Kleinhans Leaving to Accept Top Menomonie School District Post

District Administrator
Penny Kleinhans

By GERRY MUELLER
Statesman Staff Writer

Administrator Penny Kleinhans advised the Kewaskum School Board Tuesday night that she is resigning to accept

the position as district administrator of the Menomonie Area School District.

In a formal letter addressed to president Ralph Horner and submitted at the special meeting, Kleinhans advised the board that she will be ending her tenure with the school district effective June 30, 1988. Her letter states the new position "offers significant career enhancement as well as a challenge to her administrative abilities."

In her letter Kleinhans stated, "during the past three years much has been accomplished. We have succeeded in bringing the tax rate for school purposes down to 1984 levels while at the same time instituting many beneficial educational programs for our children, our greatest resource." She said she was

indebted to those fine board members, both past and present, who had the courage of their convictions.

In her new position Kleinhans will oversee the Menomonie School District which is somewhat larger than Kewaskum. It consists of eight elementary schools, one junior high school and one high school. Menomonie, which has a population of about 13,000 people, is also the home of the University of Wisconsin - Stout.

Kleinhans has signed a three-year contract which begins July 1st. She will be replacing the district's current superintendent who is retiring.

Kleinhans has been employed by the Kewaskum School District for the last three years. She replaced former superintendent John Long.

Board Approves Wayne School Reroofing Bid

By GERRY MUELLER
Statesman Staff Writer

At a special meeting Tuesday evening, the Kewaskum School Board voted to accept the recommendation of its engineering firm, Bray and Associates, to hire low bidder JT Roofing, Inc., of Saukville, to re-roof the Wayne Elementary School.

JT's bid of \$41,876 was the lowest of ten received by the district. The high bid of \$75,400 came from Fobes Roofing of Lodi.

Board member Clara Trapp questioned whether or not the district was required to accept the lowest bid. Buildings Superintendent Fred Boehlke said the district was not. Board member Ron Beimborn indicated his concern as to JT's ability to handle the job. He said he was inclined to go with the second lowest bidder, Dehling-Voigt, because it was a larger and more well-known company. Dehling-Voigt's bid was \$43,665.

Boehlke told the board that JT had done work for the district previously. They had worked on the Kewaskum Elementary School roof. As for being able to handle the job, said Boehlke, they are presently doing the roof work on the new J.C. Penney store at the mall in West Bend.

On a 4-1 vote, the board accepted the low bid of JT Roofing. Board members Ralph Horner and Donald Nowak were absent.

In other business the board discussed the proposal of Gremmer-Bablitch, Consulting Engineers, to furnish engineering services in connection with planning for future athletic facilities upgrading.

Their letter was in response to a request from Boehlke to provide updated engineering costs on both a complete outdoor athletic facilities study and report, and figures on the tennis courts alone. Boehlke's request was made on direction from the Finance - Transportation - Buildings and Grounds Committee at its last meeting.

Gremmer-Bablitch's proposal for a master plan which covered all the outdoor facilities except the tennis courts was \$10,800. If the district were to go ahead with the engineering for the tennis courts in conjunction with the master plan, that would cost an additional \$4,900 (\$1,000 less than doing that engineering alone) for design and bid work plus fees not to exceed \$2,900 for overseeing the construction phase of any tennis court work. The new

proposal reduced the tennis court costs from Bablitch's December, 1987 bid of approximately \$6,900.

Board member Neal Weare noted that three years ago there had been some discussion on moving the football field but there had been no follow-through. After hearing the figures, board member Ruth Schmitt said, "I just can't see that we can make that kind of a financial statement at this date." Weare said he would like to see more figures. He was also concerned about how the governor's proposed cost controls would affect the district if they were to go through.

Business Manager Cherna Gorder indicated preliminary figures show, if cost controls were enacted, the district's budget would already be over by \$160,000.

Board member Perry Ankerson said, "I don't hear anyone in the community talking this up so I think we should put it (all the engineering plans) on the back burner." On a 5-0 vote, the Board moved to defer any action on the proposal.

The tennis courts again came under discussion but this time it was to consider some form of repairs. Trapp brought in a copy of a bid received last year from Fahrner Asphalt Sealers, to put down two layers of sealer which would supposedly alleviate some of the water puddles and seal cracks.

Weare noted he could not see spending approximately \$5,000 for work which the contractor would not guarantee.

Boehlke said part of the court's problem was water drainage. He indicated, to eliminate the problem, some water control construction would have to be done. He said, however, that Fahrner indicated they would not do that portion of the work and that it would be up to the district to do it or have

Governor Approves \$857,000 Contract

WIS 144 to Be Resurfaced, Widened From West Bend to Boltonville

Governor Tommy Thompson has approved a \$857,000 contract to resurface eight miles of WIS 144 between West Bend to the north county line in Washington County, just north of Boltonville.

The contract was awarded to Edward Kraemer & Sons, Inc. of Plain to widen the roadway, pave the shoulders, improve the intersections, upgrade the beam guard and increase the payment banking of some curves, according to Harvey Shebesta, director of the Department of Transportation's Waukesha district, which includes Washington County.

"The pavement is narrow and rough on this stretch of highway," said Shebesta. "In the last three years, the accident rate has jumped up considerably."

The highway will be widened to 24 feet with 6-foot shoulders, three of which will be paved. Paving the shoulders gives motorists more room to maneuver in emergencies and a safer area for driver pull-over. It also makes the entire road last longer by moving the payment edge - which is more susceptible to wear and tear - a little farther from traffic.

The pavement banking on some curves will be increased, so it's easier for motorists to maintain control of their cars as they make the turns, said Shebesta.

The intersections will be

upgraded to provide longer turning tapers for safer exits and entries onto WIS 144.

"The highway will be resurfaced with recycled asphalt," explained Shebesta. "It is a process that involves grinding up the old surface, mixing it with new material and reapplying the mixture as a new road pavement. Recycling saves money because it requires less oil and gravel than does a completely new surface."

WIS 144 carries recreational traffic into the Random Lake area and Lizard Mound State Park. It also serves as a link to Highway 28 and Sheboygan County.

Construction will begin this spring and be completed by late summer. During the recycling

and paving operations, traffic will be restricted to a single lane in the work area. The road will be closed from WIS 84 to the north county line - about one mile - for 7-10 days while a culvert is installed at the Bolton Brook crossing. Traffic will be routed over WIS 84, County X and County XX.

REMINDER... Early Release of Schools Monday

There will be an early release for the Kewaskum Schools on Monday, May 2. The Middle School and High School will be released at 11:00 a.m., and the Elementary Schools at 12:00 noon.

Kewaskum Frozen Foods Recipient Of Two Awards at Convention

Kewaskum Frozen Foods again won two awards for their meat products at the Wisconsin Association of Meat Processors Annual Convention at Lake Geneva on April 15, 16 and 17. They received awards for their homemade skinless wieners and ring bologna. There were 759 product entries from seventy processing plants.

Dave Nigh, co-owner of Kewaskum Frozen Foods and Alan and Cindy Schickert, both employees of the plant, attend-

ed the convention. Alan, who is assistant sausage maker, was quite pleased with the award. Bob Beisbier, the other co-owner, stayed home "to mind the store."

The Wisconsin Association is the largest meat product show in the United States and the convention attracts participants and suppliers from all over the United States.

Dave states there will be a sale on these prize products in the near future.

Beechwood Rest Home Begins Expansion

Formal groundbreaking ceremonies were held Thursday, April 21, for an addition to the Beechwood Rest Home. When completed, the nursing home's present residents will be transferred to the new wing. The present 26 bed facility will then be renovated and made available for retirement living quarters for elderly people who do not need nursing home services but are no longer able to maintain a residence of their own. That facility is anticipated to be able to accommodate 12 to 15 residents. Completion of the new wing is targeted for October 1st.

it done before their company would come in to do the sealer work.

Boehlke was asked if he had any idea as to how much the water control work would cost. It was just speculation, but he thought at least \$2,000.

The board directed Boehlke to get bids by the next board meeting. District Administrator Penny Kleinhans told the board they were giving Boehlke an impossible task in trying to get bids in less than a week. "There is no way he can get bids on all this work and get the information into your packets by Friday," said Kleinhans. "You know you chastised him at the last meeting for putting information on your desk just before the meeting started." Schmitt then moved that Boehlke try to get as much information, rather than bids, as possible by the next regular board meeting.

Under the agenda item of "Other Business," Kleinhans informed the board she has accepted an administrative position with another school district and she was resigning effective June 30th. Her formal written resignation was read and accepted by the board.

Redig Receives State FFA Degree

Steve Redig of the Kewaskum FFA has been nominated to receive the State FFA Degree, the highest degree awarded by the Wisconsin Association of FFA.

The nomination was approved at a recent meeting of the State FFA Board of Directors. According to the State Constitution, only 2.25% of the total FFA membership can receive the degree; the state membership exceeds 15,000.

Following a final vote of approval from student FFA delegates, Steve will receive the degree in a very special ceremony on Wednesday, June 15, 1988, at the State FFA convention held in Green Lake. Steve is one of the 343 FFA members in Wisconsin to be nominated for the State FFA Degree.

Steve is the son of Mr. and Mrs. James Redig of Kewaskum, and is currently attending classes at MPTC, Fond du Lac.

Is he really so very fat? Fat! Well, I'll tell you just how fat he is. Last winter he had the mumps for three weeks before he found out about it.

Governor Proclaims April 24-30 As School Bus Driver Recognition Week

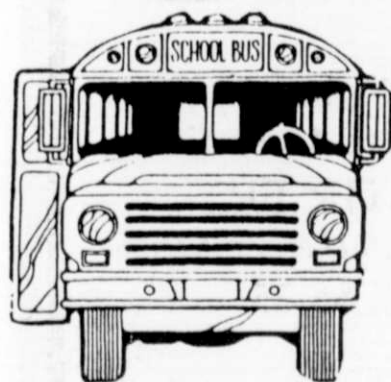

Several of Kewaskum's school bus drivers were recognized for their safety records and years of service as part of Governor Thompson's proclaimed Wisconsin School Bus Driver Recognition Week. Pictured are, from left, John Schmidt 300,000 accident free miles, Harvey Otto 320,000 miles, Betty Koehler 22 years of service, District Administrator Penny Kleinhans, Marion Berres 24 years of service, and Harold "Justy" Justman 400,000 accident free miles. Missing Jerry Campbell 20 years and 80,000 miles, and Fred Koehler, Jr. 22 years as a driver.

Assistant High School Principal Roy Esser, who works with Johnson Bus in setting up routes and schedules, also expressed his appreciation to the drivers. On behalf of the district, a snack of cheese, sausage, crackers and soda was set up for the drivers before they left for their afternoon rounds.

By GERRY MUELLER
Statesman Staff Writer

Governor Tommy Thompson has proclaimed this week as School Bus Driver Recognition Week. That proclamation publicly recognizes the work of the more than 15,000 Wisconsin school bus drivers who transport approximately 470,000 pupils over 77 million miles to

and from school each year.

Locally, Kewaskum School District Administrator Penny Kleinhans and Assistant High School Principal Roy Esser personally visited Johnson School Bus Services' Kewaskum terminal Monday to thank the 27 drivers who have transported the district's children to and from school for the past sixteen years. On behalf of the district's parents, Kleinhans extended an acknowledgement and appreciation of the caring and dedication shown by these people in their jobs.

Johnson Bus' Kewaskum drivers travel approximately 450,000 miles a year, or 2,500 miles a day, transporting students. They man twenty-one buses and three vans.

Kleinhans told the drivers their dedication to a job that can

provide both joy and stress is recognized and should be commended. She noted, it is into the school bus driver's hands mothers apprehensively deliver their children every morning and it is those same individuals who deliver them home safely each day when school ends. Kleinhans read a poem which she told the drivers, truly depicted what their jobs are really like and all about.

Several of the drivers received special recognition for their many miles or years of accident-free driving. Harold "Justy" Justman has driven 400,000 miles, Harvey Otto 320,000 miles and John Schmidt 300,000 miles without any kind of chargeable accident.

Other drivers with excellent accident-free records are,

WHAT IS A SCHOOL BUS DRIVER?

A bus driver is a person who smiles in the morning and smiles in the evening and eats Roloids in between.

A bus driver gets there when nobody else can; he finds houses, which don't exist and children with no names.

They dry tears, dispel fears, and find lost notebooks.

A school bus driver has eyes in the back of his/her head and hears every word that is said, even in sign language.

They separate the meek from the mighty - the timid from the bold, and give reassuring nods to anxious "mamas" standing at the end of their lanes.

A bus driver is the epitome of patience and perfection of skills; they also have a good understanding of human nature and Mother Nature.

A bus driver leaves before daylight and returns after dark (in the wintertime) and communes with the elements. He/she has a grudging friendship with the glaring sun, the beating rain and driving snow. They know all about dust and the geological formation of gravel.

They are immune to noise.

A bus driver's favorite words (besides "Good Morning" and Good Night") are "Sit Down".

Their favorite color is yellow.

A bus driver's worst apprehension involves five-year-olds with motion sickness - especially in the winter when the windows are closed and the heater is on.

A bus driver knows all the school songs and pep cheers. Their vocabulary is always up-to-date.

To be a bus driver, a person must be able to memorize the number of the bus garage and the superintendent's number.

They can read maps.

Sometimes a bus driver gets fired - but he/she seldom gets mad; and always, most faithfully, gets there.

Many people set their clocks by a bus driver's schedule; many mothers sit down for a second cup of coffee.

A bus driver sits at the helm of a six-to-seven-ton, \$30,000 machine loaded with 65 units of the most precious cargo on God's earth - our children.

Kathy Herriges 175,000 miles, Violet "Sam" Schmidt 172,000, Joe Sekeres and Vern Butz 100,000 miles, Jerry Campbell 80,000 miles, Irene Gnacinski and Bob Reichert 60,000 miles and Albert Wagner as driver and mechanic for over sixteen years.

Johnson Bus officials noted these were miles driven many times under adverse conditions ranging from fog to sleet, ice and snow. Many times these drivers are the first out on the roads, navigating through blowing snow down icy and drifted roads.

Bob Kirst 8, Victoria Lightner 7, Lori Heisler 7, Joe Sekeres 6, Peter Deshotels 5, Vern Butz 5, Irene Gnacinski 3, Bob Reichert 3, Earl Kleinke 1, and first-year drivers, Dan Stranke, Sue Heisdorf, Pat Soller, Richard Maki, Alvin Panzer, John Schutle, Jerome Lauters, Rocky Risse and James Gleason.

All the district's school bus drivers should be recognized for a job well done and for having one of the finest safety records in the state.

THANK YOU

I want to express my sincere thanks to relatives, neighbors and friends for the cards, flowers, gifts, phone calls and visits while I was a patient at St. Joseph's Hospital. Also thanks to Pastor Reehl for his prayers and visit; your kindness was very much appreciated.

Letters to the Editor
Kewaskum Statesman

Kewaskum,
WI 53040

Dear Editor:

Alcoholism is the nation's number one health problem and the third largest cause of death in the United States. It is no respecter of sex, economic or social status, race or religion. The problem involves ourselves, friends, relatives, co-workers and neighbors and it exists in schools, high rises, work places and homes.

It is estimated that in Wisconsin alone there are 48,000 women alcoholics and another 42,000 women abusing prescription and over-the-counter drugs. Yet a recent survey reveals that very few alcohol treatment centers consider the special needs of women alcoholics seeking help to recover. A similar survey conducted ten years ago shows almost identical findings. This suggests very little improvement in treatment for women alcoholics in the past ten years.

Do you know of any treatment center which offers child care services for women clients? In fact, there are very few and child care services which are provided are severely limited, often to short term baby-sitting. Yet a state survey identified lack of child care as one of two main reasons that women fail to get treatment for alcohol and drug problems.

The other reason is lack of specially tailored programs addressing issues unique to women seeking treatment. These unique problems include the fear of woman alcoholic faces about the shame she may bring the family or herself and the fear of losing her husband or the custody of her children. She may fear loss of her job and

financial problems connected with loss of income and insurance and how her treatment will be financed. A further problem with women alcoholics is the stigma attached to a woman who develops drinking problems.

The survey cited above also revealed a death of half-way houses for recovering alcoholic women. Indeed, a successful half-way house for women in Washington County closed in 1987. No increase in care or treatment for women has filled the gap left by this closing.

The survey also cited a limited knowledge about the different effects alcohol has on men and women. For example, a woman can become intoxicated quicker than a man of similar size drinking the same amount of alcohol, likely due to the higher percentage of fat in women's bodies.

If you are in need of help for

any problem caused by alcohol and other drug abuse, you may contact Women Reaching Women by calling 675-6071 and asking for Marge. Women Reaching Women is a volunteer project of the Wisconsin Association on Alcohol and Other Drug Abuse. WRW seeks to create public awareness of the problem of alcohol and drug abuse as it effects the lives of women and their families. So WRW - Washington County Chapter will provide presentations for your club or organization upon request. There are materials available to students writing papers or making school reports on the subjects of women and alcohol, fetal alcohol syndrome and other information and materials. If you or some-one you know needs any of these services, please call Marge at 675-6071.

Sincerely,
Marge Behlen

Forensics Team Meets With Excellence at State Contest

Top row, left to right: Judy Jacak, Jason Miller, Barbara York
 Second row: Janelle Peterson, Ann-Marie Horner, Kim Poling
 Third row: Sheila Paulson, Jill Peterson, Melissa Webber, Nicole Postuma
 Fourth row: Leann Winninghoff, Becky Manthei, Shannon McFadden, Jennifer Lettow
 Fifth row: Dana Neuser, Brenda Behling, Katie Boland
 Sixth row: Nicole Doherty, Pam Gauger, Gina Olmsted, Angie Schoofs

Perfection, near-perfection, and overall excellence culminated the KHS forensic season for the nineteen entrants at the state contest on Friday, April 22. The contest was held at the University of Wisconsin in Madison. Barbara York accompanied the team and was extremely proud of her team's accomplishments.

Perfect scores of twenty-five points were won by Brenda Behling, Sheila Paulson, and Kim Poling; they achieved the Critic's Choice Award. Near-perfect scores of twenty-four points were accomplished by Pam Gauger, Leann

Winninghoff, Jill Peterson, Ann-Marie Horner, Janelle Peterson, Becky Manthei, and Shannon McFadden. Jennifer Lettow received twenty-three points, while Nicole Postuma, Dana Neuser, Gina Olmsted, and Angie Schoofs scored twenty-two. Those twelve girls achieved the All-State Award. The Finalist Award was won by Jason Miller and Nicole Doherty with twenty-one points and Katie Boland and Missy Webber with nineteen. Those state scores reflected a season of hard work that began in January for nearly forty students.

A High Powered Year For KHS Forensics Team

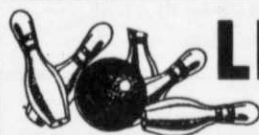

This year's high school forensics team was powered mainly by a nucleus of ten freshmen. Six of those freshmen also represented nearly one third of the state contest entrants. Head coach Barbara York also had nine sophomores, seven juniors, and eight seniors on the team to make this year's team a strong one. The season started in early January when many students picked from fourteen available categories. Practice times were then arranged with either York or her assistant, Judy Jacak, as the team prepared for its march to state.

The first meet, the sub-district, was held at Random Lake High School on March 5. In order for the participants to be able to go on to the district competition at Brookfield Central on March 21, they had to receive fourteen out of a possible twenty-five possible points from at least two of the three judges. All of the twenty-five entries fulfilled this requirement and did go on to district, where they had to receive nineteen out of twenty-five possible points from two of the three judges in order to go on to state competition at U.W. Madison. This year the number of entries traveling to Madison was nineteen, up from last year's thirteen. Of those entries, seniors Ann-Marie Horner and Janelle Peterson went to state for their fourth year in a row. They were from the group interpretation entry "The Ark and the Tower," which also included Jill Peterson, Becky Manthei, and Shannon McFadden.

The other participants were Leann Winninghoff with "It Might Have Been" in farrago, a ten-minute speech which is not memorized; Nicole Doherty read "I Fall in Love" at state. In the two previous contests she

had read "What Is a Parent?" Nicole was in prose reading, an eight-minute speech that is read. Sheila Paulson and Jennifer Lettow, both in solo acting and both having memorized the eight-minute humorous selection entitled "Alexandria and the Terrible, Horrible, No-Good, Very Bad Day" were also state-bound, as was Nicole Postuma in the same category; her selection was "The Scarlet Ibis," which was serious in nature, however. Dana Neuser was in oratory; she wrote her own material about "Anorexia Nervosa," then memorized it for an eight-minute speech. Kim Poling, last year's MVP, and Brenda Behling, a freshman, were both in storytelling, narrating eight-minute stories as it would be done for children. Gina Olmsted and Angie Schoofs were in play acting with "The Children's Hour," which was a fifteen-minute memorized presentation of a cutting from a dramatic play. Pam Gauger and Missy Webber participated in the four-minute speaking category where the time is used to inform or persuade others about significant topics. Pam used "Dreams" for her speech, and Missy's topic was "Teen Suicide." In group discussion Jason Miller and Katie Boland tackled the problem of "What Can Be Done To Increase the Support of the Arts in America?" They were involved in a two-hour analysis of the problem with other students.

Other speakers who had participated at the sub-district and district meets were these: Sherry Becker, Britt Ellis, Pam Oelhafen, Eva Nowak, Jessie Koch, John Hazlewood, Mark Peters, Matt Gruss, Tanya Beske, Patti Aupperle, Erin Hein, Scott Kulas, James Dionne, Ira Sison and April Wulff.

Front row, left to right: Nicki Kulcinski, Cheryl Miller and Paula Wilson. Back row: George Walz, Chad Schmidt and Bobby Castro.

This year some 2,000 junior boys and girls throughout Wisconsin are selected to represent their schools and community at a state gathering of Wisconsin School students. This year the KHS delegates, sponsored by both the local American Legion Post and Kiwanis organization, will be participating in the girls' forty-fifth and boys' forth-seventh annual workshop.

This year Nicki Kulcinski, daughter of Mr. and Mrs. Morris Kulcinski, Kewaskum,

Cheryl Miller, daughter of Mr. and Mrs. Edward Miller, Kewaskum, and Paula Wilson, daughter of Mr. and Mrs. Lawrence Wilson, Kewaskum, were the three junior students who applied and were selected from the top third of junior class girls.

Bobby Castro, son of Dr. and Mrs. Florizel Castro, Kewaskum, Chad Schmidt, son of Mr. and Mrs. Lee Schmidt, Kewaskum and George Walz, son of Mr. and Mrs. Norman Walz, Kewaskum, were the three junior boys who applied and were selected from the top third of their class.

The selection of delegates is

based on the students' scholastic standing, their participation in extra-curricular activities such as athletics, music, speech, journalism, clubs or other school organizations and their adaptability to the Badger State program.

Alternate girls and boy delegates selected were Lisa Chmielewski, daughter of Mr. Gregory Chmielewski, Nicole Postuma, daughter of Mr. and Mrs. Richard Postuma and Joel Serwe, son of Mr. and Mrs. Norbert Serwe.

The girls will start their week of activities on June 5th at

Madison while the boys begin their week of activities in Ripon, Wis. on Saturday, June 11th.

Through this Badger State program, those high school leaders of the future should develop a sense of individual obligations to their community state and nation.

SKIN CANCER

Repeated suntanning thickens and wrinkles the skin, permanently aging its appearance beyond its years - whether the tan is acquired artificially from a sun lamp, or naturally from sunshine. In addition to this aging effect, ultra-violet light's cancer-producing effect is also permanent and cumulative as a risk of skin cancer. To minimize the risk use a sun screen.

Middle School Hosts Folk Fair '88

By GERRY MUELLER
Statesman Staff Writer

The sixth grade students of Mrs. Kathy West and Mrs. Diane Stangl presented the annual Middle School folk fair and entertainment program to a capacity audience again this year.

Along with the usual countries such as Ireland, Germany, England and France, which draw the students' interest for study, there were a few new lands represented such as Botswana and Iceland.

Following a program of songs, dances, recitations and instrumentals, parents and guests were invited to take a stroll down a worldly road lined with booths representing many countries.

The students worked hard learning the ethnic customs and histories of the countries they

chose to represent. From clothing to cooking, dolls to dinnerware, the youngsters gathered items of interest which accurately portrayed each country. At many of the booths the visitors were offered samples of foods or products for which the country is noted, such as Spain and its famous Spanish olives.

As part of their studies, said Mrs. West, the students wrote to foreign embassy offices based in the United States asking for literature and posters. Many of the booths proudly displayed the large and colorful pictures they had received in reply to their requests.

The students thanked their parents and all the teachers and aides who helped to make this year's fair another success.

This year's Sixth Grade Middle School folk fair was well attended and the audience's enthusiastic reception and applause was a fitting conclusion to mark all the hard work the students had put into the project.

Students performed the Irish Jig before an audience of parents and friends.

Wayne Stearns (left) and Justin Hanson (right) wore clothing representative of the country of Liechtenstein as they offered visitors to the folk fair samplings of the country's food delicacies.

4-H NEWS

The April 14 meeting of the Kewaskum 4-H'ers came to order at 7:00 p.m. at the Labor Center in Kewaskum. Julie Yahr led the 4-H pledge and Annie Mertz led the Pledge of Allegiance. There was no Secretary's Report. Beth Schaefer read the Treasurer's Report and it was approved.

For Old Business we decided that we're going to Noah's Ark on June 10, 1988. Julie Yahr reported on our Skating Party, April 4. Also the 4-H made stitch crosses for the hospital patients. We handed them to the patients on Easter Sunday.

For New Business the Music and Drama Festival is May 1 at UWWC College in West Bend.

The meeting was adjourned. Our next meeting will be May 12. Hope to see you all there!

WISCONSIN OUTDOORS AND CONSERVATION NEWS

Governor 'Tours' Special Wildlife Areas

Governor Tommy Thompson and Division of Tourism director Richard Matty took a 15-minute guided tour of 40 of Wisconsin's most unique watchable wildlife areas last week when Department of Natural Resources Secretary C. D. (Buzz) Besadny and Bureau of Wildlife Management director Steve Miller presented each with a copy of the recently released publication "Watchable Wildlife."

The Governor and Matty also received framed posters from the magazine depicting many of Wisconsin's wildlife species as the DNR kicked off spring watchable wildlife activities statewide.

"Watchable Wildlife" is the 1988 theme of the DNR's Bureau of Wildlife Management and has become a new focus for the Bureau's information, education and service activities. The new program was premiered in a recent special 72-page issue of Wisconsin Natural Resources magazine.

More than one billion dollars is generated annually for Wisconsin business from hunting and non-hunting wildlife recreation, with 3.5 million people participating in wildlife watching, photography and related non-hunting activities, according to Miller.

"Wildlife recreation activities average more than \$45 in economic returns for every \$1 invested in their development," Miller said. "With over 200 wildlife areas, 152 fisheries areas, 78 parks and recreation areas and five state forests, people can enjoy more than one million acres of wildlife habitat and hundreds of species of birds, mammals, reptiles and amphibians in Wisconsin."

The Watchable Wildlife publication focuses entirely on wildlife watching opportunities available in backyards and state wildlife areas. More than 40 unique locations are highlighted in the magazine along with stories on tips and techniques for both novice and experienced wildlife enthusiasts. Maps and directions accompany many of the articles.

Watchable Wildlife is available at many DNR locations for \$3.00 or by mail for \$4.00 each. Posters like those presented to the Governor are included in the special issue and are available free.

The Bureau of Wildlife Management is developing a variety of publications, educational curriculum guides and special programs to carry the "Watchable Wildlife" theme into the next century.

For a copy of the 72-page "Watchable Wildlife" magazine send a check or money order for \$4.00 to: Watchable Wildlife, Wisconsin DNR, Bureau of Wildlife Management, P.O. Box 7921, Madison, Wisconsin 53707.

Open Forums Held On Kettle Moraine State Forest Master Plan

One hundred and forty citizens attended the three open forums held on the Kettle Moraine State Forest Master Plan according to Walter J. Adams, Forest Supt. The meetings were held on April 4th 6th and 7th at the Havenwoods Environmental Center, Campbellsport and Plymouth respectively.

The Department conducted the open forum to obtain citizens input to develop goals and objectives for management of the forest.

In addition to the open forums, citizens have given input by mail and by calling the Kettle Moraine Hotline Toll Free Number (1-800-722-9882).

The comments and concerns will be given to a Citizens Advisory Committee consisting of forest users with varying backgrounds and interests. This committee will study the comments and make recommendations to the task force.

The task force is made up of department personnel representing fisheries, wildlife management, forestry, recreation and law enforcement. The task force will develop a Master Plan that will guide the management and development of the forest into the next century.

The plan is scheduled to be completed and presented to the Natural Resources Board for approval in late 1990. The Master Plan will be reviewed at ten year intervals.

Citizens may keep abreast of the Master Plan process by receiving the newsletter "Kettle Moraine - What's In It For You." You can receive the

newsletter by calling the Kettle Moraine Hotline number listed above.

Medalist Honors to Dean As Golfers Win Over Ozaukee

With the temperatures in the low 30's and mixed with wind and hail, the linksters had a tough time shooting a respectable score at the home meet at Hon-E-Kor Country Club on Friday. Kewaskum came away with the best team score of the season with a 167 to beat Ozaukees' 198. The medalist honors went to Gregg Dean, who fired a 40. Gregg said later, "I had to count two double bogeys on my round. If I would stay away from the big numbers, I could start firing some good scores." Next came a 41 from Eric Pearson, who had some problems with his short game. A promising score from Rob Baitinger, who fired a 43, could give him a chance to secure a varsity position. Also with a 43 was Joel Miller, but because he went off late, he had the worst weather conditions.

Coach Joe Harlow was pleased with the Kewaskum performance and said, "With the conditions the players had to play under, the low 40's were good scores. Also, we showed more depth with Rob's score."

Indian Golfers Come In Last

It was a windy and cold afternoon at Chenequa Country Club Hartland, on Tuesday, April 19, where the following teams participated: Hartland, Kettle Moraine, Tosa East, and Kewaskum. The medalist honors went to Pete Sowershy from Hartland who fired a 39. The low score for the Indians came from Gregg Dean, who shot a 42, good enough for second place honors. The surprise score came from freshmen Dean Slaughenhou, who shot a 44. It was a six man varsity meet that counts five low for the team score.

Coach Joe Harlow said, "If it would have been a five man instead of a six man varsity, we would have captured second place overall."

Hartland won with a team score 215, Kettle Moraine 229, Tosa East 231, and Kewaskum 234.

Cedarburg Bog Topic at Riveredge Bird Club

One of the natural resource gems in southeastern Wisconsin is the Cedarburg Bog located in central Ozaukee County. Jim Reinartz, University of Wisconsin - Milwaukee Field Station Manager and Resident Biologist, will discuss the natural history of this unique area at the May 3 meeting of the Riveredge Bird Club. In addition to the many plant species that reach their southern edge of their Wisconsin range in the Bog, 12 bird species that are typically found farther north inhabit the Bog. Preceding the 7 p.m. program will be a bird hike on Riveredge Nature Center trails starting at 6 p.m. Riveredge Nature Center is located on Highway Y just north of Newburg. Come and enjoy the fellowship and refreshments.
