Village in Good Financial Shape

By GERRY MUELLER

Good management and sound budgeting procedures are being credited for the Village of Kewaskum's overall good financial condition according to Nicholas Quartaro of Conley, McDonald, Sprague and Company, the village's accounting firm.

That was the good news the Kewaskum Village Board heard Monday night in a report on the village's annual audit for 1988, presented by Quartaro and Conley accountant John Knepel.

A review of the audit report showed the village ended the year with \$55,000 more than anticipated in revenues and expenditures \$88,000 lower than budgeted. Quartaro also noted that, despite the various projects being undertaken by the village, its debt obligations were well below its debt limit, with \$1.75 million of an allowable \$2.9 million used.

Quartaro also told the trustees that the financial picture for the village's two utilities had brightened considerably since last year's audit. 1988 represented the first full year of revenues under the last rate increases approved by the Public Service Commission. The result has been that both departments were being reported as running in the black and showing a modest income. "We're glad to see your utilities have worked out," said Quartaro.

In completing the report, Quartaro told the board, "we've completed the third year of our three-year contract with the village, it's been a pleasure." He commended bookkeeper Janet Knops on her work. "Janet has done an excellent job of keeping the books for the village," said Quartaro, "and that made our job much easier."

In other business the board opened sealed bids for the construction of a new well to replace the existing well #1, on the north side of the village. Apparent low bidder for the project is Lane-Northwest Company at \$42,460, followed by Sam's Rotary Driller Inc. at \$44,010, Wagner Bros. Well Drillers \$49,996 and Milliger Well and Pump at \$77,785.

The bids were turned over to Dan Butler of Reukert and Mielke, the village's consulting engineers. Butler will review the bids and make a formal recommendation at the April 3rd board meeting.

Village Administrator Dan Schmidt said that problems with the present well #1, began when

the DNR required the village to grout the well during the last repair project. The result was that the grouting also closed up the veins in the watertable feeding the well thereby causing the water pressure to drop from approximately 500 gallons per minute, to its present 30-40 gallons per minute.

We tried acidizing the grouting, noted Schmidt, however that failed and we were left with having to replace the well.

In other action the board approved the request of Police Chief Richard Knoebel to purchase a computer software system which will allow the department to improve and streamline its record keeping procedures. The program, which is presently on sale, will cost \$2,175, which includes the software, installation, training and three-year program update and support. Knoebel advised the board that money had been put into the department's budget for the purchase.

Trustee Mary Krueger updated fellow board members on the status of the county incineration program. At its last meeting said Krueger, the

committee decided that all the neighboring communities would again be contacted regarding their participation in the project. She also said that the committee was asking all municipalities to contact their county representatives urging them to support the idea of the project being operated by the county since it was already an organized governing body, rather than to try and set up a new incineration district that would be both involved and costly. "We want to get the county involved again," said Krueger.

Krueger also noted one of the points of resistance to participating in the project for communities like Germantown and Hartford was the lengthy distance they would be required to haul their refuse. "One idea," said Krueger, "is the analysis of transportation costs, etc., with the possibility of setting up a transfer station." She noted that idea would mean the plant would not have to be located in West Bend and the use of a transfer station would more equally distribute the cost of refuse transportation for everyone in the district.

Three Teams Place First in Regionals

Kewaskum's OM Teams Hot

Kewaskum Odyssey of the Mind teams (O.M.) are going strong, and this year all three high school teams will be competing in State competition April 29th.

The teams, their coaches, and their problems are listed below.

Team A — problem called "Just In Time." The members of this group had to build a transport system that would send custom parts from one team member to another within an eight minute framework. This group built cars to transport the parts. Coached by Ron Beimborn, members of this group include Jenny Beimborn, Scot Wiesner, Kevin Hein, Dan Staehler, and Sheldon Opperman.

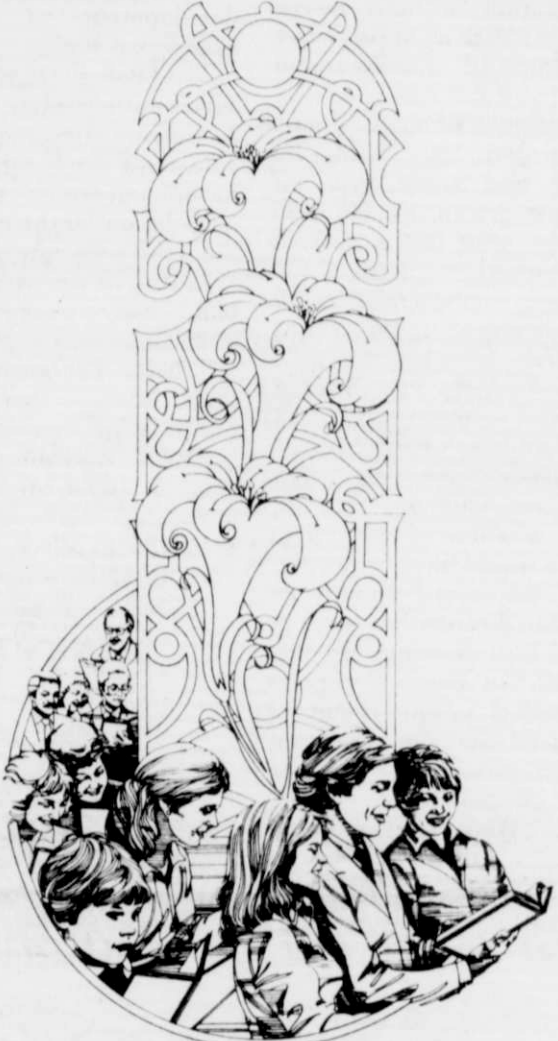

Team B — problem called "Cause and Effect."

The object of this problem is to A) flip some thing over B) turn on lights C) set something free D) pour four to six ounces of water into a container from one holding 24 ounces or more E) pop a balloon F) activate something G) signal the finish H) cause the letters "OM" to appear and I) four free choice. This team has nine minutes to set up and complete these tasks

using a cue or billiard ball to start. Members of this team include Ira Sison, James Dionne, Mike Kocher, Jeff Kissinger, Jeff Morten, David Drunty and Chris Schoofs and is coached by Mr. Charles Kocher.

Team C — problem called "Ye Gods" in which the six member team is to create and present a modern day advertising campaign featuring Greek mythological characters while familiarizing judges and audience about the myths surrounding the chosen charters. The team is evaluated on how well the chosen character relates to the product or service advertised, the style of presentation, and the overall quality of props, costumes, and the video segment. With their choice of Frank Lorento advertising and newly acquired "Air Doedalus," OM Team C is the third of our teams to place first in regional competition in West Bend. Members of this team include George Walz, Mark Peters, Don Iwen, Stacey Schmidt, Jesse Sortoro, and Nicki Kulcowski and is coached by Mr. Len Soller.

Good luck at State.

The Kewaskum American Legion, Robert G. Romaine Post 384, will hold its annual Easter Egg Hunt in River Hill Park at 1:00 p.m. on Saturday, March 25. All children from the Kewaskum area are invited to participate in the hunt.

Kids in the age group from seven to nine years will hunt

eggs in that area of the park located on the east side of the river. The age group six and under will meet in the park on the west side of the river.

In case of inclement weather, the Legion Post will be at both sites and pass out eggs and candy in the parking area.

Village

(Continued from Page 1)

Krueger said recent reports show markedly increased costs for refuse disposal within the next two years. "Vilas County is expecting to pay \$60 a ton next year and the cost for the city of Minneapolis will be up to \$75 a ton by 1991."

Schmidt addressed the board on the subject of the village's sidewalk rehabilitation plans. He handed each trustee a village map and asked them to review it and mark which streets they consider priority areas. "We have to have some basis to start," said Schmidt. Trustee Howard Laubenstein suggested, "wouldn't a good rule of thumb be your heavy traffic areas such as Main Street and in front of churches and schools."

Schmidt said when the maps were returned, they would be reviewed and some type of priority list drawn up. He said the determining factor of cost will dictate just how much repair and replacement work can be done with the funds budgeted.

Board president Paul Blumer questioned whether the cost would again be shared on a 50/50 basis like the new sidewalk construction. Schmidt said that was one of the things the board would have to decide. He said the board should be prepared to discuss that issue at the April 17th meeting. He also noted, in the past, if repairs were needed as the result of tree caused damage, the cost had been paid 100% by the property owner.

In discussing tree damage further, Public Works

Superintendent Augie Bilgo felt the village should have something on the books restricting the planting of trees in the greenway between the sidewalk and curb. He said it didn't pay to repair the sidewalks and then ten years down the road be faced with the same problem. Schmidt said he could check into ordinances regarding the planting of trees in greenways.

In other board action, a building permit for Schulz Homes, Inc. was approved contingent upon the building inspector's approval of the submitted plans. The trustees also approved the request of Mr. and Mrs. David Goeden to use the services of the village's consulting engineers in determining sewer, water and road requirements in proposed development of a lot on Edgewood Road.

The Police Department was given authorization to advertise its retired 1987 squad car for sale and the signing of an agreement with the softball association for the use of the NE diamond was approved.

Lifting of the Winter parking ban was okayed effective immediately.

Trustee Laubenstein advised the board that a Plan Commission meeting has been scheduled for March 28th, with several items on the agenda, including the Creek View subdivision, Sison project and Thee Avenue property.

KHS English Class Experiences Play

Mrs. Telschow's seventh hour English class traveled to the Milwaukee Performing Art Center Friday, March 10th to view the award-winning play entitled "Children of a Lesser God."

The director of this play Ed Waterstreet, who is also deaf, does a marvelous job in putting together this deaf love story about a deaf girl and her speech teacher. The deaf girl only wants to "sign" and never speak yet together they break down the communication barrier and learn that each doesn't have to be what the other "expects" them to be... and they accept and love each

other for what they are.

After the play, there was a question and answer session in which one of the questions to the lead-actress "Sarah" was, "Do people have a hard time accepting your handicap?" She replied, "I didn't have a choice about being deaf, I was born this way, that's my problem... "normal" people have many more problems than mine."

The students thoroughly enjoyed the play and certainly learned something about deaf people. Craig Krell, sophomore, stated "It's amazing how deaf people can learn how to talk without ever hearing voices." All in all it was a great experience.

Beechwood Rest Home Granted Residential Care License

Henrietta Deckliver sat at the piano in the CBRF community room. She declined to play for us, saying, "If I play too much, people will think I'm a professional."

By GERRY MUELLER
Statesman Staff Writer

Scott Rammer, Administrative Assistant for the Beechwood Rest Home announced this week, that the facility has been officially licensed by the State of Wisconsin as a "Community Based Residential Facility."

The license applies to the original section of the home which has been converted into a minimal care facility following the opening of its new addition which houses its full care residents.

Rammer said the home's CBRF wing will provide health monitoring, assistance with medications, information and referral services, leisure time services and personal care services such as help with

dressing, eating, bathing, grooming, toileting and mobility.

The CBRF section will provide minimal professional care and 24-hour supervision for those residents who are no longer able to live independently. The facility, however, is also designed to provide a comfortable residential living arrangement for those individuals who no longer want to be burdened with the upkeep of a home or apartment but still want to maintain an independent mode of living.

The CBRF will provide a community living arrangement for up to 19 residents. Presently we're looking at private rooms for individuals, however, we do have some rooms large enough to accommodate married

couples, noted Rammer. The capacity of the facility will not exceed 19, said Rammer.

In conjunction with the facility, said Rammer, the home will be offering an adult daycare program. This will be an arrangement where individuals can be brought in so they will not be alone during the day. They will participate in daily leisure and community activities. We will also offer overnight, weekend and temporary extended stay services for families who may need a place to bring an elderly relative while they get away for a short vacation.

The CBRF provides meals, laundry, as well as house-keeping and haircare services to the residents.

The facility already has one resident in the person of Henrietta Deckliver, originally of Batavia. Henrietta graciously opened her room to us for inspection and invited anyone who might be interested in the facility to visit. "I'm very happy here," said Henrietta, "and I know other people will like it here, too."

**The Promise of Easter
With Community Church**

Spring bursts today
For Christ is risen
and all the earth's at play.
Each spring God renews His promise of life. Flowers appear through thawing earth. The trees burst with fresh, new leaves and buds. The birds return with joyful sound.

Spring is a celebration of renewal and rebirth. And in a way it is a prospect of new life for everyone. For in each waking flower and singing bird the promise of Easter is seen. Our word has written the promise of the resurrection, not in books alone but in every leaf of springtime. Nature seems to shout, "Jesus Christ has risen from the dead!"

Yes, Jesus Christ is alive today and He offers your salvation and a new life. Through faith in Him you can join countless thousands who have believed His promise: "God has given us eternal life, and this life is in His Son. He that has the son has life; and he that has not the Son of God has not life." I John 5:11-12.

God offers you new life paid for in full by Christ's blood. "If you confess with your mouth the Lord Jesus, and believe in your heart that God raised Him from the dead, you will be saved." Romans 10:9.

Community Church services are held at Silverbrook School, West Bend each Sunday at 9:30 a.m.

**International Potluck
Dinner Held at KHS**

An International Potluck dinner was held at KHS cafeteria last week honoring foreign exchange student Catherine Mantheu from Belgium.

The night started with Catherine and a couple of volunteers mixing a batter for the "be'gnets six pommes" (fried apples). The apples are cut into slices and then are deep-fried and rolled in powdered sugar, which were used for dessert.

The meal itself began at 5:30 with a menu of stuffed potatoes, pommes de verres farve's and the quiche si lard. Belgium must be noted for its fine dishes as everything was empty when dinner was over.

The presentation of Belgium slides followed after dinner with Catherine showing the many different aspects of Belgium, such as the countryside (farms, crops, villages) and the city-side of Brussels, Cougge, Antwerp,

and the coast of the North Sea.

Following these slides, people looked at some booklets on the good recipes, industries, crystal and rim production. The guests also were enlightened with the different entertainment throughout the country.

**Navigational Aid
Commissioned at
West Bend Airport**

High performance corporate aircraft will be able to land at the West Bend Municipal Airport more often during marginal weather conditions, with the Mar. 9 approval by the Federal Aviation Administration to use a precise navigational aid.

Federal approval of West Bend's localizer beacon gives the go-ahead for pilots to use the system.

"The localizer will make it safer to use the primary runway during marginal weather conditions," said Bob Kunkel, director of the state Department of Transportation's Bureau of

Aeronautics. "The signal will help pilots find the runway easier and make a more precise approach."

Kunkel explained that the localizer antenna emits a signal which can be picked up on a plane as far away as 20 miles. The signal beam follows the centerline of the runway and provides guidance to the pilot during the approach to the runway.

"Pilots may have to make a slight turn to obtain final runway alignment," Kunkel

said. "When visibility is poor and it's critical to correctly align the aircraft with the runway, the localizer will guide the pilot to the runway centerline."

He indicated that the system will reduce the number of times aircraft are diverted to another airport because of adverse weather. The system could also be used to train new instrument pilots.

The state funded the \$205,000 localizer, which was installed last year.

"Valley Presents A Club So Special, It Reminds Me Of Grandpa."

Even a little guy like me can see the special benefits for seniors when they join Valley's Prestige Club.

Benefits like special discounts, fun-filled social events, seminars and a newsletter. Prestige members get special advice, too, on how to organize their finances to make the most of their retirement years. It's all the little benefits you get when you join Prestige that add up to big advantages. That's why I told grandpa to join.

And that's why you should join. Call your Valley Banker today for more details on Valley Prestige.

Why? Because you're special.

St. Matthias Mission Church

St. Matthias Mission, the small Catholic church located on Hwy. S in the Town of Auburn, celebrated its 125th anniversary on Sunday, September 11, 1988.

The church was originally built in 1861 by German immigrants, starting with 24 families.

This rural country church was approved by the state Historical Society and added to the list of State Historic Sites in September, and on October 13th, 1988 it was recognized by the National Historical Society. German immigrants made up

of 24 families from the Eifel region, built the church in 1861 on land donated by Mathias Sausen and Johann Pesch. Records show the ladies of the parish sold their hair to raise funds for the needed items: lace for the alter cloth and crucifix. It was consecrated in June 1863 by Bishop Henni, and the collection totaled 98 cents.

St. Matthias had a Catholic school from 1883 to 1926. This was a log building where classes were taught by nuns, but in later years, ladies of the

parish did the teaching. Classes were in German.

The cemetery, located on a rise northeast of the church contains the graves of early settlers - Pesch, Schwadweiler, Fellenz, Klein, Sausen, and the earliest grave there is that of Margaretha Fellenz (nee Althenhofen) who died June 13, 1862, at the age of 21.

The mother church to the mission of St. Matthias was Immaculate Conception of Barton. In those days each priest had to take care of a very large territory and the Rev. John B. Reindl was attending to parishes in Kewaskum, St. Michaels, Barton and St. Matthias. Services there were once a month, on a weekday. In all, over twenty pastors are mentioned in it's history, with most of them being Chaplains from St. Joseph's Convent in Campbellsport. The Reverends John P. Bertram and Walter N. Morgan deserve special attention for spending 24 years at the church's pastors.

The parish was incorporated at the parish meeting in January 1918. Jacob Schiltz was the first secretary and Steven Klein was the first Treasurer. Joseph Schladweiler and William Pesch were chosen as Consultors.

Father Pesch, son of Elroy and Theresa Hammes Pesch is a

Son of the Parish, and celebrated his Silver Jubilee on April 24, 1988. Daughters of the parish included Sr. M. Augusta Pesch, O.S.F., daughter of Mr. and Mrs. Peter Pesch, Sr. M. Achilla Graef, S.S.N.D., daughter of Mr. and Mrs. Anton Graef, Sr. M. Anastasia Schladweiler, O.P., daughter of Margaret and Peter Schladweiler and Sr. Mary Andrew Rinzel, O.S.M., daughter of Mr. and Mrs. Peter Rinzel.

A German priest brought a group of Germans to the area now the Town of Auburn and among them were members of the Klein family. They have been very active members of St. Matthias Church for five generations, or 125 years.

Antone Klein, son of Stephen and Mary, is still carrying on the family tradition. He lives on the family homestead. He has served as Treasurer of the Parish since 1970, served as Vice President of the Men's Club for seven years is a former Lector, and currently is a Communion Distributor and Usher.

In June 1988, St. Matthias welcomed Father Nicholas Goebel as Pastor to St. Matthias.

Today approximately 90 plus families are served by the church. The congregation consists of residents of Kewaskum, Campbellsport, Eden,

Random Lake, Cascade, Adell, Plymouth, Dundee, New Prospect, New Fane, and Beechwood. Year around, many vacationers to the area attend services at St. Matthias, many on a weekly basis.

THANK YOU

We would like to express our thanks to the Fire Department for the quick response and neat efficient work they did on the fire call to our house. The volunteer fire departments of the country do not always get the praise and recognition they deserve for the work effort and time involved in fire fighting and rescue work. We think our department is one of the best! Thanks again for a job well done.

BIRTHDAY MEMORY

In memory of my father MERLIN DREHER for his birthday on March 27th. He passed away one year and seven months ago.

"Ode To A Father"

Dear Dad you were an idol,
Now you're gone,
But as time passes,
Your memory lingers on.
Though it's been almost two years
The world won't forget thee,
Nor will I.
Your love meant the world to me.

There is no reason you should have died.
To all the world the question why?

In minds and hearts and pictures, too.
Your image lives on!
I won't forget you.
I know my tears will dry,
But as for now,
I sit and cry.

In memory of you, dear Dad,
You've left this earth,
But in my heart you live on.

Happy Birthday DAD. I love you and miss you dearly. Your daughter Shelly.

IN MEMORY

In loving memory of Joanne Schulteis who passed away four years ago, March 31, 1985:

Loving memories never die,
As years roll on and days pass by,
Deep in our hearts a memory is kept,
Of one we loved and will never forget.

Sadly missed by parents, brothers and families.

IN MEMORY

In loving memory of HILBERT MUELLER, who passed away 11 years ago, March 24, 1978:

A beautiful memory of one so dear,
We cherish still with love sincere,
He left us quietly, his thoughts unknown,
But left us with a memory we are proud to own.
So treasure him Lord in your garden of rest.
For when on earth, he was one of the best.

Sadly missed by Glen, Gerry, Quin and Stacy.

Parent Network Begins

The Student Assistance Program of the Kewaskum Schools are sponsoring "ACTIVE PARENTING" beginning April 17, 1989.

The "Active Parenting" program is six, two hour discussion sessions for parents with children of all ages. The stated Active Parenting purpose is:

"To support the development of human potential through the family structure by providing parents, with the information and skills to prepare children who will develop the qualities necessary for thriving in a democratic society: cooperation, courage and responsibility."

According to Jackie Schoening, School Social Worker and AOD/SAP coordinator for the district, the funds to begin a parent network were awarded under a grant. The initial start up funds came from a "Grant to Strengthen Family Life."

Mrs. Schoening states "Active Parenting puts together all the components of a good parenting program: thinking, doing and feeling. This program will encourage open lines of communication within the family. We hope to develop a network of parents helping parents."

The Active Parenting sessions will begin Monday, April 17, 1989. There will be a series of six sessions two hours in length. The discussion/video sessions will be held Mondays from 6:30 to 8:30 at the Kewaskum Middle School. John and Joy Breese will facilitate the sessions.

For more information contact Jackie Schoening 626-2166 (Kewaskum High School).

LETTERS TO THE EDITOR...

3/29/89

Citizens of the Kewaskum School District:

April 4th Election Day is fast approaching! From the comments that I've gotten in the past months, most people are happy with the school board and no real issues are apparent. For someone that has lived in the district the last 12 years, I'll admit the turmoil and controversy of the past has ebbed noticeably, but to say that "things are smooth-going good" can not be the judgement of the voters of this district! The positive direction the school board needs to lead the community in, is important, but the "revelation" of a tax levy increase in the 15 plus % area will surely bring many citizens to the annual budget meeting wondering: What has been going on?

After God, Country and Family; Education is the most important element we have to direct us into the future. While better education and reasonable costs are on everyone's mind, important decisions need to be made constantly throughout the year to insure that the education issue and the cost issue are on the same track and not on a collision course. Can we say that now? Longer range planning is one necessary element that must be undertaken rather than "reacting" to issues as they present themselves. While change is inevitable it must be change that the citizenry wants, can afford, and is willing to stand behind as a community. Some of the issues that I am hearing and have taken a position on at the voters forum last week are as follows:

1, I think the board is on the right course regarding the partial-self funded health insurance plan, if only to uncover the real cost of health insurance today. At present we do not know what is going on through the WEA plan except for the large premium increases, increases in the 75% area the last two years.

2, The disposition of the Beechwood School remains an emotionally charged issue that should be faced. As a Wayne School parent I fully understand the desire to "hang-on" to the things that were or are, but as a "what do they need to be in the future" planner, I know change is being made and will continue to be made regardless of resistance.

3, The rapid growth of extra-curricular activities in recent years has raised the issue of what is the real purpose of the school? While it is apparent that these "extras" add to many kid's growth and good feeling about themselves and school, the decision of what and how much can we do must be determined more on a direct cost basis to the individuals involved. Expenses either partial or thru other community avenues should be borne by those involved.

4, The class size issue definitely is an underground minefield of parent's wants, children's needs and teacher's ability to perform. In general I am in favor of smaller early elementary classes, approximately 25-30 student (as they are now) middle year classes, and larger upper grade classes. The children that have the desire and parental guidance and encouragement will find ways to succeed. We do not have to offer everything to everyone as a curriculum!

As you can see there are always going to be issues to be considered and I can not sit back and say "things are going good." I am proud of our school and think the job that is being done is good but we can not relax due to the inevitable change that the future brings us.

Please get involved, vote, and support our school system. The children of today have to be prepared for tomorrow.

Thank you
Paul Seymour

Third letter to the editor:

Kewaskum Statesman,
March 20, 1989

Dear Concerned Voting Member of the Community:

I know that this year's school board election doesn't have the fervor of some previous years. However, in order to keep our district running smoothly and efficiently it is just as important that you make informed choices. The attendance at the forum of March 16 was very low. Many questions were asked and answered that will help you in making your decision. You will have a 2nd and 3rd opportunity by viewing the recorded forum on West Bend Community Cable either March 27th at 5:30 p.m. or March 28th at 3:00 p.m. It is said that, when people have accurate information they will make wise decisions.

My opinion of the responsibilities of a school board member, are to be able to attend all meetings. He should have involvement in some committees where his or her interests abound. Attendance at some school activities is a big plus. It is crucial to work together as a unit and have harmony with your chief administrators. You must be ready to voice your opinion even when you feel you are all alone. You must inform and educate your fellow board members as to why you feel the way you do and be ready to back it up with research or evidence that you have studied the subject. Last, but most importantly, to be objective - owing no favors to

any person or group with selfish interests.

I do research and obtain the most accurate information that I can, hope that I always remain objective, and believe I have integrity.

Sincerely,
John C. Schulte

THANK YOU

Thanks to my friends and relatives for your visits, phone calls, cards, gifts, prayers, and thoughtful acts of kindness during my stay at the hospital and recovery at home.

St. Lucas Boys Finish Season at 13-2

Bottom row, left to right: Paul Fredrich (7), Joshua Ramel (7), Chad Krueger (7), James Zautner (7). Kneeling: Paul Stoltzmann (7), D.J. Brazee (8), Brad Stern (8), Chris Schmidt (8), Dale Haeuser (8), Rob Stern (8). Standing: Mr. Strassburg, Coach, Andy Reichert (8), Brian Smith (8), Jon Boehlke (8), Scott Ebert (8), Tory Laubach (7), Ricky Bartelt (7). Missing: Mr. Steve Stern, Assistant Coach.

The St. Lucas 7th and 8th grade team had a perfect regular season record at 10-0, while capturing second place at both the Kettle Moraine Lutheran Tournament in Jackson and the Peace Lutheran Tournament in Hartford.

In the Kettle Moraine Lutheran Tournament, St. Lucas beat St. John's Newburg,

rather handily in the first round. The second round was a hard fought, one-point victory over Good Shepherd, West Bend. The championship game against Bethany, Hustisford went into overtime with Bethany coming out on top 51-50.

The Sixers drew a bye in the first round of the Peace Tourney

and played the host team, Peace, in the second round. After beating them, St. Lucas played St. John's Jefferson. The Sixers held the lead much of the game until foul trouble put some players on the bench. St. John's grabbed the lead with just over 2:30 to play and managed to hold on for a 57-52 victory.

St. Lucas Girls' Basketball

Kneeling, left to right: Nichole Morenzi (6), Tiffany Laubach (4), Lisa Smith (4), Denise Ludwig (6). Standing: Mrs. Marquardt, Assistant Coach, Ann Buddenhagen (5), Tanya Laubach (5), Cathy Shreves (8), Laurie Schairer (6), Danielle Bollinger (6), Miss Schumacher, Coach. Missing: Bob Wilson, Assistant Coach.

The final echoes of "where're your people?!" have bounced off the backboard and through the hoop for the last time.

The season was full of learning for all - not just the game itself, but also how to work with new players and coaches.

We learned about defeat - what it is and how to take it. (We had plenty of practice!) We learned to play together as a team.

In the final game of the Peace Hartford Tournament we put into practice what we had learned. Determination filled the girls' faces and bodies as the game went into overtime. Through that determination and the "Extra Someone" in the

huddle, we then learned of success.

The St. Lucas '76er girls brought home the consolation trophy and the satisfaction of a job well done, knowing they did

what the coaches always knew they could do!

A special thank you to Bob "Minnesotas" Wilson, who helped the team these past years. We'll miss ya!

KHS National Honor Society Is Host of Volleyball Tournament

The winning volleyball team from the NHS volleyball tournament include, left to right: Tisha Stradtman, LeeAnn Winninghoff, Tina Weddig, Andrea Fliess and Mike Ciriacks.

In action for the NHS tournament, Tina Weddig goes up for a spike against Mark Felix.

The Kewaskum National Honor Society recently hosted a volleyball tournament at the field house on March 9th.

Twelve teams consisting of five players each entered the tournament in which trophies

were awarded to the first place team. The tournament was run on a double elimination basis and each team was guaranteed at least two games.

Joel Serwe's team consisting of Serwe, Marty Schulteis, Chris Charland, Cindy Wilson, and Paula Wilson made it into the finals undefeated as did LeeAnn Winninghoff's team consisting of Winninghoff, Tina Weddig, Tisha Stradtman, Andrea Fliess, and Mike Ciriacks. (One of the tournament rules was at least two girls must be on your team).

In the championship game, Winninghoff's team won handily 11-6 as Serwe's team couldn't quite compete with the four varsity volleyball team squad plus one - Ciriacks who added strong spiking action with his 6' 2" frame.

Each team player had to put in \$2.00 per player and all money raised went National Honor Society organization.

Possible Baseball Team Being Formed For 7th, 8th Graders

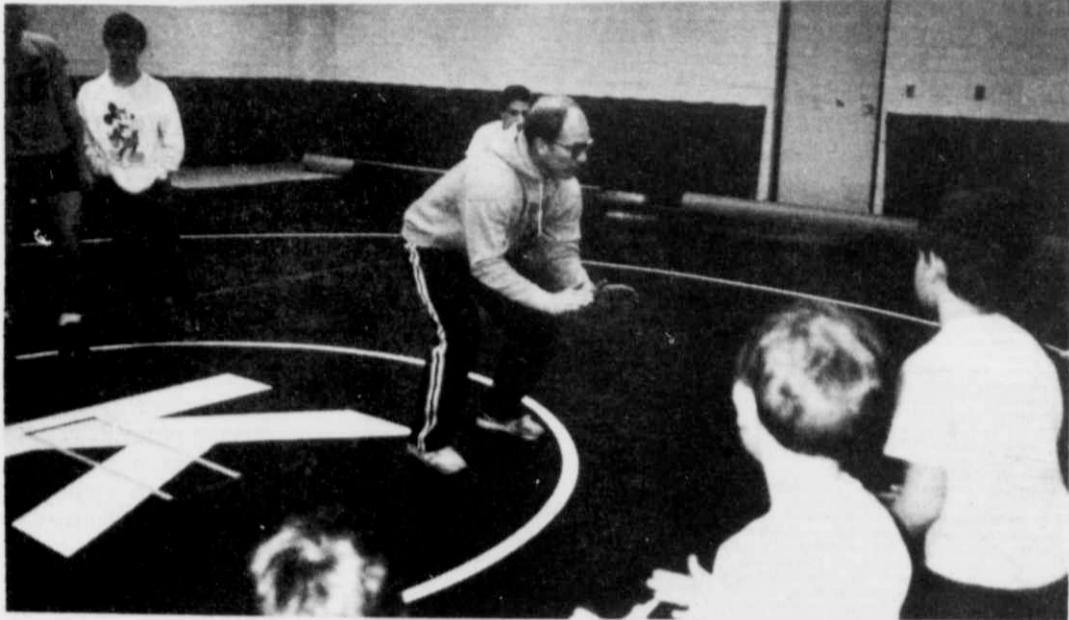

The Kewaskum Athletic Club - Youth Division is planning to sponsor a baseball team for those too old to play in the Jaycee Little League yet too young to play in high school. In addition, anyone in the Jaycee Little League that is interested in moving to a higher level of competition is welcome to participate. This would involve 7th and 8th graders in the Kewaskum School District.

So far, few students have expressed an interest. If there are any others interested, please contact your child's school office for an application or attend the next organizational meeting April 3 at 7:00 p.m. in the High School library. If there is no further interest by this time, no team will be formed for this year.

Coach Nell's Wrestling Workshops

John Nell, high school wrestling coach, never stops working with potential wrestlers. Here he instructs his students (ages four and up) on the basic wrestling stance.

A young eager group of wrestlers are ready and willing to work on anything Coach Nell teaches them at a recent wrestling workshop.

Coach John Nell is not only a fine young dedicated teacher, but also an excellent coach who goes beyond the wrestling season to recruit young hopefuls into his wrestling program.

Coach Nell just finished a successful wrestling season which ended with two fine athletes from Kewaskum (Bobby Castro and Chris Charland) at State in Madison. The very next week Coach Nell was back on the mats, this time running clinics for ages four years old and up interested in the possibility of making wrestling a major part of their lives.

For two months, March and April, Nell and volunteer high school wrestlers coach approximately 20 youngsters who come to learn the moves, stances, and stunts it takes to become a successful wrestler. The kids not only get to work out but they also have fun.

Said Perry Koth whose twin sons Christopher and Curt are part of the program, "Here my boys can rough-house and they get praised for it."

The highlight of these workshops include Saturday meets in which the kids actually compete for awards. Said Coach Nell, "These kids do really well. Many of them come home champs but the main thing is they have fun."

Nell, a wrestler himself at Goodrich High School in Fond du Lac and also the state freestyle champ has been building the wrestling program at KHS for the past nine years. As his program has progressed he feels he's seen many good individual performances come through but he still hasn't got the "numbers," meaning

enough wrestlers to come out to end up on top team-wise. "I don't worry about team, but individual wrestlers, and they do well," commented Nell. He also pointed out that as our team travels around to other schools the comments from many other coaches is, "Kewaskum may not have a lot of kids out there but the kids they put on the mats are all tough."

By continuing to develop wrestlers from age four on up, through these workshops Nell's hope is to one day soon see a Kewaskum wrestler in every weight class. In the meantime, he's very pleased with the individual performances put forth by his wrestlers. He says, "When it comes to individuals doing well, we'll continue to be on top."

Coach Nell, is a man committed to his wrestlers and his program, always ready to put in the extra time to help out his kids any way he can.

Said Fran Charland whose

son Chris recently competed in the state wrestling meet, "The students and parents of this community are very fortunate to have someone like John who not only knows wrestling but is as committed as John is. A good example of this is his working with the elementary kids and watching these same kids end up wrestling in college and coming back to thank him... he's really building a strong program."

Any youngsters interested in attending his wrestling workshops are welcome. They run every Thursday from 6:00 - 7:00 through April in the KHS fieldhouse wrestling room. It's a great place for learning wrestling skills and also getting some exercise and having fun.

Fish Spearing

The spearing of suckers, carp and other rough fish is about a month away. Participants in the Kewaskum area should be aware of the closed season in Fond du Lac County. Washington, Sheboygan and Dodge Counties have a year round spearing season for rough fish, from sunrise to sunset daily. In Fond du Lac County the spearing season begins April 21st, and is also from sunrise to sunset daily.

A fishing license is required to spear fish in Wisconsin. It should also be noted that spearing is not allowed in trout streams or within 200 feet of any fishway, lock or dam. This would include the dam in Kewaskum.

Another popular method of taking rough fish in our area is by hand. There is no closed season state wide for this, rough fish can be taken by hand at anytime, in all waters of the state. Again, a fishing license is

required to take fish by hand. The information provided in this article is for the Kewaskum area. Spearing rules and regulations vary considerably from County to County. Be sure to contact a local warden or check the regulations before spearing elsewhere in the state.

Gymnasts Close Out Season with Record Scores

Kewaskum Statesman,
Friday, March 24, 1989, Page 20

Senior Juli Swenarski voted captain and most valuable for the 88-89 season on the uneven bars.

Sophomore Ingrid Ankersen, an all-around performer, broke her personal best record a number of times this season with her routine, "Can You Feel It?"

Senior Chris Ramthun on the "beam." Her personal best went from 6.95 last season to a 7.4 this season.

The Kewaskum Indian gymnasts closed out their season with a banquet held at John's Country Inn.

Coach Sue Paul-Kenfield reflected back over the best season she had in five years in which many of her team acquired "new" personal best scores, and the team as a whole kept "re-breaking" the team's best score and arriving at 94.4 to end the season. This score closes the gap on the best-ever team score of 96.987 from 1984 and puts next years team in contention to break that record.

Varsity letter winners included Juli Swenarski, Paula Wilson, Chris Ramthun, Wendy Fideler, Ingrid Ankersen, Stacey Heberer, Stephanie Rund and Tisha Stradtman.

"Swenarski, on the gymnastics team for all four of her high school years, was also voted 'captain' and 'most valuable' gymnast by her

teammates," said Coach Paul-Kenfield of Juli.

"Most Improved Gymnast" was Stacey Heberer, "Most Dedicated" on the JayVee squad were Karen Junk and Deanna Wagner, and "Most Dedicated" on varsity was Chris Ramthun. The gymnastics team over-all had an excellent record breaking season.

JC's to Sponsor CF Bike-A-Thon

The Kewaskum JC's again this spring will be sponsoring a CF Bike-A-Thon. In years passed support in Kewaskum has been great with hundreds of dollars pledged, by you who care.

A serious illness in a family is always painful, especially when it strikes a child — and profoundly so when it is an incurable disease like cystic fibrosis.

Relatively few of us know much about this complicated disease, but the facts are clear and chilling: CF is the #1 genetic killer of children and young adults in this country. It's inherited, degenerative, mainly attacks the lungs and digestive system, and it's incurable.

But as with most things, there is a positive side to the story. Thirty years ago, a child born with cystic fibrosis seldom lived long enough to enter school. But today, nearly half the children born with CF will live into their mid-twenties.

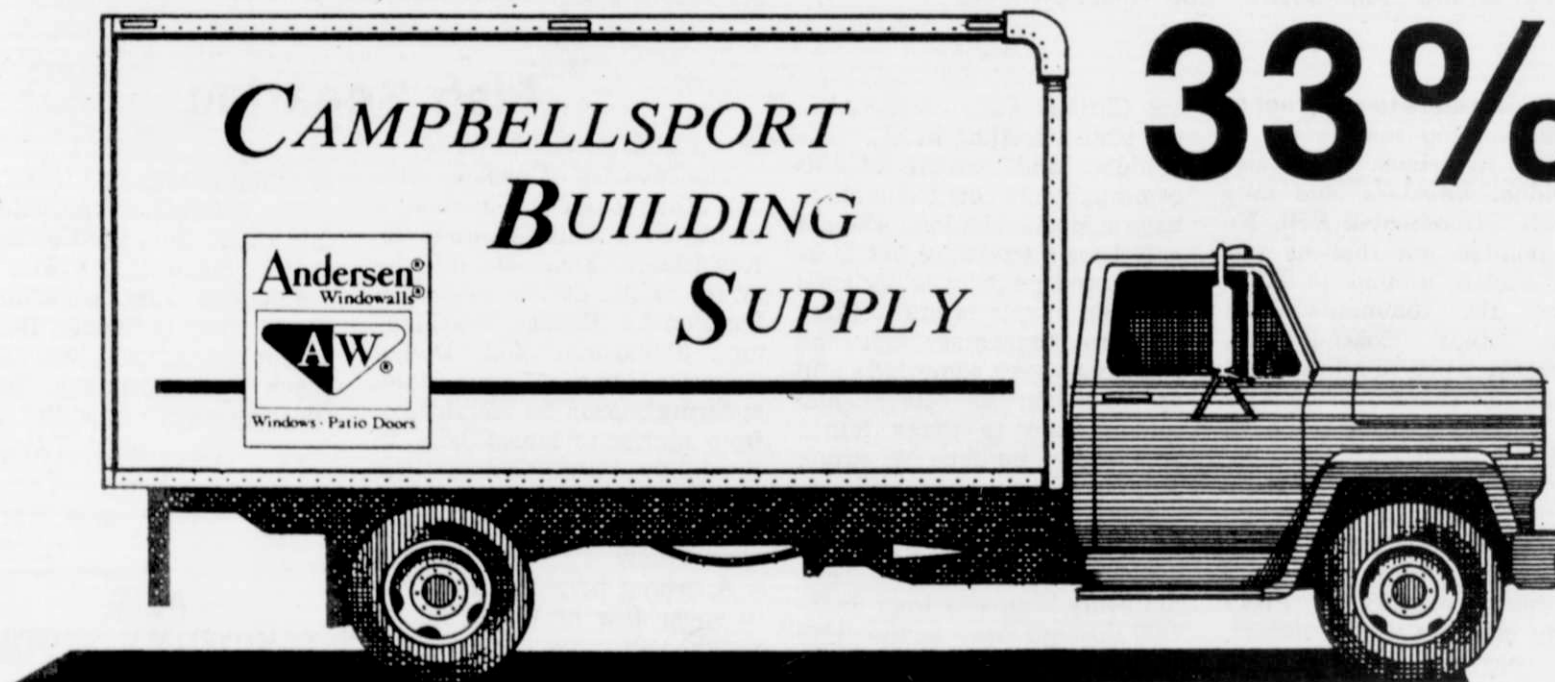

That long leap forward is due to developments in great medical treatment, an effort that requires a lot of money. A great deal more money is needed to support the research that's being conducted nationwide to find a cure for this tragic disease.

That's why we urge every person who is able to help by participating in Kewaskum JC Bike-A-Thon on May 6th, or by sponsoring a participant through pledges.

Watch for more information here in the Statesman and for registration forms at local business or by calling Linda Gavin at 626-2209 or Kathy Broecker at 626-2073.
