County Deputy Overpowered By Hospitalized Robbery Suspect

Shortly after 1:30 p.m. on October 1, 2000, a prisoner being guarded at the West Bend Hospital for Heroin withdrawal, loosened his I.V. and as he was returning from the bathroom, used the I.V. to stab at a Detective, who was guarding the subject.

A struggle ensued, at which time the suspect choked the Officer. The Officer and the subject continued to struggle, ultimately the suspect was able to gain control of the handgun the Officer was carrying. As the struggle continued, the subject ultimately discharged a total of three rounds, one of which he used

to shoot the chain on his leg irons to free his legs.

The nurses assisted during the struggle, but the subject was able to leave the hospital. The subject then carjacked a vehicle in the City of West Bend.

The Washington County Sheriff's Dept. received a report that the carjacked vehicle was seen in the area of Paradise and CTH G, it was southbound on CTH G. A broadcast was put out. Ozaukee County Deputies observed the vehicle on CTH NN. They pursued it to Cedarburg and ultimately in the City of Cedarburg.

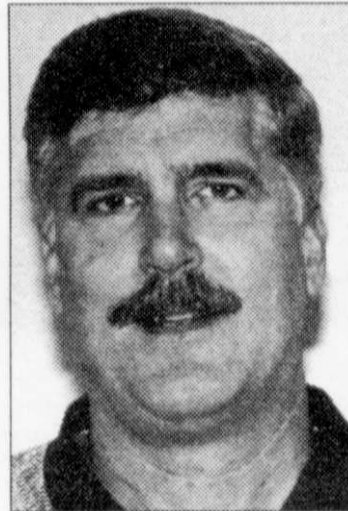

After a shot was fired, a Deputy returned fire and

struck the subject. At that time the subject was taken into custody with what is believed to be a non-life threatening wound.

The subject that was being guarded at the hospital, had been arrested on Friday, September 29, 2000, for Armed Bank Robbery in the Village of Allenton, and had been apprehended along with another person by the Sheriff's Department with assistance from the Germantown Police Department.

Attempted Homicide Charges will be pursued by the Washington County Sheriff's Department as well as other Charges.

Steinhardt Chosen by Board to Replace Fechter

Mark Steinhardt

By Andrew R. Kuehl
Staff Writer/Photographer

The Kewaskum School Board met in a special meeting Tuesday to choose from three, a new board member to fill a vacated seat left by Larry Fechter who moved out of the district.

In addition to Steinhardt's letter, letters were received from past board member and president Neal Weare and Steve Schmitt.

Board president Jon Downs told the the three that they were choosing one of them and encouraged the remaining two to file papers for the spring election.

After much deliberation the board chose business owner Mark Steinhardt of Kewaskum who is a KHS graduate.

Steinhardt is married and has a son in the school district, and a daughter who graduated last year. In his letter to the board he stated "The reason for my interest in this position is a combination of two simple factors. I desire to be of service to the community in which I live, and I recognize the importance of providing a quality education for our youth, in an atmosphere that encourages them to do their best."

Steinhardt holds an Associate Degree in Mechanical Design and a Bachelor of Science in Mechanical Engineering. He is involved in his church board and a member of the Washington County Campus Foundation, an organization that raises and manages scholarship funds for UWWC.

Steinhardt was sworn in at the special meeting and will start at the Oct. 9 regular board meeting. He will serve until the April election when the position will be up for election.

"I think Mark is a solid choice, a new different perspective," said Superintendent Wayne Graczyk.

Prellwitz Awarded Eagle Scout

Congratulations are being given to Ray Prellwitz on his achievement of the Eagle Scout Award, by scout leaders, left to right: Scott Waranius, Jim Uelmen, Tom Tobin, Ray Prellwitz, Ann Neumann and John Kletti.

On Sunday, September 24, 2000, Ray Prellwitz, son of Ray and Caroline Prellwitz of Kewaskum, was awarded the Boy Scouts of America's highest honor, the rank of Eagle Scout.

Ray is a member of Kewaskum Boy Scout Troop 744. He has gone on numerous scout outings over the years, including the troop

canoe trip to the Canadian White Otter Wilderness area and northern Minnesota's Boundary Waters Wilderness area.

Ray's service project required for the Eagle Scout award was tearing down a boathouse at Lac Lawrann Conservancy. Congratulations to Ray for achieving this honor.

And They're Off

The Kewaskum FFA had their annual family picnic Sunday, September 17, to start the year of 2000 - 2001. The officer team was pleased to see the turn out. Over 30 members showed up along with many parents. After a meal and a short meeting some of the members stayed to play football, softball, and even watch the Packers beat the Eagles on TV.

To go along with fire safety week, the second FFA member meeting will be held at the Boltonville fire

department Monday, October 9. Starting at 6 p.m., the department will be having an open house, which will be open to all FFA members, parents, and the general public. After a fire extinguisher demonstration, and a short informational film, the FFA will hold their monthly meeting in the fire department meeting room. Kewaskum FFA would like to invite all to the meeting and meal after. See you in Boltonville.

Fire Department Extends Thanks

The Kewaskum Fire Department would like to extend a sincere THANK YOU to the residents in our fire community for their support this past Saturday during our cookout at the Piggly Wiggly.

Due to your fantastic, ongoing support, we were able to raise over \$2,200 toward the purchase of a Thermal Imaging Camera system. We are now well on our way to raising the \$25,000 needed to purchase this system that will enable our firefighters to quickly

find the fire and extinguish.

Also, a very special thank you to Mike and Jesslyn Geidel, for their very generous support of our department in so many ways. We could not have been so successful without them. And, last but not least, thank you to all of our fellow firemen and EMT's who gave up part of their Saturday to make this a success.

Department members were overwhelmed with this great response, which truly shows that the Kewaskum area is a great place to live!

Kewaskum Farmer Tim Stoffel to Speak About Wisconsin Wild Flowers at MAGF Open House

Kewaskum farmer, a naturalist, and photographer Tim Stoffel will be a featured speaker at Mid-America Geographic Foundation's fall Open House on Sunday, October 22, 2000. The Open House is scheduled from 1 to 4 p.m. at the Henken Lounge on the UW-Fond du Lac campus. Stoffel will speak at 2:30 p.m.

"The Kettle Moraine areas of Fond du Lac, Washington and Ozaukee counties are excellent areas to photograph wildflowers," Stoffel says. "These areas are in what is known as the tension zone, the boarder between the southern grasslands and savannas and the northern forest, so they have species common to both regions. About 60 percent of the wild flowers I have pictures of have been found within a few miles of our farm. Another 25 percent have been found within a few miles of our farm. Another 25 percent have been found in the Kettle Moraine areas of these counties."

Stoffel expects to show slides of 250 of the Wisconsin wild flowers he has photographed and to provide some information about each of them - how the flower got its name, perhaps, or some folklore about the plant, or how the plant was used by Native Americans or our pioneer ancestors.

Stoffel has been taking photographs for the past 25 years. Many of the images he will share were collected over the past 15 years. He is interested especially in the folklore and medicinal uses

of the plants he photographs.

"For centuries the Native Americans used the plants they found, and our ancestors used them," Stoffel says. "They had an intimate knowledge of the plants - which were useful medicinally, which were food sources." The plants were also incorporated into folklore and Native American spirituality, he indicates.

In addition to Stoffel's talk, Dr. Jack Steinbring of Ripon College will highlight his trip to Alice Springs, Australia, where he attended an international rock art congress. Steinbring will speak at 1:30 p.m.

Between speakers at the Open House, MAGF board members will discuss the group's field trip to Marquette County, set for Saturday, November 4, and will outline plans for a "goals and strategy" brainstorming session scheduled for Thursday, November 16.

The November 4th field trip will depart by school bus at 8:30 a.m. from parking lot number one on the UW-Fond du Lac Campus (or from number three if number one is not yet paved).- Participants will visit a number of historic and archeological sites in Marquette County, all uncovered in the past two years. One of the expected stops is a 1500-year-old serpent effigy mound approximately 300 feet long with some astronomical elements built into it. Those interested in registering for the field trip should call Herman Bender at 920-922-7182 or Dave Stetter at 920-872-

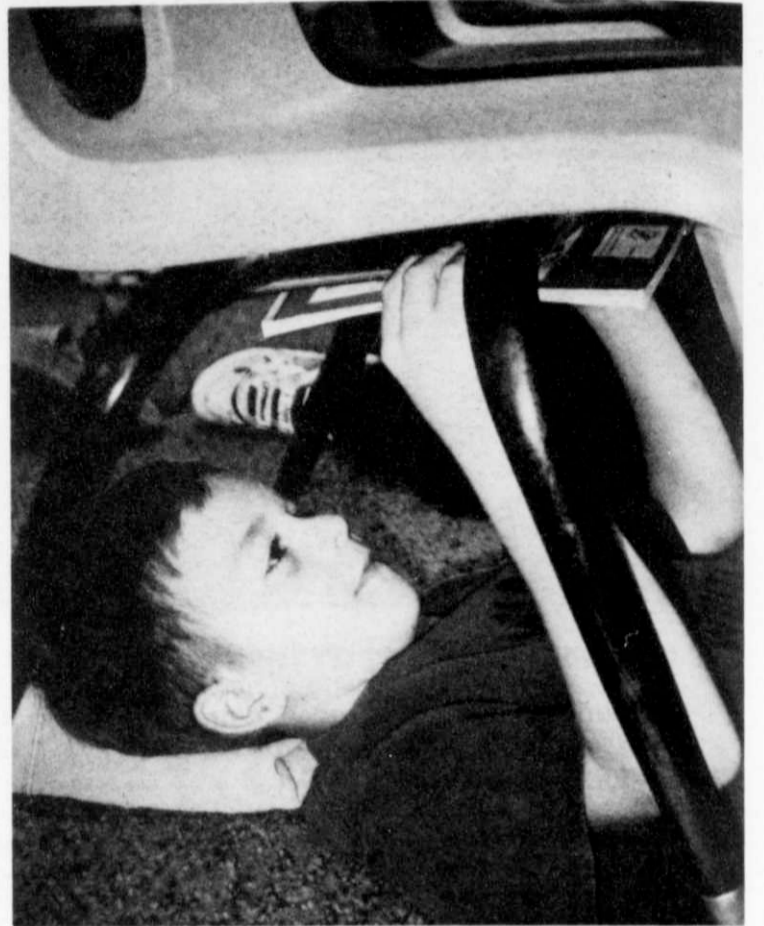

2250. There will be a small charge for the trip, to cover the cost of the bus.

The November 16th goals and strategy meeting is intended to identify the immediate and long-term challenges facing the Mid-America Geographic Foundation and to involve MAGF members more broadly in confronting those challenges. Anyone interested in MAGF's mission is invited to attend session and contribute to the discussion. The meeting will be held on the UW-Fond du Lac campus at 7 p.m. For more information about the session, contact Herman Bender at 920-922-7182.

To obtain a copy of MAGF's brochure outlining its mission, to become a member of the organization, or to make a tax-exempt donation in support of the group's work, write Mid-America Geographic Foundation, Inc., P.O. Box 722, Fond du Lac, WI 54935.

Refreshments will be served during the October 22 Open House. Those attending will have the opportunity to show their artifacts and share information and stories. The public is invited to view the artifacts MAGF will have on display and to bring artifacts of their own for identification. There is no charge for the event.

KES Gets Into D.I.R.T.

Jared Koffke, a second grader at Kewaskum Elementary School, finds a spot beneath a chair to read his book during the schoolwide D.I.R.T. (Day of Independent Reading Time), in which everyone from students to teachers stop to read at a mystery time on a designated day. Jared's class was in music class when the D.I.R.T. announcement came. Students found it an exciting way to further emphasize the fun and importance of reading.

Candy sales are the highest in the U.S. during the month of October—because of Halloween—when they are generally 44 percent above the monthly average for the rest of the year.

Situated on 133 acres of beautifully landscaped countryside, it is centrally located within the county at the junction of Hwy. P, Hwy. PV (Pleasant Valley Rd.) and Hwy. 45. The mission of the Fair Park is to enhance cultural, educational, economic and social opportunities for the people of Washington County. Open since the 1999 County Fair in July, the Fair Park has already been host to over 175 events of all sizes. The 42,000 square foot Fair Park Pavilion as well as the four barns and the Show Arena in the Agricultural Complex have been busy with a variety of events including festivals, concerts, educational programs, competitive animal shows, craft fairs, antique shows, meetings and workshops. The site has received local, region and national praise. At last year's Fair, Governor Tommy G. Thompson called Fair Park "the best fair park in the state, and that includes State Fair Park." Legendary syndicated WGN broadcaster Orion Samuelson stated, "Of all the fairgrounds I have visited, the Washington County fairgrounds is the best."

Just completed and ready for the summer are the Draft Horse Barn and the Pleasure Horse Barn. A large Indoor Arena will be built and ready in 2001.

Opportunities remain for donations to the Washington County Fair Park. The Fair Park is ready to help potential donors select a meaningful contribution.

People interested in knowing more about events, or about becoming a part of this important project, should call the Fair Park office at 677-5060.

News From The Capitol

By Rep. Glenn Grothman

Some Good News

Normally I use this column to inform you of bad news. So I thought I would write a column about some good news. Earth Track, an independent scientific firm, has just reported that the earth's temperature, as measured by global satellites, for June, 2000 is below average since satellites began measuring the Earth's temperature in 1979. Indeed, monthly measurements for most of the last fourteen months are below average for the last twenty years.

You may wonder why certain organizations are talking about Global Warming when these data suggest otherwise. Let us first look at the facts.

Scientists can estimate global temperatures since the time of Christ by measuring tree rings, isotope data from ice cores and ocean sediment cores. Temperatures in the last century are higher than that for any century since the 1300's. However, temperatures were lower in the 1900's than any century from 800 to 1400. It should be pointed out that these worldwide changes are small with the lowest temperature (around 1700) and the highest temperature (around 900) only 2 degrees centigrade apart.

Lest you think that the higher temperatures in this century are due to increased economic activity, you should realize that almost all of the temperature increase was between 1900 and 1940, as temperatures rose consistently. Between 1940 and 1975 with much more economic activity and population growth worldwide temperatures actually fell. They jumped up between 1975 and 1980 and stayed stable since then except for 1998 with the El Nina effect.

The fact is scientists are not at all clear what causes world temperatures to go up and down. Industrial growth is presumably not that significant or temperatures would not have remained stable in the last twenty years or fallen from 1940 to 1975. It is also not clear why estimated temperatures during the middle ages were about 2 degrees centigrade higher world wide than now. It was around 1100 when the Vikings settled Greenland with the temperature averaging a couple degrees warmer than today.

Inflammatory headlines attributing increases in the Earth temperature during this century to industrial-

ization when most of the increase occurred between 1900 and 1940 and exaggerated headlines caused by a two year El Nina effect can be harmful. Young children are being scared in elementary school with misleading environmental courses. Demagogic politicians looking for votes encourage regulations putting American industry at a competitive disadvantage compared to Indonesia, Red China and other third world countries. Indeed the Kyoto accords if passed by the United States Congress would create a International Law requiring American industry to operate with stricter standards than other countries. It is already difficult for American industry to compete paying higher wages without this additional problem.

Of course, it is good that scientists are monitoring global temperatures, but we must look at the facts as measured by global satellites rather than misleading headlines generated by environmental extremists and swallowed by gullible journalists.

Construction Accompanies Schools' Openings

Behind Mrs. Ammel's second grade class, the new Kewaskum Elementary School, due to open next fall, rises on what used to be the KES playground.

Kindergartner Nicholas Banks worked on a puzzle in the newly constructed wing at Farmington Elementary School.

Light streams in from the wall of windows in the new Wayne Elementary School's Art/Music room, while Mrs. Kesting's first graders sing a song.

Decked in their construction helmets (part of the KES school theme this year), fourth graders Josh Harbin, left, and Matt Prunty cut some paper for a classroom bulletin board. To highlight the school's construction theme, the boys' teacher, Mr. Gonwa, had students spend the first day back "constructing" their classroom.

Holy Trinity School Holds Pride Day

Amanda Herriges, grade eight, and Kate Evans, grade one.

Cory Hoss, grade one, and Rachel Dums, grade eight.

Michael Bunkelman, grade five; Ben Schickert, grade seven, and Michael Korth, grade four.

Pride Day

Each year, students at Holy Trinity Catholic School form groups called Prides. Prides consist of an eighth grade leader and students from each of the other classes.

In order to become familiar with the pride members, on September 15, the school held Pride Game Day.

Students in first through fourth grades brought in their favorite games. Eighth graders brought a treat for their prides. The prides played games and enjoyed their snacks.

Everyone made new friends and had a lot of fun. It was a great way to start the new year.

Scouts Attend Encampment

James Blecha, Michael Neumann, Jeff Shaw, Clark Stamm, Tayler Stamm and Johanana Walters, Boy Scouts of Kewaskum Troop 744, attended the Civil War Encampment and Re-enactment at Old Wade House in Green Bush on September 23 and 24.

The scouts interacted with the more than 1,200 costumed re-enactors to get answers on the encampment scavenger hunt.

The highlight was the battle re-enactment. A half mile viewing line and a battlefield that reached the length of two football fields offered close proximity of a battle as muskets and cannons blasted.

The 8th Wisconsin Volunteer Infantry, the eagle regiment, were honored. Following the battle the scouts watched doctors and nurses perform mock operations at the field hospital.

PRAYER OF THE BLESSED VIRGIN

Prayer of the Blessed Virgin: (Never known to fail). Oh, most beautiful flower of Mt. Carmel, fruitful vine, splendor of Heaven. Blessed Mother of the Son of God, Immaculate Virgin, assist me in my necessity. Oh Star of the Sea, help me and show me here you are my Mother. Little Folks Wraps Up School Age Summer Program

"The Little Folks School Club" wrapped up the summer session on September 1. The school age program was housed in the Salem United Church over the past few months. Doreen Kowalczyk of Kewaskum and Bonnie Herman of Wayne, job-shared the teaching position. Judy Luedtke of Kewaskum also spent time with the group.

The children seemed to have a good summer. They kept up their reading skills, thanks to the Kewaskum Public Library, who offered a reading program. The librarians even dropped off and picked up the books from the center every few weeks.

The children kept up their writing skills as they participated in a pen-pal program with Tender Loving Day Care in Oshkosh.

They put on both a play and a circus for the little folks. They seemed to enjoy the activities which were planned for them such as science experiments, cooking adventures, and outdoor play including sprinklers and water balloons.

Both the little folks and the school age group attended two field trips over the summer. One to the Fox Cities Children's Museum in Appleton and one to the Milwaukee County Zoo.

The children also took part in weekly bowling trips to King Pin Lanes in Campbellsport where they learned good sportsmanship and the basics of bowling. They also had the opportunity to participate in weekly computer classes offered by Kids on Line of Campbellsport.

Both groups also had summer visitors. Ident-i-kid services came out to offer ID cards for parents. Deputy Rewerts of the Washington County Sheriff's Department visited to present a safety unit. Marilyn Brath

and some of the 4-H group came out during Dairy Month to do related activities with the children. Terry and Deb McCardell from Kids on Line also came out and offered a "wearable art class." The children had the option of choosing a design, or coming up with their own design and then have it screen printed on a T-shirt.

The summer was very busy, but very exciting. The children are now headed back to school. The Little Folks School Club will again offer before and after school care at the Wayne Elementary School. They want everyone to know that this is not a "babysitting" service.

It is a program for school-age children, a place where they can be safe and cared for while their parents are at work. It is a program which offers quiet time, free play, outdoor activities, games, and arts and crafts. Anyone wanting more information on either of the programs should contact Dodie at 626-4023.

The children and the staff would like to thank the following for helping to create a successful summer: Kewaskum Public Library, Ident-i-kid service, Deputy Rewerts, Kids on Line, King Pin Lanes, 4-H, and a great big thank you to Salem United Church for accommodations.

New DPI Website Helps Guide Continuous School Improvement

MADISON - In an effort to support continuous school improvement activities statewide, the Department of Public Instruction launched the Wisconsin Information Network for Successful Schools (WINSS) Wednesday during the annual fall conference for the state's school superintendents. The interactive website is an informational resource to assist school communities in helping children achieve academically and become productive and responsible citizens.

The DPI, with financial support from the North Central Regional Education Laboratory (NCREL) and the Office of the Governor has worked for the past year to develop the site for parents, schools and communities, who by working together can help ensure that all children succeed.

It is designed for both inexperienced and experienced web users and is built around a series of questions that help guide visitors to the information they need. The goal is to help inform communities about the accomplishments of their students and schools and to share the many models of success that exist in schools across the state.

"DPI staff wanted to be able to provide support not only to those schools that need intensive improve-

ment, but to all schools as they continuously improve," said State Superintendent John T. Benson. To reach that goal, the DPI prepared a school improvement guide that included a framework and improvement process for school success. The resulting publication is the "Characteristics of Successful Schools Guide," which became the basis for the development of WINSS.

"We are really excited about the potential for this statewide electronic report card," Benson said. "Accountability is a mantra for education, and WINSS meets that demand head-on in a 21st century format that is open and inviting to everyone."

The WINSS website contains four areas

* **Standards and assessment** outlines Wisconsin's expectations for students and provides ideas, information, and tools to assess programs as parents, schools, and communities strive to educate the hearts and minds of all students.

* **Data analysis** relies on questions, graphs, and tables in a way that lets visitors make better use of the information presented in the data. Links to local websites, where available, are provided for more information about specific schools.

* **Continuous School Improvement** describes the characteristics of a success-

ful school as well as ideas and tools to help school communities in the improvement process.

* **Best practices** will help answer key questions related to implementing each of the following characteristics of a successful school:

- vision,
- leadership,
- high academic standards,
- family, school, and community partnerships,
- professional development, and
- evidence of success.

WINSS offers a barometer of how well Wisconsin's public schools are doing, Benson noted, and is a valuable tool for educators, parents, and taxpayers interested in informative analysis and meaningful comparisons. Collected as part of the School Performance Report, some of the data includes information on test scores, school and district demographics, suspensions and expulsions, funding and staffing levels.

"There are many benefits in having this information so accessible," Benson said. "For example, it allows schools to readily identify areas of excellence and areas of need. It allows parents and community members to become more knowledgeable about how their school or schools are doing, and it provides access to resources and strategies for school improvement."

David Stone

Cedar Campus CEO Steven Jaberg announced this week that David Stone has been named Manager of Friendship House, the new assisted living facility for older adults with early stages of Alzheimer's Disease and other memory loss. Friendship House is scheduled to be dedicated with a ribbon-cutting ceremony with local dignitaries present on October 12 at 4 p.m. followed by an open house reception until 7 p.m.

Stone has been employed by Cedar Campuses for 21 years and is eager to offer this exciting living option -

the first of its kind in Washington County - on behalf of the organization. Friendship House will feature a homelike atmosphere with programming that is tailored to the specialized needs of residents living with Alzheimer's Disease and other forms of memory loss. This new facility is housed within the Cedar Lake Health Care Center and is licensed to care for up to 18 residents.

An alumnus of State University of New York - Fredonia, Stone's previous roles at Cedar Campuses include having been an Activity Music Therapist and more recently Activity Director for the Health Care Center. Recently Mr. Stone gave his view of success planned for this newest venture for Cedar Campuses. He said, "Resident families' active involvement, combined with our dedicated, compassionate and specially trained staff will be key to our residents contentment in their new home at Friendship House." The public is invited to attend the October 12 events.

Driver Distractions Are Worse In Winter, Says AAA Wisconsin

A growing proliferation of cell phones, CD players, Internet devices, fax machines and on-board navigation systems is causing American motorists to become distracted - and challenging driving conditions this winter will only make matters worse, says AAA Wisconsin.

"Driver inattention is estimated to be a factor in 25-50 percent of all highway collisions," said AAA Wisconsin spokesman Michael Bie. "Add reduced visibility and snow-covered or slippery roads, and even greater driver awareness is needed - which means the slightest distraction could cause loss of control and a deadly incident."

According to Bie, distraction can result when a driver performs any activity that may divert his or her full attention from the driving task - high-tech or low-tech. In fact, driver surveys indicated the most common distractions are: tuning a radio, eating, drinking beverages, conversing with other passengers, reading and writing, talking on the phone and personal grooming.

How dangerous are these seemingly mundane activi-

ties? Studies suggest that the act of inserting a computer disc, for example, increases the likelihood of a crash six times when compared to, say, glancing at the fuel gauge.

Programming on-board navigation systems can increase the risk of a crash 30 times. Talking on a cell phone in a moving vehicle quadruples the risk of collision.

To help reduce the risk of driver distraction this winter, AAA Wisconsin offers the following safe driving tips:

- ◆ Always buckle up and be sure all passengers and objects are properly restrained.
- ◆ Never drive impaired by alcohol, drugs, fatigue or

stress.

- ◆ Keep your hands on the wheel and your eyes on the road.
- ◆ Avoid using in-vehicle electronics while driving.
- ◆ Do not engage in stressful or emotional conversations that might divert your attention from the road. Hands-free is not always risk-free - the more complex the conversation, the higher the level of distraction.
- ◆ Do not take notes or look up phone numbers while driving.
- ◆ Don't eat and drive.
- ◆ Don't drink and drive.
- ◆ Don't apply makeup while driving.

AAA Wisconsin is a not-for-profit membership organization offering travel, insurance, financial and auto-related services to more than 568,000 members statewide through 14 office locations.

To the Kewaskum Statesman,

This is in response to the article in the September 21 issue on the Town of Scott board meeting. We really don't know what happened between the meeting and the printing of this article, but it surely is not an accurate account of the meeting we were at. The Beechwood Fire Department is NOT asking the Town of Scott to make payments for our building addition. We repeat, we are NOT asking the Town to make our payments. We have had our financing set up through our bank at 9.05% since March 16, despite what one supervisor believes. Since the time of setting up this loan, we found out we could get the same five year loan through the town, from The Board of commissioners of Public Lands for 5.0%.

The only reason we asked the town was because such a loan can only be obtained through a municipality or county agency not a private citizen or corpora-

tion. By going through the town we can save 4.05%. Oh, and by the way, the correct amount was \$35,000.00 not \$31,000.00. Due to certain circumstances, our state loan application was lost during the 2000 change over of officers on the board after the elections. We continued to request the application, but didn't have too much success.

When we finally received the application, it said it would take four to six weeks to process the loan. We did ask the town board, because of the problems in receiving the application, if there were funds available to pay the bills that were expected to come due before the loan was received. This was to avoid opening up a short-term loan agreement at our bank because we knew it would be less than sixty days.

This information was explained at the meeting and is in the minutes of the board meeting. Seeing that the monies available cannot be used for this purpose, we will have to open this agreement for ninety days at a rate of 9.35% (due to the length of the loan) until the state loan is received.

In the future please check the facts before printing the story. All of our information is documented in the minutes of the board meetings and the Fire Commission meetings, is yours.

Lana H. Kuehl,
 Publisher/Editor:

"THANK YOU!" KEWASKUM.

Thursday, September 28, I was invited to the "newly-formed" Kewaskum Woman's Club, to which I gladly recognized my membership to. Minerva Martin, at age 90, "showed" her beautiful face by being present in the evening, and also, Elda Kuehl. And, not present, but still an active member is LaVerne Hron. And, those Honorary's that still pay their dues. So, right now, there are only 22 active members.

Once again being at a meeting such as that -- brought me back to the "good old days" as to when the Kewaskum Junior Women's Club was being formed. My, oh, my.... that was in the late 60's! We were all young and energetic (just like now) women with young families of your own. What happened to those years??

Do you think that we

are too "old to cut the mustard" anymore? I only saw one past president of the Junior Women's Club present at Thursday's meeting. If, I remember, Kathie Ramthun was the third president and held office for a two year term.

The commitment of "adding wealth" to our loved community by "People Helping People" never left us and it was all that counted, because our farmland community was prosperous and friendly as could be.

Remember gals? Those days can come back even at the age of what you are today. And, it does not have to be past Juniors... but your neighbor and my neighbor.

Wouldn't it be GREAT if all of our ladies church societies would get together and bring one of their favorite tortes to help the Women's Club out at the Kettle Kountry Kolers Family Festival, Saturday and Sunday, October 7 and 8. It happens to be one of its biggest fund projects of the

year. It would help carry expenses.

Faith - Hope - and Charity is what it's all about! Volunteering can be **CAUGHT** -- by **YOU!** Just maybe you'll pass it on!

Do you think I was recording secretary for the Juniors in 1970 for nothing?? Or do you think that's why the Women's Club wanted my membership... 'cause they knew I would write this letter of information?

Class Offered to Help Children Prepare for Sibling

Children who will soon have a new baby brother or sister are invited to participate with their parents in the sibling class sponsored by St. Joseph's Community Hospital of West Bend. The class will be held Thurs-

day October 5 from 6 to 8 p.m. or Saturday, October 7 from 9 to 11 a.m. in the hospital's four-east conference room.

Designed for children between the ages of three and 10, the class will present information on basic anatomy, newborn abilities, and the child's role as a big brother or big sister. A video, a tour of the New Life Center, and fun hands-on activities will help the child prepare for the mother's stay in the hospital and the new baby's arrival.

The New Life Center suggests that the class be taken within a month of the mother's due date.

The fee is \$10 per child, and \$5 for each additional child from the same family. Pre-registration is needed. For more information, please call St. Joseph's Community Hospital's Class Connection Line at 306-7888.

Senior Sarah Williams helped lead the team to the victory by scoring six points for the night.

Fellow senior Kathryn Schneider had an outstanding night with 12 assists.

"The girls put in a good week of practice and came out hitting. We controlled the match with great defense and a strong attack. It was a fun match to play in front of the parents night crowd," stated Coach Dave Rizzardi.

This leaves the Indians 8 - 1 in the conference while the JV team is 7-2. The freshmen have had an awesome season so far with an 8-0 record.

KMS Eighth Grade Girls Track Team Remains Undefeated

by Jerry Gosa

The Kewaskum eighth grade girls' track and field finished their dual meet season undefeated with a 57-46 win over Pewaukee on Wednesday, September 27. Kewaskum and Pewaukee each had five individual first places and five individual second place finishes. The difference in the meet was that Kewaskum won all three relay races - the 800m, 400m, and the 1600m. Scoring the relays is five points for the first and 0 points for second in dual meets.

The Kewaskum relay team of Jessie Butler, Katie Dorn, Whitney Pfeiffer and Leslie Schultz won the 800m relay with a time of 2:07 and the 400m relay with a time of 1:01.1. The foursome of Jenny Bischoff, Natasha Lawrence, Kayla Mc Cormack and Krystal Cochran won the 1600m relay with a time of 5:11.2. Bischoff subbed for Paige Thelen, the usual starter of the relay, due to a conflict with religious instruction. The Pewaukee meet was ini-

Krystal Cochran ran the 400m dash in Paige Thelen's absence and won with a time of 71.9 seconds while Pewaukee again finished second and third. Amanda Donath won the 200m dash with a time of 29.7 seconds. Again Pewaukee took second and third. Robin Thelen ran a very determined race

again and dropped below three minutes in the 800m run for the second time in two days with a time of 2:55.9.

Pewaukee swept the top three places in the shot put, but Kewaskum answered by sweeping the top three places in the long jump. Amanda Donath, Whitney Pfeiffer and Jessie Butler jumped 12' 9", 12' 5.5" and 12' 0" respectively. Pewaukee won the discus, but Kewaskum's Claire Spang and Samantha Hedlund finished second and third with throws of 65' and 63' 10" respectively. Spang finished just nine inches behind first place. Kayla Mc Cormack finished second in the high jump with a jump of 4' 3".

Improving KHS Mens Soccer Team Loses Two Matches

KEWASKUM 0 KIEL 2

The Kewaskum men's varsity soccer team hosted the Kiel men's varsity soccer team on Thursday, September, 28.

The Kiel team tested the Indians with several strong attacks on the host's goals. Kewaskum played great defense during the game.

Justin Wessing, Kurt Cochran, Braedy Long, Bryan Becht, Chris Baker and Micah Olla played an excellent game for the Indians' defense, stopping the attacks Kiel had on their goal.

The Indian defense rallied and held Kiel scoreless for the second half and moved the ball into Kiel's zone, threatening their goal.

Mitch Hawkinson, Keith Boegel, Russel Borland, Jason Ramirez, Jacob Clayton, Shane Harlacher and Kevin Lemke provided offense for the Indians.

Every game is the best game played which is the result of the hard work during practice for the Indians. Congratulations to the team for constantly improving. Coach Mathia stated, "I'm proud of each and every one of them!"

KEWASKUM 1 NEW HOLSTEIN 2

The Kewaskum men's varsity soccer team visited the New Holstein men's team on Tuesday, October 3.

New Holstein played a

strong inside and outside game, but Kewaskum shut down their opponents with great defense and good offense. Kewaskum played a great outside game, taking the ball into New Holstein territory continuously during the game.

Justin Wessing, Kurt Cochran, Braedy Long, Bryan Becht, Chris Baker, Kevin Lemke and Micah Olla played an excellent game both in defense and playmaking to challenge the New Holstein team for command of the game.

Mitch Hawkinson had several excellent headers that just stuck to the New Holstein's keeper's outstretched hands. Micah Olla scored the Indians only goal unassisted with a sizzler that froze New Holstein's goalkeeper.

Mitch Hawkinson, Keith Boegel, Russell Borland, Jason Ramirez, Jacob

Clayton, Shane Harlacher, Adam Hickmann and Josh Timblin provided offense for the Indians. Some of the freshmen had an exceptional game. Kevin Lemke played a fast paced game at right midfield. Shane Harlacher played superbly at wing. Adam Hickmann played a tough game at wing, moving offense and stopping New Holstein's offense. Russell Borland played one of his best games of the year.

Luke Piwoni had his greatest game at goal for the year. Luke had many professional saves and demonstrated his courage on some of the most difficult saves he has had to make this year. Luke is truly a leader for this young team.

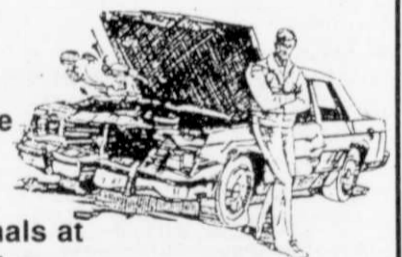

The Indian defense played their best and the offense clicked with strong movement to New Holstein's goal. The team is finally developing synergy and playing good soccer.

Indians Claim Kettle Moraine Bowl Trophy by Beating Cougars, 26-23

The Kewaskum Indians, on the left, get down and are ready to go toe-to-toe with the Campbellsport Cougars in their quest to bring home the Kettle Moraine Bowl Trophy.

A happy Indians Coach, Tim Rohlinger, Center, holds the Kettle Moraine Bowl Traveling Trophy following the Indians win over the Campbellsport Cougars Friday evening.

The traditional Kewaskum/Campbellsport rivalry lived up to its billing on Friday as the exciting game went right down to the wire. The Indians took a 20-3 halftime lead, but the

Cougars were able to make some adjustments and fought back to make it a much closer game in the final two quarters. The Indians scored first on a four-yard run by Justin

Rhoads with 1:04 remaining in the first quarter. The extra point by Charlie Sparks was good. With two minutes elapsed in the second quarter, the Indians scored again on a 63 yard

fumble recovery by Charlie Sparks.

Troy Koefel had excellent penetration and caused the fumble setting up the return. The extra point try by Matt Hartmann missed just to the left.

The Cougars were able to get on the board in the second quarter with a 43 yard field goal by Matt Millonig. The Indians scored again on a 42 yard pass from Tom Ogi to Charlie Sparks. The extra point by Matt Hartmann was good, making the halftime score the Indians 20 and the Cougars 3.

The second half was a completely different ballgame as Campbellsport came out and scored on their first drive when Tony Kastner ran into the endzone from one yard out. The extra point by Matt Millonig was good.

The Indians proceeded to turn the ball over on their next possession when a pass from Tom Ogi, intended for his brother, Bob, was tipped and intercepted by Matt Millonig. The Cougars quickly turned the play into points when Josh Glass hit Steve Ketter from 29 yards out. The extra point by Millonig failed, bringing the score to 20-16 in the Indians' favor.

The Indians were able to bounce back and get on the scoreboard again on the next drive when Justin Rhoads scored on a 29 yard run. The snap on the extra point was high and the kick

failed.

The Cougars scored one more time with 3:04 left in the game when Ketter and Glass hooked up again from 19 yards out. The kick by Millonig was good making the score 26-23, Indians.

The Indians were not able to control the ball to run out the clock, but Chris Canter came up with a big interception to seal the victory and bring home the elusive Kettle Moraine Bowl Trophy.

The Kettle Moraine Bowl was instituted a few years back, prior to Campbellsport's inclusion in the Eastern Wisconsin Conference. Many years ago, Campbellsport and Kewaskum were both members of the Scenic Moraine Conference and the games between the two rival teams that are so geographically close, were always intense.

In hopes of bringing this intensity back to the area, the Kettle Moraine Bowl was begun with the two teams that are close in location, but then, were in different conferences. The game prior to this year was scheduled as a non-conference game with the winner taking home the traveling Kettle Moraine Bowl Trophy. The traveling trophy will now spend a year in Kewaskum, hopefully to stay even longer!

The Indians are now 5-1 overall (3-1 in conference play) and travel to Manitowoc Roncalli on Friday for a 7 p.m. start.

Indians vs. Cougars Pictorial

Kettle Moraine Bowl Trophy to Spend Time in Kewaskum

The Indians' Bob Ogi #4 struggles for more yardage as the Cougars pile on to stop him.

Charlie Sparks #88, Nick Thorn #78 and other Indian team members listen intently as Coach Tim Rohlinger, left, and Assistant Coach Dennis Butz share play instructions.

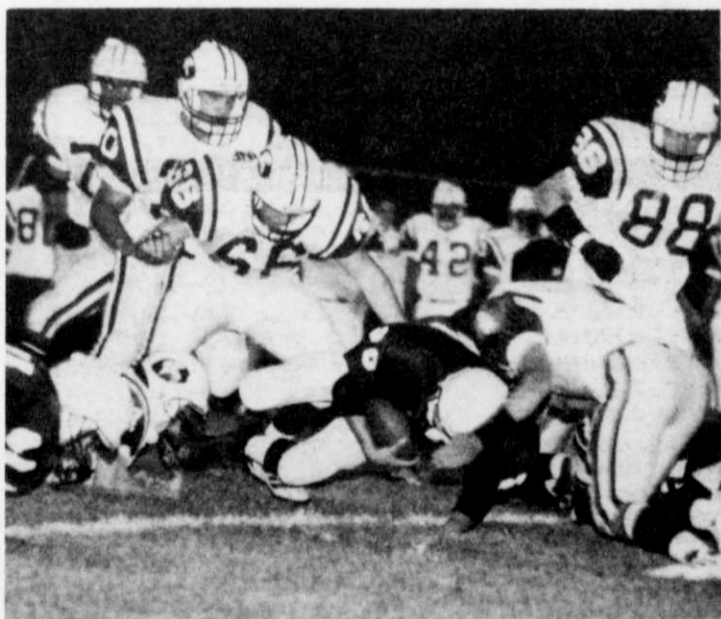

Kewaskum's Chris Canter #20 runs to daylight as team member Charlie Sparks #88 (partially hidden) prepares to take the Cougar's Tony Hansen #61 out of the play.

No. 24 for the Indians, Tony Fitts, sees some running room.

Justin Rhoads, #44 for the Indians, scored twice for the Indians, once on a four-yard run in the first quarter, and again in the second half on a 29 yard scamper.

An unidentified Cougar running back is rudely introduced to the Indian defense.

Jubilant Kewaskum Indian football team members proudly hoist the Kettle Moraine Bowl traveling trophy they received custody of by winning the game Friday evening over the Cougars, 26-23.

Welcome to Kewaskum Kettle Kountry Kolors

By Andrew R. Kuehl
Kettle Kountry Kolors Festival Chairman

On behalf of the Kettle Kountry Kolors Festival Committee, it is my pleasure to welcome you and your family to Kewaskum's 11th Kettle Kountry Kolors.

We have planned a festival that has something for everyone, including bingo, crafts, sports, a Buckskinner encampment, a hypnotist show, a children's activity tent and you can't forget the main event...FOOD!

Kettle Kountry Kolors Festival is sponsored by the Kewaskum Area Chamber of Commerce as a community event that supports the community. When Kettle Kountry Kolors was first started the idea was to draw people into the area for a weekend to benefit the business community and through the support of that business community Kettle Kountry Kolors is what it is today.

Kettle Kountry Kolors

has always been a FREE family fun festival. Originally it was decided the festival was a "gift" to area residents from local businesses to thank them for shopping here and supporting the local businesses. Please don't forget to continue doing so.

Without the support of local businesses giving money, time and manpower Kettle Kountry Kolors would be no more. I wish to thank all of the businesses and there are many who have helped my committees and myself.

This years Committee Chairs are as follows:

- Andrew R. Kuehl**
Kettle Kountry Kolors Festival Chairman
- Wendi Dreher**
Kettle Kountry Kolors Festival Craft Tent Chairman
- Lana Kuehl**
Kettle Kountry Kolors Festival Badger/Packer Tent Chairman

This year we all made a very big realization, Kettle Kountry Kolors has outgrown our organization and we need community members and other organizations to help chair different aspects of the festival. So far we have had three very wonderful people pitch in and help serve on committees, these people are not members of the chamber but members of the community they love and they need to be recognized.

In 1998 Patsy Panzer showed up at a planning committee meeting, eager to help. She helped that year, and went on to chair the sign committee for 1999 and 2000. Patsy works two jobs and participates in a number of other organizations, but still finds time to help her community. So when you see Patsy putting up signs this weekend please take the time to say thanks!

Also in 1998 Scott and Peggy Timm came to that same meeting wanting to be an active part of the community they had moved to. Scott and Peggy both were active in 1998's festival. In 1999 Scott chaired the festival with me and Peggy was right by his side. They were and still are, an integral part of the festival, always willing to lend a helping hand to undertake so many of the mandatory behind-the-scene chores to help Kettle Kountry Kolors run smoothly.

New this year is Pat Hafermann. Pat also wanted to help her community

which is why she volunteered and plays an active role in this year's festival.

If you or your organization wishes to get involved, please contact me at 262-626-3312.

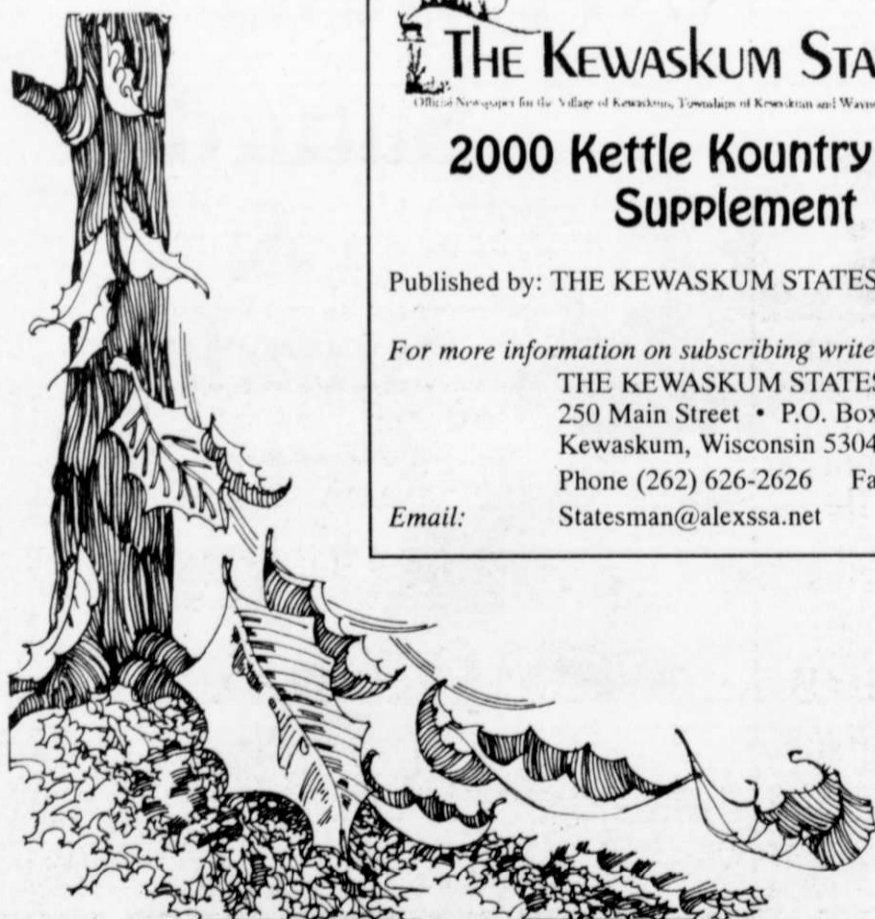

Please feel welcome to enjoy our Kettle Kountry Kolors. We have much to

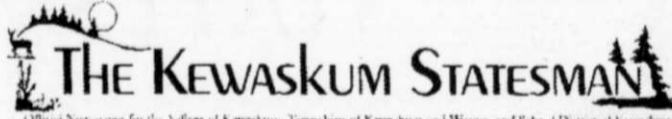

share with you. Please take the time to support the local businesses who have made this festival possible.

Sincerely

Original Kettle Korn To Be Featured at Kettle Kountry Kolors

By Nicole Rawley
Statesman Staff Member

John and Barb Rolling of Phillips, WI, creators of the Original Kettle Korn are pleased to invite you to join them in their appearance at the Kettle Kountry Kolors festival this weekend, in Kewaskum.

"Kettle Korn" is an age-old German tradition. Originally, German immigrants would pop their popcorn in large iron kettles after long work days. They then would add honey, molasses, or sugar to sweeten their freshly popped treat. The demonstrators still use a huge kettle to pop the popcorn in, however for commercial use the patented Original Kettle Korn popping system has been streamlined.

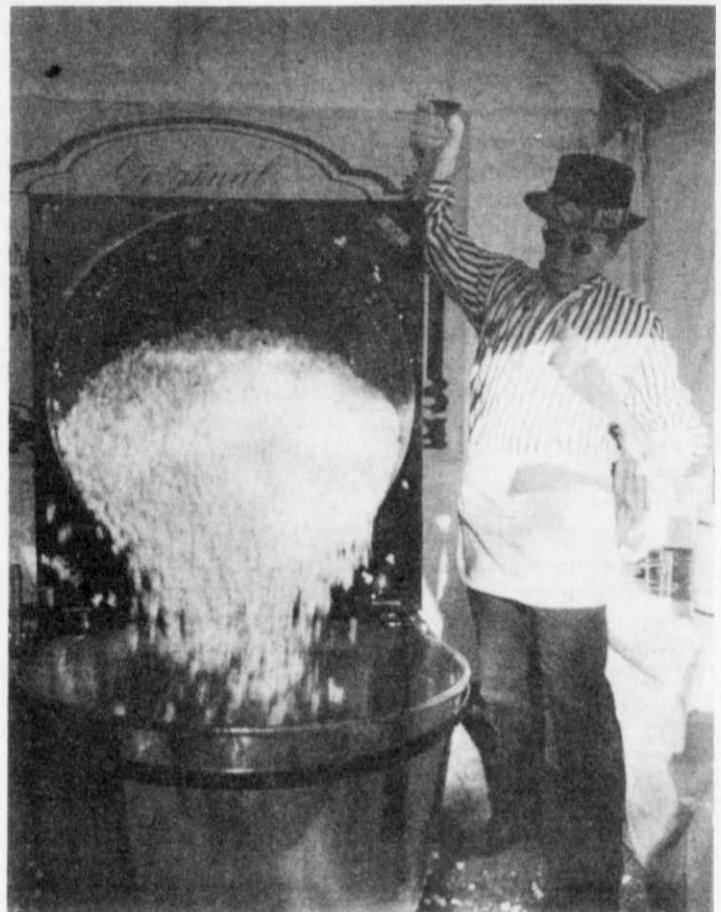

Using a special recipe from the early 1800's the corn is popped in a stainless steel kettle while being stirred with a wooden paddle. The finished product is then turned into a large handcrafted copper kettle - a show-stopper for the public to enjoy.

The popcorn is then sold in three different sized bags. There will also be free samples for those who are interested in tasting this semi-addictive treat. The product has a wonderful distinct sweet and salty flavor. It is also a healthier product due to it being popped in soybean oil.

See John and Barb dressed in authentic garb of the Kettle Korn era they represent in the main park area of the festival.

John and Barb Rolling of Phillips, WI pose in their tent after a day of making Kettle Korn.

John pours the Korn into the copper bowl. The Rollings will be at Kettle Kountry Kolors demonstrating their age old recipe both days of the festival.

Revival Meeting Reenactment New Addition To Kettle Kountry Kolors

By Louise Martin
Statesman Correspondent

The reenactment of a significant part of American History will be a new attraction at Kewaskum Kettle Kountry Kolors 2000. You are invited to relive the Great Awakenings, a time of religious interest from 1740 to 1850. An overview of the Great Awakenings will be held in the Bucksinner encampment area on Saturday for one hour beginning at 10:00 a.m., 1:00 p.m. and 4:00 p.m. On Sunday the one hour sessions are scheduled for noon and 2:00 p.m.

Guest speakers dressed as 18th century evangelists, Jonathan Edwards, George Whitefield and Charles Finney will be portrayed by ministers from area churches, Steve Day, Jeff Koerner and Kevin Barrett. The sessions will be narrated by Joe Brath who will be dressed as George Washington.

Interest in general revival peaked in the American colonies in the early 1740's when colonists lacked spiritual commitment. Jonathan Edwards was an early theologian and clergyman who delivered powerful sermons which resulted in a great number of people turning to the Lord. Edwards teamed up with British evangelist, George Whitefield in 1740. The two men started a revival movement that developed into a religious frenzy engulfing all New England. Whitefield was welcomed with open arms by enthusiastic, vast crowds of American colonists coming to hear him preach the works of God.

In the 1800's a second Great Awakening, which lasted approximately 25 years, occurred with circuit riders traveling from farm to farm in the frontier to bring the word of God. People would come from miles to hear the inspiring word of these riders.

Charles Finney was a New York lawyer turned preacher. He used lawyer tactics of reason and logic to persuade people to give their souls to the Lord. He went down to the street level with people expecting an immediate decision that they reform their lives. Finney preached during a benevolent age of prison reform, slavery and helping the poor.

When George Whitefield preached his first sermon, at age 21, someone complained to the bishop that Whitefield (pronounced Wit-field) has driven 15 people insane.

Anglican ministries of the day were controlled, dignified, even stuffy in preaching. Whitefield, though, was intense, emotional and dramatic. "I could hardly bear such unreserved use of tears," wrote one observer, for Whitefield was "fre-

quently so overcome, that, for a few seconds he never could recover." Whitefield explained, "You blame me for weeping, but how can I help it when you will not weep for yourselves, though your immortal souls are on the verge of destruction?"

In America, Whitefield was a sensation. his impassioned preaching on the "New Birth" helped spark what historians have called The Great Awakening. It's easy to "underestimate" the effect of the Awakening on eighteenth-century society. "The Awakening on eighteenth-century society. "The Awakening was like the civil-rights demonstrations, the campus disturbances, and the urban riots of the 1960s combined."

He often preached to thousands of people; and great crowds rode large distances on horseback to hear him. Benjamin Franklin, Whitefield's friend, once calculated that, in a day before loudspeakers, Whitefield could make his voice heard to 30,000 people!

Thousands discovered, as one Connecticut farmer put it, "my righteousness would

not save me."

Here is a first-hand account by Nathan Cole, a farmer and carpenter of Kensington Parish, now Berlin, Connecticut, who lived about 12 miles from Middletown, where George Whitefield was to preach on October 23, 1740.

"I was in my field at work; I dropped my tool that I had in my hand and ran home to my wife, telling her to make ready quickly to go and hear Mr. Whitefield preach at Middletown, then run to my pasture for my horse with all my might, fearing that I should be too late..

As I came nearer the road, I heard a noise something like a low rumbling thunder and presently found it was the noise of horses' feet coming down the road... Every horse seemed to go with all his might to carry his rider to hear news from heaven for the saving of souls. It made me tremble....

I turned and looked towards the Great River (Connecticut River) and saw the ferry boats running swift backward and forward bringing over loads of peo-

ple...

The land and banks over the river looked black with people and horses. All along the 12 miles I saw no man at work in his field, but all seemed to be gone.

When I saw Mr. Whitefield come upon the scaffold, before some thousands of people with a bold, undaunted countenance. And my hearing how God was with him everywhere as he came along, it solemnized my mind and put me into a trembling fear before he began to preach. For he looked as if he was clothed with authority from the Great God, and a sweet solemn solemnity sat upon his brow, and my hearing

him preach gave me a heart wound. By God's blessing my old foundation was broken up, and I saw that my righteousness would not save me."

He preached in meeting houses, in barns, in fields, from wagons. Everywhere it was the same; people convicted of sin, driven to the foot of the cross.

At none of the meetings was there an "invitation." Whitefield merely preached and then waited for the Spirit to move. There were no counselors, no decision cards. When people were converted, they leaped up to tell about it or made it known later.

Badger/Packer Tent Returns to Festival

If you happen to be one of those people who are undecided on whether you want to attend this year's Kettle Kountry Kolors festival because you absolutely, positively do not want to miss a minute of the Badger or Packer games on TV, you're worries are over!

As a special feature, the Kewaskum Area Chamber of Commerce has brought back the Badger/Packer Tent (also known as the Food Court) so you won't have to miss a second of the exciting play-by-play of the Badgers facing Ohio State on Saturday and the Packers taking on the Detroit Lions on Sunday.

Entertainment in River Hill Park has also been scheduled so as not to interfere with the live action of the games.

The Packer Tent was such a hit two years ago it was a must that we bring it back again on Sunday this year and add the ever-popular Badgers to the roster for Saturday.

Unlike being AT the game, there will not be a bad seat in the Kettle Kountry stadium. A large 46" TV has been reserved for your viewing pleasure, and the news gets even better! The TV will be raffled off immediately following Sunday's Packer game. So you could be the new owner and go home with the TV simply by purchasing a raffle ticket during halftime, or when you have to pause for refreshments.

Bring your favorite, most comfortable lawn chair or you can relax in the seating provided. The Chamber will have peanuts for you to munch on during the games and will be selling lots of "stadium refreshments."

What fun is attending a game if you can't enjoy the concession stands during halftime? Well, we've taken care of that for you too!

Besides the Chamber selling ice cold (or hot if the weather dictates) refreshments, Dairy Queen will be selling their ice cream

treats inside the stadium (tent). Another vendor, Klippo's Catering, will be featuring roast pork sandwiches, corned beef sandwiches, Chicago style hot dogs and real Italian sausage, especially prepared for the Badger/Packer games.

Who could ask for anything more? Well there is more. Just in case the football games bog down or the action slows down, (highly doubtful with the Badgers and Packers) or to help you get through those long, boring commercials, we have added a few games, raffles and surprises. Not only

might you go home with a 46" TV, you could go home richer!

Don't miss Kettle Kountry Kolors just because you don't want to miss the football games... we'll be there for you with lots of fun, food, refreshments, raffles and everything that will make you feel like you've never left your living room. Even better... we'll make you feel like you're right in the front row of Camp Randall and Lambeau Field!

5K Run/Walk to Benefit KEYS Scholarship

Kewaskum school district students and their families are getting in shape for the 2000 KEYS Scholarship 5K Run/Walk on Sunday. The race begins at 11:00 a.m. at Riverhill Park in Kewaskum and offers runners and walkers the opportunity to support the student scholarship fund as well as win valuable prizes for themselves.

This seventh annual event is held in conjunction with the community's Kettle Kountry Kolors weekend of festivities.

Ray's Shoes is providing cash prizes of \$100, \$75, and \$50 for first, second and third places respectively, in both the male and female categories. Bonus prizes of \$200 each are available to the male who breaks the course record of 14:27 and the female who breaks the course record of 17:38.

To make the run more exciting for area children, the age groups have been expanded even further this year. Children ages 7 to 15 will be able to compete against those who are the same age, thus assuring more medal winners for our younger participants.

The youngest children are offered an opportunity for a short race at noon. This race is for fun and has no entry fee.

Runners and walkers

who collect pledges to KEYS at various levels are eligible for incentive awards of several different gift certificates, embroidered sweat-shirts, movie passes, portable CD players and Trek mountain bikes.

Advance registrations are taken until race day. The entry fee remains the same as last year, \$12 per person or \$36 for a family of four with each additional family member costing \$8. Race day registration will be held at the race headquarters from 9 a.m. until 10:30 a.m. and will cost \$15. Water will be provided along the course and snacks will be available after the race.

The start for the race is located on Parkview Drive on the west side of the

Milwaukee River, near the Kewaskum Historical Society Museum. The race course winds throughout the streets of Kewaskum. Join us for the FUN of it and support KEYS, our student scholarship fund. Stay after the race and enjoy good food and activities at Kewaskum's Kettle Kountry Kolors Family Festival.

Support Festival With Raffle Ticket Purchase

As many of you know, the Kettle Kountry Kolors Family Fun Festival is a gift to the community from the members of the Kewaskum Area Chamber of Commerce. Basically, everything about the festival is free.

There is no admission, no charge for the shuttles, no charge for the entertainment. There is only a minimal amount charged to make things in the children's tent or the Make-It-and-Take-It area. The only cost to you, the festival-goer is if you wish to purchase food, refreshments or craft items.

However, the cost of undertaking a festival of this size is phenomenal. The Chamber is able to sponsor the festival only because of the generous contributions of its members, proceeds from the Spring Fashion Show and the Golf Outing, fund-raisers, the countless hours donated by volunteers, and last but certainly not least, the raffles being held in River Hill Park during the festival.

This year there will be a couple of raffles for which it is hoped you will show your support of the festival by purchasing tickets.

There will be a \$300 Cash and a \$300 Chamber Bucks raffle. The Chamber Bucks raffle simply means that instead of cash, you will be awarded \$300 worth of Chamber dollars that will be redeemable in any business that is a Chamber member.

For our out-of-town guests that are kind enough to purchase raffle tickets,

and don't really have the opportunity to "shop Kewaskum" very often, we have added the \$300 Cash Raffle. However, you are not limited to one or the other.

Anyone may purchase raffle tickets and enter the tickets into either one, or both, of the raffles. Tickets are \$1.00 each or six for \$5.00. These tickets will be for sale throughout the weekend at the Chamber Information Booth.

Another raffle that has been extremely popular the past two years has been the 46" TV raffle, and for that reason, we have decided to bring that raffle back. Another real good reason is that we have to have a TV for the Badger game on Saturday and the Packer game on Sunday. We really don't need the TV following the game on Sunday, so you have the opportunity to purchase a raffle ticket and

perhaps you can take the TV home with you! Tickets for this raffle will be \$2.00 each or three for \$5.00.

These tickets will be available to purchase at the Chamber Information Booth throughout the weekend, and in the Badger/Packer tent, during the games.

Additional raffles which will be held during game-time will be the Card Raffles. Decks of cards, courtesy of Par A Dice Casino, will be color coded and sold by the individual card. Cards will cost \$1.00 each and at the time of purchase, they will be ripped in half. You will receive one-half of the card and the Chamber will place the other half of the card in a container. When all 52 cards are sold, the winning card will be drawn and the person holding that card will win \$25.

The Chamber will receive the balance as proceeds to offset some of the Kettle Kountry Kolors expense.

If you enjoy the festival please show your support by purchasing as many raffle

tickets as possible. You could walk away as the winner of the 46" TV or maybe even have an additional amount of money in your pocket when you leave. Is there anyone who doesn't enjoy winning raffles? All raffle winners (except for the Card Raffle) will be drawn at the close of the festival on Sunday.

Kettle Kountry Kolors weekend could be lucky for you in many ways. You just might win one of the raffles, and by purchasing tickets, you will be helping to ensure the festival remains in the community in years to come.

Oh, and if you really, really hate to become a raffle winner, there will also be canisters set up in most of the food vendors stands to accept your donation of spare change (or currency).

Buckskinners Make Camp Along Milwaukee River at Kettle Kountry Kolors

By Laurie Ottery

The 11th Annual Kettle Kountry Kolors Family Fun Festival on October 7 and 8 offers a great way to turn back time, visit the past and preserve the historical days of the "Rendezvous."

The word rendezvous is French, meaning a meeting place or a place to gather. Kewaskum's Kettle Kountry Kolors includes a Buckskinners Encampment along the beautiful Milwaukee River as part of their annual event.

Buckskinner is a term used to describe a group of people who enjoy reliving the North American Fur Trade era. They are also known for the many adventurous tales they tell.

In the early 1800's few roads existed in Wisconsin. The rivers were the super-highways of travel. Fur traders and trappers would transport their heavy bundles in dugouts and birch bark canoes to a rendezvous. Farmers and settlers soon began to join them transporting goods by rafts, flatboats and some by wagon train.

The rendezvous became a way for people of all cultures to meet, visit, exchange ideas and understandings, as well as trade goods to see them through the following year. The time period represents the beginning of French colonization to the 1840's, when fur trading seems to have ended. The fur business was replaced by silk as the choice fabric in New York, Paris and London.

Rendezvous are held all over the state with each one having its own unique activities. Most have a preacher or minister, a blacksmith for the necessary fire pit needs, crafters who sell and demonstrate their craft, many lodges, Buckskinners dressed in pioneer clothing, music with at least one bag-

pipe player, contests and demonstrations.

Many of the Buckskinners have nicknames like Whip, who gives a whip demonstration at Kettle Kountry Kolors and his wife, Honeybear. Cedar Wind is the name of a couple known as Christine Ibach and Al Jewer, who perform and have recorded the music of traditional Native American flutes.

Christine received her first flute at a Mohican pow-wow. The Buckskinners usually include many who show their talents on the harmonica, dulcimer, fiddle and many other instruments.

The idea of a rendezvous started in the early 1800's with fur traders, farmers and settlers meeting to trade their goods. The tradition now continues with the many Buckskinner Rendez-

vous held and more people becoming interested in the events. Many learning and living the historical times, now revisit it.

Millie and the late Jack Odekirk of the Auburn Lake area organized and helped bring to Kewaskum the pioneer clothing, the lodges, aromas of open-fire cooking and history lessons. The first year the buckskinners made an appearance at Kewaskum's Kettle Kountry Kolors festival, there were only 11 lodges set along the backdrop of the Milwaukee River. This year over 100 lodges and encampments are expected to fill both sides of the Milwaukee River in River Hill Park.

Be sure to tour the area of the buckskinner camps and take pride in the history you will learn about our heritage.

Hypnotist Terry Stokes to Perform 'Hynolarious' Show

TERRY STOKES JR.

By Nicole Rawley
Statesman Staff Member

Are you interested in making a total fool of yourself? Well you could have the chance to do just that if you volunteer to partake in the "Hynolarious" show put on by Terry Stokes Jr., hypnotist.

If you're more on the timid side, join your friends and neighbors in the audience, watching the brave and foolhardy become hypnotized.

Terry Stokes Jr., Mr. Hypnosis, is coming to Kewaskum for the Kettle Kountry Kolors to perform three shows, two on Saturday, with the first at 11:30 a.m. on the park Gazebo and the second at 4:30 p.m. in the Packer/Badger food tent and one on Sunday at 4 p.m., also in the tent.

Stokes show is a fast

paced high energy performance. Stokes will make you laugh and make you wonder as he transforms audience members as the stars of the show.

Each show is guaranteed to be different with over 300 routines. What will happen next? Not even Stokes says he can predict the outcome or anticipate the reactions of the volunteers as he pulls out hilarious skits one after another from his bag of tricks. From show start, Terry sets the crowd at ease with his warmth and

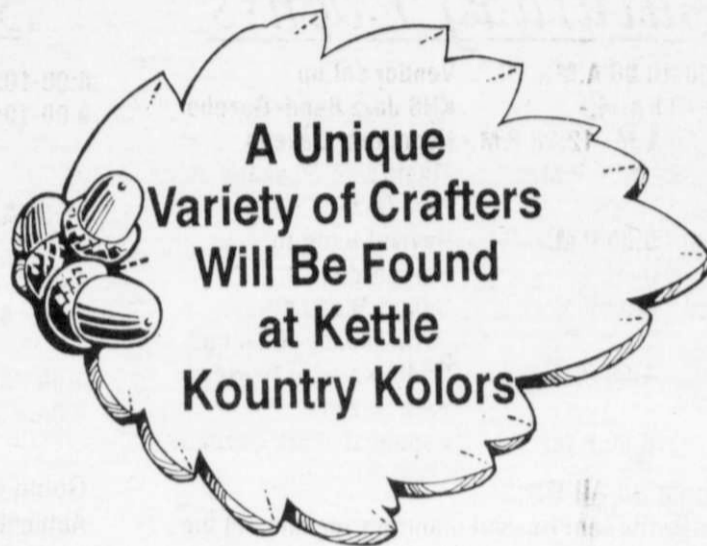

humor, and with a lightening fast induction there is never a dull moment. Terry has been performing since December of 1992. He has been performing worldwide to sold out and capacity crowds. He has performed for IBM, Budweiser, Coca Cola and Kodak. A regular at The Riviera Casino in Las Vegas and Crystal Bay Casino in Reno, Nevada Terry Stokes Jr.'s show has become the standard by which all other shows are judged, and he has become one of the most talked about and sought after entertainers in the business.

"I have certainly been blessed", says Terry reflecting back on the nine years since he took to the stage in pursuit of his dreams. In 1991, after 19 years searching for each other, Terry reunited with his father, World Renowned Hypnotist Terry Stokes. Terry spent the next year studying the trade and falling in love with the entertainment business. In December of 1992 "HYPNOLARIOUS" was born.

While carrying on his father's trade, love of the stage and audience, and tradition of excellence, Terry developed his own unique brand of comedy hypnosis. In addition to the influences of his father, Terry

was fortunate to have as a manager, teacher, and friend, Robert Webb Morton. Webb's ideals continue to be a source of guidance even since his passing in 1997. It is the influence and wisdom

of these show business veterans that left Terry with a solid foundation and sense of tradition not often found in entertainers of his generation.

Fun and Learning Abundant at Kettle Kountry Kolers Children's Tent

By Andrew R. Kuehl
Staff Writer/Photographer

An annual feature at Kewaskum Kettle Kountry Kolers Family Fun Festival is the Children's Activity Tent in which many interesting fun-filled events take place for both children and adults. This year will be no exception with many outstanding activities scheduled during the weekend on Saturday and Sunday, October 7 and 8 in Kewaskum's River Hill Park just off STH 28.

Magician, Rick Allen makes his first appearance at Kettle Kountry Kolers performing an illusionary magic show. This high energy one hour show can be seen Saturday at 10:30 a.m. and Sunday at 11 a.m.

A new feature to the tent this year is Ident-a-Kid tags. The tags can be made at anytime starting at 11 a.m. and ending at 3 p.m. on Saturday. Saturday will be the only day the tags will be offered.

Another new addition to Kettle Kountry Kolers is a Marionettes program which will be performed Saturday at 12:30 p.m. and Sunday at 1 p.m.

"Care for Critters: Pets Through the Ages," will focus on responsible pet care and the many ways pets enrich our daily lives. Sponsored by Roundy's Pick'n Save, this free program is geared towards children 4-12. However, both adults and children will find the program to be educational and entertaining. The speaking part of the program will last approximately 25 minutes and include an up-close look at a gerbil, Guinea pig, ferret, bullsnake, Aracauna chicken and rabbit. A short question-and-answer session will follow. After the program, the Care for Critters team will try to give everyone the opportunity to touch some of the animals. This program is being presented by the Milwaukee County Zoo at 2 p.m.

A fun new feature this year will be the opportunity to have your picture taken with a large, yellow bird from 3:30 to 4:30.

Also on Saturday, children can design their own friendship pin with beads for \$1 under the direction of staff members from Little Folks School House in Wayne.

Visit Faye's Fun and Learning to make bouncing zoom balls or creative jewelry.

Does carving pumpkins sound like fun? We have that too! The search for that perfect pumpkin will begin at 11:30 and the carving will begin at noon! The contest is open to those age 4-11. Prizes will be awarded at 2 p.m. in the tent.

Children's musician Judy

Stock will travel from Sheboygan to entertain audiences young and old alike.

Judy plays a variety of folk instruments. These include the balalaika, guitar, banjo, isoka, penny-whistle, recorder, nose flute, jaw harp, limbertoy, spoons and washboard. She combines these instruments with lively songs and storytelling to provide an entertaining and educational program for children and adults.

Outstanding rapport with the audience, audience participation and Judy's keen sense of audience management techniques makes her presentations a valuable and enriching experience. She is noted for her choice of quality songs, both original and traditional and her accompaniment with a variety of musical instruments.

Stock appeared on the "Oprah" talk-show in November of '98. At that appearance she played her nose flute and spoons.

Judy has performed professionally since 1976 as a solo artist as well as with bands and duos throughout Wisconsin, Louisiana and Europe. Since 1986 she has been presenting educational programs in schools and libraries as well as doing performances for adults.

Judy has also worked as an artist-in-residence teaching song-writing and instrument-making to adults and children. Judy has over ten years of experience working with preschoolers and with children and adults who have special needs.

Her performance will begin at 4 p.m. and close the festival.

Throughout the whole day Tuttle Creek Learning Center of Kewaskum will feature the unique friendship pin with beads for \$1.

Returning for her seventh year at Kettle Kountry Kolers, JoAnn Hall of Campbelsport is excited to again be at Kettle Kountry Kolers in her "Make-It-and-Take-It" ceramic booth both days of the festival. JoAnn and several of her assistants will be ready to help you create a ceramic piece that you paint and take along home with you. There are lots of items to choose from. Perhaps something for Halloween, Thanksgiving, Christmas, an item with the Packer colors or just that little special item you'd like to try to paint.

Parents bring the kids to Make-It-and-Take-It... Kids, bring your parents to Make-It-and-Take-It. Either way, you'll both enjoy it. A minimal cost is involved for this event. If you have something special you would like

JoAnn to bring along, you may call her at 533-4252 and request it. Her booth will be located at the entrance to the craft tent. Come try your hand at some ceramic creations! It's possible you may find a whole new hobby of your own to enjoy.

New this year... a moon-walk tent will be located in the main park area, there is no cost for this, it will be open both days.

A complete schedule of events is listed on page 13 of this insert.

This is just a brief sampling of the events planned by members of the festival planning committee. The festival is sponsored and funded by the Kewaskum Area Chamber of Commerce for this, the 11th annual Kewaskum Kettle Kountry Kolers Family Festival. Take advantage of their hospitality... join in the fun!

Thermal Imaging Camera Demonstrations at Festival

With the financial support of the community, the Kewaskum Fire Department hopes to be able to purchase an innovative thermal imaging camera in the near future in order to expand their firefighting capabilities.

The thermal imaging camera is a quantum leap in firefighting technology and is a relatively new tool for the firefighter's arsenal. The camera's technology gives the firefighter the ability to see through smoke to search the burning building for the source of the fire so that it can be extinguished with minimal damage and risk to the fireman.

Besides delivering the exact seat of the fire, the camera also allows the user to make sure all aspects of the fire are totally extinguished and no hot spots will recur.

The camera can also be used to locate victims so the fire fighter can see their precise location BEFORE entering the burning building. This state-of-the-art technology has many other features that will be further explained as the Kewaskum department narrows down their choice to the best cam-

era that will adapt to their needs.

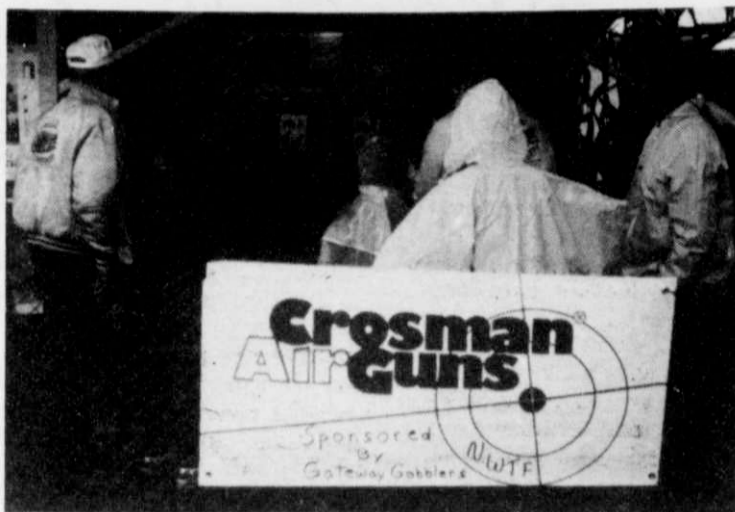

The firemen will have a K-90 Talisman thermal imaging camera for demonstration purposes on display at Kewaskum's Kettle Kountry Kolors on Saturday and Sunday, Oct. 7 and 8. It will be located at the Rescue Squad's first aid station on the south entrance of River Hill Park. Be sure to stop in and take a look at today's technological breakthrough in firefighting techniques.

One of the fireman's "boots" will also be on hand to accept any and all donations.

For more information on the thermal imaging camera or if you would like to make a donation, contact Tim Miller at 626-8410.

The earthworm can clear and aerate half a pound of soil a day.

Returning again this year, The Gateway Gobblers-National Wild Turkey Federation will have their BB Gun Shoot at Kettle Kountry Kolors in River Hill Park this weekend. This popular attraction for all the youth will be located at the north end of the park, next to the childrens' tent. In addition to the BB gun shoot, instructors will be featuring something new this year in the form of computer video hunting games.
