville, and Melvin Dickmann, Plymouth, and three daughters, Viola (Mrs. Carl Plotz) and Leona (Mrs. Orlando Bartelt) of Plymouth, and Helene (Mrs. Gordon Gibson) in Japan. She also leaves three stepchildren, Arbie Gatzke of Cornish, Ark., Leo Gatzke of Sheboygan Falls and Mrs. Clayton (Marie) Kohn here; four grandchildren; a brother, Wm. Sonnemann of Coib; and a sister, Mrs. Max Boettcher.

Break Into Bruhn, Backhaus Station

The Bruhn & Backhaus service station and lunch room just outside of the north village limits, was broken into again sometime early Tuesday morning after the place was closed late Monday night.

Entrance to the place was gained by breaking the glass out of the front door and entering the building. It is believed that the would-be burglar or burglars were youths because the only thing molested was a shuffle alley machine which was forced open. Nothing else was touched. The machine had been emptied of its money last Friday according to Herbert Backhaus, one of the proprietors, and was out of order over Saturday and Sunday. So very few if any coins were in the machine.

Just recently a group of four local youths was apprehended for a series of 22 break-ins and burglaries in Washington and Fond du Lac counties and it was hoped the gang was rounded up with the clearing up of these entries. Evidently there are more on the prowl although it is not known whether the latest break-in was a local job.

On Wednesday night of this week a street marker at the corner of Forest and Midland avenues was run down and damaged by an unidentified car. This was also believed to be a group of teen-agers chasing around the streets in cars. Neighbors heard the crash and looked out of their homes but the auto fled before license numbers could be obtained.

ENGAGEMENT OF MISS KANIS TO JOHN KOUGL

Mr. and Mrs. Joseph A. Kanis of Akron, Ohio, have announced the engagement of their daughter, Helen Ann, to John Henry Kougl, son of the Francis Kougl, R. 1, Kewaskum. Miss Kanis is an employee of the Ohio Bell Telephone Co. in Akron. Mr. Kougl is a former employee of the West Bend Aluminum Co. and is now serving with the U. S. Navy in Japan. The couple plans a spring wedding.

HOSPITAL NEWS

Mrs. John Vorpahl, Kewaskum, is confined to St. Joseph's hospital, West Bend, since Monday for medical treatment.

Linda Voim, R. 3, Kewaskum, is a patient at St. Joseph's hospital since Monday where she underwent an operation on Tuesday. She is a daughter of the Wm. Voims.

Mrs. Stan Porubcan, New Prospect, was a patient at St. Joseph's hospital where she was admitted Monday for treatment.

AUXILIARY DESSERT BRIDGE

The Kewaskum American Legion Auxiliary will be hostesses to the Round Robin card players at a dessert bridge on Thursday, Sept. 3, at 7:30 p. m. at the clubhouse. All substitute players are also invited to attend.

WOMEN'S BOWLING MEET

There will be a meeting of the West Bend Women's City Bowling association at Lighthouse Lanes on Monday, August 31, at 8:00 p. m. All teams are urged to be present.

MRS. FRANK JONAS

Mrs. Frank Jonas, nee Laura P. Menger, died Sunday, Aug. 23, at the age of 70. She resided at 1310 W. Clybourn street, Milwaukee.

Mrs. Jonas is survived by her husband, a daughter, Mrs. John (Catherine) Cooper, a son-in-law, four grandchildren, Donald, David, Dennis and Patricia Cooper, and three brothers, Frederick Menger of Fort Lauderdale, Fla., Philip and Edward Menger of Kewaskum.

Funeral services were conducted at Immanuel Reformed church, N. Sherman Blvd., Milwaukee, at 1:30 Wednesday, Aug. 26. The body had been in state at the George Well and funeral home prior to the services. Burial was in Valhalla cemetery.

Public Schools to Open Sept. 8; 71 Freshmen Enroll

Staff of 18 Teachers Completed,
Many of Them New; Teacher,
Pupils at Fair

The Kewaskum Public schools will open Tuesday, September 8, at 8:45 a. m. with the following staff of teachers:

CLIFFORD M. ROSE, Principal.
GRADE SCHOOL—Kindergarten, Hester Baumgartner; Grades 1 and 2, Winifred Gerner; Grades 3 and 4, LaVerne Hron; Grades 5 and 6, Betty Koepke; Grades 7 and 8, James Morrissey.

HIGH SCHOOL—Walter Bade, Physical Education; Margaret Br-owne, Commercial; Earl Buswell, Social Science, English; Margaret Butler, Home Economics; Dorothy Dunne, History and Mathematics; Mary Lamphere, English and Library; Ernest Mitchell, Science and Coach; Lucia Rizzo, English and Spanish; Leiland Rose, Industrial Arts and Mathematics; Daniel W. Scheid, Vocational Agriculture; Arthur Zens, Music.

Mr. Morrissey is the new teacher employed to replace Donald Teclaw. He is a graduate of Wisconsin State college at Platteville, and for the past two years has been teaching in the public schools in Neenah.

Mrs. Lamphere, Miss Rizzo, Miss Butler, Mr. Buswell, Mr. Zens, and Mr. Bade are the new teachers in the high school.

Mrs. Lamphere, a graduate of Alfred university in New York City, has been teaching in the high school at Stratford for the past five years. She replaces Miss Austin.

Miss Rizzo is a graduate of Wisconsin State college at Milwaukee, and replaces Miss Krauss.

Miss Butler, a graduate of West Virginia university, replaces Mrs. Teclaw as instructor of home economics.

Mr. Buswell, a graduate of Wisconsin State college at Platteville, has for the past two years been teaching English and social science in the schools at Mellen, Wisconsin. He replaces Miss Kelly.

Mr. Zens, a graduate of Wisconsin State college at Milwaukee, has been teaching in the public schools in Shiocton for the past two years, and replaces Peter Ayer.

Mr. Bade is returning for a third year in the Kewaskum schools after having spent last year teaching physical education and coaching in the high school at Oregon, Wisconsin. He replaces Mr. Meister.

Children whose fourth birthday falls before the first of December will be admitted to the four-year-old or morning kindergarten, and those who are five years old before the first of December will be admitted to the afternoon kindergarten. Parents enrolling their children for the first time in one of the above grades should provide evidence of the date of birth. Registration for four year old kindergarten pupils will be held beginning at 9:00 o'clock on Tuesday morning, September 8, and registration for the five year olds will be held in the afternoon of the same day, beginning at 1:00 o'clock.

Registration for all grade school children including transfers from other schools will be held in their respective rooms on the opening day of school.

Registration for all incoming freshmen and transfer students was held on Thursday, August 20, at which time 71 registered as freshmen, and 3 as transfers. Any students, either freshmen or transfers, who have not as yet registered may do so on the opening day of school. The school buses will make their regular route runs on the opening day of school. Routes will be operated as they were during the first semester of the past year.

In addition to the traditional academic offerings in the fields of English, science, mathematics, history, social science and foreign language, four-year vocational courses are offered in agriculture, industrial arts, homemaking, and commercial.

Not all of the benefits derived from high school attendance come from the classroom. All around development of youth comes from participation in some form or forms of co-curricular activity, such as music, forensics, dramatics, or athletics or perhaps a combination of these. In the field of music there will be opportunities for people to participate in the school band, the girls' chorus, and the mixed chorus. Vocal music is one of those activities which has the greatest amount of carry-over for use in later life so the greatest number possible should avail themselves of the opportunity to participate in one of the choral groups. Boys and girls, in both the grade and high school, will be given private instrumental instructions gratis.

Pvt. Ebert's Body is Shipped Home

The body of Pvt. Melvin H. Ebert of Campbellport, R. 3, was scheduled to reach the United States this week from Korea aboard the SS Massillon Victory, the department of defense announced. He was the son of Mr. and Mrs. Otto Ebert and the husband of Mrs. Deiores M. Ebert of Campbellport, R. 3.

Bodies of 223 Americans who gave their lives during the Korean war are on the SS Massillon Victory. Bodies consigned to points east of the Mississippi river will be placed in rail mortuary cars for transportation to Brooklyn army base, New York, for delivery under escort to next of kin.

GRASS FIRE AT BERNARD FARM WEDNESDAY NOON

The Kewaskum firemen responded to a grass fire call at the Ivan Bernard farm home about two miles east of the village at 12:15 p. m. Wednesday. The fire started in a field from an unknown cause and spread rapidly because of the dryness of the grass. Luckily the wind was just right and blew the fire away from the Bernard home and toward the road where it went out. Firemen kept it from spreading in other directions with fire brooms.

HIGH SCHOOL ATHLETES TO BE EXAMINED THURSDAY

Next Thursday evening at 7:00 p. m. all football players and any other boys who will need an examination for athletics are to meet in the Kewaskum High school gymnasium. Both local doctors and both local dentists will be on hand to make the examinations. The opening football practice will be on Friday, Sept. 4, at 4:00 p. m., according to Coach Ernie Mitchell.

BLUMER BAPTISM

The little son of Mr. and Mrs. Paul Blumer, Kewaskum, was baptized Sunday in the Dundee Lutheran church by the Rev. H. A. Kahrs. He was given the name of Steven Paul. Sponsors were Miss Virginia Blumer and Arnold Butzke. Relatives were entertained.

BADES BUY GROSCLAUS HOME

Mr. and Mrs. Walter Bade have purchased the new home of Mr. and Mrs. Ed. Groszklaus which is now under construction on Clinton st. Mr. Bade is a teacher in the Kewaskum High school.

Woman's Club Maps Program for Year

The theme for the 1953-1954 program of the Kewaskum Woman's club will be the American Home.

One of the highlights for this year will be the appearance of Esther Holton, well known for her program, "What's New" on radio station WTMJ.

Two other outstanding programs will feature Russell G. Oswald, director, Division of Corrections, State Department of Welfare, and Miss Charlotte Wollaefer, dean of women, Wisconsin State college, Milwaukee, Wisconsin.

The members will also be privileged to hear fine speakers on interior decoration, gardening, and historical spots in Washington county.

All those members who are interested will have an opportunity to help plan and perform in a Christmas skit. The high school will help present a program; and there will be a tour of historic Wade House.

Kewaskum Wins 4-1 Duel Over Cedarburg

LAND O' LAKES STANDINGS (Northern Division)

| | Won | Lost |
|-----------------|-----|------|
| Grafton | 13 | 3 |
| West Bend | 11 | 3 |
| Port Washington | 10 | 3 |
| Belgium | 10 | 3 |
| KEWASKUM | 7 | 7 |
| Cedarburg | 7 | 8 |
| Mequon | 7 | 8 |
| Germantown | 6 | 10 |
| Newburg | 2 | 14 |
| Saukville | 1 | 18 |

Results Sunday—Kewaskum 4, Cedarburg 1; Belgium 4, Mequon 3; Germantown 3, Saukville 7; Grafton 24, Newburg 0; Port Washington 5, West Bend 3.

Games this Sunday—Kewaskum at Cedarburg, Belgium at Newburg, Mequon at Saukville, Port at Germantown, Grafton at West Bend (12:45).

Kewaskum was held to four hits by J. Regnitz Sunday here but they were good for four runs and a 4-1 victory over Cedarburg in the first home game in many weeks. The win enabled the Chevrolets to pass up Cedarburg in the standings. Grafton again took over the league lead by scalping Newburg while West Bend was downed by Port.

In his four-hitter Regnitz struck out six Chevs and walked only three batters. A good performance but it was not good enough to win. Al Duenkel, the starter, and Don Meisenheimer, who relieved him, teamed up in a five-hitter against the visitors and held them to a single marker. Duenkel fanned six and passed two and Meisy whiffed two and walked two.

Kewaskum faltered all of its runs in the big fourth inning on two hits, a walk and two fielders' choices. Cedarburg was held scoreless until the ninth when they pushed over their lone counter. Augie Bilgo and Dick Edwards accounted for all of the Chev's hits, each collecting two. Pitcher Regnitz was the only one on his team with two.

This Sunday Kewaskum plays a return contest at Cedarburg.

Circus Truck Tips, Elephant Aids; Car Hits Parked Trucks

Mills Brothers famous three-ring circus, which has been showing in neighboring cities, put on an unscheduled performance for motorists near the Fond du Lac-Washington county line north of Kewaskum Tuesday morning.

The special show began at 6:30 a. m. when a 1.5-ton stake truck transporting planks for bleacher seats went out of control on Highway 55. Danny Randall-Kelly, 28, Sarasota, Fla., was driving the truck when the wheels got onto the soft shoulder. The truck was pulled to the right and it overturned. Kelly sustained an injured left arm and was removed to St. Joseph's hospital in West Bend in the Kewaskum firemen's ambulance.

Fond du Lac county police said that the truck remained on its side until units of the circus carrying elephants caught up with it. Then "Miss Burma," famous elephant used in President Dwight D. Eisenhower's inaugural parade last January, was unloaded from her "home on the road," and put in harness. The animal was hitched to the overturned and loaded truck. A handler gave her a curt order and the elephant lunged forward in her harness. Without any strain at all she pulled the truck back on its wheels.

A substitute driver took over and drove the truck to Fond du Lac where the circus was showing next. Miss Burma went back into the vehicle transporting her and quietly munched on hay, another performance well done.

Two Fond du Lac truck drivers had their parked semi-trailers damaged at 11:54 p. m. Tuesday in a traffic mishap on Highway 55 and County Trunk H, one-quarter of a mile south of Kewaskum.

Clarence J. Vogt, 25, of 29 North Park ave., and George O. Meidl, 50, of 147 West Arndt st., Fond du Lac, were in Johnson's restaurant on the Kewaskum hill with their trucks parked in an adjoining lot when an auto driven by William Homuth, 24, West Bend, R. 3, went out of control on 55. It skidded onto the road shoulder, damaged several guard rails, broke a sign post and rammed Vogt's truck, sending it into Meidl's machine.

Homuth was treated by a Kewaskum physician for minor cuts and bruises. His 1950 model car was practically demolished. The left front of Vogt's truck and the left side of Meidl's were damaged. Both semi-trailers are owned by the Northern Transportation Co.

A crash occurred at 10 a. m. on Sunday when two Milwaukeeans enroute with several friends to an outing at Mauthe lake, northeast of Kewaskum, had their cars damaged. Fond du Lac county police reported that Robert A. Sammer, 16, was negotiating a curve at about 65 miles an hour when he slowed down his auto. Behind him was Arnold C. Timmesch, 17, who was unable to stop in time. The Timmesch machine ran into the rear of the preceding vehicle.

BIRTHS

NETZEL—A son to Mr. and Mrs. Harold Netzel, Kewaskum, Saturday, Aug. 22.

REIGLE—A son, Dale, to Mr. and Mrs. Clarence Reigle, Dundee, at St. Agnes hospital, Fond du Lac, Saturday. Mr. Reigle is a former Kewaskum resident.

RAETHER—A son to Mr. and Mrs. "Fritz" Raether, Dundee, Saturday, at St. Nicholas hospital, Sheboygan.

MEYER—A daughter, Mary Ellen, to Mr. and Mrs. Robert Meyer, Rt. 3, Campbellport, Tuesday, Aug. 18, at St. Agnes hospital.

REV. KANIESS SPEAKER

A special service for the laying of the cornerstone of the new \$25,000 church edifice of the Good Shepherd Ev. Lutheran church at West Bend was held Sunday afternoon. The service included a special address by the Rev. Gerhard Kanies of Kewaskum.

Teacup Topics

By Betty Ann

EDITOR
THE MILWAUKEE JOURNAL
WOMAN'S PAGES

Along with muggy summer weather comes mildew caused by molds that thrive on cellulose products such as cotton and linen and on protein substances like silk, leather and wool, says Betty Ann.

Fortunately, according to home economists with the United States department of agriculture, mildew spots are easily removed if discovered before the mold has a chance to rot the material. Fresh mildew stains on washable goods can usually be removed by laundering at once with soap and water, rinsing well and drying in the sun. If any stain remains moisten with lemon juice and salt, spread in the sun to bleach and then rinse thoroughly and dry. On colored material, use this treatment with care.

Another safe bleach for washable cloth is sodium perborate which can be bought at drugstores or in commercial bleaches at most grocery stores. Sponge the mildew spot with a solution of one tablespoon sodium perborate to a pint of lukewarm water, or sprinkle the powder directly on the stain which has been dampened with hot water. Let stand a minute or two and then rinse well. For colored garments, first test the bleach on a sample of the cloth or on a seam or hem to be sure the color will not change.

One thing to remember when you're a house guest is not to wait until the last minute to get train, bus or airline schedules to find out what time of day you are going to leave. Remember it may not matter much to you whether you leave at 7 a.m. or 10 p.m., but it may matter a lot to your host and hostess.

Next to knowing when a house guest is to arrive, the most important thing is knowing when the guest plans to leave.

Plastic film is a term that applies to shreds of plastic in all forms, from baby pants to bedroom draperies. When plastic film products are apron size or less, they can be easily washed by hand or wiped clean.

But washing or wiping larger articles by hand like kitchen curtains, darperies and shower curtains, is difficult.

However, in the early stages of use a shower curtain can be washed effectively in the bathtub. Run enough warm water into the tub and add laundering detergent. Then with the curtain laid flat against the side of the tub so the tub provides a cleaning surface, scrub the curtain with a brush. After giving it a quick rinse in clear water, hang it over the shower rod to drip dry.

As a shower curtain gets older and acquires a heavy soap film, let your washer help. Fill the washer with warm water, add a water conditioner and detergent and run the washer five minutes. Then before the washer begins to spin, stop the action and transfer the curtain to the laundry tub, rinse it, and hang to dry.

Rum Torte

12 eggs, separated; ¾ cup sugar; ¾ cup flour; ½ pint rum; 1½ cups peach pulp.

Beat egg yolks with sugar until creamy and lemon colored. Gradually add sifted flour. Beat egg whites until stiff and fold into the above mixture. Bake in three buttered cake pans in 350 degrees oven about 20 minutes. When cool, cut one layer in cubes and place in bowl, then pour rum over cubes. Spread other two layers with peach pulp. Place one layer on cake platter and pour rum soaked cake cubes over it, arranging cubes evenly. Place second layer, with peach side down, over rum cubes. Put a flat plate or board over top and press gently. Let stand that way about five hours. Cover with frosting.

Rum Chocolate Torte Frosting and Filling

One-half pound sweet butter; 2 cups confectioners' sugar, sifted; 3 squares unsweetened chocolate, melted and cooled; 2 egg yolks; 2 tablespoons rum.

Cream butter and sugar thoroughly. Add melted chocolate. Beat egg yolks till lemon colored and add to above mixture. Add rum last and beat thoroughly.

The cake baker who is always looking for more efficient ways to turn out her favorite delicacy can speed things up by putting the baked cake on a lazy susan for decorating and frosting it. It turns easier and the work is smoother.

Irrigation on farm land is growing all over the nation. Putting water on land where and when needed is making farming pay for more and more farmers.

About The Home

By FRANCES DELL

A prime requisite of good living is good eating to most of us. A freezer will keep foods fresh for months and will enable you to eat better without the labor of preserving, canning and pickling. What is more, a freezer will save foods that are preserved in no other way.

With a freezer you are able to buy a year's supply of fruits and vegetables when they are in season and at low prices. Buy frozen foods in case lots at a discount. Left-overs need not be thrown away. Simply wrap and store in the freezer.

When cooking, don't bake just one pie—bake four or five. Make double portions of rolls, cookies, stews. In the long-run, this will cut down your hours of labor in the kitchen. Time can also be saved by cutting down on the shopping necessary.

Almost all foods can be frozen successfully. The list of unfreezable foods will include bottled liquids and shell eggs, which will expand and break when frozen. Don't freeze Avocados, boiled icing, custards, mayonnaise, raw celery, watercress, whole tomatoes, cooked egg whites, cream fillings for cakes and pies, bananas, milk, sponge cake batter, lettuce, gelatin and whole watermelons.

Packaging food correctly for freezing must be done with care to insure proper taste texture and preserving qualities of freezing.

Double D—

Two strangers had been paired in the club golf tournament. One was Colonel Thunder, red of face, wild of stroke, free of tongue. The other was a meek man, introduced namely as Dr. Pywell. At the first bunker, Colonel Thunder took a long, silent look at his ball, then turned and exclaimed:

"Pardon me doctor. But before I tackle this lie, would you mind telling me, if you are a D. D. or an M. D.?"

Good Morning BEGINS WITH BREAKFAST

Eat at least this much breakfast.

by Betty Baker

Breakfast can make the difference between a good or bad morning. For a good morning, breakfast is a must. Not coffee alone. Nor surprisingly enough, a whopping big breakfast—you know the kind, with potatoes on the side. Coffee by itself gives you practically no food value; in contrast, those oversized morning meals are very likely to put you to sleep all over again, make you lousy and listless. Aim for a happy medium when you put breakfast on the table. Eggs, of course, because of the high-quality protein they contain. And enriched yeast-raised bread is almost equally important. It's rich in three B vitamins—thiamine, niacin, and riboflavin—as well as the mineral iron. Spread your toast with margarine or butter and you add vitamin A. Vitamin C is yours in a glass of orange, tomato, or grapefruit juice. Add to this egg-toast-juice combination a cup of coffee or a glass of milk (and bacon and cereal if you like) and you've got a combination to chase any listless feeling—plenty of energy to see you through the morning.

Build Porch Suppers Around Fried Chicken

BY DOROTHY MADDOX

NOW is the season for informal but substantial porch or backyard suppers. They can be pleasant affairs and need not take too much preparation time. Base them on crispy fried chicken for best results.

Remember, if you are serving the chicken cold and want to cook it the day before or early in the day, be certain to refrigerate it well. For safety's sake, that is vitally important. Also, when taking chicken to the beach or to a picnic spot, refrigerate it thoroughly first. Arrange to keep it cold and eat it within 4 hours.

Butter-Crisp Chicken

One 2-3 pound frying chicken, salt, pepper, 1 cup flour, 1 teaspoon paprika, ¼ pound butter, shortening, thyme, if desired, thin onion rings, if desired.

Have chicken drawn and cut into serving pieces. Rinse in cold water and drain. Put salt, pepper, flour and paprika in paper bag. Shake 3 to 4 pieces of chicken in the bag at a time to coat thoroughly. Heat enough butter and shortening in a heavy skillet to make a layer of fat ¼ inch deep. With kitchen tongs place chicken in hot fat. Brown on both sides. Place chicken, one layer deep, in shallow baking pan.

For added flavor sprinkle with thyme and onion. Pour melted butter over chicken pieces. Bake in moderate oven (350 degrees F.) until tender, about 25 to 30 minutes. Baste with melted butter after 15 minutes of baking.

Here's another suggestion for a porch supper menu:

Biscuit Beef Roll

(4 generous servings)

Two tablespoons fat, ¼ cup finely diced onion, 1 small clove garlic, minced; ½ pound chopped beef, 1 teaspoon kitchen bouquet, 6-ounce can tomato paste, ½ cup finely diced green pepper, 1 teaspoon salt, 2 teaspoons sugar, ½ teaspoon pepper, ¼ teaspoon chili powder, ¼ teaspoon powdered oregano, 1 cup biscuit mix, about ½ cup milk.

Melt fat in frying pan over low heat. Add onion and garlic and cook about 1 minute. Add chopped beef pulled into small bits and

Fried chicken, fresh vegetables and good bread make a substantial porch supper.

sprinkle in kitchen bouquet. Cook, stirring frequently, until meat is slightly browned. Add tomato paste, green pepper, salt, sugar, pepper, chili powder and oregano. Mix well and let cook over low heat about 10 minutes.

Then remove from heat and cool slightly. Meanwhile combine biscuit mix and milk to make small ball of dough. Roll out on lightly floured board to make a rectangle about 8 x 12 inches. Spread meat and tomato mixture on dough almost to edges. Roll up like jelly roll. Place on greased shallow baking pan. Bake in moderately hot oven (375 degrees F.) until roll is lightly browned and done, about 25 minutes.

Remove to serving platter. Cut in 1-inch slices to serve and accompany with whipped potatoes and a freshly cooked vegetable.

A VITAMIN EACH DAY

Vegetables are vitamins so add vim and vigor to dish drying with these unusual tea towel designs. Eight different designs (one's a pot holder) come on a usable-everything Hot Iron Transfer pattern. Work them with embroidery or paint or a combination of both. They're easy! They are fun! Order your pattern now. C3286, 20c.

Blessing Of Pets Is Ancient Custom

The next time Fido strays, you might search for him in church.

Dogs, as well as horses, pigs and other animals, are church-goers on occasion in many countries, says the National Geographic Society. The "Blessing of the Animals," an ancient church custom, is still annually observed in parts of England, Switzerland, Austria, Spain, Mexico, and even the United States.

At Holy Trinity Church, Hereford, England, the blessing is performed on the first Sunday after October 3, the feast day of St. Francis of Assisi. Parishioners, mostly children, bring everything from ponies to gold fish.

Rabbits, ducks, chickens, guinea pigs, even white mice, have received the blessing at Hereford. During the service two years ago, a pair of homing pigeons escaped from a basket. They perched on the church roof until the service was over, then flew home.

California Managerie At the Cathedral Garden of St. James in Fresno, California, past participants in the blessing have included baby alligators, bees, turtles, snails, hamsters and bull frogs, in addition to the more common pets.

In Catholic countries, the "Benediction of Beasts" is annually performed on January 17, St. Anthony's Day. Mexican villagers gaily paint their dogs, pigs, parrots and burros and adorn them with ribbons and flowers to honor the occasion.

In the tiny hamlet of Turttmann in Switzerland's Valais Alps, the ceremony is held on April 23, the day of St. George, who is patron saint of domestic animals in this region.

This year, for the 142nd time, men of Jesenwang, Austria, rode their heavy farm horses straight to the altar of the village church for a special blessing. In 1811, a fatal animal epidemic plagued the community, and the parish priest was asked to invoke blessings. When the epidemic promptly subsided, villagers pledged to bless their livestock once each year. Jesenwang's unique ritual may

Remind Housewives Of Canning Hazards

With the home canning season under way a few reminders of the hazards involved and the precautions to be taken are timely. Too often in our concern over the proper processing methods we neglect the necessary and important safety practices.

Checking your equipment is first step in safe canning at home. Be sure that proper and necessary equipment is available and in good condition before beginning, thus avoiding makeshifts that often lead to accidents. Check your glass jars and covers for cracks, nicks, and sharp edges. Discard the defective ones. Long-handled tongs with a firm grasp are good to use in lifting jars or ears of corn from hot water. Your kettles should be large enough to hold boiling water without spilling or splattering it over the edge when food is blanched.

Have plenty of good thick pot holders within convenient reach of the stove. Use them dry to avoid steam burns on the hands. When removing the cover from a pan, or top of a pressure cooker, raise the far side first so the steam will come out away from you. Have a place prepared to set hot pans and jars before taking them off the stove.

One of the best ways to avoid accidents is to avoid fatigue. Do not attempt to process large quantities at one time. Break up the routine with other household tasks, or arrange for a rest period each day. Fatigue often results in the urge to slide over details. Even the veteran home canner may find herself with a cut or burn occasionally. Check your first aid supplies at the same time you check your canning equipment. Keep on hand some vaseline and sterile gauze and bandages for cuts. For more serious burns, apply clean, dry dressings and obtain medical attention at once.

Doing a good job of canning means doing a safe job. Safe canning requires attention to every detail and careful handling of equipment so as to assure safety for the canner and others in the household.

soon cease, however. The little Bavarian town now boasts 36 tractors, and horses are in decline.

Special Pews

Some of England's oldest churches still have pews equipped with iron hooks and rings. Here church-goers in medieval times fastened their bloodhounds, mastiffs, and other hunting breeds during services.

A few churches had a small pew within the chancel arch, known as the "hall dog pew." This space was reserved for dogs. Special tongs, with long handles and wooden teeth, were used to capture dogs that wandered to inaccessible parts of the church.

In Siena, Italy, horses are taken to church and blessed prior to racing in the Palio, the world's oldest horse race. An annual affair since the 14th century, the Palio is a grueling three-lap run around Siena's town square that frequently takes a heavy toll of participants.

Blind Adoration

The newlyweds were honeymooning at the seashore. As they walked arm in arm along the beach, the young bridegroom looked dreamily out to sea and eloquently cried out, "Roll on, thou deep and dark blue ocean—roll!"

His bride gazed at the water for a moment, then in hushed tones gasped, "Oh, Fred, you wonderful man, it's doing it."

Bible Comment:

Religious or Racial Prejudice Was Not Practiced by Jesus

ONE of the most amazing and revolting incidents of our time is the spectacle of certain people preaching and practicing racial and religious prejudice in the name of Christ. And much of this prejudice has been directed against Jews, of which religion was Jesus himself, and from whom we received not only the riches of the Old Testament, but the records of the New, and the church itself.

When Paul spoke of the Gospel of Christ, he emphasized its universality. His mission and ministry, he insisted, were to Gentiles as well as to those of his own religion.

Was Paul a true interpreter of his Master? Or did Jesus in any way limit His mission, or the benefits and privileges of the grace of God?

There are one or two incidents that, viewed lightly or thoughtlessly, might indicate that. But the whole story of Jesus, the revelation of His spirit and the general records of the four Gospels, are so much against any such interpretation that these incidents must be seen in the light of the full evidence.

One of the most puzzling incidents is that of Jesus and the Syrophenician woman. This troubled Grecian woman had brought her demented daughter to Jesus, beseeching Him to heal her.

Evidently to test her faith He put in her way stumbling blocks that seemed harsh and even cruel. Voicing the common religious and racial prejudice, He said, in effect, "Do you ask this of Me, a Jew? It is not meet to take the children's bread and give it unto dogs."

But He was voicing, not His own thought, but the sort of thing that racial and religious prejudice thinks and says, for He was about to bless the woman and her daughter. And He drew from the woman the reply that pleased Him. Dogs must be fed. Human need transcends prejudices.

62 ADMISSIONS ON ONE DOLLAR STICKER

A \$1 sticker on automobile windshield is now the price of admission to any one or all of Minnesota's 62 park areas, covering some 82,000 acres of hills, woods, lakes, and rivers. Oldest listed in Conservation Volunteer is Camp Release "wayside park," Lac qui Parle county, established in 1889; youngest is Ray Berglund "wayside" in Cook county, dating from 1950. Four were established before the turn of the century, but the big park year was 1937 when no less than 37 were established; 1945 and '47 each account for six state parks. Most complete in the ten recognized "characteristics" from botany to wildlife, is Jay Cooke park in Carlton county, lacking only a lake. The most complete in 18 listed "activities and facilities," from amphitheater to shelter building, is Itasca, which has all of them. Eight are listed as "undeveloped."

FLYING HIGH—Alfredo Mendoza of Winter Haven, Fla., set a world jumping record when he soared 92 feet in the Cypress Gardens Dixie Tournament, a preliminary regional meet for the August National Water Ski Championships. Mendoza is a former bullfighter.

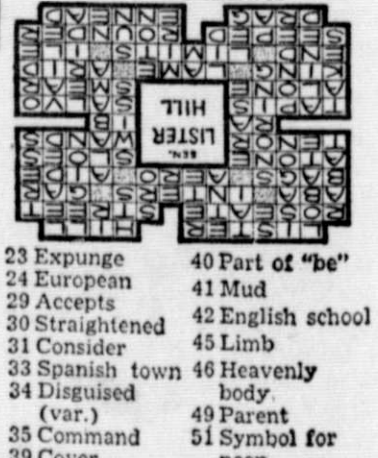

THEY STILL SUFFER—The truce parleys were going on, but the casualty list had another addition. This American soldier, bandages streaming from his wounded arm, shed some of the blood that has marked the long and bitter battling for Sniper Ridge. Here he is being helped to a forward aid station.

Here's the Answer

GRUESOME TWOSOME—Boris Karloff, of movie-horror fame, shows the steps that change Robert Louis Stevenson's kindly Dr. Jekyll into sinister and sadistic Mr. Hyde, the gruesome half of a "twosome" personality.

Stem Rust Causes Loss In Some Areas

A combination of a delayed growing season and prolonged southwest winds has resulted in some damage to Wisconsin's small grain crops from Black Stem Rust according to E. L. Chambers, State Entomologist with the Department of Agriculture.

Oats, wheat, barley and rye are susceptible to attack from this fungus disease which requires the presence of the common Barberry bush to complete its life cycle. In the case of oats, Stem Rust Race 7 is causing heavy damage on heretofore resistant varieties for the first time and 15 B is damaging wheat and barley.

Chambers said that under ordinary conditions, spores blown in from Mexico and the far south arrive in Wisconsin too late to do any damage. This year, however, the spores hit before the crops were mature resulting in a reduction in yield and quality in some places.

Breeding resistant varieties of grain have helped considerably to stop losses from rust by the few remaining Barberry plants, making hybridization of rust spores possible, still cause trouble, Chambers declared. More than 5 million of these bushes have been removed since the Barberry eradication was begun, but there still are a few plants remaining in the state.

He urged farmers to watch for common Barberry bushes and remove them or report their presence. The Japanese Barberry, a popular ornamental shrub, is not a carrier of rust spores.

Removal work in Wisconsin and 17 other states is nearly completed but vigilance is important for another 3 or 4 years to make certain that all common Barberry bushes in the state are destroyed, Chambers said.

BLONDE TWISTER—Swivel-hipped Valerie Bettis of Hollywood is caught in suspended animation as she practices a twisting dance routine. Valerie has served as choreographer and dancing teacher to actress Jane Wyman.

How to Convert Attic
WHEN'S an attic not an attic? When it's been transformed into a cozy living quarters or recreation room!

It's quite a simple matter, and economical, too, if you will use a modern remodeling material like Tempered Presdwood. That was the all-wood paneling used to

transform the attic in the illustration into the handsome room for a teen-age boy.

Tempered Presdwood is mighty tough—just the durable material needed in an attic recreation area or room for the young man of the house. Also it's good looking without any paint—a rich brown with the wood fibers showing through. Of course, it can be painted, too, and beautifully.

The entire room may be outfitted by the handyman and his son. For instance, in the room shown the end table, cabinets and desk were made of Tempered Presdwood in easy combinations with lumber. This versatile hardboard may be found in any lumber yard.

FALSE FOXGLOVE

False Foxglove
C1952 National Wildlife Federation

Any plant or animal likely to be listed in the National Wildlife Federation stamp set can qualify as being reasonably well known, in danger of extermination or possibly even extinct. The mill run of plants and animals that play roles of minor importance are not likely to be included in the Federation's listings.

The False Foxglove is reasonably well known as is shown by the fact that it at least has one common name and, as a matter of fact, a number of common names. In addition to the name False Foxglove it is known as Feverweed, Fern-leaved False Foxglove and Bushy Gerardia. Even the botanists recognize the plant by giving it two generic names, Gerardia and Dasystoma.

The False Foxglove has the distinction apparently of having no known food value to man. It cannot be listed as an important forage plant. It is not known commonly as a medicinal plant. It cannot play an important part in the control of soil erosion or as wildlife food or cover. It does hold an appeal to many, however, and the reasons are probably two, one of which is noticed by everyone who sees the plant and the other noticed probably first when one tries to transplant it into a garden.

The subject of this discussion has showy, lemon-yellow flowers, with 5 broad, rounded lobes. The flower is an inch or more in diameter and the outer surface, the throat, the stamens and parts of the calyx are finely hairy. The stems are to 3 feet high and may appear in clusters. Each stem bears in the upper regions a number of flowers with the younger ones at the top. It is this showy display of beautiful flowers that makes the plant attractive to many and accounts for its having a number of common names.

The stem is branching and covered well with short sticky hairs. The leaves are light green, hairy at the bases, to 3 inches long, somewhat fuzzy above and with margins as shown in the illustration.

The root system is the thing that intrigues many who might wish to transplant the flower to their gardens. When they try to dig the thing up they find that the root system seems to be continuous and extends on and on. It seems ridiculous for a small plant like the False Foxglove to have such a huge root system. The gimmick in this is that the major root system uncovered by the plant digger is not that of the Foxglove at all. Rather it is the root system of an oak. It seems that our False Foxglove is parasitic on the roots of oak and if the plant is to be moved it must be transplanted to the root system of an oak.

It is much simpler to say that this should be done than it is to do it. For that reason it is perhaps wise to leave well enough alone and to recognize that the False Foxglove, like so many other attractive wild flowers are at their best in their native setting. If we wish to have them with us we must learn restraint in picking them. Some suggest that the seeds may be planted in soil that is perforated by growing oak roots, but this again is not a simple stunt.

The False Foxglove blooms from July through September. It is found from Maine to Florida and west through Ontario to Minnesota and south to Missouri.

—E. Laurence Palmer

Hot Weather Swine Program Pays Off

A four-point "hot weather" swine program will keep that spring pig crop healthy and prepare it for an early fall market.

C. W. Burch, University of Wisconsin veterinary scientist, says neglect of young pigs now can mean real delays in marketing. Growing pigs need attention during the summer months for the best growth and high profits, he says.

Here's what Burch recommends:

1. Plenty of shade for pigs. If there are no trees on the pasture, a frame covered with hay or a brush arbor type structure can be used.
2. Legume or good grass pastures. Pigs on pasture are less likely to pick up parasites. Protein requirements may be cut in half by using pasture.
3. Plenty of good, clean, cool water at all times, and plenty of space for the animals to get at the water. Pigs need more water in hot weather.
4. A veterinary diagnosis when disease symptoms appear, to control outbreaks before they spread and cause serious losses.

Burch says the rush of summer farm work often prevents pigs from getting proper care. But attention to these details will keep pigs healthy and pay dividends in the fall.

Sports Afield

By Ted Kesting

Bats are probably the most unearthly-looking creatures in the modern world. The "flying mice" have always been thought of as symbols of mystery, presagers of dire events. In reality, the bat is one of our friendliest neighbors. He is harmless (excepting the tropical vampire bat) and in the temperate zone mostly very beneficial to man.

The prehistoric-looking bat is a mammal—not a bird—and it is the only mammal that can maintain sustained flight. The "wings" are thick membranes connecting back and front legs, somewhat on the order of the flying squirrel. However, the flying squirrel glides, while the bat actually flies.

As a wizard of night flight, the bat is tops according to Writer Joe Austell Small. Guided by his own system of radar, the little mammal darts, swoops and zooms through the black night with hardly ever an accident. Tiny squeaks, too high-pitched for the average human ear, emanate from his throat constantly during flight.

When these hit an object ahead,

the sound bounces back and is picked up partly by his highly sensitive ears, but mostly by super-sensitive nerves in the delicate skin of his bare wings. Automatically these signals are interpreted and the flight adjusted instantly to bypass obstacles.

Bats do have small eyes, and in general their keenness of sight does not equal that of other mammals, but to be "blind as a bat" is not to be blind at all. Their ears seem to be specially tuned to pick up the buzz of flying insects, on which most bats feed.

The bat does not resemble, nor act like any other creature in the animal world. Little is known about its migratory habits. A recent study of Bat Cave in Comal County, Texas, indicated that females come to the cave year after year to give birth to their young. The majority of the males evidently congregate elsewhere. Bats have a litter of from one to four, depending on the species. The young are well developed at birth, and in several weeks are able to fend for themselves. The young suckle, like any other mammal.

State Ships Livestock All Over The World

Shipments of Wisconsin livestock during the past year to 46 states and 9 foreign countries highlighted the annual export-import released this week by the Wisconsin Department of Agriculture's Division of Livestock Sanitation.

Dr. H. J. O'Connell, State Veterinarian with the Wisconsin Department of Agriculture, said that from July, 1952 to July, 1953, 120,811 hogs were shipped out of state along with 80,632 cattle, including calves, and 1,749 dogs.

The export of sheep and horses from Wisconsin totalled 458 for the former and 160 of the latter.

The cattle shipments to other countries included animals sent to Argentina, Canada, Central America, Cuba, Germany, Mexico, Puerto Rico, South Africa and South America.

States buying the largest number of Wisconsin cattle included Illinois with purchases of 15,952, Nebraska with 9,138 head and Iowa with 8,171 head.

The decrease in the total number of cattle exported in 1951-52 as compared to 1952-53 was shown by the report to be 32,123 head.

While the above animals were being sent out of the state, Wisconsin imported 13,983 cattle, 27,496 sheep, 915 hogs, 1,006 horses and 975 dogs.

Non magnetic minesweepers built entirely of wood are now important units in the United States Navy. They are an essential part of the defense against magnetic mines.

Tularemia In Beaver Easily Transmitted

To date 51 dead beaver have been found in Wisconsin with tularemia believed to have been the cause of death and the conservation department warns that this is a serious disease that can be transmitted to man and be fatal.

The dead beaver have been found in Iron, Vilas, Oneida, Florence, Marinette, Lincoln, Jackson, Clark, Rusk, Price, Ashland, Barron, Polk, and Sawyer counties.

People finding dead beaver are warned not to handle the carcass but are asked to report its location to a local conservation department employee.

Beaver caught in traps are probably less likely to have tularemia but extra care in skinning trapped animals is advised. Trappers should use leather, plastic, or rubber gloves whenever possible, and wash thoroughly with soap and water when finished. Gloves and knives can be dipped in a 70 per cent or stronger alcohol, or in a mixture of a tablespoon of cresol in a quart of water to disinfect them.

One beaver trapper contracted a tularemia-like infection from a beaver that was found dead this season but he recovered after medical treatment.

WINNING SMILE—Ben Hogan, a winning man with a winning smile, holds the British Open golf championship cup which he won with his 282 play on the tough course at Carnoustie, Scotland. Having also won the American Open this year, Hogan took his place beside Bobby Jones at golf-dom's peak.

EARLY TEETH-ER—Here's Deborah Marie Davis, proudly displaying the front tooth with which she was born. The 2½-month-old baby from Wheeling, W. Va., wasn't satisfied, though. So she recently began cutting her stomach teeth, too.

A Famous American Ship

America's merchant marine began with ships like this Marblehead schooner, according to the American Merchant Marine Institute. The first ship built in this country was the VIRGINIA, "a fair pinnace" of 30 tons, constructed by Capt. George Fopham's colonists at the mouth of the Kennebec, Maine. Other shipyards sprang up all along the coast, for travel by sea was quickest and best. Only 11 years after the MAYFLOWER arrived at Plymouth, a ship twice her size was built by the Puritans in Salem. By 1776 our merchant fleet consisted of over 1,000 vessels. Without them we would have been economically dependent upon the old world. The 1,400 tankers, cargo ships and passenger liners in today's merchant marine are equally important to our independence and general prosperity.

Behind The Scenes In American Business

By Reynolds Knight

NEW YORK—This will not be another solemn warning against dancing in the streets because a Korean armistice has been signed. The ordinary American seems to have a sober and realistic understanding of this event.

While Korean truce is unlikely to shift the balance from inflation to deflation, the balance is an uneasy one, and the weights on either side are enormous:

INFLATIONARY: The \$9.4 billion federal deficit is the largest in history. The national debt crowds the limit, and either a rise in the ceiling or the spectacle of government checks bouncing will frighten the financial community. Reserve requirements have been cut to make more commercial credit available. Steel and oil are more costly. The cost of living edges upward. Wage raises are generous. Rents will rise. Employment is full or over-full.

DEFLATIONARY: Food and fiber prices are lower, carrying farm land prices down with them. Interest rates are higher. Defense spending is being stretched out, and will be more so. Reviving foreign producers fight for world trade. Inventories are high, and prudent industrial purchasers have begun shortening commitments.

STUBBORN SHORTAGE—Ever wonder what happened to all those shortages of raw materials that came to notice with the Korean outbreak? Well, they have disappeared—all but one.

The lone exception is nickel. This vital alloying element is added to other metals to make them harder, stronger and tougher, and to increase resistance to corrosion and high temperatures. The U. S. supply of nickel is still far short of demand, despite government assistance in expanding production. Priorities and allocations continue on its use and distribution, so that the needs of the arms and atomic energy programs can be met.

This nation has contracted with nine producers in the United States, Canada and Cuba for additional supplies of nickel, but the 380 million pounds of the metal it would like to have by 1955 will be missed by about 75 million pounds.

THINGS TO COME—Paper handkerchiefs, cheap enough to throw away at the end of a day, are offered to replace toilet tissues. Safety pins with personalized name plates, gold plated, are offered as baby gifts. A mending kit for all the garments that are now made of vinylite has four big patches and a tube of resin. A new fork truck for close quarters has two iron-pipe hands which lift objects by both ends. You can standardize your picnic hamburgers by squeezing them into a new copper-aluminum mold.

CLEARING FOR ACTION—Dealers provide the means at the customer's level to get and keep an automobile line before the prospect's eye, and Edgar Kaiser has just made a striking move to do just that for his three automobiles.

A new organization, Kaiser-Willys Sales Division, will hereafter distribute the passenger cars and commercial vehicles built by both Kaiser Motors Corp. and Willys Motors, Inc. In passenger cars this means the Henry J, the Aero Willys and the Kaiser. In commercial vehicles it includes Willys trucks, station wagons, the world-famous Jeep and special-purpose vehicles.

Roy Abernethy, heading the new unit as vice president in charge of sales, said he expected this aggressive program to "build a great new automotive company that will advance in the industry at a more rapid rate, merchandise modern quality automotive products, and give our dealer organization a greater percentage of the market."

The dealer organization will now number more than 4,000 outlets to serve more than 2,000,000 current owners of Kaiser and Willys vehicles.

CONGRESS CASUALTIES—Bills of interest to small business men and consumers, which have been just squeezed to death in Congress' rush for adjournment, include the postal rate increase measure and two major sections of the customs simplification bill.

Costs of shipping parcels would have gone higher under the postal rate bill, and magazine subscription costs would have risen. Under the customs bill as now trimmed, the possibility of buying small articles by mail from abroad has been cut off.

As a taxpayer, the businessman may also rejoice in the reduction of \$1 billion in foreign aid, although the Administration calls this false economy.

BITS O' BUSINESS—Drought stories obscure the fact that most productive farm areas are expecting to turn out bigger crops than last year. The last two of the Big Four cigarette makers will enter the filter-tip field soon.

To the Policyholders of the Theresa Mutual Fire Ins. Co.

TAKE NOTICE:
Pursuant to the provisions of section 202.11 of the statutes, the directors of the Theresa Mutual Fire Insurance Company on July 31, 1953, levied an assessment of \$29,173.70 on the policyholders of the company, being at the rate of

one mill per dollar of insurance, and said assessment is due and payable on or before November 1, 1953.

JOHN JANSEN, Secretary

DUNDEE

Mr. and Mrs. Cyril Gilboy spent Wednesday with relatives in Milwaukee.

Mrs. Addie Bowen visited the forepart of the week with Mr. and Mrs. Cyril Gilboy.

Mr. and Mrs. Bob Petznick and children of Manitowish and Mr. and Mrs. Ray Mertes of Sheboygan visited Sunday with Albert Koepke and daughter Lula.

Mr. and Mrs. Herman Behne of Milwaukee and Mr. and Mrs. Arnold Pieper of West Allis called on Mr. and Mrs. C. W. Baetz Sunday.

Mr. and Mrs. Francis Gilboy spent the week end with relatives in Chicago.

The Misses Lynn and Barbara Gilboy spent the past week with their aunt and uncle, Mr. and Mrs. Vernon Feuerhammer in Campbellsport.

Mrs. Walter Lakoski entertained at a luncheon at her home in honor of Mrs. Al. Dobyns of Grafton. Guests included Mrs. Richard Henkel of Cascade, Mrs. George Leonard of Forest Lake, Mrs. Cyril Gilboy and Mrs. Sylvester Majesky of here.

Mr. and Mrs. Clarence Bohm, son Ralph and daughter Marilyn visited several days last week in the northern part of the state.

Mrs. Clarence Reigle and infant son Dale returned home from the St. Agnes hospital Thursday.

Born, a son to Mr. and Mrs. Fritz Raether Saturday at St. Nicholas hospital, Sheboygan.

Mr. and Mrs. Edward Lepp and children visited Sunday with relatives in Milwaukee.

Mr. and Mrs. Henry Kahrs of Milwaukee visited Monday with the former's brother and sister-in-law, Rev. and Mrs. H. A. Kahrs and family. They were accompanied home by their daughter Renea,

who had been visiting here the past week.

Mr. and Mrs. Vilas Ludwig and Mr. and Mrs. Elton Ludwig attended the marriage and reception of the former's nephew, Royal Carey, and Carol Cosgrove in Fond du Lac Saturday.

The infant son of Mr. and Mrs. Paul Blumer was baptized Sunday at the Lutheran church by the Rev. H. A. Kahrs and received the name Steven Paul and the sponsors were Miss Virginia Blumer and Arnold Butzke. A number of relatives were entertained during the day at the Blumer home in honor of the occasion.

Mr. and Mrs. Herbert Heider entertained Sunday at their home. The occasion was their 15th wedding anniversary. Guests for a five o'clock dinner were Mr. and Mrs. John Wahnschaffee and son Marvin, Mr. and Mrs. Elton Ludwig and children, Karen and Billy of Kewaskum; Mr. and Mrs. Walter Pieper and children, Betty and Duane of Eden; Mr. and Mrs. Herbert Pieper and children Gene, David, Roger and Nancy and Otto Wachs of Waucousta; Mr. and Mrs. William Benson and children, Billy, Loren and Charles of Round Lake; Mr. and Mrs. Vilas Ludwig and daughters, Joyce and Delores, of New Prospect; Mr. and Mrs. C. W. Baetz from here.

NEW PROSPECT

Mr. and Mrs. Jos. P. Uelmen called on Mr. and Mrs. William Krueger at Cascade Friday.

Miss Diane Uelmen of Campbellsport returned to her home Saturday after spending the past week with her cousin Edith Meyer.

Mr. and Mrs. David Tennesen and family of Fond du Lac called on the latter's parents, Mr. and Mrs. George H. Meyer Saturday evening.

Mrs. Stan Porubcan was a patient at St. Joseph's hospital.

Mrs. Porubcan of West Allis is visiting this week with Mr. and Mrs. Stan Porubcan and family.

Mr. and Mrs. Richard Hornburg of Fond du Lac and Mr. and Mrs. Charles Narges of Waucousta spent Sunday evening with Mr. and Mrs. Walter Jandre.

ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.

Mrs. Lela S. Wier

Jackson 7, Mississippi

softball game at New Fane Sunday was forfeited 5-9 because the team was short of players. There weren't enough local players present for a team and although forfeited they played with what they had and lost 14-2. Wayne defeated Beechwood 5-1 and the West Bend Bears clinched the championship

by smearing the West Bend Merchants 14-1. This Sunday Kewaskum makes up a game with Fillmore here.

FINEST OF FEATURES AT LOWEST COST!

Dual-Range Hydra-Matic Drive

Pontiac's wonderful Dual-Range Hydra-Matic* gives you easier pep in traffic and quiet, gas-saving cruising on the open road. And it's the same automatic drive you find in the most expensive cars in America!

122" Wheelbase

Pontiac is a big car—in fact no car so big is priced so low. This extra size gives you more room and contributes greatly to Pontiac's smooth, relaxing, road-holding ride—a ride that gives you a wonderful feeling of solid security wherever you go.

Power Steering

Pontiac's Power Steering* takes over almost all the work of turning and parking and provides almost effortless driving. It's the same type of power steering you get in the finest cars. *Optional at extra cost.

Body by Fisher

Inside Pontiac's big, roomy body you'll find luxury and comfort far beyond its modest price, with interiors finished with the same fine attention to detail as America's costliest cars.

Put yourself in the driver's seat of a Pontiac and immediately some very wonderful things happen. First, you find yourself in command of a big, high-compression engine that responds so eagerly you know there's power to spare. You control this big 122-inch wheelbase beauty with almost no effort. But only after

you've driven it for many thousands of miles do you realize that Pontiac's outstanding point of extra value is its famed dependability, long life and amazingly low operating and maintenance cost. And this great Pontiac quality is proved beyond question by its accepted high resale value. Come in and get the facts.

County Barley Contest at Slinger Sept. 3; 85 Farmers Enrolled

Approximately 85 Washington county farmers have enrolled in the county's better barley growing program and contest. These barley growers are to bring a one bushel sample to the county contest which will be held at the fairgrounds at Slinger on Thursday, Sept. 3. Those who already have brought in a sample to the county extension office for the preliminary contest need not bring a second sample to the county contest.

Please observe the following suggestions in exhibiting:

1. If you have not already brought your sample to the extension office, post office building, West Bend, be sure to bring it to the fairgrounds on the above date before 10:00 o'clock a. m., when judging will begin.
2. Each bushel should be well cleaned, graded, and weigh fifty pounds. Bring sample in white muslin bag and bring the best sample you can.
3. Only one sample per farm of the 1953 crop is eligible for competition.

All bushel samples will be purchased by the County Barley committee for \$2.00. However, you may

take your sample home if you wish. \$165.00 in prizes will be as follows: 1st, 2nd, and 3rd place, \$20.00; 4th and 5th place, \$10.00; 6th to 9th place, incl., \$5.00; 10th to 16th place, incl., \$2.50; 17th to 25th place, incl., \$2.00; 26th to 35th place, incl., \$1.50; 36th to 50th place, incl., \$1.00.

There will be a free luncheon during the noon hour. Also, each exhibitor will receive a case of Lithia.

The county barley show is made possible through the courtesy of the Washington County Barley committee consisting of: Rosenheimer Malt & Grain company, Kewaskum; West Bend Malting company, West Bend; West Bend Lithia company, West Bend, and Thiel's Mill, Slinger, and the Wisconsin State Brewers' association, Milwaukee, Irvin J. Ott, secretary.

Below are the names of all the Kewaskum barley growers taking part in the contest:

- Lloyd Backhaus, Loran Backhaus, Ervin A. Butzlaff, George A. Herman, Clarence Jung, Joseph Kern, Andrew Kirchner, Milton Kirchner, Charles J. Koepke, Carl Mellahn, Melvin Schaub, Schmitt Bros., Paul T. Schmitt, Andrew Simon, Arthur Terlinden, and Oscar Thull.

It is our desire to continue to give our students the finest and most interesting education in "DANCE" that can be planned!

BOOKIE WITH A BOOK—A bookie reads his book, but it's a work on philosophy. Colin Leslie Fox, 32-year-old licensed bookmaker from England, reads by kerosene light aboard his 23-foot yawl which took him on a 7000-Mile Atlantic voyage. Anchored in New York's East River, he now plans on selling his sailboat and buying a car to tour America.

ON THE BALL—The little champ behind the cue ball is seven-year-old Guy Delville of Roubaix, France. He inherited his mastery of the cushions from his father, a 17-time French national billiards champion.

SOLDIERS WOUNDED IN MOUNTAIN WARFARE sometimes must be evacuated by a suspension rope traverse like the one shown above. Soldiers are trained in this technique at the Army's Mountain Training Center at Camp Saalfelden, Austria, where this picture was taken.

"FLYING" LOW—Using elbow grease instead of a motor, Dr. Fritz Bruns of Herford, Germany, solved the post-war ban on building airborne vehicles with this hand-pumped contraption which whizzes around instead of up. The "flying" apparatus has flapping, flexible wings attached to a merry-go-round-like construction and whirls at a speed of about 45 MPH.

STARS IN HIS EARS—Major Truman Hemingway of Fairfield, Calif., still proudly wears in his ear a gold star, (closeup, right) symbol of his guerrilla days in World War II. He is one of 12 living Americans who wear the tokens to commemorate close bonds forged in the early days of the war, harrasing the Japs. Hemingway was awarded the Legion of Merit by General MacArthur for his contribution to the Pacific campaign.

Household Hints

To make a hot vinegar dressing for greens, fry two slices of chopped bacon. Drain and add one slightly beaten egg, one-fourth cup sugar and one-fourth cup vinegar to the fat. Cook until thick, then pour over the greens along with the bacon pieces and one-fourth cup chopped onion.

When doors, windows or drawers stick, rub paraffin on the top, bottom, and side edges and also on the window ropes.

To get that last drop of juice out of lemons, oranges, or grapefruit, soften the fruit by rolling it gently on a breadboard before you cut it.

There's a summer look for the city which makes everyone within range feel more cool and comfortable. It includes neat cotton or linen dresses in dark colors—black, forest green, brown and gray, for example—with enough coverup to hide prickly heat or other unsightly summertime manifestations.

Backs and shoulders are always covered, even if only with bolero jackets, in the daytime. Gloves and stockings aren't left at home. Toes don't protrude from shoes in the early hours.

Does so much coverup sound warm to you? If you've tried and compared the difference, you may realize that fabric protects the body from excessive heat as well as from the cold.

The important thing is to choose a porous, soft, light weight fabric in a garment with a non-constricting fit. Coverup shoes, likewise, protect the feet from hot pavements. Linen, shantung, kid or other summertime shoes will permit flexibility without becoming hot boxes.

BANNED PANTS—Targets of an anti-immorality campaign by West Berlin teachers, these German schoolgirls were sent home to change their pedal-pushers and shorts for skirts. Loud protests were raised by bicycle riders when tight-fitting slacks, pedal-pushers and shorts were banned from classrooms.

STRICTLY FRESH

SCIENCE tells us the moon is doomed to destruction in 10 or 20 billion years. If man gets there soon it won't even last that long.

The guy with a big mouth usually ends up putting his foot in it.

The Anniston, Ala., police chief denied charges that he pinched and patted a policewoman. That's

one "pinch" he wants no credit for.

Taxes are that part of your pay that goes to Washington when you couldn't afford to.

A blush is when an innocent girl isn't.

A FISHING GOES THE HUMAN RACE

A 14-pound Minnesota Northern Pike, in Shedd aquarium, Chicago, made one of the top national magazines, in picture and copy. Conservation Volunteer records that Cleopatra rebuked Antony's fish yarns by having a salted specimen attached to his line in the Nile. Minnesota History notes that the first written report of Minnesota fishing appeared in 1844, that a State Board of Fish Commissioners was set up in 1874, and that in 1891 game wardens were first appointed to enforce fishing laws. Oddest catch of the current year was a 12-foot somewhat dehydrated turtle blasted from a quarry near Ortonville, where he probably disported 60 or 70 million years ago.

JUST GIVE 'EM PLENTY OF TIME

Two Gilbert brothers met for the first time during 11 years of army service when Sergeant Carl Gerstich, moving back from front line duty in Korea met his brother, Sergeant Mike, moving forward . . . After 34 years of transporting fishermen all over Lake of the Woods, Captain Fay Young of Warroad finally went fishing . . . Walter Pehl drove a Campbell mail route 36 years without accident, then someone snuck up from behind and smacked him into considerable car damage . . . C. L. Newman decided 51 years of railroading would suffice, and retired from the Omaha road at St. James.

Bless 1953 Dept.
Mrs. A: Have you had your new cook long?
Mrs. B: Oh yes, for hours and hours.

Figures Show First 25 Miles Most Hazardous

The first 25 miles away from home are the most hazardous when you're driving an automobile.

"Accident Facts," the National Safety Council's new statistical yearbook, shows that 61 per cent of the drivers involved in the 33,000 fatal motor vehicle accidents last year lived within 25 miles of where the accident occurred, 21 per cent lived elsewhere in the state, and 18 per cent out of the state.

Seventy-three per cent of the drivers involved in all motor vehicle accidents also lived within 25 miles of where the accident occurred. Seventeen per cent lived elsewhere in the state, and 10 per cent outside the state.

DATA ON CO-OPS IN DAIRY FIELD

Of 534 reporting Minnesota dairy co-ops 523 vote by individual members, 530 treat members and non-members alike, 436 are exempt from state and federal income taxes; 15% remit no dividend, 56% have a 6% maximum dividend, 14% a maximum 8% dividend. Average total assets are \$87,374; 16 cheese co-ops have highest average assets, 66 milk-and-cream co-ops second, 19 mixed dairy third, 433 butter co-ops lowest average assets. The cheese co-ops operate on the narrowest margin (less than 1%), butter highest, 1.7%.

Mister Fixum's Handy Hints

BY ERNIE GARDNER

SLIDING DOORS FOR CLOTHES CLOSETS

Storage space in the modern home is apt to be limited. Also, closets with ordinary swinging doors cramp the furniture arrangement.

If you are building a walk-in type of wardrobe or closet, regular showcase sliding doors may be the answer to your problem. The simplest arrangement is to build the closet wide enough that two doors can be used as illustrated. Since the doors slide past each other, no special wall construction is necessary.

There are several trade names of doors made for this purpose. Buy the doors complete with hardware. The important thing is to get doors which have been treated to withstand dampness, so that they will not swell and stick during damp weather.

If the doors are to be painted, they may be covered with a composition board instead of wood. If a wood grain finish is desired, they should be veneered with wood.

There is no limit to the width of opening or the number of doors used. Make sure, however, that the doors overlap when used.

ORDER TODAY

"MR. FIXUM'S HANDY HINTS" is a collection of 31 selected jobs from this column, printed in attractive form, for 35c. Send coins, not stamps, to Ernie Gardner, 14189 Faust Avenue, Detroit 23, Michigan.

Swishing Tails Mean Less Milk

Swishing tails of cattle are signals of distress.

E. H. Fisher, entomologist at the U. of Wis., says swishing tails means cattle are losing blood to flies or mosquitoes. That in turn means the cows will give less milk.

Fisher lists four main reasons why fly control may be poor even though insecticides are being used.

First, flies may be breeding faster than chemicals can knock them out. In such a case, sanitation is the best solution.

Second, flies may be building up resistance to residual sprays. If the barn has been recently sprayed properly with a residual spray, there should be numerous dead and partially paralyzed flies on the floor.

Third, you may be counting too much on "weak" insecticides, especially those of the quick knock-down type which have too little killing power.

Fourth, insecticides may have been improperly used.

Peach Cake

- 2 cups flour
- 4 teaspoons baking powder
- 2 tablespoons butter
- 1 teaspoon cinnamon
- 1 egg
- Milk
- 1/2 teaspoon salt
- 1/4 cup molasses
- 8 to 10 peaches quartered

Sift the flour and baking powder together. Cut in the butter. Add salt, beaten egg and enough milk to make a soft dough.

Roll 1/4 inch thick and line a greased baking tin with it. Cover with the quartered peaches. Sprinkle with cinnamon and molasses. Bake in an oven 400 degrees until cake and peaches are light brown. Sprinkle with sugar and keep in the oven 5 minutes more and serve.

KNOWS ALL—This cat knew a lot more than it could tell when it costarred with blonde Kathleen Hughes of Hollywood in a 3-D murder mystery. The cat was the only witness, and Kathleen—she was the victim.

So Goes The Mind

By Orin R. Yost, M. D.
Medical Director, Edgewood Sanitarium

(Editor's Note: Dr. Yost is a graduate of the Medical College of Virginia at Richmond, studied psychiatry at St. Elizabeth's Hospital in Washington, D. C., taught psychiatry at Columbia University, New York, was division psychiatrist of the 79th division in World War II, and is presently Medical Director of Edgewood Sanitarium Foundation.)

For some time Charles had been acting strangely. Everyone felt that "he wasn't himself." At the office he didn't seem to be able to keep up with his work. At home he just sat as if in a daze, staring at nothing. At night he couldn't sleep, and when he did drop off, he was apt to awaken in a sweat with a frightening nightmare. Janet, his wife, felt as if he were a completely different person from the Charlie she had married.

His work in the office got so unsatisfactory that at last his Department Head had to call Janet and suggest that she'd better get him to the doctor's to be looked over. Poor Janet was at her wits' end. For weeks she had been suspecting what might be the matter. Now she heard her worst fears confirmed, for the doctor told her that Charles was suffering from a mental breakdown.

Janet and the family were completely stunned by the shock of having someone close to them come down with a mental illness. They felt as if it were some sort of a disgrace; as if they of all people had been singled out from among all the others, for this terrible calamity. Yet in our country one family out of every five, at some time, is up against the very predicament in which George and Janet find themselves.

No one would say that mental illness is something to be taken lightly. But things could be much easier for Janet and the family, if they were aware that mental illness is by no means a rare visitation. Indeed, it is all too common. According to our United States Public Health Service, it is today America's No. 1 health problem. More people suffer from mental illness than are laid low by cancer, heart disease and infantile paralysis combined. If Janet had known that mental illness does not attack without warning, she might have been more alert to some of the earlier symptoms. Any number of different events or happenings may appear suddenly to bring on a breakdown. Often they are very dramatic, such as a serious accident, some family tragedy, financial reverses or a sudden change in fortune. But these are not the real causes.

If Charles has "gone to pieces" or "lost his mind" because someone else got the office promotion that he was expecting for himself, he must have had earlier symptoms that neither his family nor his office associates recognized for what they were. The sole responsibility for an emotional collapse can never be laid at the door of any single event or crisis. Such a crisis is generally no more than "the last straw that breaks the camel's back."

To help Janet and the family to bear the hardships connected with Charles' illness, here are two things they should know: "Charles' mental illness can be treated and Charles' mental illness is no disgrace, for him or for his family."

Cooling Milk A Hot Weather Problem

This business of keeping milk cool on the farm is one of the dairyman's most important responsibilities.

And, despite the fact that an ever increasing number of Wisconsin dairy farmers are switching to mechanical cooling, clear, cold water, direct from the well, is still a major factor in maintaining milk quality by lowering temperatures.

Lester Legrid, of the State Agriculture Department's Dairy Division, says the goal is to cool the milk promptly and keep it at temperatures below 50 degrees F. "The bacteria growth rate in milk at 60 degrees can be as much as 350 times the growth rate at 40 degrees," Legrid stated.

Plenty of water pumped directly from the well into the cooling tank will do an excellent job of cooling milk, thus retarding the growth of organic life which can lower the quality of the milk.

The cooling problem is of particular importance at this time of year with weeks of hot weather ahead. Careful attention to cooling will result in higher quality milk and milk products reaching the consumer.

The inland waterways system of the United States carries nearly twice the amount of bulk freight moved on the Great Lakes. The annual tonnage is in excess of 325,000,000 tons and steadily growing.

In building an igloo, the accepted Eskimo method is to finish the job from the inside before a door is made. The owner of the new home then must chop his way out.

Sarah Anne's COOKING CLASS

Meat in Cans For Picnic Kebabs

Kebabs, cubes of meat broiled on skewers with vegetables, provide the drama of a flaming food to summer picnics and backyard grills. When the meat comes ready to use from a can, this course may be quickly assembled and each guest can even join in the fun by creating his own kebab.

A can of luncheon meat provides six generous servings with the preparation and cooking completed for you. To make the kebabs, the meat is grilled to serving temperature along with tomato, onion and green pepper rings.

Grilled Kebabs

- 1 12-ounce can luncheon meat
- 6 small tomatoes
- 2 medium onions
- 2 green peppers

Cut luncheon meat lengthwise of loaf into thirds, then each third in half to make 6 finger-length pieces. Slice each piece crosswise in thirds. Cut tomatoes in half crosswise, onions in 1/4-inch slices, and peppers in 1/4-inch rings. On each of six skewers, put a cube of meat, then a tomato half, onion slice and green pepper ring. Repeat. End with a meat cube. For outdoor or indoor cooking, lay kebabs across grill or broiler pan and broil at moderate heat 15 to 20 minutes, turning once.

YIELD: 6 servings.

Cucumbers used to be eaten only raw but today we make them into countless dishes. While they are at the height of their season, try these recipes on your family.

Cucumber Puffs

- 1 cucumber
- 3/4 cup flour
- 1/2 teaspoon salt
- 1/2 teaspoon baking powder
- 3/4 cup milk
- 1 well beaten egg
- 1 tablespoon melted butter

Pare the cucumber and cut into inch pieces, removing as many seeds as possible. Cook 10 minutes in boiling salted water, then drain and cool. Make a batter of the flour, sifted with the salt and baking powder. Add milk, egg and butter. Dip the pieces of cucumber in the batter and fry in deep fat until delicately browned. Drain on paper. Sprinkle with salt and pepper and serve hot.

Stewed Cucumbers

- Cucumbers
 - Chicken stock
 - Butter, salt and pepper
- Pare cucumbers and cut in pieces. Add a very small amount of chicken stock. Cover closely and stew until tender. Season with butter, salt and pepper. Serve on toast points.

Cucumber Sandwiches

- Thin slices of cucumber
 - White vinegar
 - Salt and pepper
 - Chopped chives
 - Butter
- Thin slices of white or brown bread

Soak cucumbers in vinegar which has been seasoned with the salt and pepper for 1 hour. Add the chopped chives. Drain and use between buttered slices of white or brown bread.

Cucumber Sauce

- 1/2 cup cream
- 2 tablespoons vinegar
- 1/4 teaspoon salt
- Pepper
- 1 cucumber

Pare, chop and thoroughly drain cucumber. Chill ingredients. Whip cream until thick, but not too stiff. Add vinegar gradually to cream while beating constantly. Season and fold in cucumber. Serve with fish.

Cucumber Salad

- 1 tablespoon gelatin
- 2 tablespoons lemon juice
- 1/4 cup cold water
- 2 tablespoons onion juice
- 1/4 cup sugar
- 1/2 cup boiling water
- 1 cup grated cucumber
- 1 package cream cheese

Soften gelatin in cold water. Melt in the hot water, add lemon juice, onion juice, sugar and cucumber. When mixture begins to congeal, whip with a rotary beater. Fold in softened cream cheese. Serve on lettuce with mayonnaise.

Cucumber Rings

- 2 medium sized cucumbers, cut in rings 1 inch thick
- 1/2 cup chopped, sauteed mushrooms
- 1/4 teaspoon salt
- Pepper and paprika to taste
- 1 tablespoon chopped parsley
- Butter
- Slices of tomato
- French dressing

Boil cucumber rings 10 minutes in salted water. Scoop out as much of the pulp as possible and

MENU NEWSREEL

Stars light in everyone's eyes at the sight of this luscious ice cream blueberry pie with its toasted coconut crust!

Step 1. Evenly spread 2 tablespoons of soft butter on bottom and sides of 9-inch pie pan. Sprinkle one package (1 1/2 cups) of shredded coconut in pan. Press very evenly into the butter. Bake in slow oven (300 F) 15 to 20 minutes till golden brown. Cool.

Step 3. Spoon evenly 1 quart of vanilla ice cream into coconut crust. Generously pour cooked cultivated blueberry mixture on top of ice cream.

Step 2. Bring to a boil in a saucepan 1/2 cup of water and 2 cups of fresh cultivated blueberries, then add a mixture of 1/2 cup of sugar and 1 tablespoon of cornstarch, spiced with a dash of cinnamon and salt. Steadily cook and stir till thick and clear. Remove from heat and add 1 tablespoon of fresh lemon juice. Cool.

Step 4. Decorate with star of toasted shredded coconut, if desired.

Coconut Starred Blueberry Pie—studded with cool, and shining new taste pleasures—fancifully fetches all the delights of the summer evening sky to your dinner table!!
