

Mrs. Petermann, Mrs. H. Klein Die

Mrs. Mathilda Petermann, 90, widow of the late August Petermann of the town of Auburn, died early Tuesday morning, July 26, at the home of her son-in-law and daughter, Mr. and Mrs. Herbert Koehler in the town of Barton. Death was attributed to old age complications.

Mrs. Petermann was born Sept. 5, 1864 in Germany. She came to this country at the age of 22 years and settled in the town of Auburn. She resided in that township since until three years ago when she went to live with her son-in-law and daughter. Her marriage to August Petermann took place May 26, 1887 at St. John's Lutheran church, New Fane. He predeceased her on Oct. 6, 1922.

Seven children were born to the couple, three of whom preceded their mother in death. One daughter died in infancy, a son John died while in the U. S. service during World War I, and a son Arthur died on Dec. 8, 1951. Surviving are Mrs. Cora (Mrs. Marvin Robb) of Milwaukee, Linda (Mrs. Otto Koepke) of R. 3, Sheboygan Falls, Henry of the town of Auburn and Olga (Mrs. Herbert Koehler) of the town of Barton. She is further survived by 15 grandchildren and 27 great-grandchildren, two daughters-in-law, three sons-in-law, three sisters, Martha Schultz, Hulda Bleid and Bertha Seefeldt, and one brother, Otto Falk, all of Germany.

Mrs. Petermann was a charter member of the Ladies' Aid of St. John's Lutheran church, New Fane. The body was in state at Miller's funeral home from 2 p. m. Wednesday to 11 a. m. Thursday when it was taken to St. John's Lutheran church to be in state from 11 a. m. until the time of services at 2 p. m. The Rev. E. J. Zenow officiated and burial was in the church cemetery.

MRS. HUBERT KLEIN

Mrs. Hubert Klein, 70, nee Susan Mertes, of Barton, a former resident of the town of Wayne many years, died Tuesday evening, July 26, at St. Joseph's hospital, West Bend. She had been confined to the hospital since July 1.

A daughter of the late Peter and Catherine Mertes, the deceased was born Jan. 27, 1885 in the town of Auburn. She was married to Hubert Klein on April 11, 1907 in Holy Trinity church, Kewaskum and the couple resided on a farm in the town of Wayne most of their married life. They moved to their present home at Barton six and one-half years ago after retiring from the farm.

Surviving along with the widower are four children, Nelora (Mrs. Lawrence Gaffney) of Fond du Lac, Eunice (Mrs. Joe Cartus) of West Bend, Florence (Mrs. Ralph Ruplinger) of R. 2, Kewaskum, and Lawrence of West Bend. She also leaves one daughter-in-law, three sons-in-law, 12 grandchildren and one sister, Mrs. Steve Klein of the town of Auburn.

Mrs. Klein was a member of the Royal Neighbor Camp of Kewaskum, the Married Ladies' society of St. Mary's church, Barton, and the Ladies' Altar society of St. Bridget's church, St. Bridget's.

The body was in state at Miller's funeral home, Kewaskum, from 2 p. m. Thursday until Friday morning when funeral services were held at 9:30 a. m. at St. Bridget's Catholic church. The Rev. Father Irvin, O.F.M. Cap., presided and burial was in the new Holy Trinity parish cemetery, Kewaskum.

TWO LOCAL MEN FINISH DALE CARNEGIE COURSE

Bob Schmidt and Gottlieb Walz of Kewaskum received certificates last Thursday for completing the Dale Carnegie course in Speech and Human Relations. The course was given at Bauer's Hotel in Campbellsport where a banquet and program was held at the completion of the course.

More than two-thirds of the deaths caused by farm machinery around the nation involve tractors, and more than half of these deaths occur because the tractor overturns.

County Fair Now On at Slinger Grounds

Many Washington county residents and others are attending the 98th annual county fair which extends through Sunday, July 31, at the Slinger fairgrounds. There are attractions for all in exhibition buildings, on stage and on the midway. A record four-day attendance is expected at the fair which opened Thursday.

Opening day was entry day and the fair has more entries than in past years. All available space in the barns and display buildings are filled to overflowing. County Agent E. E. Skalsky, who serves as secretary of the fair, reports that 50 tents house the commercial displays, including one of 40x100 feet by the Wisconsin Electric Power Co.

West Bend radio station WISV is presenting daily broadcasts from the fairgrounds. The public is invited to visit the broadcasts. The Snapp Greater Shows provide a variety of rides and entertainment on the midway.

Alice in Dairyland is scheduled to visit the fair on Saturday afternoon at about 2:30 p. m. Saturday is children's day and the price of all rides has been reduced to nine cents for children under 14 years. After 5 p. m. regular prices will prevail. The program for the four days was published in last week's issue.

Secretary Skalsky promised that this year's fair will be the largest in the history of the event with more exhibitors, more displays and greater entertainment features than ever before. A complete program of free entertainment is being held on the outdoor stage. Exhibitors from throughout the county have set up attractive displays, including one by Miller's Furniture, Kewaskum.

In addition to the regular attractions there are the traditional 4-H achievement judging events, the dress revue, homemakers displays, crop and floral displays and cattle and poultry judging, and many other events.

There is no charge for admission and there is ample free parking space.

Annual Fishing Contest On Recreation Schedule

Here is next week's summer recreation program schedule:

Monday, Aug. 1—9:00, Puddles practice and game. 1:00, checker tournament; 3:00, girls' softball.

Tuesday, Aug. 2—Archery for older boys and girls, 9:00 to 12:00; 1:00, small Puddles game; 3:00, girls' softball and volleyball.

Wednesday, Aug. 3—Puddles practice and game at 9:00, 1:00, bus for swimming at West Bend (girls will play softball with West Bend girls).

Thursday, Aug. 4—8:30 to 12:00, fishing contest on the river. Prizes will be awarded for largest fish and most fish in each of the following groups: Girls 12 and under, girls 13 and over, boys 12 and under, boys 13 and over.

Fishing must be done between the two bridges and no fishing is to be done before the starting time of the contest.

1:00, small puddles game; 3:00 girls' volleyball.

Friday, Aug. 5—Contests for boys and girls, 9:00; baseball throw for accuracy and distance, basketball shooting, base running for time, Horseshoe pitch, many others. 1:00 swimming at West Bend.

BIRTHS

METZ—A son to Mr. and Mrs. Mathias Metz, R. 3, Kewaskum, Thursday, July 21.

GUENTHER—A daughter, Arthena Kay, to Mr. and Mrs. Arthur W. Guenther, Jr., Campbellsport, Wednesday, July 20, at St. Agnes hospital, Fond du Lac. Mr. Guenther is a nephew of Mr. and Mrs. Wm. Guenther, Kewaskum.

LICHTENSTEIGER—A son, Stevie Donald, to Mr. and Mrs. Donald Lichtensteiger, Campbellsport, July 14, at St. Agnes hospital. Mrs. Lichtensteiger is the former Marianne Ruplinger of St. Killan.

Chevs Swamp Jackson, 27-6; Lose to Port, 6-2

The Kewaskum Chevs lost their ground the past week in the Lakes standings. They broke even in two games, routing Jackson here in a night game last Thursday by three touchdowns and three extra points, 27 to 6, and losing at Port Washington Sunday afternoon, 6 to 2.

The Chevs really went on a batting spree Thursday night against Jackson. They fattened the averages with 22 hits, many of them for extra bases. Oddly though, all but one of the runs were scored in four big innings. They pushed over four buttons in the very first frame, seven in the fourth, seven in the fifth, eight in the seventh and one in the eighth. Ron Rose, H. Rose and Duenkel were the victims of the onslaught, none of them being able to stop the hot Chevs. Manager Killy Honeck worked most of the game for the winners. He gave up one run in the first inning on three hits and then he Jackson scoreless until the eighth when the visitors scored five runs on three hits and four errors. Glen Backhaus came in to relieve him and finished the game.

Three Kewaskum players collected four hits apiece with Bobby Dreher leading the way with four for four. These included a home run and a triple. G. Wierman banged out four for six and his blows included a triple. Wayland Tassar also got four for six, among them a triple and two doubles. Augie Bilgo garnered three bingles, and Bob Staehler and Floyd Dreher each got two. Hauser was the lone Jackson batter with two hits.

Sunday at Port the base hits were few and far between as Kewaskum lost a tough one, 6-2. The Chevs outbit the winners 5 to 4 but runs win the ball game. And they couldn't come through with runners on the bases.

John Tassar went all the way for the losers and did a very fine job in his four-hitter. Walks and errors lost the game for him. DeMerit pitched the win for Port and also paced the team in hitting with three out of four. Augie Bilgo was the only Kewaskum batter with two hits, both singles.

On Thursday night of this week Kewaskum played an exhibition game with Campbellsport of the Rock River loop here and this Sunday the team goes to Cedarburg to take on the first half champions. Next Thursday night West Bend comes to town for a big game and an important one. They are tied with the Chevs for second.

LAND OF LAKES STANDINGS table with columns Won, Lost, Mequon, Kewaskum, West Bend, Port Washington, Cedarburg, Saukville, Grafton, Germantown, Score Thursday night, Scores Sunday-Port 6, Kewaskum 2; West Bend 8, Saukville 3; Mequon 11, Cedarburg 5 (12 innings).

Games Sunday—Kewaskum at Cedarburg, Grafton at Jackson, Saukville at Germantown, Mequon at Port. Game Thursday night—West Bend at Kewaskum.

SPORTSMEN'S CLUB WILL RELEASE 700 PHEASANTS. The Kettle Moraine Sportsmen's club of Kewaskum will release approximately 700 young pheasants in the surrounding area early this Sunday afternoon. The birds were raised from chicks by the club during the spring and summer. Members of the club wanting to 'plant' birds are asked to be present Sunday. The pheasants were raised in the club's pens just north of the village and are now old enough to be released prior to the fall hunting season.

KEITH MEREDITH ENLISTS

Keith Meredith, son of William Meredith, proprietor of the Republican Hotel, Kewaskum, has enlisted in the U. S. Army and reported for duty in Milwaukee on Friday morning of this week.

Kewaskum Blood Donor Clinic On Tuesday, Aug. 2

QUOTA IS 100 PINTS AND MORE VOLUNTEERS ARE NEEDED; WILL BE HELD IN SCHOOL GYM

Next Tuesday, Aug. 2, between the hours of 1 and 7 p. m. Kewaskum will be host for Washington county's second Community Blood Donor clinic within two weeks. The clinic will be held in the high school gymnasium.

Quota for the local clinic will be 100 donors and more volunteers are needed to reach this figure. Chairman for the clinic is Henry Rosenheimer, a director of the County West Bend Community Blood Donor club. Gordon Ohlrogge, West Bend, is president of the club.

A donor clinic was held in West Bend last Thursday and the quota of 200 pints was exceeded when 269 donated blood. Persons from outside the community who were unable to attend the clinic at West Bend are urged to register to donate at Kewaskum.

Donors may sign up for any time during the afternoon by contacting Rosenheimer, calling their township chairman, or phoning Mrs. Harry Koch, 179W.

Donors who visit the clinic will have to spend but a short time there. Light refreshments will be served.

There is a shortage of blood in reserve in the blood bank for our locality and it is urgently needed to provide the bank with ample reserve supplies. Sign up now.

Northern, Western Lakes Stars Play at West Bend 2nd Place Rivers Team Trims Slinger, 7 to 4

Managers of the northern division teams of the Land of Lakes league have selected an all-star squad of 22 players to represent the North in its annual game against the Western division stars. The classic is scheduled to be held at Regner city park field in West Bend next Wednesday night, Aug. 3, at 8 o'clock.

Only six players were selected by unanimous choice for the North team. They include Bob Hensler, catcher, Louie Miller, pitcher, and Carl Kircher, outfielder, all of West Bend; John DeMerit, Port Washington, outfielder, and pitchers Don Gumm of Jackson and Bob Helm of Saukville.

A starting lineup for the classic was also named with West bend and Grafton players earning seven of the nine starting positions. The lineup would include Hensler, Miller, Kircher and DeMerit, along with Bob Kissinger, West Bend, first; Mel Gengler, Mequon, second; Frank Haupt, Grafton, third; Dennis Haas, Grafton, short, and Jack Dickman, Grafton, outfield.

The North will enjoy good bench strength with the following reserves: Infielders—Buck Weaver, Cedarburg; Bud Victor, Cedarburg; Augie Bilgo, Kewaskum; Bud Helm, Mequon, and 'Minnow' Harth, Jackson. Outfielders—Jerry Hammetter, Cedarburg, and slug Korth, Kewaskum. Pitchers—'Lancho' Pintor, Germantown and Mike Monahan, Port. Catchers—Jack Heppie, Saukville, and Ed. Suelflow, Germantown.

Western division teams include Hartland, Delafield, North Lake Merton, Fessick, Pewaukee, Hartford, Sullivan, Rome and Monches.

ONLY 190 COUNTY CHILDREN RECEIVE POLIO INJECTIONS

During the polio vaccination program in Washington county, 190 first and second grade children received two polio injections. This number represents approximately 14% of the total of 1,432 children eligible to participate.

Our Police Chief Says:

If your driver's license expires on August 1 or later it will cost \$1.99 to have it renewed for two years instead of \$6 for four years. The expiration date will be on your birthday every other year.

Village Board Accepts Audit Report for Year

The Village Board of Kewaskum, Washington County, Wisconsin met in regular monthly session with President C. Miller presiding and all board members present except Trustee Reigle. The minutes of the previous meeting were approved as presented.

The audit report for the year 1954, as prepared by the Firm of Kannenberg and Marx, covering the accounts of the Village General Fund, Municipal Water Dept. and the Dept. of Sanitation was accepted as presented, upon motion by M. Schaefer, seconded by J. Eberle and duly carried, and a copy of same was placed on file in the Commissioner's office.

Motion by J. Eberle, seconded by M. Schaefer and carried that the application of Leroy Fischer for an operator's license be approved and that the proper license be issued upon payment of the required fee.

The purchase from the Badger Meter Manufacturing Co. of a two stage water meter test bench by the Supt. of the Water Dept. was approved upon motion by C. Schaefer, seconded by J. Stellpflug and duly carried.

The write off of the delinquent personal property tax accounts as listed under schedule "A-7" of the auditor's report and the write off of the Water Dept. accounts as listed under schedule "B-4" of the auditor's report was approved upon motion by C. Schaefer, seconded by W. Tassar and duly carried.

Motion by C. Schaefer, seconded by J. Eberle and carried that all bills and wages as recommended and approved by the Finance Committee be allowed and paid.

Folks Move Into New Homes, Others Change

Mr. and Mrs. Francis Gilboy are moving from the John Trapp home on North Fond du Lac ave. into their fine new home which they had erected on Bilgo Lane, Doris Bruessel and Robert Bonlander, who will be married Saturday, will move into the Trapp home vacated by the Gilboys.

Mr. and Mrs. Willard Manthei and family recently moved from one of the apartments of the Jac. Schaefer home on West Water st. into their brand new home on Third st. Mr. and Mrs. Lyle Manthei and daughter moved from the rear flat of the John Trapp home on First st. into the Schaefer home vacated by the Mantheis. Eleanor Seefeldt and Leslie Ostrander, who will be married Aug. 6, will move into the Trapp flat vacated by the Lyle Mantheis.

Mr. and Mrs. John Austin and son of Fond du Lac have moved into the upstairs apartment of the E. Bove building on Fond du Lac ave.

Round Lake Renamed Kettle Moraine Lake

The state geographic board has renamed Round lake "Kettle Moraine lake," according to a recent announcement by Clyde T. Smith, acting area co-ordinator for the Wisconsin Conservation Department. The action resulted from a petition from the Fond du Lac county board and residents of the town of Osceola.

Residents of the area asked Fond du Lac county board approval of the new name at the April session explaining that there are so many "Round lakes" in Wisconsin that considerable confusion has resulted from the standpoint of addresses.

The supervisors approved a resolution calling for the change and the state subsequently sent the new name to the United States board on geographic names for final approval.

The lake, of glacial origin, lies in the Kettle Moraine forest recreational area. It is in Section 27 of the town of Osceola, one mile west of Dundee on Highway F.

LOCAL STUDENTS SERVE ON FELLOWSHIP GROUP AT UW

Four students from Kewaskum are among the 122 students of the University of Wisconsin who served as members of the United Student Fellowship (USF) group during the school year on the Wisconsin campus.

Members of the United Student Fellowship are all student members of the Congregational, Christian, and Evangelical Reformed churches in the university community. As part of its extra-curricular activity, the USF members have "Weekend Workshops" regularly during the school year, at which they help out with any kind of work that needs doing and enjoy social hours of good fellowship. This year they have gone to Chicago to work at Neighborhood Centers, to Wisconsin's Oregon School for Girls, and to Wisconsin's Vineland Indian school at Nellville, for week ends of work and fellowship and goodwill.

Kewaskum members of USF are Paul Landmann, Mary C. Oppe, north, Route 3, Robert Rose, and Floyd Stautz.

MARRIAGE LICENSES

July 21—Robert O. Bonlander, R. 1, Campbellsport, and Doris M. Bruessel, R. 2, Kewaskum; wedding July 20.

July 22—Leslie R. Ostrander, R. 3, West Bend, and Eleanor C. Seefeldt, R. 1, Kewaskum; wedding July 6.

July 24—John S. Peters, West Bend, and Dolores J. Voiz, R. 2, Campbellsport; wedding Aug. 6.

MISSION FESTIVAL DINNER

The Ladies' Aid of St. John's Lutheran church, New Fane, will serve a family style dinner Sunday, Aug. 7, in the parish hall. Serving starts at 11:30 a. m. until all are served. Adults \$1.25, children 60c. 7-29-2p

Boy Hit By Car; Other Accidents

Steve Haumschild, 2 1/2 year old son of Mr. and Mrs. Willis E. Haumschild, was struck in front of his home at 220 S. Sixth ave., West Bend, by a car driven by Lorinda M. Voim, 17, of R. 3, Kewaskum. The accident happened at 3:35 p. m. Saturday. The boy suffered broken ribs and a concussion. His condition was described as serious but favorable.

Milton Lundskow, R. 3, Black River, Wis. (near Sheboygan) sustained a fractured leg when he lost control of the motorcycle he was driving and ran into a ditch on a highway near Lake Seven at 3:30 p. m. Sunday. He was traveling with a group of other motorcyclists when the mishap occurred. The Kewaskum firemen's ambulance was called to transport him to Sheboygan Memorial hospital.

Autos driven by Gerald Backhaus, R. 2, Kewaskum, and Walter Schultz, 310 South st., Dundee, Ill. collided on Main st. in front of the Bank of Kewaskum at 3:05 p. m. on Saturday. Backhaus made a U turn in front of the bank and was struck in the left front fender by the Schultz car which was west bound on the street, according to Chief of Police R. Pledl. No one was injured.

The right side of a car driven by Mrs. Eileen Heisler, Kewaskum, was damaged when it sideswiped a tree in the Kettle Moraine area northeast of Kewaskum over the week end. Neither the driver nor her two sons, Stevie and Stan, who were passengers in the car, were injured.

Recreation Softball Leagues

SOFTBALL LEAGUE table with columns Name, Score, Results July 22-De's 9, Miller's 8; Ashford 11, Campbellsport 4; Games August 5-Ashford vs Miller's, Campbellsport vs De's.

EASY PITCH LEAGUE table with columns Name, Score, Results July 26-St. Lucas 2, Regal 16; FFA 5, Bank 6; Games August 2-Regal vs. Bank, St. Lucas vs. FFA.

SCHEDULE table with columns Date, Time, Event: Monday-8:30, K-M Lutheran league; Tuesday-7:15 & 8:15, Easy Pitch league; Wednesday-7:30 & 8:00, United Church league; Thursday-8:00, hardball; Friday-7:00 & 8:30, Recreation league.

CROSS COUNTRY LEAGUE

In Cross Country softball league play Sunday Kewaskum was credited with a 7-0 win over Allenton. In other games league leading West Bend won its tenth straight, 4-3 over South Beechwood, Wayne defeated Boltonville, 11-7, and North Beechwood trounced St. Lawrence, 15-5.

This Sunday Wayne play at Kewaskum, West Bend at New Fane, St. Lawrence at Boltonville, and North Beechwood at Allenton.

LEAVE FOR GERMANY FOR VISIT OF THREE MONTHS

Mr. and Mrs. Helmut "Hans" Prause of this village and Mrs. Lorina Petermann of the town of Auburn left Friday for a three months stay in Germany with relatives. They drove to Canada where they will board a ship for Germany. Mr. and Mrs. Prause are taking their auto along overseas. They are sailing from Canada because New York is booked far ahead for passenger service overseas. Mr. and Mrs. Prause came to this country from Germany.

HOSPITAL NEWS

Mrs. Walter Del, Kewaskum, was a patient at St. Joseph's hospital, West Bend, from Wednesday to Friday for medical observation. Mrs. Alex Peach, Kewaskum, submitted to an operation at St. Joseph's hospital on Wednesday, July 20.

**COOL IDEAS FOR BABY**—Comfort spells "fashion" for the nursery crowd. Little lady at left models a combed chambray sunsuit in aqua with white stripes. Billowing bloomers and solid-color top fit without slipping. At right, the man of the house sports a collar-and-tie effect on his dacron shirt; blue-striped pants fasten with grippers, are plastic lined.

**IN COOL CUSTODY**—Guard Richard Thomas gives himself up to "Old Man Snow," who keeps cool despite the 90-plus degrees sometimes recorded in Los Angeles, Calif. Snowman, sponsored by the Los Angeles Water Resources Authority, is kept under constant refrigeration. He reminds Angelinos who visit the Museum of Science and Industry of the importance of winter weather in the mountains to their water supply.

**GENUINE "CLOTHESHORSE"**—Owner Rachel Maltby introduces "Union Jack," right, to the aloof, best-dressed stand-in for the entrants in the Richmond Royal Horse Show, Richmond, England. Hood and blanket are only one of the many costumes which "Snooty" models for an equine accessory manufacturer. Like many real-life "clotheshorses," the haughty steed is a dummy.

**Business Boom Will Continue, Experts Say**

First quarter economics statistics show that the country is headed toward an all-time business boom—if the trend is not reversed before the end of 1955. The business spurt which began with the Christmas buying surge of 1954 is continuing and, at the end of March, it had developed into an actual business boom.

Moreover, there are many economists who see no letdown in sight, and they certainly have imposing figures to back up their argument. Records topped in the first quarter of this year include those in such key industries as the automobile industry, steel industry, construction and retail sales. Other industries which have not fared as well as these have, nevertheless, shown definite signs of improvement.

Figures released recently this year, personal incomes show that, in the first quarter of 1955, they amounted to an annual rate of over \$290,000,000,000. That represents a new record and is \$7,500,000,000 above the corresponding period of 1954. Consumer spending increased even faster than income, leading some observers to believe that the boom will not continue to accelerate through the rest of the year.

The majority opinion seems to be that booming business will continue through at least the first six months of the year and that good business will continue throughout the last half of 1955. As with the weather, nothing is certain in the field of economics, but the outlook can be called good at this time, with first quarter figures just in and analyzed.

**VET GETS DIPLOMA AT 107.** Crestview, Fla. — William A. Lundy, Florida's last surviving Confederate war veteran, and honorary member of the Crestview High School graduating class, marched up with his 56 "classmates" — including two of his grand-nieces — to receive his diploma. The 107-year-old veteran said he was going to have his diploma framed and hang it on the wall. "I might even start teaching school," he said.

**572-CARAT DIAMOND** Kimberly, South Africa. — A 572 1/4 carat diamond, third largest ever found in the Jagersfontein mine near Kimberly, was recently found by a native. The famed Cullinan diamond, found at the Premier mine, weighed 3,024 3/4 carats.

**STRICTLY FRESH**

**BARBERS** have nothing to fear from automation, says Connecticut's labor commissioner, Renato E. Ricciuti. His reasoning: Machines can't talk. Trouble is, commissioner, they also don't tip.

The Misses Faithful Love, Lovely Peace and Glorious Love had their harmony fractured when their car hit a highway island and overturned in Princeton, N.J. Miss Peace is on the warpath—got a summons for careless driving.

Joseph Spark is first vice president of the Minnesota Fire Department Association. With that name, he's a sure-fire possibility for the association's presidency.

Lady in Boston, Mass., seeking a divorce, told the judge that, when trying to wake her husband, he said, "Go away, Marion." Lady's name is "Mary."

That man's lucky. Some wives would have been on trial for murder, instead of asking for a divorce.

Government girls in Washington, D.C., weren't slated to accompany their bosses during the recent Civil Defense evacuation test. Wives reportedly had something to do with this state of affairs. They were more apprehensive about atomic bombs than atomic bombs.

**Ingenious Device**

In Holland, where bicycles are used by a large percentage of the population, William Hazenburg has come up with a new invention. It consists of a spring which operates on the principle of a wheel.

The large spring is attached to the back wheel of the bicycle

and, as the pedaler pedals, he also winds the spring. It is estimated that after he pedals one block he can coast five blocks, as the spring unwinds.

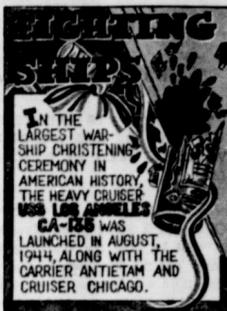

The invention is very light, weighing only a few pounds. It was recently demonstrated by Hazenburg in Holland. Hazenburg is improving his invention and seeking a patent. It is estimated that the device would cost

about \$40 in American money.

In Hazenburg's demonstration, he successfully rode for three miles without doing any pedaling after having pedaled the bicycle the first part of his journey, which also wound the spring. He has perfected his device so that it automatically disengages when the spring is fully wound, and has an indicator on the handlebars which shows how much

stored energy there is in the device at any time.

This invention shows that many improvements are still possible for conventional means of transport, even though we are in the jet stage. The spring device utilizes nothing which was not available years ago. It is a much-needed contraption and we wonder why someone didn't think of it fifty years ago.

IN THE LARGEST WARSHIP CHRISTENING CEREMONY IN AMERICAN HISTORY, THE HEAVY CRUISER USS LOS ANGELES (CA-135) WAS LAUNCHED IN AUGUST, 1944, ALONG WITH THE CARRIER ANTIETAM AND CRUISER CHICAGO.

THE LOS ANGELES WAS PAID FOR BY WAR BONDS PURCHASED BY THE RESIDENTS OF THE CITY OF LOS ANGELES.

AFTER SEVERAL SHAKEDOWN CRUISES THE 18,000 TON VESSEL WAS ORDERED INTO THE RESERVE FLEET, TO BE REACTIVATED THREE YEARS LATER IN DECEMBER 1951.

THE HEAVY CRUISER ROARED INTO ACTION AGAINST THE NORTH KOREAN COMMUNISTS JUST A FEW SHORT MONTHS AFTER SHEDDING HER MOTHBALLS.

**HAIR-BREADTH HARRY**

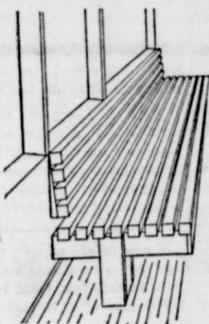

When you burn brush or trash have water and fire fighting tools handy. Then watch the fire until it is completely out. Prevent forest fires. Keep Our State Green.

HERE'S HOW . . .

MAKE A WALL BENCH

A bench that will stand rough wear and exposure is ideal for open porches or for the summer home.

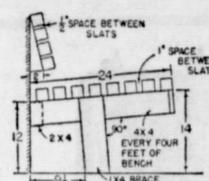

Make a seat frame: two pieces 4 by 4-inch lumber, each 24 inches long, for the ends; one 2 by 4 for the back; and a front apron of 1 by 4. Taper the ends of the 4 by 4's 5/16 inch to provide the seat slope. Use the same taper for the bottoms of the legs. Fasten the legs to the frame ends with 1 by 4 braces.

Nail the frame to the wall using 20-penny nails at each stud.

The seat slats are fastened to the frame with 20-penny finishing nails. If the seat is to be covered, the slats may be about 1 inch apart. If covering is not used, more slats should be added.

The back rest consists of two or more 10-inch wedges and four lengths of 2 by 2.

For long benches, additional legs and frame members will be needed to provide a minimum span of 4 feet.

National Lumber Manufacturers Association

Make A Wall Bench

A bench seat that will stand considerable rough wear and exposure is ideal for the porch or for the summer home. For exposed areas such as open porches or verandas, the open slat seat dries quickly following rains.

The bench may be made any length. First a seat frame is made, using two pieces of 4 by 4-inch lumber, each 24 inches long, for the ends of the frame. The back of the frame is a piece of 2 by 4-inch lumber running the length of the seat, and the front is a piece of 1 by 4-inch lumber, also running the length of the seat.

The 4 by 4 end members of the frame will rest on 4 by 4 legs. On a long bench, additional 4 by 4's should be spaced every 4 feet within the frame and be supported on 4 by 4 legs. Taper the wall end of the 4 by 4 seat frame members 5/16 inch off square to provide the proper slope for the seat. Since this same taper will apply to the legs, the frame ends and legs may be cut from the same length of 4 by 4 without waste.

To check the leg length before cutting, hold the completed frame against the wall, with the top of the rear frame 12 inches above the floor and mark off the length of one leg. If the floor is uneven, the length of each leg should be checked before cutting to size. The legs are placed 9 1/2 inches from the wall and are fastened to the frame with 1 by 4-inch braces, running the full length of the leg.

On walls with studding, lo-

cate the studs (usually placed on 16-inch centers) and nail the 2 by 4 frame member to the studs, using 20-penny nails. On brick or concrete block walls, use expansion bolts, case-hardened blunt-pointed nails, or special grooved nails.

The seat is made of 2 by 2-inch lumber fastened to the 4 by 4-inch frame members with 20 penny finishing nails. If the seat is to be covered with mats or cushions, the seat slats may be spaced approximately 1 inch apart, as shown. If covering is not used, additional slats will be needed to provide about 1/2-inch spacing.

The back rest consists of two or more wedges, depending upon the length of the bench, and slats of 2 by 2-inch lumber. The wedges are 10 inches and are cut from 2 by 2-inch stock. Fasten the wedges to the wall and nail the slats to the wedges, using 20-penny finishing nails.

Round all sharp edges by sand-

ing. The bench may be given a natural finish or may be painted to harmonize with other furniture.

Print plainly NAME, ADDRESS with ZONE, SIZE and STYLE NUMBER.

Electronic Umpire

Something new has been added. An electronic umpire has been tested in the Pacific Coast League and it can even throw a ball player out of the game.

The electronic umpire is actually a robot, which is actuated by the same kind of controls that are used in the aircraft industry. It has two legs and stands somewhat like a human being, although the dome-like head is mainly composed of electronic devices.

We think an electronic umpire might be an improvement in some senses, and an electronic umpire behind the plate might be able to more accurately call balls and strikes than his human counterpart.

But there are also disadvantages. In the first place, one cannot imagine a catcher, batter, or pitcher suddenly flying into a rage and blessing out an electronic umpire. If he is electronic, his blood pressure would not rise, and there would be no basis to expect that he could change his mind. His decision would have been made upon electronic principles, and those principles do not change.

In other words, we would not have the same sort of personal flare-ups some fans enjoy so much. In spite of what some might think, however, the electronic umpire can thumb a player out of a ball game, and this can be worked either by the tilt system, or by the volume system. Also certain words can be used to activate the thumbing-out process.

In conclusion, the electronic umpire is great as a symbol of achievement. For our brand of baseball, however, we will take human beings, mistakes and all.

Leaks Are Costly

So accustomed to having plenty of everything, we sometimes get careless, allow wasteful "leaks" in our homes and places of work.

Leaks in the home raise our cost of living, add up to big bills at the end of the month. So, 1. Insulate walls properly, fill cracks, fix broken windows in cold weather. 2. Shut off electric appliances when not in use. 3. Repair leaky faucets—one tiny leak can waste precious water at the rate of 200 gallons a day! 4. Plan your family needs ahead, figure out a budget and stick to it.

"BASEMENT'S NEXT" — If you think housekeeping's a chore, with all modern gadgets at hand, you should try sweeping chimneys with a broom. Margaret Otten, 11, of London, England, is made up as a chimney sweep for her part in a YWCA pageant.

Sarah Anne's COOKING CLASS

Speed Meals For Summer

A summer meal featuring an appetizing soup and a cold platter of potato salad, cheese and cold meats leaves you cool, calm and collected. This easy combination is a treat for either family or company.

Variety is limitless both for the soup selection and the platter. A long list of canned soups . . . cream, vegetable, meat, chicken or chowder . . . are yours for the choosing. Serve them hot or cold with a pretty garnish. Here we have Creamy Potato Salad, Vienna sausage and alternate slices of cheese and canned ham on the tempting platter. Other keep-on-hand choices may be canned luncheon meat, corned beef and sardines. Toasted hard rolls, iced tea, and melon for dessert would complete the menu.

Creamy Potato Salad

- 1/2 cup mayonnaise
- 2 tablespoons prepared mustard
- 2 cans (16 oz. each) white potatoes
- 3 hard cooked eggs
- 1/4 cup chopped ripe olives
- 2 tablespoons pimiento strips
- 1 cup thinly sliced celery
- 1 small onion
- Seasoned salt
- Freshly ground pepper

Combine mayonnaise and mustard; add drained potatoes, cut in cubes. Chill 2 to 3 hours to blend flavors. Add coarsely cut eggs, olives, pimiento, celery and diced onion. Season to taste. Chill. Serve on crisp greens. Six generous servings.

New Potatoes With Sour Cream

- 15 new potatoes
- 1 egg
- 1/4 cup wine vinegar
- 1 teaspoon dry mustard
- 1 tablespoon sugar
- 1/2 teaspoon salt
- 1 tablespoon flour
- 1/4 teaspoon pepper
- 1/2 cup water

Cook potatoes until tender. While potatoes are cooking mix the following sauce: Beat the egg in top of double boiler, add the vinegar slowly, beating hard. Mix sugar, mustard, flour, pepper, salt and water. Add to egg mixture. Cook over boiling water until sauce thickens, remove from heat and stir in the sour cream. Pour hot sauce over hot peeled potatoes. Sprinkle with paprika.

Parsley Buttered Balls

- Small new potatoes
- Butter
- Parsley, chopped

Cook and peel potatoes while hot. Melt butter and pour over potatoes, turning them until well coated. Sprinkle with chopped parsley and serve at once.

Alphonso Potatoes

- 1 green pepper, seeded
- 2 cups cold cooked potatoes, cubed
- 1 1/2 tablespoons grated Parmesan cheese
- 1/2 teaspoon salt
- 3/4 cup milk

Cook peppers 6 minutes in boiling water. Drain and mince. Add milk and salt to potatoes. Simmer 15 minutes. Put in a buttered baking dish. Sprinkle with cheese. Bake in an oven 400 degrees for 10 minutes.

Potatoes au Gratin

- 5 cups diced cooked potatoes
- 1/4 cup butter
- 1/4 cup flour
- 2 cups milk
- 2 cups grated American cheese

Nearly all fishes are infested by various parasites. The round worm, or threadworm, occurs in the adult form in most fishes, generally in the alimentary canal. Fortunately, cooking destroys them.—Sports Afield

Savory New Potatoes

- 1 10 1/2-oz. can consomme
- 1 can water
- Few celery leaves
- Few sprigs parsley
- 1 bay leaf
- 1/2 teaspoon salt
- 1 lb. small new potatoes
- 3 slices bacon
- 1 small onion

Cook consomme, water, celery leaves, parsley and seasonings to a brisk boil. Drop in scrubbed, unpeeled potatoes and cook uncovered until potatoes are tender when tested with a fork. Strain off the liquid, discard vegetables and boil liquid until 1/2 cup remains. Cut each slice of bacon into 4 pieces and fry until almost crisp. Add finely chopped onions to bacon and bacon fat and cook until done. Add potatoes and consomme to onion, bacon mixture. Cook over medium heat, spooning liquid over potatoes occasionally, until hot and flavorful.

Potato Loaf

- 3/4 cup diced celery
- 3/4 cup chopped nuts
- 3 cups mashed potatoes
- 3 tablespoons butter melted
- 1 egg beaten
- 1 teaspoon salt
- Paprika
- 2 teaspoons grated onion

Cook celery until tender in a small amount of boiling, salted water. Drain off liquid. To mashed potatoes, add celery, nuts, butter, egg, salt, paprika and onion. Mix well and pack in a greased loaf pan. Bake in an oven 350 degrees for 35 minutes. Serve with tomato sauce.

It Takes Two (Buckets) To Make A Mambo Table!

Here's a smart do-it-yourself trick that results in an end table for your living room, a convenient table for your playroom or an eye-catcher for your porch. You need two empty "all" buckets, one 22" length of threaded curtain rod, 16 large cup hooks, 16 1 inch square blocks, several yards of laundry cord and a 14" round plywood top. And, here are the steps: 1) Make 16 small holes around the bottom of each bucket; secure cup hook with wood blocks; insert curtain rod through the centers of the buckets, bolting each end; paint any color. 2) Stretch laundry cord criss-cross on hooks and cover plywood top with Con-Tact, self-adhesive plastic; secure top either with plastic glue or right angle braces.

Seeing is Believing

Can you name him?

THIS 19TH CENTURY BRITISH POET HAD A NEARSIGHTED EYE AND A FARSIGHTED ONE. HE CLOSED THE FORMER WHEN WALKING, THE LATTER WHEN READING.

ROBERT BROWNING

LESS THAN 1% OF INDUSTRIAL EMPLOYEES ARE GIVEN ADEQUATE VISUAL SCREENING TESTS AT THE TIME OF HIRING.

26% OF THE 66,825,000 AMERICAN AUTO DRIVERS HAVE SUBSTANDARD EYESIGHT, THOUGH MOST OF THEM COULD GET SATISFACTORY CORRECTION.

TESTS SHOW 41% OF SCHOOLTEACHERS HAVE SUBSTANDARD VISION - FREQUENTLY DUE TO WEARING OLD OR OTHERWISE UNSUITABLE GLASSES, SAYS THE BETTER VISION INSTITUTE.

Suds-Training Is Fun

Think of your daughter as a future homemaker, no matter how young she is, and the process of keeping things clean won't be a problem. Dishwashing is a good start, for after dinner is a companionable time for "womenfolk" to get together.

At first you may have to re-do some of a little girl's sink-work, but with practice and patience, she'll soon be a real help.

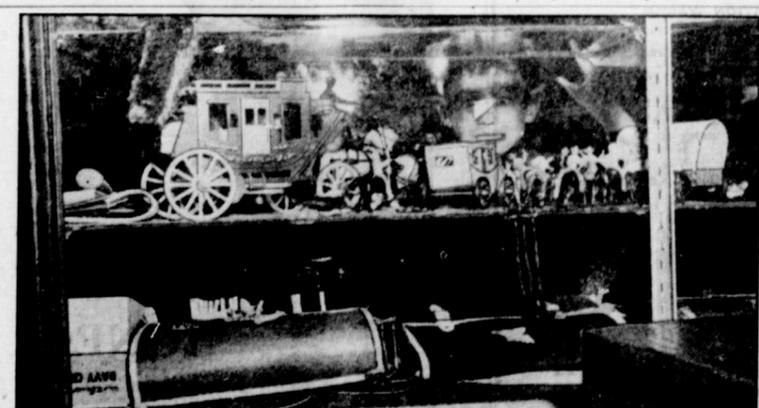

Your young teammate will be more interested and eager if you explain why you follow an efficient dish-washing routine. And you can make it more fun if you make a game of playing house with each lesson. Here are a few suggestions:

Let her clear the table and scrape the dishes with a rubber scraper or crumpled paper. A garbage bag set in a container on the floor will be within her reach and a step-up platform will bring her up to sink height.

Little hands can't take the hot soapsuds necessary for good dishwashing. Give her a dishmop of her very own. If she is taught to do just a few pieces at a time, the task will be easier for her—and safer for your dishes, too.

A lesson in changing soapsuds frequently when dishes are greasy will impress upon her the importance of sanitation in relation to foods. Good, lively soapsuds are a MUST for a thorough job. Along with this comes the point of keeping fingers away from surfaces which will later touch food or mouth, such as insides of cups, knife blades and fork tines.

Last comes the clean-up lesson—washing out her dish towel and her mop, sponging off the sink and putting everything in order. And then be sure to reward her with compliments, and you'll both feel happy about it all!

DAVY CROCKETT RUNS WILD—Bill Staples, 6, better known to his cronies as Davy Crockett, glues his nose against the window of a New York City department store the better to ogle coonskin hats, six-guns, stage coaches and—shades of the Alamo—brief cases. Anything that remotely smacks of the frontier—and much that doesn't—is riding the tail of Davy Crockett's legendary coonskin cap during his reign over the imagination of the nation's small fry.

We are sincerely grateful to relatives and friends for their many kind acts of sympathy during our sad bereavement, the death of our dear wife and mother, Mrs. Susan Klein. Our appreciation cannot be adequately expressed to Rev. Irvin, O.F.M. Cap., the organist, choir, pallbearers, drivers, donors

of floral pieces and spiritual bouquets, traffic officer, section, Miller's, and all who showed respect. Mrs. Hubert Klein & Children

**NEW PROSPECT**

Mr. and Mrs. Verle R. Caple and daughters Margaret and Kathy of Longview, Wash. and Wm. R. Caple of Bremerton, Wash. returned to their home after visiting at the home of Mr. and Mrs. George H. Meyer the past few weeks. Mrs. Caple is the former Jeanette Meyer.

Mr. and Mrs. Leo Bowen and daughter of Plymouth spent several days of the past week visiting the former's parents, Mr. and Mrs. Frank Bowen.

Myron Matthies left for Camp Gordon, Georgia, Thursday evening after a two weeks furlough. He made the trip by plane from Milwaukee.

Mr. and Mrs. Erwin Matthies visited Mr. and Mrs. Joe Konec at Fond du Lac Saturday afternoon

and made the acquaintance of their new granddaughter, Sharon Jean who was born to Mr. and Mrs. Konec Friday morning. Mrs. Konec is the former Julane Matthies.

Miss Edith Meyer left for Fond du Lac Thursday where she is employed at the telephone office.

Mr. and Mrs. Ed. Groszklaus of Kewaskum called on Mr. and Mrs. Erwin Matthies Sunday evening.

Mr. and Mrs. Richard Hornburg of Fond du Lac visited Mr. and Mrs. Richard Trapp Sunday afternoon.

Miss Virginia Trapp attended the convention of the Business and Professional Women at Milwaukee Friday and Saturday.

Mrs. Inez Tonn and daughter Mrs. Darlene Kell of Campbellport spent Tuesday at the Richard Trapp home.

Mrs. A. Marx of Seattle has returned to the home of Mr. and Mrs. Jos. P. Uelmen after visiting relatives at Rhinelander, Milwaukee and Ixonia. She returned with Mr. and Mrs. Roland Krueger and family Sunday.

Mr. and Mrs. Geo. H. Meyer and Edith were dinner guests at the home of Mr. and Mrs. David Tennessen at Fond du Lac Sunday.

About 15 per cent of the potatoes used in the United States are in the form of processed potato products. That compares with only about two per cent 15 years ago.

A new potato variety, named Antigo, is scab resistant and produces well. In last year tests, it produced 247 bushels of U. S. number 1 potatoes per acre.

**Most Modern, Shortest Stroke V8's in any leading truck!**

**New Chevrolet Task-Force Trucks**

Here's the measure of a truly modern V8 engine—Chevrolet's advanced oversquare design. It means less friction... longer engine life!

Here are more dollar-saving reasons why Chevrolet trucks offer the most modern V8's\* for your money!

**MODERN 12-VOLT ELECTRICAL SYSTEM**  
Double the punch for quicker starting and more efficient ignition for finer performance.

**GAS-SAVING HIGH-COMPRESSION RATIO**  
With a high 7.5 to 1 compression ratio, Chevrolet's new V8 truck engines squeeze extra power—and work—out of gas.

**EXTRA-HIGH POWER PER POUND**  
Since these V8's deliver high power per pound of engine weight, more of the power is actually available for hauling.

**ADVANCED AIRCRAFT-TYPE VALVES**  
Valve action is more positive at all speeds for finer, smoother performance.

**FLOATING OIL INTAKE... FULL-PRESSURE LUBRICATION**  
Oil intake selects the cleanest oil for positive, full-pressure engine lubrication.

\*V8 standard in the new L.C.F. models, an extra-cost option in all others except Forward-Control models.

**It's high time to do something about the weather!**

**Buy a Room Air Conditioner**

"EVERYONE talks about the weather" . . . but now smart people have done something about it. They've switched to a cooler, more healthful "climate" right in their own homes with modern room air conditioners. And now they talk about how much better they feel . . . how much better they sleep at night.

A room air conditioner cools the air, circulates it gently, removes excess moisture and filters out dust and pollen. There'll be a change in the weather in any room of your house, too . . . just as soon as you buy a room air conditioner from your dealer or from us.

# TEACUP TOPICS

BY BETTY ANN

Sun tan? By all means. No prepared make-up in the world can match nature's own golden brown as a radiant foil for fashions. And right now is the time to begin cultivating a tan — consistently, carefully and cautiously, says Betty Ann.

One women's boating counselor suggests that the sun tan job is most successfully accomplished on or near a stream, lake or the sea, because water doubles sun ray effectiveness by reflection. She estimates there will be no fewer than 3,000,000 glorious coats of tan attained in this manner this summer by the country's "feminine navy" of boating women, who will be afloat on craft ranging from small skiffs to large yachts.

You may be as ultra as you like about a choice of preparations to screen the harmful burn-out of sun rays, and your favorite toiletries counter is literally loaded with fine products for the purpose. However, don't forget that one of the most effective is available, of all places, in the baby's shopping center. It's sweet scented baby oil. A small bottle will fit easily into your tote bag, and a little of the balm goes a long way. It isn't greasy, either. Remember, easy does it! There's the whole summer.

Choose your brush and comb with care. The bristles of your brush should be stiff for vigorous brushing, but not so stiff as to injure the scalp. Wire brushes may tangle long hair and injure the scalp and should not be used. Your comb should have smooth, blunt pointed teeth set fairly well apart.

## Chocolate Torte

Filling and frosting: 1/2 cup butter or margarine, 1 ounce (1 square) unsweetened chocolate, 1/2 cup sugar, 2 teaspoons cornstarch, 1/4 cup strong coffee (liquid), 1 egg, beaten, 24 oatmeal cookies, whipped cream. Melt butter and chocolate in top of double boiler over boiling water. Combine sugar and cornstarch and add to chocolate; add coffee. Continue cooking and stirring over boiling water until thickened. Add a little of the hot mixture to the beaten egg, then stir egg into hot mixture. Cook about three or four minutes longer. Remove from heat and chill. Spread chocolate filling between cookies sandwich fashion, making four stacks of six cookies each. Frost sides and ends of stack; place stacks side by side on a plate and press together, using any remaining frosting mixture to completely cover outside of torte. Chill overnight. Decorate with whipped cream, if desired. To serve, slice vertically. Makes eight servings.

Whole strawberries garnish charlotte which uses whole oatmeal cookies around the sides of pan and cookie crumbs for the bottom. The filling combines fresh strawberries, gelatin and whipped heavy cream.

## Pineapple Strawberry Roll

1 cup strawberries, 1/4 cup sugar, 1 1/2 cups undrained crushed pineapple, 1 1/2 tablespoons cornstarch, dash of salt, 1 teaspoon lemon juice, 1 teaspoon butter, 1 sponge roll, 1 cup whipping cream. Filling: Wash, hull and slice berries. Add two tablespoons sugar. Let stand. Heat pineapple to boiling. Blend remaining sugar with cornstarch and salt. Stir into hot pineapple. Cook and stir until thick and clear. Remove. Add lemon juice, butter and strawberries. Chill.

Here's a good salad for spring and summer time. Add plenty of chopped cucumber and minced parsley or chives to cottage cheese. Serve on sections of fresh fruit or canned pineapple slices, without dressing. Be sure all the ingredients have been chilled in refrigerator.

The bases of porous flower pots can be waterproofed with melted paraffin.

Making a pan of baking powder bran bread to serve with coffee? Dot the batter with orange marmalade, leaving several inches between each spoonful, before baking.

To pep up a cocktail sauce for shrimp and other seafood, stir some finely diced onion into the sauce.

If you need an extra vegetable for unexpected company, open a can of small white boiled onions, drain and heat in a cheese sauce. Sprinkle with minced parsley or green onion tops, if they are in the refrigerator, before serving.

## Bible Comment: Love Is the Heart of True Religion

THE believer in every creed, to say nothing of those who belong to great historic churches or large denominations, might say, each in his own way, "My religion is the true one."

Too often, there is little recognition of the fact that there might be some truth in the religion of others, or that there might be a measure of truth in all religions.

At the center of all religion, if it have any truth at all, are faith and sincerity. But faith and sincerity are not enough.

The persecutor and the intolerant have faith. They evidently believe in what they profess, and they are sincerely intense in their advocacy of it.

But truth has to do with knowledge, and knowledge depends upon understanding, and understanding depends upon love.

So, it is in accordance with reality that the New Testament makes love the center and soul of true religion, and by that very fact sets up a profound contrast with the lovelessness of some professions of religion.

The Prophet Micah gave his famous definition of true religion: "He (the Lord) hath shewed thee, O man, what is good, and what doth the Lord require of thee, but to do justly, to love mercy, and to walk humbly with thy God."

And it is John who brought it out into all its fullness and inclusiveness in this manner: "He that loveth not his brother whom he hath seen, how can he love God whom he hath not seen?"

In these words is expressed the test of true religion.

## 1956 Olympics

There is little reason to hide the fact that many American sportsmen, and even some Olympic Games officials and veterans, think Russia is the favorite to win the 1956 Olympic Games.

Such a belief represents no lack of patriotism, or faith in the youth of America, but is based on solid facts, and developments inside the USSR in recent years. The Russians are training millions of athletes in a manner which is not being matched, or even approached, in this country.

In the 1952 games the Russians almost won unofficial team honors because the U. S. entrants were poor in women's events, in track and field, and wrestling, and in certain other classes, where the Russians took most of the honors—and points.

Since 1952 the Russians have made a great progress in other fields, and have developed stars which are sure to give U. S. competitors a run for the money, in our own specialty fields, in Australia next year. The government in this country does not prepare athletes for world contests such as the Olympic Games, so private contributions must be relied upon.

Any citizen is able to contribute by sending in his dollar, or check, to the Olympic Games Committee, the address being available at most post offices. Competitors in these games are amateurs, contributions, therefore, are used to stage eliminations, aid in search for talent, and provide athletic equipment.

If our system of producing great athletes is to remain a symbol before the world, of democracy, the people of this country will have to give a helping hand between now and 1956. The need is urgent.

## Health & Beauty

A plaster-of-Paris cast and radioactive iodine have been combined by British medical researchers to gain helpful information in the diagnosis and treatment of thyroid disorders.

The first step in the investigation is to make a plaster cast of the thyroid region and related areas. Then general anatomical marks are painted on the surface of the cast and the entire surface is ruled in two centimeter squares. Radioactive iodine is then given by mouth.

After about three hours, the plaster cast is again fitted to the patient and count-rate readings are taken at each two centimeter intervals. These readings are recorded on a count-rate meter.

From graphs doctors are able to compute the distribution of the radioactive iodine lying beneath the cast.

Scientists say this means of determining the iodine uptake in particular regions is a vast improvement over the old method.

The patient suffers little inconvenience. It takes about a day to complete the entire operation.

During the morning the cast is fitted and the patient is given the radioactive drink. During the afternoon, the readings are taken. This requires about a half hour. Any person who has gone through a treatment or operation for a thyroid disorder will appreciate this new information.

"There's a cop following us, Daddy. I just lassooed him!"

SPACE SIGNAL—Maywood, Ill., hasn't gone space happy. The space-helmet-like antenna being installed on the traffic signal resembles that atop James Walsh's helmet, but it's designed for down-to-earth use. It picks up a radio signal broadcast by emergency vehicles, turns the signal to red. Maywood is said to be the first community in the country to equip its signal system with the new device.

## TRIO OF BIRDS

This trio of birds is for towel and what a delightful time they have. You will really enjoy their antics. Seven designs, each with a different action pose, are included on this multi-stamp set.

Iron Transfer. Embroider or tube textile paint the designs on the striped kitchen towels or the plain ones. Send for pattern C3247 for only 20c. Send orders to: Handcraft Service (The Colonial Company), Journal Pub. Co., Inc., 1243 Swift, Kansas City 16, Mo.

## Leave Half the Work at Home When Cooking Picnic Meals

BY DOROTHY MADDOX

NOTHING delights youngsters more than a picnic cook-out. We've gathered a few practical hints to make preparing and cooking the outdoor meal easier and more fun for everyone.

Wrap sandwiches tightly in aluminum foil, sealing all edges with double folds. Store in freezer. Sandwiches take 2 or 3 hours to defrost. If you want to add lettuce or tomato to sandwiches, pack them separately in foil to preserve their freshness. Then sandwiches will taste fresh-made. For variety, place sandwiches on grill and toast to golden brown (especially good for cheese fillings).

### Kiddies' Drumsticks

Purchase fresh or frozen chicken legs. Place each drumstick on a square of aluminum foil and add a generous piece of butter or margarine, minced onion (if desired), seasonings and 1 tablespoon milk or tomato juice. Wrap tightly in foil and cook on the grill for 45 minutes, turning occasionally.

### Yam-Apple Bake

Four yams or sweet potatoes, 2 apples, 5 tablespoons brown sugar, 2 tablespoons lemon juice, 1 tablespoon softened butter, salt, pepper.

Teat off 4 sheets of heavy-duty aluminum foil to measure 18 inches by 12 inches. Peel and thinly slice sweet potatoes. Peel and quarter apples.

Pile potatoes in center of

Foods served at a picnic cook-out for the children masquerade healthful goodness under the guise of summer-treat fare. Plan several such affairs this summer.

pieces of foil to form 4 portions. Add two apple quarters to each portion.

In bowl, mix together brown sugar, lemon juice and softened butter. Spread over apples and potatoes. Season. Bring opposite edges of foil together and seal with a tight double fold. Seal ends in same manner.

Place on grill and cook about 35 minutes, turning occasionally.

### Picnic Pudding

One package vanilla pudding, 1 pint strawberries, packaged sponge cake. Prepare vanilla pudding according to package directions; cool slightly. Meanwhile, wash and halve fresh

strawberries. Crush lightly but do not add sugar. Line aluminum foil casseroles with 1/2-inch slices of sponge cake. Add pudding and berries in alternate layers in cake-lined pans. Chill. Crimp foil lids on pans and carry to picnic. Dessert will stay cool and fresh—will not spill in securely capped pans.

## In Fashion Now

Keeping cool and crisp looking on a hot summer day need not be as hard as it sounds. There are many new fabrics woven to let the air in, thus helping you to have your own cooling system. Check the texture of the materials used in your new summer clothes.

The sunback dress with the little cover-up jacket is as popular with the city woman as with the woman living in the cooler, rural sections. The dress without the jacket can be worn around the home and for informal occasions. Add the jacket for a quick trip to the market or into town.

Separates have long been the solution for many to the problem of having to extend a wardrobe on a limited budget. Combining fabrics makes for an interesting and personal look. Flower-printed cottons, pastel linens, cool rayon and cotton mixtures, organdy or silk can keep you in that cool crisp condition. All these fabrics can be combined to make many different outfits.

Use a gay silk or cotton shirt tie to bring together both shirt and blouse.

The fashion people say this is the most colorful summer they've ever known. Shoes of satin, linen and leather are being dyed to pick up a desired color in a bouquet printed silk or cotton dress.

The beautiful blue, yellow, green, pink, light brown, and lavender kid leather shoes seen on the market have made a big hit with the ladies.

Matching the color of your make-up to your outfit is getting more attention this summer than ever before.

## Silver Anniversary Of Airline Safety

Colonial Airlines recently observed its silver anniversary of safety. That means the airline has operated for twenty-five consecutive years, from 1930 to 1955, without having an accident which caused a fatality or serious injury to either a passenger or an employee.

Colonial's president recently stated, in a paid advertisement, in the country's newspapers, that: "As far as we can find out, this accident-free record has never been equaled by any major transportation system in the world."

The record of this airline is indeed impressive, as are the records of several other airlines. It is pointed out, not to boost any airline, but to show what can be done in the field of aerial safety.

The airline has now carried 3,000,000 passengers safely and 50,000,000 plane miles flown between the United States, Canada and Bermuda. The airline has completed one million landings and take-offs without a single serious mishap, and has flown 1,000,000,000 passenger-miles, or the equivalent, without a fatality.

It began its operations with single-engine Pitcairns, and today, of course, flies four-engined transports. While no transportation system can maintain a perfect record forever, we think the fact that this airline has compiled a twenty-five year safety record is most gratifying, and that it is a target other transportation companies should attempt to equal, both airlines and ground carriers.

NICELY DEVELOPED—Diane Damigellis jumps right off the front page into focus as Queen of the National Press Photographers' Association for 1955. The Chicago, Ill., beauty reigned over the 10th anniversary convention of the NPPA at Colorado Springs, Colo.

## About Your Home

Right now most of us are trying to keep cool. There are several things about what makes you warm or cool that you may not know.

The thermometer, by itself, has very little to do with summer heat. High humidity and lack of air circulation are more important.

It is said that under average conditions—when the air is not too moist or too dry—a four or five mile an hour breeze will do as much for your comfort as a seven degree drop in temperature.

Humidity is probably the most important single factor on keeping cool. When the humidity is high, the air does not absorb moisture quickly. When the humidity is low, the air can evaporate perspiration quickly and, as it does so, it cools us.

When you want to cool yourself and your home on a hot day, start by making the air circulate. If necessary, manufacture a breeze with electric fans. The best type of fan, for late afternoon and evening use, is an installation in the attic. Large circulating fans which stand on the floor do an excellent job of cooling.

Complete air-conditioning enables you to control the temperature, humidity and the circulation of air. This combination provides complete comfort.

The amount of heat you create within your body depends on how much exercise you take. Stay as quiet as possible, wear light, loose-fitting clothes, drink lots of water and replenish your salt supply when necessary.

Temperance is the moderating of one's desires in obedience to reason.—Cicero.

## POSTAL SAVINGS SYSTEM

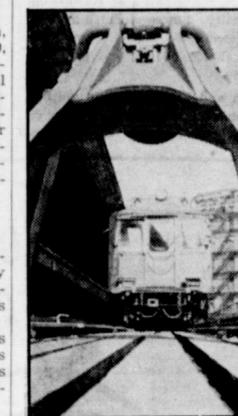

The Postal Savings System, with deposits of \$2,341,000,000, is one of the world's largest savings banks, says the National Geographic Society. The Post Office Department is also the Nation's largest real estate operator and tenant. It leases 22,800 buildings. In all, the department maintains more than 40,000 post offices.

## LIFE AT NINETY-FOUR

Dr. J. R. Hullinger has practiced medicine for over sixty years. Dr. Hullinger is still practicing in Clinton, Iowa, and is now ninety-four years old.

Recently, he delivered his 3,209th baby. But there was something unusual about this baby, which made the 94-year-old doctor a news topic.

This baby was Dr. Hullinger's own, his second son in the last two years. The previous son borne to him by his wife arrived when the doctor was 92.

END OF THE LINE—Third Avenue elevated train approaches bumper at Chatam Square terminal to symbolize end of an era as last of New York City's elevated railroads prepares to abandon service.

# SPORTS AFIELD

By Ted Kesting

The most indispensable tool for an outdoorsman is a knife—a "business" size knife, sharp and keen. The little vest pocket pen-knife won't do much good outdoors. You want a goodsized pocketknife with one blade for rough work, and the other for finer jobs—the point should be sharp enough to lift a splinter out of your hand.

This type is usually a "trapper's knife" and most large cutlery companies make it. Whatever other knife you have, better have one of these, and keep it in your pocket all the time afield.

While the trapper's pocket-knife will do everything needed for the camper or hunter, many of us like to carry a sheath knife too. This is primarily for the hunter's use, and should be designed chiefly for skinning and butchering animals, but should be good for all tasks.

Most old-timers, such as Col. Townsend Whelen, prefer to keep it for hunting only, and razor sharp. They like it to have a blade not more than 4½ inches long, with a straight edge until it curves to a point, and with the point rounded, rather than a sharp spear point. A thin blade that tapers all the way from the back to the cutting edge will take a much keener cut.

The first question one asks about a knife is: "Is it good steel?" In the past, Europe produced the finest steel, but for many years the United States has led the world in the metallurgy of steel, and practically all our knives made by reputable companies have excellent steel in them.

For a general purpose knife, and particularly for a hunting knife, avoid those with stainless steel blades. They may be all right for fish and table knives, but they won't take a keen enough edge; and when they are

dull it takes forever and a day to bring them to proper sharpness on a whetstone.

Speaking of sharpening, the carborundum stone, I think, is the best for outdoor use. Whelen, who is camping editor of Sports Afield, prefers a round one. In sharpening, hold the blade still in your left hand, and the stone in your right. Use the stone with a circular, grinding motion.

1. Name the author of "The Count of Monte Cristo."
2. About how many workers does it take to run the White House?
3. Which of these employes is the highest paid?
4. What Federal body has the sole power to try impeachments?
5. Where is Crater Lake located?
6. If you cross the Atlantic from west to east, would you set your watch forward or backward?
7. What was "Stonewall" Jackson's given name?
8. Who invented the machine gun?

10. What aid to navigation did John Ericson invent?

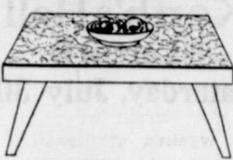

### TOO OLD TOO DANCE

Copenhagen, Denmark — Mrs. Else Sorensen and Miss Karen Kirk Lassen liked the music coming from the radio and decided to try the mambo. Now they're in a hospital with broken legs. Both dancers are 80, and are residents of an old folks' home.

### Distinctive Table Top

IF YOU have a coffee table with a marbled top but otherwise good appearance, you can make it like new without a lot of laborious refinishing. And at the same time you can give the table a distinctive feature that it never had—a marble pattern top with a surface that takes abuse.

The simple job is done by applying a new top in the form of a plastic-finished Marlite panel in one of five authentic marble patterns. Widely used for walls and ceilings, the material is available at lumber yards.

Saw a panel to fit, allowing a fraction of an inch for smoothing edges by planing and sanding. Bond the panel to the table with adhesive and leave weights on top until the adhesive is set. Wash the edges or paint them to harmonize with the marble pattern and table finish.

Your new table top, with its baked-on plastic finish over a tempered Masonite hardboard base, will defy attacks by beverages, heat and wear. Damp-cloth wiping will clean it.

IT'S ALL IN HOW YOU LOOK AT IT—Woman at left is puzzling over modernistic bronze of an equestrienne which is being made ready for mounting in Boston, Mass., Public Gardens as an exhibit for the fourth annual Boston Arts Festival. At right, man with sweater over his head isn't THAT startled by the unusual treatment. He's just using the garment as a makeshift darkroom in which to reload his camera.

FUTILE FLIGHT—Cyclist Bob Norton takes to the air—and to second-place honors—as he nears the finish line during the International Junior Tourist Trophy Motorcycle race on Britain's Isle of Man. Earth-bound winner was Bill Lomas, who averaged 92.33 m.p.h. for the course.

MUSICAL MOLARS—Dentist Belle Fahlen, of Uppsala, Sweden, plays music that's really "filling" as he appears before the microphone at a Stockholm radio station. He manipulates the toothbrush to play a tune.

DOG GONE!—That's the mildest thing that this workman in Fort Scott, Kan., can think of to say as he views the pawprints-for-posterity left in fresh cement by some anonymous pooch who hoped to leave a concrete mark for posterity.

## Goatskin Clad Crusoe Statue Will Be Erected In Hull, Eng.

Goatskin-clad Robinson Crusoe, a world hero before Davy Crockett ever saw a coonskin, is soon to have a statue erected in his honor in Hull, England's third largest port.

Citizens of this fast rebuilding city, hardest bombed of any British center except London, claim that Alexander Selkirk, the real-life Crusoe, set sail from Hull on the voyage that led to his lonely exile.

Most authorities grant that Selkirk's adventures fed Daniel Defoe the main plot for his classic. Two islands, however, still maintain that theirs is the Crusoe Island, says the National Geographic Society.

Confusion Over Islands The confusion derives from the mobility of Defoe's mind. He built his story around the rugged four years and four months Selkirk spent on Mas a Tierra, a boomerang-shaped rock mass 400 miles off Valparaiso, Chile. But he dipped his pen into the Caribbean for the setting.

The novel, published in 1719, describes Crusoe as a mariner. "Who lived Eight and Twenty Years, all alone in an uninhabited Island on the Coast of America, near the Mouth of the Great River of Oroonoke." It also tells of Crusoe's sighting a near-by island, identified as Trinidad.

Tobago therefore must have been the fictionalized Crusoe island, since Trinidad is the only island visible from it. Mas a Tierra ("more-to-land-ward") is about a third the size of Tobago. Its 450 inhabitants live by catching lobsters. Goats have cropped its vegetation, inviting erosion.

The goats were there before Selkirk arrived, brought by the Spanish navigator, Juan Fernandez. Had Fernandez not left goats Selkirk might have perished, for Selkirk killed 500 and corralled 500 more. He ate goat, and made goatskin clothes. Unlike Crusoe, Selkirk was spared the fear of cannibals. He had no Man Friday, however, and no garden, no dog. Nor was he shipwrecked, which gave Crusoe the advantage of equipment and tools.

A hot-tempered Scot, Selkirk ran away from home to join the English buccaners. When 32, he shipped on the Cinque Ports. Quarreling with the captain, he asked to be put ashore. The cap-

tain gladly set him down at Mas a Tierra with a box of clothing, a gun, powder and bullets, a little tobacco, hatchet, a Bible, knife, and kettle.

### Selkirk Cat Tamer

By feeding goatmeat to wild island cats he soon tamed several hundred and thus kept hoards of rats at bay. Sometimes he danced with his cats and goats. Every day he sang psalms, read the Bible, and kindled a fire on a lofty lookout point.

In 1709 his signal was sighted. Two English privateers rescued the "man clothed in goatskins who seemed as wild as the goats themselves."

It took Selkirk two years to get home. He then married. But he deserted his wife and returned to his only love—the sea. He died at sea, a hero yet in his hometown, Largo, Scotland. His statue, goatskin and all, still stands there.

Hull, in raising a statue to Crusoe, honors Selkirk and Defoe, but mostly the fictional character who conquered prolonged adversity.

Crusoe thus joins such other greats as Peter Pan, whose statue graces London's Kensington Gardens; Hans Brinker in Spaarndam, Holland; Puck, at the Folger Shakespeare Library in Washington, D. C.; Hiawatha and Minnehaha, in Minneapolis; Tom Sawyer and Huck Finn in Hannibal, Mo.; and Hans Christian Andersen's Little Mermaid who keeps a watchful eye on Copenhagen's harbor.

## Sports Quiz

1. For whom does Earl Torgeson now play?
2. Who won the Tiger Jones-Ernie Durando fight?
3. How old is Archie Moore?
4. What pro football team recently acquired Harry Gilmer?
5. Who won the National Open golf tournament recently?

### The Answers:

1. Detroit Tigers.
2. Tiger Jones.
3. 38.
4. The Detroit Lions.
5. Fleck.

## Behind The Scenes in American Business

By Reynolds Knight

Economists, who are paid to be unhappy when everyone else feels fine, are wrinkling their brows just now over the petroleum refining industry. Certainly the oil companies are booming. Petroleum stocks make new highs on the New York Stock Exchange. Demand is 9 per cent above last year's level. There are 29 million more automobiles on the road than there were at World War II's end.

That last item, good business source though it is, presents the refiners with some large corollary problems. Petroleum, in today's efficient refineries, breaks up into these items: a lot of gasoline, some gases for petrochemical use, a little kerosene, rather more of the heavier but still volatile burning oils for heating, and a sizeable fraction which can be further divided into lubricating oils and bunker (lowest-grade) fuel oil.

No matter how efficient the refinery, that burning-oil fraction is still fairly large. So, while automobiles are gaily burning up vast quantities of gasoline, the burning oils are accumulating and going into storage. Nor can demand for them be stimulated this fall, as it once was, just by a little judicious price-cutting. The cleaner and more convenient gas heating has cut a big permanent chunk out of the market.

So the economists ask themselves: What happens when gasoline demand wanes in the fall, and there's plenty of burning oil in storage? Do the refineries cut back buying crude? Does the fight over imported petroleum, obscured just now by high refinery runs, start all over again? Oil refining is a huge American job-giver, and if there's indignation in the industry it will affect all of us.

JET CATCHERS — A device first conceived by a U. S. Air Force general during the Korean war has been adapted to safeguard valuable jet planes and keep them out of the neighbors' backyards.

An aviation company has just built three remote - controlled runway crash barriers for \$125,000. They can make safe catches of speeding jet planes and their pilots, in case of takeoff or landing troubles. The flight director says a fighter bomber, rolling at 150 miles an hour, can be stopped in half the distance it would need using its own brakes.

The catchers will preserve a safety record already excellent. In ten years company test pilots have made more than 120,000 takeoffs and landings with no property damage or personal injury.

The device can be raised across a runway in a split second by an impulse from the airport tower. A web of nylon, canvas and steel cable — with 72,600 pounds of chain for a convincing anchor—pulls the plane to a halt.

THINGS TO COME — A plastic-clad baby bottle holder offers the small one his meal just as a person would hold it. . . Next frozen food will be a chop suey dinner with two egg rolls and rice. . . An aluminum trellis, which its maker says won't burn the stems of flowers, comes in sections to grow with your garden. . . When you fill your food freezer this summer, you can buy a preparation to make slices of fruit look fresh all winter.

TINLESS AGE AHEAD — "A new era of tinless cans" was predicted for U. S. consumers and container-using industries at the opening of a leading can company's research and development center.

The president foresaw that the canning industry, subject heretofore to the vagaries of world tin supply, will never again be curtailed by a shortage of the metal. A very high percentage of all metal cans produced in this country ten years from now will be tinless, he forecast. Among products already being packaged in tin-free cans he listed motor oil, anti-freeze, dry foods, detergents, insecticides, waxes and pharmaceuticals.

A major task of the new research laboratories, believed to be the world's largest in the food and container industry, will be to continue developing metal containers made entirely of materials available in North America—which mines no commercial tin. One hundred and forty scientists work in the laboratories on this and other problems, simulating climatic conditions from the Arctic to the tropics.

BITS O' BUSINESS — Shoe manufacturers' orders for fall are running more than 10 per cent above year-ago levels. . . Steel production recently topped 2,350,000 tons of ingots and castings for an all-time record.

## Ten Word INTELLIGRAM

Check the correct answer:

1. Auto road races have been (temporarily) banned in France following the Le Mans tragedy.
2. Disaster recently struck a (Russian) (British) submarine.
3. (Detroit) (Rome) will be site of the 1960 summer Olympic Games.
4. Strife between religion and the state is raging in (Brazil) (Argentina).
5. It (has) (has not) led to formal excommunication of the chief of state.
6. Big Four will meet in (July) (August).
7. Site of the conference will be (Geneva) (Lausanne), Switzerland.
8. (Krishna Menon) (Nehru) is India's roving ambassador.
9. You (can) (cannot) ski in continental United States in July.
10. The (Soo) (Panama) lock system celebrates its 100th anniversary this year.

Count 10 for each correct choice. A score of 0-20 is poor; 30-60, average; 70-80, superior, and 90-100, very superior.

### Decoded Intelligram

1—Temporarily, 2—British, 3—Rome, 4—Argentina, 5—Has, 6—Soo, 7—Geneva, 8—Krishna Menon, 9—Can, 10—Soo.

### God's Helper

The teacher was giving the primary class a talk on flowers. "Now children," she said, "who can tell me what makes the flower spring from the seed?" "God does it," answered one little girl, "but fertilizer helps."

### Answers To Who Knows

1. Alexander Dumas the Elder.
2. 72 regular employes.
3. The chief gardener, who receives \$5,245 a year.
4. The United States Senate.
5. In southwestern Oregon.
6. Forward.
7. Thomas.
8. Richard Gatling.
9. Millard Fillmore.
10. The screw propeller.

## THESE WOMEN!

By d'Alessio

"Now remember, Mears—if you sun Hugh III by the library, make sure you're on the non-fiction side!"

Adjourned Meeting July 19, 1955  
The Village Board of Kewaskum, Washington County, Wisconsin met in adjourned meeting with president C. Miller presiding and all Board members present except Trustees Reigle and Tessar.  
The meeting was called to discuss the progress being made on the various construction projects.  
Upon motion made, seconded and duly carried, the Board adjourned at 10:30 p. m.  
William S. Martin Commissioner

**4-H Club News**  
BOLTONVILLE BUSY BEAVERS  
4-H CLUB  
(Eileen Laatsch, Reporter)  
"Still a Winner," was the title

of the timely radio skit on polio-myelitis presented by members of the Boltonville Busy Beavers club at the regular monthly meeting, Wednesday evening, July 13, at the Fire Department hall.  
Merle Laatsch took the part of Teddy Hoffmann, a thirteen year old boy with a talent for art and music who had an attack of polio dancing. The August meeting will sheer will power and the help of an occupational therapist, Teddy regained some use of his arm and resumed painting and other normal activities.  
Mr. and Mrs. Hoffman, who were delighted with the son's winning the art contest, were portrayed by Mark Rodenkirch and Eileen Laatsch. But the story changed when Dr. Willis, interpreted by Sandra Riley, diagnosed the son's illness as polio. The treatment was given by the physical therapist, Sharon Fay. The narrator was Margo Weisa.

Reactions to Camp Awana were made by Harold Gilford, junior leader and waterfront guard, Sandra Riley and Sharon Fay. All reported a worthwhile camp stay, and were pleased that the week-quoites were far less prevalent than a year ago.  
During the business session conducted by Marge Beck, Janice Riley suggested recreational activities that might be pursued by children in the community stating that more facilities should be made available.  
Before record books were checked
