

Village Officials Get Salary Increase

SEEK BIDS FOR REMOVAL OF HOUSE FROM MUNICIPAL BUILDING PROPERTY

Regular Meeting April 4, 1955. The Village Board of Kewaskum, Washington County, Wisconsin met in regular monthly session with President C. Miller presiding and all board members present.

The minutes of the previous meetings were approved as presented.

Motion by J. Eberle, seconded by J. Stelplung and carried that the application of Walter Buczek for a Combination Class "B" Fermented Malt Beverage and Intoxicating Liquor License be approved and that said license be issued upon payment of the proper fee and the surrender of the present license held by Edna McKee Johnson.

Motion by C. Schaefer, seconded by C. Sparks and carried that the Commissioner place an order with the Spielbauer Fireworks Co. of Green Bay for fireworks in the amount of \$250.00 for a 4th of July celebration.

Motion by C. Sparks, seconded by J. Eberle and carried that an order be issued to the Wisconsin Electric Power Co. for the furnishing and installing of the necessary transformers, poles and wires so as to provide power to the sewage treatment plant and the sewage lift station.

Motion by C. Schaefer, seconded by C. Sparks and carried that the Commissioner be authorized to advertise for bids for the removal of the house upon the northwest portion of the Municipal Building property.

Upon motion by C. Sparks and seconded by M. Schaefer, the salary of the Village President was increased to \$500.00 per year. Roll call vote showed all members present voted "aye".

Motion by C. Schaefer, seconded by C. Sparks that the salary of the Village Trustees be increased to \$200.00 per year, said increase not to apply to those Trustees whose term does not expire this year. Upon roll call, all members present voting "aye", the motion was so adopted.

Motion by M. Schaefer, seconded by J. Eberle and carried that all bills and wages as recommended and approved by the Finance Committee be allowed and paid.

HONOR ROLL STUDENTS AT HIGH SCHOOL ANNOUNCED

Honor roll students at Kewaskum Community High school for the fifth six weeks period which ended on April 22, were as follows: FRESHMEN—Mingyong Gayan, Betty Kober, Carol Miller, Richard Pierce.

JUNIORS—Don Bradke, Helen Kuehl, Deanna Manthel, Judy Weddig.

SENIORS—James Landmann, Lyn Peterson, Norbert Rosoca, Jerry Schacht, Robert Sippel, Rosemary Strubing, Richard Wesenberg.

HOSPITAL NEWS

Mary Barry, who has been ill at the home of her brother-in-law and sister, Mr. and Mrs. Arnold Martin, Kewaskum, was removed to St. Joseph's hospital, West Bend, last Thursday.

Mrs. Louis J. Heisler, Kewaskum, was a patient at St. Joseph's hospital from Sunday afternoon to Monday afternoon for medical observation.

Patty, daughter of the E-nest Mitchells, and Peggy, daughter of the Earl Buswells, Kewaskum, submitted to tonsillectomy operations at St. Joseph's hospital last Wednesday.

ANOTHER NEW HOME

Foundation work is in progress for a new home to be erected by Mr. and Mrs. Charles Sparks, Kewaskum, in Roseland Heights.

Lakes Team Opens at Jackson Sunday

The 1955 northern division Lakes baseball season will open this Sunday, May 8, with a full schedule of four games. The Kewaskum Chevrolets will pry off the lid at Jackson. Other games will find Mequon at West Bend, Germantown at Port Washington, and Saukville at Cedarburg.

West Bend is the defending champ in the league but the three top teams of last year have lost several key men and the result should be a better balanced circuit this campaign. A schedule for the season has not yet been received.

Most of Kewaskum's games will be played under the new lights on the high school athletic field. The lights were turned on for the first time Wednesday night and the squad held a good practice session for Sunday's opener.

Jackson, the only new entry in the loop this season, under the management of Harland 'Sonny' Woldt, plans to start Don Gumm on the mound against Kewaskum. Kenny Herman will receive, Kewaskum probably will open with Johnny Tessar pitching although no announcement has been made. Tessar returned to the squad this year after sitting out last season.

The northern division loop will again play a split season, with two eight-game halves. The winner of the first half will face the winner of the second half for the divisional crown.

Indians Beat N. Fondy, Move Into Second Place

The Kewaskum Indians downed North Fond du Lac, 3 to 2, in Tri-County conference baseball action Monday. The win was the locals' fourth in five games and moved the team past Lomira into second place in the standings. Lomira was beaten by loop leading Campbellsport the same afternoon, 6-2; Hustisford shaded Rosendale, 4-3, and Oakfield shut out Brandon, 7-0.

Kewaskum gained a tie for second with Lomira by upsetting them last Thursday, 4-3, and the Lions' setback Monday dropped them to third. Lomira held a 3-0 lead over the Indians until the seventh frame when the locals scored all of their runs. David Mertzig was the winning pitcher, beating Lomira's Maury Rose. It was the Lion's first loss of the spring.

Tom Tessar got two hits for the winners but one of the main blows was a single by Norb Rosbeck in the 7th, which drove in two runs, including the winning marker.

On Thursday of this week Kewaskum was host to undefeated Campbellsport in a contest for first place. Results will be given next week.

TRI-COUNTY STANDINGS

Table with 2 columns: Team, Won, Lost. Campbellsport 5 0, Kewaskum 4 1, Lomira 3 2, Oakfield 3 2, North Fondy 2 3, Hustisford 2 3, Brandon 1 4, Rosendale 0 5.

44 WOMAN'S CLUB MEMBERS ENJOY SPRING LUNCHEON

Forty-four members of the Kewaskum Woman's club enjoyed the spring luncheon which was held at the Republican Hotel on Saturday April 23. Painted daisies in pastel colors were used to decorate the place card-tallies. On each table were flowers and candles, also in delightful pastel shades.

Honors at bridge, which followed the luncheon, were won by Mrs. Clyde Smith, L. N. Peterson, L. P. Rosenheimler, Wayland Tessar, Harry Koch, Ray Schaefer, and Allen Tessar.

WM. SCHMIDTS CELEBRATE THEIR FORTIETH WEDDING

The children of Mr. and Mrs. William C. Schmidt, Kewaskum, held a celebration in honor of the couple's fortieth wedding anniversary at the Kewaskum Opera House on Sunday afternoon, May 1. A reception was held from 1:30 until 6 o'clock and a cafeteria lunch was served at 5 o'clock. Many invited guests attended.

Kewaskum Youth Among Crew Plunged Into Sea in Air Force Plane Crash Off Iceland Coast

A 2/C ROGER JOHANN, 19, AMONG NINE CREWMEN REPORTED MISSING IN CRASH WEDNESDAY

Smokey Hill Air Force Base at Salina, Kansas, Wednesday night included a 2/c Roger Johann, 19, of Kewaskum, among the nine crewmen reported missing in a B-29 Superfortress plane that crashed off the Iceland coast earlier the same day.

Rescue craft searched Thursday for the tanker which was flying in formation when one of its engines burst into flames. The plane plunged into the sea. An oil slick was sighted but there was no immediate report of survivors.

The plane was assigned temporarily to Iceland. Its permanent station was the 301st Air Refueling Squadron based at Smokey Hill. Airman Johann, the son of Mr. and Mrs. Marvin Johann of R 2, Kewaskum, was born July 24, 1935, at St. Michaels, located about three miles east of this village. The family resides there and Mr. Johann is in business as a plumber.

The young man attended Kewaskum High school for one year, and was employed at the West Bend Aluminum company, West Bend, for eight months in 1952 before entering the air force.

He completed his basic training at Sheppard Air Force Base, Wichita Falls, Texas, and was a mechanic in the air force. The Johann family includes in addition to the parents, three brothers and three sisters. One brother is dead. Mrs. Johann is a sister of Mrs. Edward Dreher of this village. She is a daughter of Joseph Uelmen, former resident of Kewaskum.

Members of Regal Ware Staff Attend Conference

Twenty-six members of the supervisory staff of Regal Ware, Inc. attended the Wisconsin Management conference held at the Retlaw Hotel, Fond du Lac, on Saturday, April 30.

The conference, which was sponsored by the Wisconsin Council of National Association of Foremen Clubs, had as its theme "What Management Men Are." Principal speakers included Prof. of Management, Washington University, St. Louis, Missouri; and James Dorf, vice president of Pate Oil Co., Milwaukee.

Members of the Regal organization who attended the conference included Clayton Kohn, Wm. McCarty, A. Hron, Jr., Harold Seefeldt, A. Zehren, Wm. Guenther, George Eggert, Jr., Walter Buslaff, Ernest Heagler, Elmer Ebert, Clarence Reigle, Vincent Groh, Sylvester Schmidt, Elroy Hron, S. McNamara, Arthur Meyer, L. Roecker, Thomas Johnson, Ralph Strassberg, Merlin Luedtke, G. Walz, Harvey Jandre, Roger Stoffel, Gilbert Sell, Raymond Neils, and Bruce Koth.

STEEPLEJACKS AT WORK ON HOLY TRINITY PARISH

If you saw a lot of people looking up on Main street this week, they were not Civil Air Patrol plane spotters. They were just curious spectators watching a group of steeplejacks who are at work painting the clock faces and making other repairs on the Holy Trinity church steeple.

The work is being done by the Midwest Steeplejack Service of 14400 W. Bluemound Road, Milwaukee, and the men expect to be busy here for a couple of weeks. It is a thrilling sight to see the men working their way about the steeple supported only by ropes.

MEILAHNS TO HOLD OPEN HOUSE ON 50TH WEDDING

Mr. and Mrs. Carl Meilahn, Sr., Kewaskum, will observe their golden wedding anniversary this Sunday, May 8. Open house for friends will be held at the Meilahn home from 2 to 4 p. m.

School Band-Chorus Spring Concert May 18

On Wednesday, May 18, at 8:00 p. m. the Kewaskum Community High school band and mixed chorus, under the direction of Arthur H. Zens, will present a spring concert in the high school auditorium. Included in the band portion of the program will be music performed by the band at the Fond du Lac music tournaments. Featured soloist with the band will be Dick Wesenberg playing "Trumpeters Lullaby". A novelty narration "The Three Bears" and a mambo "Si Trocadero!" will also highlight the band portion of the program.

Featured soloist with the mixed chorus will be soprano Audrey Kral singing her tournament solo "Thank God for a Garden," and Carol Miller will play a class B piano solo. Carol is also accompanist for the chorus.

A program of diversified music is planned for the enjoyment of all. Admission is open to the public and admission is free. Be sure to take this opportunity of hearing your high school band and chorus in performance.

SCHOOL BAND, CHORUS ENTER FOND DU LAC MUSIC FESTIVAL

On Saturday, May 7, the high school band and mixed chorus are entering the Fond du Lac District Music Festival. Approximately 25 schools of this area will be in competition on that day.

The chorus, appearing at 9:30 a. m., will sing "Cherubin Song," "Climbin' Up the Mountain," and "Now Let Every Tongue Adore Thee." At 10:20 the band will play its three selections: "Americans We March," "Adventures of Pinocchio," and "Crimson Dawn Overture."

At 4:15 p. m. the band will be one of 35 other bands marching in a colorful parade down the Main street of Fond du Lac. Results of this tournament will be published in next week's paper.

MOTHER'S DAY COMMUNION AND BREAKFAST AT PARISH

Sunday, May 8, Holy Name Communion day at Holy Trinity church and the annual Mother's Day breakfast will take place after the 8 a. m. mass. All Holy Name members are invited to bring their wives and/or mothers to the communion and breakfast. Dr. Hugo E. Hellman, director of the School of Speech, Marquette university, Milwaukee, will be present to address the group.

COUNTY OFFICES CLOSED

The Washington county court house will be closed on Saturdays, beginning this Saturday, May 7. The county agent's office in the post office building at West Bend will also be closed on Saturdays beginning this Saturday.

COUNTY D.O.C. DANCE

A public dance sponsored by the Washington County D. O. C. will be held Saturday evening, May 14, at Richfield Firemen's hall, Richfield. Music by Pete and Marion's orchestra. Refreshments free. Admission 75c.

OUR POLICE CHIEF SAYS:

Has your driver's license expired? Check the upper right corner of your license for expiration date.

If you changed your address notify the Motor Vehicle Dept. Applications for change of address can be obtained at your police station, or any gasoline station in Kewaskum.

Weather conditions in Wisconsin at time of fatal auto accidents in 1954 were: Clear weather, 493 deaths; fog, 34 deaths; raining 44 deaths; snowing, 23 deaths; sleet, 1 death.

Mrs. Feuerhammer, Junior Prom Next Friday, May 13

Mrs. Arthur Feuerhammer, 56, nee Frieda Maske, of Kewaskum, passed away at St. Agnes hospital, Fond du Lac, on Monday, May 2. She had been ailing for quite some time and was confined to the hospital for the past five months.

A daughter of the late Albert and Louise Maske, she was born on July 25, 1899 at Cedarburg. She was married to Arthur Feuerhammer and he predeceased her on Oct. 17, 1953. The couple formerly resided on the Feuerhammer homestead in the town of Auburn, near New Fane, for 17 years. They retired eight years ago and moved to Kewaskum.

Surviving are two sisters, Mrs. Anna Staley of Chicago and Mrs. Ida Amacher of Illinois; three brothers, William, Arthur and Henry Maske, all of Milwaukee; many nieces, nephews and other relatives.

The body was in state at Miller's Funeral home from 2 p. m. Thursday until 11 a. m. Friday and at St. John's Lutheran church, New Fane, from 12 noon until the time of services at 2 p. m. Friday. The Rev. E. J. Zanov officiated and burial was in the parish cemetery.

GEORGE A. LEONARD

George A. Leonard, 78, of Slinger and Forest lake, R. 2, Campbellsport, formerly of Chicago, died at St. Joseph's hospital, West Bend, on Wednesday, May 4, following an illness of three weeks. He had suffered a stroke in February of 1954. Mr. Leonard was a retired Chicago police sergeant.

A son of the late Michael and Elizabeth Leonard, he was born on Dec. 17, 1875 in Chicago. He had a summer home at Forest lake many years. His first marriage was to Alma Huzert and she predeceased him on Feb. 22, 1950. He then married Mrs. Lydia Johnson, nee Backhaus, of Kewaskum on Nov. 5, 1952, who survives.

Besides his widow, he is survived by three sons, George, Walter and Edward Leonard, all of Chicago; six grandchildren; three great-grandchildren, and many relatives and friends.

The body was in state at Miller's Funeral home, Kewaskum, on Thursday from 7 to 9:30 p. m. It was then removed to Chicago to lie in state at the Drake & Sons Funeral home from 4 p. m. Friday until the time of services there at 3 p. m. Saturday. Burial was in Rose Hill cemetery, Chicago.

EDWARD KOHLSCHMIDT

Edward Kohlschmidt, 28, of West Bend, proprietor of the Decorah Pharmacy in that city, and brother of Mrs. Walter Baumann, Kewaskum, was found dead in bed Saturday morning, April 30, by his mother. Death was caused by a cerebral hemorrhage.

He was born in West Bend on Nov. 19, 1926. He attended West Bend high school for several terms and then transferred to Campbellsport High school, from where he graduated. After assisting his father on his farm for a time he left for Milwaukee to attend the University of Wisconsin Extension school. Later he transferred to the university at Madison, graduating in 1952. He then worked as a pharmacist in Sheboygan before opening the pharmacy in the new shopping center at West Bend last August.

Surviving are his parents, Mr. and Mrs. George Kohlschmidt, town of Barton; three sisters, Mrs. Baumann of Kewaskum, Mrs. Wm. Schenzel of Milwaukee and Mrs. Harold Stueber of Watertown, and two brothers, Carl and Albert of Milwaukee.

Funeral services were held Tuesday at 2 p. m. at the Fifth Avenue Methodist church, West Bend the Rev. D. L. Wandschneider officiating. Burial was in Washington County Memorial Park.

WILLIAM H. ODEKIRK

After an extended illness, William H. Odekirk, 78, died at his home in the town of Auburn at 11:30 a. m. Sunday, May 1.

Mr. Odekirk was born March 28,

Junior Prom Next Friday, May 13

The annual Kewaskum Community High school junior class prom will be held next Friday evening, May 13. Plans for this social event are completed and decorating of the gymnasium is underway.

King Douglas Wierman has named Adeline Ketter as his queen. It was announced at the high school recently. They will reign over the festivities. The royalty will include Gilbert Hammer and Barbara Walters, Barry Murre and Germaine Nischke, Eddie Miller and Barbara Glander, Charles Schaefer and Mary Jane Falk.

Chaperones selected by the class are: Mr. and Mrs. Edward Dunn, Mr. and Mrs. Orville Behnke, Mr. and Mrs. Giles Wierman, Mr. and Mrs. Andrew Polzean, Jr. and Mr. and Mrs. Edward Miller, Sr.

Richard Kent will provide music for the prom to the theme of "Lullabye of Broadway," which will be displayed in black and white silhouette. A marquee will be placed on the balcony above the orchestra. The theme presented to the class by Judy Weddig will be carried out in the home economics room where refreshments will be served.

The semi-formal prom is open to the public. Admission will be \$2.50 per couple and \$1.00 for spectators.

CAR BADLY DAMAGED IN ACCIDENT EARLY FRIDAY

Robert Staehler, Batavia, formerly of Kewaskum, escaped with scratches and bruises when his auto rolled over and plunged into a ditch on County Trunk Highway 8 a short distance northeast of New Fane early last Friday morning. The mishap occurred when Staehler lost control of the machine. He was thrown clear of the car. The top of the vehicle was smashed in and the rest of it was quite badly damaged.

1877, the son of Jonathan and Martha Odekirk, and was married July 17, 1901 to Elizabeth Koehler, who preceded him in death May 6, 1943. He was married to Alma Koch May 27, 1944.

Surviving are his widow; a son, Harry Odekirk, town of Auburn; a sister, Mrs. George Yankow, Campbellsport, and five grandchildren.

The body was in state after 2 p. m. Tuesday at the Twobig Funeral home, Campbellsport. The Rev. Louis Baptist conducted funeral services at 2 p. m. Wednesday at the funeral home. Burial was in Union cemetery, Campbellsport.

HERMAN ZUMACH

Herman Zumach, Fredonia farmer, formerly of Kewaskum, died at St. Joseph's hospital in West Bend on Wednesday morning, May 4 after ailing for the past three months.

Mr. Zumach was born in Germany on Feb. 7, 1884 and came to this country with his parents at the age of nine years. The family settled at Kewaskum and later moved to the town of Wayne. In 1906 they moved to the farm at Fredonia and lived there since.

He was married to the former Rosa Schultz at Silver Creek on Jan. 2, 1914. His wife survives him. Two sisters and a brother predeceased him.

Funeral arrangements had not been completed at the time of this writing. Further information may be obtained by calling the Schmidt Funeral home in West Bend.

MRS. ROBERT BACKHAUS

Mrs. Robert Backhaus, nee Minnie Buettner, 80, a resident of Kewaskum most of her life, passed away at Watertown on Saturday, April 30.

Born on Dec. 4, 1862, Mrs. Backhaus lived in this village almost all of her life. For the past eight years she had made her home in Watertown. Surviving are a son, Robert of Watertown; two daughters residing in Milwaukee, and 31 grandchildren.

Funeral services were held Wednesday afternoon at 2 o'clock in St. Lucas Evangelical Lutheran church, Kewaskum, the Rev. Gerhard Kanless presiding. Burial was in the church cemetery. The body was in state at the church from 11 a. m. until the time of services.

Jury Awards Fred Mielke \$2888.42 in Accident Suit

A Washington county jury awarded Fred Mielke \$2,888.42 in a hotly contested jury trial at West Bend before the county court on Wednesday, April 27.

Mielke, of Round lake, brought suit against Frank Ihne of Menomonee Falls for property damage and personal injuries arising out of an automobile accident that occurred on a foggy afternoon on Dec. 22, 1952, in the Kewaskum marsh on Hwy. 45. Mielke claimed he was driving south in the marsh when Ihne attempted to pass another car, both of which were northbound, and while passing Mielke said he took the ditch to the west to avoid the collision.

The jury, in a special verdict, awarded the plaintiff his expenses, plus \$800.00 for temporary pain and suffering and an additional \$1,700 for permanent injuries.

There was a dispute in the medical testimony in that the plaintiff claimed he was suffering from headaches and backaches that kept recurring ever since the accident. The plaintiff's doctor testified that his condition was permanent and that he sustained some type of a permanent back injury. The defense doctor claimed that there was no permanent injury and that any suffering that he claimed to have was not attributable to the accident.

The plaintiff was represented by Lyle W. Bartlett of this village and the defendant was represented by a West Bend attorney.

Local Students Receive State Farmer Degrees

The state F.F.A. officers and their advisors reviewed the applications of Delbert Haack and Carl Meyer and found them eligible to receive the Wisconsin Farmer degree.

Both boys are juniors and vocational agriculture students at the Kewaskum Community High school. Delbert is the son of Hilbert Haack, Fond du Lac county, and Carl is the son of Fred Meyer, also of Fond du Lac county. They are the first to receive this degree since the department was organized five years ago.

Only 249 F.F.A. members were selected to receive the degree of the 14,000 state association members.

Qualifications for this degree include: (1) Must have an outstanding farming program. (2) Must have invested in his farming program at least \$500 or have a labor income of \$500. (3) Must be an officer or have held an office in the local chapter. (4) Must be an outstanding and cooperative F.F.A. member. (5) Must be in upper one-third of class, scholastically. (6) Must have participated in school activities. (7) Must have completed two years of vocational agriculture.

Carl Meyer is presently the secretary and Delbert Haack, treasurer, of the Kewaskum F. F. A. chapter. They will attend the state F. F. A. convention at Green Lake in June to receive their charms and certificates emblematic of this degree.

FORTY-FIVE ATTEND BRIDAL SHOWER FOR MISS WARANIUS

Forty-five women were entertained Sunday afternoon at a miscellaneous bridal shower in honor of Joanne Waranius at St. Michael's church hall, Mitchell. Hostesses were Mrs. Lloyd Ehta of Kewaskum and Rosalie Waranius.

Court whist was played with prizes going to Mrs. Kenny Jandre, Mrs. Vilas Ludwig and Miss Norma Dallego. The door prize went to Miss Mary Piper. A luncheon was served.

The bride-to-be was presented with a corsage and many beautiful gifts.

Miss Waranius will become the bride of Robert Bauer Saturday, May 21.

In 1954, 7,700 pedestrians were killed in U. S. traffic accidents.

HUNTER-KILLER SUBMARINE: A post war type designed primarily to seek out and destroy enemy undersea craft.

LESSER SCAUP DUCK
© 1954 National Wildlife Federation

These ducks belong to a genus of ducks that includes the Red-head, Canvasback, Ring-necked Duck and, of course, the Greater Scaup Duck. This species is the smallest of the group with a maximum length of 16½ inches and a weight of about two pounds. In contrast, the Greater Scaup has a length of 18½ inches and a weight of 2¾ pounds; the Ring-necked, a length of 23 inches and a weight of 3 pounds; and the Canvasback, a length of 24 inches and a weight of 3 pounds.

Bluebills are commonly found at least in the winter months in large flocks or rafts often out at sea. They may feed over the mussel beds in shallower water. In summer, they feed more commonly on water plants and as a result the birds have a better flavor early in the season than later. They may feed at night diving for their food. In flight, they form an irregular wedge-shaped flock.

Lesser Scaups breed from southern Alaska to southeastern Canada and south to Colorado and Ohio. They winter in general from southern British Columbia to New Jersey and south to Panama. Birds taken from inland waters almost invariably yield a more appetizing flesh than those taken from marine environments. Only rarely can they approach the flavor of their relative the Canvasbacks. The Greater Scaup is more common on the sea and on the Great Lakes in the winter in northern United States while the Lesser Scaup is the common bird on smaller bodies of water inland.

In general the scaups appear like small high-foreheaded Canvasbacks even though this is just a crude approximation. They appear light "amidships" and darker at the ends. The Lesser Scaup seems to be larger headed than the Greater Scaup and has the head with a purplish rather than a greenish cast. Both have broad white wing-stripes but while this extends only about one-half way along the edge in the Lesser Scaup it is roughly 50 per cent longer in the Greater Scaup.

Scaups might be confused at a distance with Golden Eyes. However, in the Scaups the dark forward parts extend from the top of the head to the waterline while in

the Golden-eyes the dark area is confined to the head at least forward and even then the dark of the head bears the light circle giving the bird its name "Golden-eye."

Lesser Scaups or Bluebills usually nest in marshes. Sometimes more than one female will share a nest with the result that

a brood may seem to be excessively large. From 6-11 eggs are laid by a female. The eggs are 2¼ by 1½ inches in size and are olive brown in color. Incubation is by the female alone and requires 3 to 4 weeks. There is but one brood each year. A brood as large as 22 of course would represent the offspring of more than one female.

Unlike most other American ducks the female has a light area around the base of the bill or on the face and while the dark areas forward may in the male appear to be black at least at a distance they are brown in the female.

Because of the abundance of these birds they are likely for a long time to provide a good share

of the harvester duck population in many parts of the country. As such they figure in all plans aimed at maintaining the duck population at an optimum level. Because of this the National Wildlife Federation is interested in having their problems widely understood. —E Laurence Palmer

A sure sign of spring is the lack of it in a youngster's step as he wends his way to school.

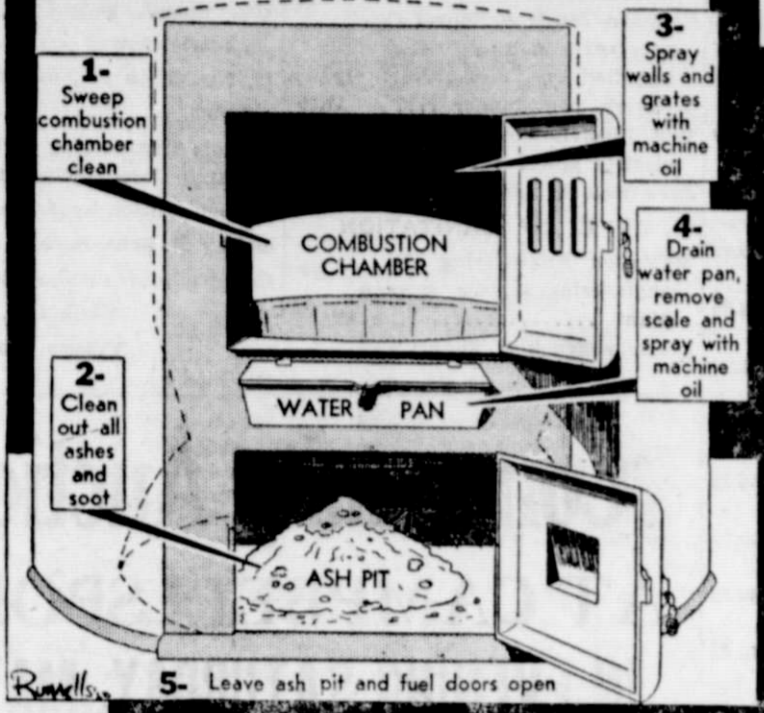

HAIR-BREADTH HARRY

SUMMER CARE FOR THE FURNACE

Summer Condition Furnace
If you have not yet summer conditioned your furnace, it should be done without further delay. Summer dampness often does as much damage to a furnace as winter usage.

Furnaces and boilers which are not used during the summer should be cleaned, and treated with oil to prevent rust.

Sweep the soot from the walls of the combustion chamber. If the heating appliance is a steam or hot water boiler, the flues should be cleaned of soot and fly ash.

Remove all ashes, clinkers, and partially burned fuel from the grates. Remove all of the ashes from the ash pit.

Inspect grates to see they are in good condition for next winter. If repairs are needed, order them now so the heating equipment will be ready to use when you need it.

Spray the inside walls of the

combustion chamber, firepot and grates with machine oil.

Leave the ash pit and fuel doors slightly open so that air can circulate up through the chimney.

Do not neglect the chimney flue and smoke pipe. Soot which is allowed to remain does considerable damage.

Fill a burlap bag with straw and weight it with a couple of bricks. Lower and raise this a few times in your chimney flue to remove the soot.

Take the smoke pipe apart and clean out the soot. Paint the outside with a good metallic paint.

Paint other exposed metal parts of the furnace with metallic paint.

Take Your Pick!
Roasts may be salted before, during or after cooking since salt penetrates less than one-half inch.

Gamma Globulin Good Protection Against Measles

From reports thus far it appears that we can anticipate a high year as far as measles is concerned. Over five times as many cases as occurred in the same period last year have been reported thus far this year by the state at large. This increase could almost be predicted since measles is a recurring disease—that is it seems to run in cycles of two or three years in individual communities.

And though most people have measles sometime in their lifetime, it should not be regarded lightly—especially in infants, young children, or older children not in good health. Measles is one of the most contagious of all diseases, especially during the early stages when there are few or no symptoms. Caused by a virus, its germs are spread through secretions of the nose or throat of infected persons during ordinary talking, coughing, or sneezing.

Though known as a "childhood disease," adults who have never had measles during childhood are usually susceptible. And like many such diseases, measles may well be more severe in adults than during childhood.

This disease is most serious during infancy, early childhood, or in children physically under par. Protection by use of gamma globulin is the most widely accepted practice in these cases.

If a person is immunized with gamma globulin during the first four days after exposure complete protection for two to four weeks results, but the patient is then vulnerable to future attacks. If immunized between the fourth and sixth day after exposure, the patient usually contracts a mild attack of the disease but permanent protection against future exposure results. Thus your doctor may decide to follow this practice and offer your child lasting protection.

When infants, younger children, and children not in good health are exposed to measles, the family physician should be called. Even in lighter cases in older children, the patient should be confined to bed during at least the first part of his illness. Measles deserves being taken seriously.

His Affair
A captain and a lieutenant were dining at the Stork Club when a corporal entered, escorting a ravishingly beautiful damsel. The captain sent a note to the corporal: "The lieutenant, who is a Princeton man, and I, who hail from Williams, bet a fin we could guess the college you come from. May we stop at your table and see who was right?"

Back came the reply: "Please don't bother, gentlemen. I am from the Audubon Institute of Ornithology and I intend to classify this pigeon myself."

Sure Enough
Farmer's Wife (to druggist): "Now, be sure and write plain on them bottles which is for the horse and which is for my husband. I don't want nothing to happen to that horse before the spring plow-in."

Pixie Pie For A Party Dessert

Pixie Pie is fun to prepare and a happy medley of flavors to enjoy at dessert time.

First of all, there's a coconut and butter crust. No rolling necessary for this. Just spread the two ingredients in a pie plate as a crust and bake until a golden brown. Then chill in the refrigerator with a rich chocolate chiffon filling.

The chocolate chiffon calls for a blending of sugar, unflavored gelatine, evaporated milk, unsweetened chocolate and eggs. It's a simple top-of-the-range cooking operation. Unflavored gelatine makes the filling high and fluffy.

Coconut Crust:
2 tablespoons softened butter 1 1/2 cups shredded coconut
Spread softened butter evenly on bottom and sides of a 9-inch pie plate. Sprinkle coconut into plate; press evenly into the butter. Bake in a slow oven, (300°F.) 15 to 20 minutes, or until crust is golden brown. Cool.

Pixie Pie Filling:
1 envelope unflavored gelatine 1/2 cup water
2/3 cup sugar, divided 2 squares (2 ounces) unsweetened chocolate
1/2 teaspoon salt 3 eggs, separated
1/2 cup evaporated milk 1 teaspoon vanilla

Mix together gelatine, 1/2 cup of the sugar and salt in saucepan. Add evaporated milk, water and chocolate. Stir over medium heat until chocolate is melted and gelatine is dissolved. Do not boil. Blend with rotary beater. Pour slowly over beaten egg yolks, stirring constantly. Return to saucepan and cook, stirring constantly, until thickened, about 3 minutes. Remove from heat; stir in vanilla. Chill until mixture mounds slightly when dropped from a spoon. Beat egg whites until stiff, but not dry. Gradually add remaining 1/2 cup sugar and beat until very stiff. Fold in chocolate mixture. Turn into prepared pie crust; chill until firm. Garnish with whipped cream. Drizzle with mixture of 1/2 square (1/2 ounce) unsweetened chocolate melted with 1 1/2 tablespoons light corn syrup.

Yield: 1 9-inch pie.

White sauce binds the flavor ingredient of croquettes to make shaping and frying possible. Any of the following may be used as seasonings, parsley, green peppers, olives, onions, curry powder, pimentos, capers, mustard, celery, horse-radish and mushrooms.

Rice Croquettes
1/2 cup rice
1/3 cup boiling water
1 teaspoon salt
1 cup scalded milk
2 egg yolks or 1 egg
1 tablespoon butter

Add rice and salt to water. Cover and cook until rice has absorbed water. Add milk, stir lightly with a fork, cover and cook until rice is tender. Add egg yolks and butter. Spread on a shallow plate to cool. Shape, dip in egg and crumbs. Fry in deep fat.

Meat Croquettes
2 cups finely chopped cooked meat
1 cup thick white sauce
2 teaspoons lemon juice
Few drops onion juice
1/4 teaspoon salt
Pepper to taste
1 1/2 teaspoons minced parsley
Fine, dry bread crumbs
1 egg beaten slightly

Add meat, lemon juice, onion juice, salt, pepper and parsley to white sauce. Cool. Form into cylinders. Dip into crumbs, then into egg and into crumbs. Chill. Fry in hot deep fat.

Cottage Cheese Croquettes
2 cups cottage cheese
2 cups bread crumbs
1/2 cup nut meats chopped
1/4 teaspoon paprika
2 tablespoons chopped onion
2 tablespoons chopped green pepper
1 teaspoon salt
1 1/2 cups milk
1 egg
2 tablespoons milk
1/2 cup crumbs

Combine cottage cheese crumbs, nut meats, and seasonings. Add milk and mix well. Form into croquettes and dip into mixture of egg and 2 tablespoons milk. Then dip into crumbs. Fry in hot deep fat. Serve with cream sauce.

Nasty!
The bachelor was paying a visit to the house of a friend, a married man, and found himself rather bored by all the talk about the son and heir of the house.

"Just fancy," said the adoring mother, "he's only 17 months old and he's been walking for nearly nine months."

"Really!" said the visitor wearily. "Don't you think its about time he sat down?"

Too Many Penguins
Hobart, Australia — There are so many penguins in the little Tasmanian community of Bruny Island that residents are debating how it can solve its unique traffic problem—too many penguins on the roads. While some suggest laying pipes under the roads as "subterranean penguin crossings," others, who doubt that penguins would take easily to subways, think low fences would keep the roads clear.

Lobster Croquettes
2 cups chopped lobster meat
1/2 teaspoon salt
1 teaspoon minced parsley
Few grains cayenne
Few gratings nutmeg
1 teaspoon lemon juice
1 cup thick white sauce
Crumbs

Add seasonings to lobster. Add sauce. Chill. Shape, crumb, and fry in deep fat.

Chicken Croquettes
1 1/4 cup chopped, cooked chick-

IT'S THE "UNCUTTING" THAT COSTS—Ohio State Representative Ed Wallace (D.) of Circleville, right, is a brave man to submit to a shearing by his barber, Sonny Denney, in Columbus, after introducing a resolution in the legislature to reduce the price of haircuts for nearly bald men. Barber Denney disagrees, looks for the evidence to prove that searching for hairs to trim is worth the usual \$1.25 fee.

Decorator's Notebook

by Alicia Joyce

The wall-to-wall arrangement is fine for carpeting, but occasionally it gets monotonous when used for furniture. The "finished-on-all-sides" treatment gives the homemaker great leeway for interesting furniture arrangements in her living, dining or bedroom.

The desk in this colonial setting proves there is no longer any need to restrict your imagination with standard furniture arrangements. This desk enjoys the unique feature of being fully finished in back, as well as in front.

As shown, either a Windsor chair or a captain's chair is ideal for this particular style of desk. The desk provides an adequate working surface and sufficient storage space. The arrangement is decorative and unusual.

There are several maple and cherry finishes available. The wood is solid birch.

Food Sense—Not Nonsense

More Than A Pattern—Cut It To Size

From foods to furniture, patterns are available for everything now that it is the vogue to "do-it-yourself." Breakfasts, too, should be made from patterns. These patterns, however, should be adjustable with mother "cutting to size" breakfasts to suit nutritional needs of each family member.

On every hand is the reminder, "Eat a Good Big Breakfast." How big is big when it means breakfast? From one of the surveys of the breakfast habits of young people, comes a basic pattern for adequate breakfasts. Purdue University judged breakfasts of women students by the following yardstick: (1) fruit or fruit juices; (2) cereal with milk, or an egg; (3) milk or cocoa made with milk; and (4) whole grain or enriched bread with butter or margarine. Of the students, approximately one-third included three of these types of food and another third, only two types. Only a few had all four and the remainder ate only one-food or did not breakfast at all.

These breakfast habits were developed at an early school age. They were found to be an indication of the student's total daily diet. If breakfast is eaten, though inadequate, the total diet will score higher than if breakfast were skipped.

Research workers at the University of Iowa found the calorie to be one of the gauges to determine the bigness of the breakfast. Young men and women whose balanced breakfasts supplied one-fourth of their daily caloric needs, were able to work more efficiently throughout the morning than when they had less or more food.

Physical activity tests revealed that a basic cereal breakfast consisting of fruit, cereal, milk and enriched bread or butter or a bacon-and-egg breakfast were equally efficient energy-wise, providing each supplied 25 percent of the daily caloric needs.

So measure and cut breakfasts to energy needs: up calories for youngsters and active adults. Be certain to include the protein and B vitamin contributing foods—enriched bread, cereals and milk.

—Mr. and Mrs. Lawrence Wallenfels of St. Petersburg, Fla., former Kewaskum residents, visited last Wednesday and Thursday with relatives.

BEING A FARMER IS A DANGEROUS JOB

Farming is one occupation which is truly dangerous when one considers the many odd jobs the farmer performs daily. He is constantly dealing with tractors, motors, hoists, shellers, pickers, threshing machines, and other types of machinery. He is likely to be injured also while handling animals, or riding machinery. Fortunately, most injuries he receives are not fatal or entirely disabling.
There is no wonder that statistics show the farmer is not as healthy as his suburban neighbor even though he enjoys the most healthful environment.
Modern mechanized farming which exerts a tremendous strain upon the bodies of farmers, demands the services of Chiropractors who are trained in the correction of structural distortions and diseases caused by such distortions.

1955 Alice in Dairyland Contest Now Underway

Plans for the 1955 Alice in Dairyland contest have been completed. The contest will reach a climax when the finals are held in Wausau on June 23 and 24.
The entry dates for this year's contest are from May 1 to 21. Any Wisconsin girl between 18-25, unmarried, and a resident of Wisconsin for one year, is eligible to enter and is certainly encouraged to do so. One change in this year's contest is that no photograph is needed with the entry blank.
The Alice contest is held each year by the State Department of Agriculture. One lucky winner is chosen and is employed by the department for one full year to promote Wisconsin agricultural products. She will appear throughout Wisconsin to assist local communities in their sponsorship of Wisconsin food product festivals and promotions. In addition, she travels throughout the entire United States as an ambassador of goodwill to encourage others to use more Wisconsin agricultural foods.
The Alice in Dairyland program is now enjoying hard-earned na-

Math. Schlaefel
OPTOMETRIST
Eyes Tested and Glasses Fitted
Campbellsport, Wis.

tion-wide recognition and is part of the intensive marketing campaign carried on by the markets division. The current Alice in Dairyland is Miss Mary Ellen McCabe, 19, of Ladysmith. To date she has made over 400 appearances in Wisconsin and travelled extensively in other states. Recently she made appearances in Denver, Colorado; Billings, Montana; Boston, Massachusetts; New Orleans, Louisiana; Cincinnati, Ohio, and Chicago, Illinois.
As Alice, Mary Ellen McCabe has presented boxes of gift cheese to governors and mayors, and on one day she visited with the Milwaukee Braves. She has appeared hundreds of times on television and radio.

Every Alice contestant should have a desire to meet people, to travel, and to do her part in encouraging greater use of the many tasty and nutritious foods produced here in Wisconsin.

The new Alice need not be an experienced speaker. If she has enthusiasm, she will learn quickly to be Wisconsin's Goodwill Ambassador.

The contest is held on a regional basis with eight regional contests planned. These contests will be held in the following cities:
May 28—Arcadia and Kewaunee;

The "Kewaskum Chiropractor"
Office Hours: Phone 27R
Mon. & Wed. 2-9 p. m.
Tue & Thur. 9 a. m.-1 p. m.

Bartelt Real Estate Agency
KEWASKUM
Phone 342

June 1—Beaver Dam; June 6—Eau Claire and Oconto; June 10—Park Falls; June 11—Portage and Clintonville.
The finals will be held in Wausau on June 23-24.
At both the regional and final contests girls appear in street clothes to be interviewed by three judges. They receive luncheon and usually ride in a spirited parade of bands and floats before being feted at the evening coronation ceremony. The experience gained as Alice will be invaluable to the winner in future years.
Remember, the entry dates for this year's Alice in Dairyland contest are from May 1 to 21. Entry

blanks can be obtained from the county agent's office, milk plants, newspaper offices, radio and television stations, and the Wisconsin State Department of Agriculture.

YOU CAN BE WISCONSIN'S 1955 ALICE IN DAIRYLAND

MARY ELLEN McCABE, 1954 ALICE IN DAIRYLAND says "Every eligible girl should enter this fascinating contest." Win one full year of exciting travel, new experiences, glamour, and fame as you represent Wisconsin and its world-famous dairy industry.

ENTER NOW.
Every contestant has an equal chance to win.
It's easy to qualify:
You must be single, over 18 years of age and not over 25 years of age as of May 1, 1955. You must have been a resident of Wisconsin for one full year and be free to devote one complete year to full-time, salaried duties as "Alice in Dairyland." No photo is necessary because of your opportunity to appear for a personal interview when you will be judged on appearance, personality, natural beauty, health, and physical qualities.
It's easy to enter:
Simply fill out the blank below and mail to "Alice in Dairyland" Headquarters, State Capitol, Madison, Wisconsin.
ENTRY DATES ARE MAY 1 TO MAY 21, INCLUSIVE

TEACUP TOPICS

By BETTY ANN
Editor of the Milwaukee Journal Women's Page

Leather clothes, still remembered as a rare luxury by our elders, this spring are reaching very wide use. And that's no accident. Today garment leathers are much more functional than ever. They have undergone technological improvements, such as new suedes that are dry cleanable like other garments, and grain leathers which can be sponged off with soap and water. Fashion designers and style authorities like leather garments, since they fit in admirably with the relaxed and informal pattern of modern living.

Leather garments range from the most casual sportswear in shorts, pedal pushers and shirts, cuffed suits and coats, to evening halters and jackets.

The many new colors in leathers lend themselves to spring and summer clothes. Newly developed processes made suede leathers as dry cleanable as any fabric. Most of the grain leathers are washable, and even the iridescent and pearlized reptile skins can be cleaned with a damp cloth without losing their luster.

Most of the leather coats you'll find have a boyish look reminiscent of the 1920's in general design, but tempered with an airy feminine feeling.

Most of the leather jackets show the influence of the loose and casual trend in their narrow, boxy silhouettes. Evening jackets are designed along the same narrow construction with natural shoulder lines, in both suede and grained leathers. Many of these feature cardigan necklines and unusual jeweled trims. The color trend in leather garments is away from pastels and stresses vibrant, flowing shades so popular this spring. These include cornflower blue, lady slipper pink, scarlet and hibiscus reds, iris purple and hot orange.

Lace, always important in the fashion picture, achieves even greater interest this year. It appears everywhere, in the tiny caps and wide brims of spring hats, demure collars on daytime dresses. Surprisingly enough tweed suits are trimmed with frilly collars, too, and lace swim suits go to the beach.

It is a smart idea to underscore the lace look with a fragrance that will set the mood for your new feminine clothes.

One perfume was actually inspired by the delicate tracery of French chintilly. Other delicate, feminine fragrances, fresh as a spring garden are Nougat, Apple Blossom Time, Joli Bouquet, Quelques Fleurs and the exquisite Joy.

For fun this spring, treat yourself to a short white glove sprinkled with black polka dots. It's sharp accent for red, smart with all black.

How brief is brief? There's one answer to this question in this season's new shortie gowns and pajamas. Gowns today are the briefest and are worn over bloomers or very short shorts. Cool sleeping is assured, for the fabrics are cotton plisse and dimities. The short waltz gown in cotton is another fashion zooming to popularity in lovely fresh prints on cotton plisse.

Test of a beautiful and becoming hairdo is not how much it does to your hair, but how little. If it is in accord with your face, your kind of hair and your disposition, it can be very minimal and be most striking.

Lemon Rice
½ clove garlic, minced; 2 tablespoons butter; 1 1/3 cups packaged precooked rice; 1 1/2 cups water; 1 teaspoon salt; 2 tablespoons chopped parsley; 1 tablespoon lemon juice; 1 teaspoon grated lemon rind.

Saute garlic in butter until golden brown. Add rice, water and salt. Mix just to moisten all rice. Bring quickly to a boil over high heat, uncovered, then cover and remove from heat. Let stand 13 minutes. Add parsley, lemon juice and lemon rind, mixing lightly with a fork. Serve with broiled or sauteed fish. Makes four servings.

High in popularity in cooking spices is curry, a flavor which blends elegantly with salmon and eggs for an appetizing meal. Serve salmon curry with rice.

Bake your favorite rich brownie recipe in a pie pan, cut in wedges and top with vanilla ice cream. Serve with a chocolate fudge sauce.

Better

Anatomy: Something everyone has, but somehow it looks better on girls.—Farronian, U. S. S. Fashion.

Parasites in fish are quite common at certain times of the season.—Sports Afield

About Your Home

It is always a temptation for the enthusiastic beginner gardener to crowd plants in hopes of getting just that many more blooms. Crowding plants does just the opposite and is a waste of time and money.

Plants must have sunlight on their leaves if they are to survive. Nature responds to crowding by making them grow tall and spindly. Often you must tie and stake them or they will fall flat.

Insects move from one plant to another with ease when the leaves of two plants touch. Disease spores are easily splashed from one leaf to another in a crowded garden.

Weeding becomes a slow, hard job. Plants should not be so close that you worry about injuring the roots during cultivation.

Plants must be able to root deeply in order to be drought resistant. Crowded plants don't get enough food to make deep roots.

Keep these things in mind when you are tempted to plant your summer flowers four inches apart instead of the prescribed eight or ten.

You will have some beautiful new petunias to choose from this spring. Better gardeners agree that first generation hybrid plants perform better in every respect than the open pollinated, field grown varieties. Hand pollinated, F1 hybrids varieties offer controlled vigor, compact habit of growth and bright new colors.

Breeders have had outstanding success with Comanche, Ballerina and Tango. This success led to the development of four brand new F1 hybrids.

Paleface is a leading new flower. The blooms come in great profusion. They are of medium size, are white and slightly ruffled. This variety is ideal for border or bed use. Height is sixteen to twenty inches.

Apache is a bright, warm rose red. It is a hybrid multiflora. The habit of growth is low and spreading. Height reached—sixteen to eighteen inches.

Sioux is a beautiful warm salmon. It blends well with any color. It produces an amazing abundance of flowers. Grows to sixteen to eighteen inches and is compact in growth habit.

Prima Donna has an extra bloom of bright rose pink. The flowers are ruffled and the plant is a dwarf type. Very effective in window boxes and borders.

All of the new "Redskins" blend beautifully and a mixed planting is most effective. The plants and blooms are long lasting and easy to grow.

Family Will Cluck With Delight Over New Chicken Recipes

By DOROTHY MADDOX

EVERYONE likes chicken, and spring birds will be on the market any day. So let's pick out two delicious recipes using broiler-fryer chickens and enjoy ourselves.

Easy Oven-Fried Chicken and Biscuits (Four servings)

One 2 1/2 pound chicken for frying, cut up; 1 teaspoon salt, 1 cup packaged biscuit mix, 1/4 teaspoon pepper, 2 teaspoons paprika, 1/4 cup each, shortening and butter or margarine; 2 cups packaged biscuit mix, 1/2 cup milk.

Dip the chicken pieces in a mixture of biscuit mix, salt, pepper and paprika to coat well. Melt shortening in a shallow baking dish (9x12x2) in a hot oven (425 degrees F.). Remove baking dish from oven and place chicken skin-side down in a single layer. Bake in a hot oven (425 degrees F.) for 45 minutes. Turn chicken. Push chicken pieces to one side.

Make biscuits, using biscuit mix and milk. Combine. Roll dough 1/2-inch thick; cut biscuits; place on bottom of pan, being sure both chicken and biscuits remain in a single layer. Bake another 15 minutes, or until biscuits are lightly brown and chicken is tender.

Lemon Barbecue Chicken

One chicken, salt, pepper, 6 tablespoons butter or margarine, 1/4 cup lemon sauce.

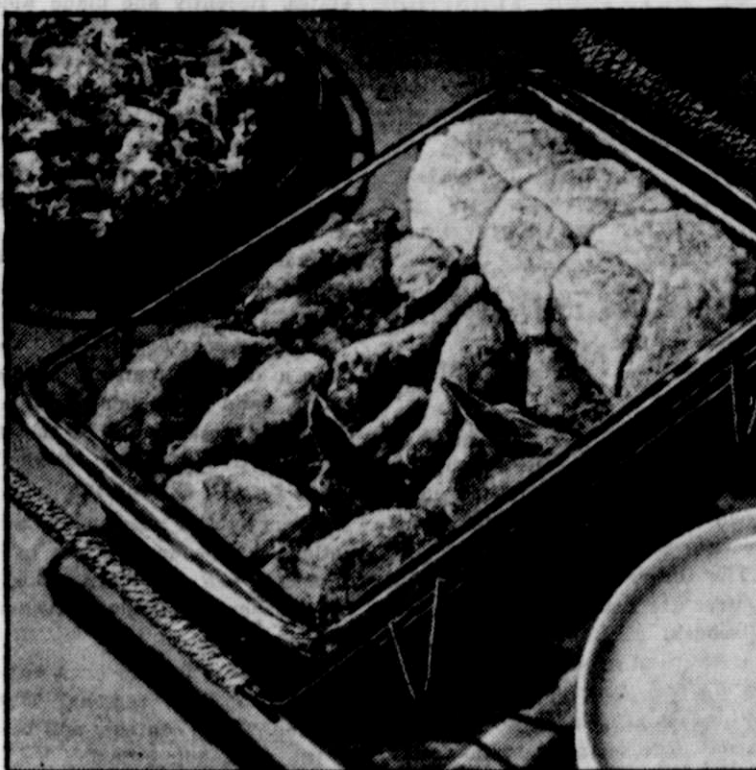

Have chicken drawn and cut into serving pieces, or, if quick-frozen, thaw according to directions on the box. Rinse in cold water and dry. Season with salt and pepper. Melt butter or margarine in skillet and brown chicken, skin-side down. Turn and brown.

Pour Lemon Sauce over chicken pieces. Cover and cook slowly until tender, about 30 to 40 minutes. Arrange chicken on platter and pour sauce over pieces.

Lemon Sauce (Yield: 3/4 cup)

One small clove garlic, 1/2 teaspoon salt, 1/4 cup salad oil, 1/2 cup lemon juice, 2 tablespoons grated onion, 1/2 teaspoon celery salt, 1/2 teaspoon black pepper, 1/2 teaspoon dried thyme.

Mash garlic clove with salt in a bowl. Add remaining ingredients

Meal with a party air for any-day eating is this easy oven-fried, chicken-and-biscuits dish. And it's also a work-saving taster-tempter to serve to company.

and mix together. If possible, allow sauce to stand overnight to blend flavors before using.

Note: Use a heavy aluminum or stainless-steel skillet for Lemon Barbecue Chicken.

Washington's Travels Commemorated

George Washington's travels are commemorated most vividly for many Americans by Emanuel Leutze's famous painting of Washington crossing the Delaware on Christmas Night, 1776, executed in Dusseldorf, Germany, over 100 years ago. But, for one select group of citizens Washington, in a sense, continues traveling daily. In an equally enduring if less picturesque manner every letter and parcel canceled "Washington" by the U. S. Mail service is a memorial to the "Father of His Country." In addition to the vast volume of mail channeled to

the nation's capital, other tons of material are routed through 30 post offices, cities and exchange points named "Washington." (Data from Official Guide of the Railways.)

In FASHION now

Accessories are an important part of any well-dressed woman's collection of clothes. This was never more important than it is right now when we use different accessories to completely change the effect of suits and basic dresses.

Accessories are used to add a touch of glamour but they can do this only as long as they are clean, fresh and pretty.

If you like to wear artificial flowers at your neck, keep them dusted and iron the petals and leaves when they begin to look wilted.

Store them with tissue paper between each bouquet.

Every pretty belt should have a place on the belt holder. Make the holder by hammering short nails into a wooden coat hanger. Hang the belt by the buckle or eyelet.

Keep your patent leather belts and handbags from cracking by wiping them with glycerin or petroleum jelly after each wearing. Plastic belts and bags can be wiped with damp cloth or, if they are soiled, with lukewarm soap suds. Always wipe them dry.

Leather accessories should be cleaned with saddle soaping and softening treatments. Always wipe dry and keep object away from heat until it is completely dry.

Keep costume jewelry in covered, partitioned containers. Never wash it in hot water. A damp cloth may be used but no harsh cleaners.

Health & Beauty

Surgery is the best treatment for hernia and many victims endanger their chance for complete recovery by putting off an operation. Some people have heard of failures or are afraid of any kind of operation. There was some reason for this attitude fifty years ago, but not today!

Modern surgery has brought the mortality rate down lower than ever before. This is true in all age groups. Anaesthetics are safer, and more skill and knowledge in administering them is used. Modern surgeons are trained thoroughly and techniques are better established.

Most hernias grow larger as they remain neglected. There is a serious chance of strangulation as long as the condition exists. The longer the bulge remains, the weaker the abdominal wall becomes. The overstretched tissues lose their elasticity, thus leaving little body for the surgeon to work on.

Large and long standing hernias are not beyond repair today, thanks to the development of metallic and plastic materials that can be sewed into the muscle to hold in the protrusion. Tantalum gauze is one of the most often used of these substances.

The metallic mesh is inserted at the time of the operation. It is nonabsorbable and nonirritating. It acts as a scaffolding for the normal growth of fibrous tissue. By the end of one year the fibers have completely infiltrated into the mesh. This covering has great strength. Meanwhile, the metallic mesh disintegrates.

WEATHERVANE

A windmill with moving figures, a dog and a horse make clever weathervanes. They will be clever additions to your yard or housetop. The pattern includes actual size outlines, directions and diagrams. Use scraps of wood and left-over paint. Clever toys could also be made. C3368, 20c. Send orders to: Homecraft Service, Journal Pub. Co., Inc., (The Colonial Company) 1243 Swift, Kansas City 16, Mo.

Factual News About The Eyes

Top Management Rates Low at Reading

Recent tests of more than a thousand typical business executives showed that almost all of them read at a speed of about 250 words a minute, according to the Better Vision Institute. This is the standard rate for seventh-grade pupils.

The executives could read approximately twice as fast if they received training from vision specialists, and if those who needed glasses wore the proper ones. Thus they could do their work much more quickly and effectively.

The importance of good reading ability is being recognized more and more today, the Institute points out. The Social Security Administration's Staff Department Committee feels that efficient reading is the key skill for administrative and professional people, and that one's reading efficiency may be a true gauge of his efficiency in handling his entire job.

STYLE WITH "PULL"—Floral taffeta pull-through is just the thing with which to accent your spring costume. Styled with a large, matching taffeta flower, one end of scarf pulls through loop under flower. Scarves come in solid colors, stripes and polka dots in addition to floral design shown.

Air Raid Notes

Federal Civil Defense Administrator Val Petersen said recently the first warning of an enemy attack would set off the biggest movements of people in the history of the United States. He revealed that some 100 cities, chief target cities in the United States, would be simultaneously evacuated.

In other words, instead of trying to guess which cities were due for attack, Petersen explained that all of the 100 prime targets would be evacuated immediately. He said that within two years, the warning radar line, to be built in the far north of Canada, would give the United States from four to six hours advance notice, rather than only two or three hours' notice. This would hold true if an enemy attack came over Canada, and would not apply if an enemy attack followed the path of the jet streams, and came in over the oceans.

If the attacks came in over the Atlantic or Pacific Oceans, the radar network which is being relied upon to give warning—radar-equipped aircraft—could give several hours' notice, but not necessarily four to six hours' notice.

These words from Petersen are encouraging but all Americans should realize that the warning system is not infallible. It is just possible that Russian planes, or even submarines, could simultaneously attack several American targets and the American people would be given no warning. For this reason, every protective measure should be taken at this time, so that if only a few minutes were available before an attack, life-saving measures could be taken in time.

While the radar picket lines are impressive, they are not infallible and the United States might not necessarily have the grace of several hours' warning before atom or hydrogen bombs drop on U. S. targets in any new war.

Tiny Moons Only 475 Miles From Earth

Amateur Astronomer John P. Bagby, of Chicago, has discovered what he thinks are small moons only 475 miles from the earth's surface. They are actually small satellites spinning around the earth at about 18,000 miles an hour.

The discovery—yet to be verified—is of tremendous military and scientific significance, and means that these small moons will probably be the first heavenly bodies to be reached by the scientists of the future.

Bagby's discovery was made with a six-inch, home-made telescope, and he has recruited a team of skilled amateur astronomers to help him identify the moons he thinks he has found. The answer to the question whether the little moons are actually there will probably be finally determined in the next few months.

Meanwhile, it appears that man's ageless search for these small moons, which from time to time have been reported by astronomers, might have been ended.

Bible Comment:

God Intends That We Be Better Than We Are

WHAT God intends us to be is undoubtedly something better than we are. Regardless of whatever we have attained, the law of the Christian life is to grow in grace and in the knowledge of our Lord and Saviour, Jesus Christ.

But if we could think of man as starting from scratch, or with an unformed life, what does God require?

First of all, honesty and uprightness; righteousness is the very foundation of the godly life. "Abhor that which is evil; cleave to that which is good." For Jew or for Christian; in fact for those of any religion, in any time or place, the essential of the good life is the same.

But the Christian life, what God intends us to be, is not all found in personal goodness. The Christian life is a life of relationships.

Man does not live alone. He has privileges and duties in relation to his fellowman as well as to God, and the nature of his life toward God, in its reality and integrity, is, in fact, determined largely by what man is toward his fellowman.

"If a man say, I love God; and hateth his brother, he is a liar; for he that loveth not his brother whom he hath seen, how can he love God whom he hath not seen?"

This is plain and very specific, and also very applicable to our present-day world of racial, religious, and sectional prejudices, jealousies and hatreds.

What a long way we have to travel before we attain to that state in which God intends us to exist!

Ticklers

By George

"I'm not pulling his tail, Mom. This maverick's doing all the pulling—I'm just holding him!"

STRICTLY BUSINESS

by McFeathers

"But does he have to use a moose call?"

KNUCKLE UNDER TO SPRING—Winter's over, for sure, when the marbles are brought out of storage. Small boys in Beverly, Mass., give the lie to the thermometer and their heavy clothes as they start the ceremonial process which is completed only when one of the lads winds up with all the aggies and taws in the crowd.

SPORTS AFIELD

By Ted Kesting

An ounce of prevention is worth you know what, so right now is the time to rejuvenate your casting reel insists Jason Lucas, angling editor of Sports Afield magazine.

We'll concentrate on the casting reel for these reasons: In most fly fishing the reel is subject to very little wear and needs almost no attention; a spinning reel does operate on each retrieve, but it too can be said to be idle during the cast. These two reels can go through a long life without much oiling or other care.

The case is quite different, however, with a casting reel. During each cast it works fast and furiously—spool, crank and gears whirling, level-wind mechanism racing madly back and forth. Perfect smoothness is necessary; without it you'll have constant backlashes, short and difficult casts.

To avoid this, your casting reel needs pretty constant attention, which includes an occasional complete overhaul. Now is the time to do it before the fishing season. Reconditioning a casting reel is a simple and interesting job that shouldn't take over an hour. It calls for mechanical aptitude, un-

less the end bearings are worn. So, before proceeding, see about those.

Remove the end caps. Take the spool between thumb and forefinger and shake sidewise. Look, or feel, to find out if there's a very noticeable amount of sidewise play. If there is, send the reel to its maker for new bearings; it cannot cast properly with worn ones. Let him do the whole overhaul job while he has the reel. It will cost very little, and he'll make it just like new.

But if the bearings aren't unduly worn, and nothing is bent, you can do the job yourself.

Remember when assembling the reel again, you work backward from what you did in taking it apart. If you have forgotten what some of these steps were, don't get annoyed or impatient and start forcing things; if something doesn't slide into place easily, you've got it wrong. Try reversing it, or try another part there.

Carve meat across the grain. Roasts are more easily carved if allowed to "set" for about 20 minutes after they come from the oven.

REASON FOR REJOICING—Not for the cattle, huddled under this shed near Tonganoxie, Kan. Their snow-covered misery reflects unhappiness of the nation's farmers at the \$50 million-plus damage to crops caused by the recent spring storms, worst in many years. Good which the ill winds blew for one section of the farm economy was the snow, welcomed by Kansas wheat farmers as an addition to the water reserve for their wheat crops.

3c Stamps Facing Oblivion Crow Hunting

The 3-cent stamp may soon step out of its role as intimate little necessity in the American everyday life.

The Post Office Department wants to substitute a 4-cent stamp for use on first class mail. If that happens, 3-centers will be plucked for the last time from the dark recesses of dainty handbags and ferreted from the worn folds of wallets and the dusty corners of office desks and home bureaus all over the letter-writing United States.

No other denomination has a history as diversified as the 3-cent stamp, says the National Geographic Society.

First Appeared in 1851
The first 3-center appeared in 1851, four years after the government started issuing adhesive postage stamps. Brick red, it carried a profile of Washington designed from a bust by Houdon.

From then until now, 3-cent stamps have provided more revenue than any other denomination. In the fiscal year 1954 alone, 10,174,398,000 were run off, bringing in some \$300,000,000. Three regular issues (1938's Jefferson, 1952's NATO and 1954's Statue of Liberty) accounted for nearly 9,000,000,000. The 1938 stamp—printed 16 years—was probably the most used stamp on record. The Liberty stamp came out in June, 1954, the first 3-cent issue inscribed with "In God We Trust."

The 3-cent stamps have composed a gallery of leading Americans and a chronicle of epic events.

At least 14 have honored Washington, from early profiles through commemoratives marking his birthday bicentennial, the end of Revolution, his first inauguration and the battle of Brooklyn. Washington's effigy appeared on a Mount Rushmore stamp and on the Washington and Lee University 200th anniversary commemorative in 1949.

Monroe, Jackson, Lincoln and both Roosevelts have adorned the 3-cent stamp—also William Penn, Webster and Generals Lafayette, Sherman, Grant, Sheridan, Goethals and Stephen W. Kearny.

Still others were: Edgar Allen Poe, Luther Burbank, Victor Herbert, Augustus Saint-Gaudens, Al Smith, Edison, Joseph Pulitzer, George Washington Carver, Clara Barton, Juliette Low (Girl Scout leader), Will Rogers, Moira Michael (founder of the memorial poppy), Joel Chandler Harris, Samuel Gompers, Betsy Ross, George Eastman, Harlan F. Stone and

THANKFUL — Middleweight Sammy Walker, of Springfield, Mass., is glad to hit the canvas with prayerful thanks after scoring a split decision over favored Milo Savage at St. Nicholas Arena, New York City. Sammy took to the canvas less willingly twice during the bout at the hands of his Salt Lake City opponent.

Casey Jones of railroad fame. Most Colored Purple

Most by far were printed in purple ink. Out of the total of more than 175 regular and commemorative issues, blue, green, and maroon tinted fewer than 50. Some were brown, lilac, black, and gray.

Commemoratives flourished in the 1930's and early 1940's under Franklin D. Roosevelt, stamp-collecting president. The peak, however, was reached in 1948 with 27 new 3-cent stamps.

Issues memorialized Byrd's second Antarctic trip, baseball's centennial, the Smithsonian Institution's 100th anniversary, dedication of Palomar Mountain observatory, the GAR's final encampment and state admissions to the union. This year two commemoratives hail the Pennsylvania Academy of the Fine Arts and the first land-grant colleges.

Should 4-cent postage win approval, the Post Office could keep the 3-center's design, merely changing the denomination. It could use the 1954 lavender Lincoln 4-center or devise a whole new stamp.

Joe on Baseball

Joe Di Maggio, for many years one of the American League's greatest baseball stars, raised a lot of eyebrows with his statement that the National League is now the most powerful league in the majors. In Di Maggio's day with the New York Yankees there was little doubt but that the American League packed more batting power than did its older rival league.

Now, however, Di Maggio thinks the weaker league is the American. He says there are only two good teams in the American League—New York and Cleveland, and possibly Chicago, as a third—and that there are more good teams in the National League. Moreover, there are more power hitters in the National League, he thinks.

All of which goes to show that nothing last forever. It was only a few years back that the famed Yankee murderers' row, and the tremendous power packed by several American League teams, was greater than anything the National League had ever seen.

Today, however, the National League packs a brand of power the American League cannot match. Some agree with Di Maggio. Who would ever have imagined Di Maggio, of the famed slugging trio of Di Maggio, Ruth and Gehri, admitting the American League was weak in hitting? Incidentally, Di Maggio picks the Yankees to win the American League pennant in 1955.

Didn't Wait to Find Out

A ventriloquist attended a negro funeral unknown to the mourners. Afterwards, one of them told another what happened at the cemetery.

"You won't believe it, Mose," the narrator said, still wild-eyed, "but when dey begins to lowah Joe in his grave, he says, 'Lemme down easy, boys.'"

"And did dey finish burying him?"

"Man, ah don't know. Ah didn't stay."

Answers To Who Knows

1. Mercury.
2. Your plumpness.
3. Literally, turning one's back on.
4. He is said to be America's first professional architect. He designed the State House in Boston.
5. William Caxton.
6. A short ton weighs 2,000 pounds; a long ton, 2,240; a metric ton, 2,205 lbs.
7. Herbert Hoover.
8. That's Gaelic for: Republic of Ireland.
9. A Japanese beetle.
10. 3,283 miles.

Who Knows

1. What metallic element was named for a Roman god?
2. If someone referred to your "embonjoint," to what would he be referring?
3. What does the word "tergiversation" mean?
4. For what is Charles Billfinch best known?
5. Name the first English printer?
6. What is the difference between a short ton, a long ton or a metric ton?
7. Before Eisenhower, who was the last Republican President?
8. Identify this country: Poblachta na H'Eileireann?
9. Just what is a Popilia Japonica?
10. How far is Hawaii from the Panama Canal?

(See Answers at Bottom of Page.)

In most fly fishing the reel does nothing during the cast or retrieve, and is subject to little wear.—Sports Afield

Sports Quiz

1. What nation won the Pan American Games?
2. What team came in second?
3. What much-talked-of horse won the Florida Derby recently?
4. Who is Jabbo Jablonski?
5. Where is Al Lopez field?

- The Answers:**
1. The United States.
 2. Argentina's team.
 3. Nashua.
 4. Cincinnati Reds' third baseman.
 5. Tampa, Florida.

hunting. A seven-and-a-half shot is recommended, and any size shotgun will do.

There is only one question we cannot answer and that is to tell the hunter what he should do with the crows after he kills them. Some people say crow meat is edible, others say it is nothing to crow about. And with that lousy pun, we will leave he subject.

Ten Word INTELLIGRAM

Check the correct word:

1. France (has) ratified rearming of West Germany.
2. (Brussels) (Bucharest) was the scene of recent rioting over a proposed cut in aid to church schools.
3. India's unit of currency is the (rupee) (dinari).
4. Druggists use a pestle and (mortar) (mortar-board).
5. The (London) (Rome) papers were recently hit by a strike.
6. Spring cold wave has ruined vast (peach) (apple) acreages.
7. U. S. (has) (has not) ratified rearming of West Germany.
8. Mario Scelba is (Italy's) (Spain's) premier.
9. Prime Minister Sir Winston Churchill (has) (has not) confirmed rumors of his retirement.
10. The (auto) (steel) industry is seeking a guaranteed annual wage.

Count 10 for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior, and 90-100, very superior.

Decoded Intelligram

- 1—Has 2—Brussels 3—Rupee 4—Mortar 5—London 6—Pestle 7—Has not 8—Italy's 9—Has not 10—Auto.

the Snapshot Guild

Spring brings many interesting activities, typical of the season. The bird-house painting picture above represents but one of the many opportunities you'll have to make excellent snapshots for the family album.

Springtime Activities Offer Good Snapshot Material

Everyone is always glad to see spring come. It is such a wonderful season, so refreshing after the comparative dullness of winter that people seem to be more active than ever. And, their activities make excellent snapshot subject material.

As you know, any activity means people in action—doing something, not just standing still for the camera. When we say action, we don't necessarily mean fast motion, but merely "something going on" that makes pictures interesting. Now, with sunny spring days before us, there's much to focus on. Planting in the garden, the first spring blossoms, tuning up Junior's bicycle and Sister's roller skates, the children's backyard tournament of marbles and tops and horseshoes, the fresh coat of paint for house or garden-gate, the brand-new litter of kittens or puppies—all these are part of the season—all are part of the family

history—and all make excellent picture material.

One of the best features of Spring's "call to action" is that every one of these activities can provide a series of pictures—a whole picture story. Consider the case of one small boy, a bucket of paint, a brush and a picket fence. Catch a "before" shot, a picture of concentrated effort as work progresses, the finished product with paint equally divided between fence and boy—and you have your own Tom Sawyer story for the family album!

Or take the antics of baby and a tiny new puppy—baby sunning himself in the playpen, the playful pup trying to get into the pen, finally baby meets dog and they're both inside looking out. Can you imagine how much pleasure such a series will give the family as they leaf through the album in the years ahead?

—John Van Guilder

Behind The Scenes in American Business

By Reynolds Knight

GUIDED MISSILES — "I believe it is safe to say that the Falcon missile is one of the most important contributions to the defense of the North American continent against air attack since the development of radar," Trevor Gardner, assistant secretary of the Air Force, said recently.

The president of the company which developed the Falcon, added that "a team of more than 1,000 scientists, engineers and technicians worked together for more than six years to perfect the missile, which is capable of destroying enemy bombers before they reach U. S. targets."

Faced with unprecedented problems of design, engineering and manufacturing, this team created new materials, designed circuits of greater precision than any before known, developed new techniques of solving the most complicated mathematical equations, and invented new methods of fabricating novel materials as well as new tools to do the job, he said.

THINGS TO COME — A new protein supplement has been added to a popular dog food. The enriched variety will be on sale this month. . . A new set of plastic toy soldiers includes eight Wacs in each set of 100. . . When you lay your winter woollens away this spring, you can get a mothproofing detergent to wash and protect in one dunking. . . Rubber finger-stalls for people handling numbers of sheets of paper may be outmoded. Now there's a collodion-like substance in which you can just dip a thumb and finger. It dries to a tacky surface.

TAKE-HOME PAY — Home, sweet home never sounded sweeter to the nation's food retailers. Groceries and supermarkets in 1954 rang up a record 53 billion dollars on their cash registers, compared with 50 billion in 1953.

The trade attributes the boost partly to the million or more new home owners. Those home owners find it easy to shop, too, thanks to the modern type of shopping centers. And television keeps them home evenings.

These factors help account for the 60 per cent rise in take-home sales of soft drinks last year. The soft drinks are made from real fruit or root juices, and packaged in easy-to-stack flat-top cans.

The cans have a baked enamel lining that protects the fresh taste of the flavors. They also assure long shelf life and prolong carbonation, so an adequate supply can be laid in at one shopping trip. Cans chill quicker and provide maximum sanitation.

COPPER UP AGAIN — While most copper, except the minor amount used in pots, pans and ornaments, is tucked out of sight, it is, next to iron and steel, the most widely used metal in this industrially active country.

Plans for increased heavy construction, the continuing housing boom, and the upsurge of automobile production have combined to create a copper shortage in this country, and now the price has had its second 3-cent boost this year.

Many consumers had expected the increase to come sooner and be even larger. Copper mined in the United States must be supplemented by imports, and those imports have been diverted to Europe by higher prices. London has paid as much as 45 cents a pound.

Copper fabricators, however, have been reluctant to follow the European price up. The reason? Aluminum. The rival metal is produced in great abundance in this country, but rolling and drawing capacity, except for use in airplanes, hasn't kept pace. The copper people are willing to pass up extra profits now, if those profits would hold an umbrella over aluminum while the skill to turn it into shapes and wire accumulated.

After all, copper has sold for as little as 5 cents a pound in the memory of many still in the business.

BITS O' BUSINESS — Price of plasticizers, used in coatings and plastic articles, are rising in sympathy with firmer oil and grease prices. . . February machine tool orders were the highest in 17 months. . . Five million pounds of nickel was released in the first quarter from the government stockpile to private industry.

Wide advertising will bring profits; that's why the biggest companies in the world spend millions of dollars on advertising. There is no other reason for it.

Doesn't Need It

First Husband: I've no sympathy for a man who beats his wife.

Second: A man who can beat his wife doesn't need any sympathy.

In The Service

T/SGT. THULL LAUDED AS OUTSTANDING AIRMAN
T/Sgt. John J. Thull of Kewaskum was featured in a recent issue of the Sembach Jet Gazette, overseas publication of the Armed Forces at Sembach Air Base Germany, entitled "Honest Toil is the Mark of True Character."

Sgt. Thull, non-commissioned officer in charge of the petroleum, oil and lubrication section of the air base, was lauded as one of the most outstanding airmen in the 66th Tactical Reconnaissance Wing. His buddies in service term Thull "one of the most dependable and hard working men in the 66th Wing. He just keeps working until the job is done, whether it happens to be 5 o'clock in the afternoon or 10 o'clock at night. He doesn't know the meaning of an 8-hour day."

Sgt. Thull attended St. Michael's Catholic grade school in St. Michaels. He began his career with the army in 1941. He served his first overseas hitch with the army combat engineers in the New Guinea and Philippine campaigns dodging Jap bullets and building pontoon bridges under fire. Returning to the U. S. in 1945, Thull worked as a mechanic in a garage, then volun-

tarily enlisted in the USAF in 1951 and was assigned to the 66th Wing as a mechanic. Two months later he was transferred to the POL section as its refueling chief while the wing was at Memphis, Tenn.

Sgt. Thull attended two petroleum schools, one at Edingburg, England, and the other at Glasgow, Scotland. The army publication also commended him for his generosity in contributing to the Air Force Aid society. His contributions to the March of Dimes 1955 campaign was the largest received from any one individual stationed at Sembach Air Base.

Thull has been overseas two years. His father died earlier this year. A brother, Leo, and a sister, Cecilia, with whom John lived while at home, live with an uncle, Oscar Thull, on R. 2, Kewaskum. John has two other sisters, Mrs. Garfield (Marie) Durocher of Van Nuys, Calif. and Mrs. Herb (Agnes) Wollner of Port Washington.

THE KEWASKUM 4-H'ERS

The meeting of the Kewaskum 4-H'ers club was called to order by President Robert Becker on April 13. Roll call was taken by the secretary.

The secretary's report was given and accepted. The treasurer's report was given and accepted. Dues were collected.

We planned to have a hike. The committee to find out where to go on the hike is Wally, Diane, A dwin and David.

We thought of many ways in which to raise enough money to have a float in the firemen's parade this summer.

Square dancing will be taught to us in the near future. Everyone is waiting for this joyous event.

The meeting adjourned.

Punch-line to the year's hottest power story—

Chevrolet "Turbo-Fire V8"!

This is the engine that's writing a whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stop-watches wherever experts gather to compare the abilities of the 1955 cars.

For example, in the recent NASCAR* stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for low-priced cars, the first two places—and six of the first ten—went to Chev-

rolets. And in acceleration runs from a standing start against all comers, the Motoramic Chevrolet beat all other low-priced cars—and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build. Chevrolet's new "Turbo-Fire V8".

It puts a new kind of fun in your driving life. You're in charge of 162 high-spirited horsepower—or if you're looking for even more excitement, the new "Super Turbo-Fire V8" (optional at

extra cost) puts 180 h.p. under your toe!

Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to everyone else on the road!
