## Teacher Negotiations Head Toward Arbitration

By GERRY MUELLER  
Statesman Staff Writer

For the second year in a row, the Kewaskum Education Association and Kewaskum School District will see contract negotiations go down the arbitration trail.

After a stalemate over several issues last Monday, bargaining between the two sides broke down. A state investigator determined, at last week's session, that neither side was willing to relax their demands in an effort to resolve the contract.

At spring negotiations, the KEA had asked for a 15% increase and fringe benefits. The district had presented a "no-increase" package. The district's final offer at last

week's session was an 11.4% increase plus fringe benefits for a total package of 11.7%. The KEA presented a proposed 11.8% salary increase with fringe benefits for a package increase of 12.4%.

The Kewaskum administrative staff has already accepted contracts in the same general increase range as those which were turned down by the teachers at last week's meeting.

A major stumbling block in contract talks is contract length. The district is proposing a one-year contract, while the union wants a two-year contract which would include a "cost of living adjustment" in the second year. KEA representative Bob Getter said Monday evening that this was a major point in negotiations. Getter noted the teachers attitude was one of frustration knowing they will probably have to go to arbitration every time their contract comes up, resulting in their working almost the entire year without a new contract. Going to a two-year pact would resolve this problem to some extent. The teachers have been working without a contract since June 30.

Other contract issues include school calendar and mileage reimbursements. Dennis Eisenberg, Director of Cedar Lake United Educators Council, who represented KEA during last year's arbitration sessions, noted it could be early spring before the teachers have a contract, possibly as late as March. Last year's arbitrated contract was not settled until February.

## Fire Destroys Alois Beisbier Insulation Plant

Fire of undetermined origin, destroyed the Alois Beisbier insulation plant in the Town of Ashford early Wednesday, September 9, and tons of newspaper, used for making insulation which was stored inside. Beisbier, of Kewaskum, operates the insulation business along with his Kettle Moraine Electric Store in Kewaskum.

The Campbellsport Fire Department was called to the Beisbier property on Memorial Drive in the Town of Ashford at 5:00 a.m. Fire Chief Thelen summoned the Lomira Fire Department to assist.

Between 200 and 300 tons of baled newspaper were stored in the 100-foot building which was covered with metal siding. Beisbier, said the newspaper is shredded and treated with fire retardant chemicals before being used for insulation.

Workers were in the building until midnight Tuesday. Both ends of the barn were burning when an employee arrived at 5:00 a.m. Wednesday.

Firemen hauled water from Campbellsport and pumped water from a nearby pond to extinguish the blaze.

Chief Thelen called the Fond du Lac County Sheriff's Department to help with the investigation into the cause of the fire.

A backhoe was used to pull the barn apart and remove the burning newspaper bales, which firemen hosed with water.

The barn was listed as a total loss and most of the newspaper was either burned or water-soaked. Firemen remained at the scene most of the morning.

Beisbier had no estimate of the damage and he and his wife met with the insurance company on Wednesday, September 16. Their plans are indefinite at this time.

## Local Fire Call To Malting Plant

Local firefighters were called to the Great Lakes Malting Corporation plant in Kewaskum at 7:30 p.m. last Thursday.

According to Fire Chief Augie Bilgo, sparks from a welding torch ignited dust in a vent tunnel. The sparks were blown out of the vent exit and were noticed by a passerby. The fire department was called to extinguish the smoldering fire. There was no damage to the building.

## Foreign Students Arrive at Kewaskum High School

Left to right: Kilouko Yamada, Linette Martinez, and Helena Cordeiro.

Two A.F.S. students have arrived at Kewaskum High School for the coming school year. Helena Cordeiro comes to Kewaskum from Amadoro, Portugal, and Linette Martinez from Aguadulce, Panama. The girls will live in the Kewaskum community and attend classes at the high school.

Helena will live with the Carl Plaum family while staying in Kewaskum. Her interests are in cooking, music, swimming and judo. She is anxious to learn about our culture and to learn a new language.

Linette Martinez will be staying with the Roman Loof family while in Kewaskum. She lists many interests, but her favorites are drawing, sewing and reading. Linette is pleased with Kewaskum and the students and teachers. She too is looking forward to learning about the U.S.A. and its language.

Both girls will be available for speaking engagements in the community during the second semester.

Kewaskum's third foreign student is Kilouko Yamada. She comes to K.H.S. under the Youth for Understanding program. Her hometown is Kobe, Japan, population of 1.3 million. Kilouko is staying with the Craig Warnecke family while attending K.H.S. for the year. Her stateside sister is Angela Jabusch, a sophomore at K.H.S.

Kilouko is taking a regular class load of subjects at K.H.S. and is also on the JV volleyball team. Her interests are in painting, drawing and baseball. The school community extends their welcome to these students and hope they have an enjoyable experience while in the Kewaskum area.

## Turkey Shoot Sunday

The Kiwanis Club of Kewaskum has announced that its 29th Annual Turkey Shoot will be held on Sunday, September 20, at the Bar-N Dude Ranch, 6 miles northeast of Kewaskum on County Trunk GGG, the beautiful Kettle Moraine Drive. Thousands of people joined us last year with 515 shooters winning fine frozen turkeys.

For a fee of \$2.50 for four shots (four shots for \$2.00 on advance sale tickets, which may be ordered from Kiwanis Club of Kewaskum, Box 68, Kewaskum, Wisconsin 53040), the marksman attempts to win a frozen turkey. There are special lines for ladies and children.

Rifles and ammunition are furnished.

There will be trout fishing with the angler keeping the fish he catches. In addition, there will be a grand prize for the person catching the largest fish.

Trap shooting contests are conducted throughout the day. Sportsmen desiring to enter these events may bring their own shotguns and ammunition. There will be archery and pistol ranges, as well as other marksmanship contests. In addition, there will be games for every member of the family. Brats, hamburgers, hot and cold beverages will be available.

### Reception Given for Reverend Joiner

On Sunday, September 13, the members and friends of Peace United Church of Christ in Kewaskum, honored their pastor, Reverend Darrell Joiner, for his five years as their pastor and ten years of Ordained ministry.

This Reception followed the Family Worship service with an opening welcome by the church president, Allyne Rodenkirch. The Children's Choir sang several songs under the director of Cheryl Ammel. Phyllis Bade read a letter of appreciation from the members of the Women's Guild. Larry Ammel directed the Chancel Choir in the song, "Celebrate." Mrs. Rodenkirch then presented, in behalf of the members of the church, to Pastor Joiner, an engraved bronze plaque commemorating his ten years of Ordained ministry and a love offering check. A special word of support and appreciation for the pastor's ministry was read by Ned Sengpiel, a member of

the governing Consistory board. Closing remarks and a benediction was given by Reverend Joiner.

Following the program, Mrs. Vange Teeselink and members of the Women's Guild served and prepared the food for this party of finger sandwiches and beverages, and several decorated cakes had been prepared for this occasion.

Reverend Joiner received a religious plaque presented to him from the Board of Christian Education; a representative of the Youth Fellowship presented a letter of thanks; and a red clergy stole, along with many cards and expressions of gratitude was given to him.

## High School Students to Build Flammable Liquids Storeroom

By GERRY MUELLER  
Statesman Staff Writer

The high school building trades class has been given permission by the Department of Industry, Labor and Human Relations, to construct a "Flammable Liquids Storage Room" in the high school.

Business Manager Bob Borch informed the School Board Monday evening that because of the high construction cost, the DILHR had given the district an extension until this fall to do the work. The room is a state safety requirement.

After receiving approval by the DILHR Building Inspector, David Stradtman and his class reviewed the state approved building plans and found they will be able to construct the storage room for a materials cost of approximately \$2,200. Borch told the board that initially, the district felt it would have to go to an outside firm to do the work. This would have resulted in a cost of over \$4,400 to the district. The board approved releasing funds for purchase of the building materials.

The board also approved two repair contracts. One contract covers tuckpointing, caulking, coping and miscellaneous repairs at the high school in the amount of \$7,048.00. The work will be done by Holton Brothers of Cedarburg. The second contract for \$2,120.00, went to the Pukall Company, Germantown, for repairs and restoration of stone trim on the south side of the elementary school. Pukall will remove deteriorating cement caps and replace them with finished aluminum caps on existing windows. Complete replacement of windows and caps would have cost an estimated \$6,700. Borch told the board that this repair exceeded budgeted funds, however, there was additional money available as a result of the \$2,200 saving from the \$4,400 which had been

set aside for the Flammable Storage Room. Some money will also come from energy saving funds, as repairing these areas would result in heat savings.

School Board member Richard Theusch commented after the repairs approval, that he had heard the Slinger School District had done "a heck of a job on energy conservation measures" such as removing and closing up window areas, etc., and he felt it might be worthwhile to go over there to check out the schools to see if Kewaskum could pick up some energy saving ideas.

In other action, the board approved purchase of a Vertical Camera for the high school Graphics Arts Department at a cost of \$2,450.00. Assistant High School Principal Roy Esser noted the present camera had been purchased secondhand years ago and was old and obsolete. The board also approved purchase of a "demonstrator" Conn baritone horn as a replacement instrument for the middle school music department. Bob Getter informed the members estimated life expectancy on such an instrument is seven to eight years and the school has been using the present instrument for ten years.

The board approved the following changes in teaching assignments: Dan Wangerin will serve as yearbook advisor replacing Linda Herrera. Dan Beske and John Stephani will replace Shary Witte on intramurals. They will be dividing her assignment each receiving

20 hours. A teaching contract at step 16F was approved for Ken Erickson, plus \$1,550 additional, for duties as teacher in charge at Beechwood School. An administrative contract of \$13,124 plus \$250 for added duties at Beechwood was approved for Farmington Principal Tom Larsen. The board also approved the appointment of David Wieter as head of the Counseling Department.

In other business, the board accepted a recommendation to sell two vehicles, a 1968 Buick and 1965 Ford, and several manual typewriters on bids.

Gene Bohn, of Kettle Moraine Agency, appeared before the board to discuss several questions on insurance. The board tabled action on these recommendations until its next meeting.

Bob Borch presented the first reading on the school lunch policies. He noted there will no longer be any "free" milk given at any of the schools. All milk must be purchased either as part of the lunch or in addition to lunches. Borch also noted that starting this semester, all applicants for free and reduced lunches will be screened before approval. All parents will be required to complete the application and provide documentation that they are eligible for the reduced lunch program. The school is required to spot check at least 10% of the applicants. However, Borch noted that screening all applications would avoid any problems as to why one family's application was screened and another was not.

The board then adjourned to closed session.

## Letters to the Editor

Sept. 16, 1981  
To The Editor:

A letter in your paper two weeks ago questioned the presence of the district administrator in the meeting at which the board was discussing administrative salaries. A letter last week questioned my writing to you in reply to some previous comments in your paper. A better understanding of the situation and of the position of superintendent might answer some of these questions, and that is why I'm writing again.

First, a couple of comments. 1) My salary was not being set at the meetings referred to. My salary for 1981-82 was set by the board a year ago. 2) The chief executive officer of a school district or a business certainly should not be excluded from meetings and it should come as no surprise that he/she would be active in communicating about that school or business.

For the rest of this letter, I'd like to quote a couple of sources. First, Kewaskum School Board policy 2222.2 defines the duties of the superintendent. One section says the superintendent shall "Attend all meetings of the Board unless excused at his request or if requested by the Board when his own salary or efficiency is being considered."

The rest of these quotes come from a publication of the Wisconsin Association of School Boards called Opportunities Unlimited. When this book talks about the administrator, they mean the superintendent.

"As executive officer of the board of education, the administrator should attend all meetings of the board."

"As professional advisor to the school board, the administrator should be expected to contribute his thinking to the board's discussions and deliberations."

"The administrator, with the help of his professional staff, is responsible for the actual operation of the schools."

The administrator should also be involved in policy, as one of the duties of the administrator, as listed in this publication, is to "Recommend policies for adoption by the board."

As with the chief executive officer of a business, the school superintendent should be involved in all aspects of the school district operation.

Sincerely yours,  
Floyd A. Brenholt  
Superintendent

Dear Editor:

I am the mother of a kindergarten student who goes to the afternoon class.

I wish to express by deepest gratitude to a nice lady - Mrs.

Patty Coulter and a warm thank you. This lady has made at least one mother's day a little less worrisome by her concern over these kids. It's really nice to know she's at her corner to get these kids, whom she knows all by name, across the street and a lot of time all the way up to school. The first week was not the easiest, she waited at the other side of the railroad tracks to make sure our kids got across without getting hurt. I know a lot of people will say, "well that's her job;" it still makes me feel better knowing she's there waiting for my child. For her big heart I'd like to say thanks to her, it would be nice if other parents did, too.

I hope you print my letter, she deserves recognition, as does Mrs. Esser. Thank you for your time.

Mrs. J. L.

## BLOCK PARENT

Chief Kewaskum

### Jr. Women Block Parent Program

The Kewaskum Junior Woman's Club is again sponsoring the block parent program which is designed to give refuge in case of emergency to any person in trouble. It is designed especially for grade schoolers on their way to and from school. The program will also be in effect during the summer months.

The block parent will display a bright green and white picture of "Chief Kewaskum" (as shown above) in their window. Every street within the village limits should have a block parent.

The club urges all parents to inform their children to seek shelter in case of injury or if a stranger approaches, etc., at homes displaying "Chief Kewaskum."

Block parents are always needed where the safety of your children is concerned. If interested in participating, please call Mrs. Jane Jansen, 626-4733.

## PSAT/NMSQT Exam Scheduled At High School

Guidance counselor Dave Wietor, at Kewaskum High School, has announced that sophomores, juniors, and some seniors will be able to join over one million other students around the world in taking the Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test (PSAT/NMSQT) this fall. The test, co-sponsored by the College Board and National Merit Scholarship Corporation is an

important step in making college plans.

Scheduled for October 27, at Kewaskum Community High School, the PSAT/NMSQT measures verbal and mathematical aptitude - two abilities important in doing college work. The test can also lead to other opportunities for high school students.

By taking the PSAT/NMSQT, students can enter the competition for scholarships administered by the National Merit Scholarship Corporation and can get a good idea of what the Scholastic Aptitude Test (SAT) is like.

Along with their score re-

ports, students will receive a copy of About Your PSAT/NMSQT scores, a booklet that contains valuable how-to information about: Estimating SAT scores; finding out where to get and how to use detailed information about colleges and financial aid; and planning for financing a college education.

Students can also use the College Board's College Handbook to compare their scores with those of enrolled students at more than 2,800 colleges and universities.

There is a \$4.25 fee required for taking the PSAT/NMSQT exams.

A vitamin E rich diet can help protect the lungs from the effects of noxious air pollutants, such as ozone and nitrogen dioxide, reports Dr. D. Menzel of Duke Univ. Medical Center.

It may offer a prevention of emphysema and other chronic lung diseases that are environmentally triggered. Vitamin E may act as an antioxidant, preventing the damaging effects of oxidation within the lungs, which is partly caused by inhaling air-borne pollutants.

Burglars entered A. G. Koch's store early last Saturday morning and robbed the money drawers in the store and post office of about \$10 in change. The burglars entered the store through the front by breaking a pane of glass. Some goods in the store were turned over but Mr. Koch does not think that

anything else was stolen. The sheriff was notified but no trace of the thieves was found.

Quite a little excitement was created here last week Friday evening when a fire was discovered in the barnyard formerly owned by Dr. Lambeck. The alarm was given by the ringing of the fire bell and blowing of the malt house whistle at about 11 p.m., and in a short time nearly the whole population of the village was aroused from their slumber. The fire was caused by some oily rags thrown on a manure pile. There was no damage done to the barn except scorching one side of the building.

# Teachers Share View of New University of Wisconsin-Washington County Facility

Tom Brigham, athletic director at the University of Wisconsin Center-Washington County, is delighted with UWWC's new athletic facilities. Several athletic events will be highlighted on the gymnasium floor during UWWC's dedication scheduled October 11.

The underlying feelings of many of the faculty at the University of Wisconsin-Washington County after, "At last!", is the joy in the new facility. This was especially evident after discussing the changes at the UWWC campus with Professors Albert Asch, music; Carl Barnhart, communication; Tom Brigham, physical education, and Tom Gross, art.

"I couldn't be more pleased with the facility," commented Gross. "It certainly is much better than what we had," he added. Previous to the campus completion Gross held all of his sculpture and ceramic classes in a basement room with 9 foot ceilings, poor ventilation and minimal work space. "We will now have room for our equipment, to store projects in the working stage and proper lighting for art projects." He points with pride to the room for the soon-to-be-ordered kilns, the

long counters and storage shelves, and the wall controls for the varied lighting. "There are outlets where we can use them, and we will now be able to do our own burnout for bronze castings, which previously we have to transport to UW-M. I couldn't be happier. It has kept my spirits up," concluded the artist.

Carl Barnhart is not really moving into a new facility, but rather will now have more use of the Theatre, which, up to this time, was used more as a classroom than it was a theatre. "The Theatre will now be adapted specifically for dramatic presentations. Before we had to set up for music, take down, set up for classes, set up for films. It was impossible to have more complicated sets because we had to continually take them down to make room for classes," noted the director of the Theatre on the Hill production.

"We can also use the theatre during the day for special

rehearsals and stage work. Because of continual classes we couldn't use the theatre until late evenings and weekends. Most time we had people coming in and working on sets from 9:00 p.m. to midnight. We were rehearsing from 5:00 p.m. to 9:00 p.m. This will allow more students to participate. Many could not return to the campus late at night. Now we can schedule work sessions during the day and the students can come in during their free hours."

No other classes will need to be scheduled in the Theatre. In the past, history, music, chorus, guitar, all speech classes, and private piano lessons were held there. "This was probably the most used facility on campus," Barnhart noted. "Now with classes out of the Theatre we can schedule more special lectures, and fine arts events during the week. In fact, for the new school year, just about all Friday nights are taken with fine arts events, movies, students activities and my play."

Music professor Albert Asch commented that "facilities don't improve the quality of education. We have always had quality education here since the center opened in 1968. But now we will have facilities that will attract the new students and alleviate some of the stress from overuse of the same room." Asch also noted that scheduling will not be as chaotic because of the extra space. "Students will have practice rooms and it will be easier for us to get our work done, without all the moving and rearranging that we had to

do in the past."

Will the space mean more programs? Asch commented, "Not right in the beginning because we don't have added staff. But in the long run we will be able to initiate new programs. One nice feature will be that the Community-University Orchestra will be able to come home." The orchestra has been meeting at Badger Middle school for the past 10 years.

"Now I can finally invite area music teachers up to the music department to see our facility. That could never be done before! We never had a music department!"

For athletic director, Tom Brigham, who has faced 13 years of teaching health and directing athletic program without a facility, the new multi-purpose gym is a dream come true. "This should have been a total part of the package in the first place," said Brigham. "Some courses needed for professional careers in physical education and recreation need to be offered in a gym. With the tight space locally and rising cost of rentals, it was becoming impossible to be able to offer those courses." Brigham noted that this gym was not needed just for the athletes. "We don't need this facility just for athletics. I could never say that. But when you talk about physical education on all levels, then this

space becomes vital to the campus. Add to that the professional programs, the student life and activities, then the term 'multi-purpose' really gets important. Many different organizations on campus will use this facility."

How does it feel for an athletic directors to finally have a gym after many years? "Oh I'm excited and enthused, but I always am at the beginning of every semester. The ones that are the most thrilled are all the sophomores. After all, they know what it's like without a facility and they will really see the change. The freshmen won't know the difference because they have come from schools with such facilities."

The public will be able to meet these four professors and tour all the facilities at the open house and dedication ceremony on Sunday, October 11. Tours will begin after the 1:30 p.m. program.

# Fumble in Last Minute Very Costly to Indians

A fumble on the Cougars' four yard line on first down and 1:19 left on the clock in the final quarter probably prevented the Kewaskum Indians from scoring the winning touchdown and Campbellsport squeezed out a 12-7 victory in non-conference action here Friday night.

The Cougars were hanging on to their slim lead with about 2½ minutes left when the Indians got a drive going from their own 39 yard line. They moved the ball to Campbellsport's 40 and then quarterback Ric Leitheiser connected with end Brian Larsen on a 28-yard pass giving the Indians a first and goal from the four. Larsen had crossed the goal line but was called out of bounds on the four.

Before a Parents Night crowd the Indians were certain they could score from the four in four downs. But on the first running play fullback Jim Krahn had trouble with the handoff and line backer Bill Dwyer of the Cougars recovered the fumble. After Dwyer saved the day, Campbellsport ran out the clock for a miracle win after having their backs to the wall.

The Indians scored first in the game as all the points were scored in the first half. Four minutes into the first quarter Krahn intercepted a Mark Rohlinger pass and raced 18 yards into the end zone. Larsen's kick made it 7-0.

The Cougars took the ensuing kickoff on their own 31 and on some hard running by Andy Cochran, Rich Narges and Rohlinger, made six first downs. However, a penalty stalled the drive.

The Indians then picked up one first down but Dave Donath fumbled and Cochran recovered on Kewaskum's 12. Two plays later Cochran scored from the three. The try for extra point on a run was no good and the Indians led, 7-6.

Bumbles, fumbles. On the next series it happened again. This time Scott Stoltzmann coughed up the ball and Pat Whitty recovered on the Kewaskum 35. After a few plays Cochran went eight yards for what proved to be the winning score.

Campbellsport played well in the first half and outgained the Indians by a sizable margin with

neither team completing a pass. But the momentum switched to Kewaskum in the second half. But costly fumbles and penalties hurt and these mistakes no doubt kept the Indians from scoring and winning. Two more fumbles in the second half turned the ball over to the Cougars. Penalties also handicapped Campbellsport and neither team threatened until the final Kewaskum drive when the Indians would have had time for more plays. The win gave the Cougars a 2-0 record, while Kewaskum, which won only one game last year, is now 0-2.

In other games involving some Eastern Wisconsin teams, Little Chute defeated Kiel, 21-6; New Holstein bested Kewaunee, 16-6, and Sheboygan Falls won over Berlin, 24-8.

This Friday night the Indians open conference play at New Holstein in a 7:30 p.m. contest. The Huskies again appear strong as they won their first two non-conference games handily.
