

Marvin Doering Critically Injured in Plane Crash

Marvin Doering, 23, a pilot for Aerial Blight Control, Inc. of West Bend, was critically injured late last Thursday afternoon when his plane crashed in a Jefferson county pea patch while "dusting" the crop near Watertown.

Doering, according to Cliff Du Charme, co-owner of Aerial Blight Control, Inc. with Dr. O. W. Hurth of Cedarburg, apparently "backed out" while flying low and his plane nosed into the field.

Doering suffered a skull fracture, severe facial cut and fractured jaw. Although in a semi-conscious state at first, he was reported to be improving this week by local friends who visited him at a Watertown hospital.

Doering also is well known as a former driver in stock car racing circles. He participated in many stock car events while a resident here.

Du Charme said the mishap was only the second accident in which a pilot was injured in the 10 year history of the company. Du Charme himself was the victim of a crash years ago in which he almost lost his life. Two other crop dusting pilots have been killed and three others seriously injured in crop dusting mishaps in Wisconsin this year.

At present Du Charme is attempting to have crop dusting requests "staggered" so that the pilots will get more rest. He believes the pilots are working too many hours and not getting sufficient rest. He has contacted cannery officials for shorter working hours for pilots.

Firemen Use Radio First Time at Strawstack Blaze

The Kewaskum firemen were called to the Nick Beisler farm in the town of Wayne, located on Hwy. 23 about seven miles west of the village, at 1:45 p. m. Wednesday. A strawstack in the barnyard caught fire and threatened to burn the nearby barn and an adjoining building.

The blaze had a good start in the strawstack and smoke was pouring from it when the firemen reached the scene. They doused the stack and had the flames under control in a short time. But the fire had spread all through the stack and every time the firemen stopped playing water on it the flames broke out again in numerous places.

While neighbors and some of the firemen pulled away burning parts of the strawstack with pitch forks, other members of the department squirted water on the flames to protect the men and keep the blaze from spreading. The firemen worked for nearly three hours before the last of the fire was out. Then neighbors tore the rest of the stack apart and hauled the straw into a nearby field.

When the firemen began to run short of water the two-way radio which was installed in the equipment truck recently was used for the first time. A call was sent through the transmitter and receiver to Chief of Police Pledl's squad car in Kewaskum. He was asked to contact Regal Ware, Inc. which sent a tank truck loaded with water to the scene.

The chief also contacted John Wahnschaffe who hauled another load of water to the farm in his milk truck. This water was pumped into the fire truck with the firemen's motor driven pump. Usually the greatest handicap for firemen at rural fires is the scarcity of water but they were provided with all they needed at the Beisler farm to completely snuff out every bit of fire.

The radio was also put to use enroute to the fire. While firemen were rushing to the scene they contacted the police chief, broadcast the location of it and later informed him of the nature of the blaze. With their new radio the fire department can contact any police car in the county for any emergency or assistance that may be needed while they are busy fighting the fire.

Miss Westerman Is Wed to Joseph Fell

Joseph P. Fell, R. 1, Campbellsport, claimed Miss Ardell Marie Westerman, R. 3, Kewaskum, as his bride at a 9 o'clock nuptial read by the Rev. F. C. La Buwi in St. Bridget's church at St. Bridget on Wednesday morning, June 15. The bride is a daughter of Mr. and Mrs. Walter Westerman and her husband is a son of the John Fells.

The bride wore a lace and net dress with a Queen Elizabeth collar embroidered with sequins. The fitted lace bodice had lace applique trimming on its sheer yoke. The fitted sleeves were long and the very full skirt had panels of lace and net cascading down the front, and also down the back where it fanned out to form the fan shaped train. Lace applique trimmed her fingertip veil of imported illusion which was gathered to a seed pearl and rhinestone tiara. Her flowers were a colonial bouquet of roses and feathered white carnations with streamers of net enhanced with rhinestones.

Lorraine Westerman was her sister's maid of honor, wearing an aqua blue gown with an embroidered bodice and net pleated skirt with a matching bolero jacket and gantlets. Her flowers were a crescent arrangement of aqua carnations, yellow roses and stephanotis. Identical gowns in yellow, green and orchid were worn by the bridesmaids, Angeline Fell, sister of the bridegroom, Sally Westerman, sister of the bride, and Mrs. Frank Fell. The flowers in their crescent bouquets matched the colors of their gowns.

Frank Fell was his brother's best man. Groomsman were two brothers of the bride, Richard and Lloyd Westerman, and a brother of the groom, Jake Fell. Ushers were John Beisler and David Wondra.

A reception at the home of the bride's parents preceded a dinner and supper at Holy Trinity church hall, Kewaskum.

The newlyweds will be at home at Ashford following a honeymoon to an undisclosed destination. The bridegroom operates a milk route and is a cheese factory employee. His bride is an employee of the Gilbert Shoe Co., Campbellsport.

SIX YOUNG PEOPLE HURT IN CRASH AT DEAD MAN'S CURVE

Six injuries occurred when a car driven by Roger S. Heid, 22, West Bend, went out of control on a hill and curve on County Trunk S, one-half mile north of New Fane, at 2:30 a. m. Sunday. The mishap happened on the dangerous Gross curve, familiarly known as dead man's curve, scene of many accidents last summer.

Heid's car skidded and rolled over. He told Fond du Lac county police that he had reached the rest of a hill and was starting downward. He did not anticipate the curve and braked his car, losing control of it.

Those injured included Barbara Kusch, 21, Milwaukee, possible skull fracture, cuts and bruises on her face, head and body; Joan Schneider, 21, Wauwatosa, Catherine Rueber, 20, Milwaukee; Thomas Heney, 22, and James Brooks, 21 Milwaukee, all shaken, and the driver, cuts and burns on his face and body. Miss Kusch was removed to St. Joseph's hospital, West Bend, in the Kewaskum firemen's ambulance.

BUSINESSMEN ASKED TO ENTER FLOATS IN PARADE

Members of the Kewaskum American Legion post and fire department urge businessmen and others of the community to participate in their annual picnic on July 9 and 10 by entering floats in the parade on Sunday. Children are also invited to enter decorated bikes, buglies and other vehicles. Plans should be made now to participate in the parade.

contact any police car in the county for any emergency or assistance that may be needed while they are busy fighting the fire.

Cause of the fire was undetermined and the only damage was to the straw which burned.

Justice Hayden, Mrs. Zimdars Die

Justice of the Peace Charles S. Hayden of West Bend who celebrated his 100th birthday last March 6 and would have completed 44 years as justice of the peace next year, died Tuesday night, June 14, at 10 p. m. at St. Joseph's hospital, West Bend, where he had been confined several weeks.

Judge Hayden was widely known in the state and nation, both as a railroad man and later as a justice of the peace. He was exceptionally alert mentally despite his advanced age. He was probably the oldest office holder in the state and nation. He achieved the goal he had set for himself in late years by observing his 100th birthday while an incumbent justice.

Judge Hayden was born on March 6, 1855 in Canada. His career as a railroad man began as a boy of 12 when he started learning telegraphy. He held jobs on the North Western and Milwaukee Road as well as a host of railroads in the middle west, far west and south, serving as telegrapher, station master and chief train dispatcher before rising to superintendent, first of the Santa Fe and later of the old "Southern."

Mr. Hayden came to West Bend shortly after the turn of the century and operated an insurance agency there for 40 years. He was married to the former Wilhelmina Hilderbrand of West Bend, who died in 1921.

Judge Hayden was featured in Ripley's "Believe It or Not" column as the oldest office holder in the nation when he was 99 years old. He was a Mason for more than 72 years.

He is survived by his companion, Miss Erna Klubunde, nieces and nephews. Funeral services were held at 2 p. m. Friday at the O'Rourke funeral home, West Bend under the auspices of the Masons. The Rev. Louis Riesch officiated. Burial was in Union cemetery there.

MRS. EDWIN ZIMDARS

Mrs. Edwin Zimdars, 57, nee Ella Scheel, of Newburg, a former resident of this community, died at St. Joseph's hospital, West Bend, Saturday morning, June 18, at 10:15 o'clock, following a six months' illness with diabetes.

Mrs. Zimdars was born April 7, 1898, at Schofield, Wis. She married Mr. Zimdars at Fond du Lac on June 9, 1915. They moved to Newburg from this community two and one-half years ago.

Surviving are the husband and following children, Clarence, Gerald, Earl, Harry Gloria Bruessel, Marvin and Reed; her parents, Mr. and Mrs. Herman Scheel; five sisters, Mrs. Hugo Schmidt, Mrs. Ward Crass, Mrs. A. Chelina, Mrs. Ted Douglas and Mrs. Dorothy Schilling; three brothers, John, Otto and Ervin Scheel; sixteen grandchildren, four daughters-in-law and one son-in-law.

Funeral services were held at St. Lucas Ev. Lutheran church, Kewaskum, Tuesday afternoon at 2 o'clock, the Rev. Gerhard Kamies officiating. Burial was in Washington County Memorial Park, West Bend.

LOCAL MEMBERS ELECTED VFW AUXILIARY OFFICERS

New officers of the Fred A. Schaefer VFW post No. 1393 and Auxiliary of West Bend were installed Tuesday night at a dinner at the Linden Inn. Marvin R. McMahon, superintendent of the Wisconsin State School for Boys at Waukesha, was guest speaker. Auxiliary officers installed included Eileen Heisler, Kewaskum, president, and Ruth Held, Kewaskum, secretary.

Ruth Held was recently also named secretary of the Sixth District of VFW Auxiliaries.

MARRIAGE LICENSE

Our Police Chief Says:

Be sure and notify police before you leave on your vacation; we would like to watch your premises while you are away.

VA Registrar Will Talk at Red Cross Meet Here Monday

CHAPTER TO HONOR EARLY DIRECTORS AT ANNUAL SESSION AT ST. LUCAS CHURCH IN KEWASKUM

Special recognition will be given the members who served on the board of directors when the chapter was organized in 1955 when the West Bend chapter of the American Red Cross holds its annual meeting in Kewaskum Monday evening, June 27. E. J. Altdorf served the chapter 14 years as treasurer and financial adviser.

The dinner meeting will be held in the St. Lucas Evangelical Lutheran parish fellowship rooms at 6:30 p. m. The program will be under the chairmanship of Charles Sparks, assisted by Edward Miller, president of the Kewaskum Kiwanis club, and County Court Judge Milton Meister, chapter chairman.

The principal speaker will be A. A. Hozinski, registrar of the Veterans hospital at Wood, Wis., who will discuss "Qualifications for Veterans Hospital Admission." Hozinski served as registrar at the veterans hospital at Tomah from

A. A. HOZINSKI

1946 to 1952 when he was transferred to the VA hospital at Wood. In military life he served as captain of the Medical Service corps and as registrar of the Halloran General hospital at Staten Island, N. Y. His home is in South Bend, Ind. The speaker is a graduate of the University of Notre Dame and he studied medical administration at the University of California.

Arthur Marson will direct a musical request program during the dinner. Patients from the VA hospital will provide the music. The 18 members who served on the board of directors when the chapter was organized 22 years ago included Mrs. H. W. Kuester, chairman; the late Mrs. E. L. Morgenroth of Kewaskum, vice-chairman; E. J. Altdorf, treasurer, and the late Mrs. Florence A. Thomas, secretary.

Additional board members were Mrs. Ralph Petri, town of Wayne; Mrs. Henry Burke, town of Kewaskum; Mark Vogelsang, town of Barton; Mrs. Joe Arends, village of Barton; Mrs. Christ Walter, town of West Bend; E. W. Eberhardt, Dr. Carl A. Marth, the late Herbert Fuge, Mrs. Lee B. Miller, Mrs. Walter Hahn, all of West Bend; Harvey Dettmann, town of

SPECIAL ANNOUNCEMENT

This year, as we have done in the past, we are closing down for plant and machinery maintenance for a period of one week. That means our plant will be closed from July 5 to July 9.

Please arrange to get special and regular work to us in time to be processed and returned to you before we close down. Many thanks for your consideration.

OURS DRY CLEANERS

6-21-55

PLEDLS MOVE HERE

Chief of Police Roland Pledl and wife last Wednesday moved their furniture from Milwaukee into the Walter Jandre home on East Water st. (River Road). Until the present time Kewaskum's new police chief's family had remained in Milwaukee.

Fireworks Display in Park on July 2

Kewaskum will have its annual fireworks display over the coming Fourth of July holiday week end. This year the fireworks will be shot off in the village park on the night of Saturday, July 2, and will be sponsored by the fire department in co-operation with the village board. The fire department will be in charge of the fireworks.

The event will be held on July 2 so as not to interfere with any picnics or other fireworks displays scheduled for the 3rd or 4th. With the fireworks on the 2nd, persons planning on going away for the week end will still have an opportunity to do so on the last two days.

The fireworks will be touched off directly across the river from the park, affording an excellent view from the park hill. The shooting will get under way right after dark.

Lunch and refreshment stands will be open in the park and hamburgers, popcorn, beer, soda and ice cream will be available before and after the fireworks. Musical entertainment will also be provided. This year beer and soda will be sold in the new permanent refreshment stand recently erected at the north end of the park.

Come and enjoy a spectacular display of fireworks, both loud and beautiful. Spend the evening and let the firemen entertain you.

Recreation Swimming Lessons Begin June 27

Swimming lessons will begin Monday. The bus will leave from the high school each morning at 9 and will return at about 11:45. Regular attendance is very important if the children are to get the most out of their swimming instruction. However, if this interferes with vacation plans send the children when they are here. Instruction will continue every day Monday through Friday until July 19 or 20 when this period ends.

Advance registration has helped with plans but you may send your children even though they have not registered early.

Following is the recreation program schedule for the week of June 27: Monday afternoon: 1-3—Puddles practice and girls softball and volleyball; 3-5—Games and handicraft. Tuesday afternoon: 1-3—Badminton and other games for girls and volleyball for boys; 4-5—Games and handicraft for both.

Wednesday afternoon: Puddles game here with West Bend at 2; games such as checkers and croquet after the game from 3:30 to 5. Thursday afternoon: 1-3—Puddles practice, also small Puddles; volleyball and softball for girls. 3-5—Quiet games.

Friday afternoon: Small Puddles game for two local teams; handicraft and games for girls. No morning program at high school.

ANNUAL SCHOOL MEETING

NOTICE IS HEREBY GIVEN THAT THE ANNUAL MEETING OF THE Kewaskum Community Union High School District Joint No. 2 of the Village of Kewaskum, Washington County, Wisconsin, Barton, Farmington, and Wayne Townships, Washington County, Wisconsin, Ashford, Auburn Townships, Fond du Lac County, Wisconsin, will be held at the Kewaskum Community High School Auditorium on Monday, the twenty-seventh day of June, 1955, at 8:00 o'clock p. m.

Clifford C. Stautz, Clerk Dated June 17, 1955. 6-17-55

STRAWBERRY FESTIVAL AT NEW FANE CHURCH

The annual strawberry festival of St. John's Lutheran church will be held in their parish hall at New Fane on Thursday, June 30, beginning at 6:00 p. m.

The menu will feature ice cream, sodas, sundaes, hot dogs, potato salad, coffee, and soft drinks.

Kewaskum Post Office Made First Class Again

Effective July 1, the Kewaskum Post Office will again be a first class office, according to Postmaster Frank Hepp.

Postal receipts for the calendar year 1954 amounted to \$41,745.00 compared with \$31,311.00 for 1953. Increased mailings by Regal Ware, Inc. account for the increase of postal receipts.

This office was of the 3rd class until 1945, when it was advanced to second class with receipts of \$10,200.00. In 1945 and 1946 the receipts were \$11,424.00 and \$13,510.00 respectively. In 1948 the office was advanced to first class with receipts of \$53,458.00 and remained there in 1949 and 1950. Receipts were \$99,480.00 and \$70,396.00. In 1951 the Kewaskum Post Office was relegated to second class with receipts of \$39,052.00 and remained a second class office in 1952 and 1953, receipts being \$30,633.00 and \$31,311.00 respectively.

Kluever Awarded Degree, Honored for Work at UW

Melvin E. Kluever, Kewaskum, a son of Mrs. Clarence Kluever and the late Mr. Kluever, was awarded the Bachelor of Science (mechanical engineering) degree at the University of Wisconsin's annual commencement late Friday afternoon, June 17, at the university. The exercises were held in Camp Randall stadium at 5 p. m.

More than 2,000 students filed across the platform to receive diplomas. Bachelor degrees were awarded to 1,500 students, while some 500 men and women received higher degrees.

Graduation highlighted a week of intensive activity on Wisconsin's campus. A reception by President and Mrs. E. B. Fred in honor of the graduates, their parents, and alumni was held Thursday evening. Friday morning the all-university honors convocation cited 434 students for their fine academic achievements. Kluever was among the students honored for their outstanding work at the convocation held in the Wisconsin Union Theatre at 10 a. m. The procession of honor students marched into the theatre to the music of the university concert band under the direction of Prof. Raymond F. Dvorak. Pres. Fred welcomed the honor students and presided at the convocation. Dean Mark H. Ingraham of the UW College of Letters and Science gave the convocation address.

Kluever is a member of the American Society of Mechanical Engineers, Tau Beta Pi national honorary engineering fraternity and the American Society of Tool Engineers. He has accepted a position in the engineering department of Regal Ware, Inc. in Kewaskum.

LEGION AUXILIARY HAS ELECTION OF OFFICERS

The Auxiliary of Robert G. Romaine Post 384, American Legion of Kewaskum elected officers at a meeting held Tuesday evening, June 21. The new officers will be installed at the Washington County Council installation to be held in Kewaskum next Wednesday night. They will take office in September.

Officers elected are as follows: President, Irma Reindl; 1st vice-president, Lorinda Tessar; 2nd vice-president, Aletta Stautz; treasurer, Alice Sell; chaplain, Linda Kroncke; historian, Laura Miller; sergeant-at-arms, Ruth Eggert; color bearer, Ella Elerie.

DIANE SCHAEFER RECEIVES WIS. STATE COLLEGE DEGREE

Diane Schaefer, daughter of Mr. and Mrs. Carl F. Schaefer, Kewaskum, was among those who received degrees at commencement exercises at Wisconsin State college, Milwaukee, on Sunday, June 12, at 2 p. m.

A bachelor of science degree in secondary education was awarded to Miss Schaefer. She has accepted a teaching position in a Minneapolis, Minn. high school for next year.

Let Statesman ads sell it for you.

County Council of Legion to Install Officers Here Wed.

The annual installation of officers of the Washington County Council, the American Legion, and the American Legion Auxiliary will be held at the Robert G. Romaine Post 384 in Kewaskum on Wednesday, June 29, according to Gilbert N. Sell, commander.

At this meeting, notable Legion and Auxiliary officers will be present including Tom Barkman, representing James Martineau, department commander, and Mrs. Raymond Welsh, 2nd District Auxiliary president.

Lunch and refreshments will be served and the public is cordially invited to attend the ceremonies which will begin immediately after the parade led by the Robert G. Romaine Post color guard and rifle squad. The parade will start at 7:30 p. m. from the high school and proceed up Main st. to Fond du Lac ave. and from there to the Legion clubhouse.

Peterson Chairman for Salvation Army Appeal

L. N. Peterson is chairman of the Salvation Army Service Unit committee in Kewaskum. Other committee members are: M. W. Rosenheimer, treasurer; Charles Miller and Clifford M. Rose.

Peterson announced Thursday that the annual financial appeal for funds to carry on The Salvation Army local and state program is now in course of preparation.

In the state of Wisconsin The Salvation Army operates a home and hospital for unmarried mothers, institutions for the rehabilitation of men who need another chance, a summer camp where under-privileged mothers and children are given a healthful vacation, missing friend's bureau, family welfare, disaster relief, and work among prisoners and parolees. In every institution of The Salvation Army, service is rendered without regard to race, creed or color.

In addition to the institutional program, many hundreds of people have been served at the point of need by the local service unit. The service units have provided glasses for needy children in school, artificial limbs, medical care, dental care, disaster relief-clothing, food, shelter for families and children, visitation amongst the poor, lowly and sick, service to veterans, and a variety of services that meets needs not otherwise provided for.

The ultimate purpose of all Salvation Army activities is to lead men and women into a proper understanding of their relationship to God, with particular regard to the ering, bewildered, and the unfortunate.

Three times in the first half century The Salvation Army had girded itself to aid in the defense of the United States by serving the men and women in the armed forces and defense industries. The Salvation Army endeavors to meet the need at the time of need and the place of need and the co-operation of the general public is hereby solicited to help make this program possible, according to the chairman of the local service unit.

STOFFEL BABY BAPTIZED

The infant son of Mr. and Mrs. Gerald Stoffel, R. 3, Kewaskum, was baptized Sunday morning at 11:00 o'clock at Holy Trinity church by the Rev. F. C. La Buwi. The little fellow received the name of Ned Gerard and his sponsors were Mrs. Alan Stoffel, Kewaskum and Robert Woytes, Barton.

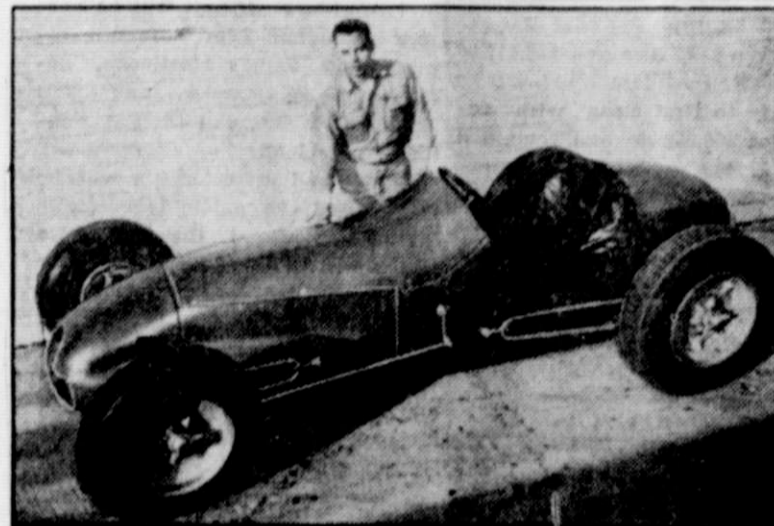

ELECTED K. OF C. OFFICERS

New officers for the year were elected at the June meeting of Council 1954, Knights of Columbus, West Bend. Among the officers named were Cyril Wieter, warden; K. William Haebig, advocate, and Claver Simon, outside guard. All of the above are from Kewaskum.

Some 14,000 farm folks were killed and another 1,200,000 were injured in the nation last year.

BITE BETWEEN MEALS—Phil Yazdzik, 42, of Oliphant, Pa., does his best to eat through Chicago's beef supply as waitress Dorothy Johnson brings him still another tray of hamburgers. Total damage inflicted to set what he calls a world's record—77 hamburgers, eight dozen rolls, 24 glasses of milk and six bottles of cola. Yazdzik works as a coal miner and delivery man to keep himself and family in food; says he pays \$130 a week for groceries.

KEEPING IT UNDER HIS HOOD—Sleek lines of this racer hide Walter F. Strader's secret of propulsion which the Los Angeles designer hopes will win him the 500-mile Memorial Day classic at Indianapolis, Ind. Engine, says Strader, has no cylinders, pistons, valves or crankshaft. It's powered by a system of "rotors"—and that's all that Strader will say concerning his "Planacircle Special."

PRAYERFUL BEGINNING—"Divine guidance and protection of the working girls" was the earnest supplication of the small group of women who first met in London, England, in 1855 to found what is today the Young Women's Christian Association. Three years later, in 1858, YWCAs were opened in Boston and New York City. They provided housing, spiritual comfort and recreation for working girls, such as the Civil War munitions workers pictured above, who were swept into industry on the tide of the Industrial Revolution.

"FEMALE TYPEWRITER"—The 1880 forerunner of today's modern secretary is shown in this old engraving as she practiced use of one of the first practical typewriters at a New York City YWCA. The Y-sponsored class dispelled fears of many persons that typewriting was "too complex for the delicate female constitution." Doctors examined the eight girls before and after practice sessions, found that all came through the "ordeal" in excellent condition, "suffered no harmful effects from using the newfangled heavy machine."

Integration & The American Indian

Kathrine and David French, writing in a booklet recently published, entitled "The American Indian," makes a convincing plea for tolerance in behalf of the American Indian. The authors are largely concerned with the Warm Springs Indian community, located in the state of Oregon.

With great tolerance, patience and dedication to democratic principles, they point out that "forced assimilation" of Indians—into the white communities—fails to take into consideration the moral and spiritual values of the individual human being and his preference. They note that in this country we are traditionally and morally committed to the value of the individual human being.

In addition to this, they write that a policy of forced assimilation is the equivalent of racial discrimination itself. In other words, forced assimilation, or the forcing of a pattern of life and customs on a minority people, they believe, is undemocratic, unwise and immoral.

We were very interested to note this most convincing argument, which is equally sound in relation to the question of integration of any two races in the South. Forced integration, which does not take into consideration the moral, spiritual and traditional beliefs of either race—the majority or the minority races—is not in accord with our dedication to the individual human being in America.

On the other hand, discrimination, or the failure to provide equal protection under the laws, to any race, is also immoral. The problem of fair treatment for the American Indians has long been one which troubled the conscience of this country. In a different way, the inequities afforded members of the Negro race has also troubled the conscience of many Americans.

However, forced assimilation is certainly not the answer in either case, and this is made very clear in the latest publication of "The American Indian." We wonder if those who are genuinely and sincerely concerned about forced assimilation for Indians stop to think that forced assimilation is bad in any case.

Set and Hatch It
Two small boys were out hunting in the woods and one of them picked up a chestnut burr. "Tommy," he called excitedly, "come here quick. I've found a porcupine's egg!"

KERRY DRAKE

HAIR-BREADTH HARRY

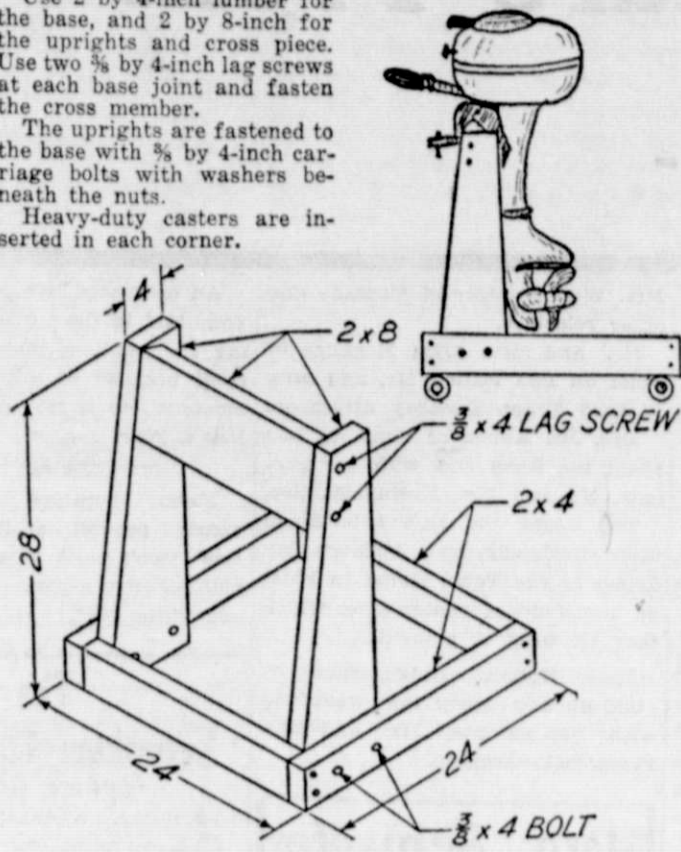

HERE'S HOW . . .

MAKE AN OUTBOARD MOTOR RACK

A rack for an outboard motor aids in storage, transportation and maintenance. Use 2 by 4-inch lumber for the base, and 2 by 8-inch for the uprights and cross piece. Use two 3/8 by 4-inch lag screws at each base joint and fasten the cross member.

The uprights are fastened to the base with 3/8 by 4-inch carriage bolts with washers beneath the nuts.

Heavy-duty casters are inserted in each corner.

National Lumber Manufacturers Association

Make an Outboard Motor Rack

Outboard motors should be stored in a vertical position so that all water drains from the cooling system. A sturdy rack for storage serves also as a mount for the motor for repairs or maintenance. The addition of heavy duty casters to the bottom corners makes the rack a cart for moving the motor.

To make the rack, use 2 by 4-inch and 2 by 8-inch lumber. The base of 2 by 4's is 24 inches square and is fastened together with 3/8 by 4-inch lag screws, two at each joint. Bore 3/8-inch holes in the two 24-inch base members and 1/4-inch holes in the shorter members before inserting the lag screws.

The uprights are cut from 2 by

8-inch lumber, sloping the front edge of each from the full width of the piece to produce a 4-inch top. Each upright is fastened to the base with 3/8 by 4-inch carriage bolts, located in the center line of the 24-inch base members and 1 1/2 inches from the edges of the uprights. Use washers to keep the nuts from biting into the wood.

The cross-member to which the motor bracket is fastened is made of 2 by 8-inch lumber. With the two uprights in place, mark off the proper length of the cross-member to assure a snug fit with the standards. Nail the cross-member in place temporarily with finishing nails while drilling the holes for the 3/8 by 4-inch lag screws. Drill 3/8-inch holes in the standards and 1/4-inch holes in the cross-member.

A metal drip pan set on the floor in the center of the base will protect the floor when the motor is stored indoors.

If casters are added, the holes for them should be bored in the shorter, or inside, members of the frame.

Sand the finished rack and coat with outside enamel, from which grease may be wiped.

English cockers have a considerably longer muzzle than the American type and have a wide color range: solid red, black, liver; parti-colors and roan colors of blue, red, orange, liver and lemon.—Sports Afield.

U. S. Pension Fund Increases

The old-age and survivors insurance trust fund of the U. S. Government continues to increase. Congress was told a few days ago that assets at the end of the last fiscal year totaled \$20,042,615,000.

This represents a rise of \$1,676,259,000 in the twelve-month period. At the same time, it was revealed that the number of persons in employment covered now by old-age and survivors insurance is 61,000,000. As of last June 30th, the number who were beneficiaries was 6,469,000.

Benefit payments to the trust fund rose in 1954, because of the increase in the contribution rate which took effect on January 1, 1954. Figures show that payments and receipts both increased in the last fiscal year.

Payments went up \$647,000,000, or a total of twenty-four per cent over the preceding year. Receipts rose \$556,000,000 or twelve per cent. The result was still a surplus of more than one and a half billion for the year.

It is estimated that the old-age and survivors insurance trust fund will continue to grow in the next five years. Even if business suffers a decline, it is expected that several billion dollars will be added to the fund in the next five-year period.

The most encouraging thing about the fund is the fact that it is now drawing a considerable interest income, since it is directed by law that the billions be invested in Government securities. Last year almost half a billion dollars was realized from the Government in interest alone.

Altogether, it seems that the old-age and survivors insurance trust fund is working out soundly, as planned, and that workers need not fear there will not be funds or that Congress will have to enact special legislation to cover payments.

Why Waste Time

A Scottish minister owned a farm which, to say the least, was run as economically as possible. One day, taking a stroll, he saw Angus, his hired man, sitting idle on the handle of his plow while his horse took a needed rest. He was paying the man six pence an hour and so he said, gently but reproachfully, "Angus, wouldn't it be a good plan for you to have a pair of shears and be trimming these bushes along the fence while the horses are resting?"

Angus returned the minister's gaze and answered, "And might I suggest, Meenister, that you take a bowl of potatoes into the pulpit and peel 'em durin' the anthem?"

Life Gets Like That

Jinks—Have you got your automobile paid for?
Binks—Practically. Three more payments and it will belong to the fellow that bought it from the chap I sold it to!

Sarah Anne's COOKING CLASS

Serve 'em a Quick Supper With Extra Nourishment

BAKED MEAT BALLS WITH MUSHROOM SAUCE

Meat balls made with nonfat dry milk solids are many ways better than usual—plump and juicy, tender and flavorful. That's because juices don't cook out, they stay in. The generous servings make this an economical dish—and the nonfat dry milk solids add protein, calcium, vitamins, and other nutri-

ents important to the family's health and well being. In fact, this will supply nearly half of the family's daily protein needs. This recipe is sure to be a family favorite. You'll like it especially on busy days because you can pop it in the oven—no watching. Combine it with baked potatoes and a simple dessert for an oven meal. It's easy, convenient, economical, and so good!

MEAT BALLS

- 1 lb. ground beef
- 1/2 lb. ground pork
- 1 cup nonfat dry milk solids
- 1 1/2 cups soft bread crumbs
- 1/4 cup chopped onion
- 1 slightly beaten egg
- 1 teaspoon salt
- 1/4 teaspoon pepper
- 1/2 cup water

Combine ingredients in order given. Form into balls. Bake for 40 minutes at 350° F. Pour mushroom sauce over meat balls and bake 20 minutes, basting once during baking. Serves 6 to 8.

MUSHROOM SAUCE

- 1/4 cup butter
- 1/2 lb. sliced fresh mushrooms

Every housekeeper should have a supply of nut recipes handy. Walnuts, pecans, almonds, peanuts, etc. make many foods taste and look so delicious.

Nut Biscuits

- 2 cups flour
 - 3/4 cup nuts, chopped fine
 - 2 tablespoons shortening
 - 3 teaspoons baking powder
 - 1/2 teaspoon salt
 - 1/2 to 3/4 cup milk
- Sift flour, measure and sift again with salt and baking powder. Add nuts and mix thoroughly. Cut shortening into flour. Add milk to make a soft dough. Roll lightly into a sheet 1/2 inch thick. Cut into molds and place on a baking sheet. The tops of the biscuits may be sprinkled with brown sugar and cinnamon. Bake in an oven 425 degrees for 10 to 12 minutes.

Zwieback Dessert

- 6 eggs
 - 3/4 cup sugar
 - 1 cup zwieback, ground fine
 - 1 cup nuts ground
- Whipped cream
- To well beaten egg yolks, add sugar, then zwieback crumbs and ground nuts. Beat egg whites stiff and fold into mixture. Pour into layer cake tins lined with waxed paper. Bake 15 minutes in an oven 350 degrees. When cold put layers together with whipped cream. Let stand 24 hours. When ready to use, serve in slices.

Grapefruit, Cherry & Pecan Salad

- 1 can white cherries
 - 1 large grapefruit
 - Lettuce
 - French dressing
 - Pecans
- Drain can of cherries, remove pits. Fill cavity with pecan nut meats. Separate the grapefruit into sections. Remove seeds and membrane. Mix with the cherries. Serve on lettuce with French dressing.

Peanut Cream Dressing

- 2 tablespoons lemon juice
 - 2 tablespoons evaporated milk
 - 2 tablespoons peanut butter
 - 1 tablespoon sugar
 - 1/2 teaspoon salt
- Mix all ingredients and beat until creamy. This dressing is very popular with children.

Almond Wafers

- 3/4 cup finely ground almonds

- 1/4 cup chopped onions
- 1/4 cup flour
- 1/2 cup nonfat dry milk solids
- 2 cups water, broth or bouillon**
- 1/4 cup cream
- 1/2 teaspoon salt
- Paprika

**2 beef bouillon cubes and hot water may be used

Melt butter in 1 1/2 quart sauce pan. Add mushrooms and onions. Cook gently 5 minutes. Remove from butter. Remove pan from heat. Add flour and nonfat dry milk solids. Mix well. Gradually stir in liquid. Return to heat. Cook until thick, stirring until smooth. Stir in cream. Add seasonings, mushrooms and onions. Pour over meat balls.

- unblanched
 - 1/2 cup unsalted butter
 - 1/2 cup sugar
 - 1 tablespoon flour
 - 2 tablespoons top milk
- Mix all ingredients together. Cook and stir in a heavy pan until the butter melts. Arrange by teaspoonfuls, 3 inches apart in a well buttered and floured cookie sheet. Bake at 350 degrees almost 7 minutes, or until delicately brown around edges but still bubbling in the center. Let cool 1 to 2 minutes or until edge is firm enough to lift with a long, thin spatula.

Frozen Cheese Salad

- 1 1/2 packages cream cheese
 - 1/4 cup green pepper chopped
 - 1/4 cup nuts chopped
 - Paprika
 - Salt
 - 2 teaspoons lemon juice
 - 1/4 cup cream whipped stiff
 - Slices of tomatoes
 - Lettuce
- Cream the cheese with a fork until soft. Add the pepper, nuts, paprika, salt, lemon juice, and the cream. Pack in a freezing tray and chill until firm enough to slice. Cut into small squares and serve on slices of tomatoes arranged on lettuce. Garnish with mayonnaise.

Onions Stuffed With Nuts

- 6 large onions
 - 1/2 cup chopped celery
 - 2/3 cup chopped pecans
 - Salt
 - 3/4 cup grated cheese
 - Pimiento slices
- Peel the onions and parboil for 20 minutes, remove a small part of the center to form a cavity for the stuffing. Mix the celery and nuts, season with salt. Fill the centers of the onions. Place the onions in a shallow pan. Top with cheese and bake. Serve garnished with pimiento slices.

Waldorf Salad

- 4 apples, pared and cubed
 - 2 cups celery cut into thin strips
 - 1 cup walnuts broken in pieces
- Mix apples, celery and walnuts thoroughly. Moisten with mayonnaise. Serve in crisp lettuce.

Today 85 per cent of all skin cancers could be cured, but 95 per cent could be cured. Regular physical examinations can prevent cancer deaths, the American Cancer Society says.

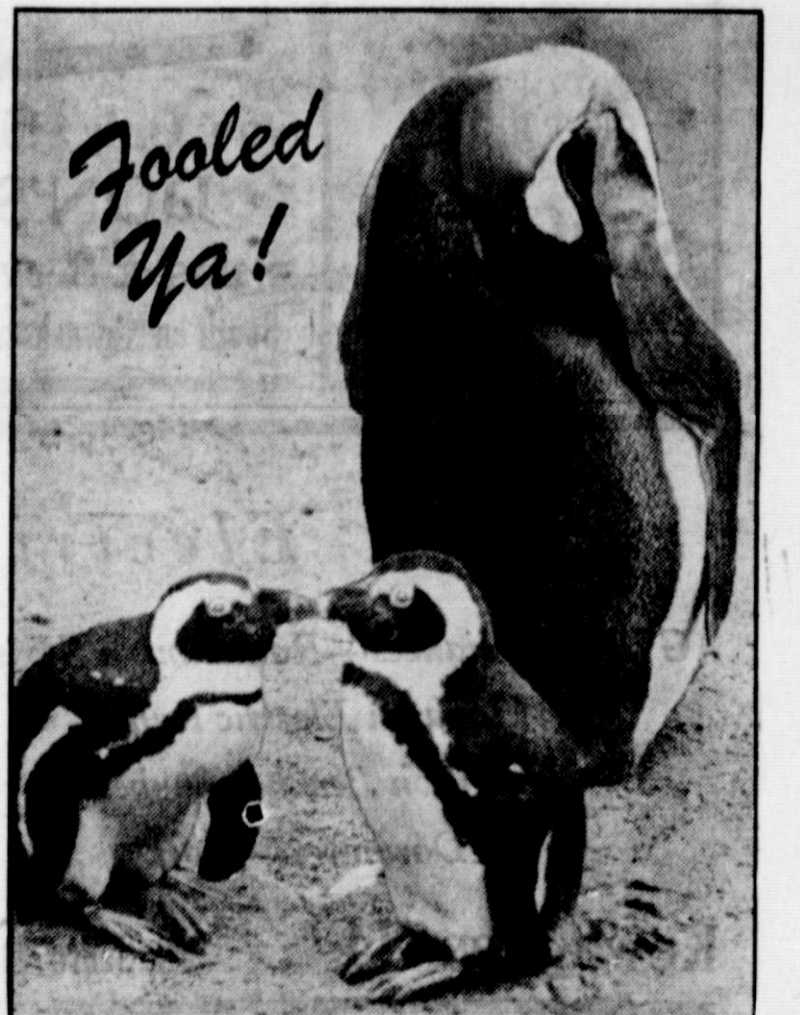

Our Great America by Woody

PRESENT TO ARMS—Wendell Pugh, Hospital Corpsman 3/c, feeds baby to mother at feeding time as part of his duties at Naval Medical Center, Bethesda, Md. Four sailors are needed to the duty, take great pleasure in their unusual Naval duty—they help to usher into the world prospective little tars and Waves.

SWEET-TOOTH PASTE — Putting the squeeze on the latest breakfast-table hazard—jelly in a toothpaste-like tube—is Richard Piendzik, of East Cleveland, Ohio. The new product smears just as efficiently as old-fashioned jar-type jelly, to judge from Richard's face.

FOOLED YOU, TOO—These two Blackfoot penguins at the zoo in London, England, are slipping in a little beaking despite presence of the (King) penguin. But if you think that the big fellow is hiding his head in bashfulness at such goings-on, take another—and closer—look. The King's white vest shows that he's actually turned in the opposite direction.

Miracle Whip SALAD DRESSING

THE ONE AND ONLY

"Hot Flashes Stopped" or strikingly relieved

in 63-80% of cases in doctors' tests

If you're miserable from the "hot flashes," and accompanying irritable, restless feelings of "change of life"—you may be suffering unnecessarily!

*For... in tests by doctors... Lydia Pinkham's Compound and Tablets brought relief from such functionally-caused suffering to 63% and 80% (respectively) of the women tested! Complete or striking relief!

Yes! Research has proved these medicines thoroughly modern in action... has shown you where to look for relief from those distressing, nervous, "out of sorts" feelings of mid-life "change"!

So... get Lydia E. Pinkham's Vegetable Compound—or new, improved Tablets with added iron! (Wonderful, too, for the functional pains of menstrual periods.)

It acts through a woman's sympathetic nervous system to relieve distress of those awful "heat waves"!

Tasty Tip for Quick Meals!

GOOD ELIMINATION IMPORTANT

The two most necessary acts of daily life consist of consumption of those things necessary to sustain life and the elimination of all waste products. The waste eliminated through the bowels is the substance which the body cannot use, and therefore discards.

For elimination through the bowels to be perfect, the muscles of the intestine must be animated by a 100 per cent flow of vitality over the nerves feeding them. Spinal pressure upon intestinal nerves slows up the bowels. Chiropractic spinal adjustments are the best known method of releasing this pressure and restoring normal energy to the bowels.

MILLERS ATTEND HOME FURNISHINGS DISPLAY
The latest answers to the needs of the American homes in the line of home furnishing went on display Monday at Chicago, Ill., and Grand Rapids, Mich.
First reports made have indicated that the coming new look will be the rounded, softened look over the straight and tailored design. Soft new shades continue their lead in the decorators color scheme of today.
Miller's of Kewaskum was once again well represented, "Pat," Joan, Fred, Joe and Eddie being among those attending. They carefully selected the many new designs and fabrics which will soon be shown on their display floor.

TEACUP TOPICS

However you wear your hair, plain or fancy, depends on your face, your stature and most of all on your own personal taste. But no matter what the style, let your coiffure be your crown.

Real hair glamor is not only style but general good health. And here, as in skin care it is cleanliness that makes a great deal of difference. Incidentally the once a week shampoo routine is almost as obsolete as the Saturday night bath ritual. Hair should be washed whenever it needs it, every day if necessary, say the experts, as long as the shampoo is a bland and gentle one.

To get the most out of your shampoo rinse hair well with warm water to take off all surface dust. Then massage the shampoo well into the scalp. Don't expect a great deal of lather on the first application. The second will give you heavy, rich foaming lather to clean out every bit of dirt. And it takes only a minute more to follow your shampoo with a creamy rinse to give hair real luster.

The naked shoe is doing wonderful things for American women by emancipating their feet! It is giving new foot freedom. You will get used to this and you will want to keep it. Toes actually move when they're out in the open and bumps on heels disappear. You'll like this naked look and feel. To keep the same ease and freedom of the open shoe in a closed one, is bringing about a revolutionary shoe.

Construction is different — no hard toe boxes, no stiff counters at back of shoes. Leather is softer — to caress your foot instead of encasing it. Styles are fluid, designed for the foot at ease and in motion. It's a new philosophy, built on the function of the foot.

Shoes are becoming more and more like kid gloves. Why should they have to stand up? You should be able to stack them in bureau drawers like gloves or even carry an extra pair in your purse, to change as your mood changes. Shoes should not have to look like anything but a glove until the body of the foot gets into them and brings them to life. The shoe of the future will wrinkle over your foot, like your dress takes its shape from your body.

We wouldn't think of wearing gloves that are stiff as shoes, they would paralyze our hands. Since one-quarter of the bones of the body are in the feet and our feet carry the weight of our bodies, they deserve the same care we give our hands. Gloves on your feet means letting the shoes gap, letting them wrinkle, so that they have personality and move as you move, so they become a part of your free, active way of life.

Fashion has freed our bodies for the kind of lives we lead, everything but our feet. So, in 1955, for the first time, we women can have what we want — freedom from the toes up.

Black and white is a sophisticated, high fashion combination. But it's a youthful fashion, too, worn by Juniors in overblouse and skirt, tunic and skirt, sheath and coat partnerships.

Creamy Lemon Cheese Cake
1 1/2 cup lemon juice; 4 packages cream cheese (3 ounce packages); 2 eggs, beaten; 3/4 cup sugar.
Topping:
1 tablespoon grated lemon peel; 1 tablespoon sugar; 1 cup sour cream.

Combine lemon juice and cream cheese; cream well. Add beaten eggs and sugar and beat until fluffy. Pour into vanilla wafer crust and bake at 350 degrees for 15 to 20 minutes. Remove from oven and cool for five minutes. Prepare topping: Mix lemon peel, sugar and sour cream. Spread over pie. Return to oven and bake 10 minutes longer. Cool. Chill at least five hours before serving. Decorate top with lemon slices and crumb mixture, if desired.

Vanilla Wafer Crust
1 cup vanilla wafer crumbs (about 30 wafers); 2 tablespoons margarine or butter, melted; 1 tablespoon sugar; 1 tablespoon lemon juice, few grains of salt.
Mix crumbs, melted butter, sugar, lemon juice and few grains of salt. Reserve some crumbs for top, if desired. Press crumb mixture evenly and firmly on bottom and sides of eight inch pie pan. Pour in filling. Bake. Yield: Eight inch pie.

Give a beggar a quarter a week for five weeks and he will give you a half dozen nasty looks when you skip the sixth week.

The public school system is the greatest promoter of business to be found anywhere.

In Fashion Now

It looks like longer hair is really going to be the most popular type hair-do, in spite of the coming warm weather of summer. It may be a bit early to say but it looks like longer hair will be with us for sometime to come.

There is no getting around the fact that this length is more romantic looking. Most men will vote in favor of longer hair any day.

There are three rules, you should always go by concerning the care of your hair if you want to look your best. First, and most important, keep it healthy. Next, keep it clean, even if it means shampooing twice a week. Third, find a hair-do that complements you and is easy to care for.

Don't depend completely on your hairdresser. A hairdresser is a must for most haircuts and helpful for advice about the hair style most becoming to you. They are fine for scalp treatment or permanents. However, too many sessions under a dryer will leave your hair looking lifeless and dull. A shampoo at home with a good mild drying shampoo and drying your hair in the sunshine is a real beauty treatment.

Learn to care for your hair yourself from the roots out. If you have a serious hair or scalp problem, it will be worth your while to consult a dermatologist, not a hairdresser.

Go to work now to get your hair in tip-top condition, then choose one of the new and romantic-looking longer hair styles.

About Your Home

The contents of any frozen food package should be kept properly refrigerated at all times. This is the only way to insure flavor and nutritional value. Meat should never be refrozen after it has once been thawed. In a recent study carried out by the Council on Foods and Nutrition at A.M.A. headquarters it was shown that sufficient gas would form in non-refrigerated cans of orange juice to cause the cans to explode at their seams after forty-eight hours at room temperature.

Frozen orange juice must be kept in that state constantly if its flavor and nutritional values are to be retained effectively. The contents of any can that has not been kept properly refrigerated or that shows signs of bulging or release of gas when it is opened, should be discarded.

If you are going to freeze foods yourself, you must be very careful to properly package the food. All foods contain moisture which is constantly evaporating. This moisture passes right through loose or poor packaging materials. Thus the product shrivels and develops a woody texture. A hard leathery crust forms on meats.

To prevent this, food must be sealed in moisture-proof material. They must be sealed as airtight as possible. These methods protect the vitamin content, as well as flavor and texture of foods.

Foods need to be quick-frozen. In large capacity freezers, a special freezing compartment is provided. If your freezer does not have such a compartment, it would be worthwhile to have it quick-frozen commercially.

Evidence on Hand

Mother — "I understand you played ball today instead of going to school."

Tom — "That's not true, and I have the fish to prove it isn't."

One of the most valuable discoveries about so-called big men is that under the skin they are just ordinary little men.

Ten Word INTELLIGRAM

Check correct identification of these famous lakes.

1. Crater Lake is in (Oregon) (Washington).
2. Finger Lakes are in (New York) (Michigan).
3. The Great Lakes (do) (do not) form largest body of fresh water on earth.
4. Gatun Lake forms part of the (Soo) (Panama) lock system.
5. Reelfoot Lake is in (Tennessee) (Virginia).
6. You'd go to (Louisiana) (Georgia) to see Lake Ponchartrain.
7. Yellowstone Lake is in (Arizona) (Wyoming).
8. (North) (South) Dakota is the site of Devils Lake.
9. Lake of the Ozarks is in (Arkansas) (Missouri).
10. Great Salt Lake is in (Wyoming) (Utah).

Count 10 for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior, and 90-100, very superior.

Decoded Intelligram

1—Oregon, 2—New York, 3—Do, 4—Panama, 5—Tennessee, 6—Louisiana, 7—Wyoming, 8—North Dakota, 9—Missouri, 10—Utah

All Time Favorite... Quick and Easy

The true shortcake belongs to the biscuit family, a dough enriched by the addition of sugar, egg, cream or milk and butter. When put together and topped off with fruit and cream, shortcake becomes a most satisfying meal in itself.

Here's a little different twist to the well-beloved, old-fashioned shortcake, resembling the scones that are favorites for Sunday morning breakfast or afternoon tea. The bit of grated orange or lemon rind or a sprinkle of mace gives an extra bit of appetizing flair.

STRAWBERRY SCONE SHORTCAKE

- 6 servings
- 450° preheated oven, bake about 12 min. on a cookie sheet
- 2 cups sifted all-purpose flour
- 3 teaspoons baking powder
- 3/4 teaspoon salt
- 1/2 cup granulated sugar
- 1 teaspoon grated lemon or orange rind—or
- 1/4 teaspoon mace
- 1/2 cup butter
- 1 egg, well beaten
- 1/2 cup milk (about)

4 cups sweetened sliced strawberries

1/2 pint (1 cup) heavy cream

Heat oven to 450° (hot). Sift together the dry ingredients. Add grated rind or mace. Cut in the butter with 2 knives or with a pastry blender, until it resembles corn meal.

Add well-beaten egg combined with milk. Use more milk, if necessary, to make a soft but easily handled dough.

Turn out on floured board or cloth. Knead 10 times to shape into smooth ball. Roll or pat dough 1/2 inch thick and cut into 2 to 3 inch rounds. Spread

tops with butter. Sprinkle with sugar. Bake an inch apart on cookie sheet in hot oven of 450° about 12 minutes or until done.

In Serving: split hot biscuits, butter generously. Put together with plenty of the berries. Top with the remainder of the berries, some of them whole if desired, then sweetened whipped cream. Or pass plain cream.

Packaged biscuit mix may be used. Measure out 3 cups biscuit mix instead of making up the dry mix as suggested. Add sugar, seasoning, egg and milk enough to make a soft, easily handled dough.

Health & Beauty

Eternal vigilance is the price of prolonged youth and health that must go with it. Your body and your skin will respond to proper care, but on the other hand it quickly shows neglect or abuse.

The fur of an animal and the feathers of a bird gleam and glisten when their owners are properly fed and cared for. Observe the satin coat of the tenderly nurtured, scientifically fed, well groomed race horse, and compare with the dead-looking ragged coat of the untended, neglected horse. Here you have a striking example of what judicious, intelligent care will do for all living things.

The face suffers most from exposure, hence ages more quickly than any other part of the body. This is due to want of protection from biting winds and burning sands. Discretion in caring for it, will, to a large extent overcome the evil effects of exposure to the changing elements and keep the complexion in good condition.

The body is a poison factory. The emunctories, or organs, for removing these pernicious substances are the liver, kidneys, bowels, lungs and skin. If waste is not properly cared for, but allowed to accumulate in the body, the skin suffers and presents an unhealthy appearance.

Many people drink too little water, and the moisture that should exude through the skin to the amount of two or three pints a day, is greatly lessened. The perspiration becomes so concentrated and acid that the skin is irritated. The pores are stopped by viscid secretions. Blackheads and pim-

Primitive Articles of Jade Found In Mexican Cache

New archeological exploration of the mysterious Olmec civilization at La Venta, Mexico, has just yielded a cache of 56 primitive implements, most made of jade.

These celts together with another find, a stone monument representing a seated figure, offered clues to the culture that flourished in southern Mexico about 1,500 years ago.

The objects were unearthed by an expedition sponsored by the National Geographic Society, the Smithsonian Institution and the University of California.

Particular interest is attached to five implements carved with Olmec designs of jaguar and bird monsters. The stone monument, slightly more than life size, was discovered on a terrace of limestone slabs flanking a buried mound. Despite its broken head and arms, the statue has great artistic merit. It is to be shipped to the Museo Nacional in Mexico City.

The party is now concentrating on digging around the west bastion of La Venta's ceremonial court, a complex of clay, adobe and stone remains.

Dr. Philip Drucker, Smithsonian anthropologist and joint leader of the expedition, hopes to find at a depth of 15 feet a block pavement representing a jaguar face covering 400 square feet. Such a jaguar "mask" was found near by in 1943.

Additional excavations will try to locate earlier construction. Diggers thus far have removed 800 cubic yards of earth and 100 tons of basalt columns that surmounted the bastion. The ceremonial court's eastern half has been cleared of a five-foot-deep layer of drift sand. The clay floor of the court has been bared.

La Venta, in northwest Tabasco State, is considered the most important single site in the Olmec civilization which perhaps antedated the theocratic cultures of the Maya, the Zapotecs and the Toltecs. Behind La Venta's curtains of antiquity lie several mysteries.

How did its people transport the weighty basalt for their monuments? The nearest volcanic rock is 60 miles away. And how many persons lived on sandy La Venta island amid a mangrove swamp? Island-grown food would have sustained only about 100 persons. But many more must have built the mounds. Archeologists therefore speculate that La Venta may have been a religious and political center dominated by Indian kings and high priests holding sway across a widespread region.

Little Leagues

Little League officials reported recently that Little League baseball is expanding at such a rate that the net increase in baseball leagues for youngsters has increased at a rapid pace in the last year and equals the increase for the ten years prior to 1954.

In recent days, the last State in which Little Leagues were not operating—North Dakota—became the forty-eighth to join the program and now Little League baseball is played in all forty-eight states. This year, more youngsters will be playing than ever before.

The Little League World Series will be held in Williamsport, Pa., in August, featuring the best teams from the eight regions of the United States. It is estimated that some half million youngsters will compete in the nine-to-twelve year age brackets this year.

We think the participation of local youngsters in baseball programs is one of the most worthwhile activities we know of. The phenomenal growth of Little League baseball, and other baseball movements for youngsters, is most encouraging. It is one way to lick the problem of increasing juvenile delinquency, caused principally by idleness among youth.

Knowledge can keep a cancer strike from becoming a cancer kill. The American Cancer Society urges everyone to join the Cancer Crusade and have a physical check-up in Cancer Control Month.

More than 1,000 scientists and 3,000 technicians are now working on cancer research sponsored by the American Cancer Society. Help support this work with a contribution to the ACS Crusade.

During the three years of the Korean struggle, cancer killed 20 times as many Americans as the war did. Join the fight against it by giving to the American Cancer Society.

Bible Comment. We Have Need To Worship Assembled

"WE gather together to ask the Lord's blessing." Thus begins a famous old hymn, which expresses the spirit and reality of Christian worship.

"Why should we go to church?" someone might ask. Can we not be equally good Christians in our individual way, seeking to live well toward God and our fellow men?"

It is much easier to have a vague and general love for all men than it is to have a particular and very real love for the neighbors, or toward one's associates.

The "bond of fellowship" is of the very essence of Christian worship, much as faith and devotion have their beginning and rise in the individual soul. In a community in which the church represents a bond of fellowship among those who live within its area, it becomes a mighty force for mutual encouragement in all that is best.

But there can be danger in emphasizing too much the social activities of the local church.

One essential definition of the church is that it is "the body of Christ." This means that if the spirit of Christ be not in the body, no matter how fine the organization it is not the Church of Christ.

And when that first, deepest, essential nature of the church is attained, all its social activities are of great value. For churches are, and ought to be, places of fellowship; social institutions as well as places of formal worship.

Sports Quiz

1. Who won the McBride-Satterfield fight?
2. What horse ran third in the Kentucky Derby?
3. What nation does Avery Bundage predict will closely press the U. S. in the 1956 olympics?
4. What National League baseball club became the second to beat the Dodgers?
5. In their first four games, how did the Yankees and Indians come out this season.

The Answers:

1. McBride, by decision.
2. Summer Tan.
3. Soviet Russia.
4. The Chicago Cubs.
5. The Indians took three out of four.

SPORTS AFIELD

By Ted Kesting

With properly matched tackle, some idea of where to find fish, and a light tread so as not to scare the daylight out of them, anybody can catch trout on flies, claims Jason Lucas, angling editor of Sports Afield magazine.

Now practically all expert anglers agree that the size of the fly is the most important thing in trout fishing, granted that one has some knowledge of how to fish it. The unsuccessful angler uses flies which are too large. For trout found in most places, 10's are the biggest that will get good results, while 12's, 14's and even smaller down to 18's are some-

times better. Skimpily dressed flies are best—you may have to buy overdressed ones and trim them with a scissors.

Don't bother too much about patterns, but get some No. 10 or 12 wet flies that are mainly black, white, gray and brown. Later, after you're catching trout well, get some of the same colors in smaller sizes; and still later, you can start playing around with patterns—that may not get you any more trout, but it's lots of fun.

Lucas says he'd like to print BE CAUTIOUS in red letters an inch high, in the feeble hope that it will make some impression on careless anglers. Here are some good general rules in this matter:

- 1) If trout are where you can see a trout, he can see you too; but he saw you first, so he's gone.
- 2) The calmer the surface of the water, the farther he can see you.
- 3) The higher you are above the surface, the farther he can see you.
- 4) It's a danged sight better to be too cautious, which can't keep you from catching them, than to be just a shade too careless, which sure as heck can. No matter how broken the surface, nor how low down you are, don't get closer than 30 feet to the spot you are going to fish.

A word about leaders — the finer and less visible the leader, the more trout will take your fly. Use a tapered leader, one 6 to 7 1/2 feet. Lucas feels that undyed leaders are more productive.

The American and English cocker spaniels are two distinct and different breeds; they have different physical characteristics, but search for and handle game the same.—Sports Afield.

In spinning, alone of casting methods, the spool does not revolve during the cast; line comes off loosely over its end, as you'd pull thread from a spool on the floor.—Sports Afield.

"TIRED" OF EROSION—Old tire casings are "planted" on this farm near Englewood, Kan., in hopes of harvesting a crop of precious soil which would ordinarily be blown away by spring storms. Previous tests of the unusual planting have been successful.

Here's the Answer

"STARFIRE" INSPIRES SWISS—USAF's F-84C Starfire, above, has apparently inspired designers of Switzerland's first home-built jet pursuit plane. Swiss P-16 has similar air intakes, same type wing and similar backbone ridge from pilot's canopy to tail assembly.

"Ol' Swimming Hole" Time

"Ol' swimming hole" time is approaching for the American boy, one of the few water-loving North American mammals not a born swimmer.

While hundreds of thousands of youngsters must go through a learning period of thrashing clumsily about in river, lake, ocean surf or pool, less resourceful lower animals seem to have built-in swimming ability. Most land animals, when the need arises, can propel themselves in water, some with agility, some awkwardly.

The hare and the hedgehog sometimes take voluntarily to water, says the National Geographic Society. The mighty moose swims well. Bats can hold up on watery surfaces. Ermine navigate proficiently.

Monkeys Can Bathe
In Puerto Rico a colony of monkeys bathes along the seashore, and in Washington some years ago, an escaped monkey plunged into the Potomac River and eluded a pursuing rowboat for more than an hour.

Rivers present no problem for the 15-pound Texas armadillo. The armored beast swims wide creeks but walks across the bottom of narrow streams.

The star-nosed mole, with its 22 fleshy tentacles, has a flair for aquatics, occasionally moving under ice. A resident of Canada and the United States, the restless mole swims among flooded cattails and probes the ground for worms.

The four-inch-long brown lemmings, arctic inhabitants of old and new worlds, are dogged swimmers. Tawny, with short tails and furry feet, the creatures sometimes assemble in the millions to migrate. Neither lakes nor streams stop their march. When

25 Bomb-Scarred Girls Arrive Here

Twenty-five Japanese girls, who still bear the scars of the world's first atom bomb explosion, recently arrived in New York and are soon to undergo plastic surgery.

The story is an example of international goodwill on the highest plane. The twenty-five girls were selected in Japan recently by two surgeons, Dr. Arthur J. Barsky and Dr. William H. Hitzig.

The girls are to get plastic surgery without cost and be returned to Japan. The idea of bringing them here, to demonstrate this country's goodwill for Japanese victims of the atom bomb attack of August 6, 1945, on Hiroshima, was that of Norman Cousins, editor of the Saturday Review of Literature.

Hospital facilities are being donated by Mount Sinai Hospital in New York and the Air Force brought the girls to this country free of charge. Housing for the girls is also being provided by the Air Force.

The girls, all eager to have their scars and disfigurements removed, naturally, arrived in New York tired but friendly and full of hope and confidence. They managed smiles and told reporters how glad they were to be in the United States, which they now considered a friendly nation.

This sort of project is one that warms the hearts of all Americans. Congratulations go to all those who conceived the idea and who had a part in carrying it out. Without a doubt, the twenty-five young Japanese girls, who are putting their faith in the American surgeons, will never forget this example of international friendship, nor will many other Japanese.

An appealing picture in black-and-white, of course; but just think how wonderful it would be in color.

New, Fast Color Film Broadens Picture-Taking Possibilities

This may not be the usual season for Thanksgiving—but we strongly suspect a great many users of miniature cameras will feel like giving thanks when they hear about the brand-new color film that's now on the market.

Every color-slide enthusiast—at home or on vacation—will be quick to applaud the advantages of this fast new 35mm. and 828 Ektachrome film. It's just about three times faster than any other outdoor color film you've previously been loading into your miniature camera. And do you know what this extra speed can mean for you? It will make it possible for you to take your pictures under far less favorable outdoor lighting conditions than you've ever dared before.

Besides giving you a wider choice of lighting possibilities, the new film allows you to "stop" more motion in your pictures—to snap your subjects in action. This will be good news for many of you who like to snap sports and action pictures. For now you can

8. Approximately 95 per cent, as compared with 11 per cent in 1935.
9. 50,000,000.
10. Approximately 18,000,000.

Tin Can Nest Boxes Attract Tree Swallows

Tin can nest boxes will help attract tree swallows to your farm, reports Robert S. Ellarson, wildlife specialist at the University of Wisconsin.

Many farmers want tree swallows on their property—not only for their beauty, but also because they eat many kinds of flying insects. In research conducted at the university arboretum in Madison last year, Ellarson found that nests made from two-quart cans worked quite well.

The two-quart tin is the size usually used by restaurants for vegetables and fruits.

First step in making these nests is to cut a wooden lid for the top of the can. Make it so it projects about an inch in front and one-half inch at the sides of the can. Place two screw-eyes so they project downward from the bottom of the lid and are on opposite sides of the can. Then, by passing a heavy wire through these screw-eyes and through holes punched in the sides of the can, you can hold the can to the lid.

This also makes it easy to remove the lid to clean the nest in the fall.

An entry hole, one and one-half inches in diameter, should be cut two-thirds of the way up the can. Either bend the edges of the hole over or file them smooth so birds won't be injured.

A wire, passed through holes punched opposite the entry hole, will hold the completed nest to a fence post.

Ellarson says the nest boxes should be painted green and placed in an open area where there are few trees or shrubs. This helps keep wrens out of the nests, he explains.

There's more chance of tree swallows choosing the nest if there is a pond or swamp near the homemade nest box.

Ellarson says the swallows will usually decide where to nest by the middle of May. After this, it's almost impossible to attract more because the birds raise only one family a year.

But if they find things to their liking, Ellarson says the tree swallows will return next year. If they aren't occupied this year, they will be decorative this year and ready to house the swallows next spring. It is a worthwhile and rewarding project for adults or teenagers.

THEY'RE CARRYING THE BIGGEST THING TOO!

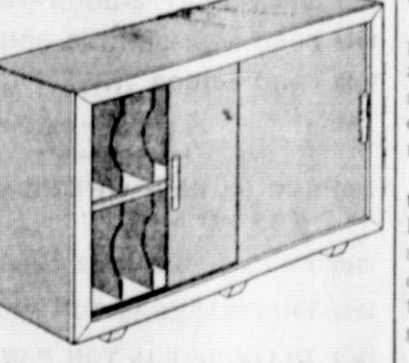

Build a Record Cabinet

KEEPING phonograph records in a cabinet is a good idea because it enables you to classify your albums, put them in a given location where they can be found readily and have them in a safe place.

Features of the record cabinet illustrated are the low cost, simple construction and attractive design, created by the noted pattern maker, A. Neely Hall, of Craft Patterns.

Only one 4 x 8 panel of Masonite Tempered Presdwood is required.

plus some light lumber for the framing. The cabinet is 27 inches high and 36 inches long. It stores 10-inch records. The sliding doors are pieces of the tempered hardboard which slide in grooves.

The cabinet may be finished to suit the room decor. A detailed, easy-to-follow plan for construction of the record cabinet may be obtained free by writing the Home Service Bureau, Suite 2037, 111 West Washington St., Chicago 2, Ill., and requesting the A. Neely Hall folder, "Six Home Workshop Projects."

Behind The Scenes in American Business

By Reynolds Knight

During all the furor over the guaranteed annual wage, a small group of skeptical observers has been contending that the vast and indeterminate obligation this would amount to has been put forward only as a tactic, to induce employers to come through with larger immediate dollars-and-cents payments.

This may yet turn out to be wishful thinking. GAW could erupt into a bitter battle in steel, or autos, or both. Yet it is true that one major contract has been signed, with GAW being traded off for an immediate 14-cent raise.

The CIO Glass and Ceramic Workers and the flat glass industry have signed for an immediate 8-cent hourly wage boost and another 6 cents an hour in fringe benefits. A joint study group of the industry and the union will study GAW and report back next year.

The automobile companies are the biggest customers of the flat glass industry, and this event might be the tipoff that a 14-cent package could buy off the auto workers as well. That will be more difficult, because of the extreme position the auto workers have taken, but it isn't impossible.

As a 14-cent package spreads out from mass-production industry into smaller plants, it may bring some hardships. If past history is a guide, the small shops will still have to pay it if the big ones do.

SHORT AND SWEET — Despite women's reputation for gabiness, today's teen-age girls can come to the point when it pays them, if the outcome of the nation's biggest writing competition can be taken as a guide.

There were 78 first prizes among a nationwide Scholastic Writing Awards for which 45,000 high school students throughout the country competed. Girls won 46 of them, almost half again as many as the boys—32.

In the short-short story competition which was one phase of the contest, girls won eight prizes and a boy one! Poetry, drama, article writing and essay composition also saw the boys outscored, but not so badly.

The president of the company hailed the record number of entries in the contest's 30th year as evidence that television, movies and comic books haven't destroyed the young ones' urge to do some creative writing themselves.

THINGS TO COME — A new industrial vacuum cleaner has a caboose coupled on to haul along its various attachments. . . This summer's beach umbrella will have not only a spike to hold it in the sand, but a clamp to affix it to a boat. . . A new fire control gadget lifts domes on the roof to help flames rise instead of spreading. . . If you have a space 2 1/2 feet high for it to stand in outdoors, you can install a new weather-vane in a variety of designs. . . Plastic cigarette cases which will stand erect on your desk are offered for imprinting with an ad.

THOSE GAY AUTOS — Whatever your attitude toward those grape-juice-purple and -buttercup - yellow, fire-engine - red-and-morning-after - gray two-toned automobiles, they won't be coming off the assembly lines in the same rainbow profusion next model year.

Automobile manufacturers say they do help distinguish cars from one another, for the individual who wants to be different. At the same time, those very differences force the dealer to carry more cars to satisfy every taste, and makes life more complicated for the manufacturer.

There are now 400 pigments for painting cars, and as many as six assembly lines grow where one stretched before, to shunt the gay cars to where they can be given matching interiors.

Detroit thinks it was a good thing to get away from Henry Ford's insistence on "any color so long as it's black," but now it's catching up to the ancient truth that there can be too much of a good thing.

BITS O' BUSINESS — The Texas Railroad Commission, which has cut back allowable oil production by 250,000 barrels a day from March's high mark, plans another cut of nearly 80,000 barrels a day for June. . . Industrial production in April, as measured by the Federal Reserve Board, was less than 1 per cent below the postwar high mark set in March, 1953. . . Coal production to mid-May was up 25 million tons from the output in the like period of 1954.

Eden Shades Chevs, 9-7; Saukville Here at Night

The Kewaskum Chevrolets lost a close exhibition night game to Eden 9 to 7, under the lights here last Thursday. The team did not play a Lakes game over the week end but met Mequon in a league tilt on Thursday night of this week.

Eden got off to a fast start, scoring four big runs in the first inning off John Tessar, Kewaskum outscored Eden the rest of the way but could not close the gap and pick up a win. Trailing 8-2, the Chevs rallied for four runs in the eighth frame to bring the count to 8-6. Each team scored a run in the ninth.

Kewaskum outhit Eden, 12 to 11, but runs win the game. Augie Bilgo who has been hitting at a terrific pace, continued his streak with four for five, including a double and triple. Wayland Tessar, Bud Korth and Fred Bruhn each got two hits for the losers with Tessar's including a long home run. Pitchers Norm Serwe and Bohlman each got two bingles for the winners. Bilgo had connected for eight straight hits before being stopped on a close play at first base.

Starter John Tessar was followed on the hill by Dave Mertzig and Fred Bruhn, two 15-year-old hurlers. Mertzig pitches for the high

school team and was only a sophomore the past year. Bruhn is from Panama and is spending the summer here with relatives. Both turned in a very fine pitching job. Mertzig struck out five batters in two innings. Serwe and Bohlman shared the hurling chores for Eden. Serwe was the winner and Tessar the loser.

Thursday night's game with Mequon was an important one for both teams. Up to this contest both had a chance for the first half title. Kewaskum sent John Tessar to the mound to be opposed by Don Renicke. This Sunday afternoon the Chevs play the rival West Bend team there and next Thursday Saukville plays a night game here. Both are league tilts.

MOST Modern V8 FOR YOUR JOB!
NOW...THE SHORTEST STROKE V8's
IN ANY LEADING TRUCK!

Now new Chevrolet Task-Force trucks bring you the industry's most modern V8* engines with an ultra-short stroke for longer life—plus all these great advances.

Modern 12-volt electrical system
You get double the punch for quicker starting and more efficient ignition plus a greater electrical reserve.

Gas-saving high-compression ratio
With a high 7.5 to 1 compression ratio, Chevrolet's new V8 truck engines squeeze extra power out of every tankful of gas.

Note that the bore is bigger than the stroke!

New aircraft-type valves
Each valve functions independently—as in modern aircraft engines. Valve action is more positive.

Floating oil intake... full-pressure lubrication
Intake selects the cleanest oil for full-pressure engine lubrication.

*V8 standard in the new L.C.F.'s, an extra-cost option in all other models except Forward-Control.

NEW CHEVROLET Task-Force TRUCKS
CHEVROLET Year after year, America's best selling truck!
