

## Village Accepts \$27,000 Bid for New Incinerator

Regular Meeting August 2, 1954

The Village Board of Kewaskum, Washington County, Wisconsin met in regular monthly meeting with Pres. C. Miller presiding and all Board members present.

The minutes of the previous meetings were approved as presented upon motion by J. Stettin, seconded by C. Schaefer and carried.

The sealed bids for the furnishing and installing of an incinerator were opened and tabulated as follows:

Morse-Douglas Co., \$39,969.00 for a 15 ton burner; \$53,333.00 for a 24 ton burner.

Nickels Engineering & Research Co., \$27,000.00 for a 24 ton burner.

Motion by J. Reigle and seconded by C. Sparks that the bid of the Nickels Co. be accepted and that the supplementary specifications as suggested by the engineers be made part of the original specifications if the contractor agrees to make the necessary changes without making an additional charge. Upon roll call, all members present voting "aye," the motion was so adopted.

Motion by C. Schaefer, seconded by C. Sparks and carried that the request of Fire Chief Harry Schaefer for needed equipment be made to the Board in writing.

Motion by C. Sparks, seconded by M. Schaefer and carried that the Fire Dept. be authorized to send two of its members to the University of Wisconsin Fire School and that the tuition for same be paid out of the 2% Fire Tax fund.

Motion by C. Sparks, seconded by J. Eberle and carried that Chief of Police Guttman be authorized to order the erection of a sign to signs to comply with state statutes.

Motion by J. Reigle and seconded by C. Schaefer that the ordinance on sewage charges as presented by Village Attorney Haebig be accepted and that same shall become effective upon publication. Upon roll call, all members present voting "aye," the ordinance was so adopted.

Motion by M. Schaefer, seconded by J. Eberle and carried that all bills and wages as recommended and approved by the Finance Committee be approved and paid.

## LAKES TEAM'S GAME WITH CEDARBURG IS CANCELLED

Kewaskum's Land o' Lakes ball game scheduled here Sunday with Cedarburg was cancelled by the two teams because of conflicts. As both teams are far down in the standings and the season is nearly completed the game will not be made up. However, the Chevrolets were scheduled to play at Cedarburg under the lights this Thursday night in the final contest of the campaign.

## LAND O' LAKES STANDINGS

Team	Won	Lost
West Bend	6	0
Fort Washington	6	1
Mequon	5	2
Saukville	3	4
Germantown	2	4
Cedarburg	2	4
Grafton	1	5
Kewaskum	0	5

## BIRTHS

THULL—A son to Mr. and Mrs. Norbert Thull, R. 2, Kewaskum, Thursday, Aug. 19.

LEMKE—A son to Mr. and Mrs. Hugo Lemke, R. 3, Campbellsport, Saturday, Aug. 21.

BACKHAUS—A son to Mr. and Mrs. Gerald Backhaus, R. 2, Kewaskum, Monday, Aug. 23.

## BAKE SALE AT NEW FANE

The Ladies' Guild of St. John's, New Fane, will hold a bake sale in the parish hall on Saturday afternoon, September 11. Sale begins at 2:30. A variety of homemade baked goods will be for sale. Free coffee and donuts will be served.

## A. E. Sommerfeld, Jos. Schmitt Die

Albert E. Sommerfeld, 82, retired Kewaskum resident, who for 30 years was formerly employed as a millwright for the Galloway-West company in Fond du Lac passed away at 4:30 a. m. Thursday, Aug. 26, at St. Joseph's hospital, West Bend, Ill. since May, he was taken to the hospital Tuesday morning in the firemen's ambulance. He had made his home with his son-in-law and daughter, Mr. and Mrs. Marvin A. Martin in Kewaskum since 1941.

Mr. Sommerfeld was born July 5, 1872, in the town of Theresa and was married June 4, 1900, to Bertha Lochrke in St. Paul's Lutheran church in the town of Lomira. The Sommerfelds made their home in Fond du Lac from 1914 to 1941, residing on Fifth street. They also had lived at Oak Grove, near Junction, before coming to Kewaskum.

Surviving Mr. Sommerfeld is his daughter Minerva (Mrs. Martin) here; a sister, Mrs. Albert Voigt of Waupun, and three grandchildren. He was preceded in death by Mrs. Sommerfeld, who passed away in 1949, and a son, Gilbert, who was killed in a car accident in 1925. Seven sisters and brothers predeceased him.

The body of Mr. Sommerfeld is in state at the Miller Funeral home since 2 p. m. Friday. Funeral services will be held Saturday at 2 p. m. in St. Lucas Ev. Lutheran church, the Rev. Gerhard Kaniess officiating. Prior to the services the body will be in state at the church from 12 noon to the hour of services. Burial will take place in St. Lucas parish cemetery.

## JOSEPH J. SCHMITT

Joseph J. Schmitt, 59, who for 29 years was assessor in the town of Ashford, died at 3 a. m. Sunday, Aug. 22, at St. Agnes hospital, Fond du Lac, from injuries received in a fall at his farm in the town of Ashford, near St. Kilian, last week Wednesday.

Schmitt suffered a severe skull fracture when he fell off a ladder while at work in his barn. He was knocked unconscious and failed to regain consciousness up to the time of his death.

Born in the town of Lomira, March 31, 1895, the son of Matt and Angela Beck Schmitt, he was married Oct. 26, 1920, to Josephine Strobel at St. Kilian's church, St. Kilian. He was a member of the Holy Name society at St. Kilian's church and of the Catholic Knights of Wisconsin. He served overseas during World War I.

Surviving are his widow, two sons, Vincent and James, of Campbellsport, a daughter, Mary at home; a brother, Leonard, Dalton; a sister, Mrs. Frank Brodler, Lomira, and six grandchildren. Two sons preceded him in death.

Funeral services were held Wednesday at 9:30 a. m. from the Twobig Funeral home, Campbellsport, and at 10 a. m. at St. Kilian's church. A solemn requiem mass was celebrated by the Rev. Walter Morgan, assisted by the Rev. Gerard Dudge as deacon and the Rev. John Keichel as sub-deacon. The Rev. Fr. Salvador, O. F. M. Cap. was seated in the sanctuary.

The Holy Name society and Catholic Knights of Wisconsin attended the services in a body. Active pallbearers were Oscar Bartzler, Victor Jaeger, Otto Joas, Paul Thill, Leo Flasch, and Mike Thelen. Burial was in the church cemetery. Military rites were conducted at the grave by the Bintlzer-Waehler Post 246 of Lomira.

## MRS. OSCAR BACKHAUS

Mrs. Oscar B. Backhaus, 60, died Wednesday morning, Aug. 25, at her farm home in the town of Ashford. Mrs. Backhaus, who had been ill for some time, was born March 4, 1894, in Kewaskum. She married Oscar B. Backhaus on Aug. 4, 1920.

Survivors are the widower, a daughter, Mrs. Edward Blank, and a son, Roy, at home; three sisters, Mrs. Otto Hausner and Mrs. William Busch of Plymouth and Mrs. George Stremcha of Sparta, and two brothers, Lehman Pitt of Friendship and Adolph Pitt of Plymouth.

## Young Mother Killed in Beechwood Mishap

A young Milwaukee woman, mother of three small children was killed and three other Milwaukeeans were injured when their car went out of control and overturned early Sunday morning on a curve on Highway A near Beechwood in Sheboygan county.

Killed in the mishap was Mrs. Joanne Luetgen, 23, of 4303 N. 47 street. Injured were her husband, James, 27, and Mr. and Mrs. Anthony C. Brotzel, 1955 S. 13th street, Sheboygan county authorities said the car driven by Brotzel left the road on a curve about 3:05 a. m. Mrs. Luetgen was killed outright. The other three suffered minor injuries and were taken to St. Joseph's hospital, West Bend for treatment.

Authorities said the group was returning to Milwaukee from a resort near Sheboygan.

## Rivers Nine Runs Over Campbellsport, 8 to 3

The Kewaskum Land o' Rivers team rounded out its season Sunday by romping over Campbellsport, 9-3, on the home field. The Corvettes tallied 3 runs in the initial frame with Mertzig's triple and doubles by Carl Koepke and Russ Rodenkirch being the big blows.

Campbellsport got back 2 runs in the second and tied the score with a run in the third. Kewaskum put 'er on ice on Pee-wee Stenman's run single in the fourth and Van Blarncorn's two run hit in the fifth. Felix collected two for three for the losers, one a triple while Mertzig paced the Corvettes with three for four. Mertzig also fanned nine in taking his third win. Del Ponte fanned 10 for the losers. The losers got 5 hits and the winners 11. Slinger won the Rivers championship Sunday by defeating West Bend, 8-2.

## BUSLOAD OF CHILDREN ATTENDS BRAVES GAME

All boys and girls who participated in the Kewaskum recreation program this summer who had reservations were guests at the Milwaukee Braves-Philadelphia Phillies ball game at Milwaukee on Thursday afternoon. The group made the trip to the game in the school bus and was accompanied by several adults. The Braves shaded the Phillies, 3-2.

## KIWANIS CLUB MEMBERS AT RACINE CONVENTION

Representatives of the Kewaskum Kiwanis club attended the 1954 convention of the Wisconsin-Upper Michigan Kiwanis district Monday at Racine. The convention was held from Sunday through Tuesday. Delegates of the local club included Dr. R. G. Edwards and wife, Dr. F. E. Nolting, Leo Rose, Ray Schaefer and Jim Reigl.

## MRS. ELIZABETH FELCHLIN

Mrs. Elizabeth Felchlin, 90, a native of Kewaskum, who resided at the home of her son Leonard at Van Dyne, R. 1, died Sunday, Aug. 23, at 5:45 p. m. at St. Agnes hospital, Fond du Lac. She had been ill several months.

She was born at Kewaskum April 10, 1864, the daughter of Ottmeyer and Gertrude Voim, and was married in Kewaskum to Philip Felchlin, who died Dec. 25, 1925.

Surviving are two sons, Philip, Fond du Lac, and Leonard; a daughter, Mrs. Helen Behlen, Lake deNeve; 11 grandchildren, and 18 great-grandchildren.

Funeral services were held at the Zacherl Funeral home, Fond du Lac Wednesday at 8:30 a. m. and at 9 a. m. at St. Mary's church there. Burial was in Calvary cemetery.

## Community High, Public Schools to Open Sept. 7

First Year of Operation for Reorganized District; Staff of 18 Teachers Engaged

The Kewaskum Public and Community High schools will open on Tuesday, September 7, at 8:45 a. m. This will be the first year of operation for the reorganized grade school district and the Union Free High School.

The Board of Education of the Kewaskum Public school has employed the following staff of teachers:

Beatrice Larson—Kindergarten  
Winifred Gerner—Grade 1  
Marian Weigand—Grade 2  
LaVerne Hron—Grades 3 and 4  
Helene Miller—Grades 5 and 6  
James Morrissey—Grades 7 and 8.

Session for morning and afternoon kindergarten pupils will be held in the council rooms of the Municipal building. Shifting of the kindergarten people to this location has been made necessary because of the necessity for adding a teacher in the grade school.

All grade school students from grade three up are required to make a deposit of \$1.00 for books. All grade students, kindergarten through grade 8 are required to pay a WIAA insurance fee of 50c for the year.

The Board of Education of the Kewaskum Community High school has contracted for the following staff:

Walter Bade—Physical education coach  
Orval Behnke—Agriculture  
Margaret Browne—Commercial  
Earl Buswell—English, social science  
Anna Mae Deifeld—English library

Dorothy Dunne—Mathematics, social science  
Ernest Mitchell—Science, coach guidance

Mariene Reinders—Homemaking  
Lucia Rizzo—English, Spanish  
Leland M. Rose—Industrial arts, mathematics

John Runkel—Science, social science  
Arthur Zens—Music  
Clifford M. Rose will serve as supervising principal for both schools.

All grade and high school teachers who are new in the system will report for a work shop session on Wednesday, September 1, with all other teachers reporting on Thursday. Such sessions enable teachers to adequately prepare for the opening of the school year with the result that a minimum of time is required to open the year successfully.

Kewaskum Community High school offers you a wide choice of courses from which you may choose. The agriculture department is new and complete consisting of a class room complete with magazines, book and pamphlet libraries; a well equipped lab for testing milk, soil and grain samples, and a shop equipped with all necessary tools for woodworking, welding and machinery repair.

A complete industrial arts course is offered in a new shop equipped with woodworking machines and work benches. This course also includes making and reading drawings.

Home economics is a popular course for girls in the school. This department is equipped with modern electric sewing machines for sewing clothes the girls often design themselves. Cooking is done on modern gas and electric ranges. This department also has its own magazine and book library and individual work units for preparing food.

The school's commercial department has 25 of the latest model typewriters plus an electric typewriter and a dictaphone to help boys and girls prepare for office work.

In the academic field, Kewaskum High school offers a choice of four science courses—general science, biology, chemistry, and physics—five social science courses—U. S. history, world history, social project.

## County Barley Contest Next Thursday, Sept. 2

The Washington county barley contest will be held at the county fairgrounds at Slinger on Thursday, September 2. It is expected that about 92 county barley growers will compete for the three grand awards of having the best quality of barley. The samples will be judged by three expert judges. A total of \$164.00 in prizes will be awarded for the 50 best bushel samples brought to the contest. Only those enrolled in the contest are eligible to compete. The contest closed June 15.

This county contest is made possible through the courtesy of the Washington County Barley committee consisting of the Rosenheimer Malt & Grain Co. of Kewaskum, West Bend Malting company of West Bend, Thiel's Mill of Slinger, the West Bend Lithia company of West Bend, and the Wisconsin State Brewers' association, Milwaukee.

All samples should be brought to the contest between 8:30 and 10:00 a. m. on Thursday morning, Sept. 2. Judging will start at 10:00 a. m.

## Clarence Kluever Found Dead

Clarence R. Kluever, 47, Kewaskum barber, was found dead shortly before noon Friday, Aug. 27, seated in a chair in his barber shop. Discovered by a customer, he apparently died of a heart attack. The body will be in state at Miller's Funeral home after 2 p. m. Sunday. Funeral services will be held at 2 p. m. Monday at Peace E. and R. church. The body may be viewed Monday at the church from 12 noon until the time of services.

## COUNTY TEACHERS WILL RECEIVE CHEST X-RAYS

School teachers in Washington county have been invited to receive free chest X-rays on Thursday, September 2. A clinic for the purpose will be set up at West Bend, county seat, and will operate from 1 a. m. to 1:15 p. m.

Miss Mary Cook, R. N., county nurse, and Harry D. Sheksi, secretary of the Washington County Health committee, have arranged for the mobile X-ray bus of the Wisconsin Anti-Tuberculosis association to accommodate the school personnel. Christmas seals will cover the cost of the service.

## DEI'S DELICATESSEN WINS 2ND HALF SOFTBALL CROWN

Del Delicatessen of Kewaskum posted its fifth straight victory to capture the West Bend Major A league second half championship last Wednesday night, defeating West Park, 18-11. Del's faced the West Bend News' first half titl in the first of a best two out of three game series at Regner Park softball field this week.

## WEDDING FAMILY REUNION IN VILLAGE PARK SUNDAY

A reunion of the Weddig family, including children and grandchildren of the late Mr. and Mrs. John Weddig of Kewaskum, was held in the village park on Sunday. A potluck dinner was enjoyed. The guests played ball and cards and spent the afternoon visiting.

## GUEST SPEAKER AT NEW FANE CHURCH

Vicar Ferdinand H. Naske of Mount Olive Lutheran church, Milwaukee, Wis., will be the guest speaker at St. John's Lutheran church, New Fane, on Sunday, August 29, 9:30 a. m. Vicar Naske's sermon topic will be: "From Blasphemer to Saint."

## BOY SCOUT NOTICE

All Boy scouts and boys who are 11 and want to be scouts will meet Tuesday, Aug. 31, at 6:30 p. m. at the home of "Mike" Gnacinski.

My barber shop will be closed September 7 and 8. Please make arrangements accordingly.  
Hubert Wittman

## Janet Haebig Wed to Jerome Guldan

Miss Janet Haebig, daughter of Mr. and Mrs. Raymond P. Haebig, 551 5th ave., West Bend, became the bride of Jerome William Guldan, Kewaskum, in a ceremony performed by the Rt. Rev. Msgr. Edward C. Stehling in Holy Angels church, West Bend, at 10:30 o'clock Saturday morning, Aug. 21. The altars were decorated with gladioli and mums.

For her marriage the bride wore a full length gown of white lace over satin. The fitted bodice featured a square, scalloped neckline and short scalloped sleeves, com-

plemented with gauntlets of lace. Her finger tip veil of illusion was gathered to a cap of lace. She carried a cascade bouquet of white lilies.

Miss Susan Cannon, West Bend, a friend, was her maid of honor. She was attired in a full length gown of dusty pink crystanette material with a stole over the back and shoulders, which was tucked into the gathered bodice. The full skirt had a bow-like bustle in the back. A tiny crown headpiece in dusty pink with a short veil covering her hair completed her attire. She carried a colonial bouquet of white sweetheart roses scattered with aqua carnations.

The bridesmaids, Mrs. Alois Stockhausen of Newburg and Miss Mary Klieforth of Oshkosh, the bride's cousin, wore identical ensembles in dusty aqua with headpieces to match. They carried bouquets of tiny white sweetheart roses scattered with pink carnations. Serving as best man for his brother was Gerald Guldan of Kewaskum, while James and John Haebig, West Bend, brothers of the bride attended, as groomsmen. Guests were seated by Roger Wierman and Joseph Gruber of Kewaskum. Dinner was served to 75 guests in Holy Angels church parlors followed by a reception for 266 at Timmer's resort, Big Cedar Lake.

When they return from a wedding trip to an undisclosed destination, Mr. and Mrs. Guldan will reside in Kewaskum. The bride is a graduate of West Bend High school. The bridegroom, a Kewaskum High school graduate, is employed by the Heinemann Dairy in Kewaskum.

## FALK-BONE

In a ceremony performed at 9:00 a. m. on Saturday, Aug. 7, in Holy Family Catholic church at Columbus, Ga., Miss Dorothy Bone, daughter of Mr. and Mrs. Curtis Bone of Evansville, Ind. became the bride of Donald P. Falk, son of Mr. and Mrs. Wilmer W. Falk of Kewaskum. The church altar was decorated with green and white carnations, roses and stephanotis. The bride wore a gown of lace and tulle in ballerina length with a fingertip veil. She carried red roses.

A friend of the bride, Miss Barbara Snelder, attended as maid of honor. She wore a green ballerina length gown of lace and tulle and carried a bouquet of white roses and green carnations.

James Schuh, a classmate of the bridegroom while he was attending the University of Wisconsin, acted as best man.

Preceding a few days' wedding trip to Atlanta, the couple was honored at a dinner at the Columbus hotel. They will reside at 1425 Warm Springs Rd., Columbus, Ga.

## Beagle Club Holds Special Day to Honor Joe Eberle

The newly organized Town and Country Beagle club of Wisconsin honored Joe Eberle of Kewaskum at their first A. K. C. sanctioned field trial held at Thompson, Wis. Sunday, Aug. 22.

The trial was officially known as Joe Eberle day in appreciation for the many achievements and encouragement that Joe has given the sport of beagling in the state of Wisconsin and the United States.

Short speeches honoring Joe were given by the president of the Town and Country Beagle club, Alex Wambach of Granville and the field trial chairman, John L. Schaefer of Menomonee Falls.

Joe was presented with a woolen shirt by members of the club. Mr. Eberle's dogs must have sensed that they couldn't let him down on this day and as a result his Eberle's Braek won a beautiful trophy for him by taking first place in the 15 inch class against a very strong field as well as winning 25 lbs. of dog food.

The newly organized Beagle club is the 8th active club in the state with the 9th one in the process of being organized at Wausau, Wis. This is a far cry from the early modes and beginning when Joe Eberle of Kewaskum, Sil Fell of Oshkosh, John Schuster of Manistique, Mich., Reno Cole of Waupeca and Irv. Kopp of Johnson Creek gathered in a room in the Oshkosh High school back in 1922 and organized the first beagle club in the state of Wisconsin.

At that time there were only 11 active clubs in the whole United States. Today there are 25 active beagle clubs in the country and they attracted 36,105 entries in 1953. Today's beagles carry the famous bloodlines of that small group that gathered back in 1922.

All of these men's strains of beagles have gone to national prominence and the names of Eberle, Interlaken (Fell), Kishwaukee (Cole), Superline (Schuster) and Masterly (Kopp) show in the pedigrees of practically all of today's purebred beagles.

Kewaskum, mainly through the untiring efforts of Joe, has become the beagle field trial capital of Wisconsin and the midwest. Many famous dogs have run here, dogs like Sammy R and Penzest Penman, which later became immortal beagle sires.

Joe Eberle has been associated with beagles since 1912 and lately has gotten the national recognition he so rightfully deserves.

## K-M CLUB FINISHES YEAR WITH VISIT TO MILWAUKEE

The Kettle Moraine Homemakers club enjoyed a tour of several Milwaukee places on Aug. 18. Members first visited the Luick-Sealtest plant and followed that with a tour of the Coca-Cola Co. The Grenadiers' program (WTMJ-TV) was seen at noon. In the afternoon the group toured the Schlitz brewery. Dinner in Milwaukee closed the full and enjoyable day.

## KATHERINE ENDLICH HOME BOUGHT BY LOUIS VORPAHL

The public auction held at the Katherine Endlich property near the north village limits Sunday afternoon was largely attended. Furniture and household items were disposed of and the property was purchased by Mr. and Mrs. Louis Vorpahl of Kewaskum. The Vorpahls recently sold their basement home in the village at auction.

## HOSPITAL NEWS

Mrs. Sylvester Muckerheide, R. 3, Kewaskum has been a patient at a Madison hospital the past week.

The bridegroom graduated from Kewaskum High school and attended the University of Wisconsin for two years prior to entering military service. He is attending Officers Candidate school at Fort Benning, Ga. His bride is a graduate of Evansville High school and attended business college at Indianapolis. She was employed by the Bell Telephone Co. in Indianapolis.

Blow Soap Bubbles For Summer Fun

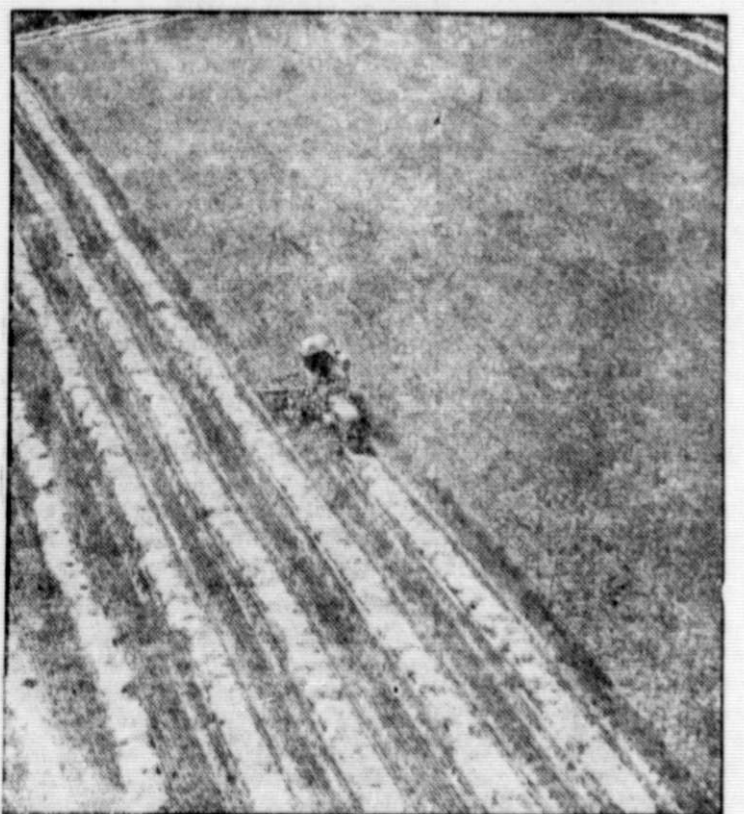

Who complains about the heat when you can blow such glorious soap bubbles out on the front lawn? Junior seems a little skeptical about the wind to leeward, but sister can't wait until that special soap-and-water formula creates a really gigantic bubble. Their mother helped them with the "recipe" and added one tablespoon of glycerine to a jar of rich soapuds. As these two tots will tell you—this makes the bubbles bigger, more colorful, and "tougher" so that they last longer.

THIS IS A YACHT RACE?—Yes. At least, it's the beginning of one. An impromptu soccer game preceded the recent Leigh Regatta, near London, England. All players soon disqualified themselves, and the referee was thrown into the water, to mark the start of serious racing.

Haven't We Been Here Before?

HARVEST—Bumper harvest at the Kenneth Douglas farm near Urbana, Ill., is combined, despite the early growing season drought which threatened many crops. With wheat-belt farmers expecting a more than bountiful season, acreages for 1955 planting are expected to be cut sharply by the Department of Agriculture, to reduce a further increase of surplus grain.

Purdah System Not Compulsory

A United Nations mission hinted diplomatically to Pakistan recently that its women should be unveiled. A labor report, six months in the making, notes that there is nothing in the Moslem religion requiring women to live in Purdah.

Whether Pakistan unveils its women by law, such as was done in Turkey, or by a slower process, the U. N. reports it as much as told Pakistan that women in that country will never be able to take their part in normal community life under the Purdah system.

It noted that reaction to this system had already freed many women in the upper-income brackets from the custom of remaining veiled, and that, in the lower-income brackets, women often were forced to work to help support the family and thus were freed from the custom. But, it noted, a majority of middle-class women in Pakistan are still kept in strict Purdah, with little opportunity to meet and contact people outside their homes.

The archaic unfairness of such a system is hard for American citizens to imagine, and if United Nations study groups can succeed in pointing out backward conditions such as this to member nations of the U. N., then the organization will be making creditable progress. Another hint to Pakistan, made by the United Nations' International Labor Organization, which studied labor conditions in Pakistan for the six-month period noted above, concerned compulsory primary education. It is now the custom in that country to send only boys to school, when facilities are available, or where parents can afford it. Few women are therefore qualified for top jobs. The U. N. urges Pakistan to pass a compulsory education law, just as most of the world's advanced countries have long ago done. In this sort of thing, the U. N. is doing a good job.

The Salton Sea in southern California was formed in 1905-07 when the Colorado River broke through a gap in its levee and poured into the below-sea-level valley, the National Geographic Society notes on its new wall map of the State. Loss through evaporation is balanced and present level maintained through drainage from irrigation systems.

Race drivers never use speed on their trips. They know its not safe, with our vast mental slips.

34

STRICTLY FRESH

POLICE in Edmonton, Alberta, are wondering about advantages of the machine age. A combine on display at an agricultural exhibition yielded a harvest of 12 empty wallets discarded by pickpockets.

Lady in St. Paul, Minn., has been giving away a bottle of 3.2 beer with each bag of popcorn she sells. Police object because she has no beverage license, and perhaps because they feel there's enough "pop" in the corn.

The number of typewriters and mimeographs aboard a battleship

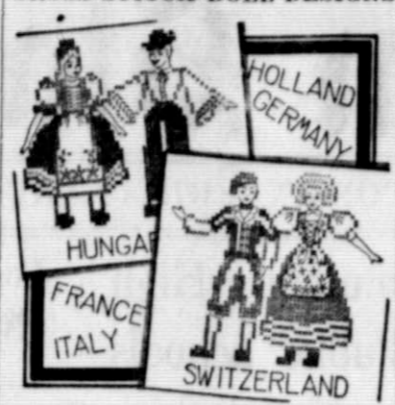

outnumber its guns. A typewriter is mightier than a 16-inch rifle, to bring the old saying up to date.

Fellow we know will be out of the hospital any month now. Caught up in the home-handymen boom, when the little woman told him to take out the garbage, he said: "Do it yourself."

Burglars in Santa Cruz, Calif., really got the bird. They stole \$235 worth of canaries. Trying to feather their nest, maybe.

CROSS STITCH DOLL DESIGNS

Unusual cross stitch doll couples from six different nations are included on this usable-several-times Hot Iron Transfer. Each doll is dressed in authentic costumes of their country. Eight different colors are indicated by an equal number of different crosses. Work them on tea towels, around the bottom of a skirt, for pictures, pillow tops, etc. They are fun to do, beautiful to look

Good Example In Foreign Relations

Greek farmers in the tiny village of Antheless recently unveiled a bust of Walter Eugene Packard, of Berkeley, California, in recognition of his contribution to their local economy. The 70-year-old United States Soil authority turned an alkali soil in the Antheless region into a rich rice-producing farmland.

Packard required six years to do the job he went to Greece to accomplish and is soon leaving Greece to return to his home in California. Until he transformed the Sperkhios River district into a rich rice-producing region,

at and a certain winner with you and your friends. C3331 20c.

Send orders to Handcraft Service (The Colonial Company) Journal Pub. Co., Inc., 1243 Swift, Kansas City 16, Mo.

Greece was forced to import about \$5,000,000 worth of rice annually. Packard found that he could wash out the alkali acres with fresh water from the Sperkhios River, thus making it suitable for rice production. After six years, Greece now exports roughly \$5,000,000 worth of rice annually, rather than importing a similar amount.

The difference, after the work of Packard, is a difference of \$10,000,000 in Greek foreign exchange funds a year. Greek farmers look upon Packard's work a miracle, and the former U. S. land reclamation director rightly deserves their thanks for transforming this community into a fertile farm valley.

These are the things through which genuine international understanding and friendship are developed and if the United States had more ambassadors of the Packard variety, it would have the support of more and more of the world's peoples.

SHE STILL SHINES—Esther Ralston, blonde beauty of the silent screen, who was known as "the American Venus," is now Mrs. Esther Lloyd, a grandmother, and the one-woman office force of the Seventh Church of Christ, Scientist, in New York City.

**Cheaper To Repair Garage**

At present building prices, it is worth while to patch up the old garage and make it do if possible. Just find out how much a new garage will cost, and you will be convinced the old one should be repaired.

First, it will be necessary to get new sills under the studs.

Nail 2x6s to the studs about 12" above the floor all the way around the inside of the garage. This will be necessary to hold the building together, and to use in raising the building.

Use pry bars under the 2x6s to raise the garage high enough to remove the old sills and install the new sills.

Put blocks across the corners and under the 2x6s to hold the building up while working. See illustration.

Remove the old sills and install new sills. A single 2x4 may be used, but two 2x4s are better.

If the studs are rotted next to the sills, nailing will not do much good. So it will be necessary to stub the studs.

Cut the stubs long enough that you will have at least 24" of sound wood in the old stubs for nailing.

Before nailing the stubs, make sure that the plate, the 2x4 next to the roof, is straight. If it is, you may nail the stubs in place.

If the plate is not straight, it may be necessary to lower the garage on blocks under the sills. Then remove the 2x6s and straighten the plate by raising

the low parts with a pry bar. Nail the stubs in place.

It is a good idea to remove the garage doors and nail a 2x6 across the doorway while doing this repair work. This is necessary to prevent the garage from pulling out of shape.

Send 35c today to Ernie Gardner, 14189 Faust Ave., Detroit 23, Michigan, for your copy of **MISTER FIXUM'S HANDY HINTS**. This is a booklet made up of selected jobs from this column. Booklets No. 1, 2 and 3 available. 3 for \$1.00.

**Some Confederate Money Has Value**

Leonard W. Stark says he believes he can send two daughters through college with Confederate money. Contrary to what most people believe, he says, Confederate States of America currency is sometimes worth more than its face value.

His collection of old bills, including Confederate money, Government of Texas currency and Republic of Texas money, is now valued at several thousand dollars and, by the time his two young daughters go to college, he estimates it will be worth at least \$15,000.

Stark says Confederate bills of value include a \$5-note, called the "Indian Princess bill," which is worth \$20. The bill is dated September 2nd, 1861.

The July 25, 1861 \$5-bill is valued at \$10 and the September 2nd, 1861, \$5-bill is worth \$5, according to Mr. Stark.

Unfortunately, however, most Confederate bills of other dates are not worth similar amounts, or even their face value.

He watched for curves, in fact, too much—

The sidewalk kind drove him in Dutch.

Pazo acts to soothe, relieve itching instantly.** In tubes, also modern Suppositories. Get Pazo at drug stores for wonderful fast relief.

**Bikes Also Need Regular Check-up**

Bicycle safety depends as much on having a good machine in good working order as it does on heeding traffic regulations, doctors declared in the fourth of a series of bulletins on summer safety issued recently.

To help guard against serious mishaps on a bicycle, the bike itself should have a check-up and possibly an overhaul, the bulletin says, and here are some of the mechanical things to watch for:  
First: Kids' bikes are often too big for them and too hard to manipulate in traffic on that account. A bicycle is the right height if the rider can stand with the balls of both feet solidly on the ground while he is straddling the bar.

Second: The bicycle should have a headlight and a rear reflector for driving at dusk or after dark. Many fatal accidents have happened at dusk with unlighted bicycles which were almost invisible to motorists. Also the bicycle should have a basket for carrying things so that both hands can be free.

Third: All moving parts and particularly the coast-brake mechanism should be well lubricated so that all work freely and smoothly.

Safety rules on the highway are equally important, of course, the doctors say. They recommend regular reviews and drills for children in bicycle-safety. Actually, bicycles are subject to most of the same laws as automobiles, they conclude, and even greater attention to them is needed by the bike-rider because the bicycle inevitably comes off second-best in any collision with other vehicles. Proper hand signals should be taught every child, and observance of all warning signs and traffic lights should be impressed on children as absolutely essential. The American-made "truck" bicycle is best to learn on, the bulletin says, since it is more controllable and less likely to skid than the English-type machine.

**Sarah Anne's COOKING CLASS**

Try This Picnic-At-Home

Have a picnic at home during the days of high temperatures! Refreshing tomato juice appetizer, pork and beans with cheese-stuffed frankfurters, and hot brown bread are downright good eating. Add cold soup, or a lettuce salad, and iced melon for dessert. It's a meal that gives Mom a kitchen-holiday and saves the family budget.

**Bean And Frankfurter Picnic Bake**

- 2 1-lb. cans pork and beans with tomato sauce, or kidney beans
- 1 small onion
- 1/4 cup diced green pepper
- 4 large frankfurters
- 1/2 cup grated sharp cheese
- 2 tablespoons mayonnaise

Combine beans, diced onion and green pepper in a baking dish. Slit frankfurters and stuff with cheese mixed with mayonnaise. Arrange on beans and bake in a moderate oven (350°F.) about 20 minutes, or until heated through. Four hearty servings.

**Try These Easy-On-The-Cook Meals**

- Junior's Choice**  
Tuna-Cheese-Burgers  
Relishes  
Corn on the Cob  
Crushed Pineapple on Ice Cream
- Time Saver Supper**  
Creamed Dried Beef with Peas  
Cole Slaw, or Green Salad  
Butterscotch Pudding on Canned Pears
- Dad's Request**  
Platter of Cold Cuts (Cheese, Canned Tongue, Vienna Sausage, Deviled Eggs)  
Sliced Tomatoes  
Creamy Potato Salad  
Melon or Fruit

The weekly marketing will be incomplete without a pound or two of frankfurters in the shopping baskets. Franks for dinner are becoming more and more popular and are ideal for the children's lunch and the late snack.

**To Cook Frankfurters**

Cover frankfurters with boiling water. Cover, remove from heat, let stand five minutes and drain. Or split and broil, or pan broil until slightly brown.

**Baked Stuffed Frankfurters**

2 cups soft bread crumbs  
1-4 teaspoon salt  
Pepper  
2 teaspoons sage, if desired  
1 small onion minced  
1-4 cup melted butter  
10 frankfurters  
5 strips bacon  
Combine bread crumbs with seasoning. Add onion and melted butter. Mix well. Split frankfurters lengthwise. Fill with the stuffing. Wrap each with a half strip of bacon. Fasten with toothpicks. Bake in an oven 350 degrees for 1-2 hour, or broil 10 minutes.

**Supper Dish**

3-4 pound frankfurters  
1 No. 2 can kidney beans  
1 green pepper chopped  
Salt  
Cut frankfurters into 1-inch slices. Combine with the beans and green pepper. Cover and simmer 15 to 20 minutes or until pepper is tender.

**Barbecued Frankfurters with Rice**

1-3 cup chopped onion  
1-3 cup chopped celery  
1-2 clove garlic minced  
3 tablespoons fat  
1 10-ounce can condensed tomato soup  
2 tablespoons brown sugar  
2 tablespoons Worcestershire sauce  
2 teaspoons prepared mustard  
2 teaspoons vinegar  
Few drops Tabasco sauce  
1 pound frankfurters cut in thirds  
1 3-ounce package quick cooking rice, cooked  
Cook onion, celery, and garlic in hot fat until golden. Add soup, brown sugar, Worcestershire sauce, mustard, vinegar and Tabasco sauce. Simmer a few minutes. Add frankfurter pieces. Cover and simmer 20 minutes. Arrange hot cooked rice in a ring around edge of serving dish. Fill with the frankfurter mixture. Garnish the edge of platter with parsley.

**Hot Frankfurter Potato Salad**

6 cups thinly sliced, cooked potatoes  
2 teaspoons salt  
1-2 teaspoon celery salt  
1-4 cup vinegar  
1-4 cup salad oil  
6 frankfurters  
1 teaspoon prepared mustard  
1-4 cup chopped onion  
Over potatoes sprinkle season-

ings, vinegar and salad oil. Let stand 30 minutes. Arrange half of potatoes in a greased 3 quart casserole. Cut frankfurters in 2-inch lengths. Lay on potatoes and spread with mustard. Add onion and top with remaining potatoes. Cover. Bake in an oven 350 degrees for 40 minutes. Uncover the last 10 minutes of cooking.

**Ways to Serve Frankfurters**

Slice frankfurters. Brown slices quickly in a little fat. Place sizzling hot in the soup just before serving. Pass toasted buns and a fruit or vegetable salad for a good and quick meal.  
Stuff frankfurters with a stick of cheese or pickle. Wrap with a bacon slice and broil.  
Serve frankfurters on toast and top with cheese sauce.  
Use 2 frankfurters to a bun. Add a big spoonful of crisp piccalilli, mustard or catsup, and slices of crisp mild onion. Buns are extra good toasted.

**Filled Frankfurters**

1 1-2 cups elbow macaroni  
3-4 cup evaporated milk  
1 1-4 teaspoon dry mustard  
1 1-2 teaspoons salt  
1-8 teaspoon pepper  
2 1-2 cups grated American cheese  
1 1-2 pounds frankfurters  
Cook macaroni in boiling, salted water until tender. Drain and rinse in hot water. Combine milk, mustard, salt, pepper and 2 cups cheese in double boiler and cook until cheese is melted and sauce is smooth, stirring frequently. Add macaroni. Split frankfurters lengthwise. Fill with macaroni mixture. Sprinkle with remaining cheese. Bake in an oven 400 degrees for 15 minutes. Serve at once.

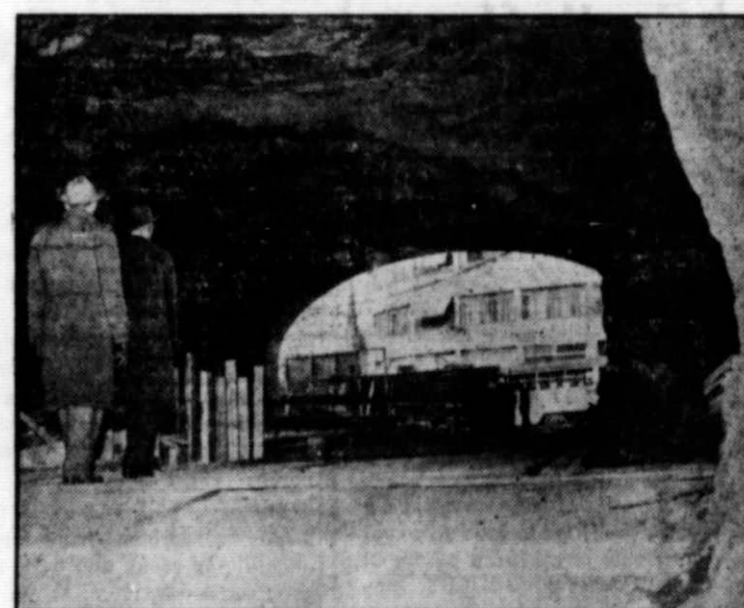

**UH-HUH? HUH-UH!**—Baby Sea Lion wants to head for the deep end of the pool, but Mama says "nothing doing." There'll be no shennanigans on Seal Island in the London, England, zoo if she can help it.

**NOTHING WRONG WITH THE "CHASSIS"**—Speaking of the ancient auto model, of course. Joyce Gamrath, 17, of Dearborn, Mich., doesn't have to do a thing to improve the picture—er, auto model. It's a miniature car, circa 1906, and is in perfect running order. It was built for display purposes in the early days of the auto industry, by the late Ransome E. Olds

**FISHING FOR HEALTH**—The children are fishing for fish, but they're actually pulling health in on their lines. The little patients, victims of cerebral palsy or other muscle-and-nerve disorders, are strengthened while they play at the United Cerebral Palsy Fund camp near Champaign-Urbana, Ill.

**WORLDS APART**—When completed, huge electrically operated doors will separate this 20,000-person-capacity air-raid shelter from the streets of Stockholm, Sweden. Built in a hill under Catarina Church, the man-made cave will be resistant to attack during atom, bacteriological or poison-gas warfare, and will be stocked with all necessities for a war-plagued community.

**TEACHER'S LITTLE HELPER**—Teacher, at blackboard, won't have to interrupt his work to check arithmetic answers for Eric Newhall, third grader at Agassiz School in Cambridge, Mass. The eight-year-old is using a mechanical "teacher" developed by psychologists at Harvard University, which shows the problem to be solved in a window in top of box. Unless Eric moves the right combination of levers to produce the correct answer, he can't turn to his next assignment.

Adjourned Meeting August 9, 1954

The Village Board of Kewaskum Washington County, Wisconsin met in adjourned session with President C. Miller presiding and all Board members present.

The reading of the minutes of the previous meeting was dispensed with.

Motion by J. Eberle, seconded by C. Sparks and carried that the Council Room of the Municipal Building be leased to the School District for a term of one school year for kindergarten purposes at a monthly rental fee of twenty-five dollars (\$25.00) and that the School District provide janitor service for the room or rooms used, the washrooms used and the first floor lobby.

The claim of Eileen Heisler for automobile damages was tabled.

Motion by C. Sparks, seconded by J. Reigle and carried that a six foot walk be provided connecting South Street with Fond du Lac Ave., utilizing the parcel of land provided for that purpose by Ro-

senheimers and lying just to the north of the Schaefer Bros. garage property.

Motion by J. Reigle, seconded by C. Sparks and carried that Fire Chief Harry Schaefer be authorized to place an order for fire equipment as specified in his written request to the Board.

Motion by J. Eberle, seconded by J. Stelplflug and carried that money from the Recreation Fund be used to help defray bus fare for taking participants in this program to Milwaukee.

Motion by M. Schaefer, seconded by J. Eberle and carried that the bills and wages as recommended and approved by the Finance Committee be allowed and paid.

# Teacup Topics

By Betty Ann

Editor, The Milwaukee Journal  
Woman's Pages

For some years now, lipstick has been as much a part of a woman's grooming ritual as a comb says Betty Ann. So it is natural to think that most of us would be quite proficient in the use of both.

But hair stylists assert that few women comb their hair skillfully. And even a casual observation shows that few are adept at applying lipstick.

Some are too timid to do more than follow the natural outlines of their mouths. Others go in for extreme exaggeration. Still others look as if they apply their lipstick while running for the morning bus.

One widespread tendency is to give the corners of the mouth a downward turn. Yet, it can be easily avoided. All one need do is start applying the color well inside the corners of the mouth.

This is not the solution, of course, for the woman whose mouth is not wide enough. In her case, it's necessary to bring the color right to the edges. The downward turn can be avoided by giving a definite upward curve to the lower line as it approaches the outer edges.

Regardless of the shape of your mouth, apply your lipstick to create soft curves. To do this, it's usually necessary to go beyond the natural line in some spots. After a few months' practice, any woman can do this with ease.

If your lips are too narrow, enlarge them a bit. Then, as you get used to doing this, extend the line further if necessary.

Using a brush helps greatly to control the lipstick so as to achieve a smooth, definite line. It takes a while to become deft, but once you have, you'll never again apply your lip rouge from the container.

Dainty petticoats to lend wide-spread to summer sheers needn't add to the warm weather blues of the woman who does her own washing and ironing.

There are many available now in the miracle fabrics that thrive in sudsing, shun ironing.

And, because of their fast drying qualities, it's possible to wear and wash them frequently though one's supply is limited.

Those petticoats of nylon, orlon, dacron fabric combinations can be washed in the same manner as other lingerie. After sudsing and rinsing, they should be hung to drip dry. Attempts to remove excess moisture will only result in wrinkling.

So it can drip away without doing damage, hang it over the bathtub. Or, if this is not possible, put a suction hook on the wall in your room, tack a protective sheet of plastic long enough to cover the floor beneath the petticoat. Then cover the area with newspapers to catch the drip.

After hanging the petticoat smooth it carefully, especially around lace, scallops or other trim.

Dry suds, made by adding soap flakes to a small amount of hot water and beating with a rotary beater, can be used to clean napped upholstery. Take up top suds with small brush and scrub gently with a circular motion. Use rubber spatula to remove soiled suds, wipe with sponge that's been wrung out in warm water and then with dry cloth. To speed drying process, play electric fan on the fabric.

It doesn't take rugged play to tire a child. Having his hand held high when walking with an adult will prove very fatiguing after five minutes.

Yet many people think that the toddler who protests is being willful.

The child will feel much better if allowed to run, skip and jump as he walks. A harness can be used to keep him in check.

## What Causes High Blood Pressure?

One of the most common causes of high blood pressure is arteriosclerosis or hardening of the arteries of the blood vessels. In other words, the blood vessels lose their elasticity.

Try to visualize the heart as an automatic pump, connected to a system of elastic tubes, or blood vessels, which distribute the blood throughout the body.

The heart does not have to overwork as long as the tubes, or arteries, are resilient, and the blood pressure is normally low. If by and by the vessels gradually harden like old rubber, and cannot stretch to receive the oncoming blood, then the strokes of the heart or pump must become more powerful in order to send the blood along the hardened vessels. The blood pressure becomes high, and we say that the patient has hypertension.

High blood pressure is not a disease. It indicates that something is wrong in the body. In other words it is only a symptom. This is a very common condition in individuals past forty or forty-five years of age. Particularly is this true in our country. The diseases that cause high blood pressure seem to be as old as recorded history.

Doctor Mortensen, of the Battle Creek Sanatorium, says that in his experience with thousands of cases of arterial hypertension, the element of heredity plays the largest part. This is true "in approximately 70 to 75 percent of the cases that we have studied. This means that one or both branches of the family have been afflicted with arteriosclerosis, or with chronic Bright's disease and in later years of life with apoplexy, together with coronary thrombosis," or other circulatory diseases.

The diseases mentioned above are becoming more common, and, as we have pointed out, a greater number of people are dying from such maladies than was ever known before.

The cause is found in our modern habits of living. Too much speed, over eating and excesses of various kinds.

It has long been known that worry and anxiety are deadly enemies of the human race. They not only bring much unhappiness into life, but they undermine the health, sap the energy and cause many thousands to fill untimely graves.

If we were all philosophical, fever of us would be troubled by high blood pressure and its train of evils.

## About Your Home

By FRANCES DELL

Most of us think that summer is the moth season. This is not true, however, for moths can breed at temperatures as low as fifty-five degrees. For this reason, it is important to keep moth crystals that kill by gas asphyxiation in closets, chests and garment bags the year around.

Household items such as mattresses, wall-to-wall carpeting and upholstered furniture should be sprayed several times a year with a reliable insect spray.

Moths and silverfish, the rayon and paper-eating insect, are not killed by unpleasant odors. They are killed by direct contact with sprays and by a gas as crystals evaporate in airtight places.

Silverfish breed around bathroom tile and cement. Ordinary bathroom cleansers have no effect on them, so a spray should be used here, too.

The proper amount of nuggets or crystals is about one pound for every one hundred cubic feet of space. The gases do not rise, so the crystals should be placed at the top of the garment bag and folded in with each fold of blankets or draperies.

Most modern vacuum cleaners have spray attachments which can be filled with crystals and do an excellent spraying job.

The best way to go about storing clothes and household articles is to first make sure the garments are perfectly clean. Then—sun them for a couple of hours, if possible. Next—spray them and place in airtight storage bags with a generous supply of crystals or nuggets at both the top and bottom of the bag.

### Serve Yourself Salad

1 small head cauliflower; 2 tomatoes; 1 cucumber; 1 Bermuda onion; 1 head lettuce; 1 cup diced American cheese; 1 wedge blue cheese; 1 cup ripe olives.

Separate cauliflower into florets and cook in small amount of boiling salted water until crisp, tender, about 15 minutes. Drain and cool. Slice tomatoes, cucumber and onion. Separate lettuce leaves and arrange in center of lazy Susan. Arrange vegetables, cheese and olives around lettuce. Serves four to six.

## Movie Stars' Make-Up Aids Can Be Yours

—BY EDNA MILES

WHenever you envy the porcelain prettiness of your favorite movie star, just remember that the make-up tools available to her can be yours, too.

Stars are made-up especially for the screen by experts. But off-screen, they must look just as they do in the movies. They achieve the loveliness that the public expects by learning how to use make-up tools most effectively.

Such tools are not expensive and they are highly effective in helping you to obtain a natural look when using make-up. You might begin by buying a sable lip brush, one that looks like a fine paint brush. With a little practice, you can learn to apply lipstick deftly, for a subtle effect. Follow up with a lip liner, which looks something like a red lead pencil but is actually a cosmetic crayon designed to give your lips a long-lasting outline.

For the eyes, there's another especially-designed paint brush with which to apply and smooth eye shadow on the lids. Use a delicate, outward stroke, working toward the temples. Then apply mascara with a moist mascara brush and follow with use of a dry brush.

Use a larger-sized brush to smooth the eyebrows, after you've feathered them with light strokes of your eyebrow pencil. A miniature comb for the eyelashes is a handy aid and an eyelash curler will make even short lashes look longer.

The powder brush, which originated in Paris, will take off loose particles of clinging powder, leaving your skin with a soft, velvety look.

Last of the make-up tools you should own is a magnifying mirror, which will show up any small defects so that you can correct them. In a way, the magnifying mirror is your best friend, and is certainly a fine make-up guide.

Actress Sally Forrest takes make-up experts' advice, uses a sable lip brush when applying lipstick, to gain that natural look.

## The SNAPSHOT GUILD

Little scenic views, such as this, make very pleasant pictures and are often more satisfactory than the snapshots of the grand landscapes.

### Don't Try to Put Too Much in Your Picture

EVERYBODY loves a vacation. But what about the long year after the vacation is past? One of the best ways to refresh our memories and relive the carefree days is with pictures—with pictures we took during those magical two weeks.

One thing picture takers ought to remember, however, is that when you go to different places, you're pointing your cameras at different things—and often under different conditions. When you go on a vacation, you expand your views by seeing new places, new sights, new scenes. When you sight the camera you are taking pictures in a different vein.

Instead of the back yard, you are confronted with big vistas of other places—immense skies and endless landscapes. Magical as the most ordinary modern camera is, it has its limitations. You can't point a camera at the far horizon and expect to get a picture showing everything as far as the eye can see to left and right. For that matter, your eyes can't see everything, unless you turn your head. Remember that your camera will record only as much as you can see in the

## Surgery May Save "Blue Babies"

One of the most spectacular advances in health during the past decade has been the increased success of surgery in correcting congenital heart disease. Many lives have been saved through such surgery, and many youngsters previously doomed to a life of invalidism have now been restored to a normal, or nearly normal life.

Congenital heart disease is an irregularity in the heart itself—or in the great vessels that take blood to or from the heart. It occurs as an error in development while the child is still in the mother's womb. Sometimes this irregularity is apparent at the time the child is born; other times not for several days or perhaps even months after birth.

Surgery may be used to correct many of these conditions. However, the most common operations are performed to open up one of the main arteries carrying blood from the heart, or to correct a combination of defects in the circulatory system which prevents the blood from getting enough oxygen to supply the body. If this latter condition is not corrected the body takes on a bluish tinge—hence these babies are commonly called "blue babies."

Surgery to correct heart defects is a fairly recent medical development. In fact, it has become a common practice only within the past ten years. Thus parents should be cautioned against over-optimism. Not every child with congenital heart defects can benefit by an operation. And sometimes the defect is so mild that surgery is not necessary.

But most of the news about congenital heart disease these days is good news. After successful surgery there is often such dramatic improvement in a child's condition that it is often difficult for parents to understand that the child, who may have been a semi-invalid, can now run and play like other children.

Yes, thanks to medical science, congenital heart disease is no longer the "killer" it once was. Surgery has given hundreds of hopelessly ill children a chance to live healthy, happy lives.

—John Van Gulder

## "Lost" Planets Rediscovered

Dr. Frank K. Edmondson, Indiana University astronomer, announced recently he had discovered about 900 new pipsqueak planets and re-discovered many of those which had been "lost" for some years.

The planets are very small, and are thought to be about two miles to fifty miles in diameter. They were located during a five-year search of the heavens by Indiana University astronomers.

The discovery, according to Dr. Edmondson, will help in charting the heavens for space ship navigators—if and when such space travels become the vogue. In other words, location of the planets should minimize the danger of these planets as traffic hazards.

We will make a note of this, although we do not expect to be traveling this way any time in the near future, nor are we yet sure we can understand the traffic-hazard nature of these small planets. We assume, of course, that space ships will be traveling so fast that they might have trouble avoiding a planet some two to fifty miles in diameter, and we assume that Dr. Edmondson is taking into consideration the fact that drivers seem to be getting more and more reckless and by that time, small planets will definitely be targets for hot-rod space ship cowboys.

## Early Morning Picnicking Fun

Make breakfast time picnic time. Early morning outings can be so much fun. This is an ideal way to avoid crowds that come later in the day and to enjoy the cooling morning breezes.

For this morning meal what could be better than the time-favored ham or bacon and eggs, says Reba Staggs, home economist. Take along your old frying-pan for preparing the main course. Have an assortment of fresh fruits or fruit juice for the breakfasters while the meat and eggs are cooking. Have slices of bread to toast over the open fire, or sweet rolls wrapped in aluminum foil ready to heat. Of course, a big pot of coffee is a must.

Here's a suggestion. Have as much of your picnic basket as possible packed the night before. Come morning all you need do is slip the fruit or juice and the bacon and eggs in the basket and you're off to the picnic spot.

Rabbits are our most popular game animal.—Sports Afield.

## Bible Comment: Rightness Plus Strength Banishes Evil

THERE are two kinds of largeness or greatness; greatness in quantity and greatness in quality.

Conquerors and dictators have changed the face of history by the sheer hordes of violent men whom they have poured over vast regions, as in the days of Genghis Khan and Attila.

History is also rife with the story of how great armies have been overthrown and put to rout by much smaller forces of courageous, resolute men.

Of the latter, the Biblical and classic example is Gideon. He stands as the conspicuous example of belief in strength and greatness as consisting in quality.

That a general should reduce instead of increase his army against apparently overwhelming odds would seem to be the height of folly. Yet that is exactly what Gideon did.

Gideon's strategy and devices were relatively simple. He rejected the men, who, stooping down, took a long time to drink, and chose instead the three hundred, who quickly lapped up the water and went on.

Then, knowing how great hosts in a false cause can be put into fear and confusion, with his lamps, pitchers, and trumpets, Gideon put his fear-stricken enemy to flight.

It is a mistake to believe that the physical forces of violence and evil can be successfully opposed only by spiritual forces and means. The physical nature of the danger must be met.

What the story of Gideon emphasizes is that a strong right arm, backed by faith and courage, will win against the forces of evil.

In time of danger let us muster all our strength and then back it up with all the faith, courage and wise strategy of Gideon and his resourceful three hundred.

Ever fill a flaky pie shell with creamed chicken? It's a delicious combination and attractive too, if you bake some pastry cutouts and place them over the chicken before serving. Use any cookie cutter shape you like for the cut-outs.

If you like boneless lean cut of meat for pot roasting, use sirloin tip. When serving, cut the meat into as thin slices as possible. It will make fine open sandwiches with some of the gravy.

Beware of shiny decoys. They scare waterfowl so you'll never get a shot.—Sports Afield.

## THESE WOMEN!

"To alleviate the tension due to world conditions, I will open the meeting with a joke..."

## Ticklers

"If you must know, some crook stole our bloodhound!"

# SPORTS AFIELD

By Ted Kesting

You know that old one about meat packing plants saving everything except the pig's squeal? Well, sportsmen would do themselves a big favor if they took a page from the meat packer's book. Too many parts of deer, elk, ducks, geese and pheasant that are tops in eating if properly prepared are thrown away.

Of particular interest to the camp cook is the fact that these soft meats are tender and ready for the skillet long before most of the animal or bird. Liver and all such organs are edible and tender the same day the animal is killed. In fact, they are at their best when cool and fresh, rather than when aged like muscle meat.

Experts consider deer liver superior even to young calves liver. The same is true of elk, sheep or antelope or almost any of the accepted big-game animals which are vegetarians.

When you open the deer for cleaning, after you have spilled the intestines out, reach back for the liver. It is attached to the animal about midships and high up. At the same time take the kidneys which lie on either side, and the heart which is forward of the diaphragm with the lungs.

Place them gently in a clean canvas, plastic or rubber-lined bag and set them in the shade while you finish dressing the animal, and then get them to camp as soon as possible and lay them out in a cooler or pan of water so they can lose their heat. As soon as they are cool, cook them.

Some say it ruins the flavor and causes spoilage sooner to wash liver, heart or kidneys. But outdoor writer and amateur chef K. M. Bradford says that while he respects such an opinion, he likes them washed in cool water.

Slice the liver not more than a quarter of an inch thick and dip it in flour while the skillet is heating. The skillet should contain cooking oil or bacon grease, enough to cover the bottom well. As soon as it shows the slightest smoke over a medium flame, drop in the slices and start calling all hands. One of the secrets of this morsel is to serve it hot off the griddle.

When the juice starts coming to the surface flip each slice over and let it cook for perhaps another minute, and then onto hot plates, salted and peppered. Do not cremate over too hot a fire, nor let it set after it is done.

**THEY HOPE YOU'LL "FALL" FOR AUTUMN HATS**—Hats this fall will be small, say the nation's fashion designers, but they'll not be the leaf-size creations of a year or so back. At left, Trebor's beret-turban is of sapphire shaggy felt and Kelly jersey. Pink jewelled jersey anchors a silk-haired beaver-felt roller, by Alice May, center. At right, the cloche silhouette in Indies purple velour, trimmed with feathers in a stained-glass motif, by Walter K. Marks, was his bid for "top" billing in a recent New York City fall fashion show.

**HOT COOLING AID**—Coolest place in Chicago, Ill., during a recent heat wave was near a sweltering-hot stockyard fire. Juanita Luna, 6, took advantage of a leaky hose connection for a cooling shower.

## Behind The Scenes In American Business

By Reynolds Knight

**NEW YORK**—This year's heat is doing the farmer less damage than did last year's, and his customers more. How can that be? It's simple. Last year's drought mainly hit the wheat crop, which would have gone to the Commodity Credit Corp. in any case. This year, heat waves have damaged specialty crops; there the farmer can raise his prices to recoup some of his loss, but the customer gets less to eat.

New Jersey and Maryland, where foods are grown for canning and for eating fresh in the big Eastern cities, have seen lettuce, beans and peas wilt. Strawberries were a failure. The peach crop will be smaller; Western freestones will take up the slack, but some Easterners prefer nearby peaches.

Egg prices, still below the year-ago level, are creeping up. Eggs aren't going into storage, either, and that means higher prices this winter.

Offsets to this are rising supplies of beef, especially in the lower grades, and pork. Hog shipments to market are 20 percent above last year's. Corn is burning up in the fields, and older hogs are being sold to trim the animals' numbers to match less feed this winter. Southern pastures are brown; lower-grade cows and steer calves are moving to slaughter.

This is a short-term boon; reducing animal numbers means higher prices when herds must be rebuilt.

**TEST OF ROAD LAWS**—The state of Ohio is stepping up a two-year-old battle to prevent the flouting of its road laws by interstate highway freighters whose licenses to do business are obtained from the Interstate Commerce Commission.

The state has amended a complaint made to the ICC against Riss and Co., an interstate trucking firm domiciled in Kansas City, Mo., asking a partial license revocation because of 1272 alleged violations of Ohio laws by Riss drivers in four and a half years.

Less than two years ago Ohio asked the ICC for the revocation, alleging 596 violations. This month's amended charge cites 676 other violations in the 18 months succeeding the first complaint.

Railroads, as well as several states, have indicated a special interest in this proceeding because it marks the first time a state has sought this form of ICC protection against an interstate trucker who repeatedly violates the state's laws.

**THINGS TO COME**—The do-it-yourself addict can now attack his television set. A tube tester will check all the tubes, from the picture tube on down, as well as the wiring circuits. . . . Another do-it-yourself gadget is a soldering iron which gets hot in 2 1/2 seconds, using ordinary household (110 volts) current. . . . Young 'uns' drawings can now be preserved by proud parents in designs on pottery plates. . . . If you insist, you can buy a device that will turn parsnips into a liquid you can drink.

**MASS VACATIONS**—A small army of some 85,000 persons from 246 communities on Long Island will depart late this month for vacation spots all over the Western Hemisphere. They are the 29,000 employees of Republic Aviation Corp. and members of their families. This simultaneous vacation idea seems to be a growing corporate trend.

For two weeks the huge plant which makes Thunderbolt and Thunderflash jet fighters for the U. S. Air Force and our allies will be shut down completely except for a small maintenance crew and a few specially assigned personnel.

In its many years of experience in building first-line combat aircraft, Republic has found that plant-wide vacations interrupt production less than do the traditionally staggered individual vacations. With something like 165,000 parts going into each modern fighter-bomber, absence of only a few key employees from a few departments at critical times during the year could cause serious delays. The Air Force, too, finds the plant-wide vacation causes it less trouble.

**BITS O' BUSINESS**—Oil refinery runs will be cut back more than 100,000 barrels a day in August. Slow sales of gasoline. . . . Savings have declined. Services, not purchase of goods, take up the difference. . . . Mortgages grow larger as down payments are made easier. Average home loan in May, 1954, was \$6,484, biggest ever. . . . Department store sales in the second week of July were 5 percent above last year's mark.

## Check Seven Danger Signals of Cancer

Especially after the age of forty the number of cancer deaths skyrocket. Thus, though finding cancer early is important in any age group, it should be given particular emphasis during this age period. Periodic physical examinations offer the best opportunity for discovering cancer early when it is most curable; sometimes even before symptoms occur.

Some sites where cancers commonly occur are more accessible to examination than others. For example, breast cancer can be found by women themselves if they will periodically examine their breasts for lumps or thickening. Cancer of the uterus can be discovered by pelvic examination by your family physician.

In men, one of the sites in which cancer occurs frequently is the rectum. Seventy-five percent of the cancers of the bowel occur in the lower portion which is readily accessible to periodic examination.

If, in between examinations, you notice any symptoms which the American Cancer Society has labeled "The Seven Danger Signals," see your doctor immediately. These seven symptoms are: 1. Any sore that doesn't heal. 2. A lump or thickening in the breast or elsewhere. 3. Unusual bleeding or discharge. 4. Any change in a wart or mole. 5. Persistent indigestion or difficulty in swallowing. 6. Persistent hoarseness or cough. 7. Any change in normal bowel habits.

Cancer research has been tremendously stepped up in recent years. Solutions to most of the cancer problems may be found within the next few years. Even now x-ray, radium, and surgery can cure most cancers if found early.

But we as individuals have the responsibility of going to our doctor early. Then he will have an opportunity to help us should cancer be found.

**BITS O' BUSINESS**—With all union miners on vacation, production of coal in the week ended July 3 declined 83 percent. . . . The wholesale price index of the Labor Department rose one-tenth of one percent in the July 6 week. . . . Southern pine lumber mills reported on 85 percent increase in orders since the West Coast fire strike began. . . . Automobile retail sales of 561,200 new cars in June was 8 percent above the 1953 figure.

The pike is the one fresh water fish native in both Europe and America.—Sports Afield.

**SUMMER SNOW**—A touch of winter is featured in this Adele Simpson brief-jacketed suit of snow-flecked tweed. Preved at a New York summer showing of fall and winter fashions, the contour jacket is finished with the new "Cavalier" collar, and tops a slim skirt with a walking pleat.

## Factual News About The Eyes

**What's Your "Eye-Q"?**  
Q. What percentage of headaches is estimated to be caused by visual trouble?  
A. Twenty-five percent.

Q. What is "Daltonism"?  
A. "Daltonism" is the type of color-blindness which confuses red and green. This is the commonest type, and was experienced by John Dalton, who investigated the subject of color-blindness.

Q. What is the youngest age at which an American is known to have worn eyeglasses?  
A. Four months old.

Q. What is the derivation of the term, "pupil"?  
A. It comes from the Latin, pupilla, which is a diminutive of pupa (doll or girl). It is said to have been applied to the pupil of the eye because the beholder sees his own image reflected in it.

Q. Are yellow glasses helpful in night driving?  
A. No, they are believed to be potentially dangerous, since they cause a small loss of vision and visibility at night is none too adequate at best.

## Health & Beauty

Your legs will be getting a lot of attention during the summer and fall months. Do all that is possible to make them smooth as silk. A sun-tan and a pair of flattering nylons will do for them what powder does for your face.

However, this is only the outside dressing. Pretty legs are always legs that get enough of the right kind of exercise. Exercise will also keep them pretty longer.

Swimming has often been called the perfect exercise for your whole body and is certainly on warm days the most pleasant to take. A brisk walk or bicycle ride is highly recommended.

Even beautifully shaped legs can be made unattractive looking if they are shaggy. There is a new electric razor—just for ladies—on the market. Or—a safety razor, carefully used will suffice. You may prefer to use one of the many hair removing products. Whatever you choose, be sure to keep your legs neat.

Give your toe nails a manicure. Take time to make it a good one. It is a good idea to rub your legs and feet with your favorite hand lotion after every bath. This will keep them smoother looking.

Stockings will make you more comfortable during the heat. Bare feet inside shoes will be glued together in a few minutes. There is a new "air-conditioned" nylon.

It is made with hundreds of tiny holes along the sole. A perfect fit is more important than ever during the summer.

Most men say they like us in nylons. They also go for bare shoes with sandal-foot stockings.

### Garbage Can Essential

Even in homes which have mechanical devices for disposing of garbage, the garbage can still is essential, say health authorities. Reason: The ever-increasing use of ready-to-serve foods whose containers—cans, bottles, cans—should be put in covered, galvanized cans to await collection.

### PAPER USE

The Government has announced a decision to reduce the number of the different types of duplicating machine paper used by governmental agencies from 172 to 17. This reduction should result in a saving of up to \$1,000,000 a year, according to General Services Administrator Edmund F. Mansure, who failed to state just why even seventeen different types of duplicating paper are needed by the agencies.

## In Fashion Now

The people who decide what will be "in style" and "out of style" have long ago cast the die for the coming fall season.

Tweed, for city as well as country living, will be the outstanding fabric for tailored clothes. There will be all weights, from the new thinned-down tweed to the heaviest and softest you could desire.

There will be tweed accessories of every kind. Expect to see tweed bags, hats and even shoes. The wool and silk jersey dress are good again this fall. Since there will be more effort than ever to create a feminine effect, all kinds of soft materials will be used a great deal.

Winter cottons are still going to be popular in the warmer sections of the country. Nylon and orlon will be often seen.

While the "little black dress" and the "good black suit" is al-

**Tub Is Portable Sandbox**  
Try using a galvanized steel wash tub as a portable sandbox for small children. Side handles make it easy to carry the tub of sand to basement, garage, back porch, or outdoor play area, depending upon the weather.

**Roasted Corn on the Cob**  
Husk, remove silk and wash corn. Dot each ear with butter; sprinkle with salt and pepper. Wrap each ear in two or three thicknesses of heavy aluminum foil. Seal ends. Place ears of corn on grill or in campfire ashes and cook 8 to 10 minutes or until tender.

ways a necessity—color, styling, detail and line will be news.

Fall hats were designed with a longer, although just as smooth, hair line in mind. Dangle-type earrings will still be flattering with the new hair styles and hats.

## Ten Word INTELLIGRAM

### Check the correct word:

- 1. The Islands of Langerhans are in the (Pacific) (pancreas).
- 2. The force of gravity (does) (does not) vary at different points on the earth's surface.
- 3. (All) (some) stars vary in brightness periodically.
- 4. Man (has) (has not) the longest life expectancy of all animals.
- 5. "Moonbows," similar to rainbows, (do not) (do) occur.
- 6. (Highway accidents) (wars) have taken the greatest toll of American lives.
- 7. (Large) (small) animals use more food per pound of weight.
- 8. The (chemical) (aviation) industry is the fastest growing business in the United States.
- 9. Thunder (sometimes) (never) is heard in winter.
- 10. A bee (can) (can not) sting twice.

Check your answers, scoring yourself 10 points for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior, and 90-100, very superior.

### Decoded Intelligram

1—Pancreas, 2—Does, 3—Some, 4—Has not, 5—Do, 6—Highway accidents, 7—Small, 8—Chemical, 9—Do, 10—Can not.

## STRICTLY BUSINESS

"Did you cackle just now, Wilbur?"

## SCHOOL OPENING

(CONTINUED FROM PAGE ONE)  
blems and economics, geography, and freshmen social science; Four mathematics courses—arithmetic, algebra, geometry, and advanced math. English is offered four years and Spanish two years.

The athletic department fields teams that compete interscholastically in football where there are squads of 40 boys completely equipped, basketball where there are 20 boys competing each year, and in baseball where about 50 boys compete each season.

In intramural sports, boys and girls compete in tournaments usually by classes. Such sports as field hockey, basketball, volleyball, badminton, and softball are popular among the girls, and touch football are favorites of the boys.

The musical department offers both vocal and instrumental opportunities. The hand meets 3 times a week as a group. A mixed chorus meets twice a week and the girls chorus meets each day. In addition to the groups mentioned above, individual instruction is also given during the school day. Each year the school has solo and ensemble participants in the district contests. This department also stages an operetta annually.

Forensic work is very popular at Kewaskum. Coaching is offered in oratory, declamatory, extemporaneous reading and speaking, and original oratory. The school participates in local, league, district and state competition.

As freshmen at Kewaskum High school, you will be required to take English I and Phy Ed, and either math or algebra. The other subjects may be chosen by you.

If you are taking an agriculture or home economics or industrial arts course, the following would be recommended: Phy Ed, English I, Math or Algebra, Home Ec. I or Ag. I or Ind. Arts I; choose either social science or general science.

General Science is an introduction to science and you would study about weather, heat, electricity, water and its uses, and many other subjects from both scientific and practical viewpoints.

Social Science is a course in good citizenship and you would study the home, the school, the community

local and national governments, and your responsibilities and privileges in each.

If you are taking a commercial course, the school would recommend the following: Phy Ed, Eng. I, Math or Algebra, Social Science, choice of General Science, Home Ec. I, or Ind. Arts I.

For a college preparatory course recommended is the following: Phy Ed, Eng. I, Math or Algebra, Social Science, General Science.

Registration for freshmen was held on Tuesday, August 17. Freshmen and transfer students who have not registered may do so on the opening day of school, Tuesday, September 7.

All high school students should come on opening day prepared to pay the following fees and deposits:

Text book deposit—\$1.00  
Hall locker deposit—1.00  
Phy. ed. locker deposit—1.00  
First semester activity fee—1.00  
WIAA insurance fee—.50

The three dollars in deposits will be returned at the close of the school year when all books and padlocks have been returned.

Grade and high school buses will be picking up the children beginning Tuesday morning, Sept. 7. The high school buses will run the same as they did the first semester of last year. All grade school children residing outside of the village who are in the reorganized grade school district will be picked up by the buses.

### WOMEN'S BOWLING ASS'N TO HOLD IMPORTANT MEETING

The West Bend Women's Bowling association will hold a very important meeting, at Lighthouse Lanes on Monday evening, August 30, at 7:30 o'clock. Every member of the association is urged to be present at this meeting, especially the officers of each league. Also, anyone interested in bowling this season, is welcome to attend.

## Expect 25,000 for John Deere Day Near Waupun

The John Deere farm equipment company of Moline, Ill., in conjunction with its 135 Wisconsin and northern Michigan dealers will hold a huge field demonstration program of its full line of farm machinery. The demonstration will be held on the Ed. Guelig farms located about two miles south of Waupun between Hwys. 151 and 26, on Tuesday, Aug. 31.

More than 100 tractors and other machines in the John Deere line will be field demonstrated. Farm customers from all over the state are invited to see, ride and drive the various machines. Many other machines will be on display.

Among the new machines to be demonstrated are the Models 99 60 and 70 tractors featuring the new, factory-engineered power steering. Other items include the new No. 11T automatic twin-baler, the new No. 3 forage harvester with sickle bar-dry hay and row crop cutting attachments, pick-up-and-go farming that features the new No. 800 3-point hitch for the John Deere line, as well as many other new machines.

The entire farm tract of 249 acres will be used for the event. Practically every farm operation will be covered including plowing, disking, pan-breaking, seeding, mowing, raking, chopping dry hay, chopping corn, elevating, blowing, haling, harrowing, bulldozing, loading and many others. Spectators will be carried from plot to plot by special tractor trains. There will be ample facilities for parking. Lunch accommodations will be furnished.

Customers are invited to bring their entire family and spend the

day. Merchants and citizens of Waupun are collaborating to furnish special events, sales and programs for the ladies and children. Buses will run regularly between the demonstration area and Waupun where arrangements will be made to handle and feed an anticipated crowd of 25,000 people.

### 4-H Club News

#### BOLTONVILLE BUSY BEAVERS 4-H CLUB NEWS

Wiensers sizzled a plenty and marshmallows swelled and charred bubbles as the Boltonville Busy Beaver charcoal chefs gathered about the brightly beaming grill at the Modern Woodmen park on Wednesday evening following the regular monthly meeting.

The treat for fun with outdoor cooking was provided by the club sponsors, the Boltonville Modern Woodmen, with Harvey Dettman, chief chef, in appreciation of the community service the club had rendered in maintaining the park during the summer.

Among the activities during the meeting Eileen Laatsch, Sandra Riley, and Margo Weiss discussed articles in the Wisconsin Club Leader. For the article, "Is your

club building a booth," S. Riley evaluated the local club booth at the county fair, "Do you publicize your club activities?"

Margo Weiss was pleased to note that in the article "Give your project meetings a lift," the suggestion was made to invite another club or a Girl Scout troop which was an idea that the club had carried out during the year.

"Honesty will never be out of style," was the message that Eileen Laatsch stressed in Viola Hunt's article on "What is honesty?"

During the song period, Margo and Sandra taught some of the new songs they had learned during their three day stay at Camp Awana, in summarizing the prizes received at the county fair, the club was proud that one of their members, Jim Degnitz, had won the grand championship on his dual purpose heifer, "Anabelle," and first on his dairy heifer. The count showed that club members had six firsts, five seconds, and six thirds.

At the September 8th meeting all records must be completed to be ready for the extension office September 15, the deadline. Let's have them all ready and enjoy a possible corn roast.

Evie Staehler, Reporter

## STATE FAIR CENTURY FARM AWARDS TO COUNTY PEOPLE

Emil Schmidt, Route 1, Allenton, Joseph P. Schuster, Route 5, West Bend, and Mrs. Anna Stepan, Route 1, Richfield, received 1954 Century Farm certificates at the Wisconsin State Fair Tuesday, Aug. 21, it was learned this week from E. E. Skalsky, who represented Washington county at the award ceremony at State Fair park.

These certificates were awarded to these people for having had continuous family ownership of their farm for 100 years or more, as a part of special ceremonies at the Little Theatre, State Fair park. A featured speaker at the program was Gavin W. McKerrow, president and general manager of the Golden Guernsey Dairy Co-op, Milwaukee. His topic was "From Salt Pork to Television." D. N. McDowell, director of the State Department of Agriculture, welcomed the group and assisted in the presentation of certificates.

A total of 115 such certificates have been received by Washington county residents in former years.

## WHEN TEEN-AGERS GO A-PICNICKING

When teen-agers go a-picnicking, chances are they want an easy menu, but appetizing, of course. The easiest way is to make all preparations in advance, and a cheese and ham spread is a sandwich concoction that any Miss Teen-ager can fix herself.

This spread is good just as it is, but even better if broiled until the cheese melts. Sharp cheddar cheese combines pleasingly with the chopped ham to give a zesty flavor that is so enjoyable. The food value of cheese cannot be overlooked, as the protein of cheese is the high-quality protein of milk. The important calcium and phosphorus minerals of milk are contained in significant quantities in cheese.

Frothy, cold milk from the thermos bottle is the ideal refreshing beverage for both the picnic sandwiches and dessert. As "nature's most nearly perfect food," it gives the abundant energy needed for picnic activities.

For a dessert fixed in advance, the wise teen-ager will raid Mom's cookie jar filled with sour cream date delights. These cookies have a special goodness that comes from the sour cream used in them. Sour cream is a gourmet's treasure. If you haven't yet discovered sour cream's many uses, 'tis time to learn about them and give your husband new eating enjoyment.

Sour cream makes the tenderest of fine textured, cookies, cakes and breadstuffs. It enhances the taste of soups, blends with both garden and fruit salads, and is the finest marinating agent known for meats. You'll find sour cream in packaged paper cartons or wide-mouthed jars in the dairy section of your food store. One-half pint containers contain one

cup of sour cream and one pint containers, two cups.

If you don't have sour cream on hand and need it for a recipe, you can make some very quickly. Just add one tablespoon vinegar or one and one-half tablespoons lemon juice to a cup of table or coffee cream, or undiluted evaporated-milk. Stir and let stand from 10 to 30 minutes in a warm place until the cream thickens.

### CHEESE AND HAM SPREAD

2 cups  
1 cup shredded sharp cheddar cheese  
½ cup finely chopped ham  
¼ cup pickle relish  
¼ cup cream  
Mix ingredients in order given. To grind the ham and cheese in a food chopper use a medium blade. Delicious cold as a sandwich spread, or spread on bread and broil until the cheese melts.

### SOUR CREAM DATE DELIGHTS

greased cookie sheet  
5 doz. cookies  
400° oven, 10 min.  
¼ cup butter  
¼ cup brown sugar, firmly packed  
1 egg  
½ teaspoon vanilla  
¼ cup flour, sifted  
¼ teaspoon soda  
¼ teaspoon baking powder  
¼ teaspoon salt  
¼ teaspoon cinnamon  
¼ teaspoon nutmeg  
½ cup dairy sour cream  
¾ cup chopped pitted dates  
¾ cup chopped nuts

Sift flour with dry ingredients. Cream butter and sugar; add egg and vanilla and mix well. Add sifted dry ingredients alternately with sour cream. Fold in chopped dates and nuts. Drop by teaspoonful on a greased cookie sheet and bake in a 400° oven for 10-12 minutes.
