## Week's Wit

One might become famous as the inventor of the square ball bearing. It doesn't work but it's a heckuva idea.

## United Fund Drive Way Over Goal

Carl Plaum is shown adding the over-the-top figure to the local United Way sign.

The Kewaskum Area United Way officially completed its first annual fund drive on Friday, October 27, and recorded an impressive \$15,152.56 in contributions and pledges. More than 100 volunteers helped gather the funds to bring the total way over this year's goal of \$12,500.00 - 121%. Co-chairmen of this year's fund drive, Lem Rosenheimer and Jim Reigle, have expressed their thanks to all who contributed and to the many volunteer workers who made it happen.

Jerry Stollenwerk, President of the campaign organization said, "We had no previous experience with this type of drive and are very pleased with the outcome. It looks like we may be getting a few more contributions in the next week. The

## Milwaukee Man Killed in Dundee Crash

One man was killed, another remains in critical condition, and two others were injured following a one-car crash Sunday night near Dundee.

The victim, Michael J. Hupfer, 21, of Milwaukee, was dead on arrival at St. Agnes Hospital, Fond du Lac, at 8:03 p.m. Sunday. He and three other occupants of the auto were taken to the hospital by Campbellsport ambulance.

According to Fond du Lac County Traffic Police, the four men were injured about 7:13 p.m. Sunday when the car, owned by Hupfer, left Highway 67, three-tenths of a mile south of Lakeview Road in the Town of Osceola, hit a tree and a garage owned by Miles Shea of Route 2, Campbellsport.

It was not determined who was driving the vehicle, police said, adding that the accident was still under investigation.

David W. Ivanis, 21, also of Milwaukee, was immediately transferred to Milwaukee County General Hospital for treatment of head injuries. He was listed in critical condition Monday.

The other two men remained hospitalized at St. Agnes in satisfactory condition. They are Bret W. La Fond, 21, of Greenfield, with multiple abrasions and a fractured wrist, and Paul Gilbertson, 21, of Milwaukee, with a possible head injury.

Hupfer was Fond du Lac County's 17th traffic fatality of the year, compared to 12 on the same date one year ago, and 14 during all of 1977.

## On Realignment

### Board Prefers Joining Packerland Conference Rather Than Braveland

By TAMI EDGAR  
Statesman Staff Writer

The changing of conference realignment was considered at Monday evening's School Board meeting with Richard Theusch unable to attend.

The board approved using whatever ways that were open to indicate to the WIAA that Kewaskum High School would prefer to join the South Packerland Conference rather than joining the Braveland Conference, which had been previously proposed by the WIAA. The South Packerland Conference consists of New Holstein, Valders, Plymouth, Kiel, Two Rivers and Chilton.

The board then unanimously passed the curriculum committee reports in social studies, English and values with provisions that more emphasis be placed on U.S. History than is currently stressed. Scheduling of math at the individual schools at the same time was considered during the committee report discussion. It was agreed that scheduling should begin with the fall of the 1979-80 school year.

The questions of paying a salary for the after-school arts

and crafts program at Wayne and for supervisory visits so that Barbara Hickcox could receive the Certificate of Clinical Competence from the American Speech and Hearing Association were turned over to a committee consisting of Tessar and Gessner.

The proposal of \$538 from System Service, Inc. for work modifications and to check calibration in the Middle School heating was approved. The board also approved the remodeling of the former high school library as proposed.

Action was withheld pending a check on any liability questions on the disposing of, either by sales or giving away, old football helmets.

The request of Beth Thurk for an extension on her child care leave through the 1978-79 school year was granted.

The board expresses their congratulations to the girls cross country and volleyball teams and to their coaches for their conference and tournament play. The volleyball team was conference co-champion and both teams are still advancing in tournament play.

### Seefeldt Asks Reform of State Office

Neenah — "The snafus, foul-ups and break-downs in the Secretary of State's office are a book of Halloween horror stories for Wisconsin consumers and small business," Fred Seefeldt, Republican candidate for Secretary of State, said this week.

Seefeldt commented on his study of the operations of the Secretary of State's office during his year-long campaign for the state's third highest office.

"Two areas of operation are especially notorious around the state for poor service," Seefeldt said.

1. Registration of new companies: "Because of break-downs in the office process,

many new businesses have to bear the expense of sending special messengers to Madison to get their paperwork done promptly. This situation, alone, costs Wisconsin consumers and small business thousands and thousands of dollars each year," Seefeldt said.

2. Commercial credit checks: "Delays in getting credit information from the Secretary of State's office run up to six weeks. That makes the information useless. So most credit checks are done by outside firms at added expense to the consumer. Not long ago it was possible to get this information over the telephone. Now it takes weeks," Seefeldt said.

"Slow service in the Secretary of State's office is just like shoplifting," Seefeldt says, "it drives up the cost of doing

business in Wisconsin and is passed along to the consumer in higher prices."

"Last year the rates the Secretary of State's office charges for various services were increased 10% to 25% and new charges have been added. Today it takes up to six weeks to get the information that used to be available for a phone call," Seefeldt says.

Seefeldt said he would create a special citizens' advisory panel, made up of people who have to deal with the Secretary of State's office, to make recommendations for improving service.

## Lower winter electric rates are now in effect.

### Now pretend you didn't hear that.

For the next eight months, you're going to notice something different about your electric bill.

It will be lower.

In fact, it should be a lot lower than it was during the summer, when the summer rates were in effect.

This is good news. But it's worth forgetting.

You'll be much better off pretending that electricity costs a lot more than it actually does.

That way, you'll probably use it wisely by conserving it whenever you get a chance. And with lower electric rates in effect, you'll be rewarded even more for your efforts. With lower electric bills every month.

So, if you've been conserving electricity during the summer, now's not the time to switch.

Now's the time to save even more.

### OFFICE OF WASHINGTON COUNTY CLERK TO THE ELECTORS OF WASHINGTON COUNTY.

Notice is hereby given of a November General Election to be held in the several wards in the County of Washington, on the 7th day of November, 1978, at which the officers named below shall be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to or filed in this office, are given under the title of the office in the sample ballot below.

#### INFORMATION TO ELECTORS

Upon entering the polling place, an elector shall give his or her name and address before being permitted to vote. Where paper ballots are used, the initials of two ballot clerks must appear on the ballot. Upon being permitted to vote the elector shall retire alone to a voting booth or machine and cast his or her ballot. An election official may inform the elector of the proper manner for casting a ballot, but the official shall not in any manner advise or indicate for whom to vote.

If an elector wishes to vote for all candidates nominated by any party, the elector shall make a cross or other mark in the circle or depress the lever or button under the party designation printed at the top of the ballot. Unless a name has been erased or crossed out, another name written in, a mark placed to the right of a candidate for the same office in another column or a sticker applied, a mark in the circle at the top of the column is a vote for all the party's candidates listed in the column. If an elector does not wish to vote for all the candidates nominated by one party, the elector shall make a cross or mark in the square at the right of or separately depress the levers or buttons next to each candidate's name for whom he or she intends to vote, or shall insert or write in the name of a candidate.

On referenda questions, the elector shall make a cross or other mark

in the square at the right of or depress the button or lever next to the answer which he or she intends to give.

The vote should not be cast in any manner. If the elector spoils a ballot, he or she shall return it to an election official who shall issue another in its place, but not more than three ballots shall be issued to any one elector. If the ballot has not been initiated by two ballot clerks or is defective in any other way, the elector shall return it to the election official, who shall issue a proper ballot in its place. Not more than five minutes' time shall be allowed inside a voting booth or machine. Unofficial ballots or a memorandum to assist the elector in marking his or her ballot may be taken into the booth and copied. The sample ballot shall not be shown to anyone so as to reveal how the ballot is marked.

After an official paper ballot is marked, it shall be folded so the inside marks do not show but so the printed indorsements and ballot clerks' initials on the outside do show. After casting his or her ballot, the elector shall leave the machine or booth, and where paper ballots are used, give his or her name to the inspector in charge of the ballot box, and shall leave the polling place promptly.

An elector may be assisted by 2 election officials of different political parties in casting his or her vote if the elector declares to the presiding official that he or she is unable to read, has difficulty reading, writing or understanding English or that due to physical disability is unable to cast his or her ballot. Alternatively, an elector making such declaration may have another elector of the county assist in marking the ballot or operating a voting machine. The presiding official may administer an oath to a person making such declaration.

The following is a facsimile of the official ballot.

### SAMPLE OFFICIAL BALLOT

"NOTICE TO ELECTORS: THIS BALLOT MAY BE INVALID UNLESS INITIALED BY TWO (2) ELECTION OFFICIALS SERVING AS BALLOT CLERKS. IF CAST AS AN ABSENTEE BALLOT THE BALLOT MUST BEAR THE INITIALS OF THE MUNICIPAL CLERK. If you desire to vote for an entire party ticket for State, congressional, legislative and county offices make a cross (X) or other mark in the circle (O) under the party designation at the head of the ballot. If you desire to vote for particular persons without regard to party mark in the square at the right of the name of the candidate for whom you desire to vote, if it be there, or write any name that you wish to vote for in the proper place.

**NOTICE OF  
REFERENDUM ELECTION  
NOVEMBER 7, 1978**

STATE OF WISCONSIN )  
Elections Board ) ss

NOTICE IS HEREBY GIVEN, that at an election to be held in the several towns, wards, villages and election districts of the County of Washington, on the Tuesday after the first Monday of November, being the Seventh day of said month, the following referendum will be submitted to a vote of the people pursuant to law:

Chapter 394 (Section 55) Laws of 1977 Published May 24, 1978

(1) PRESIDENTIAL VOTING - Section 6.15, stats. Shall state law be amended to permit all bona fide residents of this state who qualify as voters to vote for president and vice president, regardless of the length of their residency, as required by federal law?

**EXPLANATION**

**Effect of Ratification**

Congress, in the exercise of its power to regulate federal elections, has enacted the Voting Rights Act Amendments of 1970 which, among other things, prohibits states from disqualifying citizens from voting in presidential and vice presidential elections because of failure to meet durational residency requirement. Wisconsin has a durational residency law requiring that a new resident must have resided in an election district or ward for ten days before any election where he or she offers to vote.

The purpose of sec. 6.15 is to conform Wisconsin law with federal law. It provides that a bona fide resident of Wisconsin may vote in presidential and vice presidential elections (but for no other officers), even though he or she has not resided in this state for ten days prior to such election. The statute also establishes procedures to implement voting under its provisions.

A "yes" vote by a majority of electors would make sec. 6.15 effective as a state statute. A "no" vote by a majority of electors would indicate disapproval of such statute, and it would not become effective.

(2) OVERSEAS VOTING - Section 6.24, stats. Shall state law be amended to permit U.S. citizens who are living in a foreign country to vote in federal elections in Wisconsin if they last resided in this state before leaving this country, as required by federal law?

**EXPLANATION**

**Effect of Ratification**

Congress, in the exercise of its power to make or alter election regulations in reference to federal elections, has enacted the Overseas Citizens Voting Rights Act of 1975 to authorize otherwise qualified citizens residing outside the United States to register absentee for, and to vote by, an absentee ballot in federal elections in the state where the citizen was last domiciled immediately prior to leaving the United States.

The purpose of sec. 6.24, Stats., is to amend Wisconsin law to conform with such federal law and to provide procedures for the implementation of absentee registration and voting in federal elections by citizens who have abandoned their Wisconsin residency but were last domiciled in Wisconsin prior to their departure from the United States. No such privilege exists under the state constitution or statutes, and sec. 6.24 would not extend such privilege to state and local elections.

A "yes" vote by a majority of electors would make sec. 6.24 effective as a state statute. A "no" vote by a majority of electors would indicate disapproval of such statute, and it would not become effective.

I, Gerald J. Ferwerda, Executive Secretary of the State Elections Board, DO HEREBY CERTIFY that the foregoing proposed Referendum known as Chapter 394 (Section 55) Laws of 1977 have been compared by me with the published copy of said Chapter and the same is a true copy thereof.

Given under my hand and the official seal of the County of Washington, in the City of West Bend, Wisconsin, this 20th day of October, A. D., 1978.

GEORGE F. NEHRBASS, COUNTY CLERK  
WASHINGTON COUNTY

## FOLK MEDICINE

When I was a small boy in Eastern Illinois I would go with my father each spring to dig sassafras roots along the river. With these roots and bark a delicious sassafras tea would be made. My father believed, as did his generation, that the blood became sluggish during the long winter, and in the spring it needed thinning. Sassafras tea did the job. He would drink the tea, lean back, and tell us how much better he felt. Would it surprise you to know that sassafras is still sold in many drug stores and supermarkets, and, in recent times health food stores report the sales of both sassafras and ginseng tea to be very good.

Who has not heard these old sayings? "An apple a day keeps the doctor away," or "you should feed a cold and starve a fever," or "eat fish for brain-food and carrots for good eyesight." These and hundreds of others have persisted down to this day.

### Nature of Folk Medicine

Medical science is a relatively new development in the long history of man.

Wisconsin's settlement came after the establishment of the first medical schools, but most of the pioneers were far removed from any help when illness came and were dependent upon their own cures. Folk medicine came from trial and error or from plain superstitions. Many accepted disease and death because they were acts of God.

### Indian Cures

One of the great medical discoveries stemmed from the explorer Cartier's use of a tea made from conifer trees--A technique learned from the Indians in 1545 which restored his crew to health. Many years later an English physician read Cartier's diary and, from his experimentation, Vitamin C came to be recognized as a cure for scurvy.

Among the Indians of the Americas there were more than 200 indigenous drugs in the plants that one or more tribes used as cures. The Chippewa of the Great Lakes used at least 56 plants that now provide drugs for the American pharmacopeia. They treated external injuries such as wounds with a vegetable drug, but regarded internal ailments as having been caused by supernatural influences.

Indian medicine was not a science though they could ease pain with herbs, place splints on broken limbs, and even do some surgery. European medicine was hardly a science at the time of the settlement of America. One pharmacopeia of London in 1618 listed mummy dust and human excrement and 100 years later another one included dragon's blood and crab's eyes.

Early settlers incorporated some of the Indian herbs into their homespun system and on occasion made use of medicine men. Chief White Wolf of Michigan tells of a medicine man curing a white girl with a

potion made of slippery elm bark and a turtle's heart. In recent times a Chippewa medicine man cured a white woman of poison ivy by applying the juice of some leaves he brought from the forest. Many a boil has been treated with the dregs of the sumac (with its tannic acid), a favorite among both Indian and white settlers for many years.

Indian cures were also taken over by the peddlers who roamed through rural America selling an "elixir of life" from their wagons. Always, these cure-alls were the secret formula of an Indian chief and worth far more than \$1 a bottle.

### Pioneer Medicines

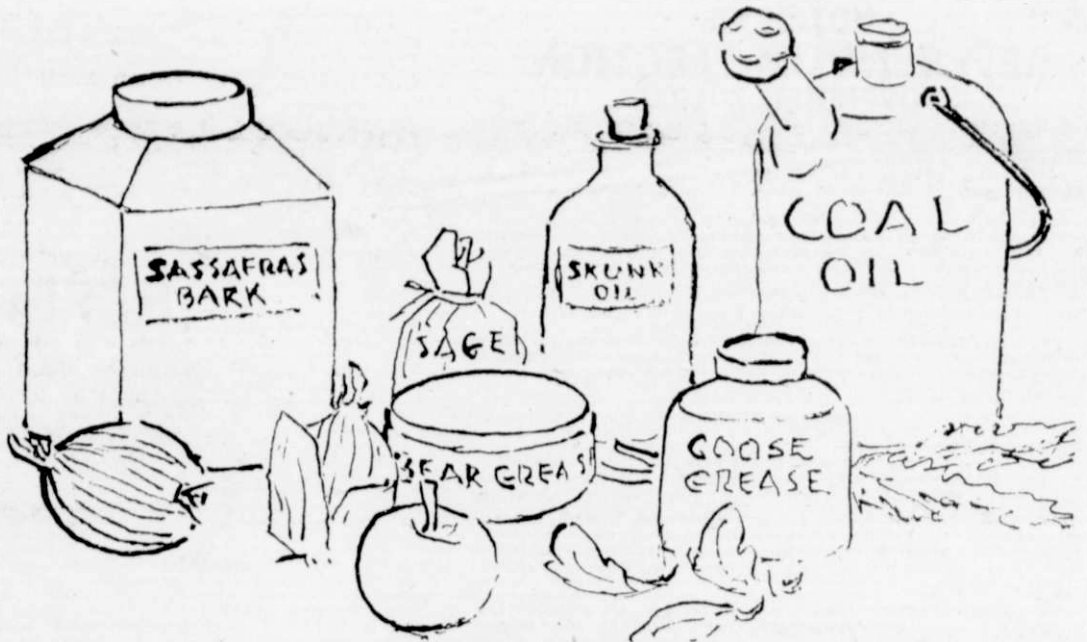

By the time the early settlers reached Southern Wisconsin, they had not only outrun their institutions but had also developed their own cures for almost everything. Each group of immigrants brought new superstitions and new cures. The Cornish who came to the lead mines and copper and iron ore mines brought beliefs that cat-tails were good for cuts, that earrings improve eyesight, and dozens of others that lean toward the superstition. Southerners brought a belief in the "mad stone"--a mineralized stone taken from the stomach of an occasional deer--could cure rabies, sometimes snake bites, open sores, even cancer. It was so prized that the pioneers rode many miles just to have the benefit of the "mad stone." It "sucked out the poisons." It is still used in some southern states today, and the Illinois owner of a "mad stone" refused an offer of \$4,000 for it in 1976.

When James Doty of Wisconsin Territory visited the 5th Infantry Regiment of the U.S. Army in 1820, he reported that scurvy had ravaged the troops with 40 of the 100 dying. "It was at last arrested and cured by making strong decoctions of hemlock boughs. The troops subsisted entirely on salted provisions, without any vegetables, which is supposed to have caused their ill health." This cure probably came from the Indians.

Many people believed that swamps and lakes gave off a miasma which caused the ague and malaria. The early New Englanders believed the dog fennel was a cure, and it is said that Johnny Appleseed planted both dog fennel and apple trees throughout the Ohio Valley. Ague was so common that people said that "he ain't sick; he's just got the ager."

Diphtheria was also a common frontier disease that killed many children, as the old graveyards testify. Red flannel was supposed to have some effect upon it, and removing the dead through windows in the middle of the night was practiced in northern Wisconsin until recent decades.

The pioneers believed that a salt pork diet caused rheumatism, and that their stiff joints could get relief from goose grease, bear grease, and skunk oil. They cured their bronchial

"Folk Medicine"

troubles with poultices of warm manure, onions, or mashed potatoes. They prevented mumps from "going down" by tying a red thread around the neck. They induced child birth by giving the mother a puff of snuff in the nose. They healed cuts with "coal oil," tobacco, cobwebs, and urine. Snakebite was treated with whiskey or by applying a "mad stone." Insect bites were eased with lard, butter, or goose grease. Frostbite was treated with snow or warm cow manure.

Pioneers treated colds by wearing salt pork around the neck, drinking whiskey mixed with rock candy or a tea made from native plants, or by blood-letting. They thinned their blood each spring with sulphur and molasses or sassafras tea and gave their cows with bloated a bottle of urine or "coal oil."

It is doubtful if snakebite ever yielded to "mad stones" or that sulphur and molasses ever thinned blood, but even modern medicine says that any treatment is better than none at all. However, one Wisconsin woman said that she could not remember ever being ill except when forced "to swallow some of mama's concoctions."

### Wisconsin Herbs and Plants

Here is a list of herbs and plants used by Wisconsin Indians and pioneers taken from Gard and Sorden's Wisconsin Lore:

Ginseng for tonic and stimulant; elderberry--colds and fever, kidneys; plantain--kidney, poultices; wintergreen--tonic, stomach; touch-me-not--skin; dogweed--tonic, liver; wild onion--sinus; skunk cabbage--asthma; violet--earache, intestinal parasites; May apple--liver, constipation; belladonna--fever, convulsions; burdock--falling hair, skin; yellow dock--coughs, bronchial trouble; peppermint--tonic, colds, stomach; iris--tonic; foxglove--heart stimulant; golden seal--tonic; black-eyed susan--pain killer; monk's hood--fever, colds, pain; chamomile--sedative, eyewash, tonic; juniper berry--kidneys, diabetes; mullein--earache; slippery elm bark--tonic, colds, poultice.

### Copper Bracelets and Arthritis

Copper has been used to relieve arthritis and stiff joints ever since the days of the ancient Greeks, but I was surprised to find copper bands being used by creamery workers in Wisconsin in the 1950's. A few years ago golfing magazines began to advertise copper bands for sale, quoting movie actors and professional golfers on the effectiveness of this cure.

Other believers have placed pennies in the bottom of their shoes and a few wear copper rings. Dr. Helmar Dollwet, a biochemist at the University of Akron, believes that there "may be a scientific basis for those wearers...." But this has not been proved at this time.

### Warts

Of all the ailments of man, warts seem to have invited the most imagination as to cause and cure. It is commonly believed that they come from handling toads. Medical science says they are viruses and cannot yield to folk cures. However, in my files (which are far from complete) there are 45 different cures.

In 1971 Time Magazine printed a few letters written in response to an article on warts. A California woman said she cured her warts by polishing silver daily for a week. A New York woman said to put as many knots in a string as you have warts, place under a rock, and by the time the yarn rots, the warts will be gone. A Washington D.C. Writer simply said, "Eat vegetables. It works." Another reported that after "having surgery on warts ten years ago, I decided to think the rest away. They went, all at once, in less than two weeks." Others have "sold their warts" and become free of them within a week.

### Baldness

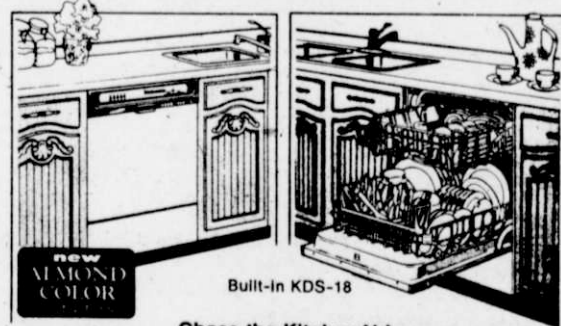

Baldness has attracted numerous cures. One barber recommended rubbing kerosene on the head. Other cures include rum and salt, axle grease, and even goose dung. A bald blacksmith, whose trainload of horses was derailed, claimed he owed his life to baldness since his head reflected the lights of a car that led to his rescue. A friend wrote this couplet in honor of the event:

"When the roll up Yonder that might be called, Frank would have been there if he hadn't been bald."

### Summary

Since illness is older than the science of healing, folk medicine came into existence to relieve pain, set bones, save lives. Using herbs and plants found around them, people developed their own pharmacopeia. Their cures were sometimes no more than superstition, sometimes the result of a process of trial and error that found tannic acid, digitalis, and a host of other drugs that medical science has taken over. There is a vast difference between curing warts by burying a dirty dishrag under the eaves at midnight and applying hemlock bark to burns. Even a warm onion poultice increased blood circulation and did some good, although its smell drove people out of the house.

### 6th District Assembly Not for Sale: Rusch

Pat Rusch, candidate for Assembly in the Sixth District, speaking today, said "The Sixth District Assembly is not for sale to the special interest groups. As of October 3, my opponent had received campaign contributions from 20 special interest groups, accounting for 86% of the money he's raised."

Rusch continued, "I deplore this and wonder how my opponent can not be biased in his voting in the Assembly, when he is beholden to the interest groups who have financed his election campaign. I believe the people of the Sixth District want an independent person in the Assembly, free from the pressure of the special interests, and my candidacy stands for just that."

Rusch concluded, "My campaign has been financed by the people of the Sixth District; I have had hundreds of contributors. My opponent, on the other hand, has had only five people from the District contribute to his campaign. The choice in this

election is clear; shall the people of the Sixth District elect the next Assemblyman, or will the special interests maintain their control over the Sixth District Assembly seat?"

### Sky Shows at UWVC Nov. 6, 13

Star Clusters, the Andromeda Galaxy and a full moon are the sights to behold in the sky during the two scheduled November skyshows at the University of Wisconsin Center-

Washington County observatory. Open to the public on the 6th and 13th of November, beginning at 7:30 p.m., the skyshows are free.

Dr. Michael Cahill, astronomer and physicist at UWVC will point out the star cluster Pleides. First observed by the Ancient Greeks, this is the astronomical mystery also called the "seven sisters." Stargazers can also feast their eyes on the Andromeda Galaxy which features some 200 billion stars.

Cahill reports that viewers will also be able to see the moon in the first quarter on the 6th

and almost a full moon on the 13th.

Visitors should dress warmly as there is usually a strong wind at the hillside observatory. Children are welcome and the program should last one hour.

## Win Regional, Sectional

### Kewaskum Girls to Run at State

The Kewaskum girls and Dick Kleinmann qualified sectional cross country competition as the result of their placings in last Tuesday's regional at Mishicot.

While the Kewaskum boys were not expected to place high, one of the runners, Dick Kleinmann, came up with his most determined effort of the year. Kleinmann placed second and stayed close behind Random Lake's Brooke White most of the way, to advance to the sectional as an individual. His time was 16:33, while White was nine seconds out front with a 16:24.

For Kewaskum, after Kleinmann, the next best finish was Todd Rodenkirch in 34th place.

As expected, the Indian girls had little trouble taking first with 18 points. Only three of 11 schools had full teams. Following Kewaskum was Campbellsport with 43 points and Reeds-

ville 81. The Indians' Barb Wilson, only a sophomore, won the race with a 13:15. In the team scoring (although two individuals took second and third) Laurie Wilson had 2nd, Julann Zemlicka 4th, Mary Kougl 5th and Sheri Squier 6th.

The Kewaskum girls went on to qualify for Saturday's state

meet in Madison by battling over seven opponents to also win the sectional at Fond du Lac Saturday.

The Indians had 33 points to best the sectional Athens with 57. Campbellsport was fourth with 115.

Little Barb Wilson again took honors in 12:26. She battled Brillion's Betsy Kocourek for better than a mile and a half before Barb took the lead and held it.

Soph Julann Zemlicka, with a 13:10, came in 9th place (4th). Mary Kougl had a 13:20 good for 11th (6th). Laurie Wilson came in 13:30 and Sheri Squier in 13:39 for 16th and 18th respectively. Tracy Coulter and Laura Asch finished 20th and 32nd.

Skwager, which has beaten Kewaskum on occasion this year, will also be in the state meet, having also won their sectional at Madison Memorial.

### Indians Drubbed by Mayville, 46-6, to End Winless Season

A long football season came to an end for Kewaskum last Wednesday night at Mayville where the Cardinals won in a waltz, 46-6, leaving the Indians without a victory for the season and alone in last place in the Scenic Moraine with 0-7.

Kewaskum's only consolation was a pre-season win over North Fond du Lac, 22-14.

In a game for all the marbles Saturday, once-beaten Grafton decisively defeated previously undefeated Pewaukee, 26-0, to gain a tie for the conference championship.

Mayville recovered four Kewaskum fumbles and had six different players score in their rout of the Indians. Brian Woik, a 6-0, 180-pound senior running back and linebacker, had an outstanding game for the Cardinals, scoring two touchdowns and making 15 tackles. Scott Stellmacher scored one TD and carried 13 times for 103 yards.

With Mayville ahead 6-0 after a bad snap from center set them up on Kewaskum's 11 yard line, which led to the first score, the Indians staged their best drive of the night early in the second quarter. Kewaskum moved from its own 41 to the Cards' 10 yard line. An offside penalty gave them a second and goal on the five. Fullback Mike Pettit carried to the two but on fourth down quarterback Joel Herriges was smeared for a 15 yard loss.

This goal line stand seemed to give Mayville added fire. They scored on a ten play, 83-yard scoring drive with Woik going the final seven yards.

On the next series, another bad snap on a punt gave the Cardinals the ball on Kewaskum's 31. With seconds remaining in the half, quarterback Dale Spars completed two passes to Lucky Wurtz, then hit Woik with an eight yard pass for another six points.

In the second half a Herriges fumble set up another Card short scoring drive of 12 yards.

Mayville scored once more in the third period and again in the fourth before the Indians got on the board.

The Indians' score came when Herriges broke loose on a 30-yard option run. A 15-yard pass from Herriges to Pettit plus two 15-yard penalties helped the Indians in their drive.

For some uncalled for reason, Mayville brought in their first string quarterback, Spars, to throw a 34-yard pass to set up their final TD. Spars was 9 for 14 in passing. Herriges, rushed hard throughout the game, was two of ten and had one intercepted.

Kewaskum was held to 89 yards running and Pettit, who had better than 100 yards in each of the Indians' last three games, was held to 48 in 17 carries.

### Indian Girls Win Volleyball Regional

Kewaskum's volleyball girls had little trouble getting past Horicon in sub-regional play of this year's state volleyball series at Horicon last week.

The Indians won the first two games, 15-5 and 15-11, to advance to this week's regional action.

The Class B regional was held Monday evening in Kewaskum beginning at 6 p.m. Teams involved were Dodgeland, Lomira, Campbellsport and Kewaskum.

Kewaskum won its own regional and will go on to sectional competition this Saturday, the last step before the state tournament.

The Indians won five of the six games played in the regional here, with their only loss coming against Lomira. Campbellsport finished second, winning four games while losing two.

The format in the regional has each of the teams playing

two games against all the other three, and the team ending up with the best win-loss record is declared the winner.

Kewaskum defeated Campbellsport 15-2, 15-3, split with Lomira 15-9, 11-15, and won over Dodgeland 15-10, 15-5.

Serving was a strong point in the Indians' regional victories. Coach Mary Lawson praised Janet Matenaer, Tami Edgar and Pam Kempf for leading the serving attack. Kempf also did some effective spiking.

Kewaskum was hoping to host the sectional but the decision was not to be made by the WIAA until the middle of this week.

### YMCA Basketball For Boys Starts Nov. 4 at Middle School

Teamwork. Sportsmanship. Fun. They're all part of the Kewaskum YMCA boys basketball program at Kewaskum Middle School gym starting on Saturday, November 4.

Boys basketball is open to any boy age 8 to 12 and is divided into two age group categories. Registration for all boys will be at 10:00 a.m. on Saturday, November 4, at the Kewaskum Middle School gym. A clinic for both age groups will be held at 10:30 a.m. until 12:00 noon.

Beginning November 11, we will meet in assigned age groups: 8 and 9 year old boys 9:00 a.m. to 10:30 a.m. and 10, 11 and 12 year old boys 10:30 a.m. to 12:00 noon. These programs are designed for boys and girls regardless of their athletic ability. The basic fundamentals of basketball are stressed with teams being formed and games played. Each boy will receive a YMCA T-shirt and should wear tennis shoes in all games. All other equipment is supplied by the YMCA. (Dads, your community children need You! Can you volunteer some time for youth?)

Further information can be obtained by calling the YMCA office at 334-3405.
