

210 Attend Annual Seefeldt Family Reunion in Park

One of Wisconsin's largest family reunions was held Sunday at Kewaskum village park. Some 210 members of the Seefeldt clan assembled at the site to name officers for the year, hear early accounts of their family history, play games, and just relax and visit.

These officers were re-elected: Edwin Seefeldt, Milwaukee, president; Paul Seefeldt, Milwaukee, vice-president; Miss Rosella Peisker, Fond du Lac, secretary; Alfred Seefeldt, Kewaskum, treasurer, and Mrs. Ray G. Thornton, Fond du Lac, historian.

Pioneer member of the family honored at the reunion was William Seefeldt, who was born in 1832 at Plantkowitz, Germany. He was the son of Christian Friedrich Seefeldt and Anna Sophie Kobs Seefeldt. He was a cabinet maker by trade. In 1856 he came to America with two brothers and a sister. The voyage by sailboat took three months, during which time the travelers encountered one storm after another. On numerous instances the ship was blown farther than it was able to sail in a day in fine weather.

The trio went directly from New York to Milwaukee, then by ox team to Kewaskum. In 1857, Mr. Seefeldt purchased 80 acres of farm land at \$6 an acre. He was married to Pauline Brumme in 1860. In 1869, he sold his farm to his brother, Gottlieb, who came to America the year before. William then moved to Van Dyne where he continued farming. He died in 1903.

Mr. and Mrs. Seefeldt had nine children, two of whom still are living. They are Mrs. Lydia Seefeldt Krohn of Almond and Mrs. Clara Seefeldt Drescher of Fennimore. Grandchildren residing in this area are Gordon Seefeldt, Robert Seefeldt, both of Van Dyne, and Mrs. Orville Dunn and Mrs. Gordon Lupper, Fond du Lac.

The history of William Seefeldt was prepared by Alfred Seefeldt of Kewaskum. Special recognition and an award went to Herman Seefeldt, Kewaskum, who at 87 years of age was the oldest member of the clan to attend the reunion.

Other awards were presented to Craig Klug, 5-week-old son of Mr. and Mrs. Harold Klug, West Bend, youngest member; Mr. and Mrs. Allen Seefeldt, West Bend, most recently married couple, and Mr. and Mrs. Thomas Casebolt, Philadelphia, who traveled the greatest distance to attend the event.

The afternoon was spent informally. Games were played under the direction of Mr. and Mrs. Harold Rose and Mr. and Mrs. Charles Schemmel. Community singing was led by Albert Zimmerman, Reedsville. A group photograph was taken by Ray G. Thornton, Fond du Lac.

Genealogy questionnaires were presented to family groups upon registering. A chart tracing the family tree of David Seefeldt was on display. He was the first of the Seefeldt clan to immigrate to America in 1850. Albums containing the family genealogy and photographs of past reunions also were on display.

Committees named for the 1956 reunion included Mr. and Mrs. Arnold Klug, West Bend, kitchen and tables; Arthur Hintz, Kewaskum, refreshments; Mrs. Harold Rose and Mrs. Oscar Hanke, Fond du Lac and Mrs. Charles Schemmel, Adell, games; Albert Zimmerman, Reedsville, community singing; and Mrs. Alvin Seefeldt, Campbellsport, refreshment tickets.

Communities represented at the reunion were Campbellsport West Bend, Kewaskum, Racine, Sheboygan, Plymouth, Cascade, Milwaukee, Antigo, Adell, Eden, Ft. Atkinson, Franksville, Reedsville, Belknap, Minn., Philadelphia, and Fond du Lac.

Local FFA Boys Take Blue Ribbons at Fair

Members of the Kewaskum FFA chapter won many ribbons exhibiting at the Washington county fair held last Thursday through Sunday at the Slinger fairgrounds.

Winners included the following: Jerry Schacht, Dave Fieker and Ervin Couder—Purebred Holstein bull calf sire project, blue ribbons; Barry Murrie—Senior yearling Brown Swiss, blue ribbon.

Ethan Etta—Duroc Jersey junior gilt, blue ribbon; Duroc Jersey aged sow, red ribbon.

Norman Heberer—Yorkshire aged sow, red ribbon.

Delbert Haack—Purebred Holstein junior bull calf, red ribbon.

Kenneth Blank—Purebred Holstein junior calf, red ribbon.

The FFA chapter also received a blue ribbon for its educational booth exhibit.

Many of the FFA boys who had registered their projects were unable to exhibit their animals due to grain threshing at this time of the summer.

Honor Paula Kohler at Surprise Shower

A surprise miscellaneous and purse shower was given by Mrs. Lorena Dettman, Mrs. Harold Bab, Mrs. Peter Kohler and Mrs. Allen Dreher in honor of Miss Paula Kohler at the Kewaskum Opera House on Sunday afternoon, July 31.

The following were present: Mrs. Oscar Kohler, Miss Carol Kohler, Mrs. Alvin Volm, Phillip Volm, Elroy Schrauth, Raymond Boege, Wm. Volm, Richard Weis, Miss Eileen Volm, Miss Merline Volm, Oscar Boegel, Miss Rita Boegel, Mary Backhaus, Marion Kral, Mrs. Ed. Prost, Miss Beulah Prost, Mrs. Ed. Dreher, Alois Staehler, Jr., Clarence Bath, Alex Pesen, Frank Uelmen, Miss Mary Ann Bath, Mrs. Harold Schlosser, Wayne Faber, Melvin Klein, Harvey Klein, Wilbert Wagner, Albert Wagner, Emma Helder, Herbert Helder, Vilas Ebert, Loran Backhaus, Herbert Kutz, Minnie Jesse, Henry Lohse, John Wahnschaffe, Otto Ebert, Elton Ludwig, Merlin Luedtke, Walter Del, Leo Brown, Miss Joan Brown, Mrs. Vilas Ludwig, and Miss Carol Lepp.

The following sent gifts but were unable to attend: Mrs. Arthur Kohler, Sr., Miss Edna Oster, Mrs. Jerome Schwartz, John Geidel, Loran Backhaus, Jr., Miss Bernice Trapp, Bernice Prost, Ann Kadinger, Janice Bruessel, Mrs. Donald Del, Misses Arlene Pesen, Estelle Schladweiler, Kathleen Staehler, Mmes. Stanley Brodzeller, Ed. Lepp, Misses Janet Geidel, Jeannette Staehler, Mrs. Evelyn Legall, Miss Lorinda Volm, Mmes. Ralph Krueger, Norman Arboasan, Misses Audrey Schaefer, Lois Stange, Mmes. Ben Schiltz, Alma Bohn, Norman Kutz and Miss Marilyn Kutz.

Cards were played and prizes were given to the following: Mmes. Clarence Bath, Alvin Volm, Herbert Helder, Vilas Ebert, Elroy Schrauth and Albert Wagner. A delicious lunch was served.

Miss Kohler will become the bride of Frank Kutz, Kewaskum, on Aug. 20.

JEROME GULDAN INFANT DAUGHTER IS BAPTIZED

The infant daughter of Mr. and Mrs. Jerome Guldán, Kewaskum, was baptized Sunday, July 24, at 1 p. m. at Holy Trinity church. Because of the illness of the pastor, Father La Buwi, Father Crispin of Mount Calvary administered the sacrament.

The grandmother, Mrs. Raymond Haebig, West Bend is the Godmother and the uncle Gerald Jukow, Kewaskum, the Godfather.

Baby Ellen Marie wore a neiloom dress that is saved for christenings only. She is the third generation to use it.

BIRTHS

WEDDING—A son to Mr. and Mrs. Henry Weddig, Jr., R. 1, Kewaskum, Saturday, July 30.

BONLENDER—A son to Mr. and Mrs. Ervin Bonlender, Kewaskum, Tuesday, Aug. 2.

Robert Bonlender, Miss Brussel Wed

During a nuptial mass read by the Rev. Irvin Udulutsch, O.S.M., Cap. at Holy Trinity church, Kewaskum, at 9 o'clock Saturday morning, July 30, vows were exchanged by Miss Doris Brussel, R. 2, Kewaskum, daughter of Mrs. Jac. Brussel and the late Mr. Brussel, and Robert Bonlender, R. 1, Campbellsport, son of Mr. and Mrs. Ervin Bonlender, Sr.

The bride was given in marriage by her grandfather, George Reindl. She wore a gown of lace and net with a fitted, long sleeved, lace bodice, which had a sheer yoke with lace applique and sequins and a Peter Pan collar. The full skirt ended in a long train and her fingered veil was caught to a half hat of pleated net embroidered with pearls and sequins. Her flowers were white roses combined with ivy and Stephanotis.

Janice Brussel, sister of the bride, as maid of honor, and Florence Bonlender, sister of the bridegroom, and Lavilla Brussel, also a sister of the bride, as bridesmaids, were gowned identically in Nile green lace and net gowns with cap sleeves, lace boleros and tulle skirts trimmed with net. Matching tiaras with leaf trim and brief veils completed their attire. They carried bouquets of yellow lilies and white roses. Little Miss Marilyn Reindl served as the flower girl. She wore a white gown styled like that of the other attendants. Her flowers were a miniature copy of the bride's bouquet.

Leo Bonlender acted as best man for his brother, while Robert Verbanke, a cousin of the bride, was groomsman together with Joseph Bonlender, the bridegroom's brother. Ushers were Harold Bonlender and Harold Reindl. The bridegroom's nephew, Master Kenneth Bonlender, carried the rings.

A reception was held at the home of the bride and dinner and supper were served in Holy Trinity church parlors. In the evening a wedding dance was held at the Zivko-Gonring ballroom, Big Cedar lake.

Following their return from a honeymoon to an undisclosed destination, Mr. and Mrs. Bonlender will be at home in Kewaskum. The bridegroom is an employee of the Pick Mfg. Co., West Bend. His bride, a graduate of Kewaskum High school, is employed at the Amity Leather Products company office, West Bend.

Recreation Softball Leagues

SOFTBALL LEAGUE  
Def's ..... 7 9  
Miller's ..... 4 4  
Ashford ..... 2 5

Results July 29—Def's 13, Ashford 5; Miller's 12, Campbellsport 11.

Games Aug. 12—Ashford vs. Miller's, Campbellsport vs. Def's.  
EASY PITCH LEAGUE  
Bank ..... 5 1  
Regal ..... 4 4  
St. Lucas ..... 2 5  
FFA ..... 2 5  
Results Aug. 2—FFA 25, St. Lucas 4; Regal 10, Bank 1.  
Games Aug. 9—St. Lucas vs. Bank, Regal vs. FFA.

Schedule Next Week  
Monday—7:30, 9:00—K-M Lutheran league.  
Tuesday—7:15, 8:15—Easy Pitch league.  
Wednesday—7:30, 9:00—United Church league.  
Thursday—8:00—Hardball.  
Friday—7:00, 8:30—Recreation league.  
Saturday—7:30, 9:00—United Church league.

CROSS COUNTRY LEAGUE  
In league play Sunday the West Bend Bears won their 11th in a row, beating New Fane, 12-4, and Poltonville swamped St. Lawrence, 25-1. These were the only games played. Kewaskum's game at Alenton was cancelled.  
This Sunday Kewaskum has a bye. Games scheduled are Alenton at West Bend, New Fane at St. Lawrence, Wayne at South Beechwood and North Beechwood at Boltonville.

Blood Bank Clinic Success in Spite of Heat; 67 Donors

The blood bank clinic held in the Kewaskum Community High school gymnasium on Tuesday was successful in collecting 67 pints of blood for the local bank, despite the heat which kept many donors away. The clinic was held between the hours of 1 and 7 p. m.

Chairman Henry Rosenheimer wishes to thank every person who took part for their co-operation and efforts in making this worthwhile endeavor a success.

The Kewaskum Woman's club, which made the appointments and did the scheduling, the Holy Trinity congregation, which served lunch to the donors, the Kiwanis club, which served dinner to the blood center personnel, Marvin Martin, who served as co-chairman, and the many other local people who helped are extended the club's thanks for their help and efforts in this worthy community effort.

Although most of the donors were from Kewaskum and community, there were quite a few from West Bend and others from Lomira, Adell, Oakfield, Campbellsport, Fredonia and Barton. Following is a list of those who gave blood:

Kewaskum—Mrs. Margaret Pals, Mrs. Katherine Guttman, Mrs. Alarion Backhaus, Karl Kreif, R. 1, John Stellpflug, Irvin Guidan, Waldy Cudnoskos, Thelma Rosenheimer, William Edwards, Paul Landmann, John Battaglia, Walter Bode, Richard Edwards, Edith Landmann, John Wahnschaffe, Roman Miller, Elmer Yoost, Bill Martin, Dorothy Martin, Myron Perschbacher, Edwin Backus, Lloyd Backhaus, Floyd Hansen, Louis Pals, Vincent L. Piccoli, Walter Wesenberg, Lucille Justman, Herbert Rempel, Al Muckerheide, R. 2, Mrs. Clifford Stautz, Clifford Stautz, Marvin Schumter, R. 3, John Schmitt, Allen Dreher, Homer Schaub, Willard Bartel, Gotlieb Walz, Oscar Hirsig, Orval Benke, Joe Miller, Rev. G. Kanies, Royce Justman, Ivan Buss, Eldon Ramthun, Forest Brown, Willard Prost, Lomira—John Wilmat, Leonard Miller.

West Bend—Gordon Ohlrogge, Darwin Bruessel, Paul Guth, Charles Schaefer, Carl Becker, L. W. Telemann, Walter Frings, R. 5, George Fassbinder, Kenneth Rohde, Adolph Gonswindt, Wilbert Schulze, John Shallow.

Adell—Ralph Koth.  
Oakfield—Francis Loehr, R. 2.  
Campbellsport—Alfred Tennes, Ernst Haegler, R. 3.  
Fredonia—Robert Gavin, R. 1.  
Barton—Robert Kufahl, Robert Biersack.

NOTICE OF SPECIAL MEETING

NOTICE is hereby given that there will be a special meeting of the Electors of the School District of JOINT SCHOOL DISTRICT NO. 1 of the VILLAGE OF KEWASKUM, BARTON AND WAYNE, COUNTY OF WASHINGTON, AND TOWNS OF ASHFORD AND AUBURN, COUNTY OF FOND DU LAC, STATE OF WISCONSIN at the grade school auditorium in said District on the eighth day of August, 1955, at 8:00 o'clock in the evening.

NOTICE IS FURTHER GIVEN that the purpose of said meeting is to increase the tax levy in the amount of \$6500.00.  
Dated this twenty-ninth day of July, 1955.

JOINT SCHOOL DISTRICT NO. 1 of the VILLAGE OF KEWASKUM, BARTON AND WAYNE, COUNTY OF WASHINGTON, AND TOWNS OF ASHFORD AND AUBURN, COUNTY OF FOND DU LAC, STATE OF WISCONSIN  
Paul Landmann, Clerk.

Our Police Chief Says:

The past month there were four auto accidents on Highway 45 at the overhead between Highways V and 28. This is a very dangerous zone. We who use this highway should remember this, especially when pavement is wet.

Local Man's Car Is Hit by Train

A new 1955 Ford auto, owned by Marvin Schultz of Kewaskum, was badly damaged at 11:06 a. m. Tuesday when it was struck by a northbound North Western train on the Main st. crossing in Barton, Edwin J. Odermann, 37, of Barton was driving the car.

Odermann was driving south on Main st. and had halted for the crossing. When he stopped the car he choked the motor and the car rolled forward onto the tracks as the train entered the crossing, striking the vehicle. He suffered a bloody nose and chin bruises.

The train was traveling about 30 miles an hour at the time of the mishap. The front end of the car was badly damaged.

An auto owned by Alfred H. Bond, 1041 Fulton ave., Winthrop Harbor, Ill., and driven by Stuart Bond, 21, of the same address, was damaged in an accident at 9:20 a. m. Sunday on Hwy. 45, on this side of the overhead bridge between Hwys. 28 and V. Bond was southbound on 45, just north of the village, when he lost control of his machine on the wet pavement and it clipped off seven guard posts and went into the ditch. He was not injured.

Anton Barth, 74, Menomonee Falls, sustained a small cut on his head Wednesday when the car in which he was a passenger skidded out of control on a Hwy. 45 curve at Thieme's grove in the town of Auburn, about 1 1/4 miles north of Kewaskum. The driver was Henry D. Pfeil, Milwaukee. The entire left side of the auto was damaged. The firemen's ambulance was called to the scene but their services were not needed.

Donkey Ball Game Here Saturday Night, Aug. 20

Something altogether different from the ordinary brand of baseball is in store for local fans on Saturday night, Aug. 20, when donkey ball will be played on the athletic field. The game will be sponsored by the Kewaskum Chevrolet team of the Land o' Lakes league and will start at 8 p. m.

Advance tickets for the contest (2) are on sale and can be purchased from any member of the Lakes ball team. The game is being staged to raise money to make up for the deficit at regular league contests. Participants in the donkey game will be the regular Lakes club and some other opponent to be announced later.

Get your tickets now for this game of spills, thrills, fun and laughs. See America's funniest game and local people try and ride these stubborn, tricky donkeys. It's better than a rodeo and funnier than a circus. A special act will feature a trick mule and there will be a midget cow at shortstop substituting for a donkey.

WINNERS IN CHILDREN'S FISHING CONTEST NAMED

The annual fishing contest held in conjunction with the summer recreation program took place on the Milwaukee river Thursday morning from 8:30 a. m. to 12 noon. About 30 children entered the contest. Prizes were awarded for the largest fish and most fish caught by boys and girls 12 years and under and 13 years and over. Winners were as follows:

Older boys—Largest fish—Constantine Sadownikowa, 16 inch northern; most fish—Jim Marx; most weight—Harvey Ramthun.  
Smaller boys—Roger Yeadeke, Tom Weddig and Doug Landmann. No fish were caught by the only two girls fishing.

SISTER CELEBRATES HER GOLDEN JUBILEE

Thirty-four Sisters of St. Francis of Assisi, Milwaukee, celebrated their diamond, golden and silver jubilees with a solemn high mass at their convent house on Tuesday.

Among the 13 golden jubiliarians was Sister Mary Cyrilla, sister of Mrs. John S. Schaeffer of this village.

Bells Beat Kewaskum in Exhibition, 7 to 3

With no Land o' Lakes league game scheduled last Thursday night, the Kewaskum Chevroletists played an exhibition tilt with the neighboring Campbellsport Bells of the Rock River loop under the lights here. The Bells wound up on the long end of a 7-3 score. Kewaskum did not play Sunday neither, meeting the West and Lithias on Thursday night of this week instead. The Chevys are in a five-way tie for second place and still have a good chance for the second half title.

Manager Killy Honeck came off the partially retired list to pitch the first three innings in the exhibition against Campbellsport. Then he left the game and divided the last six innings between his two other twirlers, John Tassar and "Hierty" Backhaus. The Bells collected seven hits off of their combined offerings. Matt Serwe went the route for the Bells and held the Chevys to four safeties.

Campbellsport got four of their runs off of Honeck, two in the 2nd and two in the 3rd. They collected two more off of Tassar in the 6th and pushed over the final one off of Backhaus in the 8th. Kewaskum got all three of their runs in the 3rd stanza off of Serwe, who shut them out the rest of the time. A walk to Bob Dreher, singles by G. Wierman and Augie Bligo and an error by the shortstop accounted for the buttons.

Not a batter on either team connected for more than one hit, which were all divided. The only extra base hits were a home run by Bauer of Campbellsport and a double by Korth of the Chevys.

Kewaskum has a bye in the schedule this Sunday but will play an exhibition contest with Waucousta next Thursday night, Aug. 11.

LAND O' LAKES STANDIN'S

Table with 2 columns: Location, Won/Lost. Includes Port Washington, Kewaskum, West Bend, Mequon, Cedarburg, Saukville, Grafton, Jackson, Germantown, etc.

FINAL WEEK OF SUMMER RECREATION PROGRAM

The schedule for the week of Aug. 8, the final week of the summer recreation program, is as follows:

Monday—A.M.—Archery and handicraft. P.M.—Swimming, bus at 1:00.  
Tuesday—A.M.—Handicraft and games. P.M.—Small Puddles game; girls' volleyball and softball.  
Wednesday—A.M.—Archery and handicraft. P.M.—Swimming, bus leaves at 1:00.  
Thursday—A.M.—Checker tournament, games and handicraft. P.M. Small puddles game and girls volleyball and softball.  
Friday—A.M.—Archery and handicraft. P.M.—Swimming at West Bend, bus leaves at 1:00.

FIRST CASE OF POLIO REPORTED IN VILLAGE

An eight-year-old Kewaskum boy, Frank Schoenbeck, son of Mrs. Gladys Schoenbeck, is a patient at South View hospital, Milwaukee, since Tuesday after being stricken with polio. This is the first case of polio reported in the community this year although there have been a number in some surrounding areas.

MARRIAGE LICENSES

Aug. 2—Frank H. Kutz and Paula C. Kohler, both of Kewaskum; wedding Aug. 20.  
July 29—Ralph E. Klein, R. 1 Kewaskum, and Esther A. Moser, West Bend; wedding Aug. 13.  
July 29—Ronald E. Coulter, R. 5, West Bend, and Janet M. Giese, Theresa; wedding Aug. 6.

Elect Officers at Annual Meeting of Co. Polio Chapter

The Washington county chapter of the National Foundation for Infantile Paralysis held their annual meeting at the county courthouse in West Bend last week to elect officers, hear reports on the 1954 March of Dimes drive and discuss preliminary plans for the 1956 campaign.

A talk was given by Dr. W. W. Busby, who related some of his experiences in the polio isolation ward at South View hospital, Milwaukee.

Elected as officers and committee chairmen on unanimous ballots for the coming year were A. P. Staral, chairman; Sherman Carr, vice-chairman; Mrs. Joseph Weiss secretary; E. G. Kircher, treasurer; Mrs. Robert Haebig, chairman of women's activities; Harry Sheski, county school representative, and William J. Steiner, publicity chairman. Members of the publicity committee include Harold Berkholtz, West Bend; William Harbeck, Kewaskum, and Walter Zastrow and John Shinnars, Hartford.

The treasurer's report showed that for the first time in the history of the chapter, a balance of more than \$10,000 was on hand to defray expenses for polio patient care in the year ahead. From 1945 until the present time, the local chapter has received more than \$90,000 in advances from the National Foundation.

A report on the 1955 March of Dimes was submitted by Alan Pick, co-chairman with Michael Goring, Jr., West Bend, and Ray Jeffersons, Hartford. Pick's report showed that almost \$16,000 was donated by county residents, half of which was retained by the local chapter and half being sent to the National Foundation. The chapter chairman regretfully accepted the resignations of the three drive leaders, and Mrs. Harold Fischer and Mrs. Cyril Westerman, to select replacements for the 1956 drive. The committee is expected to meet in the near future to make their selections.

Re-appointed by Staral as the chapter's medical advisory committee were Drs. R. G. Edwards, Kewaskum, chairman; E. H. Bernhardt, W. A. Nielsen, E. I. Bush, all of West Bend; N. E. Monroe and Valentine Quandt, Hartford, and James Albrecht, Jackson.

MRS. KOEPKE SUMMER SESSION GRADUATE

Mrs. Betty Koepke, daughter of Mrs. Alma Petri, Wayne, was among the 73 graduates receiving bachelor degrees at the close of the summer session of Wisconsin State college at Milwaukee on Friday, July 29. Mrs. Koepke received a Bachelor of Science degree in upper elementary education.

Mrs. Koepke formerly taught the fifth and sixth grades in the public school here and has taught in Milwaukee county this past year. Mrs. Koepke and her husband Kenneth are former residents of Kewaskum.

BARTON FAILS TO SHOW UP, RIVERS GAME FORFEITED

The Kewaskum Land o' Rivers team was scheduled to meet Barton on the local diamond Sunday but Barton failed to show up for the contest and it will probably be forfeited to the local team. This Sunday Kewaskum has a bye in the schedule.

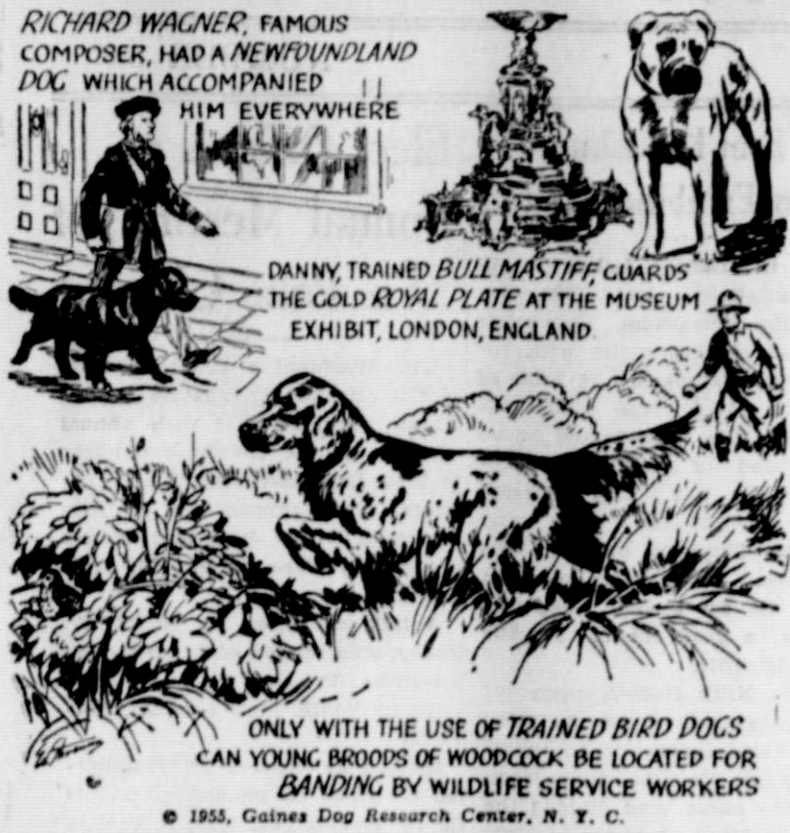

MISSION FESTIVAL DINNER

The Ladies' Aid of St. John's Lutheran church, New Fane, will serve a family style dinner Sunday, Aug. 7, in the parish hall. Serving starts at 11:30 a. m. until all are served. Adults \$1.25, children 60c.

## Balance Your Meals

With the approach of hot summer weather everyone is once again concentrating on "ways to beat the heat." There are a few simple ways recommended for better comfort during hot days. The most important are the right clothing, food, and drink.

If possible, wear light clothing of smooth, porous material. It should be open in weave, and light in weight and color since tints absorb more heat from the sun's rays.

In extreme heat appetites begin to fail. Actually though, nutritional needs are about the same regardless of the soaring temperature. But that does not mean that foods cannot be served in more palatable fashion. Cool foods have the same nutritional value as hot meals. A fish salad is usually more appetizing on a hot day than fried fish. Many people prefer cold sliced chicken or chicken salad when heat is extreme.

Fortunately summer brings with it an abundance of colorful fruits and vegetables. Color not only makes the food more attractive, but in most cases color is associated with high food value. This is especially true of carrots, dark colored salad greens, and tomatoes.

Let up on foods containing starches, sugars and fats when the temperature starts to soar. Your body still needs energy during the warm days, but chances are you're a bit less active during those days and you won't be using up all those energy laden foods.

It is estimated that the average person loses more than two quarts of water and over an ounce of salt on a hot day. Half of the water excreted by the sweat glands cools the body by evaporation. Thus it is important to drink cool, but not extremely cold water, and to eat salty foods to replace the moisture and salt lost through heat.

Just because the heat gets you down at times, don't give up eating entirely. Three well-balanced meals per day is still the best rule to follow, no matter what the temperature is.

## 'IN GOD WE TRUST'

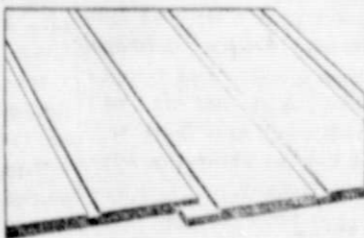

Under terms of a bill recently passed by the House of Representatives and sent to the Senate, all future United States coins and paper money would bear the inscription "In God We Trust." This inscription appears on all coins but has not, heretofore, been seen on paper money.

## Panelgroove Siding

A NEW, attractive siding which is both economical and durable has been introduced and now is available at most lumber yards. Known as Masonite Panelgroove, this panel siding has distinctive-appearing grooves, 3/8" wide, which appear vertically at intervals of 4 inches.

Made of Tempered Presdwood, a material already in wide use for exteriors, Panelgroove is distinctive for these reasons:

Its resistance to weather. Its dramatic appearance, which presents a pleasing architectural effect.

Its easy, economical installation due to the large size panels and shiplap joints requiring no special skills or treatment.

Available in lengths of 12' and 16' and in widths just over 4', Masonite Panelgroove may be applied directly to studs, or over sheathing. Like the plain Tempered Presdwood, Panelgroove takes and holds paint unusually well.

## 19 Years in Prison

Leonard Hankins, of Dawson Springs, Kentucky, has been given a monthly pension of \$300 by the Minnesota State Legislature. He will get the \$300 monthly check as long as he lives.

The Minnesota State Legislature acted after it had been established that Hankins, now

59 years of age, had been kept in a Minnesota prison for nineteen years even though he was an innocent man.

Hankins is thankful that the legislature did as much for him as it did although he would have welcomed a little more cash, at the moment, and would not have spent the nineteen years in jail, of course, in return for the monthly stipend.

Every so often we see an example of an innocent man who has been sent to jail. When we see these examples, it justifies our system of trial, which gives every break to the accused until he is proven guilty.

Those who become impatient with our system, because it is often hard to convict a person known to be guilty, often call for procedures which would make

convictions easier. But when we see men and women who have been sent to jail, who later were found to be innocent and understand the tragedy involved in this and the injustice which can never be repaid, it becomes quite obvious that our system, which makes a man innocent until he is proved guilty, is the right one, after all.

## STRICTLY BUSINESS

by McFeatters

"Be here at seven in the morning, Miss Bassett—I have a letter I want to get out by noon!"

## LITTLE ANGELS

A sweet crib quilt for a sweet baby is this pattern of little angels and verse. The verse and two of the angels would make a beautiful trio of pictures or paint the angels on nursery furniture. The designs are suitable for embroidery, textile paint or applique.

You'll love these "Guardian Angels" for that baby. Send for pattern C9746, for only 20c. Send orders to: Handcraft Service (The Colonial Company) Journal Pub. Co., Inc., 1243 Swift, Kansas City 16, Mo.

MANY NUTRITIONISTS NOW ADVOCATE SUGAR FOR REDUCING, BECAUSE IT CONTAINS ONLY 16 CALORIES PER TEASPOONFUL, AND HELPS CONTROL THE APPETITE BY QUICKLY RAISING THE BLOOD SUGAR LEVEL.

## the Snapshot Guild

Filter clouds into your snapshots for attractive scenic shots this summer.

## The Mystery of the Clouds that Disappeared

A bright blue sky, tastefully decorated with fluffy white clouds, are the snapshotter's delight. There's no better background for pictures of any kind—whether your subject is a beautiful landscape or a pretty girl.

You wait most impatiently for such pictures to come back from the photofinisher. But when you see them, the first glance tells you that the scene isn't quite as you remember it. The clouds are gone! Vanished... disappeared, not a trace of one in sight.

There is an explanation—and a solution to this mystery.

We see the clouds because they stand out against the blueness of the sky. But black-and-white film doesn't "see" colors as such. It records colors according to their different brightnesses in a corresponding range of grey tones. Thus, in your snapshot, the blue

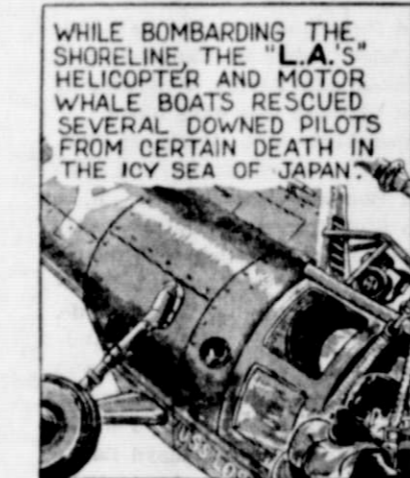

sky becomes light grey and the clouds don't show.

But it is an easy matter to trap those elusive clouds—just slip a filter over the lens of your camera to cut out some of the light from the sky so that it will be recorded in darker tones.

There are many types of filters, most of them for special purposes. Talk to your photo dealer about the one that is best for you. And, if you are a box camera user, don't be scared by any talk of filter factors and adjusting the camera's settings to make up for the light you cut out. Today's black-and-white films have so much exposure latitude that you'll get good pictures anyway.

Filters are very inexpensive—and they'll save you from pondering the mystery of the clouds that disappeared.

**HERE'S HOW...  
MAKE A GARDENER'S KNEELING BENCH**

A combination kneeling bench and garden tool kit will save the gardener's knees and keep small tools handy. Use finished 1-inch lumber, either 7 or 8 inches wide, for all wood parts. Each joint is mortised, 1/4-inch deep. The mortises may be made with saw and chisel if power machinery is not available. The base is 18 inches long, with mortises located 1 inch from each end. Make handles in the two end pieces by first boring two 1-inch holes and cutting out the area between them with a key-hole saw. Then cut the mortises in each end piece, making sure they match as to height. The back and the door are

cut to fit after the bottom, sides and top panel are assembled. The back is not mortised in place. Use glue and 6-penny finishing nails at all joints. Bore a finger hole, 1 inch in diameter near the top center of the door. Fasten the door in place with a pair of small hinges on the bottom edge. The door is held shut by a small cupboard latch of the spring type. Round all sharp edges by rasping or sanding. Then sand the completed bench and finish it with paint, enamel or varnish. A 3/4-inch sponge rubber pad is then mounted on the top panel, using rubber cement.

National Lumber Manufacturers Association

**Make A Gardener's Kneeling Bench**

For the lady of the garden, or for the man who wants to avoid a case of housewife's or gardener's knee, a utility kneeling bench is a handy device. The lower portion of the bench is a cabinet for gloves, trowels, snips, and other small tools.

Use finished 1-inch lumber, either 7 or 8 inches wide. All joints are mortised, 1/4-inch deep. The mortises may be made with

**BRIEF PROTECTION—** Scooter coat, adapted from sports-car wear, is finger-tip length and weatherproof. Styled in bright yellow poplin, it has a deep shawl collar, pearl buttons and is lined in rainbow plaid. Being shown in New York City, it may be worn with or without the belt.

saw and chisel if power machinery is not available.

The base is 18 inches long, with the mortises located 1-inch from each end. Before fastening the end pieces in place, cut a handle in each by first boring two 1-inch holes and then cutting out the area between them with a key-hole saw.

Cut the mortises in each end piece, making sure they match as to height. Assemble the base, ends, and top panel, using glue and 6-penny finishing nails. Then cut the back and the door to fit. Add the back, using glue and nails.

Bore a finger hole in the door, near the top center. A finger hole will be better for this purpose than a protruding knob. Fasten the door to the base with a pair of small hinges. A small cupboard latch of the spring type is used to keep the door closed.

Round all sharp edges by rasping or sanding. Then sand the entire bench and finish with paint, enamel or varnish.

After the finish has dried, attach a 3/4-inch sponge rubber pad to the top panel, using rubber cement.

In addition to being handy in the garden, the bench serves also as a storage box for small garden tools.

**Order Filled**

The old lady went to a tombstone cutter's office to order a stone for her husband's grave. After explaining that all she wanted was a small one with no frills, she told him to put the words "To My Husband," in a suitable place.

A few days later she went to see the stone and she saw: "To my husband. In a suitable place."

Print plainly NAME, ADDRESS with ZONE, SIZE and STYLE NUMBER.

**Use Caution When Swimming & Boating**

Vacation time is rapidly approaching, and thousands of children—and adults will be crowding to lakes, streams, and pools for fun and relaxation. The waters of our communities continue to be our number one vacation attraction.

But for some, vacation days may end in needless tragedy. Drownings annually become one of the leading causes of accidental death each summer. And regrettably, as with most accidental deaths, many of these could have been avoided. Swimming is fun, but learn to swim well. Self-taught "dog paddlers" too often think they are swimmers and overestimate their abilities. Know your limits as a swimmer and stay within them. Even strong swimmers are subject to cramps and bad guesses on their endurance. If you want to swim for any distance, have someone follow you in a boat.

Never swim alone. Always have help at hand, preferably a life-guard with the knowledge and equipment for rescue. Don't swim after dark for the same reason. It is too hard for even an expert to assist you in the dark. Never jokingly call for help, and don't splash or annoy others who are timid in the water. Horseplay and pranks cause many water accidents each year.

It's dangerous to dive into water of undetermined depth. Submerged rocks or logs may knock you out. Sudden plunges into cold water should also be avoided. Go in gradually, and remember that you tire faster in cold water. Don't plunge into water when you're overheated, and wait at least an hour after eating.

Every summer many folks die from overconfidence in small boats. Take no chances in rough weather; respect the boat's center of gravity, and don't move around; stay away from the "wise-guy" who thinks it's fun to rock the boat; and in case of trouble, keep your head.

If your summer vacation plans include swimming and boating—and they're both fine exercises as well as pleasant recreation—give heed to these, and other, safety suggestions.

**PENGUIN AND PANDA**

Two animals to help protect your lawn are these little fellas from distant lands. The 21" Penguin is ready to picket stray feet from entering your property and the 18" Panda is climbing a sign to protect your lawn. An amusing "Keep Off" or "Keep Out" does more good than gruff words, especially with youngsters. Cutting guides and directions included on the patterns.

Send for patterns C3377—Penguin and sign, 20c. C3378—Panda and sign, 20c.

Send orders to: Handcraft Service (The Colonial Company), Journal Pub. Co., Inc., 1243 Swift, Kansas City 16, Mo.

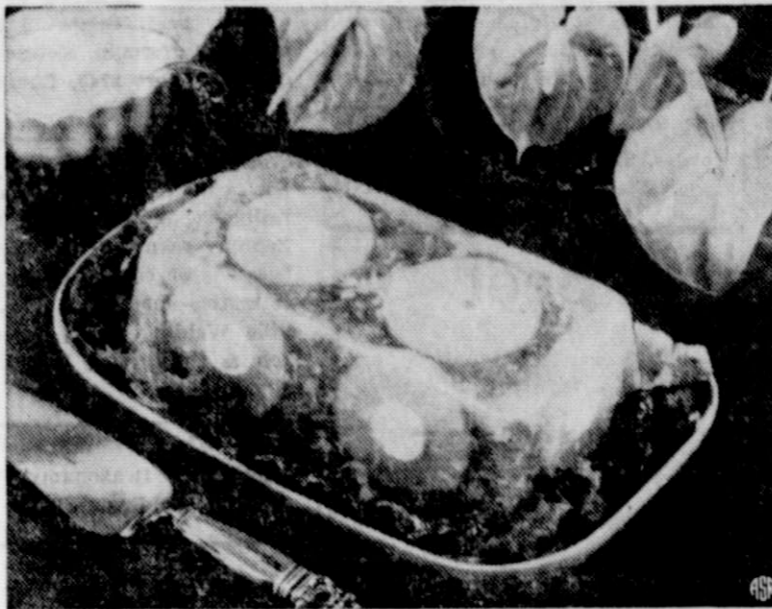

A pretty girl can usually get what she wants.

**HE CHUCKS WOOD**—In form of ice cream. Pet of Mrs. W. H. Fleming, Bay Village, Ohio, "Woody" will gnaw up any given quantity of the cold stuff. Perhaps he wants to become acclimated to the chilly weather he'll meet next spring as tradition's best-known weather prophet.

**Sarah Anne's COOKING CLASS**

**Golden Pineapple Vegetable Loaf Makes A Festive Buffet Salad**

Fruit, cheese and vegetables blended into an attractive mold.

Most popular among fruit salads is the pineapple and cheese combination. Co-starred with the tropical flavor of pineapple and nutritious cream cheese in today's recipe are finely shredded cabbage, grated carrots and chopped almonds for texture contrast.

Each pineapple slice has a cream cheese ball in the center. You'll find it simple to make, but distinctive, and it will fit into almost any menu. This hearty and colorful salad is made with the new apple-flavored gelatin.

**Golden Pineapple Vegetable Loaf**

- 1 1/2 cups pineapple juice
- 1 package apple-flavored gelatin
- 3/4 cup lemon juice
- 1 cup finely shredded raw cabbage
- 1/2 cup grated raw carrots
- 1 package cream cheese
- 2 tablespoons cream
- 3 tablespoons toasted chopped almonds
- 8 slices pineapple

Pour 1 cup pineapple juice in a saucepan and bring to a boil, add to apple-flavored gelatin and stir until dissolved. Add remaining 3/4 cup cold pineapple juice. Stir in lemon juice and cool until mixture is slightly thickened. Add vegetables. Mash cream cheese with a fork and blend in cream and chopped almonds. Form into small balls that will fit into the center of the rings and press firmly in place. Arrange 2 of the filled rings on the bottom of a loaf pan, 2 on each side and 1 on each end. Spoon in gelatin mixture and chill in refrigerator until firm. Unmold on a bed of lettuce or other greens. Serves 8.

Are you a party goer more than a party giver? If so, now is a good time to have a party, as the air is full of plans for parties on the patio. If thinking up party menus comes hard for you, here are some suggestions.

**First Course Fruits**

- 1 ring slice cantaloupe
- 6 balls honeydew melon
- Orange juice
- 6 raspberries
- 1 sprig mint
- 3/4 section lime

On a well chilled plate arrange the slice of cantaloupe, cut crosswise to form a ring. In the center mound the balls of honeydew, which have been allowed to stand in the orange juice for 30 minutes. Add large raspberries. Garnish with sprig of mint and juice of lime. This is an individual serving.

**Creamed Mushrooms**

- 2 medium tomatoes
- 1/2 teaspoon prepared mustard
- 1 teaspoon Worcestershire sauce
- 1 1/2 teaspoons salt
- 2 tablespoons minced onion
- 1 lb. fresh mushrooms, washed or canned ones
- 3 tablespoons butter or margarine
- 3 tablespoons flour
- 2 cups milk
- Pepper
- 1/2 teaspoon lemon juice
- 3/4 teaspoon celery salt
- 3 tablespoons sherry
- Toast

Cut tomatoes in halves, spread with prepared mustard, and 1/2 teaspoon salt. Place in a baking dish and bake in a moderately hot oven for 30 minutes, slice thickly or halve the mushrooms. Sauté the onions in the butter in a covered skillet until tender. Add mushrooms, cover and cook over medium heat for 10 minutes, stirring occasionally. Stir in the flour, add milk gradually and cook over low heat, stirring constantly until thickened. Add rest of salt, seasonings and sherry. Blend, serve on hot toast topped with a tomato half.

**Cherry Mousse**

- 2 cups ripe cherries, pitted
  - 1 cup sugar
  - 2 cups cream
  - 1/4 teaspoon salt
  - 4 egg whites
- Cover the cherries with the sugar, allow to stand. Strain off the juice and reserve, chop the cherries. Whip the cream stiff and fold in the cherry juice and the cherries. Add salt to the egg whites and beat until peaks may be formed. Fold into the cream mixture. Place in refrigerator tray and freeze.

**Sandwich Fillings**

- 1/2 cup chopped almonds
- 1/2 cup chopped celery
- Mayonnaise to taste
- Use on thin slices of graham bread and cut in rounds.
- 1/4 cup lime marmalade
- 3/4 cup cream cheese
- 1/4 cup chopped pecans
- Cream to moisten

Use on thin slices of white bread cut in finger lengths.

- 1/2 cup butter creamed
  - 2 teaspoons lemon juice
  - 2 tablespoons minced chives
- Spread on thin slices of white bread, cover with thin slices of whole wheat bread. Cut in triangles.

- 3 oz cream cheese
  - 2 tablespoons milk
  - 1/2 cup minced parsley
  - 1/2 cup chopped salted nuts
  - 1/2 teaspoon lemon, grated
- Blend cheese with milk. Stir in remaining ingredients. Spread on thin slices of raisin bread. Cut in any desired shape.

**Glazed Whole Apricots**

- Whole apricots
  - 1 cup brown sugar
  - 1/4 cup butter or margarine
  - Cloves
- Drain apricots, put in a large frying pan with 1/2 cup of apricot juice, the brown sugar, and butter. Simmer, turning the apricots often, when glazed, drain from the syrup, stick with a clove. Serve with meat.

**Definition**

Foresight — That which causes a man to buy the kind of things when he is flush that he can pawn when he is broke. — Lucifer's Lexicon.

**JOY AHOY!**—Look with the eyes of childhood, and you'll see that this ship has a crew of pirates, naval heroes and voyagers of all romantic types. The craft is a feature of a new playground in Hamburg, Germany, which makes use of abandoned trolleys, boats and autos to give youngsters the imaginative time of their lives.

**Tips To Travelers**

With vacation time right around the corner, many smart travelers this season are taking along an ideal traveling companion. It's the new transparent plastic film made of saran.

Try these tips to travelers: Wrap white blouses, detachable collar and cuff sets, and gloves quickly and easily in saran to keep them fresh and spotless in the suitcase. Keep an extra pair of white gloves in your handbag, so you'll have a change in case of mishap.

Wrap soiled garments to protect clean clothes and prevent a musty odor. Shoes should also be covered. The film's cling makes wrapping such bulky or irregular items an easy task without tape or strings. Slip an extra piece or two of moisture-proof saran into your suitcase. You'll find it handy for damp clothes, bathing suits, or wash cloths.

When traveling by plane, remember that non-pressurized baggage compartments may cause bottles to leak if not adequately protected. Cosmetics and other liquids will not spill if the containers have been wrapped in saran.

Hose will be safe from snags and jewelry from scratches when wrapped neatly in this transparent film, yet you can always see just what is in each package.

If you're traveling by car, keep a roll of saran at hand to use as lap mats while eating in the car or to make "holders" for ice cream cones and moist foods. You'll find many other reasons, too, for taking this good traveler on your vacation.

**No More Spots Before Your Eyes**

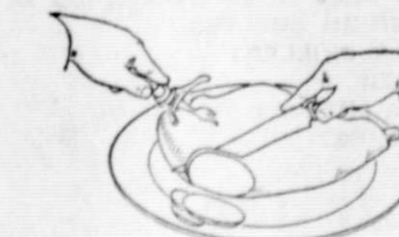

Spots on glassware or glasses, dishes, silverware and pots and pans are a thing of the past! Everything out of your electric dishwasher today can be spotless and film-free... thanks to a brand new formulation of a famous controlled suds detergent.

This new formulation actually hastens penetration and softening of dried-on foods, dissolves greases, and most important: It suspends both grease and food particles for free rinsing down the drain. The detergent is specifically designed to work hand-in-hand with the electric dishwasher's mechanical force which swirls hot water against all surfaces within the machine itself, and goes a long way to assure a significantly lower bacterial count on glasses, dishes, flatware and pots and pans.

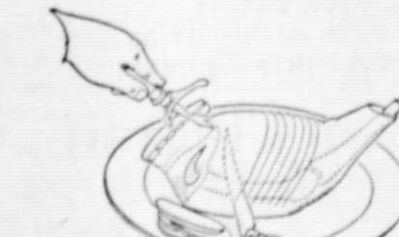

An electric dishwasher and the proper controlled suds detergent formulation can make living easier (releases you at least a couple of hours a day for other chores or pleasure), more sanitary (because a dishwasher washes in water too hot for hands and the detergent performs its tasks quietly and efficiently) and in the long run, proves less expensive than the old scrape, wash, rinse and dry sink method.

**CARVING MEAT CUTS**

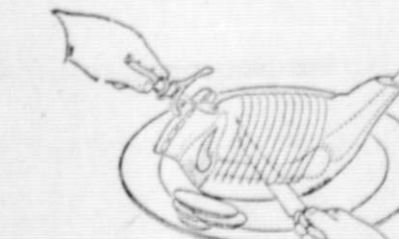

**Leg of Lamb**  
Place the leg of lamb before the carver so that the shank bone is to his right and the thick meaty section (cushion) is on the far side of the platter.

Using a standard carving set, insert the fork firmly in the large end of the leg. Carve two or three lengthwise slices from the near thin side.

Turn the roast so that it rests on the surface just cut. The shank bone will point up from the platter. Insert the fork in the left end of the roast. Starting at the shank end, slice down to the leg bone. Make 1/4 to 3/8-inch parallel slices until the aitch bone is reached.

With the fork still in place, run the knife along the leg bone releasing all the slices. Because of the difference in right and left legs, the same surface will always be uppermost. But the carving method is the same right and left legs (this one is right leg).

## TWO AUCTIONS Of Two School Houses

ON  
SUNDAY, AUGUST 14, 1955

AT 1:30 SHARP

First sale at the Brussels school, located about 1 1/2 miles south of Kewaskum and 1/2 mile west of Highway 45. First place is built of stone, is 24x32, can be converted into a small home, and if you need a start and want a home, you can have one very reasonable on a DO IT YOURSELF PLAN.

Second sale will be at the Campbell school, 2 miles further west. Building is 28x36 and can be converted the same as the No. 1 school. Both have hardwood floors and electric lights. Both are on about 1/2 acre of land.

These places are near Kewaskum, West Bend and Wayne, on good town roads. After fixing up these places and improving the lot, you will have a very good investment, 1st for a home, 2nd for a good resale at a reasonable profit. There would be a good return on your money invested on a rental return.

It's not often that these sales come up. Now is your chance, with little money and work on your part, to have a home at less than you're paying rent now. If you want a place or a home for \$15,000.00 on a \$1,000.00 pocketbook, want to

Nothing  
**GOES**  
like a Chevrolet V8!

It's the new winner in stock car competition...

and it's winning new, young-minded friends faster

than you can say America's hottest V8.

Because of its liveliness, its looks, and because it holds

the road like it loves it—which it does.

Come try it, won't you, if only for the fun of it!

NOTHING  
(not even the  
high-priced cars)  
HAS GOT SO MUCH  
TO GO WITH!

The most up-to-date V8

That's Chevrolet's "Turbo-Fire V8!" So efficient that it needs only 4 quarts of oil instead of the usual 5. Shortest stroke of any V8 in the industry. Delivers more horsepower per pound than any engine in Chevrolet's field.

Two Sizzling 6's

The most powerful 6's in Chevrolet's field—with all the advantages of Chevrolet's long leadership in valve-in-head engine design.

Powerglide,

Overdrive or

Synchro-Mesh

A new and finer Synchro-Mesh transmission, or, as extra-cost options, oil-smooth Powerglide automatic transmission or Touch-Down Overdrive.

New engineering advances

on steering and suspension. Special ball bearings in the steering gear roll with the turn of the wheel to reduce friction. Glide-Ride front suspension rolls the bumps smooth.

# TEACUP TOPICS

How are the lights in your bathroom? If you're a mature woman, they better be good. By good, we mean a good approximation of the lights on you in the outside world, says Betty Ann.

Maturity demands scrupulous attention as to what will go and what won't. On the street, one can almost tell which mature women have the glaring, blanching lights in their bathroom or dressing table. They look a lot like the Madwoman of Chailot—bright pink spots on each cheek, black eyebrows with gray hair, crimson lipstick on a pastel complexion. One can tell, too, the women who have gloomy lights. Everything is on in the wrong place. If you're not sure which your lights do, take a look in hand mirror or public scale mirrors when you're outdoors. See how you look to others. If the effect is not what you had in mind when you made up for the day, better get the lighting fixed.

And be ruthless when you look at yourself, too. If it doesn't look natural, that is, like an enhancement of nature, it's not for you. The round spots of pink in the cheeks of overdone women move the observer to pity, not admiration. If it gives you a look of glowing well-being, you're doing the right thing for your face with your make-up.

Bare shoulder summer dresses show up unsightly blemishes. Give the shoulder and neck area the same mask treatment you give your face. An easy to make, inexpensive mask is a mixture of kaolin and a good quality witch hazel. Make a heavy paste, apply and let dry. When the drawing stops, remove with warm water and mild soap. Close pores with a mild astringent or freshener.

Dot fish sticks with butter, margarine or bacon fat; broil close to heat and quickly, turning once, until they are opaque through and flake. Don't overcook the fish or it will be dry.

An easy renovation project for an old coffee table or bridge table is to transform it into a smart, modern looking game table with rubber tile. The resilient tile is easy to cut with a flooring knife into small squares needed for a checkerboard.

Lay the tiles on the table top in the pattern desired, then remove and spread surface with rubber tile adhesive and lay tiles in place. Allow to dry 24 hours before using.

The rubber top will not be marred by cigarette burns and is easy to keep clean with a damp cloth.

### Swedish Rye Bread

4 cups liquid (sour milk, buttermilk or water), 3 yeast cakes, 8 cups rye flour, 2 cups white flour, 2 tablespoons salt, 1 cup shortening (melted), 1 cup molasses (or more if you like it sweet), 2 tablespoons anise seed, 2 tablespoons fennel seed, 2 tablespoons caraway seed, 2 tablespoons chopped orange peel, 5 cups flour.

Heat milk to lukewarm. Dissolve yeast in a little sugar. Combine milk, yeast, rye flour, white flour and salt to a smooth dough without kneading it on board. Let rise to double in bulk, about two hours. Then add remaining ingredients. Orange peel can be prepared by boiling the peels about one hour in a covered kettle. Scrape off all white substance and chop the yellow very fine. It adds a very delicate flavor to the bread. The dough should be firm enough after three of four cups of flour to be handled on a table and do knead it firmly and thoroughly to a very smooth bulk that leaves the table without sticking. Let rise another one and one-half hours. Then divide in four parts and place either in tins or on baking sheets (both greased) and let rise one hour. Bake 50 to 60 minutes with oven at 360 degrees.

Keep garlic and onion powder on hand for seasoning; save peeling and grating or chopping onion, mincing or crushing garlic.

### TEETH IN WASTE BASKET.

Oklahoma City, Okla.—Seeing a pupil struggling with a piece of candy, Mrs. Loretta Bonner, a teacher, told the boy to either swallow the candy or toss it in the wastepaper basket. The boy told her the candy was stuck in his teeth. Jokingly, Mrs. Bonner told the youngster to "toss your teeth in the basket with the candy." The boy complied, to her surprise, throwing candy and teeth into the trash basket—he had a full upper plate.

**MODEL ILLUSION**—The model's the right size; it's the chair that's out of proportion. The huge rocker is one of several pieces of furniture recently placed on display in Chicago, Ill., by an infants' magazine to give parents and educators a baby's-eye view of the world.

## Bible Lost 38 Yrs.

During the first World War, a young bride in England gave her soldier husband a Bible. It was a leather-bound copy, and the bridegroom carried it off to France, where the British Expeditionary Force was fighting the Germans.

During the turmoil and confusion of those days and years, the Bible was lost. For the last thirty-eight years it has not been seen by the lady, Mrs. Margaret Dixon, who gave it to her husband. Mrs. Dixon now lives in West Hartlepool, England.

Not long ago, a school teacher in Hanover, Germany, ran across an unusual Bible in a library. Upon examining it, she found that it was the Bible the young English bride had given her husband before he left for France in World War I.

The German school teacher mailed the Bible back to Mrs. Dixon. Upon receiving it, Mrs. Dixon opened it up and found—still thrust between the pages—a flower she had put there for her husband thirty-eight years before.

Perhaps this story will bring back memories to others of former days, and personal recollections. We hope it also brings back books to some.

**COMMON INTEREST** of the Air Force and Federal Civil Defense Administration in early warning of unfriendly planes is underscored as Maj. Tilmon B. Cantrell, an Air Force liaison officer at FCDA, shows silhouettes of plane types to Miss Joan Cross, an FCDA bookkeeper and new recruit in the Ground Observer Corps. Miss Emajene Noon (background) is on duty at the GOC post atop the 14-story FCDA headquarters building in Battle Creek, Michigan.

**TOM'S NOT FORGOTTEN**—That certain frontiersman to the contrary and assorted space characters notwithstanding, Tom Sawyer and Huck Finn still float down dreamy rivers as small boys relive their legendary adventures. Ready to shove off for a good, old-fashioned session of rafting on Peachtree Creek, Atlanta, Ga., are, from left: Luke Curtis, 8; Jimmy Geisler, 6, and brother Bill, 10. The boys' pet pooch is serving as pilot.

## Health & Beauty

Acne is the problem faced often by teen-agers, as if they didn't have enough emotional problems during that wonderful, but frequently trying, period of their lives.

Acne is a disease of the tiny oil glands of the skin. It is found most often on the face. Where these glands don't get the proper amount of stimulation in form of exercise and through cleanliness, tiny red pimples form. The result is an acne condition of the skin.

The sooner you begin work on a sluggish, acne-type skin, the better your chances are to prevent permanent scars. Proper cleansing and exercise must be coupled with at least eight hours of sleep each night. Drink plenty of water each day and get a certain amount of sunlight. Don't over-do the sun treatment, however.

Cleanliness is very important, so bathe frequently, both your face and body. Shampoo your hair as often as it needs it. Keep away from oily or creamy-type make-up. Avoid eating rich or fried foods of any kind. Chocolate, nuts, soft drinks, creamy foods, sugar, cheese and any foods rich in fats and oils have no place in your diet.

Never squeeze blemishes. Your doctor can give you a mild, anti-septic ointment that shrinks the pores, a good mild soap and an astringent to stimulate.

Don't try to treat an advanced case of acne at home. You must consult a doctor.

## Are Men Vain?

Men have always maintained that the feminine sex is the vain sex. So, we give you this little item for what it is worth, and also in the hope of currying a little favor with our women-readers:

A noted New York photographer recently declared that men are much vainier than women when they are being photographed: "People say women are vain," says the photographer, "but don't you believe it. I never saw anything as vain as a man in a studio."

Naturally, there will be many men hereabouts to intimate that the photographer doesn't know what he's talking about. We are not inclined to argue very strongly in favor of the conclusion he announces, but, just the same, we have seen some men who gave both eyes to their personal appearance—as if they had something there!

## Blue Cheese Adds a Hearty Flavor to Old Stand-by Casserole

BY DOROTHY MADDOX

TO add variety and pleasure to your family menus, try American blue cheese in cooked dishes. Of course, you've perhaps used it in salads and sandwiches, but now see how well it blends with casserole dishes.

### Blue Cheese Noodle Casserole (4 servings)

One tablespoon salt, 3 quarts boiling water, 8 ounces wide egg noodles (about 4 cups), 3 tablespoons butter, ¼ cup chopped onion, 3 tablespoons all-purpose flour, 1½ cups milk, ½ teaspoon salt, ¾ cup crumbled American blue cheese (about 4 ounces), ¼ cup grated, processed Cheddar cheese; 4 hard-cooked eggs, 1 tablespoon mayonnaise, 1 tablespoon pickle relish, ¼ teaspoon pepper, ½ teaspoon dry mustard.

Add 1 tablespoon salt to rapidly boiling water. Gradually add noodles so that water continues to boil. Cook uncovered, stirring occasionally until tender. Drain in colander.

Melt butter; add onion and cook until lightly browned. Add flour and blend. Gradually add milk and cook over low heat, stirring constantly until thickened. Add ½ teaspoon salt, ½ cup blue cheese and Cheddar cheese; stir until cheeses are melted. Add noodles and mix thoroughly.

Turn into 4 greased, individual casseroles. Cut eggs in half lengthwise and remove yolks. Mash yolks; add remaining ingredients and ¼ cup blue cheese. Blend well. Pile yolk mixture in egg whites. Top noodle mixture with eggs.

Bake in moderate (350 degree) oven 30 minutes, or until lightly browned.

### Blue Cheese Frankfurter Bake (6 servings)

Two 1-pound cans baked beans, ¾ cup crumbled American blue cheese (about 4 ounces), ¼ cup chopped onion, ¼ cup chili sauce, 6 frankfurters.

Combine beans, ½ cup cheese, onion and chili sauce. Mix well

Blue cheese adds a distinctively different taste experience to the usually rather bland noodle-and-egg casserole.

and turn into greased shallow 1½-quart casserole. Cut frankfurters lengthwise without cutting all the way through. Fill with remaining cheese. Arrange over bean mixture. Bake in moderate (375 degree) oven 40 minutes.

## In FASHION now

During the summer months the basic white dress comes into its own. There are numerous reasons for this, not the least being the way a white dress compliments a sun tan.

The pink and white lady loves her basic white dress because it is so cool and fresh looking. Not only cool-looking, a white garment is actually cooler because the bright color reflects the sun's rays and turns away some of the heat before it has time to reach the skin.

The white summer dress is smart looking and is flattering to all ages. Some women with white hair may find white more becoming if their locks have a slightly blue coat. This will provide the

needed contrast in color.

The new pastel colored shoes are lovely as a color note for the basic white dress. Black patent is good teaming also.

Jewelry and accessories can be used to change the looks and the function of the basic white dress, just as with your basic black. It can be dressed-up for a party or dressed-down for a day at the office or a club meeting.

While white will not make you appear smaller, as is the case with black, don't be afraid to wear it if you are large. The cut is the important thing. Make sure the lines are straight and as simple over the hips as possible. The kind of fabric you choose is important also. Keep away from very stiff or shiny material.

## About Your Home

Every homemaker is probably familiar with the new plastic film on the market. It is used in the kitchen as a useful wrapping and cover for all kinds of food and dishes. Its use has been extended to the garden.

The clear plastic film makes an excellent cover for seed flats or pans. It holds moisture perfectly. Even seeds that germinate slowly need no additional water for weeks.

It makes a perfect buffer between pots and tender leaves. A strip folded and placed around the rim of flower pots will prevent the pot from damaging the leaves of such plants as African Violets and Gloxinias.

It can be used as an aquarium cover for a case in which to root leaf cutting taken from moisture-loving plants.

This is only a few of the uses you can find for plastic film in your gardening. Since it is inexpensive and can be discarded and replaced with clean, new film, why not experiment and find

uses of your own?

It is time to start thinking about iris again for they can be planted from July until late in the fall. If you are planning on ordering new iris this year make your list now and get your order in. In this way you will be sure of getting the first choice of the rhizomes.

Your iris may be planted as soon as they arrive, providing you avoid planting them during the heat of the day. If you are not going to plant the rhizomes as soon as they arrive, open the package at once and spread the roots in a cool, dry place.

In a light soil plant the rhizome just under the surface of the ground in a hole large enough to allow the full spread of the roots. The top of the new iris should be a little above the level of the ground. The soil should be damp at the time of planting. Pack the soil firmly around each rhizome.

Since your new plant is planted very close to the top of the ground, cultivate very shallowly and very carefully. Clean cultivation is a must as iris like strong sunlight. Keep all dead leaves and weeds away from the plant.

After you have planted your iris they should be kept damp until the root system has become established. Iris does not require a great deal of water after this.

Use non-acid forming fertilizer. Steamed bone meal and superphosphate may be used at the time of planting. After the plants have become established a complete plant food may be used. Barnyard manure is not recommended.

### INDIAN ALMOST HUNG.

Houston, Texas.—If it hadn't been for Grandma Ammie Dennis, "Indian" Johnny Dennis, Jr., 6 would have been a "dead Indian." Johnny was participating in a Davy Crockett battle with other "Indians," and was to be "hung." His playmates looped a length of cord over a tree limb, knotted the other end about Johnny's throat and then Johnny either stepped or fell off an ice cooler. Playmates ran for help and Mrs. Dennis got him down. At a hospital, Johnny was found to be more frightened than anything else.

# SPORTS AFIELD

By Ted Kesting

Calling predators has only recently begun to spread out from the southwest and take hold elsewhere in this country. If you should decide you'd like to try this sport, about all you need is the will to stay hidden and the lung-power to make a good distress cry. Dozens of calls of all kinds are on the market now; or a good call can be made with your mouth if you can master the technique.

In an article in Sports Afield magazine, Hart Stilwell says that the best time to hunt predators with a call is late in the afternoon or early morning—unless you want to try it at night, which is still better for all predators except coyotes. The coyote is a tough nut at night because he will slink in to look things over, and he's likely to hightail it away without ever coming in range.

The best place to call is near a water hole. Calling works better when there is only a little breeze, and of course you ought to take a stand where the predators won't wind you in coming to the call. Obviously it's better to work upwind most of the time in moving from place to place to call.

Most hunters who have had experience in calling do not do so

steadily. They call a little, then wait, then call more. But some call steadily—or at least until they get tired.

In calling, you should ease down on the volume from time to time, even if you don't see anything. A predator might be approaching, and a harsh call could throw him off. If you see your game coming, then always ease down on the volume. Make it sound sad and fading—the dying gasp.

In taking a stand you ought to face some little opening or trail—and you ought to be pretty well concealed. Best of all is to wear a camouflage suit. And next best is to stay absolutely still. Most animals have extraordinary keen eyesight when it comes to detecting motion. But many of them are suckers for objects that don't move.

There's seldom any use staying at one stand longer than five or six minutes. If a predator is going to come to the call, he usually comes in a hurry.

At night, stand so you can make a full circle as you turn back and forth, sweeping the brush line with your light. Keep the direct beam slightly high, for most animals will leave at once if the beam strikes them directly in the eyes.

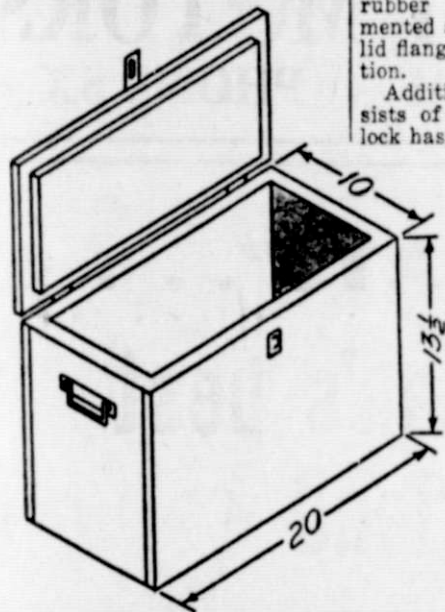

## HERE'S HOW . . .

### MAKE A PORTABLE ICE BOX

An insulated box is handy for picnics and camping. The box is made of 1-inch lumber, joined as shown in the Section drawing, and securely fastened with 1 1/2-inch wood screws. The lid, 10 by 20 inches, is hinged to the top of the box.

A rigid insulation liner is made of wall board, cut to fit flush with the top of the box. Insulation is added also to the box lid to fit the opening. A

sheet metal liner may be made by the craftsman or by the local tinsmith. The dimensions of the liner will be the inside dimensions of the box, including the insulation, with a 1-inch flange all around the top. A lid liner, also made of sheet metal fits over the lid insulation, with a 1-inch flange for fastening. Use non-rusting nails or brass screws. A strip of 3/16-inch sponge rubber weatherstrip tape cemented around the edge of the lid flange completes the insulation. Additional hardware consists of trunk handles and a lock hasp to secure the lid.

National Lumber Manufacturers Association

## the Snapshot Guild

Hobbies and photography go together. Take pictures of various members of the family working at their hobbies, as well as close-ups of the items they make or collect.

### Collect With Your Camera

It's fairly safe to say that practically everybody has some kind of pet hobby—whether it's collecting rare stamps and coins or just old fishing hats and string! And we've always felt that one of the nicest things about photography is the way it can aid and complement the pursuit of almost any other hobby.

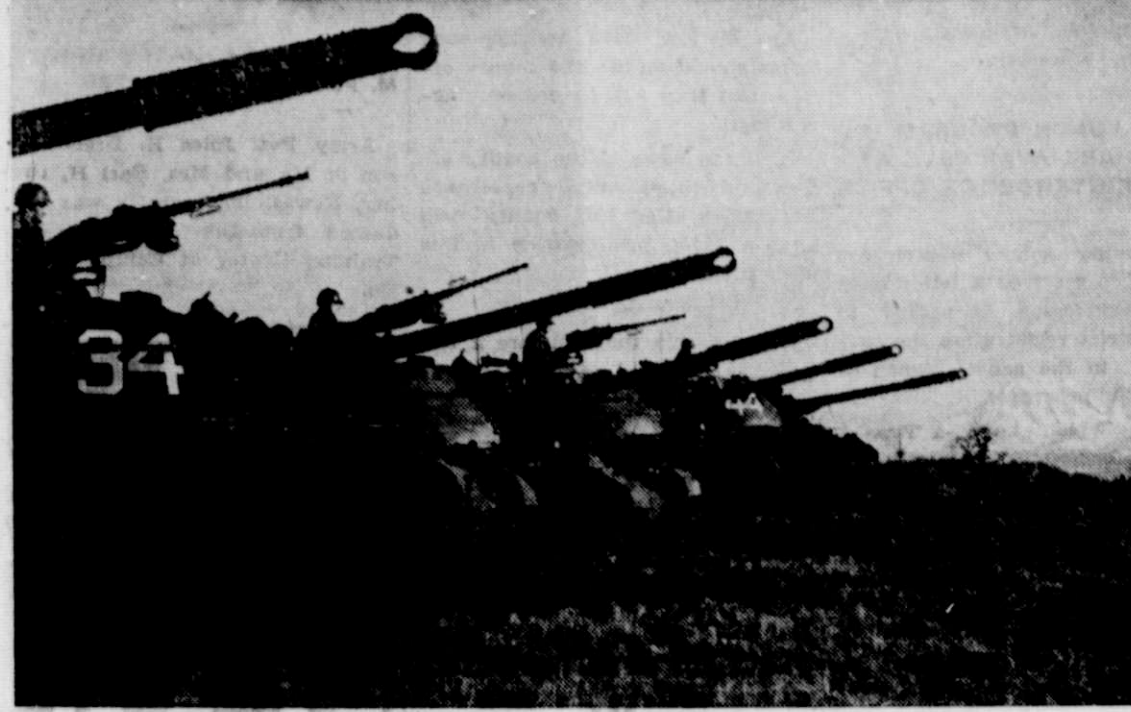

In fact, it is only by means of picture-taking that many hobbies can become "collecting" hobbies at all. If you're interested in bridges, old buildings, art treasures, railroad engines, aircraft, sailing vessels or old automobile models, your camera is the only method by which you'll be able to bring home items for your collection.

Many "collector's items" are

fairly small objects, and you'll be shooting them indoors. The easiest method of providing the artificial light you need is using a synchronized flash attachment on your camera. But, if you prefer, you can illuminate your collection with photofood lamps or ordinary household light bulbs and then make a time exposure.

In either case, if the items are small, you will want to take close-up shots. With a box-type camera, you'd normally be shooting at a distance of about six feet from your subject. If, at this distance your subject seems lost in the middle of the viewfinder, you'll do well to get a simple close-up attachment that will allow you to move in to three and a half feet.

—John Van Guilder

HARD-HITTING PATTON 48 TANKS, on maneuvers at Fort Lewis, Wash., line up abreast in firing position. Snow-capped Mount Rainier looms in the background.

## WHO KNOWS

1. Name the oldest fraternity in the United States?
2. Where is the highest resort in this country?
3. Who are the Huks?
4. Who was Chief of Staff before General Omar N. Bradley?
5. For whom was the Holland Tunnel, in New York City, named?
6. Is a college education necessary for a farmer?
7. Which is longer—a furlong or a fathom?
8. Who said: "Politics is more difficult to understand than physics?"
9. What is smog?

(See Answers at Bottom of Page.)

## Dates and Sugar

A new industry—the manufacture of sugar from dates—will soon flourish in Iraq as a result of scientific experiments carried out in that country by a United Nations scientist.

For thousands of years, dates have grown in abundance in Iraq and have constituted the principal food. In a "good year," Iraq may harvest as much as 400,000 tons of the fruit. This should be a source of considerable wealth, but in these "good years," date prices fall so low that distributors cannot even afford the luxury of moving the fruit to market.

On the other hand, despite the enormous sugar potential offered by bumper crops of dates which have a high sugar content, Iraq has been spending an average of \$16,000,000 a year to import sugar.

These facts intrigued Dr. Herman Mohler, head of a team of scientists sent by Unesco to Baghdad in 1951.

A few experiments in the laboratory of the school proved to his satisfaction that dates could be used on an economically-sound basis to produce white sugar which no palate could distinguish from sugar. Further experiments, conducted in Switzerland, proved the feasibility of producing sugar from dates on a commercial basis.

Since then, a company has been founded to put the dates-to-sugar process on a business basis. The company's first factory, now under construction, will be equipped to produce 9,000 tons of sugar a year.

BARNYARD FOE—Phil Yazdzik, 42, chomps his umpteenth chicken leg in Detroit, Mich., as he rounds the turn in a fried-chicken gobbling marathon. Appetite whetted by a 77-hamburger warm up in Chicago, the Oliphant, Pa., miner-deliveryman downed 31 orders of the delicacy in five hours

DESIGNED FOR POLIO VICTIMS—Designed for use by nearly paralyzed polio victims who still have control of neck and facial muscles, the motorized chair pictured above is the development of Ed Tilden Atkins, of Chicago, Ill. Instrument panel before the patient's face may be actuated by a stick held in the mouth, protruding rod is nose operated; controls forward-reverse motion of chair. Fashioned of aircraft parts, mechanism is powerful enough to pull portable chest respirator as well as patient, as modeled by Mrs. Barbara Pollard.

## Factual News About The Eyes

### Can Umpires See Straight?

Countless baseball fans and a good many managers are decidedly cynical about the visual abilities of the umpires, the Better Vision Institute points out. And it's a strange fact that, among the thousands of umpires, glasses are such a rarity that they provoke comment in the newspapers.

It stands to reason that these arbiters of the diamond must have their fair share of seeing troubles, especially as they grow older. But almost all of them manage without visual aids—unless some resort to the inconspicuous help of contact lenses.

Before the 1952 baseball season, Bruce Dudley, who was then president of the American Association, ordered all its umpires to have eyesight examinations and advised those who needed glasses to wear them. He expressed the opinion that 10 or 15 per cent of baseball's professional umpires would soon be using spectacles.

A new ruling now lends weight to Mr. Dudley's prediction. The pitcher must throw the ball within 20 seconds of the time he takes his position when the bases are empty. Consequently, the umpire must be able to read a stop watch—and that requirement is likely to bring glasses to many a die-hard nose.

The new rule will be a blessing if it accomplishes this end, says the Institute. There's no good reason why umpires should strain their precious vision needlessly, while outdated prejudices against spectacles are fading out on every side.

READ THE CLASSIFIED ADS

## Summer Heat Can Be Deadly To Your Pooch

Every summer hundreds of dogs die from heat prostration, states the Gaines Dog Research Center, New York.

Many of them are overcome when left in parked cars or station wagons simply because their owners fail to realize how much heat is generated by metal and glass. If you must leave your dog in a car, be sure the windows are open enough at the top to allow for ventilation. And, warns the Center, the most important precaution is to make sure that the "shady place" where you park will still be in the shade when you return to your car.

Exhaustion, and even death, from heat, can also come to dogs which are tied up in yards or to kennel houses where there is no protection from the hot rays of summer's sun. Do provide a comfortable, cool place for your dog in summer. Don't leave him where he has no shade or protection from the sun. Do give him fresh cool water to drink several times a day.

Don't put water in a dish or pail and let it stand where it is heated by the sun, or until the water is stale and stagnant. Do give your dog exercise in the early morning and late afternoon, rather than in midday. Don't let a puppy romp and play for long periods. He may not know any better and excitement plus heat can prostrate him or make him ill. Don't give a puppy ice water or food that has just been taken out of the refrigerator. Above all, states the Center, think of your dog as you do of yourself on hot, humid days. Let him "take it easy."

### FEATURES DETERMINE NAME

Many fishes are named for their prominent features. The pipefish sucks food through a tubular snout, says the National Geographic Society. The filefish has a sandpaper skin. The cowfish carries horns. The spines on either side of the surgeonfish's tail open up like a jackknife. The porcupinefish, resembling its landlubber namesake, raises sharp, defensive spikes inflated by water or air, all over its body. Porcupinefishes bristle only when frightened. Normally the spines lie flat.

### From Drill to Router

A BROKEN drill may readily be converted into a wood router for small jobs, according to Popular Mechanics. You sim-

ply grind the end of the bit at right angles to its length. For the average job, a 5/16" drill is about the right size. This router bit works best when it is used in a drill press, but it also can be used in an electric drill.

## How About That!

If you desire adventure and would like to impress your loved one this summer... or just take a fabulous look from airplane height at equally fabulous New York City... All you have to do is visit Manhattan's famed Empire State Building which juts into the clouds 1472 feet above the world's biggest city!

Some persons say they have seen sparks when two persons have kissed at the Empire State Building Observatory!

Television capital of the world, the Empire State Building is 102 stories high... has attracted nearly 15 million visitors... is regarded as the World's 9th wonder... and, believe it or not... The tower doesn't sway!

m. Jacobs

## Behind The Scenes in American Business

By Reynolds Knight

Business is so good it is still causing a good deal of head-shaking by those who like to worry that good things can't last forever. This will probably be the broadest-based as well as the strongest year the construction industry has ever known. Schools, churches, stores, office buildings, etc. will set all-time peaks, and residential housing will top 1,300,000—the seventh year in a row that housing starts have topped 1,000,000.

Machine tool orders in May climbed about 20 per cent over the similar period a year ago. Among consumer goods industries there are reports of gains in beverages, foods and detergents.

John Q. Public is spending freely, as evidenced by the fact that savings accounts have not been rising as rapidly as in the recent past. However, credit is still plentiful and there is no indication that the government wishes to risk the political consequences of tightening in credit availability. All in all, the business pulse is strong. If the Geneva meeting next month succeeds in producing an atmosphere of peace, there is little doubt that 1955 will hang up a record in productivity and employment.

THINGS TO COME — A repair kit called Windo-Fix is being marketed. It consists of a foldup metal tube of putty, putty knife and glazier points. Putty when squeezed is shaped to fit angle of sash and pane. . . A gadget that removes hard boiled eggs from their shells attaches to a water faucet, drives water between egg and shell, and separates the egg more easily, according to its sponsor-manufacturer. . . A new farm machine plows, harrows, spreads weed killer and fertilizer, plants seed and packs soil—costs about \$20,000.

SICK CHICKS — A wayward chemical has come home to roost, bringing with it a thriving chicken and feed business for a company usually associated with plastics and rubber. The chemical is N,N'-diphenyl-p-phenyl-enedamine, nicknamed DPPD, developed 25 years ago as an anti-oxidant for rubber. It didn't work out well in this application and lay on the shelf until several years ago when scientists at a chemical company dusted it off and found that it would prevent crazy chick disease (encephalomalacia) which too often in the past has turned a poultry farmer's profit into loss.

The chemical preserves vitamins E and A in the chicken's digestive tract, the scientists found. E prevents the disease, and A helps the chick to grow more rapidly. Only a quarter to a half pound of DPPD is needed to fortify a ton of poultry feed. But when you consider that more than 1 1/2 billion chickens are produced annually in the United States, the business of producing DPPD for their diets is far from being chicken feed.

FOOD AND STRIKES — Even though labor trouble and strikes may spread, there is little occasion for alarm concerning the supply of foodstuffs this summer and fall. Packers of foods have anticipated possible difficulties in obtaining containers, and crops will be harvested without difficulty, according to surveys.

BITS O' BUSINESS — Petroleum demand from domestic sources will increase 35 per cent in the next 10 years, a leading producer predicts. . . Copper producers predict the supply situation will continue tight into 1956. . . Textile mills, now that they have an adequate supply, will shut down for vacations. . . Public debt to continue for another year at \$286 billion. . . Wage increases spurring business search for more economical production methods, new machinery.

### WHEAT PRICE SUPPORT CUT.

Secretary of Agriculture Ezra Taft Benson has set 1956 wheat price supports at the lowest dollar level since 1946, in his announcement that next year's average support rate would be \$1.81 a bushel, 76 per cent of the "fair" parity price, provided growers approve strict acreage-quotas in a national referendum on June 25. A two-thirds vote by growers is required for approval. If quotas are voted down, supports will drop to 50 per cent of parity, or about \$1.19 a bushel.

### Explained

She — Sometimes you seem so manly and other times absurdly effeminate. Why is it? He — Heredity. You see, half my ancestors were men and the other half women.

**STATE OF WISCONSIN  
WASHINGTON COUNTY COURT  
IN PROBATE**

In the Matter of the Estate of  
**WALTER C. SCHNEIDER, Deceased.**

A petition having been filed, representing that Walter C. Schneider, late of the Village of Kewaskum, Washington County, Wisconsin, died testate, and praying that the Last Will and Testament of deceased dated September 2, 1954 (and codicil thereto) be admitted to probate, and that Letters Testamentary (or, of Administration with the will annexed) be granted and for determination and adjudication of heirship;

**IT IS ORDERED:**  
That said petition be heard, at a term of Court at the Court House in the City of West Bend, County of Washington, State of Wisconsin, commencing on the 6th day of September, 1955, at the opening of Court on that day or as soon thereafter as said petition can be heard; That the time within which cre-

ditors of the deceased shall present claims against such estate for examination and allowance is hereby fixed and limited up to and including the 6th day of December, 1955;

That all claims against the deceased be examined and adjusted by the Court on the 20th day of December, 1955, at the opening of Court on that day, or as soon thereafter as the matter can be heard;

That notice thereof be given by publication of this Order for three consecutive weeks, once in each week, in Kewaskum Statesman, the first publication to be within fifteen days from the date hereof; and by mailing a copy of this Order to every interested person whose post office address is known or can with reasonable diligence be ascertained, at least twenty days before the hearing or proceeding.

Dated August 1, 1955.  
By the Court,

Milton L. Meister,  
County Judge.  
K. Wm. Haebig, Attorney  
Kewaskum, Wisconsin 8-5-55

**SCHOOL LUNCH PROGRAM  
FORMS ARE AVAILABLE AT  
SUPERINTENDENT'S OFFICE**

The county school superintendent's office received a letter from Gordon Gunderson in regard to school district registration for participation in the school lunch or school milk programs.

Schools which have a Type A program (complete meal) will receive reimbursement of 4c per half pint for each half pint of milk consumed, in addition to the one with the meal served. Schools not having the Type A lunch program will receive 3c per half pint for all milk consumed.

The deadline for filing school

lunch program applications is August 8.

Any district board desiring such forms should inform the county office and they will be ordered accordingly.

It is the hope of the county office and the County Schoolboard association that this county will have a 100% participation in this milk program.
