

Cancer Fund Drive is Underway in County; Rosenheimer Chairman

Washington county residents are participating in their annual fund campaign in behalf of the American Cancer society this week, according to an announcement by Thomas J. Kenny, West Bend, county chairman for the drive. Kenny said letters were sent to all residents of the county on Monday urging them to support the continuing research and educational programs in the fight to conquer cancer.

"We in Washington county have made an outstanding record in the past in supporting this vital work and it is our hope that the people in this area will once again help to insure the continuation of American Cancer society programs in research and educational fields. A portion of our goal is already on hand, having been contributed during the Community Chest campaigns in West Bend, Hartford and Barton, but we must still have the generous contributions of people throughout the county if we are to reach our quota for 1954," Kenny said.

In the interest of convenience, postage-free return envelopes were included with mailing to all county residents to enable them to make their personal contributions as early as possible. Those who wish to take a part in the fight against cancer by making a contribution are urged to do so as soon as the letter is received in order that the county can achieve its campaign goal in record time.

Pointing out that there has been an average of 46 cancer deaths per year in Washington county over the last five years, Kenny said he is certain that the people in this area are fully alert to the importance of keeping research scientists and educational workers at work in solving the riddles of cancer. Through personal contributions, he said, each individual has an opportunity to play a vital role in this important work.

Assisting in the campaign with Kenny are: H. E. Pelzer, Hartford, vice-chairman, and the following precinct chairmen: Edwin Kratz, town of Polk; Lawrence Blazel, town of Trenton; Albert Ebling, town of Richfield; Victor Bauer, town of Wayne; A. John Cleary, town of Erin; Hugo Dhein, Germantown; Guido Schroeder, town of West Bend; Clarence Gumm, town of Jackson; Al Seefeldt, town of Kewaskum; Edwin Hausmann, town of Barton; Mrs. William H. Dieterich, town of Hartford; Merton Murray, town of Farmington; G. A. Eickman, town of Addison; William Kratz, village of Slinger; O. P. Butzke, village of Jackson; Lavern Schaezel, village of Germantown; Lehman Rosenheimer, Jr., village of Kewaskum; Herb Matenaer, village of Barton; Walter Oberberger, city of Hartford; and Mayor Walter Schmidt, city of West Bend.

ALTAR SOCIETY HOLDS SEASON'S LAST SOCIAL

The last meeting of the season of the Ladies' Altar society of Holy Trinity church was held on Tuesday evening. After the business discussion, cards were played and mission work was done.

The shrine for the month was set up by Mrs. Alan Stoffel. A set of vestments for the missions was donated by Sheila Hron, daughter of the Lloyd Hrons, from money she received on her birthday. The sewing was done by Mrs. Nicholas Stoffel.

A door prize of two silver dollars was won by Mrs. Don Harbeck. Lunch was served by the hostesses of the evening, Mrs. Alan Stoffel, Mrs. Cyril Wieter and Mrs. Huert Wittman.

BUSS, JUSTMAN BABIES BAPTIZED AT ST. LUCAS

The little son of Mr. and Mrs. Ivan Buss was baptized in St. Lucas Ev. Lutheran church by the Rev. Gerhard Knies on Sunday, June 6. He received the name Charles Kim. Rev. Knies also baptized the infant daughter of Mr. and Mrs. Harry Justman in the church on Sunday, June 12. She was given the name Jacqueline Rae.

Recreation Program Schedule Announced

Kewaskum's summer recreation program will begin Monday. Children who were in first grade the past school year will be the youngest there will be facilities for.

Since an effort is being made to make the recreation program very flexible to best suit the interest of the children, some changes in the schedule may be made from week to week. Any suggestions that will make this program more acceptable and interesting will be welcome.

Following is a tentative schedule for next week:

Monday—9-11, baseball practice for all boys 15 and younger; 10:30-11:30, softball for girls; 1-3, games (croquet, badminton, volleyball and lower organized games); 3-5, handicraft and hobby work.

Tuesday—9-10:30, softball for girls and volleyball for boys; 10:30-12, games for all; afternoon, games and handicraft.

Wednesday—9-11, baseball for boys; 10:30-12, softball for girls; afternoon, swimming when weather is suitable.

Thursday—Morning, games and handicraft for all; afternoon (1:30), Puddles game, Fredonia here. Bus for any kids interested in going when the team is playing out of town. This may be combined with a swimming event when possible.

Friday—9 - 12:00, Competitive games, tournament and some skill type activities such as track and field events; afternoon, swimming when weather permits, otherwise handicraft and games.

Benders Score 2 in 9th to Shade Chevs, 13-12

In a three and one-half hour slugfest on a very hot day at West Bend Sunday, the Benders came from behind with two runs in the bottom of the ninth inning to edge Kewaskum, 13-12, in Lakes play. The setback was the Chevs fifth of the campaign to one victory.

Highlights of the game were Ho Rauscher's fourth hit in the ninth which beat the Chevs and Bud Korth's grand slam home run in the sixth frame which put Kewaskum ahead, 11-10. Each team counted a run in the 7th to make it 12-11, Kewaskum. That's the way it remained until the 9th when Rauscher's single banged in the tying and winning run.

Korth's homer with the bases loaded was a tremendous drive which cleared the centerfield fence with plenty to spare. The Chevs trailed 9-2 after four innings but blasted away for five runs in the 5th and four in the 6th to take a temporary lead. They blasted Jimmy Weiss from the hill with the 5th frame assault and tagged Louie Miller for the four in the 6th. But "Hefty" Backhaus couldn't hang onto the lead.

Korth really had an exciting day, both good and bad. Besides his grand slammer, he was injured in a collision with Wierman in the 7th inning. He suffered a cut on his right arm and a bruised leg. Six stitches were required to close a gash. Rauscher was credited with a triple as a result of the collision. He also hit a double and two singles.

Augie Bilgo set the pace for the Chevs with three hits in five trips. The other hits were scattered.

Weiss and Don Meisenheimer started the tilt but neither was around at the finish. Meisenheimer left in the 6th, Backhaus then halted the Benders with but one run until the 9th. A very close play in the 9th started the West Bend winning rally. The umpire ruled that Miller had beat out a hit. "Red" Stautz, former Chev player, sacrificed, Luke Mueller's error, a walk to Manager Holzhueter and Rauscher's single ended the game.

This Sunday Kewaskum enters this third place Cedarburg here.

Lyn Peterson Elected to Boys' State Office

Lyn Peterson, son of Mr. and Mrs. L. N. Peterson, Kewaskum, is among the 718 Wisconsin youths attending the 13th annual encampment of Badger Boys' State on the Ripon college campus at Ripon this week. The local delegate to Boys' State is co-sponsored by the Kiwanis club and Robert G. Romaine Post 384, American Legion.

The week long Boys' State, which ends Saturday, is a practical workshop in civics and American government.

Electioneering got off to a start Monday. Divided into two parties—Nationalists and Federalists—the boys began campaigning Monday. First step in the American Legion sponsored experiment in democracy was the election of officers for the 24 mythical cities in the six Boys' State counties.

The electioneering reached a high pitch Wednesday night when the boys played politics in an attempt to elect their candidate to the office of governor. He was elected Thursday afternoon and in the evening was inaugurated by Justice Grover Broadfoot of the Wisconsin Supreme Court.

In the Monday voting, 240 city offices were filled by the young delegates. Peterson was elected city attorney of the city of Smith. Other officers of that mythical city named were: Mayor, John Wilkinson Tomah; city clerk, Brooks Nemacheck, Racine; city treasurer, Jim Martin, Shawano; municipal judge, Jim Scharinger, Sheboygan Falls; assessor, Mike Nolan, Medford; aldermen, Phil Elliott of Johnson Creek, Ronald Cook of Marinette, Fred Ufferman of Lake Mills, and Don Kirchoff of Butler.

Annual Dinner Meeting of Red Cross June 28

The annual dinner meeting of the members of the West Bend chapter, American Red Cross, will be held on Monday evening, June 28, at 6:30 o'clock in Fellowship Hall of the Fifth Avenue Methodist church at West Bend. Price of the dinner will be \$1.50 per plate and reservations may be made by calling 392, West Bend.

The meeting will be held for the purpose of electing directors and nominating officers, considering reports and the transaction of all other business properly coming before the meeting, including the adoption of a constitution and by-laws for the governing of the chapter, which is proposed constitution and by-laws shall if adopted amend the present by-laws materially in the following particulars:

- The holding of meetings and the giving of notice thereof.
- Providing for an executive secretary of the chapter and fixing powers and duties of such officer.
- Authorizing directors to (1) hold for 2 consecutive terms, (2) to appoint an executive committee and set forth duties of same, (3) to amend constitution and by-laws, (4) to fill vacancies, (5) to fix salaries.
- Fixing quorums for meetings of members and directors.
- Setting up fiscal policies and requiring surety bonds.
- Providing manner of amending the constitution and by-laws.

Philip K. Robinson, vice-president of the Northwest Mutual Life Insurance Co., Milwaukee, will be the speaker. He is a member of the board of directors of the Milwaukee county chapter of the American Red Cross, serving in this capacity since 1951.

WILL RECEIVE CASCOCK OF MARYKNOLL ORDER

Word was received here from Brother Nicholas (Louis) Bath that he will receive his cassock as a Maryknoll Brother at the Novitiate in Brookline, Mass. on June 29. He has also received his permanent name as a Brother of the order, which is Brother Labre.

Bath left Kewaskum last September and seems well pleased with his new life. We congratulate him and our every wish goes out for his future success and happiness.

His address is Brother Labre, Maryknoll Brothers' Novitiate, 20 Newton street, Brookline 46, Mass.

BIRTHS

KLEINKE—A girl to Mr. and Mrs. Marvin Kleinke, Kewaskum, Friday, June 18 at St. Joseph's hospital, West Bend.

TESSAR—A son to Mr. and Mrs. Allen Tessar, Kewaskum, Friday, June 11. Mrs. Tessar is the former Annabelle Groenhuis.

JOHNSON—In a recent issue we mentioned that a daughter was born to Pfc. and Mrs. Truman Johnson at Anchorage, Alaska. A letter arrived from Mrs. Johnson (the former Irene Kough of Kewaskum) stating that it should have been Stc. (sergeant first class) instead of Pfc.

BRADKE FAMILY MOVES

Mr. and Mrs. Lee Bradke and family have moved from the Mrs. Ella Backhaus home on Bilgo Lane to the M. W. Rosenheimer residence on Fond du Lac Ave. The Rosenheimers are residing in their summer home at Big Cedar Lake.

Roger Strachota, Peter Simon Die

Funeral services for Roger M. Strachota, 44, of Elm Grove, a native of St. Kilian, were held from the Becker Funeral home, Milwaukee, to Visitation of the Blessed Virgin Mary church, Elm Grove, at 9:30 Tuesday morning, June 15.

Mr. Strachota died of a heart attack on Saturday at St. Joseph's hospital, Milwaukee. He was born at St. Kilian on March 18, 1910 and was a son of Mrs. Katherine Strachota and the late Andrew Strachota.

He is survived by his wife Mildred, five children, Mary Beth, Jeanne, Judy Kay, Patty Lynn and Roger Paul; his mother, three brothers, Lester, Ralph and Reuben Strachota, and one sister, Mrs. Neulah Retzer, all of Milwaukee. Two brothers, Andrew and Lambert, preceded him in death.

The deceased was co-owner of the Strachota-Behnke Hardware and Appliance store at Elm Grove.

Relatives from this vicinity who attended the funeral included Mrs. Marie Strachota, Mr. and Mrs. Orville Strachota, Mr. and Mrs. Alois Vieter and Mr. and Mrs. Philip Deisler, all of St. Kilian; Mrs. Anna Jaeger of Campbellport, Mrs. Lay Groose and son Dexter of Beaver Dam and Mrs. Paul Hron of West Bend.

PETER SIMON
Peter Simon, 31, town of Ashford, brother of Claver Simon of Kewaskum, died at 11:20 p. m. Wednesday, June 9, at Waupun Memorial hospital after a short illness.

He was born Sept. 1, 1922, in the town of Ashford, the son of Kilian and Catherine Hildman Simon. Surviving are his mother, three brothers, Linus, Campbellport, Leo, at home, and Claver, this village, and two sisters, Mrs. Anna Grassmer, Oakfield, R. 2, and Mrs. Rosemary Brath, Mayville.

The body of Mr. Simon was in state at the Twobig Funeral home, Campbellport. Funeral services were held there Saturday at 9:40 a. m. and at 10 a. m. at St. Martin's church, Ashford, the Rev. A. P. Kraus officiating. Burial was in the church cemetery.

Another necessary piece of equipment has been purchased recently. However, it is not quite for use as yet and so we are withholding announcement on it until a later issue.

Kewaskum Wins Rivers Opener in 12 Frames

The Kewaskum Junior Chevrolests edged Barton in a 12 inning game Sunday, 10-9, to open play in the Land of Rivers league. The local Rivers team is composed mainly of high school players and recent graduates.

After the lead, see-sawed back and forth for the first 7 innings, Kewaskum tied the count at 8-8 in the 8th. The 9th was scoreless and neither team tallied again until the 12th. Then Barton scored 1 and Kewaskum 2 to win.

Wierman pitched the entire game for Kewaskum and was the winning hurler. He gave up 8 hits, K. Kircher twirled for Barton and was pounded for 18 safeties.

Jay Van Blarcom and Barney Skrotny were the top hitters with 4 each, while Russ Rodenkirch and Carl Koepke each collected 3. Pitcher Kircher paced his team with 3 hits.

This Sunday Kewaskum plays its second game in the 6-team circuit at Newburg.

LAND O' RIVERS STANDINGS

HOSPITAL NEWS

Mrs. William Ruth, R. 2, Campbellport, was a patient at St. Agnes hospital, Fond du Lac, several days this week.

George Hansen, Kewaskum, is a patient at St. Joseph's hospital, West Bend.

Officers Stop Youths Party at Manthe Lake

Fifty-two Milwaukee youths ranging in ages from 15 to 18 were stopped by Fond du Lac county police at Mauthe lake late last Wednesday night as they celebrated a graduation party.

Traffic Officers Howard J. Huber and Lloyd D. Hatch blocked the entrance into the park with their squad car to prevent the youths from fleeing the raiding party. The officers stopped at the park while on routine patrol and were attracted by the commotion the youths made.

According to Officer Huber, beer cans and bottles by the score littered the park area. Some of the young men were under the influence of the intoxicating beverage, he said. Others were made ill while some were sober.

There were about 20 to 25 automobiles at the park when the two officers made their raid. Some of the young celebrants had gone to the park alone in their cars while others made up parties of up to six for the ride from Milwaukee to the lake area.

Officer Huber said that many, if not all, of the youths were students at Rufus King High school. A few from other schools could have been along, he said.

As the youths emerged from the park, they were questioned by the officers, who noted their conditions and jotted down their names and addresses. It took the two men until 1:15 a. m. Thursday to complete the questioning.

Whether the group had taken along food was not known by the officers, though they did see empty pickle containers strewn about. The list of names was turned over to the sheriff's department for further action.

Again on Thursday night, for the second night in succession, a group of Milwaukee high school students was stopped by Fond du Lac county police after littering Mauthe Lake park with scores of empty beer containers and debris.

A squad car was used as a road block on the park entrance and traffic officers took names and addresses of 28 students at West Divisions High school which were turned over to Sheriff Arnold Sook for further action.

One of the students subsequently was involved in a minor traffic mishap near New Fane. Another motorist threw out a seat cushion which caught fire during the return trip to Milwaukee and officers extinguished the flames and pushed the cushion off the road.

It took the patrolmen from 11:30 p. m. to 12:30 a. m. to interview the students and determine that drivers were fit to operate their cars.

Nurses of the students will be forwarded to officials of both schools.

LOCAL YOUTHS ENROLLED IN HOME STUDY COURSES

James St. Mary, South st., and William Kober, R. 1, Kewaskum, both 1954 graduates of Kewaskum High school, are enrolled and taking home study extension courses in drafting from the Chicago Technical college. Julius Barany, official representative of the school, was in Kewaskum Tuesday to interview prospective students.

The college, located at 2000 So. Michigan Ave. in Chicago, offers the following courses: Short courses—Drafting-Design, Air Conditioning, Practical Electricity, Building Construction and Tool-Die Design; engineering courses—Mechanical Engineering, Electrical Engineering, Civil Engineering, Architectural Engineering and Building Construction Engineering.

JUBILEE DINNER AT WAYNE CHURCH SUNDAY, JUNE 27

The ladies of Salem church, Wayne, will serve a jubilee dinner on Sunday, June 27, on the parish grounds. The country style Swiss steak dinner will be served from 11:00 o'clock through 4:00 o'clock in the afternoon. The price for the dinner is \$1.50 adults and 50c for children to 12 years. Tickets to reserve time are on sale now. See Mrs. Kenneth Koepke, Kewaskum; Mrs. A. M. Petri, Wayne; Ray Jonas, Allenton.

Bloomer Company Awarded Contract for Sewage Plant

Adjourned Meeting June 2, 1954

The Village Board of Kewaskum, Washington County, Wisconsin met in an adjourned meeting with President C. Miller presiding and all board members present. No minutes were read.

The bids, as tabulated for the construction of a sewage treatment plant, sewage pumping station, sewers, watermains, force main and for furnishing and installing an incinerator were studied and discussed with Mr. Clinton of the McMahon Engineering Co.

The following motion was made by Trustee M. Schaefer and seconded by Trustee C. Sparks: Since the Bloomer Truck and Shovel Co. of Bloomer, Wisconsin, was the low bidder for the construction of a sewage treatment plant, sewage pumping station, sewers, watermains and force main, the village shall accept their proposal under contract number three (3) in the amount of two hundred eight thousand, one hundred fifteen dollars and ninety seven cents (\$208,115.97) which includes the furnishing and installing of the coil spring type filter, provided that the Maiting Co. shall join with the village in the cost of construction. In the event the Maiting Co. does not join with the village, then the alternate bid in the amount of two hundred one thousand, one hundred seven dollars and ninety seven cents (\$201,127.97) shall be accepted. All work is to be performed according to the plans and specifications as set forth.

Upon roll call, all members voting "aye," the above motion was so adopted.

Upon motion by C. Schaefer, seconded by J. Reigle and carried, the board adjourned until its regular monthly meeting night, June 7, 1954 at 8:00 p. m.

William S. Martin
Village Commissioner

Local Girl is Named to State F.H.A. Post

Miss Eileen Weggen of Cadott was elected president of the Wisconsin State Future Homemakers' association last Thursday at Green Lake. She was named at the organization's ninth annual meeting.

Other new state officers named included Evelyn Derr, Columbus, secretary; Mary Lauritzen, Wild Rose, treasurer; Rita Casey, New London, parliamentarian; Barbara Nettleman, West Salem, historian, and Joan Salm, Chilton, program-of-work chairman.

Editors and vice-presidents named in each district included: District 1, Joanne Paulson, Clear Lake, editor, and Bernadette Grothouser, Tony, vice-president; 2, Joan Schaffner, Fountain City, and Carol Biddy, Galesville; 4, Ruth Olson, Westby, and Mary Martin, Seneca; 4, Jean Hart, Waupaca, and Marge O'Keefe, Stevens Point, and 5, Joanne Ferber, Kewaskum, and Barbara Fries, Plymouth.

Editors and vice-presidents named in each district included: District 1, Joanne Paulson, Clear Lake, editor, and Bernadette Grothouser, Tony, vice-president; 2, Joan Schaffner, Fountain City, and Carol Biddy, Galesville; 4, Ruth Olson, Westby, and Mary Martin, Seneca; 4, Jean Hart, Waupaca, and Marge O'Keefe, Stevens Point, and 5, Joanne Ferber, Kewaskum, and Barbara Fries, Plymouth.

LAWRENCE HIGH LEAVES FOR SERVICE IN ARMY

Four volunteers and seven draftees comprised the group of young men from Fond du Lac county who reported for induction Friday, June 18, according to an announcement from Local Board 21, of the selective service. The volunteers included Lawrence Edward Nigh, R. 2 Campbellport (town of Auburn), son of Mr. and Mrs. Elmer Nigh. The young men were served coffee and doughnuts and each was presented with New Testaments, playing cards, candy bars and cigars.

PANISH BAKE SALE

A bake sale will be held Saturday, June 26, at 2 p. m. in the Peace E and R church basement, given by the Ladies' Guild.

Adult Insomnia May Start In Childhood

Everybody needs sleep, but nobody will lose either his sanity or his health if, he spends a few sleepless nights, now and then. This reassurance is the first thing doctors emphasize in a bulletin on sleep.

The second is that there are many rituals for combatting sleeplessness, such as eating something before going to bed, or reading, or exercising, or moving the furniture, and most of them are good only if they work.

The third is that anxious parents who insist on a fixed amount of sleep for children without any consideration for whether or not the child is sleepy, are laying a foundation for insomnia in the future. The child comes to associate bed with wakefulness and restraint. Some children, like some adults, need less sleep than others and parents should not enforce needless naptimes or early bedtime hours when the child cannot possibly sleep.

Sleep is a kind of recuperative loss of consciousness, the doctors explain. The muscles go off duty because the brain no longer gives them any work to do. The heart slows down, the blood pressure drops, glandular activity decreases and the body actually sleeps all over. All this happens because the senses temporarily stop responding to stimuli.

The lucky person is the one who works hard and is at peace with the world. He just jumps into bed and sleeps—and no nonsense. For the rest, various devices may be necessary to trick the senses into slowing down to responses. The number of devices is almost as many as there are people. Drugs may do it, too, but they should never be used except on advice of a physician. Worrying is the worst trick of all and the most perverse and prevalent.

All worrying does is make your senses more active, the bulletin says in conclusion. Lying awake never really hurt anybody. Worrying about it will keep you from getting the rest you need.

Mary Z.: Is milk the only source of calcium?

Answer: Milk is the best source of calcium. Canned salmon, including the bones, provides considerable calcium, also such vegetables as broccoli, mustard and turnip greens.

Control of stem rust on small grains could add 10 bushels per acre to the yields of rye, wheat, barley and oats on Wisconsin farms, according to plant disease specialists at the University of Wisconsin.

Use a long boom—at least 20 feet—on a crop sprayer. You'll tread down less grain. If you are spreading liquid fertilizer use an aluminum or stainless steel boom to prevent corrosion.

STRICTLY FRESH

RAILROADS planning to carry truck trailers between cities "piggy back" on special flat cars, are determined to bring home the bacon.

could solve the mystery of the late dictator's death. He may have died of the "fue."

Ex-bakers must have robbed the pastry shop in West Warwick, R. I., where \$91 was hidden in the oven. They knew how to "raise" dough.

Lady in Mineola, N. Y., wants a separation because, she alleges, her husband, a sanitary worker, hasn't taken a bath in 12 years. Maybe he's just hesitant about taking the plunge.

Not Enough GG For General Usage

The approach of the polio season raises questions in the minds of many parents. Specifically their questions often involve gamma globulin. How successful has it proved to be and how will it be used this year?

First of all, last year's experience over the country has shown that giving gamma globulin to children in a family after one member has come down with polio gives no measurable protection. On the other hand if it is given to children one to six weeks before they are exposed, it does give promise of preventing paralysis. Thus the problem is for children to receive the protection gamma globulin affords during the relatively short period just before they come in contact with the disease. How-

ever, knowing when contact may occur is unpredictable.

Thus, to get maximum benefit from the available supply of gamma globulin, its use in Wisconsin this year is restricted to pregnant females and to children under 16 years of age in groups of ten or more in a school, a camp, a neighborhood or a community—groups larger than an individual family. This policy meets national requirements and has the joint approval of the State Medical Society and the state board of health.

The supply of gamma globulin is still not sufficient for general use and it is therefore under the control of the office of defense mobilization. It is furnished by the National Foundation for Infantile Paralysis and the American Red Cross. It is available on request to physicians through the state board of health—for

groups of ten or more children. And, only one dose can be given to any one qualified person during the season.

Since Wisconsin's period of highest risk usually gets underway about the middle of July, if gamma globulin is to be used, it should be given early in July. It should be remembered that this protection lasts for only four to six weeks beginning one week after injection.

Lastly, gamma globulin will not be available for polio prevention in the eight counties taking part in the vaccine field trials since its use would likely interfere with testing the effectiveness of the vaccine.

Farm Field Day at the University of Wisconsin will be held this year at the university electric research farm southwest of Madison. Dates—June 15 and 16.

MINNESOTA ALWAYS HAS LOTS OF GOOD NEIGHBORS

Thirteen neighbors brought good luck to Warren Johnson after his serious illness at Round Lake, when they processed 30 acres of oats and a field of flax for him. . . . Lawrence Kooistra, near Worthington, was ill when the spring work should have been under way, so his neighbors put in 90 acres of small grain for him.

Rudy Wenstrom, St. James, has been hospitalized, so 11 of his neighbors got a big field all ready for corn planting. . . . Richard Godejohn, farmer near Fergus Falls, died in February; in April a score of neighbors did Mrs. Godejohn's plowing and seeding.

HAIR-BREADTH HARRY

APPLY PINE PANELING
You can modernize your home by covering one or more of the present plastered walls with pine paneling.

It will be necessary to use horizontal furring strips for nailing the paneling. Use 1"x2" white pine. It will be necessary to use four strips as illustrated.

Remove all inside trim, including window stool and apron. One method is to use furring strips on the window as illustrated. This exposed wood, as well as the edges of the paneling will have to be finished the same as the paneling.

If the old trim was painted, you may want to use new trim. Or you may use paint remover to remove the paint, and sand the surface to a natural finish.

SUGGESTION: While you have the trim removed, you can check insulation and caulking. Fill all spaces with caulking or insulation.

Get The Most Use Of Your Refrigerator

Are you getting the best service possible from your refrigerator? Do you know the three important jobs it can do for you? Besides its function as a storage place, your refrigerator plays an important role in meal planning and preparation, says Ruth F. Pomeroy, Homemaking Editor of Redbook Magazine. In a recent issue, she tells you how to increase the efficiency of your refrigerator by proper cleaning.

"A clean refrigerator is an efficient one; here are some tips on how to do it:
"1. If defrosting on your refrigerator is not automatic, do it manually when frost on the coils is 1/4-inch thick. Remove trays. Turn control to OFF. Set a pan of hot water in tray shelf to speed thawing.

"2. Clean refrigerator while it's defrosting (or every 10 days if defrosting is automatic). Remove food. Wash interior and shelves with mild baking soda and water solution. Rinse with clean water; wipe dry.

"3. Most manufacturers make a cleaner and wax for specific finishes. Use them or wash the exterior with warm soapy water. Rinse, dry and cover with a thin coating of clear wax. Never use abrasives."

"All modern refrigerators are designed to do at least these three important jobs for you—storage, meal planning and food preparation.

"Storage: Because the temperature is nearly the same throughout a modern refrigerator, where-to-store is a matter of convenience and organization. There are general guides for storage: Milk: Wash bottles; place in refrigerator immediately upon delivery. Butter and Cheese: Store in special compartments, covered dish or closely wrapped with foil. Eggs: Store whole eggs unwashed; they have a natural protective coating. Store egg yolks covered with water in a covered jar. Fresh meats and poultry: Remove store wrappings. Cover loosely with clean waxed paper. Fresh fish: Remove store wrappings; wrap tightly in foil to prevent odors. Use within two days or freeze for longer storage.

"Fruits and vegetables with heavy skins: Wash; store on any convenient shelf. Crisp and leafy vegetables: Trim and wash in cold water. Dry thoroughly. Store in vegetable drawer. Leftovers: Store in covered containers or freeze for later use. Frozen food: Store in freezer chest in combination model or in the ice-cube compartment of refrigerator.

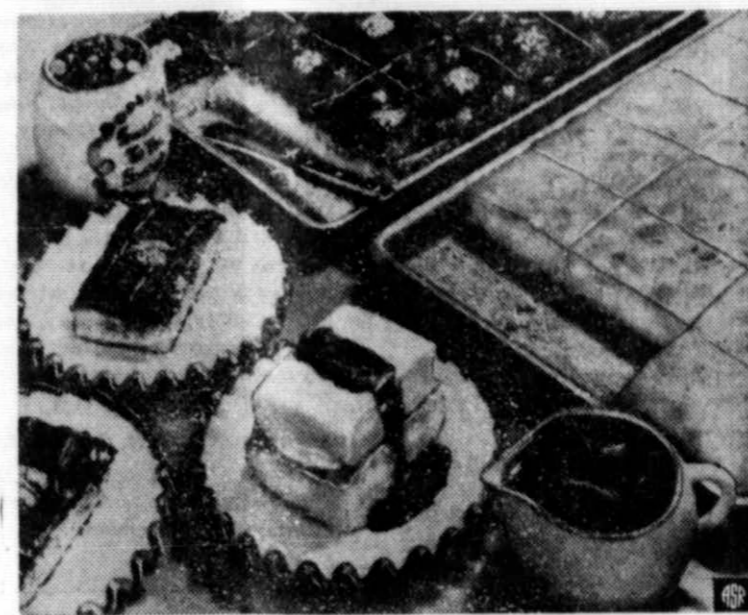

"Meal planning: With the increased variety of frozen foods, a refrigerator-freezer will hold many days' planned menus plus extras for convenient emergency meals.

"Food preparation: From soup to dessert, your refrigerator is a handy center of preparation. The foods you fix there are all prepared in advance.

Plan your vacation now and be sure you take it this summer.

Recipe Sings Semi-Sweet Duet In Frosting and Sauce

Want a wonderful chocolate frosting? Want a perfect chocolate sauce? Want them both in quick and easy style? Then you need only one recipe, our Semi-Sweet Chocolate Duet. With this recipe, you can make delicious frosting that has delicate, semi-sweet chocolate flavor. For a perfect chocolate sauce, just add more milk to the same basic recipe. It's that simple to complete either of the desserts in the photo, the chocolate-frosted sheet cake, or the cake à la mode with chocolate sauce.

Semi-Sweet Chocolate for Quick Desserts

Semi-sweet chocolate morsels are just right for quick chocolate cookery. This is the same chocolate that is used to stud Chocolate Crunch Cookies with morsels of candy-like chocolate flavor. As semi-sweet chocolate is already in small pieces, it melts readily for speedy chocolate cookery. This chocolate has such perfect, candy-like flavor that it requires few ingredients to make a frosting or sauce. In fact, you can't leave semi-sweet chocolate morsels around, or they'll be eaten as candy before you get a chance to use them in cookery. So hide a package, and make this delicious recipe.

Semi-Sweet Chocolate Duet (Frosting or Sauce)

- 1 package (1 cup) semi-sweet chocolate morsels
- 2 tablespoons butter or margarine
- 1 cup sifted confectioners' sugar
- 1 teaspoon vanilla
- 3 to 4 tablespoons hot milk, for frosting
- 1/2 cup hot milk, for sauce

In top of double boiler put semi-sweet chocolate morsels and butter. Heat until melted and mix until smooth. Remove from heat. For frosting, add milk and sugar alternately, adding enough milk to make a spreadable consistency. Stir in vanilla. For sauce, increase milk to 1/2 cup.

YIELD: Frosting for top of 10 x 15 inch cake, or 1 1/2 cups chocolate sauce.

Since strawberry time has arrived we may regard the dessert problem as settled. When buying strawberries be sure they are a bright red color all over, keep them in a cool place and handle them as little as possible until time to serve them.

Strawberry Floating Island

- 4 eggs
- 2-3 cup sugar
- 1 teaspoon flour
- 2 1-2 cups scalded milk
- 1-4 teaspoon salt
- 2 teaspoons vanilla
- 1 cup washed and hulled strawberries

Combine eggs, sugar, and flour. Gradually stir in scalded milk. Cook, stirring constantly, over hot water, until mixture coats spoon. Remove from heat immediately. Cool slightly. Add salt and vanilla. Chill. Pour over strawberries in a bowl. Top with meringues.

Meringues

- 2 egg whites
- 1-8 teaspoon cream of tartar
- 1-8 teaspoon salt
- 1-2 teaspoon vanilla
- 1-4 cup sugar
- 2 cups scalded milk

Beat egg whites with cream of tartar and salt until frothy. Add vanilla. Add sugar 1 tablespoon at a time, beating after each addition. Continue beating until mixture is smooth and shiny and stiff. Drop by tablespoons into the scalding milk. Do not cover. Cook over low heat about 5 minutes or until meringues are firm. Lift carefully onto custard. Garnish top of meringues with extra berries. The milk used to cook meringues may be used for gravies, puddings and etc.

Strawberry Pie

- 1 cup boiling water
- 1 package strawberry flavored gelatin
- 1-2 cup cold water
- 1 pint vanilla ice cream
- 1 cup sliced fresh strawberries
- Whipped cream
- 1 9-inch pastry shell

Add gelatin to hot water and stir until dissolved. Add cold water. Cut ice cream into 6 pieces and add to the hot liquid. Stir until mixture begins to thicken and mound when spooned. Fold in strawberries. Pour into cooled, baked pastry shell. Garnish with whipped cream and sliced strawberries. Chill until firm.

Force strawberries through a coarse sieve. Add sugar and corn syrup. Stir until sugar is dissolved. Pour into an oiled 1-2 quart melon mold. Freeze until edges are firm. Soften gelatin in the cold water. Dissolve over hot water. Cool. Combine remaining ingredients. Add gelatin. Mix well. Spoon over partially frozen berries. Freeze until firm. Invert on platter to serve. Garnish with whole berries and mint leaves.

Strawberry Milk Mallobet

- 1-2 lb. marshmallows
- 2 cups milk chilled
- 1 1-2 cups crushed strawberries
- 2 tablespoons lemon juice
- Heat marshmallows and 2 tablespoons of milk slowly, folding over and over until marshmallows are about half melted. Remove from stove and continue folding until mixture is smooth and spongy. Cool to lukewarm, then add rest of milk, strawberries and lemon juice. Pour into freezing tray and freeze, stirring several times while freezing.

Minted Cream with Strawberries

- 1 cup cream whipped
- 1-4 cup crushed fondant mints
- 3 cups strawberries
- Green vegetable coloring
- Whip cream until custard-like consistency, fold in the mints, tint a delicate green. Freeze until firm. Wash and hull the strawberries. Arrange in serving dish. Pile frozen mint cream in the center. Garnish with additional berries, whole and sliced.

Strawberry Sauce

- 1 1-2 cups strawberries washed, hulled and cut in pieces
- 3 tablespoons sugar
- 2 teaspoons cornstarch
- 3-4 cup canned pineapple juice
- Salt
- 1-2 cup diced canned pineapple

Mix cornstarch and a little pineapple juice to a paste. Add remaining pineapple juice and a little salt. Cook stirring constantly until thickened. Add diced pineapple and strawberries. If desired add more sugar.

Atrophic rhinitis, a new hog disease, has shown up in only small numbers in Wisconsin. Some other Midwestern states have had up to 50 per cent of the total hog population infected.

Plant oats as early as weather and soil conditions permit to avoid some of the danger of disease. Treat all seed, and prepare and fertilize the ground well to get the crop off to a flying start.

Soap A Welcome Picnic Guest

That all-American pastime of the picnic is right around the corner. Picnics aren't much fun though, if you have a lot of problems with them. Often the best picnic spots are not equipped with running water. So—what to do about such things as washing hands before mealtime? Here's a solution that is so easy, you will wonder why you hadn't thought of using it long before this. Simply take along a capped jar of soapy water and another jar of clear rinse water. Then all you have to do is to pour the soapsuds over your hands, lather, and then rinse with water right out of the jar. Don't even have to take along a basin. Paper towels will do the drying trick, but if you prefer luxury, take along real towels. Do whatever is most convenient for you. Incidentally, save some of the soap and water for hand washing before starting home again—the car upholstery can do nicely without sticky smears. Food that is packed in plastic or wrapped in wax or foil paper or glass jars will be protected from sand, gravel, and ants. Utensils carried along for cooking should be wrapped, too. Take an extra minute to see that food jar covers are tightly secured. Nothing disappoints more than not being able to enjoy food so carefully prepared for the picnic because dirt, sand and ants have gotten into it. Get the idea? That time for picnics is right around the corner.

"RECRUIT" FOR BATTLE OF LEARNING — Daly C. Lavigne, education officer of the U. S. Foreign Operations Mission in Indo-China, admires the progress made by a native woman during the four-month course in reading, writing and simple arithmetic which she took at Hanoi, under auspices of the organization. Only 15 per cent of Indo-China's population of 28,000,000 is said to be literate.

OUR DEMOCRACY — by Mat
DOING THEIR SCHOOL WORK

THIS IS THE TIME THAT SCHOOL BOYS AND GIRLS BEGIN TO WONDER WHETHER THEY'LL MAKE THE GRADE—AND BE PROMOTED. THOSE IN HIGH SCHOOL ARE HOPEFULLY SETTING THEIR PROGRAMS FOR NEXT YEAR, WITH THE HELP OF PARENTS AND TEACHERS.

AND SOME OF THEIR ELDERS, SERVING ON SCHOOL BOARDS, WHIP INTO FINAL SHAPE THE NEXT YEAR'S BUDGET—ALWAYS ANTICIPATING THE NEEDS OF THOSE THEY SERVE. STEWARDS OF OUR DEMOCRACY'S HUMAN RESOURCES, THEY ARE LIKE PARENTS WHO NOT ONLY LOOK AFTER THEIR FAMILIES BUT LOOK AHEAD FOR THEM.

PLAYING "HOOKAH" — Barnard College Sophomore Alice Blantz burlies her water-pipe after playing "hookah" from classes to enter a pipe-smoking contest held by students at Columbia University in New York City. Her water-cooled, Turkish-inspired smoking device failed to smoke out winning honors in competition with conventional "boilers."

"Hot Flashes Stopped" or strikingly relieved

in 63-80% of cases in doctors' tests
If you're miserable from the "hot flashes," and accompanying irritable, restless feelings of "change of life"—you may be suffering unnecessarily!
For... in tests by doctors... Lydia Pinkham's Compound and Tablets brought relief from such functionally-caused suffering to 63% and 80% (respectively) of the women tested! Complete or striking relief!
Yes! Research has proved these medicines thoroughly modern in action... has shown you where to look for relief from those distressing, nervous, "out of sorts" feelings of mid-life "change!"
So... get Lydia E. Pinkham's Vegetable Compound—or new, improved Tablets with added iron! (Wonderful, too, for the functional pains of menstrual periods.)
It acts through a woman's sympathetic nervous system to relieve distress of these awful "heat waves!"

ARCHWAY TO DECISION—Representatives of west and east attending the Geneva conference cross this esplanade each day as they approach the Palais des Nations, in Geneva, Switzerland. View is from an archway of the Assembly Hall in the Palais.

CARDBOARD VS. H-BOMB—So light that four persons can handle it, this experimental cardboard air-raid shelter is set in place on the campus at Ann Arbor by students of the University of Michigan. The collapsible, domed shelter could be mass-produced. Designer Richard Fuller believes it could better withstand H-bomb shock waves than could conventional shelters.

WHAT'S IN A NAME?—First Lieutenant Pak Pill Soon, Republic of Korea Army nurse at Taegu, has a name appropriate to her profession. Here she translates a Red Cross blood donor sign for a U.S. Army officer.

Adult Insomnia May Start in Childhood

Everybody needs sleep, but nobody will lose either his sanity or his health if he spends a few sleepless nights, now and then. This reassurance is the first thing doctors emphasize in a bulletin on sleep.

The second is that there are many rituals for combatting sleeplessness, such as eating something before going to bed, or reading, or exercising, or moving the furniture, and most of them are good only if they work.

The third is that anxious parents who insist on a fixed amount of sleep for children without any consideration for whether or not the child is sleepy, are laying a foundation for insomnia in the future. The child comes to associate bed with wakefulness and restraint. Some children, like some adults, need less sleep than others and parents should not enforce needless naptimes or early bedtime hours when the child cannot possibly sleep.

Sleep is a kind of recuperative loss of consciousness, the doctors explain. The muscles go off duty because the brain no longer gives them any work to do. The heart slows down, the blood pressure drops, glandular activity decreases and the body actually sleeps all over. All this happens because the senses temporarily stop responding to stimuli.

The lucky person is the one who works hard and is at peace with the world. He just jumps into bed and sleeps—and no nonsense. For the rest, various devices may be necessary to trick the senses into slowing down to responses. The number of devices is almost as many as there are people. Drugs may do it, too, but they should never be used except on advice of a physician. Worrying is the worst trick of all and the most perverse and prevalent.

All worrying does is make your senses more active, the bulletin says in conclusion. Lying awake never really hurt anybody. Worrying about it will keep you from getting the rest you need.

Mary Z.: Is milk the only source of calcium?

Answer: Milk is the best source of calcium. Canned salmon, including the bones, provides considerable calcium, also such vegetables as broccoli, mustard and turnip greens.

Control of stem rust on small grains could add 10 bushels per acre to the yields of rye, wheat, barley and oats on Wisconsin farms, according to plant disease specialists at the University of Wisconsin.

Use a long boom—at least 20 feet—on a crop sprayer. You'll tread down less grain. If you are spreading liquid fertilizer use an aluminum or stainless steel boom to prevent corrosion.

STRICTLY FRESH

RAILROADS planning to carry truck trailers between cities "piggy back" on special flat cars, are determined to bring home the bacon.

Land O'Lakes, Wis. (pop. 150), gets daily airline service because of wonderful fishing thereabouts. Just like the song says, "—where the flying fish(e)r's play."

Chimney sweep in Trier, Germany, found a bust of Adolf Hitler in a clogged chimney. This

could solve the mystery of the late dictator's death. He may have died of the "flue."

Ex-bakers must have robbed the pastry shop in West Warwick, R. I., where \$91 was hidden in the oven. They knew how to "raise" dough.

Lady in Mineola, N. Y., wants a separation because, she alleges, her husband, a sanitary worker, hasn't taken a bath in 12 years. Maybe he's just hesitant about taking the plunge.

Not Enough GG For General Usage

The approach of the polio season raises questions in the minds of many parents. Specifically their questions often involve gamma globulin. How successful has it proved to be and how will it be used this year?

First of all, last year's experience over the country has shown that giving gamma globulin to children in a family after one member has come down with polio gives no measurable protection. On the other hand if it is given to children one to six weeks before they are exposed, it does give promise of preventing paralysis. Thus the problem is for children to receive the protection gamma globulin affords during the relatively short period just before they come in contact with the disease. How-

ever, knowing when contact may occur is unpredictable.

Thus, to get maximum benefit from the available supply of gamma globulin, its use in Wisconsin this year is restricted to pregnant females and to children under 16 years of age in groups of ten or more in a school, a camp, a neighborhood or a community—groups larger than an individual family. This policy meets national requirements and has the joint approval of the State Medical Society and the state board of health.

The supply of gamma globulin is still not sufficient for general use and it is therefore under the control of the office of defense mobilization. It is furnished by the National Foundation for Infantile Paralysis and the American Red Cross. It is available on request to physicians through the state board of health—for

groups of ten or more children. And, only one dose can be given to any one qualified person during the season.

Since Wisconsin's period of highest risk usually gets underway about the middle of July, if gamma globulin is to be used, it should be given early in July. It should be remembered that this protection lasts for only four to six weeks beginning one week after injection.

Lastly, gamma globulin will not be available for polio prevention in the eight counties taking part in the vaccine field trials since its use would likely interfere with testing the effectiveness of the vaccine.

Farm Field Day at the University of Wisconsin will be held this year at the university electric research farm southwest of Madison. Dates—June 15 and 16.

MINNESOTA ALWAYS HAS LOTS OF GOOD NEIGHBORS

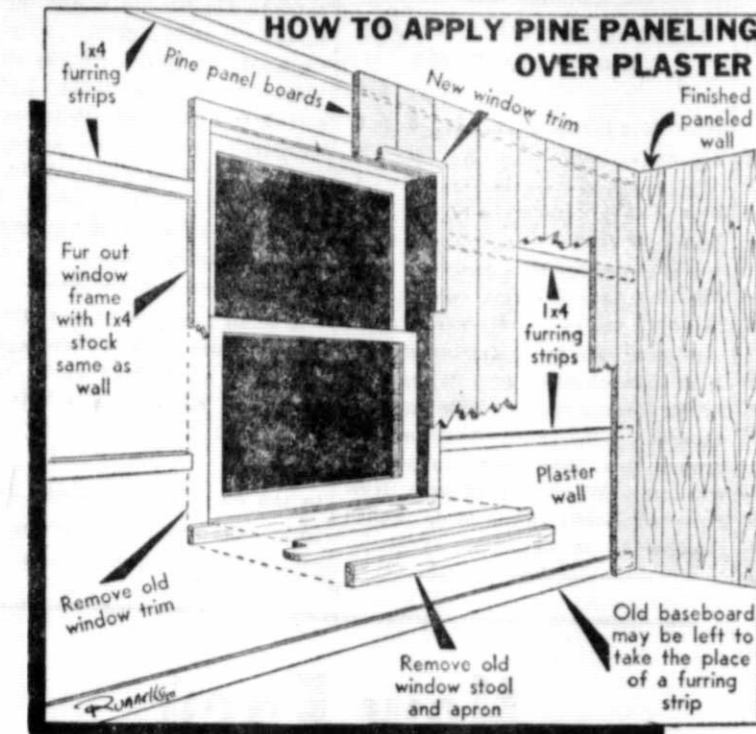

Thirteen neighbors brought good luck to Warren Johnson after his serious illness at Round Lake, when they processed 30 acres of oats and a field of flax for him. . . . Lawrence Koolstra, near Worthington, was ill when the spring work should have been under way, so his neighbors put in 90 acres of small grain for him. . . . Rudy Wenstrom, St. James, has been hospitalized, so 11 of his neighbors got a big field all ready for corn planting. . . . Richard Godejohn, farmer near Fergus Falls, died in February; in April a score of neighbors did Mrs. Godejohn's plowing and seeding.

Ohio inventor devises a bell to be worn on the Adam's apple to wake up dozing drivers. St. Peter has been using a harp.

AND SO OUR HAPPY HEROINE SAILS FORTH INTO A NEW CHAPTER OF HER LIFE!

APPLY PINE PANELING
You can modernize your home by covering one or more of the present plastered walls with pine paneling.

It will be necessary to use horizontal furring strips for nailing the paneling. Use 1"x2" white pine. It will be necessary to use four strips as illustrated.

Remove all inside trim, including window stool and apron.

One method is to use furring strips on the window as illustrated. This exposed wood, as well as the edges of the paneling will have to be finished the same as the paneling.

If the old trim was painted, you may want to use new trim. Or you may use paint remover to remove the paint, and sand the surface to a natural finish.

SUGGESTION: While you have the trim removed, you can check insulation and caulking. Fill all spaces with caulking or insulation.

Get The Most Use Of Your Refrigerator

Are you getting the best service possible from your refrigerator? Do you know the three important jobs it can do for you? Besides its function as a storage place, your refrigerator plays an important role in meal planning and preparation, says Ruth F. Pomeroy, Homemaking Editor of Redbook Magazine. In a recent issue, she tells you how to increase the efficiency of your refrigerator by proper cleaning.

"A clean refrigerator is an efficient one; here are some tips on how to do it:

"1. If defrosting on your refrigerator is not automatic, do it manually when frost on the coils is 1/4-inch thick. Remove trays. Turn control to OFF. Set a pan of hot water in tray shelf to speed thawing.

"2. Clean refrigerator while it's defrosting (or every 10 days if defrosting is automatic). Remove food. Wash interior and shelves with mild baking soda and water solution. Rinse with clean water; wipe dry.

"3. Most manufacturers make a cleaner and wax for specific finishes. Use them or wash the exterior with warm soapy water. Rinse, dry and cover with a thin coating of clear wax. Never use abrasives."

"All modern refrigerators are designed to do at least these three important jobs for you—storage, meal planning and food preparation.

"Storage: Because the temperature is nearly the same throughout a modern refrigerator, where-to-store is a matter of convenience and organization. There are general guides for storage: Milk: Wash bottles; place in refrigerator immediately upon delivery. Butter and Cheese: Store in special compartments, covered dish or closely wrapped with foil. Eggs: Store whole eggs unwashed; they have a natural protective coating. Store egg yolks covered with water in a covered jar. Fresh meats and poultry: Remove store wrappings. Cover loosely with clean waxed paper. Fresh fish: Remove store wrappings; wrap tightly in foil to prevent odors. Use within two days or freeze for longer storage.

"Fruits and vegetables with heavy skins: Wash; store on any convenient shelf. Crisp and leafy vegetables: Trim and wash in cold water. Dry thoroughly. Store in vegetable drawer. Leftovers: Store in covered containers or freeze for later use. Frozen food: Store in freezer chest in combination model or in the ice-cube compartment of refrigerator.

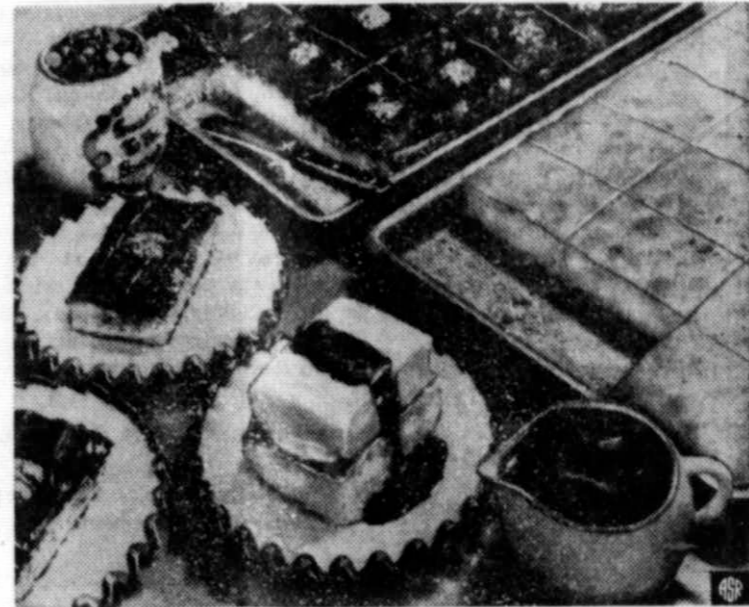

"Meal planning: With the increased variety of frozen foods, a refrigerator-freezer will hold many days' planned menus plus extras for convenient emergency meals.

"Food preparation: From soup to dessert, your refrigerator is a handy center of preparation. The foods you fix there are all prepared in advance.

Plan your vacation now and be sure you take it this summer.

Recipe Sings Semi-Sweet Duet In Frosting and Sauce

Want a wonderful chocolate frosting? Want a perfect chocolate sauce? Want them both in quick and easy style? Then you need only one recipe, our Semi-Sweet Chocolate Duet. With this recipe, you can make delicious frosting that has delicate, semi-sweet chocolate flavor. For a perfect chocolate sauce, just add more milk to the same basic recipe. It's that simple to complete either of the desserts in the photo, the chocolate-frosted sheet cake, or the cake à la mode with chocolate sauce.

Semi-Sweet Chocolate for Quick Desserts

Semi-sweet chocolate morsels are just right for quick chocolate cookery. This is the same chocolate that is used to stud Chocolate Crunch Cookies with morsels of candy-like chocolate flavor. As semi-sweet chocolate is already in small pieces, it melts readily for speedy chocolate cookery. This chocolate has such perfect, candy-like flavor that it requires few ingredients to make a frosting or sauce. In fact, you can't leave semi-sweet chocolate morsels around, or they'll be eaten as candy before you get a chance to use them in cookery. So hide a package, and make this delicious recipe.

Semi-Sweet Chocolate Duet (Frosting or Sauce)

- 1 package (1 cup) semi-sweet chocolate morsels
- 2 tablespoons butter or margarine
- 1 cup sifted confectioners' sugar
- 1 teaspoon vanilla
- 3 to 4 tablespoons hot milk, for frosting
- 1/2 cup hot milk, for sauce

In top of double boiler put semi-sweet chocolate morsels and butter. Heat until melted and mix until smooth. Remove from heat. For frosting, add milk and sugar alternately, adding enough milk to make a spreadable consistency. Stir in vanilla. For sauce, increase milk to 1/2 cup.

YIELD: Frosting for top of 10 x 15 inch cake, or 1 1/2 cups chocolate sauce.

Since strawberry time has arrived we may regard the dessert problem as settled. When buying strawberries be sure they are a bright red color all over, keep them in a cool place and handle them as little as possible until time to serve them.

Strawberry Floating Island

- 4 eggs
 - 2-3 cup sugar
 - 1 teaspoon flour
 - 2 1/2 cups scalded milk
 - 1-4 teaspoon salt
 - 2 teaspoons vanilla
 - 1 cup washed and hulled strawberries
- Combine eggs, sugar, and flour. Gradually stir in scalded milk. Cook, stirring constantly, over hot water, until mixture coats spoon. Remove from heat immediately. Cool slightly. Add salt and vanilla. Chill. Pour over strawberries in a bowl. Top with meringues.

Force strawberries through a coarse sieve. Add sugar and corn syrup. Stir until sugar is dissolved. Pour into an oiled 1-2 quart melon mold. Freeze until edges are firm. Soften gelatin in the cold water. Dissolve over hot water. Cool. Combine remaining ingredients. Add gelatin. Mix well. Spoon over partially frozen berries. Freeze until firm. Invert on platter to serve. Garnish with whole berries and mint leaves.

Strawberry Milk Mallobet

- 1-2 lb. marshmallows
 - 2 cups milk chilled
 - 1 1/2 cups crushed strawberries
 - 2 tablespoons lemon juice
- Heat marshmallows and 2 tablespoons of milk slowly, folding over and over until marshmallows are about half melted. Remove from stove and continue folding until mixture is smooth and spongy. Cool to lukewarm, then add rest of milk, strawberries and lemon juice. Pour into freezing tray and freeze, stirring several times while freezing.

Minted Cream with Strawberries

- 1 cup cream whipped
 - 1-4 cup crushed fondant mints
 - 3 cups strawberries
 - Green vegetable coloring
- Whip cream until custard-like consistency, fold in the mints, tint a delicate green. Freeze until firm. Wash and hull the strawberries. Arrange in serving dish. Pile frozen mint cream in the center. Garnish with additional berries, whole and sliced.

Strawberry Sauce

- 1 1/2 cups strawberries washed, hulled and cut in pieces
 - 3 tablespoons sugar
 - 2 teaspoons cornstarch
 - 3-4 cup canned pineapple juice
 - Salt
 - 1-2 cup diced canned pineapple
- Mix cornstarch and a little pineapple juice to a paste. Add remaining pineapple juice and a little salt. Cook stirring constantly until thickened. Add diced pineapple and strawberries. If desired add more sugar.

STATE OF WISCONSIN COUNTY COURT, WASHINGTON COUNTY
NOTICE OF APPLICATION FOR PROBATE OF WILL—TAKING PROOFS OF HEIRSHIP—AND TO CREDITORS
 IN THE MATTER OF THE ESTATE OF William A. Backhaus, Deceased.
 Notice is hereby given that at a term of said Court to be held on Tuesday, the 22nd day of June, 1954, at 10 o'clock in the forenoon of said day, at the Court House in the city of West Bend, in said County, there will be heard and considered:
 The application of John Techtman for the probate of the Will of William A. Backhaus, deceased, dated the 26th day of November, 1952, and for the appointment of an executor of the estate of said Wil-

iam A. Backhaus, deceased, late of the village of Kewaskum, in said County, and for taking proofs of who are the heirs of said decedent; Notice is further given that all claims against the said William A. Backhaus, deceased, late of the Village of Kewaskum, in Washington County, Wisconsin, must be presented to said County Court at West Bend, in said County, on or before the 24th day of August, 1954, or be barred; and that all such claims and demands will be examined and adjusted at a term of said Court to be held at the Court House in the City of West Bend, in said County, on Tuesday, the 31st day of August, 1954, at 10 o'clock in the forenoon of said day.
 Dated May 25th, 1954.
 By Order of the Court,
 Milton L. Melster, Judge.

LADIES' AID VISITS GOODWILL INDUSTRIES
 On June 9, the Ladies' Aid of David Star Evangelical Lutheran church of Jackson, visited the Milwaukee Goodwill Industries, Inc., 2102 W. Pierce street, Milwaukee. Arrangements were made by Program Chairman Mrs. Henry Frank, Jackson. Officers of the group are: Mrs. Joe Rusch, president; Mrs. Rudolph Zarling, secretary, both of Jackson; Mrs. Paul Bontz, vice-president, and Mrs. Herb Hafemeister, treasurer of Cedarburg. Also in attendance were: Rev. and Mrs. Paul Grisechen, pastor of David Star Evangelical Lutheran church.
 They also learned that the Goodwill truck visits Jackson, Grafton, Cedarburg, Thiensville, Kewaskum and West Bend each month. Anyone can contribute to this worthy program by calling or writing to Milwaukee Goodwill

Industries, 2102 West Pierce street, Milwaukee 46, Wisconsin. Phone: Mitchell 5-1590.

INFANT IS BAPTIZED
 Mr. and Mrs. Wm. Volm entertained Sunday in honor of their infant granddaughter who was baptized at Holy Angels church, West Bend. The little girl received the name of Christine Ann Margaret. Sponsors were the aunt and uncle, Miss Linda Volm and Robert Volm of Kewaskum. Christine is the daughter of Mr. and Mrs. Norman Arbogast.

A small boy is a person who will spend hours in a swimming pool, and then argue because he has to spend ten minutes in a bathtub.—Homer Phillips

Look AUCTION Look
June 27th, at 2:30 P. M.
Lawrence Wallenfelsz Property

Located 1/4 mile South of Kewaskum, and 6 miles North of West Bend, on Highway 45 & 55. Consists of a beautiful 1 1/2 story Cape Cod, 4 room home, with bath. Has large walk-in cooler in basement, with full basement, hot and cold running water. A large block building 30x50 with another extension of a 10x10 room; building now used as an electric appliance store and television service room, could be converted into most any kind of business, to suit your business. About 1 acre of land more or less, and running 204 feet North and South on Highway 45 & 55 and 184.50 feet on County Trunk H. These buildings are heated by one hot water system, with automatic oil burner. A new septic tank has just recently been installed. Dug well, with ample supply of water. A beautiful fireplace has been built on lawn. Has about \$5,000.00 of stock on hand, with 1/2 ton Chevrolet pick-up truck. All new ladders, all tools and equipment to go

with stock, including 14 cedar electric light poles. Stock can be bought with or without building. Reason for selling, owner has been advised by his Dr. to sell all, and must go to a warmer climate, and to do so soon.
 This is a wonderful opportunity for anyone who wants to come near a good going town, and cheap taxes, and a rich farm community, whether he be in business now, or wants to start a business himself. Up to now the owner has a very good contracting business and has run his shop with all electric appliances and selling televisions and given television service.
 Terms of sale—\$2,500.00 down on date of sale and the balance on delivery of deed.
 This place can be seen by appointment by calling Kewaskum 24W. Col. Lester Dreher, Auctioneer.
 Harry H. Maaske, Real Estate Broker, Kewaskum, Wisconsin. 6-18-2t

FOR THE BEST DAD

The Best of the Better Beer

West Bend Lithia Co.

"we've talked long enough, Bill"

This little thrush isn't giving her Galahad the brush. She's a teen who's keen about being a good party line neighbor... and she knows how.

She's hep to the fact other folks would like to talk, too. So she spaces her calls and makes them reasonably brief.

If other teens... and their elders, too... would follow her example, everyone would enjoy faster, better service straight down the party line. Telephone courtesy is as important as any other kind.

General Telephone Company of Wisconsin

A Member of One of the Great Telephone Systems Serving America.

Your neighbor's call may be even more pressing. Give it a chance to get through.

New Easy "Pay as you go" plan for Electric Wiring

Pay for your wiring as you go electric! As little as \$1.00 a month

Here's a new easy way to get the wiring installation you need to go electric for cooking, water heating, clothes drying, air conditioning.

Pay for the wiring installation in small monthly payments on your electric bill.

Special limited time offer for our residential and rural customers

- No down payment.
- 36 months to pay.
- Minimum payment \$1.00 a month.

In many homes very little additional wiring is needed to enjoy the use of these electric appliances.

Get the facts. Call on your electrical contractor, dealer or The Electric Company for a free estimate.

Find out for how little you can be modern — live electrically.

For all the facts, see:

"MARTINIZING" IS MORE THAN DRY CLEANING

Teacup Topics

By Betty Ann

Editor, The Milwaukee Journal
Woman's Pages

Giant white collars ride at the head of the fashion parade this spring. And following them this summer, we'll see many big, breezy berthas.

Popular as these neckline fashions are, however, they are not for you if you are short. Remember, a style is fashionable only if it looks well on the wearer, says Betty Ann. The well-groomed woman wears the latest not merely because it is new but because it becomes her.

So, if you're less than medium height, avoid bulk, in accessories as well as in skirt and bodice. Wide lines will make you look shorter, while narrow, vertical lines will tend to add height.

Heavy hips is a common figure fault among women in this country. And it's often pointed up by narrow shoulders, creating what has been termed the pear shape.

If you are similarly built, consider this factor as well as your short stature in selecting clothes. To make your shoulders more prominent, wear standup collars, but have your shoulders only slightly padded.

Concentrate on playing down your hips. Never wear a suit jacket that's cut across the heaviest part of your hips. Pass by dresses that have draping and large pockets over the hips. A skirt that's slightly flared at the hemline does the best job of giving a slimmer look.

As teen agers probably know, the trend away from last year's disheveled Italian cut is continuing very strong. Emphasis now is on the neat, sleek, very feminine hair-do.

For those whose hair tends to fly away at the slightest whiff, it is quite a problem to maintain a perfectly sleek style. But with patience, you can train your hair in neatness.

Be certain to use a shampoo that is right for your kind of hair. And, should you get a permanent, have one that allows for your hair's fine quality.

For a really perfect appearance, use one of the many liquid sprays now available. When applied carefully, any of these should give the extra control you need without giving your hair that artificial, lacquered look.

To avoid this, spray the preparation onto your hair brush and then brush it through thoroughly. Do this two or three times so that the spray is distributed evenly. Then you should have no trouble combing your hair into place, and keeping it there.

Raspberry Whip Cake

One package white cake mix or your favorite recipe; 1/4 cup sugar; 1 cup fresh red raspberries; 1/4 pound (16) marshmallows; 1/4 cup lemon juice, fresh, frozen or canned; 1 cup heavy cream, whipped.

Prepare a package of white cake mix or your own cake recipe as directed. Bake in paper lined 13 by 9 1/2 by 2 inch pan or make into cupcakes. Add sugar to raspberries; let stand 30 minutes. Place marshmallows and lemon juice over hot water; heat until marshmallows just melt. Add raspberries and beat well. Cool. Fold in whipped cream. Spread on cooled cake. Freeze. Then wrap and return to freezer. To serve: Let thaw about 15 minutes. Cut and serve.

The luscious dessert recommended for a bridge-luncheon was choco-lemon ice cream pie served with black tea.

Chocolate Whirls

Two cups cookie mix; 1 ounce (1 square) unsweetened chocolate, melted; 1 egg, 1 teaspoon vanilla.

Mix together all ingredients thoroughly. Shape dough into long rolls and wrap in waxed paper. Chill several hours. Slice one-fourth inch thick and place on greased cookie sheets. Bake in a moderate oven, 350 degrees, 10 to 12 minutes. Makes two and one-half dozen cookies.

Grated orange rind gives an interesting flavor and chopped walnuts an interesting texture to these orange tumbles.

In pressing corduroy, iron on the wrong side of the fabric. You'll protect the pile if you put a turkish towel on the ironing board, under the material.

When buying meat with bone, order one pound for two servings. A pound of lean meat without bone will make four servings.

When a clove of garlic is added to french dressing, the garlic should be removed after the dressing has stood for several hours.

About Your Home

By FRANCES DELL

The playhouse—not exclusively for children—is a new kind of American luxury. Usually, this new type of house places great emphasis on entertaining.

Some playhouses are large enough to handle fifty to sixty people for a drop-in and have several bedrooms to house the overnight guests. However, the ownership of such houses is limited to a small, affluent group.

The type playhouse favored for all over the country is a combination detached den and summer house. It is usually located far enough away from the main living quarters to afford a bit more privacy for the family.

Such houses should be equipped with a stove and icebox to really utilize its possibilities. You can use it for informal dinners, dances or to have a few friends in for a drink.

The children of the family will enjoy it for their parties—especially teenagers. They like to get away from the grownups and what better place to have them than in your own backyard where you can, at least, keep a watchful eye on them.

If you are thinking of adding a den to your home, you might give some thought to a playhouse, instead.

The Old Salve

Attractive Young Miss: "I'm looking for something particularly nice for a young man."
Salesman: "Have you looked in the mirror?"

Larger farm sheep flocks may be a partial answer to lower dairy prices. Wool prices are on the way up and lamb prices are remaining steady.

Cleanser Has Own Elbow Grease

BY EDNA MILES

THE household cleaning problems that every homemaker must tackle daily are one by one being reduced to nothingness by science.

True, we haven't yet reached the point where we can loll back and read the paper while dinner cooks itself and the dishes wash themselves, but we're approaching that point.

Newest of the cleaners for porcelain is a nonabrasive liquid cleaner that will, the makers claim, get sink, bathtub or wash basin sparkling in no time. It's handled with a mere wet-and-wipe application, with either sponge or cloth.

Every housewife knows that cleaning porcelain can be a difficult job. It has a fine glaze and a tough durable surface but it can be injured by scratches, hair tints, clothes dyes, stains, or rust. And sometimes extra elbow grease doesn't achieve the desired cleansing results.

This new liquid cleaner works effectively without hard rubbing or scrubbing, the maker claims, and the porcelain is left gleaming. Further, the manufacturer claims this new product is odorless and cannot make the hands red or rough.

No rub-a-dub-dub with this new liquid porcelain cleanser, according to its manufacturer. It's said to be easy on the hands.

Different Reactions

The Professor—When I get close to nature it makes me feel like a little grub.

The Other—A little? It makes me feel like a lot. I eat like a horse when I'm in the country.

Cause for Pause

"How do you cure your husband from staying late at the club?"

"When he came in late one night, I called out, 'Is that you, Jim?' and my husband's name is Frank."

Those who make promises and keep them are worth watching.

The SNAPSHOT GUILD

Wedding pictures are so important that the more you take, the greater will be the pleasure gained from looking at them through the years.

You Can't Have Too Many

We doubt that there is such a thing as a wedding without pictures. It is one of the times when there just can't be too many.

Practically every bride engages a professional photographer as much as a matter of course as she orders her gown and consults with a baker about the wedding cake.

But in addition to the pictures he will take on the wedding day—covering the ceremony and reception—there are the personal snapshots made by friends and relatives of the young couple.

Guests with cameras are very usual at weddings these days, particularly at receptions. Sometimes they take pictures in the church, too, although in some cases it is against the rules. It is a good idea to check first.

But at the wedding reception,

the more flash bulbs the better. And, don't neglect to send the bride and groom prints of the snapshots or duplicates of the color slides you make. The fact that they have the professional photographer's beautiful album won't make them one bit less appreciative of your efforts. It is a time when there just can't be too many pictures.

Of course, much of the excitement of a wedding is in the days of preparation... in the arrival of the gifts... in the parties. Events of these days should be recorded in snapshots, too. Pictures of the bride as she opens gifts, both at home and at the showers will make an interesting addition to the pictures taken on the wedding day.

—John Van Guilder

Ticklers

By George

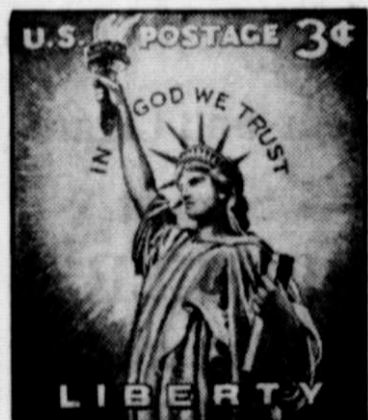

"He's got a better spot remover in his wallet. Last week he gave me a buck to take 'Spots' away."

Around the World In 91 Hours

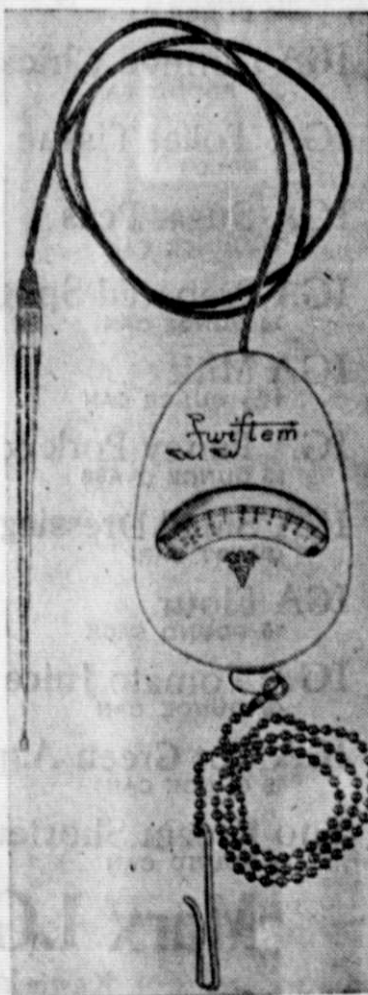

Pamela Martin, 23-year-old advertising artist, recently flew around the world in ninety hours and fifty-nine minutes. Pamela is not a pilot, nor was she flying in a private plane. She covered the route on scheduled airliners. It is a new record for a scheduled-airliner around the world trip, breaking the old record of Major Horace Boren by some eight or nine hours. Pamela boarded a plane in Chicago on a Friday and circled the globe by early Tuesday morning.

She called the trip the nicest week end trip she ever experienced. The trip was the idea of a travel agency, which footed the bill, and cost about \$1700 in fares.

Prospects for round-the-trip flights are even better than Pamela's trip indicates. The air lines have agreed to cut costs considerably from the \$1700 average and schedules will also be increased as faster air liners go into operation. It is possible that in a year or two U. S. travelers will be able to circle the world in a week end at a cost of just over \$1,000.

"LIBERTY" MAIL—The Statue of Liberty, imprinted in purple, will be featured on the second of the new "ordinary" stamp series to be released. First-day covers of the 3-cent issue will be canceled at Albany, N. Y., June 24.

ELECTRONIC thermometer developed by Army dentist is easy to read, won't break and gives accurate reading in five seconds.

The Latest In Train Wrecks

Down in Salta Province, Argentina, a large freight train was recently immobilized by a curious obstruction. It seems that locusts were swarming in that area and, being in the larvae stage, covered many miles of railway track.

When the freight train reached the area, it crushed much larvae, making the rails become so slippery the freight could not proceed, the engine's wheels slipping when power was applied.

A rescue was then in order and the stranded train telegraphed for aid. A rescue train was dispatched, and proceeded to the scene. Just as it arrived, and everything appeared well in hand, the engineer of the rescue train applied his brakes—but his train refused to stop and slid on the "greased" rails. The result, a train wreck.

The result was \$40,000 worth of damage to both trains. It is estimated that the rescue train slid hundreds of feet into the stalled train, all of which reminds us of the recent story about the lady who was asked to give a stranded motorist a push. The motorist informed her that his car would not start until she got up to 30 miles an hour, since it had an automatic drive.

We imagine the engineer of the stranded train, viewing the rescue train sliding into him, felt just about like the motorist who watched the lady back off, proceeded to get up to a speed of thirty miles an hour and crash into the rear of his car. There are all sort of new ways to do things, it seems.

Pasture yields can be doubled and even tripled by applying 500 to 600 pounds of complete fertilizer to an acre, says C. J. Chapman, University of Wisconsin soils specialist.

Barring a serious drought or business recession, prices for Wisconsin meat products will be stable in 1954, University of Wisconsin farm economists believe.

A good church is that way because those running it are on the job.

bays or harbors. The National Wildlife Federation recognizes in this bird an element of nature worthy of protection for its beauty if for nothing else.

—E. Laurence Palmer

Bible Comment:

Godliness Must Be a Way of Daily Life

WHEN we speak of a man as being "a godly man," what do we mean? We are sure that he is essentially a reverent man, with a true sense of holiness.

He is probably a good churchman, who manifests good moral living.

But is that all there is to godliness? We know from very high authority that it is not.

We have the story of the rich young man, who came to Jesus, inquiring how he might inherit eternal life. He was probably more correct in his way of life than even most men of conventional godliness.

Yet he lacked the one most essential thing.

"Where your treasure is," said Jesus, "there will your heart be also."

The young man's supreme attachment was to his great possessions, which in his ultimate decision he chose rather than companionship with Jesus, and the possibility of becoming the twelfth Apostle, when Judas Iscariot failed.

But godliness consists in what comes after acceptance of God as the treasure of the heart.

When one reads with insight the account of the early Christian church, in the New Testament, and especially in the Epistles, an apparent and surprising discovery is that so many accepted God and the Christian way, without any clear comprehension of all that it meant.

For those of that early Christian time, and for loveless, professing Christians of today, the beloved Apostle leaves no doubt about godliness in daily life.

His plain, strong words are: "If a man love not his brother whom he hath seen, how can he love God whom he has not seen?" "If a man say, 'I love God,' and hateth his brother, he is a liar; for he that hateth not his brother whom he hath seen, how can he love God whom he has not seen?"

Working On One

Mother (to little girl who had been sent to the hen house for eggs): "Well, dear, were there no eggs?"

Little Girl: "No, mummie, only the one the hen uses for a pattern."

Keep pared fruit bright in color by pouring a little lemon juice over it.

SPORTS AFIELD

By Ted Kesting

Once an angler passes the stage of borrowed and rented craft and gets ready to buy his own, he finds the investment required is considerably more than that paid for all his tackle. This doesn't mean outboard boating is expensive. Far from it. A properly selected outfit can serve well many years, with low upkeep and running expense. And you can use it for many other things besides fishing.

But the key words in the above are "properly selected." You'll find outboard boats of various metals, various woods, various plastics. They come in almost all imaginable sizes and shapes. They come finished and unfinished. And motors vary from under 2 hp to almost 30 times that power.

No wonder you have trouble trying to decide on the right boat! Still, there's probably a definite answer for you. The great number of sizes, styles and sorts mean there is probably a good fit for your particular or peculiar situation.

There is a fundamental rule of procedure as outlined by Willard Crandall, boats and motors editor of Sports Afeld magazine: Buy your boat to fit the waterway it will be used on, and the load it will carry. Then buy the motor to fit the boat to insure pleasant and safe boating.

These things seem obvious, but few sportsmen go about buying a boat this way. They make the decision chiefly because they think the construction will take little upkeep, because they like the price, because it will fit their storage place or the trailer they have or want, because it's lighter than their neighbors' boats, or fast, or because it's the easiest to get when they decide overnight they're not going to be with-

out a boat any longer. Your boat must fit the largest waterway it will ever go on, and the largest load—not just the average.

Hard and fast suggestions are sometimes inaccurate, but it's a safe bet that you shouldn't put more than three aboard even the widest of open 12-footers, you shouldn't go out in them on any but the smallest lakes, and you should keep away from places where you'll meet wakes from big craft. The normal 14-foot outboards should be restricted to lakes only somewhat larger and to loads of not over four people. For the 20-and-30-mile bays and inland lakes, pick wide high-sided boats in the 16-foot or over class.

WELL STATED

A far Western newspaper heads the list of births, marriages, and deaths briefly and to the point. "Hatched, Matched and Dispatched."

Israel, which recently celebrated the sixth anniversary of its founding, is the first Jewish state to exist in the last 19 centuries.

Sound waves may someday be used to kill insects, according to entomologists now working on the problem. Chief difficulty has been the ability to generate sound waves of the exact frequency desired.

Construction of the St. Lawrence Seaway, which would allow large ocean-going vessels to enter the Great Lakes, has been under discussion by its advocates for nearly a century.

Samples of soil indicate that dust from Texas was picked up by storm winds and deposited over New York state during snowstorms last winter.

FUR HUNTERS STILL TRAP IN "WILDS" NEAR CITIES

This is the season when lonely trappers patrol winterbound woods and marshes for fur, the lure that opened much of wilderness America.

Not all fur comes from remote regions, however. Fur animals still roam long-settled Eastern areas of the United States. They are caught even on the fringes of big cities, the National Geographic Society says.

Part-time trappers have taken pelts near Washington, Philadelphia, New York, and Boston. Rhode Island annually reports its fur catch. Within sight of Manhattan, opossum, raccoon, skunk, muskrat, and sometimes even ermine and mink are trapped.

In his recent book, "Unseen Life of New York," naturalist William Beebe tells of trapping 11 magnificent mink not many years ago on the Bronx River inside New York city limits. He traded them to a Fifth Avenue furrier for dressed furs.

Steam Heat and High Style
Fur is a far bigger business today than it ever was in the explorer-trader era. When steam heat removed heavy woolen underclothes from midlady's wardrobe, requiring warmer outdoor wear, the fur trade boomed. High fashion and the practical were wed.

Annual fur sales reached half a billion dollars in the 1920's and again after World War II. In the last few years, however, they have slipped back below \$300,000,000.

Any such figure means millions of individual furs. Between a third and a half of the pelts come from within the United States. Others are imported from Canada, Alaska, Australia, Russia, Japan, Norway, Afghanistan, Argentina, and Southwest Africa.

Most of them pass through a hectic five-block district bounding Seventh Avenue in New York, the fur capital of the nation and even of the world. About 90 per cent of all fur coats sold in the United States are made there.

Fur grown in captivity on "fur farms" is the chief innovation since the time John Jacob Astor built his fabulous fortune. Yet even today over half of all American fur still comes from the wild.

Men who work as fishing guides, mechanics, or taxi drivers in summer don snowshoes in winter to run traplines in the East's Adirondacks and the high forests of the Rockies. French-speaking trappers paddle pirogues through backwater bayous of Louisiana in search of muskrat, one of the staples of the fur industry.

Farming for Fur
Fur farming has grown and multiplied over the past four decades until today 6,000-odd farms from Maine to California sell furs. Early fox raisers thrived on the craze for silver shades and rare mutations. Now mink has far surpassed fox. In 1953 fur farms marketed 2,500,000 mink skins, averaging \$20 each, against less than 10,000 fox pelts.

Most rabbit fur, widely used for trimmings and less expensive coats, comes from Australia. In this country it is more profitable to grow rabbits for meat.

But this year a fuzzy rodent called chinchilla will come into its own among American furs. The first few animals were carefully transported from South America to California in 1923. Now chinchillas are raised by thousands of U. S. "ranchers"—many in city cellars and backyards. To date relatively few pelts have reached market, for a pair of top animals still brings about \$1,600 as breeding stock.

Late this spring in New York, however, the first large auction sale of domestic chinchilla fur will take place. At big chinchilla shows this winter, breeders were talking as enthusiastically as the daring traders who first penetrated an unknown America for its fur.

Tree Is Planted For Usefulness

There are four general types of usefulness for trees planted on the home property. According to the National Arborist Association these are as follows:

1. A framing tree, planted to provide natural setting, thus improving the looks of the residence.
2. Shade tree, planted particularly for protection against summer heat. On hot days the temperature in the shade may be many degrees cooler than in the sun, depending on the heat of the sun. Differences in temperature have been measured from five to as much as forty degrees.

3. Ornamental trees, planted for beauty of form, leaf, fruit, or flower. Edible fruits of course are extremely important reasons for certain trees.

4. For screening off undesirable views, reduction of traffic noises, trees are widely planted. The location of framing trees to set off the house is important. Generally speaking trees or tree groups will look best near the corners of a home, at a 45-degree angle from either wall. At the west corners of the house, the trees will shade the home from the most direct rays of the sun against the house during hot, summer afternoons.

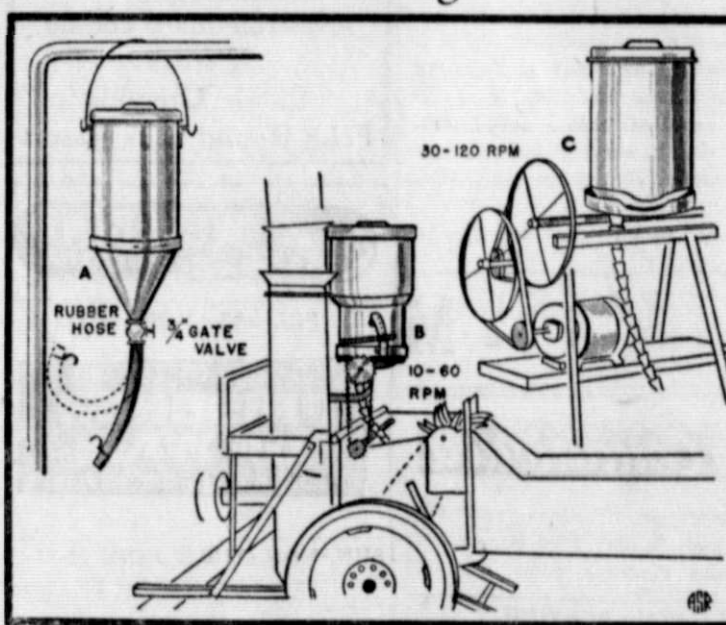

Ornamental trees are planted primarily for beauty. Their flowers and fruits add a distinctive look, making a fairland of the home property during blossoming time.

With respect to shade trees, we might take a lesson from our pet animals. A dog, for instance, will seek out shady spots in summer and warm sunny spots in winter. Deciduous trees will provide comfort and coolness in the summer, but let the sun shine through in winter. On the other hand coniferous evergreens can be planted as windbreaks against severe winter winds. An evergreen tree will serve as a windbreak for a distance of ten times its height. Thus a row of trees 40 feet high will moderate the wind up to 400 feet. The closer to the windbreak, however, the more the wind will be moderated. Tests by the U. S. Department of Agriculture have shown that a properly placed windbreak has saved as much as 22 per cent of the fuel needed to heat one house by comparison with another identical house without a windbreak.

"Please Make It Work for Other Kids"

For A Grass Silage 'Insurance'

Farmers planning to preserve grass silage with sodium meta-bisulfite this year will find a variety of means available for efficiently and economically using this low cost "insurance" in putting up their winter's feed.

If the volume of the crop being put up does not warrant investment in one of the several available commercial models, efficient applicators can be rigged up from parts probably already on most farms. Sketches above show three types of applicators. The simple and inexpensive gravity feed (A) can continuously apply material at blower or forage harvester. The star wheel type hopper (B) hooked to the blower provides continuous force feed. A revolving pan type hopper (C) powered with electric motor and speed reduction system also works well.

The method of preserving grass silage with sodium meta-bisulfite has grown rapidly. It was first tested on a handful of farms in 1952. A survey of results accomplished in several states during 1953 shows almost universal success. Approval has been given the practice by the U.S.D.A., and by state agricultural experiment services in more than 12 states, including all of the major grass silage areas.

Much of the test work at various state locations has been carried out with supplies of the white powdery chemical given by Monsanto Chemical Company, St. Louis, long-time manufacturer of sodium meta-bisulfite. The chemical has been used in industry for many years. Although most of the extension services agree that grass silage

Behind The Scenes In American Business

By Reynolds Knight

NEW YORK—It's just a matter of days now until the combines will move into winter wheat fields at the southern edge of the nation's wheat belt. In spite of all the stories of drought, and the restrictions upon planting, wheat promises to overflow storage space quickly.

Federal loans are based upon wheat in approved storage. While some grain is piled on the ground in the Southwest in harvest-time every year, this has always been more a transport than a storage problem. This year there may be nowhere to move the wheat, even after cars are available.

In pre-control years, cost of storage automatically hammered down prices until the wheat could move overseas. Liverpool would always buy wheat at some price—often not a remunerative one to the grower. Now there's a wheat agreement which tries to parcel up the world market among signatory nations, so no more than 200 million bushels of wheat is likely to move abroad during the crop year.

Carry-over of wheat on June 1 will probably be 900 million bushels, just about twice its normal size. Any Agriculture officials with worrying time left over from that problem are probably worrying about what happens if all the elevators are filled with wheat and then we have a record corn crop too.

REAL WAR ON 'PIRATES'—One major company which doesn't give lip service to legal price maintenance then look the other way while its merchandise gets into the hands of discount sellers is W. A. Sheaffer Pen Co. Between January 1 and April 30 of this year Sheaffer's spent \$384,000 buying back its pens, ball-points and pencils that somehow got into price cutters' hands.

"Price pirates" injure legitimate merchants and damage the established retail system of distribution, Sheaffer's contends. Discount houses seldom advertise, and they provide little customer service. They capitalize on manufacturers' and merchants' advertising and services, which give national brand names their recognition value, by selling nationally branded products below Fair Trade prices.

Vigilance by salesmen and the use of detective agencies and shopping service have helped Sheaffer discover 300 outlets which handed on merchandise to the price pirates, and eliminate them. Even so, Sheaffer's sales for the first four months of 1954 were 30 per cent more than in the like period of 1953.

THINGS TO COME—You may now buy a cigarette lighter and flashlight in one case. The flashlight uses a wet cell battery for uniform brilliance. . . . A new hearing aid is so powerful its user hears things inaudible to his normal-hearing neighbors. . . . A tape recorder can be attached to a furnace to tell how many hours a day it is operated. . . . A hardwood veneer with a cloth backing is on sale. You apply it like wallpaper. . . . A propane-fueled blow torch eliminates time spent waiting for the tip to warm up, giving a hot flame instantly. . . .

YAMS OF QUALITY—The yam, one of the Southland's traditional crops, has still some secrets of yield and good eating to impart. This has been demonstrated, according to a recent article in County Agent and Voc-Ag Teacher Magazine, in a program sponsored by county agents and vocational agriculture teachers and A & P Food Stores in South Carolina and Louisiana.

Four-H Club boys entered in the program produced an average of more than 300 bushels of top-grade sweet potatoes per acre, compared with average commercial yields in the two states of between 80 and 100 bushels. One youngster cleared a profit of \$995.38 on his contest acre, far in excess of the average per-acre net by adult commercial growers.

The magazine points out that the 4-H Club growers use ordinary commercial seed stock to produce their high quality yams. Part of the contest program emphasizes the merchandising aspects of yam farming. In this phase the young growers follow their product to market in the food chain's outlets in several metropolitan areas.

BITS O' BUSINESS—Car pools and more rail commuting greatly lessened the impact of Pittsburgh's trolley strike. . . . A Southeastern coop wants to move from electricity into the natural gas business. . . . Automatic cameras snap customers' pictures in a war on bogus check passers. . . . Many European exhibitors have sent their wares to the annual U. S. Machine Tool Exposition.

Ten Word INTELLIGRAM

Check the correct word.

- (Sparkman) (Russell) was Adlai Stevenson's running mate in the 1952 election campaign.
- (Colorado) (Arizona) is the source of the Colorado River.
- (Cambodia) (Viet Nam) (Laos) is the largest Indo-Chinese state.
- France's "West Point" is called (St. Joane) (St. Cyr).
- Sardines (are) (are not) members of the herring family.
- Claustrophobia is a fear of (confinement) (height).
- The new, deadly nerve gas (is) (is not) colorless, odorless and tasteless.
- The (emerald) (topaz) is the birthstone for June.
- When you sautee food, you (fry) (broil) it.
- Fine silver is distinguished by its (engraving) (hallmark).

Check your answers, scoring yourself 10 points for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior, and 90-100, very superior.

Handy Jim's FIX-UP TIPS For farm and Home

How to Plumb Panel

IN PUTTING up panel walls, it's important that the panels are perfectly vertical, or plumb, as the carpenters would say. A plumb,

sometimes also known as a plumb bob, may be purchased at the hardware store, but a fairly accurate one can be made by using a tape rule, according to American Builder.

As illustrated, pull the rule partly out of its case and place a small nail through the rivet hole. Now drive the nail partly into the piece to be plumbed. The tape will hang free and its case will act as a plumb bob. Make the panel parallel with the tape, and it will be plumb.

CHEMICAL GARDENERS—Attendants at an experimental hydroponic farm near San Juan, Puerto Rico, spray seedlings with a nutrient solution. "Chemical" farming may someday help to solve Puerto Rico's agricultural problems. Much of her limited farmland is devoted to export production, and at present she must import much of her food.

PURE MILK PRODUCTS HOLDS WORKSHOP FOR ITS FIELD PERSONNEL
The State Board of Directors of Pure Milk Products Co-operative engaged L. A. Zahradka, a nationally known authority on field service and marketing problems of the dairy industry, to conduct a workshop on the subject.
The purpose was to give the fieldmen all the latest information so they in turn could give better service to Pure Milk Products members in their respective communities.
The workshop was held at the

Retlaw Hotel in Fond du Lac from June 6 to 12 inclusive. The sessions started at 9 a. m. and ended at 9 p. m. with time off for lunch at noon and dinner in the evening.
In addition to Mr. Zahradka, there were several other nationally known figures such as Michael Norton, executive secretary of the National Milk Producers Federation, Washington, D. C.; Herbert Forrest, chief of the dairy division, U. S. Department of Agriculture, Washington, D. C.; A. W. Colbank, Federal Market Administrator Order 51, Chicago; Milo Swanton, executive secretary, Wisconsin Council of Agriculture, also member of President Eisenhower's Agricultural Commission; Gordon Ruchl, manager of the Wisconsin Division of the American Dairy Association; Ken Hart, president of Dari-Cool Corporation.
The workshop was attended by Sam Smith, Jr. and Paul Friedel, Pure Milk Products fieldman, and Thos. J. Hayes, who has charge of membership in this area.

WM. GUENTHER'S BROTHER APPOINTED TO POSITION
Announcement was made in the Milwaukee newspapers Sunday that Orval H. Guenther, 51, of that city, brother of William Guenther of Kewaskum, manager of the Milwaukee county institutions, has been named to fill the newly created position of deputy director of institutions. Guenther is quite well known here.
The appointment became effective Monday. Guenther was the only person to qualify for the post in a recent promotional examination. Two took the test. He is one of three certified public accountants in the county service and has been a Milwaukee county employee since 1935.
Salary range for the new job

will be \$8,538 to \$10,212 a year. Guenther entered the Milwaukee county service May 1, 1935, as an auditor in the office of the county auditor. In February, 1942, he was transferred to the administration office of the institutions to head the accounting division. On Jan. 1, 1953, he was given the title of business manager.
He was born at Campbellsport, Sept. 17, 1903, and attended the schools there. He was graduated from Marquette university in 1925 and held various accounting positions since that time. He lives at 1298 N. 63rd st. with his wife, and their two children.

ALLENTON FIRM BUYS WAGON BOX DIVISION OF PICK INDUSTRIES
John E. Kasten, president of Forage Master Manufacturing Co., Allenton, Wis., has announced that his firm has purchased the wagon box division of Pick Manufacturing company, West Bend, and will manufacture the complete Pick line of self-unloading racks along with the present Forage Master line at its Allenton plant. The change of ownership is effective immediately, Kasten said.
There will be no delay in completing the transfer of operations, according to the announcement, and orders for Pick boxes will be processed immediately. Forage Master was one of the nation's pioneers

in development of self-unloading racks and presently builds a complete range of pusher-type unloaders, cattle feeders and forage feeding racks. Addition of the Pick line of self-unloading racks gives Forage Master a complete coverage in the self-unloading field, Kasten said.
No changes in design, distribution system or price structure on either the Pick or Forage Master line are contemplated at this time, according to Kasten.

IN THE SERVICE
HOWARD HAACK HOME FROM ICELAND FOR FURLOUGH
A/Sc Howard A. Haack, son of Mrs. Ella Haack, Kewaskum, who was stationed with the U. S. Army Air Force in Iceland, arrived home to spend a 30-day furlough. He will return to an air base in Arizona following his stay here.
Sell it with a classified ad.

Neal Straub and Lyra Bauer Wed
Neal Straub of St. Kilian claimed as his bride Miss Lyra Bauer of Le Roy Saturday, May 29, at a 9:00 a. m. ceremony at St. Andrew's church at Le Roy. Rev. John E. Stehle read the marriage rites and Rev. James Thurman was celebrant of the nuptial high mass. A reception and supper for 225 guests was held at the Trade and Labor hall at Fond du Lac following the ceremony. Parents of the couple are Mr. and Mrs. Louis Bauer and Mr. and Mrs. Hugo Straub.
The bride, who was given in marriage by her father, wore a dress of lace and tulle. Her finger-

tip veil was fashioned of illusion and she carried a bouquet of lilies-of-the-valley and stephanotis.
Miss Rita Weinberger of Le Roy served as maid of honor for her cousin, and Miss Caroline Wening-er of Lomira and Miss Elaine Paktoka of Fond du Lac were the bridesmaids. They wore dresses of orchid, maize and green and carried bouquets of daisies and lilies-of-the-valley.
Allen Batzler of St. Kilian was the best man and Joe Schmitt and Roger Bauer were groomsmen. Huey Straub and Felix Bauer served as ushers.
The bride graduated from Mayville high school and was employed at the State Bank of Mayville as a stenographer prior to her marriage. The groom graduated from Campbellsport high school, attended

Marquette university, and is engaged in farming at St. Kilian, where the couple will make their home after returning from a honeymoon trip.
