

Katherine Kern, 95, Kilian Felix, Miss Brandt Die

Mrs. Katherine Kern, 95, nee Smaasal, widow of Joseph Kern, and one of Kewaskum's oldest citizens, passed away Wednesday evening, June 8, at St. Joseph's hospital, West Bend. She had been ill for ten days following a stroke. Prior to this she had been in good health and was very active for her advanced age.

Born Feb. 13, 1859 near St. Killian, she lived on a farm there many years. She had been a resident of Kewaskum for the past 31 years. Her marriage to Joseph Kern took place in 1880 at St. Killian. He preceded her in death on Nov. 18, 1936. The couple moved to Kewaskum in 1924. She resided with her daughter, Miss Theresa Kern, in this village.

Surviving besides Miss Kern are eight other children, John of Barton, Mrs. Clara Kohler of Kewaskum, Mrs. Mary Reuter of Milwaukee, Mrs. Bertha Strobel of Plymouth, Mrs. Olive Schmidt-bauer of Mt. Calvary, Joe of St. Killian, Miss Eleanor Kern of St. Killian and Mrs. Alice Schunhardt of Oshkosh. She also leaves 28 grandchildren, 60 great-grandchildren, and one brother, George Smaasal of Milwaukee.

The nonagenarian was a member of the Ladies' Altar society of Holy Trinity church, Kewaskum, and St. Mary's sodality of St. Killian's parish, St. Killian.

The body is in state at Miller's Funeral home since 2 p. m. Friday. Funeral services will be held at 9:30 a. m. Saturday in Holy Trinity parish, the Rev. F. C. La Bui presiding. Burial will take place in St. Killian's cemetery. Six grandsons will serve as pallbearers.

KILIAN J. FELIX

Kilian J. Felix, 39, of St. Killian, died Thursday morning, June 9, at Maudslade sanatorium, Milwaukee. Although in poor health for many years, his death came quite unexpectedly.

He was born Feb. 1, 1916 at St. Killian and was not married. Survivors are his mother, Mrs. Anne Felix of St. Killian, and the following brothers and sisters: John, Leo and Rose Felix of St. Killian, Mary (Mrs. Norbert Heiting) of Random Lake, Alphonse of West Bend, his twin sister Catherine (Mrs. Edward Hawig) of Wayne, Anna (Mrs. Gilbert Reindl) and Frank of Kewaskum. He is further survived by four sisters-in-law, three brothers-in-law, and twenty-four nieces and nephews.

He will lie in state after 10 a. m. Sunday at Miller's Funeral Home, Kewaskum. Funeral services will be held Monday at 9:30 a. m. from the funeral home and at St. Killian's church, St. Killian, at 10 o'clock. The Rev. J. B. Reichel will officiate and burial will be in St. Killian's cemetery. He was a member of the Holy Name society of St. Killian's parish, the members of which will hold a rosary vigil at the funeral home Sunday evening at 8 o'clock.

ARLENE K. BRANDT

Miss Arlene (Arliegh) K. Brandt, 63, of Milwaukee, a resident of Kewaskum nearly all of her life, passed away on Monday, June 6, in Milwaukee after being seriously ill the past two weeks with heart disease.

Miss Brandt was born Nov. 12, 1891, in Milwaukee and came to Kewaskum with her parents when a child. She made her home in this village until four years ago when she went to live with her brother and sister-in-law, Mr. and Mrs. Harvey Brandt in Wauwatosa. She was a daughter of the late Louis and Christina Brandt.

Her parents, one sister, Elsie, and one brother, Melvin, preceded her in death. Surviving are one brother, Harvey Brandt, of Wauwatosa, one sister-in-law, Elsie Brandt, and three nieces, Mrs. Marjorie Herzinger of Cedarburg, Mrs. Shirley Weger of Wauwatosa and Mrs. Harriet Kowalsky of Chula Vista, Calif. Funeral services were held at 2 p. m. Thursday at Miller's Funeral

Short Course Scholarship Awarded to Jerome Nigh

Jerome Nigh, son of Elmer Nigh, town of Auburn, in Fond du Lac county, has been chosen to receive the first annual farm short course scholarship awarded by the Bank of Kewaskum.

The scholarship is a gift of \$200 from the bank, intended to encourage education of local young farmers and to promote successful farming in the Kewaskum area. Jerome was chosen for his excellent work in his four years of vocational agriculture at Kewaskum Community High school and his year and a half's service as president of the F.F.A. chapter. He also received this year's DeKalb award as the most outstanding senior agricultural student.

The farm short course at the University of Wisconsin is designed for young men of 17 years or over who expect to farm. Covering three winter periods of five weeks each, the course, which is held from the middle of November to the middle of March, provides training in both the natural and the social sciences as they relate to the problems of Wisconsin farmers.

LIBRARY TO HOLD WEEKLY STORY HOUR FOR CHILDREN

For the first time, a weekly Story Hour for children will be held, from ten to eleven a. m. on each Tuesday, at the Kewaskum Public Library. The program will include two groups, one for children of pre-school age, and the second for children of six years of age or older. Beginning June 21, the Story Hour will run eight weeks through August 9.

The project will be conducted by sixteen high school students under the supervision of Mrs. Fred Schlieff and Mrs. Milton Borchert, local librarians.

HOLY NAME BREAKFAST, ELECTION OFFICERS

The Holy Name society of Holy Trinity parish will receive Holy Communion in a body during the 8 a. m. mass Sunday, which will be followed by a breakfast. A business meeting will then be held during which the annual election of officers will take place.

JACOB "JACK" THULL

Jacob "Jack" Thull, 43, who operated a farm in the town of Kewaskum, died at St. Joseph's hospital in West Bend on Friday, June 3. He had been ill since March of this year.

Mr. Thull was born in the town of Farmington on April 11, 1912. His marriage to Crescence Schneider took place on Nov. 29, 1939.

Surviving are the widow; two children, Christine and James; six sisters, Veronica and Rosina Thull of the town of Kewaskum, Irma (Mrs. Ervin Mueller) of the town of Farmington, Lily (Mrs. Ray Uelmen) of the town of Kewaskum, Marie (Mrs. Herbert Klasinger) of the town of Farmington, and Anna (Mrs. Ben Klesmith) of the town of Wayne; and two brothers, Theodore Thull of Trenton and William Thull of the town of Kewaskum.

Mr. Thull was a member of St. Michael's Aid society of St. Michael's congregation, and a member of the church choir for 25 years. He was also a member of the West Bend council, Knights of Columbus, and a trustee of the Orchard Grove Cheese factory.

Funeral services were held Monday morning at 8:15 o'clock at the Kapfer-Gehl funeral home in West Bend, and at 10 o'clock at St. Michael's church, St. Michael's Rev. Mathew Urban officiating. Interment was in the parish cemetery.

WILLIAM BECKER

William Becker, a resident of Elmore for years, died of a heart attack at 8 a. m. Thursday, June 9, at his home. The body is at the Twobig Funeral Home at Campbellsport, where further information can be obtained.

35 Runs, 40 Hits and 17 Errors As Chevs Lose 1st Nite Tilt; Eden Here Next

Thirty-five runs crossed the plate, 40 hits were belted and 17 errors were committed in Kewaskum's first home game played under the new lights last Thursday night as Grafton "nosed out" the Chevs, 19 to 16, in a wild, 3 1/2 hour marathon that lasted until 11:30 p. m. before the lights were finally turned out. A good crowd turned out for the night opener although graduation kept many away.

Just about everything that could happen in a ball game occurred in Thursday night's shindig. Runs were a dime a dozen as only one

RAIN WASHES OUT NIGHT GAME WITH SAUKVILLE

Kewaskum's second Lakes game under the lights scheduled for Thursday night of this week was rained out and will be played at a later date, Bobby Helm and Johnny Tassar were slated to face each other in what was expected to be a pitcher's battle. The next night tilt will be an exhibition against Eden next Thursday.

scoreless inning was played, the ninth. Each team collected 20 hits. Grafton was charged with five errors and Kewaskum with "only" 12, thanks to a liberal score marker. Not a fly ball was caught by the Chev outfielders but this can be blamed partly to being unaccustomed to playing under the new set of lights. And the base running left much to be desired.

When the dust finally settled neither starting pitcher was around, which is obvious from the score. J Haupt and Zahn twirled for the winners and Glen Backhaus, Killy Honeck and Bob Felix took turns for the losers. Haupt was the winner and Backhaus the loser. The loss was the Chev's second in four games.

Nine extra base blows were clouted in the tussle, five by Kewaskum. Augie Bilgo enjoyed a perfect night with two triples and three singles in five trips. Wayland Tassar and D. Rowe each garnered three hits, Tassar's blows including a homer and double. Junie Dickman and Pitcher Zahn led the visitors, each with four hits.

Kewaskum has no league game scheduled this next week and will play an exhibition tilt with Eden under the lights here next Thursday night at 8 p. m.

Table with columns AB, R, H for Kewaskum and Grafton players.

Table with columns AB, R, H for Grafton players.

BIRTHS

SAUER—A daughter to Mr. and Mrs. Clarence Sauer, R. 3, Kewaskum, Friday, June 3.

KOUGL—Mr. and Mrs. John Kougl announce the birth of a son, John Douglas, born April 29. At present John is stationed at Norfolk, Va. He holds the rank of RD 2 with the navy. John is a son of Mr. and Mrs. F. J. Kougl, R. 1, Kewaskum. He writes that mother, father and son are all doing fine and asks that we continue sending his paper to the USS Currituck. At present he is on temporary additional duty, assigned to Shore Patrol Headquarters in Norfolk.

High School Bond Issue Favored By Voters 443 to 258

DISTRICT ELECTORS APPROVE OF BONDING PROGRAM TO FINANCE NEW BUILDING AT ELECTION TUESDAY

Electors of the Kewaskum Community Union High School District Joint No. 2, at a special referendum election held Monday in the high school gymnasium, voted 443 to 258 in favor of issuing \$450,000 in general obligation bonds to finance the cost of constructing a new high school building for the district.

A total of 701 ballots was cast during the voting hours from 7 a. m. until 8 p. m. This figure is about half of the total voting power of around 1500 in the district. The bond issue was proposed several weeks ago and officials of the district set June 6 as the day for conducting a referendum. The vote was among the electors of the consolidated school district.

Site for the new structure is to be north of the present high school building in the village. Construction is expected to get underway as soon as working plans are completed and bids are received for the work.

The resolution, as presented to the voters of the district, who voted yes or no, read as follows:

Shall the following initial resolution be approved:

Initial resolution authorizing \$450,000 general obligation bonds. BE IT RESOLVED by the District Board of Kewaskum Community Union High School District Joint No. 2 of the Village of Kewaskum, Washington County, Kewaskum, Barton, Farmington, and Wayne Townships, Washington County, Wis., Ashford, Auburn Townships, Fond du Lac County, Wis., that there shall be issued \$450,000 general obligation bonds of said school district for the purpose of erecting and equipping a new high school building in and for said school district. Provided, however, that such bonds shall be issued in such manner that the aggregate indebtedness of said district shall never exceed the constitutional debt limit.

WHEREAS, the said Village President had consulted with the Department of Taxation and the Department of Taxation has authorized the employment of Doane Appraisal Service of Saint Louis, Missouri at a compensation of \$3,650.00 for assessing of all Real and Personal property, not exempt, in the Village of Kewaskum above to be approved by the Department of Taxation.

Baptisms of Several Infants Take Place

The infant son of Mr. and Mrs. Alan Stoffel, Kewaskum, was baptized Sunday afternoon by the Rev. F. C. La Bui in Holy Trinity church, Zachary Carl is the name of the baby. Sponsors were Mr. and Mrs. Robert DuPont of Milwaukee. Mrs. DuPont is a sister of Alan Stoffel.

The little son of Mr. and Mrs. Gregor Nigh, Kewaskum, was also baptized Sunday afternoon by Rev. La Bui in Holy Trinity church. He received the name Gregor Elmer and his sponsors were Mr. and Mrs. Elmer Nigh of the town of Auburn, the paternal grandparents.

Mr. and Mrs. John Wahnschaffe, Kewaskum, had their infant daughter baptized Sunday at 10 a. m. by the Rev. Gerhard Kanies in St. Lucas Ev. Lutheran church. She was named Bonnie Joan. Mrs. Lorena Dettman and Frank Kut of Kewaskum and Mrs. Bessie Schiltz of Near Beechwood were sponsors. Other guests entertained included Miss Paula Kohler, Sylvester Dettman, Mr. and Mrs. Harold Bath and daughter Susie.

Mr. and Mrs. Donald Quass, R. 2, Kewaskum, entertained Sunday May 29, in honor of the baptism of their little son and the 7th birthday of their daughter Gloriann. The infant received the name Russell Daniel and had as his sponsors Daniel Miller of Milwaukee and Myrtle Quass of West Bend. The baptism took place in the new St. John's Lutheran church, West Bend and was performed by the Rev. Waldemar Sauer. Guests were entertained for dinner and supper in honor of the double celebration.

FRESHMEN REGISTRATION AT HIGH SCHOOL MONDAY

Registration for all freshmen who will be entering Kewaskum Community High school next fall will take place on Monday, June 13, from 8:30 to 11:30 a. m. All new students should register at this time also. Pen and pencil will be needed. It is important that you be on hand for this early registration.

Board Engages Firm to Reappraise All Taxable Property in the Village

Special Meeting May 24, 1955

The Village Board of Kewaskum, Washington County, Wisconsin, met in special session with President C. Miller presiding and all board members present except Trustee Eberle.

The matter of having a reappraisal of all taxable property within the village was again discussed. Resolution 55-2 was introduced by Trustee C. Schaefer.

RESOLUTION 55-2 WHEREAS, an emergency exists in the assessment of our village, which, in our judgement, it is impossible for the local assessor to handle,

BE IT RESOLVED that the Village President consult at once with the Department of Taxation, explain the situation to such body, and ask it to approve the hiring by this body of additional and expert help under the provisions of Section 70.55 of the Statutes to aid it in making the 1955 assessment of the district in order that an equitable assessment may be made in substantial compliance with law.

It was moved by Trustee M Schaefer and seconded by Trustee Reigle that Resolution 55-2 be adopted. Upon roll call, there being 4 "AYE" and 1 "NO", the resolution was so adopted.

Resolution 55-3 was introduced by Trustee Reigle.

RESOLUTION 55-3 WHEREAS, an emergency exists in the 1955 assessment of the property of our taxation district, and a resolution was duly adopted by this body on the 24th day of May, 1955, setting forth that an emergency existed and authorizing the Village President to consult with the Department of Taxation, explaining the situation, and ask that it approve the hiring by this body of such additional and expert help as deemed necessary to aid the assessor in making an equitable and lawful assessment of the taxation district, and

WHEREAS, the said Village President had consulted with the Department of Taxation and the Department of Taxation has authorized the employment of Doane Appraisal Service of Saint Louis, Missouri at a compensation of \$3,650.00 for assessing of all Real and Personal property, not exempt, in the Village of Kewaskum above to be approved by the Department of Taxation.

NOW, THEREFORE BE IT RESOLVED that the said Doane Appraisal Service of Saint Louis, Missouri be and it is hereby appointed to aid the assessor in the assessment of this taxation district at the compensation set forth above, under the authority conferred by Section 70.55.

It was moved by Trustee C. Schaefer and seconded by Trustee Tassar that Resolution 55-3 be adopted. Upon roll call, there being 4 "AYE" and 1 "NO", the resolution was so adopted.

The appointment of Harry J. Schaefer as operator of the new Sewage Disposal Plant at the starting salary of \$275.00 per month was confirmed by a four to two vote of the members of the Board.

Motion by C. Schaefer, seconded by J. Reigle and carried that Edward Steinmetz of West Bend be engaged to construct for the Village of Kewaskum approximately 2500 feet of concrete curb and gutter at the quoted price of \$2.05 per linear foot.

Upon motion by W. Tassar, seconded by J. Stellpflug and carried, the Board adjourned to Wednesday evening, June 1, 1955 at 8:00 p. m.

William S. Martin Commissioner

RICHARD REIGLE AWARDED BACHELOR OF ARTS DEGREE

Richard V. Reigle, son of Mr. and Mrs. James O. Reigle, was among approximately 140 seniors who received degrees Sunday, June 5, at the 195th commencement ceremonies at Mount Union college, Alliance, Ohio. Reigle, whose father is president of Regal Ware, Inc. in Kewaskum, was awarded a bachelor of arts degree.

BEGIN SUMMER RECREATION PROGRAM MONDAY, JUNE 20

The summer recreation program will begin on Monday, June 20 in Kewaskum. Games of all kinds will be played including baseball, softball, volleyball, badminton and croquet for both girls and boys. Arrangements are being made for swimming. Watch for the recreation schedule next week.

BEHNKE FAMILY MOVES

Mr. and Mrs. Orval Behnke and family have moved from the Jim Andrae home north of the village into the Dr. Sylvester Driessel home on Prospect ave., formerly occupied by Art. Eichstedt.

Joyce Ann Coulter, Vernon Wulff Wed

Married in Salem Ev. and Reformed church at Wayne by the Rev. Donald Koehn at 2 o'clock Saturday afternoon, May 28, were Miss Joyce Ann Coulter, daughter of Mr. and Mrs. John D. Coulter, R. 3, Kewaskum, and Vernon J. Wulff, son of the Wm. Wulffs, R. 2, West Bend. During the service Armand Mertz sang "Because."

The bride's gown of lace and net over satin featured a low V neckline with lace and net applique and pearl and sequin trim. The ace fitted bodice had long sleeves and the full skirt of flounces of net had applique of lace for trimming and an accordion pleated panel of net flounces accenting the front. Lace, net and sequins trimmed the huge fan shaped train. Her lace trimmed veil was finger tip length and fell from a bonnet of lace embroidered with pearls and sequins. An orchid was centered in her bouquet of carnations and ivy.

The bride was attended by her cousin, Miss Mary Coulter, as maid of honor. She was attired in a yellow taffeta and net gown fashioned with a fitted net bodice, taffeta midriff and taffeta bolero with cap sleeves. Net flounces edged with ruffles formed the very full skirt. In her hair she wore a horsehair tiara with yellow flowers. Her flowers were a cascade of aqua and white carnations. The bridesmaids, Miss Lorna May Wulff, cousin of the bridegroom, Miss Gladys Boden and Mrs. Paul Blumer, friends were identically gowned in aqua, bon bon pink and ice blue ensembles. They carried bouquets of carnations and ivy. Little Linda Wulff, the bridegroom's niece, served as flower girl. She wore a white taffeta and lace frock with puff sleeves and a full taffeta skirt with lace flounces. Her flowers were like those of the bride.

Eldon Wulff served as best man for his brother, while Kermit Coulter, the bride's brother, Lloyd Verhaalen, a friend, and Sheldon Schilling, cousin of the bridegroom, acted as groomsmen. Ushers were John Spoerl, Sr. and Robert Clausen, cousins of the couple, John Spoerl, Jr., cousin of the bride, was ring bearer.

Supper was served to 125 guests at the Wayne school hall and an evening reception was held at the Zivko-Gonring ballroom, Big Cedar lake.

Following a wedding trip to an undisclosed destination, the newlyweds will be at home on Route 2, West Bend, where the bridegroom is engaged in farming. He is a graduate of West Bend High school and the University of Wisconsin. The bride, a Kewaskum High school graduate, is employed by the West Bend Mutual Fire Insurance Co.

BACKHAUS-MORENZIEN

Miss Janice Mae Backhaus daughter of Mr. and Mrs. Frank Backhaus, Campbellsport, R. 2, became the bride of Earl W. Morz (CONTINUED ON LAST PAGE)

MR. AND MRS. VAL. PETERS OBSERVE 60TH ANNIVERSARY

Mr. and Mrs. Val Peters were to Whitefish Bay on Sunday where they were guests at the home of their son-in-law and daughter, Mr. and Mrs. Jack Strachota, honoring the Strachotas' son John on his graduation from Marquette High school. This day also marked the sixtieth wedding anniversary of Mr. and Mrs. Peters and the thirty-third wedding anniversary of the Strachotas. Congratulations.

ST. LUCAS LADIES' AID, GUILD ENJOY OUTINGS

Members of the Ladies' Guild of St. Lucas Evangelical Lutheran church enjoyed an outing to Milwaukee on Tuesday where they visited the Children's Home and the Goodwill Industries.

On Wednesday the Ladies' Aid of St. Lucas parish held their annual outing and went on a trip through the Wisconsin Home for Women at Tayehedah and the Verifine Ice Cream Co. at Fond du Lac.

CALLING ALL SPORTSMEN

Members of the Kettle Moraine Sportsmen's association of Kewaskum are urgently requested to help complete the work on the pheasant pens. Workers are asked to come and help either this Saturday or Sunday. The pheasant chicks are growing and are becoming overcrowded in their present pen. Therefore it is necessary that the new pen be completed to provide room for them.

Kewaskum to Have Annual Meeting of Red Cross Chapter

This year the annual meeting of the West Bend Chapter of the American Red Cross will be held at the St. Lucas Evangelical Lutheran church Fellowship rooms, Monday evening, June 27. The dinner will be served at 6:45 o'clock by the ladies of the host church.

The 20th anniversary of the organization of the local chapter will also be observed. It was in 1935 that the Washington county chapter became two separate units, namely Hartford chapter and West Bend chapter.

Charles Sparks, assisted by Marvin Martin of Kewaskum, will be in charge of the program and meeting arrangements. Judge Milton L. Meister, will preside during the business session. Reservations for the dinner at \$1.50 per person may be made by notifying Mr. Sparks at Kewaskum or the Red Cross office, Federal 4-5687, West Bend.

SAFETY PATROL BOYS, GIRLS VISIT CAVE OF THE MOUNDS

The safety cadet patrol boys and several girls of Kewaskum visited the Cave of the Mounds and Little Norway, west of Madison on Monday as guests of the Kewaskum Kiwanis club. The group of 40 made the trip in a Johnson Bus Service bus. They left at 8 a. m. and returned at 6 p. m. All of the boys and girls enjoyed the trip which proved very educational to them. The group was accompanied by Mmes. Alfred Kral, Carl Baekhaus, Lee Honeck and William Martin. Chief of Police Roland Pied was in charge of the cadets and drove the bus.

MR. AND MRS. VAL. PETERS OBSERVE 60TH ANNIVERSARY

Mr. and Mrs. Val Peters were to Whitefish Bay on Sunday where they were guests at the home of their son-in-law and daughter, Mr. and Mrs. Jack Strachota, honoring the Strachotas' son John on his graduation from Marquette High school. This day also marked the sixtieth wedding anniversary of Mr. and Mrs. Peters and the thirty-third wedding anniversary of the Strachotas. Congratulations.

ST. LUCAS LADIES' AID, GUILD ENJOY OUTINGS

Members of the Ladies' Guild of St. Lucas Evangelical Lutheran church enjoyed an outing to Milwaukee on Tuesday where they visited the Children's Home and the Goodwill Industries.

On Wednesday the Ladies' Aid of St. Lucas parish held their annual outing and went on a trip through the Wisconsin Home for Women at Tayehedah and the Verifine Ice Cream Co. at Fond du Lac.

CALLING ALL SPORTSMEN

Members of the Kettle Moraine Sportsmen's association of Kewaskum are urgently requested to help complete the work on the pheasant pens. Workers are asked to come and help either this Saturday or Sunday. The pheasant chicks are growing and are becoming overcrowded in their present pen. Therefore it is necessary that the new pen be completed to provide room for them.

LAST SHEEPSHEAD TOURNEY

The final sheephead tournament of the season will be held at Heiler's tavern, Kewaskum, Monday night, June 13. Entry fee \$2.15. Everyone welcome.

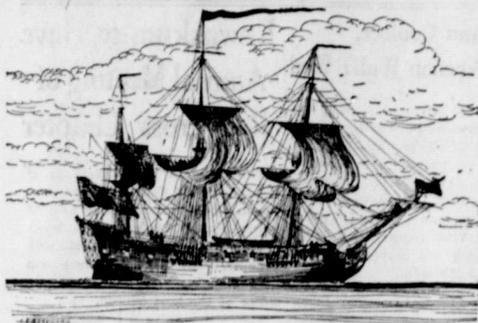

Prize winners at the last tourney were: 1. Arnold Hawig, 58-8-50; 2. Louis Heiler, 34-6-28; Neal St'auth 32-6-26.

Our Police Chief Says:

All automobile accidents must be reported to the police, if there is \$100.00 or more property damage, and all injuries must be reported to the State Motor Vehicle Department within ten days.

A Famous American Ship

The BETHEL, which in 1746 captured a 100-gun Spanish frigate, was a typical American merchant vessel of her day.

When not serving as a privateer, this vessel brought rum and other luxuries to the Colonies. Today's American merchant fleet of tankers, colliers, freighters and passenger ships serves an equally important dual role — vital in war as in peace.

THE ADMIRAL COULDN'T DO BETTER—Hospital Corpsman Robert Brown, of Clearfield, Pa., presents his young tar to view for a happy Navy couple at the National Naval Medical Center, Bethesda, Md. Brown is one of four land-based corpsmen assigned to infant care for Navy dependents.

Booklet Assists In Preparing for H-Bomb

The Civil Defense Administration has released a million copies of a new booklet, giving all Americans general instructions for adequate preparation against an H-bomb explosion.

The new booklet, which the head of every family should acquire unless he has something similar to it, outlines the four circular belts around the detonation center of an H-bomb explosion and tells what should be done if you happen to be in any of these belts when an explosion occurs.

The zones are called rings, and if you are unfortunate enough to be in the A-ring, a central area around the bull-eye of the explosion, you will have very little chance of survival. However, if you are in the B, C, or D rings, your chances of survival will depend upon the protective steps you have taken.

The B-ring is three times as large as the A-ring, and injury is likely to be severe unless complete protective measures have been taken. The D-ring is an area larger than any of the other rings, in which the primary danger would be from a radioactive fallout.

These are the steps you should take now, if you are to be prepared in case of a sudden emergency. 1. Learn official Civil Defense action signals. 2. Prepare your home by getting a Civil Defense disaster first-aid kit, and prepare yourself to combat home fires if you are near a likely target. Maintain a three-day emergency supply of food and water in your homes at all times. In addition, you should prepare some sort of air-raid shelter, and learn how to practice emergency sanitation procedures which might be necessary.

3. If possible, join your local Civil Defense organization, and also be prepared to move promptly from your home if this becomes necessary. 4. Memorize the frequencies 640 and 1240 on your standard A. M. radio. This is where official information and instructions will come from in an emergency.

Policewomen

The recent increase in the number of women officially employed as policewomen has met with favorable results in every section of the country. However, this is not something new—at least, not in principle.

It is true that in recent years, women have been employed in

greater numbers than before but their work—as law officers spans many decades.

In Westchester county, New York, a deputy sheriff known as "Little Mac" is an example of what we are talking about. "Little Mac" is the wife of a retired woodworker and a great grandmother to boot.

She began to work, for the law,

in 1913, in the Sheriff's office. Recently, in White Plains, where she works, she was assigned to the trial term of the State Supreme Court, and it happened that this day fell on her eighty-third birthday anniversary.

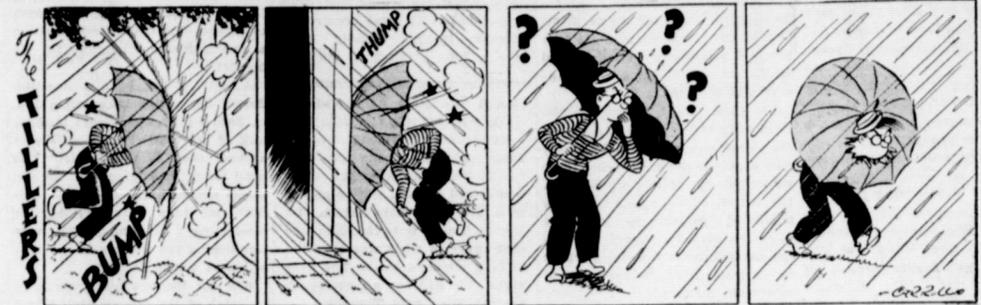

We point this out to all those police officers who feel that they are getting old as such young ages as fifty, sixty or seventy. If

"Little Mac" can be an active deputy sheriff at eighty-three, it would seem that her male counterparts could do at least that well. Where there's a will, there is usually a way.

In the United States today cancer kills more children between the ages of 3 and 15 than any other disease, the American Cancer Society reports.

FELLOW in Denver, Colo., got a divorce on grounds that his wife had not permitted him to wear shoes in the house for five years and had allowed him to sit on a new sofa for only 10 seconds. Touchy, isn't he?

School principal in Walsenburg, Colo., received a note from a parent asking that her son be excused because "he gets spring fever every year at this time." We'd like to try this one on the boss, but can't—he's gone fishin'.

Fellow we heard of is very happy, although his business is slated to really hit bottom in the near future. He's president of a

diaper service institute, foresees an all-time high in the birth-rate for 1955.

Motorists in Monroe, Wis., threaten to storm city hall. City fathers are raising parking fines from 10 cents to \$1. Someone may get hurt in the rush to obtain parking lot licenses.

Slightly tipsy soldier in Colorado Springs, Colo., went to sleep in the local hospital's maternity ward. Police team delivered him—to the jail.

Discuss Art Of Gracious Dining

"Fingers, forks, or chopsticks?" asked Judy Holliday of Dr. F. T. Cheng, former Chinese Ambassador to England, and J. George Frederick, president of The Gourmet Society.

Popular film star Judy Holliday and Dr. Cheng were guests of honor at a recent Gourmet dinner meeting in New York City. The Society is spearheading a campaign to encourage more gracious dining, emphasizing the importance of impeccably appointed tables.

"With more of the nation's women dining out more and more often," says Mr. Frederick, "restaurant operators have to be on their toes. To women who can glamorize a can of beans with the proper combination of candlelight and silver, there's no excuse for serving a chef's masterpiece in shabby surroundings. Which has more appeal—a string of pearls in a paper bag, or the same pearls in a velvet-lined box?"

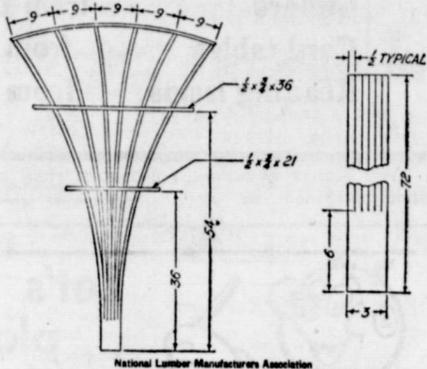

"We gourmets don't expect elegant table settings," Mr. Frederick continued, "but we expect to be served at a table that is appropriately set with thoroughly clean napery, silverware and other appointments in good order and good taste."

HERE'S HOW...

MAKE A TRELLIS

A fan-type trellis for the garden or lawn is easily made by the home craftsman. Straight-grained lumber is needed. The craftsman should seek the advice of his local lumber dealer as to the kind and grade of lumber to be used. To make the fan, rip a 1 by 3 by 72-inch board into six equally spaced splines, leaving 6 inches at the base unripped.

Spread the ends of the splines 9 inches apart along a 45-inch strip of 1/2 by 3/4-inch stock, and fasten each joint with two 4-penny finishing nails. Spreader bars 21 inches and 36 inches long, respectively, are placed 36 and 54 inches from the base and fastened with 3-penny finishing nails. Mount the trellis on a stake.

Make A Trellis

A fan-shaped trellis for roses or other climbing plants is an easy project for the home craftsman, although at first glance it may appear to be somewhat complicated.

The lumber for the fan should be carefully selected for straight grain and absence of knots. The craftsman should seek the assistance of his local lumber dealer in selecting the kind and the proper grade of lumber for the trellis.

Use lumber 3/4 or 1 inch thick, 3 inches wide and 72 inches long. With a power saw, or with a handsaw, rip the board into six splines, 66 inches long, leaving 6 inches of the board, at the base, unripped. The lines along which the splines are cut should be equally spaced across the face of the board.

A graceful curve at the top of the trellis is produced by spacing the splines along a 45-inch piece of 1/2 by 3/4-inch stock, and fastening the splines to the bow with two-penny finishing nails at each joint.

Two spreader bars of 1/2 by 3/4-inch strips are placed as shown in the drawing; a 21-inch length is placed 36 inches from the base of the trellis, and a 36-inch length is placed 54 inches from the base. These are fastened to the splines with 3-penny finishing nails.

The trellis is mounted on a preservative treated or decay resistant stake, 3 inches wide and 24 inches long. Drive the stake in the ground, leaving about 6 inches above the surface. Fasten the trellis to the stake with three No. 5 flathead wood screws, 1 1/2 inches long. The heads of the screws should be countersunk.

The completed trellis should be sanded and finished with a good outside paint or enamel to harmonize in color with garden furniture or fence, making sure that the narrow crevices at the base of the fan are well painted to avoid absorption of moisture.

Several trellises of varying sizes may be made, using this plan as a guide. Properly placed they may serve as garden screens or as decorators along a walk or picket fence.

NG Mobilization Test Pleasing to Officials

A recent mobilization test, carried out by the National Guard, put hundreds of thousands of troops on duty in various sections of the country on very short notice. The troops formed in guard units and were quickly posted at vital spots in various communities. Most of them carried loaded weapons.

"Operation Minuteman" was designed to see how quickly the states could mobilize their Guard forces in the event of an emergency. The most probable cause of such an emergency would be a new war, and if it were an atomic war, guardsmen would play a major role in maintaining order, preventing looting and bringing some order out of chaos which would certainly develop in some target areas.

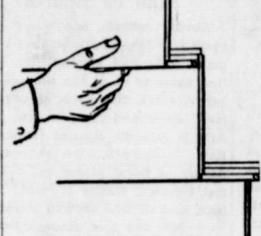

The speed with which the National Guard mobilized and the order demonstrated by Guard units was highly pleasing to Guard officials and proved that the United States does have a trained reserve force which can be utilized when necessary. We think the recent test showed the National Guard is as fit today as it ever has been, and certainly better prepared than it has been since the end of World War II.

Handy Jim's FIX-UP TIPS For the Home

Labor-Saving Siding

NEW on the market is a revolutionary kind of siding that is much faster to apply than conventional siding. In addition, it comes in popular wide sizes, 10" or 12", at no premium in cost.

Masonite Shadowvent siding is a free floating combination of prime-coated Tempered Presdwood and a patented aluminum shadow line strip which is nailed through the sheathing to studs. No nails are driven into the siding itself, which fits quickly into the aluminum strip. The metal is vented at inter-

vals to allow escape of moisture that may condense inside the walls. Field tests have shown that this combination permits carpenters to install Shadowvent Siding with substantial savings in application time. The siding and the aluminum strips are sold together at lumber yards.

The new quarter-inch siding is primed on the surface and bottom edge, and a clear sealer has been applied to the back. The combination of the long-lasting, smooth-surfaced Tempered Presdwood and the prime coat provides an exceptionally fine surface for top coats and assures a long-lived paint job.

The basic philosophy of sportsmen is about the least selfish of all credos: Use resources wisely, restore depleted resources, and prevent unnecessary exploitation of irreplaceable resource values. —Sports Afield.

All the cars and trucks exported from New York harbor each year, placed end to end, would stretch from Manhattan to Indianapolis, says the National Geographic Society.

The Very Idea

"Do you have fits of giddiness?" a doctor asked a middle-aged stern-looking woman. "No, I don't," came the snappy retort. "I'm a respectable married woman."

serve force which can be utilized when necessary. We think the recent test showed the National Guard is as fit today as it ever has been, and certainly better prepared than it has been since the end of World War II.

Sarah Anne's COOKING CLASS

Golden Fruit Salad Dressing

Here's a new way to make your favorite Golden Fruit Salad Dressing.

It's as delectable as always, quick and easy as always, but less expensive money-wise and calorie-wise. Whipped nonfat dry milk solids are the trick in this new recipe.

Nonfat dry milk solids whip perfectly, with no danger of over-whipping.

Try this salad dressing with all kinds of fruits. For a Polynesian touch, try it with a salad of crabmeat, celery, and pineapple with a sprinkle of coconut.

- 1/2 cup pineapple juice
- 1/2 cup orange juice
- 3 egg yolks
- 1/4 cup lemon juice
- 1 tablespoon butter
- 1/2 cup ice water
- 1/2 cup Nonfat Dry Milk Solids

Mix sugar, flour, pineapple and orange juice in top of double boiler. Cook until thick. When mixture thickens cover and let cook for 7 or 8 minutes. Beat egg yolks until thick and lemon colored. Add some of cooked mixture to the yolks and return all to double boiler. Cook for about 5 minutes. Remove from heat. Add lemon juice and butter. Cool. When ready to use, add Nonfat Dry Milk Solids to ice water and beat until smooth and thick. Fold into salad mixture.

GOLDEN FRUIT SALAD DRESSING

- 2 cups
- 3 tablespoons sugar
- 3 tablespoons flour

A salad is no better than it's dressing depends on the quality of the ingredients used. Try today one of the following tempting recipes.

Sour Cream Dressing

- 1 cup thick sour cream
- 2 tablespoons white vinegar
- 1 to 2 tablespoons sugar
- 1/2 teaspoon salt

Stir together sour cream and vinegar. Add sugar and salt to taste. Mix well. Serve with fresh cucumber slices or tomato wedges.

Green Salad Dressing

- 1/4 cup sugar
- 3 tablespoons water
- 1 cup salad oil
- 1/2 cup catchup
- Juice of 1 lemon
- 1 tablespoon vinegar
- 1/2 teaspoon salt
- 1/2 teaspoon paprika
- 1 1/2 teaspoons celery seed
- 1 tablespoon Worcestershire sauce
- 1/4 cup grated onion

Cook sugar and water until it spins a thread. Cool. Combine remaining ingredients, add syrup and beat thoroughly. Chill.

Celery Dressing

- 1 cup mayonnaise
- 1 tablespoon minced green pepper
- 2 tablespoons chopped cucumber
- 1 cup chopped celery
- 2 tablespoons lemon juice
- 2 teaspoons onion juice
- 1/4 teaspoon salt
- 1/4 teaspoon paprika

Combine ingredients. Chill. Serve in salmon or tuna fish salad.

Pineapple Dressing

- 1/3 cup sugar
- 4 tablespoons cornstarch
- 1/4 teaspoon salt
- Juice of 1 lemon
- Juice of 1 orange
- 1 cup unsweetened pineapple juice
- 2 beaten eggs

Q. What is the name of this cut of meat?
A. Lamb rib chop.
Q. Where does it come from and how is it identified?
A. It is from the rib section of the lamb and contains the rib bone and rib eye muscle.
Q. How is it prepared?
A. Usually by broiling or panbroiling, but it may also be panfried. For broiling, the oven regulator is set to broil. The chops are placed on the broiler rack. The broiler pan and rack are inserted so the top of 1-inch chops is 2 inches from the heat and 2-inch chops is 3 inches from the heat. When one side is browned, the chops are seasoned, turned and cooked on the second side. Then the second side is seasoned and the chops are served immediately.

Cucumber Dressing

- 1/2 cup mayonnaise
- 1/4 cup finely diced cucumber
- 1 tablespoon chopped green pepper
- 1 teaspoon tarragon vinegar
- 1/4 teaspoon salt
- Cayenne pepper

Combine ingredients and mix well.

Dressing for Boston Lettuce

- 2 tablespoons sugar
- 1/4 teaspoon salt
- Pepper
- 1/3 cup vinegar
- 2 tablespoons water
- 2 hard boiled eggs

Mash cooked egg yolks, add sugar, salt and pepper. Combine vinegar and water, stir into eggs and add to dressing. Serve on cut up Boston lettuce.

Chiffonade Dressing

- 1/4 teaspoon salt
- 1 teaspoon sugar
- 1/4 teaspoon paprika
- 1/4 cup salad oil
- 2 tablespoons chopped parsley
- 2 teaspoons chopped onion
- 1 hard boiled egg, chopped
- 1/4 cup chopped, cooked beets

Combine salt, sugar and paprika. Add vinegar and salad oil. Mix thoroughly. Add remaining ingredients. Mix well.

Lime Dressing

- 4 tablespoons salad oil
- 2 tablespoons fresh lime juice
- 5 drops Tabasco sauce
- Few grains cayenne
- 1/8 teaspoon pepper
- 1/4 teaspoon salt
- 1 teaspoon celery salt
- 2 teaspoons sugar

Mix ingredients. Chill, and shake thoroughly. Serve on fruit salad.

Roquefort Cheese Dressing

- 2 tablespoons mayonnaise
- 3/4 cup French dressing
- 2 tablespoons Roquefort cheese broken in small pieces
- 1/2 teaspoon Worcestershire sauce

Mix mayonnaise and Roquefort cheese. Add French dressing very slowly. Add Worcestershire.

Tangy French Dressing

- 1 cut clove garlic
- 1/2 teaspoon salt
- Black pepper
- 3 tablespoons vinegar
- 1/2 teaspoon Worcestershire sauce
- 2 drops Tabasco sauce
- 1 tablespoon horse-radish
- 1/2 cup salad oil

Combine ingredients in a jar. Cover and shake well.

Plain Talk

The famous artist's likeness of the wealthy one. Remonstrating with the artist, he complained: "Why, you've got the plainest woman I've ever seen on that canvas." "Maybe so," replied the painter, "but if you wanted me to paint a peach, why did you bring me a lemon?"

Attend Church This Sunday

IN HOMETOWN AMERICA

AMMUNITION FOR "V" DAY—Workers at Eli Lilly and Company, Indianapolis, Ind., are among employees of several pharmaceutical houses packaging vials of polio vaccine in anticipation of "V-Day"—vaccination day—which will occur across the nation at times set by separate communities. Children in first and second grades—an age bracket highly susceptible to the disease—will receive the three-shot Salk treatment on a voluntary basis under a program sponsored by the National Foundation for Infantile Paralysis. Because the supply of vaccine is still limited, only children in certain other specific age groups will be able to receive the shots at this time.

Ten Years Ago

This historic photograph showing former United States Secretary of State Edward Stettinius signing the Charter of the United Nations in the presence of former President Truman, was taken almost ten years ago—in San Francisco, on 26 June 1945. This coming June, the representatives of the original 51 U.N. Member States—plus nine countries which have since joined—will gather in the San Francisco Opera House, where the Charter was signed, to commemorate the first decade of the existence of the United Nations.

"The person who goes in for low balls—or high balls either— seldom strikes anybody out!"

"In many situations, it's a darned sight easier to stay out than to get out!"

It's grand as a sauce...a salad dressing and a spread!

STATE OF WISCONSIN COUNTY COURT, WASHINGTON COUNTY

NOTICE OF HEARING—FINAL SETTLEMENT—DETERMINATION OF HEIRS—INHERITANCE TAX, ETC. IN THE MATTER OF THE ESTATE OF CLARENCE R. KLUEVER, DECEASED.

Notice is hereby given that at a term of said Court to be held on Tuesday, the 25th day of June, 1955 at 10 o'clock in the forenoon of said day, at the Court House in the City of West Bend, in said County, there will be heard and considered:

The application of Norma Kluever, executrix of the estate of Clarence R. Kluever, deceased, late of the Village of Kewaskum, in said County, for the examination and allowance of his final account, which account is now on file in said Court, and for the allowance of debts or claims paid in good faith without filing or allowance as required by law, for the determination of who are the heirs of said decedent, and for the assign-

NERVOUSNESS CAN INTERFERE WITH DIGESTION

You have often noticed complete loss of appetite when excited, tired, worried, or under some emotional strain. Nature does not want you to eat at such times as nervous disturbance has upset the delicate nerve mechanism which controls the chemistry and process of digestion.

Interference with the transmission of nervous energy from some spinal misplacement will likewise effect digestion and in turn be responsible for many digestive disturbances such as gas pains, bloating, heartburn, nausea, vomiting and ulcers.

The controlling force carried by nerves from the brain through the spine to all parts of the body is generally spoken of as nature. The chiropractor's examination is largely confined to the spine because he is trying to find what is preventing nature from curing. The chiropractor locates and removes the nerve interference, thereby allowing nature to correct many types of digestive disturbances.

IN MEMORIAM

In loving memory of Mrs. Emil Ramek, who passed away 15 years ago, on June 9, 1940:
We have only your memory, dear mother,
To remember our whole life through;
But the sweetness will linger forever,
As we treasure the image of you.
Treasured thoughts of one so dear,
Often living a silent tear.
As time and memory both shall last,
From our hearts you'll never pass.
Until memory fades and life departs,
You'll live forever in our hearts.
Sadly missed by her children and grandchildren.

CARD OF THANKS

Words cannot adequately express our deep appreciation for the many kind and sympathetic acts that came to us at the time of our bereavement, the death of our beloved sister and sister-in-law, Miss Arleigh Brandt. Special thanks to Rev. Rodenbeck, the pallbearers, donors of floral pieces and memorial tributes, traffic officers, Miller's, and all who showed respect. Mr. and Mrs. Harvey Brandt

CARD OF THANKS

Our recent sad loss, the death of our dear sister, Mrs. Mary Barry, leaves us with grateful hearts toward relatives, neighbors and friends. Their comforting expression of sympathy and thoughtfulness will always be remembered. We especially want to thank the donors of floral and spiritual bouquets, Father Ulrich, the pallbearers, drivers of cars, and all who showed respect in any way.

Let's play
20 questions
to see if you need an **Electric freezer**

	yes	no
1. Are you a busy housewife?		
2. Do you shop oftener than once a week?		
3. Are you embarrassed when you're unable to ask unexpected guests to stay for dinner?		
4. Does your family grumble about lack of variety in your meals?		
5. Do you have to make quick trips to the store for small items?		
6. Do you seem to be busy cooking all the time?		
7. Do you suffer through hot, tiresome canning chores?		
8. Do you want to save money by buying larger quantities of foods at "special" prices?		
9. Do your husband and youngsters like in-between snacks?		
10. Would you like to make meal-planning much easier?		
11. Do you want to enjoy the good flavor of fresh foods the year round?		
12. Do you wish you could serve out-of-season foods economically?		
13. Would you like some free time every day?		
14. Do you sometimes skimp on meals before payday?		
15. Would you enjoy your dinner parties more if you could do some of the cooking and baking ahead of time?		
16. Would you enjoy baking cakes and pies in quantity and serving them fresh, weeks later?		
17. Do you prepare foods that require quick chilling?		
18. Do you get tired of serving and eating leftovers on successive days?		
19. Does your husband hunt or fish?		
20. Would you like to have frozen treats on hand for the youngsters?		

If you answer "yes" to most of these questions, you need an electric freezer. Buy one now from your dealer or The Electric Company.

By BETTY ANN

White lace, pink satin, pale blue linen, eyelet organdy lined with pink, these are some of the unusual ideas to be seen in representative assortments of collars now on hand in fascinating variety, says Betty Ann. For the most part they are well designed and well made to withstand a number of launderings, and some have the added virtue of cuffs to match.

As always the small peter pan collars look young and fresh, and this season they are to be found in several pastel shades as well as the impeccable white. They are the choice of the college girl who likes to wear a collar with her sweater and also the mother who likes to add a collar to her little girl's spring coat.

Wide, square collars are a natural development of the long torso dress and the middy look, and they are on hand to help achieve the effect which is fashion's darling at the moment. Some collars are plainly the middy, wide and square in back and lengthening to a deep V in front, outlined with rows of navy blue braid. Others are minus the braid but imaginative in color, pale blue or pink or yellow linen.

One fashion co-ordinator suggests with an utterly plain long torso dress in navy blue, a pale pink satin collar of important size.

Many distinguished suits are now wearing wide lace collars, and if you would like to give one of your suits this feminine spring treatment there are many to choose from, ranging from heavy laces with simplified modern patterns to embroidered flowers and starlike designs.

Embroidered eyelet organdy is a newcomer to collars and is extremely pretty laid over another layer in pale pink, blue or yellow. Collars of this kind are on hand in narrow, medium and wide widths to wear with dresses or sweaters, and have a wide facing to allow plenty of room for tucking in.

Collars of every shape, round, square, high necked, low necked, V necked, even collars for a scooped out neckline are available. Gavest of the lot are the small beaded collars, chalk white or pearls or turquoise and pearls, designed to serve the combined purpose of collar and jewelry.

The overblouse is important to 1935 fashion. In dresses, it gives the new, long bodied line, may have either slim or full skirt.

Design a pleated front shirt-waist dress in the best quality pre-shrunk gingham. Remember helio and blue are fashion important and choose the most becoming.

Hunt for a matching cardigan and ensemble it to a dress by lining it with the same gingham. This is a most serviceable combination and expensive looking, too.

Devise sport shirts in the gay conversation making prints which designers of better shirts are featuring. There are the coin, paisley and book prints, groups of studio prints and brilliant new stripes, inspired by Brazilian colors. All are fun prints with striking color effects.

Lamb Pineapple Crowns
1½ pounds ground lamb; 1½ teaspoons salt; 2 teaspoons grated onion; 1 minced clove garlic; 2 tablespoons minced parsley; 1 egg; seasoned salt; nutmeg; 4 slices bacon; 4 slices canned pineapple.

Mix lamb with salt, onion, garlic, parsley and egg. Sprinkle generously with seasoned salt and nutmeg. Form into four large patties. Lay each on slice of bacon, then bring ends of bacon up over top of patty. Fasten with pick. Broil on each side until browned and bacon is crisp; about 6 to 10 minutes total. Place pineapple ring on top of each patty and broil until heated through and glazed. Serves four.

A delicious dish using fresh asparagus stalks is called braised fresh asparagus and pork.

Toffee Torte
5 or 6 egg sponge cake; 1/3 cup sugar; ¼ teaspoon salt; ½ cup flour; 2 cups milk; ½ pound butter; 1 cup sugar; 1 teaspoon vanilla; ¼ pound crushed English toffee.

Bake a five or six egg sponge cake and cut into three layers. Mix one-third cup sugar, salt and flour. Add milk. Boil to a custard and chill. Cream butter. Add the one cup sugar and vanilla. When custard is chilled, add creamed mixture and mix well. If necessary beat lightly with rotary beater. Put between layers, top and sides of cake. Top with English toffee, also cover sides, about one hour before serving.

About Your Home

Silicones are one of the newer housekeeping aids. You may or may not know much about them, however. They are most interesting.

You are probably familiar with the little silicone-treated tissues used to clean eyeglasses. You may have noticed that several furniture polish companies advertise that their product contains silicones.

You can't see silicones, but you can see the benefit or effect of silicones. Actually, they are a family of chemicals related to the glass. For this reason they shed dirt and water. You will find they resist almost everything.

Silicones are being used by American industry on a large scale. They are used as lubricants, put into the manufacture of rubbers, varnishes, enamels, water-repellents and insulations. Wineries are making use of silicones as defoamers. Jet planes use silicones in insulation and lubricants.

Silicone-treated fabrics have the advantage of being greatly water and stain proof. The effect of silicone treatment last through many cleanings. You will see more and more of this treated fabric on the market.

Silicone finishes are now being given to shoe leather, suede and fur. On furs the silicones seem to keep them supple, as well as moisture-resistant. This will prevent matting and, at the same time, gives the fur greater depth of color and a sleeker finish.

A silicone-treated skillet lets you saute foods without grease and the foods will not stick to the skillet.

In Fashion Now

Heels account for the biggest news in shoes during the past few years. All women have benefited greatly from the fact that medium-heeled shoes are no longer considered old-lady shoes because of their standard appearance. Older women who still wanted to look stylish suffered from the fact that the comfortable shoes they sought and needed were unattractive in looks.

A shoe can be dressy and yet possess a moderate heel. Today's shoe stylists have slimmed down the moderate heel, giving them a completely new look.

Another important note is color. Shoes are being used more and more often to complement a dress or suit. Shoes are more expertly dyed today than ever before. Polish and wax are being manufactured in all colors of the rainbow as well as clear for polishing any shade of leather.

Pumps have been known as the shoes that go with anything. Threatening their position are the many new halter-backed shoes that women have found so airy and comfortable. These new styles go just as well with different type outfits as the pump, depending on color and leather.

The halter-backed shoe was formerly a "novelty" shoe. It has now become an accepted everyday type shoe.

Answers To Who Knows

1. Truck drivers, said to number approximately 5,000,000.
2. Approximately \$4,350.
3. The Samuel Goldwyns.
4. About 30 years ago, when the Ottoman Empire was defeated.
5. The Russian teacher, who jumped out of the Soviet consulate window in August, 1948.
6. Charles E. Wilson.
7. On August 8, 1932.
8. Three: Iowa, Ohio and Utah.
9. New Mexico—settled in 1537 and admitted in 1912.
10. In Northwest India.

Chocolate Chip Waffles... A la mode

Chocolate makes these waffles great

This is a land of chocolate lovers. We put chocolate in or on everything imaginable, and keep right on looking for new places to use it. Now here's one you may not have thought about—chips of chocolate in butter-milk dessert waffles. Bake crisp golden waffles with flecks of chocolate throughout, and serve topped with a spoonful of ice cream. Sounds good, tastes better!

To be sure, this is an easy dessert to prepare. Waffle batter made from a pancake mix cuts last minute preparation time to a minimum. You place all of the

ingredients but the shaved chocolate in a mixing bowl and beat with a rotary beater. Then add the chocolate and you're all set to bake the waffles.

CHOCOLATE CHIP WAFFLES

- Makes 5 servings
- ½ teaspoon soda
 - 2 cups buttermilk
 - 2 eggs

- ½ cup melted butter
- 2 cups pancake mix
- 1½ squares (1½ ounces) chocolate, shaved

Dissolve soda in buttermilk; add with eggs and melted butter to pancake mix. Beat with rotary beater until fairly smooth. Fold in shaved chocolate. Pour batter onto a hot waffle iron. Bake until iron stops steaming. Serve with vanilla ice cream.

Try this recipe and see how the chocolate lovers in your family will applaud!

Her Vast Cornfields Provide Mainstay Grain for America

For farmers in some areas in our country this is corn planting time. For America it is another start toward a crop more precious than the spices Columbus sought.

The corn the Indians gave the world is now the United States' foremost crop whether measured by bushels, acres, dollars or usefulness, the National Geographic Society says. The annual harvest exceeds 3 billion bushels. A green-gold trademark of the Nation, the vast expanse of cornfields yields economic wealth every year exceeding all the silver, gold, coal and iron produced in the United States.

Corn in numerous varieties grows around the globe. It is important in Australia and New Zealand. Patches appear across inner Africa. It grows in Java, the South Sea Islands, Japan, Europe and behind the Iron Curtain. Hollanders and Hungarians speak of it as Turkish wheat; Frenchmen call it Spanish corn; the Turks call it Egyptian corn; and the Egyptians call it Syrian corn. Meales is often the name in South Africa. Englishmen properly call it maize, or Indian corn.

Corn Also Needs Man
Where they have lived side by side, in some places 20,000 years, man and corn have become mutually dependent. Without human care corn, unlike other cereals, would probably vanish from the earth. Dim clues of this early association are found in representations of maize stalks depicted on the tombs of Peru's pre-Incan races.

Columbus found corn in Cuba in 1492, and it was then perhaps general in the Western Hemisphere. The world's best culinary improvisors since then have contributed little to the Indian-created dishes. The Indians ate corn bread, roasting ears, popped corn, stewed corn, corn pudding, grits and hominy, hulled corn and johnnycake. Corn flakes eluded them.

Corn has played a leading role in sustaining the pioneers of North America. Faced with famine at Jamestown, Virginia, English settlers obtained corn from Indians. Pilgrims at Plymouth, Massachusetts, located Indian caches in a needy hour. Immigrants crossing the Alleghenies ate Indian corn, introducing it to the spacious Midwest.

Mexican Use It Masterfully
Output from early Indian corn acres in unknown. White settlers gleaned 25 to 50 bushels an acre. Production increased sizably with recent introduction of hybrids. Stalks and roots are now sturdier; ears in one field mature uniformly. Before hybrids arrived, Iowa corn averaged 35 bushels per acre compared to 52.5 in 1954.

Versatile corn lends its product to sherbets, tobaccos, mayonnaise, perfumes, penicillin, boot polish, pipe bowls, soaps, paints, explosives, matches, mucilage, hair-waving preparations, vinegar, cheese, chewing gum, bay rum, nail polish remover, and brandy.

Corn is highly regarded in Mexican kitchens. In the state of Jalisco, for instance, tasty preparations include esquite, salted toasted kernels of corn; posole, a rich stew concocted from hominy, usually with meat; roscas, popcorn balls made with brown sugar syrup; and sopitas de elotes, sweet cakes baked with green cornmeal.

TOO STRONG

Long Beach, Cal. — Merle Albright didn't know his own strength when it came to fingering the bell on a strength-testing machine in an amusement park. He picked up a hammer and came down with a mighty blow that rang the bell. But Albright didn't know it until he woke up in a hospital where he was taken when the hammer had rebounded and struck him atop the head, inflicting a 2-inch cut and rendering him unconscious.

Wisconsin Observes "Child Health Day"

May 1 was Child Health Day. And although it takes 365 days of each year for Wisconsin to achieve its current high standing among states as far as the health conditions of its children is concerned; setting aside one day to call special attention to child health is a good idea, just the same.

Latest figures indicate that the expectancy of a child born in Wisconsin today is nearly 70 years—topping all previous records on this score. Based on this point alone, today's children have the brightest future that children have ever had. Diphtheria and smallpox, which killed many children in the past, now kill only a few whose parents have neglected immunization. Against most other diseases also, children are better protected than in the past.

We have come to realize that signs of the organic diseases need to be watched in children as well as in adults. Chronic heart ailments in many cases stem from childhood complications of other ailments, and we are steadily finding means of preventing these serious after-effects.

Through the years we have learned a great deal about nutrition, too, with the result that most children who receive proper nourishment can develop into able-bodied adults. But to assure that every child gets essential foods is a project that has to be worked at continually with each generation.

The importance of healthy mental growth has also come to be recognized in recent years. Children must be given the chance to develop their personalities in a favorable atmosphere—in a home background free from strain and discord so that they will be able to enter adulthood with sufficient mental and emotional stability to face a rapidly changing world.

Thus, Child Day is a good time to reflect on the tremendous progress we have made in this area in the past. But it is also an appropriate occasion to remind ourselves of our continued obligation to the children of the present—and the future.

Another Proverb Shows Up
Mother (sagely) — You can't eat your cake and have it, too, you know.

Small daughter — Well, mother, if I want cake just to look at there's plenty in the baker's window.

Factual News About The Eyes

ELECTRICITY COMES TO THE AID OF VISION

It has long been known that drugs can be conveyed into the body's inaccessible tissues by electricity, just as silver is conveyed from one pole of a battery to a spoon which is to be plated. But today more and more eye-sight specialists are making use of this previously too little applied system, according to the Better Vision Institute.

Although the eye can't stand strong electrical currents, surprisingly good results are obtained with currents too weak to be felt. Sometimes the electrical process aids in diagnosis, by clearing the vitreous humor (the semi-fluid substance between the retina and lens) when it has grown cloudy. Sometimes electrically introduced drugs help to combat such troubles as diseases of the cornea, inflammation of the iris, ulcers, blindness caused by early diabetes, and old-age loss of sensitivity in the retina.

This electrical process often takes a lot of time, and it won't cure everything, the Institute points out. But it is one of the many wonderful ways in which ophthalmic sciences care for human vision.

STRICTLY BUSINESS

by McFeatters

AMATEURS AND PROFESSIONALS on the staff of the Federal Civil Defense Administration provide a variety of voices for one of the skits in a series of "spot" announcements on "Conelrad," the emergency Civil Defense radio system. Recorded by FCDA's audio-visual director, Chet Spurgeon, and radio-TV head Nat Linden

(seated), the skits and an accompanying tune are designed to make the public conscious of Conelrad's 640 and 1240 emergency radio frequencies. More than \$5,000 has been saved the Government by using mostly amateur voices instead of professional actors. A West Coast firm pressed the records and mailed them to radio stations.

SPORTS AFIELD

By Ted Kesting

Literally millions of people are turning to boating for recreation; many of them are entirely new to boats and this means an inevitable increase in the number of accidents.

There are two approaches to this matter of boating safety. There's the legislative—pass a law about it. There is the educational—teach the boater what safety rules he should follow, and convince him to do it.

Most town boards and county supervisors considering boating legislation welcome information. Water laws are something new to them. You can give them the address of the Outboard Boating Club of America (307 N. Michigan, Chicago, Ill.) so they can get a copy of the booklet on uniform boating regulations.

With the help of some of the wisest boating heads in the country, the OBC has drawn up this recommended uniform boat regulation act. Its excellence is largely due to the careful following of these basic principles: to exclude everything found unenforceable or ineffective; to include only what can be made to work; and to follow as closely as practicable the laws and regulations the Coast Guard now enforces in federally navigable waters.

Willard Crandall, boating editor of Sports Afield magazine, says there are a hundred ways a boating or sportsman's club can

help in safety: printing and putting up safety posters at docks, landings, resorts and boat shops; club or boat cruises—how can the participants help but learn a lot about boats and water; special juvenile membership and activities present an unlimited field.

Even as an individual there is much you can do to promote local water safety because, basically, safety violations are much more often caused by ignorance than by carelessness. It can work like this:

You see a stranger about to leave a pier with an overloaded boat. You can't tell him to stop, that he doesn't know safety. He might shove you off the dock. Instead, you ask if he likes his boat. Is it a little tippy? You had one once much like it, and it was, and that's why you asked. Of course, you never realized you stayed out longer than all the other boats. . . blame yourself for a near tragedy with that boat—you were a should-know-better fool to take risks with a big load and a small boat.

Of course, he'll go right out with the whole load; but you'll have started him thinking.

Forgery

Casey and Murphy were asked to witness the signing of a will. Casey duly signed, but being unable to write, put an X.

"Begorra, Casey," Murphy exclaimed, seeing this, "you've gone and signed my name!"

SWAINSON'S HAWK
Buteo swainsoni

The Swainson's Hawk breeds from the interior of British Columbia through Fort Yukon and Great Slave Lake country to Manitoba and south to northern Mexico. Obviously it is primarily a western species. It may be found as a casual visitor east to Quebec, Maine, New York and Florida so it is not necessarily a complete stranger anywhere in the United States. It normally winters in South America and even there is found in the winter season only casually north of the Equator.

The Swainson's Hawk may reach a length of 22 inches with the tail measuring to 9 inches. Superficially, it might in one form be taken in flight for a grayish Red-tailed hawk with more pointed wings and a slatish gray tail bearing numerous dark crossbars instead of the typical reddish tail of the Red-tailed Hawk. The under part of the wings appear to be with few marks although the borders and tips are darker. The throat and nearly white belly are separated by a whitish collar of chestnut or brownish gray. The under side of the tail at a distance at least appears to be white or nearly so. This white does not appear on the rump as in the case with the Marsh Hawk.

The young Swainson's Hawk may resemble the young of the Red-shouldered Hawk but it lacks the characteristic red-shoulders of that species. There are two color phases of the Swainson's Hawk. In flight, these two differ rather conspicuously since the dark phase appears from beneath to be almost wholly gray except for light areas just back from the wing tips and at the base of the tail.

The Swainson's Hawk is essentially a bird of open prairie country. It is tame and is easily and frequently shot as it flies low back and forth over fields in search of its food. It may also to its detriment perch for long periods of time on a low conspicuous perch such as a fence post from which it does not readily take flight.

The killing of a Swainson's Hawk is a reflection on the intelligence of the user of the gun usually. On rare occasions one may take poultry but the overwhelmingly large portion of the food is gophers, mice and similar farm pests as well as grasshoppers and reptiles. One survey in the State of Washington indicated that about 90 per cent of the food of a Swainson's Hawk was ground squirrels, the arch enemy of agricultural crops.

Swainson's Hawks build their nests in trees from 30 to 80 feet above the ground. In the nest are placed 2 to 3 eggs measuring from 1 1/3 to 1 3/4 inches. The eggs are highly variable and may be dull blue-white or creamy and unmarked or may be spotted and blotched with cinnamon brown. There is but one brood a year and the incubation period is just under four weeks.

Here is one species of hawk about which there is no disagreement on the part of those who are informed. It is a useful species and as such deserves every protection as a rule. Unfortunately it does not always get this and more unfortunately the bird does not seem to be as wary as it should so far as its own interests are concerned. The National Wildlife Federation asks your cooperation in understanding and in helping others understand this bird.—E. Laurence Palmer.

The richest of all the world's unknown uranium deposits, and perhaps the most closely guarded is the Shinkolobwe mine in the southern Belgian Congo, says the National Geographic Society.

Sports Quiz

1. How many one-hit games has Bob Feller pitched?
2. When did he pitch the last one?
3. In Brooklyn's first two series against the Giants, how did the teams come out?
4. How old is Archie Moore?
5. How many times has he fought Nino Valdes?

The Answers:

1. Twelve.
2. May 1st, 1955.
3. The Dodgers swept the Giants in the first, lost the second, 2-1.
4. Thirty-eight.
5. Twice.

Health & Beauty

Did you know that on an average one person dies and four are permanently disabled every sixteen minutes as a result of home accidents?

There should be substantial banisters to all steps in a house. Many of the most crippling accidents occur by falling down stairways and even steps of not more than 3 or 4.

It is appalling to see the women who are mounted on high heels and wearing long house coats that trail on the soiled floors. These garments not only gather up germs and filth but often cause their wearers to trip and fall, sometimes with very serious consequences.

So many accidents occur in the house that someone is temporarily put out of commission every seven seconds. The greater portion of these casualties occur in the kitchen.

Frequently the daily paper reports an explosion caused from lighting a stove from kerosene. Where the person pours the oil directly from the can when ignition takes place, the flames run into the can. The victim often is burned alive, the house catches fire and a terrible tragedy results.

Even little children often are victims of the carelessness of older people. It is better to use newspapers and a little dry wood or kindling to start a fire. It can be done quickly in this way. If there is a very small flame among the coals, you may not see it, but it will cause the kerosene to blaze and an explosion follows.

Cleaning clothes with an inflammable liquid near the gas stove has been the cause of many serious accidents and burns that sometimes prove fatal. Leaving poisons around the kitchen is a potent and frequent cause of danger.

The person that neglects reading labels on bottles and containers often poisons a whole family by dumping a deadly poison into food that is being prepared for a meal. It is no excuse to say, "I was in a hurry and thought that I knew what I was putting in the food."

Carelessly climbing on chairs or stepladders often cause fearful results. I have known broken bones due to falls that invalidated people for life.

Floors that are too highly polished, or a little spot of oil or grease in which the foot slides or slips will often cause a devastating fall. Insurance statistics report 1,500 deaths a year from falls; to say nothing of those who are permanently crippled.

It is easy to turn the handles of pots towards the back of the stove, yet so many cooks leave them sticking out where they are apt to catch in the sleeve or be brushed against. They come down spilling boiling liquid on the unfortunate victim or victims.

Cuts are usually caused from carelessness. Holding the knife toward the person is one frequent cause of severe cuts and dangerous accidents.

Only a decade hence, in 1965, St. Augustine, Florida, will celebrate its 400th birthday, the National Geographic Society says.

POT HOLDER DELIGHTS

Three beautiful flower faces and a clever dog and cat make panholders which are both beautiful and practical. Plain pastel colors or colorful prints could be used. The dog and cat are large enough to make stuffed toys. The five panholders and a hand towel design are included on one multi-stamp Hot Iron Transfer. Complete directions are given with pattern C3369, 20c. Send orders to: Homecraft Service (The Colonial Company), Journal Pub. Co., Inc., 1243 Swift, Kansas City 16, Mo.

'Big Red Barn' is Replaced Capsule Size by Comparison

The big red barns, bulging symbols of America's rural abundance, are heading for some changes.

Long adorning the landscape, many picturesque barns stand outmoded by present-day efficiency farming. When they burn or deteriorate beyond use, smaller barns will likely take their place.

There are several reasons, says the National Geographic Society. Baled hay needs less space than hay mows. The trend now is against a stall for every cow and toward "roaming" quarters instead. Compact mechanized equipment, housed in a shed, replaces work horses.

Multi-purpose Barn

Already some ultramodern barns have developed, including highly functional aluminum ones. One new-type structure was spotted by an airplane pilot about 20 miles west of Montreal, Canada. He mistook its glistening surface for a flying saucer. Silvery fiber glass sections were fixed in a wooden framework, forming a 32-foot-high dome 83 feet across. Beneath it the dairyman sheltered 23 Ayrshire cattle, a year-round feeding lot, milking stalls, several score chickens and turkeys, and his farm implements.

The red barn is no more a standard type of American building now than the little red schoolhouse. Red as a predominant color seems definitely passing. Green and white barns are frequently seen—sometimes gray barns. Many farmers strive to make barn and house colors harmonize.

Red barns long ago became an American habit. One explanation is that early upstate New Yorkers painted barns red, houses white and left Nature to hang a blue sky to form a patriotic color combination.

Thrifty New Englanders reputedly used a wild red berry as a cheap and handy pigment so they could spend more on white house paint.

Whatever interior rearrangements modern farm techniques bring, the huge barn that ornamented America's 18th and 19th century countryside will have a lasting place on artists' canvases and history pages. "Large as palaces," one foreigner wrote of Pennsylvania Dutch barns in the 1750's. An early 19th century visitor described "barns of stone, a hundred feet long and forty wide, with two floors, and raised roads up to them. . . Below are stables, stalls, pens and all sorts of conveniences."

The Dutch Like Decorations

In contrast to the strictly utilitarian design of barns farther west, Pennsylvania structures offer some highly imaginative painted decorations. A six-petal motif may have been a pre-Christian symbol of immortality. The spinning wheel, notable in Lehigh County, is traceable to ancient Troy and Crete. The star or lily pattern, possibly a Cretan symbol of the sun, may date from 1300 B. C.

Thrifty tillers of Pennsylvania earth deny that these decorations were conceived to ward off evil. Rather, the so-called "hex signs" indicate a pride in buildings that reflect prosperity flowing from a bountiful land.

Behind The Scenes in American Business

By Reynolds Knight

You can do the nation's oil companies a big favor if you will drive an extra thousand miles this summer. It might help them if you'd keep the house thermostat a couple of degrees higher, too, but the spring is too far advanced for that to help a great deal.

What's up? Well, there's too much gasoline in storage, petroleum people fear; likewise too much light heating oil.

Causes are various. The big start the automobile manufacturers got this year raised estimates of the need for gasoline. The reciprocal trade act's fate was in doubt, so companies which import oil also bought generously from the domestic producers who'd been charging that imports cut down their markets. Also, while Texas has cut back allowable output, neighbor states have refused to follow suit.

Now, as to the demand side: (1) The first warm day along the Eastern seaboard tied up the increased automobile population in fancy knots. Traffic jams are frequent even on week days on crowded routes. Taking the pleasure out of driving reduces monthly mileage per car. (2) The railroads, after a long stretch of letting pleasure go to the automobile by default, are making attractive summer special rates.

(3) Airlines cut rates last summer, and plan to do so again. Probable results: Spreading gasoline price wars, heating oil bargains for summer fill-ups, eventual price breaks in crude.

NEW LOOK POLICY — Insurance, over the last couple of centuries, has expanded to cover nearly every hazard imaginable — except that of unfolding one of those accordion-pleated policies and never being able to get it folded up again.

Now that has been taken care of. A group of insurance companies has an automobile insurance policy which is a booklet — with an index, and pictures.

The booklet is convenient and easy to handle. The pictures are chosen to provide a guide to the major coverages. The simple index directs the policyholder to the provision he's interested in. The typography has been redesigned to make the whole thing easier to read.

The standard provisions used heretofore will remain in effect, except where recent revisions broaden coverages. These will apply hereafter on policies which were in effect when the changes were made. The policyholder will not have to wait for renewal time to gain the benefits of the extensions. An exception to this is Virginia, where the more liberal provisions can't go into effect until July 6.

THINGS TO COME — A new paint remover promises not only to soften old paint and varnish quickly, but to leave the surface ready for repainting. . . An auto license frame has a protective safety reflector to caution other vehicles running up from the rear. . . You can get a tension window screen with a 20-year guarantee on the springs that keep it in place. . . A sort of dehydrated salad dressing, with all the herbs and flavor bases packed dry in an envelope, comes in five popular combinations.

MILLION AIDS STUDENTS — Trustees of a foundation in Wisconsin have just announced that the foundation's gifts for charitable, educational and religious purposes have passed the million-dollar mark.

The Foundation was created just 18 years ago and receives its principal support from a wax company. Since 1937 more than 1,000 students have received help in completing their educations in fields of study of their own choice, such as business management, engineering, medicine, chemistry, teaching and economics.

Recognizing that in today's economy tuition and other student fees do not cover operating expenses of privately endowed colleges and universities, the Foundation grants the school a student attends an amount equal to that given the student.

Recently the trustees provided for bringing six worthy and needy students each year from foreign countries in which there are subsidiaries of the foundation, and are educating them in universities here. The countries are England, France, Canada, Australia, Mexico and Brazil.

There are six different coonhound breeds: blue tick, red bone, black and tan, English, treeing Walker, and Plott. The black and tan is the only one recognized by the American Kennel Club.—Sports Afield

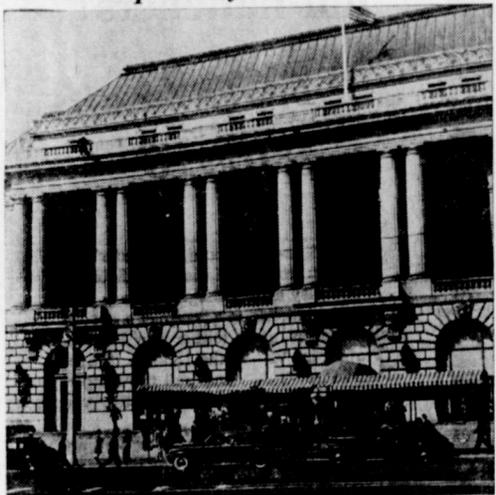

WINNING BLUR—It's just as difficult for the batter as it is for the camera to focus on the striking swiftness of Herb Score's left hand. Shown in practice with the Cleveland Indians, the 21-year-old newcomer to the majors is from Lakeland, Fla. He recently racked up 16 strikeouts in one game, only two less than the record of 18 set in 1938 by veteran teammate Bob Feller.

OUT OF THIS WORLD—For all practical purposes, that's where this spacelike suit comes from. A glimpse at technology from behind the Iron Curtain, caption from a Soviet source says it's a gas-and-heat-resistant oxygen supply suit. Built-in oxygen supply and insulation are said to enable wearer to withstand high temperatures and 100 per cent humidity; suit also features cooling unit and telephone.

Birthplace of U.N. Charter

This is the San Francisco Opera House where ten years ago the U.N. Charter was born. This coming June, delegates from the 50 Member States of the United Nations, including the 51 original members, will meet once again in the Opera House to rededicate the pledge of the peoples they represent to the principles embodied in the Charter.

SEA OF DESTRUCTION—"Captain" Virgil Bailey, 34, of Falkville, Ala., stands at the prow of the good ship Storm Cellar, surveys the sea of destruction which poured over him while he was safely below decks. At least three persons were killed and many buildings leveled along the storm's path.

Weddings

(CONTINUED FROM PAGE ONE)
 enzen, son of Mrs. Ella Iartsch, Mayville, in a 2 p. m. ceremony performed Saturday, May 28, by the Rev. H. A. Kahrs at Trinity Lutheran church, Dundee.
 Solos sung by Mrs. Richard Hornberg at the service included "Today Oh Lord" and "The Lord's Prayer."

Given in marriage by her father, the bride was attired in a gown of lace and tulle featuring a tiered skirt, with bands of lace, ending in a train. A tulle pleated bea trimmed hat held the bride's veil. A white orchid centered the bouquet of white roses she carried.

Mrs. Pearl Backhaus, matron of honor, was attired in orchid, her dress styled with a strapless bodice worn with a matching capelet, picture hat and mitts. Dresses designed like the matron's in yellow and salmon were worn by the bridesmaids, Misses Karen Kumpf and Agnes Kluge, and Joan Backhaus wore green. They carried contrasting color bouquets. Karen Backhaus, flower girl, wore a miniature of the bridal gown and a poke bonnet. Steven Roehl was ring bearer.

Melvin Christian was best man, Donald Backhaus, Eugene Backhaus and Roger Roehl, groomsmen, and Lawrence Roehl and Sonny Quandt, ushers.

Three hundred and fifty guests were entertained at a supper and reception at Forest Lake lodge. The couple will visit Northern Wisconsin on their honeymoon. The bridegroom is employed at West Bend by the Gehl Brothers Manufacturing company.

In The Service

BOEGEL PARTICIPATES IN MARINE OPERATION
 KANEHOE BAY, T.H. (PHI)NC)
 Participating in a special joint air-ground operation here with the 4th Marine Regiment's 3rd Battalion was Pfc. Norman O. Boegel, son of Mr. and Mrs. Oscar P. Boegel of Kewaskum.

The operation, conducted by the 1st Provisional Marine Air-Ground Task Force was aimed at making every man of the reinforced 4th Marine Regiment familiar with the steps that go into accomplishing

an airlift into a combat zone.

Marine Air Group 13, using a squadron of four engine transport planes from Air Group 25, indoctrinated the troops in an actual airlift operation in the Hawaiian Islands.

Upon completion of the operation May 28, each of the more than 6,000 men in the regiment knew what was expected of him and his unit in such a move.

A/2C ST. MARY HOME

A/2C James J. St. Mary of Wolters Air Force Base, Mineral Wells, Tex. arrived home Saturday, June 4, to spend a leave with his parents, Mr. and Mrs. Ray St. Mary, in Kewaskum. He will return to camp on June 17. His present address is A/2C James J. St. Mary, AF 16467516, 2274th Hq. Sq. Sec ABGRU, Wolters Air Force Base Mineral Wells, Texas.

4-H Club News

KETTLE MORAIN 4-H CLUB
 The meeting of the Kettle Moraine 4-H club was called to order on June 6 at Gage school in the town of Auburn. The meeting was opened with a few old favorite songs.

The club tour committee that was chosen to plan the tour and picnic consists of Alice Odekirik, Rachel Petermann, Ronald Bales, and Norman Heberer. There will be two meetings at the home of Mrs. Lorina Petermann, Friday, June 10. A food and nutrition meeting at 5 o'clock and a clothing meeting at 8 o'clock at which Mrs. Margaret Hollander our home agent of Fond du Lac will attend. Members from our club will participate in the county demonstration contest which will be held at Fond du Lac on July 14.

In connection with this month as being dairy month, there will be a Dairy Day at Campbellsport on Saturday, June 18. A few of our members will take part in this event.

The older members of the club will be on the committee to plan a float for the Firemen-Legion parade

JESKE ELECTED CHAIRMAN AT PCR-NMRA CONVENTION

The eleventh annual convention of the Pacific Coast Region of the National Model Railroad Association was held in San Diego, Calif. recently, with headquarters at the Hotel San Diego. Local home layouts and club layouts were run on timetable operation.

Among the highlights of the convention were the banquet dinner on Saturday night and the formal business meeting on Sunday morning. The former was held in one of the many conference rooms in the Balboa Park area; the latter was conducted in the Continental Room of the Hotel San Diego.

During the course of the business meeting, Larry Jeske of 421 W. Padre St., Santa Barbara, was appointed chairman of the membership committee for the ensuing year, a job which everyone feels

Larry is quite capable of handling.

Jeske, a member of the Shasta View Railroad club of Santa Barbara, was accompanied by the two other members of this club, namely William Milner of 402 Samar-kand Drive, Santa Barbara, and Al Jeske of 421 W. Padre, Santa Barbara. Larry and Al Jeske are the sons of Mr. and Mrs. Erich F. Jeske of Kewaskum.

The NMRA, as the name implies, is a national body of model rail-rodgers of all gauges founded for the purpose of encouraging and standardizing the hobby of model railroading. It boasts some 11,000 members in the U. S. and foreign countries. Erich F. Jeske of Kewaskum, being one of these.

NEW PROSPECT

Mr. and Mrs. Frank Bowen visited Mr. and Mrs. Walter Dickman at West Bend Sunday afternoon.

Miss Virginia Blumer graduated from Dodge County Normal school Tuesday evening. She has been engaged to teach the upper grades at Waucousta Grade school this coming fall.

Mr. and Mrs. Geo. H. Meyer called on Mr. and Mrs. Arno Meyer

at Waldo Sunday afternoon.

Mr. and Mrs. Richard Trapp Virginia and Gerald attended the graduation dinner of Harold Klein, son of Mrs. Rosella Klein of Kewaskum at Forest Lake lodge Saturday evening.

Miss Gertrude de Lorem is visiting at the Richard Trapp home this week.

Miss Virginia Trapp closed a successful term of teaching at Burlington Friday. She is engaged to teach there again the coming year.

COUNTY BARLEY CONTEST FORMS MUST BE IN JUNE 12

Like in past years the Washington County Better Barley Growing committee is cooperating with the Wisconsin State Brewers' association in sponsoring a county better barley growing contest. The committee sponsoring this contest consists of:

Rosenheimer Malt & Grain Co., Kewaskum; West Bend Lithia Co., West Bend; A. C. Thiel Mill, -inger; West Bend Malting Co., West

Bend.

Entry forms for the contest must be sent to the extension office, P. O. building, West Bend, before June 12. Varieties eligible are Kingred (1), Montcalm, Oderbrucker. Prizes will be as follows: 1st, 2nd, 3rd places \$20.00; 4th, 5th, \$10.00; 6th, 7th, 8th, 9th, \$5.00.
 Additional prizes will depend on the number of entries.

RECREATION SOFTBALL LEAGUES

The two night recreation softball leagues are under way. In practice rounds in the easy pitch league Regal beat the F.F.A. and St. Lucas beat the Bank team, in the softball league Miller's Cubs beat Ashford and Dei's beat Campbellsport.

The schedule for next week is as follows:

Monday night—New Fane vs. Scott (\$30).

Tuesday night—St. Lucas vs. Regal (7:00); F.F.A. vs. Bank (\$30); Wednesday night—Two games at 7:30 and 9:00 in the Peace church league.

Friday night—Dei's vs. Asntord (7:00); Miller's vs. Campbellsport (\$30).

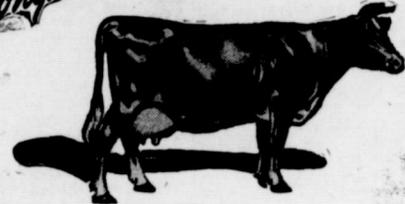

COUNTY HOLSTEIN BREEDERS ANNUAL MEETING JUNE 14

The annual twilight meeting of the Washington County Holstein Breeders and interested dairymen will be held on the Julius Etta farm on Tuesday evening, June 14, at 7:30 o'clock. The meeting will be indoors.

A program of interest to all dairymen has been arranged.

Advertise it in the Statesman.

Congratulations

JUNE IS DAIRY MONTH

During the month of June all America salutes "Queen Bess" for her untiring efforts throughout the year in providing you with more in food, more in refreshment, and more in health than you could get for your money in any other way. MILK is your dependable source of health-giving minerals, vitamins, and essential proteins. That's why MILK is first in foods. That's why we say "Hats off to Queen Bess... the dairy farmers and dairy foods!"

Chevrolet's special hill-flatteners!

162 H.P. V8

180 H.P. V8

See that fine fat mountain yonder? You can iron it out, flat as a flounder... and easy as whistling!
 Just point one of Chevrolet's special hill-flatteners at it (either the 162-h.p. "Turbo-Fire V8" or the 180-h.p. "Super Turbo-Fire")... and pull the trigger! Barr-r-r-r-o-o-o-o-o-o-o-o-o-o! Mister, you got you a flat mountain!

... At least it feels flat. For here are engines that sing as sweetly as a dynamo... built to pour out a torrent of pure, vibrationless power. Big-bore V8's with the shortest stroke in the industry.

So most of the time they loaf. Even at the speed limit they just dream along, purring out a fraction of their strength.

An engineer can understand why they are so hyper-efficient. But you don't have to be an engineer to know that these are the sweetest running V8's you ever piloted. Just come in and try one out!

*Optional at extra cost.
